Provide for the Future

You have no guarantee that you will always be able to do your present work, or make your present income. It is wise, therefore,—necessary in fact—to lay aside a certain amount regularly, and build up a reserve fund.

The best way to do this is to open a Savings Account in the Union Bank, on which Interest will be paid regularly, at highest current rates.

It will lessen your worries, and increase your self-respect.

United Counties Road Race.

The committee in charge of the annual road race open to all amateurs in the United Counties of Stormont, Dundas and Glengarry, on Thanksgiving Day, have purchased three handsome cups for the principal prizes. These cups will be on exhibit at J. F. Abbott's store at Cornwall this week. The distance will be about nine miles, and the course will be announced later on.

Cornwall Man Dead.

David A. Flack, a prominent resident of Cornwall, aged sixty-six years. He was a son of the late John Flack, and was born in Hebron township. Washington county, N. Y. He came to Cornwall about forty years ago, and was a member of the firm of Flack Bros., and was interested in the cotton batting, pottery and ice busiuess. He also represented the United States government here for several years previous to the appointment of Colonel Hamilton as a regular consul. He was associated with the late Dr. Bergin, M. P., and other gentleman in the Ontario Pacific Railway company, of which he was secretary. He is survived by his wife and two brothers—A. W. Flack, collector, and C. H. Flack, New York city. The funeral took place on Saturday.

Froats—Lane.

An interesting event took place at the residence of Mr. and Mrs. Jacob Lane, near Aultsville, at 7 p.m., on Sept. 15, when their daughter, Pearl, was married to George W. Froats, of Froatburn. Rev. L. McCreary, of Morrisburg, officiating. The couple were married under an arch of evergreens trimmed with flowers. The bride wore a cream silk dress and carried a bouquet of peas. She was given away by her father. The bridesmaid, Miss Tuttle, of Dundela, was becomingly attired in a white cashmere dress. The bridegroom was attended by Oscar Lane, brother of the bride. Over 100 invited guests sat down at tables groaning under the weight of an abundance of good things, to which all did ample justice. Many beautiful and useful presents were received. The bridesgroom presented the bridesmaid with a beautiful brooch. Mr. and Mrs. Froats left the next morning for Ottawa on their wedding trip. They will reside at Froatburn.

The Route Approved.

Hon. George P. Graham has approved of the route of the new line of the C. N. R. from Toronto to Ottawa via Smith's Falls. The Canada Northern has agreed to build a branch line to Lanark, this meeting the demands of the district for a needed improvements in railway facilties.

Rural Mail Delivery Between Iroquois and South Mountain.

Petitions are being circulated and signed re the establishing of a rural free mail delivery between Iroquois and South Mountain by the Dominion Government. The petitions agree to pay for the cost of the boxes erected in front of their homes, at the very low price of $3.00 per box. This is the first and only cost. We believe that an opportunity has been presented to the residents along this mail road from Iroquois to South Mountain, that will be an incalculable benefit to themselves. Around here the proposition is not receiving the interest it deserves and to all citizens along this road we advise you to bestir yourselves and enjoy all the privileges that this rural mail delivery will give you. The box will be erected in front of your homes along the road and the mail carrier both morning and afternoon will desposit your mail in your box, giving the country a city service and a prompt delivery that will do away with newspapers lying in the office four days until they became staie. The petitions are to be had from each postmaster at South Mountain, Hulbert, Brimston, Dixon, Irena, etc., so you had better get busy.—Herald.

The committee appointed to deal with the future relations of Queen's University to the Presbyterian Church met the trustees of the university at Kingston.

Local And District News.

Mr. Jas. J. Allan has moved to town and is living in the residence he recently purchased.

The schools of Russell, Ont., have been closed on account of the prevalence of diphtheria in the village. Five houses are placarded.

At the Normal School in Toronto there are 217 students, of whom only nine are men. At Peterboro there are 175 of whom 25 are men.

Mr. M. Bailey, of Winchester, has an advt. in this issue. If you want your rigs painted it will pay you to consult him before making final arrangements.

Rev. S. T. Woods, accompanied by his wife, visited Metcalfe on Wednesday of this week to unite in marriage two young people of his former congregation.

The Ladies' Aid of the Presbyterian Church of Chesterville, at their last regular meeting, laid plans for their annual bazaar, which will be held on Dec. 15th.

Mr. Thomas Lynett, a life long resident of Westport,, died at his home there Thursday morning. In religion he was a Roman Catholic and in politics a Liberal. He leaves a wife and nine children.

The infant son of Mr. and Mrs. John Casselman, of Colquhoun, passed away on Monday, Sept. 20th aged three weeks. The funeral took place on Wednesday, at Riverside, Rev. L. M. McCreary officiating.

Mr. Carman Empey, of Finch, will offer his farm stock, etc., for sale by public auction on Thursday, Oct. 14th. John McAvoy, auctioneer. See posters for further particulars.

The teachers of Stormont, Dundas and Glengarry have united their efforts in the holding of a joint teachers' convention at Cornwall on Oct. 21 and 22. Dr. White, principal of Ottawa Normal School, will give three addresses.

Whittaker, the Optician, will be at Chesterville on Oct. 13th, and Finch on Oct. 14th.

Brockville Orangement have issued a small booklet advertising a monster 12th of July demonstration there next year. As Brockville is the birthplace of Orangeism in Canada, L.O.L. No. 1 having been installed there January 1st, 1830, the committee in charge are looking forward to a big crowd from all parts.

Unconscious from Coal Gas.

Miss Annabella McKenzie of Prescott, an old lady, in her 80th year, was found in an unconscious condition from coal gas on Thursday. She remained unconscious for over 27 hours. A defectlve stovepipe was the cause of the trouble. She lived alone in a little cottage,

Old Coins Found.

