### *Hummel—Smale.*

The following is taken from the Liberal, of Nov. 21st, 1912, published at Portage La Prairie, Man. which refers to the marriage of Harry, son of Mr. Frean Hummel of this place:—

"The home of Mr. and Mrs. William Smale, in the west end, was the scene this morning at 8.30 o'clock, of a pretty wedding when their third daughter, Miss Grace, was united in marriage to Harry C. Hummel, formerly of Rosetown, Sask., but now of Chesterville, Ont.; the ceremony being performed by Rev. M. C. Flatt, of the Methodist church, in the presence of only the family and immediate friends.

The bride, who was unattended wore her travelling dress of blue cloth, tailor made, with hat of black beaver with brown plume. The bride, who is a Portage girl, except for a year spent in Rosetown was for several years employed on the mechanical staff of the Daily Graphic. She has a host of friends in the city and her popularity is evinced by the large number of costly and handsome gifts sent her.

Mr. and Mrs. Hummel left on the 10.10 train for Winnipeg and the east, and will take up their home in Chesterville, where Mr. Hummel is engaged in business.

### *Do It Now.*

If you want to treat yourself to a genuine bargain that will please you during 1913 and for all years to come, send a dollar to the Family Herald and Weekly Star of Montreal, for a year's subscription to that great paper, and you will also receive a copy of their new picture entitled "Mother's Treasures" size 23 by 29 inches, all ready for framing. It is the best dollar's worth to be had.

The picture, "Mothers Treasure's," will be a surprise to you. It is worthy a place in the best homes. The Family Herald and Weekly Star is known to everyone as the greatest newspaper on the Continent. One dollar cannot be better spent. Try it and be convinced.

### *Cornwall Pastor Leaves After Nearly Nine Years.*

Rev. S. Sheldon, who became pastor of the Cornwall Baptist Church ten years ago, has decided to close his work here on the fourth Sunday in December. Mr. Sheldon's actual time with the local church has been eight years, and eight months, he having been the first general superintendent of Baptist Sunday School for the province for over a year. During Mr. Sheldon's pastorate the church has advanced from a mission to a self-supporting position, with a surplus on hand. The membership has nearly trebled, while the Sunday School has more than quadrupled during his connection.

### *Short, Cheap Business Course for Farmers' Sons.*

The Brockville Business College announces a short, cheap winter course for Farmers' sons to commence Jan. 6th, 1913. This course is arranged to suit the young farmers of limited education, who are desirous of getting a little more knowledge to enable them to better transact the business affairs of the farm.

### *An Early Easter.*

Easter falls particularly early next year—on March 23. It is forty-eight years since Easter fell so early and it will be ninety-five years—2008—before it occurs on that date again.

### *Octogenariams Open Roller Rink.*

A roller skating rink has been opened in Fraternity Hall, Aultsville. The first skaters on the new floor were three octogenarians. They were Mr. Herodius Haner, aged 82; Mr. Ira Empey, aged 86; and Mr. George Gallinger, aged 88. They went around the hall several times and were perfectly delighted with the sport. They only wished they were twenty years younger, so that they could have a jolly good time this winter.

### *Youtiful Burglars Plunder Shoe Store.*

Some young boys broke several panes of glass in the rear of E. H. Liddell's boot and shoe store at Cornwall and succeeded in getting away with several pairs of boots. They had quite a number of pairs lying on the ground, ready to be carried away, when they were frightened off by the approach of one of the clerks of a neighboring store who had heard the glass break. This is the second occasion on which Mr. Liddell's store has been visited within a comparatively short time.

### *The Moral of It.*

The advertising columns of the Record is an index to the most progressive business houses in Chesterville. People who know recognize that to reach a very large class of the best purchasing public it is necessary to use the Record columns A very natural deduction is that the merchant who does not use the Record as an advertising medium does not care for the trade of those who can be reached only by the Record. Therefore the moral: Patronize the merchants who think your trade is worth while telling you about their offerings.

### *Seattle Milk Scores High At Milwaukee.*

"R. J. Elliott of Elliott, this state came within one-tenth of one per cent of carrying off the first prize for milk at the recent International Dairy Show at Milwaukee. The prize was won by Duluth, Minn., the Minnesota product having been brought less than 100 miles while the milk from Washington was shipped half way across the continent. The highest prize was won with a score of 98.5, while Eiliott's exhibit scored 98.4."

Mr. Elliott, who owns the Cedar River Stock Farm on Cedar River near Seattle Wash., has for many years taken a keen interest in dairying, his object being to put a strictly pure product on the market. A year ago he missed getting the silver medal by a small margin. Mr. Elliott is a son of the late Wm. and Hanna Elliott of the Boyne, who left his home twenty three years ago, living eighteen years at that time on his farm on Cedar river, which at the present time is one of the best equipped dairy farms in the world.

### *A.O.U.W. Appeal.*

Judgment was reserved by the Divisional Court at Toronto on Monday in the appeal of the Ancient Order of United Workmen from the order of Justice Riddell granting an interim injunction restraining the order from putting into force a revised schedule of rates.

Urging a speedy settlement of the issue, F. B. Johnson, K. C., who appeared for the lodge, stated that this was imperative, as the organization was approaching bankruptcy.

It was finally agreed that the appeal take the form of a motion for judgment, providing that no matter other than filed before Justice Riddell at the first hearing was introduced.

