Freak Television Reception In This District Last Sunday

Sunday was "Freakday" for TV reception in this area. Set owners who from time to time hopefully try to pick up the distant stations like WKTV Utica, or WSYR Syracuse, must have received some sort of satisfaction this past Sunday when TV reception became the most unorthodox thing of the year.

In the first place, Channel 4, CBOT, Ottawa, rated as the best received channel in these parts, was a blur of black and snowy waves with a distorted picture in the background. Reason for this was the phenomenal reception which blew in from the west and south with the rain. In no way trying to explain the conditions which existed on Sunday, this writer picked up 22 different stations on the regular 12 which come as standard equipment on TV sets. The reading from 2 to 13 goes like this: Channel 2—3 stations; Channel 3—3; Channel 4—2; Channel 5—3; Channel 6—2; Channel 7—1; Channel 8—1; Channel 9—1; Channel 10—2; Channel 11—1; Channel 12—2; Channel 13—1. There may have been more, but it was so confusing and rather incredible that we figured nobody would believe it anyway. Fact of the matter is, though, it's the gospel truth. And what is still harder to believe, most of the new stations picked up on Sunday were from far away places, none under 500 miles and two or three at least 2000 miles away.

One of the strongest signals during the day came from Channel 2, WMTV, Cedar Rapids, Iowa, which we watched with reasonable comfort for a half hour Sunday afternoon. Later Channel 2 came in from KMTV at Omaha, Nebraska. The freak reception continued until early evening during which time Channel 3 produced programs from Duluth, Minnesota; Pensacola, Florida; Fort Worth, Texas; and on Channel 2 again, St. Joseph, Missouri. On Channel 5 besides Rochester and Plattsburg was Nashville, Tenn. Another station came in from Atlanta, Georgia. Even more strange was the fact that the skyline antenna was facing north for practically all freak reception, including the programs from Nebraska and Iowa.

The weatherman can probably explain the reason for the unusual reception, something to do with atmospheric conditions very likely. In any case, it was back to normal on Monday with WCNY Carthage, and CBOT Ottawa, the only two consistently good channels in this area, providing the TV entertainment.

Mrs. Fred Helmer Honoured On Eightieth Birthday

The guests were received by Mrs. Erle Helmer. Tea was poured by Mrs. Karl Helmer, and serving was done by Mrs. Lynden Hough, of Finch, and Mrs. W. F. Workman. The birthday cake, which centred the tea table, was made by Mrs. Hough.

Small Drop In United Counties 1956 Tax Rate

The United Counties' Council of Stormont, Dundas and Glengarry, concluding its April session last week, approved a budget calling for a fractional reduction in the general tax rate.

The budget recommended by the finance committee provides for a levy of $657,342, compared with a levy for 1955 of $672,132. This is a reduction of $14,789, and permits a decrease of one-fourth mill from last year's tax rate of 11.3 mills.

Biggest decrease in the budget was effected in the allocation for general county purposes. This year's levy of $57,300 is a sharp drop from the $95,600 levy in 1955.

Administration of justice costs are up $8,486 this year to $58,486 from last year's $50,000.

The levy for maintenance of county roads is $230,000, and for the counties' branch of the Children's Aid Society $102,000. The latter figure represents a boost of $5,000 over last year's allocation.

Warden H. H. Ouderkirk, reeve of Finch, presided at the week-long council sessions at which reports of finance, agriculture, education, equalization of assessment and county property committees were adopted.

Academy Award Winner, "Marty" Playing At Picadilly Theatre Next Week

The 1955 academy award winner "Marty," which was not supposed to be much when it was released, comes to the Picadilly Theatre at Williamsburg next Monday, Tuesday and Wednesday, April 23, 24 and 25, for the first showing in this district.

"Marty" not only won the best picture award, but also captured the oscars for best actor, Ernest Borgnine, best director and best screen play. An unusual motion picture, "Marty" has been acclaimed by every critic with such phrases as superb, warm, rich. Time Magazine sums it up as "wonderful." Newsweek says of "Marty," a smash!

