The Chesterville Record.

VOL XXVII, NO. 39. CHESTERVILLE, ONT., THURSDAY, AUG. 25, 1921. SINGLE COPIES 5c.

The Way to Save

It is the systematic regularity with which you make small deposits, rather than the occasional banking of a considerable amount, that steadily builds up a substantial financial backing.

Get the habit of definitely depositing. Three dollars saved every week, with interest at 3% compounded semi-annually, in five years will amount to $841.02.

Lorne Belway Killed

A very sad accident happened on Monday morning last when Mr. Lorne Belway of Mountain township, about two miles west of Winchester, was caught in an engine he was using to thresh, and mangled so that he never regained consciouness, passing away soon after the accident occured. He was the eldest son of Mr. and Mrs. James Belway of Mountain and is survived by a sister and brother and a young wife, who was formerly Miss Edith Bickford of Winchester, whose parents have both died within the past nine months. The sympathy of all goes out to the young widow who has been so suddenly and sadly bereaved.

Shaver—Melvin

A pretty house wedding took place in Winchester on Tuesday Aug. 16th, at the home of Mr. and Mrs. David Melvin when their second daughter, Belle, became the bride of Mr. Stanley Shaver, youngest son of Mr. and Mrs. Roland Shaver of Chesterville, Rev. J. A. Shaver of Strathroy, performed the ceremony at 6 p. m. After the wedding supper the happy couple left for a trip to Toronto and other western parts. On their return a reception was given for them by Mr. and Mrs Milton Shaver at the old family home in in the Ninth. After Sept. 1st, Mr. and Mrs. Shaver will be "At Home" in their apartments on First Avenue, Ottawa, where the groom is a successful teacher in one of the city schools. The best wishes of a host of friends accompany them to their new home.

A Good Investment, Right a Home

This is a progressive age and the man who hoards his money and never invests in any progressive Canadian enterprise is about as much use to his country as a slacker in the army. If no one had ever invested we would still be using candles, and such necessities as telephones, cables, railroads, street cars, automobiles, binders etc, that are essential to modern life would never have been known.

An idea or an invention that never gets past a man's head does no one any good. Ideas to be of use must be put into practice and this takes money. When Henry Ford started his "dream company," as it was called a few years ago, it wasn't the easiest job in the world to get money for the enterprise. The people, who caught Henry's ideas used foresight and common sense when they went in. They were repaid as others have been in many another enterprise with a good idea behind it. The Toronto Globe in its issue of Oct. 13th, 1920, showed that $1,000 invested in the stock of the Ford Company of Canada, sixteen years ago, has now a market value of $207,200 and besides has yielded over $33,000 in dividends.

It is a well-known fact that People's Manufacturing and Sales Co. Limited, was organized to carry out a practical idea and farmers would undoubtedly be well advised to assist in carrying out that idea, an extention of the company's business is now in progress and a branch is to be opened at Chesterville with Fred Merkly in charge. We understand that the preferred stock now being offered pays 8% and will share in futher profits up to 12%, after the common shares have received dividends of 8%. This appears to be a splendid opportunity for farmers to help along a worthy cause and at the same time receive a good return on the money invested.

betokens the perfection of the leaf. Famous for 30 years, Salada never varies the excellence of its quality.

Should Be Called Goliath

A product of Huron Country in the shape of a huge steei, Sir Douglas Haig by name, has been on exhibition during the past three days at Stevenson's rink, Wingham. This mammoth animal, which is claimed to be the largest steer in the world. was raised by Charles Stewart, in Ashfield township, Huron County. It is a grade Durham, almost thorough-bred weighs 3,570 pounds, has a girth of 10 ft. 9¾ inches, and brought the record price of $5 000. The purchasers were Messrs. Martin and Bland. The animal will be taken to Walkerton, where it will be on exhibition during the old boys reunion, there, and will probably be shown at the principal fall exhibitions and fat stock shows throughout Ontario, including Toronto and London. The proprietors also plan to show the animal at Chicago and in other cities in the United States and possibly also in Europe. To appreciate the wonderful size of this bovine king it is necessary to see him. He is not a monstrosity, but a well proportioned animal, perfect in form and sound in body. He has been seen and admired by many hundreds at Wingham during the past few days.--Mitchell Advocate.

