### Save Systematically

Haphazard, occasional saving seldom accomplishes much. It's the steady, persistent, regular depositing of so many dollars a week, or month, or season, in the Union Bank of Canada, which makes one financially independent. The money accumulates all the more rapidly, too, because of the interest which is added every six months.

### Re Crysler's Farm Centenary Celebration.

27th and 28th inst.

Under instructions from the Committee, Mr. G. W. Fluker, music instructor, will meet the school children for rehearsal at the following places and dates as follows:—

Mountain Aug. 18th, Winchester August 19th, Chesterville August 20th, Morewood August 20th, Alexandria August 21st, Cornwall August 22nd, Finch August 23rd, Iroquois August 25th, Brinston August 25th, Morrisburg August 26th, Williamsburg August 26th.

### A Greater Tragedy than Crysler's Farm

When the people assemble on the battlefield of Crysler's Farm this month to commemorate a great tragedy they will witness some of the tragedy in connection with farm life in Ontario today, for on the second day of the celebration, Aug. 28th, a farm containing 275 acres and comprising about a third of the battle ground will be offered for sale by public auction. The owner is Mr. W. A. Van Allen, who, because of scarcity of labor, feels compelled to give up what is one of the finest farms in eastern Ontario. On this farm, with its fine residence and splendid outbuildings, the Crysler's Farm monument stands. Mr. Van Allen will leave Ontario and take up a homestead in the west.

### First Sod at Ottawa End to be Turned in Week.

The first sod on the Morrisburg and Ottawa Electric railway, working out from the Ridgmont end, will likely be turned the latter part of this week and the work of constructing the line will be rushed along. It will be remembered that a couple of years ago Hon. J. P. Whitney turned the first sod on the other end of the line, near Morrisburg.

The contractor is now getting his materials on the ground, and is practically ready to start the work on the line. This section is about 12 miles long and will be the first to be built, the remainder to be constructed in sections and linked up.

"We have not much idea how soon the work on this section will be completed," said one of the directors of the company. "It all depends on the contractor. As it is to his own advantage to hurry the work along as fast as is possible to do it properly, we do not anticipate any needless delay. Much of course depends on the weather."

### Ontario Apple Crop Small.

Apple growers at St. Catharines, Ontario, say that the report that the apple crop throughout Ontario will only be 50 per cent. this year is quite correct as touching that district also, but they say that last year there was a very abundant crop, and naturally this year the crop will be small.

### An Economical Auto.

A Morrisburg despatch says: Mr. W. H. Fetterly and family have returned from Toronto, the remarkable feature of the circumstance being that twelve gallons of gasoline sufficed to run their automobile from the Queen City to this place, a distance of 241 miles.

### Chambers—Kelly.

On Monday, Aug. 11th, 1913, at St. Mary's Church, Chesterville, a quiet but pretty wedding was celebrated by the Rev. Father Fleming, when Mary E. Kelly became the wife of George T. Chambers.

The charming young bride, who was prettily attired in cream mouseline silk, with pearl and cream lace trimmings and white felt hat with ostrich plumes, was assisted by Teresa E. Chambers, sister of the groom, gowned in cream silk mull, with pearl and Irish point lace trimmings and white lace bonnet hat, and wearing the groom's gift, a gold bracelet. Mr. John Kelly ably supported the groom.

After the ceremony the happy couple left on the morning train for Montreal, Quebec and other eastern points, the bride travelling in a tan tailor-made serge suit with cream lace waist and white hat, amidst showers of rice, confetti and good wishes.

### Who Exposed Corpse?

Kingston, Ont., Aug. 8—Queen's Medical College authorities will demand an investigation into the opening of the box containing the corpse of a man killed near Belleville a week ago and which arrived at Kingston Junction early Tuesday morning expressed to the Medical College.

The College authorities intend finding who is to blame for interfering with the dead body and placing it in a barrel. They cannot understand why the box should have been broken open in the short journey from Belleville to Kingston.

Investigations will show whether curiosity prevailed on the part of those handling the box or whether there was carelessness at Belleville in enclosing the corpse. The feeling is that an indignity was perpetrated upon the dead and doctors as well as undertakers will not permit this.

## "I ATTRIBUTE MY CURE SOLELY

And Entirely To Taking "Fruit-a-tives"

HULL, QUE., DEC. 24th, 1909  
"For the past twelve years, I had painful attacks of Dyspepsia. I could not digest my food and everything caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times, I had no movement of the bowels for two weeks. Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came to only 80 pounds and everyone thought I was going to die. Finally, I had the good fortune to try 'Fruit-a-tives' and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy, I steadily improved. Now I feel very well, weigh 115 pounds, and this is more than I ever weighed even before my illness. I attribute my cure solely and entirely to 'Fruit-a-tives' and can never praise them too much for saving my life. To all who suffer from Dyspepsia and Constipation, I recommend 'Fruit-a-tives' as a miraculous remedy."

### Ottawa Man Has Lost His Appeal in Liquor Case.

Toronto, August 8—"I regret that I can do nothing for him," remarked Mr. Justice Lennox, in dismissing a motion by Robert T. Gilmour, of Ottawa, who was fined \$500 on a charge of selling liquor at Alexandria without a license.

"I am not well pleased with the action of the magistrates, but they acted within their jurisdiction and I cannot say that in proceeding to dispose of the matter in the absence of Gilmour the justices acted contrary to natural justice."

His Lordship remarked that the trial was adjourned once because Gilmour's lawyers were not present and that there was no valid excuse why he was not represented when the trial took place.

