Rotary Hears Dr. R. L. Jones

Addressing the Rotary club of Chesterville at their regular meeting last Tuesday night, Dr. R. L. Jones of Marietta College, Marietta, Ohio, spoke on the presidential campaign now in progress in the United States.

Guests of the club for the evening to hear Dr. Jones were Mr. G. C. Lacey, Editor of the Chesterville Record and Mr. J. Sutherland, new member of the Chesterville High School teaching staff.

In his opening remarks, the speaker referred briefly to the similarity of the points of view as expressed by politicians both in this country and in the United States. He made the point that issues became much more live when inspired by the hopes of election.

The candidates in the running to be President of the United States next came under the scrutiny of Professor Jones. President Truman, in the speaker's opinion, was not likely to be re-elected. The party which he represents is in eclipse partly because of their long tenure of office and also because not enough fresh young members of the party have come to the top during the last few years to replace the older men who were swept into power fifteen years ago. Thomas Dewey, Governor of New York States is the favourite candidate at the moment. As leader of the Republican Party he is riding on the tide of change that seems to be running in American politics.

One of the so-called "splinter parties" which is not really such a small movement as is believed, is the States Rights group headed by Candidate Governor Thurmond of Georgia. A split has occured in the Democratic ranks on the question of equality of races and many of the Southern States have refused to back President Truman who is advocating sweeping Federal legislation to equalize the treatment of opressed groups with special emphasis on the Negro of the South. In the speaker's opinion, the States Rights group were not so much interested in the minority's problem as they might be in tide-land oil rights. If that were the case, it would account for the seeming abundance of ready cash that is available to the small new party.

The speaker introduced by H. Keith Graham, was thanked by Harvey Cillies.

RUTH GRAY MARRIES DR. BRUCE COOPER

At high noon August 25th, in Stewarton United Church, Miss Ruth Eleanro Gray, daughter of Mr. and Mrs. J. E. Gray, and Dr. Bruce Montgomery Cooper, son of Mr. and Mrs. C. M. Cooper, were united in marriage by Rev. Dr. F. S. Milliken at a quiet wedding ceremony. Pink and white gladioli were used in decoration and the wedding music was played by Miss Thompson.

Given in marriage by her cousin, Mr. Rae Hirst, the bride was unattended.

The bride wore a street-length gown of leaf green satin, with a matching satin hat trimmed with a brnze ostrich plume. She carried a cascade bouquet of yellow roses.

A reception was held at the home of the bride's parents, after which Dr. and Mrs. Cooper left for the New England States. For travelling the bride wore a copper brown gabardine suit with dark brown accessories. They will reside in Montreal.

Out-of-town guests were Mr. and Mrs. C. M. Cooper, East Angus; Mr. and Mrs. K. Dichow, Miss Gertrude Bibby, Mrs. George Bregent of Montreal; Mr. and Mrs. I. P. McIntosh of Winchester.

POTATOES ARE ON THE MARCH

Friday last a basket of very fine Cobblers was received by the editor to augment the return from his own potato patch which was decidedly disappointing this year. Mr. Wilfrid Hutt of Morewood, whom it is said has the finest garden within the limits of Morewood district, was the grower of the potatoes and whom we very heartily thank for the gift.

Claude McColl checks in with three cobblers weighing four pounds collectively.

Mrs. John McLean proved that the village potatoes are equal to country size this morning when she brought a sample to this office that measured fourteen and three quarters inches the long way by eleven and three quarters the other.

HANDSOME DONATION

During the week-end Dr. Justus made it known that a donation of one thousand dollars had been made by Mr. O. D. Casselman to the funds of Winchester District Memorial Hospital, which will be used for adding a bathroom to one of the larger rooms.

Council Holds September Meeting

The regular meeting of the Chesterville Council was held last Tuesday evening in the clerk's office with Reeve Chas. McMillan in the chair and Councillors McMillan, Turner and Hamilton present.

In discussing hydro business it was decided to ask the public to co-operate with the local commission in the conservation of electricity. The supply of power is in short supply again as it was last year, and it is hoped that if adequate measures are taken in time strict regulations will not be necessary in the later winter. A notice will be found in these pages stating the commission's wishes.

It was stated that approval will be forthcoming for the allotment to construct the hydro storeroom and municipal workshop.