Mr. Jonah Beckstead, whose home is in East Williamsburg, came into The Herald office on Tuesday with three old coins found in his garden. One was a silver token of the realm of Spain, bearing date 1784—the year of the coming of the United Empire Loyalists. It is of the size of a Canadian 10c piece. Another was of copper, being a British half-penny of the vintage of 1812 ; while the third, also copper, was an Isaac Brock half-penny struck in 1814. All three coins are in an excellent state of preservation and were only recently picked up by Mr. Becksted, which leads to the belief that there may be more of them in the same plot of ground.—Herald.

Alexandria Honors Citizen on Leaving Town.

A farewell was on Thursday evening tendered Mayor Smith of Alexandria, by the citizens of the town and county, on the occasion of his removal to Cornwall, where he formed a legal partnership with R. A. Pringle, K. C., ex-M. P. There was a large and representative attendance, including Mr. Pringle, Mr. John A. McDougald, registrar of the high court of the United counties of Dundas, Stormont and Glengarry; and Mr. William Gibbons of the Standard, Cornwall.

The several speakers paid high compliment to Mr. Smith's ability, industry, and many social qualities, and deep regret was expressed at his approaching departure. The guest of the evening made a graceful acknowledgement of the kind things that had been said of him.

Brockville Inspector Dead.

Jas. F. Ellis, former United States consul at Brockville and later the town's sanitary inspector, died Thursday morning after an illness of four weeks due to paralysis. He was 83 years old and leaves one daughter. In Masonic circles he was a member of the 32nd degree of Scottish Rite.

Old Engineer Honored.

Mr. Michael Manion, of Prescott, the oldest engineer on the C. P. R., was presented with a handsome silver cup and an address by the Brotherhood of Locomotive Engineers and Firemen, in recognation of his honorable record. Mr. Manion entered the service of the St. Lawrence and Ottawa Railway in 1863, and when that road was taken over by the C. P. R., Mr. Manion went with it.

Angus—Middagh.

The mrrriage of Mr. Geo. Angus, of this town, to Miss Minnie Middagh, took place yesterday forenoon at the home of Mrs. Edgar Smith, Cass Bridge, sister of the bride. The ceremony was performed by Rev. Geo. Yule, pastor of St. Paul's church, this town. The bride is the second daughter of the late Wm. Middagh, of Morrisburg. The haapy couple left by the noon train to spend their honeymoon in Toronto. They expect to return Saturday and will reside in Winchester.—Press.

The Late Isaiah Cramer.

The residents of Morrisburg and vicinity were shocked on Friday night when it became known that a well known person had suddenly passed to his reward, in the person of Mr. Isaiah Cramer.

The late Isaiah Cramer for the past 22 years was engaged in farming east of Morrisburg, until death released him. The deceased had been ailing for the past two years but seemed on a fair way to recovery. He had been busy during the day as usual, and while at the tea table death once again reached out her hand suddenly, and in the twinkling of an eye he passed to the world beyond, the cause being heart failure. He was born in Williamsburg on May 11th, 1843, and since has been a resident of this locality. He possessed a genial disposition and had many warm friends. He leaves to mourn his loss a widow, two sons and one daughter, Niles Cramer and Mrs. John Martin, of Morrisburg, and Irwin Cramer of New York City—Leader.

Ottawans Take Out Accident Policies.

Sixteen accident policies for $1010 each or $10 a week were taken out by the Ottawa Football Club on Friday for its players. The numerous accidents which are ever arising on the gridiron suggested this course as a protection to players as well as club. Last year Bert Stronach injured both his knees to such an extent that he had to go to Scotland to have them operated upon. The operation alone cost him $300.

Louis Theorest is Under Arrest at Alfred.

The post office at Alfred, Ont., was visited for the second time within the week by a burglar on Thursday night. The robber secured about $20 in cash on his first visit, but on his second did not secure anything of any value. The Dominion police were notified and Constable Giroux sent down to investigate. Friday night he arrested Louis Theorest, a youth of 16 years, who lived within a door or two of the office. Theorest is said to have confessed to Giroux that he was the author of the thefts.

Humor and Philosophy

By DUNCAN M. SMITH

DOUBTFUL BLISS.

WHILE drinking in the solitude,
Far from the haunts of men,
We rather think perhaps we'd like
To see those haunts again,
For grandeur pales when naught assails
Our eyes but gray and green
If no companion is at hand
To help enjoy the scene.

Far from the city's blare and smoke
We think we'd like to stray,
To hold communion with the skies
And while the time away,
But when we come to try it out,
To dabble in the joys,
Far, far away from any one,
We long for human noise.

When touching elbows with the crowd
We turn away and frown
If some one deigns to speak to us
Or pause to call him down,
But out upon the yellow plain,
Far from the din and roar,
We'd go a mile to speak to one
We never saw before.

When we can fill an easy chair
It's very fine to dream
About a lonely, quiet nook
Beside a sylvan stream,
But when we sit for half a day
With not a soul in view
We think we'd like to see a man
To tell our troubles to.

Tried to Do His Duty.

"Remember, you have sworn to tell the whole truth!" said the lawyer fiercely.

"Here goes, then. You are an impertinent, incompetent, overbearing"—

At this point the lawyer appealed to the court.

"Well," resumed the witness, smarting under judicial rebuke, "the whole truth is considerable, and I began in the handiest place."

Needed Help.

"How did you like that cigar?" asked the dealer in a voice that indicated his opinion of the brand to be a high one.

"Oh, in a way," replied the customer guardedly.

"It's a free drawer."

