Died Aged 98.

The death occurred at Kemptville a few days ago of Michael Swain, the oldest resident of the County of Grenville. He was aged 98.

Anniversary Services at Finch.

The anniversary services and harvest home dinner of St. Luke's church, Finch, will be held on Sunday next, Sept. 19th. The Rev. N. H. MacGillivray of Cornwall will preach at 10 a. m. and 7.30 p. m. On Monday following dinner will be served on the lacrosse grounds, when different athletic sports will take place. A concert will be held in the church in the evening. For further particulars see posters.

Celebrated Golden Wedding.

Mr. and Mrs. Donald Roach celebrated their golden wedding at Cornwall on Monday. Mr. Roach is 79 years and Mrs. Roach 75. They were married in St. Mary's Church, Williamstown, on September 13, 1859, by the late Rev. Father McCarthy and have resided in Cornwall for over two score years. They have ten children who probably take the bakery in the matter of avoirdupois. The six sons and four daughters, along with their parents weigh over 2,500 pounds, which is perhaps a record. They are Donald Roach, father, 200; Mrs. Roach, mother, 210; Wm. Roach, Sault Ste. Marie, Ont., 275; Daniel Roach, representing Swift's Packing Co., Liverpool, England, 250; Samuel Roach, Desbaratus, Ont., 255; Lawrence Roach, Kenora, 200; Corneilus (Tony) Roach, Cornwall, 170; Guy R. Roach, Cornwall, 190; Mrs. H. Barret, Desbaratus, Ont., 210; Mrs. J. P. Tobin, Butte, Mont., 225; Mrs. A. F. Quig, Joliette, Que., 215; and Miss Catherine Roach, Cornwall, 165. Total, 2,545; an average of over 212.

Two Freights Collided Here Yesterday.

Yesterday morning just before seven o'clock an accident occurred at the station here which may cause the death of Chas. Curran, brakeman of Montreal. Thos. Egan of Smith's Falls, brakeman, was also badly bruised, but was able to move around. Dr. Brown, C. P. R. physician, was called and had Curran taken to Montreal by the local train. His arm was broken and bruised and it is thought he is internally injured. The cause of the accident was the freight was taking the switch and before it got clear the gravel train engine caught the van and carried it a long distance before coming to a standstill.

The van broke loose from the train but not before two other rear cars were turned over in the ditch. The track was clear for traffic in about three hours.

Thos. Lindsay Dead.

After a lengthy illness, Mr. Thomas Lindsay, until recently head of the T. Lindsay company, limited, at Ottawa, died in his rooms at the Russell house yesterday morning a few minutes before three o'clock. With him at the time were his wife and brother Mr. Samuel Lindsay. Lindsay's illness, heart trouble with complications, became acute on May 24, confining him to his room for most of the time since.

The funeral will leave 36 Kent street, the family residence to-day at 2.30 p. m. for Conroy's cemetery, Aylmer road.

Accident at Interment.

During the burial of the late Milton A. Manhard, at Brockville, as the casket was being lowered into the grave a tombstone gave way under the pressure of spectators leaning against it. A large urn on the top of it struck John McKim a glancing blow on the head, rendering him unconscious. The monument and several spectators were almost precipitated into the grave with the corpse.

Fire Engine Given a Trial.

The new steam fire engine has arrived, as previously stated, and on Friday an expert was brought here and the engine given a trial. Quite a crowd of people gathered and there was an interesting time for about an hour, but there was no fire in sight. Councillors McGee and Chambers were right on the job and gave the engine a good test, and which we believe, was quite satisfactory to the public at large.

Lineman Badly Injured.

E. B. Gilfillan, a member of the local staff of the Bell Telephone Company, whilst at work three miles west of Gananoque, met with a serious accident. He was adjusting wires and fell to the ground a distance of 25 feet. He sustained two fractures of the right arm and two ribs were broken. There were other internal injuries. Gilfillan was taken to Brockville and placed in the hospital.

Crushed in Gravel Pit.

David Norman was killed at Monkland Monday night in a railroad accident. Norman and several other men were standing on the van of a work train backing out of the Warina gravel pit, when it collided with some cars on a siding. Norman's leg and thigh were so badly crushed that he died in half an hour. The others jumped and escaped.

Cornwall Man Goes Down for Robbing an Aged Visitor.

J. Simmers, late from Aultsville, got a five-year sentence from Magistrate Denis at Cornwall on Monday. An elderly man named Barker, recently from the Western States, was taken to Simmers' house and while he slept in Simmer's bed was robbed of his watch and revolver, losing also the money he had given Simmers. He was then driven out after a fight. Simmers sold the watch for $5, but before he could spend 25 cents was in the toils. Mrs. Simmers corroborated Baker's evidence and told of frequent threats and violence from her spouse.

Robertson—Bouck.

A happy and pleasant ceremony was solemnized at high noon yesterday at the residence of Mr. and Mrs. R. M. Bouck, when their daughter, Mary Dell, was united in marriage to Ernest M. Robertson, son of Mr. Henry Robertson, of the Robertson neighborhood, west of Morrisburg.

The ceremony took place in the presence of several friends of the bride and groom, Rev. H. S. Osborne officiating. The bride was assisted by Miss Bolster, of Chesterville, while Mr. George Armstrong, a cousin of the groom, acted as best man.

A wedding feast was partaken of after which the happy couple left on the afternoon train for Montreal, thence to Boston to spend a honeymoon of two weeks. On their return they will reside at the home of the groom.

Both Mr. and Mrs. Robertson are very popular in this locality and their many friends join in extending best wishes for their future happiness and prosperity.—Herald.

Found Dead in a Boat.

Brockville, Sept. 13---John Marlowe, a local character, was found dead early yesterday morning in a yawl boat under a coal dock where he had evidently gone for a night's sleep. Marlowe was known to have been on a protracted spree and was last seen alive in the vicinity of the dock, about nine o'clock last night. The coroner decided that death was due to natural causes. No inquest was held.

Deceased was a laborer about 50 years of age and unmarried.

The Carsley interests will not give out any further details.

Succumbed in Dental Chair.

Charles Robinson, aged 22, died in a dentist chair at Buckingham, Que., on Sunday while under the influence of chloroform.

