The Late Joseph B. Johnston.

Mr. Jos. B. Johnston, an old and respected resident of Winchester, passed away Sunday, Nov. 17th, 1912, aged 87 years. He had been ailing for several years. The deceased was born at Bell's Point near Prescott, where he resided until ten years of age, when he came with his mother to Mountain township, locating on the farm now occupied by Colborne Bros. In 1854 he was married to Miss Jennett Brown, daughter of Mr. and Mrs. John Brown. Some years later he removed to the farm occupied at the time of his death, his wife predeceasing him seventeen years ago. Two sons, Thomas and Moses, are the only surviving members of the family. The funeral was held at St. Paul's church, Winchester, on Tuesday afternoon at 1.30 and the remains were interred in the Brown cemetery.

Better Than The Best.

While it is generally admitted The Family Herald and Weekly Star of Montreal, is the best family and farmer's weekly paper printed, the Publishers are determined to make it still better. They are sparing no expense to give their subscribers at 1913 bigger value than ever. Their beautiful picture "Mother's Treasures," is a delightful subject for the home and it is safe to say that no one who receives a copy would part with it for double the money.

No mistake can be made in sending one dollar for the great weekly paper for 1913. Every subscriber gets the picture, "Mother's Treasures 23 by 25 inches, free. It is the biggest dollars worth offered to-day.

Supposed Suicide at Smith's Falls

A young man named Walter Francis was found dead in the swale at Smith's Falls one day last week, and it is believed he committed suicide. The deceased had been employed as hostler at the Rideau Hotel for the past four years, and he got up at the usual hour and attended to his duties. He did not come in to breakfast and nothing more was seen of him until his dead body was found. Francis had spent Sunday in Montreal, and since his return he appeared to be very despondent. He was twenty-eight years of age and unmarried.

Eugene Murphy of Colquhoun Dead

Death has again visited Colquhoun and removed from that vicinity an old resident in the person of the late Eugene Murphy, who was called away on Wednesday, Nov. 20th, 1912.

The funeral took place on Friday, 22nd, from his late residence to the Presbyterian church, Colquhoun.

The service was conducted by Rev. Mr. Aubin, of Dunbar.

The deceased was 78 years of age and leaves behind to mourn his loss three sons and one daughter: Alonzo at home, Nathan of Dundela, Ansley of Chesterville, and Mrs. James Dennison of Western Canada.

The pall-bearers were: Messrs. George Countryman, Nadab Gallingier, William Kennedy, Thomas Black, Edwin Beach and John Hanna.

Won the Election.

Mr. Donald C. McLean, brother of Mr. Chris. McLean of this place was successful with his candidacy as State Senator for Webster, S. D. winning the election by 684 majority. His policy was for the "Good Roads" bill and agricultural interests of South Dakota, he being a farmer.

A Big Snow Storm.

On Monday morning when the public arose from their slumbers they were surprised to find that during the night the heaviest snow fall for years in that space of time had taken place, and it is estimated that there was about 20 inches on the level. The weather has been mild since and the chances are that it will not stay with us, although it would be quite agreeable to all if it does.

You are cordially invited to attend a Euchre Party and Assembly in the Music Hall to-morrow (Friday) evening, Nov. 29th.

Presbyterian Entertainment a Success.

The Entertainment given on Tuesday night under the auspices of the Presbyterian Ladies' Aid, was a decided success. The state of the roads, because of the heavy snow fall, and the somewhat disagreeable condition of the weather that evening, interfered with the attendance, especially with the country folk. The programme was all that could be desired, high class and full of merriment. The Chesterville orchestra rendered several very choice selections, which were very much enjoyed. Miss Gordon maintained her high standard of excellence in a charming solo and Rev. W. H. Stevens rendered Drummond's "When Al-bani sang," from the Habitant, in his usual masterly way, for he is at home in his rendition of the broken French.

The Chesterville young people have a record for their amateur work in presenting plays, and last night added another laurel when "Winning Ways" was played. In many ways the most pleasing, at any rate the most amusing part of the programme was "Mrs. Jerusha Dow's Family Album," presented by 30 young people. The costumes were very appropriate and many of them ancient, this added greatly to the beauty and charm of the various poses.

The Late Rev. Thomas McAmmond.

There passed away at Morrisburg on Saturday morning last in the person of Rev. Thomas McAmmond one who has been a familiar figure and an impressive personality in Chesterville and its vicinity for upwards of fifty years.

The late Mr. McAmmond for some years has been on the retired list of the ministers of the Methodist church in Canada. But though occupying a superannuated relationship to the Montreal conference he has been a regular attendant upon its sessions and was highly esteemed by members, lay and clerical. The late christian apostle was a most zealous and devoted servant of the Divine Master and his fervent appeals as a preacher, will long be cherished in memory.

By nature he was endowed with a vigorous physique which he employed in labors abundant in the work of his calling.

At the time of his passing he was in his 75th year. For some time he had resided in the village of Morrisburg.

At the Summer School at Iroquois Point he was an interested participant in all sessions and will be greatly missed by young and old with whom he was deservedly popular. The condolences of many in Chesterville will be extended to the bereaved widow who survives and the immediate relatives and friends. The Rev. Robt. McAmmond missionary to China, son, Mrs. Kerr and Mrs. Irwin Hilliard, daughters, of Morrisburg, were all present at the dying bedside of the lamented minister. Interment took place on Monday last at Morrisburg.

Rev. Dr. J. Clark Murray of McGill University, celebrated his fiftieth anniversary as a teacher.

Disastrous Fire At Prescott.

Shortly before midnight on Wednesday of last week fire broke out in the C. P. R. offices and freight sheds at Prescott and in less than three hours the large frame structure, with its contents, was completely destroyed, together with nine box cars on the freight-shed siding, loaded with general merchandise. In one end of the sheds were stored 200 tons of coal, which were destroyed. The heavy losers are the C. P. R. The Canadian Customs and the R. & O. Company suffered somewhat by having their offices destroyed. The extent of the damage is roughly estimated at from \$60,000 to 75,000.

