Regional Library plans outlined to Council at Monday session

Herman Nyland, extension supervisor of Cornwall Public Library, was on hand Monday evening to acquaint council and members of the library board with the proposed Counties regional library system. All members were present for the regular monthly meeting of Chesterville council.

Mr Nyland stated that with government subsidies going down, a small library can't be operated at reasonable cost. A stock of 15,000 books is needed for a village of Chesterville's size.

The Library Act of 1966 states that any county can form a county library. The county library board would be made up of the warden, three members of Counties' council and three citizens appointed by the council.

The tentative budget for the new system is $95,000 per year, which would cost the taxpayer approximately ¾ of a mill. The Counties will put up $50,000, plus 40% from the Department of Education, with the remainder from Eastern Ontario Region.

Councillors groaned at the word "regional." They believed that costs could spiral, following the pattern set by present-day education.

Under the scheme, local assets and liabilities will be taken over with yearly costs being pegged at approximately $1 per capita. A marked asset of the system, according to Mr Nyland, will be the availability of numerous reference books, as well as constant interchange. He said that 1,000 books can be left at the local library for six months, then exchanged for another thousand.

There will be no central library. Every existing library in the Counties will be improved, with more libraries being created. Local people will operate the individual libraries, with advisory committees giving their opinions on local conditions.

Mr Nyland said that the bookmobile has been a tremendous success, with one out of three users an adult.

If 75% of the councils of local municipalities vote in favour, a county library can be established.

Crackdwon

Taxpayers (or non-payers) and dog owners are coming in for special attention:

The clerk has applied for a certificate of registration on two properties in the village for tax arrears, and is planning more.

Council is contemplating bringing in a dog catcher from Cornwall to recruit the local talent now trotting around the streets. Citizens are growling about the meandering canines, so the town fathers will put the bite on the owners, many of whom haven't bought the current year's tags.

The village will donate, as in other years, $600 to the Chesterville and District Agricultural Society.

A lengthy discussion was held re building permits. Permission was granted to change a Queen St. business-residence into a single residence.

Council, with the concurrence of neighbouring councils and Chambers of Commerce, have submitted a resolution to E.O.D.C. to use its influence in having the by-passes at Winchester and Chesterville constructed as soon as possible. It was mentioned that the Chesterville by-pass has been in the works for 18 years.

A letter was read from Premier John Robarts of Ontario. The writed requested that council show restraint and cut down expenditures in the coming year.

Yellowknife Public School, Yellownknife, N.W.T., in a letter, requested one pound of good garden soil from the village fathers. It is the Territories' Centennial year and the children are making a garden from earth taken from every province in Canada. The letter pointed out that there is a shortage of good soil in the Territories. Record readers can send soil to Yellowknife Public School, Box 218, Yellowknife,N.W.T. The soil should be sent in a plastic bag, well wrapped to prevent

Chesterville enters team in fastball loop

Chesterville's request for entry in the South Carleton Fastball League was accepted at an exploratory meeting of league officials at North Gower last week.

The meeting was chaired by president Alf Taylor who presented a revised constitution for review, pending approval at the annual meeting in two weeks time.

Delegates were present from Russell, Metcalfe, Leitrim, Munster, North Gower, Chesterville, Kemptville and Stittsville.

Dangerous Spot

The right hand front seat is the most dangerous position in the car up to 35 m.p.h. Above that speed the greater severity of injury in a crash transfers to the driver's position.

Bank, sewers, pavilion village landscape changing

Chesterville's landscape is taking on a marked change these past few weeks. Things are either being placed below ground-level or rising above it.

Suatac Construction has several crews working throughout the village installing sewer pipe for the new sewage system. Tuesday afternoon a gaping hole was being dug, south-east of the Eric Casselman buildings, to accept the pumping station installation; work crews were laying pipe in front of Trnity United Church on Casselman St.; installations were being made by St. Mary's School adjacent to the park; bulldozers and earth moving equipment were pushing up ground forming the sides for the lagoon.

The new $26,000 Park Pavilion Building under the supervision of R. L. Hutt Construction, is moving along at a good rate with the cement block walls rising each day. The outside of the building will be of brick veneer.

The Bank of Nova Scotia, with their extensive building plans, have things well underway.

The new bank house being built on Riverside Drive in the Laflamme sub-division has risen to the point where the side-wall structure is in place.