"Marty" cost its producers only $343,000.00, a mere pittance in the movie world when it comes to costs of producing extravagant pictures. But its warm sincerity, clear cut story and fine acting were the ingredients which made it the year's top picture. It should appeal to the movie goers in this district as one of the best ever. Betsy Blair is the co-star.

This picture is just one of the many greats the Picadilly will be bringing this way since the recent Cinemascope installation. Presently playing is "Artists and Models" with Martin and Lewis. Next month's program promises to be even better, according to the management which advises the movie goer to consult his local paper and new Picadilly programs for the latest and best in movie entertainment.

Did You Ever Stop To Think

That the town that gets good publicity gets the business?

That people will go miles to get into a live town to trade?

That property will increase in value when the outside world knows a town is wide-awake?

That people from neighbouring towns will come when there is something doing?

That if you do not go out and go after trade, someone else will?

That if they do, they will get the business you should get?

That advertising should be done steadily, and not by fits and starts—advertising does not yank, it pulls?

That the only one who does not need to advertise is the one who has nothing to offer—and that such a one is a dead one, whether he knows it or not?

Of course, from this bit of philosophy we are not suggesting merchants should advertise solely in The Winchester Press, but it would pay them to do so.

Be Up In The World

This is the time of year to get up in the world. Clean up! Paint up! Brighten up!—all the best ups to make you and your town more noticeable by a neater appearance.

The month of showers or the month of mornings as it has frequently been referred to, April is still the month of housecleaning. And housecleaning chores should not rest entirely with mother. There is no campaign in Winchester to Clean Up, Paint Up and Brighten Up, but if housecleaning became an every man job and everybody suddenly became conscious of beautifying his premises, an actual campaign would not be necessary. The last enthusiastic campaign of this kind was sponsored by the now defunct Chamber of Commerce five or six years ago. At that time it was a decided success.

Municipal Council is leading the way this year with an early brushing up of all main thoroughfares, and what a difference after the drab aftermath of a long winter. All that is needed now is for each business man and each home owner to follow suit. A coat of paint, a raked lawn, flower beds worked up, polished windows, new awnings are just a few of the ways to be up in the world in Springtime.

A few years ago some energetic members of the Chamber of Commerce gave the lower portion of the Hydro and Telephone poles lining Main and St. Lawrence Streets a coat of white paint. This was not wasted effort; it was one of the best pieces of decorating undertaken in this village in a long time, at practically no cost. There is no reason why Council could not afford to take a few dollars this year, purchase some white paint, and designate the Town Foreman and his helpers to brighten up the poles with another coat.

Potential Fire Trap

Every home can be a potential fire trap—a fact proved each year by more than 40,000 residential fires costing Canadians an estimated $20,000,000—according to the All Canada Insurance Federation.

Warning that fire hazards in the average home are numerous, officials of the Federation recommended the following precautions for spring cleaning time:

1. Check pockets of winter garments for matches before storing.
2. Clean out attics, garages, sheds and other areas where inflammable rubbish accumulates.
3. Inflammable heating and cleaning fluids should be stored in well-marked safety cans.
4. Oily rags or clothing soaked with paint, cleaning fluid or wax, should be cleaned immediately or destroyed.
5. Clean up old leaves and rubbish around the house, particularly from eaves and shrubbery.
6. When burning leaves, watch carefully for flying sparks.
7. Chimneys and furnaces should be given a thorough cleaning.
8. Have electrical circuits thoroughly checked by qualified electricians.

Residents of Winchester and area, and readers in general are urged to adopt the above precautions during the spring clean-up.

Wise To Get Clear

When the city fathers of Calgary finally decided that the reuglating of store hours was none of their concern, there were dire predictions of ruin and chaos. If municipal restrictions were abandoned, said the critics, all sorts of merchants would be forced to the wall and store clerks worked to death.

Well, says The Financial Post, after almost 40 years of more or less successful operation, the municipal restrictions have been lifted and, so far, both the store clerk and store owner seem to have survived. Some stores have decided to stay open on certain evenings, some have not.

Calgary municipal authorities have acted wisely in deciding to leave this complicated matter to the parties most concerned.

