Chamber of Commerce Addressed By CPR Industrial Agent

The regular meeting of the Chesterville Chamber of Commerce held last Thursday evening was addressed by Mr. D. N. Cooper of Montreal, industrial agent of the CPR. President Ray Dillabough was in charge of the meeting.

Included in the business discussed during the meeting was the reading of a letter from the Post Office at Ottawa replying to a request for two ouside mailboxes, indicating that the matter would receive attention. Postmaster W. N. Fulton read a letter from the Department asking about the location of such boxes, It was also moved and seconded that the Secretary write to the Post Office Department protesting the increase in rental of the boxes in Chesterville when the people of the city and country get a free delivery.

Mr. Cooper explained what an industry, looking for a place to locate, expected from a town, and told of the benefits that come to a community if they make concessions that are instrumental in bringing in an industry. He passed out booklets, prepared by towns inviting business inspections, and said he was of the opinion that a similar booklet would be advantageous in helping to secure an industry for Chesterville. He said the CPR would send a surveyor to Chesterville to collect the necessary data and if it were thought advisable in the future, this material would be available to assist in compiling a booklet. This service from the CPR would be free to Chesterville.

Mrs. Jack Cross Dies In Ottawa

News of the sudden death at Ottawa, on December 9, of Merle Patricia Marcellus, wife of Jack Cross, was heard with much regret throughout the districts, where she had many friends. M. "MIKE" MALOLEY PASSES ILL FOR SOME TIME

Michael "Mike" Maloley, eldest son of Mr. and Mrs. Joseph Maloley of Ottawa and formerly of Chesterville, died in Montreal at the beginning of this week. In his 43rd year, "Mike" had been ill for quite a long time, but his death comes as a surprise and shock to his many friends.

A DATE ON MONDAY GET OUT AND VOTE!

The past year has seen much interest in our municipal affairs. The nomination meeting of two weeks ago was well attended and there wasn't too much difficulty in getting a full slate of officers. The council has qualified and is in by acclamation leaving only the race for the position of reeve. Two names are on the ballot, George Barkley, ex-reeve with six terms of reeveship behind him, and Charles McMillan, present reeve.

It is the duty of everyone to exercise his right to vote. A slipshod and laissez-faire attitude to that responsibility is the reason why local municipal affairs are being more and more centralized by the Municipal Board in Toronto. If we do not show enough interest in our own business, someone else must run it. Regardless of your choice in the coming election, get out and vote. If about one per cent of the street corner talk of the year and one half of the complaints that are registered with council in the course of its duties are translated into votes, the turnout will be something remarkable.

The day: Monday, December 20th, 1948.

Time: 8 a.m. to 5 p.m.

Place: Community Hall.

Women's Auxiliary Features Pot-Luck Supper

The December meeting of Trinity United Church Evening Auxiliary was held December 7, in the Dining Hall of the church, at 7 p.m.

An almost full attendance enjoyed a Pot Luck Supper, and the exchange of gifts which were piled around a small, nicely decorated tree.

Following the supper, Mrs. Phillips presided and brought a few business matters before the members. She announced that the annual meeting would be held January 11th. Mrs. Brownlee, chairman of the Nominating Committee, read her report and announced that the same officers would act for another year, with the exception of Mrs. D. Forsyth, Cor. Sec., who announced she would be leaving Chesterville shortly.

The officers are as follows: President, Mrs. M. Phillips; Hon. Pres., Mrs. W. E. Wright; 1st Vice-Pres., Mrs. H. Gillies; 2nd Vice-Pres., Mrs. H. G. Barton; Rec. Sec., Mrs. G. W. Gould; Cor. Sec., Miss MacDermid; Treas., Mrs. Belsher; Secretaries: Christian Stewardship, Mrs. M. Brownlee; Community Friendship, Mrs. J. Doering; Supply, Mrs. Glenn White; Temperance and Christian Citizenship, Mrs. Carl McMillan; Missionary Monthly, Mrs. Ralph Ouderkirk; Press, Mrs. Ralph McMillan; Pianist, Mrs. E. Johnston; Assistant Pianist, Mrs. C. Baker; Literature, Mrs. Jack Fulton; Birthday Fund, Mrs. Lapp.

