HENRY'S Shorthand School Ottawa, Ont.

No School in Canada offers a better training, or ensures a more successful future. Henry's leads all others, and ranks among employers as "THE SCHOOL OF HIGHER EFFICIENCY"—a fact borne out by more than 600 pupils who have, since January, 1913, left other Ottawa schools to come to it.

Therefore, it is not surprising that business men, in advertising for stenographers, should specially say, "Graduates of Henry's School preferred."

For particulars about our course, apply to:

Merkley--Grey

On Tuesday evening, Sept. 3rd, at the United Church parsonage the marriage was quietly solemnized by Rev. R. E. Newman of Miss Rena Bell Grey, daughter of Mr. Grant Grey and the late Mrs. Grey, and Mr. Kenneth George Merkley, son of Mr. and Mrs. George A. Merkley, all of Nation Valley. The young couple left by train for a honeymoon at Toronto.

Mrs. Ward Smith, Boyne Died in Toronto

A very large attendance marked the funeral of Ellen MacMillan, wife of W. J. Smith, of the Boyne, who passed away at Toronto General hospital August 30th, after an illness of a few days.

Deceased, who was in her 58th year, was born in Finch township. The funeral service was conducted at her residence Sunday afternoon by her pastor, Rev. Mr. Newman, of Chesterville United church. The text: "She hath done what she could", Mark xiv: 8, was very applicable to her life of unselfishness and service in her home and community. A solo, "One Sweetly Solemn Thought," was very beautifully rendered by Mr. A. E. Bolster and "Nearer My God to Thee," by the quartette.

She leaves to mourn her loss besides a loving husband, eight sons and daughters—Mrs. J. L. Belway, of Avonmore; Grant, of Medicine Hat, Alta.; Mary, Marjory, Ellen, Angus, Hugh, Lloyd; also three sisters, Mrs. Mary Carley of Cardinal, Mrs. Isabel Kennedy of Boston, Mrs. Albert Wilkes, of Fournier, and two brothers, Dan McMillan, of Hollywood, Cal., and Bain MacMillan of Cornwall.

Among the many floral tributes were: Gates A-jar, husband, Mary, Angus, Marjorie and Ellen; wreaths: Hugh and Aula and Lloyd and Lola; Mr. and Mrs. Ward Johnston and Mr. and Mrs. Henry Elliott, Chesterville Women's Institute.

Sprays—Hazel and Longrell, Mr. and Mrs. Bain ,McMillan, Mr. and Mrs. Albert Wilkes, Mrs. Mary Corley and Myrtle, Mrs. Mary Smith and Fred, Mrs. Catharine Smith and family.

Cut Flowers—Erma Durant, Orlean Johnston.

Friends were noticed from Massena and Potsdam, N.Y., Merrickville, Williamstown, Martintown, Maxville, Ottawa, Fournier, Russell, Cardinal, Finch.

Mountain Townsnip Fair

SEPT. 12 & 13, 1929

The Directors of Mountain Township Fair are determined to make the Fair this year eclipse all previous years. $400.00 in races on one of the best tracks in Eastern Ontario, as well as $400.00 in Special Prizes, in addition to the Society Prizes. There will be all kinds of Sports, Merry-go-round, Aeroplane and with a good Band in Attendance. On both nights, Sept. 12 & 13, there will be good plays put on by the Arlie Marks Co. Come and meet your friends, as they will all be there.

Autos Crash on Main Street

Last evening about seven o'clock at the corner of Main and Queen streets a touring car driven by Wm. Perkins turning on to Main street met a closed car driven by Wm. Colquhoun and the left front wheel damaged and axle bent, while the coach sustained a crumpled running board and dented body. No one was hurt in the collision.

Albert Cameron Errett Passes at Crysler

There passed away at Crysler on August 28th, Albert Cameron Errett, at the ripe of age of 82 years and 8 months. He had been in failing health for a number of years until about two weeks when dropsy set in and finally caused his death.

He leaves to mourn, his wife, four daughters, one son, two brothers, Guy passed away a few months ago, and one sister. He also had twenty-nine grandchildren. His wife, formerly Alice Jemima Burd and son William, at home; Mrs. Olive Baker, of Mountain; Mrs. John O'Neil, of Winchester; Mrs. Iden and Mrs. Lyle Loughridge, of Morewood; his brothers, Jim and Ace, of California; and his sister Mrs. Joseph Quackenbush, of Brandon, Man. A son was killed in action at Vimy Ridge within an hour of his death on the same date 11 years ago.

The funeral left his home on Friday at 2 p.m. to Knox Presbyterian church, where Rev. A. W. MacIntyre, of Finch, conducted the service. The body was then laid to rest in the family plot at Crysler by six of his neighbors acting as bearers: Wm. Armstrong, J. Coons, Isaiah Ouderkirk, George Meldrum and Wm. Paul. Many floral offerings from the family and friends were received.

McLean---Allison

A very pretty wedding was solemnized on Friday, August 23, in the United church, Morewood, when Miss Clara Mae Allison was united in marriage to Mr. George E. McLean, of Manotick. Rev. Mr. Armstrong officiated.

The bride, who was given in marriage by her father, was becomingly attired in white brocaded satin, the skirt of which was three tiers of silk lace. Her tulle veil was held in place by a dainty wreath of orange blossoms.

She carried a shower bouquet of sweetheart roses and lily-of-the-valley.

The bridesmaid, Miss Florence McLean, sister of the groom, wore a grown of orchid georgette, trimmed with gold lace, with shoes to match. She carried a bouquet of roses and sweet peas. The bridegroom was accompanied by Mr. Harold Allison, brother of the groom.

The wedding march from Lohengrin was played by Miss Louva Allison. During the signing of the register, Rev. R. P. Stafford, of Lachine, sang "All Joy Be Thine." Mrs. Stafford played the accompaniment.

The wedding supper was served to about 100 guests, on the lawn of the bride's home. Misses Mabel Waddell, Jean Stewart, Evelyn Fennell, Evah McQuaig, Frances Eagleson, Vivian Lee, Phyllis Henderson and Jean Melvin, former pupils of the bride, assisted in the serving.

Amidst the best wishes of their many friends, Mr. and Mrs. McLean left for a motor trip to Toronto, Quelph and the Muskoka Lakes. The bride travelled in a smart honey beige crepe gown, close-fitting felt hat with shoes and gloves to match and carried a beige leather bag, the gift of the bridegroom.

The bridegroom's gift to the bridesmaid was a white gold filigree bracelet, to the best man, suede gloves, to the soloist, a book, and to the pianist, a rhinestone bracelet.

Guests from a distance were: Mr. Edward McDonald. Detroit; Mr. and Mrs. H. P. Allison and family, Smiths Falls; Mr. Robert Drummond, Montreal; Rev. and Mrs. Stafford, Lachine; Dr. and Mrs. L. Durant, Vankleek Hill; Mr. Thorold Lane, Aultsville, Ont.; Mr. George Munro, Renfrew; Miss D. Stewart, Ottawa.

Mr. and Mrs. McLean will be at home in Manotick after September first.

Schools Re-open

Of the hundred and twenty-six pupils to answer the roll call at the Public school Tuesday morning between fifteen and twenty were youngsters starting their scholastic careers. During the vacation the rooms have all been newly decorated and flush toilets installed. Principal Boyd has but one change on his staff, with Miss Rae Dixon taking the place of Miss Anna Smith, the others being Miss Leila McGee and Miss Lila Weegar.

The enrolment at the High school is said to be up to the usual number but the exact figures are not available this morning. Mr. J. K. Graham, of Hamilton, recently of the Dresden High school, is the new principal, with Miss Coumans, of Toronto, taking the place vacated by Miss Costello, while Miss Gardiner and Miss McKay return to their former positions on the staff.

Girl Guides Enjoy Camp

Saturday, August 31, the Girl Guides of the First Chesterville Company returned home after a week of delightful camping along the Rideau river near Beckett's Landing.

There were fifteen happy Guides with their Captain, Miss Leila McGee, assisted by Miss Rae Dixon who acted as swimming instructor and proved to be a first class helper in all lines of camp activities.

During the week all camp duties were performed in turn in three patrols in a very jolly manner. Such good meals were served that it is reported one girl gained five pounds. Camp activities included swimming, boating, fishing, hiking, playing games and instructions in Guide work. Most of the evenings were spent round the camp fire singing, popping corn, toasting marshmallows, etc.

On Thursday the camp was surprised when the Provincial Camp Advisor, Miss Dalby, of Toronto, accompanied by Miss Green, arrived to inspect the camp which they found in good condition. Many compliments were paid to the girls for the work for which they were responsible.

The Girl Guides are very grateful to Mr. Bolster and Mr. Barrie who loaned their tents and to many others who helped to make the camp a success.

BAZAAR AT DUNBAR

The annual Bazaar of the Dunbar Presbyterian Ladies' Aid Society will be held at the home of Geo. E. Marcellus on Friday afternoon, Sept. 13th. Refreshments will be served during the afternoon.

Mrs. A. D. McDonald, Kenmore Accidentally Killed

When her husband lost control of his automobile at his home at Kenmore, Sunday morning, Mrs. Alexander D. McDonald, 64 years of age was knocked down under the machine receiving injuries from which she died at Ottawa Civic hospital shortly after noon.

