55 blood donations

Nelson LaPrade recently gave his 55th blood donation to the Red Cross. This is a real record of public service and he can be well proud of the certificate presented recently by the local blood clinic section of the Red Cross.

Chesterville Fair success in spite of rain

Chesterville Fair directors were heartened last week to learn of a good financial return for their hard work. The fair, in spite of being postponed, was an unqualified success. The Class B status was maintained with greater exhibits, especially in cattle, than ever before.

The money side of the fair is excellent. After all grants expected are in, a large amount of the fair debt should be retired. Some $3500 was spent in renovation and repairs at the grounds.

President Harold Lannin expressed himself as being very satisfied. He thanked his hard-working directors for all their efforts and noted the great contribution they had made to the ultimate success of the first Class B Chesterville Fair.

Late strawberries

Mrs Vera Armstrong of Northfield Station has ripe strawberries in her garden in October. She brought a fine spray of the fruit, ripe, green and blossoms, to the "Record" office the other day. And a fine big squash from Mrs Tom Loucks also made its appearance, as pie for the editor.

FINDS OLD "RECORD"

The other day Mrs Roy Meldrum found an old Chesterville "Record" at her King St. home. Dated May 10, 1906, the paper contained a news item about her grandfather, William Jamieson.

High School News

North Dundas is on the move again. During the past weeks, the North Dundas Hawks rolled over their football oponents, beating Osgoode 20 - 0 and Iroquois 18 - 0. On Saturday, October 16, the Hawks travelled to Kemptville for the Annual Lion's Club Tournament, where they clinched second place.

The Senior Cheerleaders are making themselves known too. Not only did they put on a very fine display at the tournament but they also won top prize in a competition at the Metcalfe Fair. Both the team and its cheerleaders can be proud of their efforts.

This past week also saw North Dundas compete quite successfully in the Seaway Track Meet. A cold student body cheered on its welllbalanced track team to many victories. A hearty "well-done" must certainly go to the determined athletes and their hard-working coaches.

Back at the school itself, everything is being done to prepare for the Commencement this coming Saturday. This event is one of the social highlights of the year at North Dundas and this year's edition promises to be the best ever.

Yes, everyone is certainly busy here. Watch for the White and Blue to strike again!

SPEAKS FOR ITSELF

A traffic sign at the end of a road in Rochester, Eng., reads: "One Way Only." The road leads to the casualty department of St. Bartholomew's Hospital.

It is hard to make a dollar. At least, that is the moan of members of the local government. The past week has had its ups and downs; more down than up.

The newly refurbished Community Hall auditorium opened for business. A new kitchen, a new floor and considerable dollars made the old place look like new. One felt almost at home in it except for the rat trap chairs. Then suddenly we found a lot of people did not feel at home. If they did, then at home their habits are deplorable.

Ashtrays are available and the kitchen is full of saucers. But who would bother to use them. Certainly not the lads and lassies who feel right at home. Instead the butts ended up on the new floor and left burns right and left just to get things settled down. The chewing gum department was right in there spitting. The usual gobs remained behind when the crowds had gone.

We were disillusioned long ago about the deplorable habits of the great anonymous public. It is a challenge, it seems, to dirty up, scratch and tear anything that is public property. Sometimes we deplore the youthful escapades of our kids. But it is not youthful community members who pay for the use of public halls for organization meetings.

Every year the village government has to shell out repair money that should not have to be spent. The park area has suffered for years at the hands of careless ones and just about every other public institution comes under the hammer of defacement. It is a sad commentary on our habits. As we said at the beginning of this outburst, if this is the way folks act at home in their personal attitudes to their belongings, things must be in quite a state.

A public building is built to serve the public. It can never keep its newness for ever. It would be nice, though, if the public would try for a while to limit the debris that seems to drop as the human animal passes.

Concerning the activities of this Rotary district, he outlined the Rotary foundation.

Local representatives attend district meeting of Crippled Children As.

