Furnace Work
Done with a rush.

We mean when you rush into our shop and want your furnace fiixed up quickly, we rush right along and do it.

Or if you want a new furnace rushed in, we can do it before cold weather sets in.

Findlay's Tortoise Cooks and Heaters

Coal and Wood Ranges

Arthur Peake - Chestervlle.

Burglar Again Busy

Last Thursday night for the second time within six months the store of Mr. L. D. Pelletier was entered by thieves, who again made a haul of cigarretes, flash lights and pipes, together with the change that had been left in the till. While suspicion falls on local parties so far there has been no action taken.

Heavy Yield of Potatoes

Potatoes which are said to be a very uneven crop this year are in some instances turning out particularly heavy yields. Saturday last Mr. Wellington Ball brought to The Record office four tubers from his field which weighed five and a quarter pounds, being of two different varieties. From five pounds of seed of the Early Rose variety planted this spring Mr. Ball gathered a harvest of one hundred and ninety pounds of marketable potatoes.

Fell From Milk Wagon

A party of motorists leaving the village Tuesday afternoon found Joe Featherstone in a very precarious position where he in some manner had fallen off his milk wagon when on his way home after having delivered his load of milk to the condensery. In falling he kept hold of the reins but his feet had become caught in the traces and he was dragged for some distance. No bones were broken but serious bruises and cuts were received from the fall.

Fine Entertainment at Morewood

The annual Harvest Home dinner under the auspices of the Presbyterian Ladies Aid, Morewood, was held on Oct. 10th, and was a decided success. Although the weather was not just perfect the people turned out in large numbers from our own community and several were noticed from Chesterville and Russell. A good hot dinner was served in the Bank building, where it kept the ladies hustling till eight o'clock when all adjourned to Presbyterian Hall and listened to a splendid programe for a couple of hours, consisting of opening "O Canada", Chairman's address by Thos. E. Coulthart, who so kindly acted in the absence of the pastor. Eight little girls gave a "Doll Song". Earl Gordon and Lorne Marcellus gave a number of violin selections, accompanied by Miss Muriel Jobb on piano. Mrs. McQuaig sang a solo accompanied by H. Smirle on violin and Miss Laura Hunter on piano. Three piano selections by Miss Muriel Jobb. Solo by Miss Gilles. Solo by Mrs. H. Faulkner. Mrs. Jos. Burgess, Elocutionist of Ottawa, was warmly welcomed, it being her second visit to Morewood. Her first number was "Cornflower" by Jean Blewitt, encore, "That Hired Girl" causing gales of laughter. The second number "Ojistoh" by Pauline Johnston given in Indian costume added much to the dramatic effect. This was followed by the "Cattle Thief." "Should Women Propose by Dorothy Dix was well received and loudly applaued. Mrs. Burgess was at her best in "The Scotch Sermon which was given by request. Two selections from "Stephen Leacock" then followed when she so cleverely interpreted the dry humour characteristic of all Mr. Leacock's sketches. Closing with "God Save The King."

In Memoriam

In loving memory of little Gerald McMahon age 13 years, who died Sept. 27th, 1923.

And the streets of the city shall be full of boys and girls playing. Zech. 8; verse 5.

O the home is sad and lonely
For there is a vacant place,
And they're missing in the lamp-light
The sweet smile on Gerald's face.

In the school his little playmates
Miss him as they romp and play,
And they speak in tender whispers
Of how Gerald's gone away.

Just a little while to suffer
Just the pain o' death to bear,
Then he went to join his mother
Who was waiting for him there.

As the autumn leaves were falling,
Then we laid him in his grave
Left him wrapped in silent slumber
One we loved but could not save.

A Friend

Died in Calgary

The news was received by Mr. John Foster on Monday that his brother Russel Foster, had passed away the previous evening in a Calgary hospital, from heart trouble. Deceased was a bachelor, sixty-three years old and had spent the past thirty years in the cities of the west. The remains are being brought home for burial.