After reading and approval of minutes Council passed a resolution that any authorized inspector of the Canadian Underwriters Association would have council's permission to send in a fire alarm for test purposes without first notifying members of council, the reeve, or any municipal offcer.

The contract for the rental of the Community Theatre was signed with J. R. Maxwell.

The clerk was authorized to purchase much-needed "Slow" signs for the approaches to the village schools.

Rotary Fun Fair Fine Frolic Bill Barker Bags Double

The Rotary Fun Fair wound up last night with a "whoop and a holler" on King Street that swelled the coffers of the service club with a tidy sum. The weather man was kind and in spite of threatening clouds nothing dampened the ardour of the crowd except when someone else yelled "Bingo". Games and refreshments were plentiful and the ladies of the W.I. reported a rushing business in "dogs" and pop.

At mid-night the drawing was held for the grand prizes. The new washing machine was won by Bill Barker of town, and his wife copped third and won a fine set of silver. Second prize of a radio went to P. J. Jackson and the tri-lite lamp went to St. Albert's to Jno. Lamasse. The spare ticket drawn was in the name of J. P. Elwood but it was invalid as all prizes drawn were picked up.

Winchester Twp. Council Meets In Morewood

The regular meeting of Winchester Township council was held in the Presbyterian Hall, Morewood, on Monday the 6th day of September with all the members present. The minutes of the last regular and special meeting were adopted as read and signed by the reeve.

The clerk was instructed to have a by-law prepared regulating the construction of buildings within ten rods from any road in the Township of Winchester, and also to have a by-law prepared prohibiting the dumping of rubbish on or along township roads.

Council decided that where the road needs widening and the property owner gives the land free, the council will furnish the posts, pay 60% of the labour in erecting a new fence and pay twenty cents per rod on woven wire.

By-law No. 742, a by-law to obtain the opinion of those qualified to vote in the Township of Winchester on a grant of $20,000.00 to the Winchester and District Memorial Hospital to be paid in twenty equal annual installments, was finally passed, signed and sealed.

By-law No. 743, a by-law to set a date, name polling places and to appoint Deputy Returning Officers to conduct the plebiscite on the hospital grant, was finally passed, signed and sealed.

The following accounts were passed and paid: Roads and bridges, $971.87; Drainage, $6,181.44; Refund taxes, $35.50; Auditing, $390.00; Relief and charity, $50.44; Sheep killed by dogs, $60.00.

Council adjourned to meet in Chesterville on Monday, October 4th, at 10.30 a.m.

HIGH SCHOOL IMPROVEMENTS PASS INSPECTION OF SCHOOL BOARD

With all alterations all but completed in the High School, the members of the school board made a visit of inspection Tuesday night to view the finished work.

The old tin ceilings have been removed and replaced with squares of fibre board. The walls of the classrooms have been covered with the same material in long strips joined by a v-joint. All the paint work has been given a bright new coat and varnish has renewed the grained surfaces.

The lighting system has been completely revamped. The wattage has been increased nearly fivefold in the class rooms and possible eye strain from poor lighting has lessened considerably.

Class enrolments are up a great deal over last year, with total enrolment expected to reach nearly 140 by the end of the week.

Catholic Women's League Holds Regular Meeting

The regular monthly meeting of the Chesterville Sub-Division of the C.W.L. was held in St. Mary's School on Friday, September 3rd, with Mrs. Michael Curran presiding. The meeting was opened in prayer by the Director, Rev. Father S. Lesage.

Reports were given by the various committees and new committees formed for the ensuing month. Arrangements are being made so that members may make their annual retreat in Ottawa in the near future.

The First Annual Provincial Convention of the C.W.L. will be held in Toronto on September 15th and 16th and Mrs. Francis Moriarty will attend as a delegate from the Chesterville Sub-Division.

Convenors were appointed for the bazaar and plans are well under way to make this affair enjoyable to all.

Education begins the gentleman, but reading, good company and reflection must finish him."—Locke.

Milk Producers Seeking Higher Returns

Messrs. Frank Casselman, Sheldon Ball and Allison Graham this week attended a meeting in Toronto of the Concentrated Milk Producers of Ontario, the main theme of which was an increase in the return received by the producer for his milk. The cost of producing milk, like almost every other product has increased very much in the past year or two. An economist retained by the association reports that present-day costs of producing a hundred pounds of milk are now in the neighbourhood of $3.50. With this in mind the present price of milk is too low, in the opinion of the producers, and the association executive was instructed to bargain with the processors in an endeavour to secure the cost of production for the concentrated milk producers of Ontario.

