Anglican Church Notice.

A Confirmation Service will be held in St. Matthias' Anglican Church at 10.30 a.m. on Sunday, with the Rev. Robt. Jefferson, D.D., Bishop of Ottawa, presiding. The congregation of St. Peter's Church, South Mountain, and Holy Trinity Church, Chesterville, will worship at this service.

SPECIAL NOTICE

In future, parties submitting birth notices to the Press, either by phone, mail or personal conversation, must also give the name of the attending physician at the time of the birth, in addition to the name of the party inserting the notcie. If this information is not given, the birth notice will not be published. We take this action to guard against the publication of false birth notices, one of which was published last week.

Winchester High School has adopted a new method for selling War Savings Stamps this year, which is proving very satisfactory. In the main hall of the school a chart has been placed so that each form may see where it stands. Since the chart has been placed in the school, there has been keen competition between the five forms. At present, Third Form is leading, with Fifth Form in second position. Last Friday a new record was established when the sales of war stamps reached an all-time high of $41.00.

At a meeting of the W. H. S. rugby team last week, Jim Carlyle was chosen to be Captain of the team.

At a rugby game between Chesterville and Winchester last Thursday afternoon, the local boys were defeated by a score of 24-5. Although Chesterville piled up a fairly high score, it did not indicate the play. Winchester, being a light and inexperienced team, put up a good fight. Stewart Holmes was the star for Winchester by scoring the only touchdown. This afternoon Winchester visits Chesterville for a return game, and it is expected the local boys will give Chesterville some good opposition The school wishes them the best of luck.

Youth Seeks Service.

Speaking in Toronto recently, Dr. J. G. Althouse, Dean of the College of Education, University of Toronto, spoke out boldly in defence of present day youth: "My contention is that many schools and schoolmasters would reach their goal more surely and more swiftly if they had the courage to organize the whole school programme into a planned, integrated controlled kind of living, instead of condemning the student body to a living entombment for some hours each day in an atmosphere considered to be exalting only because it is so rarefied.

"Somehow the schools must manage to build a corporate life, so warm and so convincing that in and through it the pupils may grow into the only kind of persons fit to maintain and defend a free way of life. If children do not learn to make worthwhile decisions for themselves in school, they are not likely to make worthwhile decisions later on in life.

"Youth to-day is eagerly seeking training, not in terms of dollars and cents, nor in terms of rank and prestige, still less in terms of personal safety, but in terms of useful service."

WINCHESTER AND DISTRICT BOUGHT $151,750 WORTH OF BONDS

When the Fifth Victory Loan campaign ended on Saturday night, the total amount received from the sale of bonds in Winchester and district stood at $151,750, just $18,250 short of the district's objective of $170,000. This amount may vary one way or another when the official figures are released by Victory Loan Hedquarters at Cornwall. A full report will be published later.

SPR. LLOYD E. STIENBURG

Son of Mr. and Mrs. Bernice Stienburg, of Winchester, who is today, November 11th, celebrating his third birthday on Active Service Overseas, Lloyd was born on the day the Armistice was signed during the Great War, 1918. He enlisted with the Royal Canadian Engineers in May, 1941, and went overseas the following September. His many friends here join in extending Happy Birthday Greetings.

Wesleyan Church To Be Enlarged In Spring

In an interview with Rev. D. W. Summers this week, the Press learned that it is the intention of the Board of Managers of the Wesleyan Methodist Church to enlarge the present church building by adding a 20-foot extension to the south end. This will enlarge the church auditorium sufficiently to increase the present seating capacity by 100. The basement of the church will also be extended, giving additional space for Sunday School classes.

The proposed addition will be built to match the present finish of the church, both inside and out, and will cost approximately $2000.00.

If the necessary building permits can be obtained, gravel for the basement walls will be obtained at once, and the work will be completed in the early spring.

The growth of the Wesleyan Methodist congregation has increased considerably during the past few years, and the present seating capacity is inadequate to accommodate the people who attend the services, without filling the aisles with chairs, said Mr. Summers.

The first appeal for the money for the building fund was made at the Anniversary Services, held in the Wesleyan Methodist Church on Sunday last, and resulted in subscriptions of $700.00 in cash and pledges.

LATE EDWIN V. DODGE

Cardinal lost one of its oldest and most respected citizens in the passing of Edwin Vernon Dodge, at Brockville General Hospital, on Tuesday morning of last week. Mr. Dodge was a lifelong resident of the Cardinal community, being born in the township of Edwardsburg in January, 1859. He married Eliza Reid, of Cardinal, in October, 1901, who survives. For over 60 years Mr. Dodge was actively engaged in insurance, coal, and other business ventures. In his youthful days he was interested in athletics, being a member of a once-famous baseball team, and until recently took a keen interest in all sports. In passing, he leaves his wife, two sons, John R. Dodge and G. F. Dodge, of Cardinal, and one sister, Mrs. Ida Davidson, of Gananoque. The funeral was held from his late residence in Cardinal last Thursday afternoon.

Local Firm Donates $100.00 To Park Fund

Among the latest donations to the 100 Club Community Park Fund are the following: M. F. Beach Co. Ltd., $100.00; D. L. Berry & Son, South Mountain, $10.00; Mr. J. L. McCormick, Morrisburg, $5.00. These donations are hereby acknowledged with sincere thanks by the 100 Club Canvassing Committee.

In the list of canvassers, whose returns were published in last week's Press, the names of Centurians Harold Lannin and Ken. Ault should have appeared. The amount collected and turned in to the treasurer by that team was $590.00.

Now that the Victory Loan campaign is over, it is expected that the canvassers will complete the canvass in their respective territories.

Former citizens of Winchester, or any readers of the Press, who wish to make a donation to Winchester's Community Park and Recreational Centre Fund, may do so by sending their contribution to the Press Office. All donations will be gratefully received and an official receipt will be issued. To date, nearly $1500 has been donated by former residents of Winchester, and we assure them that their interest in the old home town is deeply appreciated by members of the 100 Club, who are striving to make Winchester a better place in which to live.

HEALTH DEMONSTRATION TO BE HELD HERE

On Wednesday, November 17th, a Demonstration on Health will be held in the local Town Hall, under the auspices of the Women's Institute. The public are invited to attend. The sessions will open at 10 a.m. and will terminate at 4 p.m. Miss Gardner, of the Health Dept., Toronto, will be in charge. "Signs and Symptoms of Illness with Practical Home Treatment," will be taken up. A good attendance of ladies is requested.

Local Red Cross Society Sent 57 Boxes Overseas

Prior to the deadline (Nov. 1) for mailing parcels to the boys on Active Service Overseas, the local branch of the Red Cross had 57 boxes mailed to the boys from this district. Each box contained cheese, sodas, pea soup, noodle soup, chocolate bars, gum, hot chocolate, fruit cake, Oxo, etc. The boxes were packed and mailed on behalf of the Red Cross Society, by Mr. H. L. Flora, who also supplied the contents for each parcel—and when it comes to preparing parcels for the boys on active service, Harry is an expert—he has mailed out hundreds of them since the war started and all have reached their destination in good order. As Postmaster Helmer says: "When Hy. packs a box, it stays packed."

In addition to the boxes sent out by the Red Cross, over 50 ditty bags have been completed by the Women's Institute. These are for the relief of the sailors of Canada's Navy and Merchant Marine.

Packing Day

Tomorrow (Friday) is packing day at the local Red Cross rooms, over the Royal Bank, and all ladies who can are urged to come and assist. As this month's quota of sewing is for Greek Relief, it is urgent that all completed articles be turned in on Friday.

With an increasing demand being made for Red Cross supplies, the branch quotas are becoming heavier each month, and if the local Red Cross is to keep up its good work, more ladies are needed to assist. The brunt of the work and responsibility has been left to a few faithful members during the past few months, and it doesn't seem fair. While they are willing to carry on, the work should not become an imposition. There are many women (and men too) who have done very little to assist the Red Cross in its humane work—how about giving a little assistance now when it is needed most—even if you have to forego a few bridge parties or other social functions. The local Red Cross needs workers—call at the Red Cross rooms any Friday afternoon and offer your assistance. It's the patriotic thing to do and you will be helping to supply comforts for the boys on active service, for the prisoners of war, for the wounded in the hospitals and for the sick and suffering in the bombed out areas of the Allied countries. Red Cross work and Christianity are closely associated—what is your answer to this plea?

ST. PAUL'S W. M. S.