The Easter Seal campaign conducted on behalf of crippled children is several months away, but it was the main topic of discussion at the District Meeting of the Ontario Society for Crippled Children on Wednesday, Oct. 13th in Hawkesbury.

At this meeting, representatives from Service Clubs in the Counties of Glengarry, Dundas, Stormont, Prescott and Russell met with officials of the Society to plan the organization of the 1966 Easter Seal campaign to be held in their communities between March 10 and April 10. Reports by each club on their work with crippled children in the past year, revealed the many services such as camp holidays, transportation to treatment centres and hospitals, supplying of braces, wheelchairs and other such equipment, were all being efficiently handled by the Service Club in co-operation with the Ontario Society for Crippled Children.

Chairman F. W. B. Shaw of Hawkesbury stated that the Service Clubs responsibilities in the interests of crippled children is a major project with each club and demands a great deal of voluntary time and personal interest by Service Club members.

Delegates attending the meeting represented Alexandria Lions, Chesterville Rotary, Cornwall Kiwanis, Hawkesbury Rotary, Iroquois Lions, Morrisburg Lions and Russell Lions.

Representatives from the Rotary Club of Chesterville were Francis Moriarty, T. D. Ross and Eric Casselman.

Former Avonmore native honored on retirement

Dr. James H. MacMillan of Grimsby, Ont., was honored by a group of medical men and townspeople on the occasion of his retirement frm practice. Dr. MacMillan is a native of Avonmore, a son of the late Angus Hugh MacMillan and his wife the former Roseanne Steele.

The retiring doctor was highly lauded at the event by several speakers who praised his four decades of devotion to the medical care of the people in a large area centred around Grimsby. The doctor replied that he could not remember the number of babies he has delivered, not to mention the number of cases he has treated over the long period.

Dr MacMillan, a graduate of the Avonmore High School, is an ex-serviceman with the S. D. and G. Highlanders, serving during World War I as an infantryman and later training as a pilot in the Royal Air Force, learning to fly in 15 hours of training. After the war he resumed his studies and graduated from Queen's University, Kingston, in 1924.

He took up practice in Grimsby in 1925, shortly afterward marrying the former Miss Bertha Baxter of Grimsby. During his active career he was one of the medical men chiefly responsible for the establishment of the West Lincoln Memorial Hospital.

Dr. MacMillan was honored in 1962 when he was named Grimsby's Citizen of the year.

Another honor came his way this year with Rev. Leonard Griffith, a well known Canadian cleric now serving in a large pastorate in London, England, dedicating his latest book, "The Crucial Encouter", to Dr. MacMillan, a former parishioner.

Dr. and Mrs MacMillan have one son Dr. Angus MacMillan, a paediatrician in Hamilton; and one daughter, Margaret, Mrs (Dr.) Guy Emery, Toronto. They have five grandchildren.

Dr. MacMillan has a sister, Mrs Douglas Rupert, living at Northfield, and a brother, Dr. Currie MacMillan, now retired and living in Victoria, B.C. but for many years a prominent physician in Regina, Sask.

CARD OF THANKS

I would like to say "Thank you" to my good friends, relatives and neighbours for their lovely cards, treats and visits while I was a patient in Winchester Memorial Hospital. Special thanks to Dr Howard Justus and the nursing staff and their aides. Thanks to Rev Mr Bugden and Rev Mr Gordon for their calls. All these kindnesses will long be remembered. May God bless you all.

Roy McMillan.

OPINIONS . . .
OURS AND OTHERS

Cost country plenty every year

Two hundred thousand acres of timber, brush and slash across Canada was destroyed by forest fires this summer and fall. And yet, in relative terms, it has not been a bad summer for fires.

In some provinces the fire season is still on, but up to now there has been 6,643 fires. No human lives were lost but the toll in wildlife will never be known.

