If you're one of those who likes music without snaps, crackles or pops...

...then you'll love the incredibly pure sound of a Realistic® CD-2400 compact disc player. After hearing your favourite tunes played on this perfect performer, you'll realize this is the way they were meant to be heard — without any annoying hisses and scratches. Tri-Spot laser tracking, coupled with the "floating" disc tray, provide you with precise operation and the ultimate in sound reproduction. Not only that, but you can program up to 15 of your favourite songs to play in any order! Also, when you load a disc, the LED display indicates the number of selections and total playing time of the disc, then shifts to the current selection number and gives you elapsed time as the disc plays. And with the auto search, you'll have quick access to the selections of your choice. Listening to the CD-2400, the only background noise you'll hear will be the sound of you — cheering! Come in and hear it today. 42-5009

Electronic keyboard can turn you into a musical master

- Create music from ordinary sounds recorded from built-in microphone
- Memory records, stores tunes for playback

249.95 ~~299.95~~

Let your fingers roam over this terrific 4-note polyphonic portable keyboard. Melody guide system is an easy way to make sure you always stay "in the groove". Musical ROM packs provide a wide selection of songs for playing along or listening. And you can add up to 8 preset tones and 10 rhythms or various sample sounds. Or program unique special effects. Easy as 1, 2, 3! 42-8010
