MONEY IN CATTLE

National demands make it essential that more cattle be raised immediately. "We must go on or go under"—the surest way to go under is by not keeping the Allied armies fed.

The profit of raising cattle is enormous on account of the prices now prevailing and prices will continue high even after the war.

Raise more cattle as a duty to the nation and your bank account. If financial help is required, consult our local manager.

Labor Shortage in the West

Mr. J. K. Fraser formerely of Morewood, now at Vegreville. Alta., as agent for the C. N. R in renewing his subscription to The Record says that 90 per cent. of crops in that district had been destroyed by frost on August 3rd, even the potatoes would not be more than half a crop. Labor was very short for the hay crop until the drafted men had been released. Mr. Fraser, although a conductor on the C. N. R. was taken from his train on account of scarcity of men, and started as station agent. having had experience in that department on the O. N. Y.

Mr. and Mrs. VanAllan of Aultsville, Mr. C. Shaver of New Haven and Mr. A. Shaver of Pittsville were in town Monday the guests of their aunt, Mrs. Geo. A. Munro.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child ($1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

Proceedure for Cleaning and Disinfecting Milking Machines

Just before beginning to milk, suck a pail of clean water, either hot or cold, through the teat cups. Otherwise traces of disinfectant may be carried into the milk.

Immediately after each miiking prepare three pails. Fill Pail 1, with clean cold water. Pail 2, with hot salt soda water, and Pail 3 with clean hot water. While the teat cups are still attached to the machine immerse in these pails successively, at the same time sucking the water through them. Then take the teat cups and stanchion hose and either suspend them or immerse in the solution in the large crock. Care should be taken when putting the tubes into the solution to make sure that all air bubbles are out of the tubes and that they are entirely immesed. Three times a week the rubber teat cups should be taken apart and thoroughly cleaned. No disinfecting solution will take the place of cleaning.

Miss A. V. Foley has been engaged as teacher at Riverside for the coming year.

Mr. and Mrs. A. H. McMillan and daughter Rosie of Avonmore spent Sunday with the former's sister here.

Miss Minnie Gillies of Belleville, is making her annual visit with friends here.

Rev. and Mrs. McCallum of Montreal are spending their holidays with friends here.

Mr. Currie McMillan of Queens University, Kingston spent Sunday in Goldfield.

BETHUNE BUSH.

Our former teacher Miss Ella Marcellus is to be heartily congratulated on her good work shown last term having every pupil (with the exception of one) pass the U. P. examination. The whole entrance class were also successful.

Misses Bernice and Leitha Maude of Brockville, spent a week with their cousin Miss Eurith Kenderick.

Mr. and Mrs. Sim Beckstead and family spent Sunday at Mr. Wm. C. Merkley's.

Master Walter Coons of Winchester spent a few days with his cousin Mr. Charlie Short.

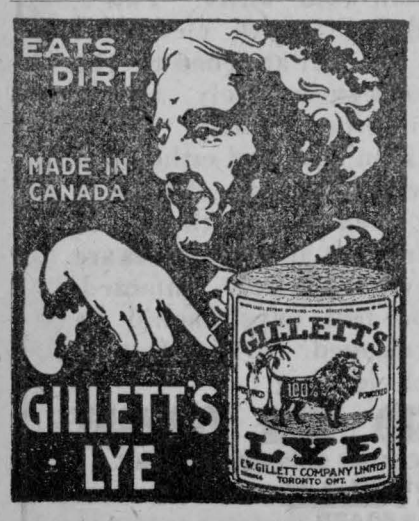

Mr. Hugh Knowland and Arnold Fossit of Winchester, wheeled from Winchester to H. McMillan's on Sunday.

The many friends of Pte. Clifford Kenderick are pleased to see him able to be about again and visit his parents here for a few days.

Miss Marion McHaffie of Glen Becker, spent a week with her sister Mrs. M. Dillabough.

Achieved Her Objective.

A farmer of the Township of Osgoode engaged a farmerette from the city for three weeks. She came to the job equipped with seven different uniforms. Her main ambition was to be out in the field with bare head and arms in order that she might get a first class coat of sun tan. The farmer states that she was successful in this respect and returned to the city with a colour equal to a Sioux Indian Chief.—Russell Leader.

MELVIN.