### *Personal*

Mr. John Foster, jr. has gone to Montreal to undergo an operation for a broken nose.

Miss Beatty Boyd of Winchester, spent a few days this week with Miss Ruth Garrow.

Mr. and Mrs. R. L. Harrop of Justice, Man., are visiting Mr. and Mrs. R. Harrop of this place.

Mr. Nelson Dixon, who has lived at Islay, Alta., for the past four years, has returned and intends remaining here.

Mrs. Y. A. Riddell has returned home after spending a week in Chesterville with her sister-in-law, Mrs. C. B. Rae.—Iroquois News.

The marriage of Mrs. Margaret E. Sugden, professional nurse, of Cornwall, to John Boldick of Crysler, took place yesterday.

Mr. J. S. Craig, manager of the Bank of Ottawa, has rented Mr. John Smith's residence and moved his household goods here yesterday.

Miss Edith Dauley, daughter of William Dauley of this place, was operated on yesterday, for a broken nose at the Royal Victoria Hospital, Montreal.

The Crysler Presbyterian Congregation will hold their annual Xmas Tree on December 19. See posters.

Mr. Fred Bolster has moved into Mrs. Fulton's residence on Main street, lately occupied by Mrs. R. J. Cunningham.

Word was received here yesterday of the death of Mr. Jacob Harper at Syracuse, N. Y. The remains are expected to arrive here to-day.

When a man is nearly frozen from a ten-mile drive on a cold winter day, he will hardly stop to read an advertisement on the fence. But at home, in his arm chair with his legs crossed before a cheerful fire, reads his local paper, and while he is feeling happy and has plenty of time, picks out the "live" business men from the advertisements, and makes up his mind where he will buy on his next trip to town.

While a crowd looked on, David Johnson, a young clerk, was electrocuted Tuesday night in a show window of Henderson's men's furnishing store by an ordinary Tungsten lamp. He was endeavoring to replace a broken light and although only a hundred and ten volts passed through his system he died instantly He came here recently from Minneapolis.—Iroquois Newe.

J. W. Redmond, Fort Frances, was killed in a rear-end collision on the C. N. R. and his body was burned.

Mr. James M. Shanly, one of the best-known civil engers in Canada, died at Montreal, aged fifty-five.

Wm. L. Beatty, head of the firm of M. Beatty & Sons, Welland, manufacturers, died at the age of seventy-one.

Mrs. Peter Caughell of Niagara township died as the result of burns from a gasoline explosion while cleaning clothes.

Mr. and Mrs. Daniel Sweeney of Point Anne, near Belleville, were drowned when their motor boat was pierced by ice and sank.

### *Brockville Presbytery Meets*

The Rev. S. A. Woods was in Brockville on Tuesday and Wednesday attending the December meeting of the Brockville Presbytery. The report of the committee on Systematic Benificences was very hopeful, nearly all the congregations within the bounds had been visited in the interests of the $1000,000.00 budget for 1912 and the outlook was hopeful that this Presbytery will raise its allocation, viz., $10,000.00. The Presbytery deliberated on the re-arrangement of several of the pastoral charges in order to save men and money. Two commmittees, one for the Eastern part of the Presbytery and another for the Western part, were appointed to canvas the whole situation and bring in a report at the March meeting.

### *The Piano Contest*

That there may not be on the part of anyone absolutely any misunderstanding concerning the contest for the Mozart - Heintzman Piano, I wish once more to emphatically state that the lines clearly outlined in the initial announcemrnt will be strictly adhered to until the end, viz:

Only individuals will be recognized as contestants. Any arrangements made by them or others to secure votes is entirely outside my jurisdiction and I will not be held in anywise responsible for them.

The votes will be registered and counted under my personal supervision, and the utmost care will be taken in this matter.

The person receiving the highest number of votes at the completion of the contest will be awarded the piano while the other gifts will be disposed of according to the respective positions of the next highest in order among the various competitors.

### *Missionary Society Meet*

### *Cornwall Citizens asks Help to Find Young Boy.*

His Worship Mayor Chisholm has been asked by Mr. Henry Lalonde to assist in finding his son, Louis Lalonde, a thirteen-year-old lad. Young Lalonde left his home at Cornwall on May 8th last in company with a blind pedlar named John Delaney, who said his home was in Iroquois. Delaney has written occasionally to Lalonde's parents, and among the places letters were dated from were Springville, Montdale, Holstein (Oct. 9th,) Mildmay (Oct. 17th), Clifford, in Wellington County (Oct 25th), and three letters were not dated. The boy left with the pedlar with the consent of his parents, who now desire that he be located and brought home. Delaney always wrote kindly. He has sent $40 to Mr. Lalonde since he left Cornwall. The parents would be glad to receive information that will lead to the finding of their son.

### *Russian Deck HandKilled At Cornwall.*

Cornwall, November 27.—As the barge Fred Marcier, west bound, was about to enter lock 19 of the Cornwall canal yesterday one of the deckhands, a Russian, whose name nobody seems to know, lost his life in an attempt to descend and place the hawser around the snubbing post. He slipped and fell between the barge and the stone copping and his life was crushed out almost instantly. He was about 25 years of age. It is said he has two brothers in Syracuse, N.Y. Dr. Hamilton, coroner, was notified, and after inquiring into the circumstances gave permission to the captain of the barge to take the remains on to Ogdensburg.

