The Morrisburg Leader

LXXVII No. 40. MORRISBURG, ONTARIO, FRIDAY, OCTOBER 11th. 1940. 1.50 PER YEAR.

NOTICE

The October Session of the Council of the Municipal Corporation of the United Counties of Stormont, Dundas and Glengarry will meet in the Council Chambers, County Buildings, Cornwall, on Monday the 21st day of October, A.D., 1940, at 2 o'clock p.m., D. S. T., pursuant to adjournment from June Session.

A. K. MacMILLAN,
County Clerk.
COUNTY BUILDINGS,
Cornwall, Ontario. 40-41-c

GETS LATE BERRIES

Mr. Sam Canning of Mariatown, had the pleasant experience on Friday last, of picking a quantity of fresh ripe strawberries from his garden. This is considered unusual for this time of year. The berries were not of the everbearing type, which yield until the frost, but were of the ordinary summer type, and were of excellent size and flavor. Since Friday last, Mr. Canning's berry plants have been continuing to yield a small quantity of fresh berries daily.

CAMEO HIGHLIGHTS

A picture no one should miss is "MY FAVORITE WIFE" coming for three nights starting October 24. With Irene Dunne and Cary Grant and a cast of veteran players, it is one of the most delightful comedy-dramas of the current season.

On Oct. 31—November 1, 2, we will be playing "FLOWING GOLD" in place of "THEY DRIVE BY NIGHT" previously announced for these dates and which will be shown in our Nov.-Dec. line up. The stars of "FLOWING GOLD" are Pat O'Brien, John Garfield and Frances Farmer. An action picture and a good one.

We know you will be pleased with our line-up of pictures for November, everyone of which is an outstanding offering, starting with "MY SON, MY SON" on Nov. 4-5-6, a marvelous screen presentation of the best seller of last year's books, starring Madeleine Carroll and Brian Aherne—a great picture.

Immediately following, Nov. 7-8-9, we will have WALT RISNEY'S FESTIVIAL SHOW consisting of "SNOW WHITE AND THE SEVEN DWARFS and four of Disney's most outstanding short subjects, "FERDINAND, THE BULL' 'THE PRACTICAL PIG' 'DONALD'S LUCKY DAY' and 'THE UGLY DUCKLING.' Anyone who misses this show will regret it.

To be followed by "ABE LINCOLN IN ILLINOIS, with Raymond Massey, and a number of others, making a solid month of big ones.

Presbyterial Meeting

The Eastern Section of the Dundas Grenville Presbyterial of the Women's Missionary Society of the United Church of Canada held its annual sectional meeting in Morewood on Wednesday, October 9th with Mrs. W. N. Fulton, of Chesterville presiding. The theme for the day was "Loyalty to Christ in time of War", the morning worship service taken by members of the Morrisburg Auxiliary being under the heading, "The place of Prayer in time of War."

The delegates were warmly welcomed by Mrs. A. B. McConnell, to which Mrs. L. Deering of Chesterville replied.

The Presbyterial president, Mrs. E. E. McKendry, of Kemptville gave a splendid address, exhorting the members to be of good cheer even in such troublous times as these, for right must ultimately prevail. Our faithfulness and loyalty to Christ must be vital factors in our lives today, for this is a time to advance just as the early Christian Church advanced through times of chaos and upheaval.

Mrs. W. S. Atchison, Winchester speaking on missions said that to obey Christ's command "Go ye into all the world and preach the Gospel to every creature" in war time, to lay the foundation for peace.

Mrs. Fulton contributed a pleasing solo, after which Mrs. Durham Wells, Colquhoun, spoke briefly on temperance, and a resolution signed by all the members was forwarded to the Prime Minister urging him to accede to the wish of the Temperance delegation in eliminating the sale of beer and wine in beverage rooms and army canteens, and shortening the hours of sale in the Government Liquor stores.

Following a delicious dinner served by the Morewood Auxiliary the afternoon session opened with the singing of the National Anthem and a devotional period taken by the Winchester auxiliary on the theme "Service to Christ in Time of War."

Mrs. W. S. L. Merrill, Morrisburg, gave an inspiring message on Christian Stewardship, stating that the duties of stewardship are giving of one's self, one's talents, influence, time, and possessions.

The roll call revealed that about 80 ladies were present, representing eight auxiliaries in the section.

Mrs. R. S. Smith and Mrs. Barclay of Elma rendered a duet, following which four phases of our W. M. S. work in Canada, namely Community, Oriental, Indian and Boarding School work were discussed by Mrs. E. C. Lacey, Mrs. Cecil McIntosh, Mrs. L. Doering, and Mrs. J. A. Payton.

Mrs. A. B. Allison, Winchester, then conducted an interesting questiongive on the September issue of the Missionary Monthly.

Mrs. Hawkshaw of Williamsburg reported for the courtesy committee, and the Winchester Springs Auxiliary extended an invitation for the Sectional meeting to be held with them in 1941.

A few closing thoughts by Mrs. R. R. Nicholson of Kemptville brought a very worth-while day to a close.

M. P. S. Report

Number enrolled, 219.
Average daily attendance, 210.
Percentage attendance, 96.7.
Twenty-three pupils entered school for the first time, September 11.

Gamble-Crowe

The marriage of Helen Irene, daughter of Captain and Mrs. H. J. Crowe, of Cornwall, to Alfred James Gamble, of Massena, N.Y., son of Mr and Mrs. Alfred Gamble, of Morrisburg, took place at the home of the bride's parents, West Front, on Saturday afternoon at 3.30 o'clock. The ceremony was performed by Rev. G. S. Lloyd, M.A., minister of St. John's Presbyterian Church. The home was decorated for the occasion with autumn flowers. The wedding music was played by Mrs. Leslie Upper, accompanied on the violin by Carson Larose, of Montreal. During the signing of the register they played Rubenstein's "Melody in 'F'."

Given in marriage by her father, the bride wore a dress of navy and white, with accessories in navy. She carried a bouquet of Briarcliff roses. Her bridesmaid, Miss Eleanor Sproule wore a dress of wine color trimmed with turquoise, and accessories in black. She wore a corsage of Talisman roses.

Allan Pemberton, of Massena, was best man for Mr. Gamble.

A reception was held at the bride's home, Mr. and Mrs. Gamble leaving later on their wedding trip to Syracuse, N.Y. The bride travelled in a gray dress, with deep powder blue coat trimmed with gray fur, and wore gray accessories. On their return they will reside in Massena.

Among the out-of-town guests were Mr. and Mrs. Alfred Gamble, parents of the groom, and grandmother, Mrs. Gamble, Sr., of Morrisburg; Mr. and Mrs. Leonard Crowe, Mr. and Mrs. Lloyd Crowe, Mrs. Roy Nichol, GF. Nichol, and Miss Rita Moir, all of Ottawa; Mrs. Jack Humphries, Oshawa; Mr. and Mrs. Carson Larose and Harold, Montreal; Mrs. Arthur Gray, Timmins; Private Dick Crowe, C.A.S.E., Kingston; Lieut.-Colonel R Larose, Ottawa; Major W. Chambers, Pembroke; Mrs. R. Hills, Montreal; Mr. and Mrs. Wm. Peonert and Miss Nessie Peinert, Fisher Smith, Allan Pemberton, all of Massena.

. . BRIEFS . .

The Cotdwell Linen Mills, Limited, Iroquois have been awarded a contract for goods to the value of $13,000 by the Department of Munitions and Supply at Ottawa.

SUNDAY SCHOOL LESSON

LESSON II
THE BOYHOOD OF JESUS.—Luke 2.

PRINTED TEXT, Luke 2: 40-52.

GOLDEN TEXT.—And Jesus advanced in wisdom and stature, and in favor with God and men. Luke 2: 52.

THE LESSON IN ITS SETTING

Time.—Our Lord was born probably in the winter of 4 to 5 B.C.; the visit to the temple at Jerusalem when Jesus was twelve years old took place in April, A.D. 8.

Place.—The events recorded in verses 1 to 20 took place in Bethlehem; those recorded in verses 22 to 38 took place in Jerusalem, as did also the events recorded in verses 41 to 50; the life of Christ at Nazareth is referred to in verses 39, 40, 51, 52.

Nazareth, a town in Galilee, the home of Joseph and Mary for about thirty years became the place where Jesus spent practically all of his life up to the time of his baptism, and thus gave him the frequently used title "Jesus of Nazareth."

Luke 2: 4. And the child grew, and waxed strong, filled with wisdom: and the grace of God was upon him.

Visit to the Temple

41. And his parents went every year to Jerusalem at the feast of the passover. 42. And when he was twelve years old, they went up after the custom of the feast. The law of Moses commanded all male Jews to attend at Jerusalem at the three feasts of passover, pentecost, and tabernacles; but this custom had long fallen into abeyance, and it was a mark of devout living to go up once a year. The narrative brings out the piety of Joseph and Mary. On a son's thirteenth birthday the father brought the boy to the synagogue on the "Sabbath of Phylacteries" and presented him with phylacteries, which the son thenceforth wore at the recital of his daily prayer. The boy then became a visible member of the Jewish Church, and was called "a son of the law." Jesus had formerly seen his parents go yearly to Jerusalem, leaving him at home; now he went up with them for the first time. It was his first communion season.

We know that our Lord in his boyhood had never attended the schools of the rabbis (Mark 6: 2; John 6: 42) and therefore his later teaching was absolutely original. We know that he had learned to write (John 8: 6). We know that he was acquainted not only with Aramaic, but with Hebrew, Greek, and perhaps Latin; and that he had been deeply impressed by the lessons of nature.

43. And when they had fulfilled the days, as they were returning, the boy Jesus tarried behind in Jerusalem; and his parents knew it not; 44, but suppose him to be in the company, they went a day's journey; and they sought for him among their kinsfolk and acquaintance: 45. and when they found him not, they returned to Jerusalem, seeking for him. 46. And it came to pass, after three days they found him in the temple, Sitting in the midst of the teachers, both hearing them, and asking them questions: 47. and all that heard him were amazed at his understanding and his answers. These were ordinary rabbis ready to teach at any time. They sat cross-legged on the floor like their pupils. The teaching took place in one of the many temple halls open to all and used for this purpose. It is the worst mistake of all to entitle the scene "Jesus Teaching in the Temple." Luke says not one word about his teaching. He listened, and asked respectful questions. Jesus here is a well-trained boy, who knows his place and acts with respect toward these rabbis. But even so, all who were listening were in amazement again and again at the understanding with which his mind grasped their combined thoughts, and with which he replied to the questions addressed to him, revealing his inner grasp of the truth.

48. And when they saw him, they were astonished; and his mother said unto him, Son, why hast thou thus dealt with us? behold, thy father and I sought thee sorrowing. 49. And he said unto them, How is it that ye sought me? knew yet not that I must be in my Father's house? 50. And they understood not the saying which he spake unto them. These words of the boy Jesus are the first words of which we have knowledge that passed the lips of our Lord.

51. And he went down with them, and came to Nazareth; and he was subject unto them; and his mother kept all these sayings in her heart. From this moment Jesus possesses within him this ideal of life entirely devoted to the kingdom of God. Now for the next eighteen years he applied himself in silence to the business of his earthly father at Nazareth, where he was called "the carpenter." 52. And Jesus advanced in wisdom and stature and in favor with God and men.

Farm Notes . . .