Mr. and Mrs. Gainer went to Newington on Wednesday of last week taking their neice, Miss Holland home, and visiting Mrs. Gainer's brother and sister there.

Those who were successful in the recent U. P. Examinations here, and passed from Second to Third Class were: Minnie Earle, Emmerson Stewart, Harold Greer, Ussher Greer, Arrington Stewart. None were promoted in the other classes.

Master Kenneth Steinburg is visiting his sister Helen in Ottawa, and Master Ewart spent the week-end with his aunt in Russell.

Mrs. M. Wilson has returned home after spending some time with her daughter Mrs. M. Shaver.

Mr. Skelton of Calgary, was the guest last week of his brother-in-law Mr. W. J. Rodney, having come to see his little son Harry who lives with Mr. and Mrs. Rodney.

Mrs. Geo. E. Earle has spent part of the past week with her mother, Mrs. D. Beattie, who is seriously ill.

Because of so much threshing going on and harvesting, the Red Cross workers thought best not to meet last week, but expect to sew this week at the home of Mrs. S. A. Greer.

Mrs. Gibson returned home Saturday from Smiths' Falls Hospital somewhat improved in health.

Mr. Ernest Errat is having good success with his threshing outfit. During the past week he has threshed for Messrs R. Bruce, Geo. Earle, and Willis Holmes, and all report an excellent yield of grain both as to quality and quantity. Others are busy threshing with smaller mills so that a great many of our farmers will have their grain ali harvested and threshed in August.

Rev. K. Gollan conducted the prayer service this week in the schoolhouse.

Misses Maude Wilson, Laura Lanoue and Greta Earle attended the Young Girl's Exhibition at Morewood on Tuesday afternoon.

Mr. John Shaver and family accompanied by a party of friends spent Tuesday picnicking at Croil's Island.

Miss Olive Carr is spending a few weeks at Winchester.

Miss Laura and Master Burton Beckstead spent Friday the guest of Miss Katie Carr.

Mr. and Mrs. M. Beckstead and son Irvine were visiting friends here last week as Irvine is leaving on Tuesday for the Canadian North West.

A Daring Robbery.

A steer belonging to Bower Henry, warden of Carleton county, was killed and taken away from his ranch on the Borden town site, seven miles up the Ottawa river. The hide and entrails were secreted in an adjacent ditch. The meat was taken away. A bullet hole through the hide shows the method of killing. It took place within a hundred yards of the March road. The steer was one of a herd of 200 which Mr. Henry is finishing off for the market. It weighed 1,200 pounds. A reward of $300 for the apprehension of the thief is offered by Mr. Henry.

RIVERSIDE

Mrs. Charlie Thompson of Montreal, spent Monday with Mrs. John Bogart.

Miss Stella Price of Winchester, was the guest of Ma/ Bogart this week.

A number from here attended the Horse Show at Chesterville on Thursday.

Messrs John and Miles Foster were in Osnabruck Centre on Monday.

Mr. Robert Bogart was in Ottawa on Friday.

Returned Hero Arrives at Home Town in Gov.-Gen.'s Car

It is not the good fortune of every Canadian soldier returning from the war to his old home to be publicly welcomed by the Governor-General of the Dominion but as the C. P. R. train from Ottawa pulled into the depot at Chapleau the other night it brought Lance-corporal Charles Ryan back from service at Salonika and attached to the train was His Excellency the Duke of Devonshire's private car bound for Winnipeg.

His Excellency, learning from one of the train crew that Corpl. Ryan was on board the train and nearing his home town, from which he was one of the first to enlist, invited Ryan into his car and on the arrival of the train, His Excellency gave a stirring address from the end of his car, paying graceful tribute to the part in the Empire's struggle that had been played by the Canadian soldiers. Upon concluding his speech the Governor-General moved freely among the crowd shaking hands and chatting pleasantly with the people.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Another Battle Won for Dairymen

FOR months we have been experimenting—investigating—testing—fighting, to find a way to make the Empire Milking Machine, already the unquestioned leader, still more efficient for the dairy farmer.

THE BATTLE IS WON.

We have given the milking machine a new heart—the pulsator is the heart of the milking machine—and the result of our experiment, the new Empire Super-Simple Pulsator, is the most wonderful development since the invention of the Empire—the competent milking machine.