"Yes."

"Then what's the matter with it?"

"Well, I had to draw also on my imagination to like it."

Coming Call.

The fliers to the world below
Their haughty heads incline,
And very pleasantly they call:
"Come up! The air is fine!"

Knew Better.

"You say you are without funds?" said the judge.

"I haven't a cent to my name," replied the bankrupt.

"Judge," said the lady creditor, "he is trying to deceive you. I saw on his desk a check book, and half of the checks had not been used."

Looking Backward.

How dear to my heart are the feastings of childhood,
The light, flaky biscuits that dear mother made,
When coming in fresh from the meadow or wildwood
We rushed without mercy the pantry to raid!
How quickly we'd grab them
And spear them or stab them
And greedily punish their crispy brown crust!
How Billy and Molly and Jimmie would eat them
Till one unaccustomed would think they would "bust!"
Good faith, there was nothing that ever could beat them,
Surpass them nor throw them the least in the shade,
Those hot, smoking biscuits,
Those light, flaky biscuits,
Those buttermilk biscuits that dear mother made.

Where He Scored.

"What would you do, Miss Ethel, if you had loads of money?"

"Oh, spend it."

"Would you?"

"Yes. What would you do if you had a lot of money?"

"I'd give it to you."

Chance to Be Generous.

"He has just ordered up the drinks for the crowd."

"I thought this was a temperance town."

"That is why he is in such a hurry. They only sell five cent drinks."

SPARED BY THE ENEMY.

A Dramatic Incident In the Career of General de Gallifet.

It was on that fatal day, Sept. 1, 1870, that General de Gallifet distinguished himself by commanding the cavalry charges intended to clear the elevation at Illy, with the view of opening a passage toward Floing, where it was hoped the army might retreat. The first charge overthrew the Eighty-third regiment of the Prussians and penetrated among the German troops, but the latter formed again rapidly after the retirement of the French cavalry.

General Ducrot then asked if they could renew the charge with what remained of the light cavalry and hussars, and then Gallifet answered in the words that have become historic, "As often as you wish, general, as long as a man remains!" The second charge was not so successful as the first. Only a few men, with their general at their head, succeeded in penetrating the first ranks of the enemy. It is known that the king of Prussia, who was watching the battle from the top of the hill of Marfee, exclaimed with admiration, "Oh, les braves gens!"

Just at this moment an astonishing event occurred in the midst of the battle. As Gallifet was returning with a few survivors, their horses for the most part wounded or foundered, he passed before the Nassau regiment. The Prussian officers ordered their men to cease fire and even struck up some of their guns. The French saluted and shouted, "Vive l'empereur!" and the German officers acknowledged the salute, some of them applauding.—Westminster Gazette.

SCIENTIFIC FEEDING.

Health as a Primary Factor In Intelligent Living.

Health and success are so largely dependent upon balance, upon symmetry of development, physical and mental harmony, that we should do everything possible to secure that physical poise which also means mental and moral poise. A large part of our ills come from one sided development, caused by overstimulating some tissue cells and starving others—overfeeding and underfeeding. Scientific feeding, therefore, is of vast importance.

Overeating and improper eating are among the curses of the world. Think of the people who put all sorts of incompatibles into their stomachs at the same time and then use all sorts of nostrums to get rid of their bad effects.

One of the most pathetic sights in the world is that of a human being struggling hard to carry out his ambition, yet handicapping himself by his ignorance of physical laws.

What a pathetic figure Carlyle cut in the world—a one sided giant who might have been a symmetrical power, possessor of a colossal brain largely controlled by a dyspeptic stomach! He was cross and crabbed and did just the things that he did not want to do, things that he knew it would be better not to do, but he was the victim of starved nerves, of exhausted brain cells largely for want of common sense feeling.—Orison Swett Marden in Success Magazine.

A "Mite."

The difficulties experienced by our forefathers in trying to reckon money in very small proportions appear in the various values given to a "mite" in the sixteenth and seventeenth century books of commercial arithmetic. The original "mite" seems to have been a third of a Flemish penny, but the use of the word for the widow's coin of the New Testament made its regular English meaning half a farthing, and some old people may remember applying the name to the short lived nineteenth century coins of that value. In those old arithmetic books "mite" stands for various values not represented by actual coins, but obviously used in reckoning. A work of 1706 makes it one-twelfth of a penny, two sixteenth century books one-sixth of a farthing, and in 1674 Jeake's arithmetic made it as little as one sixty-fourth of a penny.—London Chronicle.

Heroic Treatment.

In Guiana if a child is slow in its movements the parents apply an ant to the child instead of a whip to make it move faster. This little ant bites more cruelly than a mosquito, and its bite is apt to be troublesome afterward. As you can imagine, this treatment does not make the child kind to others, and the children of Guiana are said to be particularly cruel to animals. The little boys in Guiana do not reckon their age by years, but by their ability to endure pain. Until he gets to the point where he can let the Hucu ant bite him without wincing he is considered merely a baby.

Sympathy.

He—It was a frightful moment when I received your letter telling me of the insuperable obstacle to our marriage. I would have shot myself, but I had no money to buy a revolver. She—Dearest, if only you had let me know.—Simplicissimus.

Suicide Verdict on Skeleton.

Peterborough, Ont., Sept. 30.—Death by suicide, was the verdict of the jury empaneled to hear the evidence in the case of the human skeleton found in Campbell's Woods, at Kendry Siding, six miles west of Peterboro, three weeks ago. The inquest was concluded to-night at Springville, and as there was no new light on the mystery, the verdict of suicide was returned. Provincial Inspector Miller worked on the case for several days, and was unable to find any kind of a clue that would help establish the identity of the remains.

