No Room For Women In Ministry Presbytery Decides

At a meeting of the Brockville Presbytery, held in St. St. Paul's Presbyterian Church here, last Wednesday, the members decided that there is no place for women in the ministry. They voted "no" to a two-part question, which read: "Are you in favour of ordination of women to the ministry? Are you in favour of ordination of women to the ruling eldership?"

The vote was 19-0 with one abstainer.

Rev. J. A. McMillan, of Cardinal, Moderator of Presbytery, presided, and the clerk was Rev. William Merrilees, D.D., of Brockville. It was reported that Rev. C. A. Young, of Caintown, and Lansdowne charge, had received a call to North Bay. His transfer to the Algoma and North Bay Presbytery was approved. Rev. Earl Smith, of Brockville, was appointed interim moderator of the vacated charge until a new minister is found. Rev. Earl Smith, Brockville, presented the budget, which indicated that there had been an increase of $3000 during the past year. A directive from the General Assembly asked all churches to make an all-out effort to increase collections for all purposes to $12,000,000 during the next three years. The meeting was in favour of the suggestion regarding an every-member canvass in the Presbytery in support of all funds needed by the church.

The report on Christian Education was presented by Rev. A. J. Morrison, of Prescott, who said that there had been an increase in attendance at church schools among children up to intermediate ages, and that more pupils were becoming communicant members of the church. He also mentioned that the use of duplex envelopes in church schools had resulted in increased giving, and he advocated an extension of this plan in all schools.

Rev. William Sutherland of St. Paul's, Winchester, was appointed interim moderator of Presbyterian churches at Dunbar, Chesterville and Morewood. Rev. H. C. Marr, of Spencerville, was appointed convener of the Committee on Christian Education, and Rev. Mr. Morrison was appointed to the convenership of the Committee on Evangelism and Social Action. The report on pensions was given by Rev. John Hardwick, of Morrisburg.

A committee of Rev. Le Groot of Kemptville, Rev. H. C. Marr, Spencerville, Rev. Earl Smith, Brockville, and Mr. Harold Graham, South Mountain, was appointed to present recommendations with regard to changes to "The Articles of Faith" at the next meeting of Presbytery in Morrisburg.

It was announced that a Ministers' Retreat would be held May 28 and 29 at the Peace Memorial Camp at Lancaster.

Memorial Hospital Increases Rates

Effective last Saturday, March 10th, rates at the Winchester District Memorial Hospital were upped $1.00 per day, making the new schedule $7.00 per day for public ward, and $8.50 per day in semi-private rooms.

Allan Alford, business manager of the hospital, explains the reasons why the rates have been increased, and outlines other interesting facts in the following report which he presented at the annual meeting last week:

"It is a pleasure for me each year on the occasion of our Annual Meeting to bring you up to date on the progress of our institution and to trace its development from the embryonic stage to that of a full-fledged and active institution serving the people of our district.

INCREASE IN SERVICES—Each year shows an increase in the number of patients admitted, the number of births, the quality of our medical treatment and the greater diversity of our services. During 1955 there were 1980 patients admitted. This represented an increase of 77 over the year 1954. There were 512 babies born, which included 7 sets of twins. Practically every department showed increased activity.

PATIENT DAYS—There were 11,514 adult patient days and 2,402 infant days. The average days' stay was 7 for adults, and 4.8 for infants.

BLOOD BANK—One of the new departments we instituted this year was our Blood Bank. Blood bank service has been given since last June and the inconvenience and cost of rush trips to Ottawa are no longer necessary. A trip to Ottawa for blood for emergency use generally took about three hours,—three very vital hours when time was an important element. Furthermore, we do not make any charge for blood. It is supplied free by donors. We do make a nominal charge of $7.50 for cross-matching and for administering. Since blood is perishable and cannot be kept indefinitely we do not attempt to store large quantities; only a few pints of each type are kept on hand for emergency use. Our blood bank is more or less a "walking blood bank." By this [illegible] our donors' list and whose types are recorded here. When convenient, they will come in on call to give donations. We do not have nearly enough names on our list and if anyone wishes to perform a humanitarian service, please register your name with our blood bank technician. Please accept this as an invitation to make your name and your blood available. You will be given a card showing your blood type which you should carry with you always. It is protection for you in case of accident, and your blood, if donated, will be very valuable to some other unfortunate individual who might be your neighbour.

