For The Boys Overseas

The soldiers Comforts Com. will pack Christmas boxes on Monday eve. There are many names on the list, whose addresses have not been sent in and the committee are anxious that no one should be missed. If you have not sent in your boy's address, piease do so at once. Mr. McMillan is baking the fruit cakes, but we require quantities of cookies which may be left at McGee's store, Saturday or Monday. We also need money to pay for fruit cakes, postage, etc., for which contributions will be very thankfully received.

Pte. Gordon Countryman Wins Military Medal

Pte. G. G. Countryman son of Mr. and Mrs. Ezra Countryman of Morewood, is the latest soldier from that place to be rewarded for his bravery in action by being awarded the Military Medal, which was presented to him for his conspicuous work on Sept. 2nd. With characteristic modesty in telling of the event he does not go into details in his latest letter but takes it as a matter of course all in the day's work. His letter contained some very interesting souvenirs in the shape of German paper money. One bill for twenty marks, one for five, one for two and one for one. and curiously enough they are all dated August 5th, 1914, the day after war was declared. Since August 8th, Pte. Countryman had been "over the top" five times and has not received a scratch. He trained in Chesterville with the 154th Bat.. and is now only in his eighteenth year.

SPECIAL

The rumor that the Germans have accepted the armistice terms of the Allies is confirmed in Montreal.

Nephew of Mr. John King Dies at Sea.

The Coburg Morning Post on Saturday last had the following reference to a nephew of Mr. John King, who died and was buried at sea on October sixth, as a result of pneumonia.

"On Friday Mr. J. T. Lalande of this town received a great shock on reading in the morning papers the announcement of his son's death at sea. Lieut. R. H. Lalande went overseas from Kingston on Sept. 23rd and died on the way to England. The dead officer was the eldest son of Mr. and Mrs. J. Lalande and graduated in medicine at Queen's University, Kingston, this spring, and enlisted immediately on graduating, being appointed medical officer at the local military hospital. He was married about five months ago.

The news of his death was received by Capt. Williams of A. M. C. Training Depot, Kingston in a letter from Lieut. Horne, who sailed on the same vessel as the late Lieut. Lalande. Mr. J. T. Lalande has received no official word of his son's death at the hour we go to press".

AUTOMOBILE PAINTING

We have one of the best equipped paint shops in Eastern Ontario.

Our painter, MR. J. BURSLEM, has painted for the last six years for Mr. Mahlon Bailey, of this town, who recommends him very highly.

We are not depending on a new or a strange painter which we expect to get, and whose work we do not know.

Remember, we have our painter, and a properly lighted and equipped shop, and are in a position to do the very best class of work.

We use only high grade varnishes and paint and will do our best to please you.

Our prices are lower than any other shop considering the quality of the work we do.

KEEP MILK COLD.

(FARMERS CUT THIS OUT)

The sooner the milk can be cooled the better. It is almost impossible to produce milk without some bacteria in it, so that the problem now is to prevent these bacteria from increasing in number. At a temperature of seventy degrees, one bacterium may increase to two in twenty minutes while at fifty degrees it requires a very much longer period. One bacterium in milk at fifty degrees may increase in twelve hours to six or seven, while at seventy degrees it may increase to 600 or 700. When, therefore, it is remembered that much apparently good milk contains many thousand of bacteria per cubic centimeter, which is about thirty drops, it is readily seen how soon millions of bacteria will develop when the milk is warm. Milk should be cooled as soon as possible to fifty degrees lower and kept at that temperature.

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT to Depot Battalions and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

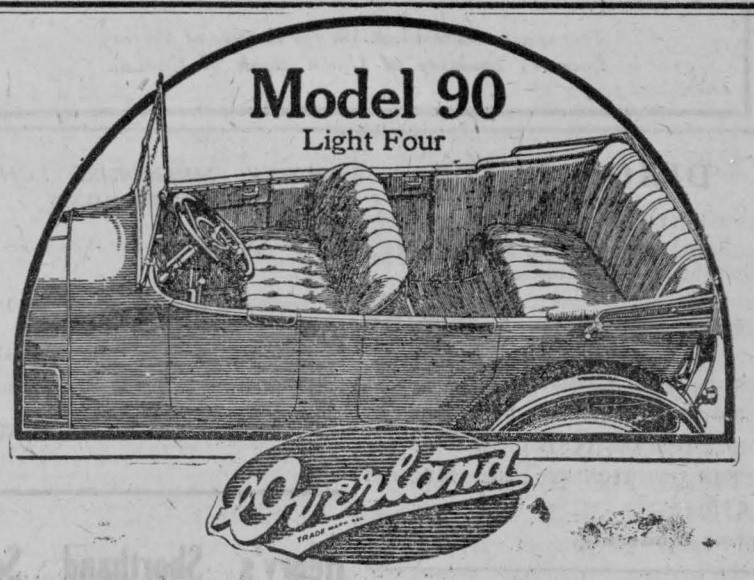
Light Four



Overland

It is *Not* Economy to Pay Less!

Is it *Wise* to Pay More?

Usefulness, in ratio to cost, establishes the value of this car far and away ahead of others.

It is essentially a utility car!

Every part of its chassis is built of the quality of materials that provides for extraordinary service.

It is a work-car; a car you can depend upon for faithful, continuous service at all times, under all conditions.

Look at the spacious interior—the inviting, deeply upholstered seats—the ample leg-room—the nicety of every detail.

The motor is 32 horsepower; the wheelbase 106 inches. There are rear cantilever springs and large tires; non-skid rear.

There is the Auto-Lite system, the highest quality electric starting and lighting—the same kind as used on highest priced cars.

There is the vacuum system fuel feed of finest type.

Consider the complete equipment of this Model 90. Nothing is omitted.

Let us demonstrate—ride in this car and you will understand why there is such a demand for it from people who realize that—

It is not necessary to pay more—and it is uneconomical to pay less.
