In the role of an enthusiastic Santa Claus, Mickey Lester tries to persuade a sober-faced teddy bear to cheer up for the festive season. No prompting is needed to bring smiles to the faces of the coast-to-coast audience that visits "Mickey Lester's Place" every Tuesday evening by way of the CBC's Trans-Canada network, however. The program's fun-loving host sparks a fast-moving half-hour of music and humor that also features the Commodores Quartet, vocalist Joan Fairfax, and a sextet of top-notch jazz musicians lead by pianist Bill Isbister.

This second nomination meeting is necessary because there were no qualifications for council members following the first nomination meeting held two weeks ago.

The meeting will be presided over by the Village Clerk, Mr. C. R. Robinson, and will start at 7 o'clock, and will be open for the reception of nominations for one hour.

It is hoped that there will be a good attendance of ratepayers present and that there will be a goodly number qualify from those nominated. Remember the meeting is tonight (Thursday).

Reeve Moffat announced that arrangements had been made with Mr. Doug. Angus to plow the streets of snow this winter. This apparatus represents one of the best methods that could be used.

There will be no formal guest speaker. Rather, there is expected to be a resume of Chamber activities which will probably be highlighted by the Chamber's forthcoming plans on a Water and Sewerage System for Winchester. A highly entertaining film will be shown, about 20 minutes in length, and will depict the growth of the tobacco indusry in Canada.

LOCAL THEATRE PACKED FOR W. H. S. COMMENCEMENT

An audience of over 500 filled the Winchester Theatre to capacity on Friday afternoon to attend the largest Commencement Exercises in the history of Winchester High School, and to hear a former graduate, Mr. Donald C. Rowat, now an assistant Professor of Political Science at Carleton College, Ottawa, deliver an inspiring address on "The Value Of Education."

Prof. Rowat was introduced by a former classmate, Mr. S. Earl Freeland, C.L.U., and in his address told the student body that Canadian students must guard against the possibility of becoming narrow specialists in their jobs, thus losing interest in public affairs. He said that Canadian students, in contrast with those in Britain and Europe, did not have a wide enough cultural background when graduating from High School. He advised students to take an active part in public affairs and cultural pursuits. "Otherwise," he said, "we may develop a nation of citizens who cannot think for themselves." Dr. Rowat said that realizing the deficiencies of the educational system should not lead students to discount benefits of formal study. The speaker said, "Why quit school and then find out later by bitter experience what others already know and could have taught you." "An important benefit of education," he said, "is that it should make you free in the sense that you are master of your own ideas, and no longer a slave to ideas imposed by society."

Dr. Rowat was thanked by Mrs. E. Slingerland.

Principal J. H. Willard was the chairman and explained that the awards covered activities, not only of 1951, but up to November of this year. The address of introduction was given by Mr. W. J. Stewart, and the Valedictory was delivered by Miss Jean Wilkes.

Musical numbers were provided by the W. H. S. Cadet Band and by the newly organized W. H. S. Glee Club, under the direction of Mr. J. Potvin, assisted by Miss E. Runions and Mr. E. Crawford.

Grenville-Dundas Ayrshire Breeders' Club Held Annual Banquet Here On Friday Last.

(By F. Erle Helmer)

The presentation of awards and cups for showmanship and breeding, and an addresss by Prof. W. E. Tossell, of the Ontario Agriculture College, Guelph, were features of the Annual Banquet of the Grenville-Dundas Ayrshire Breeders' Club, which was held on Friday night in the church hall of the Winchester United Church.

C. R. Swerdfeger, of Morewood, the president of the club, acted as master of ceremonies, and Rev. T. N. Mitchell, pastor of the church, said "Grace."

In his opening remarks, the president spoke of the progress made during the year in the matter of herd classification at the twilight meetings held during the year, and the interest which had been created among juniors in their work in calf club endeavour.

Carmen C. Tennant, Agricultural Representative for Grenville County, introduced Professor Tossell, who is connected with the Field Husbandry Department, at the Guelph Agricultural College, dealing particularly with grass lands and forage crop improvement projects.

Professor Tossell told the breeders that it was necessary for them to attain a knowledge of the proper methods of crop rotation for pasture and forage improvement, to know what grasses and legumes to grow in the different soils on the farms, so that cattle which they so carefully bred and cared for, would have the ultimate quality in grass and forage.

It was the aim of every good farmer to develop a system of crop rotation which would yield the highest number of dollars per acre, without robbing the soil. Organic matter built under the grassland acreage increased the yield of all other crops, and the rotation of crops was still the most proficient manner of keeping soil in first class condition. He said that permanent grass was not as proficient, although land which was not ploughable should be fertilized at regular intervals. He said that all the facilities of his branch were available to farmers everywhere, and invited the use of this knowledge gained by experimentation at O. A. C. Donald Rose, secretary-treasurer of the club, expressed the thanks of the members to the guest speaker.

