CHESTERVILLE WINS

In a one-sided game, played at Chesterville last night, the Chesterville Softball team, champions of Dundas County League, defeated North Augusta, champions of Lanark League, 19-5. The Dundas Champs. had little difficulty in holding the Lanark boys last night. The second game of the series will be played at North Augusta tonight.

Rev. Donald Morrison Preached Farewell Sermon Last Sunday

On Sunday last Rev. Donald Morrison, pastor of St. Andrew's United Church, Hallville, preached his farewell sermon before leaving for Avonmore, where he will succeed Rev. Markland.

Mr. Morrison has been pastor of Hallville and Reid's Mills United Churches for the past six years, where he labored diligently for the welfare of his church and people.

Mrs. Morrison will be missed very much also, in the church and in the community, where she always took an active part, and with her kind and gentle manner won the love of all with whom she mingled. Their family will be much missed by their young friends and, as all of them were interested in music, they will be a loss in the social circle as well as in the church societies.

Mr. and Mrs. Morrison and family will leave on Thursday for their new home.

BIRTH

At the Ottawa Civic Hospital on Saturday, August 20th, 1938, to Mr. and Mrs. Lyle Summers, a son.

WOULD YOU DRIVE YOUR CAR BLIND-FOLDED ?

LIGHTS IN POOR CONDITION ARE THE SAME AS BEING BLINDFOLDED !

THERE ARE TWO MAJOR REQUIREMENTS IN A GOOD HEADLIGHT:

1. That it be strong enough to light the road at least 500 feet in front of the car.

2. That this light be so controlled that it will produce a minimum of glare on the oncoming motorist's eyes.

We are equipped with an approved Headlamp Tester to give you the best light possible.

Have yours corrected now. Take no chances with the law or accidents.

Aged Resident Died This Morning

There passed away at the home of her son, Mr. W. J. L. Boyd, Caleb Street, at 6.30 o'clock this morning, one of Winchester's oldest and most highly esteemed citizens, in the person of Mrs. Joseph Boyd. Deceased had been in failing health for some time and during the past few weeks had been confined to her bed.

Born at Smiths Falls 85 years ago, the late Mrs. Boyd, whose maiden name was Mary Day, was a daughter of the late Mr. and Mrs. Thomas Day, pioneer settlers of that district.

Following her marriage to Joseph Boyd in 1887, she took up residence near Merrickville, where she spent the greater part of her life. Her husband passed away in 1932, and since that time she has resided with her son, here, where she has won for herself the affections of a wide circle of friends, who will regret her passing.

The late Mrs. Boyd was a member of the Methodist Church and later the United Church. During her younger years she took an active part in the work of the different Women's Organizations of the church, wherever she resided. She was of a quiet disposition, a devoted mother and a good neighbour.

Surviving are two sons, W. J. L. Boyd, of Winchester, and R. M. Boyd, of Royal Oak, Mich.; also four daughters, Mrs. D. H. Stowell and Mrs. F. A. Thomas Tallman, of Winnipeg, Man.; Mrs. J. H. Curtis, Toronto, and Mrs. D. Coons, Vancouver.

At time of writing, funeral arrangements had not been completed.

MET WITH PAINFUL ACCIDENT

The citizens of Williamsburg and vicinity were sorry to learn of the painful accident sustained by Mr. Jason Whitteker, prominent farmer residing in Matilda township, a mile and a half west of Williamsburg. The accident happened while Mr. Whitteker was working in the cow barn on his farm, when in some unaccountable manner he slipped and fell on the cement floor, splitting his knee cap. He was taken to Dr. C. A. Louden's office, Morrisburg, who later had him removed to the General Hospital, Brockville, where he is receiving treatment.

UNITED CHURCH SERVICES

Sunday, 10.30 a.m., "What we can do with ourselves;" 11.30 a.m., "Sunday School and Bible Classes; 3 p.m., Harmony; 7.30 p.m., "Staps of Hope."—"Hitching our Stars to Waggons." Message to youth.

Wednesday, 7.30, Mid Week Prayer Service.

FARM BUILDINGS NEAR METCALFE ARE BURNED

Damage estimated at $3,000 was caused Sunday afternoon when fire of unknown origin destroyed the barn and outbuildings on the farm of John E. Woods, about two and a half miles east of Metcalfe. The fire started in a hay stack near the barn and spread to that building and a henhouse and piggery. The season's crop in another building was saved from the flames. The farmhouse was also saved. No one was injured.

J. A. Sanderson Named Honorary President of Ontario Conservatives

The executive of the Ontario Conservative Association, meeting at Toronto on Monday, decided to defer setting a date for a provincial convention to select a new party leader until Sept. 12, when a meeting of the full executive will be held.

At the annual meeting of the Association at Toronto July 21, it was recommended that the convention be held before Oct. 15. A successor to Hon. Earl Rowe, member of Parliament for Dufferin-Simcoe, is to be elected. Mr. Rowe announced at the annual meeting his resignation would take effect when the convention chooses a new leader.

The annual meeting left unfilled seven positions on the executive. These were filled at Monday's meeting, held under the chairmanship of Cecil G. Frost of Lindsay, elected association president at the annual meeting.

Text of Statement.

The following statement was issued:

In accordance with a resolution of the annual meeting held July 21, 1938, the executive at its first meeting today appointed the following to positions on the executive:

Honorary president, James A. Sander-Sanderson, Oxford Station; vice president, C. A. Seguin, Ottawa; with Alfred Pitt, Dryden; Mrs. Dr. J. A. Johnston, Carleton Place; Frank Forrestal, London; A. G. S. Griffin, Hamilton; Dr. J. P. Wells, Chapleau.

Consideration was then given to the recommendation standing since the annual meeting that a provincial convention be called on October 15th, 1938. It was the unanimous opinion of the members of executive present that it would be impossible to organize and conduct a successful convention in the intervening time.

As it is important that the convention should not conflict with anticipated provincial and Dominion by-elections, which have not yet been called, the executive unanimously decided to defer the decision as to the date of the provincial convention until September 12th, when a full meeting, both of those of the executive elected July 21st and those appointed to-on Monday, will be called.

LOCAL OPTION TEST TO BE HELD IN EDWARDSBURG TOWNSHIP, OCT. 5th

Temperance workers and wet forces will put their strength in a local option battle of ballots in the Township of Edwardsburg on Wednesday, October 5th, when the result will determine the continuance or the abolishment of the sale of beer and wine in the Village of Spencerville.

The vote, coming after many weeks of work by temperance interests to secure the requisite number of signatures necessary to carry their petition before the township council, covers the large and prosperous rural area east and north of Prescott, which has Spencerville as the township seat, with a hotel located there which has an authority issued under the Liquor Control Board of Ontario.

It will be the first local option test in Eastern Ontario in many moons and will centre provincial attention from both dry and wet camps in this district during the next six weeks. The last liquor issue was settled in Essex County some months ago in favor of the wet forces by a narrow margin.

The date for voting, as set by the township council at a recent meeting, should favor the causes of temperance, as all farmers will be free of harvest worries by that date and in a position to devote a little time to extra demands on their time. In addition, those members of the W. C. T. U., responsible for circulating the petition which asked for the privileges of this vote, secured over 300 more names than the necessary three-fifths of registered voters required to legalize such a petition, and it is reported, they did not try to secure any more names than as indicated above.

The Township was a local option area prior to the fall of 1934, when the new legislation enacted in favor of the Liquor Control Board of Ontario, made it possible to issue authorities to licensed hotels and clubs for the sale of beer and when such an authority was granted to the hotel in Spencerville. The referendum on the question was deferred then until the regular municipal election on January 7th, 1935, when the wet forces won their point by a narrow margin of 37 votes, on the basis of the 60 per cent. clause.

The total vote cast on the continuance of the sale of wine and beer in the township in 1935 was 1,470, with the drys polling 845 votes and the wets 625, which gave victory to the wets by a narrow number. On the total vote polled on that occasion the drys would have needed 882 votes to carry their crusade.

The same conditions obtain in the coming vote on October 5th next with temperance forces needing 60 per cent. of the total number of votes registered in order to discontinue the sale of beer and wine in the township. The 1938 voters' list of the township, just recently printed, indicates a total possible vote of over 1,850.

Re-Union Held At Maple Ridge Farm

Over seventy-five members of the Henderson-Wilcox clan gathered at the farm home of Mr. and Mrs. Kenneth Hutt, Maple Ridge, on Saturday, for the annual re-union and election of officers.

Meals were served on the lawn during the day, and a program of sports and games was enjoyed, following the business session. Officers elected for the new term are: President, Anna Jewett, Black River, N. Y.; 1st vice president, Dora Felt, N. Y.; 2nd vice president, Mrs. Kenneth Hutt, Maple Ridge; recording-secretary, Helen Barber, Seneca Falls; corresponding secretary, Hilda Jackson, Carthage, N. Y.; treasurer, Raymond Jackson, Carthage; Committee, Alice Payne, Gouverneur, N. Y.; Mrs. J. Wenk, Evan Falls, and Mrs. Wm. Henderson, Winchester.

Saturday's re-union was presided over by Mrs. Florence Masher, assisted by Raymond Jackson, Alice Payne, Mrs. Emoyne Payne, Mrs. Wm. Henderson, and Mrs. Alfred Budd, of Carthage, N. Y.

During the meeting, a memorial service was held for members of the clan who had passed away since the last reunion. These were, Frank E. Jewett, age 72, died February 11th, 1938; Lyman H. Baldwin, age 69, died February 21st, 1938; Edward Dulack, age 80, died June 9th, 1938; Samuel Nesbitt, of Vancouver, who passed away in his 83rd year, and Mrs. James Dwyer, of Chesterville, who died recently.

Marriages reported during the year as follows: Miss Charlotte J. Hoffmeister and Lynn W. Henderson, married at Dekalb Junction, on November 24, 1937, by Rev. F. J. Brown; Mrs. Sarah Teabo and Ralph A. Henderson, married at Carthage, N. Y., on January 1st, 1938, by Rev. W. K. Bradshaw.

Only one birth was reported and that was a son born to Mr. and Mrs. Harry Sharp on October 2nd, 1937, who was named Harry Paul Sharp.

A complete list of those present for Saturday's enjoyable reunion follows:

Rev. and Mrs. Alfred Budd and daughte, Helen, of Carthage, N. Y.; Rev. and Mrs. J. Brown, of Decalb Junction; Mr. and Mrs. Harry Middagh and Mr. Clifford Nesbitt and family of Brockville; Lorne Henderson and Ross H. Becker, of Williamsburg; Mr. and Mrs. E. Davis, Mr. and Mrs. Hector Belanger, Mr. and Mrs. Edgar Payne, Lucile, Alice and Charles, of Rochester, N. Y.; Mr. and Mrs. Raymond Jackson and son, Raymond, Jr., of Carthage; Wm. Henderson, J. E. Henderson and Mr and Mrs. Robert Henderson, Mr. and Mrs. Wm. Henderson and grandchildren, Shirley and Lyle Redmond, Winchester; Clara A. Henderson, Black River; Florence Henderson Masher, Potsdam, N. Y.; Mr. and Mrs. Duncan McNaughton and Jean, of Williamsburg; Mr. and Mrs. John Menk, Arlene and Arnold, of Evans Mills, N. Y.; Mr. and Mrs. Bert Harper, Spencerville; Mr. and Mrs. Clifford Nesbitt and family, Brockville; Mr. and Mrs. Harvey Smith, Winchester Springs; Robert Hill, Mr. and Mrs. Alford Felt, Canton; Mrs. F. A. Jewett, Black River, N. Y.; Doreen, Marjory and Faye Armstrong, Morrisburg; William Helmer, Maple Ridge; Mr. and Mrs. Delbert Casselman and Vivian, Mr. and Mrs. George Kirkwood, Pauline, Audrey and Doreen, Winchester Springs.

Hydro Lineman Gets Severe Shock

When a large truck suddenly snapped a 4400 volt power line two miles north of Williamsburg on Friday last, Mr. Neil Gray, well-known local resident and Hydro lineman, was nearly electrocuted.

The heavily-charged line fell across a telephone wire when the pole snapped under the strain, and Mr. Gray who was on a pole, along with Mr. Gordon Gibson, out in the village of Morrisburg, received the full force of the electricity. His safety belt, which was in position at the time, was all that saved him from a bad fall as well. Mr. Gibson, his companion on the pole, also felt the shock, but only in a minor degree.

Members of the Hydro crew immediately removed him from the precarious perch and set about reducing the effects of the shock. Dr. A. W. Reddick, of Morrisburg, was summoned at once and had Mr. Gray removed to his home here, where he was found to be suffering from deep burns on the right forearm, left arm and right thigh.

