Save Systematically

Haphazard, occasional saving seldom accomplishes much. It's the steady, persistent, regular depositing of so many dollars a week, or month, or season, in the Union Bank of Canada, which makes one financially independent. The money accumulates all the more rapidly, too, because of the Interest which is added every six months.

Address and Presentation at Chesterville Public School.

Early in the term the pupils of Chesterville Public School exacted a promise from Inspector Brown that he would visit them at the close, and refused bidding him good-bye until then. He kept his promise and was present on Friday afternoon, the 20th.

An impromptu programme had been hastily prepared, and recitations, songs, dialogues and readings were given by the pupils of all forms in the Principal's room where all were assembled. The pupils, young and old, acquitted themselves admirably. The speaking was good and the singing excellent. The rendering of "Canada" would have done credit to a trained teacher.

At the conclusion an address from teachers and pupils was read by Master Bobs Lawson, and a valuable club bag presented to Inspector Brown, and a box of rich cut flowers for Mrs. Brown, herself an old teacher, and therefore heartiiy in sympathy with teacher and pupils.

Inspector Brown replied that while he appreciated the gifts of the teachers and pupils, he felt more grateful for the kind words of their address. He had always received a friendly welcome from the pupils of Chesterville P. S., and he was sorry to bid them good-bye as their Inspector. He appealed to the boys and girls to be strong and lay well the foundation of their character which is the world's best heritage. He would still be their friend and would always be glad to hear of their successes in life.

After which the pupils marched out each giving the Inspector a farewell hand shake.

Bank Of Ottawa Report

In every particular the 38th annual Report of the Bank of Ottawa is the best ever issued by that institution. The net profits amounting $640,000 are the largest in the Bank's history, the total assets amounting to almost $51;000,000 make a new high mark, while the dividend increases throughout the year, the gain in paid-up capital, reserve fund and deposits, make the report a somewhat remarkable one.

The Bank now pays a Dividend of 12 per cent per annum, having increased it from 11 per cent, during the year. The strong position which it occupied, enabled it during the year to issue stock at a premium of 100 per cent, which brought the paid-up capital to $3,-825,000 and the rest account to $4,-325,000 this Bank being one of the few institutions whose rest account is greater than its paid-up capital. The total deposits of the Bank now amount to over $38,000,000, there being a gain of over $4,000,000, during the year. A feature of the report is the large proportion of Dominion Notes, specie and other quickly available assets which the Bank possesses. These bear a very high rate in the total liabilities. The total assets now stand at $50,-909,000, which makes the Bank of Ottawa a force to be reckoned with by the financial institutions in the Dominion.

Limerick Public Schuol.

On Friday Dec. 41th, the following address was read by Nellie McCloskey while Jennie Merkley presented the teacher with a handsome, silver fern bowl:—

Dear Miss McBride:

We, the pupils of your school take this opportunity of expressing our sincere regret at your departure from our midst.

Although you hav been with us but a short time you have endeared yourself to both parents and pupils. Your gentle manner and exceeding kindness toward each and every one of us have won you a warm place in our hearts.

It is hard for us, dear Miss McBride, to tell you how much we appreciate the great efforts you have put forth to help us for we know that we must have tried your patience sorely at times, but we hope that you will understand how much we regret your leaving us.

We only trust that in your new field of labour you will not forget us, and that the future will bring you every happiness and success.

In bidding you farewell, we ask you to accept this small present as a slight token of the love and esteem of the pupils of S.S. No. 9, Winchester.

Signed on behalf of the Pupils and Parents.

TRINITY METHODIST CHURCH

CHESTERVILLE

Minister, - - REV. W. H. STEVENS,

Sabbath Services:
Public Worship 10.30 a.m. and 7.00 p.m.
Class Meeting 10 a.m.
Sunday School and Bible Classes 2.30 p.m
Senior Epworth League, Monday, 8 p.m.
Prayer and Praise Service, Wednesday Evening, 7.30 o'clock.

Strangers Cordially Welcomed.

Special Services Close at Elma.

On Sunday evening last Mr. J. Ritchie Bell, manager of the Sailors' Institute, Montreal, and well known Evangelist, brought to a close a very successful series of meetings which have been held at Elma for the last three weeks. From the human standpoint his fine voice in solo singing and in the leading of the choir and congregation was all that was needed to attract people to the services, but his masterful handling of the scriptures, his simple but straight presentation of Gospel Truth, his convincing arguments and telling illustrations, added to the fact that he lifted up "Jesus only" not only brought the people twice a day to the services but won many of them, especially young men and women to swear allegiance to the Great Commander, the World's Saviour. Not soon will the hundreds who packed the Church on Sunday night forget that last service and it is hoped that the impressions made not that night only but all through the meetings will bring about a great change in the lives of many who manifested no desire to turn over a new leaf as well as those, the forty or more, who did.

There is a probability that these services will be re-opened early in the New year, under the direction of the pastor, at the urgent request of a number of his people.