The President, William McRoberts, introduced the head table guests, who were, Carmen C. Tennant, Kemptville; E. W. Richmond, secretary of the Canadian Ayrshire Breeders' Association; Donald McIntyre, President of Stormont Breeders' Club; W. O. Dixon, Chesterville, donor of Showmanship Trophy; J. Kenneth Ault, donor of the Premier Breeders' Trophy; Hillis Suddaby, of Oxford Mills, President of Grenville County Holstein Friesian Breeders' Club; Donald Rutherford, Assistant Agricultural Representative of Dundas County; W. J. Fawcett, Winchester, Director of the Holstein Friesian Association of Canada; Robin Campbell, Metcalfe, President of the Ottawa Valley Ayrshire Breeders' Club; Salem Thompson, Martintown, President of Glengarry Ayrshire Club; Gordon Mulholland, President of the Dundas Holstein-Friesian Club.

Greetings were brought by the presidents of the different clubs represented. A sing-song was led by Wm. A. Rowat, of Winchester, with Mrs. Howard Fetterly at the piano; a piano solo was played by Mrs. D. Cross, of Chesterville, and Salem Thompson entertained with vocal solos, his best Scotch number being a tribute to "The Ayrshire Coo."

The presentation of Championship awards was made as follows: W. O. Dixon made the presentation of his trophy to Allen McRoberts, the winner in the Showmanship contest at the Red and White Show for the third consecutive year, who becomes the permanent holder of the trophy.

The Premier Breeder's Award was received by J. Bruce, of Spencerville, presented by J. K. Ault.

C. C. Tennant, on behalf of the Borden Co., of Kemptvillle, presented the Exhibitor Award to S. Rose & Son, which was received by Donald Rose.

The Frank Ryan Award, a framed picture of a true type Ayrshire cow, was presented by the president to Miss Doris McRoberts, winner for the second consecutive year of the highest number of points at calf club exhibitions.

The presentation of cash awards to calf club members of Dundas County were made by Donald Rose to the following junior exhibitors: Doris McRoberts, Marlene Swerdfeger, Bruce Porteous, Ruth Annable, Allen McRoberts and Edward Rose.

The thanks to the executive for their work during the year and to the ladies of the Winchester United Church who served the turkey dinner, was expressed by John Bruce, of Spencerville.

Two Fine Pictures Coming To The Picadilly Theatre

Two great motion pictures will play at the Picadilly Theatre in Williamsburg during the next week. Starting to-day and playing as this week-end's feature is one of 1952's best—"The African Queen." Packed with adventure and torrid romance, the picture stars two of Hollywood's best actors, Humphrey Bogart and Katherine Hepburn. Filmed in the heart of the Belgian Congo in Africa, the story, briefly, takes place during World War I following the firing of a Congo village by German troops. Katherine Hepburn, prim spinster sister of missionary Robert Moley, who is killed in the raid, seeks refuge aboard the broken-down river boat, "African Queen," piloted by its dissolute skipper, Humphrey Bogart. Following persuasion by Hepburn, Bogart and Company proceed in a daring plan against the Germans that ends in success after surmounting tremendous handicaps. It's a great, smash hit being highly acclaimed every place it plays—this week-end, Thursday, Friday and Saturday, Dec. 4, 5 and 6, at the Picadilly.

Next Monday, Tuesday and Wednesday, December 8, 9 and 10, the Picadilly follows up with a wonderful Christmas treat in its showing of "A Christmas Carol." It's the magnificent film version of Charles Dickens famous classic, "A Christmas Carol," and tells, as you have read, how Scrooge inherits the true Christmas spirit from Tiny Tim, young son of Bob Cratchit, penniless employee of Scrooge.

It's a heart-warming story that is abundant with the true feeling everyone should have during the festive season. Don't pass up this chance to see "A Christmas Carol," coming to the Picadilly Theatre next Monday, Tuesday and Wednesday, Dec. 8, 9 and 10.

It's a double treat for real movie entertainment at the Picadilly in Williamsburg.

BUTTER HAD ROMANTIC MOMENTS, TOO

In the history of the discovery or the making of some dairy foods, it is said there has been an element of romance—in cheese, for example, or ice cream. Probably there hasn't been the same romance in the story of Butter, but it has been importantly connected with possibly more romances than any other dairy food. Today, the use of butter is confined to cookery, bakery and as a spread. This was not always so. The history of the uses of butter is so bizarre that it challenges present day belief.

