To Provide North with Fine Stock.

Under the $5,000 that has been set aside out of the Federal grant aid to agriculture in Ontario to promote the live stock industry in New Ontario, a comprehensive scheme has been devised by the Provincial Department of Agriculture. Live stock improvement associations are to be formed in the districts of Temiskaming, Manitoulin, Sudbury, Fort William, Port Arthur and other places. Each association, after it has a bona fide membership of twelve, can secure from the Government a pure-bred bull, two boars or five rams, which will be kept moving from farm to farm in each district for two or three years. In making the selection of these animals, care will be exercised by the department to send only those that are adapted to the conditions of that district, with the object of overcoming any haphazard raising of cattle and secure a standard breed for each district.

For the Experimental Farm at Monteith two or three shorthorns will be purchased, and the Government is getting a high-grade bull from England next spring. Preparations are also being made to put in a number of hogs this fall and to stock the farm with sheep at a later date. The high-grade cattle that are raised on the Monteith Farm will be distributed amongst the settlers of the Timiskaming district at almost cost price and in this way it is hoped that a satisfactory breed of cattle will be developed in that part of the Provinces.

Lanark Pioneer at Age of 96 Now Sole Survivor

The county of Lanark was settled in 1915, or at least that was the year in which the first settlers came to Perth and district, and the trip was made from Brockville in most cases on foot. Among those to arrive at that time was an infant baby girl, who was born in Brockvill. She is now Mrs. William McKenny, of Lombardy and although ninety-six years of age is able to go about, get in and out of the buggy unaided, and can read without the aid of glasses.

Oil Struck at Perth.

The first well east of the Laurentian formation in the township of North Elmesely, one mile from the town of Perth, has been brought in by the private enterprise of Mr. R. Jamieson, Division Court Clerk. The well has 1,206 feet of oil in the casing. The rock for 1,200 feet is sandstone and conglomerates; the lime, known in geology as the "platform of death" is reached at that depth, and from this lime flows the oil.

Six years ago Mr. Jamieson announced, after careful examination and study of the rock formation to the east and south of Perth, that he had discovered a new oil field. His announcement was scouted by both oil men and geologist. His well has a history of difficulties known only to himself. In the face of ridicule and the sneers of ignorant sceptics he quietly persevered in his work, and now he has his reward and the satisfaction of seeing his predictions verified.

Mr. W. P. Allison has purchased an auto. May there be many more.

Don't forget date of the Big Picnic, Sept. 2nd.

Lightning Done Damage

The electric storm in this section on Sunday morning was very severe and lasted several hours. Very little damage was done in town, but near Dunbar they were not so fortunate, as the barn of Dar Weegar together with the hay crop, some hens and implements were consumed by fire, the barn having been strnck by lightning. This farm would perhaps be better known as that of the late Isaiah Barkley. The loss is partly covered by insurance in the Grenville Patron Mutual Co.

Injured Near Aultsville.

Mr. John T. Campbell, who lives on the Croil farm near Aultsville, met with a p ainful accident on Wednesday of last week. Mr. Campbell has the contract for hauling cement from Aultsville to the canal works at Farran's Point. He was driv ng into the shed where the cement is stored and was walking alongside the wagon. The passageway very narrow, and the hind wheel struck his foot and threw him. The heavily laden wagon passed over his body, breaking one arm, the collar bone and shoulder blade. Dr. Brown of Aulstville, was called and had the unfortunate man removed to his home, where he is doing as well as can be expected.

PASTIMES VS. SMITH'S FALLS GIANTS.

Don't miss the great Baseball Game on Monday—Labor Day—at the Monster Picnic and athletic contests. All figures and facts in favor of the Pastimes of Ottawa, who are considered the Champions of Ontario for 1912. Smith's Falls giants have the ability, youth and vigor to maintain their present clip. These things in connection with their new pitcher Mathewson's wonderful delivery, make it not a little more than an even chance that the giants will repeat and land victory on Sept. 2nd.

There will be also a Grand Concert in Hamilton's Music Hall in the evening for which the best leading professional talent has been secured. Plan of hall now on at Bolster's drug store.

The day's events will wind up with a Grand Ball, for which Valentine's renowned Orchestra has been engaged.

Woman Loses Her Life in St. Lawrence.

While on a trip from her cottage on Tyke Island, St. Lawrence river, to Cardinal, two miles below Iroquois for supplies, Mrs. J R. Brandy, wife of J. R. Brandy, a prominent liquor dealer of Ogdensburg, met a sensational and tragic death at Prison Island, about nine o'clock Thursday night.

Mrs. Brandy was taken to Cardinal by Harry Atwood, of Ogdensburg, and it was on the return trip that the accident occurred. When at the foot of Prison Island where the current is very swift, the occupants of the boat were compelled to go ashore and tow the craft around the island. Atwood held the boat out from the rocks while Mrs. Brandy took the tow line and kept the craft headed up the river. Suddenly when the water was swiftest the bow of the boat shot out, dragging Mrs Brandy with it. Atwood made a heroic effort to rescue the woman but almost lost his own life in the unsuccessful attempt. When he reached the island the boat's headlight could be seen disappearing several miles down the river. Mrs. Brandy had undoubtedly met a tragic death by drowning in the terrible current.

Mrs. Brandy's friends were notified. A thorough search is being made along the rapids in an effort to recover the body. It is doubtful if the body will ever be recovered, however, in the rocky recesses of the swift-flowing stream.

Mrs. Brandy is survived by her husband, a son, who is in Depot Harbor, Ont., and a daughter.

All sorts of sport and amusement for old and young, Sept. 2nd. Don't fail to be there.

Watch the Record next week for Chester Casselman's Advt. Great preparations going on, getting ready for a Mammoth Sale.

Personal

Mr. Frank Elliot of Winchester was in town Tuesday.

Miss Mabel Shirkey is spending a couple of weeks in Toronto.

Bring the family and enjoy a day's outing. The last of the season, Sept. 2nd

Miss F. Hummel is away attending the millinery openings at Toronto.

Mrs. Gordon Robinson of Ottawa, was a guest yesterday of Mrs. J. C. Simser.

Miss Lena Martin of Morewood, has been employed in Chester Casseiman's store.

Miss Nancy Kearns is in Toronto this week attending the Millinery Openings.

Mr. Henry Ouderkirk, of Dunbar, was visiting at Mr. Edward MacLean's last week.

Mrs. J. G. McGuir has returned home after spending a week with Mrs. Frean Hummel.

Mr. Ira J. Cramer of Aultville, was in town yesterday. On insuance business as usual.

Secure your seats of Labor Day Concert NOW.

Mrs. Elias Droppo has returned home after spending the past two weeks with her daughter, Mrs. Heaslip.

Mr. and Mrs. Herb Beach of Ottawa, were the guests of Mrs. Chester Casselman for a few days the past week.

Mr. Arthur Lawson has returned home after spending a couple of months in the mines in New Ontario district.

Miss Jennie Dunbar visited Miss Pearl Droppo over Saturday and Sunday before attending the Normal School at Ottawa.

Mr. C. Lee Casselman left yesterday for Toronto, and will visit New York City and other principal cities before returning.

Mrs. Frank Heenan and little son John, who have been spending the summer months in Connaught have returned to their home in Chicago.

Mrs. John Elliot and daughter, Ella, who have been visiting at the former's brother, Mr. Edward McLean, for the past two weeks have returned to their home in Ottawa.

Lightning Destroys Cattle and Barns.

The worst lightning and thunder storm that ever occured at Cornwall prevailed Sunday morning from 3 till 4 o'clock, the thunder and lightning keeping up continuously. So far the reports have been hard to get, but it appears that a great deal has been done. Mrs. William McLeod, Summerstown; Archie Chisholm, St. Andrew's; an Indian on Pelew Island, three miles below Cornwall, and a farmer on the American side, near Cornwall, had his barns, hay, and a large number of cattle destroyed by lightning.

The next farm laborers excursion to the west will be on Wednesday and Friday, Sept. 4th and 6th.

A. E. Bolster is always on hand to test your eyes.

TRINITY METHODIST CHURCH

Senior Epworth League, Monday, 8 p.m.
Prayer and Praise Service, Wednesday Evening, 7.30 o'clock.
Strangers Cordially Welcomed.

Former Resident of Iroquois Killed In Accident.