"Still," he adds, if I had power to quash the conviction I would not do so, not because I would then be doing complete justice but because in my opinion it would be a nearer approach to justice than a fine of \$500. Leaving out the suggestion of a previous conviction I can see no reason why the fine should not be reasonably close to the minimum.

The Boy Took His Thrashing Quietly

## Daddy's Bedtime Story — A Boy Who Never Forgot His Whipping.

**D**ADDY said that as it was so near the Fourth of July he would tell Jack and Evelyn a story about one of the boys of the Revolution.

"You know," daddy began, "the Revolution was the war which the American people once had with the English when old King George raised their taxes more than they thought he had a right to do. They said they wouldn't pay the taxes, and as it was on the Fourth of July the paper which said so was signed. That is the reason we celebrate the date as Independence day."

"But before King George would agree to let them alone a long and cruel war between England and America was fought. Many brave Americans enlisted under General George Washington, and when the war was over the English were glad to go home and let the Yankees do as they pleased. This was called the war of the Revolution."

"Among the American officers none was braver than General Daniel Morgan, and no one was more feared by the English soldiers. General Morgan was a terrible fighter. Not only did he think that the English king had no right to tax Americans, but he had a grudge of his own against the English."

"And this is how the grudge began. When England was at war with the French and Indians Daniel was a wagon boy in the army that marched over the mountains from Virginia to fight the French at old Fort Duquesne. One day something happened which was blamed on Daniel. The boy was not guilty, but the stupid and ill tempered officer in charge of the wagoners scolded him so sharply that the boy was provoked to reply. Angry at being answered in this way, the officer ordered that Daniel should be whipped, and he set the punishment at 500 lashes."

"The boy took the thrashing quietly, but he fainted when it was over. He always claimed that the man who counted the strokes made a mistake in counting and that he had been given only 499 instead of 500 lashes. Often when he told the story to the soldiers around the campfire in later days when he was an officer in the Revolutionary army he said, with a laugh, that the British still owed him one blow."

"He never forgot the unjust whipping and was one of the first to answer the call of the colony for soldiers when their war with England began. He gathered a troop of riflemen from the mountains of Virginia and Pennsylvania. These became famous for their courage and skill with the gun. They had been hunters and learned to shoot in hunting the deer and bear and wildcat in their own mountains. They feared nothing and never missed fire when they aimed their guns at anything. Morgan fought until the close of the Revolution and then went home to his farm near Winchester, Va., where he lived until the close of his life."

## Daddy's Bedtime Story — How the Game Cock Won His Name.

General Sumter One of the Finest.

**J**ACK had asked daddy to tell them another story about the brave soldiers who had fought for independence.

"Yes," said Evelyn; "that will be a fine way to get ready for the Fourth of July."

"Well," agreed daddy, "there are so many stories about these good soldiers that it is hard for me to know which one you would like best to hear."

"One of the finest was General Thomas Sumter. He was born in Virginia and soon showed that he wished to be a soldier. Like George Washington and many other of the Revolutionary officers, he got his first taste of war in fighting the French and Indians."

"When the Americans and English began fighting he was ready and anxious to take a hand in the war. Most of his fighting was done in South Carolina. He made the proud and cruel Tarleton, who commanded the British troops in that part of the country, much trouble. Sumter had his own way of fighting. He knew every inch of the wild country. His soldiers, like himself, were countrymen who could stand many hardships. When they could find no other food they could live off roots and wild plants, as the Indians did. They were so strong and active that when the fighting went against them they could be off to the swamps or the mountains before the English soldiers knew what they meant to do. Once safely there, the British, who did not know the roads so well, were afraid to follow them."

"A story is told of General Sumter which may interest you. He was always on the lookout for good men to enlist in his regiments. One day when he was out on this errand he heard of three brothers who were very fond of cock-fighting. They owned a blue hen whose chicks grew up to be great fighters. These men and their rough companions thought it was fine sport to set one of these chickens to fight the other. The star fighter was a rooster named Puck, which had never been thrashed in a single fight. He was known all over the country, and the three brothers were very proud of him."

"One day Sumter called at the brothers' place while a cockfight was going on. He showed his contempt for such an amusement and when the brothers spoke of it said:

"Such an employment is childlike and cruel. Come with me and I will give you worthier game. I will teach you how to fight with men."

"The brothers and their companions were so much struck by his noble manner and brave words that they cried out:

"Puck forever! He is one of the blue hen's chickens!"

"This name stuck to General Sumter, and afterward he was known among his enemies as well as his own men under the title of 'the Game Cock.'"

#### French Will Have to Wait Mighty Long Time for Privileges.

Kemptville, Ont., Aug. 13.—The efforts of the French-Canadians to gain control of the English schools in Ontario came in for severe criticism yesterday here by Mr. Howard Ferguson, M.P.P. for Grenville. The French were clamoring for special privileges because they were being dominated by the Catholic church. "They will wait a mighty long time before they will gain any such privileges as they are looking for," said the speaker. He went on to say that if the Protestants of Canada wanted to retain this fair Dominion for the British they must retain the English language forever.

Sheriff Thomas Bowles of Dufferin county, passed away in Orangeville on Saturday, at the age of 83.

#### Catholic Picnic.

The annual picnic, under the auspices of St. Mary's Church, was held on the Driving Park in this place on Tuesday of this week. The weather was all that could be desired, and although at the present time it is a busy one with the farmers, there was a fairly good crowd present.

