16 Pounds of PorK

TO BUSHEL OF CORN

FROM WORMY PIGS

It is an acknowledged fact that at least 75 per cent. of all hogs are infested with worms. This is where the hog raiser makes a loss. He is doing well if he gets from 7 to 10 lbs. of pork from a bushel of corn, because the worms are taking a liberal toll out of every bushel.

Dr. Hess Hog Special Overcomes the Worms.

If you doubt the efficiency of Hog Special, read the bulletin of the result of the test made at the Research Farm. Here a litter of sick, wormy scrubs, three having died the day before the test began. Hog Special controlled the worms, supplied these scrubs with minerals, and put them right up on their appetites. They gained 1 1-4 pounds per day. They produced pork at less than 5c per pound. Try "Hog Special", you will be surprised and pleased with results.

ANNUAL VESTRY MEETING, ST. JAMES CHURCH

The annual vestry meeting of St. James' Church, Morrisburg, was held in St. James' Parish Hall, on Monday evening, with a large attendance. The Rector, Rev. S.B. Holmes, presided. Reports of the various organizations showed the parish to be in a sound condition and showing progress. The Rector extended his hearty thanks for the work accomplished during the year.

The Rector appointed H.E. Paull as his Warden for the ensuing year, and Lewis L. Smith was re-elected people's warden. Other officers elected were: S.G. Finnie, treasurer; C.A. Burris, vestry clerk (re-elected); D.H. Weir and W.L. Boland, auditors. The following sidesmen were appointed: L.L. Smith, D.H. Weir, D.R. Morash, C.R. Hunter, E.C. Swayne, B.D. Robertson, S.G. Finnie, A.M. Jarvis, Wm. Weegar, O.W. Duprau, L. Eamon, R. Merkley, H. Graham, C. Merkley.

A special vote of thanks was tendered the Rector and Mrs. Holmes for their untiring work in all branches of church activity. Votes of thanks to the various organizations were also carried unanimously.

MR. EARL SCHWERDTFEGER

Death came with startling suddenness to Reuben Levi Earl Schwerdtfeger, elder son of Mr. and Mrs. Samuel Schwerdtfeger, on Monday evening, January 13th, 1936. Deceased, who was but twenty-five years of age, was stricken violently ill six days previous to his untimely death, and was rushed at once to St. Vincent de Paul Hospital, Brockville, where a very serious operation was performed. The operation appeared successful, and slight hopes were held for his recovery, but on Monday, the news of his death flashed through the countryside, causing deep regret.

Earl was born in Williamsburg township on the eleventh day of September, 1910. There he received his education, and later followed the occupation of farming. He was a young man of sterling qualities, he possessed a beautiful and rare personality. He was a faithful member of St. John's Ev. Lutheran church, Riverside.

His passing is an instance of the mysterious ways of God; but we will not presume to judge. His dispensations by our feeble sense. Our trust is that His grace rules all His designs and all His decisions.

Deceased leaves to mourn his loss, his sorrowing parents and one brother, Paul; also his gandmother, Mrs. John Duprau, beside a great number of relatives and friends.

The funeral was held Thursday afternoon, January 16th, from the home to St. John's Lutheran Church. The very large attendance testified to the esteem in which he was held. Rev. W.A. Mehlenbacher conducted the service, and was assisted by Rev. C.R. Cronmiller, of Williamsburg. Pastor Mehlenbacher chose as his text, Psalm 84:10, "For a day in thy courts is better than a thousand. I had rather be a doorkeeper in the house of my God, than to dwell in the tents of wickedness," drawing a beautiful parallel between the services rendered in the tabernacle and the temple of the Sons of Korah. The remains were laid to rest in St. John's Cemetery.

The pallbearers were: Dwight Crowder, Claire Dafoe, George Styles Grant Bowman, Gerald Link and Jack Robinson.

The beautiful floral tributes consisted of the following: Pillow, St. John's Congregation; wreath, Mr. and Mrs. Jefferson and Mr. and Mrs. Ralph Schwerdtfeger; sprays, Mr. and Mrs. Stillson and Louise of Prescott, Mr. and Mrs. C.J. Lazerte, Mr. and Mrs. Henry Schwerdtfeger and family, Mr. and Mrs. John Duprau, Mr. and Mrs. Ross Schwerdtfeger and family.

CHEESE PATRONS' MEETING

A meeting of the Directors of the Cheese Patrons' Association of Dundas County was held on Friday last at 2.00 p.m. in the office of the District Representative, Morrisburg. The meeting was well attended by the Directors of the different Townships throughout the County. The president W. J. Stewart was in the chair, and Wm. McIntyre of Mountain acted as secretary.

Mr. A. C. Casselman of Prescott, Federal member for Dundas County, was present and took an active part in the discussions in regard to the program of the Association for the year 1936. Mr. Casselman assured the Directors of his support and co-operation.

Delegates were appointed to attend the annual meeting of the Association which will be held Jan. 29th and 30th in the Dairy School, Kingston.

It was agreed and decided by the Cheese Marketing Board of Belleville that a meeting of the Board of Directors will be held with their Federal Member for each cheese producing country in the province of Ontario and Quebec, so that these gentlemen who represent us in Ottawa will be more familiar with the needs and demands of the dairy farmers as they endeavour to stop some of the leaks and thereby get his fair share of the consumer's dollar.

NO WARNING TO BE GIVEN DRIVERS OF ONE-EYED CARS

In the future no warnings will be given to drivers of automobiles with only one light but a charge will be laid against everyone who has defective lights, it was announced this week by Provincial Police officers in this district who have received very definite instructions from headquarters in Toronto.

The custom in the past has been to give a warning to the drivers of cars with only one headlight, but owing to the poor response they have received from motorists those in charge of the provincial police have decided to abandon this policy and put into effect stricter regulations.

DISTRICT ORANGE MEETING HELD AT TOYES HILL

The annual meeting of the amalgamated district of Matilda and Williamsburg, was held Tuesday afternoon in the Orange Hall at Toye's Hill.

Frank Nesbitt, Winchester Springs presided for the election and installation of officers which resulted as follows:

I.P.M., Grant Moore, Toyes Hill; W.M., Joseph Hunter of Toyes Hill; Recording Secretary, Norman Hunter of Toyes Hill; Chaplain, H. Wallace, of Pleasant Valley; Treasurer, Frank Nesbitt; Marshal, Robert Jackson, Pleasant Valley; Lecturers, Brock Harper, Toyes Hill, and Fraser D. Bolton of Winchester Springs; Committee, Cecil Crowder, Toyes Hill, and E. P. Foster of Morrisburg.

John F. Casselman of Morrisburg was the marshall in charge of installation ceremonies. Lunch was served by the Toyes Hill Lodge, followed by short speeches from new officers. The next meeting will be held in Morrisburg.

WILL SET DATE FOR CONVENTION TO PICK LEADER

Toronto, Jan. 13—Sitting members of the Conservative party in the Ontario legislature and defeated candidates in the 1934 election met here today and chose 25 of their number to represent them on the committee which will set a date for a party convention at which a new leader will be chosen.

An additional 16 of the group become members of the convention because they occupy certain positions on the executive or because they represent different districts throughout the province.

The 25 are as follows: Dr. Jas. Robb, Blind River; James Lyons, Sault Ste. Marie; Bert Waters, Cochrane; Wm. Finlayson, Midland; Campbell Grant, Walkerton; Edgar Jamieson, Collingwood; Chas. Richardson, St. Mary's; Dr. Paul Poisson, Tecumseh; Howard Fraleigh, Forest; Dr. H.J. Davies, Aylmer; Dr. R.N. Berry, Caledonia; Dr. Chapman, Welland; Kard Homuth, Kitchener; Larrie Shaver, Dundas; Col. T.L. Kennedy, Dixie; Thomas Bell, Leopold Macaulay, Col. W.H. Price, Russell Nesbitt, Wilfrid Heighington, all of Toronto; Arthur Ellis, Ottawa; George Challies, Morrisburg; Col. Thos. Kidd, Kingston; Jas. Hill, Shannonville; Percy Lancaster, Havelock.

The 16 members ex-officio are the following: George S. Henry, Todmorden; W.H. Ireland, Trenton; Chas. Seguin, Ottawa; E.J. Gabelle, Hamilton; E.F. Singer, Toronto; W.G. Wilson, Ridgeway; Chas. McCrea, Sudbury; Holly Acres, Ottawa; Wm. Morrison, Hamilton; Major Fee, Kenora; Don Clark, Port Arthur; Frank Spence, Fort William; Duncan McNaughton, Finch; Clifford Case, Aurora; Horace Colliver, Picton; Edward Murphy, Toronto.

AN UP-TO-DATE FACTORY

A factory where cans are washed and steamed at the plant is that known as the Hess Factory, north of Williamsburg, on Highway 31. Registered as No. 321, the plant is owned by Thos. Johnston of Brinston, and Dan Burton of Williamsburg, the latter being the operator during the past season. From the first of May to November 15th, 110 tons of cheese were made, with 100 per cent. first grade received. At this plant, the cans are washed and steamed every morning, and no whey goes back in these cans. Separate containers are used for taking home the whey during the late fall and winter. The milk is separated at the plant, turning out as sweet cream, which at the present time is being sold to the Producers' Dairy, of Ottawa.

MRS. GEORGE SHAVER

There passed away at her residence in the second concession of Matilda on Monday, a lifelong member of that community, in the person of Frances Deborah, wife of George Shaver. The deceased, who was in her 73rd year, was the daughter of Nicholas Everett and Adeline Serviss. Devoted to her family, the late Mrs. Shaver found time for many services in her community, where she held the respect and friendship of all.

The funeral service was held at her late residence, and was conducted by Rev. T. Knowles, pastor of Iroquois United Church. The body was placed in Point Iroquois vault, to await interment at Point Iroquois in the spring.

Surviving, besides her husband, are three children, Mrs. Gamble of Shanly, Miss Helen, of Toronto, and Richard, of Matilda township.

USE IMAGINATION IN COOKING POTATOES

An industrious statistician has figured out that men generally order French fried potatoes when they eat in hotels and restaurants. Perhaps the reason men eat French fried potatoes in hotels is that they never get them at home. Yet they are not hard to do. The preparation, however, should be careful.

Chips or Saratoga potatoes must be cut in thin, transparent slices. French fried potatoes must be cut uniform in thickness. Shoestring potatoes or potatoes Julienne must be cut in tiny strips, literally shoestrings. Souffled potatoes must be cut lengthwise in slices with a perfect clean cut—no jagged edges.

Cutting Devices Handy

There are clever devices on the market for cutting potatoes that insure perfection and since this type of potato cookery makes such attractive serving for various occasions, a set of potato cutters is a worthwhile investment.

A fat that may be heated to a high temperature without smoking or burning should be used for frying. A high grade vegetable oil or a firm vegetable fat give satisfactory results because either can be made very hot before the fat molecules break down.

To make French fried potatoes, pare potatoes and cut lengthwise into strips about ¾ inch thick. Let stand in ice water for an hour. Drain and dry between towels. Fry in deep fat heated to 395 degrees F. Cook not more than twelve pieces at a time. Cook until brown and crisp on all sides. Drain on heavy brown paper and sprinkle with salt. Serve as soon as possible after frying.

Select Potatoes Carefully

The composition of the potatoes is important in making potato souffle because some kinds will not puff. A waxy potato gives the best results. Two kettles of fat are best. If one is used the process takes longer. In this case, let cooked slices drain on crumpled paper while cooking the entire batch at a low temperature. Then raise temperature of fat and finish cooking.

Y... evenly, slicin... out eyes or imperfections instead of cutting around these places as one usually does. Cut in lengthwise slices not more than ⅛ inch thick. A vegetable slicer will make perfect slices. Wipe each slice dry and place it between folds of a soft tea towel. Heat fat to 265 degrees F. Or hot enough to make bubbles rise to the surface when potatoes are put in. Put six or eight slices into kettle and cook five minutes, stirring with a long handled fork or skimmer. Remove at once to second kettle in which fat is heated to 425 degrees F. Cook until puffed and delicately browned and crisp. Drain on crumpled paper and sprinkle with salt. Keep in a warm oven, about 300 degrees F., until ready to serve to insure crispness.

Fry Sweet Potatoes

Sweet potatoes are good French fried. Prepared exactly as you do Irish potatoes.

French fried onions can be done two ways. By one method, you cut in slices, separate into rings, and drop into milk. Let stand an hour. Drain and dip in flour. Fry in deep fat heated in 385 degrees F. Drain, sprinkle with salt and serve.

The other way to do them is to dip them in a thin batter made of 1 egg, 1 cup of milk, 1 cup flour, and ½ teaspoon salt. Fry in deep fat heated to 385 degrees F. The first method is the easier.

SUNDAY MEALS

It's heresy, I suppose, but such beautiful heresy—the club that a certain housekeeper group in a community not far away has formed to promote the abolishment of Sunday food orgies and incidentally, drudgery.

Even when Sunday was primarily a day of rest, it was never that for mother. But now that it has become the one time in the week when busy people get a chance to see their friends and relax a little, it is more than ever important that the one who prepares the meals gets a bit of consideration.

The best thing to do about it, many housekeepers have found, is to plan a main meal that can be chiefly cooked the day before. Then for supper rely upon such aids to quick hospitality as cheese trays, canned soups, boxed cookies, boxed beverages.

Y... ...ake the trouble. And certainly nothing goes better with cheese and beer.