The sad intelligence reached Iroquois through the daily press and a letter, of the death of W. C. Dillion, of Sarnia, son of the late Thomas Dillion, of Iroquois, who lost his life at Akron, Ont. It appears that he had sold out his wholesale liquor busines at Sarnia and was making his last trip among his customers and was winding up the business and intend returning on the 1st of September, when in the act of turning out on a narrow strip of road his car overturned and took fire. He was caught underneath and before he could be rescued was so badly burned that he died on the 15th inst. at his home in Sarnia. The young man with him escaped. Interment was made in Forest cemetery. Deceased was a succesful business man, his savings estimated at sixty and seventy thousand, chiefly acquired in the liquour business and real estate. He was a genial offhanded fellow, very much liked by those who knew him best and his demise is much regretted and keenly felt by a large circle of relatives and friends.

Women's Institute.

The regular meeting of the Women's Institute was held at the home of Mrs. Parnham Allison, on Wednesday afternoon, with thirty members in attendance.

The topic for the day, was, "Duties of Guest and Hostess." Papers were read by Mrs. J. W. Hummel and Miss M. Sharkey, a lively discussion following.

At the close of the programme Mrs. Allison served refreshments, and a very pleasant social hour was enjoyed by all.

The next meeting will be held at the home of Mrs. Soule, where the prizes for essays on "Canada In 1812" will be given.

Auction Sale

Be sure and remember that the Auction Sale of Fred Barkley takes place to-morrow (Friday) afternoon commencing at 1 o'clock. He is quitting the dairy busines, therefore all his cows heifers, pigs, some horses, and other articles will be offered for sale and sold to the highest bidder. The terms are one years credit and the auctioneer is Thomas Irving.

All Stores in town will be closed from 12 o'clock noon on Monday, Sept. 2nd, to admit of all wishing to attend the Big Picnic in town that day.

Born.

HEASLIP.—At Cherterville, on Aug. 18th, 1912, to Mr. and Mrs. Alton Heaslip, a daughter.

Married.

MULLIN-MACPHERSON—On Aug. 26th 1912, by Rev. J. Steele, Margaret Maude MacPherson, eldest daughter of Mr. and Mrs. Alex MacPherson, Metcalfe, Ont., to Robert Campbell Mullin, of Morrisburg, Ont.

NEWS TOPICS OF WEEK

Important Events Which Have Occurred During the Week.

The Busy World's Happenings Carefully Compiled and Put Into Handy and Attractive Shape for the Readers of Our Paper—A Solid Hour's Enjoyment.

WEDNESDAY.

It was rumored in Toronto last night that H.R.H. the Duchess of Connaught will not attend the Canadian Exhibition.

A Russian fell from a derrick while working for the C. P. R. at Maberly, and is in the general hospital. He may not recover.

The steamer Kingston, bound for Toronto, was held up at Charlotte last night by a strike of firemen. It expects to go out to-night.

Seven thousand persons left Ontario for the Western Canada harvest fields yesterday. This is the largest number that have ever left this province for the west in a single day.

Mrs. William Johnson, 191 Roberts street, Toronto, who was injured in a motor car accident half a mile west of Whitby last Wednesday afternoon, died in Grace Hospital last night.

Notwithstanding the fine appearance of the bean crop around Ridgetown in Kent a couple of weeks ago. The yield will be perhaps the poorest ever yielded. 1).' *56 *6ffi-w ch ever harvested.

Mrs. Sarah Murray, aged 88, one of Kingston's oldest residents, died yesterday. She was the first communicant of Chalmers Church in 1846.

Galt has secured another large industry in the Hare Engineering Co., capital $400,000, to manufacture power equipment and pulp machinery.

A brick house in course of construction on Evergreen avenue, London, was blown down yesterday during a violent wind and rain storm. No one was injured.

Henry G. Bryant, president of the Philadelphia Geographical Society, announces his return from Labrador, where he explored and mapped the St. Augustine River.

The binder twine shortage is a thing of the past, according to Winnipeg dealers, for by the end of the week everything in the shape of orders or deficits in this line will be cleared up.

DYSPEPSIA MADE HIM MISERABLE

Suffered Agony Until "Fruit-a-tives" Cured Him

Hundreds of people gladly testify to the wonderful curative powers of the famous fruit medicine, "Fruit-a-tives". To those now suffering with Indigestion, Dyspepsia or other Stomach Troubles, this letter of Mr. Stirling, the well known real estate operator of Western Ontario, shows the way to a speedy and certain cure.

GLENCOE, ONT., AUG. 15th. 1911

"Fruit-a-tives were so beneficial to me when I suffered with distressing Dyspepsia, that I wish to inform you of their satisfactory results.

Although I have, in past, suffered agony with Dyspepsia, I am now in perfect health. "Fruit-a-tives" accomplished the desired result"

N. C. STIRLING.

"Fruit-a-tives" will cure every trace of Indigestion, Dyspepsia, Sour Stomach Bloating, Pain After Eating, Biliousness and Constipation.

"Fruit-a-tives" is the only remedy in the world made of fruit juices and valuable tonics.

50c a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Floods In England.

London, Aug. 27—The flood situation in England is becoming increasingly serious. Six inches of rain fell yesterday.

The city of Norwich on the Wensum, 98 miles southeast of London, is almost isolated. The whole train service between London and Norwich and Cromer has been suspended, and many local services are affected. The entire county of Norfolk is a swamp and Lincolnshire, Suffolk and the other eastern counties are in an alarming condition. Everywhere crops are being destroyed by the swollen rivers, and there is no sign of a cessation of the rains.

The condition of the military camps at Aldershot, Salisbury Plain and Swaffham is so serious that many regiments had to be moved. There is a probability of all the summer manoeuvres being abandoned.

Canadian Shot Himself.

Galena, Ill., Aug. 27.—Charles Edress, sixty-two years of age, shot and killed himself late Sunday near here after he had been cornered by a posse. Edress recently came from Canada and is said to have been prowling around at night armed with a shotgun. He was run from a corn field Sunday and after firing several shots at the posse, killed himself. He had two revolvers, a double-barrelled shotgun, $500, and two return railroad tickets to Canada.

Three Drowned Near Chatham.

Englehart, Aug. 27.—A triple drowning occurred at Mud Lake, near Charlton, when three farmers, Grossman, Phillips and Levy, were capsized from a canoe. The bodies were recovered The men were fishing and a heavy breeze struck the bow of the canoe, overturning it.

Coal Oil Lamp Fatal.

Montreal, Aug. 27.—Mrs. Edward McCarr was burned to death in her home on Plessis street last night through the explosion of a coal oil lamp.

Three People Killed.

Cleveland, O., Aug. 27.—Three people lost their lives during a terrific wind and rain storm that swept over the city yesterday. Trees were blown down and much property loss suffered.

Congress at an End.

Washington, Aug. 27.—Sobered by the embarrassments of Saturday's all-night session of filibusters and disagreements, Congress adjusted its differences yesterday, invited President Taft up to the capitol once more, and at 4.30 o'clock yesterday afternoon wrote "Finis" after the proceedings of the second session of the 62nd Congress.

The session "just fizzled out," in the Senate. A comparative handful of members occupied their seats and a call for a quorum in either the House or Senate would have forced a return of the embarrasing situation of last week.

Must Help Ships In Distress.

London, Aug. 27.—Failure to go to the relief of vessels in distress is a misdemeanor punishable by two years' imprisonment, according to a notice sent to ship's captains yesterday by the British Board of Trade.

In the circular, which was issued as a sequel to the recommendation of Lord Mersey after the Titanic inquiry, the Board of Trade expresses its confidence that such services will be rendered in the future as in the past in accordance with the best traditions of the Merchant marine.

Dynamite Clearing Track.

Revelstoke, B.C., Aug. 27—Good progress is being made in clearing the slide and washout two miles east of Rogers Pass and traffic may be resumed to-day. Six passenger trains are stalled between Bear Creek and Golden, westbound, and seven eastbound at Roger's Pass.

This was the first serious slide in August, being caused by a cloudburst Friday night, and three hundred men with steam shovels and dynamite have been working day and night to clear the road.

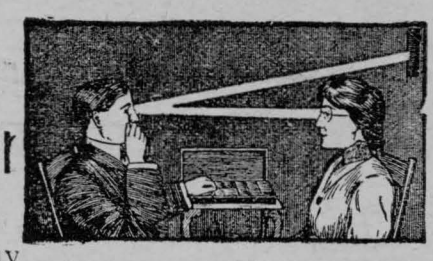

Bank Merger Ratified.

Ottawa, Aug. 27.—The Government has approved the purchase of the stock, assets, etc., of the Traders' Bank by the Royal Bank. At a meeting of the Treasury Board the matter was discussed, and the application sanctioned by council. A subsequent meeting of council ratified the action of the Treasury Board.

THINKS HE HAS THEM

Detective Burns' Prisoners May Be the Gangsters.