Eastern Ontario District Dairy Meetings.

The annual district dairy meeting for the County of Dundas will be held in the Village of North Williamsburg on Tuesday, December 3rd, 1912, at 2 o'clock p.m., under the auspices of the Provincial Department of Agriculture and the Dairymen's Association of Eastern Ontario.

Mr. Henry Glendenning, Manilla, and Mr. G. G. Publow, Kingston, Chief Dairy Instructor for Eastern Ontario, will be present and address the meeting.

Messrs. C. W. Norval, of North Williamsburg, and T. J. Ellis, Chesterville, District Dairy Instructors, will be present and report upon their work during the season.

Mr. J. A. Campbell, Director of the District, will occupy the chair.

At the close of the meeting a director will be nominated to represent the district for the ensuing year.

The great value of this meeting to the dairy farmer cannot be over-estimated, and every farmer and farmer's son, who has the interest of his calling at heart, as well as its monetary success, should not fail to be present.

Options On Land For Cigar Box Wood

Hon. Adam Beck has taken options on 900 acres of land around Iroquois for the purpose of manufacturing cigar boxes. His representative has returned to London. It is understood that machinery for a mill will be shipped on right away and operations commenced at once. There is an abundance of spruce, Balm of Gilead and poplar around Iroquois, and is these woods that are suitable for cigar boxes. They are almost worthless for lumber or any other purpose. The settler it is understood, will get \$3 per thousand feet on the stump, and his land will be cleared without any cost to himself. Mr. Beck's representative is very enthusiastic about the possibilities of the industry in Northern Ontario.

A Grand Assembly and Euchre Party, under the auspices of St. Mary's congregation, will be held in the Music Hall, Chesterville, on Friday evening, Nov. 29th.

TORTURED FROM BABYHOOD

"Fruit-a-lives" Cures Constipation

Miss E. A. GOODALL

EDMONTON, ALTA., Nov. 20th, 1911

"I have been a sufferer since babyhood from that terrible complaint, Constipation. I have been treated by physicians, and have taken every medicine I heard of, but without the slightest benefit. I finally concluded that there was no remedy in the world that could cure Constipation.

About this time, I heard about "Fruit-a-lives" and decided to try them. The effect was marvellous.

The first box gave me great relief, and after I had used a few boxes, I found that I was entirely well.

"Fruit-a-lives" is the only medicine that ever did me any good and I want to say to all who suffer as I did—"Try this fruit medicine and you will find—as I did—a perfect cure."

(Miss) E. A. GOODALL
"Fruit-a-lives" is the only medicine in the world made of fruit and the only one that will positively and completely cure you of Constipation.

MEN-YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

Wonderful Nervous System

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early Indiscretions and Excesses have ruined thousands of promising young men. Unnatural Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is GUARANTEED TO CURE

We have treated Diseases of Men for almost a lifetime and do not have to experiment. Consult us FREE OF CHARGE

TWO KILLED IN WRECK

Many Others Are Hurt in Disaster on the C.P.R.

Early Morning Train From Kootenay Landing to Medicine Hat Is Derailed at Fitzgerald While Running at a High Rate of Speed—Engineer and Fireman Are Killed—One Other Will Die.

Medicine Hat, Alta., Nov. 26.—The early morning crowd train, due in Medicine Hat at 4.30 o'clock, from Kootenay Landing, piled in a heap about 3.30 p.m., at Fitzgerald, a small crossing between Seven Persons and Bull's Head. Two engines, lost their lives and some 17 people were more or less seriously injured. Two or three of the injured are seriously hurt; one will likely die.

Engineer James Cain, a veteran at the throttle, lay under the firebox of his engine. He suffered a terrible death, as did also his fireman, H. H. Flower. When it struck the switch the engine careened and rolled completely over, the train broke loose and the baggage, express, mail car and coaches left the track and rolled over.

Engineer Cain's head was badly cut, but he evidently died as the result of escape of steam from the broken and twisted engine boiler. When the rescuers found him he was dead.

Fireman Flower of Calgary died like his chief, at his post, and in the same manner, only that there is not a mark of any kind on his body other than the scalds.

Of the eight injured who were taken to the hospital on the arrival here of the rescue train, one, Geo. Dowling, a carpenter of this city, will likely die. He is in a precarious condition. The others are seriously hurt, and it will be a few days before it is known what the outcome will be.

At the C.P.R. offices last evening the following official statement was issued:

"Herewith list of persons killed and injured at wreck of train No. 514 this morning at Fitzgerald:

"J. Cain, engineer, scalded to death.

"H. H. Flower, fireman, scalded to death.

"Injured: William Smith, passenger, Lethbridge, forehead cut; George Dowling, car repairer, Medicine Hat, right leg badly crushed, amputation necessary; William Cross, passenger, Lethbridge, right ear cut, shoulder bruised; George Russell, passenger, Keeler, Sask., hand cut; Henry Hendrickson, passenger, Finland, three scalp wounds; Joseph Wynn, passenger, Central Butte, Sask., abdomen injured, not seriously; Abraham Douglass, passenger, Kipp, Alta., scalp wound, five inches long, left shoulder severely injured; Martin Edwardson, passenger, Seven Persons, right arm broken in two places, right shoulder cut and bruised.

"All the above were taken to the Medicine Hat Hospital and attended to. Those able to do so returned to their homes.

So far the investigation shows that the accident was due to the excessive speed of the train when passing over the west switch at Fitzgerald."

Montreal Branch Secured.