Bacon for Britain Grown at a Profit

Only healthy, vigorous litters grow into prime bacon, the kind that Britain expects of Canada and proves most profitable to the producer. The "runt" seldom repays the cost of raising it and never becomes a "select". Symptoms of diseases common to young pigs are hairlessness, rickets and anaemia. Prevention starts with the brood sow whose ration throughout the year should contain a well balanced mineral supplement providing calcium and phosphorus against rickets and nutritional disorders, iron against anaemia and iodine against hairlessness. To withhold the mineral supplement until the sow farrows is folly. These minerals are not

RADIO REPORTER

By DAVE ROBBINS

135-YEAR-OLD PRAYER

The other midnight we were turning the dial when we heard a voice praying, speaking words that seemed particularly appropriate at this time, and we listened — then we were surprised to hear that the prayer for the British fleet and for all Europe had been written by a great English leader one hundred and thirty-five years ago.

These are the words we heard—

May the great God whom I worship grant to my country, and for the benefit of Europe in general, a great and glorious victory: and may no misconduct in anyone tarnish it; and may humanity after victory be the predominant feature in the British fleet! For myself individually, I commit my life to Him that made me; and may His blessing alight on my endeavours for serving my country faithfully. To Him I resign myself and the just cause which is entrusted to me to defend. Amen, Amen, Amen. This simple prayer for Admiral Lord Nelson was written by him in his diary on the eve of the battle of Trafalgar, October 21st, 1805, and because of its fitting thought for these dark days CKOC closes its day each midnight with Nelson's prayer.

"THE TOWN CRIER"

The small towns of Ontario again go on the air over CKOC, Hamilton, every Friday night, starting October 18th, at 7.30 p.m. Standard Time (8.30 Daylight) . . . Each week a different community in the province is to be featured, a brief outline of its history given together with a review of recent events taken from the local newspaper presented before the mike. . . . Listen in and hear your home town become famous!

NOTES AND NEWS

First casualty of the war among radio reporters is John Steele, the Mutual chain's London man. Steele was hit by bomb splinters recently as he was walking out of the BBC studios during a heavy air-raid. The injuries were not serious however, and John is back on the job.

And by the way folks, remember all CBC network shows and all the principal radio stations in Canada are operating on daylight saving time — that is, the programs are all one hour AHEAD of standard time.

Eddie Cantor is back on the air lanes every Wednesday evening at nine o'clock (standard time) with a line-up of stars that should really have a good show to offer. Dinah Shore, one of the most popular singers on the air, Harry Von Zell, Bobby Sherwood and his band, and Nan Rae and Maude Davis, the best team of "Fem" comics in the business, are all in Eddie's new program. It's on the NBC red network.

Recordmended: The boys have chizzled in on another classic. It's "Shades of Twilight" which really is from Rimsky Korsakoff's "Scheherazade"S suite. You'll likely be hearing it . . . We liked the Merry Mac's waxing of the oldie "I get the Blues When it Rains." . . . Alec Templeton's recording of "Body and Soul" with "Mary Had a little Lamb" amused us muchly. Of course, we're a sucker for Templeton anahoo.

Gratitude

Give thanks, good people of the land,

afety Pointers or Pedestrians

Ten Rules Are Laid Down For Guidance, By Industrial Accident Protection Association

An illustrated poster issued by e Industrial Accident Prevenon Associations outlines a "dealogue of safety" designed escially for pedestrians. Here are e ten points it stresses:

CROSS ONLY AT SIDEALKS — The record in many ties indicates that it is five nes more dangerous to cross the middle of the block than at e corner.

WAIT ON THE SIDEWALK—mpeding the visibility and proess of motor vehicles and risk injury to yourself by standin the street while waiting r an opportunity to cross is olhardy.

CROSS ON THE PROPER GNAL — Traffic lights are for traffic pedestrians as well as otorists. Don't expect the mest to obey them if you aren't ling to do so.

BE SURE THE WAY IS LEAR. — Wait until a closely approaching car has passed, or until the driver has given you the right of way. Never step between two cars in close-parked traffic.

BE DOUBLY ALERT DURING THE FIRST FEW STEPS—Seventy-five percent. fo pedestrians in accidents are hit before reaching the middle of the roadway with absent-mindedness the greatest single cause.

CROSS WITHIN THE CROSSWALK — Seconds and steps saved by skirting the cross-walk or crossing diagonally are not worth the chances you take with your life.

WALK, DON'T RUN — Needless hurry afoot is often as dangerous as needless speed in a car. Don't start across unless you are sure you can make it safely at a walk.

ON RURAL ROADS, WALK FACING TRAFFIC — This enables you to watch oncoming traffic and to step off the pavement and out of the way in an emergency. Two pedestrians are killed walking with traffic for every one killed walking against it.

AFTER DARK, WEAR SOMETHING WHITE — You protect yourself by making certain you will be seen, especially when walking along rural highways at night. Wear a white shirt, shoes or dress — or carry a light, an open handkerchief, or a newspaper.

LOOK TWICE BEFORE CROSSING — And you'll probably live twice as long.

Single Ounce Can Boil 1,000 Tons

Uranium is an element one million times deadlier than dynamite. Scientists tell us that the energy contained in one ounce will boil a thousand tons of water, and they are trying to liberate the energy stored in uranium so that we may have a cheaper form of power than ever before. But pure uranium is so deadly that it has caused the decomposition of nitrogen oxide when exposed to it at a considerable distance. The disintegrating effect upon human tissue is even greater, so all experiments must be conducted with great caution and for safety minute quantities of diluted uranium are used.

THIS CURIOUS WORLD By William Ferguson

ONE recorded instance of osprey thievery ended very disastrously. A farmer, working in the fields, hung his coat on a fence, and sometime later saw it dangling from the talons of an osprey . . . and in the pocket was his watch and chain.

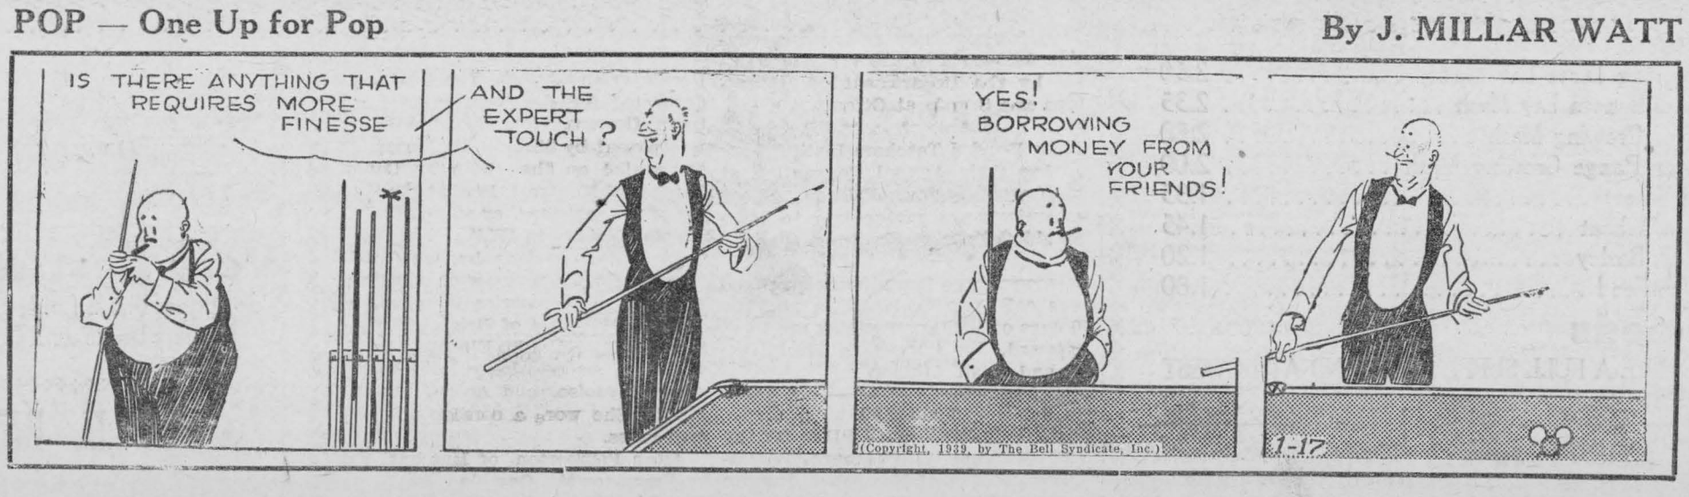
POP — One Up for Pop

By J. MILLAR WATT



Our Correspondents:

Williamsburg News

Mr. William Airth of Chicago, Ill. spent last week end visiting with his neice, Mrs. Lorne Henderson and Mr. Henderson.

Mrs. R. McQuaig of town accompanied by Mrs. Hugh McQuaig and Mrs. Ralph Adams, both of Hainsville motored to Kingston last Friday to attend the inspection and parade of the Stormont, Dundas and Glengarry Highlanders Regiment.

Mr. and Mrs. Fred Cunningham and family were recent guests at the home of Mr. and Mrs. Esly Pitt, Strader's Hill.

Miss Diana McIntosh visited on Saturday with Miss Betty Strader.

Mr. and Mrs. Jason Whitteker had as their guests on Thursday, Mrs. Agnes Merkley, Mrs. James D. Beckstead, and the Misses Almeda and Sarah A. Whitteker.

Mr. and Mrs. Lorne Henderson have taken up residence at the home of Messrs. Conrad and Henry Whitteker.

Quite a number of the ladies, members of the Women's Missionary Society of the Williamsburg United Church motored to Morewood on Wednesday of this week and attended the Sectional Meeting of the Dundas-Grenville Presbyterial.

A number of young men from this centre who came under the 21-year old class left on Wednesday for Cornwall to report for military training for the next 30 days.

INSERT IN WILLIAMSBURG NEW

On Wednesday evening last, a delicious 6 o'clock dinner was served by Mrs. Joseph Shannette in honor of Miss Alys McIntosh, who celebrated her 13th birthday. The guests were Miss Muriel McIntosh and Master Clare, Misses Joyce, Norma and Vergie Merkley, Miss Edna Coughler and Miss Muriel Saddlemire. The evening was spent in playing games and telling stories.

BORN—To Mr. and Mrs. Wallace P. Johnson, (nee Hazel Forward, of Piconderogh, N.Y.), on Tuesday, October 9th—a daughter.

Williamsburg W. I.

The Williamsburg branch of the Women's Institute met on Thursday evening in the Green Bungalow at Williamsburg with 34 members answering the roll call "A Health-Building Habit". Over 30 visitors were present, among them being: Miss Lyla L. Calder, Home Economics coach of the Junior Homemaker's Club; Miss Lowry, supervisor of Nurses for the County Board of Health; Mises Rutherford and Lefler, Dundas County Public Health Nurses, Mrs. Thompson, Alexandria Commissioner of the Girl Guides.

The president, Mrs. Ora McIntosh occupied the chair for the meeting, which was on the subject: Health and Child Welfare. Mrs. Hugh Thompson was appointed as delegate to attend the Ottawa Convention on October 9th, 10th and 11th. A donation of honey is to be sent to the Institute Headquarters, Toronto for the Red Cross.

Miss Calder spoke briefly about Achievement Day of the Junior Homemakers Club in Morrisburg on October 3rd and 4th. Their project for this year is "Being Well Dressed and Well Groomed."

Under the Convenorship of Mrs. Hugh Thompson, the following program was presented: An address by Miss Lowry on the organization of the County Health Unit and the Work of the Nurses; an instructive and interesting skit of a home visit by a public health nurse by Misses Lefler and Rutherford. Community singing was enjoyed, followed by a talk on the storing of vegetables by Mrs Trevor Crowder.

The meeting came to a close with the singing of the National Anthem.