The W. M. S. of St. Paul's held their November meeting on Tuesday evening in the form of Family Night, which included the Mission Band, Goforth Group and Agnes Glassford Auxiliary. Mrs. Geo. Wilson, the President, presided. During the meeting, reports were given from the different groups. Following this a program was enjoyed, and consisted of: Piano solo, Miss Isabel Hay; piano duet, Misses Joyce Hay and Katherine Moffat; duets by Mrs. E. Payne and Miss Mary Empey, accompanied by Miss Irving at the piano and Miss Maude Latimer on the mandolin, and by Mrs. Chas. Cross and Miss Jessie Gordon. A play, "Aunt Polly joins the Missionary Society," concluded the program. Its cast consisted of Mrs. C. R. Robinson, Mrs. Hugh Wilson, Mrs W. McKercher, Mrs. W. F. Workman and Miss Maude Latimer.

The Mission Band made presentations of three seals to Misses Ruth Watson, Florence Wyatt and Joyce Hay. These were presented by Mrs. W. McKercher and Mrs. H. Wilson, the leaders. An Affiliation Service was conducted by the members of the Goforth and their leader, Mrs. W. Watson.

The meeting closed with the Lord's Prayer.

$146.65 COLLECTED FOR THE SALVATION ARMY

During the recent Red Shield Home Front Appeal of the Salvation Army, local citizens contributed a total of $146.65. The campaign was supervized by Rev. D. W. Summers, and the canvass was made by four of the local churches, each being allotted a certain territory. The amounts raised were as follows:

United Church	$78.30
Baptist Church	26.35
Presbyterian Church	26.10
Wesleyan Church	16.00
Total	$146.65

Mr. Summers has received the following letter of appreciation from Arthur H. Smith, adjutant of the Salvation Army: "Dear Sir—We hereby acknowledge receipt of your remittance of $146.65 on account of The Red Shield Home Front Appeal in Winchester District, Ontario Province. Please accept our hearty thanks."

Enjoying A Good Canadian Cigarette Overseas

Who says that the boys on Active Service Overseas, don't receive the cigarettes sent to them through the various channels? Lieut. Geo. D. Utman didn't know it, but his pal snapped the above picture just as he was in the act of lighting a cigarette from the first supply of smokes sent to him by the local 100 Club, and judging from that smile on his face, he's going to enjoy a good Canadian fag—just like the kind the boys in the Press Office used to supply him with when he operated the Bud-Tex Men's Wear next door—or was it vice versa? "Bud" is still attached to the S., D. & G. Highlanders and is ready to go into action when the unit gets the word that it has a date with the Hitlerites.

And, by the way, we had an interesting letter from "Bud" last week and he evidently receives his Press quite regularly. Here is how he puts it: "When at home, we usually knew all about most of the news items carried in the Press, but we read it anyway just to get the official slant on them all—but times are different now—we don't know all the things that are hapening at home, and do we read the Winchester Press?—boy, you sure can whistle that one again with variations. They can have their big cosmopolitan dailies (Bud named them but we left them out for various reasons) and all the rest of them—give me the good old Winchester Press, it's just like a letter from home and here's a great big cheer for the 100 Club and management of the Press that makes it possible for the boys overseas to receive and enjoy it." Thanks, Bud!

It may not be generally known, but the 100 Club finances the cost of sending the Press to all local boys on active service overseas, and also sends them regular supplies of cigarettes, etc.

For the convenience of any Press readers who would like to drop Bud a line or Christmas card, here's his address—Lieut G. D. Utman, S., D. and G. Highlanders, Canadian Army Overseas.

$100.00 REWARD

To the person who can supply us with sufficient information that will lead to the arrest and conviction of the woman who phoned this paper a false birth notice last week, the Winchester Press will pay $100.00. The birth notice referred to is as follows: "Born—At Ormond, on Wednesday, November 3rd, 1943, to Mr. and Mrs. Roy Cumming (nee Gladys Harper), twin girls." This birth announcement was published in last week's Press, and at the time, we believed it to be a genuine news item. We have found out since that the birth notice was absolutely false, and although we were innocent in the matter, we hereby offer our sincere regrets that it appeared in our columns.

Mr. Cumming is not married and neither is the young lady, Miss Harper, and neither have any connection with the other. Both are decent, respectable young people, with unblemished characters. We did not know either of them until after last week's Press was published. Since then, we have learned who they are, and from what families they come, and we can assure our readers that they both rate high in their respective communities.

The party who phoned one of our staff the information regarding the false birth notice, when asked who was speaking, gave the name of a young lady whose home is at Harmony. A check-up has revealed that the lady whose name was given to us works in Ottawa and had absolutely nothing to do with the phone call.

The phone call was made to this office about 10 a.m. last Wednesday. It was a local call, and there was nothing unusual about it, as we receive birth notices, death notices and sundry other items of news over the phone every week. We always get the name of the party submitting the news, but in the case of the false birth notice, the informant didn't give us her own name. The young man in this office who received the phone call says it was the voice of a middle-aged woman, and at present that's all we know—but rest assured if there is any way of learning her identity nothing will be left undone. Phoning or supplying the public press with information that is detrimental to a person's character is a criminal offense, and if the woman in this case can be apprehended, she will be shown no leniency so far as the Press is concerned—and we care not who she may be.

In our opinion, any person who would go to the trouble to concoct a story like that about two innocent young people, and hand it to the public press as a true news item, is so low and ill-bred that a life term in a penitentiary with lashes would be too good for her.

If the party who phoned the false birth notice did it as a practical joke—she has a poor idea of what constitutes a joke—such a misleading statement as a phony birth notice, implicating two innocent people, is no joke, as she may well learn if her identity should become known.

It burns us up when we think that there are people in this world, and particularly in this district, who have so little regard for the moral side of life. In this case, the woman who phoned couldn't have been entertaining very pleasant thoughts when she would take time from her house work at 10 o'clock in the morning to manufacture a false birth notice and transmit it to a newspaper for publication—the scoundrel. Decent society has no room for such busybodies.

No doubt the guilty woman will read this article—she couldn't have expected that her act would not bring this sort of reaction—and we wish to inform her that she has committed a criminal offense. We have solicited the assistance of the Provincial Police in conducting a thorough investigation. Any person who can supply us with information that will lead to the identity and subsequent conviction of the guilty woman, should do so without delay and take advantage of the reward offered. —Editor.

Want 100 Blood Donors For Next Clinic, Nov. 25

The next Red Cross Mobile Blood Donors' Clinic will be held in the local United Church S. S. Hall on Thursday, November 25th. This will be the last clinic until next year and the clinic officials would like to have 100 donors. Cards are being mailed out to the donors of former clinics, and it is necessary that they visit their physician as early as possible for a check-up. This must be done before a blood donation is given.

New volunteers are also urged to join the list of district blood donors. If you are healthy and between the ages of 18 and 60, you are eligible to become a blood donor. With the mounting casualty lists, the call for blood serum is becoming greater.

Modern methods of extracting blood from the human body is painless and no ill effects are suffered from the procedure—there is nothing to be afraid of—ask those who visit the Clinic regularly every three months.

If you have any doubts about whether you should or should not donate your blood, consult your family physician and he will advise you.

For further information regarding the Clinic, consult Dr. J. J. McKendry, the local supervisor. He, and other local physicians, give their services free, and would appreciate your co-operation. Enroll today as a Red Cross Blood Donor—your contribution may be the means of saving a life. Bleed that others may live.

Legion Poppy Sale Was Grand Success

The sale of poppies, sponsored by the local braach of the Canadian Legion over the week-end, was highly successful. Over 1600 small poppies and 650 larger ones were sold, the net receipts amounting to $200.00. It was intended to continue the sale until November 11th, but the local supply was exhausted on Saturday evening, thanks to the kindly reception given to the canvass by the general public. The Legion Committee in charge of the Poppy campaign was composed of Messrs. F. Erle Helmer, Arnold Casselman, Nelson Dixon and Gerald Helmer. Young ladies who participated in the selling of the poppies were Misses Eileen Bolton, Marion Coons, Marion Carkner, Linda Alexander, Melba Casselman, Betty Anderson, Eileen MacDonald, Velma Johnston, Joan and Ruth Watson, Marjorie Ault, Alma Olive, Lula Dawley, June Rowat and Phyllis MacDonald.

IF OUR ENEMIES CAN BEAT INFLATION, SO CAN WE

Despite our best efforts, the cost-of-living index continues to rise slowly but all too steadily with the result that another increase in the cost-of-living bonus has been authorized.