Much Sought After "Lefty Louie" and "Gyp the Blood" Are Believed to Be In Custody at Fonda, N.Y.—Deputy Sheriff Knows Nothing About Arrest — Prisoners Stoutly Deny That They Are the Men.

New York, Aug. 27.—William J. Burns announced shortly after midnight that two of his operatives had arrested two men earlier in the evening in Fonda, N.Y. and that they believed they had at last run to earth "Lefty" Louie Rosenzweig and "Gyp the Blood," or Harry Horowitz, the missing gunmen, wanted in this city for their share in the murder of Herman Rosenthal.

The Burns detectives who sent the word into their chief were J. H. Kennedy and T. S. Dorsey, whom he assigned to the trailing of clues in the neighborhood of Albany. They had half a dozen shadowy reasons for believing that the long-sought gunmen were or had been in that part of the state, and last night at nine o'clock they telephoned Mr. Burns that they had made two arrests at Fonda.

The men, whom they had been watching for several days, left Albany yesterday afternoon and headed for Fonda, which is a small town near Johnsown, N.Y., in the southern part of Fulton Country. The Burns men kept on their trail and finally came face to face with the men in a Fonda hotel, where they had registered as traveling men. Then they placed them under arrest, and the first move was to make a search of their belongings. One of the detectives reported to his chief that the inspection of the suitcases the men carried had yielded nothing more fruitful than outfits of old clothing, which furnished no clues as to the identity of the men themselves. Both were extremely indignant at the move made by the Burns operatives, and stoutly declared that they were not the men for whom the district attorney had offered a $5,000 reward.

The deputy sheriff of Fulton county, stationed at Fonda, speaking early this morning over the telephone, said that he had made no arrests in the Rosenthal case, and that he knew of no such arrests having been made. He added, however, that he did not know anything about the business of the Burns operatives or of their presence in Fonda. Kennedy and Dorsey reported to Mr. Burns that the men they had been trailing answered in many respects to the descriptions of "Gyp the Blood" and "Lefty Louis."

TORONTO FAIR OPENS.

The Duke of Connaught Officiates at the Ceremony.

Toronto, Aug. 27.—It was a great gathering in the amphitheatre of the Dairy Building at half-past two o'clock yesterday afternoon, when the Duke of Connaught, accompanied by the Duchess of Connaught and Princess Patricia, performed the opening ceremony. The interior of the building was tastefully decorated with festoons of green, white and yellow muslin, contrasting strikingly with other draperies of white and purple.

As the royal party entered the building the Scots Guards Band, which had pleasantly whiled away the period of waiting with the charm of their music, struck up the National Anthem. This was followed by an eloquent prayer by Rev. Dr. Briggs.

President Kent, who presided over the brilliant assemblage, read the following telegram from Earl Grey:

Rhodesia, South Africa.

"May this year's Exhibition far eclipse all former records and be worthy of the presence of the Duke of Connaught and cadets of the Empire."

After the duke's reply to the President's address, the band played "God Save the King," and the Canadian National Exhibition for 1912 was formally set in motion.

Three ringing cheers were raised for the Duke and Duchess as they left the building, and another was added for the princess, who gracefully bowed her acknowledgements.

The party left the grounds immediately to attend the R.C.Y.C. garden party.

Korean Plotters.

Seoul, Korea, Aug. 27—Japanese and Korean lawyers yesterday pleaded for leniency towards the prisoners charged with conspiring against the life of Count Terauchi, Governor-General of Korea. The trial, in which 123 Koreans are accused, was resumed yesterday morning, when speeches for the defence were made.

The addresses for the prosecution were concluded on Saturday, when the crown prosecutor called on the court to sentence Baron Yunchiho and five other alleged leaders of the Sinminhoi secret society to ten years' imprisonment. He also demanded sentences of from five to eight years for the other 117 accused.

Escaped From Reformatory.

Winnipeg, Aug. 27.—After escaping from the Reformatory at Portage la Prairie late Sunday night, Arthur McCullachy and Alex. Wilson, two Winnipeg lads, sent up there for stealing motors, took an axe and broke open four garages in succession.

In the garage of Crown Prosecutor Taylor they found a machine to suit them. They were caught at Deer Lodge on the outskirts of the city early yesterday afternoon.

NO TEST FOR MONTHS

Canal Case Cannot Be Decided For Some Time.

Washington Officials Are of the Opinion That the Legality of the Rebates to American Ships Cannot Be Tested Until the Canal Has Been Opened—Taft Willing to Try the Issue.

Washington, Aug. 27.—Although Mr. Innes, the British charge and counsellor of the embassy, who was recalled from his vacation on the Maine coast to carry out certain directions of his Government regarding the Panama Canal legislation, remains in Washington, he has made no sign of a purpose to present any fresh representations to the State Department on this subject.

The original British protest having been ineffective in preventing the enactment of the objectionable legislation, and there being now a year and a half to elapse before the question of the actual payment of tolls in the canal can become a practical one, there does not seem to be special reason for urgency in negotiations.

Although President Taft was not himself convinced of the soundness of the assertion that foreign ship owners already have at hand the means of testing legally their right to use the Panama Canal on even terms with American shipping, it is believed that he is perfectly willing to allow this issue to be made up and tried out. The possibility of the adoption of this method of securing a judicial determination of the British right may prevent the negotiations between the two Governments from being carried to the point of an ultimatum, for several years at least. The test case could not be made up until the canal is in operation. Then when a British vessel protests against the imposition of tolls, her owners, if represented by any agency in this country, might apply to a United States circuit court for a determination of their rights and from that court an appeal might be taken by either party to the United States Supreme Court.

Increase In Soo Traffic.

Ottawa, Aug. 27.—The Canadian canal statistics just issued from the Department of Railways and Canals for the period from the opening of navigation to July 31 show an increase in the volume of traffic over the corresponding period last year of 2,962,007 tons.

The greatest increase is through the Soo Canal. The increased volume of traffic through this waterway is almost equal to the total increase through all the canals, the gain being 2,793,682 tons.

A decrease, however, is shown in the volume for the Chambly, Rideau, St. Peters, Murray and Trent Canals.

Through the proportion of American and Canadias tonnage is not given, it is understood that the American traffic still exceeds the Canadian by 60 per cent.

Three Men Escape.

Windsor, Aug. 27.—The three men arrested at Amherstburg early on Saturday morning for looting two drill scows, which were tied up there, made their escape from the town jail between midnight and 5 a.m. yesterday.

The building in which the lock-up is situated is moss grown and ancient, and there is no one on duty there after noon. The robbers, who are all from the American side of the river, had no difficulty in gaining their freedom. They simply removed the bricks one by one, plied them neatly to one side, and when a hole of sufficient size had been made in the wall, walked out.

Incontestable Proof.

Insurance Agent — What are the proofs of your husband's death, madam? The Widow—Well, he has been home for the last three nights.

Gets King's Prize.

Another happy couple has qualified for the King's three guineas. Triplets, two girls and a boy, have been born to Mrs. John Montague of Earlscourt, Toronto. All concerned are doing well. What is most remarkable about the occurrence is that this is the third time Earlscourt has been blessed in this way within the space of a couple of months. Earlscourt is a suburb chiefly made up of English immigrants.

Collision on I. C. R.

Halifax, Aug. 20.—A head-on collision last night at Halifax between the incoming suburban train of the I. C. R. and a shunting engine badly damaged the suburban engine and inflicted fatal injuries on Engineer H. Hale of the suburban train. One of his legs was split downwards from the hip and he was terribly hurt otherwise. The shunting engine was a foot or two from the points connecting the track on which it was moving and the incoming suburban track, a curve preventing either engineer from seeing the other.

A Zeppelin for German Navy.

Berlin, Aug. 20.—The first airship to belong to the German navy is to be Zeppelin, which is to be completed and taken over by Oct. 1.

Monster Picnic

Admission 25 Cents. Dinner 25 Cents. Supper 25 Cents.

REV. J. P. FLEMING, Pastor.

READ ABOUT THE GREAT INVENTION

THE ECCENTRIC SPROCKET WHEEL

Long spokes give greater tying-power. (See arrow A.) Short spokes give swifter bundle discharge. (See arrow B.) When you take hold of a heavy stone, exert all your strength and it refuses to budge, what do you call for? A long crowbar, of course. Why? Because greater power is obtainable with the long lever. The great Invention—the Eccentric Sprocket Wheel (note arrow C)—is built on the principle of the lever. The long spokes (see arrow A and note how much longer than at arrow B) act as long levers—give greater leverage power.