Presbyterians' Fine Programme

The Ladies Aid of the Presbyterian Church are to be highly commended for the fine musical evening spent in the Town Hall Tuesday. The Orchestra in prelude, interlude and postlude delighted the crowd present with merry dance and jingle. Friends from Finch gave high tone to musical numbers richly enjoyed by all. It would be unfair to select any particular number for excellence, though the quartette they rendered was certainly fine. One feels grateful to the Finch artists for their inspirational singing. The home talent also displayed talent of a high order, and Chesterville has no cause for discouragment in this direction. The McMillan boys rendered an instrumental duet enjoyed by all music lovers and showed signs of splendidly ripening powers. Miss Harrison is always good in her readings. Possessing the faculty of making us feel there is rich personal enjoyment in her art, she knows how to make the enjoyment infectious. Certainly Miss Harrison added to laurels already gained in Chesterville. Miss Simser, Mr. Brooks and Mr. Robinson in solo and duet made us feel that after all there is no place like home. We all felt more than proud of our own singers. Refreshments which were almost prodigal brought a thoroughly enjoyable evening to a close.

BERWICK

Mr. and Mrs. Pat Raymond and children motored to Cornwall and spent Sunday with relatives there.

Mr. Archie McMillan went to St. Regis Falls on Saturday where he has secured a position in the station.

Miss Sadie Summers who spent the past month with relatives in this vicinity returned to Watertown on Saturday.

Mr. and Mrs. Jas. Hough and Mr. and Mrs. Dan Delaney and children of Avonmore, were Sunday guests of Mr. J. Legg and family.

What might have been a serious accident happened on Sunday night last when Mr. Charles Ault, Cheese Maker of Crysler, was driving through the village of Berwick on his way to Crysler, and Mr. Wilifred Vanier, son of Mr. Joseph Vanier, who lives a half mile north east of the village, were in collision with their buggies, owing to the darkness of the night. Mr. Vanier was thrown out on his head injuring him badly. Dr. Gormerly was called to town, to the home of Mr. J.J. Dutt, where the young man was carried, and where he remained all night in an unconscious condition. His buggy was injured and his horse ran away for about a mile west of Berwick where he was caught by Mr. Whittaker. Mr. Ault escaped injury but his buggy was broken. We are glad to report Mr. Vanier is improving at his home.

Mr. Abner Bouckhout received the sad news on Tuesday from Saskatchewan that his son James, who went out on the harvest excursion a couple months ago, died in an hospital there after an operation. We extend our sympathy to the bereaved ones.

MAPLE RIDGE

Miss Orma Hutt is spending sometime with relatives at Ottawa.

Mr. and Mrs. Duncan McNaughton spent a few days with the latter's sister at Montreal.

Mr. Victor Armstrong of Inkerman, was a Sunday visitor at the home of Mr. Allen Ball.

Mrs. Wm. Helmer spent the past week with Mrs. J. Helmer at Chesterville.

Miss Hughena Redmond visited at the home of Mr. Wm. Rennick, Inkerman, during the past week.

Mrs. Silas Cross spent the past week with relatives at Canton and Morristown, N. Y.

Mr. and Mrs. D. Jennings were visiting at the home of Mr. Wm. Helmer on Sunday.

Mrs. James Fawcett spent a few days with her daughter Mrs. Wm. Rennick at Winchester.

WARNING

If the party who was seeu taking a woollen blanket from Presbyterian shed Tuesday night last returns it to the Record Office before Monday night, he will save himself a term in jail.

READING GLASSES

The long Fall and Winter evenings give more opportunity for reading. Many persons do not enjoy the privilege simply because they have not the glasses which would make reading a pleasure.

If in doubt I will test your eyes free. Prescribe glasses only if necessary.

You may have two weeks trial and if not satisfied I will refund the money paid.

Glasses for near and distant vision guaranteed.

Here and There

In order to handle the grain this fall the Fort William, Ont. force of 360 elevator men will be increased to 700. From 120 to 150 grain trimmers will be employed.

For the five months to August, 1923, Canadian newsprint exports were valued at $35,303,043 against $27,257,382 for the same period in 1922. Pulp exports in the same period were valued at $20,008,461 against $16,075,533.

Grain loading on Canadian Pacific lines during the month of September totalled 26,376 cars or 38,245,200 bushels. This at the beginning of the loading season which was two weeks late this year on account of the retarded harvest.