It soon earns its cost

In any soil, on any farm, the CLIMAX earns money for you every minute you use it

**Very Strong**

You can rip sod land with the CLIMAX and a 3-horse team—so it MUST be built strong! Yet the teeth won't smash if they strike a stone—their joints unlock and fly back to pass over unharmed.

Manitoba College used a CLIMAX on land rank with wild mustard; got rid of that bad weed; and grew oats 71 inches in the straw *without a weed in the whole crop!* The CLIMAX certainly does destroy weeds!

**Easy Handled**

Each pole has a tilting lever; and these, with the pressure lever — all in easy reach of operator — exactly regulate depth of cut. Teeth go right for the roots of the weeds, and rip them out of the soil.

This is the stiff-tooth cultivator that gets the weeds OUT of the soil—not merely cuts off their tops or just tickles the roots a little. On dirty land you surely need the

### *Finch Short Course.*

The Short Conrse in Live Stock and Seed judging at Finch on Thursday and Friday, November 28 and 29, was well attended by the farmers around. The dairy cattle judging was conducting by Mr. C. M. McRae of the Dept. of Agriculture, Ottawa; the horses by Mr. N. D. Mackenzie of Galt, and the seed by Mr. T. G. Raynor of the Seed Branch at Ottawa.

On Thursday and Friday afternoons there was quite a large crowd present in the commodious tent which Mr. E. P. Bradt, district representative and his assistant, Mr. R. L. Vining had erected for the demonstrations.

The class of cattle and horses used at the demonstrations was of an unusually high order and were loaned freely for the judging. The purebred Holstein cows came from the Allison Brothers' Stock Farm at Chesterville. One of them was a beauty for which $800 had been refused, which gave last year under official list, 13,500lbs of milk; and the other had a record of 10,000lbs. The third to make up the class was a pure bred cow owned by Mr. A. P. McLean of Finch. The Allison stock were placed 1st and 2nd.

The Ayrshire class was formed by three pure bred cows the property of Donald Henry of Berwick.

The light horse class consisted of a hackney gelding belonging to G. W. Bogart, Chesterville; a hackney mare from the Allison Bros.' Stock Farm and a roadster belonging to Mr. J. A. McQuaig, Finch.

In the heavy class were two splendid imported Clydesdale mares from the Allison Stock Farm, Chesterville.

Mr. T. G. Raynor gave a lecture on seed growing.

### *Biggest Woman In World Dies in Montreal Asylum.*

Montreal, Nov. 28.—Justine Massen, who weighed seven hundred and eighty pounds, died to-day in St. Jean de Dieu asylum. She was the biggest woman in the world, and a few years ago was a familiar figure on the streets of the city. Her mind became affected, however, and she was taken in charge by the "Assistance Publique." During her stay in that institution her exploits became famous. She was so big and so strong that in her fits of insanity she used to break down the walls of the rooms in which she was enclosed, and it was finally found necessary to build a special house for her outside the main building.

Many incidents are told of her life before entering the asylum. On one occasion she caused a sensation at Bonaventure Station by insisting on getting into a victoria to be driven to her home. She got in, but the carriage had not proceeded very far before it broke down. She then took a street car, but could not get through the door, and had to stand on the back platform, blocking the passage so that no one else could get in.

On another occasion she was arrested, and an attempt was made to take her to the police station. Four policemen from nearby beats were unble to handle her, so the reserves were called over, and it took eight policemen to effect the arrest.

A meeting of the Continuation school board was held Saturday afternoon when a site for the new school building was chosen on the farm of Mr. Geo. Quart, south of the town. The members of the board were all present. On motion of Frank Elliot and M. Bailey, the board decided to desist from the the notices of intention to acquire land from Mrs. M. A. Parker and from the award of arbitrators in reference thereto as provided by statute, and the secretary was instructed to notify all parties concerned in writing On motion of M. Bailey and J. A. McIntosh, the board accepted the offer of Geo. Quart for a school site comprising five acers fronting on St. Lawrence street, beginning at Mr. Quart's present driveway and extending to Mr. Davidson's line and running easterly the required distance to make five acres, the price for the same to be $2,000. When the question came to a vote Mr. John McCormick was in the chair Messrs N. W. Beach, F. Elliot, M. Bailey and J. A. McIntosh voted for the motion. Mr. N. G. Moodie voted against preferring a site on Mr. Davidson's property, while Mr. J. A. Campbell abstained from voting altogether.—Winchester Press.

### *Farmers' Institute Appoint Officers*

A special meeting of the Dundas County Farmers' Institute was held at Winchester on Monday, Dec. 2nd, for the purpose of appointing a successor to the late J. P. Fox in the office of secretary-treasurer.

On the meeting being called to order by the president, Mr. Josiah Render, it was moved by Mr. J. McCormick, seconded by Mr. Andrew Kennedy, that Mr. W. H. Casselman be sec. pro tem.

On motion of Mr. H. Marquette, seconded by Mr. Arthur Christie, the minutes of the last meeting held at Winchester Springs, on June 13th, 1911, were adopted.

The report of the audit made in June, 1912, was read and on motion of Messrs. Mullholand and Marquette; adopted. This report showed a credit balance of upwards of $350.00.

On motion of Mssrs. Marquette and Christie the old directors were re-elected, except in the case of W. J. Carlyle and J. S. Kyle who, having moved west, were replaced by Mr. Patrick Kirby and Thos. McGregor.