Editorial Notes

There is always a week or a month devoted to one or more campaigns. This year April is Cancer month. The seriousness of this disease alone warrants your support. This month your dollars given freely to the Cancer Society will help researchers continue their difficult but unfailing fight to determine how this dread disease can be checked. Cancer is still one of the biggest killers in Canada.

It's YOUR HOSPITAL

by

MRS. CHARLES McLEAN
PRESIDENT, ONTARIO HOSPITAL ASSOCIATION

Many people, and patients, judge the caliber of a hospital by whether a bed is readily available when needed, by its nursing service, and whether it serves hot, palatable food. But hospital folk know that good patient care means much more than that.

The first two portions of the essential scoring report concerns the actual physical plant (the hospital building and equipment), and the administration of the hospital organization.

These include the type of maintenance, adequacy of fire protection, the governing board, training and adequacy of the administrator, personnel policies, sanitation, evidence of patient overcrowding and segregation of patients, departmental facilities and equipment, and other primary and essential features.

The third division is that of medical staff organization. Does the hospital have by-laws, with rules and regulations protecting the patient, the physician, and the hospital staff? Are all of the physicians qualified to perform the privileges assigned to them? Do the medical and departmental staffs hold regular, well attended meetings which include a thorough review and analysis of the clinical work performed in the hospital?

The surveyor then takes a good look at the hospital's medical records, for records adequately and properly kept, not only contribute to the professional care of the patient, but they reflect in general the quality of professional care that is given in the hospital. The number of consultants and assistants who attend the patient vary widely, depending on the nature of illness, but proper management of the care of the patient by the attending physician requires prompt recordings in the medical record by each member of the professional team. This is necessary not only to strengthen the quality of service to the patient, but to provide information for teaching and research as well.

Since good modern medicine cannot be practised without up-to-date, adequate laboratory and X-ray facilities, the accreditation program requires that these services be available within the hospital, or that satisfactory outside arrangements be made to ensure to the patient the diagnostic and treatment facilities which these departments provide.

And then, recognizing that the finest quality care given to patients by an excellent medical staff can be undermined or minimized by poorly prepared food and inadequate nursing care, the surveyor inspects these services with a critical eye.

No surveyor goes into an operating room to watch a surgeon at work—no surveyor ever lays a hand on a physician's patient. How then, you may ask, does he evaluate the medical work being done in the hospital. Mostly, he looks at the records.

He asks to see the hospital death rate; the anaesthetic, maternal and infant death rates; the number of Caesarian sections, of sterilizations, of infections, of autopsies, and consultations. He inspects the statistics as revealed by the recordings on the patients' charts by the Tissue Committee's reports, and by the staff's medical audit.

The Medical Audit is the system used by medical staffs to study and evaluate the medical and surgical care given in hospital. It entails a careful and thorough analysis of all procedures, and enables the medical staff to act as its own policeman in preventing poor medical practices and inefficient surgery to be performed. It also assists the medical staff in judging the caliber of work which is being done by each member of the medical profession attending patients in the hospital, to ensure that each member is restricted to what he is competent to do, as well as to enable each member, individually, and all collectively, to increase diagnostic accuracy and good results in treatment.

Hospital regulations require that most tissue removed by surgery must go to the laboratory for examination by the pathologist, whose written report must be added to the patient's medical chart. It is the responsibility of the Tissue Committee of the medical staff to review these reports from pathology, and so make sure that proper diagnosis of a patient's illness is coupled with competent medical and surgical procedures.

Regular staff meetings, with 75% of the medical staff in attendance, are required by the accreditation program, with the four R's—rules, regulations, review and responsibility—constantly analyzed, interpreted, and perfected.

What does all this mean to hospitals, to the medical staff, to the patient, to the community?

It means that the hospital is always progressing, picking up the slack, correcting the deficiencies, improving the good to make it the best.

It means that the medical staff is alert to the quality of professional care provided by its members, that regulations for safety and control are diligently enforced, and that medical and surgical procedures are assigned only to those qualified to perform them.

It means that the patient, progressively, is assured of more adequate and competent care, in safe and pleasant surroundings.

