H.S. Students Hold Fine Achievement Day Show

The High School Achievement Day was held last Friday afternoon in the Community Hall and attracted a very good crowd although the weather was very warm. The attendance was quite representative of the community as a whole and included the principals of the Public and Separate Schools and several of their students.

Everybody expressed satisfaction not only with the displays of exhibits but also with the fine posters. The exhibits filled the main body of the hall and included those of Shop Work, Home Economics and Cadet work.

At the front of the stage was a large poster illustrating Education as a gateway. On either side were giant-size printed posters listing "What had been done" and "What has to be done". Another striking poster emphasized that food for the mind in the form of good literature, should not be overlooked in attending to children's education. It is of equal importance with that of properly balanced food for the body.

Mr. Logsdale of Kemptville, was the judge of Vegetables and Flowers and Mr. Gordon Wragg judged the poultry. Mr. Logsdale addressed the audience and offered encouragement to the students. Mr. Wragg and Mr. Maybee thanked him for coming to make the awards and for his kind remarks on the students' achievements.

Mr. Wragg and his agricultural students are to be congratulated on

Good and Bad Luck Same Day For the VonGunten Family

Good and bad luck were in store for Mr. and Mrs. Ernest VonGunten, of the Hoasic district, last Monday. Mr. VonGunten and daughter Eunice came home late that afternoon from Osnabruck and the celebrations at Aultsville, and were unable to fi Mrs. VonGunten about the place. After a search the daughter found her after hearing groans from a field of buckwheat.

Mrs VonGunten was lying in the field with a double fracture of the right leg below the knee and had attempted to drag herself to the house. Going out to drive some heifers away from the calves tied in the field, Mrs. VonGunten had been caught in a rope and dragged by one of the heifers, and had lain in the field for over two hours before help reached her.

On the way home that afternoon, Mr. VonGunten had stopped in at Aultsville to watch the celebration, and had bought five tickets on a draw for a Victory Bond worth $200. Yes, you guessed it. He won the $200 in the draw, to help some in off-setting the ill-fortune of the day.

Finch Parish Priest Honoured On Leaving for Apple Hill

On Sunday, August 26th, the parishoners of St. Bernard's Catholic Church, Finch, presented Father Roland Rouleau with a purse upon his departure for his new appointment at Apple Hill Parish. The address was read by Mr. Bernard Foley and the presentation on behalf of all the parishoners was made by Mr. Eddie Hunt.

Rev. and dear Father:

We, the parishoners of Finch, have assembled this morning to extend to you our best wishes as you take on a new and bigger assignment, namely, administrator of the parish of Apple Hill.

You have been with us, Rev. Father, but a year, but during that time you have been close to us and have helped us in the difficult paths that lead to life eternal.

A Priest is ordained, not for his own honour and glory, but he is ordained for others, for the greater glory of God--he is ordained to serve and to be a member of each family, yet belonging to none. You, Rev. Father, have heeded that call of Christ and though you have been with us but a short time, you have proven yourself faithful to that glorious vocation.

We do not forget the hardships that a Priest must endure to fulfill his vocation wisely and well. We do not forget harsh winter days when you came the long road to us to offer the greatest of gifts, the Holy Sacrifice of the Mass.

You were present when his Excellency announced the news that we would have the task of building a new parish. You will not be here to see that long expectation of ours realized, but as you leave us Rev. Father, you will leave with the knowledge that you were a key to that long chain that finally culminated in the appointment of our own Pastor.

You are not far away from us even now and rest assured you will be very welcome in our midst should occasion arise that you would be visiting Finch and vicinity

As a token of our appreciation and love, we ask you Rev. Father, to accept this small gift. In return for this gift we but humbly ask a remembrance at the altar.

MEAT RATIONING WITH US AGAIN

As everyone is well aware, meat rationing returned to the Canadian scene this week, and was greeted with mixed feelings. It is one of the nuisances Canadians had hoped to be relieved of after the war, but it has to be accepted, and it is just as well to keep the reasons in front of us before we do too much grumbling.

There is plenty of meat in Canada. Rationing is not brought on by the inability of local butchers and the packers to supply our needs. Indeed, in a village like Chesterville, consumers have always been better off than the city meat customers.

Meat rationing has been imposed because of the world shortage, which cannot be understood in a country like Canada where plenty has always been our lot. It will mean a boost to the three slices of bacon—part of the 23 cents worth of meat allowed the people of Britain per week. That has been the Englishman's ration for some years now.

And it will put meat into the hungry mouths of Europe, some of whom have not enjoyed meat for many and many a savage month.