This has caused the Minister of Finance to assert that the "most critical" stage of the battle against inflation is "just getting under way" and to demand that in the national interest the price ceiling "must be held."

Canada, he adds with truth, has been more successful than most countries in holding prices in check, but these successes can be swept away in the space of a few short months if controls are now relaxed.

It is worth remarking in this connection that, whatever their failures in other respects, our principal enemies, Germany and Japan, have not been unsuccessful in combatting inflation. The German cost-of-living index, which is considered by experts to be fairly reliable, records a rise of less than 10 per cent. from the beginning of the war to the present year. Similarly, there is evidence that the Japanese index, which rose rapidly from 1937 to 1940, has since been reduced and held relatively stable.

Hitler and Tojo know all about the baneful and chaotic effects of inflation upon a war economy, and are doing their utmost to keep prices under control. As long ago as the time he produced "Mein Kampf," indeed, Hitler had very definite ideas about what would happen if inflation ran riot, and he is determined to prevent it if at all possible. In this it must be admitted that he is gaining a fair measure of success even if he is compelled to adopt methods which would be repugnant to most Canadians.

If the Germans and the Japanese, beset as they are with so many and divers troubles and having their price structures subjected to such severe pressures, can manage to keep their cost-of-living indices under strict control, there is no reason why we, who pride ourselves upon our democratic efficiency and powers of organization, cannot also do so and, by the most determined and co-operative effort, make certain that in this vital sector of the fighting front there shall be no weakening in the face of the enemy.

The success which the Germans and the Japanese have achieved in checking inflation may well serve as a challenge to Canadians to do likewise, to gird their loins for an all-out battle against this insiduous yet formidable foe and to assent to nothing which will help to bring the catastrophe of inflation upon them.

TODAY'S CHALLENGE

"Corrupt the young. Get them away from religion. Get them interested in sex. Make them superficial. Destroy their ruggedness." This sounds like fantastic nightmarish ravings from a cheap thriller. It would be nice to think that. But it is true. It happens to be one of the planks in a subversive revolutionary program discovered in one of the local European headquarters after the last war.

But this has nothing to do with us in Canada. Or has it? What about the material that is displayed on so many of our news stands, the divorce rate, the juvenile delinquency, the general moral breakdown that is evident for those who have eyes to see? When you see a nice garden, a beautiful building or a sound home, you assume that they have been planned and worked for. So when you see the opposite, there is every reason to believe that it may also have been planned and worked for.

This is the challenge that faces our educationalists and teachers today. A great deal has been said and written lately about education. One person says that it should emphasize the equipping of children to earn their living. Another says that it should lay more stress on the cultural side of life. All, no doubt, excellent things in themselves. But they all beg the basic question. "Can we in Canada bring up a new generation that can really make Democracy work and secure the peace and build a new world?"

This is the question that is crying to be answered. Twelve thousand out of fourteen thousand teachers in Norway have chosen a concentration camp rather than agree to teach Nazi doctrines in their classrooms. In subterranean cellars and behind locked doors, the teachers of Greece, Poland and other occupied countries plan. Are they concerned with whether their children should have more mathematics than carpentry? Or has the suffering that these men and women endured burned into them a passion to produce, when —and if—they have another chance, a generation that will make Democracy work.

While we in Canada may not face any threat to our land nor the same threat as these people in Europe to our way of life, there are forces at work here planning for the moral and spiritual breakdown of our youth. Education fit to build a new world must first lay plans for equipping children with those basic moral standards, which must become the heart of any sound democracy.

YESTERDAY, TODAY AND TOMORROW

There are two days in every week about which we should not worry—Two days which should be kept from fear and apprehension.

One of these days is Yesterday with its mistakes and cares, its aches and pains, its faults and blunders. Yesterday is gone.

The other day we should not worry about is Tomorrow with its possible adversities, its burdens, its large promise and poor performance. Tomorrow is also beyond our immediate control.

Tomorrow's sun will rise either in splendor or behind a mask of clouds—but it will rise. Until it does, we have no stake in Tomorrow, for it is as yet unborn.

That leaves only one day—Today. Any man can fight the battles of just one day. It is only when you and I add the burdens of those two awful eternities—Yesterday and Tomorrow—that we break down.

It is not the experience of Today that drives men mad—it is remorse or bitterness for something which happened Yesterday and the dread of what Tomorrow may bring. Let us, therefore journey but one day at a time."

RENTING PROPERTIES

Andy Clark—who voices sentiments from the home-town weeklies each Sunday for C.B.C. listeners in Ontario and Quebec—in one of his recent broadcasts took time out for a personal protest, on the prejudice of landlords against married couples with young children. Mr. Clark, through members of his family, had encountered the problem of such couples seeking to rent apartments or living quarters. It seems, the natural process of reproduction is a condemning factor in the eyes of property owners. The latter constitute an essential class; but, we ask, is the upbringing of families one iota less essential to human progress? The landlords must give way, even if such beneficence entails the fortifying of their premises against scuffing feet and busy childish hands. . . . We were glad to hear Mr. Clark publicize this unfair prejudice.

EDITORIAL NOTES

Says Very Rev. Hewlett Johnson, Dean of Canterbury: "I am confident, like Stalin, that if we strike now in Europe the war will be over by Christmas." The Dean may be right; but it is rather hard to see how he qualifies as a war expert.

Local farmers report the loss of heifers from their pastures—in some cases the animals have been slaughtered in the field, presumably for the supply of meat to a black market. Farmers losing cattle in this manner should not hesitate to inform the police, and also give the authorities the names of any suspects.

A tiny splinter in the hand can cause an ugly swelling. In the same way a small fear can balloon itself out to great proportions in your mind. If you will search for it, however, you may be surprised at the ease with which, having discovered the fear, it can be dug out and deprived of its power to inflame.

Hitler may have his gestapo and his personal guard, but sooner or later the German people will turn against him and force him into suicide or exile. His promise never to leave his people in the lurch means no more than his early-war statement that he was putting on his uniform and did not intend to shed it until the hour of victory.

If there is reason for the restoration of two-pant suits to official favour, there must be even greater reason behind the request of Consumer Branch members in Ottawa that permission be granted for the manufacture of double-seated boys' pants. That is bound to constitute a real saving of cloth in the long run.

. . . — V . . . —

"Now," is the constant syllable ticking from the clock of time. "Now," is the watchword of the wise. "Now," is on the banner of the prudent. Let us keep this little word always in our mind, and whenever anything presents itself in the shape of work, whether mental or physical, we should do it with all our might, remembering that "now" is the only time for us.

. . . — V . . . —

On June 20, 1941, air expert Charlie Lindbergh told a meeting in the Hollywood Bowl: "The area, the terrains, and the climatic conditions of Great Britain are not advantageous for flying. Enemy air bases on the continent of Europe curve around her in almost a semi-circle. No matter how many fighting planes we build in America and send to England, it is not possible to base enough squadrons in the British Isles to equal in striking power the squadrons that Germany can base on the continent of Europe. English cities and industrial areas are within easy reach of enemy bombers, while British bombers must fly much farther to reach similar enemy objectives." Lindy didn't have very good foresight—wonder what he thinks of the situation today?

THE INDISPENSABLE INFANTRYMAN

(Brockville Recorder & Times)

At the outbreak of the present war it was not thought there would be much place in it for the infantryman who had played such a prominent part in almost every other war. There was such emphasis upon mechanization that the infantry seemed destined to become a back number and to be employed only in a secondary capacity. But General Eisenhower, Allied commander in the Mediterranean, has recently given high praise to the infantrymen serving under him and has also pointed out that the struggle in Italy has principally resolved itself into a grim battle of infantry in which, of course, Canadian units are participating.

Pat worked at a factory. Once he announced that he had thought of a way of ensuring that no one would be late in the future.

"That sounds good," said the foreman. "How do you propose to do it?"

"Sure, that's easy, sir," said Pat. 'The last man in blows the whistle."

A WEEKLY EDITOR LOOKS AT Ottawa

Written specially for the weekly newspapers of Canada

By Jim Greenblat

Ottogossip: The City of Ottawa is studying a post-war program involving $900,000 worth of new sewers and 26 1-2 miles of new pavement and sidewalk costing another $900,000 . . . Construction is starting on a new 80,000 square foot annex to house Ottawa's largest cafeteria which will feed 7,000 civil servants. . . . There is such a demand for conversational Russian that a class is being started by the High School of Commerce . . . A staff of 400 at national registration headquarters keeps busy, making some 133,000 changes a month in the records of about nine million Canadians.