Pumpernickel

Two cups mashed potatoes, ¼ cup lukewarm potato water, 2 yeast cakes, ¾ cup corn meal, 1½ cups cold water, 1½ cups boiling water, 5 teaspoons salt; 1 tablespoon sugar, 2 tablespoons butter or other shortening, 1 tablespoon caraway seed, 6 cups rye meal, 2 cups wheat flour.

Stir cold water into cornmeal and when smooth put over the fire. Add boiling water, stirring constantly and cook until it forms a mush. Add salt, sugar and butter and cool to lukewarm. Add mashed potatoes, yeast cakes dissolved in lukewarm potato water and stir well. Stir in flour and rye meal. Mix and knead to a smooth stiff dough using wheat flour on the board. Put into a large mixing bowl, cover and let rise in a warm place until double in bulk. Shape into loaves, roll in corn meal and put in greased bread pans. Let rise again until double in bulk and bake 1 hour in a moderately hot oven (375 degrees F.)

Pumpernickel is delicious toasted to serve with cheese. A good way to please everyone is to let those who want it toasted, toast it on an electric toaster when they are ready to eat it.

TWO GOOD RECIPES FOR BREAD PUDDING

Bread pudding used to have such a bad reputation along with prunes and hash that conscientious housekeepers preferred to use left-over-bread for something else rather than make pudding of it.

Lately, though, with the passing of the old-fashioned boarding house, bread pudding has assumed its rightful place as a good and nourishing dessert.

When you serve bread pudding for dessert stress vegetables and fruits in the remainder of the meal. For instance, have hearty soup with crisp crackers, followed by fruit salad, the whole topped off with a glorified bread pudding.

Quality Pudding

Three eggs, 1 cup sugar, 1 cup soft bread crumbs, 1½ teaspoons baking powder, 1 cup chopped walnuts, 1 cup dates, few grains salt, ½ teaspoon vanilla.

Beat yolks of eggs until thick and lemon colored. Mix and sift sugar and baking powder and combine with bread crumbs. Add with dates and nuts to beaten yolks and fold in whites of eggs beaten until stiff. Add vanilla and spread about ¾ inch in a shallow pan which has been buttered and dusted with flour. Bake in a moderate oven (350 degrees F.) until firm, about forty minutes. Spread with jelly and cover with whites of eggs beaten until stiff with powdered sugar and juice of ½ lemon folded in. Put in a slow oven (300 degrees F.) to puff and brown the meringe. Serve warm with any sauce.

HOUSEHOLD HINTS

The need to keep bottles well-labeled and poisons out of the reach of children is shown by the report of 500 or more deaths each year from acute poisonings in children under five years of age.

Grit imbedded in the back of a rug that is not reached when only the top of the rug is cleaned slowly cuts the fibers and causes the rug to wear more quickly.

Before shampooing rugs, coverings on chairs, or similar fabrics, the color should always be tested in an out-of-the-way place to see that it does not run.

Spanking may keep the child from doing what grown-ups dislike but it does not develop character, this has to come from right guidance.

Sweet potatoes go well with meat. They may be sliced raw, spread over a slice of ham in a covered baking dish, and cooked in the oven. Or they may be sliced lengthwise and baked in a roasting pan around spare-ribs, or a roast of meat.

A baby will learn to like new foods if mother gives these new foods one at a time, in small amounts, when the baby is hungry.

Since many accidents happen in the home, dark corners and shadows should be removed from all stairways, especially from the cellar stairs.

... in making ...oming, soak 5 quarts of the shelled grain for 15 hours in a solution made by dissolving 5 ounces of lye in 6 quarts of water.

Cream or yellow lamp shades give off a warm glowing light, and a white globe in a shade increases the amount of light given off.

Floors—After a new floor has been laid or an old one has been repaired, it should be sandpapered with the grain, swept, and dusted before stain or varnish is applied. A filler should be applied, after which the floor should be rubbed across the grain to remove surplus filler. The floor may be treated with stain, wax, shellac and wax, or two coats of shellac. Varnish should be applied freely to not more than six boards at a time and it should be brushed in with the grain of the wood. The strokes should not overlap.

Papering a Room—A heavy durable paper is best, as it will give longer service than thin paper. Heavy wallpaper in kitchens and bathrooms may be made waterproof by applying a thin coat of varnish. A wall should be sized before paper is applied, as proper sizing will prevent peeling. Canvas should be tacked on all ceiled or wooden walls and should be sized. When the size is dry, the paper may be pasted on.

"I believe that it is not written in the book of fate that I shall die with my foot on the accelerator and my hand on the wheel." — Sir Malcolm Campbell.

"Time spent in labor is rarely lost; on the contrary, work often makes us happy."—Andre Maurois.

Enjoying The Night Life

Helen Vinson, charming moving picture star and wife of Fred Perry, tennis star, is moved to laughter by the antics of a performer at the Trocadero, New York City night club, which she attended with a party of friends.

When Movie Goers Must Dodge Balls

Along about the first of the year Metro hopes to have a sizable fraction of the movie-going public looking at the world through rose (and blue) colored glasses. Seeking a novelty to charm its fickle audience, the company has revived the steroscopic film which first was tried publicly about eleven years ago. The process has been improved since then and sound has been added. The result is Audioscopiks by Pete Smith, is scheduled for release on Jan. 1.

J. F. Leventhal and J. A. Norling, who have been dabbing in steroscopic films for several years, produced the new Audioscopik. It was made somewhere on Fifty-fifth Street at an unmentioned cost and under unmentionable difficulties. If all goes well, they may make a whole series; they think they can do better the next time.

Mr. Leventhal was host at a fourman preview of his picture in one of the Metro projection roooms last week. He grinned happily as one spectator ducked when a pitcher wound up and tossed a baseball right of the screen at his head. If there had been an ywomen present, unquestionably there would have been screams when a magician conjured a white mouse onto the tip of his wand and poked it out, seemingly within arm's length of the innocent bystanders.

No question about it, the Leventhal-Norling camera has created a weird third dimension for a two-dimensional screen. Things come and threaten to land in your lap. An inebriate asks his audience to have a drink, proffers a filled glass — you can almost smell the neutral spirits —and then, visibly rebuffed because no one will accept it, grabs a syphon of seltzer and squirts it in your eye. Well, almost in your eye. It's foolish to duck, but you probably will.

There is a woman on a swing who soars right out into the audience; there is a fire-eater who brandishes a torch in your face; there is a slide trombone that slithers out until it is just inches from your nose; there is a skelton that tries to wrap itself around your neck, and there is an alarm clock that comes so close you feel like shutting it off.

To see all this, you have to hold a strip of pastboard with two gelatin lenses — one magneta, one blue-green —before your eyes. They used the same instrument of torturing for the old steroscopic films, but the results are not so good. Mr. Leventhal adheightening the illusion. The seltzer-squirting episode, for example, is doubly effective, because you hear the zizz and the splash when it strikes.

If you want to cheat and peek at the film without the glasses, you get a blurred double-image with a red and blue border. That is because a double image is being projected, one being blue and the other red. Mr. Leventhal explains it this way:

"The stereoscopic camera is actually a combination of two cameras, so that the axes of the lenses are parallel, or nearly so. When the camera is turning, each lens makes its own picture. . One of the negatives is treated with a blue-dye, the other with a red dye. Then from the two negatives, a single positive is made with the images slightly overlaping.

"f you were to project this print and look at it through the red gelatin only, the red image would not be visible. The blue image would be. The reverse would be true if you were to look through the blue gelatin.

"Now, if the relationship of the right and left eye of the spectator to the right and left image on the screen is properly correlated, the effect of depth is attained."

That, briefly, is the way it is. If the Greeks had a word for it, it would be the "anaglyph method." Mr. Leventhal, of course, makes no claim of having originated the process; it is about as old as the stereopticon. All that he and Mr. Norling have done is add a few technical improvements and liven the result with sound.

Ottawa Requires 2,096 New Houses

OTTAWA.—The Board of Control had under consideration a report from a sub-committee of the National Construction Council of Canada saying at least 2,096 new dwelling units are needed here to house low wage earners and relief tenants.

The report, presented last week, said at least 576 existing occupied dwelling units might be demolished to make room for new and more satisfactory dwellings.

It added rehabilitation of 1,369 dwellings should be launched and that 5,625 families are occupying 3,529 dwelings, causing serious overcrowding.

The report disclosed the existence of conditions conducive to juvenile delinquency and crime, mentioned serious lack of adequate sanitary facilities and existence of grave fire hazards. It added that there was a serious lack of cheap satisfactory housing in the capital.

A Winter Albino

This is the true story of a bird that willingly exchanged freedom for captivity. A doctor in a Home County keeps a few birds in cages that are large enough to be called aviaries. In one of these was a hen bullfinch whose personality so pleased a wild bird that he would come daily and perch on the cage and talk to the imprisoned beauty. He was so insistent that at last he was admitted to the cage, and ever since has evidently relished his position.

But a strange thing has happened. When he first came to sing on the cage he was clad in the full salience of color, of red and black and white and other subtler tints. Today all his colors, save a slight and delicately diffused pink on the breast have faded into whiteness. He looks a born albino.

The bird appears to be very fit; and his Spring moult is awaited with eagerness. Will his colors be restored to him or will he grow into a revived whiteness? — London Spectator.

How To Deal With Parasites Of Horses

It is as necessary as it ever was for the young farmer to learn all he can about the care of horses. Parasites of horses and the diseases caused by them are always of considerable importance. Young animals particularly are more susceptible and less resistant to the ravages of these pests and may be permanently affected, if nothing is done for them, before they reach the age of usefulness. Dr. A. E. Cameron, chief veterinary inspector of Health of Animals Branch, Dominion Department of Agriculture, states in the bulletin on "Parasites of Horses," issued by the Department, that a large variety of parasites of horses, both external and internal, exist in Canada, or may be introduced into the Dominion, and consequently it behooves the horsemen to be constantly on the watch to prevent the serious damage which follows heavy infestation by these pests.

Contaminated water or food is a great cause of disease, and stables should be kept as clear of manure as possible. Practically all organs and tissues of the horse may be invaded by mature parasites or their larvae, and the methods of combating the ravages of the pests are fully dealt with in the bulletin.

BOYS DON'T WANT TO BE CRIMINALS — Under modern conditions the under-privileged boy has become a major social problem. Work with him to date has proved that in many cases, the hazards of his unhealthy life can be minimized. It has also proved that he is probably the most promising approach for an attack on the terrific problem of crime, which has grown of late faste than Mr. Finney's famous turnip. Boys don't want to be criminals. They would rather go straight. — Julian Montgomery in the Rotarian Magazine.

30 Days to Think it Over

A young man from the country recently came to town, bought a second hand car later in the day and went for a ride. Today he is in jail for a month and his license has been taken from him. He collided with another car and seriously injured its occupant. Worse, he ran away and failed to return to the scene, which is a criminal offence in itself.

All the fines in the world will not stop some people, but making it impossible for a man to drive a car at all is the most salutary manner in which to handle drivers who can't be trusted with a car. If this young man makes good, he may yet get his license back and become a safe unit on the streets. Meantime he must think it out for himself, and it is trusted he will be wise and not feel disgruntled and get into more trouble. — Kamloops Sentinel.

"We have now learned that evolution is not always from the worse to the better."—Dean Inge.

"Class consciousness is worse than ever when it is class subconsciousness."—G. K. Chesterton.

"Singing is like football. There must be constant practice and appearances before audiences."—Maria Jeritza.

"You can grow a potato for the love of God just as well as you can preach a sermon.—Sir Wilfrid Grenfell.

SLIP OFF JACKET FORMAL WEAR

Here's the important velvet double duty formal dress in new street length. You can wear it for luncheon, bridge or late afternoons with its shirred sleeved jacket and jeweled buttons down the back.

When you want to be especially glamorous for dinner, theatre or dancing, slip off the jacket. For strictly formal evenings, make the dress in floor length as seen in small view.

Metal cloth or crepe silk will make up effectively in this simple to sew model.

Style No. 2949 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inch bust. Size 16 requires 2¾ yards of 39-inch material for street length dress with 1¾ yards of 39-inch material for blouse.

HOW TO ORDER PATTERNS

Write your name and address plainly, giving number and size of pattern wanted. Enclose 15c in stamps or coin (coin preferred; wrap it carefully) and address your order to Wilson Pattern Service, 73 West Adelaide Street, Toronto

FU MANCHU By Sax Rohmer

THE SEVERED FINGERS—The Lifted Eyelid.

The GREEN GHOST

by Stuart Martin

SYNOPSIS

Maud Barron and Hughes return to monition of disaster. She hears padding footsteps. Rushing into her father's study she finds him dead.

Dr. Sidney Foster, a friend, is joined by Detective "One Eye" Uttock, a mulatto, who has never lost a man.

Maud Barron awakes with a pre. England. Dr. Foster gives Maud his address in case of need. He receives a telegram informing him "The Ghost" has reappeared. Foster takes Elsie Monteith for drive. She confesses her love for him.

She had sent the word that she was in bed, that she wished to have a long sleep to cure her headache, and here she was just in from a walk, or a drive, he did not know which. And Hughes? He too had been out.

Foster steadied himself while he tried to clear his mind of the clouding terrors that baffled him and made his heart palpitate. And then his mind was made up. He opened his door and walked boldly round the corner.

Her door was still ajar.

She called to him before she could have seen him, or heard his step.

"Is that you, Dr. Foster?" And then, as he presented himself at the door. "Sidney!" In a low soft tone.

She had taken off her hat and thrown her coat over a chair. She came forward with hands outstretched.

