Metcalfe Fair Being Held This Friday & Saturday

Plans have been completed for the 91st Annual Exhibtion, to be sponsored by Metcalfe Agricultural Society on Friday and Saturday of this week.

Metcalfe Fair has, for many years, enjoyed the reputation of being the Finest Rural Exhibition in Eastern Ontario, and, according to the presi- Mr. J. E. Woods, this year will be no exception. Increased prize money has been instrumental in attracting many new exhibitors, and the 1947 entry list in all departments promises to create an all-time record. Early entries indicate this.

In previous years, the "Black and White" day has been open only to Holstein Breeders in Carleton and Russell Counties. This year the classes are open and the best Holstein Breeders in the district will be competing with each other for top honours in this particular department of the Livestock Classes.

Features of the Fair on the Second Day will include the Judging of Light and Heavy Horses in front of the Grand Stand; two Horse Races—a 2.29 Class and a Free-For-All, with purses of $175.00 each.

The Russell Band will be in attendance and there will be a good midway with rides, games, booths, etc.

Evening attractions on the second night will include a concert in the Metcalfe Town Hall, and a Dance in the Exhibition Building on the Fair Grounds. A good floor has been laid for dancing, and a popular orchestra engaged.

The Society has purchased a 4-acre lot adjoining the Fair Grounds, and this will be used for the parking of autos.

With fair weather prevailing, there is every indication that all attendance records for Metcalfe Fair will be shattered this year, so if you want to enjoy a good Exhibition and meet your friends, attend Metcalfe Fair on Saturday, September 20th. Program starts at 10 o'clock in the morning and hot meals will be served on the grounds. Admission to the grounds are 35c for Adults, with children being admited Free. Cars 25c.

OBITUARY

THE LATE MRS. MILTON COONS

Winchester Township lost one of its oldest and most highly respected citizens on Friday last, in the passing of Mrs. Milton Coons, whose death occurred at the home of her son, Mr. Sherwood Coons, near Cass Bridge. She was in her 92nd year and had been in ill health for some time.

Born in the Cass Bridge district, she was the former Miss Fanny Bell Cass, daughter of the late Joseph Cass and his wife, Margaret Hughes.

Following her marriage to Mr. Milton Coons in 1889, she resided at Iroquois. In 1902 she returned to the Cass Bridge district, where she had since resided continuously. Her husband predeceased her in 1923. The late Mrs. Coons was a member of the United Church.

The funeral was held on Monday afternoon from the residence of her son, where service was conducted by Rev. Norman J. Thomas, pastor of Winchester United Church. Mrs. Howard Fetterly presided at the piano.

Following the service, interment was made at Maple Ridge Cemetery. The pall bearers were Messrs. Ernest Munro, Thos. Johnston, Jas. R. Johnston, Delbert Link, Byron Dawson and Jas. Bowman.

Survivors are one brother, Mr. Edward Cass, who resides in the United States; one son, Mr. Sherwood Coons, Cass Bridge; and six grandchildren, Mrs. Harold McMenomy, of Inkerman; Mrs. Joseph Hindley, of Rockwood; Miss Fannie Coons, Reg. N., of Guelph, and Miss Ella, Hugh and Fred, at home.

Floral offerings which testified to the high esteem in which the deceased was held, were received from the following:

The family; Mr. and Mrs. W. J. Cass and family; the McMenomy family; Mr. and Mrs. Joseph Hindley; the Howes family; Mr. and Mrs. Ernest Munro; Mr. and Mrs. Jack McDiarmid; Mr. and Mrs. Les. Cass.

LATE MRS. AUBREY HARKNESS

Following an illness of several months, Mrs. Aubrey Harkness passed away at her home at Woodroffe, Ont., on Monday, September 15th. She was 44 years of age on the date of her death, which was her birthday. Born at Spencerville, deceased was the former Miss Pearl Stirtan, daughter of Mrs. Alfred Stirtan and the late Mr. Stirtan. She was educated at Spencerville and attended the Ottawa Normal School. As a young woman, she was engaged in the teaching profession and for several years taught school at Spencerville, Dixon's Corners, Woodroffe and other district schools.