An impressive Christmas Carol service was then conducted by the committee in charge, Mrs. Fay Shaver, Mrs. Ralph Ouderkirk and Mrs. M. Phillips. Mrs. B. W. Lapp and Miss MacDermid gave the Scripture readings; Mrs. Jack Doering and Mrs. Carl Merkley very beautifully rendered "Silent Night, Holy Night"; and Mrs. Barton with her violin assisted with the Christmas music.

Mrs. Wright lead in the closing prayer.

Mrs. Barton on behalf of the members expressed her regret at the intended departure of Mrs. Forsythe and wished her good luck in her new home at Arnprior. Mrs. Forsythe very fittingly replied.

Stormont Blue Devils Win On Thursday Night

Blue Devils came through with one of their smashing victories Thursday night at Cornwall Arena over Kingcot All Stars from Cornwall. This 9 - 5 victory marks the third victory and one defeat against Courtauld's All Stars.

Most people from this district will remember the great game that was staged against Cornwall Calumets last year. Blue Devils have added several young stars from junior teams from Cornwall and are at present trying to get two defence men from Cardinal. Blue Devils again will be coached by Henry Payette from Cornwall along with his brother. Stars of the Blue Devils in Thursday night's game were Payette, Ouderkirk, Langstaff and McMonagle.

Elberg McMonagle of Finch, was there every time the Kingcot power play came through and with his poke check stopped a great number of plays which might have reulsted in goals.

Trying out for goal is Davies Riely, Daye and Armstrong.

Blue Devils will play an exhibition game in Cornwall every Thursday night until there is ice in Finch. Stormont will open the COVHL in Alexandria December 27th and back in Finch the 30th.

This year promises to be one of the greatest progress of hockey in Finch and Berwick districts. Blue Devils will stake four farm teams from Newington, Avonmore, Finch and Berwick, these teams will play all games in Finch Arena and they will all play the same night.

So the next year or so Blue Devils should have their own home brew instead of importing players.

This year promises to be one f the best for hockey followers if Blue Devils have a winning team.

COVHL teames are Chesterville, Maxville, Alexandria and Stormont Blue Devils.—Com.: M. Ouderkirk, Berwick.

FARMERS UNAWARE OF COMPULSORY BENEFITS

A farmer who raises only pure bred hogs, a high percentage of which grade selects when marketed, says that he does not know how the hog marketing scheme affects him nor what benefit it can be to him in the future. A dairyman who has a pure-bred herd and who sells whole milk to his local dairy, says that he does not know how producers quotas are established under the milk control act. A cream producer whose farm is well operated says that he does not know how the cream marketing scheme can increase his returns. One of the best informed farm economists tells us that he has not found one thing in all the compulsory marketing schemes which is likely to prove of permanent value to farmers or consumers.

All of those with whom we have discussed farm marketing agree that well operated co-operatives are the best means of securing the highest possible returns for farm products and of fostering the personal growth of farm people. Compulsory schemes in which the farmers most affected take little or no interest, develop into self perpetuating organizations which ultimately either foster surpluses of unmarketable products or create a demand for production quotas and production controls.

True co-operatives operating in competitive markets make available all of their products to consumers at whatever the market will pay, or at floor prices for disposal outside of the normal market. The production of co-operatives thus is automatically adjusted to demand.

The right to market his products personally or through his co-operative, is so important to the Canadian farmer, and to consumers, that a special study of every farm marketing scheme should be made before compulsory marketing is extended any further. The report of a competent federal commission of inquiry should be made available to both farmers and consumers before ultimately disastrous marketing schemes, which are now so popular politically, are given dominion wide powers under a national marketing act. Many good farmers who are compelled to market through marketing schemes do not realize that their right to produce whatever they wish and to sell wherever they choose, is in danger of being lost completely.