While Mr. Gray is still confined to his home, his progress towards recovery is quite satifactory.

The Late Mrs. Ira Acres

Mrs. Ira Acres, resident of Vernon, passed away at an Ottawa hospital on Sunday after a short illness. She was 32 years of age. Mrs. Acres was born at Harmony, Mountain Township, near Winchester, daughter of Thomas Stoodley and his wife, Christena Morrison. In 1927 she married Ira Acres of Vernon, and took up residence there.

Prior to her marriage, she attended Harmony United Church, of which she was organist of a number of years.

Attended by a large number of relatives and friends, the funeral was held on Tuesday afternoon from her late residence, Veronn, Ont. The service was conducted by the Rev. A. Irwin, Rector of St. Georges Anglican church, residence, Vernon, Ont. The service of St. Matthias' Church, Ottawa, and the Rev. W. S. Atchison of Winchester United Church.

Interment was in Springhill Cemetery, the pall-bearers being Messrs. Wm. Poole, Malcolm Carkner, Stanley Campbell, Irving Sheldrick, Gerald Acres and Charles Acres.

Among the many beautiful floral offerings received were tributes from the following:

Pillow, The Family; Baskets, Mr. and Mrs. Thos. Stoodley and Fred, and Mr. and Mrs. Lloyd Stoodley and family; Mr. and Mrs. Wilfred Porteous; Sprays, The Anglican Guild, Vernon; O. Y. B. & L. O. L., Vernon; Dr. L. and Mrs. Morrow, Metcalfe; Mr. and Mrs. Willard Acres; Mr. and Mrs. Henry Stoodley; Mr. and Mrs. Malcolm Carkner; Mr. and Mrs. Clifford Miskell, Ottawa; Mr. M. Miskell and family, Ottawa; Mrs. A. M. Cooke, Ottawa; Mr. and Mrs. Levi Thom, Ottawa; Miss Clara Wood, Ottawa; Mr. and Mrs. L. E. Hird, Thurso, Que.; Teacher and Pupils of Vernon Public School, and Scot Cameron, Vernon.

Surviving her besides her parents and husband, are two sons, Frederick and Freeman, and two daughters, Eileen and Shirley, all at home; two brothers, Lloyd Stoodley of Thurso, Que., and Frederick Stoodley at home.

GUN LICENSES NOW ON HAND

Mr. Geo. E. Earle has this week received the new gun licenses for resident hunters and will be able to supply the demand.

Masked Man Seen Near Cass Bridge

Provincial and County police are, this morning, combing this district in search of a masked bandit, armed with a heavy calibre revolver, who was seen in the Cass Bridge district last night.

A great deal of mystery surrounds the appearance of the masked man, and his disappearance is just as mysterious, according to police.

About 9 o'clock last night, Harold Clark, son of Mr. and Mrs. William Clark, near Cass Bridge, was working in the pump-house near the barn, when a man, wearing a mask, opened the door and ordered him out. Upon seeing a revolver in the hands of the trespasser, Mr. Clark obeyed and immediately went to the nearest telephone and reported the incident to the police. Constable Garnet McLean, of Chesterville, was first to investigate. Unable to find any trace of the man when he searched the pump-house, barns and other nearby buildings, he notified Provincial Officer A. M. McLeod, of Cornwall, who, with Constable Herbert Helmer, of Winchester, joined in the search. As yet the man has not been located.

Mr. Clark describes the bandit as a short stout man, wearing a blue suit coat. He could not give a description of his face as he was wearing a mask.

WEDDINGS

MILLER—REVELER

The marriage of Miss Roberta Reveler, daughter of Mrs. Arlington Reveler and the late Mr. Reveler, of Winchester, to Richard C. Miller, son of Mr. and Mrs. John Miller, of Rochester, N. Y., was solemnized Saturday noon with Dr. Walter Morgan of the Centenary Methodist Church in Bath, N. Y., officiating. They were attended by Mr. and Mrs. Edwin C. Johnson, of Bath, N. Y.

Following the ceremony the reception was held in the Hotel Wagner, the private dining room being very prettily decorated with fall flowers for the occasion.

Later Mr. and Mrs. Miller left on a wedding trip to Washington and other Southern States. After returning the young couple will be in their new home in Rochester which will be completed by September 1st.

Prize Lists For Metcalfe Fair Now Available

Prize lists for the 1938 Metcalfe Fair are now being distributed by the Secretary and according to members of the various committees the Exhibition this year will surpass anything ever staged by the Society in former years. The dates are Tuesday and Wednesday, Sept. 13th and 14th.

Featured on the program will be a splendid afternoon of horse races with two classes, a 2.28 class with a purse of $150 and a Free-For All with similar purse. Many outstanding horsemen of the district have expressed their intention of entering their horses and a keen day's racing should result.

The directors have been fortunate in having Hon. P. M. Dewan, Ontario Minister of Agriculture, consent to officially open the 1938 Exhibition and no efforts are being spared to make every minute one of real interest to thos who attend.

The prize list is full of attractive classes in poultry, sheep, hogs, cattle and horses as well as vegetables and fancy work. Nothing has been overlooked and the directors are confident that entries will be large. Remember the dates, Sept. 13 and 14 and plan now to attend Metcalfe Fair.

Presentation Made To Rev. and Mrs. Davies At Chesterville Function

Rev. G. O. Davies and Mrs. Davies were guests of honour at a social evening held at the home of Mr. and Mrs. H. H. Casselman, Chesterville, on Friday of last week, when the congregation of Holy Trinity Anglican church, took advantage of the occasion to present Rev. Mr. Davies, the retiring rector, and Mrs. Davies, with a beautiful studio couch. Accompanying the presentation was an appropriate address, which was read by Mr. H. Fairbrass, one of the church wardens. In replying, Mr. Davies thanked the members of the congregation for the them for their loyalty and fellowship during his term as rector of Holy Trinity Church. He asked them to extend that same loyalty and co-operation to his successor. Special thanks was extended to the church officials and to Mr. J. Morris for his able assistance at the organ; also to Mrs. H. H. Casselman for her kindness and hospitality as hostess for the occasion.

Mr. Morris spoke briefly, stating that the members of the congregation were sorry to lose Mr. Davies as their pastor, but sincerely hoped that he would enjoy all the good things of life in his new parish.

During the evening, refreshments were served by members of the Women's Guild.

THURSDAY, AUGUST 25th, 1938.

FOOD FOR THOUGHT

During the past week Canadians from coast to coast have been given ample scope for serious thought in the words of President F. D. Roosevelt of the United States, at Kingston on Thursday last, when he said, "the people of the United States will not stand idly by if domination of Canadian soil is threatened by any other empire."

Many factions hailed these sincere words of the U. S. President as removing once and for all any doubt as to where the United States would stand if Canada became the victim of aggression. Such may indeed be the case and yet, it appears that the President's words merely emphasize once more the need for this Dominion to prepare for her own defence with as little delay as possible. The United States will be a powerful ally in time of acute need, but the brunt of the defence problem belongs essentially to Canada.

There are those weak-spined individuals who will immediately shout against making any outstanding expenditures for defence armaments. They will point to the President's speech and say, "Why spend good money for arms—the United States will save us in time of need!" Such persons cannot be considered even as good Canadians, for the man that will not be in favour of defending his own property is surely a poor type of citizen.

Prime Minister Mackenzie King has already voiced his opinion that Canada must continue to repair and improve her defences, and the average Canadian will heartily concur with his remarks. Together the United States and Canada occupy an unique position in the world to-day. As an economic unit, the North American continent is almost self-sustaining. Three thousand miles of ocean separates this continent from any possible aggressor. Surely this Dominion is blessed by providence in having good neighbours, a sense of well-being and security and the prospects of many decades given over entirely to peaceful pursuits and the advancement of the country to the benefit of all.

A NEEDED REFORM

Why should a pedestrian be allowed the same rights on the public highway as the driver of a motor or horse-drawn vehicle, and not have to observe the same regulations? We know what would happen to the motorist who failed to carry front and rear lights after dark, yet the pedestrian can saunter along the highway, wearing dark clothing that blends beautifully with the background; often taking up nearly one-half of the pavement and never show a light to indicate their presence or position.

The cause of public safety would be well served if legislation were passed making it a violation of the Ontario Traffic Act for pedestrians to walk on travelled portions of the highway without a light after sunset. No motorist, in his right mind, wants to smash into a person walking on the public highway, but it is next thing to an impossibility to see a pedestrian after dark while facing approaching headlights. In this regard the motorists of the province should be given some consideration by the Department of Highways and the Attorney-General. Let pedestrians use the highway when necessary—but let them observe the various clauses of the Traffic Act pertaining to lights at night.

DEMOCRACY AND FREEDOM

In these hectic and uncertain days when there are so many conflicts and contentions, men are flinging terms about without giving to them any considered or definite meaning, says Raymond Crawford in the Canadian National Magazine. Among these terms on lip and paper there are two that confront us every day, one is democracy and the other is freedom—both of which stir the blood. We can scarcely take up a newspaper or magazine without these terms leaping out at us. In the sacred name of democracy many rights and privileges are claimed and particularly the great and alienable right of freedom. Let us examine them. What is democracy? The root definition is simple enough; it means the rule of the people through responsible representatives, not a section, coterie or class; and democracy just means a condition of society in which the rights, contribution and worth of all are really and seriously acknowledged. When "isms" appear, there is the end of democracy. When class rule excludes fraternity, democracy ceases to be. The other term is freedom, which is often ruthlessly and ignorantly abused. What is freedom? In its generally accepted use it means to be free from something, so that the absolutely free man would be one without any obligation whatsoever. In a limited sense it means to be free from, but it means infinitely more. To be free from everything would result in being nothing. This arises from mere human association. When Robinson Crusoe was alone on the island he could do very much what he liked; but when man Friday appeared his world became social, obligation now appeared, and when numerous Fridays, millions of them, appear, obligations are multiplied accordingly, freedom from is limited and freedom to takes a large and vital place. Today we hear much shallow talk of free speech. What does this mean? Does it mean that we can say what we like, where we like and when we like? This would be quite understandable if each one of us were on a desert island; we could indulge our proclivities to the full; but in a society, regards must be had to social rights and obligations. To do what we like or say what we like is not possible in an ordered community. Words are weapons, sometimes deadly; the pen may or may not be mightier than the sword, but the pen may be a sword to wound or kill. Strange as it may seem, we cannot say what we like, do what we like, walk where we like, dress as we like, eat what we like, drink what we like or sleep where we like. Society has an uncomfortable way of stepping in and saying to the individual, "You are only one of us and you must have regard to us, there is a certain crystallized public opinion which we call law and we cannot permit you to ignore it. Law is necessary for the guidance and security of society, this is not a go-as-you-please world. The locomotive, if it is to remain a locomotive and not become a twisted mass of steel, must keep to the rails. Society cannot abandon the rails, either, unless it wants to bring about anarchy (which means no law at all) and consequent ruin. We must therefore haye regard to simple rules, but we must also consider inevitable conditions."

A WORD TO THE WISE

Under the heading of "This is Getting Tiresome," the Toronto Globe and Mail recently published an editorial concerning the actions of Premier Mitchell F. Hepburn that should be received with accord by every thinking citizen in this province regardless of his political affiliation. The editorial says in part:

"It was the duty of Ontario's Premier to extend common courtesy to the President of the United States when he was in his Province on Thursday. His place was in the front row down at Kingston and Ivy Lea to represent the people of Ontario when honor was being extended to the President and when he took part in an important historic event on Canadian soil. If he was not formally invited, the matter could have been arranged simply. His absence was an affront to the Ontario people, a violation of public amenities, and an incivility toward a very distinguished visitor. Mr. Hepburn has not shown himself averse to mingling with and entertaining other American citizens. Could he not take the trouble to greet and welcome the head of the great American nation?

"Now, on the heels of a great event and an important speech which he ignored, he acts as though some one wanted his views, although everyone is acquainted with his attitude on the St. Lawrence matter. He wrote a letter to Mr. King, and apparently wrote it for the purpose of venting his spleen, in language which no thoughtful public man would use in official correspondence.

"Irrespective of any propaganda or squeeze-play that might be concocted by you," he told the Prime Minister of Canada, "you may rest assured that this Government will resist any effort to force us to expend public funds in such an unwarranted manner, or to foist upon the people of Ontario an additional burden of debt and taxation."

"This kind of vituperation cannot be laid to anything but petty jealousy. It is not the language in which Ontario people are accustomed to official representation. It is not the language of a man deserving the responsibilities of public office. It is getting tiresome and nauseating. It will gain Mr. Hepburn nothing more than third-rate standing. He is already relegated to second place by such controversies.