Mrs. H. Garlough Honoured

MRS HARRY GARLOUGH HONRD

The Sunday School Hall of Williamsburg United Church was the scene of a pleasant gathering last Tuesday evening when a large number of members of the Young People's League assembled to honor, and to make a presentation to one of their former members, Miss Ellen Algire, who recently was married to Harry W. Garlough of Williamsburg.

During the evening, Miss Aleda McIntosh read an appropriate address and at the same time the presentation, consisting of a magazine rack and a beautiful satin cushion, was made by Wilbur Garlough, on behalf of the League.

Mrs Garlough fittingly expressed her appreciation for the gifts and the kind wishes which accompanied them, after which all joined in singing, "For She's a Jolly Good Fellow"

After games and music were enjoyed for a time, the serving of a bountiful lunch brought the evening to a close.

AULTSVILLE

Mr. and Mrs. Earl Bowman of Gallingertown spent Monday afternoon in Aultsville.

Mr. and Mrs. Wilburt Crites spent Sunday with Mr. and Mrs. Wesley Ezards, Osnabruck Center.

Mr. and Mrs. Wm. Keneer, Cornwall were Sunday guests of Mr. and Mrs. Earl Bowman, Gallingertown.

Mr. and Mrs. George Summers and Miss Greta and Mrs. Arnold Stoddart and Miss Marjorie spent Tuesday afternoon in Morrisburg.

Mr. John Crites and Mrs. Etta French, Gallingertown, spent Sunday with Mr. and Mrs. Jewel Boprey. Mr. and Mrs. Freeman and family, Cornwall, called at George Donley's Sunday afternoon.

Mr. and Mrs. Thomas Attinson and Mrs. Basil Hunter called on Mrs. Geo. Summers and Mrs. Arnold Stoddart Thursday afternoon.

Mr. and Mrs. Earl Bowman, Gallingertown were tea guests on Sunday with Mr. and Mrs. Morley Warner, Osnabruck Center.

Mrs. George Summers and Miss Marjorie Stoddart called on Mrs. Oscar Lane Saturday evening.

Mr. and Mrs. Ed Styles, River Road, called at George Donley's on Wednesday afternoon.

ROWENA NEWS

Wedding bells are ringing loudly in Rowena.

Misses Marjorie and Faith Seeley and Miss Jean Marcellus of I. H. S. spent the weekend under their parental roof.

Sorry to report little Miss June Mullin on the sick list. Hope for her a very speedy recovery.

Mr. Ted Beckstead, Kemptville, spent the weekend with his parents, Mr. and Mrs. J. Beckstead.

Guests of Mr. and Mrs. Morgan Seeley on Sunday were: Mr. and Mrs. Wilfred Coons and daughter Doris of Shanly, also Clinton Seeley, Shanly, Mr. Bill Richards, Roebuck, Mr. and Mrs. Berton Seeley and family, Cardinal and Harry Seeley, Cardinal.

Mr. and Mrs. W. Barkley and family, Dixon's Corners and Miss Patsy Cooke, Dixon's Corners spent Sunday with Mr. and Mrs Harold Lapier.

A farewell party was tendered Mr. and Mrs. B. Hart and daughter, Barbara on Tuesday evening of last week They have taken up residence in Morrisburg. We are sorry to lose them from our midst.

Mrs. Garlough and Oliver had tea on Sunday evening with friends at Haddo.

A number from here attended the Anniversary Supper at Haddo on Monday evening.

HULBERT

Miss Pearl Flegg, whose marriage will take place shortly was guest of honor when her mother, Mrs. J. Wesley Flegg, entertained for the bride-elect, on Saturday evening.

The house was prettily decorated with pink and white streamers and white wedding bells. Miss Phylis Flegg, cousin of the bride and Miss Edna Coats assisted the hostess in serving lunch.

GLEN BECKER

Mrs. Melvin Barkley was taken to the Cornwall General Hospital on Sunday last where she is receiving treatments. We hope for a speedy recovery.

Mrs. George Baker and family returned home to Gannanoque on Sunday after spending the past three weeks with her parents, Mr. and Mrs. Dalton Saddlemire.

Mr. and Mrs. George Hall, Raymond and Gilbert spent Sunday last visiting Mr. and Mrs. George Zeron.

Mr. Keith Saddlemire of R.C.A.F., Trenton, spent the weekend with his parents, Mr. and Mrs. Merton Saddlemire.

Mr. Blake Barkley spent Tuesday at Ottawa.

Mr. Carl Casselman of Rowena spent Sunday evening for tea at Mr. Howard Saddlemire's.

Mrs Stanley Saddlemire and Mr. Howard Saddlemire spent Wednesday at Mr. Frank Merkley's.

Mr. J. Summers, the Watkins Dealer, made calls through our Hamlet during the past week.

Miss Beatrice Saddlemire and Mr. Keith spent Sunday visiting relatives at Williamsburg.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM Wilber Andrew VanAllen, deceased

All persons having claims against Wilber William Andrew Van Allen, late of the Township of Williamsburg in the County of Dundas, who died on or about the 3rd day of August, 1940, are notified to send to the undersigned on or before the 15th day of November, 1940, full particulars of their claims. After the said date the executor will distribute the assets of the deceased having regard only to claims of which he shall then have notice.

Dated October 10th, 1940.

HERMAN H. VANALLEN, by his solicitor,
R. H. ARMSTRONG,
Morrisburg. 40-1-2-c

Williamsburg Council

The council met at Bouck's Hill on October 5th, 1940. Members all present. Minutes of previous meeting read and adopted. A by-law was passed declaring the road in 6th concession, lot 32, from 5th concession head line north to Isaac McIntosh's, a public road. F. J. Donevan, C.E., was asked to make a report on the McMillan drain to put in proper repair.

The following accounts were passed:

Ross Beckstead, sharpening scarafier teeth	4.00
Vincent Casselman, Cedar Bridge Timber	5.44
R. F. Norval, gas and oil	32.67
James Robertson, pay for stone	2.00
E. R. Marcellus, Road Supt. Salary and postage	50.60
W. A. Froats, hauling tile and gravel	28.50
Henry Froats, work on tile and bridge	3.50
Richie Tupper, cutting weeds	3.15
Don Kyle, cutting weeds and brush	3.50
Arthur Reddick, cutting weeds and brush	16.63
Arnold Millward, cutting weeds and brush	17.50
Carl Swerdfeger, cutting weeds and brush	1.75
Nathan Tupper, cutting weeds and brush	2.63
Mahlon Bowman, cutting weeds and brush	7.00
Arthur Heagle, cutting weeds and brush	10.85
Walter Loucks, grading	18.75
Lyle Reddick, cutting weeds and brush	14.18
Wilfred Carruthers, cutting weeds and brush	1.75
Harold Pemberton, rep. road	1.93
Wm. Summers, collecting garbage and night soil	60.00
Orlin Becker, collecting garbage rates	10.00
Municipal World Ltd. supplies	15.19
Leader Pub. Co. Printing Voter's List and tax bills	17.45
Charlie Pitts, cutting weeds on Staley and Prices lots	2.10
R. F. Lyle, Legal advice	2.00
M. S. Beckstead, Tax collectors Bond	37.50
Iden Whitteker, 6 trips to Cornwall and telephone for W. Craig	24.60
Sarah Whitteker, rent for W. Craig	3.50
Fulton Bros., Relief re Dulane Henderson	7.60
G. Ross Wingard, relief re Helen Hess	23.14
Lyle O'Shaughnessy, relief, Geo. Rutherford	8.00
Lyle O'Shaughnessy, trucking wood to W. Craig, postage and salary	4.10

The council adjourned to meet in Barkley's Hall, Boucks Hill on November 15th, 1940, at 1 o'clock, p.m.

M. S. BECKSTEAD, Clerk.

Farewell Party at Rowena

On Tuesday, October 1st, friends and neighbors tendered a farewell party at the home of Mr. and Mrs. Bruce Hart, of Rowena, who are taking up residence in Morrisburg.

The house was beautifully decorated for the evening with autumn flowers.

Mr. and Mrs. Hart and daughter, Barbara were presented with a radio and two beautiful lamps, while Mrs. Harry O. Smyth read an address. Mr. Hart responded suitably to the address, and all present joined in singing "For They are Jolly Good Fellows." An enjoyable evening was spent with Mrs. Orvil Seeley and Miss Jean Smyth entertaining with piano selections.

Refreshments were served by Mrs. Harry O. Smyth and Mrs. George Mullin.

Canada Year Book

The publication of the 1940 edition of the Canada Year Book, published by authorization of the Hon. James A. MacKinnon, Minister of Trade and Commerce, is announced by the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of the country, its institutions, its demography, the different branches of production, trade, transportation, finance, education, etc.—in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1940 Canada Year Book extends to over 1,200 pages, dealing with all the phases of the national life and more especially with those susceptible of statistical measurement. A stitistical summary of the progress of Canada is included in the introductory matter. This gives a picture in figures of the remarkable progress which the country has made since the first census of the Dominion was taken in 1871, sixty-eight years ago.

Persons requiring the Year Book may obtain it from the King's Printer, Ottawa, as long as the supply lasts, at the price of $1.50, which covers merely the cost of paper, printing, and binding. By a special concession, a limited number of paper-bound copies have been set aside for ministers of religion, bona fide students and school teachers, who may obtain copies at the nominal price of 50 cents each.

SHOWER

MISCELLAEEOUS SHOWER—

On Thursday evening of last week about one hundred friends and neighbors gathered at the home of Mr. and Mrs. Wilbert Strader, Strader's Hill, to honor and to extend good wishes to their daughter, the former Miss Ruth Strader, who was recently married to Mr. Lorne Hogaboam, Winchester Springs.

During the evening an address was read by Mrs. Alonzo Foster expressing the good wishes of all for the future happiness of the newly-wed couple.

At the same time the presentation of a shower of miscellaneous gifts was made on behalf of the Strader Hill community. Other gifts were a chesterfield table presented on behalf of the Dundela Community, and a four piece silver tea service was presented to the newly-wads on behalf of Duquette's Orchestra, of which Mr. Hogaboam is a member.

Mrs. Hogaboam expressed in a few well-chosen words thanks for the gifts and good wishes accompanying them.

All joined in singing, "For They are Jolly Good Fellows" after which refreshments were served by the ladies

Saving Ontario's Natural Resources

NO. 11

By G. C. Toner,

Ontario Federation of Anglers

Preserve Muskies

In my last article a short resume of the natural history of the muskie was given, mainly as a background for the present article.

The most important point in the conservation of the muskie is the protection of the spawning fishes. They run up into shallow water to lay their eggs and at such times are particularly vulnerable to the poachers.

CRIMINAL POACHING

Most of us would regard as very foolish any farmer who killed his cows just before they freshened. If this were a continued practice with him he would soon be without stock on his farm. The peocher when he takes the muskies on their spawning grounds is killing our stock, robbing the public just as surely as if he took money from individual pockets.

Another way in which destruction of maskinonge takes place is through the lowering of the waters in late spring. When the spring floods are on, the adult muskies work well into the marshes to spawn. Here the water is warm and the eggs will develop rapidly. But far too often these flood waters are needed to run the mills and they are allowed away through the sluices. The eggs of the maskinonge, or the young fish, if they have hatched, are left high and dry for the birds.

We are still studying these fishes so that we may know better ways to conserve them and this research can be left to the scientist. However, every conservationist can help to control the poacher and the water levels. They are the important matters at the present time.

Incidentally, the finest fishing picture I have ever seen was shown at the American Fisheries Society in Toronto by Wm. Lang of the Toronto Anglers. It dealt with the muskie and was in full colour. Get your local fish and game association to invite Mr. Lang to show his pictures in your town. You will help along the cause of conservation and you will certainly not be disappointed in the pictures.