Some 1900 years ago, butter occupied a high plane among the wealthy people of India. It held an exalted place in the wedding feasts of maidens in high positions. The axles of the wedding chariots were greased, not with cheap tallow, but with expensive butter because it was believed no other substance could make the wedding chariot wheels run so smoothly. Thus it played its part in countless romances. The Hindus used it in their sacred sacrificial rites.

No one knows when butter was first made, however, records indicate that butter was made before 2,000 B.C. In the first book of the Bible (Genesis 18:8) it is noted that "he (Abraham) took butter, milk and the calf and set it before them." Butter is again referred to in numerous other parts of the Bible. There is an oddity in the fact, that of the present day southern dairying countries, 19th century historians can find no early record of butter being used by the early dwellers, or, indeed, of dairying husbandry.

Among the varied uses of butter were those for therapeutic purposes. Early Macedonians used butter as a medicine to be taken internally and as an ointment. The Romans used it as a massaging agent for the relief of pain. Early athletes anointed their bodies with butter in the belief that it gave them added strength. Butter was even used as fuel for the wicks of lamps.

One fact stands out consistently in the story of the varied uses of butter. All the early people who used butter, of whom we have record, valued it as a food, and in some instances, above all other foods. Of course, the butter of those days may have been somewhat different than the delightful creamery butter that is served today. Tastes differed also. There is record of some early people favouring a sour or even rancid butter. In fact, in some countries butter was buried in wooden kegs, sometimes in peat bogs to "cure."

One cannot help wondering what those early people would have thought of our present first grade butter, with its 80 per cent. of butterfat, and not more than 16 per cent. of moisture, made from fresh cream produced under top sanitary conditions from our modern dairy farms.

NO INEVITABLE COLLAPSE

We've been hearing this old and oft-repeated story of business' coming collapse ever since the beginning of World War II, notes The Financial Post. And the impending day of doom has been many times postponed. First it was the end of the war, then the end of the post-war buying boom.

Now it's to come when defence spending tapers off. And when it doesn't happen, then some other future time will be picked for the great calamity.

To expect a major recession after defense tapers off assumes that government spending is the source of all momentum in the economy, that defense spending will fall appreciably, and that there is nothing to take its place. All three are open to question.

Defense spending has opened up new resources and manufacturing and has created new and permanent sources of prosperity. Our base metals, toolmaking, even textiles, have been affected. But defense does not dominate the country's business life. When and if the energy devoted to defense can be relaxed, there will still be plenty of Canadians with expanding tastes to eat good food, to build good houses and furnish them, and to invest in the future. And with lower taxes possible, they will be left with more money to spend.

Obviously there are continual shifts in the prosperity of industries and of regions. But we shouldn't let our views be colored by the "inevitable" collapse theory. Every structural development, change in markets, fluctuation in prices, decline in stocks, every ripple on the surface is certainly not a signal for running for the lifeboats.

Editorial Notes

The Chamber of Commerce is holding a Luncheon-Meeting to-morrow evening in the Town Hall. All members should make an effort to be on hand, as there will undoubtedly be some word of the Chamber's forthcoming water and sewerage program, as well as discussions on other Chamber policies.

During the bombing of London in the last war, a famous city tavern had its windows broken when a bomb fell near, but the proprietor tacked up a sign on the front, "Open as usual."

The next night another bomb fell still nearer and the door and part of the front were smashed. Not to be daunted and showing the unbeatable Cockney spirit, he pulled his sign out of the rubbish, added something, and again put it up, and it now read: "More open than usual."

As a result of candidates failing to qualify for Reeve, Councillors and one school trustee, another Nomination Meeting is being held this evening in the Town Hall. It is to be hoped that a fair representation of the ratepayers will be on hand and that the required number, at least, will accept the offices before Friday's time limit for qualifying. It is a sad state of affairs when a town the size of Winchester cannot find enough men to sit on Municipal Council for one year.

The Victoria Times says: "In a detached, Pacific Coast way, we extend our congratulations to Edmonton on its American investments which proved superior to Winnipeg's American investments in football talent. Now, as we understand it, those Edmonton American investments will be measured against some Ontario American investments to determine which offers the best security for Canada's football championship, symbolized by the Grey Cup." Now, isn't there a certain amount of truth in that. The same logic could apply to hockey in the U. S. A.

The past week has seen all local stores take on a distinct Christmas look, and judging by the appearance of the well-stocked shelves and the many colourful displays, Christmas buyers should find little difficulty in purchasing their needs right here in Winchester. A conscientious citizen must get a degree of satisfaction in buying as many Christmas gifts as possible in his home town, rather than go elsewhere. One of the best ways of showing the Christmas spirit is to give the home town business places first chance. The fad of travelling to the city to shop is the unnecessary practice of too many, some of whom reside right here in our town. Admittedly, some purchases will have to be made elsewhere, but for the most part, we should keep our stores busy with home-town buying.