"In his letter he put it up to Mr. King to solve the railway problem before taking on further expenditures. He is justified in pointing out that this hangs over the taxpayer like a cloud. Mr. King has not solved it. The Globe and Mail confesses that it has no formula. How about Mr. Hepburn? He does not fear to step into anything. Has he anything constructive to offer? What is his solution? We are certain the country would like to know, since he is so cocksure of the Prime Minister's concoctions and many other things. Or is this just a squeeze-play thrown at the head of the nation's Government?"

THIRTY YEARS AGO

Thirty years ago this week, says the Kincardine News, the editor of the Walkerton Telescope sharpened his quill and gave his readers this hot-shot: "In Kincardine one day last week an automobile frightened a horse, the horse ran away, the driver was thrown out of the rig and his leg was broken. It is becoming apparent from incidents like this that something will have to be done about these automobiles. For several years past the farmers in the vicinity of Toronto, have been agitating for a law to restrain automobiles from using the public highways, but so far have not been able to accomplish anything."

EDITORIAL NOTES

We agree heartily with the Brockville Recorder & Times when it says that well-dressed hitch-hikers carrying fine club bags and brief cases should be sternly told that the railway and coach lines are being operated for their convenience and that fares are quite reasonable.

Hitch-hiking has come to be a racket that would stop over night if motorists merely ignored the thumbers that line every mile of the public highways today.

Talking about air-raids in China and Spain, how does this sound for last week-end—38 persons met violent death in Eastern Canada; 16 persons killed in Ontario; 17 in Quebec; 4 in Nova Scotia and one each in New Brunswick, Alberta and Manitoba. These Canadians met death from two major causes—automobiles and drowning. In the latter case something might have been done but in the former carelessness seems to have such a grip on some motorists that nothing will teach them to exercise care in driving. Such being the case, deaths on the public highways will continue to mount, and mount, and MOUNT!

HEREDITY

Dr. Leonard G. Rowntree, director of the Philadelphia Institute for Medical Research, investigating the affects of the thymus gland, has found that the mother passes on to her child the factor that controls the rate of growth, and that the father's contribution is nil. Earlier experiments by Dr. Rowntree demonstrated strated that effects of gland treatment can be passed on from one generation to the next. In these experiments he treated both parents. Continuing the experiment with the same line of animals, he omitted the glandular treatments to the father and found that treatments given to the mother alone produce the same effects as were observed when both parents were treated.

This discovery is important in the study of heredity. It has been generally believed that all the physical characteristics possessed by an individual are the joint contribution of both parents and of their line of ancestors, and that these characteristics are carried in the chromosomes, tiny structures in the nucleus of the germ cell.

Serving Salad

Whenever it is possible to do so, serve the salad dressing separately and let the guests help themselves. Not only does the lettuce wilt after the dressing has been on it for any length of time, but people have so many different ideas in regard to salad dressing.

"The Voice of the Press"

MANION MAKES PROPOSAL

(Petrolia Advertiser-Topic)

The Conservative leader, Dr. Manion, has taken two planks from the C. C. F. platform for incorporation in the program of his own party. One is to lift the weight of relief from off the shoulders of the municipalities and place it on the shoulders of the Dominion Government and the second calls for a planned economy. Both have been long advocated by The Advertiser-Topic.

The announcement was made at a public meeting at Barry's Bay, in Eastern Ontario, and constitutes a radical reform program yet made by a responsible leader of either of the two old-line parties. It is easy enough to say the Conservative leader's remarks "are only more election promises," and they may be just that. Nevertheless throughout his speech there seems to be a realization that something drastic in the way of reforms will have to take place before this country can enjoy the peace, tranquility and prosperity which its citizens desire. His declaration: "I should like to see the poorer classes pushed up. If we are to build up our dominion to make our people happy, we must increase the number of the middle classes by creating fewer poor people and fewer rich people," would lead one to believe that the Conservative party has shifted its traditional position from the protectorship of the privileged to the championship of the weak. If it has, it means much to the Canadian people. It will force the Conservative-Liberals at Ottawa to go a step farther until politics becomes a race to see which party reaches the C. C. F. goal.

Something more is required, however, than the mere announcement. That in itself indicates that the leader is a good politician. He has not said how he proposes to raise the money to pay federal relief. If he takes it off municipalities it will have to come from some other source than real estate where it is at present slowly strangling to death a large number of taxpayers. Where it will come from enters largely into the subject.

Economy in government, fewer members of our legislatures and federal government, and a reduction in the number of legislatures would also help the taxpayer.

DEATH STALKS THE HIGHWAYS OF CANADA

(Canadian Business Magazine)

Highway accidents hit their most deadly stride last month and each August has been outdoing each previous August. The same trend is true in annual tolls; until last year the Canadian death rate per 100,000 population from motor vehicle accidents had reached 15, as compared with 12 and 11 in the two previous years. This year's record to date, moreover, indicates no relief from the devastating highway harvest in 1937 of 1626 corpses. Seventeen were killed in highway crashes over the first week-end of this month.

What can be done about it and how? Our governments are responsible for the roads and some provinces are making great advances in the construction of safer highways. Others, to their regret when the tourist revenue is totalled up, are inviting ill-reputations by carelessly leaving for long periods, dangerous highway hazards to confront even the most careful drivers. Automobile engineers have constantly improved safety devices. The most important angle as we see it, therefore, is the human factor and business can play a real part towards its solution. Executives through their business organizations can insist that the teeth in the law do a little more biting. They can promote stricter requirements for drivers' licenses, such as physical examinations and driver tests. They can push on the good work of rewarding non-accident drivers of commercial cars. They can expose the turning of speed laws into revenue-producing rackets which operate against rather than for safety. The "cop" instead of being a friend and guardian of safety then becomes an antagonist against whom even the normally careful driver must match his wits.

Greater than all, however, is the promotion of an aroused public opinion in favour of safe driving. Careless drivers must be changed to careful ones and business men again can support safety leagues, automobile clubs and similar agencies who are campaigning for that transformation. It is time that it was brought home to each and every one of the two million odd drivers in Canada just what a danger they can be to others and themselves when they abandon caution for even seconds behind the many horse-power of the modern automobile. The surest way home is the "safest" way.

TOURISTS AND BALANCES

(Family Herald)

Why all this fuss about tourists? Governments all over the world let loose clouds of luscious publicity, offer all kinds of special inducements and concessions to people who will come to visit them from other countries. Is it all worth while?

A good answer is given in the latest volume on Balances of Payments published by the League of Nations. The figures given there show clearly how great is the economic importance of the tourist traffic and what a large weight it makes in the scales of international payments. For Canadians it is particularly interesting to find that the tourist traffic plays a greater part in our national balance of payments than in almost any other country.

The League statisticians give all the figures available for 1936. Of all countries listed Canada that year had the greatest net income from the tourist traffic, that is, the greatest surplus of receipts from tourists coming to Canada over expenditures of Canadian tourists abroad.

Figures for Germany and Italy in 1936 were not available, but in 1934 Canada's tourist receipts were equal to Germany's although her net income was a little less, and back in 1932 she was away ahead of both Italy and Germany.

Comparing tourist figures with other factors in international balances of payments shows still more clearly the importance of money spent by people travelling in other countries. Of all payments by Americans abroad, including payments for goods, services of all kinds, interest on foreign-owned investments and so on, expenditures by tourists account for one-seventh of the total. That is equal to a good part of the total United States imports.

For Canada, the importance on the credit side is even bigger. In 1936 receipts from the tourist industry represented about one-sixth of our total income from abroad. Receipts from tourists came near to offsetting payments due on Canadian securities held abroad.

For the sake of Canada in particular and of better economic conditions all over the world, we hope the international tourist traffic will continue to grow. That will be a sign of more healthy world conditions, and it will play a considerable part in a revival of international commerce in general. Greater movement of tourists among countries would be a great boon to both peace and prosperity.

The Poet's Corner

MY KITCHEN

I like a kitchen big enough
To hold a rocking-chair,
With windows looking to the sun,
And flowers blooming there.
I like big cupboards by the wall.
That hold a lot of things,
The cups hung up on little hooks,
A yellow bird that sings.

I like to do my mending there,
Where I can watch the road,
And see the teams come plodding home
And smell their fragrant load
Of heavy sheaves at stacking time,
Or hear the wagons creek
And groan beneath theier golden weight
When it is threshing week.

I like to have supper on
And let it simmer slow,
With rich brown gravy bubbling up,
Around the meat, you know—
With apple pie set out to cool
And flaky new-baked bread,
With golden syrup in a bowl
And jelly bright and red.

I like to have the lamps ashine
With yellow glowing light,
And have the kitchen clean and warm
When they come in at night.

THANKFUL

(By Edna Jacques)

This poem by Edna Jacques, says Mr. J. Harry Smith, Press agent of the C. P. R., seems appropriate at this time. Miss Jacques is a Canadian girl, a native of Collingwood living in Moose Jaw, Sask.

Naught to be thankful for, did you say,
As you sat by the old garage today.
The crops are poor and the cattle thin,
And the spuds are not what they might have been.
And there isn't much you can sell this year,
You are going to be very hard up you fear.

Well, what if you are, why man alive,
If you have to struggle and skimp and strive,
And pinch a dollar until it hurts,
For winter woollens and shoes and shirts
We've all been over the trail before,
And poverty's often knocked at the door.

It won't hurt you a bit, old man, you know,
If you have to put the gears in low.
When the crops were good and the prices high,
Say, didn't we soar, and spend and fly,
The sky was the limit, we took the air,
And blew our crops like a millionaire.

But there's always a time when we have to pay,
And the bills pile up for a rainy day.
And you start to think where you might have stood,
If you'd kept your head when the crops were good.
But cars cost money, and trips, oh say,
The dough has a habit of melting away.

And what crops we had in our country-side,
When the wheat threshed out like a golden tide,
And the gods of harvest with lavish hand,
Scattered his riches across the land.
When the wheat poured out on the grainery floor.
And there wasn't room for a bushel more.

But let's forget what we might have done,
There'll be more harvests and rain and sun.
And let's be decent and take the blame,
And be sports enough to play the game.
And let's come down to earth and stay,
And get a grip on the things that pay.

WORK

No work is hard when the factory turns
The laborer home to a lamp that burns
Where a loved one waits whose heart-beats catch
At a step on the porch and a lifted latch,
Where a swift, sweet rustle of pink starched dress
Is a token of simple happiness.

No work is long when the days go by
On a farm with time for a look at the sky,
When the planter stops or a neighborly word
With a wee yellow-bonneted bit of a bird,
Or takes from an hour a corner or two
For gathering flowers with petals of blue.

No work is mean when the world may eat.
Bannered corn and tasseled wheat,
When a piece of steel may lift on wings,
A straight young oak make a table for kings,
And sand may be stained-glass windows that lend
Light to cathedrals where prayers ascend.

No work is hard, or long, or mean
When the hands are strong and the heart serene.

—Hazel Harper Horris in the Christ. Science Monitor.

LITTLE NATURE STUDIES.

There are a lot of funny things
About Dame Nature and her flings.
Now a fly, with greatest ease,
Lights on doggy's nose, then flees;
But a flea can't fly away,
Because it isn't built that way,
So to flee it has to jump
To get away from Fido's rump.
It seems hardly fair to me,
Since a fly can flit and flee,
That a flea can't fly and flit
When the dog grows tired of it.

"In Lighter Vein"

Tourist: What are those things sticking out at the side of that sky-scraper?

American: Oh, they're milestones.

* * * *

Milkman (to a suspicious customer): You won't find nothing wrong with that, ma'am. All our milk's been paralyzed by a Government anarchist.

* * * *

He: Did you ever run across a man who at the slightest touch would cause you to thrill and tremble all over?

She: Yes; the dentist.

* * * *

Lady of the house: These trousers may be useful to you. All they need is a little mending.

Tramp: O. J., mum; I'll call back in 'arf-an-hour.

* * * *

New Cook: Oh, sir, I can't stay in the kitchen. It's haunted by the spirit of the last cook.

Master: Good! Ask her for the recipe of that lovely brandy sauce she used to make.

* * * *

I sells you dot coat at a grand sacrifice, said the tailor.

But you say that of all your goods, replied the prospective customer, how do you make a living?

Mine frent, I make a small profit on the paper and string.

* * * *

The newly rich woman was trying to make an impression: "I clean my diamonds with ammonia, my rubies with Bordeaux wine, my emeralds with Danzig brandy, and my sapphires with fresh milk."

"I don't clean mine," said the quiet woman sitting next to her. "When mine get dirty, I just throw them away."

* * * *

Brown: Why did you break off your engagement with her?

