J. E. Rockwell's Sunny South Co.

The amusement loving public will be glad to hear that the J. C. Rockwill Sunny South company, the show that leaves you laughing when they say "good night" will appear in the Opera House, Chesterville, Friday evening, August 30th. This company was seen here about two years ago and those who were in attendance pronounced it to be one of the most complete and capable ever appearing here. This season the performance is absolutely new and up-to-the-minute in every respect. It is characteristic throughout, being a mixture of fun, melody, dancing, consisting of all the features peculiar to the negro in Dixie Land, presented by negros of the culture and educated class, free from vulgarity, without any objectional featuses, at the same time sparkling with wit and good humour. Comedy is all that is aimed at and nothing else is reached bar some very clever singing dancing and thrilling specialities, which will make the audience sit up and take notice. It is snappy, gingery, entertaining and well calculated to drive away the blues. Dating from the opening scene until the final falling of the curtain there is not a moment when some of the numerous cast are not occupied rendering matters pleasing to the audience. The Olio is replete with several high grade vaudeville stunts. They are the kind that not alone please but have merit as well.

The organization is accompanied by a solo concert band and a superb orchestra. The band will head the Koontown parade, taking place at noon.

The prices of admission have been placed at 35 & 50 cents.

Seats are now selling at Bolsters Drug Store.

C. P. R. Wrecked

The C. P. R. Toronto Smith's Fall's express was three hours late on Friday owing to a run off near Bethany Junction. After ploughing up the track for some time the engine toppled over dragging with it the mail coach. Engineer Bennett and Fireman Nelson jumped and escaped with bruises. The two mail clerks G. T. Brown and D. W. Mackie of Toronto were badly bruised and Conductor T. M. Brown escaped with a few cuts. Not a single passenger was hnrt.

A special wrecking train was immediately despatched from Toronto carrying Superintendents Arundle and Tansley and Dr. Beattie, the chief C. P. R. surgeon who attended to the injured. All were able to go home except Mail Clerk Brown who was taken to the hospital. His back and arm were severly bruised but he is in no danger.

Sequel to Tragedy.

A marriage which has woven round it an unusually strong story of romance, took place at Portage du Fort on Thursday, when Miss Teresa Dolan, became the bride of Mr. David Airth, a young and prosperous Scotch farmer of Renfrew.

The marriage of these two young persons recalls one of the most tragic occurrences of recent years in the Ottawa Valley.

In the early summer months of this year the peaceful old county of Pontiac was profoundly stirred by an attempt made by Gordon Hodgins, a member of one of the most respected and best known families of Shawville, to shoot Miss Dolan, which was followed by the young man taking his own life by jumping into the Ottawa river.

Young Hodgins was a rival of David Airth, one of the principals in Thursday's event, for the hand of the young woman.

The men who first went out were working on the new insane asylum and have since been joined by many laborers on the new winter fair arena and St. Matthew's Church. The petition sets forth five of the charges which the Government had stated in a manifesto had been proved and then adds rebutting comment. It requests President Yuan Shi Kai to answer within three days and says if his reply should be unsatisfactory the National Assembly will summon him to explain in person. If his personal explanation should prove unsatisfactory then the House will impeach President Yuan Shi Kai, or the whole Chinese Government.

READ ABOUT THE GREAT INVENTION

THE ECCENTRIC SPROCKET WHEEL

Long spokes give greater tying-power. (See arrow A.)
Short spokes give swifter bundle discharge. (See arrow B.)
When you take hold of a heavy stone, exert all your strength and it refuses to budge, what do you call for? A long crowbar, of course. Why? Because greater power is obtainable with the long lever.
The great Invention—the Eccentric Sprocket Wheel (note arrow C)—is built on the principle of the lever. The long spokes (see arrow A and note how much longer than at arrow B) act as long levers—give greater leverage power.