Moved by Joseph McCormick, seconded by Mr. Marquette, that Andrew Kennedy and E. P. Bradt, Dist. Rep. of Dept. of Agriculture, be appointed to audit sec.-treas. books to date and to make transfer of moneys and papers, & acc., to the new sec.-treas.

Moved by Hugh Marquette, seconded by Arthur Christie, that the secretary prepare a draft of a resolution expressive of the deep sense of ioss which the members of the Institute feel in the removal of the late Mr. J. P. Fox, who had for so long a time filled the office of secretary-treasurer of the Institute with marked ability and varying faithfulness and integrity, and of our heartfelt sympathy with his widow. And that the sec. present said draft at a future meetiug of the directors for their approval, whereupon the said resolution be published in the press of the county and a copy to be sent to Mrs. Fox.

On motion of Messrs Marquette and Christie, J. McCormick was elected president of the Institute, and on motion of Messrs. McCormick and Marquette, Mr. Mullholand was elected vice-president.

On motion of Messrs Marquette and Peter McIntosh, Esq., Mr. W. H. Casselman of Chesterville, was appointed sec.-treas, of the Institute.

### *Died From Exposure Walking in Her Sleep.*

Brockville, Nov. 28.—Getting out of her bed in what is presumed to have been a period of somnambulism, Miss. Louise Moore, thirty-five years of age, daughter of Fredrick L. Moore, a prominent farmer of Elizabethtown, met a terrible death early yesterday morning.

As she did not answer the call for breakfast, investigation was made, and tracks in the snow led to the finding of her body in a field nearby.

She was attired in her nightdress, with but one stocking on and the other in her hand. Dr. Hart of Athens was called, and found that death was due to exposure Her father, four brothers and one sister survive.

BEFORE TREATMENT

Peter E. Summers relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the NEW METHOD TREATMENT and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

# DETERMINING THE VALUE OF A COW

In conversation with a dairy farmer recently he stated that he did not need scales or tester in weeding out and improving his herd because he knew the cows which filled the milk pail. The facts are that as a rule the cows producing the largest quantities of butter fat are those which produce milk in liberal quantities, says the Kansas Farmer. However, this is by no means a certain guide as to the value of the cow. For example, one cow might fill a ten quart pail night and morning and yield 1.2 pounds of butter fat per day whereas another cow might fill a ten quart pail three-fourths full night and morning and produce 1.5 pounds of butter fat per day. The difference between the test of the milk and the two cows in this instance would be that the milk of the first tested 3 per cent fat, whereas the milk of the second cow tested 5 per cent fat—not unusual differences between cows. When the milk is not actually weighed the owner might delude himself also as to the comparative amounts of milk given.

This is a crude but nevertheless fairly accurate example of how the cow owner may be fooled unless he uses

Lady Viola, imported from the island of Jersey by J. B. Haggin, ranks among the famous cows of the Jersey breed. She inherits quality and excellence from a splendid line of ancestry. She is the dam of Noble of Oaklands, Viola's Golden Jolly (which sold for $13,000), and is a fine type of the breed. She is a great butter producer and has three daughters with butter records on the island of Jersey.

the scales and test. There is one other point in this connection, and that is the economy with which the two respective amounts of milk are produced. The cow yielding the most butter fat and giving the smallest number of pounds of milk may require more feed in the production of that milk than the cow giving the larger amount. One other point, too, is that one cow may milk more months during the year than the other cow. It is apparent, therefore, that the only accurate way of knowing cow value is by employing accurate means of determining the accurate production and value of the cow's output.

Some lessons taught by the scales and test are that it is impossible to gauge with any degree of certainty the value of individual cows without their use, and that a cow which is a persistent milker with a fairly high test—although giving but a moderate amount of milk at each milking—generally is the largest yielder.

### Feeding Tankage to Swine.

The use of tankage for swine is a comparatively new thing. The experiment stations of Ohio, Indiana, Iowa and Nebraska have done special work in feeding tankage to swine. At the Nebraska station a combination of about one-half part tankage and ten parts silk corn gave an average daily gain of one and a half pounds per day. Three hundred and twenty-one pounds of this feed were required to make 100 pounds as against 416 pounds of soaked corn for the same gain. At the Ohio station they secured a daily gain of one and a half pounds for tankage fed hogs following steers compared with those not fed tankage. One-third of a pound of tankage was the amount fed.

There is no better food for fattening hogs than corn, but corn alone as an exclusive diet is not desirable. The use of tankage adds greatly to the usefulness of the corn and makes better pork.

### Handling the Bull.

"As a rule the bull hands back to a man on the points of his horns the exact treatment accorded him at the points of the pitchfork prongs," pointedly says Dean Shaw of the Michigan Agricultural college. "The club has no place whatever in the handling of a bull, and the same is also true of boisterous conduct of any kind on the part of the attendant. Quietness and gentle, but firm, treatment are essential to the proper training of the bull. Never undertake to make the animal do anything without accomplishing the same. If there should be any question about the result do not undertake it. The man who is afraid of a bull should not attempt to manage him, as the bull will detect the first evidences of fear and begin to take advantage at once, finally becoming ungovernable. On the other hand, no man should pursue foolhardiness and expose himself to danger unnecessarily."