The Consumer Branch of the W. P. T. B. in Ottawa under the direction of Byron Hope Saunders, better known as Chatelaine's editor, are asking Canadian women to familiarize themselves with the working of retail meat charts. Initiated into the ways of charts through the beef order of the W. P. T. B.. the job of shopping for meat is now further simplified by the addition of a lamb chart, which will show the ceiling price of any cut of lamb. Any woman who doesn't know her cuts, can learn to distinguish between loin rib roast, leg or breast of lamb by studying the cutting chart, accompanying all price charts. Featuring slightly lower prices than those which have prevailed, the lamb seems a break for the nation's biggest caterers, the housewives.

The order by the department of labour declaring the meat packing industry essential to the war and national interest has a background. It has been estimated that meat packing plants in Canada will produce the astounding volume of 1,577,000,000 pounds of meat products during 1943. Of this an estimate is that nearly 50 per cent. will go directly into distribution for war purposes. Obligations to Great Britain will take care of between ten and fifteen million pounds of bacon alone, while the Canadian Armed Forces will be fed with 102,686,000 pounds of meat products.

The Swedish liner Gripsholm, which is expected to arrive in New York early in December, will bring a good-sized Canadian party, repatriated—in an exchange with Japanese. The majority of the Canadians are missionaries, members of religious orders, business men and their wives and children. More than half come from occupied China and Hong Kong; some from Japan, Manchoukou and Korea, and some from the Phillipines and French Indo-China. The voyage orient-ward carried medical supplies and vitamins from Canada sufficient to serve 5,000 people six months. With other relief stores, these will be made available to Canadians and other Allied prisoners and internees still in Jap hands.

The vegetable oil industry in Canada gains in importance as the war goes on. Gross sales last year hit the $9,481,450 mark. Of ten active plants, four are in the Montreal area; two in Ontario, a couple in Manitoba, one each in Alberta and B. C. Linseed oil was tops in production, gross sales in 1942 being $5,252,605 for 7,390,240 gallons. Soy beans are coming along, too. Production in Essex County, Ontario, last year was 173,035 bushels selling for a total of $229,339. Saskatchewan is now experimenting with large scale growing of sunflower.

The return to Canada of a proportion of the Canadian Forestry Corps from lumbering operations in the United Kingdom is announced by National Defence H. Q. The British Government has agreed that the output of timber for the war effort of the United Nations can be increased by using these stout fellows in the forests throughout Canada where the resources and quality of timber are better than those now available in Great Britain. Lumber is one of the "musts" for the United Kingdom now as always.

A few highlights of the Joint Agricultural Committee meeting recently completed in Washington: Conclusion was reached that an expansion in output of certain products is possible, but increase in over-all production is limited by acreage, manpower, equipment, fertilizer. Particular attention was paid to suggested increase in U. S. wheat acreage from 54 million acres in 1943 to 68 million next year, made imperative by abnormal disappearance of wheat currently for feed and industrail alcohol. Maintenance of dairy production by using grain and protein feeds was stressed, with preservation of total food value in milk best accomplished by converting as much as possible into cheese, dried milk, etc. Canadian members pointed out needed expansion in this country included special crops as oil crops. Peas and beans were considered well suited for relief-feeding in liberated areas.

Odds and Ends: Good fur catches for the Eskimos have made them fork over income tax; Mounted Police fill out forms, make necessary assessments . . . Maybe it's the greater purchasing power, but Canadians are biting into plenty of meat, with a moderate increase in 1942 over 1941. The estimated per capita (including offals) in 1942 was 135.2 pounds, an up of two pounds over the previous year . . . Ban against Jehovah's Witnesses, Technocracy, Inc., and Ukrainian Labor-Farmer Temple lifted . . . Canada's rehabilitation plan for men and women of the Armed Services, including financial aid and vocational training for all veterans, is ahead of all other parts of the British Commonwealth and Empire, being used as a model for similar planning in the U. S. A., says Major H. M. Bell, Veterans' Welfare Officer, Pensions & Health, Ottawa . . . The Canadian Red Cross Society has undertaken to provide 100,000 parcels of food for French prisoners of war in Germany, as well as medical supplies and vitamins for children and nursing mothers in Poland . . . The new synthetic rubber tires are very apt to go "boom" at over 35 m.p.h., at overload, or if tires should be under-inflated, is warning from rubber controller. Big truck kind is most liable to give trouble if used improperly.

One side of war is a huge business, an announcement by Munitions & Supply shows. Total value of contracts awarded and commitments made on Canadian, United Kingdom and other account has exceeded the $10,000,000,000 mark, end of September. Just count the zeros. Contracts placed on Canadian account alone totalled over four and a half billion dollars, including contracts executed for plants, plants extensions and general purchases.

Consolidation by the Prices Board on three previous orders clarified maximum price regulations for used stoves, ranges or other heating or cooking appliances range from 90 per cent. of listed retail price when new or rebuilt, or equivalent appliances a year or under in age, to 60 per cent. for those more than four years old. This applies in like extent to coal and wood appliances. Ranges and stoves are about as valuable these days as horses in the good old hoss tradin' days.

A Royal Commission has been established to investigate wage rates paid to persons in operation of coal mines in Alberta and British Columbia.

In tests re best quality dark tobacco growing conducted at Experimental Station, Harrow, Ont., crop sequence showing best results was tobacco, corn, oats, wheat and alfalfa. While barnyard manure and commercial fertilizers proved highly beneficial, proper crop rotation was necessary also.

THEIR SPIRITS DWELL AMONG US

We are the men of yesteryear
Who fought on Flander's field,
For all in heart we e'er held dear,
We did our bodies yield
To Him who reigns Divine above;
That a foreman should not crush
You whom our spirits love

We are the men of yesteryear,
Beyond the veil of hush.
We fell amid the fight,
Of foreman cruel we had no fear
For we were in the right;
And though in spirit we now float
Beyond the grave's great hush,
We smile to think no foe doth gloat
O'er you to bring the blush.

Other Editors' Opinions

SEPARATING THE SEXES

(Guelph Mercury)

There is a movement on foot to separate the sexes in church. It really does seem as though they were separated now—the women being inside, the men outside.

TOO DANGEROUS

(Ottawa)ournal

A hunter, we see, saw something moving in a Nova Scotia bush, "thought it was a deer," fired and killed a man. Hunters of that sort shouldn't be trusted with anything more dangerous than a popgun.

MUCH BETTER, INDEED!

(Brockville Recorder & Times)

Officially, Britain will not enter into any war of words with the five U. S. Senators, back from an overseas tour, who made charges over the handling of lend-lease supplies. It would have been better for harmony if unofficially the same view had been taken when the charges were made.

REGULATIONS AGAIN

(Midland Free Press Herald)

A story comes from Regina to the effect that a cattle dealer had 50 steers on hand which he felt he could handle most economically by killing them all at one time. So he wrote to the Wartime Prices and Trade Board at Ottawa, asking that the restrictions be lifted. Back came the answer that there could be no loosening of the regulations, and that a number of the steers should be kept "for breeding purposes."

THE SAME OLD WINTER

(Chatham News)

If there is one thing that can be depended upon it is a Canadian winter. People talk about the climate changing. It is not changing, but our methods of fighting the climate are. The progress of modern civilization makes winter seem less and less severe; as a matter of fact it is the same kind of weather that the old-timers had to contend with. And that kind of weather we need. Our whole economic system would be upset if we did not get it.

JUST ONE EXAMPLE!

(Trenton Courier-Advocate)

A printer takes some type and some ink and some paper and a press which is his own and turns out for himself five hundred letter-heads which ordinarily sells for three dollars and fifty cents. As his ability to do this does not count, as his time and labour does not mean a thing, he must pay the eight per cent. sales tax amounting to twenty-eight cents on that job for himself, to a government that spends thousands of dollars on carpets for its big shots. Is it any wonder that socialism is gradually creeping into the printing offices of the country?

HARD FACTS

(The Printed Word)

Perhaps the greatest democratic need is to show people that they can't successfully bribe themselves with their own money—that the state has no mysterious source of wealth other than the collective wealth of its citizens. Another great truth which some people invariably overlook is that administration is overhead, that bookkeepers are necessary evils. All evil, even bookkeeping, should be kept to a minimum. In some kinds of industry they have an account called unproductive labor." Costs are lowered when the percentage of unproductive labor is reduced.