Teacher: "Willie, your mouth is open" Little Willie: "Yes, miss, I know. I opened it myself."

Heavy Shrinkage of Cheese in Transit

The extent to which cheese will lose weight in transit, especially during extremely hot weather, is frequently illustrated in the work of Mr. J. E. D. Gareau, the Investigator of weighing of butter and cheese, employed by the Department of Agriculture. The investigator of weighing visits cheese factories and creameries upon the request of the salesman, owner or manager and weighs the contests of a number of packages of cheese and butter, as the case may be, which have already been weighed by the maker. Any discrepancy between the weighing of the maker and of the investigator is noted and the packages weighed and reweighed on arrival at Montreal. About 6 p m., July 1st, the Investigator weighed five cheese in an Ottawa Valley cheese factory. The same five cheese were reweighed 3½ days later in Montreal and were found to have decreased in weight by 9 oz. 10 oz., 11 oz., 12 oz., and 14 oz., respectively. This is a very heavy shrinkage and in all probability the greater shrinkage would occur in the greener cheese.

"You said you would be home at 11, and here I have been keeping awake these last two hours waiting for you to come in!" said an angry wife. The dilinquent husband leaned against the wall and prepared to remove his boots. "And I," he said softly and sorrowfully, "have been waiting outside for these last two hours so's you'd go to sleep."

No High School Fees

Dr. F. W. Merchant, director of industrial and technical education in Ontario announced at the Imperial Conference of Teachers last Thursday, that beginning Sept 1st, no fees will be required in any high schools in the province. This information was given in reply to a question by H. B. Allen, of London. Eng., and it seemed to be news to most of the delegates.

Will Not Build School

Ratepayers of School Section No. 5, Thurlow, are so opposed to the expenditure of money at the present time that they turned down at a public meeting last night the proposition of the School Board to erect a four roomed school to cost, with equipment, $58,000. The board was unanimously in favor of proceeding with the construction, but the ratepayers were practically unanimously opposed.

Women Donate Park

The Wooler Women's Institute of East Northumberland, after answering many calls and responding generously to war work, have now turned their energies toward community improvement and other work. In the year they have bought and paid for a memorial park in the centre of the village, the sum paid being $3 00, and also gave prizes at the rural fair to the Institute members' exhibit, and hope in the near future to erect a public library in the park.

Lesson From the Drowning Accident

The tragedy by which five members of the Toohey family lost their lives by drowning near Smiths Falls is the worst this season. A nine-year-old girl got beyond her depth, and four lives were lost in an attempt to save her. The others rushed in barehanded to save her, none of them being strong enough swimmers to cope with the situation. Safety experts say that at every point where families bathe there should always be kept a long, light pole in readiness for use in any emergency. It is better than a rope, which in the excitement may be thrown short or get tangled.

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

Look how far you've gone since your crank-case was cleaned—

IF you have gone more than 1,000 miles without having your crank-case cleaned; chances are ten to one that your operating expenses are about twice what they should be. Very likely the snug-fitting and rapidly moving parts in your motor are burning and wearing themselves out at an alarmingly rapid rate, too.

Dirty oil, filled with grit, mineral particles and road dust cannot lubricate. Your crank-case should be thoroughly cleaned and refilled with fresh lubricating oil at least every 1,000 miles—more often if your car gets hard usage.

Imperial Polarine Crank-Case Service Dealers are particularly equipped to deliver 100% cleaning service. **Imperial Flushing Oil,** the scientific cleaning agent employed by them, gives unsurpassed results which are not possible with kerosene (coal oil) or similar things that are altogether unsuited for crank-case cleaning.

This is economy year. Clean oil and a clean engine will save you a lot of money. To-day: Drive 'round to one of the addresses listed at the left, or to any dealer who displays the Blue Imperial Crank-case Service Sign. Prompt reliable crank-case cleaning is assured.

Water Where and When You Need It

Water is One of Life's Three Essentials—FREE Wind Power will Pump Water Anywhere on Your Farm

Running water you can have on your farm. Toronto Windmills make it possible.

—because they use FREE power —no operating cost.

