Central Band of R.C.A.F. To Head Armistice Parade Here On Sunday, November 7th

Plans for a mammoth Armistice Day parade, headed by Canada's famous 60-piece Royal Canadian Air Force Central Command Band, and memorial service here on Sunday, November 7th, were disclosed at the October meeting of Winchester Post 108 of the Canadian Legion, on Monday night.

With the erection of the new Barr-granite cenotaph expected to be completed by that date, it is anticipated that the formal unveiling ceremonies will take place in conjunction with the service and parade being held to honour the fallen heroes of two world wars. The Church Service will be conducted ths year at St. Paul's Presbyterian Church, and invitations have been extended to Legion branches at Williamsburg, Chesterville and Russell, as well as the Ladies' Legion Auxiliary of Williamsburg to join with the two local organizations for the Remembrance Day ceremonies. In addition, it is expected members of the High School Cadet Corps will be on hand, as well as the R. C. A. F. Band, rated as the country's best, with headquarters in Ottawa. Legion officials also announced that an invitation to the Assistant Supervisor of all Protestant administration in Canada's armed forces, had been accepted by that noted R.C.A.F. chaplain, Sqdn. Leader Light. Further particulars concerning the Remembrance Day parade and service will be published at a later date.

Halloween Party

Because of the successful Halloween party staged by the Legion, 100 Club and Rink Company last year, members of the local Post were unanimous that the undertaking again be sponsored by their organization and that the 100 Club and Rink Company be approached to make the effort a united one as it was last year. Plans of the party will be published in the next issue of this newspaper.

Other business highlights included a carried motion to send the same amount as in previous years to the Tubercular Vets summer camp; the appointment of Wilfred Lannin as representative of the local Post to the DVIA Housing Act; that guests and band members be entertained following Armistice Day services on Sunday, November 7th; that a letter of thanks be sent to the Ladies' Legion Auxiliary for their $300.00 contribution towards the erection of the Cenotaph; that a contract for the installation of an oil furnace for the Legion Club rooms be let to John Fader and Son; that $500.00 as originally planned, be forwarded to the Rink Company, and that the nomination committee be composed of Messrs. Robert Vice, James VanBridger and Kenneth Summers.

An enthusiastic report of the Bingo committee was given by Robert Vice, who said that approximately $600.00 had been netted from the September Monster Night. In the absence of Poppy Chairman Archie Rice, President Carl Laushway reported for this committee, and also announced proposed plans for Remembrance Day. President Laushway also reported to the members information received at the District Convention in Gananoque.

Climaxing a busy meeting, members expresserd their concern for victims of the devastated flood areas in the Toronto district, and were unanimous in their decision to send a donation to the Hurricane Relief Fund.

President C. P. Laushway presided at the meeting, which was attended by 35 members who accepted the application of Mr. Roy Holmes.

Ottawa Winter Fair Will Feature Old-Time Parade

A spectacle never before seen in Ottawa that will feature direct descendants of Ottawa's first council and men and women in carriages of the 1854-period will be held at the 1954 edition of the Ottawa Winter Fair, opening in the Coliseum on Tuesday, October 26th.

It promises to be one of the finest spectacles ever featured by the Winter Fair, and the pageant is being sponsored by the Local Council of Women of Ottawa. The undertaking is in honour of the City of Ottawa's centenary, being observed in the Capital this year.

The pageant will be held each evening of the Fair—October 26 to 30—and on opening night will follow immediately the official opening by the Prime Minister. Rt. Hon. Louis St. Laurent.

With the stage almost set for the Fair, the Local Council of Women is anxious to learn of any direct descendants of members of the first Ottawa City Council. They were: Mayor John B. Lewis, and Councillors W. F. Powell, Edward McGillvray, Damas Bourgeois, James Leamy, Edward Smith, Charles Rowan, John Barteille and Henry J. Friel.

These descendants of Council will ride in the pageant's lead coach, a magnificent stage coach. In other carriages and phaetons of the era will ride men and women dressed in period costumes of 100 years ago.

Featured, too, will be an old city of Ottawa fire pumper drawn by magnificent horses.

But not all the pageant will have to do with history. For on parade, will also be, in addition, to bathing beauties of the past, beauties of the present, too.

Barn Was Lost In Fire At Reid's Mills

Fire destroyed the barn of Weston Murdock, at Reid's Mills, on Monday evening of last week. While milking was going on about 6.00 p.m., Mr. Murdock smelt smoke and found a fire going in the hay. A gas engine was being used to run the milking machine, which had only been installed about a week previous. The cows and pigs were removed, but the grain and hay crop and some machinery were lost.

The farm is well known as the Wilson Farm, and loss is estimated at between $6,000 and $7,000. The Osgoode Fire Department went to the blaze but could only guard other nearby buildings.

One Person Injured In Local Traffic Accident

One person was injured and an estimated $200.00 property damage was caused here on Saturday night in two traffic mishaps.

Injured person is Miss Jean O'Neil, daughter of Mr. and Mrs. Wilbert O'Neil, who received bruised knees and shoulder, lacerated hands and a good shaking up when she was pinned between a truck and the building housing Summers & MacPherson East End Store, in the Lannin Block.

The accident occurred when Sheldon McMillan, 18, of Winchester,R. R. 2, pulled his truck into the curb in front of the store. Apparently the brakes failed, and the truck continued onto the sidewalk, pinning Miss O'Neil against the building, who had been walking with her mother and sister. Damage was estimated at $65.00.

On the same evening, about eight o'clock, a car, driven by Orvil Guy, of R. R. 4, Winchester, was struck from behind at the Clarence Street-St. Lawrence intersection. Driver of the other vehicle was Jack H. Doering, 29, of Chesterville. According to police, the Guy car was struck from behind, by the approaching Doering vehicle, as it attempted to turn left on Clarence off St. Lawrence. Both cars were going north.

Constable G. B. Raistrick investigated the accidents.