To be successful a milking machine *must* have a perfectly acting pulsator to cause the alternating action of suction and massage on the teats (to imitate the calf's "suck and squeeze") to occur with absolute regularity; and to make the change from suction to massage and back again instantaneous.

The Empire Super-Simple Pulsator, the pulsator without a piston, does that and more. It really is *Super-Simple*—so simple that it can be taken apart and put together again in less than two minutes. *It has but five moving parts; nothing to wear out or "get out of gear." It cannot lose vacuum, so its action is perfect.*

It places the Empire Milking Machine immeasurably in advance of all competition. Your cows should be milked by an Empire Milking Machine with the new Super-Simple Pulsator. It will milk them more rapidly than ever—it will solve your labor problem—it will increase milk production at a decreased cost; it will transform milking from drudgery into a pleasant chore.

Our factory is overtaxed by the increased demand for Empire Milking Machines, so go to your dealer at once, see the new Super-Simple Pulsator and tell him to order your Empire outfit without delay; or write for Catalog.

Helpless In Bed With Rheumatism Until He Took "FRUIT-A-TIVES".

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.

"For over three years, I was confined to bed with *Rheumatism*. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit.

Finally, I decided to try 'Fruit-a-tives". Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

Factories and Farms Hslp Win the War

Canada's Farms and Factories have played a most important part in the Allies struggle. Our wheat, and beef and munitions have helped to save the day. They have been transported "over there" by thousands of tons, and the task has been a herculean one. With submarines and floating mines menacing every ocean route, it has taken stout-hearted men to man the ships. Of the 300,000 men who have carried out this desperate enterprise more than 15,000 have already perished. They left behind widows and families and many cases they are almost destitute. To-day distress stalks in their homes. The tragedy is that this splendid body of men has no official recognition by the governments; that for their dependents there is no separation allowance, no pension, no relief. They receive nothing to show a national appreciation of their deeds. The Navy League of Canada has the privilege of helping to care for these sorrowing families. "Sailors' Week" is a Dominion-wide Campaign from September 1st to 7th to raise money for their relief. Ontario is pledged to contribute $ 000,000. Every dollar given will be used to the best advantage; every dollar will bring happiness in to one of these sorrowing homes. Ontario has never yet failed to answer the plea of the suffering. Let us give generously. Let us show them that "they shall not want."

THE HORSE SHOW AND RACES

For the first time in several years Chesterville Horse Show and races were not interfered with by bad weather. A shower did make its appearance between the two days but rather helped the attendance, as a large section where harvesting operation would have been going on found the grain too wet to work with and the men were at liberty to take in the races on Thursday afternoon.

The entries in the harness horse classes were hardly as numerous as was looked for, however, a number of high class animals were in competition and held the attention of a well filled grandstand on Thursday afternoon when the awards were made.

The races on both afternoons were of the keenest, in fact the best ever held on the local track which had never been in better shape for fast time.

2.50 Classified

In this race Pat Flynn with Eileen F. was just a little too good for his bunch and won in straight heats;

2.20 Class

With seven starters this race went into six heats before Jack Cameron with Lady Rex. was returned the winner. It took Cameron sometime to get going, but was right up two-three-two, in the first three heats with every heat a bitterly fought race. In the fourth heat the fifth horse was less than half a length away from the winner when going under the wire.

2. 35 Class

On Thursday afternoon Cameron came back with Lady Rex in the 2. 35 when with five entries he again found his work cut out for him requiring six heats in the first, fourth and fifth of which he was not farther back than second place. The finishes were all of the hair raising variety and getting closer as the race spun out.

Free-for-all

The free-for-all had but three entries with practically two classes, that is, Armourdale the Wolfe Island entry in a class by himself taking first place, with the other two nowhere, fighting it out for second and third. One could imagine the broad smile that would have been on Father Fleming's face had he been present to see the Wolfe Island horse clean up the Eastern Ontario bunch.

Presentation and Address at Nation Valley

On Tuesday afternoon Aug. 20th the home of Mr. and Mrs. William Sheldrick of Nation Valley was the scene of a very interesting occasion when all the pupils of S. S. No. 5 Winchester, as well as several ex-pupils of that school gathered together to spend the afternoon with their former teacher Miss Mabel Rae and to express in some slight way their appreciation of her valued services as their teacher for the past four years, choosing therefore the anniversary of her birthday.