Mr. McDonald had backed the automobile from the garage. Mrs. McDonald stepped in front of the machine to walk to the other side and as she did so it suddenly shot forward. Hit by the bumper, she was thrown on the radiator and then to the ground, the front wheels passing over her. Mr. McDonald then managed to stop the motor.

When she was taken from under the wheels it was found she was terribly injured. Dr. J. C. Byers, of Metcalfe, was notified and after he had given first aid treatment she was taken to the hospital in MacKenzie Brothers' ambulance. Shortly after her admittance there she died of cerebral hemorrhage caused by a fractured skull.

According to members of the family, Mr. McDonald had purchased the machine a week ago. It is believed he became confused with the shifting of the gears which were different to his previous automobile and moved forward when he intended to reverse.

Value and Disposal Of Weed Seeds

(Experimental Farms Note.)

The botanical composition of weed seeds as accumulated from the thresher is extremely variable; it may be of such a nature as to be palatable and nutritious or on the other hand of so undesirable a character as to be distasteful or even injurious. The great variability found in accumulations of weed seeds from Ontario farms is illustrated by two samples recently examined by the Division of Chemistry, the make up of which was found to be as follows:

Botanical Composition

Laby No. 95216x

Wild Mustard	50	per cent.
Yellow Foxtail	20	" "
Green Foxtail	10	" "
Black Meddick	10	" "
Lambs Quarters	4	" "
Miscellaneous non-injurious	6	" "
	100	

Laby No. 94665xx

Wild Mustard	3	per cent.
Yellow foxtail	50	" "
Barnyard Grass	30	" "
Lambs Quarters	8	" "
Miscellaneous non-injurious	9	" "
	100	

x should be burnt.

xx Might be used after boiling or fine grinding as a feeding stuff.

The botanical composition of No. 95216 shows it to contain such a large percentage of wild mustard, a seed considered injurous to the health of animals, that in spite of a protein content of 18.63 per cent., this sample must be considered as quite unfit for feeding purposes. The other sample, No. 94665, by reason of its content of seeds of a desirable character, combined with fair feeding value (protein 15.75 per cent.) was used successfully in the ration.

It is most desirable that an examination be made of these weed seeds from the thresher, where their use as a feed is contemplated. If found to be of a desirable character one of the following methods should be used to destroy the viability of the seeds. If **there is an appreciable percentage of unpalatable or injurious seeds present the whole mass should be burnt.**

In the feeding of weed seeds care must first be taken to destroy their viability, otherwise their use as a feed would prove a means of their distribution over the farm. There are two ways of doing this (1) steeping them in boiling water or boiling and (2) very fine grinding, i.e., grinding which thoroughly "breaks down" the smallest seeds in the material. The ground or boiled seeds may be used with chop for cattle or swine.

"Look here, Smith, it's no use your coming round here again. You've borrowed eveything I've got on the place."

"Oh, but this is different, I wonder if I could borrow your garden for a bit of a party I'm giving on Saturday?"

BECKSTEAD

(Intended for last week.)

Visitors at Mr. Earl Beckstead's on Sunday were, Mr. and Mrs. Stanley Barkley and family and Misses Winona Beckstead and Edna and Wilda Durant.

Miss Edna McPherson spent a few days last week with friends in Massena. Miss Ruby Bouck accompanied her home as a guest for a few days.

Mrs. L. Morgan, of Oakfield, U.S.A., is spending a week with her sister, Mrs. Mahlon Beckstead.

Miss Jessie MacLean is spending this week with friends in Massena and Ogdensburg.

Mr. and Mrs. Graham McPherson, of Elma, spent Saturday at the former's home here.

Mr. Les. Durant, of Massena, is spending a few days here with his sister, Mrs. Ed. Ouderkirk.

$28.00 in Prizes In Oratorical Contest

An Oratorical Contest, open to Public School and successful Entrance pupils in the County of Dundas for 1929, will be held on the afternoon of Sept. 20th, 1929, at the Winchester Agricultural Fair. The prizes offered are, 1st, a gold wrist watch, value $15.00; 2nd, goods valued at $8.00; 3rd, goods valued at $5.00. All entries to be addressed to L. J. McCormick, Winchester. Subjects must be on Canada, Agriculture or Immigration.

FINCH

(Intended for last week)

Miss Velma McMonagle spent a few days in Massena, N.Y., recently.

The sympathy of the community is extended to Mr. and Mrs. E. Swerdfeger and family in their recent bereavement.

We are sorry to report that Mr. W. J. Cameron was taken to the General hospital, Cornwall, on Thursday night. We all hope for a speedy recovery.

Quite a number from here attended Ottawa Exhibition last week.

Mr. Elmer Shaver, Montreal, spent a few days with his aunt, Mrs. J. J. McMillan.

Mr. and Mrs. P. C. James are spending their holidays in Ottawa, Toronto, and Buffalo, N.Y.

Mr. Uriah Gallinger, Toronto, and Mr. C. Gallinger, Gallingertown, spent Friday with Mr. Hez. Gallinger.

Mr. H. A. Nesbitt spent a couple of days in Montreal recently.

Miss Reta Nephew, nurse-in-training, Montreal, is spending a month's holidays at her home here.

Mr. and Mrs. Wesley Eamer and son, of Detroit, and Mrs. D. W. Eamer, Northfield, spent Tuesday with Mrs. W. H. Werely.

NATION VALLEY

(Intended for last week.)

Mr. and Mrs. B. C. Gamble and children, of Ottawa, visited their cousin, Miss Mary Munro.

Mr. and Mrs. F. Pemberton and baby Graham and Mrs. Lutheria Merkley spent Sunday at the home of Mrs. Agnes Munro.

Mr. Jas. McMillan is visiting his daughter, Mrs. J. A. Munro.

Mr. Douglas Rae, of Ottawa, visited his home here.

Mr. and Mrs. Iden Merkley and Miss Helda, visited in the Valley

The Rev. J. A. Shaver, B.A., B.D., and Mrs. Shaver, of Dundas, Miss Bessie, of London, and Miss Winnifred, of Montreal, have returned home.

Miss Madge Campderros, of Chesterville, was visiting in this district.

Dr. T. A. Lewis and Mrs. Lewis, of Hammond, N.Y., visited the Elliott home.

Mr. Roland Shaver and granddaughter, Miss Lillian Shaver, were visiting in this vicinty.

Mrs. Earnest Gray and Miss Ruth have returned home to Ottawa.

Mr. and Mrs. Faulkner, of Morewood, were visiting the latter's parents, Mr. and Mrs. Baker.

Miss Helen Merkley visited Miss Marian Gray in Ottawa.

Mr. Wm. Rae spent the past week in Ottawa.

Mr. and Mrs. Henry Jackson and Mr. and Mrs. Herbert Jackson visited Mrs. Jas. Rae.

Miss Mary Munro spent the week end in Chesterville.

Mr. and Mrs. Winterfield Froats entertained several friends from New York last week.

R. O. P. Testing is Best

Jas. R. Payne, Brinston, who has been breeding Holstein cattle successfully for a number of years, believes that R.O.P. testing is the best way to find out the earning power of a herd. Just now he is running on test a few daughters of Rag Apple Car Born, a son of Sir Sylvia Car Born, whose daughters are doing such splendid work in the R.O.P. at the Oliver Farm, Edmonton, owned and operated by the Alberta Department of Agriculture. One of these heifers owned by Mr. Payne, Car Born Keys, a three-year-old, qualified the other day with 12,186 lbs. milk and 560 lbs. butter with an average test of 3.68 per cent. fat made in 351 days on twice-a-day milking. It will be observed that this heifer has produced approximately two thousand pounds more milk than the production required for registration in her class.

Boy Commits Suicide On Berwick Farm

Believed to have been despondent at his failure to secure employment at Prescott, where he went two weeks ago in the hope of finding a position on a construction gang, Leonard Swerdfeger, 19, committed suicide in a barn on the farm of George Pollock, Berwick.

Shortly after six o'clock, Milton Pollock, 14, visited the barn and noticed a figure hanging from the end of a trip-rope on a hay fork. He called a farmhand but the latter, believing that the figure was merely a dummy put in the barn to frighten the young lad, did not investigate until the boy became insistent. When he did so, he found Swerdfeger's body quite cold, hanging from the rope. He immediately notified his employer, George Pollock, reeve of Finch township, who called Dr. Gormley, of Crysler.

Upon the arrival of Dr. Gormley, the body was cut down and the young man was pronounced dead. Dr. J. M. Pollock, Avonmore, visited the scene and decided that an inquest would be unnecessary. He believed that the young man hand been hanging for about two hours prior to discovery.

Swerdfeger was a son of Eli Swerdfeger, of Goldfield, two miles from Finch, and had been employed at the Pollock farm from early Spring. About two weeks ago he left for Prescott to seek work there but was unable to obtain a position owing to a change of contracts at the terminal construction. He returned to Berwick and was painting at the home of a neighbor of the Pollocks on the afternoon of the tragedy. He left about two o'clock in the afternoon with the explanation that he was going to help with the milking, and was not again seen alive.

Pickerel Culture in Manitoba

For several years past the Ottawa Fish Culture Branch carried on investigations to ascertain as to whether or not a sufficient supply of pickerel eggs were available in Lake Winnipeg to warrant the construction of a hatchery for the artificial propagation of this species of fish for the purpose of rehabilitating and extending the fishery. The investigations were successful, and the Federal Department constructed a modern hatchery at the mouth of Swan Lake, and it was ready for operations in the spring of the present year. Approximately 84,000,000 vigorous pickerel fry were hatched and planted on the natural spawning areas. In addition about 75,000,000 fertilized eggs were deposited.