It works out this way:

On our No. 3 Binder, when the bundle is about to be tied, the chain is pulled over the long spokes, which exert all their great leverage power—fully 16⅔ per cent. more than is obtainable with the ordinary wheel. The grain is compressed far more tightly. You get a neater, more compact bundle and save considerable TWINE. Easier to pick up, Easier to carry, easier to shock.

Immediately after our Knotter ties the bundle, the chain is pulled over the short spokes (see arrow B and note difference in length of spoke as compared with arrow A). The shorter spokes greatly increase the speed of the chain. The bundle is given a swifter discharge than with ordinary wheel, and the needle is speedily brought back, out of the way of the downcoming grain, into position for the next sheaf.

The Eccentric Sprocket does this, too—it prevents that "jar" or "jerk" always noticed on other machines when a bundle is being tied and discharged. You will not feel it on the No. 3; neither will your horses be annoyed by it, nor "the life" of the machine be shortened. Frost & Wood No. 3 runs along and does its work without even a suggestion of that "jerk."

Now, you see why every maker would put the Eccentric Sprocket Wheel on his binder if we did not control the patents for Canada. You see why it's wise to invest a post card and get our Binder Booklet so as to become thoroughly posted on the peer of them all—the Frost & Wood No. 3.

You are on the right track when you start investigating our No. 3—the binder that is built by a purelyCanadian Company, who thoroughly understands Canadian conditions. We would like you to read a few of the hundreds of testimonials we have received from Canadian farmers, which back up our claims to the letter.

MARKET REPORTS.

Liverpool Wheat Futures Close Unchanged, Chicago Lower—Live Stock—Latest Quotations.

CHICAGO, Aug. 19.—Buyers, encouraged by additional rains, gave wheat a show of strength at the start which faded later under selling pressure and decreased demand. Oats closed from a shade to ½c down and provisions varied from 2½c to 7½c lower.

The Liverpool market closed to-day unchanged on wheat, and ½d to ⅞d lower on corn. Wheat at Berlin closed ⅜c to ⅝c lower, at Antwerp, ¾c higher.

Montreal Grain and Produce.

MONTREAL, Aug. 19—The demand from foreign buyers for new crop Manitoba spring wheat and old crop grades is fairly good and a fair amount of business was done in the latter, but the prices bid for the former were 1c per bushel under cost. There is also a good demand for oats, but owing to the high rates of ocean freights demanded and the difficulty to buy oats in the west little business was done. The local market is stronger at an advance of ¼c, with a fair trade passing. Demand for flour fair and market steady. Millfeed active and firm. Butter quiet, but firmer. Cheese steady with a good trade doing. Exports for week 65,574 boxes, against 63,947 last year. Eggs fairly active. Demand for provisions fair. Hams have declined 1½c to 2½c per pound.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, Aug. 19.—Receipts of live stock at the Union Yards were 115 carloads, comprising 2215 cattle, 493 hogs, 794 sheep and lambs and 177 calves.

Exporters.

The Swifts of Chicago were the only buyers of export cattle, their buyer, Mr. Howard, getting, all told, 185 cattle, as follows: For the London market, 75 steers, 1310 lbs. each, at $7.10 to $7.25, and only one load at the latter figure; for Liverpool, 110 steers, 1247 lbs. each, at $6.80 to $7.10.

Butchers Cattle.

Choice picked lots, of which there were few, sold at $6.85 to $6.90; loads of good to choice, $6.50 to $6.80; good, $6 to $6.25; medium, $5.25 to $5.50; common, $4.50 to $5; choice cows, $5 to $5.25; good, $4.50 to $4.75; common and medium, $3 to $4; canners, $3 to $4.

Stockers and Feeders.

There were 30 steers of good quality, 1000 lbs. each, bought at $5.25 to $5.60; stockers, $4 to $4.75.

Milkers and Springers.

A moderate supply of milkers and springers sold at $50 to $80 each. More good cows would have sold.

Veals Claves.