It means that the hospital is an alert guardian of the community's health and happiness—that it is, truly, the sentinel that never sleeps.

The standards of the accreditation program do not disregard or supplant the standards required by Provincial Hospital Acts. They do, however, make it necessary for hospitals to increase the quality of service beyond the minimum charter requirements, so that there is a constant and determined effort always being made by our hospitals and medical staffs to merit the honor which the accreditation certificate carries with its award. "Accredited," therefore, as applied to hospitals, will soon mean to the public what "sterling" means on a piece of silverware. It is "quality" service.

The Return of Spring

Now budding trees, and flowers and grasses,
Where all before, had been dark and cold,
Now, through a thousand golden trumpets,
Gay jonquils, shout from the bursting mold.

Now, the orchards foam with blossoms,
And the misty green of the wood appears,
And April skies so blue and shining,
Melting at times to April tears.

—Dorothy Sproule.

April Showers bring May flowers, and those that prevailed over the week-end should give the crocuses and tulips a good lift. They'll be out in all their glorious colour earlier than usual if the weather gets a little warmer.

There's hope for our juveniles! A Montreal columnist reports an illuminating document found in a teen-ager's wallet, along with a collection of movie stars, personal snapshots and whatnot. On the folded paper were written these Teen-Age Commandments:

1. Stop and think before you drink.
2. Don't let your parents down, they brought you up.
3. Be smart. Obey. You'll give the orders some day.
4. Ditch dirty thoughts before they ditch you.
5. Show-off driving is juvenile. Don't act your age.
6. Pick the right friends to be picked for a friend.
7. Choose a date fit for a mate.
8. Don't go steady unless you're ready.
9. Live carefully. The soul you save may be your own.

Spring means more bicycles on the streets and highways. Following are a few rules suggested by the Ontario Safety League:

Observe signal lights and stop signs.

Stunting and racing are unsafe and unlawful.

Never hitch to a moving vehicle.

Never carry another person on your bicycle.

Carry books or parcels in a carrier.

Walk your bicycle across busy corners.

Cross tracks at right angles.

If you want to talk, stop at the curb.

Ride single file for safety.

Keep both hands on handle bars—both eyes ahead.

See that your bike is properly equipped.

Be alert for opening car doors.

It's his birthday, but it's your present!

The birthday— The Bank of Nova Scotia's Personal Security Program now 2 years old!

The present— P.S.P. broadens coverage to bring its benefits to even more Canadians!

TWO YEARS AGO, the fellow who couldn't save a nickel, whose bank book was flatter than a sliced dime discovered PSP—and told other Canadians about it. Since then, more and more Canadians have come to The Bank of Nova Scotia to take advantage of this exclusive program that makes saving so much easier, surer, more regular.

You just decide to make a small monthly instalment in your PSP account. And here's the real pay-off. There's a guarantee. If you were to die the beneficiary would get the full amount of your savings-goal—even if you'd only made one payment.

And now, PSP broadens its scope. The age limit for participants in the program goes up from 46 to 51.

Learn all about this easier way to save; ask at your nearest BNS branch.

I'm only 2 years old, but already I've made a lot of friends!

A young man at school worked in his father's business in his spare time. His father suggested he open a PSP account for $1,000. Payments of $20 monthly have reached $500. When he graduates his PSP savings will buy him a partnership in his father's business.

A homeowner who wanted more insurance plus funds to retire the second mortgage on his house, took out a PSP account for $1,000. He died after making a few payments. With the insurance on the PSP account his widow was able to pay the mortgage in full.

Two young service station operators with limited capital opened PSP accounts for $1,000 each, naming each other as beneficiaries, to give themselves some protection, and also to save towards buying new stations. Already, there is $480 in each account.

An eleven-year old schoolboy with a paper route is paying $5 monthly into a $250 PSP account. He figures on helping his widowed mother to put him through school. He has since opened another account of $100, as a start towards funds for University.

A widow who goes out to work was constantly worried by the apparent impossibility of providing sufficient funds to educate her 11-year old son. Friends told her about PSP. She is now its strong supporter, since savings by monthly instalments solves her problem.