"I couldn't sleep. My head was bad. I slipped out to get the air. And the rain came on."

She shook her head so that her hair tossed about like the mane of a lioness.

"See what the wet has done to it!" she exclaimed, laughing. "I took off my hat and let the rain run down my face. These are not tears you see, and I haven't any powder on. Do you think I can look at you without powder on my nose?"

The roses were there on her cheeks, natural, fresh colour that made her even more handsome than when she had used her powder puff.

"I met Hughes just as I was coming in. He came up to urge me to take some tablets for my headache; but I haven't one now. You don't think I ought to take them?"

She was holding his hands and looking into his face earnestly.

"If you needed any I have a headache cure for you," he said. "I offered one already tonight, but you said you were in bed."

"Of course I was, you poor young man. And I got out of it. Well, I'm going to have a hot bath and a sleep. I heard you playing my song. You played it for me, didn't you?"

He nodded, unable to speak. Her frankness had disarmed him. He had come to her in the mood to demand some kind of explanation, and she had carried his fort before he could speak a word of inquiry.

He hung his head, ashamed of his late jealousy, humiliated by her simple statement. Perhaps she guessed what was passing in his mind.

"Did you miss me much tonight?" she asked gently.

"Very much, Elsie."

"And I shall be gone for a day or so tomorrow. What will you do when I am away?"

"Count the hours until you come back."

"And if I wire for you, will you come for me wherever I am?"

"If it is possible—nay, I'll make it possible."

"That is very sweet of you, Sidney."

She held his hands firmer, and he felt her tremble, and saw a mist gather in her eyes.

"Where are you going?" he asked.

"Up to town to pay a call or two. But I'll tell you about it tomorrow at breakfast."

She retreated a step, as if she suddenly wanted him to go. But he advanced and took her hands in his turn. He saw that she was struggling to keep back the tears.

"Go!" she said, sharply, as if she would drive him away. "Go!"

"Good-night," he said. And went.

At the door of his room he stopped to listen.

From round the corridor came a soft, plaintive voice singing in a low, dreamy cadence,

"If I were a blossom blown
On the summer wind, forlorn—"

CHAPTER XII

PLEASE COME IMMEDIATELY

Not until after he had seen Elsie off next morning did Foster remember that he had not any information as to her destination, nor the date or time of her return. He walked slowly back to Shirley, and found Maud and Mrs. Gibbs downstairs. The girl had had a good night, and she and Mrs. Gibbs were going out for a drive, in which they invited him to join. He accepted the invitation, and for a few hours drove them out into the country at a moderate speed. Down through Dorking he took them and past Guildford. They had lunch at an hotel in the quaint little village at Shere, and spent some time walking along the Pilgrim's Way. It was tea-time when they arrived back at Shirley.

"By Jove," thought Foster, as he took the car into the garage, "I was to go to the police about that dead dog. I'll be off now."

But he did not go to the police, for as he went in to tell Maud of his intention, a servant directed his attention to a telegram that awaited him on the hall table.

He opened the wire and read: "Please come immediately to Luss private hospital, near St. Alban's. Jamaican friend of late James Barron has private important news. Conveyance meeting 8.15 train. Urgent.—Elsie."

Foster scanned the message several times before he grasped its significance. His impulse was at once to take it to Maud, and he was already several paces in that direction when he reconsidered the matter. The word "private" made him think. Was it possible that Elsie Monteith had solved the mystery of James Barron's death and the apparition that haunted the house? Had she been working from another angle on her own initiative, and had her shrewd, penetrating brain grasped a clue that had escaped him? Was it possible that she had obtained some information that she did not want him at present to give to Maud? It looked like it.

(To Be Continued)

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your *doctor* what he thinks about it — in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated *among the fastest methods yet discovered* for the relief of headaches and all common pains . . . and *safe* for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get

"ASPIRIN"

British Tonnage In Sharp Decline

LONDON.—The total tonnage of merchant ships registered under the British flag declined 2,668,492 tons between 1930 and 1934, the Board of Trade Journal revealed today. On December 31, 1934, there were 8,662 steamships registered with a total of 12,878,412 tons; 4,168 motorships of 2,826,160 tons, and 4,435 sailing vessels totaling 359,409 tons, according to the Journal's statistics.

Things To Remember

What shall we keep from out the misty past?
What keep in mind through all the passing years?
Pictures of joys whose memories e'er shall last?
Or sorrow's days with all their sighs and tears?
Better to keep in mind the happy scenes,
Days that were bright, undimmed by cloud or rain.

WEST PLANTS MANY TREES

War on Drought — Five Million More Will Be Started Next Year

Indian Head, Sask.—Western Canada is bringing the forest to its farmers to stabilize its agriculture.

Providing shade in summer, shield in winter and aiding agrarians in their war on drought and soil drifting, 145,000,000 trees have been planted as shelter belts on 55,000 farms in Manitoba, Saskatchewan and Alberta in 35 years of systematic planting. Five million more will be planted in 1936.

Norman M. Ross, chief of the tree planting division of the federal forest nursery station here, and his assistant, C. A. Edwards, dipped into facts and figures and found the love of trees brought by farmers from older settled areas provides the leveler for western agriculture.

Folk who pulled up stakes in the Maritimes and Ontario and moved westward at the turn of the century or came from the Old Country brought their love of home beauty with them. And in that was born the tree planting program which is proving its value in dollars and cents today to modern farmers.

To the credit of the tree planting program was placed better farm gardens, adequate protection against windstorms, improved appearance and added home comfort, retention of snow moisture, an anid in growing fruit successfully, protection for stock and poultry, attraction for bird life, protection against drought and provision of small fuel.

Fifty thousand trees were planted in 1901, the first year the federal government directed the work. Since then, Manitoba has planted 18,700,230 broad-leaf and 344,693 evergreens on 32,705 farms and Alberta records showed 37,879,855 broadleaf and 661,370 evergreens on 11,126 farms.

Oddities Of Playing Cards

It has been left for a correspondent of The Times to point out that the club suit of cards "is the only one in which the royalties together possess six eyes" (the knave being counted, for this purpose, as a royalty). All the others have no more than five. It is perhaps a matter of gallantry that the Queens are the only figures who always get their full set of eyes: the Kings have only seven among them, and the Knaves six. The Knaves, on the other hand, have a monopoly of symmetry, for two look to the right and two to the left, whereas both Kings and Queens are "eyes left" in the proportions of three to one.

Little matters like these emphasize the fact of the invisibility of the familiar. How many people play bridge regularly, and would yet be puzzled to answer this examination paper, "unseen"?—

(1) Which King shows only half his face?

(2) How many jewels are there in the royal crown?

(3) What do the Queens carry in their hands?

(3) Which King has two hands?

(4) Which King carries the orb?

(6) Which Knave is threatened with an axe?

(7) Which King has a moustache that does not curl?

(8) Which King wears ermine?

(9) Which Knave has a W on his shoulder?

The style of all the cards is emphatically Tudor. The King of Hearts is said to show Henry VIII. in his proper robes, and the Queen is a picture of Elizabeth of York, wife of Henry VII. But the ladies, as a whole, are an insipid lot. The kingly attitude is one of authority rather than bonhomie. The Knaves offer more variety of type, but they are uniformly poor creatures—as knaves should be. The practice of duplicating the figures, so as to be equally intelligible from either side, is comparatively modern: it would be interesting to know whether the earlier pictures gave fuller details of costume.—London Observer.

Beaver

In nothing is human nature so unfair as in its liking for some animals and its dislike of others; and the beaver has always been lucky. To have stood on a dam and see a lodge in some far spot of Canada or Newfoundland, and even to have looked for, without seeing, the bubbles or the nose-tip that mark the passage of a beaver, is to feel a special, almost proprietary, interest in the creature. But even so little as that is not necesary. To have read of beavers is to love them. They have the quality of dearness, shared with the squirrel (the beaver is by family an aquatic squirrel), the penguin, and the kinkajou. — London Times.

EVERY DAY LIVING

A WEEKLY TONIC
by Dr. M. M. Lappin

I have a letter before me now, typical of a good many letters that I have received from time to time, and raising a matter about which I have always intended to write. It enables me to sound a much needed warning. This letter gives me an opportunity to do so now.

The letter is from a young woman —a spinster of thirty-five. She writes in part:—

"I live all alone in a small apartment and go out to business each day. I have always been backward and slow to make friends and, consequently, I have very few friends. None that I call intimate friends. Lately I have been feeling loneliness rather keenly. I noticed an advertisement in the ——— inserted by a "gentleman" who would like to meet a companionable woman of my age to accompany him to parties and break the loneliness of life for him. At first I hesitated, then I pictured a young man in a similar position to myself, so I replied. It has turned out very much differently from what I expected. This man was evidently looking for something other than companionship and I have had the greatest difficulty getting rid of him. The experience has greatly upset me and I am in constant dread of him turning up."

There it is. A very old game and one that is being played daily. Hundreds of innocent women and girls have been caught in the mesh of such rogues and have learned by bitter experience that it is not always safe to answer such advertisements. My correspondent is fortunate indeed if she has been able to free herself before becoming wholly ensnared. To say the least, it is always risky to answer such advertisements.

My correspondent seems to have a grudge at the paper in which she saw the advertisement, but that is foolish. In all fairness it ought to be said that the greatest care is generally taken to see that advertisements accepted for the papers are bona fide. But even with the greatest of care advertisements will sometimes appear that not what they appear to be on the surface. Such advertisements are usually inserted by very crafty people and are cunningly worded. If they were not so, no advertising manager would accept them. Every reputable paper wants to build up circulation, and such advertising would only pull down the circulation figures. Clean, straightforward advertising is the demand of our press today.

To me, it is somewhat surprising that anyone will seek companionship through press advertisements. There are so many legitimate channels through which one can make friends. Lonely girls can always find companionship through the medium of one or other of the girls' clubs that are in vogue today, or through the Y.W.C.A. If a girl is living at some distance from such organizations, a letter to the secretary will, I am sure, always be sympathetically treated. And apart from these organizations, there is always the church. All churches have youth organizations in which amiable companionship can usually be found.

The best thing to do is never answer an advertisement of the nature that has caught my correspondent napping. I have known cases where it has led to the ruin of a splendid type of girl. To my correspondent I want to say, if this man turns up and begins to pester you threaten him with the police. If he persists, communicate with the police. If he does not turn up again, you may count yourself extremely lucky, but be sure that you have profited from your experience. Don't let it worry you. Put the whole thing completely out of your mind. Join some church society or the Y.W.C.A. and find companionship that will enable you to forget about this nasty jar which you have received.

* * *

NOTE: The writer of this column is a trained psychologist and an author of several works. He is willing to deal with you problems and give you the benefit of his wide experience. Questions regarding problems of EVERYDAY LIVING should be addressed to: Dr. M. M. Lappin, Room 421, 73 Adelaide Street, West, Toronto, Ontario. Enclose a (3c) stamped, addressed envelope for reply.

Teacher's License is Refused Because She Weighs 182 Pounds

The board of examiners of the Board of Educotion of New York has filed an answer with Dr. Frank P. Board of Education of New York has cation to an appeal made by Miss Rose Freistater, of 1995 Davidson avenue, the Bronx, for a review of the board's refusal of a teacher's license on the ground that she was overweight.

Miss Freistater applied for the license in March, 1931. The board of examiners denied the application because she wieghed 182 pounds. Miss Freistater, being five feet two inches tall, should, in the opinion of the the board, weigh 120 pounds if she was to be licensed to teach in New York.

The board agreed to issue the license, however, if Miss Freistater could reduce her weight to 150 pounds within the next six months.

In her application to Commissioner Graves for a review of the case Miss Freistater said that she had not been able to get down to 150 pounds in six months. The trouble was, she said, that her mother had not been well during the six-month period and she had to devote so much time to her that she had been unable to diet whole-heartedly and had got down only to 160 pounds. She had asked the board, she said, for an extension of another month to get rid of the ten pounds.

This request had been refused, said Miss Freistater, an action on the part of the board of examiners which she characterized as "arbitrary and unreasonable".

The board of examiners said in its answer that its requirements as to weight and other physical characteristics were those adopted by insurace companies for standard risks. The board held that such requirements were reasonable, in view of the insurance aspects of the teachers' retirement system.

"Teachers should, moreover," said the board, "be acceptable hygenic models for their pupils in the matter of weight."

As to this, the board of examiners added that Miss Freistater was now back at 181 pounds, which substantiated the original opinion of the examining physician that any reduction in weight would be merely temporary and the condition in the middle years of her life might become a handicap.

Not only, said the board, was there no record of application for reconsideration of her case but there was "no confirmation or official evidence" that she had even reduced her weight at one time to 160 pounds. — New York Herald-Tribune.

Women Haters Getting Anywhere In Alberta College

EDMONTON.—Ted Bishop, founder of the University of Alberta Women Haters' Club, is going to the National Federation of Canadian University Students' Conference at Kingston, Ont., next week.

And Ted admits he may seek formation of women haters' clubs in every university in Canada. He organized the women haters' organization here a few years ago and it has a membership of five.

So if other varsity clubs do spring up, co-eds won't have to worry unless the membership goes over bigger than at the University of Alberta.

Thrift Workshop Has Number of Interesting Exhibits

The triumph of creative handicraft in an age of machinery was illustrated by an exhibition in London to which women in villages throughout England and Wales sent work. The exhibits were shown by the National Federation of Women's Istitutes, and they combined beauty with economy. The Duchess of York, offered her choice of a gift, bought five velvet pigs.