The house will have approximately 1200 square feet of living space, full basement, attached garage with brick veneer exterior. Sinclair Supply Co. Ltd of Vankleek Hill are the contractors.

Chesterville Branch Manager R. J. Finigan, his wife Helen and two children hope to be moved into the new resdence by July 15.

When the old bank house on Main St. is vacated, tentative plans call for the building to be demolished.

A new bank building, approximately 30' by 87", one storey with full basement will be built on that site.

The demolition of the old bank will make way for customer parking. The new bank building will be used exclusively for banking purposes.

Area farmer Walter Allen still missing

A police tracking dog working on the past week-end hasn't solved the mystery that surrounds the disappearance of local farmer Walter Allen, who has been missing for several weeks..

Mr Allen, in his seventies, is missing from his one-and-a-half storey clapboard home, two miles south-east of Chesterville. A bachelor, he has been living alone on the farm for the past 35 years.

First notice police had about the man's disappearance was on last Friday, when Chesterville postmaster Stuart Allan informed them Mr Allen hadn't collected mail from his rural mailbox for about three weeks, nor had Mr Allen been into Chesterville for the same period to pick up his old age pension cheques.

A search of the bush on the Allen farm by a tracking dog, provided no new clues for police over the week-end. The search continues this week.

Fire Marshal Dave Shorey of Brockville, was on the scene on Sunday sifting through the of one of the farm buildings that was gutted late last month, in case Mr Allen had been a victim of the blaze.

The missing man's five-room house, too, has been subject by OPP over the week-end for clues of robbery or foul play.

To add to the mystery, Allen's dog hasn't been seen either for three weeks. The two were inseparable, according to Walter Allen's brother Hillary, who lives alone in a trailor just north of Ingleside.

Another brother, John, lives on a farm two miles north of Walter Allen's farm and a sister Mrs Mary McCadden, lives in Ottawa.

The several cows and a horse on the farm were in pasture. Had they been penned, more than likely a neighbour would have noticed earlier that something was wrong.

Police described the missing man as five-foot, 10 inches, weighing 155 pounds, a slight build and reddish-gray hair and usually wearing a black fedora hat with a white brim.

At press time on Wednesday Mr Allen was still missing, according to Long Sault O.P.P.

Anyone who can help police locate Mr Allen is asked to call Long Sault OPP at 534-2223.

From one extreme to the other

Last week's weather tied or broke all records for high temperatures for this time of year. Heavy coats were stored away, air-conditioners were in operation and many were complaining of the heat.

This week just the opposite. Wednesday three inches of snow had fallen overnight and the temperature was around 32 degrees.

A radio announcer gave this report Wednesday morning: "low overnight 32, high today 50 with a possibility of scattered snow flurries.

The unsettled weather must be raising havoc with contractors, and farmers who are working on their spring seeding.

Going! Going! Gone!

Canada Hospital Day

May 12, 1970, is Canada Hospital Day. Hospitals are much, much more than bricks, mortar, swabs, sponges and disinfectant. Hospitals are people — patients, health care personnel, board members and volunteers.

Each member of the health care team, the professionals, the skilled and semi-skilled contribute to the high standard of care enjoyed by all Canadians.

This year marks the 150th anniversary of the birth of Florence Nightingale whose courage and tenacity established the principles of good hospital care which we often take for granted today.

Canada Hospital Day is the occasion when we can renew our dedication of service to our fellow man and community. It is a time when we can also make our community aware of the vital life service we render to our neighbours and members of community. Its a day to pay tribute to the trustees, auxiliaries, doctors and staff who help safeguard our country's health.

Our staffs will continue to provide the finest in health care, notwithstanding financial pressures from government to curtail costs. Hospitals are working to hold the cost line through increased efficiency and better utilization of resources.

Working together we can meet these pressures constructively in the local, regional, provincial and national areas. L. R. Adshead, president of the Canadian Hospital Association, states: "As president of the Canadian Hospital Association I have travelled thousands of miles to all parts of Canada and

I know that the conviction and tenacity of Florence Nightingale and Jeane Mance are the backbone of hospital people who can find the solutions to questions posed to modern day hospitals."

Winchester District Memorial Hospital — and all neighbouring hospitals — deserve praise for a job well done.

Think safety

It's that time of year when we put away the snowmobile and take out the outboard motor, power lawn mower, power saw, camping gear and all sorts of other fuel-burning equipment.