COST—Cost of installation of this blood bank was about $3,000.00, $1,700.00 of which was donated by the Atkinson Charitable Foundation for the purchase of basic equipment such as refrigeration, microscope, etc.

WAITING LIST—We have a constant waiting list that is more than double our total bed capacity. This lack of bed accommodation creates many problems and we are faced with questions such as were outlined by our Chairman.

ANALYSIS OF ADMISSIONS—Hospital utilization presents the necessity of an analysis of admissions into districts and this analysis reveals some interesting percentages. It tells you about our bed allotment, but it does not show the sources of our bed demand. A listing appeared in the last issue of the Press.

INDIGENT PATIENTS—During the year there were 600 adult indigent days and 48 infant days. A breakdown into districts appeared in the Press last week. In this connection some villages and municipalities are treating us fairly in regard to underwriting indigent losses—other municipalities are not pulling their weight.

PER DIEM COSTS—Our cost per patient day for 1955 was $12.51. Operating costs of various departments are largely comparable with 1954 with the exception of payroll, and this showed an increase of approximately $5,000.00. There is now $6.18 worth of labour in every patient day. Our billing price for Public Ward is presently $6.00, and $7.50 for Semi-Private. There is such a spread between costs and billing prices that we do not get that support but our only alternative is to increase rates and we have accordingly been

S. M. Juveniles Rout Prescott 11 to 1

Last Friday night the Mountain crew scored a trio in each frame, with Morrisburg saving the goose-egg in the first and third periods. Bill Guy's hat trick was tops for the fast skating winners. Two-goal efforts were picked up by Lynn and Doug. Boyd, with Barry Milne and Joe Hopkins finding the range once. Morrisburg lamp lighters were Serviss and Wells.

The game followed a usual pattern of hard checking and hard hitting, with 18 penalties being handed out. South Mountain picked up seven minors against 11 miscues for the River Town including two misconducts.

High Winds Again Cause Near Tragedy At C.P.R. Station

High winds were the cause of another near tragedy at the Canadian Pacific Railway station here last Thursday evening when Mrs. Herbert Owens, who lives just west of the village, was blown into the side of the arriving 7.30 westbound local.

Fortunately, the engineer was bringing the train in slowly, and noticing the woman's distress, immediately snubbed the wheels of the big engine, abruptly stopping the train. Reportedly struck on the one side by a portion of the engine, the injured woman was felled to the narrow runway between the track and the platform where she was given assistance by Charles Cross, local mail carrier. Later, a doctor's examination revealed no broken bones, although she was suffering from a bad shaking up and severe shock.

A short time ago a Peterborough woman, also waiting to board a westbound train, was shunted by the winds against the engine of a slow moving train, and severely injured.

Juveniles Trim Town League Champs To Win Melvin Cup

Winchester Juveniles took a commanding 4-0 lead in the first period and then coasted home to a 5-3 victory over the Town League Champion West-End Roughnecks on Friday night to win the Melvin Cup. It was a brother against brother act with Basil Dawley coaching the Juveniles and younger brother Raymond, mentor of the Roughnecks.

The Juveniles jumped into an early first period lead, with both teams going scoreless in the middle frame. Roughnecks put on a determined bid in the final canto but failed to tie the count, and the sudden death session was over.

Beckstead paced the winners with a pair, with Lyle Holmes, Jim Corry and Brian Gilbert picking up one each. Lloyd Bailey counted twice for the Roughnecks. Dunc. Levere got the other marker. Four penalties were handed out in the game, two to each team.

Immediately following the game the historic Melvin Trophy was presented to the Juveniles by Ed. Fawcett, Town League president.

The line-ups:

Farmers Should Co-operate

All farmers in the Winchester area should take note of two meetings which are being held next week in the I.O.O.F. Hall at Mountain and the Town Hall at Winchester.

An advertisement which appears on Page 5 of this issue tells what will occur at these two meetings which are specifically designed to establish locals of the Ontario Farmers' Union in this area. And by the way, do not confuse Farmers' Union with Union when it is used industrially.

