## Canadian-American Trade Relations

In America's last fiscal year Canada sold $400,000,000 of her products in the U.S. Market, but purchased there $700,000,000 of goods. Thus $1,100,000,000 of Canadian-American trade was affected by the fluctuations in Canadian Exchange. We maintain separate Foreign Exchange Departments under specialists at our New York, London, Montreal, Toronto, Winnipeg and Vancouver Branches, to offer you the fullest measure of assistance in your trade financing.

### *Smallpox Cleared Up*

Dr. McLaughlin, M.O.H. for Winchester township advises The Record that everything in connection with the smallpox cases in the township has been cleared up and that the families of Mr. McMillan and Mr. Casselman are free from any chance of carrying the disease and none need have any fear of meeting or doing business with them.

### *Fire at Winchester Station*

Shortly after 5 p.m. last Sunday an alarm of fire was sounded by the ringing of the church bells in Winchester. It was found to be the barn of Mr. Frank Hunter, just south of the C. P. R. The parents were absent from home and it is not known exactly how the fire started but it caused serious loss to Mr. Hunter, whose house had been burned about eighteen months ago. Nearly all the contents of the barn were burned including three cows and a large quantity of hay. The insurance was small.

### *Address and Presentation at Melvin*

A very pleasant event took place at the home of Mr. and Mrs. George Greer of the Melvin Settlement, on Friday evening, Nov. 14th. Mr. and Mrs. Greer are about to leave for their old home in Ireland and to bid farewell to them, about forty of their friends and neighbors invaded their home. In the course of the evening Mr. Walter Moffatt read an address while Messrs. Reuben Pruner and John A. Erratt presented Mr. and Mrs. Greer, each with a purse containing gold.

### *Little Girl Passes Away at Melvin*

The Angel of Death visited the home of Mr. and Mrs. Thomas Flegg about eleven o'clock on Tuesday night Nov. 11th, 1919, when their third daughter, Rose Anna, aged 4 years and 5 months passed peacefully away to her heavenly home. The deceased had been sick for about three months with diabetis and was very patient and conscious until the end. The funeral service was conducted by Rev. Mr. Claxton of Winchester, at the home. She leaves to mourn her loss a loving father, mother, three brothers and three sisters:—George of Mountain, Charlie, Sterling, Flora Bell, Flossie and Sybil at home. Interment was made in Maple Ridge.

### *Mrs. Wm. Hodges, Cumberland*

On Tuesday morning November 11th, at five o'clock there passed away after a short illness of pneumonia Mrs. William Hodges formerly Eliza McNeil of Crysler. The deceased was the second daughter of Archie McNeil and was born at Morewood in 1888. She leaves to mourn her loss a husband and three children—Freddie, Cassie and an infant daughter; an aged father, two sisters—Mrs. William York of Cannamore, Mrs. L. A. Mackie of Crysler and three brothers—Alex and James of Russell and Willie of Ottawa.

The funeral services were conducted at the family residence by Rev. Woods of Cumberland, taking his text from the 14th Chapter of St. John, 19th verse. A solo was ably rendered by Mr. Charles Binks of Westboro.

After the service interment was made in Cumberland cemetery. The pall-bearers being—James Fitzpatrick, Pat O'Toole, James Cummings, William Cummings, Tom Cox, John Minugal.

The esteem in which the deceased was held was shown by the floral tributes which were—wreath from husband, spray from Mrs. W. York and Mrs. L. A. Mackie, wreath from her brothers Alex, James and Willie; spray from Mrs. Catherine Harkness of Ottawa, spray from Mr. Hodge's brothers John and Charlie.

A large number of friends and relatives gathered to pay their last respects to the departed who was always willing to lend a helping hand to friends and neighbours. The heartfelt sympathy of the community is extended to the bereaved family.

Now life's battles all are won,
Earthly sorrows all are past;
God has called you home before us
Through the Golden Gates at last.

## BETTER COOLING

(FARMERS CUT THIS OUT.)

At this time of the year when the sun is hot, and the flow of the milk is high, remember that more water is required to cool milk to the desired temperature. The more milk you have the more water is required. Don't try to cool eight cans in water that will only cool four cans. Change the water often. Milk cooled and not kept cool will sour.