Economy was especially apparent in the Thrift Workshop. There banana crates made baby cradles. Bits of linoleum made soles of bedroom slippers, of which the uppers were made from last year's discarded felt hats. Hen's feathers and sheep's wool which had been picked up from the hedges, were used as fillings for dainty quilts.

One of the exhibits, contributed by a Cambridge shire woman, Mrs. Bernard Jackson, was a beautiful rug made entirely of old silk stockings on a foundation of coarse sacking.

"The day has gone by when any physicist thinks that he understands the foundations of the physical universe as we thought we understood them in the nineteenth century."—Robert A. Millikan.

ASK YOUR DOCTOR FIRST, MOTHER

Before You Give Your Child an Unknown Remedy to Take

Every day, unthinkingly, mothers take the advice of unqualified persons — instead of their doctors' — on remedies for their children.

If they knew what the scientists know, they would *never* take this chance.

Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia — the safe remedy for your child."

Remember this — And *Always* Say "*Phillips*'" When You *Buy*. Your child deserves it; for your own peace of mind, see that you get it — Genuine *Phillips*' Milk of Magnesia.

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

News And Information For The Busy Farmer

Furnished by the Ontario Department of Agriculture.

Short Course at Kingston

One of the oldest courses of instruction in practical dairying in Canada opened for its fortieth session on January 2 at Kingston. The Eastern Dairy School, now under the control of the Ontario Department of Agriculture, and in charge of Prof A.L. Gibson, superintendent, was first established by Queen's University in 1894 as an agricultural and dairy school, but of late years it has specialized only in the latter branch of agriculture. Serving the rich dairy districts of Central and Eastern Ontario, the Eastern Dairy School offers a three months' general course in cheese and butter making, with a special Cheesemakers' Short Course from February 11 to 14, and the dairy instructors course follows the regular course, from March 24 to 27.

Registered Cockerels

Poultry breeders wishing to improve egg production and egg size, and thus lower the cost of production and increase the revenue from the poultry flock, should secure Registered males to mate with their breeding hens for the coming breeding season.

Being bred from parents which inherit the capacity for high egg production and large ones, Registered cockerels possess the breeding necessary to increase the egg production of any flock and to ensure egg size as well. Since these cockerels are bred from mature females and are passed by government inspectors after they are six months old, the buyer can rest assured that he is getting birds possessing good constitutions and abundant vigour. Registered cockerels may be secured from poultry breeders in every province in Canada.

Warning from England

Canadian cattle raisers, at least such as might hope to export animals to the Unitted Kingdom, have recently been warned regarding the shipment of stock with any mutilations in the ears. According to a decision of the committee which administers the Cattle Fund from whch payment of subsidies on home-fed beef cattle is made, no animal with a punch hole in the ear of half an inch across or more, or any snip or cut of the edge of the ear extending half an inch or more into the ear, will be eligible for the subsidy when sold for beef.

As it has been occasionally noted that some beef cattle which have suffered from frost-bite in the ear are left with deformed ears as a result, it will be inadvisable to prepare these for export to the Old Country. They can be shipped, but would probably bring a much lower price because they would not qualify for the subsidy. This news has been transmitted through the office of the Canadian High Commissioner in Canada.

Care and Breeding of Brood Sows

At the Experimental Station, at Fredericton, N.B., the brood sows are housed in portable cabins all year, except for a period from a week or ten days before farrowing, until the pigs are weaned. A three year rotation of rape, oats seeded, and clover is carried on in the hog paddocks, and this provides a continuous supply of green feed through out the summer. The object in feeding is to keep the sows in a thrifty condition. They should not be allowed to become too fat or too thin. If they are very thin after the pigs are weaned, they are fed well until a normal weigh is reached. If plenty of green feed is available, about four pounds of hixed grain per sow per day is usually sufficient to keep her in good condition. When nursing a litter, the sow is fed al she will clean up.

This amount will cary from 6 to 12 pounds daily for different sows.

The grain mixture for the sows varies at times, owing to the nature of the feed on hand. A satisfactory mixture consists of equal parts of ground oats, ground barley and middlings. The barley may be omitted for sows in good condition, and unless suitable mineral and protein supplements are provided, it should be omitted during the last month before farrowing. The nursing sow should receive at least two pounds of skim-milk per pound of grain or fish-meal or tankage at the rate of 8 per cent. of the ration.

Mangels are always provided for winter feeding, and are fed at the rate of about two pounds per 100 pounds of live weight per day. Clover hay is supplied in racks. If potatoes are fed to brood sows, they should be fed only sparingly during pregnancy. At this time, it is advisable to feed fish meal at the rate of about 3 per cent. of the ration, if no skim-milk is available. Bone char and salt are each fed at the rate of one per cent. of the ration at all times.

Ontario Colt Clubs

Middlesex County, with five foal clubs showing 81 colts in club work during 1935, leads Ontario. The next highest county is Bruce, which has three foal clubs and a showing of 30 colts.

Ilderton Foal Club, with a showing of 25 colts, has the largest individual showing in the province.

The five foal clubs in Middlesex are at Melbourne, Ilderton, Parkhill, Glencoe and Thorndale.

Clover and Grass Seed

Eastern, Central and Northern Ontario: The movement of seed from growers to the trade was decidedly slow during December. Buyers are cautious owing to uncertainty of the market. There are still available in these parts of Ontario, some 540,000 pounds of red clover, 420,000 pounds of alfalfa, 90,000 pounds of alsike, 300,000 pounds of sweet clover, 3,000,000 pounds of timothy and 500,000 pounds of mixed seeds.

Prices offered growers range as follows: for red [illegible] ton-Ottawa district, 8 to 10c per lb. for country run seed; in northern Ontario, 9c for No. 1; in the St. Lawrence counties, 11to 12c; in the lower Ottawa Valley, 13c. Alfalfa in the Kingston-Oshawa district, 10 to 12c (country run). For alsike in the Belleville, Peterboro and Lindsay districts, 11 to 12c for country run seed; northern Ontario, 10 to 11c for No. 1 Sweet clover; in the Kingston-Oshawa district, 2c for country run seed; in the St. Lawrence counties, 2 to 3c for No. 1. For timoth yin the Kingston-Oshawa distict, 2 to 3c for country run seed; in northern Ontario, 2c to 3c for No. 1; in the St. Lawrence counties, 3 to 3 3-4c for No. 1 and in the lower Ottawa Valley, 3 to 4c for N.o 1.

South-Western Ontario: A comparatively large quantity of seed has already moved from growers to the trade, although there are still available some 750,000 lbs. of red clover, 12,000 pounds of alfalfa, 175,000 of alsike, 550,000 of sweet clover, 4,250,000 of timothy and 42,000 of Canadian blue grass. The demand continues good for alsike, fair for red clover, alfalfa and Canadian blue grass and poor for sweet clover and timothy.

Present prices paid growers by the trade range as follows: for No. 1 grade, pe pound—red clover, 10 to 12c; alfalfa, 14 to 16c; alsike 12 to 15c; sweet clover, 3 to 4½c; timothy, 2 to 3½c; Canadian blue grass 3½ to 4c (country run).

WINCHESTER SPRINGS

The Daisy Mission Band met at the home of the newly elected president, Miss Georgena Casselman, on Saturday afternoon. The president took charge of the meeting with a well prepared program. The leader, Mrs. Geo. Myers, gave a very helpful talk on the Birth of Jesus. At the close of the meeting the children joined in singing a number of hymns.

Mr. M. Coleman is spending a few days with Mr. Arnold Casselman.

Miss Winnifred Ball spent the week-end with friends in Ottawa.

The many friends of Mrs. David Galagher are sorry to hear she is confined to her bed, the result of a fall.

Mr. and Mrs. Hamer Patterson were entertained to tea at the home of Mr. and Mrs. Andrew Bolton.

Mr. and Mrs. R. Couglar and family of Williamsburg were guests on Sunday of Mr. and Mrs. Alfred Wilson and family.

The meeting of the W.M.S. of the United Church was held Tuesday, January 14th at the home of Mrs. Clifford Robinson with the president, Mrs. Aden Casselman, in charge. The theme of the program was "The spirit of Racial Brotherhood." Several items of business were discussed including plans for quilts, etc., to be sent in the bales. Mrs. C. Thompson favored the group with a solo. Mrs. George Myers gave the third chapter of the study book: "Penetration of Africa." Mrs. Alfred Wilson, Temperance secretary, gave a well prepared paper on Temperance. Mrs. Aden Casselman closed the meeting with prayer. Lunch was served by several ladies.

Mrs. George Janack of Broken Second took dinner with Mr. and Mrs. Morgan Seeley last Tuesday.

WILLIAMSBURG COUNCIL

The first meeting of the Council for 1936 was held in the Orchid Tea Room, Williamsburg Village, when each of the following members took the oath of office before the Clerk: Oscar Beckstead, Reeve; Edgar Whitteker, Deputy Reeve; Frank Darling, Ross Hess, Ezra McMillan, Councillors.

The following officials were appointed: M.S. Beckstead, clerk-treasurer, salary $350.00; Omer Warren, assessor, salary $80.00; Myron Merkley, sanitary inspector, $2.00 per day when employed; Milton Carkner, school attendance officer and weed inspector, $3.00 per day when employed; B. Roy Casselman, auditor, salary $25.; A.M. Casselman, auditor, salary $25.; G.W. Colquhoun, member local board of health; Dr. M.W. Locke, medical officer of health.

The minutes of last meeting were ead and adopted.

The sum of $12,000 was appropriated for work on roads and bridges for 1936. The Reeve and Clerk were authorized to assign and transfer to Stanley McIntosh, the certificate of sale of front part lot 36, con. 1, known as the John Coir property, which was bought by the township at tax sale. The Reeve and Clerk were instructed to sign the petition to the Dept. of Highways of Ontario for the statutory grant for township road expenditures during 1935.

A committee composed of the police village trustees, Edgar Whitteker and Ezra McMillan, was appointed to prepare regulations for the colection of garbage and night soil.

John Wells, tax collector, was given until Feb. 1st, 1936, to complete the collection of 1935 taxes.

A resolution was passed requesting the Workmen's Compensation Board to continue the protection of township workers as formerly.

The following accounts were passed:

Lloyd McHaffie, cutting brush	$11.38
E.R. Marcellus, salary	50.00
Alva Henophy, repairs bridge	1.40
C.N.R. crossing gates, Dec...	29.10
Dwight Perrault, cutting brush	7.00
McMillan & Co., clothing for indigent	7.70
J.D. Dain, wood, Mrs. Wm. Casselman	12.50
W. & J. Meikle, supplies Mrs. Wm. Casselman	12.99
Beckstead's Service Garage, reps. night soil wagon	11.60
E.A. VanAllen, attending land tax sale	5.00
John Willard, refund dog tax	2.00

The Council adjourned, to meet again in Williamsburg Village on Saturday Feb. 1st, 1936, at one o'clock p.m.

M.S. BECKSTEAD, Clerk.

MRS. HERBERT BAKER

There passed away on Thursday morning, January 9th, 1936, at her home in the seventh concession, Williamsburg, Mrs. Herbert Baker, in her 59th year. Deceased was a daughter of the late Mr. and Mrs. William Camp of Castorland, N.Y. The funeral service was conducted by Rev. K. Woodwark, at her late home, on Saturday. Interment took place in Maple Ridge cemetery. The pallbearers were Messrs Ernie Shennette, Dan Burton, Donald Hess, Henry Barkley, Arthur Loucks and Frank Whitteker.

She leaves to mourn her passing her husband; two sons, Arthur and Glen; three grandchildren, Dora, Lyle and Lloyd, of Williamsburg; also five sisters and four brothers: Mrs. Will Spath, Mrs. Ernest Terry, Mrs. George Smillie and Roland Camp of Detroit, Mich., Mrs. Fred Shantz, Glenfield, N.Y., Mrs. George Vanamber, Watertown, N.Y., Roy, Ray and Walter Camp, of Castorland, N.Y.

MRS. MARY BARTLEY

A large number of relatives and friends attended the funeral of the late Mrs. Mary Bartley, which was held in the Wesleyan Methodist Church, Inkerman, on Thursday last. The service was conducted by her pastor, Rev. Mr. Robinson, assisted by Rev. W.D. Summers of Winchester, who delivered the sermon; Rev. Mr. Bain, Ottawa; Rev. Mr. McConnell, Inkerman, and Rev. H.V. Higginson, Kemptville.

The late Mrs. Bartley, who was in her 76th year, was born in the township of Williamsburg, and spent her early life there. Later she moved to Mountain township, where she spent the balance of her life. She passed quietly away on Tuesday, Jan. 7th, after a long illness.

MATILDA COUNCIL NAMES OFFICIALS

The inaugural meeting of the Matilda township council was held in Gilson's hall, Brinston, on Monday. The clerk, Mr. A. Locke, of Dixons Corners, issued the oath of office to the council, who were all returned by acclamation. They are: reeve, Thos. Johnston; deputy reeve, Alfred Deeks; councillors, B.A. Strader, M. Zeron, O.A. Irvine. This is the 12th consecutive year for Mr. Johnston as reeve, and representative of the township at the counties' council, held at Cornwall. After his installation, he congratulated his colleagues in office upon their return to the board, and said he trusted their work would continue with the same progress and harmony of the past three years they had worked together in the affairs of the township.