HINTS FOR THE HOME

The Hairbrush

Mix half a cup of salt and flour in equal proportions, rub it through the bristles of the hair brush, and it will make it as clean as when new. Be sure to shake out the mixture thoroughly before using the brush again.

White Spots

White spots, on furniture, caused by heat, can be removed by applying the following in the order named: Kerosene, alcohol, and sweet or linseed oil. Use a different cloth for each of them. The linseed oil should be rubbed in until the spot disappears.

Taffy

Taffy appears to the children. Braid together two taffies of different color and flavor. Each must be flavored and colored before it is pulled. Then braid and leave in long strands or cut into two-inch strips.

Butter has graced the tables of mankind throughout history. Vast sums of money have been spent in attempts to equal butterfat—to match it in taste, texture and composition. But only the cow—no machine or laboratory—can make butterfat. That's why first grade Canadian butter remains supreme on the dining tables of the nation.

Given advance notice, they would have probably come prepared to contribute to the fund, or on the other hand, if they were not interested, they could skip the service. Under the present system, most of the envelopes circulated are returned empty—minus the little pencils which are kept as a souvenir in some cases.

We Mean This!

How dear to the heart is the steady subscriber,
Who pays in advance at the birth of each year;
Who lays down the money and does it quite gladly,
And toss round the office a halo of cheer.
He never says, "Stop it; I cannot afford it;
I'm getting more papers than now I can read";
But always says, "Send it, our people all like it;
In fact we all think it a help and a need."
How welcome his cheque when it reaches our sanctum!
How it makes our pulse throb, how it makes our heart dance!
We outwardly thank him, we inwardly bless him—
The steady subscriber who pays in advance.

Now, after reading the above poem, glance at the label on this paper and if your subscription is not paid in advance, drop in and have it attended to, and we'll both be happier that the matter has been settled.

To close the Seventh Column this week, we give you a quotation from One Whom we all should strive to get better acquainted with: "If anyone really loves me, he will observe my teaching, and My Father will love him, and both of us will come in face-to-face fellowship with him; yes, we will make our special dwelling place with him."—John 14: 23.

Gospel Gleanings....

"Go to now, ye rich men, weep and howl for your miseries that shall come upon you. Ye have lived in pleasure on the earth and been wanton. Your riches are corrupted; your gold and silver is cankered; and the rust of them shall be a witness against you, and shall eat your flesh as it were fire."—(Jas. 5)

"Charge them that are rich in this world, that they be not highminded, nor trust in uncertain riches, but in the living God."—(II Tim. 6:17).

"Better is little with the fear of the Lord than great treasure and trouble therewith."—(Prov. 15:16).

"How hardly shall they that have riches enter into the kingdom of God."—(Mark 10:23).

For, "Riches profit not in the day of wrath."—(Prov. 11:4).

"A man'e life consisteth not in the abundance of the things which he possesseth."—(Luke 12:15).

"For what is a man profited if he shall gain the whole world and lose his own soul?"—(Matt. 16:26).

"But seek ye first the Kingdom of God, and his righteousness; and all these things shall be added unto you."—(Matt. 6:33).

Moses found the true riches when he turned his back on the treasurers of Egypt, and the pleasures of sin for a season, and chose to suffer affliction with the people of God. He realized that to bear the reproach of Christ is greater riches than all the treasurers of the world.—(See Heb. 11).

True riches are eternal; coming only through letting the Word of Christ dwell in you richly; from possessing the unsearchable riches of Christ; and from a vision of the riches of His glory, and an experience of the exceeding riches of His Grace.

"For ye know the grace of our Lord Jesus Christ, that, though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich."—(II Cor. 8:9).

MODERN ETIQUETTE

Q. What should two persons do if introduced to each other for the second time?

A. If the occasion is a formal one, they both acknowledge the introduction and do not attempt any explanations that would be embarrassing to the person making the introduction. However, if the occasion is an informal one, it is all right to recall the previous meeting.

Q. At a widow's second marriage, her husband being deceased, should you invite the family of her first husband?

A. Yes, indeed, if the relationship has always been pleasant. Furthermore, these people should make every effort to attend.

Q. How do men and women seat themselves in a restaurant that has sofa seats?

A. The women always sit against the wall (or partition), and the men sit on the chairs facing them.

Q. When meeting college professors socially—for instance, entertaining them at tea—how does one address them, as "Professor" or "Mister"?

A. If he bears the title of Doctor, call him that; otherwise, call him "Professor." If he is an instructor, call him "Mister."