### Testing Seeds for Farmers and Merchants

The Dominion Seed Branch with laboratories at Ottawa, Winnipeg and Calgary reported over 35,000 seed tests for the year ending June 30th. The growth of seed testing in Canada is indicated from the fact that only 5,775 samples were reported in 1909. The great bulk of the work in our seed laboratories is done between September and June when each laboratory may handle up to 200 samples per day. Only ten samples are tested free of charge for any farmer or seed merchant during the season. Over this number, the service is charged for at cost.

Official seed testing is the basis of Government seed control, which in older European countries is rated as a leading Government service to Agriculture. Any country without an efficient system of seed control soon becomes the dumping ground for inferior seeds from other countries, and low-grade homegrown seeds may be sold to unsuspecting farmers. Our system is frequently referred to in other countries as being the most practical and efficient. Its importance is now being better appreciated when it is required that imported seeds are not released from bond until they are approved at the seed laboratories, and when cereal grains, flax, corn as well as clover and grass seeds, are marked on the basis of fixed quality seed grade standards.

### *In Memoriam*

In loving memory of Percy Gallinger, who departed this life at Brinston, Oct. 21st, 1918 in his 26th year.

One dear friend from us is gone,
A voice we loved is stilled
A place is vacant in our home
Which never can be filled.

Dear Percy is gone to that bright home,
Where all is bright and fair;
That sweet young face we loved so well
Smiles now among the Blessed.

He is waiting on that bright shore
For those he loved most dear,
Around him a shining throng
Are white robed angels near.

The pearly gates were open,
A gentle voice said "Come".
With many farewells unspoken
He calmly entered home.

Just as a lily fadeth
In purity and truth,
So dear Percy drooped and faded
In the spring time of his youth.

But God, who doth all things well,
Took His precious lamb
Away from all the cares of earth
Safe to that happy home.

MOTHER AND SISTERS.

### CRYSER

Mr. and Mrs. R. J. Empey of Winchester, motored to town on Sunday and were guests of Mr. and Mrs. J. Currie.

Mumps are quite prevalent in town, there is a very small attendance in the public and separate schools.

The people of this community were shocked to learn of the sad and sudden death of Mrs. Wm. Hodges (nee Lizzie McNeil) of Cumberland, the deceased was well known here and very popular. Mrs. Lindsay Mackie of this place, is a sister of the deceased. Much sympathy is extended to the bereaved ones.

### A New Hulless Oat

(Experimental Farms Note)

The introduction of a good, new variety of hulless oats by the Experimental Farms Branch has not perhaps attracted as much attention as it should. Free samples of this variety are now being distributed by the Dominion Cerealist at Ottawa. The stock on hand is not large, but as long as it lasts samples will be gladly sent to farmers in almost any district of Canada, as it is believed that this oat will be widely useful. The full name of the variety is Liberty, Ottawa 480. It is derived from a cross made in 1903 between the well-known variety, Swedish Select, and a hulless oat from China. The new variety is decidedly superior to the old, Chinese sort. Threshing out free from hull, this type of oat furnishes a concentrated product of extremely high value which has only to be ground in order to make most excellent feed especially for young pigs and chickens. When carefully enough cleaned for use as human food, it makes meal of surprisingly fine quality. The Liberty oat has very good field characters, being rather early in ripening and having reasonably stiff straw. The yield (so far as kernel is concerned) is equal to about seven-eighths of that of Banner oats. Farmers who are interested in the raising of hogs and chickens are strongly advised to give this new oat a trial. It has already proven extremely satisfactory in some districts.—C. E. Saunders, Dominion Cerealist.

Bob: "My father is a veteran of the Zulu war." Beatrice: "What about it?" "Oh nothing except that my father has a hickory leg." Thats nothing my sister has a cedar chest."

Children Cry for Fletcher's

## CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. ### Clean the Chimneys

Cooler weather demands the lighting of heaters and furnaces. Before this is done, however, chimneys, flues and stove-pipes should be thoroughly cleaned out and made safe. This is not a difficult matter, and is much preferable to being turned out of the house on a cold night by a fire caused by dirty pipes or chimneys.