New Skills Equal Text Books

Guided by an experienced hand, a Korean printer tries out a technique just learned. The instructor is Benjamin Rothwell of Canada who is helping Korean printing shop technicians master modern methods under the auspices of the United Nations Korean Reconstruction Agency (UNKRA). The printers' new skills are now at work in a textbook plant in Korea which is expected to turn out 15,000,000 books by the end of year. To date, UNKRA has allocated nearly $8,500,000 to rebuild South Korea's educational system. If enough funds are forthcoming, the Agency plans to spend another $2,875,000 for the same purpose this year.

New Heating System For Picadilly Theatre

With an eye to giving more comfort to theatre goers, announcement was made this week by Mrs. A. J. Casselman, theatre owner, that the installation of a new oil heating system had been completed at the Picadilly Theatre in Willimasburg. The new heavy duty Atlas Unit, now in operation, was installed by a district plumbing and heating firm, and is expected to supply a better flow of steam which will be more evenly distributed throughout the various radiators throughout the theatre.

Unforseen difficulties that hindered the arrival of certain parts caused a delay in the actual installation, and the management regrets any discomfort caused theatre patrons through cool air conditions that existed on a few nights recently.

With all this added comfort, the Picadilly is coming up with some fine entertainment in the next two months to round out the movie fans' year in a big way. Check the calendar dates, and look for your favourites coming to the Picadilly.

Given in marriage by her father, Miss Ault chose for her wedding day a bride's dress of Imported Chantilly lace. The full skirt was made in tiers also of Chantilly lace, with every other tier of nylon net and ending in a Cathedral Train. The top of the dress was designed with a fitted bodice featuring covered buttons down the front and finished with a scalloped waist line. The neckline was fashioned with a wing stand-up reverse collar, outlined in seed pearls. The sleeves ended in dainty points over the hands. A scalloped bolero and matching mittens completed the gown worn by the maid of honour, who carried a crescent bouquet of bronze mums and yellow rosebuds.

Winchester District On Fringe Of Hurricane "Hazel"

While Toronto and other parts of Ontario are "cleaning up" some of the devastating destruction caused by Hurricane "Hazel" last Friday, people of this district are giving thanks that the weatherman was crossed up in forecasts.

All last Friday afternoon storm warnings were broadcast over radio stations telling of "Hazel's" progress, and warning district residents what to expect. At 6 o'clock the weatherman said winds of 40 m.p.h., with gusts of 60 m.p.h., and heavy torrential rains for this district.

By three o'clock Saturday morning Hurricane Hazel's not so powerful punch had been felt in this area—without the rains. Winds had not been as strong as expected, and damage, aside from a few uprooted trees, broken TV antennaes, Hydro and telephone interruptions, could not be considered as major. This area, which has been experiencing the wettest season in 60 years, escaped Hazel's rain drenching that caused millions of dollars of damage in the Toronto area.

Rev. Clarence A. Roberts Ordained As Minister of Ormond Baptist Church

In response to a call from the Ormond Baptist Church, some eighteen churches met in council on Sept. 28th to examine Mr. Clarence A. Roberts, a candidate for ordination into the Baptist ministry.

The Rev. Ralph Wright, of Eastview Baptist Church, was appointed moderator, with Rev. E. K. Smith, pastor of McPhail Memorial Baptist Church in Ottawa serving as clerk of the council. Mr. Roberts read an exceptionally fine statement, giving an account of his conversion, call to the ministry and doctrinal beliefs. The council recommended that the Ormond Church should proceed with the ordination. A bountiful supper was served by the ladies of the Ormond Church.

The ordination service took place the same evening with the candidate's former pastor, the Rev. A. S. McGrath, of Toronto, bringing the ordination sermon. A welcome to the ministerial fellowship was extended by Rev. Wright. The charge to the candidate was given by the Rev. A. Eikenaar, of Cornwall. The prayer of consecration was offered by Rev. Earl Cameron, of Fourth Ave. Baptist Church in Ottawa. Rev. N. H. Brock, of Brownsburg Baptist Church, gave the charge to the church. The service concluded with the Benediction given by the Rev. Clarence A. Roberts.

WISE WORDS FROM LABOR

From one of their own national leaders, labor unionists heard a warning that management and consumers have been voicing for months. Labor, said A. R. Mosher, president of the Canadian Congress of Labor, can price itself right out of work by pressing for higher wages.

That is plain, common sense, declares The Financial Post. It's to be hoped, in the interests of everybody, and of labor in particular, that it will be heeded.

Since the end of the war, Canada has become a high-priced country—in some lines, very high-priced indeed. That's a grave enough handicap at any time for any country, but for one that is as dependent on foreign trade as we are, it just doesn't make sense at all.

At this time particularly, labor must realize that still higher wages mean still higher prices, fewer sales, smaller production and fewer jobs.

CHEESE

The October Cheese Festival is again this year focussing the attention of the nations' housewives on the high food value of cheese. During the countless centuries since cheese was discovered, its reputation and use as a food has increased. In Canada the per capita consumption of cheese had risen to over six pounds by 1953. From earliest times armies and athletes have considered cheese to be indispensable to their diets. In World War II this basic dairy product was one of the most important protein foods shipped by Canada to her allies.

Modern nutritionists know a great many reasons for the importance of cheese in human nutrition. First, and foremost, it is the most highly concentrated of all protein foods and one of the most easily digested. In fact, experiments have shown that 90-99 per cent. of all cheese is digested. Hence cheese is considered to be among the best protein foods for young children. Milk proteins, fat, the fat-soluble vitamins and milk minerals are the nutrients which make cheese so valuable in the daily diet. One of the interesting facts about cheese is that a great deal of it can be eaten by the individual in a day without tiring the appetite or destroying the taste for cheese.