An immigrant husband and wife, who arrived 2 years ago from Germany, decided that systematic savings represented their only hope of financing a trip to see their parents. They chose a $1,000 PSP account, paying $20 monthly, and their objective is in sight.

HOW SHOULD CANADA GROW? NORTH? SOUTH?

Is it Canada's manifest destiny to stretch from the Arctic islands to the tropic islands?

"Yes," say a growing number of forward looking Canadians.

This week in the Star Weekly, Robert Taylor, staff correspondent in Ottawa, has written an excellent article on the future of Canada. He has woven the political beliefs and forward thinking of those who would shape its destiny.

A dairy farmer, after thirty years producing milk, retired with a comfortable fortune of $60,000.

He amassed this large sum through industry, courage, enterprise, careful buying and selling, and the death of an uncle who left him $59,999.50.

WEDDINGS

MISS DORIS LILLIAN BECKSTEAD WEDS CLARE ARMSTRONG

A wedding of wide interest was solemnized on Saturday at 2.00 o'clock in Erskine Presbyterian Church, Ottawa, when Miss Doris Lillian Beckstead became the bride of Clare Charles Armstrong, of Montreal.

The bride is the daughter of Mr. and Mrs. Grant B. Beckstead of Ottawa. The groom is the son of Mr. and Mrs. Charles I. Armstrong, of Iroquois.

For the ceremony the church was adorned with white standards of snapdragons and southern white gladioli banked with Woodwardia fern. The pews reserved for guests were marked with white flowers, tied with white satin bows.

Rev. Robert Good, D.D., performed the ceremony. Mr. Reid Thomson was soloist and sang "The Lord's Prayer," and "Because," accompanied by the organist, Mrs. R. E. Brown.

The bride, who was given away by her father, was dressed in a gown of white Chantilly lace and nylon tulle over satin, the fitted bodice fastened at the back with tiny buttons, having a portrait neckline with Queen Elizabeth collar, and the sleeves ending in points over her hands. Her short veil of nylon tulle illusion was held by a coronet of scalloped nylon tulle embroidered in irridescant pearls and sequins, with the full tulle skirt fashioned with insertions of lace, and she carried a cascade bouquet of Sweetheart roses.

Mrs. Dorothy Guillemette, as matron of honor, sister of the bridegroom, was in a waltz-length gown of powder blue nylon tulle over taffeta, with matching bandeau and shoes, and carried a bouquet of pink roses.

Mrs. Ann Patrick, as senior bridesmaid, was in a waltz-length gown of mink pink nylon tulle over taffeta, with matching bandeau and shoes, and she carried a cascade bouquet of yellow roses.

Miss Thelma M. Beckstead, as junior bridesmaid, was in a waltz-length gown of mink pink nylon tulle over taffeta, with matching bandeau and shoes, and she carried a cascade bouquet of yellow roses.

Little Miss Katie Kurtin, as flower girl, was in a waltz-length frock of pink nylon, and she carried a basket of Sweet Peas.

Mr. Allen Armstrong acted as best man for his brother, and the ushers were Messrs. Roger Guillemette of Gananoque, Denis K. Coyles of Carleton Place. Master Stephen Shaver, of Iroquois, acting as ring bearer.

Mrs. Beckstead, the bride's mother, was gowned in a navy blue lace over taffeta, with pink accessories, and a corsage bouquet of pink roses.

Mrs. Armstrong, the groom's mother, was in a gown of navy blue crepe, with navy accessories, and a corsage bouquet of pink roses.

Following the ceremony, a reception was held in the dining room of the church hall, where the bride's table was centered with a four tier wedding cake arranged with pink and white snapdragons and carnations.

Later, Mr. and Mrs. Armstrong left on a motor trip to Western Ontario and United States, the bride travelling in a grey suit with pink accessories, topped with a muskrat cape, a gift of the groom, and a corsage bouquet of pink roses. On their return they will reside at 16 Canary Street, Valois, Montreal.

