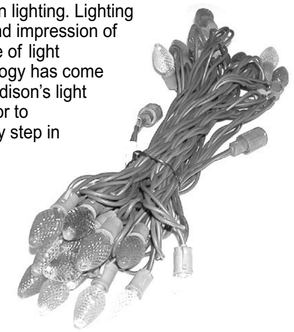
Commercial LED Light Sets

Nothing has greater impact than lighting. Lighting influences the appearance, tone and impression of every object and space. The nature of light shapes our vision. Lighting technology has come a long way since the invention of Edison's light bulb. Home Hardware has the honor to present to you the next evolutionary step in LED technology.

Specializing in Patented LED technology – Home Hardware offers long-lasting, low-maintenance and energy efficient solutions. LED technology provides no glass bulbs to break or filaments to burn out and requires less than 10% of the energy needs of the standard fixture equivalent. We provide a patented plug-in technology on our light strings... direct AC plug-in eliminating the need for DC conversion. This allows installers the ability to connect more than a half-mile of light, end to end, into one electrical outlet without the use of messy extension cords or expensive generators.



Based on use for six hours per day for 30 days (180 hours):
• 600 standard C7 lights at 12 cents per kilowatt would cost $31.30
• 600 LED lights would cost as little as 45 cents for the same period

FACT SHEET ON COMMERCIAL LED LIGHTS

COMMERCIAL LED LIGHT SET FEATURES:
- One source power cord, couple multiple sets together safely and securely, with new attaching assembly ensuring contact and safe operation.
- Brilliant colors that don't fade, flake or peel. Unbreakable bulbs - no fragile glass or filaments used in construction.
- Cool operation - bulbs remain at room temperature no matter how long you use them.
- Latest solid-state technology - rated for up to 200,000 hours of use.
- No spare bulbs to purchase - all parts are permanently sealed.
- 80-90% energy savings - the entire light sets use between 2 and 4 watts of electricity, saving you money.
- Up to 125 (25 LED light) sets from a single outlet - overall length 26' (approx.)

BENEFITS:
- True LED colors consistently display color and brightness.
- No replacement bulbs, sets are easier to install, less breakage, decreased maintenance.
- Safety if using indoors - no heat hazards, fire safety, reduced circuit overload, saving energy.
- Increased display life, less maintenance, decreasing costs of operation.

SAVING ENERGY:

Set type and style	*Energy used*	*Energy saved*
100-lamp string incandescent miniature lights	36-48 watts	
100-lamp LED string (multicolor)	4 watts	88-92%