During the afternoon many athletic contests took place on the track, and one speeding event, a 2.40 class, in which four starters were called to the wire by Dr. Bean of Winchester. The result was, Harold K. 1st, Miss Reflector 2nd, Sir John 3rd, Money Musk 4th.

The Dunbar band was present and gave selections during the afternoon.

In the evening a grand concert was given in the Music Hall, and proved to be an exceptionally good one, as the talent secured was exceptionally good. Mr. G. W. Bogart acted as chairman and filled the position very acceptably.

Mrs. Libbie Beach-Knox of Yorkton, Sask., who is so well known through this eastern part of Ontario, having appeared many times before a Chesterville audience, was one of the principal artistes of the evening, and received a very warm reception. Mrs. Knox received repeated encores, to which she kindly responded. It is needless to enlarge on her singing ability, as everyone knows she has a fine soprano voice and knows how to use it.

Mr. John A. Kelly of Toronto, ventriloquist, singer and entertainer, was the funny man of the evening and he proved himself such before the close of the concert. In the ventriloquist line he is an expert, and we doubt if any in Canada can beat him. In his comic songs, funny stories, etc., he is able to put on a show himself, and every minute a funny one. Should he appear here again a big house awaits him.

#### Arrested At Altar.

Port Hope, August 11.—Saturday evening last preparations were in progress for a wedding at a residence in Margaret street. It developed today that Rev. A. H. Going, pastor of the Methodist Church, who was to have performed the ceremony, was in the act of reading the license when in walked Chief of Police Gummerson with a warrant for the arrest of the prospective bridegroom, William Henry Franklin Dixon, on a charge of perjury, in that he swore that the bride-elect, Kate Clara Saddler, daughter of George Saddler, of Peterboro, was 20 years of age, whereas she will only be 16 on the 17th of next month.

The girl's father attended an excursion to Niagara Falls, and Dixon is alleged to have availed himself of the opportunity to coax her to come to Port Hope where he has been living since January. He came here from Peterboro after the disposition of a charge against him of abducting the same girl. Dixon obtained the marriage license from Henry Reynolds, a local jeweller by swearing that the girl was 20 years of age and he 28 although he appears to be over 40.

Dixon appeared in the Police Court this morning before justices of the peace, and was remanded until Wednesday.

#### Presentation and Address at Dunbar.

On Thursday afternoon the Inasmuch Mission Band and the members of Miss Marcellus' Sabbath School class, met at her home to spend a social afternoon, when Miss Marcellus' class presented her with a Teachers' Bible and a leather glove and handkerchief case. The address was read by Miss Jessie Dickey, and Miss Eva Carlyle presented the gifts.

Miss Mary Marcellus.

Dear Teacher:—

As we are gathered here, at your kind invitation to spend a social afternoon with you, we thought it an opportunity to express to you our appreciation of your service as our Sabbath School teacher.

You have been so thoughtful and untiring in your efforts to inspire and uplift us by the teaching of "the precious truths," that we feel very greatly our indebtedness to you. We trust that the benefit has not all been ours, but that the work is also bringing happiness to you. We assure you that we have not been ungrateful and that we appreciate the time and thought that you have spent in our behalf, and now in closing we ask you to kindly receive from us these gifts, trusting that many years we may be thus united, and if our paths divide, we know that the lessons we have received from your kind instructions will not be forgotten, but will serve "as a lamp unto our feet and a light unto our paths."

Most cordially yours

THE MEMBERS OF YOUR SUNDAY  
SCHOOL CLASS.

#### Dr. Hastings Decrees Licenses for all Lodging Houses.

Changes of an exceedingly drastic nature will have to be made in the manner of conducting lodging houses in Toronto when the rules and regulations governing such establishments, issued by Dr. Hastings, M.H.O., this morning, have been given endorsement by the local Board of Health.

In the future no building in the city shall be used as a lodging house until a license has been procured from the Health Department. Also, the license must be conspicuously displayed in the office of the place.

The old method of jamming humanity into every foot of space available will have to be abandoned, as six hundred cubic feet of air space will have to be provided for each bed, the number of lodgers to be determined under the Public Health Act. Also the placing of one bunk above the other will be a violation of the regulations.

Nothing but iron or metal bedsteads shall be used, and there must be one of these provided for every sleeper, which will effectually do away with the habit of lodging house frequenters of using the floor as a resting place in the event of no beds being available. No comforters shall be permitted, blankets taking their places. Clean sheets and pillow slips are compulsory.

In many lodging houses it is customary to have a cubicle for each bed. In the future this is not compulsory, but where it is in vogue the partitions of the cubicle must not run to the ceiling, two feet of intervening space being required.

On every floor there will have to be a shower bath with hot and cold water, one wash basin off every twenty-five beds, and a water closet for that number. The floors themselves will have to be scrubbed thoroughly twice each week, while all walls, beds and furniture will have to be cleaned once every fortnight.

No dry sweeping will be permitted, as the floors will have to be sprinkled with a solution of sulphuric acid or some other disinfectant before the sweeping operations commence. Sweeping will have to take place every day.

#### Quebec Plans Reception for Toronto Shot.

Quebec, Aug. 12.—When Private Hawkins, winner of the King's Prize, arrives at Quebec he will be greeted and given an informal reception on board the steamer Tunisian by the Quebec militia and presented with a handsome Ross rifle, the finest ever made by the Ross rifle factory here, which will bear a silver plate on the butt on which will be engraved the name of the marksman and his achievement.