Jones: Because she has a parrot which says, "Leave off kissing me George, or I'll tell mamma."

Brown: Well, I can't see anything in that.

Jones: Ah! But you forget that my name's Charles.

* * * *

The children, George, aged 4, and Ernest, aged 5, were being put to bed. "We do love you mummy," said George, hugging her.

"Whey do you love me, darling?"

"Because we like your face."

But it isn't much of a face," said mother.

That was a bit of a poser. The boy thought for a minute. "But we've got used to it," he said.

CASS BRIDGE

Mr. and Mrs. Hawkins and son, Thos., of Winchester, had tea with Mr. and Mrs. Thos. McOuatt.

Mr. Gordon Baldwin, Jr., motored to Manotick on Sunday.

Mr. Jack Gannon and Margaret visited at Thos. Johnston's on Sunday.

Master Carl Pemberton, aged four, is seriously ill at present in the Ottawa hospital.

Rev. and Mrs. W. D. Turner called on Mr. Ernest Munro on Friday.

Master Hume McOuatt is spending his holidays with his aunt, Mrs. Clifford Summers.

Miss Winnifred McKercher is spending her holidays with her grandmother, Mrs. Herman Summers, and Laurie.

Miss Fern McOuatt is spending the week in Ottawa the guest of her aunt, Mrs. Albert Johnston.

Mrs. Garnet McLean and children were Sunday guests of her sister, Mrs. T. J. Johnston, and family.

Mr. Ralph Johnston and Miss Jean spent Monday at Ottawa Fair.

TOYES HILL

(Too Late For Last Week)

Mr. and Mrs. Byron Steele spent Sunday with Mr. and Mrs. Norman Durant, Ottawa.

Mr. and Mrs. Jno. Wylie, Mr. and Mrs. Chas. Kirkwood and Miss Lulu Hunter motored to Montreal last Sunday.

Mr. and Mrs. Jas. Liezert, of Iroquois, and Mrs. Murray, of Montreal, were guests of Mr. and Mrs. E. Haggerty on Tuesday.

Misses Lois and Elaine Coons spent a few days with their grandmother, Mrs. Mary Smyth, of Rowena.

Miss Evelyn Chrome, of Saskatoon, who has been visiting her aunt, Mrs. Wm. Steele, is spending a week with Mrs. Norman Durant, of Ottawa.

Mr. Fred Jeffrey, of South Mountain, is spending some time with Mr. E. Haggerty.

Mrs. A. J. Casselman and family spent Tuesday and Wednesday with Mrs. Arloa Coleman.

Mrs. R. S. Peterson entertained the W. M. S. on Wednesday afternoon.

Hy Shy Ny Club Meeting

The Hy Shy Ny Club held their regular monthly meeting at the home of Winnie Hunter on Friday evening. The meeting was opened with a hymn followed by the Lord's Prayer in unison. Bertha Coons read the scripture lesson and Vera Haggerty gave a very interesting reading on our Canadian Provinces of the West. The minutes were read and adopted and the roll called with eleven members present. Doris Kirkwood was appointed leader for next month's Gazette and chose as her staff, Hilda Lapier, Winnie Hunter and Brock Harper.

A paper on Missionary Giving was read by Doris Kirkwood. Aleitha Coons read the Gazette. The offering was taken and meeting was brought to a close with another hymn and the Mizpah Benediction.

MOUNTAIN

Mrs. Olmstead, of Montreal, was a week-end guest of Mrs. M. Olmstead.

Miss Lucille and Master Allen McCordick, of North Gower, is visiting their grandfather, Mr. S. W. VanAllen, this week.

Mrs. Ernest Bermick and Mrs. Loretta Blaine, of Syracuse, N. Y., were recent guests of Mr. and Mrs. Harold Durant.

Mr. and Mrs. Donald McLaren and son, Freddie, of Russell, spent Sunday with Mr. and Mrs. Fred Beckstead.

Miss MacLaren, of Russell, has been visiting Miss Helen Giles this week.

The Mountain Township Sunday School Picnic was held in the Mountain Memorial Community Park on Wednesday.

Messrs. Harold and Dan MacLaren, of Russell, spent Sunday with their sister, Mrs. Harold Durant.

A number from town attended the farewell church service conducted by Rev. D. Morrison of Hallville United Church on Sunday evening. Rev. Morrison has accepted a charge at Avonmore.

Miss Hazel Simzer spent Sunday afternoon with her parents, Mr. and Mrs. L. Simzer.

DISTRICT NEWS

HYNDMAN'S

Mrs. Mary Barclay of Hainsville, visited her daughter, Mrs. Andrew Brown, last week.

Mrs. Wilson and daughter, Beverly, of Montreal, is visiting Mr. and Mrs. Roy McCarley.

Mrs. Lawrence Pelton returned home on Tuesday after visiting her parents, Mr. and Mrs. Black, of Oxford.

Miss Effie Selleck, of VanAllen's Corners, spent Tuesday evening with Mrs. Bert McFadden.

Mr. E. Colborne spent a few days with Mr. and Mrs. Lyman Hess of Pleasant Valley.

Mrs. Laurel Beach, Bobby and Dennis spent the last of the week with Mr. and Mrs. Mervin Colborne of Ogdensburg, N. Y.

On Tuesday evening the Junior Bible Class held their social on the lawn of Mr .and Mrs. Bert McFadden, with a splendid program and plenty of good things to eat.

Mr. and Mrs. Cropby and family, of Toronto, arrived here Friday to visit the latter's parents, Mr. and Mrs. Joe Robinson.

Mr. and Mrs. Ray Grant and family spent Sunday with Mr. and Mrs. Geo. Grant, of Groveton.

Dr. and Mrs. Robertson and children, of London, are holidaying with the latter's mother, Mrs. Thos. Francis, and other friends.

PLEASANT VALLEY

Mr. and Mrs. Edson McShane and baby, of U. S. A., visited Mr. and Mrs. Isaac McShane.

Mr. and Mrs. John Briggs of Hainsville, spent Sunday with their daughter, Mr. Hilliard Gilmer, and Mr. Gilmer.

Mrs. Jos. Lennox and Roy and Nelda, spent Friday with Ogdensburg friends.

Miss Dulcia Montgomery of Hulbert, spent a couple of days with her friend, Miss Hazel Hamilton.

Mr. and Mrs. John McGowan of Dixons Corners, spent Sunday at Mrs. Mary Gilmer's.

Mr. and Mrs. Wm. Tousaw and Mary spent Friday at Mr. and Mrs. Wm. Jas. Ellis.

Mr. Clifford Ellis, of Belleville, is spending some time the guest of his parents, Mr. and Mrs. Wm. Jas. Ellis.

Mrs. Sam R. Hamilton and Enid spent a few days with her parents, Mr. and Mrs. Thomas Irving of Ventnor.

Congratulations to Mr. Donald Brown on passing his exams., and will now be ready to enter Normal School.

Mr. and Mrs. David F. Gilmer and Bobby and Joyce, spent Sunday at her mother's, Mrs. Jeffrey's of South Mountain. Bobby remained over for a few days.

The W. A. held their regular meeting at Mr. Jas. Gilmer's on Friday evening.

SOUTH MOUNTAIN

Miss Doris Cameron is spending this week with her brother at Cornwall.

We are sorry to report the illness of little Alta Porter, daughter of Mr. and Mrs. Arnold Porter.

Mr. and Mrs. John Briggs, Mrs. Gordon Warren and son, Ronald, and Master Dan Crites of Hainsville, visited friends in town Tuesday.

Mr. and Mrs. Noah Brown and family of Kemptville, and Mrs. M. Moore spent Sunday with Mr. and Mrs. Frank Berry.

Mr. Douglas Chetwynd, manager of the Bank of Nova Scotia, is spending his holidays with his mother at Nova Scotia, while Mr. J. L. Baird of Toronto is relieving Mr. Chetwynd.

Dr. C. Locke of Winchester, was making professional calls in this vicinity recently.

A reunion of the Ennis family took place at the old home in this village on Sunday, Aug. 21st, now occupied by the eldest daughter, Mrs. C. Payne. The guests were as follows: Mrs. Wm. Langmaide of St. Andrew's, New Brunswick; Mr. Kenneth Langmaide, of Ottawa; Mr. and Mrs. Wm. Barrigar and Mr. and Mrs. Lawrence Edgers, of Smiths Falls; Mr. and Mrs. S. G. Beggs and family, Nera, Bernard and Helen, of Chicago; Rev. and Mrs. Brown and daughters, Barbara and Jean, of South Betheleum, N. Y.; Mr. and Mrs. Harry Baldwin and children, Betty Ann and Robert, of Toronto; Mr. and Mrs. H. C. Martin of Spencerville and Mr. and Mrs. Minor Cooke of Ventnor. The day was very pleasantly spent.

Mr. and Mrs. Fred Haig of Saskatoon, is spending some time with her father, Mr. R. Crowder, and Miss Ethel Crowder,

Mr. Don Scott and Mr. Harold Graham spent Sunday at Perth.

Mr. and Mrs. Asa Berry and Mrs. Frank Berry and little son, spent a day recently with Mr. and Mrs. Merritt Campbell of Finch.

Mr. Victor Montgomery and mother visited Winchester and Chesterville on Sunday.

Mrs. Margaret Barry and Master Eugene are spending this week at Ottawa,

Mrs. Orpha Anderson is visiting her daughter at Gananoque.

Miss Anna Wright, R. N., of Cornwall, N. Y., is spending her holidays with her mother, Mrs. Martha Wright.

Miss L. Dawley of Winchester, visited Miss Verna Gilroy last week.

Mr. and Mrs. Hugh McCann, of Ottawa, Sundayed with friends here.

Mr. Arthur Hunter of Halifax and Mr. Archie Hunter of Shawinigan Falls, were recent guests of their parents, Mr. and Mrs. John Hunter.

Mr. and Mrs. Arthur Farrell and family visited Mr. and Mrs .Arlow Beggs of Heckston on Sunday.

Mrs. Lyal Hess and Miss Norma of Heckston, were recent guests of Mrs. Asa Scott.

Mr. and Mrs. Andrew Kenney have taken up residence in town in part of Mr. Norman Barnhart's house.

Mr. and Mrs. J. D. Marquette and Miss Muriel, of Ottawa, visited friends here on Sunday.

Mr. and Mrs. Arthur Williams and Mr. and Mrs. Harry Williams of Vancamp, called on friends here Saturday evening.

Guests at the home of Mr. and Mrs. Wm. R. Farrell on Thursday last were Mr. and Mrs. Emerson Swerdfeger of Massena, N. Y.

On Thursday last a meeting of the Ladies' Institute took place at the home of Mrs. J. W. Gilroy. The main topic of the meeting was preparing an exhibit for the Mountain Fair. A large number attended.

Miss Mary Foley is spending this week with her aunt, Mrs. Myers, of Iroquois.

Mr. and Mrs. Lorne Armstrong and Mr. and Mrs. Norman Armstrong spent Sunday with Mr. and Mrs. Howard Nesbitt of Hyndmans.

MELVINS

Mr. and Mrs. J. M. Jackson and family of Kemptville, spent Sunday at the home of Mr. and Mrs. J. A. Erratt.

Mrs. Johnston Stewart and children, of Massena, N. Y., is spending a few days with her parents, Mr. and Mrs. J. Presley.

Mrs. Ruth Steinburg, of Cardinal, is spending a few days at the home of Mrs. S. A. Greer.

Mrs. Eden Hughes and daughter, Lorena, and little Lorena Palmer of Cornwall, accompanied by Mr. Frank Erratt, of Massena, N. Y., spent a couple of days with her brother, Mr. J. A. Erratt.

Mr. and Mrs. A. Gainer spent a few days last week at the home of their daughter, Mrs. Norman Holland, of Massena, N. Y.

Mr. and Mrs. A. Christie attended the funeral of the late Mrs. Byron Watt of Winchester on Saturday afternoon.

Mr. George Smith, of Watertown, N. Y., is spending the week with his cousin, Mr. Gerald Erratt.

Mrs. Robert Bruce and Mrs. Hugh Bruce and sons, of Spencerville, were callers at the home of Mr. and Mrs. A. Christie on Friday afternoon.

Mr. and Mrs. J. Presley and son, Clarence, spent Sunday at the home of the former's daughter, Mrs. Bernice Ouderkirk, of Berwick.

Mr. and Mrs. T. O. Keyes of Winchester, were callers at the home of Mr. and Mrs. A. Christie on Friday evening.

Mr. and Mrs. Wm. Brown and daughter, Lillian, and Mr. Andrew Dawson of Newington, and Mrs. Henry Stata and son, Raymond, of the Nineth, spent Sunday at the home of Mr. and Mrs. Reuben Brunner.