The veal calves on sale sold at $3 to $8.25, and three or four choice quality at $8.50 to $8.75 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at from $4.25 to $4.75 for light, with a very few selects at $5; heavy ewes and rams, $3 to $3.50; lambs, $5 to $6.40, but a few selected sold at $6.50 and $6.65.

Hogs.

Selects, fed and watered, sold at $8.60 to $8.65, and $8.25 f.o.b. cars. The bulk sold at these prices, but two or three lots were reported at $8.70 and $8.75.

Montreal Live Stock.

MONTREAL, Aug. 19.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ended Aug. 17, were 1300 cattle, 2300 sheep and lambs, 2500 hogs and 500 calves. The offerings on the market this morning were 950 cattle, 1500 sheep and lambs, 1500 hogs and 250 calves.

Owing to the continued very limited supply of good to choice butchers' cattle the market for such was stronger and 25c per cwt. higher for picked lots. Owing to the scarcity of top quality, Ontario stock, some Manitoba beef met with good demand. Sales were made at $6.25 to $6.50 and picked lots at $6.25 per cwt. The gathering of local buyers was large and as the weather is now more favorable for keeping stock the demand was good, packers taking a number of car loads, consequently the trade thruout was active. There was also a good demand from canners for beef and sales of bulls were made at $2.50 to $3 and cows at $3.50 to $4 per cwt.

There was no change in the condition of the market for selected hogs; prices being firm owing to the small supplies of such coming forward, but the tone of the market for rough stock was easier as the bulk of offerings consisted of such. The demand for packers was good and an active trade was done with sales of selected lots at $9 and rough stock at $7.75 to $8.50 per cwt., weighed off the cars.

In small meats an active trade was done, there being a good demand for sheep and lambs from both butchers and packers and the tone of the market for the latter was stronger with sales of Ontario lambs at $6 to $6.25 per cwt. and Quebec lambs, at $2.65 to $2.75 each. The demand for calves was good and prices ruled firm.

Butchers' cattle, choice, $7 to $7.25; cattle, medium, $6.25 to $6.75; common, $4 to $5; canners, $2.50 to $3.50; choice cows, $5 to $5.25; bulls, $4 to $5; milkers, choice, each, $60 to $70, common and medium, each $40 to $50; springers, $30 to $35.

Sheep—Ewes, $3.75 to $4; bucks and culls, $3.25 to $3.50; lambs, $6 to $6.25.

Hogs—F.o.b., $7.75 to $9.

Calves—$3 to $10.

Has a New Wheat.

Indian Head, Sask., Aug. 20.—Dr. Charles Saunders, the Dominion cerealist, who is making his annual trip through the western provinces, has been examining the crop of the Indian Head district. He expressed himself as well pleased with the condition of the fields of early ripening wheat, such as Marquis and Stanley. These promise a heavy yield and many of them will be ready for cutting in a few days. Dr. Saunders' newest wheat, a phenomenal early sort, which he nas called Prelude, is now ready for threshing on the Government experimental farm here. Some other new sorts not yet named are also cut.

Dr. Sun Yet Sen Reported Slain.

San Francisco, Aug. 20.—Dr. Sun Yet Sen, first provisional President of China, and head of the revolutionary party, was assassinated yesterday in Pekin by troops acting under orders supposed to have been given by President Yuan Shi Kai, according to an unconfirmed report in local Chinese circles. The news has reached Dr. Sun's son and daughters, who are on the Pacific coast.

The rumor was not credited at the Chinese consulate or in the offices of the two Chinese daily newspapers, where no news of an attack on Dr. Sun had been received. At the consulate the report was dismissed as entirely improbable.

SPARKLING WATER, cool and sweet, refreshes the farmer who builds a

Concrete Well or Tank

THE FARMER, above all others, appreciates good water. He drinks more water than the city man. The city-dweller is dependent upon the public water-supply for the purity of his water, while the farmer can have his own private source of water, and thus be sure that it is pure and healthful.

MAN hasn't found a better drink than cool water, properly collected and stored. But in order to keep water fresh and pure, a tank or well casing that will keep out every possible impurity must be used.