Suffering from toothache and not caring to give up work in MacLaren's mill, he made an engagement with Dr. Marin, dentist, to have six teeth drawn on Sunday. Two doctors were present to administer the anaesthetic.

Four teeth had been drawn when it was noticed the young man was sinking. Efforts to bring him to were unsuccessful, and he expired in the chair.

Coroner Lyshet, of Hull, Que., decided an inquest unnecessary. The remains were sent to Winchester for interment.

The Municipal Association asks that municipalities be given a share in the fines for violations of the liquor laws. If the municipalities share in the license fees but not in the fines they may begin to favor licenses instead of local option.

Donald McPhail, a Bruce Pioneer, was burned to death in a fire that destroyed his house near Underwood.

Hon. Adam Beck has entered into a contract with the Water Commissioners of London to supply water to the city.

Ald. Clearihue of Montreal testified before the Royal Commission that Mr. Mark Workman, a prominent capitalist, had offered him $3,000 to vote for a certain contract.

Mr. Collingwood Schreiber says the Grand Trunk Pacific will never be built with white labor. There are two thousand men working in British Columbia now, and in a short time 25,000 will be required, with little prospect of getting them.

The Winners At Winchester Fair

Splendid Exhibit at the Annual Fall Fair.

The Winchester Fair held on Tuesday and Wednesday, Sept. 7th and 8th, was as usual, a brilliant success.

The attendance was about 4,000 on the second. It would have been even larger had it not been for the fact that many farmers are still busy with the harvest.

The difference however, was made up for, by the large number of ladies, who by their presence added a charm to an ideally beautifully day.

The poultry house was well filled with varieties of very good quality.

The show of horses was extensive and showed an increase in quality. All the different classes were well represented and competition was keen, with the exception of Clydesdale and Percherons, of the last named, of which there were none.

Date of Opening of Parliament.

Ottawa, Ont., September 11.—Sir Wilfrid Laurier, having returned from his trip to Brockville, there was a cabinet meeting yesterday, the ministers convening at 2.30 and continuing in council until 6 p. m. Several matters of departmental routine, appointments principally, were disposed of.

It was agreed that as the preparation of the main estimates is so well advanced it might be possible for the Government to meet the house on November 4th. Sir Wilfrid is said to have favored this date, and to have pressed upon his colleagues the importance of being ready early, intimating if not on the 4th, Parliament should be summoned to meet not later than the 11th. The opening will be on either of these dates, but final decision will not be made until the finance minister is heard from on the subject.

Sir Wilfrid and Lady Laurler left yesterday in Hon. W. C. Edwards' yacht for Rockland to spend the week end with the Senator and Mrs. Edwards.

William Desmond, a Toronto boy, who disappeared from Detroit, is causing the police of that city a lot of trouble.

Township Road Award

Osgoode Mountain Dispute Settled by Arbitration.

The long standing dispute between the Township of Mountain and the Township of Osgoode as to the maintenance of the boundary road between them has been settled. The board of arbitration consisting of Judge Liddell of Cornwall, M. J. Casselman, ex-warden of Dundas, and ex-warden Chas Mohr, of Carleton has completed its labors and given an award as follows:

That there shall be expended annually for five years, commencing 1909, by commissioners appointed for the purpose, $300 and anuually commencing in 1914 the sum of $200 in openlng or maintaining of both, of the boundary road between the townshib of Mountain and Osgoode, each township to pay onehalf.

Thos. Mountain, of Carlyle and Alexander Crerar of Osgoode are appointed commissioners. Should either die before the expiration of the period of seven years the municipal council of the township in which the deceased resided may appoint a successor. The stone now piled on the road allowance must be spread at the expenses of Osgoode. All claim by the township of Mountain for past maintenance is abandoned. Each township pays an equal share of the expenses of arbitration.

It's a pity when sick ones drug the stomach or stimulates the Heart and Kidneys. That is all wrong! A weak Stomach, means weak Stomach nerves, always. And this is also true of the Heart and Kidneys. The weak nerves are instead crying out for help. This explains why Dr. Shoop's Restorative is promptly helping Stomach, Heart and Kidneys ailments. The Restorative reaches out for the actual cause of these ailments—the failing "inside nerves". Anyway test the Restorative 48 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by W. G. Bolster.

Attempt To Wreck Train.

Ottawa, Sept. 10.—News reached Ottawa this morning of an attempt to wreck the northbound C. P. R. passenger train near Maniwaki, on the Gatineau Valley line yesterday afternoon. The engineer noticed an obstruction on the track along a high embankment. He succeeded in bringing the train to a stop just as the obstruction was reached. Investigation showed that someone had a rail across, covered with stones and moss, so as to make it less noticeable by the engineer. The authorities are investigating.

Hurt by Explosion of Ancient Cannon.

Perth, Ont., Sept. 7.—A serious accident occurred yesterday by which a number of men were injured. Two old cannon, originally captured from the Austrians, later figuring in the war of 1812, and finally presented to the town of Perth, were being fired at the wharf. Mr. George Kerr. of Perth, was in charge, and was engaged loading after a shot had been fired. The chamber had been hot and the charge was discharged permaturely. Mr. Kerr received it fairly in his face and breast, and may lose the sight of one eye. Three of the visiting soldiers were also injured, but not to any extent.

Mr. Kerr, though a young man, is a veteran of the Spanish-American and Boer wars, and is an employe of the Henry K. Walpole Company.

The only nourishment that bread affords is that which the flour contains.

Bread baking is merely putting flour in appetizing form.

Flour making is merely putting wheat in shape for bread making.

Royal Household Flour

is made from carefully selected Manitoba Hard spring wheat. Every pound is almost a pound of food; clean, and nutritious.

It goes farther, does better baking and is more satisfactory in every way than any other flour. Ask your grocer. 12

The Morrisburg Electric Line.

The Ottawa Citizen says: Mr. John McFarlane has returned from Morrisburg, where he was attending a meeting of the directors of the Morrisburg and Ottawa Electric railway. The route of the road until it reaches Ottawa has been decided upon and the grading is expected to start in about two weeks. The line will pass through the following towns and villages: Williamsburg, Bouck's Hill, Elma, Dunbar, Winchester Springs, Chesterville, Winchester, Morewood, St. Theresa, Ormond, Kenmore, Vernon, Metcalfe and Greeley. The road will be 55 miles long but the entrance into Ottawa has not been decided upon. The line will cost about $770,000. It will be an electric line and will handle freight as well as passengers. The rails will be laid as early in the spring as weather will permit.