Montreal, Nov. 26.—It is officially stated here that the Grand Trunk Pacific Railway's long-talked-of Montreal branch has been solved by an agreement entered into with the North Railway Co. whereby the G.T.P. will secure running rights over that line from Montreal to the Bell River, where the North Railway crosses the Transcontinental 250 miles from here and half way to the James Bay.

The North Railway, which has been subsidized to the extent of \$6,400 per mile for the total 500 miles from Montreal to the mouth of the Nottaway, will be put under contract from the Bell River to the bay by the first of the year when the locating party of engineers are expected at the Transcontinental.

R. W. Newman, the naval architect of the North Railway Co., has also prepared plans for two 6,000-ton steamers, carrying each 200,000 bushels of grain and with accommodation for 100 first and 200 second-class passengers. These steamers to ply between Nottaway and Nelson will be named after those two ports.

Carnegie Is Optimistic.

New York, Nov. 26.—"The universe is well," according to a sweeping diagnosis of affairs which Andrew Carnegie made in a genial philosophical mood on his 77th birthday yesterday. He said that anyone who believed the country was going "to the bow-wows" was sadly mistaken. "We pick out our own kings," he said, in comment upon the elections, "and we always pick good ones."

"Do you know the reason I am so happy?" he asked. "It's because I have a higher opinion of the human race than ever and this higher opinion is caused by knowing many men and women. Woman has attained an almost angelic height."

Mr. Carnegie spent the day quietly at his Fifth avenue home, receiving many congratulations from friends who called or sent telegrams.

Blames Bad Whisky.

Kingston, Nov. 26.—Believing doped liquor is being sold in local hotels, Canon Starr has called upon temperance workers to ask that an inspector be appointed to test the quality of liquor given over the bar. The

Canon states that inspection otherwise is good, but that drunkenness has not decreased as it should. He declares that there is more drunkenness on the streets here now than there was five years ago, and puts the blame on bad whisky.

Niobe's Trip Cancelled.

Halifax, N.S., Nov. 26.—There is much disappointment aboard the Canadian cruiser Niobe because of orders received from the naval service at Ottawa cancelling the cruiser's departure for England, which had been fixed for Dec. 10.

EXPLOSION HURTS MANY.

Several May Die as Result of Disaster in Brooklyn.

New York, Nov. 26.—Brooklyn's east river waterfront was the scene late yesterday of the most serious explosion and fire which that section has known for years. Fifteen men were removed to hospitals suffering from burns and injuries, from which a number may die, and several persons on the scene at the time were missing last night, but late reports discredited earlier beliefs, that several lives were lost. The area of three blocks was swept and a loss of nearly \$1,000,000 caused, despite the fact that the Brooklyn firemen were aided by New York fireboats and apparatus rushed across the bridges from Manhattan.

The fire started with a series of explosions of chemicals on the ground floor of the five-story building of the Union Sulphur Co., in the Williamsburg section of Brooklyn. Of seventy men at work in the building, a dozen on the main floor were hurled in every direction, suffering terrible burns, bruises and broken bones. A series of four other explosions followed in quick order, and the building was soon enveloped in the weird blue flames of burning sulphur. Workers who had escaped from other floors, some by jumping, sought to fight their way through the billows of sulphur fumes to the rescue of their comrades, and were themselves overcome, but although late last night, half a dozen employees had not been accounted for, it was regarded as doubtful that any had been left in the building.

WOMEN NOT SCARCE.

Proposal to Encourage British Exodus Is Not Encouraged.

London, Nov. 26.—(C.A.P. Cable.)—Col. Yates, calling attention to the decision of the Canadian Government to establish a women's immigration branch in England, asked if Colonial Secretary Harcourt would consider the question of forming an Imperial emigration board with the overseas representatives, to go thoroughly into the question of women's emigration. The excess of female over male adults in 1911 was nearly a million and a half.

Hon. Mr. Harcourt was not prepared under present circumstances to consider the question of forming such a board. The subject, he said, is under consideration of the Dominion's royal commission. It has not been considered necessary for the British Government to offer any special encouragement to female emigration.

Col. Yates: "Will His Majesty's Government take no steps whatever?"

Hon. Mr. Harcourt: "I don't think there is any necessity for female emigration to Canada and other parts of the dominions has been greater in the last twelve months than at any previous period."

In the House of Commons last night Hayes Fisher proposed an amendment to clause 15 of the home rule bill, providing that the Irish Parliament should not be allowed to interfere with any Imperial taxes under the bill. He contended that the Irish Parliament could vary the income tax to any extent.

The amendment was rejected by 145 to 117.

Gibson Gets Respite.

Toronto, Nov. 26.—Charlie Gibson, convicted murderer of Joseph Rosenthal, was granted a slight respite by Chief Justice Sir William Mulock yesterday, when he allowed defence counsel Aubrey Bond's motion for a reserved case, as to the advisability of the evidence of Eli Dunkleman. Should the court of appeal decide that the evidence should not have been admitted, another jury will be empanelled and Gibson given a new trial. On the other hand, should they conclude that Chief Justice Mulock was right in admitting such evidence, the chief justice will have no other course but to pass the death sentence.

Warning.

The Florists' exchange reports the death of a child in Oregon from eating the berries of the Virginia creeper, Ampelopsis quinquefolia, which had not previously been regarded as poisonous, though the bark, sometimes used cautiously in medicine, appears to possess poisonous properties.

Saving Many Steps.

Can you hang a rod through the shed to open the door to let the cattle out the back way, closing the door with a lever? It will save you three miles a year. Think it over.—Farm and Fireside.

Death of Mr. Lindsay Smirle.

On Wednesday morning, Nov. 20th, 1912, there passed away in Winnipeg, an old Stormont County boy, in the person of Mr. Lindsay Smirle, son of Mr. James Smirle of Cannamore.