CONCRETE IS THE IDEAL MATERIAL FOR TANKS AND WELL-CASINGS.

IT is absolutely water-tight, protecting your water from seepage of all kinds. It cannot rot or crumble. It is easily cleaned inside. Time and water, instead of causing it to decay, actually make it stronger.

THERE are scores of other uses for concrete on your farm—on every farm. If you would like to know of them, write for our book, "What the Farmer Can Do With Concrete." The book is absolutely free.

OUR Farmers' Information Department will help you to decide how to build anything, from a porch-step to a silo. The service is free—you don't even have to promise to build. When in doubt ask the Information Department.

To the Editor of the Record.

The Chesterville correspondent of the Ottawa Valley Journal has had another of his periodical attacks of mental aberration as evidenced by his correspondence in that paper of the 20th inst.

I may say at the outset that I am in favor of any plan, be it hydro-electric or otherwise, that will give us electric lights or power. At the same time the public should know the facts of the case.

There never has been any official business or negotiations done with the Hydro - Electric Commission except at a meeting of the Council of this year, when the Hydro-Electric Commission was asked to place Chesterville on the list of villages requiring electric power and lights

Any other efforts in this direction were unofficial, unheard of, and were for self glorification.

You would be led to believe that the hydro-electric power was at our door.

The council last year and the first of this year understood from the newspapers that the hydro-electric scheme at Morrisburg had fallen through. It has been only during the last three or four months that anything definite and final has been done at Morrisburg in this connection. Even Winchester who by the way are having a mile of good road built by the Government, did not know that it was possible to get power and light through the Hydro-Electric Commission until they heard the Hon. Adam Beck a few days ago. Hon. Adam Beck said that if we wanted the power we were to get busy and join with other adjacent municipalities so as not to make the cost prohibitative, which will, in all probability be done. Any one listening to his speech here recently, would not be led to believe that everything in this matter was all arranged.

BOGART'S
Move On, MOVE ON SALE
Sale Starting Monday, Aug. 19, at 1 p.m.

Having confined our Semi-Annual Sale to Two Weeks we are prepared to make it hummer. We have made a complete re-arrangement in our store, changing every department. All laggards and loiterers given the move on, move on sign.

We must be custodians of our own stock—we must compel tag-ends, oddments and endments to "Move On." No loitering—no delaying—no untimely staying. Goods must "Move On" in this store, stagnation is the death of trade.

No inert, torpid, lazy stocks here. When lines become broken—when pieces dwindle to remnants—when odds and ends crop up, they are NOT allowed to accumulate. We get busy doing police duty.

We get after them with the big stick and prices are radically and effectively lowered

What is the natural result? What happens to the seasonable, desirable, rashionable goods when they are priced far below regular? They "Move On" and they move at a pretty lively gait.

These are the facts of the story we have to tell to-day-- but the figures are the interesting part of it.

Remember—it's time for all Summer Goods to go—fall goods are pushing them from behind. They must "Move On." Remember, all sorts of oddments and endments of staple lines have received "Move On" orders and will leave the store in triple quick time. When a policeman says "Move On" to a crowd on the street, they must move on.

$10,000 WORTH OF GOODS

Must move out of Bogart's store during the remainder of August. Cut prices in every department of the store will move this amount of goods. General Booth Has Passed Away.

London, Aug. 20--William Booth general and commander-in-chief of the Salvation Army, passed away at 10.13 o'clock tonight. He was born at Nottingham in 1829.

The veteran Salvation Army leader was unconscious for 48 hours previous to his death. The medical bulletins had not revealed the seriousness of the General's condition, which, for a week past, it is now admitted, was hopeless.

Twelve weeks ago General Booth underwent an operation for the removal of a cataract in his left eye. For two days after the operation indications justified the hope of the General's recovery. Then, however, septic poisoning set in and from that time with the exception of rallies the patient's health steadily declined. The General recognized that the end was near and often spoke of his work as being finished.