About 12 years ago she married Mr. Aubrey Harkness, of Iroquois district.

Besides her mother and husband, she leaves a daughter, Elaine; three sisters, Mrs. Grace Todd, of Richmond; Mrs. Muriel Black, of Millar's Corners, and Mrs. Verla Martin, of Prescott; two brothers, Everett, of Oakville, and Dr. Clarence Stirtan, of South Mountain.

The funeral is being held this afternoon from the residence of Mrs. Alfred Stirtan, Spencerville, with service in Spencerville United Church. Interment will be made at the Harkness Private Cemetery, Iroquois.

The large number of floral tributes testified to the high esteem in which the late Mrs. Harkness was held.

Barn Destroyed By Fire

Fire, believed to have been started from spontaneous combustion in the hay mow, completely destroyed the large dairy barn on the farm of Mr. W. R. Farrell, one mile north-east of South Mountain, on Saturday evening last. The loss, estimated at $13,000, is partially covered by insurance.

Starting shortly after 7 p.m., the flames consumed the large iron roofed structure which was 100 feet long by 80 feet wide, in which was the seasons crop, about 700 hens, much of the farm machinery, and a quantity of grain and mill feed.

Residents of South Mountain, Winchester, Mountain, Inkerman, and hundreds of others from the rural community fought the blaze and saved the residence, which was quite close to the barn.

The heavy rains which accompanied Saturday night's electrical storms were a factor in saving the house and other outbuildings, and it was not until three o'clock in the morning that the volunteers were satisfied that the danger was past.

Mrs. Farrell said that she had only come to the house from the barn for about half an hour, when she heard her hens making a noise, and when she went to look, the whole of the barn was on fire along its entire length.

WILLIAMSBURG TO SEEK OPEN DEER SEASON

At the regular meeting of the Williamsburg Township Council held recently at Williamsburg, it was decided to petition the Fish and Game Service of the Ontario Department of Lands and Forests, to grant an open season on deer in that township for a period of one week during November. The resolution also asked that the season's licenses be issued to residents only, and that weapons be restricted to shotguns, and that the use of dogs be not allowed.

Week-End Storms Cause Much Damage

A series of electrical storms, which started about 10 p.m. on Saturday night and continued until around 2.30 a.m. Sunday morning, caused many residents of this district to have a bad attack of the jitters. Severe lightning, heavy thunder and cloudbursts of rain and strong winds accompanied the four distinct storms. Hydro service was interrupted at several points, and the local Hydro Staff worked throughout the storm and most of Sunday repairing the damage to transformers, fuses, etc.

Barn At Williamsburg Burned

Struck by lightning at 2.30 o'clock on Sunday morning, a barn on the farm of Stirtan Phifer, two miles north of Williamsburg, was burned to the ground. The loss was estimated at $8000.00.

Mr. Phifer and members of his family were slightly stunned by the bolt, but were able to go to the barn. With the help of a neighbor, Howard Merkley, who was the first on the scene, they removed a horse from the building. A sow and 13 pigs were burned, also about 80 tons of hay and some of the machinery.

The house, pigpen, henhouse and other buildings were saved with the help of passing motorists and neighbors who gathered in large numbers, and formed a bucket brigade, and the heavy rain which fell during the fire helped control the spread of the flames. It was daylight before the danger to the other buildings was past.

Spencerville Town Hall Destroyed.

Edawrdsburg township hall, century-old landmark of Spencerville village, and for 92 years site of the annual Spencerville Agricultural Fair, was destroyed by fire on Sunday morning. Loss is estimated at $30,000, only $4,000 of which is covered by insurance.

The historic old structure was thought to have been set alight by lightning some time during Saturday night or early Sunday morning. A particularly heavy lightning bolt struck in the village at about 2 a.m. and many residents believed it was responsible for the fire.

The blaze was first noticed about 8 a.m. when smoke issuing from the windows and eaves indicated fire was smouldering inside. A bucket brigade was formed and fire fighting equipment rushed from Kemptville and Prescott, but by the time firemen reached the scene, the building was a mass of flames.

