There was a very large attendance of members and visitors at the meeting of the Women's Institute yesterday afternoon. A paper on "Woman's Possessions' 'was read by Miss Moad, and Mrs. W. N. Fulton contributed a solo. Mr. P. S. Boyd, principal of the Public School, presented the plan whereby milk will be supplied to the pupils of the Separate and Public Schools.

Ancient Pistol and Skeleton Found Near Hess Factory

While moving stone on the farm his family has occupied for more than a century, Mahlon Hess, whose home is near the Hess factory, north of Williamsburg, found a pit in which were human bones and an old pistol, which led to the assumption that it was the burying place of some predecessor of the United Empire Loyalists, who settled around Williamsburg durinng and after the American Revolutionary War.

Three feet from an old log house, built by Mr. Hess' grandfather, was a pile of field stone which the present proprietor decided should be removed. When he and his son moved the rock, they found beneath a hole seven feet deep and three feet wide, completely walled in with stone.

Carefully removing the silt which had filtered into the hole, they found human bones in such a position that they believed a body had been lowered into the shaft and left there standing erect. Near the bones was a pistol, badly corroded, but with some of the parts moveable after oil had been applied.

Mr. Hess has been unable to find out anything about his discovery, but believes the grave, if it was one, was there before his family settled on the farm, as no one has ever mentioned it to him.

ROMANCE OF SHOW RING

THERE is a romance back of one of the most importance victories at the Royal Winter Fair A few years ago a young man accompanied by an Irish horse gypsy went to Ireland to pick up some hunters. They bought several which later on justified the judgment of the purchasers in various show rings on this continent, and in the course of their journeyings came to the home of an old lady where hunters had been bred for generations. Whether they bought from her we do not know, but we think it probable they tried to buy one particular mare which the old lady on no account would part with.

She took a motherly interest in the young sportsman, put him up at her house, benefitted him with her ancient wisdom, and in the end bade him good-bye, hoping he would one day return to Ireland where hunters are so good and hearts so warm. A few months later he heard that the old lady was dead, and he mourned in the fashion of busy young men who think, now and again, of some person who belonged to a different age, with whom they have come in casual contact, and who has died as it seems extremely natural for them to do.

A few more months passed, and there came a letter from Ireland informing the young man that the old lady in her will had specified that he should have the foal of the old favourite mare. The lawyer had waited until he had seen that the mare had a living healthy foal, and then had written and announced, in the proper phraseology, that he awaited instructions. In due time the foal developed into a horse, and the other night won perhaps the most coveted prize available to any hunter in Canada. We are romantic enough to hope that there exists some medium through which the news can be communicated to the old Irish lady long in her grave.

PEN FUNCTIONS PERFECTLY AFTER 16 YEARS IN WELL

While visiting at his home sixteen years ago, Mr. Walter Merkley, son of Mr. and Mrs. Peter Merkley, near Chesterville, who was working on the railroad at Kenora at the time, dropped an expensive Waterman's fountain pen into the well. He stooped to look in the well after taking a drink and in rolled his pen from his pocket.

Recently the well was cleaned out and some of pieces of clay out of it were left laying around the yard. Yesterday, when Mrs. Merkley was going out to get the mail she stepped on a piece of this clay and out rolled the pen in perfect condition, still holding some ink.

Large Numbers Attend First Talking Pictures

Friday and Saturday nights at the Rex Theatre standing room was at a premium at the first presentation in Chesterville of all-talking moving pictures, which was carried through in a manner leaving nothing to be desired, quite on a par with the presentations in the larger centres, the only difference being that the most recent machines have every new device, which enables The Rex to give its patrons the very finest service.

Speedy Action

Last Thursday as we were going to press a roll of bank bills was found on the street, immediately advertised, and retunred to the loser as a result of the ad, all within sixty minutes. Record ads certainly bring quick results.

I.O.O.F. "Travelling Gavel" Taken to Ottawa Lodge

Last night four car loads of Chesterville members of the Oddfellows made the trip to Ottawa on a friendly visit to Earnscliffe lodge of that place to whom the "Travelling Gavel" was duly delivered. The Gavel originated in Montreal and was started on its long westward journey across Canada, reaching Chesterville some months ago when the members of Avonmore lodge made a friendly visit here. After the usual formalities last night a most enjoyable time was spent in dancing and music during which time the Oddfellows' quartette contributed to the programme after which dainty refreshments were served. Among those making the trip were Harry Fairbrass, Geo. Gillard, Eric Casselman, Sheldon Ball, Dr. D. C. Seymour, Arthur Peake, Milton Shaver, George Brooks, Robt. Ouderkirk, Stanley Fyke, George Riddell, Jack Morris, Geo. Barkley, Carman McIntosh and Fred Forward.