The October Cheese Festival, which is an annual event sponsored by Dairy Farmers of Canada, in co-operation with the National Dairy Council, can claim some credit for increased consumption of cheese in Canada. Experience has shown that consumption rises sharply each October, sinks slowly over the next four months, and stabilizes at a level higher than that of the previous year. Dairy officials are hopeful that with the wide range of excellent cheeses which Canada provides that per capita consumption can be increased to 8 pounds with out too much difficulty in the next few years.

NOT A SCHOOL JOB

It has been suggested that car driving be taught in the high schools. The idea does not meet with the aproval of The Financial Post. "Surely," it argues, "it would be only common sense to leave such fields as car driving, cooking, and the art of carrying on a telephone conversation, to mention but a few examples, to the responsibility of the parents. If only for the sake of economy, let's use our huge investment in new schools for academic teaching that can't be done in the home.

"Apart altogether from a dollar and cents point of view, any drastic trend away from formal education could be dangerous. Students go to high school not only to gain certain fundamental knowledge but to learn how to gain more. In short, they are supposed to learn to think."

EDITORIAL NOTES!

It's the thought of a pessimist, but if it should happen to snow this winter as much as it has rained for the past three months . . . fantastic! Indeed, it would be!

October, in eight out of the last ten years, has been the worst month for highway fatalities. Rain and foggy conditions that often exist, slippery pavement because of wet leaves laying there, and early darkness are some of the contributing factors. Drive with Care! It's better to be late on arrival, than dead.

Fallen leaves as well as being colourful, are useful. In bygone days the practice was to clear the yard right up or as soon as most of the leaves had been shedded. Now, with the intervention of practical science, it is known that leaves are a natural fertilizer and protector. To-day, raking the leaves still goes, but it would be a wise move to spread them over the garden and flower plots. An easier task would be to leave them where they lay, letting them do their duty this winter and raking them up and burning them next spring.

To refresh memory, it would be an excellent idea for the organizations concerned to ponder a little over last year's successful Halloween party for Winchester and district children. The event, which drew a large number of satisfied youngsters, was a sound venture, designed to give the kids something to do on the night of witches and goblins. Halloween this year falls on Sunday, October 31st, but it is likely to be observed on Saturday, October 30th. It's still not too late to hold a similar party this year, and there should be lots of help available to give the youngsters an hour or two of good, clean fun.

"Christianity Transforms"

"Did you ever hear a man say: 'I was n outcast, a wretched inbriate, a disgrace to my race, and a nuisance to the world, until I began to study mathematics, and learned my multiplication table, but since that time I have been as happy as the day is long. I feel like saying all the time: my soul is full of triumph and peace.' Did you ever hear a man ascribe his salvation from intemperance and sin and vice to the multiplication table or the science of mathematics or geology? But thousands will tell you: 'I was wretched; I was lost; I broke my mother's heart; I was ruined, reckless, homeless, hopeless, until I heard the words of the Bible'."—Presbyterian Record.

WARNING WORDS

"The C's of Hell"

Its Character—

"And in hell he lifted up his eyes, being in torments."—Luke 16:23.

Of all who have lived on earth, only Christ could speak with authority on heaven or hell. He spoke more of hell than heaven. If you do not believe in hell, you have no right to believe in heaven.

The words of Christ tell us that hell is:

A place without offer of mercy.—Luke 16:24.

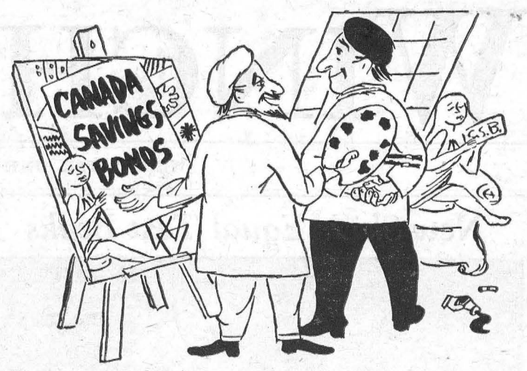
A place of wailing and gnashing of teeth.—Matt. 13:42.

A place of weeping and outer darkness.—Matt. 22:13.

A place of everlasting punishment.—Matt. 25:46.

A place of taunting memories.—Luke 16:25.

"And whosoever was not found written in the Book of Life was cast into the lake of fire."—Rev. 20:15.



"But that's what makes her distinctive!"

New Drugs For High Blood Pressure

Several drugs developed in the past few years give the 16,000,000 high blood pressure (hypertension) victims in the United States a better chance of living with a condition which, if allowed to go unchecked, can lead to severe heart, brain and kidney damage and even to death.

Two of the new drugs have proven particularly valuable in the control of this disease. One is a refinement known as reserpine from a crude root used for centuries in India for a score of ailments.

The second drug is hexamethonium chloride, a compound discovered in Europe which was administered only by injection until an American pharmaceutical firm succeeded in producing it in tablet form.

Reserpine is believed to lower blood pressure by its calming effect upon the central nervous system. It slowly lowers mildly elevated blood pressure. The drug has few side effects and it has been useful in mild cases or as the initial treatment in severe cases—largely because of its tranquilizing effect upon the patient.

Hexamethonium chloride, the single most potent drug available now, operates on the "roadblock" concept by preventing the transmission of pressure-raising impulses across key nerve centers. It lowers blood pressure quickly in most cases and often relieves many of the disturbing symptoms associated with advanced high blood pressure.

Most promising results for the patient are now being reported by physicians using the two drugs together. It appears that the calming effects of reserpine make it possible to obtain the marked reductions in blood pressure brought about by hexamethonium with low doses of the latter drug. Physicians report that this new method minimizes side reactions and permits greater comfort for the patient.

Although the primary cause of high blood pressure is unknown in 90 per cent of cases, when the disease is diagnosed early, the patient can often be helped by a general slowing down of activity and perhaps by diet. In severe cases, surgery, in which certain nerves are cut, has helped some patients.

