ESTEEMED CITIZENS LEAVING MORRISBURG

Having been appointed to Trinity Lutheran Church, Hamilton, Ont., Rev. Mehlenbacher will preach his farewell sermon in St. Paul's, Morrisburg and St. Johns, Riverside on Sunday, October 25th.

Rev. Mehlenbacher was appointed to the local charge in 1931, arriving in Morrisburg, the early part of May. During his pastorate here, the parsonage in Morrisburg has been completely renovated. The Castleman Memorial Parish Hall was built and a new chancel arrangement was placed in St. Paul's church.

At St. John's, electric lights and a furnace were installed and the altar dressed with proper ornaments. The 150th anniversary of the founding of the St. John's congregation was celebrated in June, 1934, at which time the cairn was constructed and unveiled. The old parsonage was converted into a commodious parish hall and equipped with electric lights. Many new members have been added to both churches.

Rev. Mehlenbacher and his family will leave at the end of this month to take up his new work in Trinity Lutheran Church, Hamilton, Ont. During their sojourn in Morrisburg, they have made many warm friends, regardless of denomination, who, while they regret the loss of citizens who meant much towards the advancement of the community, will wish them every success in their new charge.

WIGGINS—LOUDEN

A quiet wedding was solemnized at 4 o'clock Saturday October 10th, at the home of Mr. and Mrs. J. H. Wiggins, when their daughter, Lorena Anne was married to Dr C. A. Louden. Rev. Douglas Smith officiated, and Miss Marjorie Laidlaw of Lindsay, played the wedding music. The bride, given in marriage by her father, wore a graceful gown of white chiffon with veil of tulle coming from a halo of orange blossoms. She carried a fan bouquet of butterfly roses.

Mrs. J. Louden, mother of the groom, assisted in receiving the guests, after which the bride's parents entertained at dinner at the Allison Tourist Home.

For travelling, the bride wore a brown swede cloth suit trimmed with brown Parisian Lamb.

On their return Dr. and Mrs. Louden will reside in Morrisburg.

GOLF CLUB ORGANIZED

At a well-attended meeting, held Wednesday night in the Town Hall, the Morrisburg Golf Club elected officers for the ensuing year, as follows:

Honorary Presidents—Dr. M. W. Locke, Mr. Geo. H. Challies, M.L.A., Col. A. C. Casselman, M.P., and Mr. Arthur Flynn.

President—Mr. J. H. Meikle.

Vice-Pres.—Miss Grace D. Merkley.

Sec.-Treas.—Mr. W. D. Thomas.

Executive—Miss G. Von Doran, Messrs. R. G. Fetterly, J. S. Toshack and Harry Meikle.

Several suitable sites were discussed as a location for a golf course and the executive committee will meet the town council at an early date to see if suitable arrangements can be made with regard to securing a site. As soon as this has been accomplished, another meeting will be held, and plans will be laid for the preparation of suitable grounds.

A great deal of enthusiasm was shown by the attendance at the meeting. Dr. Ward Reddick acted as chairman for the evening, and Mr. W. D. Thomas, as secretary.

MRS. JOHN MILLWARD

There passed to the Great Beyond on Saturday, Oct. 10th, at the home of her daughter, Mrs. Meredith Reid Sophia Pear, beloved wife of the late John Millward, in her 81st year. Deceased had been in good health, until one week before her death. She was a kind and devoted wife and loving mother, and will be missed by all who knew her.

Left to mourn are three daughters and four sons Mrs Jos. Deane of Prescott; Mrs. Meredith Reid, Morrisburg, and Mrs. Nelson Prunner, Aultsville; Mr. Lagorrah Millward, Boucks Hill; Mr. Broder Millward, Glen Becker; Mr. Alexander Millward, Mariatown and Mr. Thomas Millward, Froatburn.

The funeral was conducted from the residence of Mr. Meredith Reid to St. John's Lutheran Church, Riverside. Interment was made in Riverside Cemetery.

Among the many floral offerings which testified to the high esteem in which deceased was held, were: Sprays from Mr. and Mrs. Arnold Millward, Mr. and Mrs. Joseph Deane, Mr. and Mrs. Lagorrah Millward; Pillow from Mr. and Mrs. Meredith Reid and Family; besket of cut flowers from Mr. and Mrs. Broder Millward and Mr. and Mrs. Nelson Prunner.

Among relatives from out of town attending the funeral were: Mr. Windom Gilson, Brinston; Mr. and Mrs. Arnold Millward, Glen Stewart; Mr. and Mrs. Wm Millward, Mr. and Mrs. Thomas Thompson, Mrs. James Fawcett, all of Brinston; Mr. and Mrs. Jos. Deane, Misses Olive and Helen Deane, Mr. Gerald Deane, Mrs Thos. Baldwin and Mrs. John Baldwin, all of Prescott.

Mr. and Mrs. Meredith Reid extend their sincere thanks to their friends and neighbors for their kind expressions of sympathy in their recent bereavement.

WILLIAMSBURG WOMENS INSTITUTE

The Williamsburg Women's Institute which met at the home of Mrs. Luther C. Barclay last Thursday evening had the largest attendance on record, there being 45 present. The meeting was presided over by the president, Miss Meda Whitteker. The Secretary, Mrs. C. Macdonald, gave a short report of the visit to Morewood to the officers rally and stressed the fact that many good pointers were given, one of special interest being that when the National Anthem is sung, which is actually a prayer, all should stand at attention and not in a slovenly position.

Another food sale will be held in the near future and a committee was appointed to make arrangements.

Several bills were passed for payment and this included work done on the local cemetery.

The request for a donation to the Tubercular Sanitorium was tabled until the next meeting. The Secretary was instructed to write Mr. H. R. Wallace, asking for the use of his building and to the I.O.O.F. Lodge for the privilege extended the Institute in the holding of the joint decoration day service.

Mrs. M W. Locke and Mrs. Claude Casselman were instructed to buy a gift in recognition of the generous assistance of a non-member.

The Treasurer's report given by Mrs. E. Axworthy showed a substantial balance on hand to finish the year's work.

Mrs. Dick McDonald and Mrs. Alfred Casselman reported they would be able to attend the Convention in Ottawa.

Mr. Alfred M. Casselman gave a very interesting paper on "The Signi ficance of Thanksgiving Day." The speaker traced the history of the day both in the United States and in Canada, and it was most educational. A hearty vote of thanks was extended to Mr. Casselman for his fine address.

Community singing was enjoyed and indulged in most heartily.

The hostess, who was assisted by her daughter, Miss Ruby Barclay, served a delicious lunch, after which the National Anthem was sung. Nine new members were enrolled, bringing the membership up to 52.

DISTRICT I.O.O.F. MEETING

The final of a series of meetings was held in the I.O.O.F. hall at South Mountain recently, when Bro. W. T. Kingston of Cardinal, grand master of the grand lodge of Ontario met the several lodges of District No. 53 to plan the year's work. Former meetings, held bi-weekly, were initiatory degree by Zeta Lodge, of Morrisburg, first degree by Amity lodge of Prescott and second degree by Kemptville degree team. An added special feature of this meeting was the exemplification of the third degree team of Regal lodge, Cardinal, under the direction of Bro. McIlveen on a class of eighteen candidates.

Bro. Frank Gilroy, past D.D.G.M. of Dist. No. 53, introduced the grand lodge officers, who included Bro. Rev. Robert Booth, grand chaplain, both of Cardinal, Bro. C. R. Hummell of Morrisburg, D.D.G.M. of Dist No. 51 and Bro. Wm. Robinson of South Mountain, D.D.G.M. of District No. 53. Representatives were present from lodges of Dist. No. 53 as well as visitors from Cardinal, Morrisburg, Brinston and Williamsburg of District No. 51.

At the close of the regular meeting the Women's Institute of South Mountain of which Mrs. Wm. Robertson is president, served a banquet in the dining hall.

Bro. R. Robinson presided at the banquet and after-dinner speakers, besides the grand ladge officers, were Bro. J. Gaw of Kemptville, Bro. Rev. R. C. Archer of Cardinal, Bro. C. Dewland of Williamsburg Bro. A. E. Bell, P.D.D.G.M., of Brinston and others. Bro. Robinson, D.D.G.M. and South Mountain lodge were highly complimented on their enterprise in securing the large class of candidates. Bro. F. Gilroy expressed the appreciation of the gentlemen to the ladies of the institute for their efforts in preparing the banquet.

CHEESEMAKERS ELECT OFFICERS

The annual meeting of the Ottawa Valley Cheesemakers' Club was held at Greely on Friday evening with a large attendance of members Mr. James Mitchell presided with George Brown, of Ormond, in the secretary's chair. The auditors' report was presented during the evening and showed that the club had a balance on hand of $39.

In addressing the meeting, Mr. Mitchell gave the cheesemakers, a few good pointers regarding the making of fall cheese, while James Sanderson, of Oxford Station spoke on the marketing of cheese in England. He said that the cheese made in Canada this year was of a much higher quality than that made in previous years, and that this was one reason why the product had found a better market in the Old Country. He urged the makers to pay strict attention to the quality of cheese they were making, as the higher grades always demanded higher prices.

Officers elected for a new term were: President, Thomas Olmstead, of Leonard; vice-president, S. A. Kinnaird, of Osgood; secretary-treasurer, George Brown, of Ormond; directors, Homer Scharf, of Edwards; Jack Kyle of Vars, and George Brooks, of Greely; auditors, Arthur Folkard, of Vernon, and Harry Beckstead of Russell.

TOO SOON A BRIDE

By MARJORIE B. PEREGRINE

Lola Brewster wins a high school education by working as a housemaid, but is dragged back into the sordid shanty life of her family by her mother's illness. Jerry Hughes, whom she loves, sees her there and she sends him away. She obtains a job as singer with a small-time orchestra and makes good. She writes to Jerry to call him back to her.

CHAPTER VI

Lola's heart sank. The letter read:

Darling: I never dreamed you would think I was running away, the day I left you. It was only that you seemed so hot and wretched, and that the only kind thing I could do was to leave until another day.

Unfortunately, when I reached home, Father had his heart set on one of those sudden hunting trips. Before I had time to think, we were up in the Peace River country, travelling by canoe and portage.

We've just got "out" and I found your letter in a stack of forwarded mail here.

Cheer up, Dearest. It won't be long now. We're starting for home in a week or two.

All my love.

Jerry.

Lola sat down suddnely on the edge of the bed. The letter dropped from her hands. Jerry hadn't deserted her! He hadn't despised her. Her hands felt like ice. She had been a fool. Jerry loved her and she had let herself be married to someone else!

She buried her head in the pillows and wept.

Lakeside Park was a typical summer amusement place, with a dance pavilion overlooking a big lake. At night, the water reflected hundreds of white lights strung on the roller coaster and the star ride.

The park even had a small hospital. Lola discovered it quite by accident. It was after practice and she was hurrying down a cement walk. Unheeding, she stepped on a stray stone and fell to her knees.

She got up, and stepped behind a trellis on the side of the walk. There she lifted her skirt to inspect the damage. A cheery voice called to her.

"Come in and let me dab a bit of iodine on that spot, girlie."

Lola looked up, surprised, and saw the white door labeled "Hospital." Inside was a small, white room, complete and efficient. A broad, motherly nurse, with graying hair, smiled at Lola.

"I'm Mrs. Harris," she said. "Here, put your foot up on that chair and let me have a look at your knee."

Lola obeyed, introducing herself as she rolled down the torn stocking.

"Miss Brewster, eh! well I'm glad to know you. Come in here and rest any time you feel like it."

When Lola left, she had promised the nurse a return visit. Already, she felt more at home at Lakeside.

By midnight, the park had completely won her heart. The crowd liked her voice and followed her numbers with billows of applause and calls for "more."

"You're a big hit," Chase told her as they left the dance pavilion. "You're going to make money for the orchestra."

But when Lola asked for her key at the hotel, the clerk shook his head.

"Mr. Wiley has it."

Lola murmured a "Thank you," and hurried to the elevator When she reached her room. Chase stood in the intervening doorway, lounging comfortably in his bathrobe.

"What are you doing in my room?" she demanded coldly.

"What would any husband be doing in his bride's bedroom?" Chase mocked.

With a movement so quick, the surprised Chase had no opportunity to meet it, she leaped against him with her full weight. He went sprawling to the floor in the roor beyond.

Lola slammed the door and locked it. She could hear him pick himself up, muttering.

The succeeding week was a hideous nightmare. Lola guarded her room key, refusing to turn it in to the desk. But hardly a day passed that Chase did not catch her alone and insult her with his kisses and importunings. Her hatred of him grew hourly, her fear of him enlarged every moment. Had she known where to go if she left him, Loua would have deserted the orchestra.

There came a day when Chase announced that the orchestra would leave Lakeside at the end of the week for a small-town engagement. The men grumbled. They had hoped for something better.

"Shut up, you fools!" he shouted. "If you don't like this orchestra, you know what you can do!"

They wrangled and fumed until Chase left them in a fury.

A few moments later, he came on Lola in a sheltered corner of the pavilion porch. She would have fled, but he caught her arm and forced her to face him.

"Please, Chase. Please." she gasped. "You're hurting my arm."

Chase gripped harder. "Listen to me, Mrs. Wiley," he sneered. "This is the end of your nonsense. Tonight, I'm coming through that door if I have to knock it down."

"You wouldn't dare!"

"Dont fool yourself. I've been patient long enough. Whether you like it or not, you are my wife!"

He laughed harshly, and let her go.

She sang that night in a haze of terror. Nothing was real except Chase Wiley's threat. Her last song died away, and she heard the orchestra go into its good-night song. In another five minutes, she would be going home with Chase Wiley! Her blood seemed to freeze.