1932 Motor Licenses Higher Cylinders Basis of Taxation

Increased license fees on motor cars and trucks announced by Premier George S. Henry, are expected to bring the Ontario Government additional revenue of $1,000,000. Under the new fees, which will affect 1932 licenses, the number of cylinders instead of the horsepower will be the basis of taxation.

The new scale of taxation was submitted by Hon. Leopold Macaulay, Provincial Minister of Highways, and approved by the Ontario Cabinet.

The new fees are as follows, with the approximate old fees in brackets: Cars up to four cylinders, $7 ($5); six cylinders, $12 ($9); eight cylinders, $20 ($10); 12 cylinders, $30 ($15); 16 cylinders, $40 ($20).

A general increase averaging 25 per cent is made on trucks. This varies from $24 for two to three ton trucks with pneumatic tires to $225 for 14 and 15-ton trucks with pneumatic tires. Those with solid tires pay more. Two or three ton trucks of this type are rated at $33 and 14 and 15-ton trucks at $270. There is also an increase of 25 per cent on truck trailers. The new scale for two to three ton truck trailers is $18 and it runs as high as $195 for 14 to 15-ton trailers.

CANADA AND GREAT BRITAIN BOTH BENEFIT

WASHINGTON despatches predict that the conversion of Great Britain to protection means the further migration of United States factories to Canada and the United Kingdom. United States economists take the view that the preference given to the Dominions under the emergency anti-dumping legislation in London is certainly to be continued under the permanent British tariff now in process of elaboration and that this will increase the strategic position of Canada in the British market. The establishment of branch plants of United States factories in Canada has been greatly accelerated since the Bennett Government achieved office over a year ago, increased the Canadian tariff and otherwise stiffened regulations against foreign imports. The Mother Country is now taking a leaf out of Canada's book and the benefits to both Canada and the Mother Country are certain to be extensive and cumulative.

No Needless Haste

There was once a club formed of lazy men. Fines were inflicted on those who ever forgot themselves so far as to do anything in haste.

One day several members saw an old doctor who was renowned for his laziness drive past the door of the club at a furious rate, and loudly they chuckled at the thought of fining him.

But on applying to him on the ground of his having been in such a hurry, the doctor slowly replied: "No, I wasn't in a hurry, but my mare wanted to go fast, and I was too lazy to stop her."

Only 24 More SHOPPING DAYS Until Christmas

Once again we are nearing the mile stone that marks another year, one which will leave its memories as a trying one to us all. And now as we near the goal with Old Man Depression on the run, you will find our store lined with merchandise that is new and attractive, with the same high standard of quality as has been our custom to maintain, always.

Stick to a name you can trust in this day of "Price Madness." We know that merchandise and clothes are sometimes sold below cost of manufacture. Don't be tripped by price. Nine times out of ten such lines are made down to a price rather than up to a standard. Lacking quality, trouble begins for you. It has always been the slogan of this store to keep quality far above the price, and such is the slogan to-day.

Do your Christmas shopping early this year and assure yourself of the choice selections. Just a timely suggestion to save you from uttering that oft disappointed exclamation "I should have come sooner."

CAUSE OF BARN FIRES

THAT spontaneous combustion, and not incendiarists, was responsible for the great majority of barn fires which occurred in Ontario during the last two months, is the opinion given. based on somewhat similar occurrences in previous years as well as on the reports of Fire Marshal Heaton and General Victor Williams, commissioner of provincial police, who since the first cry of "fire-bug" terrified the countryside, have had inspectors and detachments of constabulary constantly on patrol and inquiry in the affected areas. A majority of the fires which have occurred since the first of October are technically termed "self-heating" fires, being produced indirectly from "fermentation gas" that develops in cases where hay and grains are hauled to barn-mows without have first been properly cured in the fields. This gas, which is lighter than air, and highly inflammable, rises from the hay to the top of the barn, especially where there is lack of adequate ventilation, and only needs an infinitesimal spark or flame to expand and explode it. Usually most barn fires occur in August and September, but the mild weather late this fall resulted in a continuation of the fire hazard into October and November. The insurance companies have been heavy losers, but since most of the concerns insuring rural buildings are mutual, the losses are spread around. Ontario has always suffered heavily from barn fires. Two years ago there were 1,013 outbreaks reported, while in 1928 the figure was 848, and last year 894. The large loss in 1930 was also attributed to spontaneous combustion since it was a difficult season for curing hay, also to lightning.