"AS I REMEMBER HIM"
(The Biography of R. S.)
By Hans Zinsser

The author of "Rats, Lice and History" here gives us the informal biography of a physician by the name of "R. S." (in reality himself) who was also a philosopher, a poet, and a good friend.

Medicine took R. S. to the far corners of the earth. Wherever there were war and infection, there he was found In Siberia in 1914-15, in the American Army in France, in Russia after the great famine, in Mexico and in China, he fought as a scientist. Last month as Hans Zinsser he died of an obscure disease, leukemia, after living for two years in the knowledge that it was slowly killing him. He tells his story in a fascinating way, with deep learning and salty wit; and his book now becomes a magnificent memorial to a very huma man who led an extremely useful and interesting life.

'As I Remember Him" . . . by Hans Zinsser . . . Toronto; McClelland and Stewart . . . $3.25.

Carol Carried Million Away

On Special Train, When He Escaped Into Exile—Metal Packed Into Three Wooden Crates

Rumanian government officials allege that three wooden crates containing more than $1,000,000 worth of gold left the country on abdicated King Carol's special train.

The gold was said to be in coins minted last spring to commemorate the 10th anniversary of Carol's reign but never issued. These informants said the National Bank was considering the question of who holds title to the gold.

IN GOLD COINS

It was said that Carol had encountered difficulty with the Spanish government and that his passage through Spain to Portugal had been delayed. At the same time it was disclosed that the Rumanian government has taken steps to have Ernest Urdarianu, who was minister of state without portfolio under Carol, returned to stand trial.

"Savior of Britain" Decorated by King

Hugh Dowding, chief of Britain's fighter command, RIGHT, has been made a Knight Grand Cross of the Order of the Bath. Idolized by his junior officers who affectionately refer to him as "Stuffy," Sir Hugh is credited with Britain's stiff resistance to the Nazis in the air. In the face of severe opposition and criticism he convinced the air council to put eight synchronized machine-guns on the British fighter planes and thus gained for them a marked superiority over the Nazis.

THE WAR-WEEK—Commentary on Current Events

JAP-AXIS PACT PLACES RUSSIA, U. S. ON SPOT

Though many may have anticipated its signing, the momentous tripartite agreement entered into last week by Germany, Italy and Japan, made the rest of the world catch its breath. With the announcement of the pact, the conflicts raging in Europe, Africa and the Far East swiftly became one. The Second World War was a reality.

World War Begins

Of the six great powers left upon the globe, four were already in it. The United States and Russia, remaining, were now on the spot. Of these two victims of the Jap-Axis "squeeze play," the United States was already throwing its weight on the side of Britain; and Russia, the uncertain quantity, held the balance of power between the two blocs, democratic and anti-democratic.

Russia Holds Balance

Which way would Stalin jump? To join with Britain against Germany? If the U.S.S.R. were to enter the struggle, more than half the German air force would have to operate in eastern Europe, plus a tremendous mechanized army consuming vital gasoline supplies—the defeat of Germany would be certain. (Russia in the meantime, however, would have to be fighting Japan at her back door).

To join with the new Triple Alliance against the British-U.S. bloc? Very unlikely. It would be much more reasonable to place credence in the statement of the Russians themselves, that the Sovit Union would remain firmly neutral. Signing of a non-aggression pact with Japan would be a definite possibility. Again, Russia might lend more and more support to sore-pressed China, letting Japan bleed herself white trying to conquer the Chinese.

U.S. Accepts Challenge

The United States, far from being scared off by new Japanese threats, last week moved closer still to her ally-except-in-name, Britain. Washington corridors buzzed with talk of "flying fortresses" to go abroad in exchange for British bases in the Pacific; loans of money to England; further U.S.-British co-operation in the Far East. Stronger hints were forthcoming that the United States might soon accept the challenge of Japan, now so badly bogged-down in China. The collapse of the Rising Sun Empire could be brought about by a strict American embargo on war supplies, aid to China, and a blockade of the passages from the Indian Ocean in the Pacific. But not until after the November elections, anyway . . .

Indian Summer Invasion?

Meantime what was happening in the Battle of Britain? A Nazi invasion seemed less probable than it had the previous week. British defense against air bombings were obviously improving, while the R.A.F. offensive against the Nazis was growing stronger. But everyone was convinced that the air war would continue throughout the winter, with the Germans attempting to wear down the British air force and shut off England from food and war supplies from overseas while Nazi military operations developed on fronts farther distant.

Another big crisis this month was nevertheless expected by the head men in London. Predicting an Axis campaign against Gibraltar in October coupled with an Indian summer attempt to invade England, Lord Beaverbrook's Daily Express said: "The most likely Axis strategy would be thrusts at Gibraltar (with Spain's connivance) and Bizerte (French Tunisia), in an effort to draw the British home fleet to the Mediterranean and leave the English Channel less hazardous for invasion barges."

Southern Theatre May Decide

Also on Hitler's program, experts last week agreed, were extension of political, or possibly military, control over the Balkans; substantial contribution to the Italian drive towards the Suez Canal. Hitler might also be contemplating, they said, an invasion of Sweden this winter to clinch his hold on iron ore supplies and to give Russia something more to worry about; engineering of a Moslem revolt against Britain; and seizure of French colonies in Africa, from which to launch attacks on outposts of the British Empire,—although if the British made another attempt at Dakar, they might beat him to it.

"Time" Newsmagazine, Sept. 30, declared: "If the Battle of Britain should turn adversely for the Axis, or if it should become a long drawn-out affair of bombings and blockade, the Southern Theatre might well be the deciding area of combat . . . If the Axis could gain control of the extremities of the Mediterranean, Britain's fight would be far harder, might be impossible. Without the oil fields of Iraq, without tenable bases in the Mediterranean to harry the Axis on its southern flank, without the help of the Moslem world and without the last shred of support in the Balkans, Britain would be hard put to it to win."

Whither China?

China, in its fourth year of resistance to the Japanese aggression, last week faced with comparative equanimity the newest turn of affairs whereby Japan was enabled to attack her in the rear through French Indo-China. Generalissimo Chiang Kai-Shek was determined to hang on till the end. He still had enough ammunition left for another year of fighting; the morale of the Chinese army was never higher. But within the inner councils of the Chungking government it was felt that aid would have to come to China from somewhere outside. Were Britain and the United States really ready to help in a substantial way? Or, would China turn in finality to Russia? These were her two alternatives.

"Escape" School Taught Nazis

Enemy Prisoners Were Taught In Advance How to Pick Lock and Dig Tunnels; Two of Gestapo In Canadian Internment Camp

Careful investigation of German war prisoners in Canada has shown that a number of them are graduates of a German school organized for the specific purpose of teaching prisoners how to escape.

Preparing in advance for their soldiers being captured, the Germans held classes in lock picking, tunneling, and other ways of breaking out of camps. In one Canadian camp there are at least twenty men who have learned scientific ways of opening locks without keys.

Two of them are members of the German Gestapo.

Authorities are now able to explain how a tunnel was completed for Gunther Lorentz's escape from a Muskoka camp without a pile of earth disclosing excavation operations.

Handling prisoner's mail presents a problem. An average day brings 120 bags of mail through the clearing house in Ottawa and this has to be scanned for code messages, for invisible ink, for compasses hidden in jars of preserves.

SCOUTING . . .

When a train was wrecked near Blue River, B.C., and a number of soldiers and other passengers injured, two North Battleford, Sask., Boy Scouts, Jerry Asmussen and "Scotty" Buchanan, enroute to Vancouver, found their Scout training valuable. With the exception of a few scratches the boys were uninjured, and were promptly rendering first aid to their less fortunate fellow travellers.

* * *

Boy Scout training in fire fighting enabled two Scouts of St. Johns, Nfld., to master a fire which broke out at night in a summer cottage at Mount Pearl Park. So successful were the boys' efforts that the services of a fire engine were not required when it arrived on the scene.

* * *

An outstanding story of Boy Scout gallantry was that of Troop Leader Donald Jones of a Kentish town, acting as an Air Raid Warden. When a number of bombs dropped in his area he hurried to the scene, and found three persons trapped under a collapsed house. Jones wormed his way beneath the timbers until he gained a position where his body could protect the upturned faces of the victims. He held this position for no less than four hours, during which time he kept up a cheerful conversation to allay the fears of the trapped persons, and guided the work of the rescue party.

* * *

A unique wartime job undertaken by the Boy Scouts of Acton, England, has been the providing of "listeners" at church. The boys listen closely for air raid sirens during the singing of hymns, when other members of the congregation may not hear. The church also has its own fire-fighting squad, which includes Scouts.

Third Set Teeth Coming At 80

Calgary Woman, Now Teething, Has Already Worn Out Two Sets of False Ones

Mrs. Elizabeth Hope Ross of Calgary, who is more than 80 years of age, is getting her third set of teeth.

After having used false teeth long enough to have worn out two pairs, and having started on her third, a new set of molars is coming through her gums.

Mrs. Ross said she first began to notice signs of the new teeth about last Christmas. During the last few days the first of them broke through. Appearances indicate others will follow soon, as there are evidences of 12 in all.

Amazed to be teething "at my age," Mrs. Ross said she suffered some distress but found relief in taking powders similar to those given to teething infants.

Mrs. Ross, who has 10 children, 23 grandchldren and two great-grandchildren, now has only one regret. It's in connection with a new set of "store" teeth.

"They're a lovely set," she said. "almost new—and I won't need them."

VOICE OF THE PRESS

THEY ECONOMIZED

"We must cut down everything by at least one-thrd," said a lecturer on economy recently. At the conclusion of his remarks the audience gave him two hearty cheers. — Montreal Star.

FOR EASIER TAXES

Making the last day of every month civic tax-payment day would entail some extra bookkeeping — but it would be a less painful method of financial extraction as far as the taxpayers are concerned. — Brantford Expositor.

WOMEN DRIVERS' MILEAGE

Women worse drivers than men? Last year more than 94 per cent. of the drivers in all Ontario accidents and practically 96 per cent of the drivers in fatal accidents, were male. No one knows, however, what mileage was driven by males and what mileage by females — information which wuold be necessary to a real comparison. — Toronto Star.

WE ARE "DISCOVERED"

It is only in recent months that, in a news sense, we have been "discovered" by our friends of the great republic. Not much news from this country got into the United States papers unless it concerned the quintuplets or the Mounted Police. Over here we paid our debts, we did not go in for revolutions, from the foreign correspondents' point of view we had a lamentable shortage of assassinations and intrigue, and the reader of the average American newspaper found far more about Mexico than about Canada.—Ottawa Journal.

Canada is the world's largest producer of the platinum metals.

Gasoline consumed by civil aircraft in Canada during 1939 totalled 3,297,410 gallons compared with 2,857,847 gallons in 1938.

REG'LAR FELLERS — Is Pop's Face Red? — By GENE BYRNES

MORTAL STORM

Adapted from the Metro-Goldwyn-Mayer Picture

Martin looked at the man who had once been his friend.

by

BEATRICE FABER

SYNOPSIS

In a little University town in Southern Germany, the happy family of Professor Roth, a non-Aryan, has been tragically torn asunder by the accession of Adolf Hitler to the Dictatorship of the country. Mrs. Roth, an Aryan, is agonized by the persecution of her husband's race, especially when her two sons, by a former marriage, Erich and Otto, become fanatical Storm Troopers and repudiate the stepfather they had once revered. Then young Freya Roth breaks her engagement to Fritz, a worshipper at the Nazi shrine. She finds love with Martin Breitner who is labeled a Pacifist and a Red. But soon afterwards he is forced to flee the country. Then Professor Roth is taken to a concentration camp and shortly afterwards dies from brutal treatment. Freya and her mother leave for Austria but at the border Freya is sent back on a technicality. Then one day she joins Martin secretly at his farmhouse.