N.B.:—As this exam was based largely on Jr. entrance work only those pupils making 70 per cent or over have a fair chance of qualifying as entrance candidates at the Easter test exams. However much mayyet be accompish'd and a reasonable amount of supplementary work done at home. In order that the children suffering from physical defects may not be over-crowded, homework is always optional. But parents should see that this work is not slighted except where impracticable, as children progress much more rapidly when doing some supplementary work at home.

MONTREAL LIVE STOCK.

MONTREAL, Dec. 23.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending Dec. 21, were 1250 cattle, 1300 sheep and lambs, 2200 hogs and 350 calves. The offerings on the market this morning for sale consisted of 750 cattle, 700 sheep and lambs, 1200 hogs and 150 calves.

There was no important change in the condition of the market for cattle, prices being steady, owing to the fact that the supply was small, but it was quite ample to fill all requirements, as butchers and packers in most cases bought sufficient stock last week to provide for the holiday trade, consequently the demand was somewhat limited and trade on the whole was rather slow.

The offerings of sheep and lambs was small and the tone firm, at unchanged prices. Demand was good. The trade in calves was quiet. In hogs the feeling was firm with a good demand from packers and an active trade was done in this line at last week's prices.

Butchers' cattle, choice, $6.50 to $6.75; medium, $5.50 to $6.50; common, $4.25 to $4.70; canners, $2.50 to $3; choice cows, $5.25 to $5.50; medium, $4.75 to $5; bulls, $3.50 to $4.50; milkers, choice, each, $80 to $90; common and medium, each, $70 to $80; springers, $55 to $65.

Sheep—Ewes, $4.60 to $5; bucks and culls, $4 to $4.25; lambs, $6.75 to $7.

Hogs—F.O.B., $8.75 to $9.

Calves—$3 to $12.

EAST BUFFALO LIVE STOCK.

EAST BUFFALO, Dec. 23.—Cattle—Receipts, 3800; fairly active, 10c to 15c higher; prime steers, $8.75 to $9; butchers, $6 to $8.40; bulls, $4 to $6.50; stock heifers, $4 to $4.50; shipping, $7.50 to $8.65; heifers, $4.75 to $7.50; cows, $3 to $6.25; stockers and feeders, $4.75 to $7; fresh cows and springers, steady at $35 to $75.

Veals—Receipts, 800; active and 50c higher at $4 to $10.50.

Hogs—Receipts, 14,500; active; pigs, 10c to 15c higher; heavy, mixed and yorkers, $7.60 to $7.65; pigs, $7.65 to $7.70; roughs, $6.75 tto $6.90; stags, $5.50 to $6.25; dairies, $7.50 to $7.65.

Sheep and Lambs—Receipts, 14,400; active, sheep, steady; lambs, 30c higher; lambs, $4.50 to $8.65; yearlings, $4 to $6.50; wethers, $4.75 to $5; ewes, $2.50 to $4.25; sheep, mixed, $3 to $4.50.

CHICAGO LIVE STOCK.

CHICAGO, Dec. 23.—Cattle—Receipts, 10,000; market, steady; beeves, $5.60 to $9.65; Texas steers, $4.50 to $7.50; western steers, $5.40 to $7.60; stockers and feeders, $4.25 to $7.40; cows and heifers, $2.75 to $7.50; calves, $6.50 to $9.75.

Fell Four Thousand Feet.

A tragic balloon experience was that of Brownlow. Accompanied by another balloonist, he made an ascension from St. Louis in 1902. The balloon rose rapidly to a height of about 4,000 feet. At this point Brownlow leaned over the side of the car to adjust some rigging. A sudden change in the wind, a lurch of the car, and Brownlow fell over the edge of the basket and, with a cry that his aerial comrade said would haunt him to his death, shot downward toward the earth. The balloon, thus lightened, sprang upward with a great leap, and Brownlow's companion lost consciousness. When he recovered the balloon was in full descent, and he managed to find the valve cord and so deflate it as to make a safe landing. Of Brownlow no further trace was ever found.—New York Tribune.

Wanted to Be Prepared.

A congressman tells of a little shooting party which he attended.

"More than one of the party," said the congressman, "felt a trifle nervous about a certain young Englishman as he and his gun seemed strangers. Nothing occurred, however, until I felt something poking me in the side as we crept along. Turning quickly, I found the novice prodding me with the muzzle and fumbling with the hammers of his gun.

"'Hi, Gus,' he whispered, 'before we get on to the birds you might just show me 'ow you let these 'ere triggers down!'"—Boston Traveler.

Onion Soup and Fame.

Membership in the French academy, the hoped for reward of Gallic writers, was once closely associated with onion soup. During the restoration in France a club was formed under the title of "Diner de la Soup a l'Onion." This organization contained twenty members. It met every three months, when the dinner was opened with an onion soup. The club was to endure until every associate was elected to the academy. This was accomplished in 1845, when the last banquet was held.

Alfalfa and Silage.