Maid (after master has been ringing for five minutes) :"Did you ring, sir?"

Master (sarcastically): "No, I was tolling. I thought you were dead!"

"But this road," argued the taxpayer, "is pretty good as a whole."

"Indeed it is," replied the other taxpayer, "but we want to use it as a road."

Little Child Died at Dunbar

At the home of Chris. J. Barkley, Dunbar, Tuesday, August 27th, the life was brought to a close of little Audrey Alena, daughter of Dena Barkley.

God loaned the little one just two months and by her brightness she had won much love from the hearts of friends.

All the love and care that kind and capable ones could give was rendered but God saw fit to take the little one to Himself.

The funeral service was held Wed. Aug. 28th, Rev. C. Cronmiller speaking from II Kings, 4th chapter, part of the 26th verse: "Is it well with the child? And she answered, It is well."

The little white casket, covered with flowers, was borne to the grave by four little boys, Edwin Barkley, Emerson Barkley, Carl McMillan and Mac Casselman.

Take her in Thine arms, dear Lord,
And ever let her be,
A messenger of love
Betweeen our hearts and Thee.

Mrs. John Dillabough, Massena, Died Suddenly

Massena Observer.—Ill only a few hours with acute indigestion, Mrs. John Dillabough, 57, 8 Bishop ave., died shortly before 1.00 o'clock Wednesday morning, August 14th. She had been as well as usual Tuesday, had prepared supper for her husband who is a carpenter in the aluminum plant, washed the dishes and about 10.30 she became ill, dying two hours later.

Bertha Sarah Weegar was born March 4, 1872, in Williamsburg, Ont., a daughter of Cyrus and Mary Ann Toussant Weegar. She attended Elma school and on December 8, 1890, she married John Dillabough, of Dunbar. Mr. and Mrs. Dillabough lived in Dunbar several years and then came to the United States and resided in Potsdam for six years. They returned to Dunbar and on May 23, 1923, they moved to Massena and have resided here since.

Surviving are the husband, John Dillabough, 8 Bishop avenue; two daughters, Mrs. John Merkley, Chesterville, Ont., and Mrs. Herbert Durant, 56 Beach street; two sons, Edwin Manson, Los Angeles, Calif., and Elmer Harold, Elma, Ont.; one sister, Mrs. Ida Beckstead, Shaftsbury, Vt.; five brothers, Myron of Elma, Simon of Potsdam, Carles of Massena, Elmer of Saskatoon, Sask., and Asa, of Wisconsin.

Funeral services were held at 2.00 o'clock on Friday afternoon, August 16, at the Advent Christian church and burial made in Pine Grove cemetery.

Floral tributes were received from the following: Wreath—Mr. J. F. Dillabough, 8 Bishop ave., Massena; Sprays—Mr. and Mrs. Chas. Weegar, 12 Bishop ave., Massena; Neighbors; Mr. E. N. Dillabough, Elma, Ont., Mrs. Herb J. Durant, 56 Brock st., Massena, Mrs. Johnny Miles Merkley, Dunbar, Ont.; Mr. and Mrs. Simeon Weegar, Potsdam, N.Y.; Mr. and Mrs. Mack Weaver, Governeur, N.Y.; Mr. and Mrs. Harlon Heeges, Richville, N.Y.; Mr. and Mrs. Ryland Weegar, Ogdensburg, N.Y.; Miss Helen Weegar, Potsdam, N.Y.; Mr. and Mrs. Roy Weaver and family, Richville, N.Y.; Wreath—Fellow Workmen, Aluminum Co., of America.

The Real Kind.

An enthusiastic fisherman was telling some friends about a proposed trip to a lake in Scotland.

"Are there any trout there?" asked one friend.

"Tons!"

"Will they bite easily?"

"Will they? Why, they're absolutely vicious. A man has to hide behind a tree to bait a hook."

Fine Sport on French River

371

Expert anglers from Chicago, New York and other United States cities, as well as Canada, are just now in the throes of the big fish contest at the French River Bungalow Camp which has been one of the major prizes of anglers on this continent for the past few years. To date the lead has been taken by a 30-lb. muskie, but there is still time to beat even this monster. A point of great interest to anglers is the fact that the Camp is on the main line of the Canadian Pacific Railway and is accordingly easily accessible to sportsmen from the large cities. In addition to fishing facilities of the highest kind there are also ample opportunities for canoeing for hundreds of miles over some of the finest streams and lakes in the north, through country almost untraversed by white men.

Former Cannamore Boy Dies in New Hampshire

Another Finch township boy who made good passes in the person of Matthias Cameron Empey. Deceased was the son of Daniel H. Empey and Charlotte Cameron, his wife, and was born at Cannamore, Finch, Tp., Sept. 23rd, 1868. He received his education at the Cannamore Public school and grew to manhood there, assisting his parents at farming and helping in the support of the younger members of the family. At an early age he went to Keene, N.H., where his brother Jacob was located, and became a painter and paper hanger. Cameron was always looked upon as a kind, good-hearted, upright boy and all his old schoolmates, while sorry to hear of his sudden passing, will be pleased to learn that he made good in the country of his adoption. The Manchester Monitor of Aug. 2nd, 1929, published the following obituary of his passing—

"Cameron M. Empey, 61, of 25 Howard st., former state legislature and prominent Republican of this city, died early this morning at the Elliott Community hospital following an operation performed Wednesday morning. Funeral services will be held at the Grace Methodist Episcopal church Saturday afternoon at 1 o'clock in charge of the patsor, Rev. Charles M. Tibbetts.

"Mr. Empey was born in Ontario, Can., Sept. 23, 1868, and spent his early life there. He had resided in Keene for more than 40 years and was a painter and paperhanger by trade. In recent years, Mr. Empey had been employed as an automobile salesman and in the insurance business.

"Mr. Empey served as state representative from 1923 to 1926 and had served several years as doorkeeper at the House.

"He also represented his ward as a member of the common council in 1919 and 1920 and was also moderator and clerk of Ward 3.

"He was an active member of the Grace Methodist church, Cheshire Grange, Cheshire County Pomona Grange and was also an associate member of the Sons of Union Veterans.

"Besides his widow, Mrs. E. Maude Empey, he is survived by two brothers, James T., of Olgoma, Wis., and Herbert E. Empey, of Philadelphia, two sisters, Mrs. C. H. Woods, of Wollaston, Mass., and Mrs. Reginald Robbins, of Manchester, and several nephews and nieces."

Chesterville Pupil Wins Scholarship from Queens

Miss Donalda McIntosh, of Finch, a pupil of the Chesterville High School, was successful in winning from Queen's University the Sir Sanford Fleming Scholarship in Mathematics valued at $100. This is the second time the local school has won a mathematical scholarship. Two years ago, Wm. C. Brown, now of Kingston, won the Mowat Scholarship in Mathematics and Physics valued at $50. These scholarships also enable the holders to obtain each year a partial reduction in fees.

A doctor asserts that great talkers seldom go insane. It's those who have to listen that go crazy.

Tripped by Half-Pennies

Levi Bloss was a notoriously "close" and unscrupulous farmer. One summer he hired Roscoe Edell, a boy fourteen years of age, to weed a field of beets for him and promised to pay him ten cents an hour. The beet patch had fifty rows, each so long that on the average it took the boy, who was a good worker, an hour to clean out a row. Thus he completed the job and earned five dollars.

But when Roscoe came hopefully to his employer Bloss said to him: "I dunno as I kin pay you more than seven cents an hour after all. Times are gittin' hard, and ten cents an hour is too high pay for a boy."

"But you promised to pay me ten cents an hour!" poor Roscoe protested.

"I can't help that; I can't pay that now." the farmer replied. "'Tain't down in black and white, and you've got no witnesses. You'd better take what you can git."

"I won't take a cent," the boy cried indignantly and strode away.

When Roscoe told his tale of injustice at home that evening to his parents, though they sympathized with him, doubted whether anything could be done with the matter. However, his father determined to have a personal interview with Bloss and called on him the same evening, accompanied by Roscoe and their hired man, who at the boy's persuasion had good-naturedly consented to go along as a witness. Roscoe after calming down a little, had done some profitable figuring and thinking.

Bloss would not listen to the father, but fished out the three dollars and fifty cents in bills and coins and proffered the amount to Roscoe, who firmly declined to accept anything short of five dollars.

After a moment Roscoe suddenly exclaimed: "I'll tell you what I'll do, Mr. Bloss. Pay me half a cent for the first row of beets I weeded, one cent for the second, a cent and a half for the third and so on, a half cent more for each additional row of the whole fifty, and I'll call it square."

Bloss agreed at once with a sly grin. Those first half cents sounded cheap. But after he had sat down and figured for a minute or two the grin disappeared. He finished his figuring with an angry smile, and no wonder, for it counted up to six dollars and thirty-seven and a half cents! "You tricky young scalawag!" he said to Roscoe.

"Stop right there! You ought to be the last one to talk about tricks!" the boy's father interrupted him sternly. "You pay the boy what you just agreed before witnesses, unless you want to go to court about it!"

Bloss paid ,though he held back the odd half cent. When the story became well known the whole neighborhood enjoyed the joke and agreed that the boy had served the dishonest farmer right.