Firemen concentrated their efforts to saving the United Church, adjoining the township hall, the United Church and Presbterian manses, both located nearby.

Had the fire started a day later, it would have destroyed the exhibits for the 1947 agricultural fair which were to be set up Monday in anticipation of the fair opening Tuesday for a two-day run.

The building, an impressive old stone structure, was situated on property donated for the purpose by the late David Spencer, founder of the village.

Twenty years ago an annex was built to it, to house the junior classes of the public school. They are now without quarters.

DON'T BE DARED

There are some "experiments" which young people may well avoid. Medical authorities don't wish to curb healthy adventurous spirits, but they do suggest that our young people can well wait for maturity, or even later, before sampling some of the dubious joys of living—for instance smoking and drinking.

It is unwise, the doctors remind the youngsters, to try out the effects of alcohol or tobacco on a "dare." Neither tobacco nor alcohol will increase ability to study nor give any other lasting benefit, and the handling of both requires the utmost in judgment and self-control. Busy students at school are advised to steer clear of such experiments until they are well on the road of life.

Mountain Men Receive Jail Sentences For Armed Robbery

Thomas Hill, 24, Ernest Sullivan, 32, and John Stenerson, 18, all of Mountain Township, were sentenced to one year definite and one year indefinite in the Ontario Reformatory, when they pleaded guilty in local Police Court yesterday to a charge of armed robbery. The court appearance was a sequel to police investigation, following complaints from Mr. Kenneth Cumming, who resides near Hallville, that three men had "held him up" at his home about midnight on Sunday, September 7th.

According to Mr. Cumming, the men called at his home about midnight on Sunday, September 7th, and demanded that he give them money or, he was told, "I'll blow a hole through you." When Mr. Cumming gave them a small sum, he was ordered to produce more, and in all gave the men $30.

Cumming is a cattle buyer and it is thought that the men expected him to have a large sum around the house.

When the "hold-up" was staged, the three men were masked and armed.

REV. JOHN LUCAS, of Toronto, noted Evangelist, who is conducting a series of special services in the local Baptist Church, assisted by Madame L. H. Jones, Internationally Known Contralto Soloist, also of Toronto. The meetings are being held each night this week and will continue until September 26th. Week night meetings start at 8 p.m., preceded by a song service. On Sunday, the hours of service are 11 a.m. and 7.30 p.m. The pastor of the Baptist Church, Rev. Edgar Ferns, extends an invitation to everyone to come out and enjoy these services.

Ministerial Association Met Here On Monday

The September meeting of the Ministerial Association of Winchester and District was held in the Winchester Baptist Church on Monday, Sept. 15, at 10.30 a.m. Members were present from Winchester, Chesterville, Morewood and Vernon. In addition, the gathering was honoured by the presence of Rev. John Lucas and Madame Jones, the Evangelistic Team of the Baptist Home Mission Board of Ontario and Quebec. The chairman, Rev. Wallace MacKinnon, presided, with Rev. Edgar Ferns recording the minutes. Rev. Mr. Ferns conducted the devotional period, assisted by Madame Jones with a message in song.

The subject of "Evangelism" was introduced by the Rev. A. H. Jones, of Vernon. The following are some of the facts as stated: The outstanding enterprise and primary work of the church is evangelism. Evangelism is the earnest effort of the church to win the world to Christ. Evangelism was part of the earthly ministry of our Lord. The early disciples engaged in personal evangelism. A glance back over church history reveals that the primary mission was evangelism. It was the very life purpose of the church. Their appeal was to the individual.

Much discredit has unfairly fallen upon evangelism because of questionable methods used by those who were over anxious for numbers only. The evangelist must witness from a personal experience of the New Birth.

The church must take her place at the Cross of Christ, and preach Christ, so that His Cross will include His personality, His life, His message and His supreme sacrifice.

The sinner must be given a view of his sin to cause him to feel the peril of his position. The sinner must know that unless he is "Born Again" he is eternally lost, and a subject to live among the damned throughout eternity.

The Church must accept the challenge of the hour, and proclaim God's Word.