Ontario, which reports 84 per cent of this year's fires caused by carelessness, tried an experiment that will be repeated in 1966. The Cornwall Standard-Freeholder says that three hundred Indians were hired for the fire season and stationed at high danger spots.

A department spokesman said: "The Indians really proved themselves. Woodlore is second nature to them whereas most white men feel like foreigners in the woods."

Ontario's largest fire this season was on 9,500 acres north of Geraldton in Northwestern Ontario. In all, there were 1,192 fires as compared to 1,557 last year and acreage burned was down to 19,587 from 28,401.

At that rate it is plain that even in a comparatively good forest fire year, the toll is heavy. And forests can not be replaced in a short period of years. Since 84 per cent of the fires were blamed on carelessness there is room for great improvement in the actions of campers, picnicers, hunters, fishermen and outdoor folk.

Many provinces are pushing conservation programs. In Manitoba, graphs resembling giant thermometers were posted this summer at all tourist spots showing forest conditions.

British Columbia continues the practice of erecting gallows at the blackened site of fires as a grim reminder.

New Brunswick had its worst summer in many years with 700 fires on 20,000 acres compared with 512 and 5,800 acres for a total commercial loss of $69,000 a year ago.

Newfoundland had one of the warmest summers in years and made forests extremely dry and fire rating never dropped below medium. However the largest fire was 640 acres near Little Cataline, 70 miles north of St. John's.

With forest products rating as a major Canadian export, bush fires take a heavy toll in dollars and forests require many years to grow again.

Careless Canadians in the forests are a costly hazard.

That priceless possession

Canada has one-third of the world's fresh water in its rivers and lakes and is realizing now what a priceless possession this is—a realization quickened by New York's drought. The chief water engineer of the city says that if the drought continues, New York might run out of water by the middle of next February.

The Chicago American reports that a number of proposals have been made for changing the direction of flow of Canadian rivers into American waters. Canadian officials, saying truly that they must look after Canada's interest first, are preparing to bargain shrewdly. One idea offered by a member of Parliament is that before Canada agrees to sell water for use to the United States by reversing streams, the United States should agree to support the growth of Canadian industry. This would mean that manufacturing orders, particularly for defence purposes, would be placed with Canadian firms rather than American.

Water is under the jurisdiction of the various provinces. Quebec is interested in using its rivers to create electric power rather than in supplying Americans with water, and Ontario is afraid that dividing its water with the United States would interfere with the development of Northern Ontario.

So it appears that if American water problems are to be solved with Canadian water, the United States must be prepared to trade valuable commercial and industrial concessions.

He leaves to mourn his passing his wife, the former Olive Nesbitt; one brother, Hickey Nesbitt, Avonmore; and one sister, Mrs Ray Dixon (Muriel), Ingleside.

The funeral was held from the McArthur and MacNeil Funeral Home to Knox United Church. The service was conducted by Rev. J. C. Kellogg.

Pall bearers were W. M. Campbell, John E Miller, Wesley MacDiarmid, Jack Bush, Ray Runions and Roy unions.

GEOLOGISTS MARVEL AT NORTH'S ORE WEALTH

"I've never seen deposits that compare with these," says Frank Hurley, a 34-year-old geologist now mapping locations developed by Pine Point Mines Ltd., in a multi-million-dollar program.

Mr Hurley, a native of Fresno, Calif., moved with his wife and children several months ago to Pine Point, N.W.T., 500 miles north of Edmonton. He still marvels at ore which grades up to 50 per cent metal.

"I haven't seen anything that compares with these deposits in either the United States or Australia, where I've worked on similar lead - zinc operations. When you find deposits like these it's fantastic—and profitable."

Said an onlooker watching the stocky American at work pinpointing the perimeter of a deposit in one open pit being prepared for development: "Every time a new geologist comes here he's like a little boy in a candy shop with a dollar to spend."

In the processing of plotting the ore locations that dot flat bush country on the south shore of Great Slave Lake for a radius of 15 miles around Pine Point, Mr Hurley and gelogists are compiling detailed information of the Devonian reef.