Drug treatment, however, is the most widely accepted method once the physician considers the condition a serious medical problem. Not only is this method effective, but it is less disruptive to the patient than dieting and considerably less drastic than surgery, which can't be undone even when it doesn't work.

Many people safeguard and cherish their religious principles so highly they never risk taking them to business, observes The Moose Jaw Times-Herald.

There are nearly 1,000 weekly newspapers in Canada with a combined circulation of about 4,000,000. And they do a job in their communities that no one else could or would undertake.—Cornwall Daily Standard-Freeholder.

THE WHOLE TOWN BENEFITS

The 7th Column

From reports of damage done elsewhere, we, in this district, can be thankful that "Hazel" left us off her visiting list last week. We did feel a slight breeze as she passed by, but the heavy rains which were forecast for this district as a result of the windstorm did not materialize—thank goodness!

* * * *

Kiddies of the district are looking forward to a night of fun on Halloween. With this night of gaiety falling this year on a Sunday, it is likely the event will be observed on Saturday evening.

* * * *

Now that we are approaching the cider season, it is good advice not to take it too hard, says the Prescott Journal.

* * * *

The hunting club's new members returned, bedraggled and bandaged.

"Cheer ap," said an old timer. Judging by your bulging bag, you got something, anyhow!"

"That's our hunting dog," they declared wearily.

* * * *

As the Niagara Falls Review says: "The little red school house seems to be turning into the big yellow bus."

* * * *

Milk from a B. C. herd is testing too rich, and the authorities have ordered the producer to dilute it with sub-standard milk, or stop selling it! Wonder they don't send the rascal to jail while they're at it, says T.D.F. in the Ottawa Citizen.

* * * *

Time marches on—the leaves are falling and the fall will soon be leaving.

* * * *

May we ask you, Mr. and Mrs. Motorist, to take greater care than usual these days in driving on town streets? The reason is, children have a habit of playing in the piles of dead leaves stacked at the roadside, and often they are hard to see. Never suspecting the danger involved, they sometimes bury themselves in the leaves as though playing hide-and-seek. Thus it is only the most observant motorists who will allow for the youngsters' errant playfulness and avoid running over the leaves.

Other years have almost invariably seen some children injured in this way, and it is quite true that the children are themselves to blame to a large extent. Still, boys and girls can't always be expected to exhibit the discretion of adults—and perhaps it isn't too much to ask motorists to be a little more cautious than usual when approaching dead leaves piled at the curb.

Meeting with Hydro officials at Toronto last week, a delegation from Iroquois was told that Hydro would have no part in building a new Iroquois of 40,000 population, centred around a 17-storey skyscraper. That was to be expected. The Iroquois town planner and a few citizens of little old Iroquois have evidently been day-dreaming.

* * * *

According to a Canadian Press despatch, Editor A. E. Dobbie, of the Smiths Falls Record-News, and Dr. J. J. Hewitt, chairman of the Board of Education in that town, nearly came to blows, following a heated discussion at a meeting of the Board last week. Both removed their coats and left the building, but other members of the Board intervened before any blows were actually struck. Both men are between the 50 and 60-year mark, but then "boys will be boys."

OBITUARY

THE LATE AARON STOODLEY

A former manager of Western Canada butter and dairy plants, Mr. Aaron Stoodley passed away at the Glen-Stor-Dun Lodge, Cornwall, on Monday, October 11th, after a lengthy illness.

Born 75 years ago seven miles north of Winchester, near Vernon, he was a son of the late Silas Stoodley and Margaret Armstrong. He attended schools in Winchester and later graduated from the Brockville Business College. In his early twenties he went to Western Canada, returned home about 12 years ago. Since that time he had lived on the Stoodley farm owned by his brother, Mr. Henry Stoodley. About one year ago he went to the Glen-Stor-Dun Home to live. He married the former Mary Peart, who predeceased him several years ago. The lone survivor is his brother, Mr. Henry Stoodley.

The funeral was held from the residence of his brother, Mr. Henry Stoodley, to Springhill Cemetery, where interment was made. Rev. J. W. Bee conducted the service.

The pall-bearers were Messrs. Ronald and Mac Carkner, Floyd Crowder and Theodore McBride.

Following is the list of floral tributes:

MRS. WM. H. ERRATT CELEBRATES 91st BIRTHDAY

A native of the Melvin Settlement, Mrs. Wm. H. Erratt, of Moose Jaw, Sask., will observe her 91st birthday tomorrow, Friday, October 22nd, and to her are extended the heartiest of congratulations from friends and relatives in the Winchester area.

Mrs. Erratt is the former Minnie Melvin, a sister of the late David Melvin Sr., and an aunt of Mr. Hart Melvin, who called on her a few weeks ago while vacationing in Western Canada. Her husband, Mr. Wm. H. Erratt, who predeceased her several years ago, was a brother of the late Humphrey Erratt. She has one son, Mr. Reginald Erratt, of Regina, Sask. Mrs. Erratt is the sole survivor of that generation of Melvins. She is presently residing at the Ina Grafton Gage United Church Home, Moose Jaw, Sask.

HAVE you ever served egg salad hot, or at least warm? It's a real treat on toast or toasted English muffins. Use chopped hard-cooked eggs, a bit of onion juice, snipped parsley, chili sauce, mustard, mayonnaise and seasoning to taste for the salad.

Mashed potatoes will stay hot more easily if you heat the milk which is added to the potatoes after mashing. It's always easier to beat the mixture to fluffiness when everything's hot.

RECIPE OF THE WEEK

Spanish Noodles

(Serves 6)

2 slices bacon, diced
½ pound ground beef
1 onion, coarsely chopped
1 green pepper, shredded
½ teaspoon salt
1 tablespoon parsley flakes
½ cup water
2 cups broad noodles
1 (no. 2½ size) can tomatoes
½ cup chili sauce

Heat diced bacon, ground beef and chopped onion in skillet and cook until lightly browned. Add remaining ingredients in order given. Cover. When mixture starts to steam, turn heat very low and cook 35 minutes.