Mr. and Mrs. William Barkley and daughters, Mary, Ileen and Elizabeth, of Cloverdale, and Mrs. George A. Barkley of Point Fortune, Que., spent Sunday at the home of the former's son, Mr. Geo. Barkley.

WINCHESTER SPRINGS

Messrs. Douglas and Harry Peterson, of Saskatoon, and Mr. Merrill Coleman, of Toyes Hill, called on Mrs. Arnold Casselman on Wednesday afternoon.

Mr. and Mrs. Clifford Robinson, Messrs. Dalton and Denzil Robinson attended the opening of the International Bridge at Ivy Lea on Thursday.

Mr. and Mrs. Calvin Strader of Winchester Station, Mr. and Mrs. Douglas Landreville and son, Donnie, of Ottawa, called at the home of Mrs. Orren Casselman and family on Wednesday evening last.

Mr. and Mrs. A. J. Casselman and family called on Mr. and Mrs. Rumsey Peterson on Tuesday morning.

Messrs. Gerald and Jack McIntosh returned to their home Sunday evening after spending some time at Old Orchard Beach, Calif.

Miss Nelda Smyth spent a few days with her sister, Mrs. Bert Harper, at Spencerville.

Visitor at the home of Mr. and Mrs. Thos. Keyes on Sunday were Miss Nellie Baldwin and Mr. and Mrs. Bernice Allison of Inkerman.

Mrs. S. Rice and son, Gerald, spent Sunday with Mr. and Mrs. Brown at Cardinal. Her little niece, Lillie Brown, returned home with her for a few days.

A very pleasing event occurred at the home of Mr. and Mrs. Garfield McIntosh on August 21st when seventeen of the near relatives gathered at their home, the occasion being Mr. Mahlon McIntosh's 17th birthday. The day being Sunday, the time was spent in social intercourse.

Miss Helen Robinson of Chesterville, took tea with Mr. and Mrs. Heber McIntosh on Sunday evening.

Master Harold Cronmiller, of Williamsburg, spent the past week with Master Lee McIntosh.

The friends in this community of Mrs. Michael Casselman extend their sympathy to her in the death of her brother, the late Milo Hollister, at Waddington, N. Y.

Miss Marie Casselman of Williamsburg, and Betty Montgomery of Winchester, spent a few days with their aunt, Mrs. Heber McIntosh.

Miss Melba May Casselman returned home Saturday after spending a couple of weeks with her cousins at Spencerville.

Mrs. Florence McIntosh is spending some time with friends at Williamsburg.

Mr. and Mrs. Thos. Keyes spent a few days recently with Mr. and Mrs. George Barclay at their cottage at Point Iroquois.

Mr. and Mrs. Bert Harper of Spencerville, were recent guests of Mr. and Mrs. Harvey Smyth.

Miss Amie Adams spent a few days with Miss Dora Holmes.

Mrs. Almon McIntosh and family of Inkerman spent Sunday with her parents Mr. and Mrs. A. E. Holmes.

Miss Ruth Gray of Ottawa, spent a few days with Mr. and Mrs. Preston McIntosh.

Mrs. P. R. Walker, Miss Evelyn and Mr. Donald Walker atended the reunion picnic at Kemptville on Tuesday in honor of their uncle, Mr. E. H. Robinson, and cousin, Mr. O. B. Robinson, of Iowa.

GLEN STEWART

Mr. and Mrs. Henry Boyad, Basil Feader and Mrs. George Rylands spent Friday evening in Williamsburg.

Miss Freda Fawcett of Inkerman, is spending some time with her uncle, Mr. M. R. Swerdfeger.

Miss Kathleen Thompson, of Phily, N. Y., is spending this week the guest of her grandparents, Mr. and Mrs. Thomas Duncan.

Born at Manotick on Aug. 22, 1938, to Mr. and Mrs. M. R. Swerdfeger (nee Mildred Allison), a daughter.

Mr. and Mrs. J. C. Adams and Irene spent Sunday with her parents, Mr. and Mrs. H. Wylie, of Toyes Hill.

We are sorry to report Miss Stella Johnson on the sick list. Her many friends wish for a speedy recovery.

Mrs. Ernest Wilson of Lanark, has spent sometime the guest of her parents, Mr .and Mrs. James Wright.

Mrs. Lou Hamilton and son, Carl, spent a day recently with her daughter, Mrs. Norman Baker, of Hainsville.

Mr. R. Merkley of Haddo, called on his son, Rae, and Mrs. Merkley, on Friday afternoon.

DON'T POUR VITAMINS DOWN THE SINK

Many a vitamin and mineral—difficult to get into the menu in sufficient quantity at best, are drained down the kitchn sink.

"Panning" vegetables and using all the juices make it possible to conserve flavor as well as food value. Cooking in milk and using it as a sauce to serve with the vegetable also conserves food value.

Fresh young cabbage, for example, keeps its crispness and has a delicate flavor and color when cooked in milk. Heat two cups of milk for each 1 1-2 quarts of shredded cabbage. Cook cabbage and milk for about 2 minutes; then add a cup of cream or rich milk thickened with three tablespoons flour and seasoned with melted butter, salt and pepper. Cook rapidly for 3 or 4 minutes stirring constantly.

Cabbage is one of those oft-abused vegetables. Over-cooking makes it mushy, strong in flavor and disagreeable in color. Quick cooking without a cover, retains flavor and green color.

Happiness is in action ,and every power is intended for action; human happiness, therefore, can be complete as all the powers have their full and legitimate play.—Thomas.

TWINS LINKED BY STRANGE BONDS

The miracles of twin affinities have recently been augmented by an amazing case recorded in Belfast.

The twins were men, aged 41, one of whom was admitted to hospital apparently suffering from a severe internal ulcer. On the next day his brother, his opposite in physique, entered the very same hospital with a similar complaint!

Coincidence, you say. But this is by no means an isolated incident.

Twins named Kerger were last year operated on, in Illinois, for appendicitis at the same time.

Recently twins, unknown to each other, fixed the same date for their weddings, and were married simultaneously in Liverpool and Blackburn, England.

It is not unusual for identical twins even to have the same dreams or nightmares, though the dreamers may be miles apart at the time.

JAPAN RATIONING TO PAY FOR WAR

Japan is rationing itself sternly to pay for the war with China.

Presumably the poorest of the world's "Have Nots," the nation has been blowing an estimated $5,000,000 daily through its guns and rifles since the "incident" began July 7, 1937.

Experts place the total expenditure thus far in the neighbourhood of $2,000,000,000.

The people are paying high taxes. They are using their savings to buy Government bonds. They are working longer hours, wearing synthetic clothing materials, and foregoing even the pitifully few luxuries they normally enjoy.

A steady stream of sentiment-stimulation comes from the Government to increase their natural willingness to do this.

The need for American dollars is a powerful factor in Japan's precarious financial structure.

In the United States, where Japan buys most of its necessities, its purchases on credit have been greatly restricted. Japan is paying cash for most of the airplanes, munitions, oil, cotton, and machinery that it gets and to do this it must buy dollars with its yen.

At the same time it is meeting the interest of $316,000,000 obtained from American investors before the war began by bonds sold on the American market. They represent national, municipal, government-guaranteed, and privately guaranteed corporate issues.

Adding a final touch to what appears to the picture, Japan's exports have shrunk by some 20 per cent. and commodity prices have risen.

Germany and Italy, Japan's "unit-Communist" allies, are in no position to help with credits because they need cash just as badly as Japan does. Nor is the rest of the world eager to give raw materials or manufactured goods on a pay-after-the-war basis.

There are four sides to the Japanese financial picture today: heavy inroads on resources, greatly increased taxation, restriction of imports to the barest necessities, and rigid control of domestic finance.

Economically, Japan is like a sailor in an open boat—but with a fair-sized cask of water.

The nation catches a little rainwater in the form of gold production and some export revenue. But mainly it is living off its stores and will not sight land until the China war ends.

Japan grew prosperous while others fared badly in the years from 1931 to 1934, which brought depression to the rest of the world. With cheap labor and cheap goods it flooded world markets. The reserves accumulated in those days are financing the war today.

The empire's gold production, operating under full steam, is about $75,000,000 a year. In about the first four months of this year, Japan shipped abroad $33,500,000 in gold for cash purchases—a drop in the bucket. A whole year's gold output would carry this country only two weeks in the war costing $5,000,000 a day.

The total average increase in taxes is almost 10 per cent. Ordinarily Japanese tax-payers put $500,000,000 annually into the Treasury and on May 16 the Finance Ministry announced that the "natural increase" in revenue had reached $43,500,000. There are scores of new special taxes and income taxes have increased more than 10 per cent. on an average.

Rigid import control started last October, when the Ministry of Commerce and Industry listed nearly 700 articles which could be imported only by special permission.

Importers say such permission is almost impossible to obtain.

Inside Japan, money is controlled down to the last sen. It passes around in a small circle, from Government to industry (particularly munitions) to labor and back again to Government in the form of personal and corporation taxes and national bond issues.

The whole problem is to keep money from leaving the country, except for absolute necessities that Japan lacks. Foreign goods, such as movie films, can't come into Japan except on a tiny quota basis.

AVERAGE COLLEGE STUDENT KNOWS 176,000 WORDS

Dr. Robert Seashore, Associate Professor of Psychology at the Northwestern University, said recently that the average American college student has a much larger vocabulary than the 15,000 words with which he is credited. Most students can recognize 62,000 root words and 114,000 "derived" words, making a total of 176,000, which seems an extremely extensive vocabulary, especially when we realize that Shakespeare did not use more than 15,000 to 20,000 words, and Milton half that number.

The highly educated Englishman uses more than 4,000 different words to express himself, and most of them rub along excellently on about 400. Our language contains about 400,000 words and is the most expressive on earth, but many of them are technical or used in certain trades and professions.

As these features appear, clip and file for future use. Each story deals with a different food. Each statement a fact. Each recipe a tested tasty.

The orange is one of our year-round fruits. When the Navel, or winter orange begins to disappear from the market, the Valencia or summer orange takes its place.

The Valencia, or summer orange, is supposed to have originated in the Azores. Under California climatic conditions this fruit ripens from April to November and supplies millions of homes with their summer fruit punches and morning orange juice.

Few foods are as valuable in the diet as the orange. It has a decided alkaline reaction when taken into the system and thus tends to counteract the acid reaction of many common and healthful goods. Furthermore, the orange is rich in Vitamins A, B and C.

With hot weather upon us, you may be interested in the fact that recent experiments have shown that exposure to high temperature will cause as much as a fifty per cent loss in Vitamin C from the body tissues. As lowered Vitamin C reserves go hand-in-hand with the tired feeling we get when the weather is sizzling hot, the following recipes are suggested as beverages that are more than delicious hot weather drinks:

Hollywood Parade
(Serves 30)

1 quart orange juice
1 quart orange sherbet
1 quart vanilla ice cream
1 quart chilled ginger ale

Beat orange juice, sherbet and ice cream with whirl type beater until well mixed. Add ginger ale. Stir and serve at once.

Patio Cooler

2 cups boiling water
8 teaspoons jasmine tea
1½ cups sugar
5 cups orange juice
1 cup lemon juice
2 quarts of ice water, ginger ale or charged water
1 quart orange sherbet
Orange slices for garnish

Pour boiling water over tea. Steep 5 minutes. Strain and dissolve sugar in warm liquid. Cool. Add chilled fruit juices. Just before serving, add ice water or carbonated beverage. Garnish with orange slices. Float sherbet on top. (Makes 1 gallon — fills an ordinary punch bowl — 30 small punch glass servings.)

FOREST ENGINEERS VISIT PETAWAWA

More than one hundred forest engineers and loggers, mostly from Canada and the United States, visited the Petawawa Forest Experiment Station on July 1 and 2 last. This field trip brought to a successful conclusion the activities of the forest section of the summer meeting of the Amtrican Association for the Advancement of Science, held in Ottawa recently. The visiting foresters travelled by motor car to Petawawa, and were shown some of the principal projects established at the experiment station, including thinnings, improvement cuttings, plantations, plantings of new varieties of poplar, and the use of hormones to promote growth. They were also treated to practical demonstrations of seven types of portable fire pumps made in Canada.

Maintained by the Forest Service of the Department of Mines and Resources, the Petawawa Forest Experiment Station is located about one hundred and twenty-five miles from Ottawa, and comprises about one hundred square miles on which the forest was originally predominantly white pine with some hardwood and spruce-balsam types. It is fairly typical of the Great Lakes-St. Lawrence forest region, particularly the Ottawa Valley which has long been a famous centre of lumber production. The experiment station area is now mostly occupied by young, second growth stands of white and red pine, poplar and birch which were established following logging or fire seventy-five, sixty and forty years ago. More than one hundred and sixty sample plots have been established on the station to date.