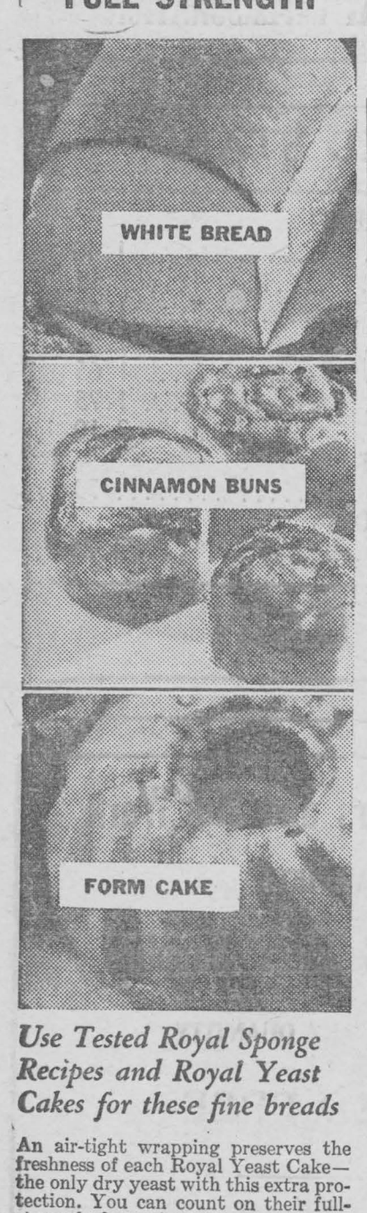

She suddenly sprang to her feet. She worked her way to the side of the platform and down the steps. She was off the dance floor, running across the pavilion porch, down the steps into the park. Chase would be after her the minute the orchestra stopped playing She looked about for a place to hide.

If You're Told to "Alkalize"

Try This Remarkable "Phillips" Way Thousands are Adopting

On every side today people are being urged to *alkalize* their stomach. And thus ease symptoms of "acid indigestion," nausea and stomach upsets.

To gain *quick* alkalization, just do this: Take two teaspoons of PHILLIPS' MILK OF MAGNESIA 30 minutes after eating. OR — take two Phillips' Milk of Magnesia *Tablets*, which have the same antacid effect.

Relief comes almost at once — usually in a few minutes. Nausea, "gas" — fullness after eating and "acid indigestion" pains leave. You feel like a new person.

Try this way. You'll be surprised at results. Get either the liquid "Phillips" or the remarkable, *new* Phillips' Milk of Magnesia Tablets. Delightful to take and easy to carry with you. Only 25¢ a box at all drug stores.

ALSO IN TABLET FORM:

Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

MADE IN CANADA

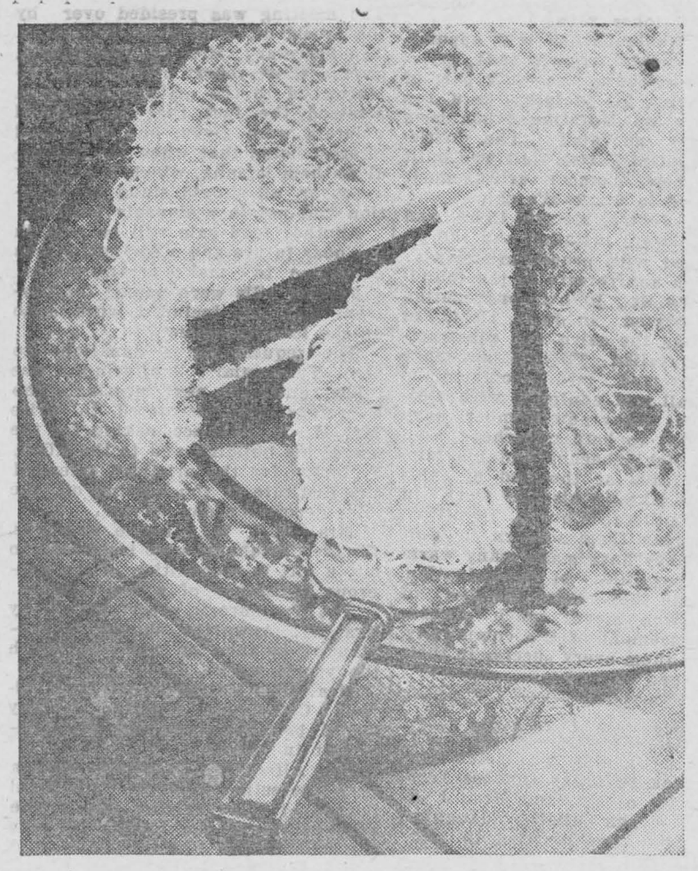

PHILLIPS' MILK OF MAGNESIA

Woman's World

By Mair M. Morgan

A Fashionable Cake

Autumn luncheons may go in for smart color schemes. The table decorations may be crysanthemums in russet shades or rich autumn leaves in rich colorings of red, gold, and brown.

A coconut Devil's Food Cake — dark brown and fluffy white is picturesque with any table color scheme, but certainly adds the right note to an autumn or early winter menu. It is a combination of smooth richness and light flavorsome shredded coconut. You will become famous for cakes with your guests if you serve this at any party.

The rest of the luncheon may be very simple because a dessert such as coconut Devil's Food Cake that combines so many nourishing ingredients is so delicious, it will make a real impression.

Coconut Devil's Food Cake

2 cups sifted cake flour, 1 teaspoon soda, ½ cup butter or other shortening, 1¼ cups firmly packed brown sugar, 1 cup milk, 2 eggs or 3 egg yolks, unbeaten, 3 squares unsweetened chocolate, melted, 1 teaspoon vanilla.

Sift flour once, measure, add soda and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add eggs, one at a time beating well after each; then add chocolate and blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two deep greased 9-inch layer pans or three greased 8-inch layer pans in moderate oven (350 deg. F.) 25 minutes. Spread Coconut Sea Foam Frosting between layers and on top and sides of cake. Double recipe for three 10-inch layers for large party cake.

Coconut Sea Foam

2 egg whites, unbeaten, 1 cups firmly packed brown sugar, dash of salt, 5 tablespoons water, 1 teaspoon vanilla, 1 can coconut, southern style.

Combine egg whites, sugar and salt, and water in top of double boiler, beating with rotary egg beater until thoroughly mixed. Place over rapidly boiling water, beat constantly with rotary egg beater ,and cook 7 minutes, or until frosting will stand in peaks. Remove from boiling water; add vanilla and beat until thick enough to spread. Spread between layers and on top and sides of cake, sprinkling with coconut while frosting is still soft. Makes enough frosting to cover tops and sides of two 9-inch layers, or top and sides of 8x8x2-inch cake (generously), or about 2 dozen cup cakes.

THIS WEEK'S WINNER
Coconut Custard Pie

½ cup fine coconut, 1 cup milk, 2 eggs, 1 cup sugar, 1 tablespoon butter, 1 teaspoon vanilla, pinch of salt ,pastry.

Line a pie plate with pastry; soak the coconut in milk for half an hour; add the yolks of eggs, sugar, melted butter, vanilla and salt; pour into pastry and bake until custard is set. The oven should not be too hot. — Mrs. Clayton Schlueter, R. R. No. 2, Palmerston, Ont.

Attention

We will pay $1.00 on publication for the best salad dish or refreshing drink recipe received.

HOW TO ENTER CONTEST

Plainly write or print out the ingredients and method and send it together with name and address to Household Science, Room 421, 73 Adelaide Street ,Toronto.

Relish Adds Piquant Pest To Simple Meal

A good relish will add a piquant housewife is already beginning to zest to the simplest meal and the accumulate these in her storeroom. With cucumbers plentiful, half peck of small cucumbers might be packed in a stone crock or enamelled kettle, after washing and covered with a weak brine. Make this in the proportion of one cup of salt and two quarts of boiling water. After several days pour off the brine, bring to boil and pour it back on the cucumbers.

At the end of the week remove the cucumbers, pack in glass jars and cover with a pickling liquid made by boiling a gallon of pure cider vinegar with a cup of dark brown sugar and an ounce each of celery, black mustard and white mustard seeds. A small red pepper or two in each jar adds to the flavor and to the appearance. The rule just given is good also for plain mixed pickles.

More Auto Sales Financed in August

OTTAWA— A gain of 22.6 per cent. in volume and 26.1 per cent. in amount was shown in financing of motor vehicles during August compared with the corresponding month last year, the Dominion Bureau of Statistics reported recently.

Motor vehicles financed in August totalled 11,136 and the amount of financing was $4,293,329 against 9,081 at $3,404,783 in August, 1935.

Once you have tasted Christie's SULTANAS

you'll appreciate why nearly everybody likes their fresh fruit flavor so much. They are packed full of plump, *uncrushed* Sultanas and baked to a delicious, delicate crispness. That's why they're so extra good.

Christie's Biscuits

"There's a Christie Biscuit for every taste"

GUELPH, ONT.—Freshmen at the Ontario Agricultural College here are forbidden to speak to members of the opposite sex under pain of dire penalties, as part of their initiation rites this term. They are not allowed to smoke and must carry their school books in a fruit basket. They also "fag" for their superiors.

NO NEED TO RUB AND SCRUB

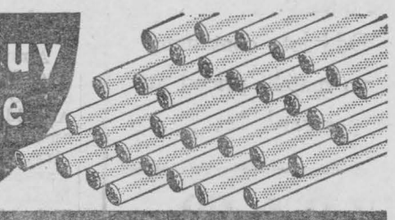

Gillett's Pure Flake Lye takes off those ugly yellow stains and won't harm enamel or plumbing. Once a week pour it full strength down toilet bowls and drains. It kills germs, banishes odors as it cleans. Frees trap and drainpipe from obstructions. And use Gillett's Lye in solution* for all kinds of heavy cleaning tasks. It *eats* dirt. Saves you hard work. Always keep a tin on hand!

*Never dissolve lye in hot water. The action of the lye itself heats the water.

FREE BOOKLET—The Gillett's Lye Booklet tells dozens of ways this powerful cleanser and disinfectant makes housework easier. Also tells how to make good soap at home and gives helpful information on farm sanitation. Write for a *free* copy to Standard Brands Ltd., Fraser Ave. & Liberty St., Toronto, Ont.

Buckingham FINE CUT

SUNDAY SCHOOL LESSON

CHRISTIANITY AS LOVE.—Acts 18: 1-4; 1 Corinthians 13: 1-13.

Golden Text.—Now abideth faith, hope, love, these three; and the greatest of these is love. 1 Corinthians 13: 13.

THE LESSON IN ITS SETTING.

TIME.—A.D. 51, 52.

PLACE.—The city of Corinth, in the lower part of the Greek Peninsula, about forty-five miles from Athens.

"After these things he departed from Athens, and came to Corinth." Corinth had perhaps the largest population of any city which St. Paul had as yet visited with the exception of Antioch in Syria.

"And he found a certain Jew named Aquita, a man of Pontus by race, lately come from Italy, with his wife Priscilla, because Claudius had commanded all the Jews to depart from Rome: and he came unto them." What great surprises he has for us in the moments of discouragement! Paul had not been in Corinth long before he met a certain Jew, Aquila, and his wife, Priscilla, who had been driven from Rome by the edict of Claudius.

"And because he was of the same trade, he abode with them, and they wrought; for by their trade they were tentmakers.No higher example can be found of the possibility of combining diligent labor with the utmost spirituality of mind.

"And he reasoned in the synagogue every Sabbath and persuaded Jews and Greeks." Paul worked with his hands, as he tells us in 1 Thess. 2: 9, that he might not be a burden to the Christians with whom he labored, but his week's toil never diverted him from the great business of his life—proclaiming the Lord Jesus Christ.

"If I speak with the tongues of men and of angels, but have not love, I am become sounding brass, or a clanging cymbol." Paul simply means to say that if he had the very eloquence of angels, speaking on the loftiest themes, and yet did not utter the divinest truths in love, it was only noise.

"And if I have the gift of prophecy, and know all mysteries and all knowledge; and if I have all faith, so as to remove mountains, but have not love, I am nothing." Though a man should be used as a channel for direct revelation from God, profoundly versed in the deepest mysteries of life, and even powerful in faith, and yet is void of love, he is to be reckoned simply as nothing. Whatever God may be pleased to accept through such a man, he is personally worthless.

"And if I bestow all my goods to feed the poor, and if I give my body to be burned, but have not love, it [redacted] with self-conceit.

"Doth not behave itself unseemly." The phrase means to behave in an unmannerly or untactful way. "Seeketh not its own." Love refrains from demanding precedence, recognition, applause, even the consideration which might rightly be expected. "Is not provoked." Love is not embittered by injuries, whether real or supposed. "Taketh not account of evil." Love does not register evil. It stores up no resentment and bears no malice.

"Rejoiceth not in unrighteousness, but rejoiceth with the truth." (See Psalm 5: 4, 5; Hosea 7: 13; 2 Thess. 2: 12.) Professor Moffatt has very beautifully translated these words as follows: "Love is never glad when others go wrong; love is gladdened by goodness."

"Beareth all things." Literally this passage means that love is proof against all things. Love protects one from foes and crushing troubles when one has to endure them. "Believeth all things." Not that a Christian should knowingly and willingly suffer himself to be imposed upon, not that he should deprive himself of prudence and judgment so that he may be the more easily deceived; but that he should esteem it better to be deceived by his kindness and gentleness of heart than to injure his brother by natural suspicion. "Endureth all things." Patient even in moments and days and long, long years when hope is deferred, love grows not weary under the burden of prolonged delay, it holds fast, hopes on, bravely perseveres.

"Love never faileth: but whether there be prophecies, they shall be done away; whether there be tongues, they shall cease; whether there be knowledge, it shall be done away." Prophetic utterances will one day cease because there will be no need for them. All predictions will be fulfilled.