Ground nuts or chopped nuts may always be added to ground meat as a good extender to sandwich fillings.

Deviled eggs can be used as a main dish if you prepare them in this fashion. Place the deviled eggs over cooked broccoli and cover all with cream sauce to which sharp processed cheese has been added. Keep this casserole in a warm oven until serving time.

Quick-cooking rice may be cooked in orange juice with a pat of butter to make a delicious dessert. Blend chopped candied fruit into the mixture, if desired and serve warm or cold with cream.

Bowling really got rolling the last couple of weeks with most of the leagues started, and the rest will be going this week. There are still openings for two teams in the Community League, so if you are interested in bowling in a well organized group, get in touch with Archie Rice. Teams are made up of five—three men and two ladies,or the reverse.

Here are some of the scores to date. Keith Beamish and Clarey Marriner, both playing in the South Mountain mixed league, are setting the pace. Clarey has rolled two triples of 733 and 702 for an average of 240, with Keith having triples of 692 and 710 for an average of 233. Other good scores included: Gus Cameron 655-262, Jean Beamish 532-221, Jean Black 241, Irene Marriner 218, Mary Gilroy 214, Ethel Getz 22.

In the Morewood mixed league Betty Moran took the ladies' honours with 515-223. Frank Moran had 585-215 to take the men's honours.

The Country Gentlemen got going last week. This year the league is made up of one team each from Chesterville and Finch and two from Winchester. With the exception of three boys on the Chesterville team, everyone else had a rough night. Harold Armstrong rolled his usual good game, 678-267; Lorne Byers had 667-238, and Lyle Loucks 610-231.

The Glamour Girls have been playing for two weeks, and scores have included: Mabel McIntosh 617-258, Joyce Hay 617-235, Yvette Marleau 602-216, Betty Anderson 224, Phyllis Henderson 222, Gwen MacIntosh 219, Alice Rice 209, Betty O'Neil 204.

W. M. S. THANK OFFERING SERVICE

The Autumn Thank Offering Service of the Afternoon Auxiliary of the W. M. S. was held in the Sunday School Hall on Thursday evening last, with a good attendance.

This meeting took the form of a Pot Luck Supper, which was enjoyed by all. Mrs. H. Fetterly presided at the piano, and Grace was sung. Mrs. T. N. Mitchell, the president, welcomed all present.

Following the supper, the business period was conducted by Mrs. Mitchell. Mrs. Eldon Fennell, the secretary, read the minutes, and delegates were chosen to attend the Sectional Rally at Elma on Oct. 22nd. The offering was received by Mrs. Fetterly and Mrs. F. Erle Helmer.

Mrs. Lawrence Walker and her committee, Mrs. E. Helmer, Mrs. H. Fetterly and Mrs. S. McLean, were in charge of the supper and the devotional period. The second chapter of the study on India was given, which proved very interesting. Mrs. Mitchell extended thanks to the committee in charge, and Mrs. Walker closed the meeting with prayer.

Local G. M. Dealers Attend Convention

Back from the history-making three-day national Chevrolet, Oldsmobile, and Pontiac-Buick Dealer Convention in Toronto, which they both described as "the largest and most significant convention in the history of the Canadian automotive industry," Messrs. Hart and Dave Melvin were interviewed by the Winchester Press this week. They were accompanied to Toronto by their complete sales staff as well as departmental heads.

"Startling design and power changes in the completely revamped Chevrolet for 1955," the two gentlemen reported, "will make this the most important model ever to be offered in the popular-priced field."

This was the unanimous reaction of 1500 dealers and department heads from points as widespread as Northern B. C. and Newfoundland, who gathered in Toronto for the record-shattering convention, Mr. Hart Melvin said.

The dramatic model changes were introduced in the first-day feature of the convention, a two-and-a-half-hour glamour review that highlighted the cars on the largest indoor stage ever built, against a background of costumed models, and specially-arranged music. Canada's top variety talent was enlisted for the Broadway-standard production.

The 1500 guests made a detailed tour of the company's new 47½-acre passenger car assembly plant in Oshawa, largest in Canada or the Commonwealth, on the second day of the convention. The enormous plant, Mr. Dave Melvin reported, gives General Motors a productive capacity of 1350 vehicles a day, by far the Canadian auto industry's greatest.

Third-day highlight was a trip to St. Catharines and the new "push-button" foundry of McKinnon Industries, a GM division. Steel men around the world regard the new foundry as the most modern in existence.

"The new model developments, combined with the greatly stepped-up productive capacity resulting from GM's 100 million dollar expansion program over the past four years," Mr. Melvin Sr., said, "have left me with the conviction that car buyers can look forward in 1955 to the most important year on record."

C. G. I. T. MEETING

The first Fall meeting of the C. G. I. T. was held in the Sunday School Rooms of the United Church on Wednesday evening, Oct. 13th. New officers were elected as follows: President, Kathryn Petersen; vice president and press reporter, Mona Biccum; secretary, Mary Barkley; treosurer, Marshall Corry. It was decided to hold a Halloween party at the next meeting on October 25th.

FEED NEWS

Reports from every direction show a poor prospect for high grade Western Oats.

The weather in the West has been similar to ours here and harvesting is being rushed during brief periods of fine weather. As a result, some of the grain is going into bins in a tough and damp condition.

The Alberta Wheat Pool reports only 1% of 3 C. W. Oats and 13% of Extra One Feed Oats.

Old crop Oats are available yet and it would appear good business to put in some of these old crop Western Oats at present prices.

BARLEY

Barley is still cheap compared with other grain.

We have No. 1 Feed Barley in stock now and it is excellent quality—just the thing to grind in with these local oats.

Have a few hundred ground in with each grist.

WHEAT

One car of No. 4 Wheat in this week, and we cannot buy any more No. 4.