PICKPOCKETS BY THE BILLIONS

Recently, the Dominion Bureau of Statistics published a highly revealing document which should be studied carefully by every deep thinking Canadian. It is titled: "Special Survey on Sales of Pest Control Products by Canadian Registrants".

The theme of the report is that farmers in this country are having their pockets picked to the tune of 350 million dollars annually by pests such as insects, fungus, weeds and rats.

This might sound startling. But no more so than the statement that "with modern pest control methods it is estimated 80 per cent of this loss could be averted with a subsequent increase in output and efficiency of production."

This simply means that if farmers made full use of the existing weapons science has given them to battle the pest hordes, they could be wealthier by at least $300,000,000 each year.

To say such a figure is merely hypothetical and impossible to achieve is sheer defatism. Business and industry spend millions of dollars yearly to determine where the leaks are in their profits. When they do find out, immediate steps are taken to plug them. But what has the farmer done to date in preventing the devastating raids on his business?

Let statistics answer this. In the same document it is shown that Canadian farmers spent only $10,000,000 on pest control products in 1947—which is about one-half of one per cent of the gross farm income of about two billion dollars for the same period. It is obvious from the foregoing thot if farmers wish to increase their profits, they must be ready to pay more for protecting their original investment.

NINTH CENTURY SWORD FOUND

It is often said that every inch of ground in Westminster is steeped in history. This has just been given a fresh and striking corrobation by an interesting find made during excavations beneath the Houses of Parliament. The Ministry of Work announced recently that a ninth century sword of fine workmanship has been discovered about 30 feet below the ground. The place where it was found would formerly have been part of the bed of the River Thames. Experts consider that it will make a notable addition to archeologists' knowledge of the Saxon period in Britain. Despite the fact it must have lain beneath the river for close on ten centuries, the weapon is complete except for a small part of the grip and pommel. The length of the sword is two feet nine-and-a-half inches.

Canadian Xmas Tree Is Big Business

One Firm Exports 2,800,000 Christmas Trees Yearly

Overcrowding is a serious condition existing in thousands of acres of our forests. It is little wonder that there are so many forest fires. Dry branches and rotting trunks under a cover of sap-ladened foliage form a highly combustible fire hazard. Selective cutting during Christmas tree stage can relieve overcrowding and help prevent the danger of the forest's natural foe And there would be little loss of tree life, for the majority of young trees in over-crowded stands die in the battle of "survival of the fittest".

Authorities agree that selective Christmas tree cutting for continuous growth promotes healthier forest conditions without lessening final wood crop possibilities. Approximately three out of every five young trees on second growth stands die from a natural process of over-crowding. By cutting over these stands lightly — selecting only one tree out of every 20 up to every 50 — an annual yield can be produced with marked benefit to forest growth. An ideal amount of growing space is given to the remaining dominant trees. Fire hazards caused by dead dry limbs and branches are reduced. Revenue to offset taxes on idle lands is provided. Employment is given to many during a slack period. That is why wise foresters and well informed conservationists endorse selective Christmas tree cutting as a practical means of conservation for use!

Christmas Tree Cutting

Like anything else, there is a right and wrong way of Christmas tree cutting. Inexperienced and irresponsible parties are largely to blame for abusive practices, most common of which are slashing and topping. Slashing means the wholesale destruction of young trees. Many are burned after reaching market because they are unsaleable as Christmas trees. Topping is the cutting of either large or small trees above the lower whorl of branches, leaving foliage which will continue to grow into a defective tree. Cutters operating for J. Hofert are carefully schooled and supervised to insure obedience to the principles of selective Christmas tree cutting.

Employment for the Farmer during Slack Work Season

The Christmas tree harvest comes at a season of the year which is most dull for the farmer. Hundreds of farmers depend upon the Christmas tree harvest and consider it with the same degree of importance as their other farm crops. Many take annual cuttings from timber on their own lands just like any other product of the farm. The overwhelming majority of Christmas trees are removed from privately owned lands. Trees removed from Crown lands are cut under the supervision of forest officials.