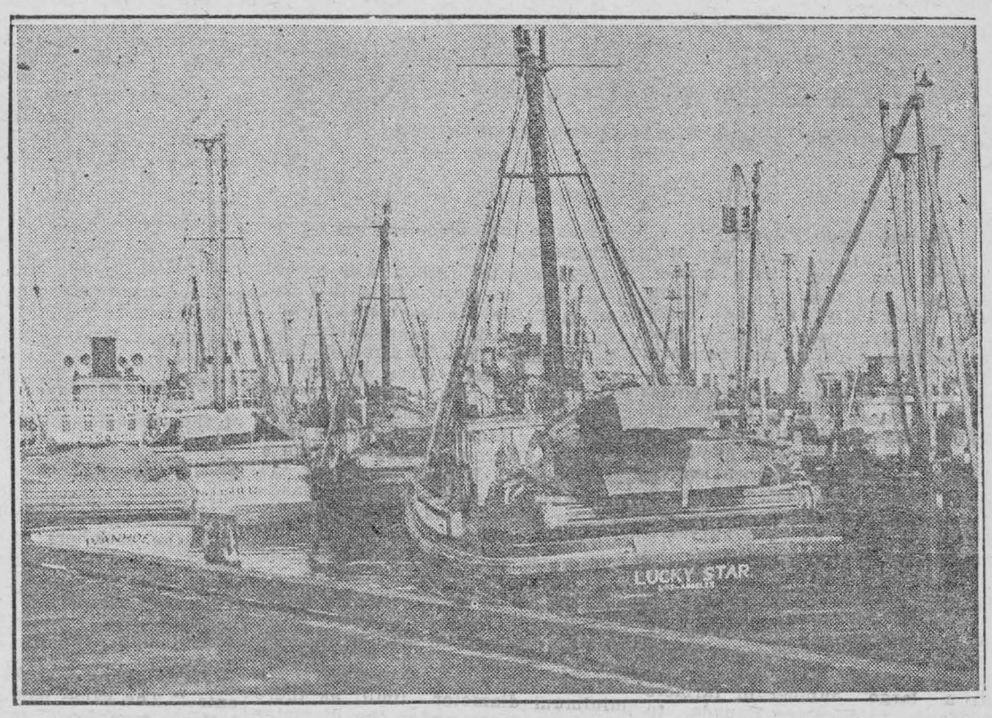

"For we know in part, and we prophesy in part. But when that which is perfect is come, that which is in part shall be done away." We do not know all there is to know about the universe, but as knowledge becomes more and more perfect, partial knowledge passes away.

"When I was a child, I spake as a child, I felt as a child, I thought as a child; now that I am become a man, I have put away childish things." A man's knowledge is so much greater than a child's, and, consequently, when reaching maturity, childish conceptions are put away.

"For now we see in a mirror, darkly." The little conjunction for should not be passed by: It confirms the preceding illustration; for, as childhood to manhood, so this life to the life to come. "But then face to face." Our knowledge in glory will be immediate, intuitive, without imperfections. "Now I know in part; but then shall I know fully even as also I was fully known." (See especially John 13: 7 and 1 John 3: 2.) Heaven is the place where all our questions are going to be answered, and all our doubts and challenges met.

"But now abideth faith, hope, love, these three; and the greatest of these is love." It is wrong to say that faith and hope will have no place in heaven, and Paul does not say this. In fact, he says that all three—faith, hope, and love abide, but that, of the three, love is the greatest. Love believes all things, and hopes all things. Furthermore, faith and hope may be said to be human virtues, while love supremely is a divine virtue, the very character of God (1 Cor. 8: 3; 1 John 4: 8, 16).

All Quiet Along Waterfront as Trawlers Wait For Strike To End

Strike of fish butchers and drivers employed by San Francisco wholesale sea food firms resulted in tie-up of these deep sea trawlers of city's picturesque fishing fleet. Crews and ships are idle while waiting for settlement of controversy.

Hitting Below the Belt?

Writes the Chicago Tribune. England's cooks, it has been learned on unimpeachable authority, have gone to work by thousands in the munition factories. So says Mrs. Anna Steese Richardson in The Woman's Home Companion. What Britain lacks in man power will therefore be more than balanced by the potency of her munitions. Projectiles of a weight hitherto unimagined will be produced in stupendous quantity. The explosive powder of British shells will stun the world. Cowering statesmen will crawl to Downing Street begging for peace on any terms. They will eat humble pie. They will risk it, knowing that the cooks were not concerned in its preparation. The new instruments of annihilation cannot yet be described in detail, but their general nature can be adumbrated. A dessert served at a famous inn in the Cotswolds bears the tantalizing name, "Spotted Dog."| Even in a sporting arm it is deadly at ranges up to a thousand yards. Dogged does it. Who but an English cook would have discovered the lethal value of cabbage leaves? But then, who but an English cook would have thought of subjecting cabbage leaves to the mercies of a machine used in other lands for forging steering knuckles?

"Science means power, but science has given no consideration to whom that power should be entrusted and to what end it should be used."

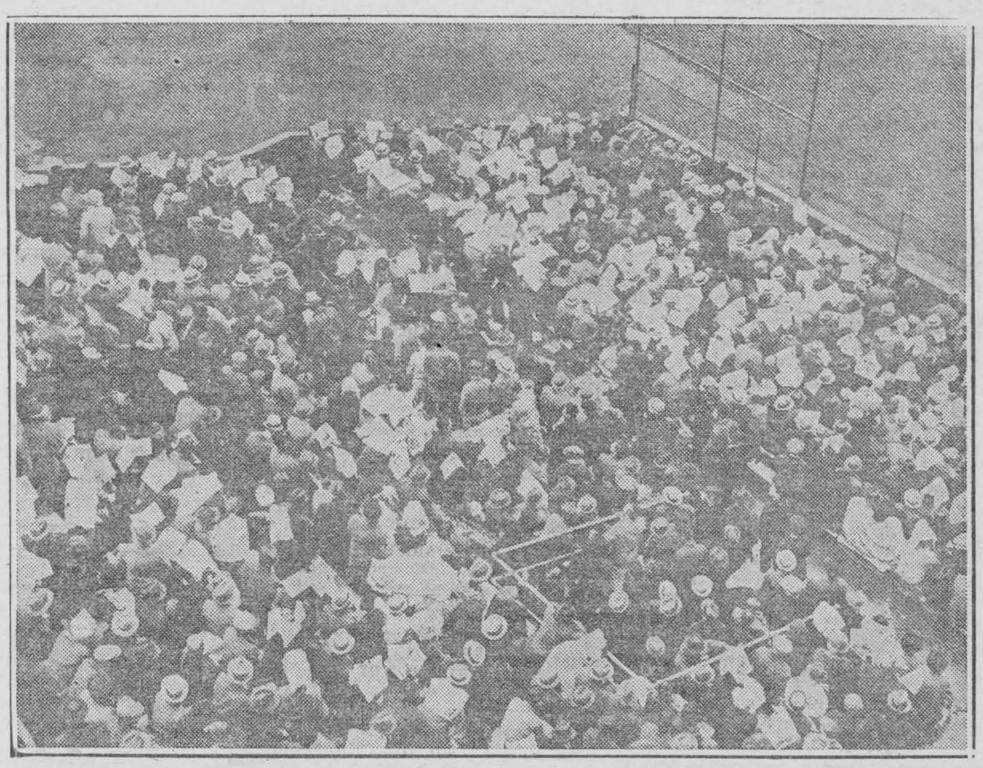

—Sir A. Daniel Nell.

B.B.S. Chief For Canada

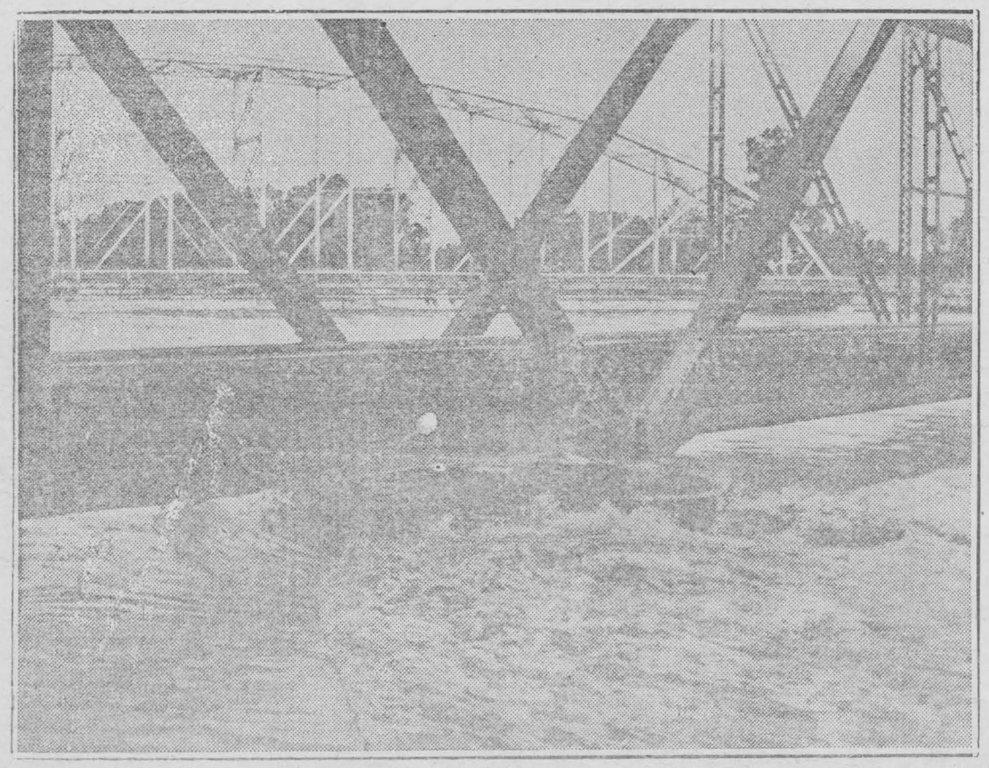

Major W. E. Gladstone Murray, assistant controller of programs to the B.B.C., has sailed to take up his appointment in November as manager of the Canadian Broadcasting Corporation. Major Murray, who is 43, was appointed public relations officer to the B.B.C., and director of its publications in 1924. This picture shows Major Murray with his wife and two children, Ian and Ann, photographed just before sailing.

Excitement Fever Offsets Rain and Cold

Unmindful of the downpour and the bone-chilling cold, these fans, poorly protected by newspapers, sat through the nine exciting innings of the World Series opener at the Polo Grounds.

Texas River On the Rampage

Racing waters of the Brazos River lapping bridges at Waco, Tex., as flood reached crest. Martial law was declared in the inundated city after more than 2,000 persons were driven from their homes when waters poured through levee and covered eastern part of Waco.

Lost For 30 Days in the Canadian Wilds

Left to right, Joseph Forty and Sheldon Coleman, two Canadian Air Force pilots, who were rescued September 17 after spending 30 days on the shore of lonely Point Lake, and Mechanic Hartley, of the rescue ship. Flying over the Canadian barren lands their compass became erratic as a result of a load of metal they were carrying. Confused and out of fuel, they set their plane down on the lake and waited for a recsue party to find them. This is the first picture to come from the lonely lake.

News And Information For The Busy Farmer

Furnished by the Ontario Department of Agriculture.

Current Crop Report

A heavy frost in many sections of Ontario on Sept. 24th caused widespread damage. In North Simcoe practically all the corn was very badly frozen. Potato tops were also frozen off, as well as most garden and vegetable crops. The result will be a light yield of potatoes. Buckwheat also suffered considerable damage. Wellington County potatoes were likewise damaged by frost. In Norfolk County nearly helf of the unharvested ttobacco was ruined and the yield will be only 50 per cent of the 1935 harvest.

Fall wheat generally appears to be in excellent shape. Impravement of pastures resulting from heavy rains during September has greatly benefitted livestock. Some bloating on green alfalfa is reported. From Middlesex comes the report that quite a large number of farmers have gone to Western Canada to purchase feeders under various plans of government assistance. Oxford notes a considerable increase in milk yield in September. Silo filling is progressing rapidly in most districts. Welland and Wentworth did not suffer much from the frost. With the tomato and canning corn harvest on, factories are working to capacity in Prince Edward County. Temiskaming district reports oats running around 45 bushels per acre, barley 30 and wheat 25 bushels. From twenty to thirty trucks of fruit and vegetables are coming into that district over the highway daily.

Voice of Youth" at the Royal Winter Fair.

The "Voice of Youth," in a double sense, will be heard at the Royal Winter Fair next month when youthful orators, chosen best in the nine provinces, will compete in a contest recalling some of the features of the ancient Greek schools, the Roman forum, the medieval Troubadors and today's contests of the Welsh Bards.

Lacol competitions are now being conducted in all provinces with the aid of Departments of Agriculture for the selection of provincial speakers. Finals are to consist of ten-minute addresses by the young orators delivered in public at the Royal Fair. The judges, who are prominent elocutionists, will make their adjudication on oratorial merit 30 points to be awarded for quality and suitability of the subject and content of the speech, and 70 points for the manner and effectiveness of delivery.

This departure in the scope of the Royal has been arranged under the general plan of dedicating this year's Fair to "Youth in Agriculture." It was felt that the Royal could add something like a new service to the "higher education" in agriculture which has been a feature of its aim for the past 15 years, and is motivated by the desire that the vital relationship of "Youth in Agriculture" should be realized by the Canadian public—in other words, that the claims and aspirations of youth should be set forth by the "voice of youth" itself. The Royal's plan is being co-ordinated with admirable work being done permanently by the Canadian Council on Boys' and Girls' Club Work.

Mining or Cropping the Woodlot
By I. C. Marritt

The clean cutting of woodland is a very short-sighted policy as over a period of years a far larger growth of wood and therefore higher financial returns would be secured if a system of selective cutting were followed.