"Ah, good mornin', Mrs. Hennessy, an' how is everythin'?"

"Sure, an' I'm having 'one grand time betwixt me husband an' the furnace. If I keep me eye on one, the other is sure to go out."

The children at a Sunday school were asked, among other questions, what bearing false witness against one's neighbour meant.

A pert little girl replied: "It is when nobody hain't done nothing and somebody goes and tells."

Hungry Husband (spending Christmas in celebrated hotel): "Grace, the soup is awfully weak."

His wife: "Ssh! It's done on purpose, so that the guests can see the beautiful design on the bottom of the dish."

"Let Your Dollars Serve Canada" Is Slogan for Loan

"Let your dollars serve Canada" is the slogan for the appeal which the Dominion Government has launched to raise $150,000,000 "to promote the economic and financial welfare of Canada," as it is aptly put in the official circular containing details of the 1931 National Service Loan.

The offering of this considerable amount of bonds to investors is one of the most important financial undertakings this country has ever witnessed, certainly since the war days when Victory bonds were offered in large amounts and readily subscribed to save the country from foreign aggression.

Now the necessity has arisen of saving the country from economic consequences of an extraordinary character, and that the public will respond with the same promptness is as unquestioned as when Canada stood on the verge of a cataclysm in the darkest days of the Great War.

Owing to world-wide conditions, economic problems are confronting Canada which require the public to respond in the same measure as when Canada faced the darkest days of the Great War. That is why the present appeal for funds is being made.

One of the important features of this issue is that the public will receive a little more than five per cent on their investment. The bonds are being issued to mature at the end of five years and at the end of ten years according to the wishes of investors. The five year bonds are priced at 99¼ and the ten year maturity at 99. Both classes can be obtained in denominations of $500 and $1,000, but the five year issue can also be obtained in $100 lots, which will appeal to people of modest means.

The interests dates are May 15th and November 15th, the interest rate starting to accrue from Nov. 15th, 1931. Fully registered bonds are obtainable with the interest payable on these direct to the holder by Government cheque.

All the banks in Canada and their branch offices are authorized to accept subscriptions as well as all recognized bond dealers throughout the Dominion.

General feeling in well-informed financial circles is that there will be adequate response on the part of the investing public to make this issue a great success. There is profound confidence among bankers and leaders in the realm of finance, that Canadians can be depended upon to back up their country with their money when call is made for their assistance.

That there is a large amount of money awaiting favourable opportunity for investment in some high-class security, such as a Government bond provides, is unquestioned. The public have savings in the various banks aggregating upwards of $1,500,000,000. This total approximates an increase of $49,000,000 over figures of a year ago, which goes to show that the public are displaying pronounced habits of thrift, one of the healthiest signs possible for any country to exhibit.

Besides this source of purchasing power ,it is stated on good authority that trust companies hold a substantial reservoir of funds which would come into service in connection with just such an offering as the Dominion of Canada is making through the Department of Finance at Ottawa.

These are encouraging factors which ought to crown the offering with success if the public at large second the efforts of financial organizations of the country.

Now it is the hand that holds the curling tongs which rules the waves.

WHY STEW?—POT ROAST!

HAS STEW a good name in your house? Do the folk love it? We know it is a favourite if the person who makes it is one of the truly intitiated. Persaps it is not so well received—and, in that case, would you like to note the fact that we are going into details on making a triumph of stew. It will be in an early number of The Record.

At the moment, we are not going to rise to a defence of this more sinned against than sinning dish. We are going to suggest other meat dishes that can be made from the same cuts of meat that you would buy for the stew you would want to get away from at the moment. You will see, if you run your eye over their ingredients, that each of these dishes is as inexpenive as it promises to be savory and satisfying. So perhaps you will call on one or two of them to relieve either your budget or your meat-monotony.

Beef Rolls, Onion Rings

1½ pounds beef
¼ cup meat drippings or
¼ pound salt pork
1 tablespoon chopped onion
1 teaspoon salt
¼ teaspoon black pepper
½ to 1 teaspoon poultry seasoning
1 egg

Chop meat very fine. Brown onion slightly in fat (bacon or sausage fat is particularly savory); add seasoning and stir into meat. Work in egg slightly beaten. Shape into a long roll or individual rolls, sprinkling lightly with salted flour. Lay in baking pan and bake in a hot oven (500 degrees) for 15 minutes, to get a crisp crust; then reduce the heat to moderate (350 degrees) and bake until done, one to one and one-half hours in all, depending on size. Baste occasionally, at first with hot water and drippings, then with the liquid in cooking, arrange thick slices of Spanish onion (previously parboiled) over or around the meat, brush with fat and let brown slightly.