At the chairman's request, Rev. John Lucas followed with some very timely suggestions from his personal experience as an evangelist.

Some items of importance were discussed, and action taken. The kind offer of Mr. W. F. Workman, of The Winchester Press, was accepted. Several ministers expressed their appreciation of being able to contribute items for "Church News." Rev. N. Thomas was appointed editor, with each individual minister co-operating by sending in their news to him.

At the chairman's request, a motion was presented and accepted re each minister duly appointed to learn how many public schools outside Winchester Village had Religious Teaching. A further item of business was the request of Mr. J. L. Dixon regarding new Hymn Sheets to be used at Funeral Services. The local ministers were appointed to take care of Mr. Dixon's request.

The next meeting of the Ministerial Association will be held in the Winchester United Church on Oct. 20th at 10.30 a.m. The subject, "The Methods of Evangelism" will be introduced by Rev. W. E. Heustin, of Morewood, and Rev. E. Ferns, of Winchester.

SAFE INVESTMENTS

Most people are susceptible to get-rich-quick schemes. An operator with smooth talk about easy money can generally find dozens of customers, whether it be a ten-cent raffle or a big deal. The characteristic of greed which is so common to most people makes us lose our sense of values. We would sooner gamble than make a sound investment. Perhaps that explains why penny stocks are so popular. There are dozens of them offered on the stock markets at prices less than a dollar and which are actively traded. The ordinary chap who doesn't know the first thing about finance probably feels like a Wall Street tycoon when he lays out $200 for 400 shares of gold stock at fifty cents a share. Four hundred shares is a lot of stock, and the beautifully scrolled certificate really looks like something. But what generally happens? The amateur financier finds his fifty-cent stock to 20 cents instead of doubling as he anticipated and his 400 shares are worth a great deal less than what he paid for them. Every day dozens of speculators lose money which most of them cant afford to lose. How much better off they would be if instead of buying 400 shares of penny stock they bought two shares of a nationally known stock at $100 a share and be satisfied with a six or seven per cent. return on the investment. But, as we said, most people are greedy, and there's a "sucker" born every minute.

HOUSING AND CHILDREN

It is a strange reflection on a so-called Christian nation that even greater obstacles should be placed in the path of those hunting homes for their families by those persons who bar admittance because of children. The daily newspapers contain advertisements every day advising of rooms or apartments to rent, but no children allowed.

In spite of the great sacrifices made by thousands of our country's youth overseas, the terrible ordeal many are encountering in attempting to find homes for their wives and families, there are still people who look to the profit side of accommodation available to the detriment of the country's future. Small towns are no exception.

Possibly the greatest gift to humanity is children, in which is wrapped up the future of the country's prosperity and happiness. With the housing situation so serious in Canada, it seems a crime that many families cannot find accommodation because of youngsters.

It is a peculiar thing. But during the war when the future looked bleak and foreboding, many of us were guilty of too much flag-waving and not enough honest thinking and planning for the days ahead. We all knew that housing would become a serious issue, yet many of us were not inclined to do much about it.

DESCRIPTION OF A BOY

If you have boys in your family you'll enjoy this description of a boy.

After a male has grown out of long dresses and triangles, and has acquired pants, freckles and so much dirt that relatives don't care to kiss it between meals, it becomes a boy.

A boy is Nature's answer to the false belief that there is no such thing as perpetual motion. A boy can run like a deer, swim like a fish, climb like a squirrel, balk like a mule, bellow like a bull, eat like a pig, or act like a jackass, according to climatic conditions.

The world is so full of boys that it's impossible to touch off a fire-cracker, strike up a band, or pitch a ball without collecting a thousand of them. Boys are not ornamental; they're useful. If it were not for boys, the newspaper would go undelivered and unread and a hundred thousand picture shows would go bankrupt.

The boy is a natural spectator; he watches parades, fires, fights, football games, automobiles and planes with equal fervor. However, he will not watch a clock.

A boy is a piece of skin stretched over an appetite. However, he eats only when he's awake. Boys imitate their Dads in spite of all efforts to teach them good manners. You can absolutely rely on a boy if you knew what to expect.