Many of the so-called reforms proposed by young and enthusiastic persons involve the creation of unnecessary unproductive labor. As individuals and as a people we cannot become wealthier by adding unproductive labor, increasing overhead unnecessarily, or superimposing frills on an essential minimum of administrative establishment.

LOWER FARM COSTS

(Toronto Globe and Mail)

One answer to the search for lower costs may be better use of farm machinery over more extended acreage, cheaper financing will help as many say, and perhaps part of the answer may be found in close scrutiny of the spread between farm prices and what the consumer pays. There is a widespread feeling in rural districts that the spread is too large. The undeniable facts would be valuable for understanding on all sides. And even when the spread is found to be justifiable, costs may be cut by farmers learning how to buy in larger quantities and co-operatively so as to get the advantage of lower freight and distribution rates.

The skids are being set for the King of Italy and Franco the Serene.

The Fascist administration in Italy has a new under-secretary of the navy. What navy!?

SAVE COAL...
for Vital War Needs!

It's a crime to waste fuel in wartime. Canada expects every householder to reduce his normal coal consumption by at least 20% this winter.

So watch your thermometer, and avoid high temperatures. Remember that it requires 24% more coal to heat your home to 76 degrees as compared with 68 degrees. Such heating is wasteful and unpatriotic.

Newlyweds Honoured.

On Friday evening last the members of this community and several relatives from other districts, gathered at the home of Mr. and Mrs. William T. Rae to welcome home (their only daughter, Jennie Mildred) Mr. and Mrs. Harold Nottell from Niagara Falls, and to extend congratulations on their recent marriage, October 23rd 1943.

The bride (in her wedding gown —an attractive daytime model of Heaven Blue triple sheer crepe on princess lines, shirred bodice and bishop's sleeves) assisted her mother and the three hostesses in receiving. The evening was pleasantly spent in games, euchre and social intercourse.

As the midnight hour drew near, the guests were called to order and invited to the drawing room where, under an arch appropriately and daintily decorated in pink and white and Chinese lanterns, was a full size table decorated also in pink and white and heavily laden with beautiful and useful gifts of pyrex, clock, large mirror. china, blankets, quilts, silver, linens, a very substantial cheque from her parents, and several lesser cheques and donations of money in envelopes. The bride and groom were asked to stand near the table while Mrs. Kenneth Merkley read from a beautifully designed hand-painted bride's book an address that bespoke the sentiments of all present.

The address referred to the bride's community work. in the Sunday School and Red Cross activities, and that those present were here to rejoice in the great, happy and momentous occasion of their life. We wish you continued opportunity for service in the community you have chosen for your new home, and it is a pleasure for us to meet the gentleman in whom you have confided your life's happiness, and both of you with your cheery disposition and congenial manner will lighten any dark spots on your pathway as you journey along on life's highway.

Any journey is not all sunshine, but we hope all your dreams come true and your future life is filled with happiness you so richly deserve, and as a tangible reminder of this happy evening spent together, we ask you to accept these gifts, and when you use them may they cause your thoughts to revert to the donors.

Mrs. Enos Munro then presented the gifts. The bride replied very nicely and among other things she said that she didn't need gifts to remind her of the people of Nation Valley, but thanked them, nevertheless, for their goodness and kindness in remembering her at this time. The groom also replied in a few well chosen words, after which all joined in singing "For They Are Jolly Good Fellows." A dainty lunch was served by the three hostesses, Mrs. Enos Munro, Mrs. Clifford Summers and Mrs. Kenneth Merkley, all officers of the Red Cross, as the bride was the Red Cross Secretary.

Before the guests dispersed for home, all wished Mr. and Mrs. Harold Nottell lots of happiness in their new home at Rowena.

IN MEMORIAM—In loving memory of a dear husband and father, D. W. Montgomery, who passed away November 13th, 1937.

From our happy home and circle
God has taken one we loved,
He is borne away from sin and sorrow
To a nobler rest above.
No one knows how much we miss him,
None but aching hearts can tell,
Lost on earth but found in Heaven,
Jesus doeth all things well.

HINTS FOR THE HOME

Nutmegs.
It will be much easier to grate nutmegs if the start is always made from the blossom end.

Dried Fruit.
The flavor of dried fruit will be improved if a pinch of salt is added to the warm water in which the fruit is soaked.

Boiled Eggs.
See that the water is boiling before placing the eggs in the pan and it will prevent the egg yolks from darkening.

Velvet.
To clean velvet sponge it with benzine, rubbing always in one direction with the nap. Then steam over a boiling kettle.

Rice
A little lemon juice added to the water in which rice is boiled will whiten it. It will also help to keep the grains separated.

The Bird Perch.
The bird will not catch cold or contract rheumatism if ,instead of washing the perch, it is scraped with sandpaper or a knife.

Good Gravy.
The flavor of gravy will be delicious if the water in which vegetables have been cooked is used for making the gravy for meat.

Paint Odor
The odor of paint can be destroyed by adding sulphuric acid to a basin of water and leaving it in a room that has been freshly painted.

Basement Steps
If the steps leading to the basement are rather dark, paint the lower step with white paint and an accident can probably be avoided.

Meats.
The oven should be heated very hot before putting in the meat, in order that the outside of the roasting meat may sear and retain the juice.

Cutting Fur.
Never use the scissors when necessary to cut fur when remodeling. Use a razor blade or a very sharp knife for cutting through the skin at the back.

Chapped Lips.
To make a salve for chapped lips mix 20 parts of white wax, 40 parts of spermaceti, 10 parts of oil of almonds, and 80 parts of perfectly pure and fresh lard.

Paint Brushes.
Paint and varnish brushes should be cleaned thoroughly with gasoline after using, then rubbed with vaseline and put away free from dust. This procedure will keep them soft.

Wrinkles.
To prevent wrinkles in the forehead, bind the forehead with a linen bandage soaked in equal parts of alcohol and the white of an egg. Allow the bandage to remain overnight.

Enamel Ware
Foods that stick to enamel ware should be scrubbed with a partly worn whisk broom when washing it. If this is done the food can be removed without injuring the cooking utensils.

Shrinking Thread.
To shrink thread that is to be used for drawn work, place the spool of thread in a pan of boiling water for about an hour. It will shrink the thread but will not destroy the gloss.

Plants
Cultivate the potted plants frequently. Try using an old fork to loosen the earth. It will give the roots a chance to force their way through the ground, and will also furnish air.

Hot Compresses.
There is always a chance of burning the hands when wringing hot cloths out of boiling water to be used as hot compresses. This can be avoided by using a potato ricer instead of wringing.

WINCHESTER SPRINGS AUXILIARY

The Women's Missionary Auxiliary of the United Church, Winchester Springs, was held at the home of Mrs. Dalton Robinson on Tuesday afternoon. The president, Mrs. C. Thompson, opened the meeting with the use of a hymn, after which the Lord's Prayer was repeated in unison. The roll call was responded to with the word "Thanksgiving." Mrs. Arnold Casselman had charge of devotional period. Mrs. Keyes led in prayer. Mrs. A. E. Holmes introduced the Study Book, "For All of Life," stressing the place the Christian Church has in the world today.

Mrs. Adams and Mrs. O. Casselman rendered a very beautiful duet, "In the Garden With Jesus." The Temperance secretary, Mrs. Aden Casselman, gave a very splendid thought on "Is Alcohol a Medicine?"

The Christian Stewardship Secretary, Mrs. Geo. Myers, read an interesting article from Missionary Monthly. The Community Friendship secretary tabulated a very encouraging report for the month.

Rev. Mr. Newman closed the meeting with prayer. A social hour followed, during which the hostess served a light lunch.

OSGOODE W. I.

The regular monthly meeting of Osgoode Women's Institute was held at the home of Mrs. Ralph recently. The President, Mrs. E. A. Nixon, presided. A very interesting report of the Area Convention. Chateau Laurier, Ottawa, was given by Mrs. Dillabough and Mrs. H. Taylor. A patched quilt top for the Russian Relief was shown and a date was set to have it quilted.

A letter of thanks for work done was received from the Children's Aid Society. A request was made for further work by the members.

It was moved and carried that the members bring their donations to the Russian Relief Fund at the next meeting. It was decided that this year the branch would not apply for the Legislative Grant. It was decided that two quilts be made and sent to a neighbour who lost her home by fire. Mrs. Geo. Kerr is also donating a third quilt. Fifteen quarts of fruit was donated at this meeting o another neighbour who was burned out.