—because they are BETTER windmills—staunchly built and scientifically designed. *Double Gears* give these Windmills their great superiority. No expense beyond an occasional oiling. *Quiet* in operation. They give a lifetime of service. Double Gears have brought wind power back into favor.

Toronto Pumps and Toronto Water Systems give you all the advantages of city service. We can arrange a system with a Toronto Windmill; a Toronto Gasoline Engine, or a Toronto Electric Motor.

You will be interested in our literature on Windmills, Pumps and Water Systems. It is sent free. Mail us a postcard *now*—before you forget.

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE

3928 Union St., Vancouver, B.C.

"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. *I had pains low down in the back and sides of the body.* I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.

Then, I started taking 'Fruit-a-tives'; and from the outset, I felt better, and *this medicine has completely relieved* me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. *I am free of pain* and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives'."

MRS. M. J. GORSE.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited Ottawa, Ont.

Bandits Rob Buckingham Store

Five armed automobile bandits robbed the jewelery store of Elias Barbeau, Main Street, Buckingham, Que., early Sunday morning of various articles of jewelery valued at $2,000, and after a brief gun fight with a squad of Ottawa constables sent to intercept at Gatineau Point, a village on the outskirts of the city, were able to make good their escape.

Barbeau, who lives above the premises was awakened about 2 o'clock in the morning by sounds of breahing glass. He reached the downstairs part of the house in time to see five men departing in a high-powered touring car.

Police officals in the surrounding districts were notified by telephone and every avenue of escape was guarded. The Ottawa police force sent a squad of five men to a point of vantage on the Gatineau road. Shortly after their arrival they heard the approach of the car and spread across the road. Their command to the driver of the car, however, was answered by a volley of shots from the other occupants of the car, and the car brushed past them, nearly running them down.

The police gave chase in an automobile but were unable to maintain the terrific speed set by the bandits and the latter escaped.

Sad Drowning Case

Cornwall Standard— On Saturday Frank Barnhart, an Indian who resides on an island North West of Stanley Island, found the body of a young man floating in the river near his home. He crossed to Stanley and notified Mr. Duquette and word was telephoned to Dr. C. J. Hamilton, Coroner, at Cornwall, who despatched Messrs. Jardine Bros., undertakers, after the body with orders to bring it to town. The body was in an advanced state of decomposit on and the Coroner ordered its immediate interment in Woodlawn cemetery. So far as was known locally no one was missing. On Sunday two young men named McDonald and Baker, of Croil's Island, arrived in town having heard that a body had been found and brought here, for which they had been searching the river in a boat. They stated that Wm. Irish, aged 16 yrs., had been employed on an island near Croil's, and being unable to secure a boat to go home in, decided to swim the channel, but never reached home. This was on Tuesday, 9th inst., and they believed the body was that of the missing lad. They consulted Dr. Hamilton and the description given tallied with that of the body found, and an order was issued to have the body exhumed, which was done on Monday. The body was taken to Dickinson's Landing in the evening and was interred in the cemetery on Longue Sault Island on Tuesday. A number of the young man's relatives came down and accompanied the remains home.

"Did you write your father that you were hungry?" "Yes, but it didn't bring any money. He says he'll send me a few sandwiches daily by parcel post."

Thumb Blown Off By Tire Blow-ovt

A peculiar accident happened to F. Sproule, cream collector for Flavelle's Limited, at Lindsay, when removing a tire from one of his truck's wheels. Failing to deflate the tire before removal the outer rim came off with considerable force' blowing off one of Sproule's thumbs completely.

Playing For Election

Declaring that Premier Drury was only playing for another election within two months, M. M. MacBride, M. L. A. of Brantford, refused to be considered as a labor candidate for the Dominion House. Mr. MacBride said that the Premeir would attempt to go to the people before the United Farmers of the province hold their fall meeting, and in the event of an election so early, he believed the Hydro question would be the important issue. As a strong Hydro man, Mr. MacBride would concentrate his energies in the provincial election.