Rationing, bothersome as it is, should be extended to include shortening and lard, which are definitely in short supply. As it is, the early birds get the bulk of the supply, and the rest do without week after week.

JUVENILE DELINQUENCY INCREASES HERE

During the past few weeks several cases of juvenile delinquency have been aired in the courts, resulting in a bit of deep thinking on the part of some as to what can be done about correcting the situation.

Sunday morning, a number of youngsters gathered in the premises under construction for A. T. David and Sons, and the result of some of their energy-busting was a hole though the wallboard just placed on the office wall.

The gang was apprehended and brought to task for their misdeed. But that is not the end of the drama. The proper conclusion can only be when these lads have been taught the difference between right and wrong, and the rights of every citizen.

The proper place for this responsibility to be taught is in the home, by the parents. Many youngsters in town have too much time on their hands and don't know how to spend it properly. Then the gang instinct develops, and without guidance, or improper guidance, trouble is on foot.

In this latter case, the trouble would have been avoided if these youngsters had been observing Sunday as we believe is proper, by tatending Sunday worship in their churches or Sunday schools.

A.B. Jas. Carr Writes Home Relating Pacific Experiences

Arriving back at Saskatoon after two months on Shepley Island, 450 miles south-east of the Jap mainland, AB. Jas. Carr, RCNVR, tells his parents, Mr. and Mrs. W. J. Carr, of the air plans that blasted the Japs from the war.

This is the first letter his parents had received from A.B. Carr in three months, although they had received word of his well-being from a sailor whom Jim had relieved in their private "hell hole" in the far Pacific.

Saskatoon,
August 29, 1945

Dear Mom:

Here I am back in good old Canada after two long months of occupation, on an island called Shepley Island, in the South Pacific, about 450 miles from the Japanese mainland.

I received your letters and the papers as soon as I arrived here and was I glad to hear the news and read the good old Chesterville Records. I arrived in Saskatoon this morning at 4:30 a.m. and was going to wire you of my safe arrival except for the small matter of money. Our papers haven't arrived from our base and therefore we had very little money to spend. I just had enough for a package of cigarettes and a cup of coffee when I arrived here and the thirty-five lads that came with me were in worse shape for money. So my next best bet was to send an air mail letter and let you know that I was back.

I haven't lost any weight, in fact I've grown some and top the scales at 204 lbs., brown as a nigger and harder than nails. There are two boys here from Ottawa and one from Smiths Falls. All the boys are eating their heads off and having the time of their lives up here in the canteen.

The Saskatoon War Committee welcomed us at the station and are having a big banquet for the New Pacific Arrivals to-night at 6:30.

I saw the Uganda on the west coast and I suppose by now Frank Moran is home on leave. Say hello to him for me and tell him I will be home enjoying some leave soon too. I dont' know when I will get my leave but I'm going to put in for it tomorrow and get back to Chesterville as soon as possible.

Is Don still in Dartmouth or is he home on leave again. The lucky boy doesn't know when he is well off, that he didn't have to go to that hole to fight against those yellow devils.

During my stay there, we saw quite a bit of action, strafed by Jap fighters and bombed by planes at least once a day. Fortunately the casualties were light, only about 35 killed in two months.

The trip back was swell; wasn't sea sick and really enjoyed it. The weather was fine except for two days when we had a stern sea which really knocked us about and made a few lads sick. We came back on a Yank destroyer and they really treated us swell, no work, no nothing, but sleep, eat and smoke.

The island was quite small but we had a very important job to do. The planes that bombed Japan day and night took off from our island, loaded to the hilt with high explosives and incendiaries. I suppose you folks heard about the new atomic bomb. Well, Dad, our island had enough of these bombs in storage to blow the entire Jap homeland right off the map.

If you take a look at a map of the Pacific, you will see a small group of islands around 450 miles south east of the Jap mainland. Well our island is the one at the north-west tip in the group of 12 islands, and really was a hot spot for a time. The grub there was wonderful, plenty of fresh fruits and meat. The cooks were exceptionally good and the Yanks and British complement were a swell bunch of lads to get along with. I met boys from practically every state in U. S. A. and all parts of England and Scotland. But best of all was meeting the boys from Ottawa and Smiths Falls, London, Toronto, Brantford and all those towns back home.

The Yank pilots lost heavily but they were the most determined bunch of boys to knock Japan off the map that I ever saw. Good fighters, clean thinkers and good sports.