NEWLYWEDS HONOURED

About one hundred and forty friends and neighbours gathered at the home of Mr. and Mrs. Herbert Robinson, recently, to honour their son, Willis, and his bride, and at the same time to tender a farewell to Mr. and Mrs. H. Robinson and Mrs. J. W. Rodney, prior to their moving to Winchester.

An appropriate address was read by Mrs. Stanley Gibson, and the presentation of an end table and two occasional chairs was made to the young couple. Willis thanked those present in a few well-chosen words.

Mr. and Mrs. H. Robinson and Mrs. Rodney were then called to the floor, and an address was read by Mrs. Willard Baker, and the presentation of two electric lamps, a living room table and a crystal dish was made.

Although taken by surprise, Mr. Robinson responded on behalf of his wife and sister.

Several musical numbers were rendered and refreshments were served.

Following are the addresses:

Dear Willis and Christena:—

It is a time for any community to rejoice when a beautiful and capable bride chooses one of its finest young men as her husband, and their sterling worth, with foundations in a new home, has enhanced value for the settlement.

From boyhood to manhood you, Willis, have been respected by young and old, living out your high ideals among your neighbours, who all have profited by your kindly services when those were of greatest value.

Christena, for your husband's worth alone, you are deserving of our heartiest welcome. Our pleasure in welcoming you is made infinitely greater, not only by your considerable abilities, but also by the matching qualities of heart and mind.

Because the many admirable qualities of both of you are held by us in highest esteem, we assemble tonight to congratulate you, Willis, on your new happiness, and to welcome you, Mrs. Robinson, to our midst.

We wish you both the fullest measure of happiness in your great adventure, and as a tangible token of these greetings, we would like you to accept these modest gifts. May they always assure you of the place you have won in the hearts of your neighbours and friends.

Signed—Morley Erratt, George Barclay, John Barrett, Stanley Gibson and Raymond Annable.

Farewell Address

Mr. and Mrs. Herbert Robinson and Mrs. Rodney:

Dear Friends—As we are gathered here this evening, we wish at this time to express our regret of your intention to remove from our midst, which has always been your home. We have lived together as a community for many years, and upon looking back over the years, we realize that you have always lent a helping hand to everything that has been of benefit to the community and you have always taken a firm stand in support of what is highest and best in life, and so we regret your moving away.

While we are happy to know that you are not moving to any far distant part of the country and hope you will visit us often, yet we realize that your removal will sever many of our happy meetings together.

In your new home in Winchester we wish you the best that life has to offer and hope that you enjoy many years of pleasant times in your new associations.

As a slight token of our friendship and esteem for you, we offer you these gifts that they may remind you of old friends and happy days in your old home.

Signed—Neighbours and Friends.

WINCHESTER SPRINGS W. M. S.

The Thank Offering meeting of Knox W. M. S., Winchester Springs, met at the home of Mrs. Michael Casselman, on Wednesday afternoon, Nov. 3rd. The meeting opened with the singing of a hymn. Mrs. Joe Davidson presided, using as her theme "God's Way is Best." After devotions, Mrs. Delbert Casselman read a poem, "His Way Is Best," in keeping with the theme, and Mrs. I. P. McIntosh led in prayer. After the minutes had been read by the secretary, Mrs. Preston McIntosh, the roll call was responded to by the members giving a verse of Scripture including the word "Thanks."

The Auxiliary paper, "New Bits," was read by Mrs. Davidson, who also gave the chapter from the Study Book on "The Poles." Mrs. John Coons gave the story of "Salome," taken from "Women of the New Testament." The hymn, "Prayer for Men at War," followed by the Lord's Prayer in unison, closed the meeting. A social hour was spent with the hostess serving refreshments, assisted by Mrs. Delbert Casselman and Mrs. Jacobs.

RECEPTION AND FAREWELL

A truly pleasant evening was spent at the home of Mr. and Mrs. Robert McDonald, of Ormond, on Saturday night of last week when the friends and neighbours of Mr. Stuart Armstrong gathered to congratulate him on his recent marriage and to welcome his young bride, the former Miss Ruby Pratt, of Kars, to the neighbourhood.

During the course of the evening, the bride was presented with a beautiful bouquet by little Miss Audrey McIntosh, and an address was read by Mrs. Harrison McIntosh, at the close of which Mr. Donald Craig, on behalf of those present, presented the happy young couple with numerous gifts and a substantial purse.

Mr. Armstrong replied very fittingly, thanking his friends for their kindness and generosity, and invited everyone present to visit his bride and him in their home.

Following this occasion, a farewell was tendered to Mr. and Mrs. Thos. Armstrong, who are leaving the community to take up residence in Vernon. A farewell address was read by Mr. A. K. McDonald, and on behalf of the community, a combination magazine stand and table and a beautiful reading lamp, was presented by Mr. Robt. McDonald and Mr. Donald Dow.

Although entirely taken by surprise, Mr. Armstrong replied by thanking all their friends for their kindness and thoughtfulness and inviting them to visit him and his wife in their new home. Those present joined in singing "For They Are Jolly Good Fellows," which included both couples.

The remainder of the evening was spent in games and music, after which a delicious lunch was served by the hostess, Mrs. Robt. McDonald, assisted by her four daughters, May, Jean, Doris and Isabel.

WEDDINGS

HUTT—GRAY

The marriage of Miss Ruth Marion Gray, daughter of Mr. and Mrs. Austin Gray, of Maple Ridge, to Ralph Drury Hutt, son of Mr. and Mrs. Arnold Hutt, of Winchester, took place quietly in the Inkerman United Church parsonage at 5 p.m. on Wednesday, October 27th, 1943.

Rev. G. S. Gervan performed the ceremony. The bride was attended by Mrs. Ralph Johnstone, while Mr. Ralph Johnstone was best man.

The bride wore a costume of Flight Blue wool crepe, with navy accessories and a corsage bouquet of American Beauty Roses.

The bridesmaid wore Rose Wool with black accessories and a corsage bouquet of Johanna Hill Roses.

Following the ceremony, the wedding party was entertained at the home of Mr. and Mrs. Reginald Strader, of Ottawa, the latter a sister of the bride. The couple left later, amid showers of confetti, for Niagara Falls and St. Catharines. For travelling, the bride chose an ensemble of Turquoise with tweed coat. Upon their return, Mr. and Mrs. Hutt will reside on the groom's farm north of Inkerman.

Minister: "I made seven hearts happy today!"
Parishioner: "How was that?"
Minister: "Married three couples"
Parishinoer: "That only makes six hearts."
Minister: "Well, you don't think I did it for nothing?"

"I'm going shopping, Dick. I'll be home by the time—"
"By the time you go broke, dear."

THE CHARTERED BANKS of Canada keep abreast of the Dominion's expanding needs.

Six times since 1870 the Bank Act under which the Chartered Banks operate has been revised by parliament—six times in that period the activities of the banks have been carefully scrutinized by the people's representatives.

Every ten years the Bank Act has been thus revised. Each one of the six decennial revisions has contributed much to the evolution of the banking system to meet the expanding needs of a developing Dominion.

In 1934 the sixth revision of the Bank Act was made. Fifty members of the House of Commons made up the committee, which examined witnesses—among them bank officers, government officials and reformers — and studied exhibits filed by various individuals and organizations. Findings were submitted to the House, and later that year the Bank Act was revised in many important particulars.

Through democratic enquiry and decision, the Canadian banking system has grown and been adjusted to meet the needs of the people, providing a depository for savings and a sound basis for Canada's free economic development.

Canada Builds These Tankers

H.M.C.S. Dundurn, one of many tankers being built under Canada's wartime shipbuilding program, is shown above as she slides down sideways into the water, in the yards of the Canadian Bridge Company at Windsor, Ontario.

MODERN ETIQUETTE

1. Who terminates the call in business telephoning, the person who calls or the person who is called?
2. Which is correct to use, "Mrs. John Joseph Brown," or "Mrs. J. J. Brown" for a visiting card or an invitation?
3. Is it improper at a large dinner or banquet to wait for everyone to be served before one begins to eat?
4. If it is necessary to remove a piece of bone from the mouth, while at the table, should one use a fork, spoon or napkin?
5. Is it proper for a man to leave an elevator first, if there are women in it?
6. What is the correct way to fold wedding invitations and announcements?

Answers.