Mr. Lindsay Smirle had been for some time past a resident in St. Laurent, Manitoba, as Station agent of the Canadian Northern Railroad. He had but recently resigned from this position owing to ill-health, and had just moved to Winnipeg, when he was seized with an attack of apoplexy and fell to the hard pavement, sustaining a severe concussion of the brain. Expert medical and surgical advice was called and the usual operation of trephining was successfully performed, but the combination of illness and the shock of the fall and operation proved too great a tax upon the patient's strength and he succumbed within twelve hours after the operation, having never regained full consciousness after the seizure. His father, who had been hastily summoned to Winnipeg, reached his bedside some hours before the fatal termination of his son's illness.

The body of the deceased was conveyed from Winnipeg to Chesterville, arriving here on the 9.40 a. m. train Saturday, Nov. 23rd, and thence to his home.

The funeral took place on Sunday, Nov. 24th, at 2 p. m., under the auspices of the Chesterville lodge A. F. & A. M., No. 320, of which the deceased was a member.

The Rev. K. A. Gollan preached the funeral sermon in the Morewood Presbyterian Church, from whence the remains were taken to the Morewood cemetery and interred in the family plot.

Lindsay was a great favorite of the men of the Railway service and indeed all who knew him will long hold him in loving recollection for his many manly and kindly qualities.

He leaves behind him a wife and two little children in Winnipeg, his father and mother, Mr. and Mrs. James Smirle in Cannamore, and an only sister, Mrs. Cecil Moyer of Ottawa.

To all the bereaved family and near friends the Record tenders its respectful sympathy.

Liddel-Beck.

St. Paul's church, Toronto, was the scene of a quiet wedding at four o'clock Wednesday afternoon last when the marriage was solemnized of Hazel Marian, third daughter of Mr. and Mrs. Herbert H. Beck, to Mr. Percy Macdonell Liddel, eldest son of Judge and Mrs. Liddel, of Cornwall. The Rev. Archdeacon Cody performed the ceremony. The bride was given away by her father and attended by her young sister, Miss Phyllis Beck. After the ceremony a reception was held, and later the bride and groom left for a trip to Montreal and Quebec before going to their home in Saskatchewan.

At Level Crossings.

The specifications for the protection of highway crossings by Canadian railways have been changed by an order issued by the board of railway commissioners Saturday.

Under the new regulations it is ordered that the posts to which the bells and other signals are attached, if not timber, must be sound in quality, not less than eight by eight inches in dimension and 18 feet in length, and sunk a distance of four feet in the ground; if of iron or of steel, at least four inches in diameter 12 feet in height and firmly bolted in a concrete foundation. The bell used must emit a clear, loud volume of sound under all weather conditions. There must be a sign with the word Danger in letters not less than six inches in length and illuminated.

The bell and the illumination of the sign are to be controlled and operated automatically by the approach of trains in such a manner that this cause only shall be sufficient to operate the signal. The new regulations, which have been adopted as a result of the recommendation of the chief engineer of the board, rescind those put in force in February of last year and come into operation today.

CITY CIRCULATION AGENT

Of Leading Montreal Daily
Endorses GIN PILLS

IVE long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and it's all gone. That has been the experience of Mr. Eugene Quesnel, Chief City Circulation Agent of La Patrie, of Montreal. He describes it feelingly:

Montreal,
May 3rd, 1912
"I have been suffering from Kidney Trouble for over five long years. I had also Rheumatism in all my bones and muscles, could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLS, and he advised me to try them. So I bought two boxes at my druggist's and before I had used one box I felt a big change. Before I finished the second one I was completely cured.

I can assure you I can hardly believe it for if I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLS cured me."

GIN PILLS are gaining a world-wide reputation, by the way they conquer the most obstinate cases of Rheumatism and all kinds of Kidney Trouble.

Something Doing all the Time.

Hodge's musical and burlesque show and "Babes in the Woods" held forth in the Music Hall on Saturday and Monday nights to fair sized houses. On Saturday evening he presented "The Babes in the Woods" and being an expert ventriloquist amused the large number of youngsters, as well as the older ones who were present, to a lot of sport in talking to his dummy son and daughter. On Monday evening he presented many slight-of hand trick, and he certainly is an expert in the game, and concluded with a laughable farce entitled "Who is Boss: Husband or Wife?" This certainly proved to be a very interesting part of the programme.

Council Meeting.

A meeting of the Village Council of Chesterville, was held on Wednesday, at which the following motion, relative to the submission of the Hydro-Electric power, was moved, seconded and passed:—

Moved by H. G. Merkley, seconded by George H. Ellis, that it appearing from the Report of the Committee appointed to investigate the question of electric lighting that the offer of the Hydro-Electric Power Commission to the Villages of Chesterville and Winchester is as follows, namely:—

For Chesterville:—\$44.00 per horse power. \$13,515 estimated proportionate share of cost of transmission line.

For Winchester:—\$24.00 per horse power. \$7,280 estimated proportionate share of cost of transmission line.

And it appearing also that the offer for both Chesterville and Winchester Village depends upon the sale of electric energy to the amount of about 750 horse power at Russell, Ontario.

Resolved that this Council call the attention of the Hydro-Electric Power Commission to the fact that the most direct line for a trunk line for power transmission between Morrisburg and Russell is via Chesterville and that a line constructed via Winchester will be at least three miles longer thus entailing further expense.

And it further appearing that a line constructed via Chesterville would be in a position to afford power to the Village of Finch and to the Police Village of Avonmore, which Villages would require a larger amount of power than would be disposed of if the main line were constructed via Winchester.

That the Committee of this Council having the matter in hand point out the advantages of constructing a power line to Russell via Chesterville instead of via Winchester and at the same time offer and they are hereby authorized to offer to bear their proper proportion of the cost of a power line that will reach both Villages so that the cost per horse power of electric energy will be the same delivered at each Village.

That unless some concession of the nature indicated in this resolution be made, this Council cannot approve or consent to a contract for the delivery of electric power, deeming the contract already prepared and submitted unfair and a discrimination against this Village.