This strata also has been found to contain some of southern Alberta's richest oil pools. The Pine Point ore deposits lie at the top of numerous cones in this porous rock in a manner similar to the location of oil pools in Alberta.

"We are trying to relate the geological information to the location of ore," says Mr Hurley. "If we can find out why, how or where deposits likely will be found, future exploratory drilling will be more efficient."

Consolidated Mining and Smelting Co. of Canada Ltd., parent company of Pine Point Mines, has spent $22,000,000 developing the ore bodies, building a 5,000-ton concentrator, town site and mill site service buildings. The concentrator is scheduled to begin operation in November.

Glacial action has carried away much of the overburden. Ore outcroppings show evidence of this.

"The overburden averages about 30 feet, most of it clay and loose rock which isn't difficult to clear," says Mr Hurley.

"We get a detailed look of the rise and fall of the strata on the walls of the mining pits. In drilling holes to get the exact location of each deposit we get samples of underground formations every 50 feet. Such detail is not required in oil exploration and that's why the work here is so valuable from a technical standpoint."

The deposits dot the area. There is no vein linking the ore bodies, which vary in size from a few thousand tons to more than 1,000,000.

All run east to west and vary in depth to 150 feet. The north and south walls drop off abruptly.

ARTISTIC FAMILY BUILDS "WHYNOTTAS"

"Whynottas" are causing a population explosion in the home of Mr and Mrs Norm Peterson of Chippawa, Ont.

It's the result of a combined artistic effort by Dad and the four children: Glenn, 8; Lloyd, 6; Murray, 4, and Ellen, 2.

ANN LANDERS

Dear Ann Landers: Our sixth child was born six weeks ago—a Mongoloid. We are doing our best to adjust to a heartbreaking situation.

Not one member of my husband's family sent a note expressing consolation or sympathy. Not one of them bothered to pick up the phone to comfort us.

Yesterday my husband received a letter from his mother. She write: "Clara is too old to be having babies. She should have stopped with the last one. Five children are enough for people in your financial bracket. When I told your sister Barbara about the Mongoloid she said she had just read that older women run the risk of having abnormal children."

My husband is furious. I am sick of the whole bunch. When an abnormal child is born, what should friends and relatives say and do?—**GA.**

Dear GA: When an abnormal child is born friends and relatives should send a gift as they would for a normal child. Letters of condolence or sympathy are not in order at such a time.

Your husband's mother sounds like she could qualify as a test pilot in a broom factory. Her remarks are vicious and cruel.

* * * *

Dear Ann Landers: I'm a secretary who married her boss.

I was divorced when I went to work for my husband. He was married but living apart from his wife and family. They had been separated twice before and—you know the old story—trying to make a go of it for the children. I never went out with him until he was legally free.

Every time something appears in your column about a secretary having an affair with her boss, or a woman breaking up her boss' marriage, I get a clipping in the mail. I think I know who sends them. I'd like to telephone her and ask her to stop it. What is your advice?—**No Homewrecker.**

* * * *

Dea No: Forget it. First, you aren't certain. Second, if your hunch is right you would accomplish nothing. The woman would deny it and then continue with added zest, knowing her attempts to rritate you are meeting with success. Third, he who excuses himself accuses himself.

* * * *

Dear Ann Landers: The fellow I am engaged to marry is long on the lip and short on temper. Vernon lost his job last week and has not found anything yet. I am employed and make a good salary.

A few days ago Vernon picked me up at work. On the way home he was stopped for speeding. He got into a small argument with the officer and when se argues he sort of throws his arms around. I guess he accidentally hit the cop.

Vernon was given an alternative. A $120 fine or 15 days in jail. He doesn't have the money but I have offered to loan it to him. He says, "No. I don't want to take your money. I'd rather go to jail.