All of these items give us recreational pleasure or lighten the manual work load around the house. But each of them, too, is a potential hazard to life, limb and property. If we are to maintain a good master-servant relationship with these appliances, we must exercise a good deal of common sense care in their use and storage.

Snowmobiles that are stored and maintained inside, especially in basements, are potential hazards from leaking gasoline or the escape of gasoline vapour when tanks are drained. Left in this condition near open flame heating appliances, water heaters, etc., or in the presence of other ignition sources such as smoking, electrical shorts, or power tools is inviting trouble.

Infrared and catalytic heaters must be used in well ventilated areas and must be fuelled outdoors. The same precautions must be taken for camp stoves, lanterns and heaters. It must be ensured that this equipment is kept clear of tent walls, clothing, mosquito netting, etc. Cleaning and maintenance care should be exercised to reduce fire and carbon monoxide hazards.

Stoves, lamps and heaters that use fuel oil or kerosene should not be fuelled with gasoline or naphtha.

Prepackaged containers are designed and built to be used once, then discarded. Refilling them is not only dangerous, but against the law.

Fuels such as gasoline and naphtha should never be used as a cleaner or solvent. Approved cleaning agents are available.

This summer, work and play safely.

ANN LANDERS

Dear Ann Landers: Please tell me if alcohol makes a man sexier or less sexy? What I am trying to say is does a man perform better sexually when he is under the influence of alcohol? I have heard conflicting reports and would like to know the truth.—Vino La Difference.

Dear Vino: One of the tricky things about booze is that it makes man believe he is capable of all things. This does not necessarily mean he is.

Not all males react to liquor in the same way. Some become loud and boisterous. Others go to sleep or pass out. The shy guy sometimes finds "liquid courage" a help in overcoming his inhibitions. But the experts say, in most instances, liquor and sex do not mix. While alcohol often increases the desire it tends to hinder the performance.

Dear Ann Landers: I am a clergyman whose high regard for your counsel is evidenced by this letter. My problem is personal but one which is shared by hundreds, if not thousands, of my colleagues.

A great many women have taken to needlework. My own wife is among those who carry satchels and large handbags stuffed with yarn, needles, unfinished pillows, samplers and what-have-you. I heartily approve of needlework and have seen some highly artistic results. But please, ladies — not in church and not during lectures. Needlework is fine when one is not expected to give his undivided attention. The speaker often works hard and long on his message and when he looks out at his audience and sees women threading needles and untangling yarn he is demoralized at the outset. It has been said that the eyes are the windows of the soul. When the eyes are on needlepoint and not on the speaker, he feels a serious loss of contact.

Thank you for the opportunity to occupy your "pulpit," Ann. This was in a sense a reciprocal arrangement since I remember so well the evening five years ago when you occupied mine. Sincerely, Anonymous, Please.

Dear A.P.: Thank you for saying something that needed to be said. As a speaker who has faced a number of audiences, I agree wholeheartedly.

* * * *

Dear Ann Landers: Whenever I read a letter in your column from a girl who writes to say she is going to marry a fellow who has just one little fault — he drinks too much, or he is tight with money, or he can't hold a job, or he loses his temper once in a while and slaps her around —I wish I had the nitwit's telephone number. I'd call her up and tell her not to be a fool.

I married a man who had "one little fault." He was a Mamma's boy. I was sure I could change him, too. I should have called off the wedding when he invited his Mamma along on our honeymoon because it had been six years since she'd been on a trip. Please tell the girls if they aren't willing to accept a guy as he is, to pass him up. Marriage never improved anybody. During courtship a man always tries to show his best side. Any changes are usually for the worse.—Seen It Happen.

Dear Seen It: You're so right. I've seen it happen too.

Do you feel ill at ease — out of it? Is everybody having a good time but you? Write for Ann Landers' booklet, "The Key to Popularity," enclosing with your request 35c in coin and a long, self-addressed, stamped envelope.

YOUR LEGISLATURE

REPORT...

Several new Bills introduced by the Government during this week just passed have provided the basis for more work for the Legislature. The Minister of Lands and Forests presented a Bill to provide loans for lake fishermen and others who have, at least temporarily, lost their means of livelihood through Government anti-pollution bans on Great Lakes fishing. The Minister of Financial and Commercial Affairs re-introduced the Bill to separate business corporations from others and to impose stringent responsibilities on directors and officers of limited companies incorporated in Ontario with appropriate amendments to the present laws governing non-business corporations. The list of Government Legislation on the Order Paper is now rather long and will provide much debate in the House and in the various Standing Committees.