McQuaig-Hunter.

A quiet but very pretty wedding took place on Wednesday, 13th inst., at the home of Mr. and Mrs. M. E. Hunter, Morewood, when their daughter Zoe was united in marriage by Rev. K. A. Gollan to Mr. Wm. McQuaig, formerly of Winchester, now of Calgary, Alta. The bride, attired in simple dress of chiffon over white silk, with a delicate spray of lilies-of-the-valley in her hair was given away by her father. After the ceremony a reeherche luncheon was served to a small company of the immediate relatives, the table decorations being carnations, chrysanthemums, lilies-of-the-valley and smilax. The bride was the recipient of a large number of beautiful gifts in silver, china, cut glass and linen, several of which were presented by girl friends at a "shower" in Chesterville, and others at a similar function by her Morewood companions. After a few days spent in visiting Winchester friends, Mr. and Mrs. McQuaig were accorded a reception on Friday evening at the manse, Morewood, by the members of the choir of the Presbyterian church, in which Mrs. McQuaig had rendered valuable service for some time. After a few hours of sociable enjoyment they were presented with a very handsome cut glass water bottle and tumblers by Miss J. Stephenson, Mrs. Geo. Moffatt reading an address of appreciation and good wishes. Mrs. McQuaig was also presented with a silver meat fork by her class of little girls in Morewood Presbyterian Sunday school. The young couple left on Monday morning for their western home, followed by the congratulations and good wishes of a host of friends.

Seek Rise In Indemnity.

Ottawa, Nov. 25.—There are rumors that an agitation will be started to have the sessional indemnity raised from \$2,500 to \$3000. The increase in the cost of living at Ottawa, which has gone up by leaps and bounds during the past few years, is the principal reason advanced by those behind the scheme for the increase of the indemnity.

Local Option Beer Was Too Strong.

The drinking of "Local option" beer has been discouraged, and as received a setback in the Hastings-Northumberland district. Provincial License Inspector Morrison has just completed a tour of the district, leaving behind him a trail of convictions and an emptiness of pocket.

On charges of selling liquor without a license J. H. Whitley, of Sterling, was fined \$100 and costs; H. E. Needle, of the same place, paid \$500 and costs; O. W. Martin, of Trenton, paid \$100 and costs, and similar fines were paid by George A. Van Houten, of Murray; J. A. McDonald of Frankford, and George Price, of Millbrook. William Howard, of the Ontario House, Port Hope, was fined \$300 and costs on a charge of selling liquor on Sunday.

Practically all the charges except that against Howard were for selling local option beer above the alcohol percentage allowed by the Act. One of the men operated a bottling establishment and manufactured the local option liquor by putting a quantity of beer in a cask and filling it up with aerated water. According to the license officials, he did not take the trouble to find out whether his product was above the legal percentage of alcohol or not, and some of those fined dispensed the beverage.

Rural Mail Postage.

The postage on all rural mail is 2 cents. For instance, if a letter is posted at Chesterville for delivery by rural mail, the postage is 2 cents. If a letter is posted on a rural mail route for Chesterville the postage is 2 cents. Many people seem to think that the postage on rural mail was only 1 cent, and as a consequence double postage has to be paid by the receiver or the letter goes to the dead letter office.

People To Vote On New Road.

It was resolved by the civic railway extension committee at Ottawa to endorse the request of the Ottawa and Morrisburg Railway Company relative to bringing their line via the south of the city to proposed terminus in Ottawa East, so that the matter may go before the city council as soon as possible and be submitted to the electors at the coming elections.

The proposed line is to consist of a single track to enter the city east of Bank street at the Rideau river, whence it will pass along Riverdale and Main street to the canal. An hour service summer and winter will be agreed to by the company who ask for the same conditions from the city as the Ottawa Electric Railway now enjoys.

Ald. Desjardins and others objected to granting a 25 years' agreement, which was asked for by the company, but Mr. G. Kelley, who was acting for it, consented to waive this claim, but insisted on a term of at least 15 years, as it would be impossible to sell the bonds of the company if the term were shorter.

As regards running rights that might conflict with the interests of the Ottawa Electric Railway, Mr. Kelley asked that the two com-

panies might meet on equal terms—let the O.E.R. have running rights over the new line or vice versa. This point was settled without difficulty.

It is proposed to start work on the line next March at both ends and have it rapidly completed.

"See That Bald Headed Young Man"

"I know he is only 38," said one young lady to another at a social function, "but he looks like 50."

"Better say he looks like 60," replied the other.

Young men who use Parisian Sage never grow bald because the hair root is supplied with plenty of nature's own nourishment, which means at all times an abundance of healthy hair.

Young Man, if yours is thinning out; if that little bald spot on top is beginning to spread try Parisian Sage. It is guaranteed by W. G. Bolster to stop falling hair, banishes dandruff, and scalp itch, or money back, 50 cents at dealers everywhere.

TREATMENT FOR INJURED UDDERS

Many times the wounds and inju-
ries of the cows are slight and involve
only the superficial structures of the
gland and no well marked symptoms
are present, writes A. E. Vandervort
in Hoard's Dairyman. In these cases
no special treatment is called for, as
nature, under favorable conditions,
will soon affect a cure. In the more
severe cases the injuries are usually
noticed by the milker on sitting down
to the cow to milk or by the uneas-
iness of the animal while milking.
Cuts and bruises are readily observ-
ed, while blows or injuries that do not
abrade the skin are not so readily re-
cognized. On careful examination hot,
sore, swollen areas are located, which
are superficial or deep, depending on
the nature and severity of the injury.

Rockdale Perfection DeKol, grand
champion Holstein bull at the Iowa
state fair of 1912, as indicated by his
name, comes from a line of breed-
ing noted for excellence both as to
cows of great milk and butter pro-
ducing qualities and bulls of great
prepotency. Rockdale Perfection
DeKol is owned by Iowa farms,
Davenport, Ia., of which J. L.
Thatcher is manager.