A 1,000 pound cow should be given thirty to thirty-five pounds of silage per day and permitted to eat alfalfa hay at liberty. With this amount of silage such animal will consume seven to ten pounds of alfalfa per day. This will for all practical purposes make a satisfactory and economical milk producing ration. In cold weather for the general good of the cow feed a little grain in the barn. Grain fed is good any time.

Festival, Christmas Night, Great Success

The exercises in connection with the Festival and Christmas Entertainment of the Trinity Methodist Church Sunday School were carried out in a most successful and highly pleasing manner on Christmas night before probably the largest audience that has ever assembled in the Music Hall, upwards of 700 being present. The programme which consisted of 29 numbers, including choruses, songs, instrumental solos, recitations, drills, dialogues, duets, quartettes, trios, etc., was of such a character as to hold the interest unto the end, at times provoking heartiest applause.

Among so many numbers practically all of which were of such a pleasing character it would be difficult to particularize and we must be content by saying that on the whole the programme fully sustained the reputation already established by the youths of the village and school. The participants in these exercises, those who assisted in preparing the programme which necessitated practices and rehearsals stretching over several weeks, as well as the officiary of the school, must feel highly gratified that their labors resulted in giving so much pleasure. The proceedings concluded a little before 11 o'clock with the singing of the National Anthem.

The following is the programme:

PROGRAMME:

1.--Chorus ..... "A Song the World is Singing" ..... The School

Farewell to Melvin Teacher.

The pupils of the Melvin scoool preseted their teacher, Miss Garvin, who is leaving, with a travelling companion, well bound in leather, the presentation being made by Bessie Greer, while the following address was read by Emily Melvin:—

Dear Miss Garvin:—

We feel forry that we are called upon to sever our association with you. During the two years you have endeavoured to instil knowledge into our minds we have found you greatly interested in our welfare, both mental and physical. Perhaps at times we have not done our best nor seemed to appreciate your efforts in our behalf, but we hope you will forget this. We wish you to carry away only pleasant associations as we shall retain the same of you.

We wish to present you with this travelling companion as a slight memento of our affection for you, and appreciation of the efforts you have put forth for us. You have our good wishes wherever your lot may be cast.

Farmers' Institute Directors Meet at Winchester.

At a meeting of the directors of the Dundas Farmers' Institute, held at Winchester on Monday last, the following motions were moved, seconded and passed:—

Moved by Hugh Marquette, seconded by Arthur Christie, that Andrew Kennedy, representing auditing committee, be authorized to arrange for the transfer of the funds of the Institute, amounting to $407.11, to the new Sec,y-treas.

Moved by Andrew Kennedy, seconded by Hugh Marquette, that the Secretary be instructed to pay to Mrs. Fox the sum of $25.00, being full balance of late Sec'y-treas. salary at date of his death.

Moved by Hugh Marquette, seconded by Peter McIntosh, that Secretary pay the customary $5.00 fee for affiliating with the Ottawa Fat Stock Show.

Moved by Andrew Kennedy, seconded by Peter McIntosh, and resolved that we, the undersigned directors of the Dundas County Farmers' Institute in session assembled, do hereby adopt and cause to be recorded in the minute book of the Institute and published in the press of the county, the following resolution, viz:—

That whereas, previous to his death, the late Mr. Jas. P. Fox had acted in the capacity of Sec'y-Treas. of this Institute for upwards of 20 years, with great ability and unvarying faithfulness and integrity, and had by his zeal and perseverance in the face of many discouragements, been largely the means of raising our Institute to its present proud position amongst the Institutes of the province.

And whereas we recognize that his influence as a progressive farmer, as a christian man of exemplary habits, unimpeachable character and pure mind, as a man of great courtesy, broad, sympathetic and unlimited toleration for the views, convictions and creeds of others, as a man whose material success in his chosen vocation clearly demonstrated that farming can be made a lucrative occupation without salary, and that the farmer's calling is one in which any man who is worthy of that great calling may approximate the ideal manhood on all sides, the intellectual, the moral, the physical and the material, and as a man whose practices and conduct the young men of the county might well be proud to endeavor to emulate, as such a man we recognize the far-reaching beneficence of the influence of his life upon the agricultural community of the county generally and upon the members of the Institute particularly.

We recognize, that in all these qualities he stood alone, without a peer in his native county and therefore, we, the aforesaid directors of this Institute, representing and in behalf of the members of said Institute, desire by this means to express our appreciation of those many excellent qualities of head and heart and to preserve and perpetuate his memory in the records of our Institute.

Manitoba College used a CLIMAX on land rank with wild mustard; got rid of that bad weed; and grew oats 71 inches in the straw *without a weed in the whole crop!* The CLIMAX certainly does destroy weeds!

Easy Handled

Each pole has a tilting lever; and these, with the pressure lever — all in easy reach of operator — exactly regulate depth of cut. Teeth go right for the roots of the weeds, and rip them out of the soil.