Estimates continued to be debated but each Departmental Estimate debate follows this year so far the same and rather unusual pattern, viz., several days of debate on the first items with the last, and usually more numerous ones, being passed almost instantaneously as Opposition Members seem to relax in anticipation of another round. The Departments of the Provincial Secretary and Minister of Citizenship (during which debate the problems of our Indian citizens received practically all the attention given the Estimates of the Department) and of Correctional Services (in debating which Opposition Members of both Parties decried punishment for crime as old fashioned and called for re-training, lesser penalties and in fact almost everything which would seem required to "make crime pay") were approved by the House which now sits three evenings each week.

The Attorney General announced the appointment of the new Land Compensation Board of seven members and a chairman. One of the members is the former Assessment Commissioner for the United Counties of Prescott and Russell, Mr Lionel Latulippe of L'Orignal. This Board will take over from The Ontario Municipal Board the duty of dealing with all compensation claimed by persons subjected to expropriation procedures.

This week also a new group of twenty-two boys from all across Ontario — from Sioux Lookout in Northwestern Ontario to Sudbury and from Windsor to Inkerman — entered service as Legislative Pages at Queen's Park. Included are three boys from our counties — Master David Guy of Inkerman Public School, Master Richard Buehler of Merrickville Public School and Master John Connell of St. Mark's Separate School, Prescott. Our boys, as with the others from Grenville-Dundas who have had the opportunity of serving as Legislative Pages, measure up to the standards required and take a back seat to none. This, of course, delights Mr Speaker and Mrs Cass with whom the first two named live in Mr Speaker's Chambers — as have previously chosen Pages from the Constituency. The boys will be on duty at Queen's Park till the House recesses in late June for the summer holidays.

Hockey School has history of success

The program at the Kingston Hockey School has again proved to be very successful and manager Jas. B. McCormick of the Kingston Memorial Centre reports that all six weeks of the original scheduled weeks of activity have been completely filled. In order to take care of the large overflow of youngsters wanting to register, an extra week has been added to the schedule and it will commence July 13. All the pros who headline the teaching staff have offered to come in one week earlier so that the overflow of enrolments can be taken care of.

This, of course, means in the event that there are any other youngsters wishing to enroll the program will only be available for the week of July 13 and of course could easily be filled by the time any further applications are made.

Members of the teaching staff of the Kingston Summer Hockey School have all had excellent seasons with Wayn e Cashman, star for the Boston Bruins, in their drive for the Stanley Cup and championship of the National Hockey League. Also back is Don Blackburn who played mostly with the Buffalo Bisons of the American Hockey League and he also had quite a few appearances with the New York Rangers.

Two other veterans of the staff have made all-star mention in the Western Hockey League, with Dennis Kearns of the Portland Buckaroos making the first all-star team, and Larry Mavety of the Denver Spurs making the second team, although he was the highest penalized player in the league.

Bruce Landon, of the Springfield Kings, gained al-star recognition in the American Hockey Leagueduring his first year as a pro, and he has been a goal-keeping instructor at the school for the past two years.

Newcomers to the staff include Randy Legge of the Buffalo Bisons and Syl Apps Jr. who not only led the Central Hockey League in scoring, but paced the Omaha Knights to the championships of that organization.

Mrs Irene M. Liscumb

Mrs Irene Marina Liscumb, a well-known resident of John St., Chesterville, passed away May 1. Mrs Liscumb, in ill health for the past 12 years, was in her 82nd year at time of death.

Born at Winchester Springs, June 24, 1888, she was the daughter of the late Thomas Bailey and his wife, Elizabeth Shelaton. She married Amos Wm. Henry Liscumb at Massena, N.Y., in 1905. Her husband predeceased her.

Surviving their mother are: William Liscumb, Mrs Gordon McMillan (Evelyn), Mrs Garnet Cass (Susie), Mrs Raymond LeClair (Beatrice), and Morris Liscumb, all of Chesterville; Don, Darcy, Bert and Paul Liscumb, all of Prescott; Mrs Ross Scobie (Dorothy), of Kemptville; Mrs Harold Tourague (Gladys), Arnprior, and Sterling, Coniston. Also left to mourn are 39 grandchildren and 12 great grandchildren.

Mrs Liscumb was a member of the Presbyterian Church.