#### Burglars Fail to Secure Entrance.

Almonte, Ont., Aug. 13.—An attempt was made last night to enter Mr. W. West's general store on Mill street. Two men, at an early hour, were seen trying to force an entrance through the front doors and a call was sent for the police. The men suddenly disappeared. It is thought from the description of the men by the person who discovered them that they are the two men who have been hanging around for the last few days.

On the arrival of Mr. Cameron and his bride at Finch on their honeymoon trip, they were met at the station by a large number of friends and acquaintances and escorted to his old home where his mother and sister, and his brother, John M. Cameron, are living, and very pleasant indeed were the many good wishes and congratulations they received. Mr. Cameron went to Alberta about 12 years ago, and has done well, as have so

many of the stalwart sons of Stormont in the sunny province. The bride was one of Glengarry's fairest daughters, and the opinion of his friends was that Mr. Cameron had made a wise choice of a life partner. A very enjoyable evening was spent at the Goldfield homestead, and a fine supper was served. Mr. and Mrs. Cameron will remain east about three months before returning home.

### Auto Falls Into Stream

Montreal, August 12.—Hitting a concealed log on a bridge near Knowlton yesterday, a 100 horse-power automobile tore down the rails of the bridge, and plunged twenty-five feet into a ravine, turning turtle, and killing Mrs. H. R. Ovenden, wife the Montreal secretary of the Cartier Centenary Committee, who lives at 4160 Sherbrook street West. The four other passengers in the car escaped with contusions.

At the time of the accident the car was being driven by Wells Martin, eighteen years of age, and the other passengers

besides the deceased lady were Mr. Z. E. Martin, a paint manufacturer of Chicago, Mrs. Martin, sister of the deceased, and Miss Avie Martin. The party was returning from a trip to Boston, and the machine was, as it had been during many trips, in charge of Wells Martin, and is stated to have been going at a moderate speed when one of the rear wheels struck a log concealed in some sand at the end of a bridge.

The front wheels jumped and struck the side of the bridge tearing away the rails, and the auto turned turtle, falling into a ravine twenty-five feet deep. As the fall was made a rock was struck, and Mrs. Ovenden, who was in the rear seat with her sister, was instantly killed, her skull being fractured by striking the rock.

Mrs. and Miss Martin were thrown clear of the car, as was Wells Martin, but Mr. Martin was pinned beneath though not seriously injured. He crawled out, and soon the car was jacked up and Mrs. Ovenden's body recovered.

Coroner Joannette was notified of the accident, and, after inquiry, decided that the circumstances did not warrant the holding of an inquest. The body of Mrs. Ovenden was removed to a local undertaker's, while the other members of the party were taken to the Lake View House nearby to recover.

Mr. Ovenden left the city last night, going via Drummondville, and thence by automobile.

### Capture Polacks Entering The United States.

Cornwall, Ont., Aug. 13.—Inspector George W. Wood and Inspector Asbrough of Cornwall, and Customs Inspector P. Smith, of Massena Point, all of the U. S. Government, stationed here, made an extensive round up of 24 Polacks, who were attempting to enter the United States without passing inspection.

The Polacks arrived in two sections, evidently leaving Montreal on night trains. They attempted to cross the river at Bernhart Island, west of Cornwall. The officials got a tip of their presence and had little difficulty in rounding them up. They are subject to a fine of \$300 each with a jail term of one year.

Reports have reached Ottawa of a scheme to bring thousands of Hindus to Canada direct from Calcutta.

Wm. E. Garlough of Cornwall, was killed by a load of shingles falling on him when his team ran away.

Arrangements have been made for supplying more and better fish to Montreal and Ontario from the Maritime Provinces,

### Ill Luck Ends in Man's Death By Run-away Horse.

Cornwall, Ont., Aug. 11.—William E. Garlough, a teamster employed by Walter Woods, was instantly killed at Cornwall on Saturday afternoon. Garlough was delivering a load of shingles to a house in the west end of the town when his horses ran away.

The wagon was overturned and the shingles fell on top of him, with the result that his shoulder was fractured and his neck broken. The remains were taken to W. G. Stoddard's undertaking establishment. An inquest was considered unnecessary.

Garlough has been a most unlucky man. While working in the paper mill there a few years ago he was badly scalded, and a few years later he had his right arm amputated by a corn cutter. He was 24 years of age and is survived by his mother, one brother and two sisters. The funeral took place Tuesday afternoon.

### Germans From States Flock Into Dominion

Ottawa, Ont., Aug. 12.—A good crop of grain and a good crop of German-American settlers this year are predicted today by W. J. White, of the Canadian Immigration Department. Mr. White has just returned from an extensive trip through both the Canadian and American west.

He states that the movement of people of German extraction to Canada from the United States is remarkable. In the past the American immigrants come principally from the northern States of the middle west. This year a great many are coming from Pennsylvania and Missouri.

They are people of the best type and will make the finest class of settlers, having both capital and skill in farming. Last year 142,000 settlers came from the United States, and this year's send will not be far behind last.

Mr. White says that he just finished a drive of 1,800 miles through the grain fields of Western Canada, and found the prospects splendid. It looks to him as if the wheat yield would average 22 bu. per acre for its three prairie Provinces. This will give a record wheat crop of more than 200,000,000 bushels. Flax is good, and oats fair, with good weather half the crop of wheat should be harvested by next week.

# Former Toronto Man Dies Of Heart Failure.

The sudden death from heart failure of Mr. Robt. Gillies, a former well-known Toronto business man, took place at Oshawa yesterday. He had been in delicate health for some time, but his sudden death was unexpected.