Gruesome Discovery of Human Bones

While picking berries Andrew MacDonald, a resident of Kelso, made the gruesome discovery of a pile of human bones, bleached and rotting in the sun, about a mile away from town. Nothing was left of the remains but the bones and clothes the pockets of which were turned inside out. Bullet marks were still visible in the skull. The man's jacket covered the bones. Mr. MacDonald immediately communicated with the police, and a thorough investigation is under way by Provincial Constable Hughes of Cochrane. So for as can be ascertained the bones of the unknown man have been lying in the open for at least twelve months and it is extremely problematical whether a decision can be made as to whether the discovery was one of a case of suicide or murder Two bullet marks remain in the skull and one lead bullet is still imbedded among the bones. No weapon was found.— Perth Expositor.

Received Electric Shock

Carleton Place C. C.—What operator Barclay considers the closest call he ever had in all his years of railroading, came to him last Saturuay night during the electric storm, when he had a narrow escape from being electrocuted. The lighting was evidently playing with the C. P. R. telegraph wires out in the country as spurts of blue flames were observed issuing from the instruments in the office from time to time after the flashes. The climax came after a particularly vivid "chain," when the entire switch board was suddenly blown out in Mr. Barclay's face, and he received a shock which dazed and blinded him for some time, together with slight burns on the forearms, but fortunately suffered no really serious injury. The report of the explosion was heard in all parts of the building, and several people rushed to the office, and soon had Mr. Barclay on his feet again. He is around as usual and continuing work, evidently none the worse of his accident.

Lower Freights Not in Sight Say Mogtreal Men

There will be no reduction in rail freight rates in the near future in the opinion of Canadian railway officials here, despite independent advices to this effect from Ottawa. The rumors of an impending cut in freight rates has been responsible it is stated, for serious curtailment in purchases and shipments by factories and commercial houses. Any such cut must be preceded by a reduction in wages, and, it is pointed out, the reductions in wages which have actually taken place are not of a definite nature, insofar as all reductions are subject to retroactive awards and final settlement by boards of arbitration which involve a possibility of such boards declining to recommend any wage cuts.

Victory Shows at Chesterville Races

An added feature of the Race meet this week is the mammoth circus midway furnished by the Canadian Victory Shows of Toronto A mammoth merry-go-round, and a variety of gorgeous feature side shows line the midway. A large turnout of people is expected as this show is regarded as one of the finest midway organizations touring in Canada. Its wide variety of attractions should insure the meet being the most successful on record.

MAPLE VIEW

Cutting corn is the order of the day.

Quite a number from here attended the Masonic and Oddfellows' picnic on Friday and all report an excellent time.

Mr. and Mrs. Will Depreau and family of Osnabruck Centre, and Mr. and Mrs. Dave Rutley and family of Newington, spent Sunday at the home of F. I. Dafoe.

The many friends from this district, of Cyril Shaver are sorry to learn of his death which occurred at his home at Osnabruck Centre, on Saturday evening Aug. 20th. Much sympathy is extended to the bereaved ones.

Mr. and Mrs. Fred Dafoe and baby Greta and Mr. and Mrs. Willis Werely and Miss Blanche, visited friends in Finch on Saturday.

D. Hurley oi Aultsville, called on friends here on Monday.

Messrs. Fred Dafoe and Fred Jarvis spent a few hours in Northfield on Tuesday.

Mrs. Nettie Heagle and children visited her sister Mrs. Wm. Jarvis of this place on Sunday.

Wm. Empey spent a few hours at Louisville Landing on Sunday.

BERWICK

Mrs. Ed. Blair of Ottawa is renewing acquaintances in this vicinity.

Mr. Orville Bogart spent over Sunday at Cornwall.

Mr. and Mrs. Carmen Barkley and Mrs. William Elliot of Dunbar spent Sunday at Mr. William Anderson's.

In Memoriam

In loving memory of James A. Pollock who departed this life Aug. 30th, 1920.

I shall know the loved who have gone before,
And joyfully sweet will the meeting be,
When over the river, the peaceful river,
The Angle of Death shall carry me.

Inserted by his daughter.

Miss Willa Parker was the guest of Miss Verna Kittle on Monday.

Miss Laney Kittle of the Boyne is visiting relatives in this district.

Miss Edna Hill of Springhill visited relatives in this vicinity recently.