Basically, the purpose of the Union is to promote strength among the farmers in this country enabling them to have a louder, more unified voice in demanding their rightful share of Canada's economical prosperity. One of the ways to attain higher prices and better times for the agriculture industry is to strengthen the farmers' position.

The Ontario Farmers' Union believes it can do this, and the least farmers in this entire district can do is to turn up at either or both of these important organizational meetings.

Disappearance Of "Hired Girl"

War always brings many changes in our accustomed ways of life and habits. One very noticeable one was the disappearance of the "hired girl" in many homes who left domestic life to work in munition plants where wages were considerably more remunerative and hours of work shorter. In many cases it was the passing of the hired girl era as few returned to domestic service, other than via becoming married.

Many can remember with mingled feelings the hired girl of your childhood. She usually came from the country, or she might be an immigrant "just over." With luck she might happen to be a vigorous Scottish girl, red cheeked and black haired, who wielded a mighty broom and rolling pin.

Seven days a week she was on the job, doing the washing and ironing, the cleaning, the cooking, and the dishwashing. Happy the household whose hired girl baked marvellous Swedish coffee cake or a deepish blueberry pie.

Unless she had a steady beau, she doubled as a baby sitter in the evenings, and her young clients found that Rosie or days she would receive gratefully her week's wages—all of three dollars, or may- be four.

The really sad angle of the "hired girl" era was the fact that just as she became indispensable, she would get married so that she could work 12 hours a day for nothing, comments the Smiths Falls Record News.

My Kind Of A Man

Give me a man with a smile on his face,
And a friendly grip to his hand.
In the "touch-me-not" kind I never could find
Anything noble or grand.

Some may be great who are pompous and proud,
And the snob might have a great mind,
The high-hatting lad might not be so bad—
But I just don't care for that kind!

Give me a man who is humble and knows
Though he wins high honors in life,
That he might have gone down without any crown,
He might have been licked in the strife.

It's swell for a man to go to the top,
But why, I ask, should he take
On a proud, lordly air and never more care
For the fellow who can't get a break?

Great is the man who can soar to the peak,
Can stand there in glory arrayed;
But still will lend a hand to the friend
Who's struggling behind on the grade!

Give me a man with a common-like air
And a friendly way with his hand,
In the skirt-pulling kind I never could find
Anything lovely or grand.

—Lon R. Woodrum.

LITTLE BRIGHT THINGS

A little old lady,
With black beady eyes,
Stood at the store counter,
And she gave little sighs.

She handled the egg cups,
Painted in yellow,
Then looked at her grandson,
A gay little fellow.

"I really need egg cups,"
She said softly to him,
And consulted her purse
With eyes that grew dim.

"I shall get them," said she,
With a sweet beaming smile,
"It is little bright things
That make life worth while."

HOUSEHOLD HINT

When painting over glass it is important that the glass be absolutely clean of grease, and this can be done by washing it with benzine or alcohol and then letting it dry thoroughly. A satisfactory first coat is a straight white lead-linseed oil paint, and over this may be applied the desired color coats.

BEST CUSTOMER

THE STEEL INDUSTRY'S best customer is the farmer. Directly, the farmer as an individual is a buyer of steel and on the farmer's prosperity rests the prosperity of the farm implement business, which is one of the three Canadian industries using the most steel.

The two other largest direct customers of the steel industry are the railways and the automotive industry. These also are largely dependent on the farmer's prosperity. Moving crops to market is the part of railway business on which nearly all the rest is based.

Motor vehicles owned by the farmer or by other people moving foodstuffs account for a large part of the total automotive business.

Because it is in the steel industry's interest that the farmers have profitable crops, the industry must try to keep down the costs of steel products the farmer must buy. This company is constantly acquiring new facilities to produce more steel for more people.

Cival Defence - Local Responsibility

(Fifth in a series of 24 articles)

Most of the operational details —the transfer of plans into hard work and sweat—fall on the shoulders of the municipalities. The federal and provincial levels of governments must prepare their plan; only the people can put it out. An[illegible] ment—the his counci[illegible] in closes[illegible] ple.

The [illegible] from [illegible] H-bon[illegible] cane o[illegible] an orga[illegible] munity ca[illegible] the effects of disas[illegible] important. This can only by each commu[illegible] only a community's in[illegible] can assess how its facil[illegible] lay of the land and so [illegible] best be used to protect from the dangers an enen[illegible] tack would bring.