Rev E. E. Eaton conducted the funeral service at Vice and Craig Ltd. Funeral Home, Chesterville, at 2 p.m., May 4. Interment was in Maple Ridge Cemetery.

Pall bearers were Harold Merkley, Thomas Sharkey, Delbert Hummel, Archie Black and George Crawford.

High School News

The Junior Band under the direction of Mr F Blair took part in the Ottawa Music Festival on Saturday. They received a "B" mark and many complimentary remarks from the adjudicator.

The Senior Band left early Tuesday, April 28, for their tour of Southern Ontario They will return on Saturday. Last week they held a successful food sale and car wash which added approximately $125.00 to their fund.

The staff of North Dundas attended their Professional Development day on Friday, April 24 in Cornwall. They met with other teachers in their subject area in the three High Schools for meeting, speakers and workshops. There was a book and audio visual display which was of interest to all.

Several important sports events are scheduled for May These are being organized by the Physical Education Department under the direction of Mr B. Taylor. They include NDDHS Annual Track and Field Day, the Kemptville Legion Meet, the Seaway Meet at NDDHS EOSSA at Alexandria and the All-Ontario meet at the CNE grounds in Toronto.

The following report of a visit to Rideau Regional Hosptal School was submtted by Karen Docksteader of Grade 12:

"On Tuesday, April 21, 1970, 28 students from North Dundas and North Stormont District High Schools went to the Rideau Regional Hospital School at Smiths Falls. At the Hospital School we were taken on a tour of the various buildings and visited several wards and workshops. It is a school where every patient is given the oportunity to use his abilities whether it be at needleworkng, woodworking, crafts etc. The patients are so proud when they've learned some new thing they're very anxious to show anyone who comes to see them.

At the Hospital School they have bowling lanes, rooms where or watch television, and a chap- they gather to talk with friends, el where servces are held each Sunday.

There is a two-year course offered at Smiths Falls to work with the mentally retarded. At the completion of this course you may be either a qualified Medical Assistant of a Residential Counsellor.

These people at the Hospital School appreciate things a great deal more than we, ourselves do, and they seem to be happy living in their own world — perhaps happier than we are.

This was a worthwhile trip and if more people could visit hospitals such as the one at Smiths Falls, they would realize how the "other half" really lives, and their needs. The greatest need is to be loved by you and me. Loved and not rejected or shut away to be forgotten"

IN MEMORIAM

HARPER—In fond and loving memory of a dear husband, father and grandfather, Willis Harper, who died on May 10, 1965.
The world changes year to year
And friends from day to day,
But never will the one we loved
From memory pass away.
Sadly missed by wife Maud and family.

IN MEMORIAM

FULTON—In loving memory of a dear husband, father and grandfather, Ronald Runnells Fulton, who left us May 13, 1969.
Softly the leaves of memory fall,
Gently we gather and treasure them all;
Unseen, unheard, he is always near,
Still loved, still missed and ever dear.

KITCHEN CORNER

FOR MOTHER'S DAY!

Show your little girl how, and then don't peek.

This is the time Mother's little helper gets a thrill fixing something she thinks is very grand and everyone must be surprised at how clever she is. Don't peek or fuss when she's working. That takes the fun and pride away. Of course, Mother must supply the ideas and ingredients but encouragement for Mother's Day makes sentimental memories for all girls, the kind they treasure through the years and even towards the day when it will make a loving story for their own children.

Mother's Day Cup Cakes

Require you to make up some up cakes ahead. The kind baked in coloured cups look prettier.

- 1½ cup shortening
- 2 liqui-paks (1 oz. each) unsweetened baking chocolate
- 1½ cups sifted cake flour
- 2½ teaspoons baking powder
- ¼ tsp. salt
- 1 cup sugar
- 1 egg
- ¾ cup milk
- 1 tsp. vanilla

Preheat oven to 375° F. Place paper liners in 18 (3-inch) muffin cups. Cream shortening in large bowl with electric mixer. Beat in liquid chocolate. Sift flour, baking powder, salt and sugar together, then slowly add to creamed mixture. Add egg, milk and vinalla. Beat 3-4 minutes with electric mixer at medium speed, scraping sides of bowl often. Fill each paper cup about 2/3 full. Bake at 375° F. 15-17 minutes or until surface springs back when gently pressed with finger. Remove to wire rack to cool completely. Decorate cup cakes with Chocolate Fluff.