Ann, Vernon will one day be my husband. I don't want the father of my unborn children to have a jail record. Vernon says speeding is not a criminal offence and he would not have a jail record. Is he right? Please hurry with your answer.—**In Limbo.**

Dear In: When a man goes to jail it becomes a matter of record. This is called a jail record (and he's not going for a traffic offence).

I hope Vernon will allow you to pay his fine and repay you when he can. It would be nice, too, if he learned to control his mouth and his arms.

KEEP SHOOTING A SAFE SPORT

With the hunting season all around us once again, I'd like to pass on to Chesterville hunters and hunters-to-be the following common sense points that appeared a while back in a telephone company safety journal.

1) Never carry a loaded gun in an automobile, wagon, or other vehicle. Keep it in its case until you start hunting.
2) Before shooting, look into the breech and make sure that the barrel or barrels are clear.
3) Keep the safety lock on until just ready to shoot.
4) Never pull a gun through a fence nor carry it over with you. Keep the muzzle pointed away from yourself and others.
5) Never lay a loaded gun down in a boat. Never lift a gun from a boat by the barrel.
6) Don't set a loaded gun against a tree or a fence or leave it lying on the ground. Even a playful dog might cause it to be discharged.
7) After a fall, or a climb, or after walking over plowed ground, examine your gun to make sure the barrels are clear.
8) Never shoot at objects indistinctly seen among trees or bushes; they might be human beings.
9) Before shooting a game, make sure that no house, born or other building is in the line of fire.
10) Don't leave your gun or shells near a stove, a fireplace or other fire.

One other point not covered but important is that it is **never** open season on telephone poles, conductors or cable. Taking pot shots at vital telephone installations not only shows a very great lack of maturity but endangers the life and property of people who depend on the telephone to bring them assistance in emergencies.

LITTLE GREY LININGS

Ever notice the way things seem to go wrong at the very worst minute? I guess it happens to all of us once in a while. Like the morning you're late for work is the one morning the car won't start. Or the day that company is coming for dinner is the day that the washer decides to flood the floor. There just doesn't seem to be any way we can outfox these little disasters —all we can do is hang on to our temper and reach for the telephone. It will put you in touch with someone who can help out. You can reach the boss . . . who'll probably understand . . . and a mechanic who understands why automobiles do what they do. You can get a repairman on the way to put the washer back in shape. And a phone call to a friend or neighbour may bring in someone to help with mopping up and offer some well-deserved sympathy. At times like these what's easier than picking up the telephone? It's always there to call on. And the help it brings, when you needit most, adds just that much more to the value of your telephone service.

IN MEMORIAM

IRVING—In loving memory of our dear husband and father who was accidentally killed Oct-6, 1945, Herbie Anderson Irving.
This world is so empty without you
And no one can take your place;
You were always the head of the family,
The one to tell our troubles to.
But now we are lost without you,
We suffer and bear the pain,
And hope some day to meet you
But we just don't know when.
Ever remembered by wife Mabel, daughters and son Arnold.

IN MEMORIAM

IRVING—In loving memory of our dear daughter and sister, Gwendolyn Margaret Irving, who was accidentally killed Oct. 6, 1945.
We often sit and think of you when all alone,
The wonderful things you did for us in that easy, soft tone..
Why these things have to happen only God really knows,
For if we knew you were going to be taken from us the things we would prepare.
Ever remembered by Mother, Sisters, brother Arnold.

A touch on the horn ring may warn another driver; but it may also startle a young cyclist into a dangerous wobble. Always use restraint when encountering young cyclists, says the Ontario Safety League.

Here's a reminder from the Ontario Safety League: In an emergency, a fast moving car can be stopped much faster if both pavement and driver are dry.

Samuel Hugh Cameron

Samuel Hugh Cameron, one of the oldest citizens of the village of Finch, passed away on September 30th at the Cornwall General Hospital, after an illness of several months.

Mr Cameron was born in Finch township 93 yers ago, the youngest son and last surviving member of the family of the late Mr and Mrs Hugh Samuel Cameron who emigrated to this country from Invernesshire, Scotland, over a century ago.