Where the substance of the gland is
involved many times the first thing
that gives warning of an injury is
blood streaked milk from the quarter,
this being due to the rupture of some
of the small blood vessels.
There is nothing that affords greater
relief and so quickly as applications of
hot water or poultices to wounded or
injured udders. Woolen cloths wrung
out of hot water and held against the
affected part several times daily will
be followed with good results. Where
the pain or soreness is excessive an
anodyne, opium or belladonna may be
added to the water. Follow the appli-
cation of water with soothing oint-
ments or anodyne liniments. These
should be rubbed in well and the ud-
der gently hand rubbed. Belladonna
or camphorated ointment is a very val-
uable remedy where the pain is se-
vere, or the tinctures of belladonna or
opium may be applied direct where ne-
cessity demands it. It is better not to
resort to extreme measures if they can
be avoided, as the results from these
heroic measures are often injurious to
the gland.
Cuts, lacerations and bruises are
treated in the cow the same as in man.
Where the wounds are large and gap-
ing they should be washed out with
clean water and antiseptics, all ragged
edges removed and the wound sewed
up.

Live Stock on the Farm.
Live stock supplies a market for home
grown roughness and brings cash for
much that would otherwise be waste.
It rejuvenates the soil and makes it
possible to farm the same land for
centuries instead of generations, as
is our present practice, says the Kan-
sas Farmer. It multiplies into a mar-
ketable commodity for which there is
always a ready sale and a good price.
Live stock and its products will never
be as cheap as they have been, and
they will probably become increasing-
ly more costly. The man who has live
stock for sale each year at such prices
as have recently prevailed and will
continue to prevail will always get
ahead or have the means of doing so.
His farm will be richer and his bank
account larger by reason of their pres-
ence. In fact, no man who practices
general farming as usually understood
in the corn belt states will do himself
the justice that he should do if he un-
dertakes to farm without live stock.

Silage For Beef Feeding.
The best ration found for fattening
cattle in winter at the Purdue experi-
ment station is reported by Professor
F. G. King to be one composed of all
the corn and corn silage the steer will
eat, two and one-half pounds of cot-
tonseed meal per thousand pounds of
steer and a small amount of dry
roughage, either clover hay, corn stov-
er or oats straw.
Steers fed on this ration have made
a higher average profit than steers fed
any other ration. Steers fed corn
cottonseed meal and corn silage with
out dry roughage have made cheaper
gains than those fed any other ration,
but have not attained quite so high a
finish as those fed this ration plus
some dry roughage.—Breeder's Ga-
zette.

THE HORSEMAN.
A well broken colt saves much
time and is a pleasure to the
driver and to those who see him.
With a young horse or two for
sale each year of the type suit-
able for the market demands the
farm income is noticeably in-
creased.
Many of the troubles with both
young and old horses may be
traced to bad teeth.
The way to increase the appe-
tite of a horse, if such a thing
is necessary, is to change his
diet frequently.
Study the requirements of each
horse as to amount and kinds of
feed. The usefulness of a horse
depends upon his ability to per-
form the work required of him.

CARE OF FALL PIGS.
**Warm Shelter and Liberal Feed Keep
Youngsters Thrifty.**
Fall litters require special care and
attention. The problem is to keep the
pigs growing with the same rapidity
and to maintain the same degree of
health that is possible with spring
pigs. Several things make this espe-
cially difficult. The large variety of
succulent green foods of summer is
not available. Oftentimes during se-
vere winter weather the pigs are con-
fined to such an extent that they do
not obtain enough exercise to keep
them healthy. Then pigs do not eat
readily if exposed to severe cold.
Neither do they drink a sufficient
amount of water.
It is cold weather that brings the
real perplexities. Pigs are not consti-
tuted to stand winter weather. Proper
winter housing means warmth, ventila-
tion and cleanliness. Throughout the
corn belt, which is the great hog rais-
ing section of the country, winter con-
ditions must be met. The farm hog-
house will ordinarily be too cold. Yet
it can be banked up with straw and
thus made comfortable. The big hog-
house has a distinct advantage in that
it can be utilized for feeding the pigs
within shelter. It is a losing practice
to feed the pigs outside during severe
weather. They will not eat well, and
much feed is required to keep up the
body heat, so they make poor gains.
Winter feeding is quite simple, ow-
ing to the limited number of feeds
available at this season. Naturally
corn will furnish the basis of the rat-
ion. Alfalfa fed in a rack is proving
a boon to corn belt feeders. The pigs
take to the alfalfa very readily and
eat large quantities of it.
The usual supplement of shorts, tank-
age or skim milk will furnish the ne-
cessary protein if alfalfa is not availa-
ble.
Exercise is not to be neglected, yet
it is better to have the pigs remain in
side a comfortable shed rather than
expose them to severe cold. In fair
weather they will get out and hustle
about the pasture or lot if they are
given opportunity. In the sleeping
quarters cleanliness must be main-
tained. A liberal supply of fresh bed-
ding is needed to make the pig com-
fortable. Ordinary farm straw and
shredded corn fodder no doubt are the
most satisfactory materials to use for
that purpose.
The watering of the pigs deserves
far more attention than it ordinarily
receives. It has been proved beyond
doubt that pigs that drink an insuffi-
cient amount of water assimilate their
food poorly and make but light returns
in gain for the amount of feed con-
sumed. It is safe to say that pigs
will not consume as much water as
they should have when it is necessary
for them to go out into the cold and
drink water from a trough that is
coated with ice. If fresh water can
be furnished inside the shed, where it
can be obtained at all times and at
moderate temperature, the returns will
many times pay for the trouble.