Ancil Locke was appointed township clerk for his 14th consecutive year. Other officers appointed are: treasurer, C E. Harkness; assessor J.W. Flegg; auditors, A.A. Crawley and Co., Ottawa; truant officer, Rankin Cooper; weed inspector, R. W. Feader; medical health officer, Dr. T.A. Hamilton; sanitary inspectors, Jos. Coons and O. Strader; member of board of health, John Adams.

The preliminary motions for the banking, expenditure for roads and bridges, etc., were passed. Owing to the compensation board of the province refusing to accept the responsibility of workmen, or accidents on roads and bridges of the township, arrangements were made with local agents for issuing such insurance Mr. John Ellis of Dixons Corners has been appointed road superintendent for the township, by the provincial government. It was moved by M. Zeron, seconded by O.A. Irvine, that accounts totalling $378.40 be passed.

The next regular meeting will be held in Gilson's hall on Feb. 6th at 1 o'clock p.m.

Picadilly THEATRE

Vice-President and Managing Director
MORRISBURG-WADDINGTON FERRY LINE.

Filling in Time until 7 o'clock

With the supper dishes cleared away, Mr. and Mrs. Elmer Banks sit down each Wednesday evening to a rollicking game of checkers. Really they are just filling in time until their son John makes his weekly long distance call from a far-away city — a few minutes after 7 when Night Rates are in effect.

That weekly chat with John is the big event in their placid week. He never fails them, and his cheery chatter means more to them than they would care to say.

THE BELL TELEPHONE COMPANY OF CANADA — LOCAL LONG DISTANCE TELEPHONE

● On *both* "Anyone" and "Person-to-Person" calls, Low Night rates apply after 7 p.m. and Low Week-end rates ALL DAY SUNDAY.

THE WORLD AT LARGE

CANADA

Parent's Responsibility

One of the things that turn a policeman's hair gray in the winter time is the task of keeping children from coasting in the street. Children continue to slide out among rushing autos—and the result in many cities where snow lies on the roadways, is a series of tragic accidents.

The traffic squad in an Ohio city has thought up a new answer. It is going to arrest the parents of youthful coasters. An old city ordinance, it seems, gives it the power to do this, so the police are going to get busy on it.

And this isn't a bad idea. It's really up to the parent to impress on his child the danger of coasting in the street.

He'd interest himself in the job with alacrity, probably, if he knew that he'd be hauled off to court in case Junior went coasting where he shouldn't. — (Guelph Mercury.)

FAREWELL TO NELLY

No longer will it be Mary or Nelly or Nancy or any such names in Italy. Instead, the Christian names will be have to be real Italian ones. So goes forth the edict. There has been too much of this Mary for Maria, Nelly for Elena, Nancy for Anna, Flo for Florenza, Elsie for Alice and Peg for Margherita.—(Windsor Star.)

HOMEWORK AND EXAMS

Homework is closely linked up with the examination system. But examinations themselves are discredited. Other means must be used if the mental powers of the student are to be accurately appraised. The truth probably is that examinations as used to-day are not really for the purpose of testing the pupil, but the teacher. If a large proportion of students pass, then the teacher must be good, seems to be the idea. The natural consequences is that the teacher who spends much time in endeavor to inculcate character rather than scholarship may be adjudged incompetent. When examinations, as we now have them, give place to something better, homework will probably go out of fashion.—(Winnipeg Tribune.)

ARE 16,188,767 TURKS

At one time the Turks held sway through Southeastern Europe, Asia Minor and down through Syria and Palestine to Africa. But the Great War changed that and Turkey now has only a small tip of Southeastern Europe and the northern part of Asia Minor.

There are 16,188,767 Turks, of whom 7,974,925 are males and 8,213,842 are females.

Istanbul, the old Constantinople is the largest city with 740,751 inhabitants. It is in Europe and is the former capital.

Angora, in Asia Minor and the new capital, has only 123,314 inhabitants. When the seat of Government was changed many Turks moved from Constantinople to Angora, but most of the people remained in Europe where they are carrying on trade and commerce along the Bosphorus and the Sea of Marmora.—(Windsor Daily Star.)

HORSE SENSE

There many careless drivers in the old days, but not as many accidents. The horses had some sense.—(Winnipeg Tribune.)

WHAT ABOUT BUTTONS?

Mae West says there are seven ways to lose a man. We are certain of only two ourselves—weak coffee and burnt toast. — Kingston Whig-Standard.

WORK IN THE MARTIAL STATE

I was in my favorite beanery the other night and the jolly old waitress was chatting with the boy friend, and she said: "Well, I'm going to get married soon." And the boy friend said: "Why?" She said: "So I won't have to work all my life." I don't know whether they heard me or not, but I simply had to let out a little ghost of a chuckle. I couldn't help it.

"So she won't have to work all her life!" If there is a better ticket for a life job of work to a woman than getting married I would like to hear about it so that I can tell you.

But then there is this: What is better for people than work? What is better for anyone than a lifetime of endeavor in the interest of someone you love? I presume, of course, that the young man would not get married unless she was in love with the victim. And if she isn't, it's going to be just too bad for everybody concerned.

It all depends on what you call work and what your reactions to work are. Work is motion, life is motion; work is therefore life. At the expense of seeming sentimental I might also mention that love is life. That's why most people are dead at the switch. — J. B. in Vancouver Province.

USES OLD RAZOR BLADES

There is said to be a use for everything if one can find out what it is. And in the case of industry, the finding of needed markets frequently depends upon this discovery. As an illustration take old safety razor blades: for the most part these have been regarded as nothing better than scrap metal and the quantity that accumulates must be very great.

And now a solution to the problem has been made available by an English missionary in the Belgian Congo who, according to cable despatches, would be glad to have all the old blades he can get. It appears that the Congo natives "yearn" for them and there is said to be "no limit to the uses these last can find for them.

As one instance, the missionary in question explains that when there is a death in a native family, the demand for any kind of razor blade rises, as all the friends and relatives of the deceased are expected to shave off their stiff and wiry hair. Apparently, razor blades have replaced "moral pocket handkerchiefs" as England's chief contribution to the heathen in darkest Africa.—Quebec Chronicle-Telegraph

DRIVE FOR TOURISTS

An important decision of the Ottawa conference is for an organized drive to bring more holiday-makers to Canada — not only from the United States, but from other parts of the world.

Money spent on instructive advertising is a good investment. Mere ballyhoo is out of date. We, in Canada, have great deal to offer to the travelling people of the world. It is our job to sell our attractions. Other countries do it. So should Canada. — Victoria Times.

JIM CURRAN DISPUTED

—So there you are. Jim Curran of Sault Ste. Marie and Algoma in general, says the wolf will not attack a man. Harvey Green from Buckhorn, 22 miles north of Peterboro, says the wolf he shot was making tracks straight for him.

And Harvey Green has a good reputation for telling the truth. What's more, he had along with him Exhibit A as they would say in court circles in the shape of the pelt from the wolf which was making straight for him. Long acquaintance and a form of profound admiration have combined to create a feeling of respect and a certain amount of awe for the exploits of James Curran, but even that cannot discount the word of Harvey Green, of Buckhorn, trapper and guide.

When it was mentioned to him that Jim Curran had said a wolf was a harmless thing and not given to making attacks on human beings we noticed a look in Trapper Green's eye which could be interpreted only as being one of extreme doubt or positive incredulity. — Peterboro Examiner.

THE EMPIRE

An Irish Free State Innovation

An Saorstat (Irish Free State) is at last to have a commercial air transport service. Early in the New Year a service is, Mr. Lemass announced in the Dail, to be inaugurated between Dublin and Liverpool and Dublin and Bristol. Pending the establishment of a National Air Transport Company, a subsidiary company has been formed to operate the services jointly with a British company. This course has been adopted because the Government has considered it desirable to establish air transport services between the Saorstat and Great Britain "at the earliest possible date." Perhaps there is a significance in this action that does not meet the eye. At any rate, the scheme is a good one, capable of development to the mutual benefit and convenience of both countries.—Dublin Irish Independent

Migration Not Yet Practical

The Bishop of London pleads for Empire migration to people the empty places of the Dominions. Australia has a population of only six and a half millions, Canada ten millions. Each could absorb 100 millions. The Daily Express gives praise to the Empire statesmanship of the bishop. But migration on an effective scale is no yet economically or politically possible. The first aim must be to weld the Empire into a single economic unit. When trade has been stimulated and regulated the Dominions will want people as well as goods. — London Daily Express.

DID THEIR BEST

Two of the two hundred boys without homes, who were the guests of Thomas W. Lamont at a Christmas dinner in New York City, did their best to show their appreciation. The one on the right beat his companion to the dessert of ice cream.

Plan Far Ahead

U. S. Firms Will Increase Advertising in 1936, Survey Shows

NEW YORK — Advertising, promotion and sales plans are being made farther ahead than at any time since 1929, says Herbert L. Stephen in an article appearing in Printers' Ink, on the results of a survey.

About 25 per cent of those answering a questionnaire on national advertising are reported as saying they are working on plans for six months in advance, and another 7 per cent. on plans three months in advance.

Increases of advertising appropriations for 1936 ranging from 5 to 2 per cent. were reported as planned by 53 per cent. of the national advertisers answering the queries. Another 20 per cent. are expected to raise their appropriations by an undetermined amount, and 25 per cent. expected to make no material change.

World's Largest Bridge

(Brockville Recorder and Times)

The greatest human accomplishments are not confined to the better known parts of the world. If big things have been done and are being done in America, in Europe and in the British Isles, they are also being done in the heart of Africa.

Word from that continent is to the effect that the last span of the lower Zambesi bridge has been placed in position and that its opening to traffic is now a matter only of time. This bridge, believe it or not, is to be the largest in the world. Over two miles in length, it crosses the great river at a point where it is approximately 11,650 feet wide, and the whole transportation system of East Africa will be profoundly affected by its completion.

Perhaps it is unnecessary to state that the builders of this world's greatest bridge are a British firm, making use of British steel and other British materials. The British steel concerns have mastered the art of bridge-building, even in the world's most out-of-the-way places, to such an extent that they are often given important contracts in foreign countries in the face of determined competition. The world knows that when it gets a bridge designed by British engineers, built of British materials and erected by British workmen, it has something that is the best of the kind obtainable.

Lord Tweedsmuir Drinks From Historic Glass

A tradition of historic significance was carried on at the Art Gallery of Toronto when Lord Tweedsmuir, Governor-General of Canada, drank a toast to the King from one of the historic "Simcoe Glasses," of beautiful English crystal, from which every Governor-General, on his first visit to the Grange, has drunk to the health of His Majesty.

This glass came into the possession of the gallery from the Boulton family, who received it by bequest from Governor Simcoe. The tradition is that every Governor-General of Canada from the time of Governor Simcoe onwards has drunk the health of the King out of this glass. Since it came into the possession of the Art Gallery, records show that this ceremony was performed by Lord Lansdowne May 24, 1887, while Governor-General of Canada; and again by Lord Aberdeen Aug. 25, 1897; then the Duke of Connaught March 19, 1914; the Duke of Devonshire Feb. 3, 1919; Baron Byng of Vimy, May 26, 1925; Viscount Willingdon, Nov. 25, 1930; and the Earl of Bessborough Feb. 3, 1933.

Business Man—And can you take dictation, girlie?

Girlie—I know how, but I must admit I won't, and that's why I've stayed single.

A Grove of Trees

It was only a small grove of trees. But standing apart from the rest of the tree world and in a conspicuous place it was important. And now it has been cut down. After braving the wind blasts for years and withstanding the lightning's terrors so long, it has at last been destroyed by the hand of man.

There was some grand old monarchs in that small grove. Noble trees, that have watched the growth of our little settlement from its infancy to its present state. Aye, and even long before our little town was dreamed of, the tiny seed fell and the saplings started to grow. Perhaps a bear scratched the bark of one of those noble trees, or a moose stood in their generous shade.

But now those old landmarks are gone. No more will they watch the train coming thundering in on the nearby railway, nor will the road traffic pass under the protective shade. No more will the robins greet the first glimmering red of the morning light from the highest limb; nor the lonely owl at night send out his solemn call from among the branches. For they are cut down! Those who best knew them will miss them sadly. Everyone who comes along that way will feel the change. Perhaps not consciously for often our eyes do not see, but in our souls we will feel a sense of emptiness and loss.—Anne Rosendale Forsyth, Pickardville, Alta.

Woman Heads English Family of Tragis History

Another strange chapter in the tragic history of the Dysarts—one of the saddest, yet most romantic, in the pages of the British peerage—was begun on the death recently of the Earl of Dysart, "the blind Earl," at Buckminster Park, Leicestershire. His neice, Wenefryde Greaves, succeeded to the peerage. She is 46 years of age and as the Countess of Dysart is the third woman to hold that title in her own right.

The death of the eldest son, often by violence, and the preservation of the title by a female successor has overshadowed the family for more than a century. Lord Dysart's successor, who married Major Owain Edward Whitehead Greaves in 1913, and lives at Glangwna, Carnarvonshire, has three children—all daughters.

Value of Woodlots

A Forestry Research Conference has just been held in Ottawa under the auspices of the Canadian National Research Council to find out what kinds of research each forest agency in Canada is equipped to carry out, what it is actually doing and what means of co-operation exist. An attempt will be made to determine how all available resources can best be given that general direction which is required to avoid duplication and wasted effort, and to ensure that no vital element in the problem is overlooked.