Among the out-of-town guests were: Mr. and Mrs. O. P. George, Toronto; Miss Phyllis Shaver, St. Catharines; Mr. and Mrs. Morley A. Beckstead, Bowmanville; Mr. and Mrs. Walter Rae, Belleville; Mr. and Mrs. Cecil Merkley, Rochester, N. Y.; Mr. and Mrs. Len DeMary and Mrs. May Steele, Montreal; Mr. and Mrs. Roger Guillemette, Gananoque; Miss Jean Allen and Mr. John Williams, of St. Johns, Newfoundland; Mr. and Mrs. Geo. M. GOOD GUESS BEST IN LEGION BARREL RUN

The Legion Barrel Run has been held again and the old river beat her previous runs in sending the barrel past the bridge in record time. This year it took three hours, twenty-seven minutes and twenty-one seconds to make the trip. The winning time guess was 3-27-16 and was made by a Lunenburg man, Mac. Good. Running a second behind was Francis "Dob" Plantz, of Chesterville, and Mrs. Agnes Henderson was third with 3-27-13. Last year the barrel took 4-4-27 to make the run.

The winner of the guessing contest, Mr. Good, will receive $100 from Chesterville Legion officials next week. The second prize is worth $50 and the third prize, $25.

Each Spring Chesterville Legion sells tickets on the speed of water of the river from Cass Bridge to Chesterville. This year the barrel was ushered carefully down river by two Legion executive members, Carl Merkley, president, and Stuart Allan, local postmaster and vice president.

Wm. Barker was timekeeper at the beginning of the run and Arnold McLaggan timed the passing at the village bridge.—*(Chesterville Record).*

"Farming is a Business, Son!"

"There's nothing simple about farming. These days, you have to practice modern farming methods. You've got to be a business man too."

"That's where your local Royal Bank Manager can be useful to you. He's had a lot of practical experience dealing with farmers' financial problems, and is glad to discuss yours with you—anytime."

Whatever your plans, if they involve money, talk them over first with your Royal Bank Manager. There are many ways he can help you. And ask for copies of our booklets, "The Farmers' Account Book" and "Financial Training for Your Son and Daughter". They're free.

SCIENCE IN YOUR LIFE

Fanciful Physicians

The average person would no more think of curling up with a medical text than he would of paying a social visit to his dentist—but he might be pleasantly surprised if he did. Tucked away in the vast, formidable field of medical literature are little nuggets that can be unearthed by anyone with a bent for browsing.

One such happy hunting ground is the medical writing of the great Canadian physician Sir William Osler. It includes spicy comments on almost every subject ranging from warnings against overeating ("the glutton digs his own grave with his teeth") to unusual matrimonial advice ("choose a freckle-faced girl for a wife; they are invariably more amiable.")

Other examples are as unexpected as they are lively, cropping up in such unlikely places as footnotes in weighty medical texts or printed lectures to learned societies. They even make the medical dictionary, one expert feels, "a work to cuddle up with!"

Imposingly technical titles, too, can be deceptive. A case in point is a presidential address labeled "A Study of the Umbilicus," delivered some years ago before the Southern Medical Society of Glasgow. Its main purpose is to prove that the human being "is badly constructed for locomotion by road or by tree. The slowest fish swims faster. Man is adapted primarily for rest." This is a thesis that might be expected to have wide audience appeal.

Perhaps such varied literary outcroppings from the medical field should not be too surprising. The profession has long been noted for an international literary roster which includes such famous members as the rollicking French humorist Rabelais, the English A. Conan Doyle who created Sherlock Holmes, and the American poet-essayist Oliver Wendell Holmes. It has even been prescribed as a starting point for a literary career. "I do not know a better training for a writer than to spend some years in the medical profession," claims W. Somerset Maugham, himself an ex-doctor

Village of Winchester Building By-Law

BY-LAW NO. 683

Notice is hereby given that all persons intending to erect a new building of any nature, make additions or alterations to the exterior or existing buildings or structures, must first apply to the Municipal Council for a Building Permit. Such application must be accompanied by plans and specifications of the work to be covered by the Permit.

Further take notice that no person or persons shall undertake to move any building or structure, either wholly or in part, to a new site, without first obtaining a permit from the Council.