**How Much of Your Road Money is
Spent in Filling Ruts?**
IF the millions of dollars that have been spent repairing worn-
out, washed-out streets and roads had been used to build
more miles of good highways, fewer farmers would now be
wasting valuable time and money taking "round-about" routes
to town.
FIRST cost of an ordinary dirt or macadam road is usually
only a "starter." The cost of upkeep soon equals that
first cost and there is always an ever-increasing annual expense
for repairs. The worst feature of it is that such a road is
never a really first-class highway.
IN estimating the cost of a road you should include the ex-
pense of keeping it in good condition for at least twenty
years. If you don't, you're figuring on the first payment for
that road, only. And the remaining payments are as certain
as taxes. The upkeep cost of concrete roads is practically
nothing.
Concrete roads are the best roads from the first—and
the best and cheapest roads at the end of ten, fifteen
and twenty years.
CONCRETE is the ideal paying material for streets in small towns as
well as for main highways in the country.
Edward N. Hines, Wayne County, Michigan, Road Commissioner,
and one of America's foremost authorities on good roads, says:
Any community that wants a good road, a road that is cheaper for even a short
time under fairly heavy traffic than any other good road, a road that is inex-
pensively maintained, a road that is sanitary and dustless, a road that is not
slippery, a road that affords good traction for any type of vehicle 365 days in
the year, a road that in the long run, say 10, 15, 20 years and longer, is the
cheapest of all good roads, should investigate the merits of concrete.
WRITE for the facts about Concrete highways. When convinced,
use your influence to have the roads for which you pay built to last.
We have highway experts who will visit any community intending
to build more roads and explain just why and how concrete roads are best
and cheapest.

POWERS ARE ANXIOUS

Peace of Europe Now Hangs by a Slender Thread.

The Effort Made by European Governments to Deny That Warlike Preparations are Under Way Is Taken as an Ominous Sign—Servia's Refusal to Negotiate With Austria Complicates Situation.

London, Nov. 26.—The extreme anxiety manifested by all the European Governments to deny the reports of warlike preparations and to represent the political situation as peaceful and satisfactory is in itself an indication of on how slender a thread the issues of peace and war in Europe now hang.

The danger arises not alone from the conflicting interests of Austria, Servia and other powers, but from the possibility that Turkey, following the traditional policy of profiting by the embroilment of the great powers, may adopt an irreconcilable attitude in the peace negotiations.

Beyond the fact that the plenipotentiaries met yesterday, nothing is yet known—even whether an armistice has been arranged. There appears to be a suspension of operations at Tchatatja, apparently by tacit consent rather than by formal government.

The semi-official Bulgarian newspaper, The Mir, in an editorial, voices the Governmental irritation at Turkey's dilatory methods of negotiation, and accuses the Porte of deliberately nominating delegates from remote points in order to gain time. This probably refers to Osman Kizami Pasha, the ambassador to Germany, who only arrived at Constantinople from Berlin yesterday.

In the diplomatic field the most important reports are that Servia declines to reply to the Austrian demands until the war is concluded, and that Germany has not undertaken to mediate between Austria and Russia. The news that Servia is throwing further obstacles in the way of the Austrian representative in search of Prochaska, the Austrian consul at Pristina, is another disquieting feature.

Fighting continues around Adrianople, where the besieging forces are reported to have drawn their investing circle to within two-thirds of a mile of the town.

No further operations have taken place on the Tchatatja lines, says The Morning Post Constantinople correspondent. The Bulgarians are believed to have withdrawn considerable of their forces in the direction of Adrianople and the Dardanelles. A vigorous action against the Dardanelles is expected unless an armistice is promptly concluded.

The Daily News' correspondent in a despatch which evidently evaded the strict censorship, says the cholera is pressing north from Constantinople. Already there are several hundred cases at Mustafa Pasha, and the scourge has entered Bulgaria. The foreign doctors have met to consider what advice could be offered to the Government respecting precautions against the spread of the disease.

The cholera, the correspondent adds, is raging at Adrianople and is spreading among the Servians.

The losses to both Turks and Bulgarians have been enormous, but the demoralization of the main Turkish army has not extended to the garrison at Adrianople, which daily displays desperate gallantry.

Archdeacon MacMorine Dead.

Kingston, Nov. 26.—Archdeacon John Kerr MacMorine, rector of St. James Church, passed away at Augusta, Georgia, where he went for benefit of his health. Remains now on way here for interment. He was for twenty-seven years rector of St. James' Church. Deceased was born in Melbourne, Quebec, seventy years ago, and had been in the ministry half a century.

He is survived by two sons and three daughters, Rev. W. G. of Galt, Ont.; Rev. Arthur, of Selby; Mrs. J. Coleman, of Merrickville; Mrs. Alexander McPhail, of Kingston and Miss Mildred at home.

Judge Declines to Sit on Case.

Kingston, Nov. 26.—Because he is a former shareholder of the Saskatchewan Land & Homestead Co., Ltd., Hon. Justice Britton, yesterday afternoon refused to sit on a case in which the company was involved, at non-jury assizes, as plaintiffs against John T. Moore.

The defendant has asked to have the case tried in Toronto and the plaintiffs want it heard in Napanee, but this has not yet been decided upon.

Steamer Sinks; No Lives Lost.

Grand Rapids, Mich., Nov. 26.—The steamer South Shore, bound from Sault Ste. Marie to this port, sank off Sable Banks, Lake Superior, Sunday afternoon during the violent windstorm. The crew of ten and four passengers, were rescued by the local life-saving crew. The South Shore was owned by R. G. Endress of Sault Ste. Marie, Mich. She was built in 1899 and had an 84-foot keel with 20-foot beam.

License Reduction in Guelph.

Guelph, Nov. 26.—It is understood that the citizens' league are seriously

considering the bringing out of a number of candidates for municipal honors this year. The object, it is hinted, is to secure a council that will reduce the number of hotel licenses in the city.