This has been the greatest season for automobile tourists Montreal has ever experienced, according to the Secretary of the Automobile Club of Canada. Cars, he stated, had come into the city over the King Edward Highway at the rate of two hundred a day, an unusual number from California, Florida, Carolina and Virginia being noticeable.

There was nearly $160,000,000 increase in the total trade of Canada for the first five months of the current fiscal year, according to a return made by the Department of Customs and Excise. The total trade of the Dominion, according to the return, for the five months ending with August, was $785,000,000, as against $626,000,000 during the same period a year ago. Imports during the period were about $393,000,000, as against $303,000,000 a year ago, while exports of Canadian produce rose from $316,000,000 approximately to $386,000,000.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates paid being $40 and $45 a month, whereas a year ago the schedule was down to $26 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,250,000 bushels storage capacity, making its total capacity 3,250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 50,000 to 90,000 bushels an hour.

Reports to the Canadian Pacific Railway, show that there arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,883 men. Special efforts are being made to find occupation for as many as possible to cover the winter period, and it is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to take care of increasing tourist traffic over the company's coastal lines. He also announced the early completion of a new pier at this harbor at a cost of several millions, which has been made necessary by the steady development of Canada's trans-Pacific trade.

Lusita nia Survivor Files $48,090 Claim

To have jumped into the sea just as the Lusitania was going under the water and been only fifty yards away when she disappeared, was the nerve-racking experience related to the Reparations Claims Court before Hon. Wm. Pugsley, at Montreal yesterday afternoon, by James Bohan, who presented a claim for $48,000 compensation.

Medical evidence was produced showing that after drifting with wreckage for more than ten hours before being rescued he had lapsed into unconsciousness for a period of six weeks. As a result his hearing, vision and general health became so impaired that he has become a permanent invalid. His claim includes $18 000 for medical and hospital expenses and $30,000 to cover income lost owing to his having been unable to resume his business career.

An Irishman, in order to celebrate the advent of a new era, went out on a little lark. He did not get home until 3 o'clock in the morning, and was barely in the house before a nurse rushed up and, uncovering a bunch of soft goods, showed him triplets The Irishman looked up at the clock, which said 3, then at the three of a kind in the nurse's arms, and said: "Oi'm not superstitious, but thank hivens that I didn't come home at 12."

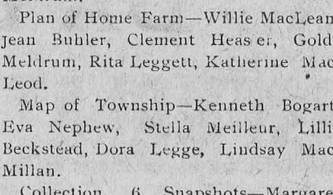
Pupil winning greatest number of points S. S. 8 (Muriel Ouderkirk.)

Letter of Apology To The Head Keeper

The letter from one of the escaped convicts was received by Matthew Walsh, chief keeper at the penitentiary. The letter which was written by "Red" Ryan, the most dangerous man of the five who escaped, apologized to the chief keeper for striking him the day the convicts made sensational escape Ryan said that he had to hit some person, and as the chief keeper was in the way, he struck him. The letter intimated that the convicts received aid from three farmers in Glenburnie, that they had a map of the district and that a motor car finally carried them west.



Pumps

Pumps made after the Babcock pattern, for deep or shallow wells, in either iron or wood. These pumps are neatly made and painted and sell at very reasonable prices from $10·00 up.

Miss Mildred Allison and Miss Gladys Coulthart of Ottawa Normal School, spent a few days of last week at their homes here.

The Young People's Society held their first social evening at Mr. Brad Loughridge's with a large number present, all reporting a good time.

Mr. and Mrs. Will Bouck and Gerald motored to Gouvernor, N. Y., on Sunday where Mrs. Bouck remained with her daughter Mrs. Harry Appleby.

Mr. and Mrs. Ford Steinburg and children, Mr. and Mrs. Walter Steinburg motored to Cardinal on Sunday.

Mr. and Mrs. T. E. Coulthart and the Misses Jean and Anna Martin motored to Ottawa on Tuesday.

Mr. Thos. E. Coulthart is building a new chimney on his house.

Quite a number from here attended the Convention at Hallville on Monday. Rev. F. L. Jobb and Thos. E. Coulthart taking car loads.

Mrs. M. E. Hunter and Miss Laura Hunter spent the week end in Ottawa visiting the Misses Carrie and Sadie Hunter.