It works out this way:

On our No. 3 Binder, when the bundle is about to be tied, the chain is pulled over the long spokes, which exert all their great leverage power—fully 16⅔ per cent. more than is obtainable with the ordinary wheel. The grain is compressed far more tightly. You get a neater, more compact bundle and save considerable TWINE. Easier to pick up, Easier to carry, easier to shock.

Immediately after our Knotter ties the bundle, the chain is pulled over the short spokes (see arrow B and note difference in length of spoke as compared with arrow A). The shorter spokes greatly increase the speed of the chain. The bundle is given a swifter discharge than with ordinary wheel, and the needle is speedily brought back, out of the way of the downcoming grain, into position for the next sheaf.

The Eccentric Sprocket does this, too—it prevents that "jar" or "jerk" always noticed on other machines when a bundle is being tied and discharged. You will not feel it on the No. 3; neither will your horses be annoyed by it, nor "the life" of the machine be shortened. Frost & Wood No. 3 runs along and does its work without even a suggestion of that "jerk."

Now, you see why every maker would put the Eccentric Sprocket Wheel on his binder if we did not control the patents for Canada. You see why it's wise to invest a post card and get our Binder Booklet so as to become thoroughly posted on the peer of them all—the Frost & Wood No. 3.

You are on the right track when you start investigating our No. 3—the binder that is built by a purely Canadian Company, who thoroughly understands Canadian conditions. We would like you to read a few of the hundreds of testimonials we have received from Canadian farmers, which back up our claims to the letter.

Just write us for catalogue

The Frost & Wood Company,

LIMITED,

Smith's Falls, Canada.

Frost & Wood No. 3 Binder

The Purchaser is the Man who has to pay for his machine, not the Agent.

STORIES OF THE STAGE.

A Splendid Accident Averted and an Actor Who Dined Too Well.

Here is an incident that was related by the late Bram Stoker, for many years manager to Irving of the production of "Hamlet" at the Lyceum in London.

On the second night of the performance the Chinese ambassador and Sir Halliday Macartney came to see Irving in his dressing room, and presently the ambassador, who was wearing magnificent robes of mandarin yellow, wandered off in the direction of the stage. The ambassador was close to the edge of the arch at the back of the scene, where Ophelia had made her entrance and would make her exit. Mr. Stoker jumped for him and just succeeded in catching him before he had passed into the blaze of the limelight. I could fancy the sudden amazement of the audience and the wild roar of laughter that would follow when in the midst of this most sad and pathetic of scenes would enter unheralded this gorgeous anachronism."

Mr. Stoker confessed that he was tempted to let the splendid accident occur. "Its unique grotesqueness would have insured a widespread publicity not to be acquired by ordinary forms of advertisement."

On another occasion a very different and very painful contretemps did occur. The actor who took the part of Polonius on entering gave his first line with so strange an intonation that Irving at once signed to the prompter to let fall the act drop, came forward and apologized to the audience and restarted the play with a new Polonius!—London Graphic.

WOMEN AND CARD GAMES.

In Chile Such a Combination Would Create a Sensation.

A woman who is a native of Chile was talking recently about the difficulty she had in accustoming herself to card playing among women when she came to this country. She said:

"In Chile card playing among women is undreamed of. Perhaps it is not too much to say that a Chilean woman would no more play cards than a New York woman would enter a Broadway saloon. It isn't that it is exactly or wholly a matter of morals with us. It just isn't the thing to do. It is not conventional.

"When I came to New York I brought my daughter-in-law with me, a Chilean girl. She and I were both horribly shocked to receive an invitation to a bridge party in the daytime. It was too much for us, and we declined. Other similar invitations came and kept coming. Finally our curiosity got the best of us, and we went to one of these affairs. Even after we got over our sense of outraged convention the whole thing seemed curious to us.

"The funniest sight of all was the women with little tags on them, as if marked 'by fast express,' or running up to another woman with a little card to be 'punched.' Finally we got sufficiently accustomed to 'take a hand,' but even yet I never do it without a covert feeling that I am putting myself beyond the pale."—New York Post.

Handicapped.

"Ah tell yo'," said the negro who was working on the man's shoes, "woman is a peculiah thing. Yo' gotta know jest how to handle huh or yo' goin' to git the worst uf it. Lots of times she'll git mad at yo' an' then yo' gotta talk to huh. Talk to huh—that's the way to mastah huh. She won't stand fo' no beatin' or nothin' lak that. Talk to huh. That's the way Ah handle ma wife."

Another negro working next to him looked up. "Whah did yo' git that black eye yo' got, Rufe?" he asked.

"Well, ma wife done it, but"—

"Why didn't yo' talk to huh?"

"How could Ah?" came from the first. "She had me by the throat wif ma wind shet off."—New York Telegraph.

Cracks in the Floor.

There are several ways of stopping the cracks in a floor between boards that have shrunken apart. One is to tear newspapers into small bits and soak them in flour paste, having the paste warm. Stir this until thick and fill the crack with it, using a broad knife to smooth the paste down into the cracks. Or sawdust and glue may be used with the same result. To a pound of glue allow a gallon of water, and when melted stir into it fine sawdust until it is stiff paste. Fill the cracks with this, packing it as solidly as possible, smoothing even with a broad knife.

A Crusher.

Cleveland once made a joke. An effusive politician burst in upon him and exclaimed loudly, "Mr. President, I owe you an apology."

"What for?" said Cleveland.

"For not having called upon you earlier, sir."

"Well," said Cleveland, curtly, "I haven't been lonesome."

A CHANCERY ROMANCE.

Helping a Friend, He Unearthed a Fortune For Himself.

Perhaps there is no more curious chapter in the history of the chancery courts than that of two Pittsburgh men. The first had a claim to a small estate abroad, but he did not have the money to pay the claim agency to make a search, so he got a friend to back him.

This friend's name was Peterman, and the money he advanced was like a grub stake—he was gambling on his friend's claim proving up.

One day when Peterman was at the claim agency office he came upon this advertisement in the agency files: "Peterman (Albertus), musician, born in Amsterdam in 1829, son of Charles Frederick and Henrietta Suzanna Gasman. Left for Liverpool in 1856. He is sought for inheritance by M. Contot, avocat, 21 Boulevard St. Germain, Paris."

That was the inception of the famous "Kinsey docks" case, the name coming from the fact that the original Peterman was last seen at Kinsey docks, in Liverpool. The claim agency took the matter in hand, traced Peterman's lineage back and enabled him to establish a good claim to an inheritance of $200,000.

That was a case of fortune being thrust upon a man.—Lewis Edwin Theiss in Harper's Weekly.

JOBS FOR THE INDIGENT.

Swiss Method of Solving the Problem of the Unemployed.

In Switzerland the people act upon the theory that a man who is unemployed is, if left to himself, liable to become a waste by being a subject of charity and a tax upon the community. Therefore the problem is considered as an economic question.

The purpose is to assist the unfortunate unemployed to secure work, not only for the sake of his family, but in the interests of the state. There is no toleration for the loafer. Begging is prohibited by the law, and vagrancy is classified as a crime.

If an unemployed person does not make a serious effort to find work the authorities will find it for him, and he is compelled to perform it. If he refuses he is placed in the workhouse, where strict discipline is maintained and every inmate is required to work to his full capacity, receiving therefor his board and lodging and from 5 to 10 cents a day in wages.

There are also institutions where temporary employment is furnished to persons out of work, through no fault of their own, and comfortable accommodations and some money compensation given until they can find more remunerative wages.—Chicago Tribune.

Motherly Advice.

"My dear, you mustn't be so sharp with strange young men. You know you may give them a wrong impression."

"What's the matter now, mother?"

"You scarcely spoke a word to that young man you were introduced to last evening."

"I didn't like his way, mother."

"Did you know him?"

"No; I'd never met him before."

"Do you know anything about him?"

"Nothing, except that he seemed to me to be very impertinent."

"Still, you shouldn't have snubbed him, at least until you had learned more about him. Once I snubbed a young man that way without knowing who he was, and I regretted it ever after, because I found out later that he was very rich. I might have married him if I had been more careful."—Detroit Free Press.

Why Bruises Become Black and Blue.

The color of blood is due chiefly to iron in the little blood cells. When the iron is kept in these little blood cells, which are living and traveling around in the blood vessels, the color is red. Hit the skin hard enough to break some of the little blood vessels beneath the surface and the little red cells escape from the injured blood vessels, wander about for awhile in the tissues and die. When they die the iron that made them red before then changes to black and blue coloring. After awhile this iron is taken up by the glands called the lymphatics and made over again into nice red cells. The iron is taken up very much more quickly by the lymphatics if the black and blue spot is rubbed and massaged.—St. Nicholas.