The main object of the Petawawa Forest Experiment Station is to develop methods to produce the highest possible annual yield of valuable merchantable material in perpetuity, and to demonstrate to those engaged in forest operations how proper forest practice can and should be carried out. Owners of small woodlots and those who administer large forest areas are alike welcome at this station where they can see practical demonstration of modern forest practices.

Thinning experiments have been conducted in the principal forest types to stimulate the growth of the more valuable species by the removal of defective trees and trees of little or no economic value. These experiments are conducted with the object of discovering the best method of producing the maximum yield of the most valuable species in the shortest possible time. The logs, pulpwood, match stock and fuelwood removed in the thinning operations are sold in an effort to make these improvements self-sustaining.

Other experiments are conducted to encourage the growth and reproduction of desirable species after the removal of part or all of the main stand. Merchantable stands are logged by different methods in order to discover the most economical way of assuring a satisfactory reproduction.

A small experimental nursery is used to study the growth and development of trees introduced from different parts of the world, particularly those parts with climate similar to Eastern Canada. Experiments are being conducted in plant breeding in an effort to develop trees which grow more rapidly than those native to the district. The hybridization of poplars is well advanced and several rapid-growing poplar hybrids have been produced.

Through the co-operation of the Department of Agriculture, laboratories have been established at Petawawa to study insects and diseases which cause much damage to the forests of Canada. Excellent co-operation is also obtained from the National Research Council of Canada, particularly in the study of plant breeding and the use of hormones.

A modern and effective forest fire fighting organization protects the experiment station area. Research is being conducted with the object of improving the methods of measuring the degree of fire hazard from day to day. This work has reached an advanced stage and the knowledge so far gained is in extensive use in parts of Eastern Canada.

WOULD CUT TERM OF CHURCH MODERATOR

Question as to whether or not the term for the moderator of the United Church of Canada shall be reduced from two to one will be discussed at the eighth general council which meets in Toronto on September 21, it was announced by officials this week. Sessions will continue for 10 days.

According to officers of the church, the moderator's term has been the subject of much study. Many ministers claim that it would be difficult to leave their churches for a two-year period if elected to the office of moderator and that a one-year term would be more satisfactory to congregations and ministers alike.

Another subject for discussion will be the method of locating ministers and the length of time one shall serve in one church. Many memorials are to be presented to the general council dealing with this phase of church administration. The financial committee, which has been studying the general financial set-up of the United Church will present at least a tentative report. Recommendations regarding the amalgamation of church papers will also be presented to the council.

The delegates will also hear reports from boards which carry on the administration of various phases of church activities. Boards reporting will be evangelical social service, Christian education, home missions, foreign missions, publications, missionary education, pensions, missionary and maitenance fund.

The great weakness in the present situation is mental and moral. Fear, hate and suspicion would destroy the very basis for prosperity. Where apathy isn't mesmeric, energy is wasted in a bitter and greedy struggle for power—economic and political. The people are divided at a time when united defense against the common foe, depression—is imperative. If mental and moral causes are chiefly to blame for the present situation, mental and moral changes will correct it. Those changes every individual can have a part in achieving.—Chrsitian Science Monitor.

HINTS FOR THE FARMER

ROGUEING POTATO FIELDS

Rogueing is a valuable method for the control of certain degeneration or "running out" diseases of potatoes of virus origin. Rogueing implies the detection, lifting, removal and destruction of virus infected plants. As a control measure the practice is particularly valuable against the three common potato diseases, mosaic, leafroll and spindle tuber. These three diseases produce characteristic symptoms on the potato plant. Mosiac diseases produce a mottling effect in the foliage. Leaf-roll causes a slight, general yellowing of the foliage, and an upward rolling of the leaves. Spindle tuber intensifies the green color of the leaves, imparts an upright, staring appearance to the plant, and causes the production of spindly or misshapen tubers with bulging eyes.

It has been shown that rogueing should be timely and systematic. Usually, mosaic and leafroll can be detected in the field when the plants are about four inches high. At this stage of development the field should be systematically examined row by row for the presence of virus infested plants. Rogueing should be done preferably on dark or dull days as the light conditions are then best for the detection of mosaic. On bright days the operator should carry an umbrella or traverse the potato rows in such a manner that his shadow is cast over the plants immediately before him. The operator should carry some type of closed container, and when a diseased plant is detected, it should be lifted in its entirety with as little disturbance as possible and deposited in the container. Under no circumstances should diseased plants be pulled and left in the rows, nor should they be carried out and deposited on the headland. Diseased plants should always be carried from the field and then immediately destroyed by burning. Rogueing should be systematically practised at weekly intervals until the potato vines begin to mature. For further information write to the nearest Plant Pathological Laboratory.

CURRENT CROP REPORT

Farmers are well along with the harvesting of splendid grain crops. In Western Ontario practically all grains are now harvested except late oats, while in Central Ontario about 75 per cent. of the grain is cut and in Eastern Ontario about 50 per cent. In Northern Ontario the harvest is well under way. Stock threshing proceeded rapidly up to August 1st, but was interrupted by frequent and heavy rains during the first two weeks of August.

The average yield of fall wheat for the entire prvoince is now estimated at 27 bushels per acre, as compared with 26 bushels in 1937, and a preceding 15-year average of 25.1 bushels. The harvested acreage of 742,062 acres is the highest since 1927, and compares with 718,813 acres last year. Total production will amount to approximately 20,036,000 bushels, which is the largest crop since 1926. In Eastern, Western and Central Ontario, the yield per acre was reduced and the quality considerably lowered by leaf and stem rust. In each of these three sections, the yield was about three bushels per acres less than in 1937, but in Southern Ontario, which comprises the two rows of counties bordering Lake Erie and where half the acreage is located, the yield was almost five bushels higher than a year ago and this more than offset the decline in other sections. Heat and rust reduced the crop most severely in the counties of Grey, Bruce, Huron, Wellington and Perth.

Spring grains have matured early this season and reports indicate that the yield per acre will generally range from average to slightly above average in practically all counties. Harvesting is about a week earlier than usual. Damage was caused by the most severe outbreak of army worm in the last fifty years, but for the province as a whole the loss would probably not exceed 2 per cent. Individual fields, however, suffered 10 to 15 per cent. injury, and in a few cases much greater. Severe rainstorms resulted in considerable lodging in some parts, making cutting difficult, but the loss is not serious, while in Eastern Ontario, grasshoppers caused rather severe damage in several localized areas. Rust is affecting the grain crop in Eastern Ontario, but the yield is expected to be a good average and considerably the poor yields of 1937.

Precipitation was sufficient for developing crops during July throughout most of the province. Heavy rains fell in early August, lodging standing crops over large areas. The rainfall has been beneficial for the growth of late crops and prospects for these crops, which include corn, late potatoes, buckwheat, sugar beets and turnips, are considered quite avourable. Pastures are also showing improvement in all sections, and as a result livestock are in good condition and milk flow is being well maintained.

Prices of farm products have declined recently and are now generally below the level of a year ago. In the case of grain crops the decrease from last August is very considerable and is due to larger world crops. In Ontario farm income is largely determined by the prices of secondary commodities such as cattle, hogs, butter, eggs etc., all of which are down in price.

MORE GOOD LAMB REQUIRED ON MARKET

Farmers are cautioned to exercise greater care in the marketing of lambs at this season of the year. Prices for good early lambs have been very satisfactory until about August 1st when many farmers, no doubt tempted by prevailing prices during the last week in July, began to market lambs that should have been held on pastures for at least a month, and in many cases two months. An oversupply of poor lambs resulted in a serious drop on all lamb markets, and while the situation has partly corrected itself, the market is still sensitive to weakness if producers continue to market undesirable lambs.

As a rule lambs from the more common domestic breeds of sheep do not finish for market at farm weights under 90 pounds to 100 pounds (80 to 90 lb. at the market.). Before selling lambs it is always wise to use the scales. This is particularly important at the present time so that the sale of underweight lambs may be avoided.

Good early lambs are in demand at all stockyard centres, packing plants and city markets. Lamb meat is an especial favourite in the home, at tourist centres, and in hotels and restaurants. When it is said that lamb is a popular meat, this means good to choice lamb from well finished carcasses. Light, unfinished lambs do not produce the kind of meat that is relished by tourists or by the Canadian people. Poor lambs are not good sellers and are unsatisfactory to all sections of the trade, including the consumer.

TO ESTABLISH RADIO STATION ON REINDEER RESERVE

With a view to improving existing facilities for the efficient and economic administration of reindeer affairs, the Department of Mines and Resources has taken steps for the installation of radio transmitting and receiving equipment at the headquarters of the government reindeer station, lying immediately east of the Mackenzie River delta in the Northwest Territories.

It is the intention to operation this equipment in conjunction with the Signal Station of the Department of National Defence at Aklavik, and thereby eliminate the necessity for many trips by boat or dog team over the seventy-five miles distance between the reindeer station and Aklavik. The new radio station will also make it possible to maintain communication with the reindeer station during the annual periods of break-up and freeze-up when travel over extended distances is not possible in that country.

The equipment selected consists of a transmitter and receiver, with a windmill charger and other accessories. Tests made at Ottawa over distances comparable to those over which it will be required to operate indicate that the equipment should be suitable for its intended use. The transmitter is designed to operate on short-wave at a fixed frequency of about 4324 kilocycles.

With the development of the reindeer enterprise and the proposed extension of the industry in the interests of the natives, the importance of radio communication between the administration at Ottawa and the field officers can hardly be overestimated.

"TURNABILITY"

The first law of motion is that a moving body tends to continue in uniform motion in a straight line. The energy of a moving body is in proportion to the square of the speed. At 25 miles an hour, however, you can make a fairly sharp turn in an automobile on a good highway. At 50 miles an hour, you can make only one-quarter the turn you could at 25. This explains many accidents which occur in turning and passing at higher speeds. But at 75 miles an hour, your "turnability" has been cut to one-ninth of that when you were going at 25 miles. Try to turn more sharply than this law of physics allows, and OVER YOU GO!

A BAFFLING BEETLE

Air-breathing beetles which apparently can live for months under the water without coming to the surface, are described by scientists of the Smithsonian Institution in Washington as a species of strange insects whose ways of life are so obscure that they are little known, even by professional entomologists. These insects are found in the cold rapid brooklets flowing through dark laurel thickets in the Great Smoky mountain. The adult beetles of the species show no special breathing mechanism which is not possessed by beetles which spend all their existence in the free air and to whom any extended immersion would no doubt be fatal. These beetles have no gills, so far as can be ascertained by which oxygen is extracted from water.

Dr. Cuttem: Do you think your son will forget everything he learned in college?

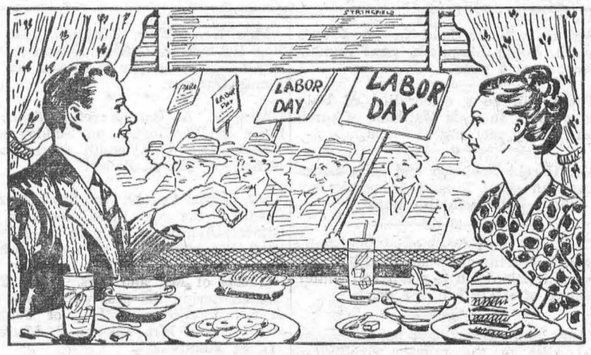

Dr. Open: I hope so. He can't make a living necking.

The aged porter of the meteorological office was about to retire and was given a farewell party.

"Unfortunately," said the master of ceremonies, "we must part, but with your departure the institute loses its reputation for the most reliable weather forecasts in the world. Your sensitive corn is an absolutely irreparable loss to science."

Luscious Labor Day Dishes

By BETTY BARCLAY

No matter what you have scheduled for Labor Day, the inner man must be served. Here are some tried and true recipes that you will find fitting for this holiday or for any day thereafter:

Spaghetti with Pork Chops and Apples
(A Tasty Wheat-Meat-Fruit Combination)

½ lb. spaghetti
2 tablespoons butter
1 cup apple slices
4 or 6 pork chops
4 or 6 slices onions
salt and pepper to taste

Cook spaghetti in plenty of rapidly boiling water, well salted. Drain and butter. Fry pork chops until a delicate brown. Leaving skin on apple slices will add color to the dish. Combine spaghetti with apple slices and fried pork chops, alternating the pork chops with the sliced onions. Bake the combined ingredients one hour at 360 degrees. Serves four.