Did you know that it is less tiresome walking in Canada than in other countries? Well it is, because a Canadian mile is 1760 yds., an Irish mile 2240, Swiss, 9153, Italian, 1766; Scotch, 1984; Tuscan, 1808; German, 8106; Arabian, 2143 Turkish, Flemish, 6869. Speaking of long distances reminds us that Abe Lincoln was once asked how long a man's legs should be. The great emancipator pondered a few seconds and replied: "Well, I don't know exactly but I think they should at least be long enough to reach from his body to the ground.

GOLDFIELD

Mrs. R. Brady and daughter Hazel and Mrs. Smith and son Raymond of Syracuse, were guests of Mr. and Mrs. John Nephew last week.

Mrs. M. Coyne of Chesterville, visited relatives here last week.

Election Talk in The Air

The possibilities of an early election are being keenly discussed in political circles. Members of Parliament from various parts of the Dominion were in the capital over the week-end adding their advice to that which has already been given as to the course which, in their opinion, the Prime Minister should pursue in the present situation.

One of the forecasts made by prominent Government supporter was that there was little likelihood of an election before either June or September of next year. One of the proposals which had been put forward, this member claimed was to hold a brief session, opening about the end of February, during which business would be practically limited to the passing of the budget, certain estimates and the redistribution bill. In the case of this occuring he did not expect an election before September of next year.

At the same time it was stated that considerable pressure in favor of an immediate dissolution was being brought to bear, but the tendency during the last two days had been rather away from that idea.

Practically all sections of the Dominion were represented by the members and others visiting the capital to discuss the political conditions during the last few days, and it is expected that this influx will contiune for some days yet before a final pronouncement either way is made.

Escaping Income Tax

Mail and Empire—It is said that throughout Quebec rural districts, few farmers will be liable for income tax. Their earnings, on the average, bring them in the taxable class, but they escape because of the large number of children in their families. One farmer in Chicoutimi reported $1,100 net for 1920, but has eleven children under eighteen, and his exemptions of $200 each on that account wipe out his liability.

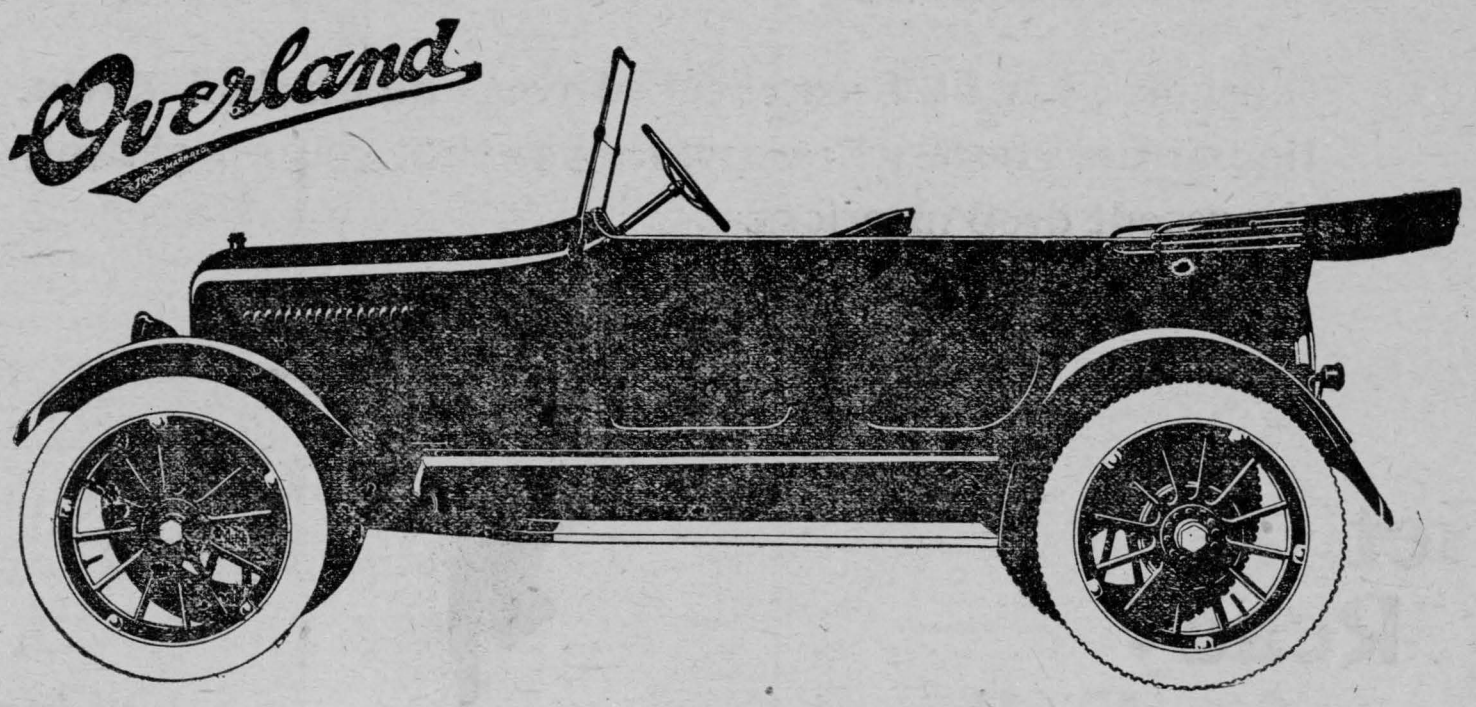
This is a good hint to others, farmers or otherwise, who feel hurt by the income tax. It is possible to achieve total immunity if the income be not over $5,000. Ontario pays the principal part of the Dominiou income tax, and the cities and towns pay about 97 per cent. The Ways and Means Committee of the Republican Congress is said to have decided on an exemption of $400 for each child under sixteen, and if the Dominion Government de ided to do likewise, five children under eighteen would cancel liability for tax on an income of $4,000 It thus might be a good economic proposition. Unquestionally the high cost of living has compelled limitation of families. In the cities,and towns where high rents, high taxes, and general exorbitant costs oppress, the breadwinner a large family seems like a sentence to perpetual poverty. As it is the children who count in the national policy, and in this Quebec's achievement helps point the moral.