Some surprise might be caused to the owner of a building damaged by fire from such a cause if the insurance company declined to pay the loss. This the company has a perfect right to do ,as it is distinctly stated on all fire insurance policies that the company is not responsible for fires caused by negligence on the part of the assured.

The "Act to Amend the Criminal Code Respecting Prevention of Fire" passed at the last session of Parliament, distinctly states:

"Everyone is guilty of an indictable offence and liable to two years' imprisonment who by negligence causes any fire which occasions loss of life, or loss of property".

With the possible loss of insurance and two years' imprisonment as a penalty it is not wise for the householder to neglect his stove-pipes and chimneys.—"Conservation"

### Fortune in Dried Raspberries

Dried raspberries in a single load, weighing a little over 3,500 pounds, brought an Oregon farmer $2,402.50. The berries were picked from bushes grown as fillers in a young prune orchard of eleven acres and aside from the berries dried. West and his son sold to the cannery berries amounting to more than $2,200, making a total of more than $4,500 received from the crop.

### A Wonderful Combination

The Family Herald and Weekly Star of Montreal is a wonderful combination of a newspaper, family magazine and agricultural journal. It is beyond question the greatest value on this Continent. The yearly subscription price is $1.25 and each subscriber receives a handsome souvenir portrait of the Prince of Wales, 16 x 22 inches. The portrait alone is well worth the money. The Family Herald is a credit to Canada. It deserves a place in every home. $1.25 could not be better spent than in a year's subscription to that great paper. The home without it is certainly missing a great family treat.

The commercial traveller entered the small restaurant in Manchester and chose his seat with the discrimination of the careful diner.

Then he took up the menu.

"Waiter!" he called. "Bring me some fly specks".

"Sir?" said the waiter, angrily.

"Haven't you got any fly specks?" asked the man.

"No sir", returned the waiter, still more haughtily.

"Then", remarked the traveller, "why don't you take them off the bill of fare?"

### *Death of Mother of Mrs. (Rev.) George Mason*

The death of Mrs. Elizabeth Nichols, widow of the late Thomas Nichols and mother of Sir Thomas White, has occasioned deep regret among a wide circle of relatives and friends. Deceased was one of the early settlers in Halton county, but her death occurred on Wednesday Nov. 12th, at the residence of her son 39 Queen's Park, Toronto after a brief illness.

Mrs. Nichols was born at Omagh, County Tyrone, Ireland, eighty-four years ago, and her maiden name was Elizabeth Graham. With her husband, James White, also of Omagh, she came to Canada in 1859, sixty years ago. After visiting their kinspeople in Toronto, they settled in Halton county with relatives, John White of Milton, for many years a member of the Parliament of Canada prior to Confederation and Jas. White of Bronte who were among the earlier settlers of Halton county.

In 1869 Mr. White died, and subsequently Mrs. White married Mr. Thomas Nichols of Halton county, near Bronte.

For many years the couple lived at Oakville, where they were very well known. Following her husband's death, Mrs. Nichols resided with her daughter, Mrs. (Rev.) George Mason, but recently she made her home with Sir Thomas White. All of her children survive her. They are, Sir Thomas White; Mrs. J. A. McNiven, wife of Dr. McNiven of Acton; M. E. Nichols Director of Public Information, Ottawa; Mrs. (Rev.) George Mason, Oakville and Mrs. William Ainslee of Comber. Mrs. Nichols came of good Ulster stock, and was a staunch Presbyterian.

Mrs. Nichols well remembered the recruiting for the Crimean war. She retained a very keen interest in all affairs during her later years and was especally interested in the war. She was one of the old school of knitters and worked unceasingly during the period of the struggle, turning out several hundred pairs of socks for the soldiers.

By one who knew her well, she is described as a true mother, and a sincere Christian. Wherever she went, the young people had her interest, and she won the hearts of children, young men and young women to her. Since her death numerous letters of sympathy have come from little girls whose friend she had proved.

Mrs. Nichols was possessed of a a deep piety, and a simple dignity which proved a great charm. She had the love of education which strongly marks the characters of those who hail from the north of Ireland, and was determined that her children should receive the best education possible. Her illness lasted only about a week, and Mrs. Nichols passed away peacefully, retaining consciousness until the end.