This is the stiff-tooth cultivator that gets the weeds OUT of the soil—not merely cuts off their tops or just tickles the roots a little. On dirty land you surely need the

PROVIDING WATER FOR DAIRY COWS

No other animal needs and utilizes as much water per day as does the cow in heavy flow of milk. Furthermore, the quantity of water the cow takes usually tells us whether she is a good or a poor cow, says L. W. Lighty in National Stockman. If you water your cow with a pail or by any means by which you can measure the water you will soon notice that your big milkers will average eight, nine and even ten gallons, and if you have large cows and extra milkers they will drink considerably more. The cow will not take these large quantities at one drink, yet many people give the cow only one opportunity to drink in twenty-four hours. Here water is the limiting factor, and cows kept under such conditions usually waste a lot of feed because they have not the liquid to assimilate it.

Water is the most inexpensive part of the ration, and why a man should limit the quantity and lose some of the more costly ingredients seems mysterious, but doubtless that man has never thought that water is the most important part of the cow's ration. Water costs very little and air nothing at all, and yet many cows suffer for want of both from fall until spring.

Any person who pretends to be a dairyman should have some system of

watering the cows in shelter under conditions that prevent the freezing of the drinking water. One system is feasible at one place and a different one at another. The basins or individual drinking cups may be ideal for this man, while the concrete continuous trough before the cows, with water running through it parts of the day, is ideal for the other.

The farmer who does not feel that he can afford these fixtures, though they need not be expensive, can have a barnyard on the south side of the barn, well drained, with a solid bottom, and in this a water tank for the cows to drink at leisure. In this tank must be a tank heater in cold weather to keep the water from freezing. All sides of the yard should be protected with ricks, and on the north side a temporary straw or stover roof should be made for shelter on very bad days. If the cows are let out into this yard at 9:30 a. m. and left in this yard until 3:30 p. m. every day with plenty of water in the tank kept from freezing with the water heater they will fare quite well. Cows yarded must, of course, be dehorned. A tank heater costs so little that in bad weather it pays for itself in a few weeks. The average farmer's cows are better in the yard in daytime if left out regularly than in the stable he has, unless it is an unusual stable.

The Farm Work Horse.

The proper caring for farm horses begins with the careful selection of farm work, avoiding the use of light horses for heavy work or of extremely heavy horses for work which could more easily be done by horses of lighter weight The horse which is not suited for its task is so heavily handicapped that no care that can be given it can altogether compensate for the natural inefficiency. Lack of comfortable stabling, the essentials of which are little more than fairly roomy quarters in a dry, light, well ventilated shelter which protects the animal from heat in summer and from cold in winter, may interfere with the horse's greatest usefulness. A comfortably bedded stall is a great boon to the tired horse, and such a bed should be supplied as will encourage the horse to lie down during much of the night. Wet bedding, uneven stall floors and extremely narrow stalls are circumstances that too often interfere with the comfort of the horse.—Farm Press.

Gestation Period of Ewes.

The gestation period of the ewe, or the time she carries her lamb, is between 145 and 150 days on the average. Ewes bred the middle of October are due to lamb the middle of March—a good time for lambs to come if good shelter is available. If shelter is poor, however, it is better for the lambs to come the last of March A tried ram is of great value in insuring the time for the lambs to arrive. It is a great disappointment to have lambs coming for a period of six weeks.

Winter Dairying.

That fall fresh cows and fall and winter dairying are the most profitable is evidenced by the experience of dairymen who have made money from milking cows. Every dairy experience reporting an unusual success involves winter dairying. This in itself is all the proof the farm dairyman needs.

VICTIMS OF STORM.

Two Schooners Reported Lost In West Indian Tempest.

MOBILE, Ala., Dec. 24.—The British schooner Georgiana, with ten passengers and a crew of five, foundered off Jamaica, in trying to make that port during the November Gulf storm, and all on board were lost, according to despatches received here yesterday. The British schooner Cartagena has not been heard from since Nov. 17, and it is believed that vessel, with her crew of seven, also has gone down.

The Georgiana was a two-masted schooner, which had traded among the West Indies for over twenty-five years, and which had made regular visits to the various ports in the Gulf coast. She sailed from Montejo Bay, Jamaica, on Nov. 16, for Cayman, Brac, with a cargo of merchandise.

The Cartagena also was a two-master, a regular trader between the West Indies and Gulf ports.

TRIED HARD TO DIE.

Actress Made Seventeen Attempts on Her Life.

MONTREAL, Dec. 24—Investigation into a charge of loitering lodged against Hazel E. Cook, an actress, who gives her home address as Spokane, Wash., revealed the fact that during the past three weeks she has attempted to commit suicide seventeen times, and on each occasion her attempt has been frustrated.

Miss Cook came here to act at the Theatre Royal in a stock company, but lost her position. Four times she was found preparing to jump into the St. Lawrence, once she drank coal oil, and on a number of occasions jabbed herself with scissors, once nearly opening a vein in her arm.

