Your custom interior and exterior renovation specialist

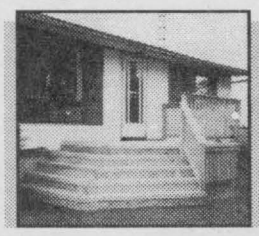
774-4334 *(Office)* **612-3679** *(Cellular)*

We can build you a "Hummer of a deck"
We can build you a "Rolls Royce of a deck"
We can build you a "Plain Jane Chevy of a deck"

We use the same building and preservation methods in all and we guarantee all of our work.

Are you thinking of a screened deck?

We do that too. Let us put a screen under your decking while you decide if you want a screened enclosure at a later time. Screen is cheap, but taking your decking off to put a screen under after the fact is expensive and destructive.

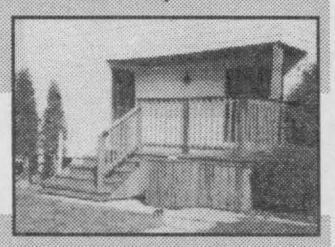


We build and service too!

You have the option to let us care for your deck. Once a year we come and do an overall maintenance. (No, not in the spring, in the fall because that's when you should do it!)

And don't forget our custom millwork shop

There are a whole lot of projects we do in there: garden furniture and accessories, screen doors, shutters, planter boxes, benches and tables - you name it!



Do you need a shed?

Please don't buy one of those prefab "outhouses". Let us build your custom garden shed or industrial type shed. We use the same methods as if we were building a house and at least you will be able to open your door down the road.

We also do Chain Link & Wood Fencing

Let us work with you at designing your next project.

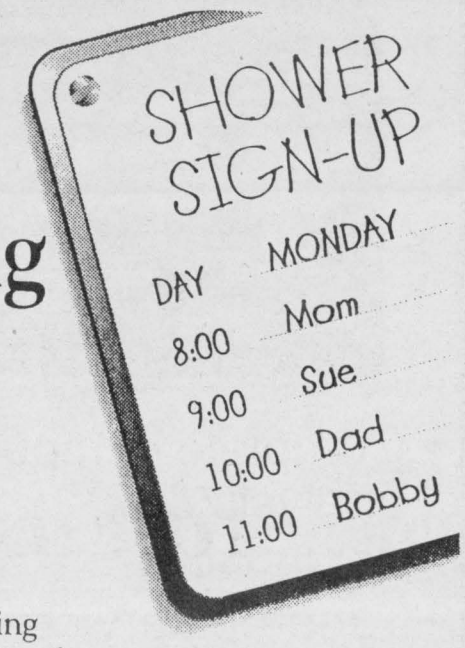
24-7 SERVICE

Happy Dairyfest
from Guy Fuels Ltd.

Tired of Waiting for Hot Water?



If you heat your water with electricity, you may be waiting for the water to heat up again after showers, laundry or dishwashing.

An oil-fired hot water heater will heat your hot water...

- at least twice as fast as electricity
- for up to half the cost of electricity

Your busy family should never run out of hot water when you use oil! And switching from an electric water heater to oil can save you hundreds of dollars each year!

Oil is the answer for HEAT too! Don't spend another winter paying high electric heat bills.

Call today for details!