### Bad for Mary Ann

True there are very few places nowadays to which motor cars are strangers. But in certain remote parts of Cornwall a vehicle propelled by any means other than a horse is still a sight to be wondered at. Hence, when Septimus McBrown, during the course of his record-breaking trial from Land's End to John o' Groats, pulled up his huge racing car before the door of a wayside inn and demanded breakfast, a crowd of gaping rustics immediately assembled. "I say, mister," asked one of them at last, addressing the chauffeur, "what drives the car along at such a speed?" "Petrol my man," replied the chauffeur. The enquirer pondered for a minute; then—" 'Ear that George?" he remarked, nudging a friend. "It's petrol what shoves 'er along!" "Aye," was the reply. "Same stuff as what shoved our Mary Ann through the window, and sent 'er slap-bang agin the barn. 'Er were tryin' to light the fire with it, you know!"—Titbits.

### A GREAT PRODUCTION

David W. Griffith's special picture, "The Great Love," which will be shown at the Music Hall under the auspices of he G. W. V. A. is one of the finest ever brought out by that master producer. It has proved a revelation to those who are unacquainted with war conditions in England. The chief roles are charmingly portrayed by such screen players as Henry B. Walthall, Robert Harron and Lillian Gish. Matinee at 2.30 night at 8.15. Seats on sale at Bolster's Drug Store.

### Only One Cure for High Cost of Living

The high cost of living is the greatest material problem of our day.

For the man with a small income, it is a large-sized menace; even for the man with a comfortable income it is a source of continual worry.

The phenomenal rise in prices since 1914 is due to the scarcity of goods brought about by the suspension of production during the war. We have also wasted untold quantities of material for war purposes.

This shortage and this waste must be made good before the world can be again as prosperous as in 1914. Until they are made good, it is useless to expect that prices will materially decline or even remain stationary.

Recognising this fact, many people propose that we get over the difficulty by increasing wages, salaries and profits in the same ratio as the advance in prices. If this were possible, the effect would be the same as reducing prices to pre-war levels. Ultimately, this may take place, but certainly not soon.

The "day-light savers" realized that they could not get the public to perform every act of the day one hour earlier than usual, so they innocently deluded us by advancing the clock. It worked, because there was no fundamental law against it. But we cannot cheat ourselves over the cost of living in the same manner. Increasing wages without augmenting production sends up prices and leaves real wages unimproved.

What does the higher cost of living really mean? Sweeping aside the camouflage of prices expressed in currency, it means this; That we must now put forth greater effort and work harder to obtain the same satisfactions. There is no cure for it but economy and increased production.

It is not in the nature of the average human being to economize in what is lightly come by, nor to work any harder than is necessary to obtain a comfortable living.

Therefore, the high cost of living is not only natural, but necessary at the present time. Let us face this blunt truth bravely and apply ourselves patiently to work and to save—the only remedy.

### The School Teacher

(Philadelphia Bulletin)

A school teacher is a person who teaches things to people when they are young. The teacher comes to school at 8.30 o'clock and when she has gotten enough children for a mess in her room she teaches them reading, writing, geography, grammar, arithmetic, music, drawing, deep breathing, bird calls, scientific eating, patriotism, plain and fancy bathing, forestery, civics, and other sciences too numerous to mention. When school is out, she stays behind with five or six of her worst pupils and tries to save the job of reforming them later on. After that she hurries home to make herself a new dress, and snatch a hasty supper before going back to attend a lecture by an imported specialist on the history of tribal law in Patagonia which may be useful in her school work some day. A great many lecturers roam the country preying on school teachers, and some of them are very cruel, talking to them so long that the poor things have to sit up until morning, when they get home to get their daily test papers corrected. School teachers salaries range from $50.00 a month up—but not far enough up to make them dizzy. On her salary the teacher must dress nicely, buy herself things for work, which the city is too poor to get, go to twenty-nine lectures and concerts a year, buy helpful books on pedagogy, pay her way to district, county and state institutes, and enjoy herself at summer school during a three months' vacation which her salary takes every year. In addition, the teacher is supposed to hoard away vast sums of money, so that when she becomes too nervous and cross to teach, at the age of fifty or thereabout, she can retire and live happily ever afterward on her income.