Yesterday morning she was arrested by the police clambering over a parapet preparatory to jumping from the Mountain Lookout.

Use Your Influence for Concrete Roads

There's no need to point out the advantages of good roads.

The *kind* of good road, however, is another matter.

It used to be that there was little choice. Macadam for the country and smaller cities was the only material used. Then, twenty years ago concrete was introduced. And for these twenty years ***concrete has been proving itself.***

It is now acknowledged to be one of the best known materials for roads or for street pavements—to be as far superior to ordinary macadam as macadam is superior to sand.

Estimating the Cost.

It is not the first cost of a road that determines it's real cost; nor is it the first six months of service that determines whether it's a good road or a poor one.

The only sure way to find out what a road has cost, is to add to the first cost all that is spent for repairs in fifteen or twenty years.

Now, that's where concrete roads win every argument—their first cost is practically their only cost; they require little or no upkeep cost. Concrete, instead of needing repair, actually becomes stronger with age.

How You Can Help.

You can help your community to come to a wise decision the next time the question of roads comes up. *Your* influence will be a factor in providing yourself and your neighbors with thoroughly satisfactory highways.

We wish to convince *you* first—we know that when you are "backed up" with facts which we will gladly furnish you, you will be able to convince your neighbors.

Make it *your* business to get these facts. We have a special department which will not only give you the facts, but will also supply valuable assistance to any community desiring to build concrete roads.

Ask for "Good Roads Literature" or use the coupon.

Please send me the facts about concrete highways.

VICEROY NEARLY SLAIN

Bomb Thrown at Lord Hardinge Kills Attendant.

State Entry Into Delhi Is Marred by an Outrage In Which the King's Representative In India Is Seriously Wounded—May Be a Mark of Moslem Resentment Over Change of Capital.

DELHI, India, Dec. 24.—Lord Hardinge, Viceroy of India, was wounded, and an attendant of his killed by a bomb hurled at the Viceroy from a housetop as he was entering the new capital in state yesterday.

The bomb-thrower's attempt to kill Lord Hardinge came within a hair's-breadth of being successful.

The motive for the attempt is a mystery on which it will be impossible to hazard a guess until it is known whether the miscreant is a Hindu or a Mussulman. It is not known as yet whether the bomb-thrower has been arrested. Fears are expressed that it may have been a manifestation of Moslem resentment at the British occupancy of the ancient Mohammedan capital of India. It is asserted that a warning reached London some time ago to the effect that some violence would be attempted by Mohammedans on the occasion of the state entry of the Viceroy into Delhi.

The viceroy was making his entry in state into Delhi, as the last of the ceremonies in connection with the transfer of the capital from Calcutta to Delhi. The transfer was made in October last, but Lord Hardinge was not to take formal possession of the new quarters until yesterday. A large gathering of troops, officials and Punjab chiefs was present, to welcome the vice-regal party. Its splendid elephant procession had just left the railway station, passing through Chandal Chowk, when the bomb was thrown. It was hurled by a man standing on a housetop, and it struck the howah, or basket, of the Viceroy's elephant, in which he and Lady Hardinge were riding.

Three splinters of the powerful bomb penetrated the back and shoulders of Baron Hardinge, and he was also wounded in the neck by the screws with which the bomb was filled and which passed through his helmet.

The doctors who removed the metal splinters from the wounds declare that it was marvellous how the Viceroy escaped more serious and even fatal injuries.

The Viceroy tried to stand up, but reeled and fainted, and the officials who gathered around had much difficulty in removing him from the elephant's back. The Viceroy and Vicerine were assisted to alight from the howdah and placed in motor cars, one of which conveyed the Viceroy to the hospital and another the Vicereine to the official residence.

The native standing behind the Viceroy and Vicereine holding the Imperial umbrella, was blown from his position to the ground and instantly killed, while the driver sitting in front of the howdah was wounded in no fewer than eight places.

True British tradition that nothing can be allowed to interfere with British policy in India, the celebration of the inauguration of the new Imperial capital was proceeded with almost immediately.

Sir Guy Fleetwood Wilson, financial member of the council of the Governor-General in India, took the Viceroy's place in the procession which then proceeded on its way through the new Imperial city to the Durbar camp where a great number of rajahs and other Indian chieftains were gathered. Sir Guy then took up his position in front of the vice-regal dais and read aloud a despatch from Baron Hardinge saying that he was only slightly injured by the missile of a fanatic. The reading of the message was received with prolonged cheering.

Immediately after the attempt at assassination, the police surrounded the house from which the bomb was thrown. All outlets from the city were placed under strict guard.

Coming on the day of the change of the seat of Indian government from Calcutta to Delhi brought about owing to political unrest in Bengal, deep significance may attach to this attempt upon the Viceroy's life, though he himself has characterized it as the work of a fanatic.

An official report of the injuries to Baron Hardinge, issued by his surgeons last night, says that a portion of the projectile struck him at the back of the right shoulder and along the inner border of the shoulder-blade. It passed upwards and issued through the skin along the upper line of the shoulder, causing a wound four inches long and exposing the muscle and bone. There was no injury done to the Viceroy's lungs.