### *Carp Visited By Disastrous Blaze.*

All that remains of Carp's leading general store conducted by T. E. Argue, is a few smouldering embers. Fire started upstairs in the storehouse in the rear of the building where the reserved stock of goods is kept.

Among the stock was a lot of matches and it may be thar they were ignited by mice.

The alarm was given and within 15 minutes the entire building which was an old frame structure, with frame additions, was a mass of flames.

Large additions had recently been made to the stock for the Christmas trade. The post office was also located in the building but all the mail and papers were saved. The office is now located in part of the Dooley House.

Mr. Arguire s loss will probably total $25,000, including buildings and stock, with about $15,000, insurance.

The adjacent buildings, including the district office of the Ontario department of agriculture, E. J. Hughes' brick residence, H. Hawkshaw's butcher shop, and Joseph Rishaur's residence, had narrow escapes and were only saved by the heroic efforts of the villagers who formed themselves into a bucket brigade and did excellent service.

### *Hot Shot For Ottawa Men.*

Ottawa, Dec. 2.—Judge Gunn's report on the recent waterworks investigation was received by the City Council to-day. It places the blame for the typhoid epidemic in strong terms on the Waterworks Committee, Board of Health, City Engineer Kerr and Medical Health Officer Shirreff. The Waterworks Committees from 1908 to 1912 are censured for failnre to give their duties the consideration warranted by their importance. The Board of Health is held responsible through failure to undertake earlier investigation of the polluted water situation; Engineer Kerr is held responsible for the "dismal failure" of the new waterworks intake which broke and allowed sewage to enter the city's drinking supply. Dr. Shirreff is characterized as a man incapable of filling his position. It is recommended that the City Engineer be removed from all connection with the waterwork affairs, that the latter be placed under a commission and that the Board of Health resign in a body. The City Council will discuss the report to-night.

### *Demurrage Rates To Be Increased.*

Ottawa, December 2.—The Dominion Railway Commission this afternoon issued an order granting the application of the Canadian Pacific Railway, Grand Trunk Railway, Canadian Northern Railway, and Michigan Central Railroad increase their demurrage on freight cars from $1 per day to $2 and $3. The increase rates, however, will be allowed only from December 15 of this year to March 31 of next year. The railways asked for $2, $3, and $4 for the first, second and third day respectively, after the free time allowed, but the $4 charged was not sanctioned by the board.

Henceforth $2 will be assessed by the railways for the first twenty-four hours after free time and $3 for each succeeding day. The order, however' is not to apply to cars held in transit at stop-over points under published tariffs which have been filed with the board. A number of reasons are given and some very important statements are made about the question of car shortage, in the judgment preceding the order issued by Assistant Commissioner D'Arcy Scott, who heard the case in the absence of Mr. H. L. Drayton K.C.,

Montreal sold cattle to Chicago destined for Bulgaria. Duty paid was 35 per cent.

Hugh Watters, a well known resident of Amherstburg, fell dead of heart disease while trying to drive an unruly calf into the barnyard.

Senators Roche, Campbell and Domvill spoke strongly for Canadian-built navy and against a mere money contribution to Britain's navy.

Stephen Kyoshk, the young walpole Island Indian accused of murder, was released on bail by orders from Ottawa, and will appear at the Spring Assizes.

M. J. Davis has been appointed inspector of weights and measurs at Brockville.

### Dairy Essentials.

That the dairy may prosper two things are necessary—the right cow and the right man. Unfortunately neither can be picked up by the carload. You have to breed both of them. It takes years of training to make the best dairyman, and it takes years of breeding and selection to develop the best cow. When you find a man who has behind him years of training in any line there is no trouble about his making money in his business and no trouble about finding a place to work profitably if he wants to sell his services to some other man. When you find a cow that is capable of producing a large yield of butter she is worth more money to the dairyman than the average man can understand. These thoughts are from an address by Dean Burnett of the Nebraska Agricultural college before the Nebraska Dairyman's association.

### Which Class?

At the Wisconsin state fair visitors were arrested by the sign, "In Which Class Are Your Cows?" over four piles of butter, one of which represented the yearly product from an exceptionally good cow and included thirteen sixty pound tubs of butter and twenty pounds besides. Next was a pile of six tubs for good cows, three tubs and twenty pounds for the average cow and two tubs for the star boarder, who produces eighty pounds less than enough to pay her feed.

### *Holt—Fisher.*

Iroquois News;—"A pleasing social event took place at the home of Mr. and Mrs. Wm. A. Fisher at high noon, Wednesday, Nov. 27th 1912, when their youngest daughter, Katharine Beatrice, was united in marriage to Stanley A. Holt, accountant in the head office of the Molsons Bank, Montreal, in the presence of only the immediate relatives of the family. Rev. Mr. Bailey performed the ceremony, using the beautiful Anglican service. The bride, who was given away by her father, was handsomely attired in a tailor-made travelling suit of navy Blue whipcord, with velour hat to match, and carried an exquisite shower boquet of lily of the valley and cream rosebuds, presenting a charming appearance, as indeed she is one of Iroquois' most beautiful girls, of which Iroquois is famous. The bride was attended by her sister, Miss Florence Fisher, who was gowned in a very pretty suit of tan paillette silk, with black picture hat and carried yellow chrysanthemums. The groom'a best man was John Cowan, of Ottawa. Miss Flora Fink played Lohengrin's Wedding March as an accompaniment to the pleasing ceremony. After congratulations and a sumptuous dejeuner, the young couple took the 3 40 p. m. train for Montreal and the east on their honeymoon. Among the beautiful and costly gifts received by the bride was a cheque from her father for $1,000,00; a handsome Persian lamb muff and stole from the groom; Betty Brown mounted silver tea service from the Molsons Bank head office staff, Montreal, and a mahogany drawing room table from Mr. Holt's roommates, Montreal. The groom's gift to the bridesmaid was a set of sterling silver sugar tongs; to the groom a sterling silver match case, and to the pianist a sterling silver butter knife. After the honeymoon Mr. and Mrs. Holt will take up housekeeping in a handsomely furnished suite of rooms in Westmount, Montreal's fashionable suburb, carrying with them the best wishes of their many friends. in which The News joins. A large number saw them off at the statlon, and as the train wafted them onward to their new life beyond the bride threw out of the window her pretty bouquet of flowers in loving farewell to home and friends."