### Value of the Hands

In many cases of accidents surgeons have to estimate the chances of saving injured hands and the comparative value of hands and fingers. According to a scale of values furnished by the miners' unions and miners' accident insurance companies of a European country, the loss of both hands is valued at one hundred per cent. in the ability to earn a living. Losing the right hand depreciates the value of an individual as a worker seventy per cent. while the loss of the left hand represents from sixty to seventy per cent. of the earnings of both hands. The thumb is reckoned to be worth from twenty to thirty per. cent of the earnings. The first finger of the right hand is valued at from eight to thirteen and a half per cent. The middle finger is worth from ten to sixteen per cent. The third finger stands least of all in value—although, like other useless members of the community it is surrounded by riches, its value is only from seven to nine per cent. The little finger is worth from nine to twelve per cent. The difference in the percentages is occasioned by the difference in the trade; the first finger being, for instance, more valuable to a writer than to a digger.—"Canadian Insurance."

## TRIAL IN YOUR HOME

*The World's Greatest Phonograph Value*

## EDISON'S NEW DIAMOND AMBEROLA

Quick! Read this through and grasp this extraordinary opportunity *today!* This remarkable offer is the result of Mr. Edison's expressed wish to see a phonograph in every home in Canada.

He has given his consent to this *Free Trial* of the Amberola *in your home.* There are absolutely no "strings" to this offer. You do not have to pay or promise to pay one cent in connection with this Free Trial. You are not placed under the slightest obligation.

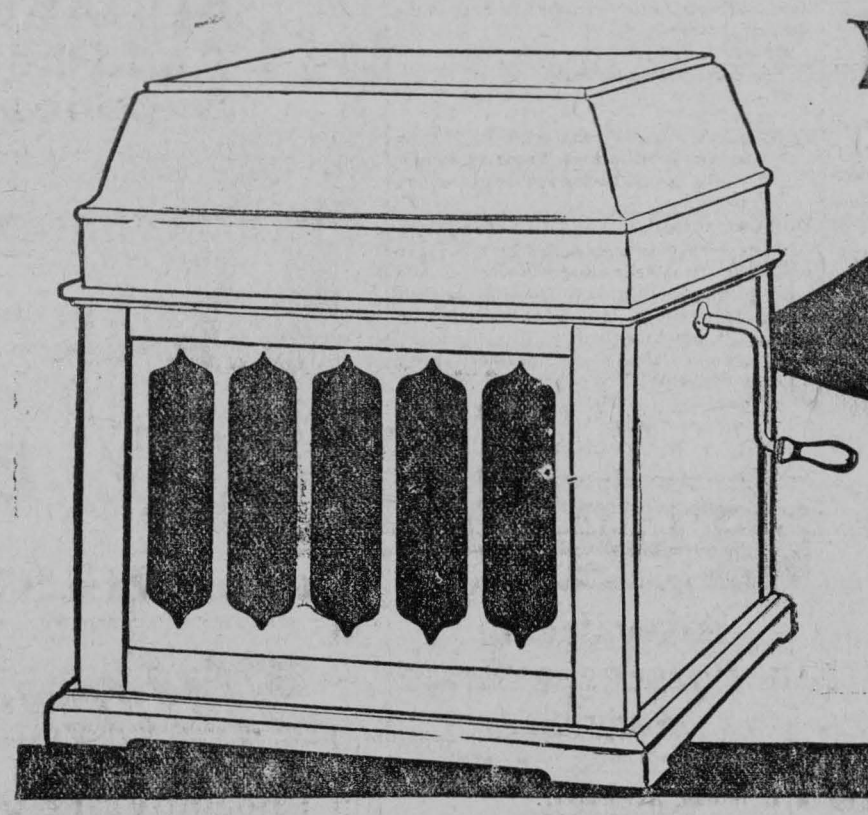

Come to our store today or tomorrow, pick out your Amberola and a dozen Amberol Records. We will deliver them promptly to your home. Let the Amberola entertain you for *three days*—ample time for careful judgment and comparison. At the end of the three days' Free Trial if you do not want the Amberola we will call for it—and *thank you* for giving the Amberola this trial. If you *do* want it, we will arrange terms of payment to suit you.