Mr. and Mrs. Thos. Hepburn, Mr. and Mrs. Lorne Hepburn and children of Watertown spent last week at Mr. Wm. Hepburn's.

FOR SALE

FOR SALE

Driving horse sired by Frisky Hal, color chesnut, raising five years, weight 1040 height 15 hands 3 in, good disposition. Henry Laflamme, Wales, Ont. 48

FARM FOR SALE

This farm consists of 50 acres, more or less, situated in pleasant part of the country, on the main road, 2 miles east of Morewood, few rods from churches, school and post-office, near two factories. On this farm is erected one of the finest and best built frame residences and woodsheds. A hen house 18X60, in 4 compartments all cemented. A barn and other buildings. A nice maple bush with sap pan and buckets in camp and a never failing well. Will sell this farm separate or with stock implements and crop. Stock and implements in A1 condition. 9 cows, good grade Aryshires and Holsteins, test fat in factory for August 5.8. If sold give possession 1st November. Reason for selling, old age, not able to work it. Anyone building or buying, first come and see what we have to offer. Jas. Moffatt, Prop., North Winchesier.

$1000 PRIZE CONTEST

Any responsible person, from any place, elegible to compete.

Last year two similar contests were announced by the undersigned, wherein two cash prizes of $1000 each, were to be given. Only girls were allowed to compete. They were carried through successfully and the girls received every cent of their money—the full $2000. The same will apply to this Prize offered. The experience gained staging these big events heretofore, has enabled me to arrange this coming contest so that not only will the successful candidates be sure of their prize money, but as well, each and every candidate competing will be paid for the work they do.

The $1000 will be divided into Eight Cash Prizes, ranging from $400, 1st Prize to $30 8th Prize, namely : $400, $200, $100, $80, $75, $65, $50, and $30, and will be given to the eight successful contestants who sell the greater number of tickets at 50c. each, between the date of Nov. 15th and Dec. 31st, 1923. for the benefit of Two Big Winter Carnivals which will be held at the Exhibition Grounds at Chesterville and Prescott. Chesterville dates will be Jan. 8th, 9th, 10th and 11th, 1924. Prescott dates Jan. 15th, 16th, 17th and 18th, 1924. Four days in each place—almost two whole weeks of winter enjoyment.

The big Carnival will consist of Winter Sports of all kinds, such as Hockey Matches, Marathon Skating Races, and Harness Racing over the ice.

Gladys Robinson, World's Champion Lady Skater, has promised to attend both Carnivals and give exhibitions of skating, also to compete in races for the best and fastest skaters.

Arrangements will be made whereby hockey teams from other towns may compete in matched games for Special Prizes.

A big Skating Rink will be made in the centre field at both Exhibition Grounds, in front of the grand stand, where these sports will be put on. Then, there will be two days of Harness Racing at each place over the ice, for Big Cash Prizes, which will be a guarantee of many trotters and pacers for the races.

Itemized programmes of all sports for the whole two weeks will be printed and issued later.

Now, listen. One 50 cent ticket will admit one person to the grounds the whole four days, and at both places. Eight admissions for 50 cents, providing ticket is purchased on or before contest closes.

These two Great Winter Carnivals may be carried through successfully, and each and every person, directly and indirectly concerned, benefited, providing there is a spirit of harmony and co-operation between all those who claim to be in sympathy with honorable and healthy sport.

For further particulars, conditions and entry blanks for the ticket selling contest, write the undersigned. Entries to contest close Nov. 14th. Contest begins Nov. 15th and ends Dec. 31st, 1923.

Come along, make your entry. Join the merry band of candidates. Win a big cash prize now, while there is nothing else doing.

Save The Birds

The establishing of bird and game sanctuaries means much in the conservation of several species which are at present threatened with extinction. Hon. Mr. McCrea announces some radical changes in the Ontario game laws, chiefly relating to the capture of beaver and otter. His conversation policy is to be inaugurated by the designation of parts of the north country as game sanctuaries. The first district to be mentioned is that part of Ontario south and east of the French and Mattawa Rivers. This region will be a sanctuary for beaver and otter until January 1, 1925.