Hofert Cutting Policy

Only one tree out of every 20 up to every 50 will be removed — the actual number depending upon the ability of the stand to yield.

No trees exceeding three inches at the base and less than two feet high will be removed unless conditions specifically contrary to this rule have been agreed upon.

Dominant timber trees shall not be taken under any condition. They will be left to beautify the landscape or to be used as merchantable timber.

All branches, trimmings and slash will be carefully destroyed and every precaution is taken to prevent fire hazards.

J. Hofert Maritime Limited

J. Hofert Maritime Limited is considered the largest tree exporters in Canada. It was founded in 1880 by J. Hofert Sr., now deceased, in St. Paul, Minnesota from a small business of a few trees hauled by horsecart to its present tremendous enterprise.

Hoferts operate 20 yards in Western Canada and 9 yards in each of the Provinces of New Brunswick and Nova Scotia, the biggest being at Newcastle, N.B.

The company boasts an all-Canadian payroll. In the maritimes there are 692 employees who are employed on a seasonal basis including taggers, balers, car loaders, truckers, district managers, accountants, clerks, etc. The head office for Canada is Moncton and an office is open the year round.

Hoferts export approximately 2,800,000 Christmas trees annually to the 48 States and foreign countries. They sell to 150,000 buyers in the United States.—Woodland World.

J. Frank Casselman Re-elected President Holstein Breeders

J. Frank Casselman was re-elected president of the Dundas County Holstein Breeders' Association, for a second term, at the annual meeting which was held in the Orange Hall at Winchester Springs, Tuesday night.

The secretary's report given by Herbert W. Graham of Morrisburg, indicated that the association had made progress during the year, and Harold McMenomy reported a balance of $335.93 in the bank.

The secretary was instructed to write letters of thanks to the Hon. George H. Challies, MLA for Grenville-Dundas, and to Bryan L. White, editor of The Ottawa Farm Journal, thanking them for contributions to the Fawcett Foundation Fund. W. J. Fawcett thanked the members for the help, and praised the efforts of the association in his behalf, after the loss of his herd.

Lorne Brooks of Chesterville was named a junior farmer to take a short course at the expense of the club, with Raymond Smail, of Brinston, the alternate.

Grant Smith, association fieldman, suggested twilight meetings, as one of the projects for the coming year, and complimented Basil Dawley of Winchester, who superintended the showing of the herd at the Ottawa show.

Harry Holmes of Winchester Springs sponsored a motion which was passed unanimously that a grader be located in the east, and that grading be done every six months, or on call. The motion was passed after charges of discrimination in the location of graders had been made by different speakers.

It was alleged that the Holstein Association had all of the herd graders located in Western Ontario, where they could be called at the pleasure of breeders, while in the 11 counties of Eastern Ontario, grading was only done every nine months. The resolution is to be forwarded to the parent body.

Herbert W. Graham introduced Douglas Parks, in charge of field husbandry at Kemptville Agricultural School, as the speaker of the afternoon.

Mr. Parks said the objective of every good dairyman should be to produce more milk per cow per acre, and this could be done by the improvement of grass lands. Selection of seeds, establishment of the crop, and managing the grazing were the secrets of better grass lands, which would remain green and succulent all the year round.

Concentrated feeds were necessary to supplement poor pasture and hay, but if the acres were well fed, the cattle would also be well fed. He advocated the application of 700 pounds of 5-10-10 chemical fertilizer, in addition to all of the barnyard manure made by the herds, to prevent depletion of the soil.

Milk production under best conditions could be raised to a herd average of 9,000 to 12,000 pounls of milk per acre.

The speaker was thanked by John Thompson of Brinston, and answered many questions with regard to the establishment of permanent pastures.

The door prize, which was the free use of W. J. Fawcett's bull, Willola Supreme Bellringer, was won by Langdon McInnis of Brinston.