The late Mr Gillies was born at Lanark, Ont., sixty-two years ago. He entered business at Gananoque in the seventies, and came to Toronto in the year 1895, when he took over the Toronto Bolt & Forging Company, which later became merged with the Canada Steel Company. Since disposing of his business, Mr. Gillies had lived with his wife and family near Edmonton, where he owned a large ranch, and when his death took place he was in Oshawa on business connected with his western property. Mr. Gillies was a member of the firm of Gillies Brothers, lumber merchants, of Carleton Place. He was a graduate of Queen's University, and took an active interest in educational matters at Queenston. Several brothers and sisters reside in and near Toronto.

# Barnardo Boy Is Slayer of Girl Nine Years Old.

A shocking tragedy took place Saturday night at Rideau, four miles north of Westport in Leeds county when Edith Hawkins, an English girl of nine years only two months in Canada, was shot and killed at the home of David Lacock by a gun in the hands of Herbert Williams, a young man placed in that vicinity some years ago by the Barnardo home.

The young people were alone in the kitchen when the accident happened and apparently the girl was sitting on a stool about 12 feet from where Williams was standing. The shot took effect in the region of the child's liver and she died before medical assistance could be secured.

Williams was taken into custody by County Constable Steele and will remain in his charge until after the inquest meets tomorrow night. Williams says it was entirely an accident and that he did not know the gun was loaded. Other reports in circulation would indicate that the shooting followed a quarrel between Williams and the dead girl.

# Negro Lost His Life Trying to Win Bet.

Kingston, Aug. 10—Daniel Royle, head baker on the R. & O. steamer Kingston, was drowned today while attempting to win a bet. Shortly after the boat docked at Prescott Royle left the kitchen where the temperature was 110 degrees, and made a wager that he could recover a walking stick which had been thrown into the river. Diving from the deck of the steamer, Royle had gone only a short distance when he began to cry for help. The strong current, combined with the ice-cold water, proved too much for him. Hundreds of passengers heard his cries, but they could only look on, and the unfortunate man sank to his death in one hundred feet of water. A colored waiter named Waters attempted in vain to recover the body. Royle was a negro. The chef who had been his friend for the past twenty years is grief-stricken over his death.

# THE BREADFRUIT TREE.

Its Meat When Cooked Tastes Like Mashed Potatoes and Milk.

One of the gifts of the eastern tropics to the western is the breadfruit, which is now extensively planted in the West Indies. This can be done only by cuttings, as the cultivated variety develops no seeds. In the wild form the chestnutlike seeds are eaten, but the pulp is disregarded. The tree is of moderate height, but spreads a broad crown of large, ragged edged, glossy leaves, making an excellent shade.

The fruit, which is a compound of the massive clusters of blossoms, is about the size of a coconut and is incased in a rough rind. This, when baked in hot embers or in an oven, broken open and scooped out with a spoon, tastes like mashed potatoes and milk or like sweet bread, which it also resembles in appearance. It is a little fibrous toward the center, but elsewhere is quite smooth and "pudding." Sometimes a curry or stew is made of it, and it goes well as a vegetable with meat or gravy. "With sugar, milk, butter or treacle," Wallace wrote, "it is a delicious pudding, having a very slight but delicate and characteristic flavor, which, like that of good bread and potatoes, one never gets tired of." It is also highly nutritious.

The genus (artocarpus) contains several species, one of which, the jackfruit, is also cultivated for eating. The timber of the tree is also useful, the bark can be prepared for a sort of cloth and the sap forms, when boiled with oil, a mucilaginous liquid very useful for making the seams of wooden palls, canoes and the like water tight.—Harper's Weekly.

# EMERSON IN OLD AGE.

Even His Failing Memory Could Not Mar His Amiability.

In Dr. J. K. Hosmer's "The Last Leaf," there is a pathetic picture of Emerson in his old age, when his memory had failed while his other faculties remained strong: "I had as a fellow guest a man who had long been intimate with him and whom he was very glad to see. Talking after tea in the library, Emerson said: 'I want to tell you about a friend in Germany. His name I cannot remember,' and he moved to and fro uneasily in his effort to recall it. 'This friend with whom we have taken tea tonight, whose name also I cannot remember'—here again came a distressed look at the failure of his faculty—I cannot remember his name either, but he can tell you of this German friend whose name I have also forgotten."

"It was a sorrow to see the breaking down of a great spirit and his agitation as he was conscious of his waning power. And yet, so far as I could see, it was only the memory that was going. The intellectual strength was still apparent, and the amiability of his spirit was perhaps even more manifest than in the years when he was in the full possession of himself."

"This came out in little things. He was overanxious at the table lest the hospitality should come short, troubled about the supply of butter and apple sauce, and soon after I saw him on his knees on the hearth taking care that the fire should catch the wood to abate the evening coolness that was gathering in the room."

# The Rooks and the Seagulls.

A Dover correspondent reports a curious incident which was witnessed at a farm at Elms Vale, on the confines of the borough. A flock of seagulls flying inland had taken possession of a newly sown field and were pecking away, when a still more numerous flock of rooks swooped down and attacked the gulls. The rooks, being about two to each gull, flapped and rushed the gulls until they withdrew to a field some distance off. The victorious rooks then proceeded to enjoy themselves in the field, having first set what were apparently sentries along the side of the field. It was amusing to watch these sentries hustling away any gull which strayed too near. It has been noted by naturalists that this setting of sentries is in accordance with the habits of rooks.—London By-stander.