Walked In Her Sleep.

New York, Nov. 26.—Dreaming that there was a fire in her apartments, Mrs. Ida Radt, wife of a New York banker, walked in her sleep to a window in an uptown hotel early yesterday and plunged down to a skylight, seven stories. She was seriously injured.

MARKET REPORTS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

CHICAGO, Nov. 25.—Excited upturns in wheat quotations today on account of unconfirmed war rumors brought about heavy sales presumed to be for leading holders. The market closed nervous at an advance of 1-2c to 3-4c net. In corn the outcome varied from 1-4c lower to a shade up, oats finished 1-10c off to a gain of 1-8c, and provisions irregular, strung out from a slight decline to a rise of 12 1-2c.

The Liverpool market closed 1/4d to 1/2d higher on wheat, and 1/4d to 1/2d higher on corn. Wheat at Buda-Pest closed 3/4c higher. Antwerp 1/4c higher and Berlin 1/4c higher.

Montreal Grain and Produce.

MONTREAL, Nov. 25.—Cables on Manitoba spring wheat came strong at an advance of 1/4d to 3/4d. The demand was good, but owing to the higher prices ruling in Winnipeg the volume of business done was small. The local trade for fall-end season was quiet. Demand for flour continues good. Millfeed steady under a fair demand. Butter fairly active and firm. Demand for cheese increasing and more orders being received for fall-end season make than can be filled. Exports for the week 25,188 boxes, as against 46,524 a year ago. A good business doing in eggs and dressed poultry.

CATTLE MARKET.

Montreal Live Stock.

MONTREAL, Nov. 25.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending Nov. 23 were 2200 cattle, 1975 sheep and lambs, 2250 hogs and 750 calves, while the offerings on this market this morning for sale consisted of 1500 cattle, 750 sheep and lambs, 1450 hogs and 525 calves. Although the supply of cattle was large and generally of a medium quality, a steady feeling prevailed in the market and prices showed no important change, as compared with a week ago. The weather was stormy, but notwithstanding this fact the gathering of buyers was large. A good trade was done, with a fairly active market. Picked lots of choice steers sold as high as \$6.25, and full loads of good cattle brought \$5.75 to \$5.90 per cwt. Canning stock was fair, prices ranging from \$2 to \$2.50 and cows \$2.40 to \$3.15 for bulls per cwt.

There were no further changes in the condition of the market for sheep and lambs, but the feeling was strong and on account of the falling off in the receipts and the continued good demand from butchers and packers. Calves were active. The tone of the market for hogs was stronger and prices advanced 25c per cwt. The demand from packers was good and sales of selected lots were made at \$3 per cwt., weighed off the cars.

Butchers' cattle, choice, \$6 to \$6.25; medium, \$5.25 to \$5.75; common, \$3.50 to \$4.50; canners, \$2 to \$2.75; choice cows, \$4.75 to \$5; medium, \$4.25 to \$4.50; bulls, \$3.25 to \$3.75; milkers, choice, each, \$30 to \$90; common and medium, \$70 to \$90; springers, \$4.50 to \$6.75; fresh cows and springers, \$55 to \$65.

Sheep—Ewes, \$4 to \$4.25; bucks and culls, \$3.50 to \$3.75; lambs, \$6 to \$6.50. Hogs—F.o.b., \$3. Calves—\$3 to \$12.

In any soil, on any farm, the CLIMAX earns money for you every minute you use it

Very Strong

You can rip sod land with the CLIMAX and a 3-horse team—so it MUST be built strong! Yet the teeth won't smash if they strike a stone— their joints unlock and fly back to pass over unharmed.

Easy Handled

Each pole has a tilting lever; and these, with the pressure lever—all in easy reach of operator— exactly regulate depth of cut. Teeth go right for the roots of the weeds, and rip them out of the soil.

This is the stiff-tooth cultivator that gets the weeds OUT of the soil—not merely cuts off their tops or just tickles the roots a little. On dirty land you surely need the

The Late Miss Ethel Cook.

The many friends of Mr. and Mrs. D. A. Cook, former well known residents of Morrisburg, but now residing in Brockville, will regret to learn that on Sunday night they were sorely bereaved by the death of their eldest child, Nora Ethel Cook, which occurred at St. Vincent de Paul, Hospital, Brockville, Sunday night, where she had been a patient with typhoid fever for three weeks. Concerning her Monday's Recorder says:—"The late Miss Cook was called within a few weeks of her 21st birthday. She was born at Winchester, January 1, 1892, and the greater part of her life was spent in Morrisburg. Three weeks ago she came to Brockville with her parents and for some time prior to taking ill was engaged with Miss Whelan as milliner. With her associates in store Miss Cook's demise is regretted second only to the family circle. Besides her grief-stricken parents she is survived by three sisters and one brother, namely, Misses Blanche, Reta, Ella and Ross, all at home. She was a member of Wall Street Methodist church and in its different branches was an earnest worker. The funeral will take place from the family residence Wednesday afternoon, to the G. T. R. station. Interment will be at Morrisburg."

Office Vacant.

Railway Companies and Express Companies are constantly applying to educational institutions which train young people for special office work asking for competent help to fill good positions. The managers of the Business College at Brockville are constantly supplying this demand. W. T. Rogers, principal of the College at Brockville, announces a new term opening Jan. 6th, 1913.

A number of Perth drovers are now shipping cattle to Toronto instead of Montreal, and find that the market conditions in Toronto demand a different kind of animal than what the Montreal market will take. Speaking to the Courier, Noonan Bros. said David McLean and thier firm are now shipping to Toronto, and would ask farmers if possible not to raise any black or Holstein steers, as the difference in value is so great that it is useless to ship them to western Ontario. And one other point: in all cases dehorn young cattle, as they are worth much more money when dehorned.