Throughout the commander-in chief's illness his son, Bramwell Booth, chief of the staff of the army and Mrs. Bramwell Booth, gave their unremitting attentions to him both night and day.

The aged evangelist died at his residence, the Rookstone, Headleywood, some eight miles from London, where he had been confined to his bed ever since the operation Present at the bedside when the end came were Mr. and Mrs Bramwell Booth and their daughter and son Adjutant Catherine Booth and Sergeant Bernard Booth; the general's youngest daughter, Commissioner Mrs. Booth-Helberd, and Commissioner Howard, Colonel Kitching and Dr. Wardlaw Milne.

OUTLAW IS RUN DOWN

Notorious Elephant Poacher Shot in Equatorial Africa.

Dramatic Story Comes From Captain Fox, the British Officer Who Was Sent to Capture James Ward Rogers, the White King of the Jungle —Old Man Protected His White Companion to the Last.

London, Aug. 20.—Hunted down by British soldiers in the depths of the jungles of Central Africa, where for several years in defiance of all authority, he had pursued the career of an elephant poacher and illicit ivory trader, James Ward Rogers, an American, is dead. He was shot down by a little force of troops which had been sent into the wilderness in pursuit with orders not to return without the outlaw, dead or alive

News of Rogers' death came formally yesterday to the British Colonial Office from Capt. V. T Fox, inspector of Mongolia province, who commanded the expedition. Although told in official report, the story revealed is one of the most dramatic in colonial annals.

For years Rogers had carried on his lawless trade, which popular opinion credited with netting him a fortune. The remote regions along the Lado enclave and Congo boundaries were the scenes of his operations. Time after time the British officials of the Soudan had tried in vain to trap him. It was this defiance of years which determined the Government to crush the old man.

Capt. Fox's report shows that in his long operations Rogers had done more than had been dreamed of by the Colonial Office. He had established an organized administration over the wild trackless country and among the natives was a virtual uncrowned king.

The success of the outlaw in handling his "subjects" and in the pursuit of his trade drew from Capt. Fox, in his report, the tribute that Rogers' work was worthy of a better cause.

Not since the explorer, Henry M Stanley, pierced the jungles in 1871, and found Dr. Livingstone, has such a tale of hardships, trials and dangers come out of Africa.

For the purpose of tracking the outlaw, the English commander was given a non-commissioned subordinate and six Soudanese soldiers. Body carriers and mules for the transportation of supplies were part of his equipment. His instructions were plain—not to return until the outlaw was captured.

With a soldier's disregard for red tape, Capt. Fox, in his report, fails to mention dates in describing the man hunt. Apparently the denouement of the jungle drama came three months ago.

The pursuers then had spent weeks plunging through the jungle that almost defied passage, Rogers cunningly leading them through the densest of swamps, forests and across deep streams. Before the outlaw was overtaken he had crossed the Nile into the Belgian Congo, after a fight in which Rogers was fatally wounded, Fox found him with a white doctor in a hut. After a brief confession Rogers died.

Throughout his talk with Capt. Fox Rogers shielded his white companion and did not reveal his identity. Capt. Fox's report also is singularly silent on this point, as he says he did not know the doctor. It is thought likely, however, that this was done to protect the man.

Commission for Dr. Noble.

Montreal, Aug. 20.—The case of Dr. Charles Noble of Philadelphia, who is held in the Verdun Insane Asylum against his will at the instigation of his son, and who is petitioning in the courts for his release on habeas corpus proceedings, came up yesterday before Justice Demers, but was put over until Thursday to give the attorneys for the son further time to prepare their case. A commission to inquire into the petitioner's mental condition may be appointed.

Unveiled Statue to Sir Isaac Brock.

Brockville, Aug. 20.—After ten years of assiduous work on the part of Gen. Brock Chapter of the Daughters of the Empire, there was unveiled yesterday afternoon on Court House Square a bronze bust of Gen. Sir Isaac Brock, after whom the town was named.