Fairy Stories.

Mr. Bacon—When a woman tells a fairy story she always begins like this. "Once upon a time." Mrs. Bacon—Yes, and when a man tells a fairy story he always begins like this: "There, now, dear, don't be angry with me. You see, it was like this."—Yonkers Statesman.

Didn't Have to Make Her.

"Well, I saw my wife off for the West Indies this morning."

"Jamaica?"

"No; she went of her own accord."—Princeton Tiger.

Mrs. Whitney Killed by Lightning

Ottawa, Aug., 27.—Mrs. Whitney, wife of L. W. Whitney, vice-president of the Two Macs Company and sister of Controller McClenagahan, was instantly killed about 10 o'clock this morning at Britannia by being struck by lightning. The flash that proved fatal to Mrs. Whitney entered through the roof of the summer kitchen, ran along the wires leading to an electric light, and struck her on the back of the neck, killing her instantly. In the house at the time were her three children, who were all stunned. When they recovered a a few moments afterwards one of them ran to bring some assistance. Mrs. J. E. McClennagahan, sister-in-law of the deceased lady, who was living quite near, was the first one to arrive on the scene. A quick survey of the affair showed her that her sister-in-law was quite dead and that assistance would be of no avail.

The late Mrs. Whitney was forty-three years of age. She was a sister of Controler McClenagahan and is survived by her husband, her mother, Mrs. S. McClenagahan of Britannia, her brother J. E. McClenaghan, of the marine and fisheries department, and Mrs. W. H. Hasley.

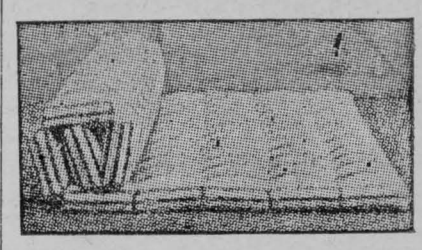

Coroner Baptie was summoned but he decided that an inquest would be unnecessary.

Dr. Charles A. Murray testified at the Intercolonial Railway pass inquiry regarding the money Ray Vye obtained from him.

Blaze at Brockville

Brockville, Ont., August 23.—A fire which broke out this afternoon in the rear of the Stayner drug store from an exploision of a spirit lamp used in the development of films, caused about $5,000 damage to the Galenna block. The store was completely gutted and the flames spread to other parts of the building but after an hour's hard work the efforts of the brigade triumphed.

Smoke and water damaged the stock of the Charles Hillis harness shops adjoining. Householders occupying the flats above also were losers, the majority of whom had no insurance. Hillis and Stayner are fully insured but Jos. Gallena, the owner of the block, stands to lose about $2,000.

The blaze, which could otherwise have been extinguished in a few minutes, got a good start by the water being shut off in that part of the town to permit connection being made with a new main close to the scene of the fire.

Pembroke Grants Bonus to Canadian Northern.

Pembroke, Aug. 22—Pembroke, to-day by 608 votes for to 23 votes agaist carried a by-law to grant to the Canadian Northern Ontario Railway a bonus of $25,000 exemption from taxation, and free water for a period of twenty years. The company has agreed to make Pembroke a divisional point on its transcontinental line. The town is fully awake to opportunities such as these, as is shown by the large vote in favor of the bylaw, and a real estate boom seems imminent. It is rumored that a bylaw granting certain concessions to a box factory will soon be submitted for the approval of the rate payers.

M'Gill Medical Course Lengthened by a Year.

Montreal, Aug. 22—According to the medical calender issued by McGill University the medical course is now five years instead of four as formerly. The change, it is believed, will give students a better and more complete course. Sessions run eight months, or from October 1 to May 1.

Amos B. Hyde of Boston had neck broken when his motor car turned turtle near Homer, six miles west of St. Catharines.

$3,000,000 Uptown Hotel for Toronty.

Toronto, Aug. 23—J. J. O'Neill, proprietor and half owner of the St. Charles Hotel, on Yonge street, announces that he, together with some New York people will erect a twelve story hotel, costing three million dollars, on the site of Bishop Strachan School, just west of Yonge, on College street. This property was purchased a few days ago for four hundred thousand dollars. The hotel is to have six hundred rooms. The site is considerably north of what may be called the "down-town district," and is near Queen's Park and the Parliament Buildings.

Losing Cooperage Trade.

Ottawa, ont., August 22.—That Canada is fast losing her possibilities as a producer of tight cooperage is brought out by the statistics compiled by the Forestery Branch of the Department of the I nterior. These show that whereas 2,768,000 oak staves were cut in the Dominion in 1911, 7, 293,000 were imported.

In the manufacture of slack copperage used for the dry rough accomodation such as lime, potatoes, apples, dry fish, cereals, etc., which predominate in Canada's products, elm is the principal wood employed, forming fifty per cent of the total consumption. Spruce is rapidly coming into more general use as a source of the stave supply, eleven million more spruce staves and nine million fewer elm staves having been used in 1911 than in 1910. When elm is exhausted birch will probably take its place, being comparatively flexible and availing in great quantity.

The total value of the materials used in the slack cooperage industry in Canada for the past year was $1,465,702. In 1910 it was $1,595,119, or some $130,000 more. Imports and exports of materials and finished products were, respectively, $329,992 and $135,463, an excess of imports over exports of $194,529. The total amount of material used, according to an estimate of the forestery branch, was over 62,000,000 feet board measure Through checking, loose methods of manufacture, etc., etc., there is also a great deal of waste not accounted for.

New Railway to Brockvilla

Brockville, August 23.—Messrs. Morden and Darell of Toronto are in Brockville this week in the interests of the proposed Ottawa& St. Lawerence Electric Railway. The line, when completed, will be a big loop and open up a splendid tract of country.

From Ottawa the line will run south to Cornwall, then follow the river westerly to Brockville. From here the road will run to Union Vally, thence in a northeasterly direction through Perth and Lanark to Bayside, which is the most northerly point, and then along the Ottawa river to the Capital, a total distance of 274 miles. The gasoline electric will be the car used.

The financing of the line is practically assured, and it is expected that a start will be made on that section of the project between Ottawa and Morisburg will be started within the next thirty days.

Tripped By Wire And Skull Fractued

George, aged nine and third son of Mr. and Mrs. Weston Beach of Winchester, had a trick perpetrated on him on Tuesday night which may yet cost him his life. He was running home 8 o'clock and when in front of Mrs. Noah Durant's residence on St. Lawerence street he was caught by a wire across the chest and hurled to the cement sidewalk. His head struck the walk causing a fracture of the whole right side. The boy had the appearance of being dead was picked up and laid on the grass until his father could be notified who quickly came and carried him home. A physician was summoned, and although the boy has regained consciousness his condition is so critical that the outcome cannot yet be stated. The unfortunate occurence was caused by young Merton Durant stretching a wire from a tree across the walk to a pole. It is alleged that this practice has been going on for some time and that several parties have run narrow escapes from being tripped at different points along the street.—Press.

PARISIAN SAGE

Is Not a Dye and does not Contain Poisonous Lead or Sulphur.

People who use Parisian Sage never grow bald because it kills the dandruff germs the cause of falling hair and baldness.

For your own protection see that you get Parisian Sage. The girl is on every cartoon and bottle. Your scalp will feel so delightfully refreshed that ordinary commercial tonics won't do any more.

It's wonderful how quickly stops falling and dandruff and scalp itch disappear when Parisian Sage is used. Tens of thousand of women use it because it makes the hair so nice and brilliant that attracts admiration W. G. Bolster's and dealers all over Canada can supply you with it. A large bottle costs but 50 cents.

Loans From Banks His Joy

Fredrick Anglin, the McIntosh Mills farmer who is awaiting sentence at Brockville on a charge of passing a forged cheque for $150 on the teller of the Northern Crown Bank, appears to have had a mania for fraudulent dealing in banking circles. Judging from developments since his arrest, it transpires that in July he negotiated a loan for $127 at the Metropolitian Bank, and two weeks later obtained $150 at the Bank of Montreal, using the name of Bernard Flood on the promissory notes in both instances. Flood is leading farmer of the section where Anglin resides. About the same time it is also said he obtained a pair of boots from a local merchant on false pretense.

Anglin was committed for trial in the police court on these three additional charges. The prisoner is being examined as to his sanity.

Convict Died Just as Release Came

Kingston, Aug., 24.—A young inmate of the penitentiary here by the name of Fresse, who has been granted a pardon after serving three years of a five year term, died at noon to-day, shortly before the time came for his release. He had been in ill health for some time. His mother arrived to take him home to Milwaukee, Wis.