# The Drink That Was Called Robur.

About forty years ago there was advertised on London billboards a drink called Robur, said to be good for every ailment and, incidentally, the long sought after elixir of life. One was invited to send for free samples, and its marvelous properties were the subject of everybody's conversation. Robur might have been sold to this day had not some one, without the fear of a libel action before his eyes, divulged its secret formula—cold tea enlivened by rum. From that moment it fell as rapidly as it had risen, for people could make their own Robur if they wanted it.—Chicago News.

"I's gwine ter sell 'im fob 25 cents."  
"You kaint make no money dat way."  
"De las' party I sold 'im to fob 25 cents gimme two dollahs next day to take 'im off der hands."—Washington

# READ ABOUT THE GREAT INVENTION THE ECCENTRIC SPROCKET WHEEL

Immediately after our Knotter ties the bundle, the chain is pulled over the short spokes (see arrow B) and note difference in length of spoke as compared with arrow A). The shorter spokes greatly increase the speed of the chain. The bundle is given a swifter discharge than with ordinary wheel, and the needle is speedily brought back, out of the way of the downcoming grain, into position for the next sheaf.

The Eccentric Sprocket does this, too—it prevents that "jar" or "jerk" always noticed on other machines when a bundle is being tied and discharged. You will not feel it on the No. 3; neither will your horses be annoyed by it, nor "the life" of the machine be shortened. Frost & Wood No. 3 runs along and does its work without even a suggestion of that "jerk."

Now, you see why every maker would put the Eccentric Sprocket Wheel on his binder if we did not control the patents for Canada. You see why it's wise to invest a post card and get our Binder Booklet so as to become thoroughly posted on the peer of them all—the Frost & Wood No. 3.

You are on the right track when you start investigating our No. 3—the binder that is built by a purely Canadian Company, who thoroughly understands Canadian conditions. We would like you to read a few of the hundreds of testimonials we have received from Canadian farmers, which back up our claims to the letter.

Just write us for catalogue

Buy what you require in your own town and, by so doing, build it up. Try it.

The McLaughlin Carriage Company have been engaged in the development of vehicles for 43 years—over 38 years of that time have been devoted to making carriages. They were made well, as might be expected when every effort, every new and tried idea was applied to the betterment of their construction and to the extension of their service. McLaughlin buggies bore a good name, but they earned it. It was won on sheer merit. A farmer or townsman bought a McLaughlin buggy when he had the price simply because it represented the best he could get. He could buy cheaper buggies, but he couldn't get McLaughlin service. Service can't be had for nothing; it costs money, and it's worth it.

But here's the point. The same standards that made the McLaughlin buggy famous are still applied to the making of McLaughlin cars. Each McLaughlin car is the product of the accumulated experience, skill and knowledge of over forty-three years directed solely along one line. Methods haven't altered. It is only the principle of locomotion that has changed.

In relation to service, consider well that which goes with every McLaughlin car. Through its depots located all over the country, the resources of the McLaughlin plant are placed convenient to the needs of the McLaughlin motorist. Over one hundred thousand dollars' worth of parts are carried for the single purpose of giving quick, economical service. You may never need this service, but all the same, it's mighty comforting to know that it is at your disposal when and where you want it. This is partly what is meant by McLaughlin service. It covers the country.

No other Company in Canada has so much invested in service for its customers.

### The Late Hiram Carman.

Death claimed on Tuesday  
morning an old and prominent re-  
sident of Morrisburg, Hiram Car-  
man. The end was not unexpected,  
his death being due to the infir-  
mities incident to old age.

The late Mr. Carman was born  
at Iroquois in the year 1826, the  
son of the late Peter Caman and  
grandson of Michael Carman, a  
U. E. Loyalist. As a young man  
he served as surveyor for a num-  
ber of years under the late Capt.  
T. S. Rubidge, being afterwards  
appointed collector of customs for  
the port of Morrisburg, a position  
which he occupied for thirty years,  
when, owing to failing eyesight,  
he was obliged to retire on a pen-  
sion.

He was one of a family of eight  
—four sisters and four brothers,  
the only surviving member being  
Mrs. J. W. Forward, of Iroquois.  
He married Julia Ross, sister of  
the late John S. Ross, who sur-  
vives, with three daughters—Mrs.  
R. P. Adams, Mrs. Herbert Brad-  
field and Miss Nellie. His Honor  
Judge Carman of Lindsay, and  
the Rev. Dr. Carman, are cousins.

The late Mr. Carman was a  
Conservative, and a lifelong ad-  
herent of the Church of England.  
The funeral took place today at  
2 o'clock at St. James' Church,  
the Rev. G. S. Anderson officiating.  
A short service was held at the  
house, Mrs. Carman being an in-  
valid and unable to attend at church.

Among those from out of town  
who attended the funeral were  
Mrs. Croil, Montreal; Mr. and  
Mrs. J. T. Field, Cobourg; Mrs.  
W. J. Forward and son Walter  
and sister, Mrs. W. L. Redmond,  
Mr. Allan Ross, of Iroquois; Mr.  
Colin Carman, Cornwall—Leader.

### Dredgeman Killed at Valleyfield

Cornwall, Ont., Aug. 9.—The funeral  
of Edward Walker, who was killed on a  
dredge at Valleyfield yesterday, took  
place here this afternoon. The accident  
which resulted in the young man's death  
took place while he was attending to his  
duties on the dredge, and, while none of  
the other dredgemen saw the occurrence,  
it is thought Walker was thrown over a  
large wheel. His neck was broken. He  
was about 25 years of age. So far as is  
known he had no relatives. He came to  
Canada a few years ago from one of the  
old country homes. He attended St.  
John's church here and was a member of  
the Sunday school hockey team of that  
church.