An enthusiastic amateur motor-cyclist was given a trial at a dirt-track meeting. He was plucky but inexperienced, and in the first race (over four laps), though he was an easy last, he went on innocently to complete a fifth. The feat was greeted with amusement and ironical applause. The rider drew up at the winning-post.

"Have I won?" he inquired.

"Well, no," replied the judge, kindly. "As a matter of fact you were last in that race, but you're a lap ahead in the next.

Women's Institute Meeting Flower Show

The Chesterville Branch of the Women's Institute held a very interesting meeting last week. The flower exhibits were very fine and the judges found it very difficult to make the awards.

The Gladioli were exceptionally good, Mr. C. T. Fulton carrying off the prize.

Mrs. H. Fairbrass took 1st prize for the Diningroom Table Bouquet.

Mrs. W. A. McElroy captured first for the bouquet of mixed flowers and Mrs. Hughes for the bouquet of any one variety, this exhibit being a very fine vase of dahlias.

A special prize was also given which went to Mrs. P. Hewitt for a bouquet of centaurea.

A table bouquet of pink snapdragons, blue delphinium and mountain fringe was much admired. This was sent by Mrs. O. D. Casselman for exhibition only, as was also a beautiful basket of salpiglossis sent by Mrs. E. C. Barwick.

A bowl of snapdragons shown by Miss Harrison and a basket of asters by Mrs. Geo. Barkley were given special mention by the judges. Mrs. L. Doering and Mr. E. C. Barwick acted as judges, Mrs. Doering presenting the prizes.

Miss Kathleen Hunt delighted her audience with her talk on Labrador, illustrating her remarks by a map and snapshots of the country and people.

Tea was served by the committee in charge: Mrs. Geo. Barclay, Mrs. C. W. Casselman, Mrs. Geo. Hunt, Mrs. W. Johnston, Mrs. A. Jarvis and Mrs. D. McElheran.

FINCH

The friends of Miss Jean Stewart, daughter of Rev. Donald Stewart, B.A., of Rodney, Ont., will be pleased to see that she was awarded an Honor Matriculation Scholarship of free tuition for two years by the University of Western Ontario. Miss Stewart enters that University at London, Ont., this fall term.

Miss Annie Colquhoun, R.N., of California, was calling on Finch friends last week.

Mr. Whitney Merkley, Cornwall, Mr. and Mrs. Lorne Merkley, Prescott, spent the week end with their mother.

Miss Jean McLean, Ottawa, spent a few days with her aunt recently.

Miss Gladys MacLean, Farrans Point, spent the week end with Miss Lida Werely.

Miss Fern Gallinger, Gallingertown, spent last week with her grandparents, Mr. and Mrs. Hez. Gallinger.

Miss Mary Stewart has returned to Montreal after having spent two months with her mother, Mrs. (Rev.) D. Stewart.

Miss Gladys Hoye, Hallville, spent the week end with Miss Lillian Becksted.

Miss Blanche Bush, nurse-in-training, Smiths Falls, spent the week end at her home here.

Miss M. Robinson, R.N., Calgary, spent a few days with Mr. and Mrs. J. Zeron.

School has re-opened with the same staff of teachers as last year.

Mrs. H. Ball, of Lisbon, N.Y., is visiting Finch friends.

Mrs. D. B. Cameron, Alice and Beth, were calling on Mrs. (Rev.) D. Stewart.

Mr. James Campbell and Miss Irene Willington are attending Cornwall Commercial College.

Mr. Gordon MacLeod is the new operator in the Bell Telephone in this village.

CEDAR GROVE

Mr. James Vance of Ottawa, was a week end visitor of Mr. and Mrs. W. A. Wereley.

Mr. and Mrs. Percy Pier Third Avenue, accompanied by Mr. and Mrs. Fred Dafoe and Miss Greta, spent Sunday with Mr. and Mrs. Frank Merkley, Williamsburg.

Mr. and Mrs. Sanford Vincent and family, of Massena, N.Y., were callers at Mr. and Mrs. Chas. Dafoe's, Monday.

Rev. Mr. Warren and Mr. Sim Gove of Aultsville, were callers in the Grove on Wednesday.

School re-opened Tuesday, September 3rd with Miss J. Armstrong as teacher.

A sociable evening was spent on Friday when the friends and neighbors gathered and gave a shower for Mr. and Mrs. Percy Beckstead who were married Wednesday by Rev. Mr. Thom, Aultsville. The evening was spent in music and games after which a dainty luncheon was served. Mr. and Mrs. Beckstead received a number of useful and beautiful gifts.

Miss Lillie Dafoe, Mr. and Mrs. Frank Dafoe and son Keith visited Mr. and Mrs. Kenneth Gallinger, Gallingertown, Tuesday evening.

Miss Lola Wereley, of Ogdensburg, N.Y., spent Wednesday at her parental home.

Mr. and Mrs. Fred McIntosh, 2nd Con., were Friday evening guests of Mr. and Mrs. Milton Crites.

Mrs. David Sheets and little granddaughter, of Massena Point, are spending this week with Mrs. W. A. Wereley.

He: "I heard Joan say she intends to keep her youth at all costs."

She: "I should just think so. Why, she never introduces him to anybody!"

Here and There

Honorable George, aged ten, and Honorable John, aged 9, sons of Canada's ranching peer, Lord Rodney and descendants of a famous British Admiral, recently travelled 4,000 miles from Fort Saskatchewan, Alta., to England, to enter a public school in the Old Country. They took the long journey unaccompanied, travelling on Canadian Pacific lines and by S.S. Montclare. C. P. R. officials looked after them on the long trip.

Rt. Hon. L. C. M. S. Amery, secretary for the Dominions in the Baldwin administration, who arrived in Canada on the Express of Australia recently travelled straight across the Dominion by Trans-Canada Limited, crack Canadian Pacific flyer, for Banff and Lake Louise whence he reached his objective and namesake, 11000-feet peak which he will climb.

Miss Georgia Englehard, daughter of a New York lawyer, is busy scaling peaks and establishing climbing records around Lake Louise. She climbed six peaks up to 12,000 feet in height around Lake O'Hara in one week. In addition to these exploits she has made a three weeks pack train trip.

Adding to an imposing list of winnings gained at leading exhibitions over the prairie circuit earlier in the season, the championship Holstein herd of the Canadian Pacific Railway supply at Strathmore Farm gathered ten firsts, five seconds, five thirds at the Vancouver Fair, made a clean sweep in the bull classes with junior and reserve senior championships in female classes and in group classes won first for exhibitors, first for young herd, first for progeny of cow, second in breeders herd and second in get of sire.

Albert E. Glasgow, Cannamore

In the death of Albert E. Glasgow, of Cannamore, Winchester township has lost one of its most prominent and esteemed citizens. He was born on March 23rd, 1866 and married Mary Jervis who survives him together with one son, John Wm., of Crysler, and one daughter, Mrs. Kenneth Reid, of Cannamore. He is also survived by one brother, Mr. W. C. Glasgow, of Morewood, and two sisters, Mrs. S. Gardiner, of Morewood, and Mrs. J. E. Scott, of Smiths Falls.

He was the organizer and proprietor of the Glasgow Telephone Systems and was also identified with many other important and progressive enterprises. He was a loyal supporter of the United Church, a member of the I.O.O.F., the A.F. & A.M., and of the L.O.L.

After an illness of several months he passed peacefully to his rest on Thursday morning, August the 22nd. The funeral was held on Sunday August 25th from the family residence to Morewood United church and from thence to Maple Ridge cemetery. The cortege was over a mile long and fully four hundred people found seats in the church whilst a large number remained outside.

The service was in charge of the pastor, Rev. R. W. Armstrong, who spoke from Psa. 8, 4, "What is man that Thou art mindful of him", and an appropriate solo was rendered by Mr. Brooks, of Chesterville. The casket was surrounded by the following floral offerings: Gate Ajar, wife and family; Pillow, Mr. and Mrs. J. E. Scott, Smiths Falls; Wreaths from: Mr. Wm. Glasgow and Mrs. S. Gardiner, Mr. and Mrs. Frank Jervis and family, I.O.O.F. 285, Morewood; Mr. J. J. Gardiner, Ottawa District Manager Bell Telephone Co.; Spray, Mr. T. D. McKay, Canadian Telephone Supply Co.; Pillow, Mr. and Mrs. J. P. Laurin, Ottawa; Basket, Mr. and Mrs. Calvin Gordon; Cut Flowers, Mr. and Mrs. Wm. Feeley.

Morewood Lodge I.O.O.F. conducted the burial service at the graveside after the committal had been read by the pastor

BERWICK

Mr. and Mrs. Henry Humes were guests over Sunday of Mr. and Mrs. Henry Baker of River Beaudette.

Mr. Wm. Kinnear, of Cornwall, was the guest for a few days last week of Mr. and Mrs. J. J. Dutt.

Mr. Carl Dutt, of Massena, was the guest of his parental home over Sunday.

Miss Mary Ruddy left on Friday for Greenock, accompanied to Toronto by her sister, Miss E. A. Ruddy.

Miss Helen Ruddy, teacher, left on Monday to resume her duties in Ottawa.

Mr. J. Meilleur and daughter Miss Stella visited relatives at St. Isadore and Vermont last week.

Mr. Emmett Norton, of Detroit, spent a few days with his grandparents, Mr. and Mrs. Wm. Galvin.