ONTARIO STORM SWEPT

Stories of Havoc Come From All Over Province.

Farm Structures Destroyed, Crops Damaged, Stock Killed, and Other Injuries Done by Wind and Lightning Are Reported From Almost Every District — Many Farmers Have Been Seriously Set Back.

Toronto, Aug. 27.—A series of electrical storms swept across Ontario from east to west, starting early yesterday morning and continuing until late late night. It was one of these storms that struck Toronto late yesterday afternoon, tying up the car lines and the Toronto electric light service, and doing great damage to standing crops and cut grain in the fields in adjacent counties.

From nearly every point in old Ontario came stories that recorded the havoc wrought by one of the fiercest electrical disturbances known in the province and one that for destructiveness surpassed those remembered by oldest residents. With the rain and lightning, in many parts, was a high wind, almost a hurricane, and this added to the desolation. Many farmers have been set back years.

Galt District Suffers.

Galt, Aug. 27.—Sunday night's electric storm was most severe in a great many years and although no heavy losses have been reported in town, the surrounding country suffered considerably.

Several barns were struck by lightning and a couple burned to the ground. The oldest residents cannot recall such a severe storm nor so vivid and long continued lightning. Among losses reported are Burford Station, canning factory, Peter Humphrey, well known farmer of Troy, had several cattle killed by lightning. The barns on the farm of John Reid, Branchton, were destroyed by fire with the season's crop. The barn of J. Hammill, Sheffield was damaged by thunderbolt, and the barn of John White, Wrigley's Corners, was struck and completely destroyed with contents. The losses run into thousands, partly covered by insurance.

Power Lines Damaged.

Belleville, Aug. 27.—This section of the community was on Sunday visited by a severe electrical storm, causing considerable damage to the lines of the Toronto Electric & Water Power Co. in Thurlow Township. A horse owned by George Bodyley was being driven along the road when it was struck by lightning and killed.

Serious Farm Losses.

Brantford, Aug. 27.—Three electrical storms from different directions converged into one here last Sunday night and put this district in a blaze of electric light for over an hour. The box factory of James Elliott at Scotland was totally destroyed and several residences were threatened in the village. Five large barns belonging to George L. Telfer, a well-known sheep expert, and Robert Peart, near Paris, were totally destroyed with entire season's crops.

Record Storm at Ridgetown.

Ridgetown, Aug. 27.—Ridgetown was the centre of the worst electrical storm in years Sunday night. Wm. Thorold's two large barns, just west of the town, were struck and burned with all the contents. Trinity Schoolhouse on Talbot street was struck and damaged, also the schoolhouse at McKay's Corners. Mr. Pickering's barn, near Blenheim, and Wm. Knight's, in Howard, were struck and burned, besides several in Harwich.

Barns Lost Near Paris.

Paris, Aug. 27.—Paris was visited Sunday night by one of the worst thunder and lightning storms in its history. The lightning was very vivid, and the rain came down in torrents, lasting from about 11 o'clock until after three. No damage is reported in town, although the country around suffered. Mr. Joseph Peart, who lives in Brantford Township, a few miles from Paris, lost his barn and nearly all his crops through the barn being struck by lightning.

Mr. White, who lives on the Galt road, also lost his barn and crops. A couple of other barns are also reported to have been struck.

Zorra Buildings Gone.

Woodstock, Aug. 27.—During the severe electrical storm which passed over Zorra early yesterday morning, lightning struck the barn of John Todd's farm and the structure was entirely destroyed by fire, together with the season's crop and some of the live stock. Some of the pigs and sheep were saved. The loss is partly covered by insurance.

Sarnia Shop Destroyed.

Sarnia, Aug. 27.—One of the most severe electrical storms of the season passed over this section Sunday night about 12 o'clock. The large cooper shops owned by the Port Huron Salt Co. were struck by lightning about 2 a.m. and by 5 o'clock the entire plant was destroyed.

A large barn near Courtright was also destroyed by fire during the big electrical storm, which passed over this section Sunday evening.

Barns Burned at Chatham.

Chatham, Aug. 27.—The severe electrical storm early yesterday morning did great damage to farm property in this section of the country. The large barn located on the Williamson farm, in Chatham Township, and owned by Thomas Slater of this city, was struck by lightning and burned to the ground. There were over 1,000 bushels of wheat, as well as a large quantity of hay, oats and other farm products, and all was consumed by the fire. The storm appears to have been general, and in more remote parts of the country quite a number of buildings were destroyed. A farmer by the name of Pickering, living near Blenheim, suffered the loss of his barn with this year's crop, and another large fire occurred in the early morning at Mitchell's Bay.

Ex-Alderman Ruttan of Port Arthur, died yesterday, aged 60.

Child Has Four Great-grandmothers.

There are few children who can boast that they have two grandmothers and four great-grandmothers living, but this distinction can be claimed by Alice, the seven-months-old daughter of Mr. and Mrs. Ray Humphrey, who live near Galt, Ont. The maiden name of the child's mother was Pearl Culham, and she was the daughter of Mr. and Mrs. Nelson Culham, Sheffield. The mother of Nelson Culham, Mrs. John Culham, New Sheffield, is living, as is also the mother of Mrs. Nelson Culham, who is Mrs. John Harvie of Branchton. The mother of the child's father is Mrs. James Humphrey, and her mother, Mrs. Emmerson Clement, lives at Lynden, and Mrs. James Humphrey's mother, who is Mrs. John Humphrey of Troy, is in her ninety-third year.

An Expensive Job.

It is commonly said in the Old Country that no man without a good private income can afford to be Governor-General of Canada — that the $50,000 a year which his Majesty's representative receives from the Dominion by no means suffices to meet the expenditure incumbent on the occupant of that exalted post. Indeed, it has been said that financial considerations almost deterred Lord Dufferin, who was very far from being a rich man, from accepting the honorable, if not very onerous, post, when it was first offered to him. Be that as it may, it is certain that most of our Governors-General — notably Lords Lansdowne, Minto, and Aberdeen, and the Duke of Connaught—have been men of very large private resources.

Taking a Chance.

"Is that picture one of the old masters you were telling me about?" asked Mr. Cumrox.

"Yes," replied the art dealer. "It is a genuine treasure—absolutely authentic."

"I'll buy it. I already have three just like it, and somewhere in the bunch I'm liable to hit the original."

Juvenile Courts.

In one year 33,000 offenders have been brought before the juvenile courts of England.

Historic House Goes.

"Beverley House," Toronto, is to be torn down to make room for more modern structures. Work of razing it will begin almost immediately, and in a short time one of Toronto's noted land marks will be no more.

Since the old mansion was built in 1812 it has been practically the home of the Robinson family, the first member of which to settle in Canada was Christopher Robinson, a United Empire Loyalist. Beverley House was the home of his son, John Beverley Robinson, who became chief justice and a baronet. He had three sons, Sir Lukin Robinson, bart., Sir John Beverley Robinson and Christopher Robinson. The second son was mayor of Toronto, was elected to Parliament in 1858, and was president of the Macdonald-Cartier administration in 1862. The third son occupied the homestead at the time of his death, and until a over a year ago the property was in the possession of his widow. From 1839 to 1840, Beverley House was the residence of Poulett Thompson, Lord Sydenham, governor of Upper Canada.

Discovered Senator Cox.

Perhaps one of the most interesting incidents in the career of the late H. P. Dwight, president of the G.N.W. Telegraph Co., is that he discovered Senator George A. Cox. When he first came to Canada as a telegraph operator and line-builder he went into the little town of Colborne, on the Grand Trunk, and while waiting for one of his poles to be put up, he went into a little shoe store to have his shoe repaired. This story is told by the Senator himself.

While Mr. Dwight was talking to the shoemaker, he asked where he could get a boy. The Senator, then a lad of eight or ten years, immediately volunteered his services, and thus the Senator went into the service of the old Montreal Telegraph Co., and, while in it for many years, became an expert operator and is so today. Mr. Cox was long an agent of the telegraph company.

His Seventy-Sixth Parade.

A feature of the Brantford Twelfth of July parade was the appearance of James Olive of Paris, aged 93, who marched for the seventy-sixth time. There were in line 100 veterans of the order who joined the order over 40 years ago.

MARKET REPORTS.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock —Latest Quotations.

CHICAGO, Aug. 26.—Promise of larger shipments from the harvest fields in the Dakotas and Minnesota gave the wheat market to-day an easy tone. The close was 1-8c to 1-4c lower than 48 hours before. Corn finished irregular, a shade off to 1-4c and 3-8c up; oats down a sixteenth to 1-4c and 3-8c, and provisions varying from 5c decline to 7 1-2c advance.