Due to the indiscriminate slaughter of our fur-bearing animals for so many years, several of the most valuable sorts became exceedingly scarce. The increasing demand for furs during both summer and winter by fashionable women has had much to do with the diminishing of the wild creatures which had the misfortune to be popular. The ones which had the good luck to be out of style were lucky in their generation. Similiar conditions have existed in the bird world. People have of late, however, developed an interest in the preservation of our feathered songsters as well as our game birds. Certain parts of the province are reserved as bird sanctuaries and it is a joy to see the manner in which the birds avail themselves of these harbours of safety. Jack Miner, the well known naturalist and bird-lover is largely responsible for the praiseworthy movement. His example has been followed in many districts and his enlightening talks on bird life and habits are most interesting.

It would be well if a certain district in every country were set apart as a haven of refuge for our birds. They readily recognize the safety zone and soon add to the beauty of the neighborhood. It is worth thinking about.

The Value of Advice

The precise value of advice is often hard to determine. A story told, we believe, by Andrew, S. Webb, lately elected a director of the National Association of Cotton Manufacturers, illustrates that. He locates the incident in Yalabusha County, down South, where he was born. A negro came to town and asked the doctor to come out and look at his boy, who was mighty sick The doctor rode out on his horse, gave the boy a dose of castor oil, and went home again. Next day the negro came to town, told the doctor the boy was all right and asked how much was the bill.

"I went three miles; $3 a mile—you owe me $9," said the doctor. "And say, Bill, I want to borrow your yoke of oxen to pull some logs out of my yard. I'll send and get them and bring them back to you."

The next day the doctor sent for the oxen, used them a few hours, and sent them back to Bill's place in the evening.

On the following day Bill was in town again, and at the doctor's house. "Heah's yo' bill, doc. It's $9."

"Nine dollars!" exclaimed the doctor. "Great Scott, it isn't worth $9 just for using those oxen a few hours."

"Taint no wuss'n yo' done me," said Bill.

"Oh, that was different," said the doctor, "that was because of my learning as a physician."

"Yas," said Bill, "but that baldfaced ox of mine, he ain't no darned fool."

Fall Treatment of New Seedings of Grasses and Clovers

Pasturing seedings of grasses and clovers in the fall of the season sown is probably one of the greatest reasons why many promising stands prove a disappointment the following season. Any pasturing to be done the same year as sown must be done carefuily and early, so that sufficient growth will be left to protect the stand during the winter. Late, close pasturing or pasturing when the ground is wet should never be practised either with an old or a new seeding if maximum results are to be obtained the following year. Late, close pasturing, particularly of new seedings, lessens the vitality ofthe plants by removing the protection which full growth furnishes and so exposes the plants to more winter killing than would be the case if some growth were left. Fall growth also holds the snow which is itself a valuable protection from extremely low temperature or sudden temperature changes. Not only will late, close pasturing endanger the stand by weakening the vitality, but even though the plants come through the winter without killing they will not start as early nor make as vigorous a growth as where late growth has been left as winter protection. Where some growth is left the previous season it serves as a mulch under the protection of which the new shoots can make an early and a vigorous spring growth

Grasses and clovers, particularly the latter are injured to a great extent by heaving in the spring. This is caused by alternate cold weather and thaws and a mulch of a previous season's growth tends to lessen this loss by protecting the plants from rapid temperature changes in the early spring.

If best results are to be obtained from grass and clover, seedings, particularly new seedings, late, close pasturing must not be practised, neither must heavy pasturing be done when the land is wet. Certainly what pasture may be available during the year sown will not pay for the loss of feed the following season where a seeding has been pastured late the previous fall.

SAVED FROM AN OPERATION

Restored to Health By Taking "Fruit-a-tives"

Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery".

Mrs. M. J. GORSE,
Vancouver, B.C.

50c. a box, 6 for $2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

Ingrown Toenail

Ingrown, or ingrowing, toenail is a condition in which the soft tissue at the side of one of the toenails is pressed against the hard nail and is cut by it. The great toe is the almost always affected, and it is usually affected on the side next to the second toe. The trouble is caused by cutting the toenail too close at the side, so that the soft parts of the toe, compressed by a tight shoe, are pushed against the sharp edge of the nail. The trouble may come also from neglect of the feet; the flesh of the toe may become sodden and swollen and ride up over the side of the nail; the irritation so produced presently causes ulceration. That is usually the cause of the ingrown toenail sometimes seen in bedridden and paralytic cases.