The first thing any org[illegible] tion needs is direction. So initial step a community take toward a civil defence ganization is to set up a co[illegible] committee, with possibly mayor or reeve as chairma[illegible] must provide the guidance citizens willing to help make the C.D. plan work.

To direct the plans developed by the committee, a civil defence director must be appointed. He would be a fulltime or parttime official or volunteer depending on the size of the community. His duties, of course, would be as varied as the needs of a city compared to a town, a [illegible] compared to a village.

Most Canadian towns and villages fall into two categories for civil defence purposes: Mutual Aid Areas or Mobile Support and Reception Areas. The Mutual Aid Area is the region around Target Area—usually the large cities—whose communities are organized to provide help where needed when disaster strikes. The Mobile Support and Reception is outside the Mutual Aid Area and is organized to receive long-term evacuees and casualties and to send help to a Target Area.

A communiy's C.D. plan would be determined, therefore, by the area-classification under which it falls. To develop its plan, a community should form a Civil Defence Planning Committee. Its members would include heads of each civic government department concerned with civil defence, persons representing transportation, industry, labor, the police and fire chiefs, the town engineer, the medical officer of health. The C.D. director would be chairman.

Officials of churches, service clubs, welfare agencies and so on also may be included on the committee. In short, anyone who can help organize the community's facilities for whatever purpose disaster will require of them, whether for emergency feeding, shelter, first-aid—even to baby-sit for children separated from their parents.

The community civil defence director and his staff must make surveys of the resources available; they must know the condition of roads, the amount of sleeping space available for evacuees from bombed cities, the food supplies available. Could their community provide emergency water supplies for another town? Could they provide fire fighting equipment? How much hospital space has the community? How many doctors? Nurses? Where can they be reached?

The C.D. director and his organization must keep in touch with civil defence officials in neighbouring communities so that their efforts can be co-ordinated in time of disaster.

Just as the federal and provincial C.D. organizations aim at using all existing agencies to meet disaster, supplementing them with volunteers, so should the community organization. Most civil defence organizations are broken down into these services: headquarters, fire, police, health, welfare, warden, engineering and public utility restoration, rescue and ambulance.

Every community has the nucleus of these services already in existence. The purpose, therefore, of the community civil defence organization is to provide direction for existing services and to expand them through recruiting and training of volunteers.

The importance of the volunteers—the storekeeper, service station operator, farmer, housewife—can hardly be exaggerated. For the call on each C.D. service will increase in direct proportion to the scale of whatever disaster may come.

No wonder that those Irish lads
Should be so gay and frisky,
For sure St. Pat he taught them that
As well as making whiskey;
No wonder that the saint himself
Should undertake distilling,
Since his mother kept a shebeen shop
In the town of Enniskillen.
So, success attend St. Patrick's fist,
For he's a saint so clever;
O! he gave the snakes and toads a twist
And bothered them forever!"

How To Find the Date of Easter

Easter Day is always the First Sunday after the Full Moon, which happens upon or next after the 21st day of March, and if the Full Moon happens upon a Sunday, Easter Day is the Sunday after.

But note—That the Full Moon, for the purpostes of these Rules and Tables, is the 14th Day of a Lunar Month, reckoned according to an ancient Ecclesiastical Computation, and not the real or Astronomical Full Moon.—The Book of Common Prayer.

WINCHESTER TOWNSHIP COUNCIL MEETING

The regular meeting of Winchester Township Council was held in the Community Hall, Chesterville, on Monday, March 5th, with all the members present. The minutes of the last regular and special meetings were adopted as read by the clerk and signed by the reeve.

A delegation waited on council requesting that the road through Concession 11, between lots 12 and 13, be graded and gravelled this year, and Council assured them that for this year it would be put in passable repair.

The Tax Collector, W. B. Carlyle, was present and discussed the arrears of taxes with council, and council again gave him specific instructions that where the person in arrears does not make satisfactory arrangements with him for payment of same, he must send the third notice and then proceed according to law to collect.

A representative of the Children's Aid was present to discuss with council, a family of small children in destitute circumstances, and council decided to give a small amount of charity for a week or so, and in that time the father might be able to secure employment and it would not be necessary for the Children's Aid to put the children in foster homes.