NOTICE TO HYDRO CONSUMERS

The Chesterville Hydro Electric Commission is responsible for the implementing of all power regulations affecting the local electric system.

The power allotment for the Municipality of the Village of Chesterville, Monday to Friday inclusive, will be 5400 klowatt hours. Power used in excess of 5400 kilowatt hours will make the Municipality liable for a power shut-off at specified times.

The cooperation is desired of all local consumers in conforming with the restrictions of electricity that go into effect on September 14th, 1948.

TO THE RATEPAYERS OF CHESTERVILLE

With reference to the vote that will shortly be taken in this village on the matter of a proposed fixed assessment for the Nestlé's Company of $140,000., it might be well to call the attention of all ratepayers to the following facts, in order that consideration of same may enable all those eligible to know what they are voting for and why.

First, it must be remembered that the plant of the Nestlé's Milk Products Company (Canada) Limited in our village is the only manufacturing plant of this company operating in Canada. Chesterville well knows the value of having such a plant, located as we are in the heart of one of the best Dairy Districts in the Dominion. We know, down through the years, what it has meant by way of employment to so many of our people and what a payroll of more than $5,000. a week means to every person living here. We know, too, the value of the helpful co-operation given by the Company in so many worth-while undertakings in the village. Let Nestlé's Company close down for even a month and try to picture what that would mean, even in Dollars and Cents, to hundreds of our residents.

What may not be so well known is that other towns not too far away from Chesterville, seeing the great value of having such a large and improved factory in their municipality, have offered no small inducement to Nestlé's to transfer to their town. How many people of Chesterville would have welcomed the news that Nestlé's was going to leave?

Instead of being influenced by these inducements, the Company decided not only to remain here but to enlarge their plants, to completely remodel their equipment, offices, warehouses, etc., and to put Chesterville on the map in much larger letters by the added manufacture of Nescafe. Such expansion means that the volume of milk required will provide an immediate and constant market for a radius of 40 miles around. Does that mean anything to Chesterville? Ask the first ten business men you meet and see what their answer will be.

And lastly, it may not be known that this proposed fixed assessment does not apply in the case of School Rates and Local Improvements as the law does not permit a fixed assessment to apply to those rates. This means that for school and local improvement purposes, Chesterville will benefit in taxes on an assessment of $200,000.

Council is unanimously in favour of granting this fixed assessment and asks all ratepayers to support it by turning out and voting in favour of the By-Law.

CHAS. McMILLAN, Reeve.
HARRY C. HUMMEL, Clerk.

HANDS AT WORK... *for ONTARIO*

LEARNING MACHINE ASSEMBLY

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security . . . and we and our children can have more of the better things in life. But to produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by industry. They receive ON THE JOB training under expert instructors in our Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts the veteran on the road to skilled craftsmanship. In assembling business machines, for example, veterans must have a thorough knowledge of electricity and must learn to perform intricate work on precision machines having thousands of separate parts. These Canadian-made business machines are sold in all parts of the world, creating new wealth for Canada and Ontario. Therefore every effort of these newly skilled veterans helps to make Ontario a finer place in which to live and contributes to the welfare and happiness of all her citizens.

Church News

MOREWOOD UNITED CHURCH

The services at Morewood United Church on Sunday were conducted by the minister. The scripture lesson at the morning service was taken from Mark 10:32-45 with the text from verse 45, "Even the Son of Man came not to be ministered unto but to minister and to give his life a ransom for many." The glory of work is that it has a redemptive quality. God gave man work to do in order that he might save himself. In the story of the fall recorded in Genesis chapter three the earth was cursed for man's sake, making it necessary for him to toil in cooperation with nature and God to rebuild his shattered world. This is still man's task and in its faithful discharge there is the glory of a task well done. The solo, "Lord, How Much More" was rendered by Miss Erla Steinburg of Ottawa. The theme of the evening service was the Pearl of Great Price. Matt. 13:45-46, "The Kingdom of Heaven is like unto a merchant man seeking goodly pearls, who when he had found one of price went and sold all that he had and bought it." The seeking of goodly pearls of home, food, friendship and rightful fame leave the soul still restless and ill content. The pearl of great price is the salvation of the soul which pearl may be possessed by all who sincerely seek it in Christ Jesus". Miss Ellice Smith presided at the organ.