Mr. McFarlane visited Waddington, on the American side, opposite Morrisburg, and saw the first train come in over the Norwood and St. Lawrence railway. This railway is 20 miles long, and connects Waddington with the main line of the New York Central. With the new Morrisburg and Ottawa line and the Waddington and Norwood line there will be a direct line to New York from this city.

The Alberta and Great Waterways railway will be built from Edmonton to Fort McMurray.

Proposed Municipal Reforms.

The Ontario Municipal Association which held its closing session in Toronto last Thursday, decided to request the Government to amend the Municipal Act to give increased powers to the authorities in smaller cities and towns of the province, the chief of which are power to adopt a system of Government by commision, if the citizens express by a vote a desire to make the change; power to collect business and income taxes immediately after the confirmation of the assessment roll, so as to secure payment of taxes of those persons swear to have a certain income in order to secure a vote and who are generally missing when the tax collector makes a call. Other legislation asked was: Amendment of the bread act, with a view of restoring power to the municipalities to regulate the weight of the family loaf; amendment of the bread act, with a view of restoring power to the municipalities to regulate the weight of the family loaf; amendment of the act, to give municipalities power to charge interest on money advanced to schoolboards, to pay teacher' salaries, etc., also for new legislation providing that no municipal franchise iuvolving the use of public streets shall be granted, except by a vote of the property owners; and to compel municipal councils to give effect to the expressed wishes of the majority of the taxpayers on all matters submitted to vote.

Yamachiche Robbers Left $4,000 in Bills

Montreal, Sept. 12.---The correct amount of money which the robbers got away with at the robbery of the Yamachiche Bank was as follows: Dominion bills to the value of $1,688; Provincial Bank, $5 bills, $395; and bills on other banks to the value of $2,225.

When the doors of the safes were blown in with dynamite $4,000 worth of bills dropped on to the floor, and these, in their hurry, the thieves overlooked. Up to the present nothing has been heard of the robbers. Detective Demas, of Quebec, who is working on the case, received a telegram on Saturday near Yamachiche. The affair has created considerable interest in Quebec, and a thorough search of the district will be made.

It is reported that the robbers are well armed, and it is expected that they will put up a stubborn resistance to avoid arrest.

ROOT OF ALL GROWTH.

What the Middle West Knows About the "Dry" Process.

"Dry farming" is a misnamed science. It is a recent discovery and is being taught to the new settlers in the middle west and in Colorado. To those who know nothing of it the idea may be described as farming by conserving natural moisture. The new settlers learned that there were copious rains in the fall, heavy snows in winter and rains in the spring again. If this moisture, which ran off into swollen streams with the coming of spring, could be conserved to the growing crops the desert might yet be rejuvenated, and so they set to work.

The great farms were plowed ten and twelve inches deep. They were harrowed fine in the fall, and the rain was allowed to settle in the subsoil. In the spring they were cultivated again, these 10,000 acre farms, and they were left standing to absorb moisture for a year, with constant cultivating to help the moisture retention.

The second fall the seed was put in, and the new rains and snow and thaws brought out the spring wheat thicker and greener than ever. But what of the blistering suns of summer? The new farmer prepared for them by blanketing his land to keep the sun from drying out his subsoil. For this purpose a dust mulch was spread over all the sowed land. The rays of the sun were reflected by it and underneath the moisture nourished the roots of the wheat, though the tops were dry.

The experiment succeeded, and the country had been proved "good for something anyhow."

This mode of scientific conservation of the moisture has been the root of all growth. Through it alfalfa, with its stout roots digging far down to the subterranean springs, has been made possible. Through it the first sugar beets were grown.

These are, to be sure, vastly separable products, having to do with distinct industries. Alfalfa means cattle, and sugar beets mean sugar mills and towns. Alfalfa came first. Then corn came, and then the cattle were introduced anew.

Now all through these regions are great ranches where hand fed and fattened cattle are produced—not the gaunt range steers of Texas, but fat cattle, ready for the market and commanding top prices.

Painting Farm Implements.

The farmer who takes proper care of his implements not only houses them and keeps them in good adjustment, but he paints them occasionally. Paint closes all cracks and keeps out the moisture. It not only preserves the wood, but the iron parts are benefited as well. It also gives the tools a much better appearance. Before applying new paint remove all old paint that is likely to scale off and see that all parts are thoroughly clean and dry.

Birds Which Destroy Chinch Bugs.

The birds which are the most beneficial in destroying chinch bugs are quail, prairie chicken, meadow lark, red wing blackbird and catbird. It has come to be the belief of most entomologists and botanists that little help can be expected from the parasitic fungi in holding this insect pest in check.

Chickens a Money Bringer.

The chicken is universal, a money bringer of more or less amount upon every farm, and no other staple is so. A farm may have no grain to sell, but it is sure to sell in the year some chickens and eggs. There are no farms where there are no chickens and

THE SURE THING ON THE FARM.

money return from them. The universality of the chicken on farms gives the business, incidental as it is in each particular case, the first place as a money getter. The sum of infinite small units against the finite and limited larger ones gives the excess to the poultry returns in Missouri.

Odd again is it that this industry, so large and vast, is conducted so easily and quietly. There is no sweat, no strain, no worry over chickens. The industry seems to care for itself and cares extremely well. Men of the farms look slightingly upon it as a woman's affair, unworthy of a grown man's serious attention, and it is attended to almost exclusively by the women and children, while the money return is woman's money to spend as she sees fit, independent of that for support and maintenance furnished as duty calls by the lord and master from sources under his direction, man's work. That the chicken money, the woman's money, is big as it is speaks the story for the hen and the housewife. They outdo the male and anything of his except in the ability to crow.

Early Maturity In Swine.