Mr. and Mrs. Frank Steven and children, of Ottawa, and Mr. and Mrs. John McLaughlin, of Canton, N.Y., are guests of Mr. and Mrs. Wm. Galvin.

Mr. and Mrs. Dan McMillan, of Massena, spent Sunday with relatives here.

Mr. and Mrs. Patrick Smith, of Louisville, and Mr. and Mrs. Wm. Kirkey, of Massena, were guests on Sunday of Misses Mary and Teresa and Mr. John Kearns.

Mr. and Mrs. Orville Bogart and the latter's sister, Miss Jessie Colby, of Massena, were guests last week of Mr. and Mrs. George Forsythe.

Miss Mary A. McPherson is spending a few days with her sister, Mrs. Geo. Johnston, of Crysler.

Winchester Twp. Council

The Council of the Township of Winchester met at Morewood on Monday, Sept. 2nd.

There being no appeals from the assessment on Drainage By-laws, the Allan Ball, the Steven and the McKay Creek, By-laws were read a third time and finally passed.

The Engineer's report on the Lough drainage scheme was read and after being pretty well discussed and explained by Mr. D. H. Weir, the same was adopted and the necessary By-law ordered prepared.

The tender of Mr. Geo. E. Shaver for stone crushing in the Connaught section was accepted at $1.84 per cu. yd.

Tenders for the different drains were ordered to be advertised for.

The tax rate to be levied and collected for 1929 was fixed at: General Twp. rate, 12 mills, General school rate 7.1 mills, County rate 18.8 mills. The different local school rates to be as required by the several school boards.

Next meeting at Winchester, Oct. 7th.

"You're a big, healthy man," said the lady. "Why don't you work?"

"Well, mum," said the loafer, "I'm a bit 'eavy for light work, and a bit light for 'eavy work."

—o—

Lady (engaging maid): "As for your evenings out, I am prepared to meet you half way."

Maid: "No need to do that, ma'am. My young man'll see me to the gate."

Automobile Service Companies Warning

One of the commonest membership plans promoted in recent years is that followed by the so-called "Automobile Service Companies". Many of those operating in Canada, it is believed, have been driven out of the United States by the Better Business Bureaus and, judging from complaints received by Canadian Bureaus, they are finding this field a profitable one. Many representations which have been made as to the actual benefit to be derived from membership in these "Service Companies" have been misleading. Usually implication is made that the service-contract includes a complete insurance policy indemnifying the holders against all liability, property damage, loss from fire, theft, etc., and that discounts can be obtained on purchases of accessories, gas and oil. Statements concerning legal services furnished by certain of the companies to members have led many prospects to believe that the company would be responsible for all damages caused by the contract-holder's car. The fact is that the policy given to members usually consists of a personal accident policy of very limited coverage, which does not protect the holder against liability, property damage or loss by fire and theft. The legal services generally represent that legal advice and assistance will be given, but usually do not cover the contract holder in the event of a suit for damages caused by his car. Although the contract sold by these organizations includes as a general rule, towing services and a discount on accessories, these services and discount are not obtainable at all garages and filling stations, but can be obtained only from those with which the service companies have such an agreement. In many instances the number of such garages and filling stations have been very limited and there has often been actual misrepresentation regarding the stations giving such service.

Sales agents of some of these companies represent that they render "Automobile Club" service. This statement might be construed as indicating a connection with a recognized and established organization. These service companies are as a rule in no way connected with such organizations and are purely and simply commercial projects of those at the head.

The Toronto Better Business Bureau urges all persons who are solicited to join these service companies, to read their contract carefully. This will safeguard against misunderstanding as to what service they may expect to derive by paying the membership fee.

The Better Business Bureau at 45 Richmond Street West, Toronto, will be glad to furnish the facts regarding membership schemes of this nature.

Feed sufficient for a herd of ten cows has been grown on a tract of one and one third acres in Arkansas this year.

—o—

Harvesting is well-advanced in Manitoba and indications are that the grain yield will be slightly better than expected. In the Peace River country a good harvest seems assured, according to reports, and in the rest of the prairies threshing is generally under way. The outlook for the great grain territory is much better than was pictured in the midst of the drought.

—o—

Doctor—Did you tell that young man of yours what I thought of him?

Daughter—Yes, and he said you were wrong in your diagnosis, as usual.

MAPLE GLEN

(Intended for last week)

Mrs. Fred Ouderkirk and children and Miss Gretta McRae of Moose Creek, visited at the home of Mrs. Chas. Meldrum on Thursday.

Mr. and Mrs. Roy Miller and family spent Monday evening with Mr. and Mrs. Freeman Burd, Crysler.

Mr. Abner Ouderkirk took dinner with his aunt, Mrs. Elizabeth Dillabough, on Monday.

Mr. and Mrs. Michael Meldrum and family spent Sunday with Mr. and Mrs. Jack Meldrum.

Visitors at the home of Mr. Roy Miller on Friday were—Mr. and Mrs. Freeman Burd and Mr. Rexford Prebble of Crysler, Mrs. Wm. Irving and Miss Ida and sons Howard, Emerson, Weldon and Dwaine.

Mr. and Mrs. Robert Meldrum and family, of Brockville, were calling on friends in this vicinity on Sunday, Master Oscar remaining for the week with his cousins Beverley and Donnie Meldrum.

Master Emerson Irving spent a few days last week with Master Freeman Miller.

The Misses Inez and Leila McDermid, Minnie Trickey and Olive Dillabough, Messrs. Dolton McDermid and Russell Dillabough called at the home of Mr. Chas. Meldrum Monday evening.

A number from here attended the funerals of the late Mr. Abner Glasgow, Cannamore, and Mr. Leonard Swerdfeger, Finch, on Sunday. The sympathy of the community is extended to the bereaved ones.

September Rod and Gun

With the approach of fall, the thoughts of sportsmen are turning towards hunting both deer and feathered game. The September number of Rod and Gun and Canadian Silver Fox News, just issued, contains an exceptionally fine article on deer hunting by C. N. A. Ireson, which will prove of great interest to devotees of that sport.

However, this is only one of a collection of equally good articles and features which deal authoritatively with other departments and adventures in outdoor life and which provide thoroughly good reading for all interested in outdoor life. Open seasons for game throughout Canada and a full report of the annual meeting of the Canadian National Silver Fox Breeders' Association are included in this issue.

Rod and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

The Cause of Fermentation of Honey

(Experimental Farms Note.)

Spoilage of extracted honey due to fermentation and souring has become, particularly of recent years, a matter of concern to Canadian beekeepers and others engaged in the handling and marketing of this product. In former years fermentation, though not unknown to honey producers, did not present the menace it now does as relatively little honey was held over from one season to the next. Recent years, however, have witnessed in Canada an increased production of honey, while consumption has become less seasonal in nature, with the result that honey, in general, is now held for longer periods of storage than formerly. Consequently spoilage through fermentation is now being encountered to such an extent that it is one of the most serious problems facing those engaged in the honey industry and the source of considerable financial losses.

For the past two years the Division of Bacteriology, Central Experimental Farm, has been conducting investigations on honey fermentation, the first phases of which have been concerned with the organisms causing the spoilage and their possible sources. In all cases yeasts have been found to be responsible, four different types having been isolated from the samples of fermented honey examined. These yeasts were found to be particularly sugar-tolerant varieties, capable of growing in high concentrations of sugar solutions which would prevent the growth of ordinary yeasts.

Examination of the nectar of 34 varieties of flowers commonly visited by bees during the season resulted in the isolation of 11 varieties of yeasts, all capable of fermenting honey. Of these two were identical with yeasts actually found in fermented honey. Moreover, a study made of hive nectar from the apiary of the Central Experimental Farm revealed an early and constant infection of the nectar by sugar-tolerant yeasts, some of which corresponded with those isolated from flowers, one being, in addition, a variety found in fermented honey.

That honey may be infected by yeasts at the time of extraction was shown by tests made in the extracting house. From various containers used for handling honey, yeasts causing fermentation were isolated, likewise from the air. It is, therefore, within the power of the beekeeper to keep out at least a part of the contamination of extracted honey by exercising precautions at the time of extraction and by insuring that all honey containers and utensils are thoroughly sterilized before use.

Further studies in the subject of fermentation are in progress.

Forcing Bulbs For Winter Bloom

(Experimental Farms Note.)

There are few house plants that reward the grower with a finer display of bloom in such a short time and with so little attention as do the spring-flowering bulbs when forced in winter. Those most commonly forced include tulips, hyacinths, daffodils and crocuses, and they come in such variety that the amateur is likely to be bewildered by the long lists of names. However, a careful study of the bulb catalogues enables one to choose a collection that will give a succession of bloom beginning in early December and lasting until the tulips bloom out of doors in late May.

Bulbs should be potted as soon as they are received in September and October. Those intended for very early bloom may be had in September but the main supplies are not on the market until October. A good potting soil consists of equal parts of loam, well-decayed cow manure, leaf mould, and sand. The size and style of pot used will depend to some extent on the personal preference of the grower, but a six-inch pot will hold six tulips, a five-inch pot takes six crocus bulbs, a four or five-inch pot may be used for a single hyacinth bulb and a seven or eight-inch pot will be required for five or six narcissus bulbs.

In potting, leave the top of the bulbs level with the surface of the soil and press it firmly about them but do not have it too compact beneath them since this causes heaving when root growth takes place.