The first indication of trouble is pain and soreness at the side of the toe. The seat of the pain, when the toe is compressed, is in the nail furrow. Inspection of the nail may show that it has been cut very close and has been carefully rounded; and a look at the shoe will probably show it to be narrow-toed and perhaps also high-heeled. Those are the two things most favorable for producing the distressing condition.

If treatment is begun at once, relief may speedily be obtained; but if it is neglected, the consequences may be serious. The continued pressure against the side of the nail will keep the wound from closing, and it will almost inevitably become inflamed; proud flesh will form, suppuration will ensue, and the final result may be blood poisoning or, in the aged, gangrene involving the loss of the toe. Fortunately, however, the pain drives the sufferer to seek relief before either extreme is reached. He changes to a wider shoe or to a slipper giving ample room for the toes; and if the change gives only partial relief, he goes to the doctor.

In the early stages he may spare himself the trouble of going to the doctor if he will soak the foot in a weak antiseptic solution such as of boric acid and then, after carefully drying, insert a wisp of absorbent cotton or antiseptic gauze under the side of the nail, thus lifting it out of the furrow and keeping the flesh from touching it. If the nail is very hard and curved, it may have to be scraped along the centre to make it more flexible; if that simple treatment is given at the beginning, if care is taken to cut the nail square across and not to pare the sides too close, and if a change is made to wide-toed shoes, there should be no further trouble.

35 Years of Protection Yielded $426.94 Profit

TAKE the Mutual Life Endowment policy number 17631, which matured last year. Premiums, during the period of 35 years which the policy ran, totalled $590.64. The Mutual Life of Canada paid $1,017.58. That means that after 35 years of insurance protection, during the whole of which the company was responsible for the full face value of the policy, this policyholder received his money back, plus $426.94. In other words, for every $100 he paid in to the company, the company paid him back $172.28.

This case is not exceptional.

If you wish to know more about the Mutual Profit-Participating Endowment Policy, the coupon below is ready at your hand. Fill in, mail to us, and the information will be forwarded promptly.

BONDS

Are Mortgages on Fixed Assets

When a township issues debentures (or bonds) it gives a mortgage on the whole township for security to the buyers of the bonds for the loan of their money for a definite number of years at a satisfactory rate of interest.

If the amount required is large it is divided into small mortgages, (that is, bonds or debentures) of $500 or $1,000 each, with the same security behind each, so that investors with small sums may take advantage it.

Bonds or debentures are rated the safest kind of an investment.

Myself

I have to live with myself, and so
I want to be fit for myself to know.
I want to be able, as days go by,
Always to look myself straight in the eye;
I don't want to stand, with the setting sun.
And hate myself for things I've done.
I don't want to keep on a closet shelf
A lot of secrets about myself.
And fool myself, as I come and go,
Into thinking that nobody else will know
The kind of a man I really am;
I don't want to dress myself in sham.
I want to go out with my head erect,
I want to deserve all men's respect;
But there in the struggle of fame and pelf
I want to be able to be like myself.
I don't want to look at myself and know
That I'm bluster and bluff and empty show.
I can never hide myself from me;
I see what others may never see;
I know what others may never know,
I can never fool myself, and so,
Whatever happens. I want to be
Self-respecting and conscience free.
—The Youth's Temperance Banner.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting nature in restoring normal conditions.

EUGENE McMILLAN, Prop.

How To Store Cars

(By Alexander Johnston, Editor of Motor.)

We do not recommend storing a car for the winter. Present-day cars are not built that way, and they are too much a daily and hourly necessity to make it profitable for the owner to put them away for four or five months. But if you must lay up the old boat for any reason, do the job properly so that your car can start off again properly next spring just where you left off this fall.

To begin with give the car a thorough cleaning. If, dirt oil, etc., are allowed to stand all winter, they become so firmly anchored that you will never get them off in the spring. This applies particularly, of course, to the highly finished body surface, and other polished areas.