At the conclusion of much enjoyment in games and music the following address was read by Miss Hilda Sheldrick and a beautiful gift, a manicure set in white ivory was presented to Miss Rae by Miss Luella Barkley.

Nation Valley, Aug. 20, 18

Miss Mabel Rae,
Winchester, Ont.

Dear Miss Rae;--

We have learned with deepest regret that you are about to sever your connections with us as our school teacher and we have gathered here this afternoon your pupils and friends as well, not to bid you farewell for we hope your future duties will not take you too far from our midst and that you will from time to time return to your home and meet us again, to renew and strengthen our ties of friendship

We have chosen to gathert oday on the anniversary of your birthday, first to wish you many returns of the same and second to express to you our best wishes for your future prosperity and happiness.

We feel we are losing from our midst one who has always taken the deepest interest in our warfare and we will not only miss you from our community as our teacher, but from our Sunday School where you have ever toiled faithfully as our teacher and we wish you to know that we appreciated your efforts and that we feel that we will carry with us to old age the noble things you have taught us, things that are far dearer to us than gold.

Now Miss Rae we would ask you to accept this small gift we have chosen not as a token of the love and respect we hold for you, because we cannot express those feelings by a mere gift but we wish you to accept it as a remembrance from your former pupils and as you use these things from day to day we trust you will always remember the four years you have spent with us as our teacher. Signed on behalf of the pupils of Nation Valley School.

Hilda Sheldrick, Luella Barkley.

In a few well chosen words Miss Rae expressed her deep gratitude to her pupils and friends for their kind wishes and beautiful gift.

Dainty refreshments were then served by several of the mothers of the boys and girls and a pleasant afternoon brought to a close by the singing of "God be with you till we meet again."

Special Session of Counties' Council.

A special meeting of the Counties' Council of the United Counties of Stormont, Dundas and Glengarry was held on Tuesday last in Cornwall. The meeting was called to consider the advisability of authorizing the sub-committee of the Road Committee to expend, in addition to the Counties' appropriation for the good roads system in the three counties, the anticipated grant from the Ontario Government for this purpose this year.

Mr. W. J. Fisher, of Winchester, Warden, expressed his thanks to the members for coming to the session at such a busy season. He said the committee appointed at the last session found the money appropriated was all spent by the middle of August, and, after going over several roads, it was decided to call this special meeting. They have ascertained that they could spend the Government subsidy this year, and, for that reason, the meeting had been called.

Mr. A. I. Macdonell, Clerk read several communications bearing on good roads matters, all of which were referred to the Road Committee, on motion of Messrs. Stiles and Munro, of Cornwall.

The Council then adjourned to allow the committee to consider and report on these matters.

After deliberating for about an hour and a half, the committee presented a report to Council, recommending that the sum of $45,000, in addition to any moneys expend at this date out of present levy of $121,500 and last year's surplus of $16,000. be expended under the supervision of the sub-committee and Superintendent, and that such a sum be borrowed as required and that a by-law authorizing same be introduced and passed. The committee also recommended that the Council become members of the newly formed Eastern Ontario Good Roads Association, pay the membership fee for counties, $25.00, and the following members be appointed as representatives of these counties at the meeting to be held in Ottawa on Sept. 11th, when Sir William Hearst, Premier of Ontario, is to be present and deliver an address on highway improvement:—D. H. Meikle of Wales, Deputy Reeve of Osnabruck Township; D. D. McLeod, of Moose Creek, Reeve of Roxborough Township; Robt. Mulholland, of South Mountain, Reeve of Mountain Township; and H. S. Kinloch, of Martintown, Deputy Reeve Charlottenburgh Township.

The report was adopted without amendment.

When the By-Law, No. 1884, authorizing the borrowing of the sums mentioned in the report, came before Council, the Yeas and Nays were called for, the by-law being passed by a vote of 20 to 12, the vote standing:—

Yeas--Cameron, Campbell, Davy, Dunbar, Farlinger, F. Fraser, D. W. Fraser, Fulton, Kennedy, Kinloch, Meikle, Mulholland, McDonald, McMartin, McMillan, McNaughton, Nicholson, Robinson, Robertson, VanAllen.—20.