After planting, water the pots and set them in a cellar or darkened room at a temperature of 40 to 50 degrees Fahrenheit. If the pots are plunged in sand they will require less careful watering, and burying to a depth of two inches above the bulbs will help to prevent heaving. After the bulbs are well rooted and there is evidence of top growth, they may be brought to the living room to bloom. To economize in window space a cellar window or any north window may be used until the plants closely approach the blooming period. If kept too long in a dim light the plants become tall and weak-stemmed. If placed in too hot a place the buds will wither, therefore a window too close to a stove should be avoided.

After the plants are in bloom if they are kept in a cool part of the room and not exposed to bright sunshine the blossoms will last for twelve or fourteen days.

At the Dominion Experimental Station, Rosthern, Saskatchewan, the following varieties have been found satisfactory for forcing:

Early Single Tulips: Duc Van Tholl, Prosperine, Brilliant Star, Couleur De Cardinal, Cramoise Brilliant, Cullinan, Flamingo, La Reine, Mon Trésor, Prince of Austria, Prosperity, Rose Grisdelin, Rose, Luisante, White Hawk, Yellow Prince, Fred Moore, and Ibis.

Early Double Tulips: Peach Blossom, Murillo and Couronne d'Or.

Darwin Tulips: Bartigan, Wm. Copeland and Roi d'Island.

French Roman Hyacinth:

Dutch Hyacinths: Gertrude, Queen of the Pinks, La Victoire, Lady Derby, Marconi, L'Innocence, La Grandesse, Enchantress, Grand Maitre, King of the Blues, and Queen of the Blues.

Narcissus or Daffodils: Victoria, Glory of Sassenheim, Tresserve, Princeps, King Alfred, Sit Watkin, and Double Von Scion.

Polyanthus Narcissus or Bunch Daffodils: Paper White and Grand Soleil d'Or.

Crocus: Purpurea grandiflora, Mont Blanc and Yellow.

Quite Long Enough.

Wife (reading paper): "It says here that a Chicago man boasts that he has had an umbrella for 20 years."

Her Husband: "That's long enough. He ought to return it."

ONTARIO

Threshing is dangerous

If weed seeds are allowed to become mixed with grain or straw when threshing they will cause serious loss and much hard labor in later crops

Do not permit a threshing machine to carry weed seeds to your farm. See that it has been properly swept out before entering your premises. A separator is built to remove weed seeds from grain and straw. See that it does so. All sieves should be in shape to do effective work. There should be a screen in the lower deck to remove weed seeds before they are blown into the straw.

Weed seeds should not be left to be carried about by animals and the wind, nor should they be swept into the barnyard. Destroy them. Burning is effective.

Kill weeds BEFORE they start

ONTARIO DEPARTMENT OF AGRICULTURE

Caution When Threshing New Weeds May Be Avoided

It is difficult to control and prevent the spread of weeds, such as Field Bindweed, Perennial Sow Thistle and Couch Grass, which spread rapidly by underground stems or root stalks; consequently, land not infested with these weeds should be inspected frequently and plants of these found growing thereon should be dug up and completely burned. However, these weeds are propagated by seeds as well, which as a matter of fact is the way in which most weeds are introduced to land and spread rapidly over farms, localities and countries.

This being the case the greatest progress in the eradication of weeds can be made by preventing weeds from producing seeds, and by preventing the introduction and distribution of weeds seeds to the land in the seed sown, in the manure applied, or otherwise. The control of weeds on many farms is made more difficult as a result of these being allowed to produce seeds on roadsides, in lanes, pastures, waste places, and along fences and ditches.

In many cases the true value of clean seed is underestimated. It is impossible to control and eradicate weeds if the seed sown is contaminated with weed seeds; therefore clean seed is essential in any system of weed control. Many serious infestations of weeds are known to have been started as a result of the weed seeds in the seed sown.

Weeds which are allowed to ripen and remain in the crop will be harvested and threshed, and unless provision is made to seggregate the weed seeds, these will pass out of the separator with grain, or be carried out with the chaff and straw.

Weed seeds carried with the grain represent part of the dockage (too often the greater part of it), and if the seeds be of a kind which cannot be removed, the value per pound or per bushel of the product will be reduced much below the market value of clean seed. Some kinds of weeds and weed seeds are bitter and distasteful. Some injurious to the health of live stock when fed in certain quantities, and all are undesirable in grain for manufacturing or seeding purposes. If grain containing weed seeds be fed to live stock without being ground sufficiently to destroy the vitality of the seeds, many will be distributed on the land in the manure, still capable of producing plants and infesting new crops. Therefore, it is advisable that all grain used as feed be cleaned to remove the small weed seeds, and that these be burned to prevent their being carried back to the land.

Those which pass out of the separator with the chaff and straw will be returned to the land so that any which are vital will germinate and produce weeds to infest the next crop.

It is advisable that as many as possible of the weed seeds be separated at the time of threshing from the grain and the chaff and straw. This may be accomplished by the proper use of screens in the separator.

For years, separators have been provided with a screen in the lower part of the shoe to remove small weeds from the grain just before it is delivered from the machine. Recently there has been used in some machines a screen in the deck back of the concave to remove small weed seeds from the grain, chaff and straw, immediately following the process of shelling. The use of this screen is to be commended.

As a result of the proper use of the two screens mentioned above there is on the ground or on the floor under the machine an accumulation of fine weed seed and inert matter. In most cases these are useless and harmful if allowed to spread, and should be destroyed, preferably by burning.

Unless the separator is well cleaned after threshing weed seeds may be carried from one farm to another and be distributed along roads and in lanes. Sufficient time should be taken to clean the separator well before it is moved. The matter of separating weed seeds from the grain, chaff and straw at the time of threshing and the cleaning of the machine is one for co-operation between the thresher and the farmer. This service is available to growers. It is the general desire of separator operators to meet the demands of farmers in this respect. The cleaning of the separator before being brought to the farm may save many dollars and much hard work. According to statistics millions of dollars are lost annually, as a result of the weed scourge.

Weeds should not be allowed to steal farm profits.

Tommy's Ribs.

The teacher in the class of physiology put to Tommy this question:

"How many ribs have you?"

"I don't know, ma'am," said Tommy, squirming at the very thought. "I am so awful ticklish I never could count e'm."

True Enuff.

"Brother Jones," said the deacon, "can't you-all donate some small contribution to de fund for fencing in de cullud cemetery?"

"I dunno as I can," replied Brother Jones. "I don't see no use in a fence around a cemetery. "You see, dem what's in there can't get out, and dem dhat's out sho' doan wanta get in."

Summer Thirst Quenchers

By Etta Bitta Pye.

It is a well-known fact that the human body requires two or three quarts of liquid each day, but not so commonly known that many of the ills flesh is heir to may be laid to the fact that there has been a continued shortage of liquid in the diet.

Fasts of twenty or thirty days, so far as solid food is concerned, are fairly common. When liquid food, even plain water, is not obtained, however, it takes but a few days to cause death.

During hot weather, more liquid than usual is necessary—for perspiration draws heavily from the body's supply of moisture. By making much of this liquid a food, one can easily reduce the quantity of heavy, solid foods and thus give the digestive organs an opportunity for needed rest when such rest is very desirable.

Sweetened beverages of any kind furnish the body with sugar— highly concentrated source of human energy. If fresh fruit juices are present, the thirsty one is assured also of a plentiful supply of minerals, salts and vitamines. With all of these constituents furnished, the evening meal on an extremely hot day may well consist largely of light, easily-digested foods—a soup, a whole-meal salad, and some sweet fruit dessert, for instance—and the diner finds himself in an ideal condition to combat the attack of heat with its threat of a sleepless night.

Many of the simplest summer beverages are far too often improperly prepared. Plain lemonade should have the sugar dissolved in the fruit juice before the water is added—something that is not always done, by any means. The juice of six lemons, six cups of water, and one cup of sugar will make a delicious lemonade when the sugar is first dissolved in the lemon juice, the water added, and the beverage served immediately with a little cracked ice.

Iced tea may be a delicious or an insipid beverage—according to the recipe followed. Try this recipe some day and note the flavor:

Make an old-fashioned pot of tea and set it aside to cool. Two or three hours later, strain, and squeeze the juice of one lemon into the liquid. Stir in three tablespoons of sugar. Pour the whole into a larger dish, filled with pieces of ice. Serve as soon as thoroughly chilled—with lemon or orange slices on the rims of the glasses.

For a more elaborate, company thirst quencher, try the following recipe—the quantities being sufficient for sixteen liberal glasses.

Ginger Sorbet

½ pound candied ginger
2 quarts water
2 cups sugar
1 cup lemon juice
Juice of 4 oranges
Crushed ice or ice water

Chop the ginger fine, add it to the water and sugar and boil for fifteen minutes. Cool, and add water to make ten cups of liquid. Add the fruit juices and serve in glasses half filled wth crushed ice, or diluted with ice water.

Easy Way to Prove Your Weight Right

"Most of us often wonder how the figures given on the scales showing our correct weight for our height are obtained," says Mrs. Iva Church Sands of the National Dairy Council. "Here is a new, easy way to see whether you weigh as much as you should for good health's sake. It is based on the system in use at the Johns Hopkins Hospital. Measure your height without shoes, allow 110 pounds for your 5 feet and multiply the number of inches of 5 feet by 5½—that is, allow 5½ pounds for every inch. There may be as much as 10 pounds variation and still you will be in the normal weight group, depending on whether your bones are light or heavy. Also, age makes some difference in the wisdom of being either slightly underweight or overweight."