The ceremony was performed by Col. Sam Hughes, Minister of Militia, in the presence of an immense concourse of citizens.

Port Arthur Truckers Out.

Port Arthur, Ont., Aug. 20.—The truckers in the Canadian Northern sheds went on strike yesterday. About 1,000 men are out and no boats are being unloaded. The men want an increase of about eight cents an hour, and their representatives met in conference with company officials yesterday afternoon. A compromise is said to be likely.

Storm Costs One Million.

Niles, Mich., Aug. 20.—Two persons were killed and damage estimated at $1,000,000 was wrought by a cloudburst and storm that swept over Michigan early yesterday. In Niles the water was five feet deep in the streets, seven bridges were washed out and interurban car service was stopped.

ROBS STEAMBOAT OFFICE.

Then Fantastic Thief Sends $100 Back to Victim.

Toledo, O., Aug. 20.—Nearly $1,000, mostly in currency and the rest in checks, was filched from the office of the Detroit & Cleveland Navigation Co.'s offices here yesterday in a bold daylight robbery. An hour later the robber returned $100 to the company through a third person.

According to a statement made at the office of the company, T. A. Heaton, ticket agent, was making up his daily deposit when a poorly-dressed stranger presented a ticket for some baggage, an errand on which he had been sent by another man. John McArthur, general agent of the company, was in another part of the building. No other employes were about. Leaving the money in sight on top of his desk in the ticket agent's cage, Heaton went to the baggage room, locking the door of the cage with a spring lock. During his absence the stranger went through a rear door and crawled into the cage through a small window in the rear. Heaton returned to the waiting room in time to see the stranger walk from the door of the cage. The man fled, pursued by Heaton, who soon lost sight of the fugitive.

An hour later the man who had employed the robber to get his baggage brought $100 to the company's office. He said that the man had run up to him at the corner where he had appointed him to bring the baggage. The thief had his hands stuffed with money.

The robber thrust the smaller bundle of money into the other man's hands, telling him that it belonged to the Navigation Co. and asking him to return it. Nonplussed, the man, whose name was not obtained by the Navigation Co., did not attempt to delay the other.

AN ENGLISH TRAGEDY.

Officers Slays Wife and Children, Then Himself.

London, Aug. 20.—Capt. Hicks Murray, an officer attached to the Gordon Highlanders, Sunday night murdered his wife and three children, set his house afire and then committed suicide. The story is one of the most revolting tragedies that has occurred in England in recent years.

Capt. Hicks Murray, formerly of the Gordon Highlanders, some seven or eight years ago took as his mistress Florence Taylor, a young woman of respectable family, and two years ago he married Florence's younger sister, Edith.

By the Taylor woman Murray had two children by his wife one. Mrs. Murray did not live with her husband long, but her sister remained in the house.

Representing himself as Richard Charles Mackie, an American, the former army officer a few weeks ago rented a house in Eastbourne, a fashionable watering place 66 miles southwest of London, installing there the Taylor woman and their two children. Last Sunday night the legal wife and child appeared on the scene and the tragedy followed. Murray in a fit of frenzy whipped out a revolver and shot his wife and the three little ones dead. He also fired two shots at the Taylor woman, both bullets taking effect, and then, after setting fire to the house, committed suicide. The bodies of the five killed were found charred in the ruins of the building.

The injured woman was taken to a hospital, where she lies in an hysterical condition. She was visited at the hospital yesterday by another sister, who said that her brother-in-law was formerly a captain of the Scots Greys and later was connected with the Territorials. He had twice suffered from sunstroke while in India, she said, and had shown signs of insanity, for a time having been confined in an asylum.

Increases All Around.

Toronto, Aug. 20.—The staff of special clerks at the Exhibition office are working almost night and day getting the entries classified and listed for this year's fair. Almost every department shows an increase.

Cattle and horses, too, are in record numbers, the entries coming from a range of country between Glasgow, Scotland, on the east, and New Westminster, B.C., on the west. Many U. S. points will also be represented.