Cottage Cheese Salad Dressing

⅔ cup sweetened condensed milk
½ cup vinegar
½ teaspoon salt
¾ teaspoon dry mustard
½ teaspoon paprika
½ cup cottage cheese

Blend thoroughly sweetened condensed milk, vinegar, salt, mustard and paprika. Press cottage cheese through sieve and add to mixture, beating until smooth. If desired, 1 package (3 ounces) cream cheese may be used in place of cottage cheese. Makes 1⅔ cups.

Coffee Sparkle

Guests who like late hours and extra cups of coffee, and who still want a good night's sleep afterward, will hail the hostess who serves decaffeinated coffee. Here's a novel variation of the popular beverage. Add a half pint of vanilla ice cream to a pint of cold, freshly made decaffeinated coffee. Beat with an egg beater until creamy. Fill glasses three-fourths full of this coffee, then fill with ginger ale.

Orange Crumb Pie

2 egg yolks, beaten
¼ cup flour
¾ cup sugar
⅛ teaspoon salt

Mix well and add:

1½ cups milk
1 cup orange juice
1 teaspoon grated orange rind

Cook in double boiler 15 minutes, or until thickened, stirring frequently. Cool. Pour into crumb crust pie shell. Cover with meringue. Bake 15 to 20 minutes in a slow oven to set meringue. When cold serve if desired with whipped cream.

Ripe Plum Marmalade

3 cups (1½ lbs.) prepared fruit
5 cups (2¼ lbs.) sugar
½ bottle fruit pectin

To prepare fruit, peel off yellow rind of 1 orange and 1 lemon with sharp knife, leaving as much of white part on fruit as possible. Put yellow rinds through food chopper; add ½ cup water and ⅛ teaspoon soda, bring to a boil, cover, and simmer 10 minutes. Cut off tight skin of peeled fruit and slip pulp out of each section. Add pulp and juice to cooked rind. Pit (do not peel) about 1¼ pounds fully ripe plums. Cut in small pieces, crush thoroughly, and combine with orange mixture.

Measure sugar and prepared fruit into large kettle, filling up last cup with water if necessary. Mix well and bring to a *full rolling boil* over hottest fire. Stir constantly before and while boiling. Boil gently 5 minutes. Remove from fire and stir in bottled fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin hot marmalade at once. Makes about 8 glasses (6 fluid ounces each).

Recipes for Party Fun

For party fun Crossword Lexicon is the smart set's favorite game craze. This card game is an exciting combination of crossword puzzle technique and anagrams. A new fad in parlor sport is Telka, an ingenious development of Chinese Checkers which combines the excitement of capture and the thrill of danger zones with dizzy opportunities for jumping in every direction. Both Telka and Chinese Checkers can be played on the same board. Telka is fun for two or three and especially exciting as a partnership game for four.

NOTED AUTHOR GIVES DRIVING TIP TO SON

J. P. McEvoy, noted satirist, novelist and feature writer, recently wrote a book called "Father Meets Son," published by J. B. Lippincott Co., in which a modern father, patterned after the famed Lord Chesterfield, wrote a series of letters to his son, who had just entered the business world after a rather hectic college career. The letters discussed every aspect of the young man's future life—questions of employment, marriage, social responsibilities, and so on.

On one occasion the lad, who was working at the time as a private chauffeur, took his employer's car out one night without permission and "wrapped it around a lamp-post."

Father McEvoy, when he heard about the accident, sat down and wrote his son a letter containing a great deal of food for thought which should be thoroughly digested by everyone who drives a car. Here is what he wrote:

Dear Son:

You used up a lot of paper explaining how the accident was not your fault, and I can believe you. But you are going to continue to drive cars, and a few words on the subject won't do any harm. In the 25 years that I have been driving automobiles, I have never met anyone who had an accident through his own fault—it was always the car, the road, or the other Fellow. Mostly, the Other Fellow.

This Other Fellow is worth some study. There seems to be no escaping him. To look at him, you would think he was harmless, but last year he killed a great many people, and injured many, many more. I have seen the Other Fellow, and certainly he doesn't look like a killer. Sometimes he is a young, nice-looking kid like you. Sometimes he is a mild-looking, middle-aged fellow like me. Sometimes he is a gentle sweet little woman like your mother, but that only goes to show you can't judge by appearances. He's a killer, and no mistake, and something is going to be done about it—or is it?

Some time ago, the champion safety driver of one of the largest bus companies in the world was given a banquet and a medal. He had completed half a million miles without an accident. When they called on him for a speech, he rose and said: "I ain't much of a hand at making speeches. I suppose you want to know how I got away so long without an accident? I just got one rule. I drive like the other fellow was crazy."

So that seems to explain it. The Other Fellow is crazy. If you cut out of line on a two-lane road, don't expect him to let you push him into the ditch, so you can cut in again. If you pass a car on a blind curve, don't expect the fellow coming the other way to be sensible about it and go off the road and out into a field to let you by. He's just crazy enough to run right into you because you are on his side of the road. If you speed through a main intersection, you will meet a lot of people who are crazy enough to think they have the right of way just because they are on a through street and you are coming in off a side street. If you like to pass on a hill, don't be surprised if a car comes over the crest and the driver doesn't leap over you or run under you. That would be the sane thing to do, of course—but, you see, he's crazy.

Yes, he's crazy, but you are rude—and that's what makes him crazy. It doesn't matter so much if you are walking down the street and you are rude enough to push someone aside, but if you are rude enough to push him aside with a three-ton automobile going sixty miles an hour, you'll kill him. You can elbow your way through traffic with your bad manners stepped up to a hundred horsepower, you're bound to do a lot of damage to a lot of innocent people.

For every accident caused by high speeding, there are a thousand caused by low breeding. Is it a coincidence that the continent which leads in fatalities lags in formalities? We may not be the most uncivil people on two feet, but we certainly are the prize terrors on four wheels. My boy, you may think it is sissy to be polite, but a kiss on a warm cheek is worth two on a cold brow.

Today we put a premium on agility rather than civility. Each year our manners become cruder as our gasoline becomes more refined. Wide roads won't prevent accidents, so long as they continue to fill up with narrow people. Good brakes on cars are no protection against bad breaks in behaviour. The growing problem of automobile fatalities will not be solved around the drafting board but around the family table. Then we can have a monster under the hood, because there will be a gentleman at the wheel.

DAD.

KING MAY VISIT CANADA

The Liverpool Post in its London letter on Tuesday said the King and Queen will "almost certainly" visit Canada and the United States during 1939, although no plans have yet been discussed and no invitations issued. It was understood, the column said, that Lord Tweedsmuir, Governor-General of Canada, mentioned unofficially the possibility of a visit although an invitation from Canada would come through the prime misister. The column added that Lord Stanley, the Dominion's Seretary, who sailed for Canada Tuesday from Southampton, might discuss tentative arrangements with the Prime Minister, Mackenzie King. Mr. King recently said the King needed no invitation to visit the Dominion. Canada always stood ready to welcome its sovereign.

MOREWOOD

Mr. Donald Steinberg of Prescott, spent a few days with Mr. and Mrs. Ford Steinberg.

Miss Ina McKenzie visited for some time with Mr. Frank Gardiner and daughters, of Vankleek Hill.

Mr. Ray Fetterly of South Porcupine, is spending some time with his parents, Mr. and Mrs. Vernon Fetterly.

Miss Maureen Nash, of Ottawa, spent the past week with Miss Marjory Faulkner.

Mr. and Mrs. Wm. Fawcett and family of Inkerman spent Friday with Mr. and Mrs. A. B. Allison.

Mrs. Cyrus Lang visited for a few days with Mr. and Mrs. Lang of Crysler.

Miss Jean MacLean, of Manotick, is visiting with her grandparents, Mr. and Mrs. A. B. Allison.

Mr. and Mrs. Charlie LaSalle of Ottawa, Miss Lillie Lewis of Montreal, visited on Sunday with Mrs. Hattie Stewart and Mrs. Sadie Johnston.

Mr. and Mrs. Mac Fielding of St. Catharines, visited with Mrs. Thomas McGregor and other friends.

Mrs. James Bogart spent a day with Mr. and Mrs. Wm. Barrington of Cannamore.

Miss Jean Loughridge spent a few days Miss Lois Steinberg.

Mrs. George Weaver has returned home after visiting with friends in Adirondack Mountains and Madrid, N. Y.

Mr. Ward Bilow is spending a few days with friends in Ottawa.

Mrs. Abner Dillabough and Sybil are spending this week in Ottawa.

Morewood W. M. S. Entertains The C. G. I. T. Group.

The August meeting of the Morewood United W. M. S. was held on Thursday afternoon, the 18th, at the home of Mrs. A. B. Allison on the lawn, when the C. G. I. T. group was entertained. Mrs. Abner Dillabough had charge of the program, the theme being "Outdoor Service." The meeting opened with the Doxology, followed by the repeating of the 121st Psalm and the singing of a hymn. Readings, based on Social Welfare, was in charge of Mrs. James MacMillan and Miss Sybil Dillabough. Roll call was answered with your favourite hymn. Mrs. Harold Faulkner, leader of the C. G. I. T. group, then spoke on how the C. G I. T. group was conducted throughout the year and the work also. The treasurer's report was given by Mrs. Adam Carlyle.

The community friendship calls was reported by Mrs. Jacob Swerdfeger, and the meeting closed with a hymn and the Mizpah Benediction. A delicious lunch was then served by Mrs. James MacMillan, Mrs. Harold Allison, and Miss Louva Allison. A vote of thanks was moved by Miss Vivian Fetterly, president of the C. G. I. T. group, for the lunch and the splendid way in which they had been entertained.

VANCAMP

Rev. L. M. Sommerville of Heckston, is to be the guest speaker at our Anniversary Services on August 28.

Mr. and Mrs. Andrew Derby and family, of Detroit, and Mr. and Mrs. Lorne Guy and family of Inkerman, visited at the home of Mr. and Mrs. Archie Levere on Wednesday evening.

Miss Alma Bellinger is holidaying at the home of Mrs. Alva Alexander of Winchester.

Messrs. Will C. Seymour and Archie Levere were over to Ogdensburg on Thursday.

Mr. and Mrs. Stanley Crowder of Ottawa, were recent visitors at the home home of Mr. and Mrs. Jno. E. Crowder.

Miss Alice Tooley of Syracuse, Mrs. Oshier and Mrs. Percy were guests on Sunday of Mr. and Mrs. Jud Levere.

Miss Kathleen Kerr of Kerr's Ridge, visited a few days with Miss Edna Swerdfeger.

The many friends of Miss Linda Alexander of Winchester, were sorry to learn she is a patient in Ottawa Civic Hospital

Mrs. James Trotter and family were visitors one day this week of her mother, Mrs. Thomas Hamilton.

Miss Alice Tooley, Mrs. Oshier and Mrs. Percy of U. S. A., were visitors to tea on Sunday of Mr. and Mrs. George Walter.

The Y. P. U. was held on Friday evening at the home of Mr. and Mrs. Willis VanAllen.

On Sunday a group of young people from the Metropolitan Tabernacle of Ottawa, took charge of the service here in the morning and at Inkerman in the evening.

Miss Alice Tooley of Syracuse, Mrs. Percy and Mrs. Oshier of Watertown, also Mr. and Mrs. Russell Crowder of Inkerman, were Monday visitors of Mr. and Mrs. Archie Levere.

Mr. and Mrs. Will C. Seymour were Tuesday visitors of Mr. and Mrs. James Franklin, of Bourget.

Sunday visitors of Mr. and Mrs. Amos Swerdfeger were the Misses Velma Kempt and Eleanor Hill, Messrs. Donald and Ivan Magee, Mr. Arthur Swabee of Ottawa, also Mr. and Mrs. Basil Suddaby, of Heckston, and Mr. Ray Suddaby.

SILVER CITY

Mr. Gordon Jackson was called home last week as his father had the misfortune of falling in the barn and getting badly hurt.

Mr. and Mrs. Lytelle Crowder and family spent Sunday in Kemptville.

A number from here is taking in the Ottawa Exhibition this week.

We are sorry to report Mrs. Fred Banford on the sick list.

Mrs. Cecil Hess and family of Heckston spent Monday with her sister, Mrs. Ray Francis.

Mr. Fred Banford is engaged for a month with Mr. Harry Workman.

Miss Marguerite Crowder spent Monday in the City.

Miss Violet Jackson returned home last week after visiting her cousin at Reid's Mills.

Mr. Robert Jackson, Mr. and Mrs. George Jackson and Mr. and Mrs. Harold Christie spent Sunday at Ivy Lea.

Mr. and Mrs. George Carson spent Sunday with Mr. and Mrs. James Kennedy.