The following accounts were passed and paid: Roads and Bridges, $1,793.50; Fox Bounty, $33.00; Refund error in taxes, $7.30; Relief & Charity, $253.59; Assessor and Collector's supplies, $135.332; Calf Inspectors, $25.20; Miscellaneous, $363.43. Total. $2,611.34.

Council adjourned to meet in Morewood on April 2nd, 1956, at 10.30 a.m.

Hospital Manager's Report

(Continued from Page 1)

reluctantly forced to put through an increase of $1.00 per day effective March 10th. This will bring us approximately $10,000, but I can foresee increased operating costs of about $14,000 in 1956. We are tired of going to various councils hat-in-hand asking for handouts. Also we are very loath to put through rate increases that penalize the poor man, but it is our only alternative. There are municipalities that are very happy to use our beds but their councils are very reluctant about putting anything into the "kitty." For instance, last year we had an indigent patient loss of over $1100 from one municipality but they sent us a cheque for $250.00 and called it square.

GOVERNMENT SPONSORED HEALTH PLAN—You have all been reading in the papers about a government sponsored health plan. It is hard to forecast what the ultimate impact may be if it goes through. Certainly it will increase the demand for beds—beds which we haven't got. Failing finance for new bed construction, about the only thing we can do at present is to increase facilities in our out-patient department. This we intend to do during the current year.

INDUSTRIAL DEVELOPMENT—This district is on the verge of a greatly increased industrial development and, as far as Winchester is concerned, that development will be in direct ratio to the facilities and benefits offered. The most important of these inducements is Water and Sewerage. Our hospital, with a yearly payroll of $75,000 and a supply potential of another few thousand, is the biggest or second biggest industry in this town. There is a need for water and sewerage in our hospital's future—there is a need for water and sewerage for the protection of your health. Futhermore, our hospital is suffering from a limited labour market from which to draw. The coming of industry will increase labour availability.

ADDITIONS—Improved patient care is our constant objective. Many pieces of modern equipment have facilitated new procedures. Some of these were purchased with funds provided by last year's special government grant of $200.00 per bed. Other items were purchased by our Women's Auxiliaries. A television set was donated for the nurses' lounge. Our new administrative addition is going to prove very functional and will result in improved efficiency in the office and better working conditions. You are invited to come out and see it.

THE SERVICE OF MANKIND—All those who work in hospitals or who are associated with them are in a service—A Service for Mankind. Our doctors and nurses in particular dedicate their lives to that service. All other hospital personnel are also in that service and each one in our hospital team plays a part. Our thanks to them all. Our thanks also to Board Members, Women's Auxiliaries, other organizations and friends. We are also grateful to those in government, civic and municipal offices for giving us financial assistance.

THE CANADIAN WAY—We have a way of living here in Canada that is the envy of the whole world. In Canada there is no Gestapo and there is no Iron Curtain. There is freedom of the press. We have high standards in education, freedom of worship, young people's societies, recreational facilities. Canadians have a reputation of being solid citizens. I think it is because we are a nation of families and our family units are based on love and affection. Your hospital has a place in the maintenance of those family units. It is a haven to turn to when Mother becomes ill, or when the breadwinner must be made productive again. The family. Your hospital watches over them all—cherish it well, and help it when you can."

Late Mrs. Angus B. Cameron

Final tribute was paid in Metcalfe on Monday, March 5, to Mrs. Angus B. Cameron, 54 Lombard St., Smiths Falls, at the funeral from the Rolston Funeral Home to Metcalfe United Church.

Mrs. Cameron died at her daughter's home in Portland after a lengthy illness. She was in her 74th year.

Born and educated in Russell, a daughter of the late Alexander Little and the former Mary Jane Meharey, Mrs. Cameron spent most of her life there and in Metcalfe and Toronto. She married Angus Cameron at Kenmore on June 28th, 1905. Mr. Cameron survives. A parishioner of Metcalfe, she did a great deal of work for the Red Cross during the war years.

Rev. J. E. Davies and Rev. Thos. McNaught officiated at the service. Mrs. Don. Schrader and Mrs. Robert Fleming of Ottawa sang: "Home Sweet Home." Hymns used were "What a Friend We Have in Jesus," and "Rock Of Ages."