The deceased attended high school in Morrisburg and later taught school in Goldfield. He then moved to Alberta where he farmed for several years. In 1913 he married the former Mary Ellen MacMillan, who predecesed him thirteen years ago. After his marriage he lived in Edmonton, Alberta, but in 1924, when his brother John was ill, he and Mrs Cameron returned to Finch and resumed farming on the old Cameron homestead, now occupied by Mr and Mrs Donald MacIntyre.

In 1948 they retired and moved to the village of Finch. After Mrs Cameron's death he continued to live there alone, taking an active interest in all current affairs. He was a member of St. Luke's Presbyterian Church.

The funeral which was held at the Brownlee Funeral Home was conducted by the Rev. Hugh Wilson of Avonmore. The pallbearers were Hugh D. Cameron, John Waldroff, John W. MacMillan, Hawley MacLean, Hugh Gillies and Elburn Shaver.

He is survived by his niece Katherine (Mrs W. H. LeGrow) of Richmond, Ont.; two grandnephews, John and Walter LeGrow; a grand-niece Eleanor (Mrs R. W. Fennessy) of Ottawa; two sisters-in-law, Mrs C. Backus of La Jolla, California, and Mrs D. A. Cmeron of Vancouver, B.C., and Mr Grant Cameron of Ottawa, attended the funeral.

The word "paperhanging" doesn't always mean what you think. In the used car trade it means the art of concealing rust holes and a battered body on an old car. aPper is pasted over the bad bodywork; a layer of plastic is added, and the whole is sprayed with paint, says the Ontario Safety League. Bought this way, paper is very expensive.

Set up new method to handle fertilizer in Avonmore plant

A new method of transporting and delivering fertilizer direct to the field has made Avonmore the distributing centre for one kind of granular fertilizer for all the United Counties, much of Grenville, and the greater part of Russell and Prescott. The Shur-Gain Division of Canada Packers Ltd., has located its bulk supply facilities at the Avonmore Feed and Seed Ltd. plant.

Last Wednesday the service centre was officially opened with special ceremonies, a ribbon cutting with Charles E. Blair of Moose Creek, Warden of the United Counties, wielding the shears, and a large number of feed and farm supply dealers, and members of the farming public attending. Facilities provided at Avonmore were explained by the proprietors of the feed mill, Howard Kirk and Hubert Delaney. The plant has been in use for a few months.

The fertilizer, which may be either standard of special blend, is brought from Montreal by a regular truck service.

At Avonmore Feed and Seed it is dumped into one of the several large bins for temporary storage. On request by a famer who wishes to use the service, a 12 ton truck is called into service, which can haul both the fertilizer and a bulk spreader out to the farm. On the farm the appropriate amount of fertilizer is loaded into a spreader, and the farmer may hitch his own tractor to the spreader and fertilize his fields.

The bulk truck is compartmented is such a way that it can carry several orders of fertilizer at once, going from one farm to the next according to orders at hand. Under this plan the fertilizer is never put into bags and the cost is thus lessened by the value of the usual fertilizer bags plus the labor of loading and unloading them.

Arthur Evans of the fertilizer company explained the facilities offered, and the proprietors of the plant showed their guests the new methods and machinery. Howard Kirk and Hubert Delaney share ownership and management of the company.

A large number of people congratulated the owners on the new plant, among them Lucien Lamoureur, M.P., in the past session of Parliament and Fern Guindon, MPP for Stormont.

The afternoon was enlivened by Johnny Mooring, Springhill, N.S., North American grand champion old time fiddler, and his accompanist, Miss Carol Kennedy of Avonmore. who has also achieved considerable fame in the country music field. Other entertainers included Raymond Bourgon, Moose, and Miss Darlene Alguire, step dancers.

An informal square dance on the floor of the storage plant added an air of gaiety to the afternoon. The Avonmore Women's Institute served refreshments.