This is an exceedingly desirable quality in most animals, but is particularly so in hogs. If the spring pigs can be made to grow rapidly, lay on the right kind of flesh and fat and be marketed in the fall, the profit is sure to be considerable. Most of the growth and weight are put on while plenty of pasture is available. This makes it possible to secure gain at a very low figure. Breeds like Poland-Chinas, Essex, Thin Rind, Small Yorkshire, etc., seem to be quite desirable for early maturity.

The Breeding Sow.

The breeding sow should be selected on account of her fitness for her maternal duties. She should be long and deep of body and have many teats. She should have short legs well placed, level back, fine head, ears and coat and a good disposition.

A Popular Drafter.

The popularity of Percherons continues to grow in this country, and there is always a good demand for these great drafters. The breed takes its name from the district of La Perche, in France, which is now the chief draft horse breeding and handling center in that country.

The modern Percheron stands sixteen hands high and over, weighs

A FINE TEAM OF PERCHERONS.

from 1,700 to 2,200 pounds and is white, gray or black in color. He has an intelligent head, of a type peculiar to the breed; rather small ears and eyes; short, strongly muscled neck; strong, well laid shoulders and chest; a plump, rotund body, strong back, heavy quarters and somewhat drooping croup. He usually is low down and blocky, on short, clean legs, devoid of feather, and has well shaped, sound hoofs.

THE VETERINARY

The following is an old fashioned remedy for caked udder: Rub soft soap on the affected part until a lather is formed. Repeat several times or until the hardness disappears.

Destroying Cattle Ticks.

Where ticks are found on cattle a sure way to get rid of them is to go over the cattle with a sponge well moistened with crude petroleum. Repeat when necessary until all ticks are destroyed.

Potatoes For Worms.

If horses or colts have worms try feeding them raw potatoes thinly sliced. You will probably have to mix the potatoes in with the grain at first to get the horses to eat them. A few raw potatoes each week are good for a horse at any time.

Caring For Nail Wounds.

When a horse picks up a nail be sure to cut out a funnel shaped cavity as deep as the wound and make it bleed all it possibly will. Then use a wash of water that is strongly scented with carbolic acid several times and keep the foot packed with oakum.

Cause of Reddish Milk.

Bloody or reddish milk may be caused by blows on the udder or by inflammation from other causes and is not uncommon in summer, when a sudden accession of rich food may induce local congestion, with increased flow of milk. Law says, "If the discolored milk is caused by congestion a saline laxative, followed with niter, a restricted diet and frequent bathing of the udder with very cold water is useful."—Dr. Michener in Farm Journal.

Floorglaze makes floors sanitary

No carpeted floor is ever clean. Neither is any floor coated with the usual floor-finish. The one is dust-laden always. The other harbors disease in its cracks and seams.

Floorglaze coats a floor with a sheer sheet of unbroken beauty, without a crevice a germ can dwell in. And it won't wear off, no matter how you treat it.

Floorglaze is the Enamel that comes in ten beautiful shades, to suit any decorative scheme. A gallon covers 500 square feet. It dries hard over night with a fine brilliant gloss. You can put it on right yourself.

Floorglaze makes floors really sanitary, dustless, washable,—and it will stand outdoor weather as well as indoor wear.

They have Floorglaze at the store. Else, please let us know, and we will see you get it.

Cheese Boards.

Brockville, Sept. 10.—The meeting of the cheese board yesterday was poorly attended, but the offering was an average one. The total registry was 2,480 boxes, of which 975 were white and 1,605 colored. The opening bid was made by Laing, who quoted 11c. Gardner put it to 11⅛c, and for a time it remained stationary until Mr. Bissell offered 11⅜c, and secured 335 colored cheese and 150 white. The bidding then reverted back and bids were successively made by Laing at 11¼c, Gardner at 11⅜c, and Lang at 11¼c, and Mr. Gardiner put it at 11⅜c, but the board adjourned without any more sales taking place. On the street the ruling price was 11⅜c, with sales aggregating 5,000 boxes. For the corresponding week last year the price was 12⅛c.

Belleville, Sept. 10.---Offering 1,990 white, 170 colored; sales 835 at 11⅜c, and 260 at 11 5-16c, balance refused at 11 5-16

Vankleek Hill, Sept. 10.—There were 1,201 boxes of white and 296 boxes colored cheese boarded. Nearly all sold on the board at 11¼c. Four buyers present.

Russell, Sept. 10.—Last night 483 boxes cheese were boarded, 248 sold at 11⅛c, and 160 at 11¼c. Usual buyers present.

Alexandria, Sept. 10.—578 cheese were sold last night at 11¼c.

Kingston, Sept. 10.—At the Frontenac cheese board ysterday there were boarded 304 boxes white and 687 boxes colored, 706 boxes at 11⅜c.

Winchester, Sept. 10.—395 boxes of white were registered last night; 11¼c was offered on board, but no sales. Four buyers were present.

FAMOUS PEOPLE

BY FANNIE M. LOTHROP

Otto Sarony Co., New York

EVANGELINE BOOTH

The Salvation Army's American Leader.

The Salvation Army, one of the most remarkable religious movements in the world, is a great organized body going out into the highways and byways of humanity. It seeks to bring the church to the people rather than merely to urge the people to the church. It has made religion a warm, inspiring reality to thousands; it has been practical, for it has carried the divine word to the poor, the sinning, the sorrowing and the suffering, and with it has ever extended the hand of human helpfulness, love and brotherhood. Its methods need no vindication; the transformed lives due to its influence are its living monuments.

The new leader of the Army in the United States is a young woman, Eva Booth, the daughter of the venerable General Booth, founder of the organization. Tall, slender, energetic, alert, with a sweet, mellow, far-reaching voice, she strikingly resembles her father, and went to America after her triumphant crusade in Canada with the reputation of being one of the best women orators in the world. She has a strength, sincerity and spiritual fervor that carry her audiences with her and sweep them on waves of religious fervor to higher spirituality.

As a child, with her sweet face and her little jingling tambourine, she ventured into the slums of Darkest London and faced without a tremor, degradation she could not understand; but which the sunshine of the love she radiated was at last to penetrate and soften. For a time she was compelled to go disguised as a flower-girl, but after suffering personal violence more than a hundred times and bravely leading her people where the police rarely ventured and were always needed, she finally triumphed, and to-day the name of Eva Booth is held in reverence in even the worst sections of London.