Nutrition authorities in general agree that your weight is pretty good index of whether you are getting the right amount of foods for health and growth. Monthly weighing is advocated for all of those who are concerned with good health habits. Those who want to keep the health balance on the scales should not omit milk and butter. Even the reducing diet should include these because of the general health values and substances not easily obtained from other foods that milk gives. As Dr. Morris Fishbein says in "Your Weight and How to Control it," 'it is indeed a fact that milk is really given in a fattening diet, but it is equally true that milk should be taken in a diet intended to reduce weight.

All Over.

Country Policeman (at scene of murder): "You can't come in here."

Reporter: "But I've been sent to do the murder."

Country Policeman: "Well, you're too late, the murder's been done."

"You want a divorce from your husband? On what grounds?"

"Incompatibility! I want a divorce and he doesn't."

Summer Fruits For Winter Use

Preserve in Summer so That Health May be Preserved During the Winter.

By Etta Bitta Pye.

"Try a dish of home-made peaches, Alice. Mother put them up herself."

Such an invitation was quite common years ago, but rather rare today. Far too rare, as a matter of fact, to please thousands of Alice's and hundreds of thousands of Henry's and Fred's, with a "sweet tooth" just as highly developed as was the sweet tooth of a decade ago.

The old-fashioned pound for pound preserves were almost invariably looked upon as a dessert. Few, if any, realized that they were much more. As a matter of fact, a well-sweetened preserve, conserve, jam or jelly, is a jar or glass of winter fuel stored away for the use of our body engines during cold weather.

Realizing also that the fruit or berries are containers of valuable minerals, salts and vitamines, it is easy to appreciate the fact that a well-stocked preserve closet is a combination of a medicine chest, fuel storeroom and dessert closet.

We cannot all own fur coats for winter use, but we can supply internal body heat quickly through the medium of sugar, candy, sweetened preserves and such foods. Internal heat is much better than outside protection from cold as given by the fur coat and woollen sweater. Without internal heat, the costliest fur may leave us shivering. With sufficient internal heat, it may not be necessary.

So purchase summer fruits and berries when they are fully ripened and obtainable at moderate cost, and can, preserve or pickle them in sugar, as you see fit. When winter comes you will have on hand, sufficient fuel to carry you over until the balmy breezes of Spring arrive.

Of course you mav purchase much of the jam and jelly you use, but with a home-preserved supply on hand, you will eat it more often, and be prepared at any time for the company that always appreciates the peaches, plums or berries that mother cans herself.

The pound for pound recipe does not seem to be quite as common today as it once was, but the three parts sugar to four parts fruit recipe has taken its place with a vengeance. Here are a few easily-followed recipes which you may use between now and late Fall:

Plum Conserve.

Wash and skin 5 pounds blue Damson plums. Cut in small pieces and add 2 cups crushed pineapple. Measure, and add three-fourths the quantity of sugar. Cook slowly until it is a thick, clear jam. Add juice of 1 lemon and ¼ pound blanched almond meats. Cook five minutes longer. Seal.

Pear Preserve Ohio.

Make a liberal supply of rich syrup, using three-fourths cup of sugar to each cup of water and boiling from three to five minutes.

Drop into it the pears, which have been pared and quartered, and a few pieces of stick cinnamon.

Bring to a boil, then reduce heat and allow to cook gently for from two to three hours, or until a dark, rich, red color. Then can and seal.

Blueberry Delight.

Pick over, wash and stem the berries. Add three pounds sugar to each four pounds of berries and heat gently until the sugar dissolves and the juice is drawn from the berries. Cook rapidly until berries are plump and the syrup thick. Pack carefully in clean, hot jars and seal. Watch for leakages.

Clothes Moths

Clothes moths cause much damage to materials of animal origin, such as woollens, furs, hair, feathers, etc., and their ravages to articles of clothing, upholstered furniture, piano felts, carpets, etc., are familiar to most housewives. Damage by clothes moths is caused by the feeding activities of the caterpillars of this insect, which are the young of the small winged moths that may be seen flying about the house. In a treatise on "Household Insects and Their Control" by the Dominion Entomologist and a member of his staff, it is stated that there are two species of the clothes moth known as the the webbing clothes moth and the case making variety. The adults of both species are small, having a wing spread of one-half inch or less. They are similar in general appearance and habit but differ slightly in colour, the webbing species being entirely pale buff, and the case making species grayish-yellow with inconspicuous dark spots on the forewings. These insects are most active during the spring and summer months. This publication, Bulletin No. 112 of the Department of Agriculture, at Ottawa, describes fully the habits of these and many other household insects.

It is recommended for preventing damage to clothing to avoid leaving such articles as are likely to be attacked undisturbed for long periods, particularly during the summer months, in such places as cupboards, trunks, attics, etc. Such articles, after being thoroughly brushed and beaten, preferably in strong sunlight, should be placed in well-made trunks or chests with tightly fitting lids, or enclosed in cotton or paper bags or in cardboard boxes sealed with paper strips. Wrap clothing in two thicknesses of strong paper, taking care to see that the edges are turned so that no moths may gain entrance, is also recommended by the authors of this bulletin as an alternative measure. A good repellant of the clothes moth is fresh naphthalene flakes scattered among the garments when they are put away. Clear instructions are also given in the bulletin for protecting piano felting, upholstered furniture and other goods liable to be damaged.

A Chauffeur's Tongue.

Two girls were quareliing.

"Oh," said one, "I'm sick of you. I believe you can't help it, though. You've got a chauffeur's tongue!"

"What?" cried the other girl, scared. "Is it catching? How does one get it?"

"Oh," said the other pointedly, "through constantly running people down."

Husband: "When I'm dead and gone you'll never get another man like me."

Wife: "Well, that's some consolation."

HEAP CASH MAYBE COMING TO RED MAN FOR OIL HOLDINGS

The Stoney Indians on the Morley Reservation along the line of the Canadian Pacific Railway near Calgary, are benefitting by the oil developments in Alberta. Every man jack of the 640 members of the tribe, representing 125 families, receives $10 per annum for oil lease rentals on the tribe's land and should oil materialize will receive a 12½ per cent. royalty on all production, a certain amount of which will be set aside for agricultural implements. They gathered in all their Indian bravery of feathers and finely worked shirts, shawls and mocassins on the occasion of the first payment. Pictures show Chiefs Wolf Teeth, Lost Buffalo and Black Buffalo saluting the derrick, source of their new wealth. Chief Hector Crawler receiving payment from R. Hinton, Indian Agent at Morley; Indian with pipe in mouth is "Wild Man," son of "Wild Woman." Chief Wolf Teeth inside derrick with driller. Squaw Becky Beaver and papoose, counting her money. She looks heap happy.

People who depend upon their crops should not be without some kind of the above insurance.

The loss of crops and barns, sometimes dwellings, is a serious matter to all farmers.

The claims paid through this office, just recently, have been large.

We aim to satisfy our policyholders, and do our utmost on their behalf.

Possibly you believe that you are carrying enough insurance. Think for a moment what a total loss would mean to you. This, as you will admit, is quite possible.

Information regarding various forms of insurance glady given, you are under no obligation whatsoever, just call or write.

Mainly About People

Mr. and Mrs. Robt. Comer and son Lyle, of Ottawa, spent last week with Mr. and Mrs. F. E. Marcellus.

Remember the Re-opening Concert on Sept. 9th, in the Chesterville United church at eight o'clock.

Miss Rosella Moran is visiting her brother in Syracuse and friends in Rochester.

Mr. and Mrs. F. D. Bolton, Mrs. Jas. Duff and Mr. W. M. Bolton have been attending Toronto Fair.

Mr. Kenneth Garrow of Kalamazoo, Mich., is spending a short vacation with his father, Mr. Isaac Garrow.

Mr. and Mrs. Pitre Charland, Miss Rosalma Leoux, Montreal, spent last Sunday with their sister, Mrs. Moise Belanger.

Mr. and Mrs. Napoleon Paul, of Franklin Centre, Que., spent a few days with the former's mother, Mrs. Moise Belanger.

Miss Eleanor Black, of St. Catherines, was the guest on Sunday of Mrs. David Allison while enroute to Morewood where she has joined the staff of Morewood High school.

Andrew D. Clement, Isabel Clement and Mary T. Clement left on the Midnight Sunday as teachers for Toronto, Picton and Mount Forest, respectively.

Reginald Hummel, after spending part of the holidays with his mother, Mrs. M. I. Hummel, left last Friday for Toronto where he is engaged in teaching.

Mr. and Mrs. Dan O'Neil, of Rochester, N.Y., visited the former's mother, Mrs. Eliza O'Neil, on Sunday. They motored to Brockville Sunday evening completing the trip back t Rochester on Monday.

The Misses Eldred and Edna Fulton returned to Toronto on Monday to take up their respective positions as librarians in the Toronto Reference Library and in the University of Toronto.

Mrs. W. G. Gutsch, of Detroit, who has been the guest of Mrs. W. M. Bolton, Winchester Springs, during the past few weeks returned to her home Saturday with her daughter Dorothy.

Mrs. Margaret Wood, Mr. and Mrs. D. W. Blair and family, of Brockville, Mr. and Mrs. M. Shaver and family, of South Mountain, Mrs. Hugh VanDusen, of Brockville, were recent guests of Mr. and Mrs. W. M. Bolton, Winchester Springs.