1. The person who puts in the call. However, if the call is of social matters, and the business of the person called is interfered with, that person may terminate the call. 2. The full name is the correct form. 3. No; you may begin eating as soon as you are served. 4. None of these things would be practicable to use; merely use the thumb and forefinger and lay the particle on the plate. 5. Yes; if the elevator is crowded and he is at the door; otherwise he should step aside and allow the women to leave first. 6. Fold them so that the engraving is on the inside, and not on the outside.

PULPWOOD WORKERS NEEDED! FARMERS ASKED TO HELP!

More than 30,000 additional men are needed at once to cut pulpwood in Canada's forests, so as to insure continued production of pulp and paper which is essential to the war effort, says a statement issued by the Pulp and Paper Industry. That statement follows official classification of wood-cutting as essential to prosecution of the war.

"The recent action of National Selective Service in deciding that pulpwood cutting is essential to the war effort," says the statement, follows consideration by government officials of the critical situation of the industry. Pulp and paper are needed for hundreds of articles used by our men on the fighting lines. For months past, there have been too few men cutting pulpwood. At the same time, demands both for pulp and paper have increased. Where five cords of wood have been used up, only four have been cut. Stock piles of all companies are dangerously low, and even if this winter's cut can be brought to the same level as during last winter, Canada will still be 1,250,000 cords short to ensure continued production of pulp and paper products essential to the war.

The new Selective Service rules provide that farmers will hold the same war-essential rank while working in the woods. The appeal of the Government is for farmers with deferment, who are able to leave their farms without affecting agricultural production, to go into the woods for a winter's work.

"Canvassers of pulp and paper companies are covering rural areas, and they are seeking men under rules which have been approved by Selective Service officials. Any farmer, however, who wishes to work at cutting pulpwood has merely to contact the office of the National Selective Service nearest to him. Arrangements for him to go into the forest and cut pulpwood will be made without delay."

GREATER PRODUCTION OF FARM MACHINERY

According to H. H. Bloom, Administrator of Farm and Construction Machinery, production of farm machinery in Canada will be increased next year to 80 per cent. of the 1940 production. Mr. Bloom also pointed out that, because of price control, Canada is the only country in the world where a farmer can buy new machinery at stabilized prices fixed by the Wartime Prices and Trade Board before inflationary influences could result in increases. In many countries where no such control exists, farmers are having to pay as much as 40 or 50 per cent. more for their machinery.

FEED POULTRY AFTER 4 P.M. IN WINTER

Warmth is an important factor in egg production. Correlated with warmth is feeding and the time of feeding. Nature has equipped poultry with ample storage space which includes the crop, gizzard, and stomach. The gizzard with its strong muscular walls may be likened to a power-plant. It generates heat in the bird when the crop is full of reserve feed. Thus the bird is kept warm, while the feathers keep the cold out. But the internal heat is dissipated during the night and in the case of poultry not fed after 4 p.m., the store of fuel is exhausted before the time it is most needed during the coldest hours of the night in the early morning.

Late feeding is a good system. An example is quoted of a poultryman who with only a medium flock, was able to maintain good egg production by feeding late. He had no electric light in the poultry house but the birds came down to feed by the light of a lantern. Late feeding of hard grains in poultry houses stimulates poultry to produce more eggs. More egg production is urgently required to meet wartime demands.

An ambitious young man heard of the death of the junior partner of a big firm. Being full of self-confidence, he hurried to the offices of the firm, whose senior partner was a friend of his father's.

"How about my taking your partner's place?" he asked.

"Excellent," said the senior partner. "If you can fix things with the undertaker."

THE POET'S CORNER

PREDICTION

In nineteen hundred and forty-three
The Allies have met the unholy three,
To beat and batter them into hell,
Then the world can sing all is well.

So buy war bonds and war stamps too,
That this prediction may come true,
For the Allies with the help of you and me
Will set the captive nations free.

For the fifth Victory Loan is here today,
To speed this Victory on its way;
To dig in and work, dip down and pay,
And bring about this glorious day.

Then this prediction shall come true,
Your Boys and Girls will come home to you,
For they have done their bit, and so have you
If you have helped to put the war loans through.

So buy these Bonds, dip down today,
And help the Victory on its way;
What a Thanksgiving this could be,
In nineteen hundred and forty-three.

MY COLLIE DOG

For my dog there's something kindled
In this humble heart of mine,
'Cause no matter where I'm sleeping,
Or where I choose to dine
He's always paddling after me
Around the barn or up to town,
And his tail just keeps a-wagging,
A-wagging up and down.

He's my pal and he's my buddy,
We can't seem to be apart,
And if he wasn't with me
It would really break my heart;
He obeys my every gesture,
And does whate'er I bid him do,
Why, he'd run fifty miles to get me
If I really asked him to.

He's as simple in his manner
As any dog I know,
But there's a difference in him
From the others seems as though;
For when he licks my hand and puts
His old cold nose against my cheek
He does something to me, and
I just can't seem to speak.

To be bothered with a dog or cat
Is more than some can see;
But he's no bother, no sir,
This great, big dog, to me;
For they can't have the pleasure
That he gives to me to feel,
When I turn around and see him
A-tagging at my heel.

THE VALUE OF AN APPLE

Hello Homemakers! "An apple a day keeps the doctor away" is an old adage. The apple cannot be measured in monetary value when you consider the satisfaction of munching a good Ontario eating-apple, and as a fruit it rates high in nutritional value.

Raw apples contain amounts of minerals needed for good bones and teeth and red blood. One apple doesn't provide the total amount we need daily, but when cooked and combined with such foods as milk, meat dishes, cheese or eggs, we may be assured of eating health-providing dishes.

RECIPES

Rice With Apples

2 cups rice, 1-2 cup sugar, 1-2 cup milk, 3 eggs, 9 Canadian-grown apples (steamed).

Pare and core the Canadian-grown apples; cut in eighths and cook until soft. Steam the rice; add the well-beaten yolks of eggs and sugar; mix well; add cooked apples; fold in the stiffly beaten whites and bake 30 minutes in electric oven at 350 degrees in a well buttered baking dish. Serve with cream.

Spiced Apple Pudding

3 cups bread crumbs, 1 cup sugar, 1-4 pound raisins, 2 tablespoons fruit juice, 1-2 teaspoon ground cloves, 3 cups chopped apples, 2 cups milk, 1 teaspoon cinnamon, 1 teaspoon cinnamon, 1 teaspoon mace, 3 eggs (beaten separately).

Scald the milk, stir in the crumbs and scald for 2 minutes. Remove from fire, mix together all the ingredients, adding lastly the whites of eggs beaten stiff. Butter pudding dish, fill with the batter and bake for about 40 minutes in a moderate electric oven. Serve with custard sauce.

Custard Sauce.

3-4 cup milk, yolk of 1 egg, 1 1-2 tablespoons sugar, salt, few drops of vanilla.

Beat yolk of egg slightly, add sugar, salt; mix well; then gradually add hot milk. Cook over hot water, stirring constantly, until it thickens. Strain and, when cold, add flavouring.

Dried Apple Pie.

Wash the dried apples thoroughly; soak over night in cold water; stew until tender. Rub through a sieve, add sugar, a little lemon rind and about 1 teaspoon butter. Fill and bake as any other pie. Serve warm with sweetened cream.

Apple and Cheese Salad

Mix browned soya beans with twice their bulk of cream cheese, adding a little cream to blend the mixture. Season with pepper and salt and make into tiny balls. Pare mellow tart apples, core and slice across the centre into rings about 1-2 inch thick. Arrange rings on lettuce leaves and place several cheese balls in the centre. Serve potato salad and dressing.

TAKE A TIP:

Apples and vegetables from the small gardens must be carefully stored this year, since imported vegetables are expensive and processed vegetables are not available at present.

1. The storage space is most important. A separate room in the basement of your home with a window in it is advisable.
2. Do not hang cabbages upside-down, unless the temperature is close to freezing, because moisture collects in the leaves causing growth.
3. Store pumpkin and squash by wrapping well in two folds of paper. Only dry and well matured ones will keep.
4. Dry onions should be stored in a temperature of 40-50 degrees just above freezing.
5. Carrots, beets and turnips should not be washed. Dry and pack in leaves or sand in a dark but ventilated room; keep at 38 degrees. Use a thermometer to check temperature of lower part of storage
6. Store apples and winter pears in slatted crates in a cool, dry place.

THE QUESTION BOX

Mrs. S. W. asks: Would you recommend malaga grapes to substitute for expensive oranges?

Answer: No, oranges contain Vitamin C which the grapes do not. A better food to substitute is a glass of tomato juice or raw grated turnips.