### Committed for Trial.

Brockville, Ont., Aug. 8—Annie  
Curtis, the young woman charged  
with setting fire to the outbuildings  
of Jeremiah Flood at McIntosh's  
Mills, was given a preliminary hear-  
ing today, after which she was com-  
mitted for trial.

The evidence of the six witnesses  
including Mr. Flood was taken.  
The latter swore that six attempts  
were made last month to destroy  
his property, but in each case the  
blaze was detected, and that later  
the girl confessed to him that she  
had committed the deed. He also  
swore he had noticed on the first  
day she became an employee of his  
household three months ago that  
she showed signs of mental derange-  
ment.

### Heavy Fire in Cobalt.

Cobalt, Ont., Aug. 9.—Damage esti-  
mated between forty thousand and fifty  
thousand dollars was done this morning  
by a fire which gutted the old Prospect  
Hotel on the Cobalt Square. Claude Mor-  
ris, tobacconist, lost his entire stock and  
the Bank of Ottawa, Wills Abbott, stock  
broker; P. J. Finlan, Northern Ontario  
Light & Power Company and another  
broker lost everything that was not de-  
posited in their safes.

R. C. Lowrey, tobacconist, saved part  
of his stock.

The fire apparently started underneath  
the cigar store and the big frame build-  
ing burned with great rapidity. It was  
with extreme difficulty that the Hunter  
Block adjoining was saved and it was only  
the good work of the firemen which pre-  
vented the destruction of the entire  
square.

Today's was the first fire of any conse-  
quence since Chief Borland, formerly of  
Woodstock, took charge of the brigade  
the first of the month.

The municipalities of Windsor, Wal-  
kerville, Ford City, Sandwich and Ojib-  
way are uniting in the formation of a  
Publicity and Development Bureau.

Miss Mary Meade, reported to have  
been killed with her brother in a run-  
away near Radisson, Sask., has confessed  
she spread the rumor to escape a marital  
tangle.

### The Musical Recital by the Pupils of Miss Anna Fulton.

The Musical Recital given by Miss  
Anna Fulton's pupils on Friday evening,  
August 6th, in the concert hall, at Avon-  
more, was a most gratifying success, and  
was listened to by a large and attentive  
audience, who showed their appreciation  
of the different numbers of generous ap-  
plause.

It would be different to name any one  
especially, as all the young ladies by  
their playing showed the care and at-  
tention which their teacher, Miss Fulton,  
bestows upon them. The duets were par-  
ticularly good, both in time and ex-  
pression, and the pieces were bright and  
attractive, just the kind for a concert of  
that description.

Mention should also be made of the  
songs rendered by Miss Jean Brownell,  
Miss Leila Nesbitt and Miss Brownlee,  
who all sang very well indeed, when one  
considers how very warm it was, and  
how low the ceiling is which, as every-  
one knows, makes the singing of a song  
exceedingly difficult.

The orchestra was also very good, and  
the numbers they played were greatly  
appreciated by the audience, and added  
to the programme a finishing touch.  
The orchestra was composed of Miss  
Fulton, Messrs Wright, Shaver and  
and Petherly.

After the programme ice cream and  
cake were served by the ladies Guild of  
St. Marks Church, Avonmore.

The following is the programme:

Orchestra.  
The Old Oaken Bucket (Blake) Miss  
E. Shaver.

The Mountain Stream (Smith) Miss  
Ethel Hanna.

Only One Daisy Left (Song) Miss  
Maggie Brownlee.

The June Bug's Dance (Holst) Miss  
M. Jardine, Miss M. Dickey.

To-night (Song) Miss Leila Nesbitt.

A Signal from Mars (Duet) Miss G.  
Merkley, Miss Irene Kirk.

Orchestra.

Dance of the Shadows (Duet—New-  
man) Miss E. Shaver, Miss M. McMillan.

Land of Hope and Glory (Song) Miss  
Jean Brownell.

Crown of Triumph (Duet—Atterton)  
Miss Irene Kirk, Miss E. Hanna.

Orchestra.

Qui Vive Galop (Duet—Ganz) Miss  
Irene Kirk, Miss E. Hanna.

The Beautiful Land of Nod (Violin  
Obligato—Song) Miss Leila Nesbitt.

Sunflower Dance (Duet—MacClymont)  
Miss E. Shaver, Miss Jean Lang.

Orchestra.

When Jack and I were Children  
(Song) Miss Jean Brownell.

Dawn of the Century (Paul) Miss M.  
Dickey, Miss M. Jardine.

Waltz Venetienne (Leon Rinquett)  
Miss Ethel Shaver.

Orchestra.

Alberta Crop Almost Ready for the  
Binder.

Calgary, Aug. 12—Grain large  
and of excellent quality, yield  
about the average, but fully up to  
that of last year, harvesting gener-  
al in the south part of the Pro-  
vince by the middle of the month

and every prospect of high prices.

This sums up conservatively the  
crop situation in Alberta as ascer-  
tained from correspondents throu-  
out the Province as well as from  
farmers and from business men  
returning from visits to different  
sections.

Elevators and machine com-  
panies in Calgary have been keep-  
ing in close touch with the situation  
particularly as regards the south-  
ern districts, and without exception  
say the grain is in excellent con-  
dition and will require only about  
another week or 10 ten days of  
sunshine to bring it into shape for  
cutting.

The following reports from the  
districts near Calgary give a fair  
idea of what may be expected.