CORN MAKES WONDERFUL PROGRESS PAST FEW WEEKS

Ordinarily one hundred and ten days are deemed the time for fodder corn to reach maturity after planting. On the farm of H. R. Johnston, a mile north of town, there is a ten acre field averaging eleven feet in height, exactly 77 days after planting. The all-round improvement in the corn crop in this area in the past couple of weeks is astonishing. Fields which were flooded just after the young shoots appeared and at that time counted almost a total loss, show yields of tremendous crops which with an abundance of hay means plenty of feed for all stock over the coming winter.

To All Blood Donors

Thank You

2,347,000 blood donations were made in Canada, 1,423,000 in Ontario, through the volunteer Blood Donor Service of the Canadian Red Cross Society since the first clinics were established in January, 1940. The lives of hundreds in the army, the navy and the air force were saved through this service.

This record was only made possible through your donations of blood. We wish to thank you sincerely for your generous help at a time when the need was so great. Special thanks are also given to the doctors, nurses, transport drivers and all other volunteers who gave so generously of their time and talents.

The Volunteer Blood Donor Service is now closed as a war measure. A new challenge is presented, however, for many deaths occur in Canadian hospitals each year for lack of an adequate transfusion service.

To meet this need, the Red Cross is making a survey with a view to providing all Canadian hospitals with blood for transfusion purposes. To our thanks, then, we add an invitation to help us as we continue our humanitarian work. When the time comes, and plans are ready, announcements will be duly made.

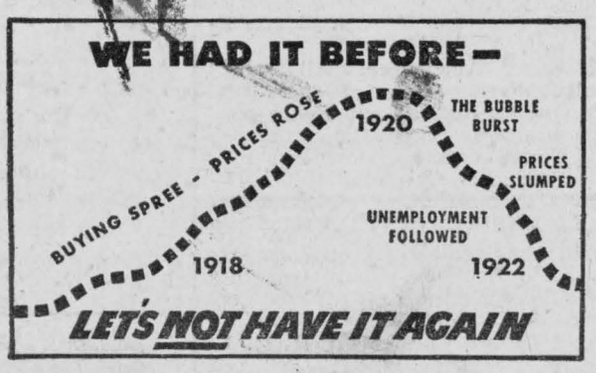
Let's not deceive ourselves by the belief that the danger is over—just because the war is won. And let's remember that inflation is always followed by deflation with its misery of bankrupt businesses, mortgage foreclosures and unemployment.



It's your job and your savings that are at stake.

The danger of inflation, with its black shadow—deflation,—will remain as long as goods are scarce and insufficient to meet demands. That may be 6 months, 12 months, 18 months. Only time will tell. As quickly as controls are unnecessary, they are dropped.

After nearly 6 years of war, industry cannot switch over to normal production of civilian goods by a snap of the fingers. Reconversion takes time. The whole system of raw materials, labor and production has to be re-geared.

★ ★ ★

In the meantime, price ceilings, rationing and other controls are the safeguard for every one of us. It's everybody's responsibility to help make them work.

***SO*— Keep on watching your buying. Don't rush to buy scarce goods.**
Keep on saving your money. Put it into Victory bonds and War Savings certificates.
Keep on supporting wage and price controls, and rationing.
Keep on fighting inflation and its black shadow . . . deflation.

This advertisement is issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation and unemployment later.

THE MIXING BOWL

By ANNE ALLAN

Hydro Home Economist

Hello Homemakers! Call them fruit or vegetable, tomatoes are at home on any table. We hope you will serve them often at the height of the season and also preserve a supply as a source of vitamins A and C next winter.

First choice for most people in serving tomatoes is uncooked—whole halved, quartered or juiced. Chopped fine and forced through a sieve, fresh tomatoes may be seasoned with a little onion, lemon juice and horse-radish or tobasco sauce to make a tomato cocktail.

To peel or not to peel a tomato is often a question. If the tomato is scalded for a minute, then cooled quickly the skin comes off paper thin and food nutriments are not lost. On the other hand, place a whole ripe tomato in the lunch box and it is easier to handle with the skin on.

A stuffed tomato salad, one of the most popular of summer dishes, may be the main dish. The centre of tomatoes may be scooped out to form a shell for a variety of fillings—chicken, egg or cheese. Include cottage cheese or grated cheese or chopped egg with diced vegetables in the variety of fillings for tomatoes.

Tomatoes are easy to can, but for best results use a reliable well-tested method.