The cutting of all trees on an area was proper in pioneer days when it was the intention to clear the land for agricultural crops and pasture, but it is economically wrong if it is the intention to keep an area in productive woodland.

Thee ae seveal other reasons why owners continue to sell woodland in this way. It gives substantial financial returns and it is the easiest method to sell a woods. Prices per acre vary from $25,000 to $200.00 per acre, depending on the size of the trees, the species, the density of the stand and the available supplies of fuelwood in the district. Farmers who do not own a woodlot approve of this method, as they do all the work during the winter when other work is not pressing.

Owners should consider carefully before they sell woodland as they reduce the income from a woods considerably by allowing the small trees to be cut. Trees 1-5 inches in diameter have a comparatively small value for fuelwood, but they have a high potential value, as they are many years old and have reached the size when they are putting on appreciable wood growth. This is shown very conclusively by a table that gives the number of trees in different diameter classes that are necessary to yield a standard cord of fuelwood. This table gives the following figures:

2 inches	170 trees
5 inches	35 trees
10 inches	6 trees
15 inches	2.5 trees
20 inches	1.2 trees
24 inches	7 trees.

A tree will grow from 5 to 10 inches in diameter in a much shorter period than it takes one to grow from a seedling to a tree 5 inches in diameter. If it required the same number of years, it means according to the table that a tree puts on six times the volume of wood growth when growing from 5-10 inches as it does from a seedling to a tree 5 inches in diameter.

It is a much better financia lproposition to have an income from a property every year or periods of 10-20 years rather than every 30-50 years as is the case when the woods is cutclean.

Another vital reason why woods should not be clean cut is that the land is liable to be cleared and people are realizing more every year that too much land is already cleared. The farmer often pastures a clean cut wood in order to secure revenue from the land. The stock browse the young trees. If the land is sandy, shallow, swamp or is on a steep hillside it will be found in the swamp, waste or barren classification rather than the valuable woodland classification.

A much better method of selling woodland is to follow a seleetive system. This may be a minimum diameter limit or the trees that are to be removed may be marked by blazing or daubing them with paint. This is much to be preferred to a minimum diameter limit, as there are many trees under the diameter limit that should be cut and others above that should be left, as they are healthy and are at the stage when they are putting on the maximum and also more valuable wood growth.

Lime for Soil

Limestone is required on many sent acidity but also to replace lime used by plants and lost annually by leaching. Every four years, it has been estimated, more than a ton of limestone per acre is taken out of the average soil by crop removals and leaching

Loading Horses

When horses are loaded crosswise into an open motor-truck, they are safer if their heads are towards the outside of the road. Reports tell of horses seriously injured by passing traffic—often another truck—when the horses had their heads towards the centre of the road. The danger is greater at night.

O. A. C. Staff Changes

Two senior members of the faculty of the Ontario Agricultural College, Guelph, retired from active service on October 1st, namely, Dr. Robert Harcourt, head of the Department of Chemistry, and Prof. Dan Jones, head of the bacteriological department. Dr. Harcourt had a record of 43 years service on the staff. That both will be missed is indicated by the words of Dr. G. I. Christie, College principal, commenting on their retirement: "It means a great loss to College work. They have rendered not only distinct service in heir fields of endeavor, but have been strong, helpful associates with the students, staff and people of the province.

Youthful Oratory For Royal Winter
Healthy Spring Pigs

The protection of large numbers of healthy spring pigs is dependent upon good feeding, care, and management of the boar and sows during the winter. First of all, the problem of correct mating is one which always confronts the livestock breeder. Presuming that the sows are of good bacon type, it is the responsibility of the breeder to mate them to a suitable boar, so that the offspring will grow into bacon hogs of the right type.

If the sows are not bred along bacon lines, or have already produced poor progeny, it is now a suitable time to procure one or two gilts to strengthen the sow herd and introduce a good bacon strain. An early start allows two litters to be raised next year. Two litters instead of one will reduce he carrying charges per pig, and this in turn, with average or better conditions, will mean more profit to the breeder.

The boar is a first consideration. He is often impaired by under or over-feeding, and by confinement in small quarters. He should be able to exercise out of doors all the year round, in addition to a dry, clean bed free from draughts during the winter.

The best advice for feeding the sows is a repetition of the old maxim—feed according to the condition of the sows. The feeding practice should be to bring the sow through the winter in medium flesh. The feeds used must of necessity be made up largely, if not entirely, of the feeds available on the farm. Successful feeding depends upon combining these feeds in suitable proportion sand the employment of only a minimum of expensive purchased feeds.

Weed Impurities Spoil Crop Report

The matter of seed crop selection is no wdoubtless engaging the attention of farmers who hope to obtain a cash return from seed production. Certain crops have, of course, been planned and seeded for this purpose. These will include cereal crops principally. Selection of seed crops made at about this time will include such kinds as timothy, red clover, alsike, alfalfa, sweet clover and other forage crops. If consideration is being given to the savings of any of these crops for seed, certain factors should be taken into account. Perhaps the first and most important of these is the quality of the seed likely to be produced as determined by freedom from weed seed impurities.

In order to obtain the greatest return from seed production, it is important that the quality of the seed should be he highest obtainable. Too often seed production proves unprofitable, the reason being that the crop was either unsuitable or was not properly prepared for seed production. The seeds of certain weeds are so difficult to separate rom grass and clover seeds that the removal of the weeds themselves from the seed crop, by rogueing or hand pulling, is the only means of of dealing with them successfully. This may be done profitably sometimes, but not always. Other seeds are not only difficult of separation, but are of the noxious class and are, therefore, objectionable in seed of the highest grades. Ox-eye daisy is one of these, and timothy in which this weed is present should not be saved for seed. Bladder campion, white cockle, couch grass, wild mustard, nightflowering catchfly, false flax, ribgrass and wild carrot are also of this class and therefore seed crops of alsike, alfalfa, red clover and sweet clover containing these weeds cannot be expected to give profitable returns.

275 DELEGATES ATTEND W. I. CONVENTION

Two resolutions, requests to the provincial government, were voted on at the Thursday morning session of the three-day convention of the Eastern Ontario Women's Institute convention, which is meeting at the Chateau Laurier.

Bonnechere Valley branch of the institute sent in a resolution saying that the members of that branch feel that the old age pension is not being administered fairly and they resolve "that an investigation be requested to be made into the administration of old age pensions, where families are enjoying luxuries and are all able to keep their parents." The same banch has a resolution regarding married women working when single women are idle and the resolution reads: "Resolved that married women, whose husbands are able to provide for them, cannot hold public positions, work in offices, clerk, teach schools, or work in factories.

Regarding school children a resolution which if approved, will be forwarded to the government, reads: "Resolved that country school children try their entrance examinations in their own schools rather than going to a strange school."

There were about 275 delegates in Ottawa attending the convention and they represent 124 branches. A splendid program was outlined for the meetings, which were well attended. Mrs. J. K. Kelly of Almonte was chairman of the convention and Mrs. J. H. Earl of Spencerville presided at Tuesday's session. Mrs. T. J. McDowell of Milverton, president of the Federated W.I., was introduced by the superintendent. Miss Bess McDermand of Toronto. The report of the secretary-treasurer was presented by Mrs F. Graham, North Gower, standing committees presenting reports were as follows: community activities and relief, Mrs. E. Halpenny, Ferguson's Falls; Canadianization, Mrs. P. T. Munro, Maxville, and legislation, Mrs. Lee Harkness, Brinston.

Excellent Reports

Miss McDermand congratulated the conveners upon the excellence of their reports and said that such records were necessary for the determining of a program for the year. She stated that reports should have initiative and the ambitious and the branches should always remember that the groups are formed for various kinds of service in the neighborhood. The most outstanding need in the community plays a great part in preparation of the year's program she said, and she urged that the educational side of the work should be promoted. Speaking of the relief which is done by the various branches Miss McDermand thought the W. I. should decide if their work is one of long vision or rather of merely meeting the day's needs. One of the most important parts of th elegislative committee is to study government acts, and each braneh should have an active study program, she said.

A round table discussion was led by Mrs. Kelly and the resolutions were presented by Mrs. Lee Harkness of Brinston.

Extensive Work

The more extensive work which is being done for the Women's Institutes by the provincial Department of Agriculture, was explained in detail by Miss McDermand at the evening meeting. Last year twenty-seven short courses for adults were held and this year there have been 150 and there are also 65 districts in the province which are organizing training schools for local leaders. Ten communities were represented in each district and the work featured comprises various phases of homemaking. Miss McDermand said that progress in the W. I. should no longer be construed in growth in membership, but rather effectiveness and increase in service to the members themselves as well as their relief work. There are now 42,000 members in Ontario and she stressed the homemakers' work which had been accomplished.

"The Women's Institute," she said, "is more than a technical school or an academy—it furnishes an organization through which women may express themselves." She explained the manner in which standing committees may organize work in the various units and gave a brief review of the functions of such committees.

Welcomed by Mayor

His Worship Mayor Stanley Lewis welcomed the delegates to Ottawa and expressed his keen interest, and that of his colleagues, in the exceptionally good work which is being accomplished by the various branches.

Status of Women

"The Status of Women," was the subject chosen by Mrs. W. Cowling Gullock for an interesting address. The speaker disclaimed the idea, which she said is prevalent, that women taking their place in public life is new, quoting from the Bible. She said that in 1936 fewer women are occupying positions in public life than in the first 1,000 years of the Jewish era, and that the statement used by those opposed to equal rights for women, "that until women are ready to fight for their country they are not qualified to receive equal treatment," was not good enough. During the trouble in Spain women had taken up arms with the men, but it has been found out that every person in the field requires five or six at home to keep him there. He has to be fed, clothed and nursed in sickness, and this burden is taken on by women, as well as assuming the tasks of the absent ones.

Not One in 10,000

"Few women are capable of filling public positions, but that is also true of men," said Mrs. Gullock. Not one man in 10,000 is qualified to represent the people in a public capacity and many, who are in positions of authority today, would serve their country to a greater advantage by digging drains, hewing wood or mind ing sheep." Mrs. Gullock said that the calibre of the mind of man and woman differ, some qualities being absent in each, but that as they work together in private life, so should they work together in public life. Mrs. Gullock told of the work carried on in England since 837, when forty-two per cent of the men and sixty per cent of the women could not write their own names. In 1865 the first Ladies' College was opened and two years later women were allowed to attend the University of London. Due to better education many professions were opened to women and in 1891 compulsory education of children followed. She told of the activities of women suffrage in England and said that when the call came for war the organizations which had been formed for the cause of women, were utilized to aid in the war. The vote to women in Great Britain was given in 1918 and in the following year 200 women were elected to the various boroughs. Recently the women of Canada were accorded full voting rights.

"And so it remains with the women who believe that persons of their own sex have a contribution to make towards the betterment of conditions in their community, to see to it that a suitable woman, capable and willing to act in a public capacity, is whole heartedly supported," she declared, as she spoke of the outstanding positions which have been accorded recently to women in Canada.

Mrs. G. E. Moodie of Wales thanked Mayor Lewis for his address of welcome. A solo was contributed by Mr. Howard Graham and a report on education was presented by Mrs. W. F. Grylls of West meath. Songs were contributed by Mr. Howad Graham, Mr. Graham Brown and Mr. Harold Richardson, a trio, with Mr. Cyril Rickwood, accompanist.

Program Wednesday

At Wednesday morning's session reports were presented and Dr. Florence Dunlop was the guest speaker at the luncheon meeting, taking as the subejct of her talk, "Some trends in present day education." Officers were elected at the afternoon session and reports of standing committees received. "What the future can hold, was the subject of the address which was given in the evening by Miss F. Young, and Mrs. J. T. McDowell also gave a brief address. Voting on resolutions took place Thursday morning and the three-day session closed Thursday noon.

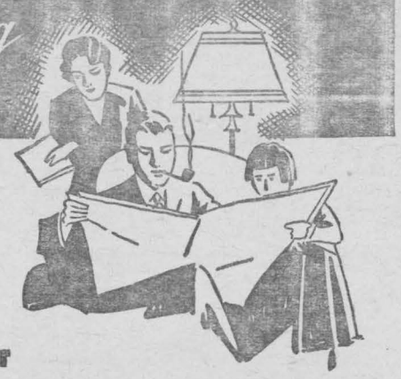

Mrs. A. D. MacDougall of Maxville was elected chairman of the Eastern Ontario Women's Institute at the second day's session of the convention, Wednesday afternoon.

Associated with Mrs. MacDougall in office are the following: Vice-chairman, Mrs. R. S. Wood, Brockville; secretary-treasurer, Mrs. Fred Graham, North Gower; conveners of committees, Mrs. J. K. Kelly, Almonte and Mrs. G. E. Moodie of Wales. Conveners of standing committees are: Education, Mrs. John Gray, Spencerville; health and child welfare, Mrs. Wesley Berry, Cobden; home economics, Mrs. John H. Findlay, Arnprior; agriculture and Canadian industries, Miss E. Cheney, Mountain; legislation, Mrs. M. Hughes, Chesterville; historical research, Mrs. Cora Gray, Berwick; community activities, Mrs. E. Halpenny, Ferguson Falls; peace education, Mrs. G McCullough, Navan; Canadianization, Mrs. Thomas Flood, Vankleek Hill; federated delegates are Miss Bessie Ross, Brockville and Mrs. Elmer Duffy Maberley.

A Great Subscription Bargain that

SAVES YOU MONEY

and gives you year-long enjoyment

Here is a real offer that will save you money . . . Give yourself and your family lasting enjoyment and entertainment the whole year through . . . This is all you have to do.

Select any 3 of these famous Magazines

Our Correspondents

WILLIAMSBURG

Miss Edna McIntosh was the guest of Miss Lee McMillan at her home at Elma recently.

Mr Robert Ferguson of Finch and Miss Eileen Trickey of Williams burg spent last Sunday in Montreal.