Electors of London city and township are indignant over the light fine on a hotelkeeper convicted of selling whiskey to a fifteen-year-old girl and other minors.

### *Trinity Church Burglarized.*

Trinity Church at Cornwall was entered some time Sunday night or early Monday morning and a small iron safe taken from the Vestry to the basement, where the lock was smashed. The burglar or burglars was disappointed, however, as nothing is kept in the safe except a book, in which the collections are recorded each week. The drawers of the desk in the Vestry were ramsacked and the contents strewn about the floor. Fortunately a cupboard at the back of the desk was not opened and the silver communion service was therefore not touched.

A young man who was in town for a few days, giving his name as Marshall Durand, is suspected of committing the burglary, He boarded at the same place as the sexton, Ernest Bickley, and had become friendly with him. He was about the church on Sunday and it is thought that he may have seen the safe and concluded that the collection was kept in it over night. He disappeared on Monday morning and it was found that he had taken two overcoats, belonging to young men boarding at the same house. Seven dollars in money was missing from Ernest Bickley's pocket, and it is supposed that Durand took it.

Chief Smith was notified of the theft of the coats and money on Monday morning and he learned that Durand had taken the early train for Montreal. He communicated with the police of the city and they are trying to locate the thief. The burglary at the church was not discovered until Tuesday, when the chief was notified, and further steps were taken to capture the young man.

Durand worked for a few days at the Stormont Mill. He is a well-built, athletic young fellow and posed as a professional wrestler.

# "YOU'LL SUFFER ALL YOUR LIFE"

## That's what the Doctor told him

## "Fruit-a-tives Cured Him

CHESTERVILLE, ONT., Jan. 25th 1911

"For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life.

I doctored with different medical men and tried many advertised remedies, but none of them suited my case.

Nearly a year ago, I tried "Fruit-a-tives". I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured.

I give "Fruit-a-tives" the credit of doing what the doctors said was impossible.

I am now seventy-six years old, and in first class health"

GEO. W. BARKLEY.

In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-tives".

This famous fruit medicine acts directly on the kidneys—healing and strengthening them—and ridding the system of the waste matter that poisons the blood.

50c. a box, 6 for $2.50, trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

### *Long Sault Dam.*

Montreal, Dec. 3.—Mr. J. Wesley Allison, the indefatigable opponent of the Long Sault dam scheme, was in Montreal last evening en rout to Washington for the opening of congress. Mr. Allison stated that there was no possibility of the adoption of the United States Aluminum Trust's proposals, at the present time at any rate.

"The Humphries bill," said Mr. Allison "has to be taken up by congress first, and as this measure provides for a complete study of the water powers of the nation before any more concessions are granted, it will be several years at least before the Long Sault dam can be taken up seriously.

"So far as Canada is concerned there is little probabilty that the present government at Ottawa will recede from the position taken when the Conservative party was in opposition in spite of some published statements to the contrary."

# CHRISTMAS APPEAL

TO THE

# PEOPLE OF ONTARIO

FOR

## The Hospital for Sick Children

Dear Mr. Editor:—

It would take more space than you can spare to tell of the good work done by the Hospital for Sick Children, Toronto, for the sick and deformed children of this Province. Let me, in a few words, tell you of the steady growth of this Hospital.

In the year 1875 there were only six cots and beds, one nurse, 44 in-patients and 67 out-patients. In 1912 there were 250 cots and beds, 64 nurses, 1,294 in-patients and 17,862 out patients.

During the 37 years of the Hospital's existence, 19,370 in-patients have been admitted, and 133,724 out patients have been treated, a total of 153,094, or an average of 4,138 per year. Of the 19,370 in-patients, 5,495 were from places outside of Toronto. 9,644 of the total in-patients were cured, and 5,711 were improved. This is a great record.

Of the 1,294 in-patients last year, 341 came from 218 places outside of Toronto, so that the Hospital is not a local, but a Provincial Institution.

In the Orthopedic Department in 37 years, nearly 700 boys and girls have been treated for clubfeet, and about 600 were corrected. Half of these came from places outside of Toronto, so surely we have a fair claim for help from the people of this Province.

The Corporation of Toronto grants $25,000, not only for the city children, but towards the maintenance of all patients in the Hospital, and the citizens of Toronto donate an average of $15,000 annually to the funds of the Hospital.

Will you, kind reader, think of what your money will do? It helps to restore health and strength, and gives sound limbs and straight feet to crippled boys and girls.