CANNED TOMATOES

Select firm, ripe tomatoes of medium size. Wash. Blanch by dipping in boiling water for 1 min. Plunge into cold water and peel at once. Simmer tomatoes 3 to 5 mins. Fill jars. Add 1 tsp. salt to each quart jar. Cover with boiling water or tomato juice made by pressing ripe tomatoes in cheese cloth bag. Partially seal and process the jars of tomatoes in hot water bath for 20 mins. counting from the time the water begins to boil. Or process in electric oven preheated to 275 degrees for 25 mins. Seal tightly and store.

BAKED TOMATOES WITH CELERY STUFFING

6 firm, ripe tomatoes, 1½ cups chopped celery, ½ small onion, finely chopped, ¼ cup grated cheese, salt and pepper.

Wash tomatoes, remove stem ends, and scoop out centre pulp, leaving a shell about ¼-inch thick. Chop pulp and combine with remaining ingredients, seasoning to taste. Fill tomatoes with mixture and top with buttered crumbs. Place in greased baking dish and bake in moderately hot oven, 375 degrees, for 20 minutes. Serve at once.

TOMATO COCKTAIL

18 ripe tomatoes, 1 cup chopped celery, ½ cup chopped onions, 3 sweet green peppers, 1 sweet red pepper, 2 tablespoons salt, 2 tablespoons vinegar, ¼ cup sugar.

Wash and cut tomatoes but do not peel. Chop the peppers finely. Mix tomatos, celery, onions, peppers and salt together. Boil for half hour in a covered pot. Strain through a coarse sieve. Add vinegar and sugar. Boil 3 minutes covered. Seal in sterilized jars.

TOMATO SPREAD

12 ripe tomatoes, 3 onions, 3 apples.

Cut up tomatoes, apples and onions without peeling. Cook until soft. Put through sieve. Add one cup brown sugar, 1 tbsp. salt. Mix 1 tbsp. of mustard with ½ cup of flour and 1 cup vinegar. Cook until smooth. Add the hot tomato mixture with 4 sweet peppers and 1 hot red pepper, minced. Cook, stirring constantly for 10 mins. Seal in sterilized jars. This is delicious on toast and with cold meats.

TOMATO SOUP FOR WINTER USE

1 basket tomatoes, 4 large onions, 2 bunches celery.

Wash and cut up tomatoes, but do not peel. Peel and slice onions. Wash and cut celery, including the leaves. Boil all together until tender. Strain. Add:

2 teaspoons salt, ¼ tsp. red pepper, ½ cup sugar, ½ cup flour, ½ cup butter.

Melt butter and add flour, sugar, pepper. Add to first mixture. Boil until thick. Bottle. Dilute with hot milk when serving.

THE QUESTION BOX

Mrs. S. G. asks how to process apples for pies and desserts in quart jars?

Answer: Summer apples are better made into applesauce in preference to quartered sections for pies.

The method for canning applesauce without sugar is: Prepare good quality apples and cook apple-sauce. Pour into sterilized jars, partially seal and process. Boiling water bath, 15 mins. for quarts; electric oven 275 degs. for 25 mins: pressure cooker at 5 lbs. for 5 mins. Complete seal as soon as processing time is up.

YOU & Co.

YOU AND COMPANY—you and that family you work and plan for! A small boy you'd like to send to college—a little girl who's going to have "the very best her old Dad can give her!" It's the most important thing in the world, isn't it—planning for their future! And NOW is the time to make sure those plans come true by putting up a strong, steady fight against inflation!

You and all of us must *fight* for that future by *fighting* to keep Canada's dollar sound. Unless we can keep that dollar worth a full dollar, You & Co.—along with the rest of Canada—will face inflation! That's why it's important NOW—more than ever *now*—to fight for a dollar that's worth a dollar.

Why NOW especially? Because *now* civilian goods are scarce, and money is plentiful. Now is the time to FIGHT to maintain price controls and price ceilings. We must support and urge the support of rationing. We must buy only what we need, and only at fair markets.

If we do this, we can make plans for the future as part of a Nation that is economically sound. If we *don't,* we're going to find some day that our dollar will buy only a quarter's worth of goods. And that means that dollar is only worth a quarter. This is inflation!

Up to now, Canada's controls have really worked. We've been able to prevent inflation. But we must fight now to *keep* those controls working, until the supply of civilian goods can come up to the demand! What happened after the last war must not happen again! For the sake of our children, for our returned soldiers, for ourselves let's keep up the fight against inflation.

Make this Pledge Too

I pledge myself to do my part in fighting inflation:

By **observing rationing** and avoiding black markets in any shape or form.

By **respecting price controls** and other anti-inflation measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

By **buying Victory Bonds and War Savings Stamps,** supporting taxation and abiding by all such measures which will lower the cost of living and help keep prices at a normal level.