For the unpainted parts, the best protection against dampness and rust during the winter season, is a coating of grease or vaseline. Good cup grease spread on nickeled parts will save a world of worry. Be sure that the parts are thoroughly dried before the grease is applied, otherwise rusting may go on under the protective coating.

Go over the whole car systematically, greasing such parts as ignition terminals. Clean out the interior thoroughly, removing dust carefully from upholstery, especially the corners, where it is prone to gather. Brush the top briskly and paint the side curtains with linseed oil to prevent rotting.

Next Jack up all four wheels and remove the tires and the rims from the wheels. Clean rims and tires with gasoline and wrap them in cloth or burlap and store them in a room which is subject to neither extreme of temperature and out of the direct rays of light. The tubes may be stored flat or inflatened just enough to keep them round. If you take these precautions, you will not have the usual spring evidence of blowouts.

The battery should be removed from the car and handed over to the service station for storage whether dry or wet storage depends on the condition of the battery. Dry storage costs more than wet, but in the case of a nearly new battery the added expense is justifiable.

Leave the oil in the crank case, transmission and free air right where it is. It is a good plan to pour a generous supply of heavy cylinder oil into each cylinder and then crank the engine to distribute it over pistons and cylinder walls. Oil small parts such as oil and throttle, linkage, brake connections, etc. If the spark plugs have not been out for some time, loosen them and then set them not too tightly against the seats.

The carburetor and vacuum system should be completely drained and as many parts as are readily gotten at should be dried carefully on a clean cloth. Spread a little oil or grease over such parts, when you are putting the car back into commission, it is easy to remove the grease with a little gasoline.

Drain all gasoline and water from the car, being careful not to overlook any draincocks in the course of the operation.

Finally after the car is completely cleaned and dismantled, it is a very good idea to cover it up with one of the paper or frabric covers that are now available for the purpose. This serves to keep dust and dirt away and also keeps out a certain proportion of moisture.

Won't Have Motor Cars

Bermuda, isle of onions, lilies and liquor, persists in its refusal to have its coral bed shaken and trumbled by automobiles. The only motor car that ever invaded the island is on its way back to the United States, minus its engine, which some islander removed to be used for pumping—what is not stated.

Foiling Car Thieves

One of the most effective ways of foiling a car thief is to cover the pin-hole air vent in the gasoline cap with chewing gum whenever leaving the car. This upsets the vacuum system, and means that when the "gas" in the vacuum tank is nsed up the car will stop for want of gas. Not caring to look for more trouble the thief promptly abandons the car at a point not far from where he found it. It's the little things in motoring that count.

Here and There

A grant of $25,700 to the Salvation Army to aid Canadian emigration work in Great Britain has been authorized by a Canadian Order in Council.

According to information received by the Canadian Pacific Railway at Winnipeg, sixty-three bushels of wheat to the acre has been harvested on the farm of T. M. Ballantyne, three miles north of Lacombe, Alberta. The wheat graded No. 1 and weighed 64 pounds to the bushel.

Weighing 3,170 pounds, a steer, said to be the largest ever received in Winnipeg, arrived at the union stockyards from Wainwright, Alberta. It was sold for $250, the highest selling price of any steer in Winnipeg since the war.

The Canadian Pacific S.S. "Bruton," which arrived in Liverpool on September 5th, put up what is considered to be a record in the speedy discharge of cargo when she sailed the following day, Sept. 6th, at 7 p.m., having discharged over 2,000 tons of cargo.

It is announced that the Canadian Pacific Railway will increase the size of its irrigation headgates at Kimball, in southern Alberta, by 50 per cent in anticipation of an increase in area of 40,000 acres in the Lethbridge district. Water will be turned into the ditches of the Lethbridge Northern project, it is expected, some time this fall.

Buffalo steak will be abundant in Canada this fall. A herd of 2,000 surplus Buffalo wandering on the range in the National Park at Wainwright will be slaughtered by an Order-in-Council, and the meat and skins sold. For several years the Government has paid special attention to the preservation of the buffalo and the work has been so successful that the National Parks are now overstocked.

At a dinner given in his honor by the Vancouver Board of Trade, E. W. Beatty, President of the Canadian Pacific Railway, announced that the Company proposed immediately to add two large modern steamers to its coast fleet in order to take care of its increasing tourist traffic over the Company's Pacific Coastal lines. He also announced the early completion of a new pier at Vancouver at a cost of several millions.