CHAPTED FIVE
(Conclusion)

Martin held her tight. "I've come to take you away. We'll go to-night on skis, the way I took Werner — across the Pass to the Austrian border."

"Tonight?" Her voice was a whisper. "I need never go back to town? I need never let you go?"

He laughed quietly. "Try and get rid of me." Then he went on with his plans. "We should be ready to start soon after sunset. We must reach the border before daybreak. Your mother will be counting the hours. I promised her to bring you safely home."

"Home." She lingered over the word.

He went on gravely. "It won't be easy, this journey. You've got to know what you're taking on. It's a long hard way. I'm pretty sure no one suspects the spot where I cross the border but there's always the chance of a patrol . . ."

There was exaltation in her face. "I'm not afraid."

He started. "Look, the sun's setting already. We've got to get busy—"

She was a bit dismayed. "So soon? But we've so much to say." Her lips curved with wistful humor. "We've ever said the usual foolish things."

"We've all our lives to say them." He kissed her long and well as the shadows deepened around them.

"Children," Mrs. Breitner called, "it's getting dark. You have no time to waste."

Martin's eyes gleamed with humor. "We're not wasting time mother."

"YOU'RE NOT AFRAID?"

Night had fallen by the time they had their knapsacks ready and their skis strapped to their boots. Then came the moment for departure and Mrs. Breitner's quavered blessing was upon them as they started down the slopes.

They moved swiftly and steadily for hours, stopping now and then for a moment's rest. But after a long while Freya began to falter. Martin's voice floated back in the mist. "Am I going too fast? I'm sorry dear." He returned to her. "Every time I look back you seem smaller and frailer."

She reached out to him. "Oh Martin, we're not lost, are we?"

"Lost? No. You're not afraid?"

"Not — when I see you." Her voice was weak with exhaustion. "Is it still—very far? The Pass?"

"We should make it in an hour, less perhaps." His arms gripped her anxiously. "If your strength holds out."

She smiled back at him valiantly. "You're my strength. I won't fail you."

Again they plunged onward and Freya was just managing to stumble along beside him when all at once he cried, "Freya, look, look!" They were standing on a sort of ledge and through the floating mist they could see revealed a valley, with white roofs, gleaming in the morning sun. It was like a bright glimpse of another world. "Austria."

She was stirred to new life. "So near—"

BACK, OR DEATH?

His eyes were eager. "We've only to cross that open space. Those tall rocks are on Austrian soil. When we reach them we're safe. Come on, we can make it." They started off but suddenly he stopped, taut.

"What is it?" she asked, frightened.

"A patrol. There, on the right." He faced her. It was a grim moment of desperation. "What shall we do? We have a fighting chance. Shall we try for it? Or shall we go back?"

She said quietly, "To what? To your death — perhaps to mine?"

Swiftly, they kissed, knowing that this might be their last caress in life. Then they emerged from their shelter and started to fly across the open snow.

But all at once the mist lifted and there was a ringing shout. "Halt . . . Halt." Almost, it sounded like the voice of Fritz, begging them to stop.

They went doggedly on.

Again came the plea, desperately urgent. "Halt. Halt there!"

And then—a rifle shot rang out. Another. Martin turned as if the hand of God itself had stopped him. In that moment he knew that he was alone. Freya had been taken from him.

No, there was still a small smile on her lips as she lay huddled in the snow. He stooped and gathered her into his arms. "I—I must have fainted," she murmured painfully. He nodded. "But we did it, didn't we? We're free." Her eyes clouded "I—I think I must rest a little now. I'm tired. Very, very tired—" Her head fell back and she was lifeless in his arms.

THE DEAD FREYA

And now the patrol came up, headed by Fritz. Slowly, Martin looked at this man who had once been his friend. And then, the emotions raging darkly within his soul moved him to an instinctive action. He lifted the slim body of the dead Freya in his arms and rose to his feet.

The mocking sun fell on her young broken body, on the still, white face, the bright tossed hair. Fritz looked at her there, gazed upon this sacrifice he had offered to his gods on the altar of duty. Then, white-lipped, and crushed, he turned away . . .

* * *

In the tomb that had once been the Roth home, Erich and Otto moved about, gathering up their mother's possessions. She had written and asked them to send on her little knicknacks, reminders of her former life.

But there was a step for which they were listening. They knew that he had been ordered in pursuit of Freya and Martin. Why hadn't he returned yet with their sister?

"What made her do it?" Otto suddenly cried, "Why?" He turned as the door opened.

Stiffly, mechanically, Fritz approached them. His voice was harsh with suppressed emotion. "I met them at the Karwendel Pass. I ordered them to halt. They refused to obey." He couldn't meet their dawning horror. "At my command, the patrol opened fire. Your sister is dead."

"BLOW OUT THE CANDLES"

Otto fell back. "Freya?"

"Martin Breitner was arrested —charged with treason." Their silence screamed out at him. "I had no choice. It was my duty." He went to the door. "There's a staff conference at Headquarters. You're to report with me now."

He and Erich went to the door and without knowing why, Otto stood there a moment. Suddenly, he seemed to hear the muted strains of music. A flood of memories came to him . . . Father's birthday dinner . . .

And then there was Freya's warm, gay voice, 'Six candles—one for each decade of a wonderful life, father. Now you must blow them out—"

And the Professor, "Ours has been a very united family — in this home we've had the habit of gracious lving. We've prided ourselves on our tolerance and our sense of humor—"

"Wish, father," said little Rudi in a ghostly whisper, "blow out the candles . . ."

Swamped in bitterness, Otto heard it all, felt the pull of it upon the grim vows to which his youth was sworn. Then his jaw hardened. The path of terrorism, strife and brutality was ahead. It was the one he had chosen. Truth and nobility were of a vanished era. There was no turning back.

Stiffly, he walked forward. Then he closed the door of this broken home and stepped into the desolate night.

THE END.

"It DOES taste good in a pipe!"

Horn-toot Love Call Ruled Out by Mayor

Salt Lake City's mayor, Ab Jenkins, proclaimed the unnecessary blowing of automobile horns a misdeameanor.

"The auto horn should be used as a warning—not a love call," he said.

Telltale

The kitchen's full of the nicest sounds:
of pans, and ladies stirring,
of dishes out, and kettles on,
and egg-beaters a-whirring.

The kitchen's full of the nicest smells:
of dinner in the making,
of turkey on, and cranberries,
and pumpkin pies a-baking.

The kitchen gives it all away,
as sure as you are living—
you never have to LOOK at all
to know that it's Thanksgiving!

Aileen L. Fisher.

LAURA WHEELER OLD-FASHIONED DOLL IS DECORATION OR TOY

COPR. 1940, NEEDLECRAFT SERVICE, INC.

DOLL PATTERN 2578

This doll is as fascinating to make and dress as she is to look at. And what little girl or grown-up wouldn't be charmed with her gay clothes yarn curls and easy-to-embroider features. Pattern 2578 contains a pattern and directions for making a 14½ inch doll and clothes; materials required.

Send twenty cents in coins (stamps cannot be accepted) for this pattern to Wilson Needlecraft Dept., 73 West Adelaide St., Toronto. Write plainly PATTERN NUMBER, your NAME and ADDRESS.

Table Talks

By SADIE B. CHAMBERS

Happy Thanksgiving to all! Let us be truly thankful for our homes, our country and a nation determined to stand defending the heritage of liberty and tradition, that all might have the right to give thanks as a people and indivdiually. Is not all that sufficient to make us more thankful than we have ever been before in spite of war clouds and much sadness throughout the world?

For the Thanksgiving Menu, I have aimed at simplicity, economy, and a purely Canadian dinner, for how better can we show patriotism than by helping the Canadian producer?

Thanksgiving Dinner Menu

Cream of Tomato Soup
Roast Chicken — Savoury Dressing
Creamed Mashed Potatoes — Mashed Turnips — Giblet Gravy
Salad — Chopped Carrot, Celery and Cucumber served on Lettuce
Dessert — Apple Trifle Pie, Pears, Apples and Grapes
Beverage of Choice.

Savoury Dressing

2 cups of fine bread crumbs
2 cups of canned corn
1 tablespoon onion chopped
1 teaspoon poultry dressing seasoning
¼ teaspoon salt
⅛ teaspoon pepper
½ cup milk
1 tablespoon butter

Soak bread crumbs in the milk, then add corn and seasoning, mixing well. Melt butter and add last. Mix thoroughly, then fold in your favorite salad dressing. Serve on lettuce and top with a little chopped parsley.

Salad — Chopped Carrot, Celery and Cucumber

Chop or run through food mincer the carrots, measuring 2 cups when minced, ½ cup minced cucumber, ½ cup chopped celery, 1 tablespoon of chopped onion.

Apple Surprise Pie

Prepare apples by peeling, coring and quarter. Take 6 medium sized apples — after the above preparation steam, which will take from 15 min. to 30 min., according to kind of apple. When soft, run through sieve — sweeten to taste, also add 1 teaspoon of candied ginger, chopped, chill. Beat the whites of 3 eggs until stiff and fold into the apple mixture. Have ready and bake a pastry shell (nine inch); when it is just about finished baking before the delicate brown appears — turn into it the apple mixture. Return to oven and bake until edge is the delicate brown. Serve with whipped cream — should be served warm.

A novel and seasonal centre piece can be made from a pumpkin cut basket shape with handle and filled with fruit of menu — grapes, apples and pears.

EXIT MR. CAFFEINE-NERVES!

JOE: I've got to quit this job, Jim—it's got my nerves all shot—they're so bad I can't sleep and I've been suffering a lot from indigestion lately.

MR. CAFFEINE-NERVES: *Attaboy! Let the wife go out to work for a change!*

MR. CAFFEINE-NERVES: *Look out! — Here comes the old fatherly advice!*

JIM: Maybe it's that coffee you're always drinking, Joe — giving you caffeine nerves. Why don't you try Postum for awhile! You'll see a big difference!

JOE: You were right, Jim—I switched to Postum for a month and feel like a new man—no more caffeine nerves for me! I'm sticking to Postum!

MR. CAFFEINE-NERVES: *Gangway! — Postum always chases me!*

• Many people can safely drink tea and coffee. Many others—and *all* children—should never drink them. If you are one of these, try Postum's 30-day test. Buy Postum and drink it instead of tea and coffee for *one month*. Then, *if you do not feel better*, return the container top to General Foods, Limited, Cobourg, Ontario, and we'll gladly refund full purchase price, plus postage. Postum is delicious, economical, easy to prepare, and contains no caffeine.

Luther League Meets

A meeting of the Luther League of St. Peter's Lutheran Church, Williamsburg, was held on Wednesday evening with about 25 members present. Dale Beckstead acted as president and Mrs. Erwin Empey as secretary.

After singing the Luther League Rally Hymn, the minutes of the previous meetings were read and adopted. Committees were appointed to take charge of selling Christmas cards, selling tickets for the anniversary supper, etc.

Roll call for the following meeting will be "A Favourite Book of the Bible".

The topic this week, "A Christian Attitude Toward the Body and its Functions", was conducted by Mrs. Ross Beckstead. The topic next week will be given by Miss Vivien Barclay. Luther League meetings will start at 7.30 p. m. during the fall and winter months.

* * *

DIED—At Calgary, Alberta, on September 28th, Elizabeth Laura Bouck, wife of A. M. Shaver, of Calgary. Deceased was a former resident of Iroquois.