TRY THESE

VEGETABLE CASSEROLES

VARIETY IN METHODS OF COOKING vegetables will abolish that familiar phrase "I don't like vegetables." Combine vegetables and fruits for that different flavour.

My thanks to the Food Department at Macdonald Institute for these ideas.

Onion and Apple Casserole

Slice three large onions; partly cover with water and simmer for 10 minutes. Drain and reserve liquid.

Peel, core and slice 4 to 5 medium tart cooking apples.

Arrange in alternate layers in a casserole, sprinkling the apples with sugar and cinnamon and the onions with salt and pepper; dot each layer with butter.

Add ½ cup of the reserved liquid from the onions; bake at 375 degrees F. for 45 minutes or until tender. Baste with more liquid when necessary.

This casserole is especially delicious with roast pork, but any combination is good; so why not try your own?

Casserole of Onions, Tomatoes and Green Beans

1 cup thinly sliced onions
2 tbsps. butter
1 can (15 oz.) green beans
2 large tomatoes
1 tsp. thyme
¼ cup grated cheese
Salt and pepper

Drain green beans and place half of them in bottom of a 2-quart casserole.

Melt butter and cook onions slowly until they are tender, but not brown. Arrange half the onion rings over the beans.

Peel tomatoes and cut in ¼ inch thick slices. Place half the tomatoes over the onions; sprinkle with thyme, salt and pepper to taste.

Arrange beans, onions and tomatoes alternately again. Season. Cover and bake at 350 degrees F. for 15 minutes. Top with grated cheese and return to oven until cheese melts and is golden brown, about 10 minutes. Six servings.

French Fried Onion Rings

Peel large onions; slice 1¼ inch thick and separate into rings. Dip into batter made with 1 cup flour, ½ teaspoon salt, 1 teaspoon baking powder, 1 cup milk and 1 slightly beaten egg. Fry in deep fat at 370 degrees F. until brown. Drain on absorbent paper and crisp in 350 degree F. oven.

Apple and Turnip Casserole

3 cups turnip slices, about ¼-inch thick
2 medium cooking apples cored and thinly sliced
2 tbsps. butter
6 tbsps. brown sugar
Salt

Cook turnip slices in boiling salted water until just tender. Drain. Place one-half the turnip slices in a greased 1-suart casserole; add half the apple slices. Dot with 1 tablespoon butter; sprinkle with 3 tablespoons brown sugar and a little salt. Repeat with a second layer alternating apple and turnip slices in a circle around the dish. Dot with butter and sprinkle with salt and brown sugar. Cover and bake at 350 degrees F. for 30 minutes. Serves 4 to 6.

DO YOUR WINTERPLANNING NOW

Plan now to get all those jobs done this winter. Things like having the lawnmower fixed, and the screens mended; having the car tuned up and outboard motor checked; having the drapes cleaned and the rugs shampooed; having the furniture re-upholstered and the electrical appliances repaired; having all those repair and renovation jobs done which can call for a long wait come Spring, but which can be handled quickly, efficiently and easily during the winter season. Ask your bank about a low-interest NHA Home Improvement Loan. Plan ahead. Be a Winterplanner now.

AN EXPLANATION

An unfortunate impression has been created following prosecution in support of the Village By-law that prohibits dogs running at large.

Council, as a whole, in a unanimous motion, ordered Village Constable Leonard Shane to enforce the By-law. No individual member laid a complaint, contrary to the impression that is abroad following the October 14 court. The public is asked to realize Chesterville Council works as a unit, in matters of By-laws, governing the Village.

Carl Merkley, Reeve,
Geo. Laflamme, Garnet Droppo,
Keith Graham, James Fyke, Councillors. 5-2

COURT of REVISION

Notice is hereby given that the Municipality of the Village of Chesterville Court of Revision will be held in the Clerk's Office, Community, Hall on November 2nd at 10 a.m. All persons having business with the Court are asked to be present.