The Liverpool market closed to-day ¼d to ½d higher than Saturday on wheat, and ⅞d higher on corn.

Montreal Grain and Produce.

MONTREAL, Aug. 26.—The demand from foreign buyers for Manitoba new and old crop low grades was fair, at an advance in prices of 1½d in some cases, but the volume of business done was small. Business in oats was quiet, and the tone of the market is easier. Local demand for flour continues good for small lots, but export trade is dull. Millfeed fairly active and firm. Butter in better demand and firmer. Cheese strong and fairly active. Exports for the week were 53,348 boxes, against 74,635 a year ago. Eggs firm.

Corn—American No. 2 yellow, 83c to 84c.

Oats—Canadian western, No. 2, 49c; do., No. 3, 47c to 49c.

Barley—Manitoba feed, 63c to 64c; malting, 80c.

Flour—Manitoba spring wheat patents, firsts, $5.80; seconds, $5.30; strong bakers', $5.10; winter patents, choice, $5.25; straigh rollers, $4.85 to $4.90; do., bags, $2.25 to $2.30.

Rolled oats—Barrels, $5.05; bags, 90 lbs., $2.40.

Millfeed—Bran, $22; shorts, $26; middlings, $28; moullie, $30 to $34.

Hay—No. 2, per ton, car lots, $16 to $16.50.

Cheese—Finest westerns, 13½c to 13⅞c; do., easterns, 12⅞c to 13⅛c.

Butter—Choicest creamery, 26c to 26¼c; seconds, 25½c to 25¾c.

Eggs—Selected, 28c to 29c; No. 2 stock, 19c to 20c.

Potatoes—Per bag, car lots, $1.15 to $1.25.

Dressed hogs—Abattoir killed, $12.25 to $12.50.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $26; short cut backs, barrels, 45 to 55 pieces, $26; Canada clear, barrels, 30 to 35 pieces, $25.50.

Lard—Compound tierces, 375 lbs., 10¼c; wood pails, 20 lbs. net, 10¾c; pure, tierces, 375 lbs., 13¼c; pure, wood pails, 20 lbs. net, 13¾c.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, Aug. 26.—Receipts of live stock at the Union Stock Yards were 78 cars—1499 cattle, 377 hogs, 564 sheep and lambs, 98 calves and 31 horses.

Exporters.

Swift & Co. bought 223 export steers at $6.75 to $7 per cwt., but we only heard of one load at the latter figure. The next highest was $6.95.

Butchers.

Choice butchers, export weights, sold at $6.25 to $6.75; loads of good butchers, $5.50 to $6; medium, $5 to $5.25; common, $4.50 to $4.75; choice, heavy cows, $5.25 to $5.50; good cows, $4.50 to $5; medium cows, $3.75 to $4.25; common cows, $2.75 to $3.50; canners, $1.50 to $2.50; light bulls, $2.75 to $4.75; heavy bulls, $5 to $5.50.

Stockers and Feeders

Feeders, 900 to 1000 lbs., sold at $5.25 to $5.50; steers, 800 to 900 lbs., at $4.75 to $5; stockers, $4 to $4.50.

Milkers and Springers

There was a moderate delivery of milkers and springers, that sold at from $40 to $80 each, and one at $87.

Veal Calves.

There was a wide range in quality and prices of veal calves, selling at from $3 to $9 per cwt.; those selling at $9 were choice, new milk-fed veals.

Sheep and Lambs.

Sheep, ewes, of light weight, sold at $4 to $5 per cwt.; heavy ewes, $3 to $4; lambs, $7.25 to $7.85.

Hogs.

The buyers reported the hog market lower, at $8.50 for selects, fed and watered, but a few selects were reported sold at $8.65 to $8.75, fed and watered.

Montreal Live Stock.

MONTREAL, Aug. 26.—At the Montreal Stock Yards west end market the receipts of live stock for the week ending Aug. 24 were 500 cattle, 3000 sheep and lambs, 2300 hogs and 650 calves. The supply on the market this morning consisted of 900 cattle, 2000 sheep and lambs, 1000 hogs and 350 calves.

There was no actual change in the condition of the market for cattle as compared with this day week. The supply was ample to fill all requirements, and in consequence the tone was steady. The quality of the stock coming forward is steadily improved, and especially the northwest ranch cattle, of which there were about 400 head on the market.

The gathering of buyers was fairly large, and, as they all wanted some beef, the demand was good and a fairly active trade was done. Sales of full loads of northwest ranch cattle, averaging 1100 pounds each, were sold at $6.25 to $6.50, and picked lots at $6.75 per 100 pounds, while the top price paid for picked lots of choice Ontario steers was $7.25 per 100 pounds. There was a good demand from packers for supplies, and considerable business was also done by canners in bulls at $2.50 to $3 per 100 pounds.

The supply of hogs was only fair, and some of the packers were short of stock. The demand was keener than usual, and an active trade was done, but there was no change in prices as compared with a week ago, they being firm, with sales of selected lots at $8.50 to $9 per 100 pounds, weighed off cars.

The trade in sheep and lambs was active, there being a good demand from both packers and butchers for supplies, and prices ruled steady, with sales of Ontario lambs at $6 to $6.25, and Quebec stock at $5.50 to $5.75 per 100 pounds. The offering of calves was small, for which the demand was good at firm prices.

Butchers' cattle, choice, $7 to $7.25; do., medium, $5 to $6.25; do., common, $4 to $4.50; canners, $2.50 to $3; butchers' cattle, choice cows, $5 to $5.25; do., medium, $4 to $4.75; do., bulls, $4 to $5; milkers, choice, each, $60 to $70; do., common and medium, each, $40 to $50; springers, $30 to $35.

Sheep, ewes, $3.75 to $4; bucks and culls $3.25 to $3.50. Lambs, $5.50 to $6.25.

Hogs, f.o.b., $8.50 to $9.

Calves, $3 to $10.

Cheese Markets.

CANTON, N.Y., Aug. 26.—There were 5000 boxes of cheese sold at 15¼c, and 80 packages of butter sold at 27c.

LINDSAY, Aug. 26.—Nine hundred boxes of cheese on the Victoria County cheese board this morning sold for 13 1-16c to Buyers Gillespie, Flavelle and Thompson.

UTICA, N.Y., Aug. 26.—Prices ruled fairly firm at the Utica Dairy Board of Trade meeting to-day. The sales were: 2340 boxes small colored at 14¾c; 1166 boxes small white at 14¾c.

LAYING THE STEEL.

Railroad Builders Are Awaking Echoes In Silent North.

Twenty thousand men are at work on the new railroad grade of the two westernmost provinces. The coast section of the transcontinental Grand Trunk Pacific takes the largest number of these, on construction work west of the mountains; but the shovels are busy, too, in Alberta, where soil that last year produced oats and potatoes, or has been untilled since Creation Day, is being thrown up into near-straight lines that are eloquent of promise.

It is going to be a busy summer in the railway camps of central Alberta. Some six hundred miles of steel, mostly in the central and northern parts of the province are to be laid before the snow comes again, but the graders will cover a larger mileage even than this. They began early, and a lot of virgin soil will be shifted during the coming season. The net result of their labor will be seen in long, flat-topped mounds, crossing farms and one-time Indian roving grounds in a way that was never known before.

Now is the time, between the first projecting of the roads and the actual running of the trains, that the human interest of western railroading best shows itself. Many prairie towns are familiar with the outfitting and departure of construction crews that hit the trail in this direction and that. These interesting cavalcades are made up of men, beasts and implements that alike are built for hard wear and long endurance. They do not fit so well into the aspect of city streets, but when they get into the open and swing their crooked way along the trails to the site of their first camp, or when they move from one camp to another, they seem very rightly and appropriately to be part and parcel of the country. In the evolution of the railroad they are the clumsy but necessary forerunners of the gay steam trains and fast expresses.

A construction camp is, in its outward look, something like a county fair and a circus combined. Its canvas tents shows up strongly against the greens and blacks around them, and the general hit-and miss plan of their layout is rather pleasing. There is nothing stiff about them, nothing conventional, yet always enough of method to ensure quick service and reasonable comfort. The railway camps in central Alberta are better than many. They are rough, to be sure, but the character of the country makes it possible to introduce far more of the picnic feature into the camp life along the grade than can be done either on the plains or in the mountains. The graders, who this summer will be working south toward Calgary, or north into the Peace River country, will have a glorious outdoor life to live, and their nights will be full of good air and sound sleep.