GOLF NOTES

The Annual Meeting of the Morrisburg Golf Club was held in the Morrisburg Curling Club rooms on Wednesday evening, October 9th. The various reports of committees were received and accepted. Growth of considerable proportions was shown by the attention of new members, the many improvements to the course and a seventy five per cent. increase in green fees. Due to the grounds committee's decision to cut the entire course and the particularly rainy season, which made the cost of mowing mount beyond estimates, the Club finished the year with a deficit. The past years executive are to be congratulated on the good showing made and deserving of special mention are Mr. J. S. Toshack, who has given freely of his valuable time and effort ever since the Club's inception more than a year ago. He can be credited with the establishing of a Golf Course in Morrisburg. Mr. J. E. Christensen's reluctant acceptance of the presidency in 1940 following two years of his untiring, dynamic efforts in the Curling Club, is also greatly appreciated. The new officers elected for the 1941 season are—

Hon. Pres.—G. H. Challies.
President—R. G. Fetterly.
Vice-Pres.—J. F. Casselman.
Sec.-Treas.—W. R. Whyte.
Grounds Committee—J. S. Toshack, O. W. Dupras, C. M. Crober,
Membership and Finance Committee—
R. H. Armstrong,
R. H. Wannell,
R. G. Fetterly,
Mrs. M. A. Epplett,
Mrs. James Mallan.
Games Committee—Gordon Fraser, S. G. Finnie, D. J. Dillabough.

They are enthusiastic about the possibilities of the Club for the coming season. It has been decided that the fee for new members remain at $5.00, making it possible for anyone interested to join the Club. The Morrisburg Golf Club is an asset to the Town, both from a standpoint of providing healthy recreation for townspeople, as well as an attraction for tourists and deserves the wholehearted support of anyone interested in the community welfare.

Hogabaum-Strader

A very pretty autumn wedding was solemnized in the United Parsonage, Dundela, on Saturday, September 28, when Miss Ruth Strader, eldest daughter of Mr. and Mrs. Wilbert Strader, Strader's Hill, was united in marriage to Mr. Lorne Hogaboam, son of Mrs. John Hogaboam, Winchester Springs and the late Mr Hogaboam. The ceremony was performed by Rev. Wm. Lister of Dundela. The bride was charming in a street length dress of Soldier Blue Alpaca, small blue hat and accessories to match. The bride was attended by her sister, Mrs. Gordon Christie, while Mr. Gordon Christie supported the groom.

Immediately following the ceremony the wedding party motored to the home of the brides parents, where a turkey dinner was served at high noon to about thirty guests, relatives and friends of the family.

Assisting in the serving were: Mrs. Alonzo Foster, Miss Gertrude Casselman, Miss Olive Strader and Miss Norma McIntosh.

Later the happy couple left amid showers of confetti and good wishes for a motor trip to Toronto, Hamilton, Niagara Falls and other western points.

For travelling the bride wore a navy blue crepe dress, navy coat and matching accessories.

On their return Mr. and Mrs. Hogaboam will reside on the groom's farm at Winchester Springs.

Out-of-town guests attending the wedding festivities were Mr. John Hogaboam, mother of the groom, and his sister, Mrs. Walter Erratt, Mr. Erratt and son Bert, and Mr. Ernest Erratt, all of Massena, N.Y.

ELECTED TO BOARDS

It is announced that at the recent meeting of the General Council of the United Church of Canada in Winnipeg, Rev. R. Douglas Smith, of Wall Street United Ccurch, Brockville, aws elected to the board of religious education, and that W. T. Rogers was re-elected to the board of pensions.

Rev. Sr. Mary Melanie of Smith Falls and Sr. Mary Ethelbert of Brockville spent Thursday at the home of the former's father, Mr. Thomas Coligan.

* * *

Leading Aircraftsman Herbert Coons of the R.C.A.F., of Malton, returned home yesterday after spending the past week with Mr. and Mrs. M. A. Epplett.

* * *

Lieut. F. W. Baker, of the R.C.A.T.C., Petawawa and Mrs. Baker of Pembroke, Mrs. George Bain, of Montreal, Mr. George Baker of the R.C.A.F., Ottawa, spent the weekend at the home of Mrs. W. G. Baker.

* * *

A recital by the voice pupils of Morrisburg, Ontario and Massena, N. Y., of Mrs. F. H. McKee, of Waddington, will be held in the Castleman Memorial Hall, Morrisburg, on Monday, October 14th, at 8.15 p.m.

* * *

Mr. G. C. Power, of the Collegiate Institute staff, has been appointed 2nd Lieut. in command of No. 9, Morrisburg platoon. He replaces 2nd Lieut. L. A. Porteous, who has been transferred to H. Q. Company at Cornwall.

* * *

The annual Thanksgiving Supper at Trinity Memorial Church, three miles east of Morrisburg, will be held on Friday, October 18th, from 6.30 until all are served. Admission 25c and 35c 40c

* * *

DIED—At Hamilton, Ontario, at the home of his niece, Mrs. Ralph Dame, on Thursday, Colonel H. Brown Alderson, who has for the past thirty-four years been an annual visitor in Morrisburg. The funeral service will be held in St. James Church, Morrisburg, Saturday, October 12 at 2.30 p.m.

* * *

At the annual meeting of the Catholic Womens League, held recently in St. Mary's Parish Hall, the following new officers were appointed for the ensuing year: President, Mrs. Andrew Barr; 1st Vice-President, Mrs. Laurin; 2nd Vice-President, Mrs. J. Ray Coligan; 3rd Vice-President, Mrs. Leonard Keck: Secretary, Miss Gertrude Campbell; Treasurer, Miss Martha Derosiers.

YELLOW BIRCH FOR AIRCRAFT

Yellow birch is finding increasing use in the construction of aircraft. Radical changes in the design of wooden aircraft, introduced in the past few years, have included the adoption of plywood coverings for wings and fuselages, and experience has shown that Canadian yellow birch is the most suitable of all woods for the manufacture of the extremely thin veneers from which these plywoods must be built up.

Yellow birch is the most important commercial hardwood in Canada Its principal range in this country lies south of the line drawn from Michopicoten Harbour on the eastern side of Lake Superior to Quebec city, and in the Maritime Provinces. Mature trees reach diameters of from 20 to 30 inches and heights of from 60 to 80 feet, and exceptional specimens may attain a diameter of 36 inches and a height of 100 feet.

The wood is classed among the heavy hardwoods, weighing about 44 pounds per cubic foot in an air-dry condition. In hardness and other mechanical properties it is generally similar to white oak, although it is not quite so tough. It is of uniform texture and works well under tools, qualities which contribute to its suitability for the production of the thinnest of veneers.

The expanded rate of aircraft production has resulted in an increased demand, based on a great need, for yellow birch veneer logs For so exacting a form of utilization only logs of the highest quality can be used, but Canada's reserves of this valuable war material are great and energetic steps are being taken to secure supplies adequate to the needs of the United Kingdom and of Canadian manufacturers.

The merits of British Columbia Sitka spruce were recognized during the war of 1914-18, and in the present crisis this valuable member of the spruce family is again being used in large quantities in the building of aircraft. Thus Canada is fortunate in having vast resources of the two kinds of woods most suitable for aircraft construction.—Dominion Bureau of Statistics.

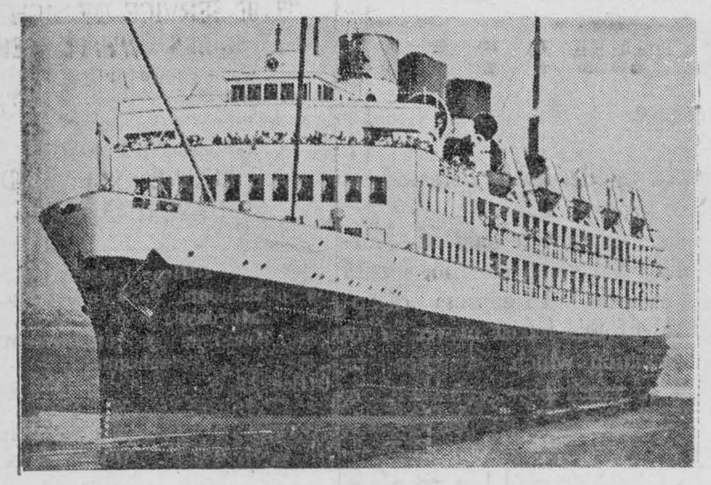
Canadian Armed Merchant Cruiser Captures Enemy Ship



H.M.C.S. Prince Robert, an armed merchant cruiser captured the German express cargo ship Weser off the Mexican coast. It was thought the Weser was serving as a re-fueling ship for Nazi U-boats. The Prince Robert, formerly a passenger ship, was on her maiden voyage after being converted into an armed cruiser.

Holiday Mail Delivery Again

Morning mail deliveries will be resumed on statutory holidays falling on Monday, starting with Thanksgiving Day, October 14, and there will be a mail delivery on Christmas Day, Postmaster General Mulock has announced.

Such deliveries were eliminated in the interests of economy some time ago, but with Canadian industry working on overtime schedules in the war effort it was deemed morning mail delivery was necessary where holidays fall on a Monday.

New Jap Invasion Aims at Chinese

This map shows where newest Asiatic complications have arisen as the Japanese invade French Indo-China at Haiphong and clash with Indo-Chinese forces at Dong Dang in an effort to invade China by the "back door."

What Science Is Doing

VITAMIN MYSTERY CLEARED

A new vitamin, biotin, the most potent and powerful physiological substance ever discovered, was described to the American Chemical Society last week.

Biotin, a colorless crystal, has been a chemical mystery for two years since the Netherlands scientists, F. Kogel and B. Tonnes, extracted a barely visible quantity from 250,000 year-old Chinese duck egg yolks.

Biotin proves to be part of the vitamin B "complex." It is so powerful, it is measured in thousands of a millionth of a gram.

Without it, soil germs, the azotobacter, which fix nitrogen for plant growth, are unable to work. This fixation is the base of all plant life, and therefore biotin probably is a primary source of all the food on earth.

"WETTER" WATER WORKS

A discovery that the chemicals which make "wetter" water are good for killing numerous kinds of deadly germs was reported to the bicentennial conference of the University of Pennsylvania.

These chemicals are known as wetting agents. They make water so "wet" that it penetrates to the skins of birds and even of water fowl. Some new forms of soap were found in the same discovery to have exactly similar germ killing powers.

"BAKED" GRAY MATTER

A discovery that skilled surgical operations can be performed on the gray matter of the brain with nothing but an electrical current, has just been reported.

The skull is not opened, but merely touched with the tip of an electric wire. The current does not remove the gray matter, but effectively bakes and destroys it.

HAVE YOU HEARD?

A man met a neighbour carrying a bag of apples.

"I've got to leave town for six days," he explained, "so I'm giving the wife an apple for each day I'm away."

"What a charming thought!"

"Yes. Before I knew her she used to be friendly with the local doctor!"

—o—

"In the Arctic they live on candles and blubber."

"Well, if I had to eat candles I think I would, too."

—o—

A young man was a frequent caller at a house where there were four daughters, but it was impossible to say which of them he preferred.

One evening the eldest sister, Agatha, happened to be the only one in the house, and consequently she had the young man to herself.

"Agatha, you look tired," he said.

"I am a little," she replied, and wondered what might be coming next. "You see, I made an enormous batch of cakes and pies. Mother prefers my baking to the cook's. I also made a few pots of jam. Father's fond of jam. And I have done all the housework, too."

"Fine!" said the young man. Then he went on ardently: "Agatha, there is a question I want to ask you, and my life's happiness may depend on your answer."