Recent birth statistics indicate that Quebec has far outstripped Ontario in natural increase. We have maintained our relative strength numerically by immigration from the British Isles. This may keep on without serious shrinkage of our population, but the increase is the best, and plain talk on race suicide would do no harm.

Fourth Writ Issued Against Farmers' Sun

The fourth writ to be filed against the Farmers' Sun Publishing Company for its insertion of an article in May last relative to the manner in which certain Dominion Members of Parliament had declaredly profited improperly from the Roumanian loan has been entered at Osgoode Hall by W. F. Cockshutt, M. P. of Brantford. The plaintiff asks damages to the amount of $50,000, alleging that the article in question accused him of securing some $65,000 worth of orders for the Brantford Roofing Company. and thereby profiting by a transaction which he had used his official positions to further in spite of Roumania's bankrupt condition.

An Improved Car
A New Price



Now $985.00

And ti's even a better Overland.

People are beginning to realize what a wonderful car the new Overland really is, for owners all over Canada are reporting 25 to 30, some 35 miles to the gallon of gasoline and 10,000 to 14,000 miles on a single set of tires—moreover they are enthusiastic over its easy-riding, its sturdiness and power.

And the all-around efficiency has been increased by many refinements.

You get a five-passenger automobile complete from self-starter to extra tire carrier.

You get :
A perfect four-cylinder engine protected yet accessible ; simply constructed, yet powerful—giving you assurance to tackle any hill, or any road, mud, sand, or snow.

Triplex Springs, that provide 130-inch springbase—making you ride easy and at the same time saving mechanism as well as passengers from road shocks.

Hundred-inch wheelbase, combining economy with those riding qualities, and enabling you to turn a complete circle in 32 feet - a distinct advantage on narrow streets or in congested parking areas.

Transmission of standard sliding gear type, with three speeds forward and one reverse.

Two separate rod-controlled sets of brakes, internal and external, operating on rear wheels.

Spiral-cut drive gear and pinion, ensuring quietness.

Auto-Lite starting and lighting system, speedometer, ventilating windshield, one-man top and side curtains.