Boys are very durable. A boy, if not washed too often and if kept in a cool, quiet place after each accident, will survive broken bones, hornets' nests, swimming holes, and five helpings of pie.

Boys love to trade things. They'll trade fish hooks, marbles, broken knives and snakes for anything that is priceless or worthless.

When he grows up he'll trade puppy love, energy, warts, bashfulness and a cast-iron stomach for a bay window, pride, ambition, pretense and a bald head and will immediately begin to say that "boys aren't what they used to be in the good old days."

EDITORIAL NOTES

A war bride from Jamaica who has never seen snow is looking forward to next winter at Sault Ste. Marie. When she has plodded through the drifts that are to come, she will probably wish herself back in the Caribbean, says the Brockville Recorder & Times.

To listen to researchers proclaiming of the dire events coming over the world fifty years hence, recalls that Great Britain was at such low ebb a hundred years ago that the Duke of Wellington when on his death bed exclaimed: "Thank God I shall not live to see England perish." But England did not perish, and will also overcome present difficulties. Engiand has yet to see her greatest day when she will be the acknowledged benefactor of all mankind. That is her destiny.

There is much ado in the press these days over the controversy of lengthening women's skirts. All over the land, we read of various groups of women declaring their intention of staging demonstrations against fashion. We have often wodered who "fashion" is. Surely it is the women themselves because of the desire for "something different," "something chic," "something from Paris." Women do not have to wear what fashion decrees. Men never do and we feel sure women will receive a lot of support from the mere male when it comes to fighting a return to grandma's ankle-length skirts. This all seems so silly.

Other Editors' Opinions

THAT NEW CAR
(Calgary Herald)

The average Canadian, in buying a new car, involves himself to the extent of something like a year's salary. Unless he has substantial savings, such a purchase is out of the question.

WITHOUT A DOUBT!
(Brockville Recorder & Times)

If Parliament should pass an appropriation for the purchase of one-way tickets to Russia for all the people who prefer that country's system of government to our own we believe it would meet with widespread approval.

WHERE TO START
(Cornwall Standard-Freeholder)

A country's character is a combination of many little things. All of us can think of a dozen of them if we stop to try; and we certainly should. Our own opinion is that it ought to be bred from the bottom up, starting from a pride and interest in one's own community and its history.

CHEAP PRACTICE
(Huntingdon Gleaner)

In the days when American dollars mean so much to this country and the rest of the world, the tourist trade is something that should be catered to and carefully looked after. Unfortunately there are some people who are bent on holding up the tourist through high prices for whatever he wishes to buy.

WANTED, CHEAPER CARS
(Picton Gazette)

Prices of new cars still remain out of reach for the average person's income, and there is indication prices may be increasing in the near future. The lowest-priced car on the market retails now at around $1400. This is more than the working-class people can afford to pay, unless they intend to sacrifice necessities in order to buy a car.

FLY MORE DANGEROUS
(Kitchener Record)

Probably the most dangerous insect responsible for transmission of disease is the fly. Health authorities urge destruction of flies on sight. They pass infection directly from filth to food.

In combatting fly-borne diseases, health officials urge the proper covering and thorough destruction of garbage. Screening, particularly at this season, is also advised for keeping flies out.

SERVICE CLUBS
(Huntingdon Gleaner)

Some people are under the impression that service clubs are merely luncheon clubs where men go and relax and enjoy a bit of entertainment, some enlightenment and sociability of meeting with other men of the community. In part, this is all true, but these men thoroughly enjoy doing things in order that others may have the pleasures of the efforts they collectively put forth.

CONSOLING!
(Almonte Gazette)

While the housing problem is a great hardship to certain people, it should not be forgotten by unmarried men in search of lodgings that many a poet or artist lived in a garret before he achieved fame and fortune. It is even said that the actor, Victor Mature—who annoys many men so much that they purposely mispronounce his name—lived in a piano box in Hollywood when he was trying to break into the movies. A lot of people think it might have been a good thing if he had continued to reside in the piano box.

Some people are able to have clear consciences because they have remarkably short memories.

A Los Angeles girl wants a divorce because her husband told her he was a bricklayer when he was only a banker.