Prospective builders should acquaint themselves with the provisions of By-Law No. 683, a by-law to govern the erection, alteration and removal of buildings and structures within the Corporation of the Village of Winchester, a copy of which may be seen at the Clerk's Office.

An excerpt from the By-Law reads:

"Where violation of any provision of this By-Law has occurred, the Constable, or any other Officer duly authorized thereunto, of the said Village, may forthwith stop, prevent and put an end to any and all work not authorized by a permit issued under this By-Law and/or not in accordance with and pursuant to the approved plan and specifications in respect thereto and set out in such permit or attached thereto and may, with such workmen and other assistance as he may require, at the expense of such offender or violator, do whatever acts are necessary to require, accomplish and force compliance with this By-Law and may remove any building, part of building, or structure so being erected, altered, repaired or moved, and may wreck any building, part of building or structure so being wrecked. The expense incurred by the Village Corporation under this provision may be recovered by the Village by action against the person or persons in default, or the Village may recover the said expense in like manner as municipal taxes where the person or persons in default is or are owner or owners of lands within the municipality. This provision shall be in addition to and irrespective of any other remedy to which the Village shall be entitled for breach of this By-Law or any of its provisions.

"The Constable of the Village shall be the Inspector of buildings under this by-law and may inspect all work authorized under any permit issued hereunder and may enforce all the provisions of this By-Law.

Every person who shall violate or fail to comply with any provision of this By-Law may be proceeded against under The Summary Convictions Act."

SHUR-GAIN HOG FEEDS

You can't afford to waste time feeding hogs no matter what the market price is. If you are feeding straight grain to hogs YOU ARE WASTING TIME.

WHY! Because grains alone do not contain the proper levels of nutrients to get hogs off to market in a hurry. Tests prove that straight grain-fed hogs take up to 2 months longer to reach market weight than balanced-fed hogs.

VERNON BAPTIST MISSION CIRCLE

(Last Week's News)

The Afternoon Group of the Baptist Mission Circle met at the home of Mrs. Mac Bowen on Wednesday evening last with a good attendance. After the opening exercises and prayer by the president, the roll call was answered with verses containing the word Patience. The Scripture lesson was read by Mrs. Maynard McDiarmid.

Mrs. Bowen gave a paper on Temperance, called the "Twenty Startling Facts." A letter was read from Mrs. Amy, the missionary who has spoken in this church, thanking the members for the gift sent to her from the two Circles, and also a letter from the secretary of the District Circles re the Rally to be held in the Cornwall Baptist Church on April 14th.

The meeting closed with a hymn and the Lord's Prayer.

HOME HINTS

Chamois Gloves

Chamois Gloves will dry much softer if they are rinsed in soapy water.

The Wash Machine

If a coating of soap forms on the inside of the electric washer use steel wool to remove this coating. It will come off very easily.

Blotters

When water is spilled on a varnished table try soaking it with blotters. They absorb all the water and will not leave that smeary appearance that follows rubbing with a cloth.

Cleaning Bath Tub

To clean the bath tub thoroughly, put a half ounce of powdered pumice stone to soak in a half-pint of paraffin oil. Then with a piece of soft flannel steeped in the liquid, clean the inside of the tub. Wash out the tub with warm water and dry thoroughly.

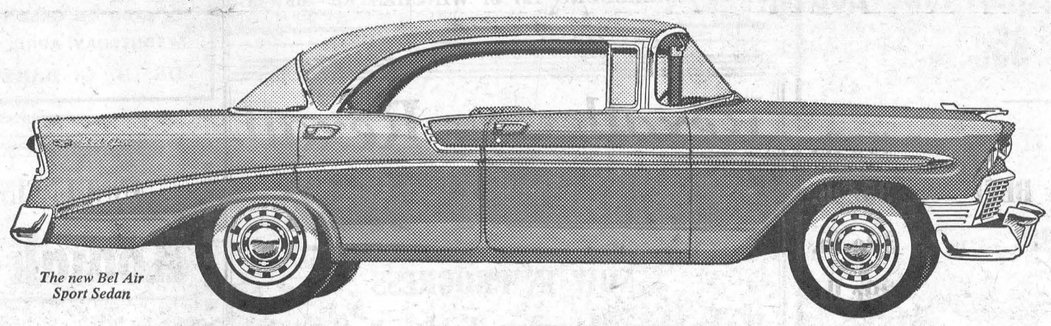
WHAT'S YOUR LINE?