Nays--Casselman, Cooper, Copeland, Hamilton. Merkley, Moss, Munro, McIntyre, McKercher, D. D. McLeod, Sangster, Stiles.—12.

R. A. McLeod was not present and Warden Fisher did not vote, these completing the Council's 34 members.

The Councillors sang "God save the King" and the meeting closed at 5 p. m.

Canada is Asked to Help the Sailors.

Under the title of "Sailors Week" a Dominion-wide Campaign is being held from September the 1st to 7th to raise money to aid the dependents of the fallen sea-men of the Mercantile Marine. If you think for a minute you will realize that it is to these heroic Mariners, who in spite of the submarine, and the floating mine, daily ply their perilous course across the seas, carrying foodstuffs and munitions of war to the Allies. Without them our gallant armies could not make war for a week. To-day 300,000 seamen are serving the Empire; fifteen thousand of them have made the supreme sacrifice. What of the sorrowing families? Without any Government provision they must look to the generosity of the nation. Is Ontario going to let the widows and orphans starve? The province is asked to raise $1,000,000 to aid these suffers of the war. Ontario has never yet failed. Give generously, for Canada owes the properity she enjoys, to the gallant men of the Merchants Marine.

Jam in Cardboard.

One of the ways that Great Britain has met the shortage of tin plate is to use cardboard instead of tin containers for the jam of which the British soldiers are so fond, says Popular Mechanics. The substitutes are now being used for several other articles besides jam, and the weekly ontput of the non-metallic containers is more than 2,000,000 per week. Another method of saving tin plate has been to employ cardboard boxes in place of tin ones for crackers and dried fruit.

Child Rescued at Iroquois.

A narrow escape from drowning was frustrated last week by Bun Jackson, son of Mr. and Mrs. W. A. Jackson, Point Iroquois, when Barbara the seven year old daughter of Mr. and Mrs. John D. Harkness fell into the canal. Young Jackson along with Calvin Serviss had been in swimming and were just preparing to dress when the little girl fell into the water. Young Jackson promptly jumped in and rescued her. Had it not been for his timely action she would doubtless have drowned. Iroquois News.

New Vocational Pay.

New rates of vocational pay have come into force and payments to discharged soldiers who take training to fit them for new occupations will be facilitated. Single men are now to receive $50 a month, and married men $39 and wife $35. If there is one child the wife's allowance is $42; for two children $47; for three child $50; four children $53; five children $56 Pensions are entirely a distinct and separate matter, being dealt with by a Medical Board which does not figure on whether the man is going to train for a trade or not.—Exchange.

RHEUMATISM ARRESTED

Many people suffer with lame muscles and stiffened joints because blood impurities have invaded the system and caused rheumatism.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength. Try it.

Remember
By Giving

AT any other time than this, the heroism of the men of the *Merchant Marine* would fill the newspapers. As it is, you simply read of so many tons of shipping sunk by submarines.

Yet from the few words you read, you must picture scores of scenes like the illustration. 15,000 men of this service, not officially recognized by the governments, have suffered death in order that soldiers, munitions and food may cross the ocean. Remember their widows and orphans, dependent for life itself on your generosity.

Let Your Donation Be An Appreciation of This Sacrifice!

As each day sees new victims of the U-Boat, more and more mouths wait to be fed—widows and orphans, who cannot look to governments for relief.

"They shall not want!" Say this in the only way that counts—by your contribution.

WE MUST listen to the call that comes from the deep—"Remember the Lusitania! Remember Captain Fryatt! Remember the 176 vessels lost, together with all trace of crew and cargo! Remember the 15,000 men of the *Merchant Marine*, who have already made the supreme sacrifice! Remember the widows and orphans!"

Big Poultry Farm Managed By Women

I suppose there are other women in Canada who have poultry farms and manage them entirely themselves, but I have not heard of them. I should like to get in touch with some of them, as I am more and more convinced since my visit here that poultry farming may become a great industry for women in Canada

In these days of greater production it may give encouragement to others to hear what the Misses Nicholson are doing. They are daughters of the Rev. J. Nicholson, an Episcopal clergyman, who came out to Canada from Dublin a few years ago with Mrs. Nicholson and his family. The daughters had not the slightest knowledge of poultry breeding before coming to this country. A parishioner of their country parish gave one of the daughters, in return for some kindness, one hen and eight chicks. How to feed them and look after them was something which had to be learned, but by reading, taking a course of instruction by writing, intelligence and determination to succeed, they learned enough to warrant them taking up poultry raising as a livelihood.