The next will likely be No. 6 and it is doubtful if we will get anything better than No. 6 all season.

The Board will not release the higher grades for feeding purposes.

WAYS TO HELP KEEP FEED COSTS DOWN

—Pick up feed at the warehouse in half ton lots or more.

—Order early for regular delivery and order as much as possible at one time—every delivery counts up in labour and truck costs.

—Provide a convenient place for unloading and have someone to help unload whenever possible.

—Pay cash—Please pay the driver if you can—extended credit is bad business and costly business for all concerned.

We'll try and keep feed costs down as low as possible and your co-operation in these ways will help a lot.

Phone 136. We will be glad to pass on any information we have about supplies, markets, and to quote prices on the feeds you need.

Public Speaking Contest

Because of unforseen difficulties, the Public Speaking Contest, regularly scheduled for Tuesday night, will now be held next Wednesday evening. A fine program of musical selections and young speakers from district schools is being arranged. Teachers in the area are asked to contact Women's Institute officials as soon as possible, stating whether or not their school will be entered in the contest. They are also asked to make a worthwhile effort in seeing that one or more students speak from the respective schools. Public speaking is vitally important in the life of every person today. It should be supported by both parents and especially teachers.

Question Box

A Public Education Service of

THE HEALTH LEAGUE OF CANADA
111 Avenue Road; Toronto 5;
In co-operation with this newspaper.

All questions submitted are answered anonymously by members of the medical advisory board or special technical sections of the HEALTH LEAGUE.

The function of the Health League has been to crusade. In its early days it gained attention by its crusade for the prevention of venereal disease. Later there was the problem of persuading parents to immunize their children against diphtheria and other readily preventable disease, and this gave birth to a continuing crusade which began with Toxoid Week in Toronto, and is now a national program, Immunization Week.

Other crusades have been for Pasteurization of Milk, Industrial health programs, Prevention of Alcoholism, to name a few.

Unfortunately, the League's reputation for crusading has attracted people with special and rather dubious axes which they would like to have the League grind for them. Since not all of these people have been clearly identifiable as cranks, it has been embarrassing and difficult at times to tell them why an organization like the Health League simply could not undertake to grind these axes. Perhaps the answer to the following question will explain why the League must appear sometimes a bit choosy about the sort of crusades it can undertake.

QUESTION: "I have followed with interest your campaigns for pasteurization of milk, and I commend you highly. However, I cannot understand why you will not campaign just as strongly against the gradual poisoning of our population by tempering with foods, etc. I reported to you people at one time about the use of deadly refrigerator gas as a preservative for dried fruit, the insect sprays used on fruits and vegetables, the addition of chlorine to pure water, the addition of iodine to salt. All these things, and many others, are forms of public poisoning. It cannot be denied that chlorine and iodine, for example, are poisons. And yet you people and even doctors, who should know better, appear to be totally indifferent. Why don't we at least face the facts and call poison by its right name, poison? Where is the old crusading spirit you have showed in your pasteurization campaigns?"

ANSWER: The Health League is a voluntary, lay organization, closely associated with the medical and dental professions. The League crusades for public health measures whenever there is concrete evidence that these measures will save lives or prevent specific illnesses. In crusading for pasteurization of milk, the League acted on certain knowledge of actual deaths caused by the consumption of raw milk. Statistics were available and conclusive researches had been undertaken.

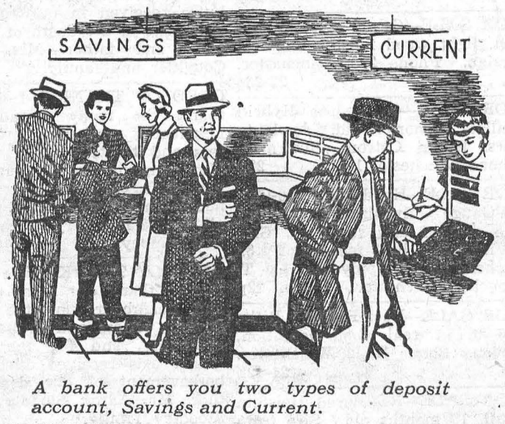
If nothing more had been known about pasteurization than that it might save lives or that raw milk might under certain circumstances create undesirable effects, the League would have been in no position to initiate any action. As a lay organization it would have had to wait for more conclusive evidence from the medical profession.

You are asking the League to crusade against something you call "gradual poisoning" without citing one single instance of death or serious illness from this so-called "poisoning." You sound like—and probably are—one of the anti-fluoridation agitators who will present reams of arguments about what fluoridation might do, without presenting a single case history of a single individual damaged in any way by the consumption of properly fluoridated water.

As for calling poison by its right name, poison, almost anything that is edible can become poisonous under certain special circumstances. The Health League cannot be particularly impressed by so-called "poisons" which not only do not poison anybody, so far as is known, but in many cases(particularly with chlorinated or fluoridated water and iodized salt) actually benefit health and act against the true "poisons" of disease.

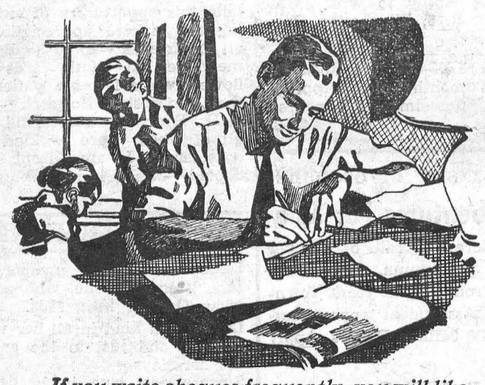
There was the suspicion of a tear in the old travelling salesman's eye as he said softly, "I miss my good wife's cooking—whenever I possibly can."

Saving money... and writing cheques



A bank offers you two types of deposit account, Savings and Current.