Chief mourners, besides her husband, are: one son, Donald, of Metcalfe; one daughter, Mrs. S. M. Byington (Lavina), of Portland; five brothers, Andrew, of Russell; William Little, Chesterville; Park Little, Winchester; John Little, Metcalfe, and Robert Little, Kenmore; three sisters, Mrs. George Moffatt (Margaret), of Russell; Mrs. Wm. Fisher (Mary), of Metcalfe, and Mrs. Wm. Anderson (Elizabeth), of Ottawa; and two grandsons, Paul and Bruce Byington, Portland.

Many floral tributes showed the high esteem in which she was held.

Mrs. Stanley died Wednesday in an Ottawa Nursing Home following a lengthy illness. She was 81. The funeral was held from the Rolston Funeral Home in Metcalfe to the church, where service was conducted by Rev. H. D. Roberts.

Born in Maxville, Mrs. Stanley was the daughter of the late Mr. and Mrs. John McDermid. She attended the Sandringham Public School and the Cornwall High School. She taught school in the Maxville area for a short time, and was married in Ottawa in 1909 to R. Barber Stanley, who survives. Mrs. Stanley attended Holy Trinity Church and was a member of the Ladies' Guild and Women's Auxiliary.

FEED NEWS

HALF LOADS

The next month or six weeks will be half loads. Bad roads and half loads together make it a difficult time for delivering. However, we will do our best to get deliveries out on the regular days and on time.

It will help a lot if orders are in well ahead—the day before delivery, if possible. If lanes and yards are soft, arrangements should be made to leave the order at the road or some place where the truck can go without getting stuck. Also, a larger order will sometimes save an extra trip.

GRAIN IN THE WEST

Co-operation in this way will greatly assist in keeping up good delivery service.

It is estimated that there are 400 million bushels of Wheat still on farms in the West, as well as 120 million bushels of Oats and 117 million bushels of Barley.

Seems like huge quantities of grain still to be marketed. At the same time, the market prices of all three are higher than earlier in the season. This is explained by the fact that the Board has made very large forward sales of Wheat for export and the big problem now is transportation. Capacity of the railways and terminals is limited. This in turn means that the amount of grain that can be offered for sale is limited. According to James Richardson & Sons' market letter "This limitation has presently little or no relationship to the available supplies in Canada."

So, with all kinds of grain in the West, we can be faced with limited supplies and relatively higher prices in the East.

BOOST EARLY GROWTH with OATMEAL-BASE "FUL-O-PEP"

"Ful-O-Pep" Chick Starter assures a fast trouble-free start. Follow with "Ful-O-Pep" Growing Mash, in either crumbles or pellets.

Ask for a "Ful-O-Pep Check Up Guide"—check important feeding and points on management. It will pay.

SEED GRAIN

Our stock of Seed Grain is fairly complete now—if you have not ordered, call in and see this grain—especially the the new varieties. Order early—some varieties are already sold out.

Symbol of Planned Saving

To city people the silo is a symbol of farming. But to farmers, it's a symbol of saving, too—planned saving. Like a Savings Account at the Royal Bank, it's a practical way of storing up wealth for future use. It takes careful planning, though, to make both bank account and silo serve you to best advantage.

Whenever you're working out your farm plans, feel free to come in and discuss them with your Royal Bank Manager. He knows a lot about farming matters, especially the financial side. So regular chats with him can be very much to your advantage. Drop in next time you are near the branch. He'll be glad to see you.

USE THE ROYAL BANK FARMERS ACCOUNT BOOK *to keep records of all departments of your farm business. It will show you which operations are profitable—help you to run your farm on a business-like basis. The booklet is free of course. Ask your local Royal Manager for a copy.*

LEGION BARREL RUN TO MAKE FOURTH APPEARANCE ON NATION

Chesterville Legion members are busy again with plans to hold their fourth annual barrel run on the old Nation. The Legion affair is fast becoming a looked-for sign that Spring is almost upon us.

This year all rules and conditions are the same as other years. When water conditions are right at the end of March, the red and white barrel will be tipped into the river off Cass Bridge. The exact moment it passes under the upriver side of Chesterville highway bridge will mean $100 to the person who guests that time span or is closest to it.