"Well, ask away," smiled Agatha, blushing.

"If I marry one of your younger sisters, will you consent to make your home with us?"

—o—

One wit explains that Adam and Eve probably were on a telephone line in the garden of Eden, and their number was 281 Apple.

—o—

A little boy surprised his parents by refusing to be scared into being good.

"It's no use telling me the angels will write down in their books if I'm naughty, mamma," he said. "I might as well tell you they think up in heaven that I'm dead."

"But why should they think that?"

"Because I haven't said my prayers for two weeks."

Stop, Look, Listen !

Comment from a bulletin of the Association of American Railroads which includes in its membership the Canadian lines: "Hundreds of lives can be saved each year if motorists will exercise increased care in approaching the passing over highway-railroad grade crossings."

More than 2,000 observers are engaged on insect surveys in Canadian forests.

How Can I?

BY ANNE ASHLEY

Q. How can I protect the wall paper from the wet cloth when cleaning the woodwork?

A. Use a flat piece of tin about a foot long, moving it along the wall against the board as the work progresses. An old auto license plate is excellent for this purpose.

Q. How can I treat a warped ironing board?

A. The board can be straightened if the covering is reversed to the other side for awhile.

Q. How can I remove ink spots from the fingers?

A. Rub the fingers with the inside of a banana peeling.

Q. How can I revive flowers that have begun to wilt?

A. When the flowers have begun to wilt, cut the stems and plunge them into hot water for a few minutes. Trim the stems a little each day and slit them to enable the flower to absorb more water.

Q. How can I remove glue from furniture or fabric?

A. Remove the glue by dipping a cloth in vinegar and rubbing hard. If the glue has hardened, keep wetting it with vinegar and when softened, rub it off.

Modern Etiquette

BY ROBERTA LEE

1. Isn't is considered bad manners and rude for a guest to refuse a drink when in the home of a friend?

2. Is it good manners to chew gum in public?

3. Should a son be taught to let his sister go through a door first?

4. Is there any way possible to stop a person who is always gossiping and speaking evil of others?

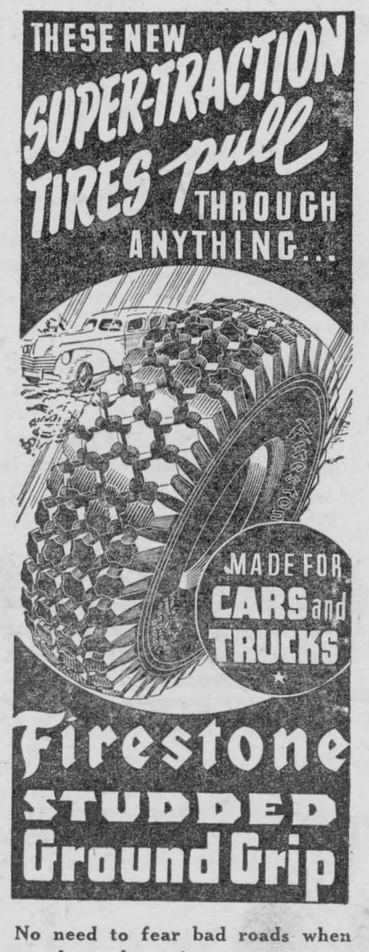
5. What is the correct distance from the dinner table that a person's waist should be, not to be too far or too close?

6. Would it be all right for a debutante to wear a pink gown at her coming-out party?

Answers

1. Not in the least. There is nothing compulsory about it, and only a person who is weak will be influenced to do something that he or she does not want to do. 2. No, it is not, even if it is seen fifty times a day. Nor does it add to the beauty of a girl's face or the handsome features of an Apollo. 3. Yes. If a boy is taught these courtesies at home, they will come natural to him when he is elsewhere. 4. Perhaps Hare answers this question by saying, "When will evil speakers refrain from evil talking. When listeners refrain from evil hearing." 5. About eight inches. 6. White is the most appropriate color.

Exports of Canadian newsprint paper in July were valued at $15,221,529 compared with $8,586,411 in the same month a year ago.



No need to fear bad roads when you have these tires on your rear wheels—they pull through anything without the use of chains. And on pavement they are quiet and smooth riding. Have your local Firestone Dealer put a set on your rear wheels NOW.

Canadian National Railways Revenues

The gross revenues of the all-inclusive Canadian National Railways System for the week ending September 21, 1940, were:—

	$ 5,043,389
as compared with	5,651,182
for the corresponding period of 1939, a decrease of	$ 607,793 or 10.8%

HEALTH TOPICS

Vitamins and Health

In a recent number of the (Toronto) Academy Bulletin, Dr. Frederick Tisdall contributes an instructive atricle on Vitamins. He points out that according to the figures issued by the Bureau of Statistics at Ottawa, approximately 44% of the caloric intake of Canadian people, based on an average daily intake of 3000 calories, is practically devoid of vitamins.

There is considerable evidence that Canadians suffer most from lack of the vitamins B1, D and sometimes vitamin C. A restriction in diet will accentuate this condition. During the progress of an infection the need for most vitamins is markedly increased. A similar need is seen during pregnancy and lactation when the demand is doubled.

Under ordinary conditions, if the individual takes a diet consisting of a pint to a pint and a half of milk a day for children, one half a pint for adults, some meat, an egg a day, two liberal helpings of vegetables besides potato, some raw fruit, some whole grain cereals, either in the form of brown bread or breakfast cereals, and some vitamin D, (cod-liver oil or its equivalent), in the months from September to June, he will be using all the known vitamins in adequate amounts. Under unusual conditions as in illness, pregnancy, lactation and any dietary restrictions, it may be necessary to give vitamins in their concentrated form.

Dr. Tisdall discusses vitamins in considerable detail. About 15 vitamins have so far been demonstrated from animal experimental work. Nine have been shown necessary for human nutrition.

Bird Dogs Enter Fall Field Trials

Ontario Association Expects Big Crowds on Niagara-on-the-Lake the Middle of October

The fall field trails of the Ontario Bird Dog Association will be held at Niagara-on-the-Lake, October 19th and 20th, are the dates set.

These trials have been drawing bigger entries each season and it is expected that the trials scheduled for this fall will bring out the biggest entry and the best calibre of dogs that have ever competed at an Ontario meet.

The events for the first day include the Ontario Championship, a stake for Shooting Dogs and a trial for Novice Dogs. This latter stake always brings out new dogs and new dog owners, desirous of having independent appraisal of their dogs' performance.

All of these trials are for setters and pointers. An innovation at this meet, also scheduled for the first day's programme is a trial for working spaniels.

On the second day some well-seasoned campaigners from New York State are expected to compete with the Ontario entries in the Open All Age Stake. A Derby Stake for puppies born after January 1, 1939 will also be run on the second day.

Entries and spectators are expected from all sections of the province and two days of interesting sport is promised.

Geo. W. Boag, Woodstock, Ont., secretary of the association has been sending out entry forms and states that keen interest is being shown in all events.

WOMEN WANTED

38 to 52 years old. Women who are restless, moody, NERVOUS—who fear hot flashes, dizzy spells—to take Lydia E. Pinkham's Vegetable Compound. Pinkham's is famous for helping women during these "trying times" due to functional irregularities. Get a bottle today from your druggist! WORTH TRYING!

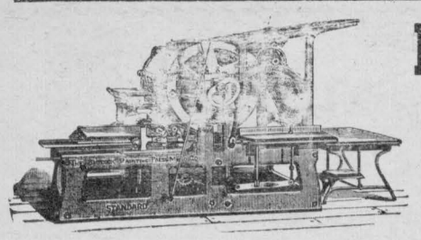
ISSUE 41—'40



Printing, Mother of Progress, Celebrates 500th Milestone Since its Invention

The invention of printing from movable metal types is associated, according to the best available evidence, with the name of Johann Gutenberg, who lived in the cities of Mainz and Strasbourg, on the Rhine, during the first half of the fifteenth century. Other claims for the credit of the invention have been made, such as that on behalf of Lourens Janszoon Coster, of Harlem, in the Netherlands, but for which the evidence seems, in the most part, spurious. Block printing, that is printing from symbols carved in wood blocks, was known and practised much earlier, perhaps as early as the eighth century, in China.

Movable types of porcelain, wood and metal were used in China from 1041 onwards, but knowledge of their use does not seem to have spread beyond the Orient. The Chinese, too, discovered how to make paper in the second century--and knowledge of this process was carried eastward at intervals through the centuries, till it reached Western Europe about a thousand years later. By the fifteenth century the Europeans too, were printing from wooden blocks, large blocks on which a picture with a legend, or perhaps the words of a much-used manuscript were cut in high relief, then inked and an impression taken on a sheet of vellum or paper. A number of these sheets printed on one or both sides and fastened together, was called a block book. Block books were just coming into use, when suddenly (for a decade is but an instant of time in the cultural history of man) between 1535 and 1545, some one invented and perfected a process for making individual letters of metal. These letters could be "composed" into words, printed, then "distributed" for further composition.

Prior to the invention of printing, books had to be written by hand. For this laborious task, scribes were engaged by families, business firms, schools or court officials. To own a book was a mark of distinction, and there would be few families who would own more than one book. The education of children from books was exceedingly limited, since even the esseitial Latin grammar and any other texts would have to be written by hand. The researches of scholars had to be copied and re-copied, with errors creeping into every copy. News was conveyed by word of mouth or by written message, and sometimes with hazards of travel, it arrived garbled and late, perhaps too late. The enormous volume of printed material which we now use in the ordinary and extraordinary occupations of every day should scarcely be taken for granted without a thought of how it has come to us. It is the product of the inventive genius and painstaking industry of man, of the minerals, timber and power derived from our earth. An accomplishment of a relatively short period in the history of mankind, it is our inheritance to be cherished in further experimentation and development, and in use, to extend knowledge, the perception of beauty, and enjoyment of the comforts of modern life.

Johann Gutenberg, born about 1400, was a member of a patrician family in Mainz connected with the metal-working trade. A serious conflict with certain Craft Guilds (the Trades' Unions of those days) drove the family from Mainz, and in 1434 or earlier, Gutenberg was working in the neighbouring city of Strasbourg. He occupied himself with mechanical inventions, and from 1436 onward he was preoccupied with their application to printing. He experimented with metals of different kinds for making type, cut the metal patterns of type bodies with individual letter faces on the end. From the patterns he struck matrices, and constructed a mould in which to cast accurate reproductions of the types in large quantities. The principle of the press had long been known and applied in the making of wine and cheese, then adapted to making impressions from wood blocks. Now Gutenberg further adapted it to printing from movable metal types. Probably associated with Gutenberg in some way was one, Andrew Dritzehn, in whose house in Strasbourg the press was erected and the tools and equipment kept. That the invention was regarded as potentially of great commercial value is shown by the fact that the processes were guarded carefully, and by the further fact that on the death of Dritzehn, his brothers, in 1539, brought suit to claim rights in Gutenberg's outfit—without success. It is one of the curious ironies of history that the records of this trial "foundation stones in the edifice of fame erected to one of Germany's national heroes" should have been destroyed when the Prussians took Strasbourg in 1870.