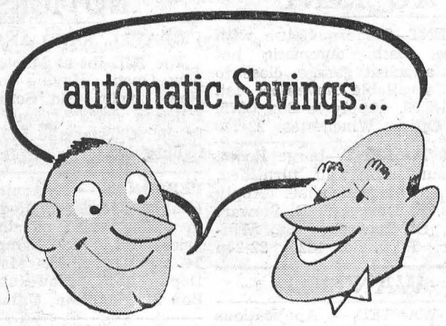
If your main purpose is to save, to accumulate funds, it's good to have a Savings account.



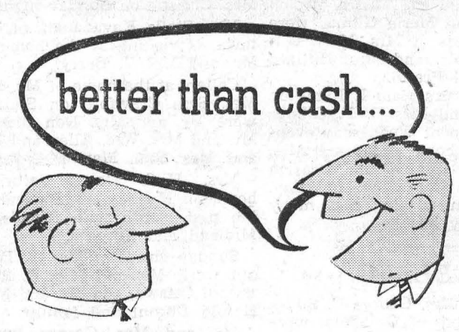
If you write cheques frequently, you will like the many advantages of a Current account.

The money you leave in a Savings account earns interest, and your bank book gives you an up-to-date, continuing record of your financial progress. If your funds are active, with frequent deposits and withdrawals, a Current account provides a special service; a monthly statement, together with your cancelled cheques—useful as receipts and a ready reference for budgeting, bookkeeping and other purposes.

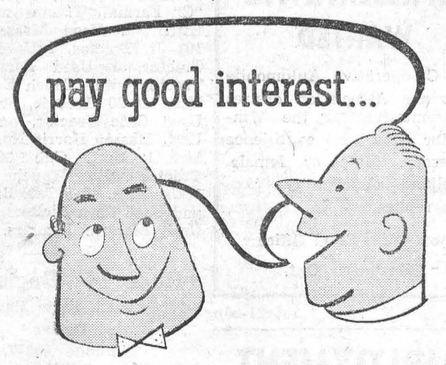
THE BANKS SERVING YOUR COMMUNITY



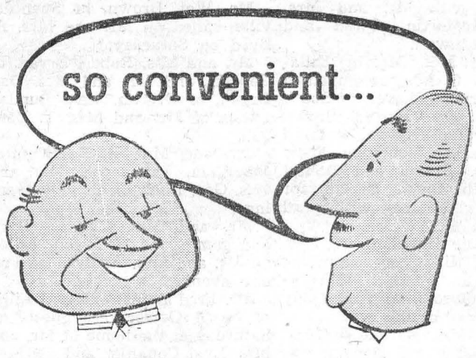
Nothing to forget, or "put off until tomorrow". You can elect to have payments for your Canada Savings Bonds deducted automatically on the Monthly Savings Plan at your bank, or on the Payroll Savings Plan where you work.



Your money works for you, pays a good return as long as you hold your Canada Savings Bonds. And, whenever you wish, you can turn them into cash at full face value — plus earned interest — at any time, at any bank.



Canada Savings Bonds pay a high rate of interest for such a safe, instantly cashable investment . . . a full 3¼ per cent per year from the moment they're yours until the month end before you cash them.



Canada Savings Bonds come in sizes to suit everyone — $50, $100, $500, $1000 and $5000. You can also buy the $500, $1000 and $5000 sizes in fully registered form and your interest will be paid by cheque.

...these and other features make Canada Savings Bonds a prime investment!

The Ninth Series of Canada Savings Bonds will go on sale October 18th. The bonds will be dated November 1st, 1954 and will mature 12 years later on November 1st, 1966. They will pay a full 3¼% interest per year to maturity and will carry 12 annual interest coupons. They will be offered for sale at 100% up to November 15, 1954 in denominations of $50, $100, $500, $1000 and $5000.

They must be registered in an individual's name — either adult or minor. This registration gives protection against the bonds being lost, stolen or destroyed.

In addition to coupon-type registered bonds, Canada Savings Bonds are again being made available in fully registered form in denominations of $500, $1000 and $5000. Coupon and fully registered bonds will be interchangeable at any time.

Any one person is limited to $5000 of this issue but every member of your family is entitled to hold this amount in his or her own name. See your bank, investment dealer or trust or loan company and make your arrangements now to buy the Ninth Series Canada Savings Bonds for cash or on convenient instalments . . . or sign up on the Payroll Savings Plan where you work.

9 LITTLE PIGS WENT TO MARKET

Hog production can be made MORE profitable. Well-fed sows will wean an average of 9 pigs per litter—9 pigs that will hang up 1300 or 1400 pounds of pork in 6 months or less.

Litters like that are profit producers.

It can be done.

At the SHUR-GAIN Farm, 9 pigs reach market weight from every litter farrowed—3 more than the average for the country.

Balanced feeding makes the difference. SHUR-GAIN Sow Ration has been tested and proven under Canadian farm conditions. It is fresh and highly palatable because it is manufactured locally. Local manufacture also eliminates freight costs and middleman profits.

For economy in hog production—for economy in production of all of your livestock—feed SHUR-GAIN.

T.V.'S SHOULD SELL THIS FALL

"It's a great year for T.V," writes Gordon Sinclair in this week's Star Weekly.

Radio-TV columnist for The Toronto Daily Star for more than five years, Gordon Sinclair possesses one of the best known voices on the Ontario air waves as a news and feature broadcaster. He has also been heard "critically speaking" on the CBC network. In his earlier days as a reporter for The Star, the world was his beat.

This week in the Star Weekly he gives you an excellent birds-eye view of your winter's entertainment if you're partial to TV, and he does it in truly breezy Sinclair style.

WHAT HAVE FARMERS TO BE THANKFUL FOR IN 1954?

The winter was peculiar,
The spring and summer too,
With half or more crops in the field—
Our farmers must be blue.

Someone at the store said:
"Thanksgiving's almost here,
What have we to be thankful for
This almost crop-less year?"