Q. Is it all right to write invitations to tea on one's visiting card?

A. Yes, this is quite all right.

Q. Are women supposed to wear gloves to a formal dinner?

Q. Yes, and they take them off at the table—entirely off. It is improper to leave them on the arm, merely turning back the hands.

To prevent the knife from sticking when cutting cheese or butter, fold a piece of waxed paper cver the cutting edge of the knife.

DON'T FEED CALVES HAY UNTIL THEY ARE TWO MONTHS OLD

Getting calves off to a fast start is very important because young animals make the most efficient gains. Calves fed calf starter with a limited amount of milk but no hay until two months of age will average 15 to 20 pounds heavier at four months than those calves that get hay during the first two months.

The 15 to 20 extra pounds per calf is not useless fat and usually costs less than $1 worth of extra feed. The additional weight is growthiness and extra frame size that the "miniature cow" carries right on through the heifer growing period.

With this boost, she should reach breeding weight sooner and start making profits in the milking herd earlier.

Feeding no hay simplifies calf feeding and management program. There is less chance for a feeding error and the problem of finding high quality hay is eliminated. The better start that calves get reduces the disease problem.

Let calves remain with their dams for the first three days. Remove the calves on the fourth day and feed two quarts of milk at 100 degrees F. twice a day for three weeks. In addition, self-feed a high quality calf starter with a balance of proteins, vitamins, and minerals necessary for rapid calf growth. Calves will quickly acquire a taste for the calf starter if you put a little into the calf's mouth after each milk feeding. Only one quart of milk twice a day need be fed in the fourth week. Keep block salt and water in front of the calves at all times and at two months start feeding bright, leafy hay. At four months, it is time to change over to a good heifer-growing program.

Sunday In The Churches

SUNDAY, DECEMBER 7th, 1952

"Faith"

There was a man living in the city of New York who had a house on the Hudson River. His daughter and her family went to spend the winter with him, and in the course of the season scarlet fever broke out. One little girl was put in quarantine. Every morning the old grandfather used to go out and bid his grandchild "Good-bye" before going to his business. On one of these occasions the little child took the old man to a corner of the room, and without saying a word she pointed to the floor where she had arranged some small crackers so they would spell out "Grandpa, I want a box of paints." He said nothing. On his return home he went to the room as usual. His grandchild, without looking to see if her wish had been complied with, took him into the same corner, where he saw spelled out in the same way, "Grandpa, I thank you for the box of paints." That was Faith!

Beginning Dec. 8th through Dec. 12th Ottawa Auditorium

The general public, guests and patrons of Sonja Henie's "Greatest Ice Show On Earth," have for many years come to expect that the biggest and best will, as the seasons roll around, always be supplanted wth something more gigantic, more unusual, more breath-taking and beautiful. If there is something new on this unavailing star called the Universe, then Sonja Henie and her staff of assistants will present it to them.

This is particularly true this year as Sonja Henie again dazzles the theatrical horizon with the most lavish and beautiful spectacle of any season in the All New "Sonja Henie Ice Revue of 1953." DUNDAS TEACHERS IN JOINT MEETING IN MORRISBURG

A joint meeting of the teachers of the Men and Women's Federation of Dundas County was held in the Public School auditorium, Morrisburg, on Wednesday of last week, with almost all the teachers and several guests in attendance. Previous to the meeting, a banquet was held in the United Church hall, served by the members of the Eusebia Class of the church.

After making a tour of inspection of the fine new school, a program was given in the auditorium. This consisted of two vocal solos by Frank Desjarlais, who responded with an encore for each. Mrs. J. R. Coligan favored with two humorous recitations and also responded with an encore for each. Reeve Beavers gave an interesting talk on his recent trip aboard, showing films of the most important and historical places he had visited. Mrs. Angus Murdock and Miss M. Smith were accompanists for the evening.

Immediately following the program, a short meeting was held by the men teachers. At this, Stanley Waddell, of Dixon, was elected president and Clifford Pitt, Brinston, secretary-treasurer.

Among the guests present for the banquet and meeting were Inspector and Mrs. W. J. Stewart, of Winchester.

A NEW HOUSE EVERY HALF HOUR

Very few of us can visualize a city of 70,000 population being comfortably housed within a three-year period. Yet today's architects and engineers are accomplishing this in Pennsylvania. Through amazing assembly-line methods, an entire city, Levittown, is rising from Pennsylvania countryside almost overnight. In the Star Weenly of December 6, the story is told of William Levitt, the Henry Ford of housing. His construction methods supply good, reasonably-priced houses faster than anybody else ever built them.

NORTH GOWER PUPIL WINS PUBLIC SPEAKING HONOURS

The friends of Mr. Harry Anderson, formerly of Vernon, now Principal of North Gower Public School No. 6, will be pleased to hear of the success of his pupils at a speaking contest, held at Kars and Ottawa.