Remember that your pocket-book must be the Hospital's friend, if the Hospital is to be the children's friend.

Remember that Christmas calls you to open the purse of your kindness to the Hospital, so that the Hospital may open the heart of its help to the children.

Remember that your money can help the Hospital build a bridge over which the feet of little children may travel on the journey from sorrow to joy, from sickness to health—aye, from death to life.

Please send a dollar, or more if you can spare it, to Douglas Davidson, the Secretary-Treasurer of the Hospital, or J. Ross Robertson, Chairman of the Trustees, Toronto.

Professor Alexander Graham Bell claims, with Casey Baldwin, of Toronto, to have invented a hidrodrame able to make fifty miles an hour.

### *277 Licenses at Stake in January.*

Probably the greatest fight in the annals of prohibition in the province of Ontario will be waged on election day. The revised list handed to the Citizen this morning shows that there are no fewer than 277 licenses in danger. The "dry order" will be voted upon in one city twenty-one places are voting on a repeal, making one hundred and one contests in all. In the repeal wars six villages and nine townships will vote. The temperance workers have brought on contests to secure local option in eighty contests out of 260 that were open to their efforts. The other interests have brought on repeal contests in twenty-one municipalities out of 240 which they might have attacked. The large places with the greatest number of licenses in the fight are: Peterboro, 24 licenses; Sarnia, 12; Pembroke, 13; Ingersoll, 7: North Bay, 9; Lindsay, 9; Carleton Place, 6; Clinton, 6; St. Mary's, 8; Whitby 5; Wingham, 5; London township, 12; Normanby township, 5; Stephen township, 5; and King township, 5.

The repeal contests as announced this morning are: Towns—Alnonte, Galt Chesley, Renfrew, Strathroy, and Owen-Sound. Villages—Acton. Dundalk, Finch, Iroquois, Tweed and Wellington. Townships — Adelaida, Bentink, Downie, Eastnor, Lob, Mclean and Ridout, Markham, Tilbury West and Tuckersmith

### *First Prize Doll.*

Send us your name and we will send you the cards to sell. When sold send us the money and we will send you the doll with all charges prepaid. Homer-Warren Co., Dept. 166, Toronto.

### *Two Children Drowned.*

Ottawa, Dec. 1—Harold, aged five years, and Albert, aged three years, the two only children of Lewis J. Turner, a Grand Trunk Railway engineer, residing at 59 Waverly street, broke through the ice and were drowned in the Ridcau Canal Saturday afternoon. They wandered down to the canal, a short distance away from home. The body of the youngest was recovered with grappling irons. City Diver Ben Rouleau, who today commenced a search for the body, had a narrow escape, his helmet filling with water shortly after he went down. But for the quickness of those on the air pumps in hauling him to the surface he would have succumbed in a few minutes in the icy water.

Up to the last reports the eldest Turner boy's body has not yet been located.

### *Raise Licenses Instead of Local Option Fight.*

There will be no local option contests in either the town or township of Cornwall at the municipal elections in January next, but a by-law will be submitted to the ratepayers of the. town for an expression of their opinion as to the advisability of increasing the shop and hotel licenses from $450 to $650 per year. Some time ago the temperance workers in the township of Cornwall decided to ask the Council to submit a local option by-law, but the idea has been abandoned for another year, during which time it has been decided to carry on an educational campaign.

### *Hockey Skates Free.*

A pair of "Starr" Hockey Skates, double enders, with puck stop, guaranteed strong and rigid, given free to any boy and girl who will sell 30 sets of our Beautiful Xmas Post Cards at 10 cents a set. Send us your name and we will send you the cards to sell. When sold send us the money and we will send you the Skates with all charges prepaid. Homer-Warren Co., Dept. 166 Toronto.

### *Ice Cuts Motor Boat; Husband and Wife Lost.*

Belleville, Ont., Nov. 29—Two lives were yesterday sacrificed in the Bay of Quinte, the victims being Mr. and Mrs. Daniel Sweeney, aged respectively forty-four and forty years. The couple were proceeding from Point Ann to the city in a motor boat when the craft ran into a cove which was frozen over. The ice cut the boat so badly that it filled and sank and Sweeney and his wife were drowned. Mrs. Sweeney's body was recovered, but that of her husband has not yet been found.

George W. Vale of Waterloo succumbed to blood-poisoning from a scratch on the finge.

Mrs. F. Chalk of Port Hope expired of heart failure on the steps of the Methodist church.

Miss Louise Moore of Elizabethtown walked out while asleep into a snowy field in her night dress and perished from exposure.

### *The Live Stock Industry Of Canada.*

Last February there were brought together at Ottawa from the various provinces upwards of one hundred men officially delegated to represent forty-four Live Stock and Record associations, besides a larger number of interested persons to consider and discuss the various features of the live stock industry. This gathering which constituted the third general convention of the National Live Stock Association spent two days each of three busy sessions upon its programme which included reviews of the conditions of the live stock industry prevailing in the respective provinces, interprovincial trade in pure bred live stock, the beef cattle industry in the east and in the west, the dairy cattle industry, the development of the sheep and swine industries, the market for Canadian horses, transportation of live stock, stallion legislation, the chilled meat trade, bovine tuberculosis, and other business.