If salt pork is used, chop it with the beef, reserving a slice or two to cover roll during first browning.

Garnish the beef rolls with halves of apricots—as they come from the can, or slightly sauteed. If the roll is not served with onion rings, a sauce is delicious—tomato, horseradish, mustard or mushroom sauce.

Instead of poultry seasoning, use for variety one-half tablespoon tomato ketchup, or three minced green peppers or pimento, or one-quarter cup chopped olives ,or one-half to one cup chopped mushrooms, or dashes of nutmeg.

Pot Roast with Cranberries

3 or 4 pounds beef
3 tablespoons fat
1 onion
3 cloves
1 bayleaf
2 tablespoons flour
1½ teaspoons pepper
2 cup cranberries, cooked

Mix flour, salt and pepper and rub over meat. Brown it in the fat on all sides. Add bayleaf, onion in which cloves have been stuck, and four cups of water. Cover tightly and boil slowly until tender—about three hours. Keep the liquid as low as possible and turn the meat once during cooking. The meat should have a good crust and the liquid should become a rich brown Thicken the gravy and add cranberries with a little sugar according to taste, about one-half cup. Serve with boiled potatoes.

Horseradish Sauce for Boiled Beef

2 tablespoons fat
2½ tablespoons flour
1 cup milk
¼ tablespoon mustard
4 tablespoons horseradish
Salt, white pepper

Melt fat, add flour and cook until smooth and bubbly. Add milk gradually and stir until smooth and creamy. Cook until quite done (over hot water is easy). Add seasoning and let stand until well-blended. A very little sugar and more vinegar may be added according to taste. Onion cooked in the sauce and removed, gives a different flavour. Serve hot with boiled beef, ham, corned beef, and the like.

It Had to Be Good

Johnny: "I didn't bring an excuse for being absent yesterday because ma was too busy to write one this morning."

Teacher: "Then, why didn't your father write one?"

Johnny: "Shucks, he's no good at making excuses. Ma catches him every time ,and you're smarter'n ma."

After driving her husband almost frantic with her chatter one evening, Mrs. Gabbins remarked: "I suppose when I die you will have a mausoleum built in my memory."

"I shall do nothing of the kind," returned the exasperated man. "When you die, I will have you cremated and your ashes placed in an hour glass with an automatic turner; then you can go on forever."

SON, CHESTERVILLE HAPPY NEW YEAR

AUTOMOBILE INSURANCE

Before placing Insurance on your car, get particulars of the new plan, where you are allowed a reduction of 20 per cent from the recent reduced rates. Discount applicable to Public Liability, Property Damage and Collision Damage.

DRIVE in SAFETY

with an Automobile Insurance Policy to protect you against the hazards of Fire, Theft, Collision, Property Damage and Public Liability.

Every Automobile Owner in Ontario should know about the new Financial Responsibility Law effective since September 1st. The new law makes necessary the abi lity to pay for damage.

In its general application, it requires that the motorist responsible for damage to person or property of others MUST PAY either personally or through insurance OR BE BARRED FROM THE ROAD.

The sensible thing to do is to carry Automobile Liability and Property Damage Insurance. It is better to have this insurance and not need it, than to need it and not have it.

HAIL
LIGHTNING
FIRE
WIND

People who depend upon their crops should not be without some kind of the above insurance.

The loss of crops and barns, sometimes dwellings, is a serious matter to all farmers.

The claims paid through this office, just recently, have been large.

We aim to satisfy our policyholders, and do our utmost on their behalf.

Possibly you believe that you are carrying enough insurance. Think for a moment what a total loss would mean to you. This, as you will admit, is quite possible.

Information regarding various forms of insurance glady given, you are under no obligation whatsoever, just call or write.

"Husband off to work, children off to school, how do you do it?"

"Oh, that's easy if you serve Shredded Wheat. I just take the biscuits from the package and serve them with cream, or with hot milk on cold winter days. My family never tire of it, and of course that pleases me, because Shredded Wheat is a great body-builder. The necessary vitamins and minerals are there, and so is the bran which is so important to good health."