Roberta McGregor, an eleven-year-old girl of North Gower, won over eleven other contestants. The first contest was held at Kars on Tuesday night, Nov. 25th, sponsored by the Women's Institute of that village. Her classmate, Judith Lawson, came second. On Saturday, Nov. 29th, Roberta once again carried off the honours at Ottawa. Her subject was "My Poppa is a Preacher." She will now go on to Winchester for her next competition. Her many friends and classmates will follow, with interest, her appearance there.

HINTS FOR THE HOME

Scatter Rugs

To prevent the small scatter rugs from slipping on polished floors, sew a strip of oilcloth under each end, bottom of oilcloth next to the floor.

Plants

A few drops of ammonia added to each quart of the water with which plants are watered will improve the color of the foliage and increases the growth.

Fruit Stains

Cover the fruit stains on table linen as soon as possible with glycerine, allow to set, then place in the laundry hamper. The spot will disappear when washed.

Glassware

Glassware should not be washed in very hot water and should not be inserted bottom first or it likely will crack. Slip the article into the water edgewise and it will not crack.

Liquid Shampoo

A good lliquid shampoo can very easily be made by just taking some pure powdered castile soap, such as can be purchased at any drug store, and dissolving this in boiling water.

Rugs

A rug can be cleaned without a vacuum cleaner by soaking some newspapers in warm water and then squeezing out the water until the paper is dry enough not to drip. Tear this in small pieces and scatter over the carpet. Sweep slowly with a good broom, beginning in the centre of the room. The damp paper will prevent the dust from flying and the moisture will be beneficial to the carpet.

FEED NEWS

CORN

The new corn crop in United States is estimated at more than 3 billion bushels. Ontario crop is better than usual and the quality is excellent.

Corn prices are down from last year, but the high barley market is creating a heavy demand for corn. This is inclined to raise the corn price again.

We unloaded a car of high grade Ontario corn last week. Have a few bags added to local grain. It will add weight and cut down fibre content in the ground feed. Corn is a valuable ingredient in any ration—especially for fattening.

FUL-O-PEP SUPER GREENS PELLETS

2. Gives your birds extra vitamin-boost that keeps up vitality.
3. Prevents colds (or helps to eliminate them). Extra vitamins throw off colds.
4. Pellets are more convenient to feed than wet mash.
5. Super Greens give birds valuable green grass benefits.

GOOD NEWS

Announcement of lifting the ban on export of cattle to the United States on March 1st is the best news Canadian cattle men have had for some time.

The prospect of an outlet for surplus stock in three months should have an immediate effect on prices.

While cattle prices may not be as high as they were before the ban, a market for excess stock at reasonable prices will be helpful all around.

OBITUARY

THE LATE J. EDGAR BROWN

Mountain Township lost another of its most highly esteemed citizens on Thursday last, in the passing of Mr. J. Edgar Brown, at the Ottawa Civic Hospital. The late Mr. Brown was 75 years of age and had been ill for a number of years. Born at Heckston, he was the son of the late William Lindsay Brown and his wife, Isabel Mill. He settled on a farm in Mountain Township near Inkerman, with his father, when five years of age, and was a progressive farmer, who took a keen interest in the affairs of his community. He had served for many years as a Public School trustee, was a member of the Inkerman United Church, and also served for many terms on the Official Board. He was a former Superintendent of the Sunday School for a number of years. He had also been a member of the Orange Lodge and of the Independent Order of Oddfellows.

He married the former Lucy Shaver, at Vancamp, in 1901, and his death occurred on the anniversary of his wedding. Mr. and Mrs. Brown were honoured last year on the occasion of their Golden Wedding Anniversary.

The funeral was held on Sunday afternoon from the family residence to the Inkerman United Church, where an impressive service was conducted by Pastor Mervyn Peters, assisted by Rev. Following the service, interment was made in the family plot at South Gower Cemetery. The pall-bearers were Messrs. Lorne Guy, Roy Ennis, Harold Cooke, George McIntosh, Dalton Timmins and John Guy.

At the January meeting to be held in Vernon School, each member is to bring an article for auction, and the public is cordially invited to attend. A good variety of worthwhile items is promised.