Mr. Cecil Smith, of Edmonton, Alta., eldest son of Mr. and Mrs. I. E. Smith of that city, was taken suddenly ill on Wednesday, August 28th and rushed to the hospital where he was operated on for acute appendicitis. Latest reports give his condition as good as can be expected.

Mr. and Mrs. Chas. Munro arrived home Sunday from a motor trip along the Ottawa river to North Bay, then down among the Muskoka Lakes to Toronto, where they remained three days attending the National Exhibition and the Wrigley Marathon. They were accompanied by Mr. and Mrs. C. S. Munro.

Rev. R. E. Newman and Mrs. Newman were in Winchester Monday evening when Mr. Newman conducted the funeral service at 7.30 of Mrs. Eaton, mother-in-law of Dr. J. A. Bean, at whose home she has resided for many years. The service was held in the home and was attended by many friends of the family. On Tuesday morning the remains were conveyed to Belleville for interment. Mrs. Eaton was 85 years of age and has been an invalid for several years.

The many friends of the Rev. C. Ritchie-Bell of St. James Presbyterian church in Truro, N.S., will be pleased to know his name was among those mentioned in the recent list posted by the University of Chicago and the American Institute of Sacred Literature. He was awarded the certificate of the University for his work in a course "Finding God in the Beautiful". His thesis on this subject received honorable mention.

Thank You

At the August meeting of the Ladies' Aid of Chesterville United Church it was moved by Miss Harrison and Mrs. Tate and carried unanimously that a letter of thanks and appreciation be sent to you for your kindness for giving space in your paper to publish our monthly meetings. It keeps the members who are unable to attend in touch with the work we are doing. Gratefully yours, E. M. Dixon, Sec. of Ladies' Aid.

United Ladies' Aid

The Ladies' Aid of Chesterville United church met yesterday at the home of Mrs. S. Droppo with a large number in attendance when a very profitable and pleasant afternoon was spent. Those taking part in the program were, Miss Harrison, a reading, Miss Sadie Droppo, an instrumental, and a very interesting talk on Community House mission in Montreal by Miss Jean Casselman. Refreshments were served by Mrs. S. Droppo, Mrs. W. N. Fulton. Mrs. W. Cameron, Mrs. Fred Smith, Mrs. H. Fulton and Mrs. Clayton.

Mainly About People

Mrs. P. C. Helmer, of Regina, spent Wednesday the guest of Mr. Wilfred Hutt, Morewood.

Mrs. J. L. Helmer and Lockie spent a few days with Mrs. Leslie Cass, of Cornwall.

Mr. Launcelot Bolster, of Montreal, is spending a vacation with his parents, Mr. and Mrs. A. E. Bolster.

Miss Mabel Morrison, of Ottawa Civic hospital, is spending this week with Miss Addie Campderros.

Mr. Clarence Labre, of Montreal, spent the week end and holiday with his parents, Mr. and Mrs. T. Labre.

Miss Doris Elliott spent the week end with her grandfather, Mr. John Crump.

Mr. and Mrs. Fox, of Brooklyn, N.Y., and Mr. and Mrs. Harrison, of Montreal, were guests of Miss Harrison this week.

Mr. and Mrs. A. Morris and son, Harry, spent Labor Day with their son Mr W. E. and Mrs. Morris of Cardinal.

Mrs. A. D. Munro, nee Laura Simser, of Arvida, Que., is spending a vacation with her parents, Mr. and Mrs. J. C. Simser.

Mr. Brock N. Harper left on Saturday to take up his duties as teacher of the Public school at Murillo, Ont., thirteen miles west of Fort William.

Mrs. P. C. Helmer, of Regina, returned to Chesterville after spending some time with her brother at Philadelphia, N.Y., and with her sister, Mrs. J. Froats, at Froatburn.

Mr. and Mrs. Chas. Graham, Miss Aura and Miss Helen Moad motored to Toronto this week to visit friends as well as the Canadian National exhibition.

Mr. and Mrs. John Crump, Mr. and Mrs. Sproule and Mr. Geo. Elliot recently enjoyed a motor trip through the Adirondacks to Saranac Lake and Tupper Lake, Mrs. Sproule and children returning home after spending a vacation with their grandfather.

During the holiday week the editor and Mrs. Lacey spent a most pleasant vacation, the first part of it the guests of Mr. and Mrs. David Allison on a fishing trip into the wilds of Quebec where there were real fish to be caught and some of which were caught. The lake on which the camp was situated is a most beautiful one unspoiled by the presence of summer visitors. Game seemed very plentiful, a black bear swam the lake within a hundred yards of the camp about ten o'clock one morning when all hands had a good view of the "play boy of the woods" as he emerged and entered the forest. The howling of wolves was the music of the night, although the sensation of hearing it can hardly be called a pleasurable one. On one occasion while fishing rather early in the morning a lone wolf was seen to come out over the water on a fallen log and survey the situation before returning to cover. Rer deer and moose were not actually seen except on one occasion when a fine doe and fawn were seen gamboling on a sandy beach a short distance from where Mr. and Mrs. Allison were fishing from a boat. Tracks of moose were frequently observed on the trails but it was not our good luck to get a glimpse of one in his native haunt. The latter part of the week was spent by the Laceys in a trip to western Ontario by motor over Highway No. 2 to Toronto and then north to Hillsburg to visit the boyhood home of the editor and renew friendships of long standing, while the guests of his only brother, J. H. Lacey and Mrs. Lacey, with whom Toronto Exhibition was visited after an interval of fifteen years. It is easily understood why such immense crowds are attracted each year to Toronto after a visit there. A week spent on the grounds would only begin to give one a fair idea of the resources of Canada and of some of the other countries within the British Empire.

CARD OF THANKS

Mrs. Albert E. Glasgow and family wish to thank their many friends and neighbors for kindness and sympathy in their recent bereavement, also to the Oddfellows and solist, Mr. Brooks, Rev. Mr. Armstrong and the Morewood Church Choir.

CARD OF THANKS

The family of the late Albert Cameron Errett wish to express their deep appreciation and thanks to their neighbours and friends, also to the choir of Knox Presbyterian church and others for their sympathy and many acts of kindness in their recent bereavement.—The Family.

CARD OF THANKS

Mr. Ward J. Smith and family wish to express their heartfelt appreciation to their friends and neighbors for their many acts of kindness and sympathy in their recent bereavement also to Mr. Newman and choir of the United church.

How to Do It.—During the general election campaign, a political speaker was advocating "municipal milk." "Municipal milk," he said, "is not a thing that will come by itself. You must take the bull by the horns."

Merrickville Band Visits The Local Band

One evening last week fourteen members of the band from Merrickville paid a friendly visit to the local organization and on Mr. Alf Morris' lawn the two bands rendered a choice program of music, after which the visitors were entertained with refreshments served in Mr. Morris' home. The latter is vice-president of the Chesterville band.

Dr. Hutt Associate Director

J. P. Gormley has been elected president of the Morrisburg Canadian Club, with Lev. Southworth as vice-president, J. M. Whittker, as secretary, and H. E. Hall, treasurer. Members of the executive are, Dr. G. M. Gorrell, F. R. Chalmers, S. G. Finnie, W. S. L. Merrill, F. H. Broder, and John W. Weston. Associate directors of the club are Aaron Sweet, Winchester; E. A. McInnis, Iroquois; Dr. S. H. Hutt, Chesterville; A. J. Casselman, Williamsburg, and F. T. Shaver, Aultsville.

Lawn Bowling

Since last issue two trophy nights have been played. That of last week attracted four full rinks when the prizes were handsome cushions falling to the prowess of George Cass' rink with a total of 20 points, chased by Billy Dixon lacking one point, with Dr. Hutt third with 14 points and Shay bringing up the rear with a total of seven.

The rinks were: Cadieux, Clayton, Casselman, Cass, skip.

Durant, Jarvis, Seymour, Dixon, skip.

Peake, McMahon, Hamlen, Hutt, skip.

Brownlee, McElroy, Barwick, Shay, skip.

Last night four three-man rinks battled for neck ties and when you see Art. Robertson, Sam Peake and Dr. Clayton sporting new ties you will not need to be told who were high men. The other rinks were:

Seymour, Flynn Daddy Reaburn, skip.

Casselman, Hamlen, Dixon, skip.

Allison, Durant, Hutt, skip.

Announcements have gone out for the Annual Autumn Doubles on the local greens for Saturday, Sept. 14th, with play to begin at nine a.m. There will be the usual two competitions with individual prizes for the winners and runners-up in each event. Entries close Friday the 13th at 8 p.m.

A good representation of the local club attended the Labor Day tournament of the Iroquois club but found the opposition a trifle too stalwart and their winnings not of the major variety.

A STRANGE ACCIDENT

Without a doubt many peculiar accidents are caused by automobiles but the Cornwall Freeholder has us guessing in a heading which explains a casualty as "Hit by two Montreal men in hospital with bad injuries".

Very Hot Weather

The brand of weather handed out to this section may be the very best kind for exhibitions and fairs but a dash of rain would be welcome. Monday and Tuesday the mercury hovered around the nineties and although last night was cool and refreshing it looks like another scorcher today. However, it is likely that what the pastures are losing the corn crop is making up, the improvement of the latter in the past ten days is almost beyond belief were it not plainly visible throughout the country.