Cats are fully double what they were a year ago, Detroit, Rochester and Chicago being represented, as well as most of the principal cities in Ontario.

Canada Asked to Confer.

Ottawa, Aug. 20.—It is understood that the Dominion Government has received an invitation to send a representative to a conference which will meet at Washington this fall to form plans for an international commission to investigate the cause of the high cost of living.

Dalhousie Passes Bylaw.

St. Catharines, Ont., Aug. 20.—The bylaw to supply the Village of Port Dalhousie with Hydro-electric power for lighting purposes carried yesterday by an overwhelming majority. Out of 120 votes cast, only eight were registered against the bylaw. The village in the past has been lighted with power supplied by the Maple Leaf Rubber Co., and latterly by the Lincoln Electric Light Co. As the vote shows, there was practically no opposition to the measure in the village, any opposition coming from outside sources.

ALL STAKING CLAIMS

Fifteen Hundred Men Want Two Hundred Places.

Wild Confusion Reigns at the Newly-Opened Gillies' Limits and Prospectors Are Employing All Sorts of Strategic Means to Record Properties—Big Cobalt Mines Have Their Representatives Present.

Haileybury, Ont., Aug. 20.—Camp fires on the hills in Gillies Limits loomed up last night like beacon lights at ocean ports, while fifteen hundred men rushed madly at the work of staking two hundred claims in hopes of locating more silver mines that will add to the wealth produced by present Cobalt shippers. A copious rainfall added to the discomforts of the night-workers.

At the hour of midnight the four thousand acres recently thrown open by the Government became a mecca of active prospecting and tents that hid corner stakes which had been set days ago were torn down, unmasking the work that had been done in secret in contravention of the mining laws.

At two o'clock the staking had been completed in a majority of cases, and then began the race for the Haileybury recording office. Prospectors anticipating that unquestionably legal difficulties will follow in many cases where claims prove valuable, sought to add strength to their case by getting on record at the recording office in advance of others. Every saddle horse, carriage and automobile available was pressed into service, and for hours a mad marathon was run over the stone roads of Coleman and Bucket Townships to the town of Haileybury.

A scene of strife was already staged at the recording office door. As early as 6 o'clock Monday night watchers were stationed "for place" and as soon as a prospector arrived from the limits the one who kept vigil at the door in his behalf vacated. The prospector took the watcher's place and thus was placed in a position to record early.

Not alone were men in the struggle for claims. Mrs. Thomas Rogers assumed a position at the very door of the recording office in behalf of her husband.

All the big Cobalt mines had prospectors on the limits holding claims for the past week. A seam of calcite was sufficient to call for a heavy guard.

The formation in the portion of the limits thrown open in Keewatin and conglomerate with patches of diabase. Mine men contend that in order to make mines here, should conditions prove right, that great depth must be attained.

A peculiar feature is that not one per cent. of those staking expect to make finds that will warrant future work on the claims, but stake their hopes on the liability of someone finding a high grade vein. Rumors are rife that no claim will be accepted which was staked before daylight. Morning will see a tremendous struggle for position before the door of the recording office.

Old prospectors are taking their time in staking, blazing all the lines, and will not attempt to record before to-morrow. There will follow the legal disputes.

Police Wanted Schepps.

New York, Aug. 20.—Two attempts were made by the police yesterday to wrest away from District Attorney Whitman, Sam Schepps, who proved himself yesterday to Mr. Whitman's satisfaction the most important witness, aside from those accused of complicity in the crime, as yet produced in the investigation of Herman Rosenthal's death.

The attempts were made first on the train which was bearing Schepps to this city from Albany on the last stage of his journey from Hot Springs, Ark., and again at the Grand Central station, when Scheeps was rushed into a taxicab and hustled to the West Side Court, where he now occupies a cell on the technical charge of vagrancy.

Motor Cyclist Hurt.