The following other officers and directors were chosen for the coming year: honorary president, Harold McMenomy, Inkerman; vice-president, John Thompson, Brinston; treasurer, H. McMenomy; secretary, Herbert W. Graham, Morrisburg; auditor, Allison Fawcett, Winchester.

Directors representing the four townships:

Williamsburg, George Brooks, Chesterville; Harry Holmes, Winchester Springs; Graham Wells, Williamsburg; Charles Marcellis, Dunbar.

Winchester township, Angus Smith and Allison Graham, Chesterville; Sherwood Coons, Inkerman; Clark Smith, Morewood.

Mountain township, Ronald Carkner, Vernon; Gordon Mulholland, South Mountain; Hugh Blainville, Hallville; W. J. McVey, Winchester.

Matilda township, Orville Smail and Merle Graham, Brinton; Pat McGinn, Dixon's Corners; Arthur Stacey, Iroquois.

Not Him

The office boy was asked to ring up a number and got the wrong one.

"Mr. Woolf," came the reply.

"Who?" replied the boy.

"Woolf." replied the wrong number.

"Well, who's afraid of you?"

Once Bitten, Twice Shy!

A visitor had taken a room at an English hotel. As he was signing the register an insect hopped on the page. He put down his pen and told the clerk he wouldn't stay at the hotel. He pointed to the intruder and said:

"It's bad enough when these little blighters attack you in the night, but when they come to see the number of your room, it's a bit too much."

Four Corners

December 6 week sixteen Farm Forum members of the S.S. No. 10 Winchester Forum met at Geo. Edgerton's home last Monday. Topic under discussion was "I hear on the Radio" and the comments on the different programs were interesting. If the sponsors for the soap sop programmes were present at the forum they should have had a very unpleasant evening as all members heartily condemned the heavy drama—they wonder just how much of life's trouble 'Big Sister' can take without losing her sanity.

As usual the discussion ended with reference to the American Farmer's Insurance clean?up which was so successfully carried out by two clever young men supposedly from Montreal. Quite a few of the members had 'bitten' and feel a trifle bitter about it.

Next week's forum, to be held at Erwin Merkley's, will be an important one. Final arrangements will be made by forum members to join the Stor-Dun-Glen Medical Services. One member is withdrawing from the Blue Cross to join this hospitalization plan.

Collection night, Hutz Johnson convenor. Any farmer and his family is welcome.

PIGEON UPSETS LAMP STARTING BARN FIRE

A large barn owned by Alex Cowie near Heckston, east of Kemptville, was destroyed by fire around 5.30 on Saturday evening.

The farm is conducted by Aurell Patenaude, and it is understood that while his son was getting hay down from the loft a pigeon upset the coal oil lamp starting the fire. Some 60 pigs were lost and the entire crop of hay.

Horses and cattle were removed. A small amount of insurance is carried on the building.

Winchester Spgs Child Loses Life When Caught In Wringer

Stephen Ball, 20-months-old son of Mr. and Mrs. Ralph Ball, of Winchester Springs, died of strangulation Thursday when his sweater became caught in the wringer of a washing machine.

The accident occurred when the child somehow climbed up close to the machine while his mother was doing the washing. His woollen sweater became entangled in the wringer, pulling it tight around his neck. Mrs. Ball was unable to release the child, even after the machine was stopped, and it was necessary to cut the sweater off.

Dr. W. M. Byers of Winchester was called immediately, but the child was dead on his arrival. He notified the coroner, Dr. C. R. Marcellus, of Iroquois, who announced that no inquest would be held

Besides his parents, the child is survived by three brothers, Robert, 13, Donald, 11 and Raymond, 10.