PAINT YOUR HOUSE WITH THE SAME TOUGH PAINT USED ON SHIPS

A paint made for the hulls of ships is surely the best finish available in protective coatings.

Lowe Brothers offer you *at no greater cost* such a marine finish for your home in "High Standard" Paint. See your dealer.

MARRIED 23 YEARS AGO

A host of friends in the Williamsburg district join in extending heartiest congratulations and good wishes to Dr. M. W. Locke, and Mrs. Locke, who, on Thursday, August 11th, celebrated their 23rd wedding anniversary. On August 11th, 1915, Miss Lillian Ethel Blanche McGruer, daughter of Mr. and Mrs. Alexander E. McGruer, of Dixon's Corners, was united in marriage to Dr. Mahlon William Locke, son of the late Parker Locke and Abiguil Barkley, also of Dixon's Corners. The ceremony was performed at the home of the bride's parents, Rev. D. A. McArthur being the officiating minister.

Following the wedding, Dr. and Mrs. Locke enjoyed a brief honeymoon to Montreal.

A family of four children has been born to Dr. and Mrs. Locke. They are Marion Estella, Parker Alexander,, Ruth Genevieve and Margaret Melinda Jean.

STATIC FREE RADIO COMMUNICATION

Static-free radio telephone communication between airplane pilots and landing field attendants may soon be a practical reality. Despite thunder-storms and other atmospheric disturbances, flight tests of a new ultra high frequency apparatus show the system to be substantially impervious to adverse weather

The system was designed for the Northern Electric Company by Bell Telephone Laboratories and has been tested in co-operation with certain established Airlines, under actual flying conditions. Should continuing tests, now being carried forward to explore the new system's behaviour, verify the initial findings, ultra-high frequency radio telephone communication at 125,000 kilocycles or 2.4 meters may soon be universally adopted and may be applied to Police and other services.

For a number of years Bell Laboratories have been actively engaged in fundamental radio research and the practical design of equipment for operation on extremely short wave lengths. Very little static—the so-called electro-magnetic "garbage" of nature—is found in this region of the radio spectrum and practical applications of these waves to police, radio, telephone and other land servcies will have their utility, where the receiving station is not removed beyond the horizon.

Early in 1938 arrangements were made for an operational test of the new equipment on the Pittsburgh-New York airway. Ultra-high frequency transmitters and receivers were installed near the airport at Pittsburgh and on top of the New York Telephone building situated in lower Manhattan. The latter equipment was controlled remotely from the dispatch office in Newark. In addition to the Bell System's own "Flying Laboratories," ultra-high frequency equipment was also installed in a Skyliner, which has been flown on regular schedule between Pittsburgh and New York. Both the aircraft installations and those on the ground were made separate from the regular complement of radio equipment normally employed for airline operation.

A month's trial under actual operation conditions, during which all types of weather were encountered, showed the new system to be free from static disturbances even in the presence of violent thunder storms. Rain static, another common source of interference, left the equipment undisturbed and the almost total absence of background noise which usually crackles in the pilot's ears continuously proved to be an important advantage through absence of discomfort and fatigue.

The tests gave additional verification to the fact that ultra-high frequency transmission will not carry for any considerable distance beyond the horizon. Light light waves, the signals travel only in straight lines and will not pass around the curvature of the earth.

Although this characteristic represents a real handicap to the general application of such short waves, it is less important to aircraft communication because the airplane's horizon is continuously expanded as it gains altitude. It does mean, however, that for airline operation, a greater number of ground stations will be required along the line of flight than with present lower frequency equipment operating between 3000 and 6000 kilocycles. Conclusive tests have not yet been completed in mountainous terrain but fewer transmission points will likely be required in these areas as advantage can be taken of high peaks and the greater elevations on mountain ridges for equipment installation points.

LOCAL AND PERSONAL NEWS

Service will be held in St. Peter's Church, South Mountain, next Sunday afternoon at 3 p.m.

There will be a celebration of Holy Communion in St. Matthias' Church next Sunday morning at 8 a.m.

Mr. Harold Robinson and Miss Leona Casselman spent a most enjoyable day at Ottawa Exhibition this week.

Only one more Wednesday half-holiday and then the merchants and business men will setle down to a fall and winter schedule of six full days a week.

Many local citizens have paid their annual visit to the Ottawa Exhibition, which is in progress all this week, and report a very enjoyable time at the Big Fair.

We are sorry to report that Mr. W. J. L. Boyd, is confined to his home on Caleb Street, suffering from a severe illness. His many friends will hope for a speedy recovery.

Mr. Hugh McMaster has greatly improved his property on Main St. E. during the past week. The fresh coat of paint gives the building a splendid appearance and greatly enhances the value of the property.

The death occurred in an Ottawa hospital on Monday last of Mrs. (Dr.(C. H. Juvet, in her 59th year. Mrs. Juvet is well known here, having been a guest on numerous occasions at the home of Mrs. Aaron Sweet.

The work of re-surfacing Caleb and Main St. East has been completed and both are a credit to the town. The Council plans on completing a portion of such work each year until all the side streets are surfaced with tar and chipped ston.

The many friends of Mrs. Sol Shaver will regret to learn that she suffered a fracture of the right wrist when she fell as she was about to leave her home on Clarence Street yesterday morning. The fracture was reduced by Dr. C. J. Locke, and Mrs. Shaver is resting comfortably at present.

Mr. G. W. Hinman, Madison, N. Y., purchased forty-five head of purebred Holsteins from breeders in Eastern Ontario recently. Those supplying cattle to make up the shipment were: J. Kenneth Thorpe, South Mountain, 9; Alex R. Collison, Brinston, 8; John McArthur, Lancaster, 6; Clarence Green, Lyn, 5; Herb. Cuthbertson, Perth, 3; J. W. MacLeod, Dalkeith, 3; Jas. Couch, Smiths Falls; E H. Mills. Spencerville; Stanley Stephenson, Russell; Jos. G. Judge, Almonte, and Victor Kellough, Almonte, all supplied one each.

RUSSELL AREA FARMER IS INJURED IN COLLISION

Henry Tweed, a farmer residing on the outskirts of Russell village, was slightly injured Tuesday morning when his wagon was in a side-swipe collision with a milk truck on the highway, about half a mile west of that village. The truck was owned by Alphonse Bourbonnais, of St. Onge. The truck barely missed the two horses. Damage to both vehicles was slight. Tweed was given first aid treatment by Dr. McDougall, of Russell, and taken to his home.

SALES PROMOTION HEAD IS APPOINTED BY HYDRO

Formation of a Hydro sales promotion department under the direction of Morris J. McHenry is announced by the Ontario Hydro Electric Power Commission, through its chairman and chief engineer, Dr. T. H. Hogg.

Mr. McHenry, the central figure in this new departure of Ontario's publicly-owned power system, will be responsible for dissemination of information on the varied uses of electric servide. The Commission, it was explained in the announcement, believes that its duties are not fully discharged by simply making available low-cost electric service throughout the Province. It feels that if the great range of uses and benefits of electric service in the home, farm and industry were better known, the consumption of power would be increased and its cost to the consumer further diminished.

Long and intimate contact with the electrical industry and the power problems of Ontario highly qualify Mr. McHenry to direct this new department within the Hydro Commission. He was graduated from McGill University, Department of Electrical Engineering, in 1910; was associated with Messrs. Smith, Kerry & Chase, consulting engineers, of Toronto; in 1912 joined the staff of the Apparatus Division, Toronto District Office, Canadian General Electric Company; 1918, became manager of the Walkerville Hydro Electric System, where he completed an extensive rehabilitation program; became sales manager of the Ferranti Electric Company Limited; and in 1926 returned to the Canadian General Electric Company as manager of the U. S. Sales Department. Since 1930 he has been Toronto district manager of C-G-E.

Widely known in power circles across the entire continent, Mr. McHenry is past president of the Association of Municipal Electrical Utilities of Ontario, and at present vice-president for Canada of the American Institute of Electrical Engineers. He is a member of the Association of Professional Engineers of Ontario, and a former member of the Board of Governors. He is president of the Electric Service League, Toronto.

In his new capacity Mr. McHenry will report directly to the Ontario Hydro Commission, and he will commence his duties about the middle of September.

Miss Irene Weir, Kingston, and Mr. Ross Robinson of Guelph, spent two days this week the guests of Misses Ida and Emma Gardner.

* * * *

Mrs. M. A. Hanson returned to her home in Waddington on Sunday after spending the past month at the home of her son, Mr. A. Bailey.

* * * *

Mr. Harold Levere, who has been confined for the past three weeks in the Ottawa Civic Hospital with an infected hand, has returned to his home here.

* * * *

Guests of Mr. and Mrs. W. C. MacDonald during the past week were Mr. J. Herbert Stewart, M.A., of Toronto, and Mr. and Mrs. Elwood B. MacDonald, of Montreal.

* * * *

Mrs. W. H. Agnew and daughter, Jane, returned home on Tuesday after spending the past month the guests of Mr. and Mrs. M. T. Breckenridge, Peterboro.

* * * *

Mr. F. Keith Munro, business manager of the Dionne Quintuplets, of North Bay, accompanied by his mother, Mrs. Janet Munro, are spending a few days, the guest of Dr. P. McLaughlin.

* * * *

Mrs. Wilfrid Whitfield, of Windsor, is spending a few holidays the guest of her sister, Mrs. George VanBridger. Mrs. J. D. Hall of Ottawa, also spent the week-end with her sister, Mrs. VanBridger.

* * * *

Miss Dorothy Slater, of Inkerman, has been motoring the past week through the northern part of New York State, the Adirondack Mountains and the New England States, and the present week is camping west of Iroquois, Ont.

* * * *

Guests at the home of Mr. and Mrs. George Barkley on Friday were, the latter's sisters, Mrs. Martha Brayton of Syracuse, N. Y.,; Mrs. Clifford Hill, Mr. Hill and son, Robert, of Malone, N. Y., and Mrs. Will Swerdfeger, of Morewood.

PURCHASES FINE SITE

Mr. Hart Melvin last week purchased the splendid lot on St. Lawrence St., formerly owned by Mr. Mahlon Bailey. Already Mr. Melvin has a squad of men at work cleaning up the debris left on the premises following a disastrous fire last year, and it is expected that he will commence the erection of an up to-date service station there at once.

WEEKLY CONCERTS

Morrisburg Boys' Band presented the first in a regular series of Saturday night band concerts, last Saturday night, using an unoccupied garage on Main street, near Monument Park. The band music was enthusiastically received by a large crowd which gathered on the street.

The concerts will be continued this Saturday in the new band stand, presented to them by the Lions Club, in Monument Park.

CLOVERDALE

Mrs. James Fawcett and children spent one day last week with her mother, Mrs. A. B. Cinnamon.

Quite a number from here attended the funeral in Winchester of the late Mrs. Byron Watts last Saturday.

Mrs. Haldane Cummings is very seriously ill at time of writing.

Visitors at the home of Mr. and Mrs. Thos. Stobo on Sunday were Mr. and Mrs. John Baker and two children, Mr. and Mrs. Edward Ferguson and little daughter, of Oxford Station; Mr. and Mrs. Hugh Porteous and two children, and Miss Madelene Stobo of Harmony.

Mr. and Mrs. Thos. Docksteader called at the home of Mr. and Mrs. Haldane Cummings on Sunday evening.

Mrs. Willie Biccum, Mrs. Wallace Campbell and daughter, Miss Orma, visited at the home of Mr. and Mrs. Chas. Dillabough recently.

Mr. and Mrs. R. Scarlett and children spent one evening last week with Mr. and Mrs. William Clarke of Harmony.

Mr. and Mrs. Thos. Stobo, Mr. and Mrs. Morton Stobo and children, and Miss Hazel Baker spent Monday evening with Mr. and Mrs. Albert Baker and Mr. and Mrs. Eldon Stobo of Mountain.

Miss Jean Johnston of Cass Bridge, visited her sister, Mrs. Kenneth Cinnamon, last week.

Mr. and Mrs. Leslie Simzer and children visited at the home of Mrs. Wesley Durant on Sunday.

Threshing has been almost completed in this district.

IN MEMORIAM

In fond and loving memory of Donald Johnson, who departed this life August 7th, 1931.

It's not the tears at the moment shed
That tells of the hearts that are torn,
It's the lonely tears of after years,
And remembrance silently borne.

17p. —Mother and Gladys.

IN MEMORIAM

In fond and ever present memory of a dear husband and loving father, Herman E. A. Cleland, who entered into rest August 30th, 1936.

Gone from us but leaving memories
Death can never take away;
Memories that will always linger,
While upon this earth we stay.

17p. —Wife and daughter.