How can Amberola dealers *afford* to give these Free Trials? Because in the overwhelming majority of these Free Trials, people *never want to part with the Amberola!* Edison's great inventive brain has made the Amberola so *superior* to ordinary phonographs and "talking machines" that in those three days of Free Trial it sings its way into peoples' hearts and homes forever!

Numbers of people will instantly avail themselves of this Free Trial offer. If *you* do not act *at once* we may have to put you on a waiting list. So let us hear from you *right away!*

### QUEEN ALEXANDRA FILM
**Noble Women of England Shown in "The Great Love."**

It is not often that a motion picture producer can call to his aid the services of a Queen and women of the most exclusive nobility of England. But David Wark Griffith, producer of the famous "Birth of a Nation," "Intolerance" and "Hearts of the World", has succeeded in accomplishing this in "The Great Love," his photoplay will be shown at the Music Hall Chesterville, under the auspices of the G. W. V. A. with special orchestra and vaudeville.

In this photoplay, Queen Alexandra and many titled ladies are seen engaged at their various duties in hospitals and on their estates—some scrubbing, some mopping floors, others engaged in attending convalescent soldiers while others do menial work, but which they do not deem degrading, because it is necessary for them to do their bit in order that the cause of world democracy may triumph. Matinee doors open at 2.00 performance at 2.30 night doors open at 7.30 performance at 8.15. Seats of sale at Bolster's Drug Store.

On Saturday last an ardent football enthusiast flew from New York to Montreal to see the big game between Toronto University and McGill. The trip was made in five hours and eighteen minutes.

Allandale, Ont., has made a protes because Cobden has been given the honor of the first soldier's memorial hall to be opened in Canada. Allandale claims to have originated and carried through the memorial hall idea as early as September 1919.

During September four children were burnt to death, each as a result of playing with matches. Regrets of no avail. Children are fascinated by fire, and uuless matches are kept where children cannot get at them, many more tragic deaths will occur. These were other people's children: yours may be next.

Every day almost accounts are published in the press of large seizures of liquor smuggled into the United States across the St. Lawrence from Canada. The Massena Observer says that about 200 secret service men will shortly be sent to the river frontier to round up the business, especially in the winter when crossing on the ice is easy.

The Galbraith correspondent of the Almonte Gazette writes. "We know all about the sugar tree and we have heard of the wine tree of Africa, but it appears that there are honey trees in Galbraith, as Mr. John McGuire has taken his winter's honey out of a tree and he says he knows where there is another to cut down".

The youngest Victory Bond purchaser in the 1919 issue in the Brockville, Leeds and Grenville unit is Miss Pauline Marion Gill, daughter of Captain and Mrs. Robert J. Gill of Brockville. The little girl was born Tuesday morning at 5 o'clock and her grandfather, Mr. John M. Gill, made a gift to her of a Victory Bond, which is registered in her name.

The farmers of Morrisburg and vicinity have under consideration a plan proposed by the management of the Waddington, N.Y., condensery whereby the cheese factories in the Morrisburg district will be closed and the milk shipped across the line to the condensery. Under this arrangement the Morrisburg cheese factory will be disposed of to the Waddington interests who propose to make it a milk terminal. Mr. McKay, manager of the plant, further said that he was prepared to subscribe 51%, a controlling interest, towards the establishment of a condensery at Morrisburg.

### Bull Caught by Motor

Mr. James Sinclair, salesman for Stonehouse Bros., gave a remarkable exhibition of catching a wild bull on Main st., one day last week. The animal, owned by Mr. Wm. Slack, broke loose at the M. C. R. track and ran west for dear life. Mr. Sinclair, whom it passed when in front of Stonehouse's garage, jumped into a McLaughlin car and gave chase. He overtook the animal at Garfield Ave., and steering the car with one hand, reached out with the other and caught the bull by the ring in its nose and held it until its owner arrived.—Petrolia Advertiser.

## Have You Discovered

the importance of asking for sugar by brand name? Do you realize that to have a sugar which will give unfailing satisfaction in preserving, in baking, and for all sweetening purposes, you should ask for—and insist on getting Dominion Crystal Sugar.