Miss Bessie Young returned to New York City on Tuesday of this week after spending the past four months at Sunny Brook Farm, while attending the clinic of Dr. Locke.

Mr. Philip Crombie of Hamilton spent a few days last week and the week-end at Elma, the home of his parents, Mr. and Mrs. Robt. Crombie.

Miss Marion Locke of Queens University, Kingston, spent Thanksgiving holidays with her parents, Dr. and Mrs. M. W. Locke.

Mr. and Mrs. Strader McIntosh and family motored to Chateaugay, N.Y. last Saturday to visit with the former's brother, Dr. J. E. McIntosh and Mrs McIntosh. They were accompanied home by the former's parents, Mr. and Mrs. Edgar McIntosh, who had spent the past two weeks at Chateaugay with Dr. and Mrs. McIntosh.

Miss Hilda Merkley of Queens University, Kingston, spent Thanksgiving holidays with her parents, Mr. and Mrs. Iden Merkley.

Mr. Robt. A. Merkley of Toronto visited with relatives in Williamsburg and district this week.

Mr. and Mrs. R. F. Norval left on Tuesday of this week to visit the latter's sister, Mrs. W. Buckingham at Flint, Mich.

Mr and Mrs. J. C. Fetterly, Miss June and Master Jack of Oshawa, were guests over the week-end of the McIntosh's at Sunny Brook Farm.

Mrs. J. M. R. Strange and daughter of Merlin, Ont. is visiting at the home of her parents, Mr. and Mrs. Luther C. Barkley.

Miss Diana McIntosh and Dick Mc Intosh were guests of their little school chums, Miss Dora Baker and Lyle Baker on Friday last.

Miss Ethel McMillan of Queens University, Kingston spent the week-end the guest of her parents, Mr. and Mrs. F. S. McMillan at Elma.

Mr Melvin Hanson of Springwater, Sask., is visiting his father, Mr. Henry Hanson and Mrs. Hanson.

Mr. and Mrs. Henry Stacey and Mac McKinnon spent a few days recently in North Bay the guest of Mr. and Mrs. J. M. Jarvis and while there visited the "quints" at Callander.

Mrs. Walter Steven and Mrs. Arthur Steinburg of Morewood spent last Tuesday visiting with Mrs. Geo. Strader in town.

Mr. and Mrs. Earl Johnston of Toyes Hill and Mr. and Mrs. Fred Coons spent last week end in Montreal.

The W M. S. of Williamsburg United Church are holding a service of Worship for an Autumn Thankoffering meeting on Sunday evening, Oct. 18th at 7.30 o'clock in the church. Rev. E. C. Lacey of Brinston will be guest speaker and Mrs. E. C. Collison and Mrs. Chas. Strader of Brinston will assist in the singing.

Mrs. Wilson of Spencerville is a patient in a Brockville Hospital, and Mrs. Augustus Whitteker is staying with her.

HULBERT

Mrs. J. J. Thorpe and Miss Mary were in Brockville recently.

Miss Frieda Montgomery of Ottawa Normal School spent the holiday at her home.

Miss Ruth Ellis of Ottawa was home for the week-end.

A large number from here attended the ploughing match in Cornwall last week.

Mr. and Mrs R. Lewis and family of Brinston spent Sunday at the home of Mr. Ed. Adams.

Mrs. Arthur Graham and Mrs. Ralph Adams visited Mr. and Mrs. A. Foster of Strader's Hill recently.

Miss Frieda Montgomery called on Tera Mellan Saturday.

BRINSTON W.M.S.

The monthly meeting of the W. M.S of Brinston United church was held in the church parlors with Mrs. E. C. Lacey president and Mrs. B. A. Brinston as secretary. After the opening ceremonies by the president and roll call, an encouraging report of the result of the Sunshine Basket was read by the secretary. It was decided to receive donations of fruit and vegetables to be sent to St. Columba's House, Montreal, as in former years.

Mrs. Arnold Peterson was appointed delegate to attend the sectional meeting to be held in Vancamp United church on October 21, with Mrs. B. A. Strader as alternate. Arrangements were made to entertain the laymen and ministers at a special meeting of presbytery to be held in Brinston church on October 20th. Arrangements were also completed for the visit of the Mission Band to Spencerville.

Mrs. Russell Thompson, group leader, took charge of a program consisting of opening prayers by Mrs. Ira Cooper and R. Peterson; Scripture reading by Mrs. R. Thompson; devotional leaflet by Mrs Ed Thompson; home missions by Mrs. Alex. Brinston; foreign missions by Mrs. Howard Bell; temperance by Mrs. Arth. Adams; Christian stewardship by Mrs. Robert Sharra; solo by Mrs. B. A. Strader and study book by Mrs. Doug Hanson.

HANESVILLE

Mr. and Mrs. Roy Robinson spent Sunday with Mr. and Mrs. Arnold Feader.

Mr. Harold Gilmer spent the week-end with his brother, Mr. Clifford Gilmer.

We are sorry to report Mrs. R W. Fader on the sick list. We hope for a speedy recovery.

Mr. Russell Tinkess and family and Mrs. McMeomy of Hallville spent Sunday with Mrs. Edge Collison.

Mrs. Jas. Murdock returned home after attending the W.E.T.V. convention at Guelph.

Mr. and Mrs. Wm. Reynolds attended the funeral of Mr. Ed Wynn of Kenmore.

Much sympathy is extended to Mrs. Dave Blair and Hannah in the loss of their beloved husband and father

Mrs. Wm. Barkley is spending a few days with her son Floyd of Mille Roches. We are sorry to learn Mrs. Floyd Barkley is in the hospital and hope for a speedy recovery.

Miss Jean Riddell spent the week-end with Mrs. Lloyd Cook.

MATILDA WOMENS INSTITUTE

The regular October meeting of the Matilda W.I. was held at the home of Mrs.. Chas. Hanson, with Mrs. Douglas Hanson, president, presiding and Mrs. C. McMullin, secretary. There was a large attendance of Matilda members. A special feature was the entertainment of the South Mountain branch and an address of welcome was delivered by the president. The roll call was responded to by "My First School Teacher and School Section." A letter was read from Mrs. J. E. Singleton of Winchester, District Superintendent, requesting a donation to the proposed new sanatorium to be erected at Cornwall, and this branch responded with a liberal grant Mrs. C McMullin was appointed delegate to attend the annual convention to be held in Ottawa this month, with Mrs. Stanley Waddell as alternative. Mesdames H. Bush, P. McQuigg, Alex. Collison, Aubrey Harkness and H. A. Stephenson were appointed committees to take charge of aHallowe'en prank to be held Oct. 30th.

The president gave a report of the mass meeting to consider plans for the erection of a new hall, held in Gilson's hall last week. Mesdames H. A. Stephenson, Ray McCaslin and Cecil Locke, program committee for this meeting, presented the following program: Vocal solo, Miss Ruby Johnston; piano solo, Miss Gordier; paper, "The value of Education" by Mrs. Aubrey Harkness. Mrs. Wm. Robinson, president of the South South Mountain branch, expressed the appreciation of her members for the hospitality extended to them by the Matilda ladies. The hostess for the evening served a bounteous lunch after the National Anthem.

MRS. GORDON OUDERKIRK HONOR GUEST AT SHOWER

Mrs. Gordon Ouderkirk, formerly Miss Gladys Merkley of Finch, was the guest of honor at a shower held recently at the home of Mrs. John Merkley, Finch Village. Mrs. Ouderkirk, after the arrival of the guests was conducted by Miss Annie Campbell to the seat of honor which was adorned with white streamers and placed beneath a large white bell.

A short musical program was then enjoyed consisting of community singing and a solo by Mrs. W. J. Carr. An address was then read by Mrs. Mae Cameron and Mrs. Ouderkirk was presented with a handsome silver tea service and tray, a silver cake plate and a bon-bon dish, to show the esteem in which she was held by her Finch friends. Other beautiful gifts were presented by friends present. A dainty lunch was served by the hostess.

CASTOR DRAINAGE SCHEME COMPLETED

At a special meeting of Winchester Township Council, held in council chamber, Winchester, final reports were received regarding the Castor drainage scheme. The engineer, F. M. Eagleson, informed the council that the scheme was now completed and the final payment of $1,336 was made to Roy Honsberger, the contractor

According to reports presented, over 22 miles of excavation was necessary to complete the job, which was done at a total cost of $63,000, thirty per cent less than the engineer's estimate, and a saving of about $2,800.

Grants totalling $20,600 will lessen the cost to local ratepayers. The drain inspector, Walter Coulthart, of Morewood, was instructed to inspect the drain and to see that no obstructions had occured at any point.

The final payment to Russell Liscombe of Chesterville, for excavation work on the east banch of the Kittle Ceek Drain, was also made.

MOTOR ACCIDENT VICTIM BURIED AT WINCHESTEER

Impressive tribute was paid to the memory of the late Albert Coons, at the funeral, which was held Tuesday afternoon from the residence of his sister, Mrs. Gordon Merkley, to the United Church, Winchester Springs, where service was conducted by Rev. R. S. Smith. The choir was present, under the direction of Mrs. Clarence Thompson, and led in the singing. During the service a duet was rendered by Rev. S. A. Robinson and Mrs. Robinson.

Following the church service, a special ceremony was conducted by members of the Loyal Orange Lodge, under the direction of Ernest Morrow, master of Winchester Springs Lodge, No. 580, and Robert Holmes, director of ceremonies. Interment took place at Maple Ridge Cemetery. The pall-bearers were Howard H. Nesbitt, R. A. Ball, Henry McDonald, Clarence Thompson, Frank Nesbitt and Fraser Bolton

The late Mr. Coons passed away at an Ottawa hospital on Sunday evening, where he had been a patient, following injuries received when he was hit by an automobile on the highway near Winchester Springs on Wednesday last.

Chief mourners and survivors are three sons, Hubert Coons, of Toronto; Eldred Coons, of Fulton, N.Y. and Floyd Coons, of Maine U.S.A.; two brothers, Salem Coons, of Hamilton; Melvin Coons, of Massena, N. Y.; and three sisters, Mrs. Joseph Liberty, of Ottawa; Mrs. S. Hutt, of Berwick, and Mrs. Gordon Merkley of Winchester Springs.

AGRICULTURAL SCHOOL WINTER COURSE OPENS

The opening day of the winter course at the Kemptville Agricultural School found a registration of 36 second year boys and 47 junior boys with 26 girls for the home economics course. Principal J. C. Shearer states this is the best registration the school has yet had and special arrangements have had to be made to accommodate the boys so that all will be in residence at the school. The pupils are mostly from Eastern Ontario while two are from the United States and one from Switzerland. All students were given a medical examination this year to permit them to take part in athletics. Dr. R. A. Ruby was in charge of the examination.

Women's Missionary Society & Sunday School Association

The Women's Missionary Society and the Sunday School Association of the Eastern District of the Canada Synod, met in St Luke's Ev. Lutheran Church, Dunbar, Ont., on Oct. 11th and 12th.

On Sunday evening, Oct. 12th, a Rally Service was held, the liturgy being conducted by Rev. Cronmiller, pastor loci. Rev. Fred Mueller of Montreal preached the sermon. His remarks were based on the text, "I am the Door." On Monday, Nov. 12th, at 9 a.m. the Sunday School Association commenced its business session. Rev. W. A. Mehlenbacher, of Morrisburg, conducted the Devotional Service, after which the president, Mr. George L. Barclay of Williamsburg, took charge of the convention. The following officers were elected: President, George L. Barclay, Williamsburg; vice-president, Linden Shannette, Ottawa.; Secretary, Mr. Haemel, Ottawa; Treasurer, Floyd Fetterly, Morrisburg.

The Association voted $10.00 to- report was given by each school, repot was given by each school, most reports indicating progress. Miss Vivian Barclay of Williamsburg, delighted the convention with a beautiful solo, "Open the Gates of the Temple." Rev Mehlenbacher conducted the round-table talk which proved very interesting. A discussion took place in regard to the Christian Life Course and the Augsburg Series of Lessons. Questions were asked concerning teachers training classes. The Sunday School Session was closed by the pastor loci.

The W.M.S. Convention in the afternoon. Devotions were conducted by Miss Meda Whitteker of Williamsburg, who based her remarks on the theme "Workers together with God" after which Mrs. Sam. L. Casselman, the President, took charge of the meeting. Ten Societies responded to the Roll Call. The Treasurer reported a balance of $13.18. Four papers were given by various members, which will appear in the Canada Lutheran from time to time. Tired Workers, by Mrs. Willis Salmon of Morrisburg; Retired Workers, by Miss Ruski of Ottawa; Tiresome Workers, by Mrs. M. E. Schwerdfeger, Riverside, and Tireless Workers, by Mrs. G. L Barclay, Williamsburg.

A very pleasing duet was rendered by Mrs. Roderick MacDonald and Miss Beatrice McIntosh, both of Williamsburg, entitled "Jesus Lover of My Soul."

Morrisburg Willing Workers extended an invitation to have the 1937 Convention held in Morrisburg.

Mrs. Mehlenbacher gave a splendid report of the Synodical Convention held at Morrisburg.

The Eastern Conference voted $10 to the Seminary Auxilary, at Waterloo. The following officers were elected: President, Mrs. S. L. Casselman, Morrisburg; 1st vice president, Mrs. Geo. Casselman, Riverside; Secretary, Mrs. Carl Cronmiller, Williamsburg; Treasurer, Mrs. Willis Salmon, Morrisburg.

Rev. Mueller of Montreal closed the afternoon session, by giving a very inspiring address in which Lydia, the first Christian Convert in Europe, was presented as an example of one who worked together with God.

A vote of thanks was tendered to the Dunbar Ladies for their Cordial hospitality.