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one to the Kidneys, When these "inside nerves" fail, hen the organs must falter. Dr. Shoop's Restoratives is directed specifically to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by W. G. Bolster.

Civil Servant Suicides.

Ottawa, Ont., Sept. 30.—Joseph Gay, a stenographer employed in the Marine and Fisheries Department, committed suicide to-day by leaping into the Ottawa river from the Interprovincial bridge. He had been suffering from nervous depression for some time, and returned to his post but a fortnight ago, after three months' leave of absence. He was an expert shorthand writer in both French and English, and for some time acted as private secretary to the Minister. Deceased was twenty-two years of age and unmarried.

Hon. J. J. Curran Called by Death

Superior Court Judge Passes Away in Montreal.

Montreal, Oct. 1.—Hon. John J. Curran Justice of the Superior Court, and former solicitor-General of Canada, died a little after noon to-day. Judge Curran had been in failing health for two or three years past, but an occasional holiday and trip abroap was sufficient to restore him to his wonted vigor. Last Spring, however, his strength failed noticeably, and the daily strain of his duties at the court house bore heavily upon him. After a brief visit to Caledonia Springs in May he returned and finished the term, and at once sailed on a trip to England and Ireland. His health did not greatly improve, however, and when he returned after a pleasant passage, he was confined to the house, growing rapidly weaker. This morning the distinguished patient appeared to rally, but shortly after noon he passed away. Deceased was born in Montreal on Feb. 22nd, 1842. Educated at St. Mary's Jesuit College, he graduated at Ottawa University, and at McGill University, and at McGill University in 1862, taking the B. C. L. at the latter institution. At the age of 21 he was called to the bar. Winning his Q. C. from the provincial Government in 1876, Mr. Curran received the same honor six years later from the then Governor-general, the Marquis of Lorne. Before this, however, he had plunged into politics, and though he lost in his first essay, being defeated by the late Hon. L. S. Huntingdon in a fight for the representation of Shefford constituency in the House of Commons, he was returned for Montreal Centre at the general election of 1882, and for over ten years he represented that constituency until his elevation to the bench by appointment to a quisne judgeship in the Supreme Court of this province.

While in political life, Mr. Curran had high office, being appointed Solicitor-General in Sir John Thompson's Ministry and continuing to retain the same office after the ascenscion to power of Sir Mackenzie Bowell. His constituency in Montreal manifested their appreciation of his work by presenting him in 1890 with a purse of $7,000, towards which many outsiders of both political parties asked to be allowed to subscribe.

Have You Bronchial Catarrh!

It is easily recognized by the dry cough and hoarseness. Not difficult to cure with Catarrhozone as Mr. Xavier Babin, of River Capalin, Que., proved. "No one could suffer from bronchitis more than I did. I had a hard hacking cough that caused me great pain. My throat was hoarse and I had distress in my chest. Catarrhozone reached the sore spots and gave immediate relief. Since using it I have not had a single attack." Every physician who is asked about Catarrhozone says it is sure cure,—so will you if you try it. Sold everywhere, 25c. and $1.00.

A Big Decrease In Immigration

Arrivals During Year in Canada Numbered 145,908.

Ottawa, Oct. 4.—The annual report of the Immigration Branch of the Interior Department states that duriug the last fiscal year the number of arrivals was 146,908, of whom 52,901 came from Great Britain and Ireland, 34,175 from other countries and 59,832, from the United States. While this total showed a big falling off from the previous year, it was exceeded only once before in the dozen years. The total immigation since 1896-97 has been 1,366,650. Stress is laid upon the fact that nearly half of the male population which arrived last year was composed of farm laborers.

The immigration from the United States was the largest on record and even exceeded the number of arrivals from Great Britain. They are chiefly experienced agriculturists with capital. It is estimated that the American immigrants last year brought with them to Canada no less than sixty million dollars.

The bulk of the over-sea immigration came via Quebec, but St. John and Halifax handled over 26,000 between them. Japanese immigration fell off by 7,107 during the year and only six Hindus entered Canada, as compared with 2,623 in the previous year. During the year 3,803 immigrants were rejected at ocean ports, and 1,748 deported, the total number of deportations since 1902, when the system went into operation, having been 3,149. Of the deportations 2,007 have been English, 206 Scotch and 149 Americans.

A pain prescription is printed upon each 25c box of Dr. Shoop's Pink Pain Tablets. Ask your doctor or druggist if this formula is not complete. Head pains, womanly pains, pains anywhere get instant relief from a Pink Pain Tablet. W. G. Bolster.

HER DEATH WAS HOURLY EXPECTED

Enterprise, Ont., Oct. 1st, 1908.
"For seven years I suffered with what physicians called a "Water Tumor." I could neither sit, stand, nor lie down. Hypodermics of morphia had to be given me to ease the pain.

MRS. JAMES FENWICK

My cure seemed hopeless, and my friends hourly expected my death. I was so bad that I wanted to die, and it was during one of these very bad spells that a family friend brought a box of "Fruit-a-tives" to the house. After much persuation I commenced to take them, but I was so bad that it was only when I had taken nearly two boxes that I commenced to experience relief. I kept up the treatment, however, and after taking five boxes I was cured, and when I appeared on the street my friends said. 'The dead has come to life,' and this seemed literally true, because I certainly was at death's door."
(Signed) MRS. JAMES FENWICK.

"Fruit-a-tives" are sold by all dealers at 50c a box—6 for $2.50, or trial box, 25c, or sent post-paid on receipt of price by Fruit-a-tives Limited, Ottawa.

Half Cent Coinage.