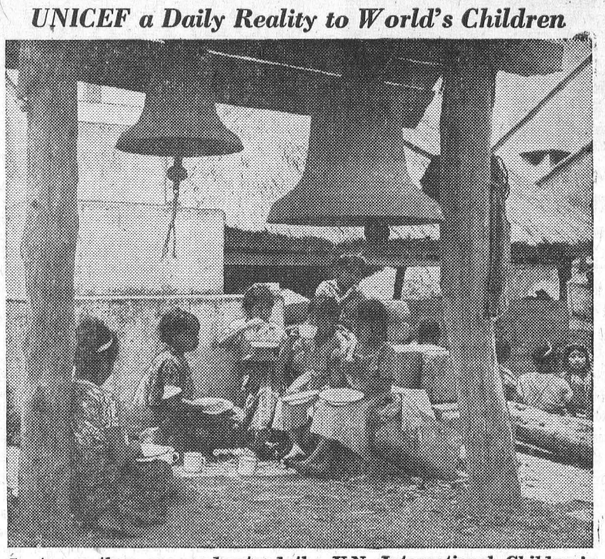
UNICEF a Daily Reality to World's Children



In terms they can understand the U.N. International Children's Emergency Fund makes world cooperation a reality to children everywhere. The youngsters in this Guatemalan school shown during a lunch recess know the U.N. agency as a reliable friend. In a nutrition experiment at the school, UNICEF is providing milk and food to supplement the pupil's diet. This is but one example of its long-range programs to improve mother-child health and nutrition in the underdeveloped countries in many parts of the world.

CURLING CLUB DANCE WAS OUTSTANDING SUCCESS

The Annual Curling Club Dance, held at the garage of Winchester Motors last Wednesday evening, was an outstanding success, according to the club president, Mr. Howard Fetterly. Approximately $500.00 was cleared from the sale of tickets on a Pure Bred Heifer Calf and dance fees.

Winner of the calf was Mr. Peter Droppo, of Chesterville, while the $10.00 door prize was won by Mr. Sam Booth, of Russell.

Excellent music for the occasion was provided by Cliff. Wilkes and his orchestra, from Vernon, featuring Eldred Duquette on piano and banjo.

A refreshment booth, operated by members of the Curling Club, was also well patronized.

All who attended the dance report a very enjoyable evening.

THE MIXING BOWL

BY Anne Allan

HYDRO HOME ECONOMIST

Hello Homemakers! Doughnuts and Autumn are closely associated as far as we are concerned. A haunting memory of making doughnuts at this season reminds us of our first teaching experience when the class pleaded to make doughnuts in the cooking laboratory. Without asking permission each group trebled their given recipe in order that a sufficient number was made to take out of the classroom for a school party. Well ,that was the first and last time a class detained this teacher after school hours.

TAKE A TIP

To deep fat fry food:-

1. Choose a deep heavy saucepan with straight sides. A wire basket with a handle that fits the kettle is a great convenience, otherwise a slotted spoon and fork will do.

2. About 4 inches of oil or melted fat is advisable providing two or three inches is allowed between fat and the top of pan to prevent boil-overs.

3. Heat fat slowly. Drop one inch cube of day-old bread into it. If bread browns in 40 seconds the fat is ready for frying doughnuts.

4. Fry only one layer of doughnuts at a time, usually 3 in a three-quart kettle.

5. Lower food slowly into the fat, and the bubbling will soon subside. Allow about 3 minutes for doughnuts to brown on one side, then turn each and cook on other side for about 2 minutes.

6. As soon as food is browned remove from fat and drain on absorbent paper—paper towel or napkins.

7. Skim off all food scraps to prevent smoke.

8. When frying is completed, cool the fat or oil and store in cool place.

Afternoon Tea Doughnuts

1 egg, well beaten; 2 tbsps. sugar, 1-2 tsp. salt, 3 tbsps. milk, 1 tbsp. of melted shortening, 1 cup flour, 2 tsps. baking powder.

Add sugar, salt, and shortening to egg. Mix and sift flour and baking powder and add to first mixture. Force through pastry bag and tube (using small lady-finger tube) into deep fat and fry. Serve with Julienne-shaped pieces of cheese. Makes 18 to 20.

Raised Doughnuts

1 cup scalded milk, 1 pkg. yeast, dissolved in 1-4 cup lukewarm water, 1 tsp. salt, 1-3 cup butter and lard mixed, 1 cup light brown sugar, 2 eggs, well beaten; 1-2 grated nutmeg, 2 cups flour.

Cool milk to lukewarm, add yeast cake in water, salt, and flour enough to make stiff batter. Let rise overnight. Add melted shortening, sugar, eggs, nutmeg, and flour. Let rise again. If too soft to handle, add more flour. Turn on floured board, pat, and roll 3-4 inch thick. Cut out with biscuit cutter and work between hands until round. Place on floured board, let rise 1 hour, turn, and let rise again. Fry.

Fritter Batter

2 egg yolks, 1-3 cup water, 1-3 cup milk, 1 tbsp. lemon juice, 1 tbsp. melted butter, 1 cup bread flour, 1 tbsp. sugar, 1-4 tsp. salt, 2 egg whites.