Pleasing lines, pressed steel body, hood and full crown fenders, black enamel finish—all contributing to the attractive appearance of this high-quality car.

Insist on getting the kind of economy and performance Overland will give you;

See your Overland dealer at once for a demonstration.

Your Best Investment.

Life insurance offers the best form of saving money, it is an investment for small sums, and affords "protection" for many times the annual deposit or premium. It is the only method of combining savings and protection.

It is also a sure way of leaving an estrte. Fifty per cent. of all estates at death consist of life insurance.
For those reasons the people of Canada are buving twice as much life insurance in these days of retrenchment as they did even two years ago.

Life Insurance is your best investment.

Without obligation on your part let me submit the plan to you.

The High Way and the Low

A word to you sonny, you litfle twelve or thirteen-year-old boy who is smoking cigarettes on the sly What do you want to be when you grow up—a stalwart, healthy,vigorous, broad-shouldered man or a little puny, measly no count weak minded dude. If you want to be a man strong like a man with hair on your face, brains in your head and muscles in your limbs, just let those cigarettes alone If you want to be a thing pitied, by your olks, despised by the girls and held in fcontempt by the fellows, keep right on smoking and end your days in the insane asylum.—Pontiac Advance.

The lady was waiting to buy a ticket at the picture show when a stranger bumped her shoulder. She glared at him, feeling it was done intentionally. "Well" he growled, "don't eat me up." "You are in no danger, sir," she said. I am a Jewess.

A Hot Springs widow says the latest proposal she has received was from a Central avenue barber, who said that after working hard all day he longs to go home to a face that doesn't need anything done to it.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarral Deafness requires constitutional treatmeat. Hall's Catarrh Medicine is a constitutional remedy. Catarral Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

How to open a Savings Account

You can open a savings account in The Bank of Nova Scotia with a small deposit. All you need do is to bring your money to the teller and sign your name on a card. The ledger-keeper then gives you a pass book, which is your receipt. It takes less than five minutes.

When you wish to deposit more money, and it is not convenient to do so personally you can send it in by a member of your family, or a neighbor, along with your pass book.

The five minutes you take to open a savings account may be the turning point in your career. It has been for many others.

Two New Gladioli

Two beautiful new gladiolus blooms have been discovered by Dr. F. E. Bennett, President of the St. Thomas Horticultural Society, among the 1,500 seedlings that are growing in the local trial gardens for the American Gladiolus Society's show, Aug 24, and 25. The seedlings came from Kentfield, Cal. The one bloom, of soft flesh tint will be named "Lady Beck," in honour of Sir Adam Beck's wife, subject to her consent, while the second bloom, one of delicate cream color, with lilac markings, will be named "Annie Bennett" in honor of Dr. Bennett's wife.

Cargo of Pebbles for Use in Extraction of Gold.

Of the many strange cargoes which have come into the port of Montreal, none has stirred more curiosity than that which has been coming out of the Danish auxiliary schooner Danekonge. This particular cargo is composed of pebbles, round, shiny pebbles, fifteen hundred tons of them. These pebbles are not ordinary pebbles. They belong to a special hand-picked variety known as "Iceland" pebbles, and are intended for a special purpose. The next day or two will see them on their way to the gold mines in the Porcupine district, where they will assist in the extraction of gold from the quartz. They will be used in the revolving tube mills to grind the ore in the secondary process, after it has already been through the jaw crushers and stamp batteries and before it passes on to the cyanide tanks. For this purpose the pebbles are said to be more satisfactory than steel balls.

Women Fire Fighters

The girls employed by a large manufacturing company had been given fire drills weekly, including instructions in the use of fire pails.

One day recently a small fire started. One of the girls snatched a fire pail and was about to throw the contents on the fire when she noticed the water was covered with soot.

Evidently the young lady did not care to soil the fire for she emptied the pail on the floor and ran to get some clean water.