Ottawa, Sept. 30.—The Canadian Federation of Labor to-day adopted a resolution asking the Government to coin half-cent pieces, and to give subsidies based on tonnage for the encouragement of Canadian shipbuilding firms. The coinage of half-cent pieces was argued on the ground that it would be a boon to poor people, who would appreciate the securing of a half-cent in cases where purchases involved a fractional amount of a cent.

Balsamic Essences

Make Wonderful Cure for Catarrh, Colds, Bronchitis, Throat Weakness.

To cure an ailment in the throat or chest, to rout out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhozone, which alone can be breathed in one second to every air-celi in the breathing organs. The healing vapors of Catarrhozone mix with the breath and descend through the throat down the bronchial tubes, to the deepest air-cells in the lungs—all parts are saturated with the rich piney essences that ease, heal and cure.

Catarrhozone has entirely displaced the old-fashioned remedies, such as cough syrups, sprays, tablets, and sedative powders, It contains none of the opium chloral and drowsy narcotics, so commonly found in liquid cough and Catarrh remedies.

The extraordinary curative power of Catarrhozone is well explained in a letter from A. B. Cowan, the well known restauranter of Carleton, who writes: "Some time ago I suffered severely from a frightful cold in the head and chest. It was nothing but one continual cough, hawk, headache from morning till night. My nose and throat were stuffed up that I could scarcely breathe. Catarrhozone eased the cough instantly, that would not yield even to the doctor's medicines. Hour by hour Catarrhozone relieved and by pursuing its treatment I have been permanently cured of all trace of of Asthma, Catarrh and bronchial irritation."

Once you try Catarrhozone you'll realize how indispensible it is—the large dollar size contains an indestructible hard rubber inhaler and sufficient medication to last two months. Smaller trial sizes 25c. and 50c. Beware of the substitutor and imitators of Catarrhozone—use the genuine and you'll get cured. By mail from the Catarrhozone Company, Kingston, Ont.

Lumber Fire at Midland.

Toronto, Oct. 1.—The lumber yards of Manley Chew, M.P., just outside of Midland, are on fire and it is believed fourteen million feet of timber will be destroyed, besides the big mill. The loss will be about $400,000.

A Case of Poisoning.

Not unfrequently caused by cheap acid corn salve. Be safe and use Putman's Corn Extractor. Purely vegetable, harmless and always cures. Insist on Putman's".

Epworth League Rally.

A social gathering met on Monday evening in the Sunday School room of the Methodist Church, for the purpose of learning more of the work of the Epworth League, and of rallying the members for the winter's work. The chair was occupied by the pastor, Rev. A. E. Runnells, B.D., who, in his opening remarks, gave a great many splendid suggestions for the work among the young people. The address of the evening was given by the Rev. Mr. Stevens, of Huntingdon, Que., who spoke on "The Three-Fold Aspect of Life," spiritual, mental and physical. He was listened to with great attention, his address being full of bright, inspiring thoughts, which will prove helpful to all who heard him. The musical part of the programme was contributed to by a violin selection by Misses Saucier and Mr. Steer, solos by Mrs. Wilson and Mr. Carl Munro and a selection from the choir. Every number was much enjoyed. The refreshment committee then invited all to the dining room and in their dainty serving and sociability helped greatly to enhance the success of the evening, All are welcome at the League services every Monday night at 8 p.m.

Coleridge's Imagination.

From his early youth Coleridge lived in a world of books and dreams, yet his favorite walk seems to have been the Strand, the last place in the world for a poet to lose himself in reverie. As he strolled down the street he imagined himself swimming the Hellespont, the feat of which other poets had written and which the poet Byron was to accomplish later. Once while the mind of Coleridge was thus far from the busy Strand he absently thrust his hands before him in the manner of one swimming. Suddenly one hand came in contact with a gentleman's pocket.

The gentleman, thinking to capture a thief, seized the hand and exclaimed:

"What! So young and so wicked!" He accused the poor, poetic boy of an attempt at pocket picking.

With some fright and a few tears the boy explained, and we can imagine that words did not fail him who was to become the most brilliant talker of his age. The gentleman was delighted with Coleridge's imagination, which could turn the Strand into the Hellespont. The intelligence of the young Leander made the stranger inquire into Coleridge's tastes, and when he found the boy liked books he opened for him a subscription at the circulating library in Cheapside.—Westminster Gazette.

The Facetious Traveler.

"How did you like Pittsburg?"

"It soots me."

"Do you think Boston is a great city?"

"It has bean."

"Did you find Philadelphia the place of sleep they say it is?"

"Not for me. Everybody else snored so loud I couldn't."

"Is Washington a good place to live in?"

"Capital."

"How did you find Chicago?"

"Didn't have to. It was there when I arrived."

"How were the mountains back of Denver?"

"Rocky."

"How did they treat you in New Orleans?"

"All the time."

"Well, I'm glad to see you're back."

"How does it look?"

"How does what look?"

"My back. I've never seen it."

It was then that the assault took place, but the court on hearing the evidence decided that it was justifiable.—Judge.

An Organ Recital.

A dozen or more women had gathed at a home on Walnut street to attend a business meeting of a society to which they belonged. Before they commenced to talk business one of the women had to tell everybody about her recovery from a recent operation for appendicitis. After she got through it reminded another of an operation she had gone through a few years ago for the same thing, and it took some time to tell about it. That reminded a third of an operation she had once gone through, and when she finished telling it another of the visitors started to tell her experience on the operating table.

At this moment a quiet little woman in one corner of the room arose to go.

"I thought," she explained to her hostess, "that this was to have been a business meeting, but it seems to be an organ recital."

The Key of Death.