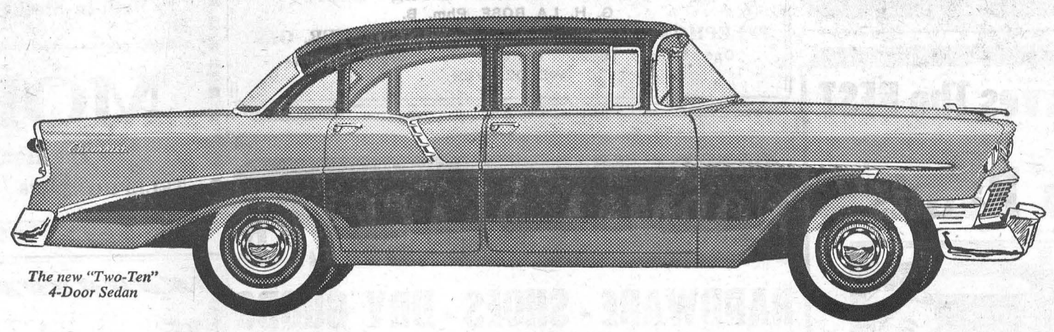
Chevrolet's got three . . . Bel Air, "Two-Ten" and "One-Fifty". With 20 sassy-styled models to pick from, there's one (or maybe even two) just made for you!



The new Bel Air Sport Sedan

ARE YOU A BEL AIR BUYER?

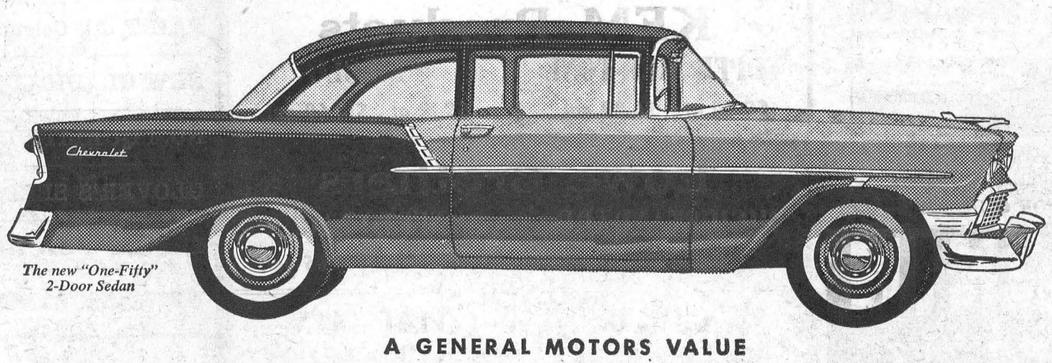
Want to travel first class without paying a high price simply for "prestige"? If so, the Bel Air Series is just your dish. It brings you luxuries and conveniences you won't even begin to find in stripped-down "bargain" models of higher priced cars. And at Chevrolet prices! Of course, you also get Chevrolet's own special brand of record-breaking performance, with horsepower ranging up to 225!



The new "Two-Ten" 4-Door Sedan

"TWO-TEN" TO YOUR TASTE?

This is Chevrolet's "middle" line—but it outshines the top models of the other cars in its field! The "Two-Ten" has its own sassy new styling and colorful new contemporary interiors. Body by Fisher, of course, with safety door latches, as in all models of the three Chevrolet series. And you get the nailed-down stability and the sureness of control that make driving safer — and sweeter — in a Chevrolet!



The new "One-Fifty" 2-Door Sedan

"ONE-FIFTY" FILL YOUR BILL?

It does if you want to own the zippiest car on the road and don't mind paying an almost embarrassingly low price for it! You'll notice there's no lack of chrome trim in Chevrolet's lowest priced series. And you can pick your power—V8 or 6. Come on in and see which one of Chevy's 20 new beauties suits you best!