The men who make the grades and the men who follow them with the steel are a very mixed lot. They come from everywhere, and they have all kinds of history behind them. An Oxford graduate frequently handles a shovel next in line with an unlettered immigrant from mid-Europe, and the son of a titled family takes his chance with an eater of garlic. But in camp life, where nothing counts but work, social levels are soon struck. Nevertheless, the human interest and human variety of these construction camps are significant, and one cannot altogether forget that the big noise that is being introduced into the new and silent places of the north is, in the last analysis, eloquent of man's energy and persistence.

Dairy Station Open at Finch

The Dominion dairy station at Finch, Ont., was opened for the reception of milk on Saturday. The supply comes from the patrons of the small factories, which were competing with each other, but were purchased by the dairy commissioner for the department of agriculture last spring.

The new building is situated in the village of Finch and is of cement concrete construction with a complete drainage system. Including septic tanks for handling waste products' It is equipped for the manufacture of both cheese and butter, with a cool curing room for cheese and a refrigerator for butter. Provision is made for pasteurizing the whey and other up to date requirements.

The factory will be operated on a regular commercial basis and it is hoped that the building and equipment, as well as the management will serve as a model for the guidance of those who may be inclined to replace the makeshift factories which are too much in evidence in some parts of Ontario. At the same time the station will afford facilities for carrying on experimental work. This is the first establishment of the kind in Canada. The building has been planned and its erection supervised by the staff of the dairy division. Mr. Geo. H. Barr, chief of the dairy division assisted by J. G. Bouchard, has been in charge of the work. It is expected that a formal opening and picnic will be held at an early date.

Hon. Mr. Burrell, minister of agriculture, has authorized the establishment of another dairy station at Brome which is to be of similiar character, but to deal more particularly with matters relating to the cream industry.

Epworth League.

There was a good attendance at the Epworth League Meeting Monday night.

The topic "Undermining the Home" was taken by Mrs. S. A. Woods, who delighted all with her splendid address. Mr. Soper of Perth was present and gave a short talk on the same subject. Meeting next Monday night. Roll Call and Consecration Service.

Sudden Death at Winckester

A very sudden death occured at Winchester on Saturday morning, Aug. 24th, 1912, when without hardly a moment's warning. Mrs. Weston Beach passed away. It occured in the morning about breakfast time, and Mr. Beach was present, and in the act of collapsing he caught her and in his arms she died.

Medical aid was at once summoned, but they arrived too late, and no doubt would not have been of any assistance, had they been there at the moment.

The funeral took place on Monday afternoon and was very largely attended. The Rev. Sproule conducted the service.

The deceased leaves a husband and four little boys, ranging in ages from four to thirteen, to mourn her sudden death.

Launch Adrift in Rapids.

Cornwall, Aug. 22—With the cylinder broken and the cable of the anchor not sufficiently long to grip on the bottom, the gasoline launch Quick Step, containing three men, four children and fourteen women, drifted into the rapids in the St. Lawrence river opposite Coteau Landing to-day. The craft when caught in the rapids swung round and round and the women became panic-stricken. It was only after a great effort on the part of the men aboard that they were quieted. Boats were put out from the shore and rescued the party.

Local and District News

Mr. McEwan of Grantley, has purchased the residence on Joseph street in this place, from Miss Teresa McDonald.

Whittaker the Optician will be at Chesterville on Tuesday, Sept. 17th; Russell, Thursday, Sept. 19th Finch, Friday, Sept. 20th.

Take your family to the Fair Grounds on Labor Day for dinner and tea. Everything first-class. Do not miss the great event of the season. Last call to lunch. Dinner sharp at 11.30. Tea 5.30.

Murray N. Donald, of Morristown, District Deputy Grand Master of the 23rd Masonic District, has arranged for all Masons their families and friends, to visit the Masonic Home at Utica, N. Y., Sunday, Sept., 15th. Train leaves Morristown 6.45 a. m. returning leaves Utica at 6.30 p. m. A cheap rate has been secured.

Building permits of the month of July for the whole of Canada were fully 50 per cent greater than during the month of July, 1911, according to statistics compiled by the financial Post, Toronto, for the first time in some while, drops into second place for the total amonnt of building done, and Winnipeg, with the tremendous amount of $3,346,500, takes the premier position.

Miss Isabel McCrea, only daughter of the late Patrick McCrea, registrar of Grenville many years, passed away at St. Vincent de Paul Hospital at Brockville early Tuesday morning. She had been a patient there for two weeks.

Deceased was born and spent her whole life in Prescott. Two brothers George McCrae, barrister, and William McC a , reside in Prescott. The remains were taken to Prescott.

Mrs. J. S. Myers and son Loyd, of Morewood, have returned from a two month's visit in the West. Mrs. Myers spent several weeks at Neepawa, Man., with her daughter Florence, and the remainder of her time was spent at Moosejaw, where she was visiting her son, Thomas E. Mrs. Myers was greatly surprised to see the many thriving villages with their beautiful churches and schools, which the Western people, by their ambition and energy had erected in such a short time. Mr. Ray Myers, who accompanied his mother to the West, has located for the present at Baldworth, Sask., where he will be principal in the village school.

Cornwall, Ont., August 26.—Mrs. Pitt, widow of the late Hiram Pitt, hardware merchant, passed away at her home here on Saturday, aged 96 years. The deceased was of U. E Loyalist descent being a daughter of the late Col. George Merkley, of Morrisburg. She came to Cornwall, where Mr. Pitt opened in the hardware business about forty years ago and continued it until his death twenty-four years ago. The business has since been conducted by his son, Mr. R. J. Pitt. The late Mrs. Pitt is survived by two sons, Mr. R. Pitt of Cornwall; Mr. A. J. Pitt, wholesale jeweller, of Montreal, and one daughter, Miss Sophia Pitt of Cornwall; also by two sisters, Mrs. Mrs. J. E. Tuttle, of Ottawa, and Miss Elmira Merkley of Morrisburg. The funeral took place on Monday afternoon to Woodlawn cemetery, Cornwall.

During the early hours on Sunday morning Aug. 18th, 1912 death came very peacefully and, quietly though unexpectedly, to Mrs. Albert McIntosh of Williamsburg, while Mr. Lewis McIntosh and other members of the family were at the barn attending to their milking. On their return to the house they were notified of the old mother's condition and on entering her chamber found her passing into the Great Beyond. The deceased lady was a highly respected resident of this community, quiet, unassnuming and loved and honored by her family and friends and all who had the pleasure of her acquaintance. The funeral was held on Tuesday at 1.30 p. m. from her home to the Methodist church. Rev. Mr. Newton officiating assisted by Rev. Mr. Boyd, of Dundela.

The deceased lady was 77 years of age, she is survived by her husdand and six children five daughters and one son, Mr. Louis McIntosh at home. The remains were interred in the family plot in the cemetery at Dundela.

Peter Bovart died at the Lanark County House of Industry on Saturday the 10 th inst. The deceased was in his hundredth year, having been born at Quebec in October 1912. He had lived for seventy seven years in Westmeath, Renfrew County, and had been committed to the Industrial Home there.

The Dundas County Sabbath School Association will hold its annual convention in Morrisburg this year, about the last of September. On Wednesday of last week the executive met at Winchester Spring's to map out a program. The association president is Rev. Mr. Stevens, pastor of the Methodist church of this place.

Muriel Georgina Pruner, granddaughter of Mr. and Mrs. Jacob Pruner, died on Friday, Aug. 16th, after an illness extending over nearly the whole period of her life. She was ninteen years of age. The funeral took place on Sunday afternoon at 1.30, from her grandfather's residence Canal street, to St. James church, where Rev. Mr. Anderson conducted the funeral service. Interment was made in the Anglican burying ground.—Leader.

This year there has been a veritable scarcity of robins in all parts of Ontario and this fact has been the subject of comment by many local lovers of this feathered friend: It is understood that the scarcity is caused by the enormous slaughter of the bird in their Southern winter home. At any rate the small boy will have to plead guilty to the cherry tree thefts this year.

Prescott Man Drowned

Prescott, Ont., August 26—The body of a young man found in the river near the ferry dock this morning, has been identfied as Edward Henry, of the River road, three miles west of Prescott. The young man has been missing since Wednesday. He was about 33 year of age.

Poured Carbolic Acid Down Sister's Throat.

North Cobalt, Ont., August 27.—The three-year old son of Sherley Clarke, caused the death of his eleven-month-old baby Sunday by pouring carbolic acid in its mouth, while the mother was out of the room. The baby died before the arrival of the doctor.