Coal Black Fowls

The market garden of Frederick Osborne, who lives to the north of Aurora, is proving a magnet for poultry experts and farmers generally as the news travels abroad of a strange freak of nature exhibited there in the shape of a flock of coal-black fowl, the first seen in this district. No one had yet been found to give them a name. They are mystery birds par excellence. From their antecedents and breeding they can be called Wyandottes. Mr. Osborne has a number of perfect White Wyandottes. This spring he took eggs from these chickens and set them under well bred White Wyandotte hens. He was dumb-founded when the chicks from those eggs began to grow coal-black plumage. The mystery deepened when it was realized that, in addition to having pure-black feathers these birds were destined to go through life with perfectly-formed black combs, bills, legs and feet. Otherwise they are normal birds. Many poultry men who have seen the flock of fowl are puzzled to account for their color.—Exchange.

Men Are "Riding the Bumpers"

Residents living along the railways, says the Kingston Whig, have noted that this year the number of men to be seen "riding the bumpers" is largely on the increase. Every day numbers are to be seen taking advantage of any suitable place where they can secure a hold. The large amount of unemployment is believed to be the cause of the increase in travel. The railways do all they can to stop these fellows stealing a free ride, but it is impossible to get them sll.

A piece of discarded auto tire tubing cemented to the sole of a shoe will, it is said, outwear two leather half soles. This is easily done by roughiug the leather with rasp or scraper, applying three coats of patch cement and a layer of cushion stock, to which is applied the cemented tubing as in the patching of a tube on the road.

"All the country people are said to be crowding into the big cities."

"Yes," answered the grizzled mountaineer, "even the moonshiners."

NAVY CUT CIGARETTES

10 for 15¢ 25 for 35¢

Give us a Hand!

CITIZENS of Ontario—The only salvation for Ontario's revenue-producing forests is the prevention of forest fires. Your support and co-operation is absolutely essential.

Forest fires are rapidly diminishing our resources of timber and pulpwood. Over 90 per cent. of Ontario's forest fires are caused by human carelessness.

If everybody was careful to prevent the start of fire, Ontario's Forest would be safe.

Save Ontario's Forests

They're Yours

BUSINESS MEN of Ontario — Lend us a hand. The various business associations — of bankers, boards of trade, manufacturers, merchants, lumbermen; engineers, educationalists, tourists, and sportsmen, and all other bodies of weight and influence, can do a great work for this province and for their own interests as well by actively promoting educational propaganda to reduce forest fires.

RAILWAY OFFICIALS can help. Railways cause 40% of Ontario's Forest fires. The Forestry Branch is being well supported by improved co-operation on the part of railway officials and by the Dominion Railway Board. Let us reduce the number of railway fires one-half this summer. (The train passenger in Northern Ontario who nonchalantly throws his cigarette or cigar out of the window during the forest fire season is deserving of a jail sentence!)

CAMPERS, tourists, fishermen, picknickers, berry pickers, prospectors and hunters should feel their responsibility even though out of sight of the policeman.

SETTLERS can co-operate by exercising more care in setting out fire on their own property.

LUMBER FIRMS can help by impressing on all foremen the need for carefulness. River-drivers in dry seasons should be specially warned. Gangs of men going in and out to the camps need special attention, because of the danger along the slash-lined trails from the inevitable cigarette.

THE PRESS could do more public-spirited constructive work to reduce forest fires than any other single agency. This is a non-political campaign in which the whole press could join.

LEADERS OF PUBLIC OPINION in every community should be the first to extend a helping hand. Tell the Chief Ranger or write the Head Office any time you have information or suggestions to impart, or questions to ask.

GIVE US A HAND!

Why He Got Out

Caught out in a drenching storm in the woods, the story goes, a pedestrian managed to cramp his bodp completly into a hollow log where he was perfectly safe from the pouring rain. Snug and warm he soon fell asleep. When he awoke he found, to his horror, that the log had swelled and he was gradually being squeezed tighter and tighter. A smothering sensation was passing over him and he felt that his end had come. Through his mind began to flash sins of omission and commission. Suddenly he remembered that his subscription to the local paper had not been paid for two or three years and at this he felt so small that he was able to clamber out without any trouble at all. Now we do not want anyone shrivelling up. We want them to straighten up their shoulders, throw back their heads and put their hands in their pockets and pay up. The Record needs the money and we would like to get it now.

If you break a lens or a frame of your eye glasses Mr. A. E. Bolster can fix it for you—day or night every day—at W. G. Bolster's Drug Store.