Through her personal influence obnoxious laws regarding public religious meetings in the streets of England have been repealed, and under her leadership the Army in England calmed the temper of street mobs and vanquished their opposition. She went to Cornwall, and talked to workers in the tin mines; undaunted she went into the mines under the sea, with the surf roaring overhead, to visit the sick and dying; she carried her message to the weavers of the Midlands, and braved her way through all difficulties to fight the battle of temperance and better living. She has held practically every rank in the Army, and in Canada, where she was in command, often traveled bravely through the provinces on snowshoes, preaching to men in the lumber camps. To-day she is the ruler of nearly 4,000 paid officers and more than 125,000 of an organized force that ministers day and night, unceasingly, to the temporal and spiritual needs of three million people.

Entered according to Act of the Parliament of Canada, in the year 1905, by W. C. Mack, at the Department of Agriculture

STAGESTRUCK GIRLS.

Histrionic Fame Only Won by Hard Work and Genius.

There are probably not many girls who grow to womanhood who have not at some time or other been smitten with the idea of going on the stage, hardly a girl but who believes that she is an embryonic Siddons or Bernhardt, or at least a Maude Adams or a Julia Marlowe. These girls think they can jump into fame with absolutely no hard work; that nothing at all is required of them but to have the opportunity provided and to procure a few suitable garments, learn a part and the rest is so easy.

But many an actress will tell you that it is more than that. Some will say it is all hard work and no reward, and it is difficult for one who sits in the front of the theater to judge what being a successful actress really means.

In the first place, she must have the constitution of a Hercules, be absolutely fatigue proof, her face must be as beautiful as that of a goddess, her figure rival that of Helen of Troy, her voice must be as sweet as a bird's, she must be graceful as a fawn, possess the imagination of a Munchausen, disposition of an angel, a courageous spirit, keen sense of humor, a high standard of morality, loyalty of purpose and an original way of regarding everything that comes her way. If in addition to these qualities she has the skin of a rhinoceros to bear the ungents and paints which the actress must use, if she is a good daughter and a kind sister and can make up her mind to forego many of the delights which make up a woman's life, then she may have a career before her upon the stage of which any girl might be proud.

Unless They Are Heiresses.

"It's hard to lose a beautiful daughter," said the wedding guest sympathetically.

"It's a blame sight harder to lose the homely ones," replied the old man who had several yet to go.—Boston Transcript.

Not Consistent.

"What was I saying when I dodged that automobile?"

"You were saying that life is not worth living. But if you think so why did you dodge?" — Louisville Courier-Journal.

Man is made of dust, but he is usually out for more.—Exchange.

THE TRAVELING DOG.

How the Up to the Minute Woman Carries Her Pet Canine.

All is not gold that glitters and things are not always what they seem. Witness this traveling bag which might be filled with almost anything for the journey and has much the look of an English steamer roll until, presto, without warning, out from the watch hole in the upper corner comes a little muzzled head with a black shiny nose and two pointed ears. He gives the outer world a good natured survey, for he has traveled before, but never in such comfort and security. It is certainly much more comfortable to be carried by handles like a bag than to be led around by a chain and left in the care of strangers or nailed up in a box with half a loaf and a pan of water. He knows a good thing when he sees it and he wags

ALL READY FOR THE TRAIN.

his sensible little tail under cover and ducks when the conductor makes his rounds.

This bag is actually of English importation and was conceived and fashioned from the ideas of the brown canvas steamer roll, which will hold an infinite number of garments. It is usually made to order and cut to fit its future occupant when he is standing, but he may also lie down in it with comfort and without being suffocated, equipped as his little cabin is with a porthole on the forward deck. The two stout handles are made of leather, and the whole opens from the top and is secured with catches.

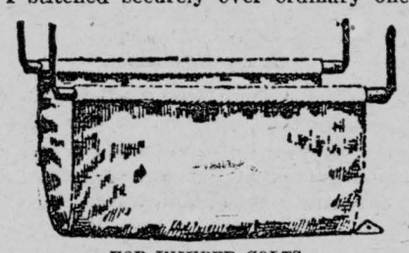
It is a most convenient receptable for those who have cherished animals and are loath to give them over into the care of strangers on the long day's journey. They are as easily handled as a suit case and may be swung lightly to the train by the young mistress herself if there are no train porters at hand to help her.

SLING FOR COLTS.

A Rest For Those Injured So That They Cannot Lie Down.

"I recently had a ten-months-old colt suffer a severe wire cut on its breast and forearms so that it could not lie down, so I set about to devise a sling to ease the animal," says a breeder. "I had none on hand, so I made one as follows:

"For the cloth part I secured a large cottonseed meal sack wide enough to support the entire undersurface of the colt's body. The ends of this sack I stitched securely over ordinary one



FOR INJURED COLTS.

and a half inch steel tubing, allowing the ends of the tube to project from the ends several inches.

"As I did not want to cut the rope I had on hand for hanging this sling from the ceiling, I threw one end over a beam just above the colt's withers and shoved each end through the gas pipe and drew them up so the sling rested snugly against the colt's chest. The ends of the rope were then thrown over a joist above the colt's loins and drawn up so as to bring the other end of the sling against the colt's abdomen and then fastened securely.

"In a few minutes the colt caught on and was soon resting comfortably in the sling."

A Good Feed For Hogs.

A successful Kansas breeder has experimented with hogs in feeding various rations and thinks he has found a feed that does the work just a little more satisfactorily than anything else.

"In feeding hogs," he says, "I let them run with the cattle, as usual. But I do not believe that hogs do just the best kind in following cattle and getting nothing else but corn. They need some variation from that and will do better when they get some other feed besides the corn they get with the cattle in the feed lot.

In feeding a recent carload of hogs that brought top prices I gave them a slop composed of water, shorts, linseed meal and tankage. I make this slop thin and salt it pretty freely. I put in shorts to the same amount of weight as both the tankage and linseed meal. It makes a very fine feed and one which hogs relish very much. I give it three times each day and find the hogs ready for it each time. It sort of sharpens up their appetites and at the same time acts as a laxative, keeping them in the best condition.

"The cost of this feed is not very much, so that in fattening this carload of hogs from the very start they cost very little and represented a large profit in my spring feeding."

A Midsummer Fancy.