Women who use this brand have found it to be all that a sugar *should* be—pure, sparkling, finely granulated. And it is with satisfaction they realize that this finest of sugar is "Canadian from the ground up." A large part of the output of our three modern refineries, is obtained from raw cane sugar—but our pride is in that increasing proportion of our output which is made from Canadian sugar beets.

**Try a 20-Pound Bag**

Most grocers have Dominion Crystal Sugar in 20-pound bags as well as in barrels. They take pride in selling this superior Canadian product. Ask your grocer for it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

H. P. Allison of Inkerman, was taken to Cornwall hospital last week.

Next year 1920 will be Leap Year. Easter will come early—on April 4th.

Miss Lenna M. Wallace, formerly of Iroquois and Wilbur Leslie of Killam, Alta., were married Nov. 5th.

In the Washington State egg-laying contest, just closed the champion a single combed White Leghorn laid 311 eggs in 365 days.

Two hundred dollars damage by fire was done to the Presbytery of the church of the Sacred Heart at Alexandria last week.

Mr. J. Guise Bagley, a Peterboro lawyer, was arrested on a warrant charging him with manufacturing liquor and also having a still in his possession.

Alexandria has been given a plan by the Hydro-Electric Commission whereby it can be linked up with the Eastern Ontario system and power supplied before the end of next year.

Col. J. Wesley Allison of Morrisburg, has been elected president of the Morgan Chemical Company of Ogdensburg, organized for the manufacture of disinfectants and fungicides.

Stanley Tennant, collector of customs at Iroquois, has resigned. The position will be given to a returned man, probably Curtis Lazerte, a one-armed soldier living west of Iroquois

King Segis Pontiac Alcara the $50,000 prize bull, owned by John H. Arfman, was killed by swallowing a nail, according to the report of veterinarians, made Monday. The animal died Saturday.

Mr. McKay of Waddington, who a few weeks ago offered to put up slightly over half of the money required to start a milk condensery in Morrisburg is now reported to have made his investments in Potsdam.

The barns and outbuildings belonging to Mason Thorpe, near South Mountain, were entirely destroyed by fire when the flames from a smudge fire in the hen house caught in straw above. The insurance was light.

It will be a surprise to both townspeople and country people to know that manufactured products of Ontario last year totalled $1,560,000,000, as to a total of $500,000,000 for farm produce. Ontario is the manufacturing province of the Dominion, as well as being the banner province for agriculture.

One hundred real "egg layers" on each of the 750,000 farms in Canada is the slogan adopted by a poultry club just formed at Winnipeg, as announced by R. J. Young, secretary. Allowing a net profit of a dollar per hen this would mean an annual revenue of $75,000,000 he declared. An elaborate campaign to forward this project will be waged.