The "key of death" is apparently a large key which is shown among the weapons at the arsenal at Venice. It was invented by Tibaldo, who, disappointed in love, designed this instrument for the destruction of his rival. The key is so constructed that the handle may be turned around, revealing a small spring, which being pressed a very fine needle is driven with considerable force from the other end. This needle is so very fine that the flesh closes over the wound immediately, leaving no mark, but the death of the victim is almost instantaneous.

Strong Paper.

A single United States treasury note measures three and one-eighth inches in width and seven and one-quarter inches in length. It will sustain without breaking lengthwise a weight of forty-one pounds, crosswise a weight of ninety-one pounds. The notes run four to a sheet, a sheet being eight and one-quarter inches wide by thirteen and one-half inches long. One of these sheets lengthwise will suspend 108 pounds and crosswise 177 pounds.

Evasion.

"See here, you, sir!" cried her father "Didn't I tell you never to enter my house again?"

"No, sir, you didn't," replied the persistent suitor. "You said not to 'cross your threshold,' so I climbed in the window."—Exchange.

Then He Wouldn't Have It.

"How much of an income do you think you could live on comfortably?"

"I think I could manage to be very comfortable on about $10,000 a year until my wife found out that I was getting that much."

Do You Get Bilious!

This trouble arises from torpidity of the liver. Nothing acts so nicely as Dr. Hamilton's Pills. They stir up the liver, rid the system of bile, tone the stomach, give appetite and sound digestion, you feel drowsy and bad tempered, Dr. Hamilton's Pills will help you at once,—take at night you're well by morning. Don't be afraid of Dr. Hamilton's Pills, they are mild—don't gripe or nauseate. They just "cure"—that's all.

Have You Stomach Trouble?

When you wake up with headache and bad taste in the mouth, something to settle the stomach is needed. That dull, heavy feeling must be lifted, and appetite must be created. Get a tumbler of water, some sugar, and then pour in a stiff dose of Nerviline. You'll feel tiptop in a few minutes. Nerviline invigorates, braces, tones, puts vim and snap into your movements. You'll be fitted for a hard day's work by taking Nerviline—nothing better. Large bottle 25c. everywhere.

Go to the blood if you are to drive out rheumatism. A Wisconsin physician, Dr. Shoop, does this with his Rheumatic Remedy—and with seeming success. Rub-ons, says the doctor, never did cure rheumatism. It is more than skin deep--it is constitutional, always. Because of this principle, Dr. Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Grateful patients gladly spread results. It is an act of humanity, to tell the sick a way to health! Tell some sick one. Sold by W. G. Bolster.

Ridgetown, Osnabruck.

The beautiful home of Mr. and Mrs. Patrick Pruner, "Greenside Farm," was the scene of a very happy gathering on Monday evening, Sept. 27th, when a reception was held in honor of their son, Maurice A., and his bride, who had returned from their wedding trip. About 60 couples were present and enjoyed themselves immensely with music, card playing and dancing till the wee sma' hours, when all returned home wishing the happy young couple much joy and happiness. The bride received many beautiful and useful presents, including silverware, glassware and cheques, and among them being a handsome clock from the Shamrock lacrosse team, Wales, of which the groom was a member. The groom s gifs to the bride was a gold locket, to the bridesmaid a gold cross, and to the groomsman a pair of gold cuff links.

The Hon. James Morris

Sketch of Career of Him After Whom Morrisburg was Named.

The Brockville Recorder, in giving excerpts from it's files of forty-five years ago, has the following in reference to the late Hon. James Morris, one of the early public men of Canada, from whom it was that Morrisburg got its name, also the bell which swings in the tower of the old public school building;—

The death occurred here on the 29th ult. of the Hon. James Morris, member of the Legislative Council of Canada. He was born at Paisley, Scotland, in the year, 1798. In 1801 his father emigrated to Canada. For a time he settled in Montreal but afterwards came to Elizabethtown and settled near Brockville, the deceased with his brothers carrying on business for several years as general merchants. The subject of this sketch was first returned to the Upper Canadian House of Assembly in 1837 and the following year he was appointed a commissioner for the improvement of the navigation of the river St. Lawrence, and served as such until the completion of the St. Lawrence canals. In 1851 he was appointed Post-master-General under the administration of Lord Elgin, being the first incumbent of that office after the transfer of the department from Imperial control to that of Canada. Immediately upon his appointment he proceeded to Washington and there negotiated with the American Government a postal treaty with the United States. He also introduced a uniform postal letter rate of five cents, the average rate previously having been sixteen cents. In 1858 he was appointed speaker of the Legislative Assembly on the advent of the Brown-Dorian administration and retired with the administration on the Governor-General, Sir Edmund Head, refusing to dissolve the House. When Sandfiield McDonald formed his Provincial Goverment Mr. Morris was again called on and filled the office of Receiver General until his failing health in 1863 compelled him to resign and leave public life altogether. From that date until his death he lived a retired life. A widow, three sons and three daughters survived.

Beware of Ointments for Catarrh That Contain Mercusy.

The light bread or the leaden loaf is a matter of *choice*—not luck. Choice of method—choice of yeast—but, above all, the choice of the *flour*.

Royal Household Flour

is made from the finest, selected Manitoba wheat, which contains more gluten (that quality which makes bread light) than any other wheat.

It is milled under the most sanitary conditions,—there is no other flour in Canada upon which so much is spent to insure its perfect quality.

Ask your grocer for Ogilvie's Royal Household—the flour that makes light bread and perfect pastry.