Uncle Sam Welcomes Immigrants.

NEW YORK, Dec. 24.—Twelve hundred immigrants from all parts of the world, detained on the threshold of the new world, were given a taste of Uncle Sam's Christmas cheer yesterday that increased their anxiety to enter.

From two big Christmas trees in the dining-room on Ellis Island gifts were distributed to every man, woman and child. Five clergymen made addresses in as many languages, and the entertainment ended with a dinner, in which figured ice cream and other dainties strange to a large majority of the guests.

The Sow to Discard.

Pig flesh is more rapidly and cheaply made than any other form of pork, hence feed the sow liberally and stimulate deep milking qualities. Discard any sow that is a poor milker, for poorly nourished pigs will be poor pigs in spite of other good environments.—Farm Journal.

Put Color in the Butter.

Fall and winter butter made on the farm is naturally white. It is our idea that it should be colored by the use of pure veegtable color to resemble as closely as possible June butter, says Kansas Farmer. Uniformity in butter, both as far as color, salting and flavor are concerned, is always desirable and adds to the market price. There is no harm or deception in the coloring of butter, and to do so is worth as much to the farmer who has a butter market to take care of as it is to the creamery. The creamery would be sure to lose its customers if it furnished them with yellow butter in summer and white butter in winter.

THE BANK OF OTTAWA

THIRTY-EIGHTH ANNUAL MEETING

The thirty-eighth Annual Meeting of the Shareholders of the Bank of Ottawa was held on Wednesday, the 18th day of December 1912, the President, Mr. David Maclaren in the chair.

Report of the Directors

The Directors have pleasure in submitting the Thirty-eighth Annual Report and balance sheet to 30th November last.

Balance at credit of Profit and Loss Account on 30th November, 1911, was	$118,167.44	
Net profits for the year ended 30th November, 1912, after deducting expenses of management, and making necessary provision for interest due to depositors, unearned interest on current loans and for all bad and doubtful debts and contingencies	640,220.43	$758,387.87
Appropriated as follows :		
Dividend No. 82, Two and three-quarters per cent., paid 1st March, 1912	$ 96,250.00	
Dividend No. 83, Three per cent., paid 1st June, 1912	105,000.00	
Dividend No. 84, Three per cent., paid 3rd Sept., 1912	105,000.00	
Dividend No. 85, Three per cent., payable 2nd Dec., 1912.	113,182.74	
Applied in reduction of Bank Premises and Furniture	54,395.49	
Transferred to Officers' Pension Fund	15,000.00	$488,828.23
Balance carried forward at credit of Profit and Loss Account		$269,559.64
The Rest Account on 30th November, 1911, was		$4,000,000.00
To which has been added premium on new stock issued.		325,480.00
		$4,325,480.00

The Directors have to record with great regret, the death during the year of Mr. H. F. McLachlin, who became a member of the Board in 1910. Mr. Russell Blackburn of Ottawa, was elected to fill the vacancy on the Board.

Since the last Annual Meeting, branches of the Bank have been established at ;

Danforth Ave., Toronto; Englehart, Ont.; Hintonburg, Ottawa; Ricevil.e, Ont.; Robson St., Vancouver: Scarth St., Regina; St. Isidore, Ont.; Westboro, Ont.

The branches at Ossington Ave., Toronto, and at Timmins, Ont., have been closed.

Commencing with the quarterly dividend payable at the beginning of June last, your Directors deemed it advisable to increase the rate of distribution to twelve per cent per annum, and they trust that the Bank's business may continue to justify the payment of a dividend at this rate.

Under the authority given by bylaw on 11th December, 1907, the Directors decided to issue on 3rd September last five thousand shares of new stock at a premium of One hundred per cent. Of this issue 3,578 shares have been subscribed for.

Permanent premises have been secured during the year for the occupation of the branches at Sudbury, Tisdale, Danforth Ave. and Ashdale Ave., Toronto, and the increase business at Winnipeg has rendered necessary the purchase of a piece of land at the rear of the premises owned by the Bank in that City, and occupied by the branch there since 1893, on which is being erected an extensive addition to the office.

The completion of buildings in progress at the time of the last Annual Meeting accounts largely for the balance of the increase in Bank Premises.

The Head Office and branches have been inspected as usual, and the independent audit alluded to last year has been continued, as will be seen from the certificate furnished by Messrs. Price, Waterhouse & Company at the end of the Balance Sheet.

The officers of the Bank continue to perform their duties to the satisfaction of the Directors.

DAVID MACLAREN, PRESIDENT.

GEORGE BURN, *General Manager.*

We have examined the books and accounts of the Bank of Ottawa at its Head Office and at five of its principal Branches, and have been duly furnished with certified returns from the remaining Branches, and with all information and explanations required by us. The Bank's Investments and the Securities and Cash on hand at the Branches visited were verified by us as at the close of business, November 30th, 1912. Allies State Demand and Turks Will Consider.