A considerable number of delegates, including Dr. C. D. Howe, Dean of the Faculty of Forestry, University of Toronto, and Mr. G. W. I. Creighton, Provincial Forester for Nova Scotia, stressed the importance of the farm woodlot as a source of revenue to its owner, and of forest products to the public. It is felt that much more expert advice regarding the management of their woodlots should be available to farmers, and it is suggested that an up-to-date pamphlet on this subject is badly needed.—Toronto Mail and Empire.

A gentleman with a wife who was very nervous got her some medicine and later wrote this letter to the doctor:

"Dear Doctor:

Before my wife took your medicine, she was so nervous I could hardly sleep with her. Since taking your medicine, anybody could sleep with her."

LOOK ON THE BRIGHT SIDE

(St. Thomas Times-Journal)

William Murray was terribly injured in the railway accident at Dundas last Christmas. One leg was amputated and he had other severe injuries that caused his life to be almost despaired of, but surgical and nursing skill, plus pluck, pulled him through, and this week he was released from hospital at Hamilton — by train. "I am," he said, "going to make a fresh start in life and enjoy it as much as I can."

There were no expression of regret from William Murray. He did not bemoan his losses and hurts. When he was trapped in the wreckage that Christmas night he merely wondered to himself whether he would die through loss of blood, be burned up, scalded to death or freeze to death. He accepted his situation philosophically when facing death as he now accepts it when about to make a new start in life.

William Murray sets a marvellous example to all of us. He has suffered misfortunes that would break the spirit of most people. But he has no regrets; he is looking on the bright side, resolved to make the best of things. Why cannot we all do that? The past is past. There is no use indulging in self-pity, in recriminations, in blame. Accept things as they are because it does no good to dwell upon them in one's mind or to other people. Look on the bright side and go ahead to a fresh start, resolved to make the most of changed circumstances.

Engine

Sanctuary
Of an iron god
Impersonal, unknowing;
Transforming rectlinear
Motion to rotary.
Riot to precision—
Riot of new generated steam
Panicky in a room of iron—
Disciplining,
Bending from arc to arc
Momentum which would fly at space;

Spinning power,
Taking and giving it
With even beat,
With impetus—
Motion travelling out by a broad belt,
To a little universe of wheels.
Deity in dynamic grandeur,
Turning out gears, crankshafts, governors,
Cams, carburetors and—men.

Never Argue With A Man For He Is Always Wrong

England's oldest married couple, Mr. and Mrs. William Walker, are 91 and 95 respectively, and have been happy though married for 72 years.

Since the report of their marital philosophy quotes only Mrs. Walker, an inkling of the secret of their wedded bliss may be hinted at. She does the talking. She has taken pains to feed her husband well, look after his clothes and give him as much freedom "as was good for him." Never argue with a man, she advises, for he is always wrong.

National Theatre Mooted For Canada

TORONTO.—Eventual creation of a national theatre in Canada, maintained by the government, is seen by Mrs. Nancy Pyper, director of Hart House theatre who believes that groups such as the playwrights' Studio groop in Toronto will be responsible for the demand for a nationally owned theatre.

"If we are going to have a national theatre—and it is inevitable that we shall — the only way to achieve it is by encouraging groups such as this," said Mrs. Pyper. "The Playwrights' Studio group is grand. They are all so sincere, so interested. They discuss the theatre and drama, and they don't merely skim over the surface. They really get right into it and work hard."

The Playwrights' Studio group was started four years ago by Edgar Stone, then director of Hart House theatre, as a group writing Canadian plays. Since then it has done 28 one-act plays, varying from heavy drama to light comedy.

On The Scotch Again

Sandy joined a golf club and was told by the professional that if his name was on his golf balls and they were lost, they would be returned to him when found.

"Good," said the Scot. "Put my name on this ball."

The "pro" did so.

"Would you also put 'M. D.' after it?" requested the new member. "I am a doctor."

The "pro" obliged.

"There's just one more thing," went on the Scot. "Can ye squeeze "Hours 10 to 3" on as well?"

Illegible Signatures

If there is one petty annoyance more than another in the ordinary office humdrum, it is to get a letter or document with somebody's signature attached, which nobody in the office is able to decipher. If the person in question has a title, occupying some position in a company of organization, it is possible to address him in that capacity, but that does not solve the question of the name of the man to whom an answer must be sent.

Where there is no official position, driven to a last resort, clipping off the signature and pasting it on the answering letter may be one way out, but it simply shifts the burden on the post office, and in any event is an abominable waste of time and patience.

While appreciating the artistic ingenuity of devising a signature which is hard to copy, for perfectly obvious reasons, legibility should not be sacrificed in the process.

Whatever else a man may write, he at least ought to be able to write his own name so that it can be read, and if this is not possible, as is the case with some of these glorious hieroglyphics which suffice for a signature then, in fairness to the man who has to read it at the other end, it might, at least, be typed below the apotheosis of his name. —Halifax Chronicle.

The Paper Boy

Of all the rat-tats folks are happy to hear,
A knock ever welcome through all the long year,
I guess there is none that occasions more joy
Than that of the Newspaper Carrier Boy.

Well may he oft laugh at the jealous ado,
Begot of his presence—each one trying to
Be first at the paper to cast a glad eye,
All blessing, meanwhile, the smart Carrier Boy.

Oh, who would not gladly this time of the year
Do all they can his young heart to cheer?
No one can value his efforts too high
Or welcome too kindly the Carrier Boy.

Methinks I hear others agreeing?
That's right—You shall see him real soon,
And then all shall have a chance
To put "Cheer" in the hand of the Carrier Boy.

—Janet Forrest, Ottawa.

GAY AND DASHING

A lovely little peplum dress styled as simply as can be — with subtle touch that gives it distinction.

It's so wearable and flattering in brown novelty weave crepe silk with bright accent in light blue crepe collar and cuffs and brown silk braid trim.

Velvet, woolen and velveteen are other nice suggestions for this simple to sew model.

Style No. 2840 is designed for sizes 11, 13, 15, 17 and 19 years. Size 19 requires 3⅞ yards of 39-inch material with ⅝ yard of 35-inch contrasting for main view.

HOW TO ORDER PATTERNS

Write your name and address plainly, giving number and size of pattern wanted. Enclose 15c in stamps or coin (coin preferred); wrap it carefully, and address your order to Wilson Pattern Service, 73 West Adelaide Street, Toronto.

HAVE YOU HEARD

Every time you give the other fellow a boost, it is a hitch ahead for you.

Neighbor—Have you got a bottle opener?

Parent—Yes, but he is away at college.

The actor was boring his listener badly:

Actor—Ah, my boy, when I played Hamlet the audience took twenty minutes to leave the theater.

Listener—Really! Was he lame or something?

It is announced that ears are growing larger. But that doesn't mean that anybody is going to listen any more attentively to all you say.

Harold—Did you hear the big news?

Gerald—Spill it!

Harold—My dog visited a flea circus and stole the show.

A lot of folks keep their radio on every minute of the day. They perhaps can't get over the notion that it will finally "say something."

Barber—Haven't I shaved you before, sir?

Customer—No, those scars are from the war.

Ham (mournfully, as he leaned out of the window of the Ark)—This is tough luck.

Shem—What's the kick now?

Ham—Why, we've got all this water around us to fish in, and only two fish worms on board.

A smart man is one who never makes the same mistake twice, but a smarter one is he who never makes it the first time.

Sweet Young Thing (at the music counter)—Have you: 'Kissed Me in the Moonlight?'

Abashed Clerk—Er—it must have been the man at the other counter, I've only been here a week.

Work is the best way to drown worry . . . Work frequently gets us somewhere . . . Worry never, never does.

The last ime Ed Masterford of Brushville went to the city he came back with the news that even a toe-dancer walks on her heels when crossing a muddy street.

Most girls are of the moody type unless the right fellow is along.

Prisoner—Judge, I don't know what to do.

Judge—Why, how's that?

Prisoner—I swore to tell the truth, but every time I try some lawyer objects.

An old-timer is one who is convinced that the people should support the government, and not the government support the people.

Mrs. Smathers took a great interest in the doings of her neighbors. It was a great day for her when a new arrival came to the house next door, and she watched with interest as furniture was carried into the house.

Husband—What did you find out about the social standing of the folks across the street?

Mrs. Smathers—They're not much. They have no automobile or radio or even a grand piano. I can't imagine what they have got.

Husband—Perhaps they have a bank account.

SEVEN YEARS' AGONY ENDED BY SASKASAL

First Bottle Brought Relief from Painful Rheumatism

Read this letter: "I had rheumatism for seven years and never left me night or day, pains something awful. I tried everything I could get, but nothing did me any good till I got Saskasal. I had not started to take it a week till I was a lot better, and am getting better all the time, and have not finished the first bottle. I can go to bed and don't have any pain like I had before I took Saskasal. I will sure recommend it to anyone that has rheumatism."

If you suffer from rheumatism, lumbago or sciatica start taking Saskasal Mineral Salts now. At all druggists—enough for 10 weeks' treatment 69c. 11

Union Stock Yards, West Toronto

Watering Cows

There are more than eight gallons of water in each 100 pounds of milk. Then the body gives off moisture in addition to the other needs. It requires nearly seven pounds of water for each quart of milk which a cow produces.

This must come from the feed or the water trough. During the Winter season a large part of the ration consumed is dry roughage. This necessitates the drinking of larger amounts of water than if pasture were a part of the dairy feed. When the water consumed is insufficient the effect is not long in reaching the milk pail.

Watering the milk herd once daily is not often enough. Such a practice forces the cow to consume five, eight or perhaps ten gallons at one time. Although the stomach of the cow is larger than that of any other of our farm animals, taking this large quantity of liquid into the stomach at one time tends to interfere with the digestion of the feed. This is especially true if the temperature of the water is near the freezing point.

Cattle in Great Britain total 6,538,600 head, a decrease of 1.8 per cent compared with 1934. Canada's cattle number 8,951,900 of which 3,864,200 are milch cows. Canada has 3,421,100 sheep, while Great Britain has 16,470,700; Canada's swine population is 3,654,000 while Great Britain's is 3,811,700, an advance of 14.8 per cent over any other year.

Cruelty To Show Horses

A reader of The Journal sends us an article, from a source that is not stated, denouncing the practice of "mutilating" the show horse "by setting up his tail in about as unnatural a position as man's foolish brain could devise."

According to this article a horse so treated has to endure a surgical operation, sometimes several of them. The muscles that control the movement of the tail are cut, and the tail is bound into an unnatural position until it heals. Unless it is perfectly straight it must be broken again and the process repeated. The practice is called "inhuman and barbarous," and our correspondent declares those who submit horses to such cruelties are no better than savages.

Asked by The Journal for an opinion on the matter, a horse-owner who has taken many prizes at shows has this to say:

"The facts are about as stated. In the old days almost every good-looking carriage horse was treated in some such manner, as an arched tail was considered very fine. The controversy is as old as horses and crops up every now and again.

"Today the practice is wholly confined to horses kept for show purposes only, and at that only those horses which appear at the very best shows. Of course, only hackney horses and ponies and a few saddle horses are so treated. The number is not great.

"At the big shows competition among wealthy owners is so keen and appearance counts for so much that they will go almost any length to enhance it. There is no doubt it is a cruel job, and it is one of the reasons why many keen harness and saddle-horse men have gone out of the business. They say it has become too artificial. . . . There are a dozen other practices of grooming and training which are questionable. The old story of win at any cost."

It seems clear there is cruelty involved, and to the layman the remedy would appear easy—the enactment of rules that horses thus "beautified" into artificiality by ways that cause the animals intense pain should not be eligible for prizes.

Latest Slanguage

MINNEAPOLIS.—Joe Collitch — he'll identify himself that way, too —is annoying Websterians again.

Consider today's latest examples of campus jargon at the University of Minnesota:

"Breaking"—Synonym for "necking."

"Smooching"—Co-ed's term for "breaking."

"Spook"—College man otherwise referred to as a "dud."

"Goon"—He's low as can be in intelligence.

"Flatto"—The feminine "goon."

STOPS ITCHING In One Minute

For quick relief from the itching of pimples, blotches, eczema, rashes and other skin eruptions, apply Dr. Dennis' pure, cooling, liquid, antiseptic D. D. D. Prescription. Thirty years' world-wide success. Its gentle oils soothe the irritated and inflamed skin, thus aiding nature itself to heal the disorder. No fuss—no muss. Clear, greaseless and stainless—dries up almost immediately. Stops the most intense itching instantly. Try D. D. D. now. A 35c trial bottle, at drug stores, will prove it—or money back. D. D. D. Prescription is made by the owners of ITALIAN BALM.

Issue No. 2 — '36

A Fine British Plane

A British airliner that for speed, economy and efficiency will outclass any yet built has been practically completed in the works of the Blackburn Company at Brough, Yorks. Minimum performance figures guaranteed from the machine are: Top speed 210 m.p.h.; cruising speed 190 m.p.h.; non-stop range nearly 600 miles; landing speed fifty-eight m.p.h.

The best speed hitherto achieved by a British commercial airplane of low power suitable for regular transport work is 175 m.p.h. But with that top speed only 150 m.p.h. has been possible for economical cruising.

Ten passengers, two pilots and a wireless operator will be carried in the new Blackburn high speed transport. Yet the total horsepower from the two engines will be only about 800.

The famous American Douglas, cruising at about 170 m.p.h. in the service of Royal Dutch Airlines, needs 1,400 horsepower. United Airlines' fast ten-passenger Boeings in America use over 1,000 hosepower for their cruising speed of 184 m.p.h.