Tickets are now available from any Legion member.—*(Chesterville Record).*

CRYSLER MAKES BID FOR INTERNATIONAL PLOWING MATCH

Crysler Board of Trade has made a bid to obtain the 1958 International Plowing Match for the Crysler district. This was disclosed at a meeting of Zone 3, Eastern Ontario Development Association, held at King George Hotel, Cornwall, recently. It was revealed that when announcement was made recently that the renowned plowing match would be held in the United Counties, Crysler officials entered an early offer to play host to the plowmen.

A committee has been set up under the chairmanship of A. Casselman, of Berwick, who will decide at a later date on the location of the match. The last time the United Counties was the scene of the plowing match was in 1936, when it was held outside Cornwall.

Last year's match was held in Essex County, near Windsor, and drew some 80,000 paid admissions despite adverse conditions. Stanley Fraser, reeve of Roxborough Township, said: "I feel 1958 will be rather opportune for the match, as the seaway project should be completed and will be a great tourist attraction."

East Osgoode Farm Forum

Speaking as a farm group, members of East Osgoode Farm Forum at their most recent meeting agreed that "unless manufactured goods are kept on the open market it is useless for agricultural products to consider free trade." Discussing a most timely topic, "Trade and Tariffs," the Forum thought that because of Canada's geographical position some protection was needed for the farmers in export of materials, particularly the fruit growers at their peak p[ro]duction and the cheese and da[iry] industry.

Members thought that when agricultural imports are brought into this country newspapers should be given a list of the items given in exchange. United States prices control the surplus of goods in this country, members said. In general, the Osgoode Forum believed that people in the agricultural industry were not satisfied with present conditions, that enough protection was not afforded the farmer compared to that given other industries.

Commenting on this particular problem the Farm Forum Guide states "Canadian farmers stand to gain by the removal of trade barriers in other countries and the promotion of orderly international trade. The General Agreement on Tariffs and Trade is one instrument through which nations can work together towards freer trade." The policy of free trade and low tariffs under the present conditions is not now favourable to Canadian farming, the Forum Guide says.

Examples of where protection in the way of higher tariffs are needed include dairy products. In the last year about five million pounds of cheese have been imported from New Zealand over a tariff of one cent a pound. Cheese producers are asking an increased traiff rate "so that Canadian producers can more fairly meet the competition of countries having lower production costs." Vegetable and fruit growers are also aware of the necessity of revising the rate of tariffs.

Beautiful models—all with bold new Motoramic Styling.
More models—including two new 4-door hardtops and two new 9-passenger Station Wagons. And all models offer a choice of 9 flashing power teams with horsepowers ranging up to 205.
This is the greatest of them all.

There's flashing new excitement awaiting you, for these '56 Chevrolets give new meaning to the word "action".

Look them over! Look at that bigger more m[as]sive grille. Let your eye slide along that l[on]ger, more rakish hood. Follow that lower, speedline chrome treatment back to these sassy, high-set taillights (the one on the left swings down to uncover the gas cap).

EVEN LIVELIER THAN IT LOOKS!

Bold new Motoramic Styling, as you see! Fine new Contemporary Interiors, to be sure! Gay new colors, indeed! But beyond that, even more of the championship road-action that made the '55 Chevrolet a winner. You know the new Pike's Peak record-holder has to have something very, very special in the way of power, ease and sureness of control, and nailed-to-the-road stability.

BLAZING POWER TEAMS—20 EXCITING MODELS

Any kind of model anyone could want. All of 'em have all the extra advantages of Body by Fisher—the people who pioneered and perfected the 4-door hardtop. Your choice of new "Blue-Flame" 6 with 140 hp and new higher compression — the 170 hp "Turbo-Fire V8" (162 with Synchro-Mesh) — or, optional at extra cost, the "Super Turbo-Fire" with 205 hp and 9.25 to 1 compression ratio! Automatic and comfort features? If Chevrolet doesn't offer them, it's only because they haven't been invented yet. So try the hottest drive of the year soon. You haven't tried anything new until you've been behind the wheel of a '56 Chevrolet.