There has come about a popular fashion of pinning a rose or any large flower well down in the center of an evening bodice. The gold and silver roses which came in last autumn are not the preferred thing any longer, though.

The present fashion calls for a silken flower in rare color. It is surrounded by green leaves, has a rubber stem finely made and is loosely caught to the lace or the jeweled net which is so often used in front of a bodice and is quite a good touch.

The wide open flower in extra size is preferred to the half closed one. Bouquets of blossoms are not used as they were last winter.

While the gardenia or camellia is fashionable, there are other flowers with more color that are more imposing.

Among these are a poppy, a large orchid, an exaggerated iris, a peony and a full blown American Beauty. The scarlet poinsettia is often chosen.

A Curious Custom.

"The Mexicans," says a traveler, "have a very queer way of burying their dead. The corpse is tightly wrapped up in century plant matting and placed in a coffin rented for about a shilling. One or two natives, as the case may be, place the coffin on their heads and go in a trot to the grave, where the body is interred and the coffin is then returned. The wealthy class use the street cars as hearses, and the friends follow beside the car on foot."

The Turkey Dance.

All the turkeys gathered
On the lawn one day,
Dressed in nice brown feathers,
Looking bright and gay;
There they met and courtesied,
Partners chose at will,
Then with stately stepping
Danced a real quadrille.

Every turkey gobbler
Bowed to turkey hen,
Tiptoed down the middle,
Circled round, and then
Crossed and swung his partner
Back to place and pranced;
Gobble, gobble, gobble,
So the turkeys danced.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Priests Suspended.

Montreal, Sept. 9.—When the Roman Catholic College at Marieville, Que., was burned some time ago the fathers in charge desired to remove to St. John's, but the Bishop of St. Hyacinthe refused permission. An appeal to Rome had no beneficial effect, so the college authorities moved without the necessary authority, and the bishop has placed Canon Lemieux, a relative of the postmaster-general, and the 25 priests under him, on the suspended list. They are not permitted to have any clerical communication with the faithful, and are debarred from all priestly functions.

Is an Embezzler.

Belleville, Ont., Sept. 9.—Before Judge Deroche this afternoon Sidney Keech was convicted of embezzling a sum of money from an express company. He was sent to the penitentiary for two years. Keech was for some time station agent, operator and express messenger at a railway station in Hungerford township. He alleged that the money in question accidentally went into a waste paper basket and was subsequently burned. He is a married man with a family.

Liquor Poured Out.

Elk Lake, Sept. 9.—Inspector Blackwell, Haileybury, and Constable Calbeck, Cobalt, came on last night's boat to destroy comdemend liquor. At 9 o'clock this morning, one hundred and sixty kegs and barrels of beer, valued at fifteen hundred dollars, were rolled down to the river and destroyed, while all the town looked on. The stuff was seized from Mr. Trudel, of the Mint Hotel. Someone began singing the doxology, and some of the crowd collected the beer from the partially emptied kegs and passed it around.

Drive Rheumatism out of the blood with Dr. Shoop's Rheumatic Remedy and see how quickly pain will depart. Rub-ons never did reach the real disease. Rheumatism is'nt in the skin. It's deep down—it's constitutional. Getting rid of the pain, is after all what counts. That is why Dr Shoop's Rheumatic Remedy goes, by word of month from one to another. And herein lies the popularity of this remedy. It is winning defenders everywhere. Tablets or liquid. Sold by W. G. Bolster.

C.N.R. to Build Toronto-Ottawa Line

General Surveys Made, and Road Will Probably Branch off at Richmond Hill.

Tenders will be called for by the C.N.R. on Saturday for the construction of the first hundred miles of the Niagara-Ottawa branch, which will pass through Toronto. Chief Engineer Stewart has started on a final inspection of the various routes which have been surveyed, and his report, together with the reports from the surveyors, will be filed at the head office of the company in time to permit of a final choice of a right of way as soon as the contract is let, so that construction may be started at once.

Vice President D. D. Mann, interviewed by The World, said that the line would be diverted at several points from the route originally fixed, but he was not prepared to indicate at present as to where the amended lines would be run. All would be known in time.

One of the lines surveyed by the company eastward flanks the C.P.R. on the north for some distance east of Leaside Junction and it was hinted in railway circles that this would be the route chosen.

The opinion prevails that the line will branch off from the present C. N.R. road in the vicinity of Richmond Hill and will keep on the elevation north of the C.P.R. track for a distance of about ten miles before crossing to the south of the Canadian Pacific. It is understood that the Grand Trunk has by means off a saw-off of western territory dissuaded the C.N.R. from touching the lake towns some distance east of Toronto, with the result that the Mackenzie and Mann line will not approach the waterfront until Port Hope or Cobourg is reached, where it will cross the G. T.'s road and run along the lake shore and practically through the heart of Belleville.

The contract for the first hundred miles, which will lie between Toronto and Belleville, will contain a clause providing for its completion within a year.

Wedding Bells.

A very pleasant and interesting event occurred Wednesday, August 25th, at the residence of Mrs. Ezra Baldwin, Inkerman, when their daughter, Miss O'Dell, became the bride of Mr. Franklin Sutton of the same place, in the presence of a number of friends of the contracting parties.

The ceremony was announced for 7 o'clock and precisely at that hour the officiating minister, Rev. Mr. Raney of South Mountain, (in the absence of her pastor, Rev. H. E. Warren) entered the lawn, followed by the groom, and after they had taken their places the fair bride appeared, supported by her brother Russell who led her to the groom. The bride who was the cynosure of all eyes, looked charming in a white lustre skirt trimmed with buttons, white net waist over silk and bridal roses in her hair. The bride and groom were unattended.

At the conclusion of the ceremony Mr. and Mrs. Sutton received the congratulations of their friends, after which a sumptuous repast was served on the lawn to about seventy invited guests. The tables were prettily decorated with flowers.

After having done justice to the many good things provided for the occasion, the knife was inserted by the bride in the beautifully trimmed wedding cake which centred the table. As soon as it was distributed the guests repaired to other parts of the lawn where seats were provided, and games and other amusements were engaged in for a few hours to the enjoyment of all. The bride was given many pretty and useful presents.