LONDON, Dec. 24.—After several days of preliminary skirmishing in accordance with the cherished traditions of Oriental diplomacy, the Turkish delegates yesterday faced the real attack of the allies at the fifth meeting of the Peace Conference which has as an object the settling of the war between the Balkan allies and Turkey.

The victorious allies laid their most important cards on the table. These were in the form of territorial conditions which they had agreed to impose on the Ottoman Empire. The demands as set forth were:

First, the cession by Turkey of all the territory west of a line starting from a point east of Rodosto, on the Sea of Marmora, to a point in the Bay of Malatra, on the Black Sea, and excluding the peninsula of Gallipoli, Albania's status to be decided by the powers.

Second, the cession of the Aegean Islands occupied by the Greek forces in the present war and by the Italians in the recent war.

Third, the cession to Greece of all Turkish rights in the Island of Crete.

The Turkish delegates secured an adjournment until Saturday to consider the demands. In the informal conversation with the delegates they asserted that it would be impossible for them to accept such terms, but that statement is inevitable in meetings of this character, and was expected.

The allies did not reveal yesterday the financial proposals which they will make to Turkey, reserving them for a future meeting.

The territorial profits of the war which the allies will divide are the same as those published in the despatches Dec. 14, with the exception of the arrangement of the powers made for Albania. The allies will recognize the autonomy of Albania under the suzerainty of the Porte, but not its sovereignty. Albania will become what Crete was and what Egypt is in its relation to Turkey. The Sultan will be the nominal ruler, but without political, administrative or military power. He will have the right to raise his flag in Albania and appoint a resident governor, but only for the purpose of ratifying the decisions of the local government.

TURKS DEFEATED.

General and Chief of Staff Are Killed In Battle.

LONDON, Dec. 24.—The Morning Post yesterday publishes authoritative Greek account of the recent fighting at Epirus, according to which Ali Riza Pasha, the Turkish commander at Janina, and his chief of staff, Djavid Pasha, both were killed and the whole Turkish artillery in the Sangoni Pass fighting were captured by the Greeks. The despatch says that the expedition against Goritza, which was commanded by the Greek crown prince, experienced tremendous difficulties owing to the bad roads and the mountainous country and that it was extremely hard to obtain supplies.

A special despatch from Athens says the Greek army, advancing on Janina has suffered a check and that reinforcements have been sent out.

Love Remanded.

OWEN SOUND, Dec. 24.—Henry Love, the Ceylon man who is held in the county jail here pending further development on the charge of murdering his wife, was yesterday formally remanded for a week by Magistrate Menzies of Owen Sound. The son, Arnold Love, has told the authorities one point of which he apparently did not speak at the inquest. On Monday evening preceding the disappearance of Mrs. Love, just before he retired he noticed a butcher knife lying on the window ledge in the kitchen. This, he says, is about all that he forgot to tell at the inquest.

Cause of Riot Fined.

BRANTFORD, Dec. 24.—Sanford Maracle, the Indian whose arrest caused the riots here Saturday night, was fined $30 in the police court yesterday on the charge of doing damage in the Brantford Cafe. He was remanded to jail on the charge of drunkenness. Charley Walley, the young man said to have been a ringleader in the riot, was remanded. He admitted being drunk, and stated that he remembered nothing of the proceedings. Special constables will be sworn in for the remainder of the holiday season.

Couldn't Find Wound.

TORONTO, Dec. 24.—Although before he died Frank Langstaff, aged six, son of the caterer to the Ontario Legislature, told his mother that he had been struck on the head by a playmate a few hours before, two doctors were unable to find traces of the blow. Frankie Langstaff's home was at the Parliament Buildings, where he was idol of the hundreds of people working there. He died suddenly yesterday morning after having been ill only a few hours.

Cornwall Passes Bylaw.

CORNWALL, Dec. 24.—By a vote of 517 to 89, the ratepayers of Cornwall yesterday gave their assent to the agreement entered into by the town council with the Stormount Electric Light & Power Co. for the supplying the electric light and gas to public and private consumers at a reduced cost over that which has been in force for some time.

CHAMBERLIN INDICTED

President of G.T.R. Is Charged in U.S. With Conspiracy.

Chairman Smithers Is Also Named In Proceedings Against G.T.R. and New Haven Line—The Allegations Made by Grand Jury Include "Quiet Meetings" In Effort to Restrain Trade.

WASHINGTON, Dec. 24.—Attorney-General Wickersham will follow up the indictments of officials of the New York, New Haven & Hartford Railroad and Grand Trunk Railroad with immediate consideration of the question whether civil suit should be instituted to restrain the two roads from pursuing their alleged combination in violation of the Sherman anti-trust law.