That thought was in me rankled,
God blesses us each day;
Tho' rain poured as I whittled
Within the barn to-day.

I said, I'll count my blessings
For things God sends to me,
Our bread and many luxuries
He promised not—you see!

The stout roof overhead of me
The fuel to heat my home,
His loved protection over me
Wherever I may roam.

Now I have farmed these many years,
In that time very few
Have yielded not, a goodly crop,
My thanks, dear God, to you.

Yes, I stopped counting blessings,
I could go on for days,
And there beside the hayrack
I bent my knees in praise.

Our prayers are mostly, Give me!
Or let this cup pass by!
How often do you simply praise
Your Father, Who on High

Listens to hear us whisper
Once in a long, long while:
We thank Thee, Lord, for blessings,
Help us deserve your smile.

I rose, my knees were dusty,
But my brain untroubled, clear;
For on my knees I really find
Our God is very near.

—Belle D. MacMartin.

FLAG OF THE WORLD

If but the flag of Christ could be unfurled,
To cover all this sad, and war-torn world,
If hands of men could reach across the seas
To hearts of brothers, and to bring them ease,
Clasping in bonds of love, forgetting hate,
Making of all the nations, one great State,—
Then would the "Kingdom" prayed for, all these years,
Come to this earth, to dry the Nation's tears.

—Dorothy Sproule.

MRS. ALBERT STANLEY OBSERVES 89th BIRTHDAY

On Thursday evening, October 14th, friends and neighbours gathered at the home of Mr. and Mrs. Howard Morrow, of Russell, for a surprise party in honour of the former's mother, Mrs. Albert Stanley, who celebrated her 89th birthday. Mrs. Stanley received many lovely and useful gifts and also many beautiful cards, after which she thanked all her kind friends.

The rooms were prettily decorated with streamers and fall flowers and a lovely birthday cake centred the tea table.

A very enjoyable evening was spent by all in games, and Mrs. Gamble led in a sing-song, accompanied by Miss Aynslee Morrow at the piano. A very tasty lunch was served by the hostess.

Among those present were Mr. and Mrs. Edgar S. Stanley, of Metcalfe; Mr. Thos. Stanley, Mr. and Mrs. Melvin Stanley, Mr. and Mrs. Wendell Stanley, Mr. and Mrs. Osborne Woods and family, Mr. and Mrs. Edgar L. Stanley, Mr. and Mrs. David Hass and Allan, Mr. and Mrs. Percy Graham and Lilliss, Mrs. Gamble and Mrs. Gordon Magladery and family.

The Autumn Thank Offering meeting was held in the church on Tuesday evening last with fifteen members and two visitors present. The meeting opened with the singing of a hymn, followed by prayer by Mrs. Clarence Thompson. Mrs. Arnold Casselman had charge of the worship service, assisted by Mrs. Abe Bailey and Mrs. Aden Casselman, who read Scripture passages. A duet by Mrs. Dalton Robinson and Mrs. Irwin Holmes was enjoyed by all. Mrs. A. Adams gave an interesting account of her trip to General Council in Sackville, N. B.

Dr. Vincent Peale's booklet on "How you can find God's Guidance," was the topic of Mrs. Tom Keyes' address. Rev. N. Bowering gave an interesting and descriptive talk on different phases of life in Newfoundland. Rev. Bowering closed the meeting with prayer.

Boss: "Jones, did you push a wheelbarrow down the street last night after the party?"

Jones: "Yes, sir, I was pretty well splificated."

Boss: "Well, how do you think I feel over the possible loss of prestige that your actions may have brought upon our business,"

Jones: "Gee, boss, I never thought to ask you. You rode in the wheelbarrow."

POULTRYMEN

Listen For Sneezes In The Poultry House!

Some people sense poultry trouble 3 days before it's ready to break and take prompt action to head it off completely! One good way to acquire this faculty is to go to the laying house about 9 p.m. and listen a few minutes from the doorway without turning on the lights or disturbing the birds in any way; also to watch birds carefully whenever you are feeding or gathering eggs.

The first few months in the laying house are most critical for the pullet, for she has to finish her body growth at the time she is laying her heaviest.

That's why we're recommending a proven Purina laying ration that's designed to help with both of these big jobs. That's also the reason we're urging our friends to top-feed Purina Booster Checkers—just a gallon per 100 birds daily. Sure pays to give pullets what they need.

1. Purina Eggena is lower in price and higher in protein in 1954. A complete ration.

2. Purina Chowder Concentrate now in Checker-ett form. Mix with grain for eggs at lowest cost.

New Term Begins At K. A. S. Kemptville

The Kemptville Agricultural School has opened its doors to students in agriculture and home economics from 25 counties in Ontario and as far away as Portugal, South America and B. W. I., as the new term got under way October 12th.

Leading counties were Carleton and Peterborough, with 16 and 11 students respectively leaving their homes to learn the latest in farm methods and home economics studies.

The largest senior year for some time is imposing a brief but vigorous initiation on bare-legged, slightly bewildered freshmen and gaily bedecked freshettes.

Principal A. M. Barr and his staff will be instructing capacity classes from now until April 15th at this residential agricultural school.

District students attending the Kempville Agricultural School this year are: Franklin Milne, Gerald Milne, Donald Moorhouse, all of Mountain, in Senior Agriculture; John K. Campbell and Bruce Dow, Metcalfe, enrolled in Senior and Junior Agriculture; Ronald Murphy, of Iroquois, Jr. Agr., and Evah Grace Riddell, Mountain, Junior Home Economics.

Engagement Announced.

Mr. and Mrs. Fred Shaver, of Iroquois, wish to announce the engagement of their daughter, Betty Jean, to Kenneth Mervyn, son of Mr. and Mrs. Earl E. Beckstead, of Chesterville. The wedding will take place on Saturday, November 6th, at 2.30 p.m. in the White United Church, Iroquois.