There have been large increases in the number of pure bred animals in Canada during the decade between the last two censuses. The increase in the number of pure bred horses between 1911 and 1921 was 44 per cent; of cattle, 139 per cent; of sheep, 75 per cent, and of swine, nearly 44 per cent. The number of pure bred horses in the Dominion in 1921 was 47,782; cattle, 296,656; sheep, 93,643, and of swine, 81,143.

A conservative estimate of the amount of money spent in Quebec by tourists reaches $2,358,750. From the beginning of May until the first of September, 15,000 motor tourists had called for information at the offices of the Quebec Auto Club. Taking an average of four people to each car, this meant that at least 60,000 people had come to the city by automobiles. Of this number there were approximately 3,000 camping parties, or 12,000 people.

At the Chateau Frontenac, Quebec, recently, Colonel J. S. Dennis, Chief Commissioner of Colonization of the Canadian Pacific Railway, outlined in a detailed speech existing conditions in Canada and prospects for the future. He emphatically stated that there was no cause for discouragement, but, on the contrary, every prospect of a renewal of rapid development, including an increase in our population and the development of our latent natural resources in such a way as to insure, in the comparatively near future, that we should be out of the woods, and progressing rapidly to a large population and favorable business and financial conditions.

A woman went into an undertaker's shop to order a coffin for her husband. "I am very sorry to hear of your loss," said the proprietor, sympathetically. "When did the poor fellow die?" "Oh, he isn't dead yet," she replied, "but the doctor says he can't live until morning, and he knows what he gave him."

Canadian-born Chinese Girl Goes as Missionary to China

Dr. Victoria Chung, the first Canadian-born Chinese girl to go as a missionary to the land of her forefathers, sailed on the Empress of Australia to assume her duties under the Canadian Presbyterian Board at Kongmoon, South China. Dr. Chung was born in Victoria, B. C., and graduated in medicine from Toronto University, having served as an interne for the past year at the Toronto General Hospital. Miss Agnes Dainage of Toronto joined Dr. Chung there and will take charge of the girls' schools at Kongmoon after enjoying a furlough in Canada.

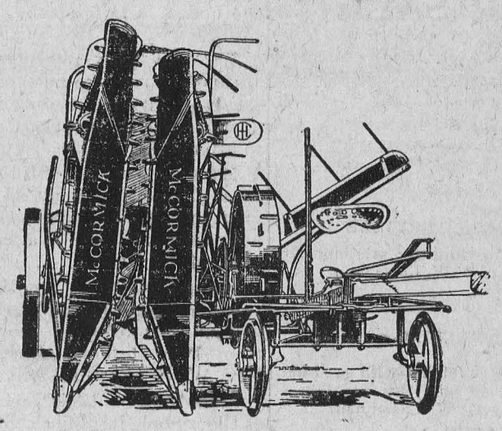
McCormick and Deering CORN BINDERS



Cutting corn by hand is very hard work, as all men know who have tried it. In fact it is out of the question to fill a silo with hand cut corn. Yet corn stalks either green for the silo or stacked dry for fodder are the best food for cattle and horses.

The use of the McCormick or Deering Corn Binder will solve this problem You can cut and bind seven acres a day and do it much easier than by the hand method.

SOLD BY H. G. McCAMBRIDGE
McCormick-Deering Dealer
Main St. South Phone 8. **Chesterville**

COUNTER CHECK BOOKS

The Record has the agency in this district for

THE APPLEFORD COUNTER CHECK BOOKS

Look over your stock, and if you are nearly out drop in and see us, or use the telephone and we will send a representative. Prices on automatic check books are likely to rise on account of scarcity of materials caused by the war, so it will be wise to order now even if you are not needing a new supply immediately.

Money Waste

The middle aged man mindful of his past will urge you not to waste small sums. He will tell you, too, with a sigh of regret, what he might have accomplished had he, years ago, realized the multiplying power of small sums.

Stop all the waste you can, and invest a small sum each year in a fifteen or twenty year policy in the Sun Life of Canada, where it will grow to help your future if you live, and protect your dependents should you die.

Without obligation on your part ask to have our policies explained.