Canada Reaped Large Harvest

Census Report Puts Wheat at 168,368,000 Bushels.

Ottawa, Sept. 10.—A statement of the farm crops of Cauada at the end of Augnst has been issued by the Census and Statistics offices today. If gives the es-imates of production computed from the reports of a large staff of correspondents, and although the totals are somewhat less than those of a month ago for wheat and barley, they still show that Canada has reaped a large harvest. The wheat crop is put down at 168,386,000 bushels, or 21.73 bushels per acre, and barley at 56,975,000 bushels, or 30.55 bushels per acre. The yield of oats, which was not estimated last month, is given as 354,919,000 bushels, or 38.15 bushels per acre. The rye is 1,708,000 bushels, peas 8,134,000 bushels, beans 1,311,000 bushels, buckwheat 7,794,000 bushels, mixed grain, 19,524,000 bushels, flax 2,231,000 bushels and hay 10,246.00 tons.

Harvesting operations were practically concluded at the end of August, except in Quebec and the martime Provinces and although there was a scarcity of labor in the North-West. the fine weather there made tbe cutting of grain practicable in good condition.

Thc wheat estimate for the three Western province is 149,285,000 bushels, of oats 187,802,000 bushels and of barley 33,893,000 bushels.

The Perfection of Womanhood.

Who does not envy and admire a lovely woman? The secret of her loveliness, of her perfection, is health. She sleeps well, eats well, digests well—intricat-functions are vigorous and regular. Of all woman's remedies, Ferrozone is the best; it vitalizes the functions upon which health depends—makes the purest richest blood, gives perfect complexion and lots of vigor. Every girl and woman who seeks health, vitality, looks—let her get Ferrozone to-day. Fifty cent boxes at all dealers.

Recommended As An Ideal Remedy

W. S. BOND, Esq.

Lloydtown, Ont., March 19th, 1909. "For some years I have been greatly troubled with headaches and indigestion, brought on by stomach disorders, constipation and biliousness. I had tried many remedies with only indifferent success, until "Fruit-a-tives" came to my notice. Being a general storekeeper, I was selling a good many "Fruit-a-tives" to my customers and, remarking how pleased they were with the results obtained from using "Fruit-a-tives," I decided to try them and, I might say, the effects were almost magical. Headaches and biliousness disappeared and to-day I recommend "Fruit-a-tives" to my customers as 'An ideal remedy.'

"I might also add that about three years ago I was laid up with LUMBAGO AND SCIATICA—couldn't get out of bed or lift one foot over the other. A good treatment of "Fruit-a-tives" cured me of these pains and banished the Sciatica and Lumbago so that to-day I am as well as ever and can lift anything necessary."

Sore Throat Catarrh.

With the many remedies you have tried you surely know that no liquid medicine can cure your throat or nose. Even a gargle only bathes the entrance of the throat—it can't really get inside, nor can the inflamed bronchial tubes.

With Catarrhozone it's so different from medicine-taking — you simply breathe it's healing vapor, inhale its balsamic fumes which carry cure and relief to the minutest air cells in the lungs, nose throat, and bronchial tubes.

In this scientific way the soreness and inflammation is rapidly allayed, relaxed chords are toned up, the entire mucous membrane invigorated. Every trace of Catarah disappears, the disagreeable dropping of mucous in the throat, hawking, spitting, and stopped-up nostrils—all these sure signs of Catarrh and bronchitis arc permanently cured by Catarrhozone.

Catarrhozone

Is Guaranteed To Cure

Recommended by the medical profession for coughs, colds, bronchitis, sore or relaxed throat, bronchial cold, weak chest, chest inflammation, huskiness, hoarseness. wheeziness, loss of voice, that tickling cough, old age cough, asthma. chest pains and chest tightness. croup, whooping cough, and children's throat and chest weakness, and all adult throat and chest weaknesses, and all adult throat and lung ailments.

Beware of the unscrupulous dealer who offers you some cheap substitute; insist on Catarrhozone only. Two months' treatment, $1, smaller, 50c.; all reliable dealers, or by mail from the Catarrhozone Co., Kingston, Ont.

Throat Was Cut on a Bedpost.

Sarnia, Ont., Sept. 9.—Testimony at the inquest to-night on the death of Wm. Hendrie, the hotelkeeper found in a room of his hotel with his throat cut, was brief and resulted in a verdict of accidental death by falling against a bedpost, the verdict being based on the testimony of the medical men who performed the post-mortem. Drs. McDonald and Wilkinson testified that particles, apparently of enamel from the bedpost, had been found imbedded in the cloth in the wound. The interior of the wound also presented a bruised appearance that could not have been caused by a sharp instrument.

Almonte's Business Center Burned.

Originated Early Thursday Morning. Loss $150,000.

Almonte, Sept. 10.—A disastrous conflagaration swept the business section of Mill street this morning, causing a loss in the neighborhood of $150,000, only partly covered by insurance.

The fire broke out about 3.30 o'clock in the sheds at the rear of Mr. W. West's general store and had gained considerable headway before it was noticed by Mr. Rutherford, clerk at the Commercial hotel. Nearly the entire block between Bridge and Main streets was wiped out, the fire being stopped at H. H. Cole's store. The losses are:

W. West, general store, with entire stock and fixtures; building owned by W. Thoburn, M.P.

W. Kaufman, hardware merchant, stock and fixtures, including cash register lost; building owned by T. R. White.

James F. Patterson, druggist, with living apartments over the store.

Dr. Patterson's dental office and the Masonic hall over the hardware store.

The Commercial hotel with all the sheds and outbuildings; D. J. McDonald, proprietor, and Mr. J. K. Cole, owner of building.

George Young, boot and shoe store.

The fire was stopped at Mr. H. H. Cole's store.

During the progress of the fire, Mr. A. G. Henshaw, manager of the Bank of Montreal, was struck by a falling pole and had his collar bone and three ribs broken. His condition is quite serious. He was standing in front of Patterson's drug store when the wall fell out across Mill street. A number of spectators had narrow escapes but none of them were struck by the wall. The wall, however, in falling hit a telegraph pole which broke and struck Mr. Henshaw.