Church News

MOREWOOD UNITED CHURCH

The services at Morewood United Church were conducted on Sunday by the minister, Rev. W. J. Copsey, B.A. The morning sermon was based on Psalm 50;15, "Call upon me in the day of trouble; I will deliver thee and thou shalt glorify me." The day of trouble is common to human experience, "Man is born to trouble as the sparks fly upwards". There are troubles of ones own making. Through carelessness, selfishness and sin one often brings trouble upon ones self. There are other troubles that are inevitable like sickness, bereavement and unemployment. There is great need of a divine power to deliver men and nations from the troubles that assail. Then let the individual turn to the source of all blessing in the day of trouble, for He is a great Deliverer and will bring a great deliverance. No truer words have ever been written than,

O Gold our Help in ages past,
Our hope for years to come.
Our shelter from the stormy blast
And our eternal home.

The redeemed life brings glory to the Deliverer, as a well made article reflects credit on the workman, so true Christian living brings glory to the great Deliverer. The anthem was "A Song the World Is Singing" by J. Lincoln Hall. Miss Ellice Smith presided at the organ.

All Consumers must continue
their efforts to cut down on electricity

While improved water conditions resulting from recent rainfall in the right places, have enabled The Hydro-Electric Power Commission of Ontario to increase quotas to municipalities, water flow conditions are still not normal. Therefore, it is vitally important that all consumers—industrial, commercial, domestic and rural—be constantly on the alert to avoid all unnecessary use of electricity.

Your co-operation in the past has helped. Here are a few suggestions as to how you can continue to help.

- Turn off all unnecessary lights. Do not leave lights burning in empty rooms, halls, basement, attic, porch and garage.
- At the evening study or reading hours, group the family around the reading lamp and turn off other lights.
- Replace large light bulbs with smaller ones.
- Where water is electrically heated, use hot water sparingly.
- Watch the switches on your range, your iron and other appliances. Turn them off as quickly as possible. Often the stored heat will finish the jobs. Use "High" heat for as short a time as possible for cooking or for boiling water.
- Don't let motors on motor-driven equipment run needlessly in home or factory.
- In factory, store or office, don't light a row or cluster of overhead lights when a single light nearby will do.

Do your part to cut down on electricity and keep pay envelopes full.

BOOKS FOR CHRISTMAS

By Mrs. Byron Campbell

Last year at about this time, it was my privilege to write a few comments on some new books which might prove suitable as Christmas gifts. It seems natural to head the 1948 list with the latest book written by Lloyd C. Douglas and titled "The Big Fisherman". It is the story of Simon called Peter, the lovable disciple who laid down his fishing nets to follow the Christ to Gethsamane, and there to deny Him, and yet later Peter was to become one of the greatest leaders and teachers of Christianity. This book will be a fitting companion to "The Robe". It is now possible to buy the latter book for about half the original price. Maya de la Roche has written the eleventh book in the justly famous Jalna Saga. It is known as "Mary Wakefield". MacMillan's intend to publish the other 10 Jalna books at reprint prices which will be good news to de la Roche fans.

"The Village Of Souls" by Philip Child will probably become a Canadian classic. It is the story of Bertrand Journay a coureur de bois in seventeenth century Canada, and his bride, beautiful Lyes de Fauvolles.

Marion Keith, another of our Canadian writers, has written "Yonder Shining Light," this is a sequel to "As A Watered Garden" (which is in the Chesterville Public Library)

Igor Gouzenko's personal story of life in Soviet Russia and his experiences in Canada leading up to the famous Canadian Spy trials continues to be a best seller.

Vincent Massey offers fresh answers to old problems of Canadian National and International affairs in his book "On Being Canadian."

"The Precipice," by Hugh MacLennan, also a Canadian writer, continues to be in great demand both at the booksellers and in the larger libraries.

A travel book, for those who like to do their travelling from an arm chair, is: "In Search of South Africa" by H. V. Morton, it is beautifully illustrated with photographs. You will enjoy this record of Morton's personal experiences with Boers, Britons and Bantu.

Many of you who read Douglas years ago, will be interested to know that the sequel, called "Smoke to Smother," is being widely read. It is a deeply disturbing interpretation of our times and no student of affairs can afford to miss it.