The Blackburn may also be used for military purposes, as no machine has yet been built capable of carrying its load on such low horsepower. Petrol will be stored in the cylindrical main spar of the big single wing. This spar means a big saving in weight, and would support the machine in water.

It is unlikely that the 'plane will be seen on the main Empire routes. It is not big enough to carry the volume of passengers and mail contemplated under the government's speed-up program.

But it will be an ideal "feeder" for the main services.—London Daily Mail.

Jean Hersholt Calls Quints "Five Garbos"

Hollywood — The Dionne quintuplets, says Jean Hersholt, are "five Garbos."

The veteran character actor who returned recently from 10 days of movie making with the famous babies at Callander, Ont., was most enthusiastic about the sisters.

"It was like working with five Garbos," he said.

Healthy, strong, intelligent and intelligent and charming were some of the adjectives he used in describing the quintuplets.

What amazed him most, he said, was to see them sleeping out of doors in weather 20 below zero.

Hersholt impersonated Dr. Allan Roy Dafoe, the quintuplets' physician, in the picture, "The Country Doctor."

"Beyond question, Dr. Dafoe is one of the most unusual men I ever met," the actor said. "The miracle he performed, and the universal interest in it, has passed over him without so much as ruffling the surface. He takes the attitude that it was a job and he thanks his God he was able to do it well. Now, all he is interested in is following it through."

"NOT WORTH A CONTINENTAL"

The saying that such a thing is "not worth a Continental" is not profanity, observes The Detroit Free Press.

While the conditions which injected this expression into the American language may have been roundly cursed by their victims, the expression itself is merely historical.

A "Continental" was one of the bills or notes issued by the Continental Congress, without metallic backing.

Without authority to raise revenue by taxation and unable to borrow large sums, the Congress resorted to "printing-press money" to finance the War of Independence.

Altogether 40 emissions of "Continental notes" were made between June, 1775, and November, 1779, totalling $241,525,780.

These notes, which were merely promises to pay, steadily declined in value until in 1781 a silver dollar was worth 100 paper dollars, or "Continentals."

And it was at that ratio of 100 to one that the Government redeemed them under the funding act of 1790.

The value of the supplies and services obtained by the Continental Congress through the issuance of more than $241,000,000 of this flat money has been estimated to have been about $50,000,000 in specie.

With that experience in their history and with "not worth a "Continental" in their minds, a good many Americans are wondering how long the Government in Washington can go on overspending its income before it, too, will have to turn to the printing-presses, with equally disastrous results to public credit and private pocketbooks.

"One of the weaknesses of democracy is that, until it is right up against it, it will never face the truth."—Stanley Badlwin.

"We are so often trapped in the inexorable Bigness that seems necessarily to imply Betterness. But does it?"—Eva Le Gallienne.

Exports Soar

Sales to Empire Lands in November Increase 35 Per Cent. — Britain Leads Way

OTTAWA, Dec 19—An increase of 35 per cent. or more than $12,000,000 was shown in Canada's exports to British Empire countries during November compared with November, 1934, according to a report issued by the Dominion Bureau of Statistics.

TOTAL OF $84,114,990

AT THE same time exports to foreign countries increased by 21 per cent. or more than $6,000,000.

Exports to Empire countries during November amounted to $48,256,475, compared with $35,560,381 in November, 1934, while exports to foreign countries totaled $35,858,515 against $29,564,131. Total exports in November amounted to $84,114,990 against $65,124,512 in November, 1934.

The United Kingdom was the best customer among Empire countries, taking goods to the value of $41,208,464 and increase of $11,136,012 or 73 per cent. over November 1934, while the United States was the high est among foreign countries with $25,598,393, an increase of $5,752,726 or 28 per cent.

OTHER COUNTRIES

A value of exports to other leading Empire countries with last year's figures in brackets; Australia, $2,403,076 ($1,464,839); Newfoundland, $1,085,565 ($740,317); British South Africa, $830,124 ($730,236); New Zealand, $705,435 ($553,777); British West Indies $820,145 ($566,411) Irish Free State $270,764 ($475,671); British India, $207,495 ($349,056); British Guiana, $145,493 ($87,489); Bermuda, $135,602 ($92,336.)

Values to other leading foreign countries with last year's figures in brackets: Japan $2,236,437 ($2,391,685); Belgium $987,670 ($867,791); Netherlands, $819,272 ($595,977); Norway $772,488 ($652,660) France $761,530 ($1,298,562) China $489,395 ($333,657); Argentina $433,168 ($688,915;) Brazil $433,913 ($284,400); Germany, $424,588 ($156,526); Finland, $335,388 ($23,460), Denmark $223,750 ($332,509) Sweden $284,320 ($128,274); Italy, $141,628 ($615,832); Portuguese Africa, $203,843 ($84,614.)

$167,000,000 Value Set On Wheat Crop

Toronto. — Preliminary government estimate of the value of the Canadian wheat crop is nearly $167,000,000 or about $3,000,000 less than last year, it was stated in the weekly grain report of the Canadian Bank of Commerce. The prairie crop accounted for $153,000,000 of the total, $5,500,000 less than in 1934.

Winter wheat conditions in the Unitde States were generally favorable, the report continued, adding that more moisture would be desirable in the southwest. The acreage seeded for the 1936 crop is larger than last season. Harvesting has started in northern Argentina, but will be somewhat later than usual in the south, where useful rains have fallen recently.

Manitoulin's Famed Turkeys

Manitoulin is celebrated for its historic interest, for its beautiful lake and farm scenery, but probably most of all it has taken the lead as being the centre of the first exclusive turkey show ever held in Canada.

Farmers on the island have gone into the business of turkey-raising in an aggressive and commendable way, and the district is steadily gaining prestige in this respect. This development has not come about all at once, however, but is the result of the application of energy and business-like methods. The island has been raising turkeys for more than 20 years, the excellence of the birds having been demonstrated in 1916 by carload shipments to the United States, where markets and consumers were much impressed with their quality.

As a result of the co-operation of the Dominion and Provincial Governments, representatives of which made a study of the turkey-raising conditions on the island, an orderly system of marketing was established and the organization of the present Manitoulin Co-operative Turkey Growers' Association was affected. Since that time practically all the birds have been marketed through this organization, dressed, box-packed and graded according to Federal poultry standards.

The results are indicative of what can be accomplished by co-ordinated effort. Turkeys grown on the island find their way to the tables of thousands of homes, hotels and restaurants, not only in Canada, but in the United States. The Manitoulin bird has acquired a reputation for quality and the farmers make such concerted efforts year by year to improve the standard that continued profitable returns seem assured for those engaged in the industry.

Growing Deaf With Head Noises? Try This.

If you are growing hard of hearing, and fear catarrhal deafness, or if you have roaring, rumbling, hissing noises in your ears, go to your druggist and get 1 oz. of Parmint (double strength) and add to it ¼ pint of hot water and a little sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy, and the mucous stop dropping into the throat. It is easy to take. Anyone who is threatened with catarrhal deafness or who has head noises should give this prescription a trial.

Britain Plans To Reduce Fire Loss

$50,000,000 Damage is Done Every Year; to Change Materials

London. — A far-reaching scheme for cutting down damage done by fire—it amounts to approximately £10,000,000 ($50,000,000) a year—is to be launched in this country.

The plan has the backing of government departments, municipal authorities, the Royal Institute of British Architects, building and engineering experts, and the great tariff insurance companies.

Sensational changes in building materials and methods of construction, and sweeping revision of premium rates for fire risks, are only two of the important outcomes expected from the scheme.

A fire testing station—only one of its kind in the world—has just been completed at Boreham Wood, Elstree.

It is on the work to be carried out here that the hopes of bringing down fire damage by millions of pounds a year are based.

The station has been set up by the Fire Officers' Committee—an organization comprising all the tariff fire insurance companies.

Its most remarkable feature is a building which contains three mobile furnaces, each capable of testing building specimens at temperatures ranging from 1,000 to 2,200 degrees Fahrenheit, and for periods of exposure from half an hour to six hours.

Special machinery working under pressure of up to 4,500 pounds to the square inch, has been provided for applying the necessary "load" to specimen walls and columns while they are being tested.

The increasing financial toll exacted by fires and the development in recent years of new building materials and methods of construction spurred the fire officers' committee to search for a standard method of assessing the fire-resisting qualities of the various elements in the construction of a building—floors, walls, columns, and so on.

A specification for "fire resistance incombustibility, and non-inflammability of building materials and structure" was eventually evolved by the British Standards Institution.

It established five grades, according to the severity of the tests applied.

This specification is known as "No. 476."

There will be two immediate results of this advance in the fight against fire waste; local authorities and others interested in the building side of fire control will be urged to make use of specification "No. 476" in preparing their requirements, and those manufacturers who wish to do so will have their products tested and graded.

"Revolutionary building changes are almost bound to come," said an expert recently.

"Local authorities will hardly be able to avoid stipulating for the standards specified, and manufacturers who do not submit their products for test or whose products fail to reach the standard will be at an obvious disadvantage.

Maple Syrup Evaporators
PRICE LOW — QUALITY HIGH

Makes real high class syrup retaining the maple flavor you like so much. Evaporators that will make profitable your maple bush for a small investment. Write for catalogue of equipment. It is interesting.

70,924 Fly In U.S. In Month

WASHINGTON. — Scheduled air lines operating in continental United States carried 70,924 passengers in October, 1935, according to reports to the Bureau of Air Commerce, Department of Commerce, from the 24 companies operating during that month.

These scheduled air lines flew 5,288,180 miles, carried 488,019 lbs. of express, and flew 28,787,563 passenger miles during October. (A passenger mile is the equivalent of one passenger flown one mile.)

SCRAMBLED SENTENCE CONTEST
The Most Unique Profit-Sharing Prize Contest in History

There are five sentences in the follo wing group of words, find these five sentences, then write them correctly, and legibly.
"Trust men, unless it is. because its blessings—be true to you—we can see—recognize the faults in ourselves—and they will—cursed — When you give —woman friend's achievement—show themselves great—treat them greatly—must gold be censured—it's a very—accused?—in others —cheap friendship —woman is delighted by a—a new baby—and they will—we are to—it is surprising—how slow—which a friend away—no —are abused."
Send your result in on or beforeJanuary 15th, 1936, with an entry fee of twenty-five cents. 10 per cent.of the entire receipts will be shared between those who send in two errors, 15 per cent. with one error, 25 per cent. for a correct list. All entrants will receive the results. The more entries received, the more PROFIT TO SHARE.

GIFF BAKER, 39 LEE AVE., TORONTO

LOCAL AND GENERAL

Mr. A.M. Jarvis spenta few days with friends in Newington.

* * *

Mr. and Mrs. Ansel Tousaw spent last week with Mr. and Mrs. Ivan Casselman of Morrisburg.

* * *

Mr. Matt. Shannette of Ottawa, spent the week-end with his parents, Mr. and Mrs. Alex. Shannette.

* * *

Mr. and Mrs. Frank S. Panabaker are guests of the latter's parents, Mr. and Mrs. W.S. Connolly.

* * *

Mrs. H.D. Pyper and Miss Ruth Pyper returned on Sunday from Kingston, where they had spent ten days.

* * *

Mr. and Mrs. R.G. Fetterly, Mr. and Mrs. W.H. Fetterly and Mr. Lane, left on Thursday to spend several weeks in Toronto.

* * *

Mrs. J.D. McDonald and her son, David, left on Sunday for Brockville, where the latter will receive treatment in St. Vincent de Paul Hospital.

* * *

About twenty hockey fans from Morrisburg, motored to Brockville on Friday last, where they attended the match between Canada's Olympic team and Brockville Magedomas.

* * *

The friends of Mrs. J. M. Whitteker are pleased to know that the operation which she underwent at the Brockville General Hospital on Thursday was successful.

* * *

Miss Ruth Reddick, R.N., left recently for New Toronto, where she has accepted a position on the staff of the Ontario Hospital, after spending a short holiday with her parents here.

* * *

Mr. Hugh Marquette, highly esteemed resident of Mountain, died yesterday morning following a lingering illness. He was 92 years of age and for the past few years had resided at Mountain Station.

* * *

John F. Sherman was in Ogdensburg last week, for the 15th wedding anniversary of Mr. and Mrs. D. Maroney. A dinner was given in their honour by the Parent Teachers Club. Mrs. Maroney is a sister of Mrs. Fred Sherman.

* * *

Miss Ruth Pyper left this morning for Montreal, where she will re-enter the Royal Victoria hospital as nurse-in-training, after spending a few weeks holidays at her home here. Her mother, Mrs. H.D. Pyper, accompanied her, and will spend a few days in the city.

* * *

The price of cows in New York state will be higher this spring, according to Ogdensburg buyers. The demand will be greater, due to the number of milkers taken from herds as a result of the tuberculin test and the prospect is there will be an increase in the value of milk.

* * *

Breaking out at 1.30 Saturday morning fire destroyed a butcher shop, a restaurant and a barber shop in the village of Newington. Starting in the ice house at the rear of Ernest Rombough's butcher shop, the flames had gained much headway before being noticed by W. C. Miller, manager of the Bank of Montreal. Miller sounded the alarm and the ringing of the church bells called the villagers from their beds. The chemical pump, which is kept in Foster's feed store, was brought into action.

* * *

Lieut.-Col. A.C. Casselman, member for Grenville-Dundas, has been appointed Conservative whip in the House of Commons at Ottawa. Mr. Casselman was first elected to the House of Commons in 1921, resigning to make way for Right Hon. Arthur Meighen. He was returned in 1925, 1926, 1930 and 1935. Mr. Casselman, who practises law in Prescott, Ont., succeeds Thomas E. Simpson, member for Algoma West, who resigned before the last general election to accept a government appointment.