The inventor continued improving his technique, and from time to time through the 1440's, produced a few printed pieces. These were a Latin grammar, commonly called Donatus, a long poem and a calendar for the year 1448. Only fragments, the odd page of these early productions have survived to the present time. Towards the end of this experimental period Gutenberg cast a complete new font of type. But as his talents turned to mechanical rather than financial achievement, he was obliged to pledge his possessions for a loan of cash to Johann Fust, a man of capital in Mainz, whither Gutenberg returned about 1448. With Fust was associated a young technician named Peter Schoeffer, who later became his son-in-law and partner. Fust and Schoeffer were commercially minded and with the benefit of Gutenberg's inventive genius they produced the first great monument to the invention of typography, a Bible. This, the "Gutenberg" or 42-line Bible" was printed on 1282 large folio pages of two columns each, and with 42 lines to the column. It bore no printer's name nor date, but the work was completed some time before August, 1456, and by that time Fust & Schoeffer had eased Gutenberg out of the enterprise, keeping his equipment, which had secured the loan.

Gutenberg retained his earlier types and from these about 1460, was printed another Bible, 36 lines to the page. Fust & Schaeffer in the meantime had prepared an edition of the Psalter, the most beautiful work, it is said, ever printed—large pages of text in black and red, with decorative capitals of intricate design, in three glowing colors and perfect impression. The book bore the date 1457, with the printers' name and trade-mark. Their mark of crossed shields had been perpetuated as the symbol of the International Association of Printing House Craftsmen.

Gutenberg's name never appeared upon any book printed from his types and he died an obscure figure in 1468. But the brilliant achievement of typography in subsequent years have been the most gratifying eulogium an inventor would desire. And, now five hundred years later, almost every country in the world acclaims him as one of the greatest modern benefactors of mankind.

It has been stated that of all the world's inventors, two stand out preeminently in the advancement of literature and education—Ts'ai Lun, the inventor of paper (China, A.D. 105), and Gutenberg, the originator of movable types (1440).

From Mainz, printing spread into Italy, France and the Netherlands. In 1474-76, William Caxton, an English merchant, resident in the Low Countries, learned how to print and produced in his own English translation, the first book ever printed in English: Recuyell of the Hystoryes of Troye, a popular classic tale of the fall of Troy. Soon afterwards he returned to England with printing types and set up shop near Westminster Abbey. So the story of printing in the English-speaking world begins with Caxton. The year after Caxton died, Columbus discovered a new continent across the Atlantic Ocean, and the first governor there, the Viceroy of New Spain had a printing press brought to Mexico City about 1535, the first in America.

The next one came from England to New England in 1638, to be set up by Stephen Daye and his two sons at Cambridge, Massachusetts, under direction of Harvard College just then opening its doors. Daye's first substantial work appeared in 1640. It was a book certain of sale among the Puritan settlers in the Colony of Massachusetts Bay, The Whole Booke of Psalmes, or as is is generally known, "The Bay Psalm Book." Daye printed 1700 copies of this book and not more than a dozen are known today. It is called the most valuable book ever printed on paper. Daye's successor was Samuel Green and Samuel's grandson, Bartholomew, brought a press to Halifax in 1751. Bartholomew's associate, John Bushell, carried on the work following the former's sudden death, and became Canada's first printer and the founder of its first newspaper, the Halifax Gazette.

So far as can be determined with any certainty there was no printing shop in Quebec, or Nouvelle France as it was called, during the French regime. On at least three occasions however, requests were made of persons in authority for the privilege of establishing a press. Jesuit missionaries in Quebec applied for a printing press in 1665; the Sulpicians in Montreal made the same request of the Superior of their order in Paris, 1683. In 1749, M. de la Galissionmière asked the Minister of Marine and Colonies for the same privilege, but his request like the others was denied.

After Nouvelle France became the British colony of Quebec in 1763, two young printers employed in the office of William Dunlap, Benjamin Franklin's brother-in-law in Philadelphia, ventured into Quebec and announced the publication of a weekly newspaper. The Quebec Gazette, published in English and French in parallel columns, appeared first on June 21, 1764, and continued with but two brief interruptions until 1874—a remarkable record for a pioneer publishing firm. Brown and Gilmore printed many books in English or French or both. In both they printed all the laws and government publications. One of the most interesting of their productions is a Canadian edition of the Stamp Act, dated Quebec, 1766. In the meantime Montreal had got its first printer, Fleury Mesplet, who arrived, also from Philadelphia, in 1776, and twelve years later launched the Montreal Gazette.

The first printing done in Upper Canada was at Newark, now Niagara-on-the-lake, where in 1793 Lieutenant-Colonel John Graves Simcoe, the Lieutenant Governor, set up a French Canadian, Louis Roy whom he had brought with him from Quebec. Two pamphlets, one entitled The Speech of His Excellency John Graves Simcoe, and the other The Acts of the Legislature of Upper Canada, were printed by Roy early in the year. The first newspaper was the Upper Canada Gazette which appeared on April 18, 1793. The first publishing house in the modern sense of the word, that is, an organization which assumes the risk of publishing manuscripts, and sets up a sales organization to distribute them, was probably the Ryerson Press, which developed from the printing office which Egerton Ryerson founded to print that famous old Methodist paper, the Christian Guardian.

The first press west of Ontario was constructed at Norway House, in Manitoba, about one hundred years ago—one of the most ingenious ever made. James Evans, a missionary to the Indians, wanted a printing outfit to further his religious and educational work. He couldn't import one, for the Hudson Bay Co. which controlled the area, declined to undertake its transportation. So he made what he required: type, of lead from tea boxes, cast in wooden moulds which he cut for the purpose; ink from chimney soot; for paper, birch-bark. His press was the old fur press used in the Company's trading post. His type is very interesting, for the face shows not letters of our alphabet, but Cree syllabics which Evans himself invented, symbols by which he represented the sounds of the Cree dialect, and in which he printed spelling and hymn books for the Indians.

Local printing appeared on the West Coast in 1858 when the rush for gold was on. Four newspapers were started in Victoria within six months, of which one, The Colonist, still appears.

The invention of modern printing machinery is a story in itself which cannot be told here. One rather astonishing fact is that no substantial changes in the original mechanical operations were made during the first four hundred years after its invention. The manufacture of printing machinery is comparatively recent in its history. It has now reached the stage of a large-scale industry and printing machines are known to be both as precise and as complicated as almost any modern industrial machinery.

But, prior to 1865, printing was largely a hand craft. There were rather crude power presses for newspapers, but all type had to be set by hand. Presses for the production of commercial work developed in the second quarter of the nineteenth century. The first rotary press appeared in America in 1865. The linotype machine for casting and sttting type was invented by Ottmar Mergenthaler in Baltimore, 1885, and put into use the following year by the New York Tribune. The Monotype machine, also for type casting and setting, was invented by Tolbert Lanson, in Washington, 1887. From the primitive large thread screw press, operated by hand, there was made a faster screw press Then operating levers replaced the screw, and iron frames replaced the wooden frames. Horse power was added to man power; then mechanical power replaced the horse. Stereotyping began as early as 1812, with David Bruce, and lithographing, a process discovered by young Alois Senefelder, about 1800. Photoengraving (1880), and modern lithographic processes however, are quite recent developments.

Modern printing machinery tell its own story.

The printing and publishing industry has so extended its services in the community that it occupies a place of primary importance in the economic life of the country. In Canada, in 1938 (latest figures available), 2,273 printing, publishing and book-binding plants, representing an investment of $118,243,293, employed 37,459 men and women, on a pay roll of $50,564,938, with a gross value of production, totalling $117,592,784.

MORRISBURG TO VOTE ON TWO YEAR TERM

The council of the village has signified its intention of submitting to the people at the December elections, a by-law on the question of two year terms for the members of the municipal council. The idea, a brain child of Premier M. F. Hepburn and Hon. Eric Cross, has been drastically modified since it was first presented, but to us it still looks the same—ridiculous. Our present council, has rightly or wrongly been subject to severe criticism for some of its work this year. In our mind, there is no doubt that there will be some new faces around the council board next year. And if the people, not only of this town, but of every other town, value their democratic rights, they will make certain that they retain the priceless privelege of turning out of office, any man or men not suited for the important posts which they hold.

True, perhaps, the two-year term might save a small amount of money. It might, if we were sure of having a strong council prove to be a benefit in that way. But these things are uncertain. Doing away with an election would save approximately two to three cents for every person in Morrisburg. That is all. And as long as our taxes remain at their present level, no one here is going to worry about an added expenditure of three cents. And an arbitrary council, if elected for a two-year term could do a lot more harm to the municipality than the next ten councils succeeding could undo.

Besides, the whole idea smacks of provincial interference in things purely municipal, a practice which the Ontario government is using far too often. The two-year term should be decisively defeated on these grounds alone.

The people, not only of Morrisburg, but of all Ontario, should rise in a body to express disapproval of this leftist move. Any organization which assumes to itself so much power and authority, and gives the people whom it represents no chance for redress, is not healthy, and has no place in America. It is a contridiction of our democratic ideals, a swing to the left, the first step toward totalitarianism.

The Morrisburg Leader

SUBSCRIPTION RATES

1.50 per year, strictly in advance to any address in Canada; when not paid within three months, $2.00 per year to any address in Canada. Foreign subscriptions, $2.00 in advance. All subscriptions date from the first of the month.

ADVERTISING RATES

Display or open advertisements one insertion, 50c per inch; second and following insertions, 35c per inch; 200 inches and over, by contract, not over one year, 20c per inch. All Legal, Government, and Municipal Display Advertisements will be charged at 50c per inch, regardless of number of inches or the number of insertions.

200 inches or more must be reserved at time of making contract in order to earn the 20c per inch rate, and no rebate will be allowed inches be taken out within one year, without having been reserved by contract.

Should the advertiser fail to take out the number of inches contracted for, the amount of space used will be charged at the regular card rate in force at the time of making contract.

Lost, Found, To Let, Wanted, Articles for Sale, etc., 5 lines and less, first insertion, 50c; each subsequent insertion, 35c.

Government, Legal and Municipal Notices, By-Laws, Election Readers etc., 15c per line for the first insertion; 10c per line for each subsequent insertion; 12 lines to the inch.

Advertisements ordered ror insertion without instruction will be published until instructions are received to discontinue same.

Notwithstanding anything to the contrary that may appear in any contract, cuts left in our possession more than 30 days after date of insertion will be destroyed.

HER LOAF OF WHITE BREAD *Wins First Prize* AT THE CANADIAN NATIONAL EXHIBITION

MRS. W. C. ANDREW, STREETSVILLE, ONT.

"When I took my prizewinning loaf out of the oven," says Mrs. Andrew, "I thought it was the nicest loaf of bread I had ever made. But I did not dream it would get first prize."

Yet, in face of stiff competition, Mrs. Andrew did win the highest prize. And now—what does this champion say about her baking methods? Has she any secrets? Here are her own words: "I measured the ingredients for my prize loaf very carefully and of course I used Robin Hood Flour. For six years I have used this flour right along and I bake bread every week. When I first began baking with Robin Hood I noticed an improvement in my bread immediately, not only in the ease with which it kneads up, but in the flavour and texture of my bread and rolls. After kneading dough carefully, I try to make each loaf a nice balanced shape, so that it will bake out as a well-proportioned loaf with an even, golden colour. I enjoy baking for local fairs, but this is the first time I have won first prize at the big exhibition. And I certainly think Robin Hood Flour should have a lot of the credit, for high quality flour makes high quality bread every time."

Why not follow the example of this champion bread baker and use Robin Hood Flour yourself. Order it the very next time you need flour! The first, second, third and fourth prizes for white bread at the Canadian National Exhibition were all won with Robin Hood Flour, so it must be good! Every bag contains a money-back-plus-10-per-cent guarantee certificate.

Exchange Your USED CARS

We are over stocked with late model used cars — '36, '37, '38 and '39's.

We have a demand for, and will take in trade, '31, '32, '33, '34, or '35 models in good condition.

You will find us more than reasonable in the exchange. Drive a later model car. It will run better, look better and last longer.