Beat egg yolks; stir in water and milk. Beat in lemon juice, butter, sifted flour and sugar. Whip egg whites and salt and fold into batter.

Apple Fritters: Peel and core apples. Cut them crosswise into 1-2 inch slices. They may be soaked for 1 hour in lemon juice. Drain them. Dip in fritter batter. Fry in deep fat at 380 degrees. Drain on absorbent paper. Sprinkle with cinnamon and sugar.

Banana Fritters: Peel and cut into halves lengthwise. Dip bananas in fritter batter and fry in deep, hot fat.

Pineapple Fritters: Drain pineapple slices; dip in batter and fry until brown in deep, hot fat. Drain on paper napkins.

THE QUESTION BOX

Mrs. L. D. asks: Why do French Fried potatoes turn a greyish color?

Answer: Potatoes that are cut in cubes for French Frying should be blanched by pouring boiling water through them. Then pat the potatoes dry with a clean towel before adding to hot fat. Fat should be 395 degrees on deep fat thermometer or a one inch cube of day-old bread should brown in 20 seconds.

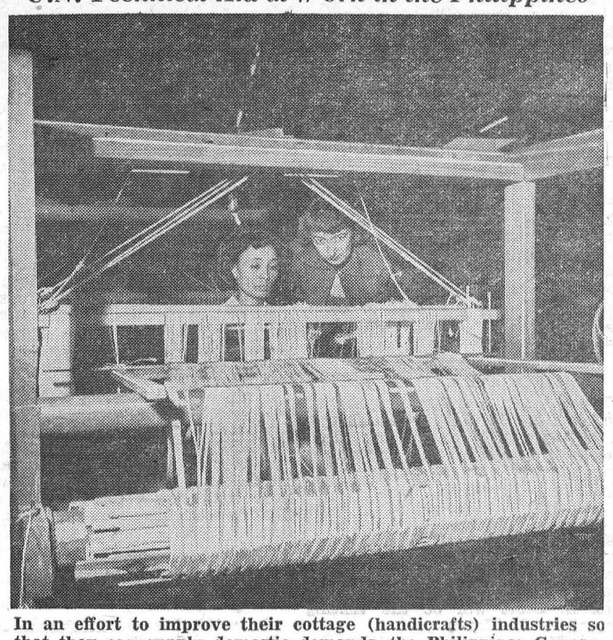
U.N. Technical Aid at Work in the Philippines



In an effort to improve their cottage (handicrafts) industries so that they can supply domestic demands, the Philippines Government requested technical assistance from the United Nations. Expert training teams were provided by U.N. to aid in Government-sponsored projects. Miss Lysbeth Wallace, U.N. weaving expert, is shown guiding the weaving of mosquito netting on a fly-shuttle loom. Miss Wallace is part of the U.N. team now working in the PRISCO (Philippine Stabilization Corporation) project in Manila.

CANADA'S *health*

SCHOOL LIGHTING

Poor lighting in the classroom may result in impaired eyesight of pupils. In older buildings, there is often insufficient window space, in whch case walls and ceilings should be painted in light colours, to reflect and diffuse daylight. Care should be taken that glare is not reflected from any shiny objects in the room. Poor eyesight may cause a child to be considered slow to learn when the real reason is his inability to see clearly.

BE SPARING WITH WATER

Vgetables lose much of ther vitamins and flavor if they are soaked too long or cooked in too much water. Washing should be done as quickly as possible and boiling or stewing should be completed with the minimum of water. Any liquid left after the vegetable is cooked should be used to enrich gravies, soups or vegetable juice.

PREPARE FOR SUMMER VACATIONS IN WINTER

The person who does not swim is always handicapped at vacation time. Fun in the water or in a boat or canoe is always dangerous for those who cannot take care of themselves in that holiday element. In many communnities, there are facilities for lessons at the local swimming pool during the winter. Such knowledge takes much of the hazard from lake or river in the summer and may mean the saving of life.

FLESH CONTROL

Creamy pies, rich pastries, candy and soft drinks may be fun to eat but they contribute nothing towards the sylph-like figure most women desire. They don't help the general health, or the complexion, either. A balanced diet, with vegetables, fruit and milk in addition to the wholegrain cereals and meat advised by nutritionists, will do far more to help keep the weight normal and the skin clear.

FUMBLING FINGERS

When Junior first tries to master the art of tying shoelaces and buttoning buttons, it's a good idea to show him how and then leave him to work out the problem for himself. He'll never learn to show initiative and rescurcefulness if someone continually takes over each time he strikes a snag. It does more for his independence and personal pride to let him discover how to do simple things.

If it is difficult to clean the frying pan cover the bottom with water, add a few drops of ammonia, and let boil for about three minutes.