"The crop conditions in the  
High River district could not  
possibly be improved upon and  
with continued dry weather for  
the next six weeks harvesting  
should be completed. The grain is  
in excellent condition and in com-  
parison with other points along  
the line from here to Medicine Hat  
it is safe to say that the High  
River district looks the most prom-  
ising of all and the farmers look  
for the best crop they ever had.  
There has been an absence of great  
growth this year and there has  
been sufficient moisture and sun-  
shine to render conditions almost  
ideal for the growth and develop-  
ment of grain. Harvesting should  
be general inside the next week or  
10 days and it will be a crop to be  
proud of."

### Now He's Happy, Wealthy and Wise He Hands Out Advice to Husbands

Los Angeles, Cal. Aug. 11.—L.  
C. Dillman, a Seattle millionaire  
and an associate of J. J. Hill, as  
the result of 18 years of marital  
bliss, yesterday promulgated the  
following rules for husbands.

Keep all promises made before  
and at the time of marriage.

Keep a joint bank account.

Go to your club no oftener than  
one night a week.

Have no dogs or pets of any  
kind.

Call her up on the telephone at  
least three times a day.

When away from home write or  
telegraph every day.

Take her with you on business  
or pleasure trips.

Be more polite to her than to  
any other woman you meet.

Remember that she likes flowers,  
candy and books.

Make it a business to be com-  
fortable whenever she is happy.

Do not criticize her dress.

Be a gentleman to all women,  
but a husband to one only.

If you have only a dollar you  
are not wasting it by spending it  
on her.

When she is dissatisfied get a  
divorce.

Life is too short to waste any of  
it in trying to please an abnormal  
woman.

Keough, witnessed by Miss Mary E. McIntosh and Mr. Floyd Shaver. The bride was dressed in richly embroidered net draped over messaline silk. The only ornament the bride wore was a pearl pin the gift of the groom. On their return home luncheon was served, the decorations being roses and carnations. The bride's going away suit was blue serge with white silk gloves and large panama hat trimmed with black plumes. They left on the evening train amid showers of rice, and the best wishes of their friends for United States, Lachute and Montreal.

### Coons—Barclay.

Tuesday morning at 7.30 a very pretty house wedding was solemnized by Rev. F. H. Sproule at the home of Mr. and Mrs. Eyeard Barclay, Piety Hill, when their eldest daughter Mabel, and Mr. F. A. Coons were united in the holy bonds of matrimony. The bride, who was charmingly attired in white embroidered voile and was given away by her father, took her place beneath a tastefully arranged arch of ferns and golden rod having a back ground of oleander as the wedding march was played by Miss Annie Barclay, sister of the bride. Little Miss Mabel Suffel acted as flower girl, and carried the ring in the flowers. Only the immediate members of the families were present. Amid showers of rice and confetti the happy couple left on the 9.30 local for Montreal and the Saguenay, the bride travelling in a grey tailor-made suit with hat to match. On their return Mr. and Mrs. Coons will take up their residence on Alexander street.—Winchester Press.

### Smith's Falls Child Had Miraculous Escape

Smith's Falls, Aug. 12—The little two-year-old child of Mr. and Mrs. Charles Stephenson had a marvellous escape from serious if not fatal injury on Friday. They live upstairs over the Princess Theatre and at the rear of their apartments there is a door which used to lead out on to a balcony. The owner had removed the balcony and Mrs. Stephenson had put gauze over the door opening to admit the air. She was at work in the room and the baby was playing about the floor, when suddenly she discovered that there was no child in the room with her. It had gone through the gauze and fallen over 20 feet to the ground.

### Henry—Dafoe.

A wedding, which will be of interest to many, was that of Miss Lois E. Dafoe, daughter of Dr. and Mrs. William A. Dafoe, Madoc, to Mr. S. Hunter Henry, M.A., of Morrisburg, which took place very quietly at the home of the bride's parents, Wednesday, July 30th. The bride is a graduate of the Kingston General Hospital, class 10. The out-of-town guests included Miss Della Wylie and Miss Florence Hiscock, classmates of the bride. ### Highland Cadets At The Exhibition.

The officer commanding the Highland Cadets of Montreal has granted that regiment permission to visit Ottawa for the Central Canada Exhibition during four days, September 10th to 13th, thus providing the Fair with a military attraction of the highest order. There will be 100 Cadets, 4 Pipers and a suitable number of buglers. This regiment, organized 24 years ago, is recognized as one of the best drilled corps of young men in Canada and has had since 1900, an official standing in the militia as The Highland Cadet Battalion, comprising four companies. Fifteen of their members served in South Africa. Naturally, the exhibitions of drill exercise and fancy marching by this kilted Canadian militia unit are attractive and edifying. Their efficiency displayed before representatives of royalty and at celebrations in some United States and Canadian cities has won approbation from most eminent sources. At the Ottawa Exhibition the Highland Cadets will be seen in: Physical Drill with Arms to Music; Fancy Marches to Music (lanterns in the evening); Battalion Drill of Military Movements; Manual and Bayonet Exercises; Trooping the Colors and other forms of drill.

### Less Milk and Cheese because of Dry Spell.

Mr. J. A. Ruddick, dairy and cold storage commissioner, reports, under date of July 17th, that the dry weather in eastern Ontario has begun to affect the flow of milk and as a result the cheese factories are showing a decrease in their output. To some extent the same is true of the province of Quebec. So far the season has been favorable for the production of cheese of good quality and "that is a more important factor in fixing the price later in the season than is generally recognized, because consumption is encouraged when the quality is good."