Chocolate Fluff

- 1 pkg. (3 oz.) powdered topping mix
- ½ cup milk
- 1 liqui-pak (1 oz.) unsweetened baking chocolate

Prepare topping mix according to package instructions. After topping has been whipped fold in unsweetened liquid baking chocolate. Spoon over top of cup cakes and complete decoration with a pinch of coconut, chopped nuts, chocolate chips or perhaps a cherry.

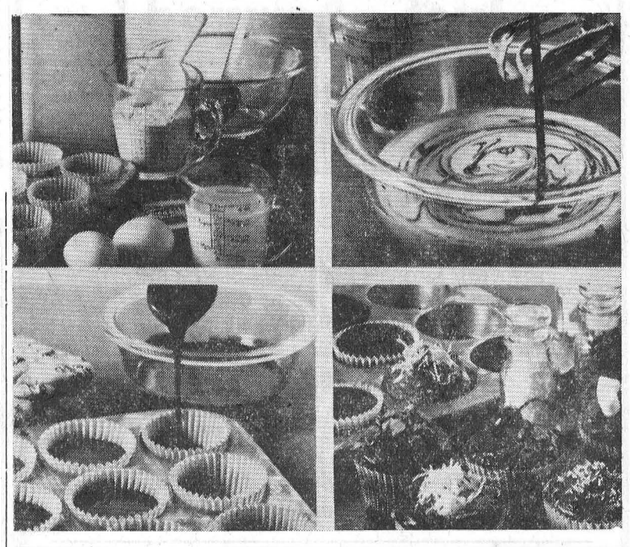
To Tint Coconut

Place about ½ cup coconut in a small jar, add a few drops of food colouring mixed with 1 tablespoon water. Cover and shake until the coconut is coloured.

Skim Milk Topping

- ¼ cup ice water
- 1½ tsps. lemon juice
- 1/3 cup instant skim milk powder
- 1½ tsps. sugar
- ½ tsp. vanilla

Combine ice water and lemon juice in a bowl. Sprinkle with skim milk powder; beat with rotary beater until soft peaks form. Beat in sugar and vanilla until well blended.



There are 57 species of oak in North America.

Memorial Hospital-

To Observe Canada Hospital Day

Winchester District Memorial Hospital, along with more than 1,400 hospitals throughout the nation, are observing Canada Hospital Day, May 12. The theme, "You, Your Hospital and Your Community," emphasizes the critical role hospitals play in providing community health services for the individual, family and community. Winchester District Memorial Hospital, like other Canadian hospitals, is making great efforts to meet increased health care services demanded in this era of rising health costs.

"Today hospitals are facing increased demands for additional high quality health care services for more people than ever," Mr H. P. Stel, Administrator of Winchester District Memorial Hospital, said. "Hospitals are working with their provincial and national associations, the provincial and federal governments to provide efficient quality health care at the lowest possible cost. However, the public and medical profession can assist not by straining our health care facilities in the uneconomical use of hospitals."

"In moments of crisis and need, our community hospital is here to serve the individual and his family," he added.

Local men and women serve the community as members of the Hospital Board of Trustees. They are legally and morally responsible for maintaining the high standard of patient care. They represent the community and the hospital in dealing with local and provincial government agencies.

Across Canada more than a quarter million men, women and teenagers volunteer their time and effort to serve the hospital as well as serving through patient services and fund raising.

The Winchester District Memorial Hospital Auxiliary is looking for active members; contact the president, Mrs Colin MacGregor, RR4, Crysler .

Unlike most other industries, hospitals are a round-the-clock seven-day-week business dedicated to preventing illness , restoring health and saving lives. On the average, there are two skilled hospital workers for each patient admitted. These include doctors, nurses, technicians, therapists, medical record librarians and a host of other professional and skilled workers representing some 200 occupations.

The modern community hospital is reaching out into the community through its preventive medicine programs in its out-patient departments and working closely with other health agencies in the community. Hospitals provide home care programs and liaison with extended care and nursing home facilities.

To observe Canada Hospital Day, colourful Canada Hospital Day placemats depicting the role of the trustee, volunteer, nurse and home care programs are being distributed by Winchester District Memorial Hospital to local area restaurants for May 12.

"Canada Hospital Day gives people an opportunity to learn more about hospitals in their community," Mr H. P. Stel, Administrator of Winchester District Memorial Hospital,said.