V8&6

Not only does Chevrolet offer a choice of V8 or 6 cylinder engines, but they are the most powerful and most efficient engines in the low priced field. No other car combines such high compression ratios with valve-in-head operation, and includes so many other modern engineering discoveries. If a power feature is good, if it's practical, you can be sure that Chevrolet engines have it!

OBITUARY

THE LATE LEONARD JAMES BELL

Long a respected resident of the Inkerman district, Mr. Leonard James Bell passed away at his home in Mountain Township last Saturday following a lengthy illness.

Born in Winchester Township 67 years ago, he was a son of the late Thomas Bell and his wife, the former Clara Hutt. At an early age he moved with his parents to Mountain Township where he had been a prosperous farmer for the past 55 years. A family man, the late Mr. Bell was known for his qualities of being a good neighbour. He was a member of Winchester United Church, and had been a member of the Public School Board in his section of the township. He married the former Jessie McKercher in 1913, who predeceased him on May 17th, 1952.

Surviving him are three sons, Lester, of Edmonton, Alberta: Orland, of Inkerman, and George of Winchester; five daughters, Mrs. James Baker (Betty), of Mountain; Mrs. Dwight Baldwin (Maxine), of Mountain; Mrs. Clifford Volks (Jean), Toronto; Mrs. Sherman Hoy (June), Ottawa, and Mrs. William Jeacle (Joan), of Metcalfe; and one brother, Howard Bell. Several grandchildren also survive.

Rev. T. N. Mitchell conducted the funeral service for the late Mr. Bell from his late residence to Maple Ridge Cemetery where entombment was made. Mrs. Sheldon Robinson sang. The pall-bearers were Messrs. Carl, Lorne, Orvil and Norman Bell, and George and Russell Suffel.

Many floral tributes testified to the high esteem in which the deceased was held.

THE LATE W. HORACE COLEMAN

Final tribute was paid recently to Horace W. Coleman, prominent resident of Carleton Place for the past 35 years, who died in hospital following a brief illness. He was 78.

Proprietor of the Mississippi Dairy at Carleton Place, he was a past president of the Ontario Creamerymen's Association.

Born in Dundas County, he was educated in the district. He was the son of the late John Coleman and the former Phoebe Henderson. He married the former Elizabeth Korry, of Perth, who died a number of years ago.

Before moving to Carleton Place where he founded his dairy business, he was employed by the Civil Service in the Maritime Provinces.

The funeral service was held at two p.m. in Memorial Park Church of which he had been an elder. Service was conducted by Rev. H. W. Griffith. Interment was made in Elmwood Cemetery, Perth.

Chief mourners are two sons, Dr. Lloyd G. Coleman, Kemptville, and Horace K. Coleman, of Carleton Place; and one daughter, Mrs. G. W. Motherwell (Lenore), of Carleton Place. Mrs. Arnold Casselman, of Winchester Springs, is a niece.

FUNERAL OF THE LATE MRS. WILLIAM BARKLEY

The funeral services were held Friday, March 9th, for the late Mrs. Willie H. Barkley, who was the former Bessie Idella Brown, daughter of John Brown and his wife, Annie Drummond Johnston. She died on Tuesday, March 6th, in the Winchester Memorial Hospital, after a month's illness.

She was born September 5th, 1890, in Mountain Township, later moving to Winchester where she received her education. In 1909 she married Willie H. Barkley, and to this union were born two boys and four girls: Robert L., of Winchester; Mrs. Cecil Crowder (Maude), of Cardinal; Mrs. Howard Tupper (Alice), of Williamsburg; James H., of Cardinal; Mrs. William Blondin (Edna), of Ottawa, and Mrs. Arthur Rielly (Wilda), of Ottawa. There are 16 grandchildren and 4 great grandchildren. One sister, Mrs. Ella Utman, also survives, the only remaining member of the Brown family; also several nieces and nephews.

The well attended funeral was held from the Vice and Craig Funeral Home to the Wesleyan Methodist Church where the service was conducted by the minister, Rev. F. K. Gordon, assisted by Rev. David Anderson of the Christian Missionary Alliance Church of Ottawa. Mrs. S. Robinson and Mrs. A. Crawford sang "The Lord's Prayer," a favourite of the deceased.

The many beautiful floral offerings were a tribute of esteem to the deceased.

The remains rest in the vault at Maple Ridge Cemetery for burial in the Spring.