HANDS AT WORK...

LEARNING TAILORING

ONTARIO'S productive capacity is the measure of her future prosperity. To assure the important tailoring industry a prominent place in the industrial life of the Province, trained hands are needed. Skill is important in the cutting, sewing, finishing and other branches of the industry. That is why veterans are being taught its various requirements ON THE JOB, by experts. The transition from apprenticeship to permanent employment means higher wages, job security and better working conditions.

Through plans sponsored by the Department of Veterans' Affairs and other agencies, hundreds of veterans have been trained in schools and ON THE JOB. They will acquire greater skill with further training and experience. Craftsmen of the future, they will have a share in Ontario's progress—an important part to play in her industrial development.

TAILORING

Leo P. Halloran, 26, of St. Thomas, a veteran of 4½ years' service with the Royal Canadian Navy, is shown here gaining practical experience in the alterations department of a large Toronto tailoring firm.

Basic training in various departments of the industry gives the veteran a background knowledge, essential to sales promotion and executive work within the industry.

Telephone People Are Hard to Please

No matter how good the service is, telephone people are always keen to make it better . . . to beat their own record.

Our present programme — largest in our history — calls for more and more lines, switchboards and buildings.

But more than equipment is required — something money can't buy. That is the pride every person in the company takes in continuing to give the best telephone service at the lowest cost.

FLOUR AND BREAD PRICES TO BE INCREASED

Government Withdraws Subsidy to Consumer

CANADIAN housewives will soon be asked to pay higher prices for flour. The Milling Industry of Canada would like to tell why.

Nearly six years ago the price of flour was fixed at the low prices then ruling, based on wheat costing 77⅜c per bushel when milled for use in Canada.

Since then, the price of wheat has advanced step by step, but the Government has paid the difference in the form of a consumer subsidy in order that you might buy flour and bread at no increase.

Wheat has actually risen to $1.58½ a bushel so that for some time past the Government has been paying more than half the full cost.

Now the Government has dropped the subsidy and the price Millers will pay for wheat through the Government Wheat Board will be more than double what it was originally. That is why the cost of flour will be increased.

Furthermore, the cost of bags, other supplies, labour and transportation has increased substantially during the control period.

Canadian Millers, however, knowing the importance of flour in the family diet pledge themselves to keep the price as low as they possibly can.

The prices of practically all ingredients in bread have also risen sharply and your Baker must take this into consideration when calculating his new prices.

OBITUARY

LATE JAMES A. TROY

A general merchant in the village of Hallville for 20 years until his retirement in 1946, James Albert Troy, og 503 Piccadilly Ave., Ottawa, died last Thursday in hospital after a lengthy illness. He was in his 80th year.

The son of the late Mr. and Mrs. Thomas Troy, of Fallowfield, he received his early education there, later attending McGill University. His wife, the former Mary O'Grady, whom he married in Fallowfield 43 years ago, predeceased him last year.

Mr. Troy retired and moved to Ottawa shortly after his wife's death. He was a parishioner of St. George's church and a member of the Catholic Order of Foresters, the Holy Name Society and the League of the Sacred Heart.

Surviving are one son, William T., of Ottawa; one brother, Charles, of Fallowfield; four sisters, Mrs. Mary O'Grady, Mrs. Elizabeth Casey, Miss Mary Troy and Miss Martha Troy, all of Ottawa. Also surviving is one grandchild.

The funeral was held on Saturday at 8.40 a.m. from the parlors of McEvoy Bros., 235 Kent street, Ottawa, to St. George's church for requiem mass at 9 o'clock. Burial was made at St. Patrick's cemetery, Fallowfield.

LATE WILLIAM MARQUETTE

Tribute to the memory of William Marquette, Russell, was paid on Wednesday afternoon of last week at the funeral service, held in St. Andrew's and St. Paul's United Church, Russell. Rev. Thos. McNaught conducted the service. Interment was made in Loucks' Cemetery.

CANADA'S health

DISEASE DEFENCE

Many of the gains achieved on Canada's health front are credited to immunization. Health statistics show a drop in the past 20 years, for instance, from 900 per year to only 270 per year in the Diphtheria rate.