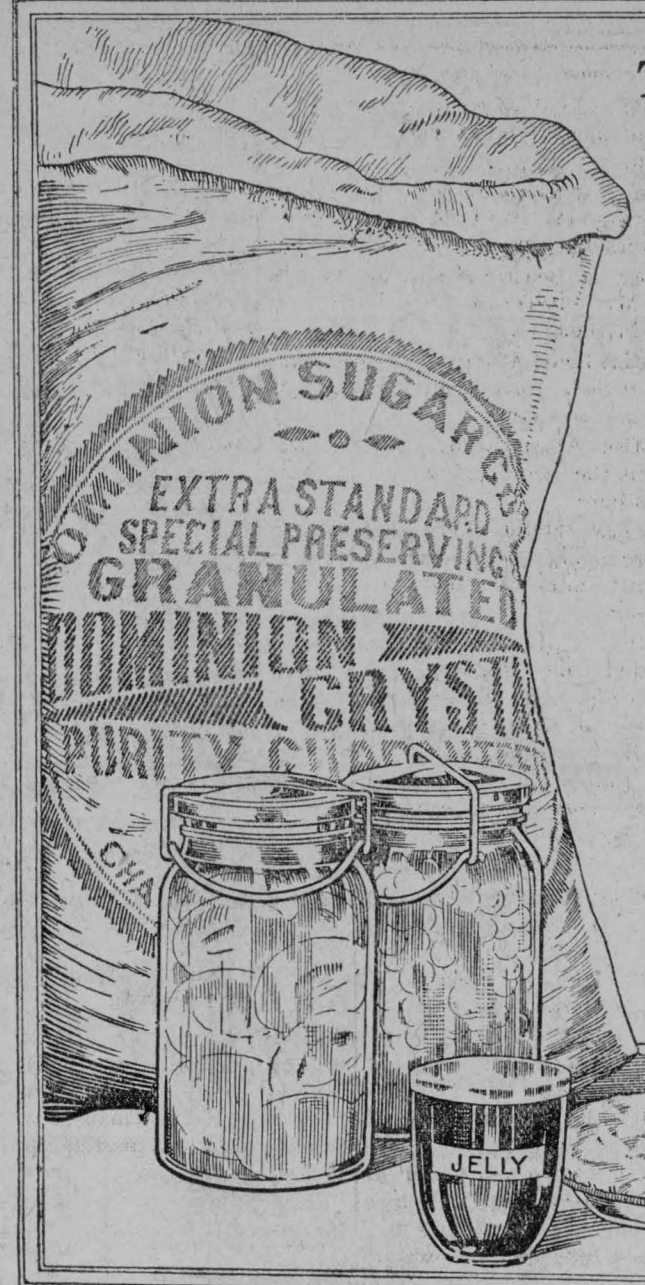

William Carlisle, train bandit, walked into a Western Union telegraph office while scores of heavily armed men searched the surrounding country for him, and sent a telegram to the Union Pacific railroad office in Cheyenne, thanking the railroad for the money he secured from passengers on the Los Angeles Limited train which he held up near Medicine Bow, Tuesday night.

Arguing that Bert Carruthers had slandered him by a statment that plaintiff had made a profit of $9 a ton on twenty-five tons of feed and had made hundreds of dollars out of farmers by profiteering, Reuben Phillips, a farmer of Downsview, is claiming $5,000 damages. Both men are members of the United Farmers' Club No. 287, Donsview, of which Carruthers is secretary.

Rev. William Merrilees, of Blakeney, has received a call to become minister of the Presbyterian congregation of Iroquois. He has not yet replied, but there is little doubt that he will accept the call. Mr. Merrilees has ministered at Blakeney for over six years. He is a Scotsman who received a portion of his University education at Glasgow and finished at the Presbyterian College, Montreal. He is regarded as a very able preacher. He is married.

Wire fences as deer catchers are the latest. A man up at Copper Cliff caught a deer the other day, which had become extangled in a wire fence. Another old hunter in the same locality lost his nerve when he met a rather large bear and beat a retreat, despite the fact that he had a 38 Savage in his hands. And the fact seemed somewhat strange when the same hunter has dropped several bruins in his hunting experiences.

One of the largest transactions in connection with Canadian Holstein-Friesians is the recent sale of the entire herd of W. C. Stevens, Philipsville, to J. C. Regan, of Tully, N. Y. The Stevens' herd, one of the finest in the province, comprised 88 animals, and all changed hands, one of the best animals in the lot being the choicely bred herd bull, Sir Riverdale May Echo Lyons, a half brother to the great May Echo Sylvia, the world's champion cow, owned by A. C. Hardy, Brockville.

# *The Refinement of Purity*

CAREFUL cooks know the value of purity. In the making of cakes or pastry they use those ingredients which they believe to be pure and wholesome.

To apply this "insistence on purity" to sugar, is no easy matter—for nearly all sugars look alike to those not expert in detecting variation. The safe course is to use a sugar that comes from refineries in which purity is a boast.

In the Dominion Sugar refineries the boast is backed by a standing invitation to the public to visit and inspect the plants in which Dominion Crystal Sugar is made.

In Dominion Crystal Sugar the housewives of Canada have one sugar that can be depended upon for that Purity which is so essential to successful culinary effort.

This is the only sugar that may be rightly termed "Canadian from the ground up." We do import the finest raw cane sugar and refine it—but our pride is in the product we make from Canadian sugar beets.

*In Memoriam*

In loving memory of Hiram Rombough who died with influenza in Taber, Alta., Nov. 24th, 1918.

Often we think of you dear Hiram
And our hearts are sad with pain,
O this earth would be like heaven
Could we but hear your voice again.
Just one year ago you left us.
How we miss your smiling face,
You have left us to remember
No one on earth can fill your place.
WIFE AND CHILDREN.