Don't Paint the Floors

It seems that the womenfolk have been right all along in their prejudice against painted floors and their preference for polished hardwood. The doctors say now that any painted floor catches and holds dust about as badly as a carpet; and dust is known to be the vehicle of many diseases and therefore a menace to health, especially during winter. Dust can be practically excluded from any room, however, by coating the floors with Floorglaze, an ideal floor-finish which gives indoor or outdoor woodwork a beautiful, durable and glossy surface, in any of ten handsome shades. A floor finished with Floorglaze cannot harbor nor hide dust, and can be washed thoroughly clean in a very few minutes.

Floorglaze

Floorglaze is an economy, because it will not show wear in many years, even under hard usage. Anybody who can use a brush can easily put it on right, and it will dry hard over night. This perfect floor finish comes in tins, the sizes ranging from a pint to the gallon can that will cover 500 square feet. Dealers in almost every paint store sell Floorglaze, as well as the other first-rate paints and finishes made by Imperial Varnish & Color Co., Ltd., of Toronto, who send free a readable booklet you ought to request.

PAIN

Pain in the head—pain anywhere, has its cause Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.
If it's painful periods with women, same cause.
If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

The Avonmore Fair.

Splendid Weather and a Record Success.

The directors of the Roxborough Agricultural Society have reason to be thoroughly satisfisd with the result of their efforts in connection with the exhibition at Avonmore on Tuesday and Wednesday of last week. It was a record success in every respect. The exhibits in the hall were above the average and the show of horses and live stock was highly creditable. The competition was keen in nearly every class. The splendid weather on Wednesday brought out a great crowd and the attendance was the largest on record. An excellent program of special features afforded a good afternoon's entertainment and everything was carried on in a most satisfactory manner. The Highland dancing of the Douglas Brothers, of Cornwall, was one of the chief platform attractions and the young dancers received great applause. The music was furnished by Piper McRae, of Dominionville, who was warmly applauded. The Osnabruck Centre Brass Band, under the direction of Mr. H. C. Markell, played in the village and on the grounds during the afternoon, rendering a good programme of the latest popular selections. The trials of speed were very exciting, there being many close finishes. The ladies who worked so energetically selling Tags for the Cornwall General Hospital, realized a nice sum, which will be devoted to improving the Avonmore Ward in that institution.

To Promote Agriculture.

A Second Agriculturist for the County of Dundas.

Mr. Norman D. MacKenzie, B.S.A. has been appointed by the Ontario Department of Education to assist in carrying on the work of agricultural education in the united Counties. Mr. McKenzie was born in Waterloo county on a large dairy farm just outside the town of Galt. He was educated in Galt collegiate institute and at O. A. C. College, Guelph, and received his Bachelor of Science of Agriculture degree from Toronto university in June, 1909. His excellent education, together with his wide farm experience, should make him well fitted for the work he is to enter upon in Dundas county.

We are informed by Mr. A. D. Campbell, the district representative, that a number of boys have signified their intention of beginning the work in agriculture on November 1st. Instruction in agricultural subjects will be given four or five half-days a week, the balance of the time will be spent in taking up the regular work of the collegiate. Special courses in agriculture of about six weeks duration for boys who may have been out of school for some time are also being arranged for.

During the winter a number of short courses of two or three days' duration each will be held in various places throughout the county. For each of these courses specialists from the O.A.C. college, Guelph, from Macdonald College Quebec, and the Dominion Department of Agriculture, Ottawa, will be in attendance.

Prof. Arkell, of Macdonald college, will conduct the work in dairy husbandry; Mr. C. M. McRae, expert judge of horses, will have the horse judging; Mr. T. G. Raynor, of the seed department, Ottawa, will conduct the work in grain and seeds; Prof. W. H. Day, of Guelph, will give lectures in soil physics. The first course will be held at Winchester on November 29th and 30th, and Dec. 1st. President G. C. Creelman, of the Ontario Agricultural College, Guelph, will deliver an address at the evening session on November 30th.

A similar course will be conducted at Morrisburg on December 15th, 16th and 17th. On December 16th Mr. C. C. James, deputy minister of agriculture for Ontario, will deliver an address.—Herald.

Bouck—Johnston.

A wedding took place at the Central Hotel, the home of Mr. and Mrs. Thomas Johnston, at 8 o'clock on Wednesday evening, Sept. 29th, 1906, when Miss Annice, their only child, was united in marriage to Geo. A. Bouck, son of Mr. and Mrs. D. E. Bouck, of Bouck's Hill, and one of Iroquois' prosperous and popular young business men. The ceremony was performed under a beautiful arch of white asters and ferns by Rev. D. O. McArthur. The bride, who was given away by her father, was attired in cream Louisine. Their ouly attendant was Master Arthur Sipes, who acted as page. Miss Iva Johnston, cousin of the bride, played the wedding March. The bride's popularity was evidenced by the many beautiful presents she received, among which was one from Knox Church choir, of which both are valued members. The groom for many years has been one of our most esteemed and active young men both in business and musical circles. Among the guests from a distance were Mr. and Mrs. D. E. Bouck, and Miss Bouck, of Bouck's Hill, and Miss Johnston and Miss Scott, South Mountain. Mr. and Mrs. Bouck left by boat for Montreal and other points, the bride travelling in a navy blue suit with hat to match. Congratulations .— Iroquois News.

Teachers' Association.

Annual Gathering Held at Morisburg Last Week.