Christmas being a season of religious significance, "No Coward Soul," by the Rev. David A. MacLennan, D.D., will make a grand gift book. This young man was educated in Canada and this book is a collection of sermons preached by him at Timothy Eaton Memorial Church, Toronto.

There are many wonderful books. We should like to see you receive some of them for Christmas and to have many more of them placed on the Chesterville Library shelves. Books, due to increased costs of labour, etc. have advanced in price, and so the library dollar: shares the fate of the housewife's money: it has to be eked as far as it will go

Children's books are very attractive this year. It is important the child becomes familiar with good books, both from the standpoint of educational value and the delight which can be thus obtained.

"Kristle's Trees" by Mabel Dunham is the story of a little Mennonite girl in Canada.

"Thidunck, the Big Hearted Moose" will project a mood of happiness.

Munro Leaf, in "Sam and the Super-Droop," brings off something unusual—a satin upon the extravagances of the "comic books," the point of which the youngsters will not be likely to miss.

WHEN POSTAGE COST A PENNY

Fifty years ago, on Christmas Day 1898, Imperial Penny Post was introduced between Canada and Britain. Tradition says that the day was chosen on the spur of the moment. A biographer says that when the Postmaster-General of Britain, the Duke of Norfolk, told Queen Victoria that penny postage was to be introduced with Canada, she asked on what day it was to come into force. "We thought of the Prince's birthday", replied the Duke, referring to the Prince of Wales, who was born on November 9. "And what Prince?" asked the Queen, in her iciest tones. The Duke was equal to the occasion. "The Prince of Peace - on Christmas Day" he replied. Thus the new rate became effective on December 25, 1898.

Noted salmon expert Percy E. Nobbs declares in a recent publication, "The Critical Condition of the Atlantic Salmon Industry In Quebec," that the present Atlantic salmon catch is only a quarter of what it was 100 years ago. Only by immediate and rastic sacrifices will it be possible to save Quebec salmon from annihilation.

HOT CHEESE WAFERS

1 package snappy cheese
½ cup sifted all-purpose flour
¼ cup butter

Work all ingredients together with your hands. Make into small balls, place on ungreased pan, flatten down with the palm of your hand. Chill a half hour. Bake in a moderately hot electric oven, 400 degs. 7 to 10 minutes. Sprinkle with paprika. Makes about 12. These are extremely good and will keep (unbaked) in the refrigerator indefinitely. Very handy for these busy holidays.

FLUFFY CUSTARD SAUCE

Scald 1 cup milk. Separate 2 eggs, beat yolks with fork, add 2 tablespoons sugar and few grains salt. Gradually add the scalded milk. Place in double boiler over hot water. Cook, stirring constantly until mixture thickens, about 8 minutes; cool. Beat egg whites until stiff; fold into cooled custard with 1 teaspoon vanilla.

CARROT PUDDING

1 cup grated raw carrots
1 cup grated raw potato
1 cup chopped suet
1 cup brown sugar
1 cup raisins
1 cup currants
1½ cups flour
1 teaspoon baking soda
½ teaspoon salt

Mix and sift dry ingredients, then mix all together. Fill greased mold 2|3 full. Cover loosely with parchment paper, place in steamer and steam a full three hours. (You'll find the potatoes make the pudding light and the carrots give it a lovely rich brown colour.) You may add 1 teaspoon cinnamon, ½ teaspoon nutmeg, ¼ teaspoon cloves if you like it spiced, or add 1 teaspoon almond flavouring, ½ cupful chopped blanched almonds and ½ cup mixed peel. For a still richer pudding, add ½ cup glazed cherries, ½ cup chopped candied peel, ½ cup chopped dates. In either case add an extra tablespoon of flour to the mixture. It's a foolproof pudding so develop your own special brand.

Dearest mother has gone across the river
To the shores of ever green

Some day some time our eyes shall see,
The face we loved so well,
Some day we'll clasp her loving hand,