MATINEE at 3.00 EVERY DAY

THIS FRIDAY and SATURDAY, OCT. 16--17

Gene Autry in "GUNS and GUITARS" with Smiley Burnet Gne the singing cowboy ready to shoot it out and ready to sing it out. Defying the ruthless renegades in a picture full of action and song.
Mickey Mouse Cartoon—Thelma Todd and Patsy Kelly added attraction.

MONDAY and TUESDAY, OCTOBER 19—20

"YOURS FOR THE ASKING" with George Raft, Dolores Costello Barrymore and Ida Lupino—A fight for Laughs and Romance, with a brand newromance team and a quartet of hilarious goofs as the comics, Edgar Kennedy, Lynne Overman, James Gleason and Reginald Owen—Yours for tha asking.

WEDNESDAY and THURSDAY, OCT. 21—22

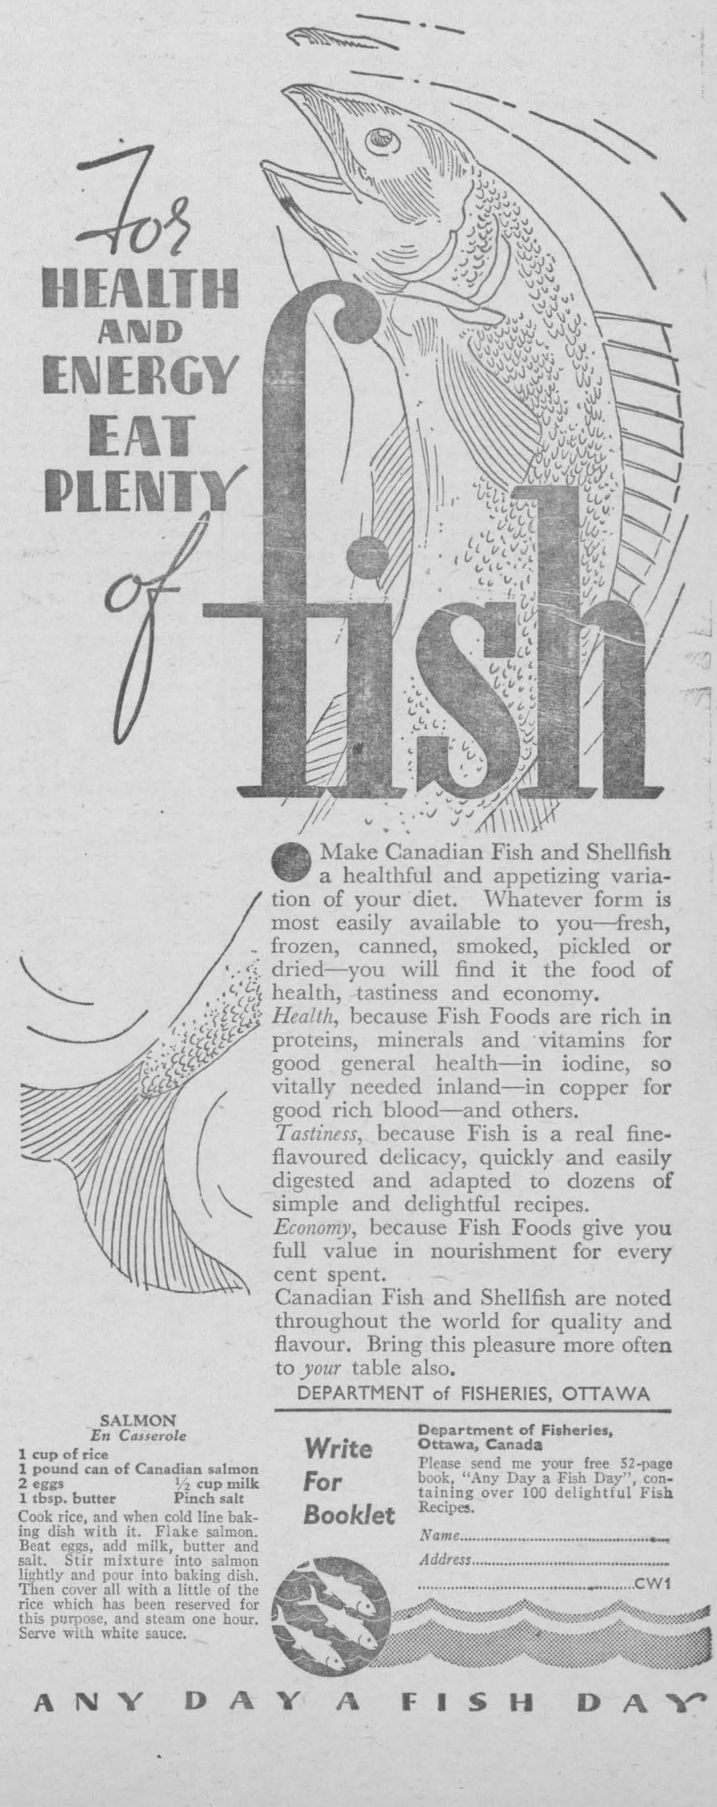

"GENTLEMEN FROM LOUISIANA" with Eddie Quillan, Charlotte Henry, Charles Chic Sale. A race horse picture if ever ther was a natural. Thrills on the home stretch for the rail birds. A thoroughbred of a Picture not to be missed.

FRIDAY and SATURDAY, OCTOBER 23—24

"TEXAS RANGERS" with Fred MacMurray, Jack Oakie and Jean Parker. What a Western, what a cast. Fred MacMurray glorifies the Texas Rangers.
PoPeye Comedy, added attractions.

MIDNITE SHOW SUNDAY NITE

"Yours for the Asking"—Geo. Rapt.—Full Program, 12.15

Make Canadian Fish and Shellfish a healthful and appetizing variation of your diet. Whatever form is most easily available to you—fresh, frozen, canned, smoked, pickled or dried—you will find it the food of health, tastiness and economy.

Health, because Fish Foods are rich in proteins, minerals and vitamins for good general health—in iodine, so vitally needed inland—in copper for good rich blood—and others.

Tastiness, because Fish is a real fine-flavoured delicacy, quickly and easily digested and adapted to dozens of simple and delightful recipes.

Economy, because Fish Foods give you full value in nourishment for every cent spent.

Canadian Fish and Shellfish are noted throughout the world for quality and flavour. Bring this pleasure more often to *your* table also.

DEPARTMENT of FISHERIES, OTTAWA

SALMON
En Casserole

1 cup of rice
1 pound can of Canadian salmon
2 eggs ½ cup milk
1 tbsp. butter Pinch salt

Cook rice, and when cold line baking dish with it. Flake salmon. Beat eggs, add milk, butter and salt. Stir mixture into salmon lightly and pour into baking dish. Then cover all with a little of the rice which has been reserved for this purpose, and steam one hour. Serve with white sauce.

When Youth Goes Wrong

For the year 1920 there were 6,453 convictions (to reformatory or prison) of those known to be between the ages of 16 and 21, and 920 who were supposed to be within that age limit, making a total of 7,373.

Of that number 5,732 were Canadian born. Dividing them by residence it was found that 83 percent. came from urban centres and 17 percent. from rural districts, and that in itself is a rather strong argument in favor of the strength and substance of home life in our farming centres.

Going a little deeper into statistics it was found that 90 percent. of the major offences are stealing and receiving stolen property. From 1930 to December 31, 1935, the major increases in juvenile delinquencies were found to be in automobile cases.—Pterborough Examiner.

Our Forests

"We need," says The Ottawa Journal," "a deeper sense of trusteeship in our natural resources." Ontario, if it is to preseerve its heritage, must in the future take greater care than in the past to protect its forests.—Sault Star.

Her Hero

She was truly pretty and ambitious and had studied the matrimonial problem to a nicety.

"Yes, I suppose I shall wed eventually," she said, "but the only kind of masculine nuisance that will suit me must be tall and dark with classical features. He must be brave and gentle. He must be strong—a lion among men, but a knight among women."

That evening a bow-legged, lath-framed, chinless youth, wearing flannel bags and smoking a cigarette that smelt worse than a burning boot, rattled on the back door and the girl knocked four tumblers and a cut-glass dish off the sideboard in her haste to let him in! —Ottawa Journal.

Needs Explaining

——There is one paragraph in the story of the landing of Dick Merrill and Harry Richman in Wales which has not been explained to the satisfaction of the Scots. Mrs. Evans, the first person who reached the trans-Atlantic flyers, is reported as saying: "As soon as they landed I ran across the field, and the first question they asked me was: 'Is this Scotland?' I told them they were in Wales and they seemed relieved." — Moncton Transcript.

Taking His Bumps

Hon. Mr. McQuesten, Highways Minister, is travelling through Northern Ontario, on a tour of road inspection. That he is not travelling by special railway car, but is taking his bumps over the highways, is indicative that his knowledge of road conditions are likely to register.—Huntsville Forester.

Our Difficult English

——If new Canadians grow impatient over the difficulties of our language let us not be too hasty in condemning them. The next time you find yourself laughing at the clumsiness of the new immigrant just think of the following composition which was once written by a mischevious schoolboy on the term "sleeper."

A sleeper is one who sleeps. A sleeper is the car in which the sleeper sleeps. The track on which the sleeper runs while the sleeper sleeps is also sometimes called a sleeper. Therefore, while the sleeper sleeps in the sleeper, the sleeper which carries the sleeper jumps the sleeper and wakes the sleeper in the sleeper and there is no longer any sleeper sleeping in the sleeper on the sleeper.—Kitchener Record.

All Contributions

Old tooth paste and shaving cream tubes are being collected by the German Government. Teeth cleaners and shavers are told that the tubes are made of metal that is urgently needed to save the foreign exchange. Lloyd George is right. Germany is not prepared for war.—Stratford Beacon-Herald.

Poorly Paid Clergy

The Church of England is said to be the wealthiest institution in the British Empire. It's chief riches consist in land, of which it holds a quarter of a million acres. Some of the land is over coalfields, which yield huge mining royalties. Other church land is in London and in the large provincial centres. This, of course, is worth many thousands of pounds an acre.

The capital value of the Church's property is about £32,000,000. This property and other investments yield an annual return in rent, royalties, and dividends of about £8,000,000. Contributions of the British churchgoers to the various funds of the Church amount to about £9,000,000 a year, making a total annual income of about £17,000,000. In spite of this, the English clergy are not well paid. The average vicar or rector gets eight pounds a week and the average curate less than half of that. —The New Outlook.

"Canada Calling"

The snappy slogan "Canada Calling" has been adopted for the campaign to be launched in the United Kingdom this Fall for the purpose of advertising Canada. Experts say it will be the most concentrated and scientifically directed campaign ever undertaken by a Dominion. The need for such a campaign can hardly be doubted, particularly after hearing what Hon. Vincent Massey, High Commissioner to London, had to say in Toronto. Over there, he stated, we are still thought of very frequently as a land of wide open spaces, given chiefly to agricultural pursuits.—Windsor Star.

Forming Without Earth

Farmers who have watched their farms blown away by the winds in the mid-west of Canada and the United States must have more than a casual interest in the new farming methods reported from the University of California. Prof. Gericke raises potatoes on the campus there at the rate of seventy-five tons to the acre. His fields are wooden tanks, ten feet long, two and one-half feet wide and ten inches deep. His "good earth" is water, diffused with a mixture of eleven chemicals, which combine to produce the hundred diffrent kinds of crops with which he has experimented. Five California farmers installed tanks last spring and are raising potatoes and tomatoes for the market equal to any that are grown on the land. A single ten-foot tank turned out nearly twenty-six bushels of potatoes, or about two thousand six hundred bushels to the acre! But there is little danger of Mother Earth being thrown out of work in the near future by the chemical farmers of California.—The New Outlook.

Our Emigrants

The complete record of Canadian emigration to the United States, as disclosed by the Statistical Abstract of the United States makes interesting, if not very enjoyable, reading:

	1831 to 1870 inc.	268,534
	1871 to 1880 inc.	383,640
	1881 to 1890 inc.	393,304
	1891 to 1900 inc.	3,311
	1901 to 1910 inc.	179,226
	1911 to 1920 inc.	742,185
	1921 to 1930 inc.	924,515
(4 years)	1931 to 1934 inc.	44,318
	Total	2,939,033

With these three million people and their multiple today we would be in the lap of luxury industrially and prosperity individually. — Charlottetown Guardian.

Women in the Cloth

No doubt there is a great deal of excellent work which women can do. There are many situations with which they are admirably fitted to deal with problems of women and girls in the congregation, but whether they would be able to stand the work of a full pastorate is something to which a deal of doubt appears to be attached. The fact that the suggestion has been hanging fire for a good many years is proof that this doubt exists in the inner councils of the church.—Peterborough Examiner.

The EMPIRE

Which Is On Trial?

It was fashionable a few years ago to speak of democracy as being "on trial." In many countries it is no longer on trial, but has been condemned and executed. In this country it is not, and never was (at any rate for the past couple of hundred years) on trial; it is part and parcel of our national life, and something which is behoves us to regard as no less permanent than Herr Hitler's "thousand-year regime." If anything is on trial it is rather dictatorship, for we have still to see what happens to it when the day comes to find the successors of the men whose personality had laid its stamp upon their creations. No country can depend on a perpetual supply of Hitlers and Mussolinis. In their default, will anybody care to say that dictatorship, relying as it does upon a very flexible principle of personal leadership, is likely to prove any more stable than democracy?—London Morning Post.

Air Mail Service Opening In West

OTTAWA — An air mail service between Ile a la Crosse, Sask., and La Loche, Sask., via Buffalo Narrow, Sask., will be inauurated about November 18, the Post Office Department announced last week.

The department has also authorized re-establishment of a regular air mail service between Oskelaneo, Que., and the post office which is to be reopened at Chibougamau, Que.

Canadian Net Debt Is Up $159,989,559

Year's Revenue, $372,542,039; Expenses Are $532,531,598

OTTAWA — The total revenue of Canada for the fiscal year ended March 31 was $372,542,039, according to finance department figures published in the current issue of the Canada Gazette. The grand total expenditure in the same period was $532,531,598.