The annual meeting of the teachers of Dundas County was held at Morrisburg in the Collegiate on Thursday Sept. 30th and Friday Oct. 1st, 1909, Although the day was very disagreeable, clouds hovering near which dropped their burden as they passed, when the president took the chair a large number of old familiar faces were to be seen. Customary the roll was called by the secretary. Following roll call the minutes of the meeting held the previous year were read and sanctioned. The business committees were elected by the officers. Our distinguished president gave an able address discussiug the reasons why our association meeting was rather late. He portrayed the improbability of having a union teachers meeting of all the teachers of the three United Counties and touched upon the influence of the teacher of any section. He clearly stated that the teacher's profession was rising to where it should be in the eyes of the general public. He forcibly urged upon the teacher's the necessity of giving J. G. McGanet their individual support if we wished to have a man from Eastern Ontario in the Advisory Council. The next number concerned all, for we gave our pennies to keep the wheel a rolling. Our worthy inspector said a few words and we adjourned. The afternoon session opened with roll call the number having increased considerably. The opening address was given by E. T. Slemon B. A. of Ottawa Normal College. He spoke on the use of the Concrete and Semi-Concrete in teaching Arithmetic· He took us back to Greece for an ideal although he stated that the Greek education lacked two elements viz:—Christianity and form of Government. He showed us the better side in their beautiful language, their freedom to think and do and also the physicial education of their boys. The greek boys always had some great philospher for their ideal. But the greatest thing the way in which everything was balanced. We can only study the ideal Greek life through the Greek language which few of us have done thus practically losing the concrete part of the Greek education. Our present education consists of four main parts: 1. Literary, 2. Scientific, 3. Psychological, 4. Specialization. Our great mistakes are assuming that the child knows what we know and has what the man has. Weaannot have the abstract without first perceiving the con crete, you must establish the relation of the concrete before the abstract. Make the child's life like the outside world. He also showed us many devises by which we could bring the child's mind to the concrete form in teaching arithmetic. All appreciated it very much. G. K. Casselman a graduate of Guelph College and also of the normal college favored us with a paper on Industrial Art in which he showed its benefit financially and also in school work by correlation. Mr. Brown was a strong advocate in his favor Mr. Jamieson expressed his disgust at eliminating model schools and also of doing wrong in paying men higher salaries. This was offset by Mr. Brown. The questions for the question drawer were collected after which we adjourned. The next morning showed a very large attendance after roll call we joined in the Maple Leaf. Mr. Campbell agriculture specialist spoke concerning his work and of his intentions of holiding class meetings during the winter at different points. He showed how the teacher could help him in solving the question how to keep the boy on the farm. He mentioned the probability of having an exhibit of school garden product at some fair. Mr. Bowen ghve his report of the O. E. A. which showed the probability of having uniform holidays and the fact our correculum was too full. He urged that the playful instinct of children should be turned into an educational line by manual training. He referred to the teacher as the ideal for his pupils as Mr. Henri had done before and pointed out the necessity for considerable drawing if we wish to have Canadian architects. He quoted J. T. McJanet's words: —The developing of the child is the sacred function of the teacher. The following valuators were elected:—1. J. E. Dawson, 2. C. R. Dupreau, 3. W. A. Bowen, 4. D. L. Collison, 5. G. H. Steer, 6. H. Loucks, 7. A. A. Strader, 8. Mary Marselis, 9. C. Summers, 10. N. M. Thompson, 11. L. B. Larmour, 12. Stella Merkley, 13. G. K. Casselman, 14. Ed. Strader, 15. K. Shannette. The next number was a lecture by E. T. Selmon on elementary mensuration. By mensuration we show the practical character of arithmetic. He took up, showing how to find the area of triangles, circles and spheres and also volume of pyramids and spheres. In closing his address he stated that a teacher should have $1000 a year and strongly urged the fact that onr schools should be better equipped, but nevertheless says he the salary is a secondary part when considered with the work of developing child life. Mr. Brown in his discussion on the Entrance Examination stated why a smaller number of candidates in this county passed entrance than in other counties.

1. The pupils were qualified before they were allowed to write.

2. The pupils were older thus being better read. He strongly urged that entrance should be at the end of the first form. Mr. Henri gave a short talk on the poor methods which he noticed prevalent throughout the county.

Afternoon session opened with roll call. The following officers were elected by ballot.

Hon. President—A. Brown, I. P. S.
President—H. Loucks. Morewood.
Vice-President—W. A. Bowen, Iroquois.
Secretary—E. J. Keenan, Winchester.
Management Committee:—A. A. Strader, D. L. Collison, K. Shannette.

The following resolutions were then passed by the teachers.

1. That the institute place upon record their appreciation of the courtesy of the county school board in permitting them the use of the collegiate buildings and that a copy of this resolution be sent to Dr. McLaughlin chairman of board.

2. That the Institute desires to express its hearty appreciation of the addresses so ably given by Mr. Slemon B. A., and that he has been of inestimable value to the teachers in presenting to them good methods and a noble aim.

3. That a hearty vote of thanks be tendered Inspector Brown, Mr. Jamieson, Mr. Henri, Mr. Bowen, Mr. Casselman and Mr. Campbell for their able assistance during the convention.

4. That the institute express its appreciation of the services of Mrs. Kerr, Mrs. H. Armstrong and Miss Derosier for the part taken by them in the concert on the first evening of the institute.

5. That it is the feeling of the institute that the obligations of teachers acting as delegates to the O. E. A. should be made more definite. The auditors report was given by H. Loucks. The delegates elected for the O. E. A. were C. Dupra and K. Shannette. Mr. Slemon, assisted by other teachers gave able answers to some very important questions. After singing God Save Our King, we adjourned until next year.

O'Brien Sold a Mine.

About two months ago M. J. O'Brien and a partner purchased a mining property in the Gillies Limits from the Ontario government for $10,500. It turned out to be exceedingly rich and Tuesday it was sold to a Montreal syndicate for $400,000. This is certainly one of the greatest profits yet made on a mining claim. Mr. O'Brien states emphatically that the O'Brien mine is not for sale.