When the firemen arrived on the scene a large number of outbuildings were a mass of flame and some of the main buildings had caught. Fortunately there was no wind blowing and the brigade by intelligent and hard work succeeded in getting the fire under control at Cole's store. Only energetic work by the brigade and citizens prevented the spread of the fire at the rear of Mr. Albert McLean's bakery, where it repeatedly caught.

A fine horse belsnging to Mr. McDonald, of the Commercial house, was cut off by fire in the brick stable at the rear of Mr. H. H. Cole's shop and a hole was punched through the brick wall at the rear and the horse saved.

The origin of the fire is not known. There was no salvage of goods and the losses of the insurance companies are principally: Royal, $3,000; Phoenix of London, $6,000; British America, $3,000; Queen, $1,500; Western, $400; North America, $1,450; Northern, $1,000; Caledonian, $1,500; Traders, $1,000; Canadian, $2,000; Economical, $4,500; Perth Mutual, $3,700; Merchants, $2,500; Ontario, $3,200; Wellington, $1,000; London Mutual, $1,500; Hand-in-Hand, $1,000; total $37,250. The last great fire two years ago, swept Mill street from the end of present fire to the end of Mill street, which is not yet rebuilt. The loss of that fire by insurance companies was $66,000.

Look Ahead for Illness.

Sudden illness and pains come in every family—to parents and children alike. But if you have looked ahead, and have right in your home, ready for immediate use a bottle of Polson's Nerviline—there is'nt much to worry over. If it's a sore throat or contracted chest, apply Nerviline and put on a Nerviline Porous Plaster. If it's colic, cramps, or any stomach disorder, just administer ten drops of Nerviline in hot water. No family medicines are more useful or more depended upon in emergencies than Nerviline and Nervlline Porous Plasters. They keep the doctor bill small. 25c. each at all dealers. Refuse substitutes.

Locked in a Vault With Corpses.

Kingston, Sept. 9.—There came near being a tragedy at a funeral in Sydenham.

William Lawson, justice of the peace, Elginburg, was examining a vault at the cemetery. Another gentleman, who was in at the same time, went out and closed the door after him, and as it had a spring lock, Lawson was made a prisoner.

He shouted, but owing to the thick wall, his cries could not be heard, and he was forced to stay in the vault all night and until the next afternoon, when it so happened that there was a funeral to the vault.

When the mourners opened the door they were terrified to see Lawson staggering out. He was in a terrible condition as a result of his 24 hours' confinement, being almost famished. There was great excitement for a time.

A petition is being circulated for signature among the municipal Councils of Dundas county to memoralize the Ontario Legislature to abolish the agricultural department of the Morrisburg Collegiate Institute. It appears that the $500 asked from the Counties' Council to supplement the provincial grant must be borne wholly by Dundas, and as only one pupil has thus far availed himself of the privileges of the school the cost of maintenance is out of all proportion of the benefits received, hence the petition to have it abolished, a request the Government can scarcely refuse under the circumstances and in justice to Dundas. It is expected expected that every municipality with the possibleexce ption of Morrisburg will join in the memorial.—Iroquois News.

John Bergin, K.C., Dead.

John Bergin, K.C., died Tuesday morning in the Hotel Dieu, Cornwall, aged 82 years. The deceased was a son of the late William Bergin, C.E., a native of Rosscrea, Ireland, and a brother to the late Dr. Darby Bergin, M.P., who for many years represented Stormont County in the Dominion Parliament. He was born in Toronto and was educated at Upper Canada College, but most of his life was spent in Cornwall. After a short commercial course he took up the legal profession and was for many years a K.C. In 1896 he was appointed collector of customs.

Record Attendance at Toronto Fair.

Toronto, Ont., Sept. 11.---With an attendance of three-quarters of a million for twelve days, eclipsing by 80,000 and over the high record made, last year, the Canadian National Exhibition of 1909 was brought to a close to-night. To-day's attendance was 55,000, several thousand more than on closing day last year. It is stated on the best of authority that the surplus to be handed over to the city will be at least $70,000, as against $40,000 last year. Receipts from all sources amounted to $275,000. At the director's luncheon to-day Mayor Oliver stated that a by-law for at least $500,000 would be submitted to the ratepayers on the first of January, the money to be expended on exhibition improvements, including a new building for women's work, dog and poultry buildings, more lavatories and illuminated clocks. The city will also take steps to provide an eastern entrance.

Special Offer.

We have made arrangements with Catholic Register and Canadian Extension, of Toronto, one of the leading, ablest edited, and most influential Catholic papers of Canada, by which we can offer THE RECORD and Catholic Register and Canadian Extension for one year for the bargain sum of **$1.60.** The Catholic Register and Canadian Extension, of Toronto, is now the property of the Catholic Church Extension Society of Canada. It is a brilliantly edited, well printed seventy column paper of ten pages or more each week, and under its new management has become the leading exponent of Catholic thought in Canada. Catholics should avail themselves of this extraordinarily favorable chance to secure the foremost journal of their denomination.

The most valuable cargo of silk ever transported across the Pacific arrived at Prescott on Wednesday of last week and transferred to Ogdensburg, where a special train hurried the cargo to New York. It was specified to include 3,000 bales of raw silk. In addition there was a large importation of tea, the value of silk and tea being placed at $3,000,000.

Mr. J. J. Helmer, of Newington, who has the contracts for the concrete abutments of a bridge in the township of Osnabruck, had the misfortune to have his right hand caught in a stone crusher on Tuesday and received severe injuries. He went to Cornwall to have the wound dressed. Fortunately it was not necessary to amputate, although the hand and arm were badly crushed and he will not be able to use them for some time.

Mr. Robt. Steven of Cannamore, returned from an extended trip to the west last week. He visited many places, but by his conversation there seems to be only one real place of abode and that is Vancouver, B. C. He is willing to wager—and any person who knows him knows that he tries to do what he says—that in twenty years Vancouver will be the largest city in the Dominion. It is reported that he did not return without investing pretty heavily in real estate.

Little Dorothy Shaw of this place had a narrow escape from being burned to death on Tuesday evening. While playing with matches her dress caught fire and fortunately Mr. N. W. Beach of Winchester was passing and put it out but not before burning the child very badly. Mr. Beach had both his hands burned badly. The editor of this paper feels very grateful to Mr. Beach for his prompt action.