Protection is afforded by science against such diseases as Diphtheria, Whooping Cough and Scarlet Fever, and public health authorities urge all parents to ensure the safety of their children by having them immunized at an early age.

NATURAL MILK

Some of the credit for the survival of the famous Dionne quintuplets goes to mother's milk, according to health experts. The little sisters were given breast milk rushed to their home from Montreal and Toronto, during their first few days of life.

As indication of the premium placed on mother's milk by the medical profession, it is reported that in some United States breast-milk centres, the human product is sold for as much as 35 cents an ounce, or about , Seven Dollars a quart.

CLEAN CLOAKROOMS

Health authorities suggest that more attention should be directed to maintenance of sanitary conditions in cloak rooms and locker rooms, particularly in big institutions, including schools.

There is added danger of disease spreading in untidy and unsanitary closets where the clothing of many persons may be bundled together. In schools, for instance, it is suggested that, where possible, children be provided at least with individual hangers. The ideal would be a separate locker or closet for each pupil. And cloak rooms should be airy and sunlit, to fight possible contagion.

FOOT FITNESS

Excessive perspiration in the feet is often due to the use of shoes which do not allow air to circulate around the feet. Health authorities agree that perspiring feet are sometimes an individual characteristic about which little can be done, but they insist that most sufferers have an easy remedy.

Frequent bathing of the feet will counteract this unhealthy and uncomfortable condition. A good foot powder will also help. Those using public bathrooms and showers are advised to take special care, since this is where many foot troubles originate through the picking up of infection.

HEALTHY HOUSING

The importance of proper spacing in living and sleeping quarters is stressed in a message from Ottawa. This is particularly appropriate at a time when there is undue congestion in living places, and when many educational institutions are crowded.

In boarding school dormitories as well as in rooms and apartments which have to be "shared," the medical people urge attention to the provision of adequate space, so that sleepers will have sufficient ventilation. The more space which can be provided, the less danger there will be of spread of infection.

SURPRISE PARTY

A surprise Birthday Party was held at the home of Mr. and Mrs. Frank Hanes, Vernon, on Saturday evening, September 6th, in honour of the former's sister, Mrs. Dora Campbell, of Edmonton.

About thirty-five relatives were present and enjoyed games and music. The guest of honour was presented with a gift of money.

Mrs. Campbell replied in a few well chosen words, after which all joined in singing "For She's A Jolly Good Fellow." Lunch was then served.

MEET THE HOST OF THE STORK CLUB

Here's your opportunity to read about the fabulous Sherman Billingsley, the former farm boy who now heads the world's most famous night club. Paul Gallico tells Billingsley's story in The American Weekly, famous magazine with this Sunday's (September 21) issue of The Detroit Sunday Times, Michigan's Most Interesting Sunday Paper.

WOMEN'S INSTITUTE MEETING

The September meeting of the Women's Institute was held in the Town Hall on Tuesday evening, with an encouraging attendance.

The President, Mrs. George Wilson, occupied the chair and after the singing of the Ode and repeating the Institute Creed, called on the Secretary, Mrs. William Lannin, to read the minutes of the last meeting, which were very interesting.

Members responded to the roll call by giving a Health or Beauty hint.

After the reading of the correspondence, the president proceeded to deal with the items of business resulting from these letters.

A committee was chosen to canvass for the Blind on Sept. 27th.

It was decided to invite Mr. Chester Robinson to be guest speaker at the October meeting to explain the benefits of the Blue Cross Hospital plan.

Mrs. Mary Bowden and her committee, Mrs. E. Walker, Mrs. Todd, and Mrs. Edward Scott, then took charge of the meeting.

Mrs. Bowden introduced the guest speaker, Mrs. G. A. Stiles, of Cornwall, who gave an intensely interesting address on the work of the Children's Aid Society, describing in detail the wonderful help given to neglected children under its care.

Mrs. Stiles received a very hearty vote of thanks for her interesting address, and also the committee for their excellent programme and for the dainty lunch served at the close of the meeting.