At the same date the public debt totaled $3,492,893,427. During the year net debt increased by $159,989,559.

With regard to revenue taxation accounted for $315,898,984; with excise taxes figuring at $112,733,048. Income collections were the next highese item of revenue, at $82,709,802. Customs collections amounted to $74,004,559, and excise duty to $44,409,797.

The post office contributed $32,507,888 to the nation's treasury. Other items were interest in investments, $10,614,124; radio licenses, $1,574,431; the Canada Grain Act, $1,213,086; misdellaneous revenues, $10,413,690, and miscellaneous taxes, $2,041,776. Special receipts totaled $319,833.

Some Large Outlays

Outside the interest on the public debt, which was $134,549,169, the largest item of outlay was special expenditure amounting to $102,047,284. This item included unemployment relief disbursements, public works construction acts, loss on the 1930 wheat pool stabilization operations (payments to Canadian Wheat Board of net liability assumed as at Dec. 2, 1935), and the 1930 wheat crop equalization payments.

Disbdrsements for Government-owned enterprizes accounted for $50,904,401. These included $41,795,757 to the Canadian National Railways, $5,625,707 to the C.N.R. eastern lines; $1,126,055 to the Harbor Commissions and $269,969 to the Canadian National Steamships.

Other items in Government-owned enterprises included loans and advances to the C. N. Steamships and Harbor Commissions.

Pensions and national health was the largest spending department, with $54,843,802. The post office came next with $31,437,718; the finance department, including old age pensions payments, accounted for $27,633,739.

Canada spent $17,122,230 on national defence; $13,768,963 on subsidies to provinces; $12,945,277 on public works, and lesser sums among remaining administrative departments.

Married In Nova Scotia 40 Years Ago

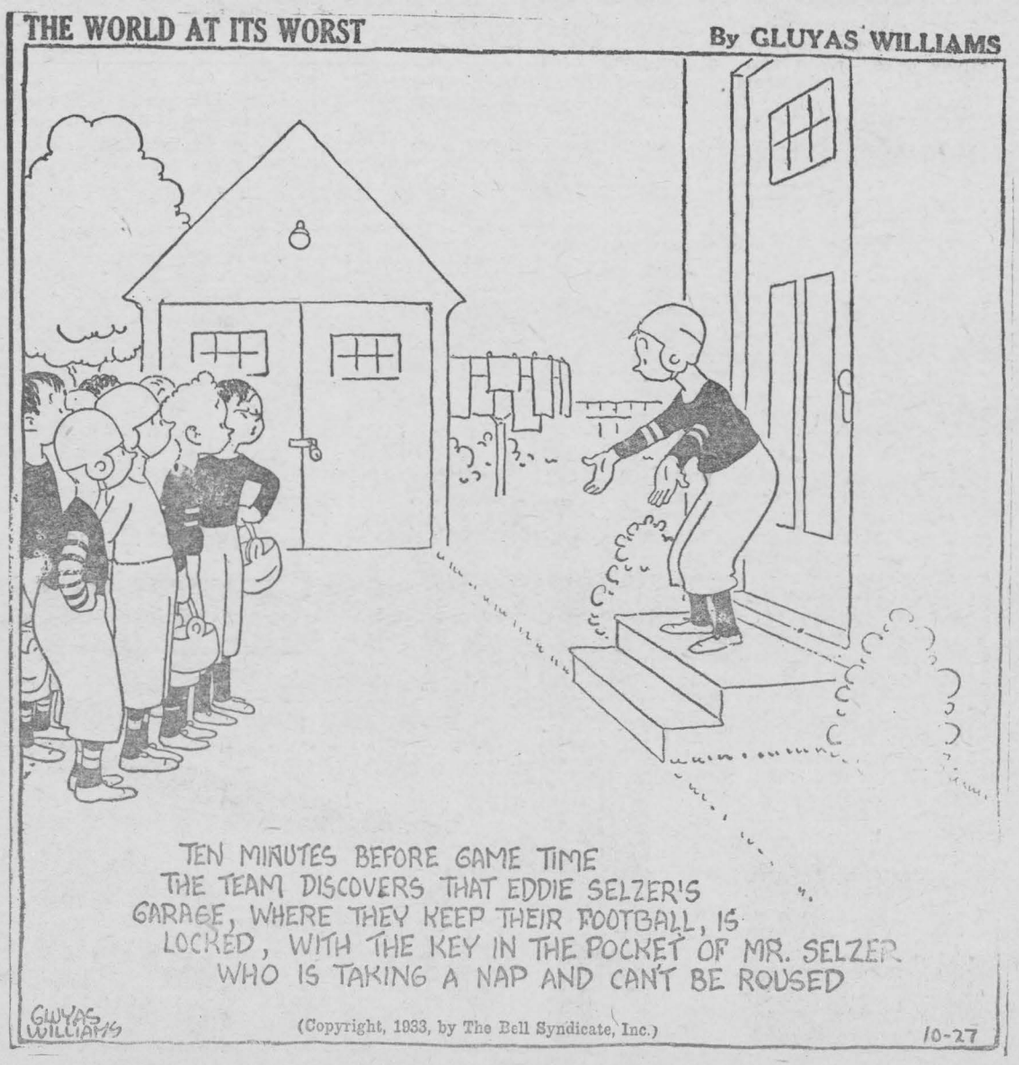

Dr. and Mrs. Reuben O'Brien Have Long Been Residents of New York

New York.—Dr. and Mrs. Reuben O'Brien recently observed the anniversary of their wedding, which took place at Port Williams, Nova Scotia, 40 years ago.

Mrs. O'Brien, whose maiden name was Lillian Cook, is a native of Port Williams. Dr. O'Brien was born at Noel, N.S. He has been superintendent of the Manhattan Eye, Ear and Nose Hospital for nearly 30 years.

THE WORLD AT ITS WORST

By GLUYAS WILLIAMS

Keeping Boys on the Farm

A Canadian official urging support for the development of television, argues that this invention will keep young men on the farms. We venture the opinion that it will not, observes the Detroit News.

The telephone, the phonograph, electric lighting, radio, and a dozen other inventions calculated to enhance rural life have been eagerly hailed by sociologists as magic forces which would securely bind farm boys to the soil. All have betrayed expectations. During the last four decades, when such facilities have multiplied most rapidly, country youths have been abandoning the home acres and flocking to the cities as never before in history. Where the rest have failed it is hardly likely that television will succeed.

The reason is not far to seek. A young man of ability—to his credit be it said—refuses to be confined to a given locality merely by the promise of ease and pleasure. Even at the risk of forfeiting those good things he will depart to fields where he can find exercise for his powers and an outlet for his ambitions. In respect of these opportunities, since 1900 at least, the cities have far surpassed the country, and obedience to their lure is as admirable as it is inevitable.

Moreover, as a matter of hard fact, too many of the inventions which would make life livable on a farm are beyond reach of a young man as long as he remains there. Only when he moves to the city, to gratify his craving for industrial and professional advancement, can he earn money enough to obtain them. From this point of view, it seems that television, with its expensive apparatus, like so many other modern conveniences, will tend to draw the ambitious away from the farm rather than hold them on it.

Assuming the desirability of rural residence for the better elements of our population, the device which will fix them in that status is yet to be discovered. When it is discovered it will be something besides a means of enjoyment—besides a means of enjoyment, at any rate, which the average rural resident can ill afford.

Odds and Ends For Decorating

Modern Lamps, Cigaret Boxes Of Zebra Skin Are Smart

NEW YORK — The woman who wants the very latest ornaments and accessories for her household has at her disposal a new collection of decorative and useful odds and ends designed by an interior decorator. There are lamps and cigarette boxes, modern in design, covered with zebra skin, for the room that needs an accent in black and white. Painted to simulate zebra skin is a funny flat wooden fish, to be set on a bookcase or an end table. Plaster in pale soft tints is made into lamp bases, paper baskets and vases, in modern or period styles. The baskets, which look like draped fabric, are unbreakable. One dead-white plaster lamp is strictly modern in design, with disks graduated in size, larger at the bottom than the top, and a deep live green metal shade that has a curious luminous quality. There are also lamps designed for use on narrow console tables. These are of glass and metal, with shallow, angular shades, so that they may be stood flush against a wall.

No Rights Given To Foreign Firms

Sedgewick Says Canada Does Not Have To Open Markets.

Ottawa.—No concern, particularly not a foreign concern, is entitled to any specified share of the Canadian market for its product, George H. Sedgewick, Chairman of the Tariff Board, said today at a board hearing on steel wool.

Thamesville Metal Products Limited of Thamesville, Ont., applied for an increase in the duties on steel wool, used for scouring pots and pans and for industrial polishing. The company was the only Canadian manufacturer and claimed that if it had 90 per cent. of the Canadian market it could operate successfully and sell as cheaply as American manufacturers did.

Opposition came from American manufacturers, the American Steel Wool Manufacturing Co., the Brillo Manufacturing Co., and the Williams Company, represented by P. J. Jackson.

Mr. Jackson said that the aim of the Thamesville company appeared to be to eliminate the importer and set up a monopoly. This was unfair.

"We are entitled to some share of the market," he said.

"No, you are not entitled to any share of the market," retorted Mr. Sedgewick. "You get what you can get. What share of their market does the United States allow to any outsider whether in Great Britain, France, Canada or any other country?"

E. H. Miller, Secretary-Treasurer of the Thamesville company, said that the duty on steel wool entering the United States from Canada was about 100 per cent. He asked that the duty entering Canada from the United States be raised from 7 1-2 to 25 per cent.

The board reserved its decision.

Men's Shoes Go "Continental"

Rounded Toe and Trimmer Sole Are Newest in Style

NEW YORK—The important news in men's shoes for fall is the tendency toward modification of the American custom last, as interpreted in the past few seasons in terms of exaggerated "spade" sole extension and pointed toes. The new designs, influenced by the "Continental" custom last, display a more rounded toe and a trimmer sole.

This tendency is most apparent in the two leading types of town shoes —the straight-tip shoe with wing-tip and medallion toe. Either is suitable for town and business wear, depending on the color of one's suit. The black shoe goes well with grays, dark blues and most browns, while the brown shoe strikes an especial note of harmony with the brown suit and goes well with bluish grays.

Perhaps the best heavy-duty shoe especially for bad weather, is the thick-soled brown blucher with a waterproofed upper that sometimes consists of two thicknesses of leather.

Brown calfskin or reverse-calf is generally accepted as the most ppropriate leather for sports footwear. Perhaps the leading shoe of this type this fall will be the plain-toe brown buck.

Two models stand out for evening wear—the plain-toe patent leather shoe and the patent leather evening pump with ribbed silk bows.

Iron And Steel Production Up

Large Increase Is Shown In Canada in Eight Months of 1936.

OTTAWA — Production of pig iron, ferro-alloys, steel ignot and castings during the first eight months of this year showed a considerable gain over figures for the corresponding period in 1935, the Dominion Bureau of Statitics reported recently.

Pig-iron production which reached the year's low point in July gained 10 per cent. in August to reach 38,570 tons. The eight months' total was 364,704 last year.

August production of ferro alloys was 9,290 tons compared withe 33,354.

Production in Augusts of steel ignots and castings totaled 80,164 tons compared with 82,488 in 1935. The cumulative figures were 727,657 and 556,752 tons.

"As the world is today, America is the logical place to start the organization of scientific intelligence."

Blinding Headaches Made Her Helpless

Forced to Lie Down For Hours at a Time

Other sufferers from headaches will be interested to read this letter:—

"Until last summer I was subject to very bad headaches. While they lasted I seemed to lose my sight and all power in my hands, and was forced to lie down for hours at a time. My aunt (who has taken Kruschen Salts for 12 years with beneficial results) suggested my trying them. I did so, and I've not had any return of those headaches for months, in fact I feel quite better. I shall always take Kruschen regularly in future."—(Mrs.) M.W.

Headaches can frequently be traced to a disordered stomach, and to the unsuspected retention in the system of stagnating waste material which poisons the blood. The numerous salts in Kruschen assist in the complete elimination of waste matter, resulting in a purer bloodstream, and thus helping to bring relief from headaches.

Capetown harbor, South Africa, is to be made safe against battleship attacks.

To Ease a Headache Fast

Get Real Quick-Acting, Quick-Dissolving "ASPIRIN"

See How "ASPIRIN" Tablets Work

In 2 seconds by stop watch, an "Aspirin" tablet starts to disintegrate and go to work. Drop an "Aspirin" tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass . . . happens in your stomach.

For QUICK Relief

If you suffer from headaches what you want is quick relief.

"Aspirin" tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly they touch moisture. (Note illustration above.)

Hence—when you take an "Aspirin" tablet it starts to dissolve almost as quickly as you swallow it. And thus is ready to start working almost instantly . . . headaches, neuralgia and neuritis pains start easing almost at once.

● "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

Try it. You'll say it's marvelous.

Demand and Get—

ASPIRIN TRADE-MARK REG.

Lean Years Over In Show Business

Tent Shows Will Return To Quarters After Big Year

By SMITH BEAVIS

NEW YORK — A bull market in clowns and fan dancers! Broadway casting offices jammed with torch singers, hoofers and heavies! Hollywood hard at work on a "recovery" production schedule! And 80,000,000 persons a week swarming to the movies!

That, they tell you on the Rialto, indicates that lean days for the show business are about over; that economic recovery—extending from dividend cheques to the price of cotton—has put people back where they can pay good hard cash for entertainment.

Broadway is drawing its people homeward in hordes, for early fall is casting time in showland and troupers are packing the managerial offices in quest of parts.

Motion pictures, swinging into new production, and into the fall and winter nights, are coming on the best season since 1930.

The tent shows will return to winter quarters only after another month or two of what has been the best business for years.