Mrs. J. H. asks: How to cook liver without frying it.

Answer: Liver may be sauted (that is, cooked in a frying pan with a small amount of fat) or browned in a hot pan for only a minute, then place in covered pan and bake for 10-15 minutes. Liver may be minced and shaped into a loaf pan and baked.

Baked Liver

Put in bottom of dripping pan or baking dish slices of calf's liver, cover each slice with a strip of bacon. Put hot water about 1-4 inch deep in bottom of pan and bake in a moderate oven, 375 degrees F., from 40 to 50 minutes.

LIFE

The hours and days are fleeting fast,
The beauty of the morn,
The glory of the noon-tide soon is past;
What then shall last?
To each of us is given life,
Some, talents many,
Others few, yet every one a task to do;
Be always true.
It is not just the years that count,
The thought of duty,
Love for God, the kindly word and noble deed;
Which all may read.
We then shall hear the Heavenly chimes
So sweet and clear.
At sunset hour; labor has ended, rest has come;
Christ's welcome won.

The HEART of HYDRO

● Hydro is a living thing. It takes people . . . their hands and brains and hearts . . . to keep Ontario supplied with power in uninterrupted flow.

Producing power for Ontario's needs is Hydro's number one job. A veritable army of men is required to keep this power flowing at peak efficiency. For Hydro is much more than mighty power plants . . . much more than the transmission lines you see striding through the countryside.

Hydro is the employees who keep the power plants producing, who guide and co-ordinate the constant flow of energy through the transformer stations. It is the employees who patrol the lines that carry power to far-off mills and mines, to roaring industrial plants, busy stores and offices, comfortable homes, peaceful farms.

Hydro is the families of those employees who have set up their homes in city and town and country . . . and, perchance, deep in the isolation of wilderness and forest.

It is these . . . and all the other co-operative men and women employees . . . who have put life into Hydro, made it a living organization devoted to the benefit and service of Ontario.

Just now their efforts are directed mainly to producing power for victory and essential uses, but, after the war, they will be ready again to provide the full peace-time service so essential to the development and progress of this province.

Yes! The heart of Hydro is people . . . employees and consumers alike . . . both necessary . . . both partners in a great public enterprise. For today . . . as in the past, and in the future . . . the success of Hydro is dependent on both the faithful service of the employee and the wholehearted support of the consumer.

ST. PAUL'S LADIES' AID

St. Paul's Ladies' Aid held its November meeting at the home of Mrs. Lloyd Wilson with twenty members answering the roll call. The president, Mrs. C. R. Robinson, presided. The devotional was taken by Mrs. R. J. Empey. The secretary, Mrs. Fred Smith, read the minutes and old business was discussed. After the treasurer's report, given by Mrs. Angus, it was decided to purchase a $100 bond. The corresponding secretary, Mrs. R. J. Empey, read letters she had received and also reported the boxes sent to our boys overseas. Mrs. Payne reported ditty bags filled and sent in. Mrs. Lloyd Wilson and Mrs. Neil Gray are a nominating committee to bring in the slate of officers for 1944 at our December meeting, which will be held at the home of Mrs. C. R. Robison with the executive in charge. Every member is urged to attend this meeting. Final arrangements were made for the annual bazaar on Nov. 25th. Afternoon tea and a hot supper will be served as usual. Collection was taken and the meeting was closed with the National Anthem. Mrs. Lloyd Wilson served a dainty lunch. She was thanked by Mrs. Geo. Robinson and Mrs. I. Curtis.

W. M. S. THANK-OFFERING SERVICE

The Winchester United Church W. M. S. Thank-Offering Service was held in the church on Sunday evening, Nov. 7th, and was presided over by the President, Mrs. Wm. Steele. The meeting opened with the Doxology. The Invocation was taken by Dr. T. A. Halpenny, and the Lord's Prayer chanted by the choir. The 90th Psalm was read, followed by prayer. A solo, "Do Not Forbid Them," by Miss June Rowat, and a duet, "Dear Father, Whom We Cannot See," by Mrs. L. Porteous and Mrs. S. Lindsay, were greatly enjoyed.

Mrs. W. S. L. Merrill, of Morrisburg, was the guest speaker. She based her remarks on Psalm 96. How can we sing to-day when there is so much envy, jealousy, hatred, and children going hungry, cold, wounded and killed. How can we sing when men go down with their ships with only one survivor left, or when men are giving up their lives on land, air and sea, to protect our shores from one man who would bring in a new order which would make us slaves.

Yes, we can sing, for God is sitting on His throne. Right will prevail against might. We will sing for we have no fear. God has opened the windows of heaven and poured us out such a blessing in filling our barns and cellars.

Evil spirits can find no place to rest if we give God first place in our hearts. Don't send an offering, but bring your offering to the House of God. God specializes in the impossible, so give Him a chance. Paul went the way he was told. He went over to Macedona. So marched the Word westward till it came to Canada. Some day in the near future Canda will be a great nation. Let us make it Christian. Perseverance is a great policy. Alertness is ready to do what comes our way. Loyalty is a great word, so let us be loyal to our country and to our church and its teachings. Money spent for church and missions is money well spent. All our ministers, missionaries, doctors, and nurses labour to make Canada Christian. The W. M. S. is an organization of service, action, purpose. God has entrusted us with talent, so let us use them.

The Misses Marjorie Crummy, Lula Dawley, Marion Loucks and Christine Stewart received the offering, which amounted to $63.85. The National Anthem, and Benediction by Rev. Mr. Halpenny, closed the service.

IN FLANDERS' FIELDS

In Flanders' fields the poppies grow
Between the crosses, row on row,
That mark our place; and in the sky
The larks, still bravely singing, fly
Scarce heard amid the guns below.
We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie,
In Flanders' fields.
Take up our quarrel with the foe,
To you from failing hands we throw
The torch; be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flander's fields.

Engagement Announced.

Mr. and Mrs. I. Robert Sheridan, of Soperton, Ont., wish to announce the engagement of their only daughter, Berna, to Lieut. Hubert Haig Lloyd, R.C.A.M.C., elder son of Dr. and Mrs. W. H. BIBLE SOCIETY ANNUAL MEETING

The annual meeting of the Winchester Branch of the Bible Society was held in the Baptist Church on Wednesday evening, Nov. 3rd. In the absence of the president for the first part of the meeting, Rev. R. F. Willson conducted the worship service. A hymn was sung, Rev. Mr. Willson read the 4th chapter of Paul's First Letter to Timothy, and Dr. Halpenny led in prayer.

The financial report was given by the secretary-treasurer, showing contributions in 1942 amounted to $196.65. The officers were re-elected and Mrs. T. O. VanBridger's name was added to the executive committee. Rev. Mr. Willson extended a welcome to the people present and expressed his appreciation to Rev. B. V. McLean.

Rev. Mr. McLean, in his address, pointed out that the British and Foreign Bible Society was organized in days as dark as the present ones. Its purpose was threefold, Translation, Printing and Distribution. For 140 years this work has been carried on, ever increasing and ever meeting a larger need. It has endeavored to give the Word of Life to the Black, Brown, Red, Yellow and White man in his own language and dialect. Today the Bible House stands in London in the midst of ruins, a silent testimony to the providence of God. Since the outbreak of the present war, 42,000,000 copies of the Word have been distributed in 90 countries and in 758 languages.

The highest aim of the Bible Society is Evangelistic, that men and women of every race and colour may learn to know Christ as their personal Saviour, and find in Him peace in the midst of conflict. A new world order can only be made out of new people with a new heart, and abiding peace can only come through the Prince of Peace.

Rev. W. MacKinnon pronounced the Benediction

Mr. McLean requested that his personal thanks be expressed to every collector and contrbiutor, who helped in any way to make the canvass of this district a success. Up-to-date, over $200.00 have been subscribed.

SOLD CATTLE FOR EXPORT

Two of three Pure Bred Holstein Bulls, purchased by the Dominion Government for export to British Guiana, were selected from the fine Holstein herd of Mr. W. J. Fawcett, of this district, and shipped last week. The government in British Guiana has contracted with the Canadian Government to supply that country with a few good Holsteins each month for the next 10 months to improve its cattle. All animals sent must be from high-testing dams, be of good type, and dark in color. Mr. Fawcett's herd measured up to these standards and two bulls were selected from it for the first shipment. Brtiish Guiana is one of the newer markets for surplus Canadian stock. Good prices are paid for cattle that meet the standards of the South American country's requirements.