* * *

Dr. Robt. C. Robinson, 58, prominent Calgary physician, died in a hospital there Saturday, following a lengthy illness. Born in Winchester, he taught school in Ontario at Keewatin and Prescott, before entering McGill. He practised medicine in Wetaskiwin, Alta., for two years, before moving to Calgary. Survivors include a sister, Mrs. N. Robinson of Ottawa, and three brothers, Thomas and Charlie of Moosejaw Sask., and Joseph, of Winchester.

* * *

A pretty wedding took place on Thursday, Dec. 26th, in St. Anne's Church, Dixon's Corners, when Mary Violet Beatrice, daughter of John Gilligan of Summerstown, became the bride of Simon Bernard Lionel, son of Mr. and Mrs. Samuel Hutt, of Brinston, Ont. The ceremony was performed by Rev. Father O'Donnell. They were given in marriage by Mr. and Mrs. Hutt, After the ceremony, breakfast was serv de at the home of the groom.

NOTICE

The January Session of the Council of the Municipal Corporation of the United Counties of Stormont, Dundas and Glengarry will meet in the Council Chambers, Court House, Cornwall, on Tuesday, the 28th day of January, A.D. 1936, at 2.00 o'clock p.m., pursuant to Statute.

A.K. MacMILLAN,
County Clerk.

County Buildings, Cornwall, Ont.

It came only 29 hours before the hour of the execution.

* * *

Mrs. Hugh Wilson and son Hugh, have returned to Valleyfield, after spending some time with Mrs. Wm. Allison and family.

* * *

Miss Helen Merkley has returned to her home from Toronto where she spent a couple of weeks.

* * *

Mrs. Harvey Barkley, of Morrisburg, is spending this week with her parents, Mr. and Mrs. George Earle, Winchester.

* * *

An assize court jury late yesterday acquitted Alwynne Thompson of Toronto of the "lilac bush" murder of his wife, and Thompson was free for the first time since July 20 1934

* * *

Bruno Richard Hauptmann, convicted Lindbergh baby killer, was saved temporarily from the electric chair late yesterday by a 30 day repreive from Governor Hoffman.

"I am granting a reprieve," the governor said, "for divers reasons, which I do not care to disclose at this time."

The reprieve, though only for 30 days, actually assures Hauptmann of at least eight more weeks of life and perhaps three months due to the fact that it will be necessary to resentence him.

* * *

At St. Vincent de Paul hospital, Brockville, on Wednesday, it was stated the condition of Mrs. Minnie Merkley of Williamsburg, who was badly injured on Saturday, January 4th in a motor accident on King's highway No. 31 was "fair." Mrs. Polly Best, of Athens, struck by a car opposite her home in Athens during the evening of November 27 last, was reported improving splendidly.

* * *

Holding the opinion that William John McCart, Toronto, wholesale fruit merchant, whose body was found in the St Lawrence River near Cornwall on June 3, 1933, took his own life, Mr. Justice McEvoy by a judgment delivered at Osgoode Hall, Toronto, dismissed an action in which Wilmina McCart, Howard William, David McCart, George Arthur Sturgess McCart and James Donald McCart, executors of William John McCart's will, sought to recover a total of $12,500 under two accident insurance policies.

* * *

Mother Mary of the Cross, for many years a member of the nursing staff of St Vincent de Paul hospital, Brockville, and eventually its Superior, passed away at the House of Providence, Kingston, on Friday, after an illness of several months. Since her transfer from Brockville to Kingston some years ago, she had been general assistant of the Sisters of Providence to which she had belonged for 39 years.

ACKNOWLEDGMENT

"Morrisburg, Ont., Jan. 15|36
"The Leader Publishing Co.,
"Morrisburg,
"Ont.

"Dear Sirs:

"At the annual meeting of the Vestry of St. James' Church, Morrisburg, the following resolution was passed:

" 'Moved by L.L. Smith and seconded by D.H. Weir, that a hearty vote of thanks be tendered the Leader Publishing Co. for their kindness in publishing the services of the Church and other church notices, and that a copy of this resolution be forwarded to The Leader.'

"Yours truly,

"C.A. BURRIS,

"Vestry Clerk."

"YOUR BANK AND HOW YOU MAY USE IT"

There is much about bank methods and practices that is a mystery to the ordinary man and woman. They knew about savings accounts and cheques, but they know little about numerous other services that the banks are prepared to give them.

To enlighten the public on the subject, the Bank of Montreal has just issued a new edition of its booklet entitled "Your Bank and How You May Use It." Prepared "for the purpose of setting forth the many ways in which the bank can serve the individual", this booklet is really a most valuable manual on Canadian banking.

One of the suprises it provides for the reader is the extraordinary range of services which the bank offers to the public. Something like a score of these services is listed, and not only is each service explained in language that is easily understood, but the correct methods of procedure are also described.

In the latter connection, the booklet is illustrated by reproductions of various bank forms correctly filled out, and such points as the difference between "Order" and "Bearer" cheques are explained and illustrated.

Among the subjects dealt with is that of borrowing money from the bank—a subject that is of timely interest and of particular importance. The booklet may be had for the asking at any branch of the Bank of Montreal.

FORMER MOREWOOD BOY DIED IN NORTH COUNTRY

Reginald W. Countryman, who died at South Porsupine Saturday after a brief illness, was buried at Morewood Monday afternoon from the United church with many friends and relatives joining in a final tribute.

Mr. Countryman was the son of the late Mr. and Mrs. Ezra Countryman, and was born in the vicinity of Morewood. He received his education in the Morewood High School, prior to going to South Porcupine where he lived for the past thirteen years. In his 32nd year his sudden passing is mourned by a wide circle of friends in the vicinity of his home town. A service was held at Porcupine on Sunday, and the body brought to Morewood.

The service was conducted by Rev Dr. A O. Thomson of the Presbyterian church, due to the illness of the pastor, Rev. G. H. Smith, and Mrs. Smith presided at the organ.

Chief mourners were two sisters, Mrs. D. Witt Forbes, Massena, N.Y. Mrs. Stuart Storing, Tamworth, Ont. two brothers J. C. Countryman, Saskatoon; Gordon C. of South Porcupine.

Many beautiful floral tributes were received by the bereaved family.

Interment was made in the family plot at the Morewood Cemetery, the service also being conducted by Rev. Dr. Thomas.

TREMBLAY COMMITTED ON MURDER CHARGE

Arthur Tremblay, 29-year-old carpenter, was committed for trial on a murder charge, when he appeared before Magistrate Raoul Labrosse of Vankleek Hill, at Cornwall, on Friday afternoon last.

Only 10 of the 16 witnesses called testified, and the evidence was considered sufficient for a committal. Tremblay, who sat quietly during the entire hearing, retained the stoic calm which has marked his conduct since his arrest on Aug. 31 last, following the brutal murder of Rene Tessier, 34, Cornwall railway worker, in Tremblay's small home on the northern outskirts of Cornwall.

A highlight of Friday's hearing was evidence of Provincial Constable W.J. Franks, who told of a conversation he stated he overheard between Tremblay and his father the day after Tremblay had been arrested.

"Tell me everything that happened yesterday, or do you remember?" Constable Franks quoted the father asking the son through the bars of the cell in the City Hall.

"Yes, I remember everythign," the accused was said to reply. "I got so excited when I went in there and found the body, I tried to throw myself under the train, but missed". In a statement to police, Tremblay was reported to have said: "I have made a big mistake. I should have gone to you instead of running away."

Tremblay will likely be given trial at the Spring Assizes, to be held in Cornwall the latter part of February. His committal makes him the third person to be tried for murder in Cornwall in the spring. The other two are Clarence Cameron and Mrs. Viney Belle Volvey, who are jointly charged with the murder of the woman's husband last April.

CARD OF THANKS

Mr. and Mrs. Aden Casselman and family wish to extend sincere thanks to their neighbours and other friends for kindness and sympathy during their recent bereavement.

CARD OF THANKS

Mr. and Mrs. Samuel Schwerdtfeger take this means of thanking the many friends for their kindnesses, expressions and letters of sympathy, for the beautiful floral tributes and those who loaned cars, during their recent bereavement.

HOCKEY HOT SHOTS

The four town league teams will get into action again on Wednesday this week. The Black Hawks meet Maple Leafs in the opener, and the Maroons will tackle the M.C.I. in the second game. The Leafs have yet to be beaten, and are the only team in the league which can claim this distinction. The Hawks, having set back Maroons in neat fashion, intend to show that this victory was no mere flash in the pan. The M.C.I and the Maroons having both been beaten in their last start, can be depended on to put up a thrilling struggle.

* * *

Unless the attendance at the town league games improves, the schedule will have to be discontinued. A fine brand of hockey is being played by every team in the league. The admission price surely is not beyond the reach of any hockey fan. Why not turn out to the games Wednesday night? Admission, 10c.

* * *

Aurel Joliat, mighty mite of Montreal Canadiens, has set a torrid pace in the past week for aspirants to his throne. In Toronto last Saturday, he scored a goal against the Maple Leafs, as well as counting against his own team. After the long hop to Chicago, he counted twice, as the Flying Frenchmen handed the Hawks a 2-1 setback. Tuesday against Americans, he scored the only goal of the game, and last night (Thursday) against Americans at Montreal, altho' the Canucks got shellacked 8-3, Joliat got two goals and assisted in the third.

* * *

New York Rangers "settled" their most persistent holdout trouble on Wednesday, when they traded Earl "Si" Seibert to Chicago Black Hawks for Art Coulter. No cash was involved in the deal. Both are better than average defensemen, altho' Seibert may be the faster breaker of the two.

* * *

In the N.H.L. game in Boston Tuesday night, when the Bruins tripped up the Leafs 4-1, Tiny Thompson, Bruin goalie, set an N.H.L. record by getting an assist on Babe Seibert's goal. The Leafs were ganging Thompson at the time, when he slipped a forward to the Brawny Babe, who raced in and beat Hainsworth easily. According to a despatch from Boston, Tiny earned another assist, but did not get credit for it. He passed to Eddie Shore, who in turn passed to Seibert, who again beat Hainsworth.

* * *

TOWN LEAGUE STANDING

	P	W	L	T	F	A	Pts
Maple Leafs	3	1	0	2	7	4	4
Black Hawks	3	1	1	1	8	10	3
M.C.I.	3	1	1	1	5	5	3
Maroons	3	0	1	2	7	8	2

BLACK HAWKS BLACKEN RECORD OF MIGHTY MAROONS

MAPLE LEAFS SWAMP GRADS

A disputed goal, which, it was claimed, was scored while a man was in the crease, gave the Black Hawks a 5-4 victory over the Maroons, in the first game in the Town Hockey League doubleheader on Tuesday night. According to the goal judge, Maroons' substitute goalie, John O'Malley, knocked the puck into the net in attempting to smother it. Basil Millward got credit for the goal, with Floyd Fetterly taking an assist.

Point-scorers were as follows: Hawks—Locke (Snyder); Snyder; Millward; Millward (Fetterly); Weegar (Snyder). Maroons—Tuttle Smith; L. Laurin (H. Smith); C. Reid (L. Laurin).

The Hawks took three penalties, to one for the Maroons. Snyder took two, Chas. Weegar and Jits Smith one each. Jim McIntyre, Maroon winger, suffered a cut chin when he fell to the ice.

This was the first defeat for the Maroons, and by virtue of the win, the Hawks hurdled over the Maroons to second place, where they are tied with M.C.I.

In the second game, the Maple Leafs flattended the High School team 3-0. Howie Eamon paced the Leafs with two goals, Dillabough getting the other. Penalties in this game were evenly divided. Weir - 2, Casselman 2 and Herb. Coons a major, were the M.C.I. men who spent time on the bench. McIntyre was the bad man of the piece, with 4 penalties, while Paul Smith and Dillabough got one each.

Alf Gamble refereed the first game, and Gord Smith and Hermy Smith handled the second. The attendance Tuesday night was nothing for a sports promoter to delight in, but was fairly good, considering the cold weather. Get behind your team at the next game, and help them to victory.

WILLIAMSBURG DEFEATS WINCHESTER H. S., 1-0

In the Monday night game in the Winchester town league, Williamsburg hockey team defeated Winchester High School 1-0, in one of the closest games played in the arena at Winchester this season. Curt Marcellus scored the lone counter four minutes after the start of the final period, to give the visitors their margin of victory.

The line-up:

Williamsburg: Goal, L. Sschell; defence, V. Schell and C. Marcellus; center, M. Barkley; wings, R. Casselman and J. Sutton; alternates, K. Schell, S. Barkley, A. Soucie and W. Marcellus.

High School: Goal, Workman; defence, Boyd and Quart; center, Elliott; wings, Robertson and Dixon; alternates, Summers, Slater and McKendry.

Referee: William Carnker.

M-W SAILOR BASKETBALL TEAMS LEAD LEAGUE

On Saturday night last, Morrisburg Ferry Sailors came from behind to defeat Ranger Seconds in the feature game of the Ottawa City Basketball League program at the Y.M.C.A., 23-18. The game was one of the best of the season, with the Sailors duplicating the stirring second-half rally which carried them to victory over the Seconds in the first meeting between the teams.

On Monday night, Waddington Ferry Sailors consolidated their hold on the Section "B" leadership of the League, when they defeated Ottawa Boys' Club 25-12.

LEAGUE STANDING