Veterans Are Thrifty

Writes the Baltimore Sun:—Distribution of almost $1,700,000,000 in bonus bonds among the war veterans has produced none of the more extreme results predicted by proponents as well as opponents of the bonus. There has been no foolish spending spree on the part of the veterans. Nor has there been an extraordinary boom in trade. About $600,000,000 has been temporarily added to the currency in circulation, according to the estimates of the Federal Reserve Board, but that can hardly be called wildly inflationary.

As a matter of fact, the former soldiers have shown themselves a good deal thriftier than it had been supposed that they would. Although most of the bonds were issued three months ago, about thirty-one per cent. of them have not been turned in for cash. This would suggest that the veterans are holding about $500,000,000 worth of bonds for investments. In addition, it is believed that at least a part of the $600,000,000 that has been added to the currency in circulation is still being held by the veterans. It may well be, then, that not half of the bonus money has been spent.

At least one spot in Britain — Morven, in Caithness — is said to be almost entirely free from thunderstorms.

FINANCIAL FLASHES

Athona Mines, Ltd., through J. J. Byrne, president, who is on a visit to the property in the Lake Athabaska area, reports that a quartzite mass has been exposed on the east shore of the lake for a width of 120 feet, and shows high-grade veinlets at intervals across the full width. A rock trench, nearing completion, has exposed three zones from 10 to 15 feet wide, and each zone shows several quartz stringers carrying abundant galena, sphalerite and some gold pyrite confined principally to the quartzite. Grab samples from each zone, which showed no visible gold, assayed, $245, $2.450 and $33.95. Work on the No. 1 shaft gave assay returns of $54.25 from channel samples taken across 57 inches. The No. 3 zone has been extended another 3 feet, bringing the width to 18 inches.

Underground development is continuing at the Sturgeon River property of Brengold Mines, Ltd., with drifting being advanced both east and west on No. 2 vein. Five face samples taken over a length of 25 feet on the No. 2 vein at the 100-foot level, gave an average width of 31 inches and average value of $21.07 in gold per ton, it is officially stated.

Production of Siscoe Gold Mines for September amounted to $210,316, a new high record for the mine, and compares with $208,207 in the preceding month and $190,043 in September of last year. During the month the mill handled 16,678 tons of ore with millheads of $13 per ton, against 15,358 tons handled and heads of $13.55 in August.

Cuniptau Mines produced 100,000 pounds of matte, containing approximately 30,000 pounds of nickel and 50,000 pounds of copper, during the period of Sept. 16 to Oct. 1, officials report. Assay reports on the precious metal have not as yet been received, but, judging from the shipment made early in September, this 100,000 pounds should contain approximately 20-25 ozs. gold, 140-150 ozs. platinum and 450-500 ozs. silver. The market value of the contained metals would exceed $22,000, on the basis of market price for refined metals.

Spookum Gold Mines officials have been notified that the shares have been approved for registration by the Securities & Exchange Commission at Washington, D.C. Surface work on the property adjoining Red Lake Gold Shore has exposed nine veins which have been opened up for varying distances. A complete diamond drilling outfit is on the property and has been set, with drilling already underway. The first hole has reached a depth of 40. A second drill is now enroute to the property, while a complete assay plant has arrived and is being set up. Further channel sampling of No. 1 vein returned values ranging from $9.45 to $105 per ton. Recently a value of 3.2 ozs. was secured across a width of 24 inches in an 8-foot test pit located where veins No. 2 and 4 intersect. A crew of 17 men are employed on the property.

In the effort to reduce road accidents in New Zealand, it is suggested that cyclists must be licensed, no person under 18 years would be allowed to drive a car, and inefficient vehicles must be taken off the roads.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

POPULAR ORCHESTRA LEADER

This month sees the resumption of the popular "Blue Coal" programs, every Wednesday at 9 o'clock, over C.F.R.B.

Above is shown Horace Lapp, who will conduct his orchestra to open the new series.

Vegetable Crops Winter Storage

A Thermometer Is a Good Friend in Storage Room

Don't let the frost injure the crops before you take them into the cellar.

Don't bring them in while they are wet.

Don't cover roots with damp sand if the cellar is hot. They will start to grow if you do.

Don't try to store onions, squash or pumpkin in a cool cellar. They will keep better in a drier, somewhat warmer room.

Don't forget to watch your storage room and sort out any decayed specimens before the trouble spreads.

Don't forget that a thermometer is a good friend in a storage room.

If it is possible to provide a special storage place, select that part of the cellar farthest removed from the furnace and where the greatest amount or air circulation takes place.

Canada Better Place For Immigrant Boys

CALGARY — Immigrant boys are better situated in under-populated Canada, Mr. G. F. Morton, leading British educationist, has found in a survey of conditions in this country. The headmaster of Leeds Modern, one of the early English Victorian institutions near the city of Leeds, advocates immigration to relieve the pressure of over-population in Europe

Dr. Morton has completed a tour of Canada where he met, in various cities and on farms, old boys from his school's alumni who left England between the years 1924 and 1929 for the colonies. He will visit Australia before returning home.

"I have always urged those who are adventurous to emigrate from the Old Land. Now I am seeking to determine how they are making out—comparing their standard of living with that in England.

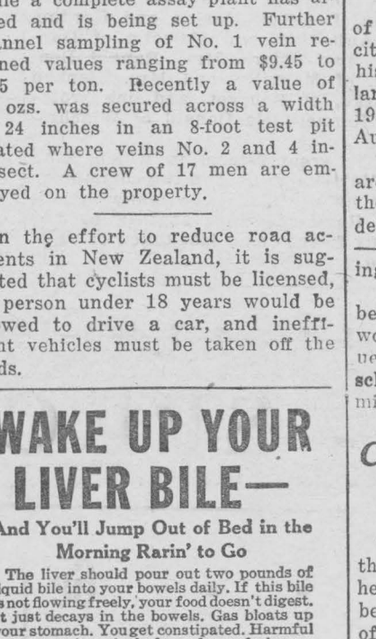

"I find nearly all the boys are better off in Canada than they would be at home and I will continue to urge the present pupils of the school to try their lives in the Dominions," he said.

Cruelty To Children At Guelph O.A.C.

GUELPH, Ont. — Freshmen at the Ontario Agricultural College here are forbidden to speak to members of the opposite sex under pain of dire penalties, as part of their initiation rites this term. They are not allowed to smoke and must carry their schoolbooks in a fruit basket. They also "fag" for their superiors.

Schools to Teach Highway Safety

RALEIGH, N.C.—Highway safety will be taught in the public schools of North Carolina, the teaching material to be furnished by Arthur Fulk, director of the highway safety division of the State Department of Revenue. Special booklets have been prepared.

"We are planning to confer with State Superintendent Clyde A. Erwin with a view to securing the co-operation of the Department of Public Instruction," Mr. Fulk said. "We will suggest that this department use its influence to get the teachers to give definite instructions in safe walking and safe driving in at least one elementary grade and one high grade, although we believe that some safety instruction should be given in every elementary grade, beginning with the first. Emphasis should be placed on safety in walking, roller skating and bicycling up to the sixth grade and in the seventh additional information should be imparted to the students, emphasizing the importance of safe driving."

LAW FOR WORKERS

Under a new law in Venezuela workers will share part of the net profits of enterprise by which they are employed.

A reputation for honesty will attract more trade than a reputation for trickiness.

Among the Coronation visitors to London next year will be 200 Indian princes, including some of the richest men in the world.

GOLD MEDAL

Haarlem Oil Capsules

Fine for Weak Acid Kidneys and Bladder Irritation

STOP GETTING UP NIGHTS

One 40-cent box of these famous capsules will put healthy activity into your kidneys and bladder—flush out harmful waste poisons and acid and prove to you that at last you have a grand diuretic and stimulant that will swiftly cause these troubles to cease.

But be sure and get GOLD MEDAL Haarlem Oil Capsules — safe and harmless—the original and genuine — right from Haarlem in Holland. Millions have kidney and bladder trouble and never suspect it — some symptoms besides visits to bathroom at night are backache, moist palms, puffy eyes and scanty passage that oft-times smarts and burns.

* * *

The car of vegetables and fruit to be shipped to the West is being filled to-day and to-morrow. Trucks are gathering throughout the Township of Williamsburg and the Village of Morrisburg. It requires a considerable organization to cover such a wide area. If you have not received a call by Friday evening, will you get in touch with your Minister. It is not the intention that anyone should be missed but if such should occur will you help those who are voluntarily giving up a great deal of time and money to send this Goodwill offering to those in need.

* * *

Most Rev. M. J. O'Brien, coadjutor Archbishop of Kingston Archdiocese, is in Hotel Dieu Hospital, Kingston, suffering from injuries which he received in an automobile accident near Marysville. Sunday. Archbishop O'Brien received severe back injuries and Rev. Leo Byrne, Chancellor of the Archdiocese, was cut and bruised. At the time of the accident, Archbishop O'Brien and Father Byrne were returning to Kingston from Read, Ont., with the latter driving. A car driven by Arnold Morrison, of Ottawa, it is reported, ran into the rear of their car.

Ronald (Red) Ryan, last year with Brockville Magedomas (Allan Cup semi-finalists) who started his hockey career as a member of the Morrisburg Junior organization, has been signed to play this year for the Cornwall Senior Team. The team will be under the management of Billy Boucher, former right wing star for Montreal Canadiens in the National Hockey League.

* * *

Following the regular dance tomorrow night in Casselman's hall, the dance orchestra which became popular throughout the district under the name of Spark Dukelow's Orchestra,, and which for the past few months has been under the leadership of Bud Utman, will be dissolved. This orchestra, with the exception of a few short intervals, has played in Morrisburg every Saturday night for years, and their passing will cause no little regret among the dance-loving couples in this district.

* * *

Mr. and Mrs. A. Sweet celebrated their Fifty-Fifth Wedding Anniversary on Sunday at the home of their daughter, Mrs. B. L. Carr and Mr. Carr, "Ship's Mate," Morrisburg. They were the recipients of a number of gifts, one of them being a basket of beautiful red roses from Miss Tena Wilson, R.N., Cornwall General Hospital. Mr. Frank Henderson of Vancouver and Mrs. R. L. Suffell were among the callers from here in the afternoon, and they remained for buffet supper.—Winchester Pres..

* * *

A brown Essex coach, license number M.B.679 was stolen from the garage of Lorne Guy of Inkerman sometime between 11 o'clock Saturday night and early Sunday morning. Guy, who had been visiting in Winchester on Saturday night, arrived home about 11 p.m. and put his car in the garage. When he got up to go to church the next morning the car was gone. Neighbors stated that they had heard the car leaving the garage about 11.30 p.m. Saturday but had thought nothing of it. Provincial Officer Frank Rose is investigating.

* * *

On the occasion of their 50th wedding anniversary, Monday, October 5th, 1936, friends and relatives numbering 55 in all gathered at the pleasant farm home of Mr. and Mrs. John Bowman of Williamsburg to celebrate their 50th wedding anniversary. Rev. Cronmiller, on behalf of those present, expressed great pleasure at being able to be present for this occasion. Remarks were also made by several of the guests. Mr. Bowman thanked all for coming and for the lovely gifts received. Mrs. Harry Bowman and Mrs. Barton Laurence served a delicious banquet. A beautifully decorated wedding cake was presented to Mr. and Mrs. Bowman by their niece, Mrs. Fred Hayunga. Toasts were drunk to the bride and groom and several appropriate songs were sung. The guests departed at a late hour, wishing the happy couple many more years of health and happiness

Miss Doris Dubeau read the address and Miss Jean Smith made the presentation. An enjoyable program was provided by the Girl Guides and refreshments served.

Miss Stillson is leaving for Shannonville where she will teach school.

On Saturday evening, October 10, a social evening was held by Wellington Rebekah Lodge No. 108 in honor of Miss Louise Stillson, who is teaching in Shannonville this year. An entertaining program was provided, after which Mrs. L. Knight and Mrs. C. D Perrin presented Miss Stillson with an address and a Rebekah ring, expressing regret at her departure and appreciation of her work in the Lodge during the past year. Miss Stillson replied in a few well chosen words. Refreshments were then served and a social hour enjoyed.

MRS. WM. T. McMARTIN

On Monday afternoon, Mrs. Mm. T. McMartin, a highly respected citizen of Chesterville passed away at her home after a period of several months' illness.

Mrs. McMartin, whose maiden name was Jessie MacDonald, was of Scottish ancestry. She was born in Pendleton, Plantagenet township, and together with her husband, the late Wm. T. McMartin, who died August 10th, 1934, came to live in this vicinity 27 years ago. During these years she has endeared herself to the entire community, not only as a beloved neighbor and loyal friend, but because of her helpfulness at all times in church work and social service

The funeral was held Wednesday afternoon in Elma United Church of which she was a member. The service was conducted by the pastor, Rev. Rob. S. Smith, assisted by the former pastor, Rev. Kenneth Woodwark, of Lunenburg. During the service the choir sang a lovely anthem together with cetain of Mrs McMartin's favorite hymns.

She leaves to mourn, three sons, Winston, Aultsville; Arnold, Dunbar and Donald at home; four grandchildren, Douglas, Marion and Gordon, of Aultsville, and Malcolm of Dunbar, two sisters, Mrs. Ranald Benton, of Maxville, and Mrs. Stephen Clarke, of Bourget, and one brother, Kenneth MacDonald of Winchester.

The great esteem in which Mrs. McMartin was held in the community was evidenced by the many beautiful floral offerings sent in by her many friends as a last token of their love.

MYOPIA

Commonly called "Near Sight."
A rather common defect in studious people. Very often acquired by prolonged close use of the eyes in poorly nourished children, especially during public school years.
It can become dangerous to vision, sometimes causing blindness in later life.
Prevention is better than cure.
More about Myopia next week.