The men indicted are Chas. E. Mellen, president of the New York, New Haven & Hartford Railroad; E. J. Chamberlin, president of the Grand Trunk Railway of Canada, and Alfred Smithers, chairman of the Grand Trunk board of directors. The indictments were due largely to the oral testimony of the numerous witnesses, which the attorney-general said had developed more than he had anticipated.

The penalty for the crime charged, which is alleged to be a violation of section 1, of the Sherman anti-trust law, is one year in jail, a fine of $5,000 or both. Mr. Mellen and Mr. Chamberlin, upon being notified of the indictment, promised the federal authorities, through their counsel, that they would appear at one o'clock this afternoon to enter their pleas.

Mr. Chamberlin is already in New York and Mr. Mellen will come from New Haven. Mr. Smithers is now in London. It is believed by the federal authorities, however, that he will sail for this country as soon as he hears that an indictment lies against him.

"A quiet meeting" between Mellen, Chamberlin and Smithers in New York on August 5, 1912, is named in the indictments as the time and place at which the defendants first "engaged in an unlawful combination and conspiracy to prevent the construction and completion" of the proposed extension of the Grand Trunk Railway system in New England and the operation of the Grand Trunk steamships between Providence and New York. Two other meetings, it is alleged, were afterwards held, also in New York, one on Sept. 20, 1912, and the other on Oct. 1, 1912, for the purpose of completing the alleged conspiracy.

Underground Stream Bursts.

BERNE, Switzerland, Dec. 24—Hundreds of workmen engaged in constructing the Montdor tunnel through the Jura Mountains, between Italy and France, had a narrow escape from death yesterday when the pick-axe of one of the workmen opened a powerful subterranean stream.

The laborers fled before the greater mass of water which spurted up into the tunnel at the rate of 150 cubic feet a second, flooding it and the neighboring villages. The damage done by the water is heavy. There were no casualties.

Milk Scarce In Galt.

GALT, Dec. 24.—As the result of scarcity of milk in this section, producers have raised prices. Chief among reasons given for the limited supply is that the big dairy companies of Hamilton and Toronto are coming into the district to get milk. Wagons from Hamilton are collecting milk within miles of Galt and large quantities are shipped by express to Toronto.

Lifeboat Drifts Ashore.

ST. JOHN'S, Nfld., Dec. 24.—An empty lifeboat, which belonged to the Furness liner Florence, wrecked Friday night, has been washed ashore.

The search for the bodies was abandoned at noon yesterday because of a terrible gale which compelled all craft to put into harbor for safety.

France Has Eye on Panama Canal.

PARIS, Dec. 24.—Parliament adjourned yesterday for the Christmas holidays. It will meet again in January to elect a new President of the republic.

The last business transacted prior to adjournment was the adoption of a motion by Representative La Grosilliere of Martinique, asking the Government to put in force urgent measures for securing to the French Antilles the fullest benefits to be derived from the opening of the Panama Canal.

Fight To Unseat Morrison.

WINNIPEG, Dec. 24.—Justice Cameron yesterday morning handed down a decision overruling the preliminary objections to the petition for the unseating of the sitting member, Alex. Morrison, in Macdonald, and the hearing will go on.

Many Want To Be City Engineer.

CALGARY, Alta., Dec. 24.—There are ninety-five applicants for the vacant position of city engineer of Calgary, many of them from Eastern Canada.

There passed away on Sunday Evening at Williamsburg after an illness of about three weeks, Mrs. Frank Dauley, in her 24th year. Deceased, whose maiden name was Ethel Richmire, became the wife of Mr. Dauley about four years ago but prior to which she had spent a number of years in that locality and was loved by all who came in contact with her. The sermon was preached in the Methodist church by Rev S. F. Newton, after which the body was interred in the Williamsburg cemetery.

"Browns Nurseries are famous for their fine Peach, Apple, Plum and Cherry trees. They have the best nursery soil in Canada and are the largest growers of trees in the Dominion. All scions and bud-sticks are cut by one man and he has been in their employ many years, so no mistakes are made by using wrong scions or buds. Send for catalogue or write for agency, as they have some unoccupied territory in your county. Brown Bros., Browns Nurseries, Welland Co., Ont.

W. Bro. Thos. Wholehan, a member of Chesterville Lodge No. 320, was taken very much by surprise a few nights ago, when he was presented with a past master's Jewel, by the building committee of the new Hall now in course of completion, for his services in connection therewith as overseer. Bro. Wholehan prizes it very much, as anyone should, and he wishes us to express his sincere thanks for the grand gift.

Mr. David L. Collison of Winchester Springs was one of the teachers in Morrisburg on Saturday to take part in the presentation at Inspector Brown's residence. All of the score and more teachers whom he met there heard with regret of his intention to leave for Elmira, in Waterloo county, but were pleased to know that the position he is to take there will be an advancement in the profession for him. At Elmira he will be principal of a 7-room school. Mr. Collison taught for ten years at Williamsburg, leaving there for the Springs seven years ago. He is president of the Dundas Teachers' Institute and has long enjoyed the reputation of being one of the county's best public school teachers.