Galt, Aug. 20.—While driving to Galt from Guelph Sunday morning, Peter Brown of Guelph found a man lying unconscious by the roadside, a mile and a half from Hespeler. He was apparently very badly hurt and efforts to revive him were unavailing. Mr. Brown took the injured man into his rig and raced his horse to the office of Dr. Lockhart, Hespeler, where an examination showed a broken hip and several crushed ribs. The man proved to be Charles Raymond, Guelph, motor cyclist, who, out on a spin, came to grief. A motor car took him home, where he lies in a precarious condition.

Italian's Narrow Escape.

Toronto, Aug. 20.—While at work on Quebec avenue, near Humberside avenue, yesterday afternoon, an Italian laborer, whose name was unknown, had a narrow escape from being buried alive. The man was digging out the excavation for a drain when the side collapsed upon him, burying him to his neck in wet sand. Fortunately his fellow workmen saw the cave-in and extricated him as speedily as possible, and the man escaped with a rather severe bruising.

Montreal Grain and Produce.

MONTREAL, Aug. 13.—There was a falling off in the enquiries for Manitoba spring wheat over the cable to-day, and foreign buyers were slow to advance their offers proportionatel yto the higher level of prices in Winnipeg. Bids were even more out of line than they have been recently—about two cents a bushel—and business consequently was at a standstill. There was another good enquiry for oats and a fairly active business was done at full prices. Flour is very quiet. Butter and cheese remain about the same, and quotations are unchanged. There was some demand from the west for butter, improving the situation in that respect, and a fairly active enquiry for cheese for export, with a fair amount of business reported.

Attacked by a Snake.

Attacked by a black snake, 7 feet in length, Mr. Frank Hitchman and his young son of Prescott fought with the great reptile for half an hour in a hay field Tuesday afternoon before finally coming out victorious.

Hitchman, jr., 17 years of age, was driving a cutting machine with a pair of spirited horses. One of the wheels passed over one of the snakes but the boy did not realize his danger until the mother of the family thrust her long body upward under the seat between his feet and he found the head of the hideous creature waving in his face Terrified, the young man sprang from his place and ran out on the pole, starting the horses into a run which resulted in their bolting and only being caught with difficulty by Hitchman, sr., who rushed back to the spot and made a quick lunge at the monster with the scythe, inflicting only a slight cut. Infuriated the snake struck at him and Hitchman, Jr., thinking his father's life in danger, seized a stick whereupon the snake attacked the son. With the aid of the scythe and club it was finally killed, both men falling exhausted when the fight was over.

J. C. Rockwell's Sunny South Co.

J. C. Rockwell's Sunny South Company, which is announced to appear in the Opera House, Chesterville, Friday evening, August 30th., is the colored organization that appeared here about two years ago and at that time it gave unbounded satisfaction, in fact it was generally conceded to be one of the most pleasing performances ever presented on the local stage. Mr. Rockwell does not believe in putting the greater part of his salary allotment into one or two acts and allowing the balance of the performance to suffer through the employment of cheaper ones, which always disgust the experienced patrons but he has found that the expenditure of money for the purpose of making each act and detail complete pays twice over in the box receipts. This explains why the performances given by this company are always up-to-the minute and sends the audience home feeling satisfied that they have had full value for their money. Quite often the speed limit in fun is exceeded and the audience thrown into cunvulsions of laughter. It is a swiftly moving panorama of mirth, music and melody, never loud, never vulgar. There is every ingrediant of gayety and melody and the Olio is composed of a strong array of Vaudeville talent, equalled by few and surpassed by none. The comedy, which abounds throughout, is said to be of an unusually diverting character and free from the horse play usually seen in performances of this kind.

The organization is accompanied by a solo concert band and a superb orchestra The band will head the Koontown parade taking place at noon.

The prices of admission have been placed at 35 & 50 cents.

Seats are now selling at Bolster's Drug Store.

His cries attracted the attention of the Grand Trunk yard staff who went to his assistance. He was badly injured.