Experience soon convinced them that it was better to breed from one variety only. They decided upon Barred Plymouth Rocks of a breeding line of forty years, which they purchased from a well-known poultry breeder.

In three years the elder sister cleared enough money to pay all her younger sister's college expenses for one year.

They were soon heard of among poultry breeders and were engaged to take charge of a large poultry farm in the Province of Quebec, where there were twenty-five hundred birds and a Candee incubator of three thousand egg capacity, and made it success. Of course, they were obliged to hire some men to help on this large farm. They held this position for a year, during which time they brought the farm up from a losing concern to a paying investment.

Again their success was heard of, and they were offered positions on the poultry staff of the Macdonald College at St. Anne de Bellvue. The elder sister was sent by the Quebec Government to lecture through the province on poultry breeding, and the duty of the other was to look after the Barred Plymouth Rocks only. They held these positions for one year, and then, feeling that they had learned enough to justify them in having a poultry farm of their own, a suitable site was found, with a house on it to rent, at Chelsea, eight miles from Ottawa. They were soon settled and brought forty-five of the original Plymouth Rock stock with them as a beginning, and I may say they have never varied from this breed.

Being interested in intensive farming for women, I heard of the Misses Nicholson in the Autumn of 1915, when they first came to Chelsea. I came to see them and visited them for a few weeks, during which time I became convinced of their ability to succeed and arranged a lecturing tour for Miss Nicholson through Western Ontario. Her name is well known in that part of the province. I have come back to find that in less than three years they have increased their birds from 45 to 700, and in another year hope to have 1,000. There is not a sick hen or chicken among their 700—they are all well, fat, and bring the highest prices. If human babies were given the intelligent care the Misses Nicholson give their chickens the world would not have to complain of infant mortality.

It has required hard work, a knowledge of their profession, indomitable will and unwearying attention to achieve this result. Buying two cows is now in contemplation. From delicate girls they have developed into strong, healthy women, doing a good twelve hours' work a day, and have proved that poultry-raising may become a paying and healthful occupation for women of intelligence, and of course would be much more easy when the farms have the advantage of electricity, water facilities and a less severe climate. One can have a little idea of the devotion to their work of the Misses Nicholson when one hears that during the cold days of last Winter when the temperature was as low as 40 and 42 below zero these brave young women would dress as warmly as they could and take day about in the poultry yard, watching the stock, giving warm feed and doing every thing to protect them from the cold. The result is they have not lost one chicken.

Whitewashing the poultry sheds, putting up wire fences and building extra poultry houses are also part of the work of these indefatigable women.

I look on and marvel that two women can accomplish so much. Not only do they take full charge of the poultry, but do all their own housework, including cooking and laundry work, and also have a vegetable garden which supplies them with enough vegetables for the winter. All water has to be drawn from the kitchen pump, and all lighting of the house is done by coal oil lamps.

With all this work they realize the importance of never forgetting to dress suitably and neatly and always look and act the true ladies they are.

They are raising poultry and other farming for women to a higher standard, and it is impossible to tell what their influence will be in this Canada of ours.

What pleases me most is that they are well and strong and cheerful, and see "eye-to-eye" in everything.

I had almost forgotten to mention one of the most interesting features of the poultry farm. There is a Great Dane dog, who is devoted to his mistress and takes as much interest in the stock as they do. If he sees any of the hens or chickens straying from appointed places he chases them back gently but firmly, and if a big cock tries to evade him he chases him, and gives him a little push if necessary, until he obeys, with an air of 'How dare you disobey me?' He is also harnessed to a cart and draws water or grain when required. The day-old chicks are his particular care, and he loves to sit in the coop watching them.

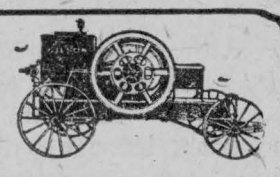

The work of these young women is encouraging, and what they have done may be done by others. They would advise all women, who aspire to be successful poultry breeders to 'learn how' first from some good teachers, who will give them practical experience, before investing their money in what otherwise be a losing venture.—Louise N. Carling.