A full report of the addresses and discussions that took place has been printed for the general agricultural welfare of the Dominion. Among many other striking things it was brought out that our export cattle trade is rapidly approaching the vanishing point, that South American tinned beef is being used all the way across the Dominion, and that we are exporting very little mutton and importing a great deal, while millions of pounds of pork are each year imported into Canada.

This report which constitutes a book of 130 pages embodies a fairly complete review of the live stock situation in Canada and offers many wise suggestions for its much needed improvement The distribution of this work is in the hands of the Publications Branch of the Department of Agriculture at Ottawa to whom applications for copies should be sent.

### *Must Show Fifty Dollars.*

Ottawa, Nov. 21.—After December 1st the immigration department's regulation requiring that every immigrant shall be insured against being a care on the state during the winter months, by having in his possession upon landing on Canadian soil, the sum of $50 in cash will come into effect in connection with all classes of immigrants. The department's provision against vagrancy, as a matter of fact, came into effect on Nov. 1st in the case of all but British immigrants with sure prospects of positions. In connection with the latter the time was extended for one month by special request of the authorities on the other side. After December 1st the regulation will be enforced upon all clsases and the $50 cash insisted upon.

In the summer months, owing to the great demand for men and the consequent certainty of work for the newcomers, no "property qualification"-whatever is insisted upon.

### *Eight-Hour Day In Store.*

Montreal, Mov. 27,—Commencing on Saturday morning next, the principle of the eight-hour business day is to be adopted for the first time in the history of Canadian departmental store administration by a local firm. The new arrangement has been specially decided upon to reduce the long working hours of the 1,400 young women and girls employed in the establishment.

### *Suspended by Current.*

Smith's Falls, Nov. 28—The little daughter of Dr. Murphy had a marvellous experience with electricity last night. She was standing on a chair using the telephone, and in getting down put her hand against the wall. An electric light wire ran down the wall just where she put her hand, and this wire it seems was overcharged from a power wire having fallen on it outside. The little girl's body made a circuit between the light wire and the telephone wire, and when Dr. Murphy, who was sitting near by, heard the unusual buzzing he went at once to ascertain the cause. He found the child suspended in the air with the chair knocked from under her, and she was perfectly rigid. She was all but electrocuted and her arms were badly burned, but it is thought she will recover.

### *A Fatal Pitch in at Morrisburg.*

Friday morning at 12.15, a fatal accident occurred on the G. T. R. at Morrisburg, and one that has caused deep and unfeigned regret in Brockville for a well known and most highly esteemed resident, was called in the twinkling of an eye so to speak into eternity.

The victim was Mr. Wilson W. Bramley, one of the most reliable and skilful engineers in the Grand Trunk Railway. He was coming west in charge of engine No. 1274 having left Montreal some hours earlier. All went well until Morrisburg was reached when the train of which he was the engineer was taking siding at that place and in doing so the air brake went into emergency and the train was stopped with a portion of it extending over on the main line. A flagman was at once sent back to warn trains following but owing to the dense fog prevailing, A. Jacques the engineer of No. 91, a fast freight was unable to see the signal for the night was one of the most difficult to forsee a warning experienced this year. So soon as the brakes were applied the pin holding the knuckle of the engine, and the drawbar of the first car was severed, and Engineer Bramley, and the Conductor C. Laviolette endeavored to repair the injury. They were at work between the engine and train when No. 91 hove along and pitched into the rear end of the train. While the impact did little damage to caboose it struck, only injuring the rear of the van but slightly, and breaking the engine pilot, the crash was sufficient to push the heavy train ahead, and Engineer Bramley, who was working between the engine and first car, and directly in the alignment with the drawbar and the knuckle of the engine was caught and receiving fatal injuries died almost instantly. Conductor Laviolette who was with him escaped. He instructed the fireman to pull ahead, and the dead body of the unfortunate engineer was tenderly conveyed to the station. Medical aid was at once called, but life was extinct. The force of the blow eaught the dead engineer in the abdominal region, and the laceration was such that his life was extinguished at once.

### *Indian Bonaparte Is Accused of theft.*

Cornwall, November 27.—John Bonaparte, an Indian from St. Regis, is in jail here having been remanded on Monday by Police Magistrate Davis on a charge of stealing a suit case belonging to Bertram Wintergouin, an Englishman, who was travelling on the Moccasin train from Montreal to Prescott on Saturday night. Bonaparte boarded the train at Lancaster, and when it reached Cornwall he got off taking the suit case with him. He claimed in court that he had been asked to carry the suit case from the train train. The magistrate did not take kindly to the story, and remanded him for a week. The suit case and contents were valued at $50.

### *The Herald Says This is Like Winchester.*

Ogdensburg Advance:— The road from Ogdensburg to Canton is being resurfaced. Two surface coatings have been destroyed since the road was constructed three or four years ago. The first was simply water-bound macadam and the second was with oil. Under present traffic conditions this work lasts but a year or two. On most new work an asphalt surface is supplied. This of course is much better but it is doubtful if it will have a long life. We think that engineers are coming to the conclusion that a brick paving is the cheapest in the long run. We do not know if there would be any limit of wear to the vitrified brick highway. Repairs would be a neglible figure and from twenty-five to fifty years would not be an extravagant period to estimate between resurfacing. While the cost would be perhaps fifty per cent. more, its freedom from repairs would make it vastly cheaper in the end.

"Browns Nurseries are famous for their fine Peach, Apple, Plum and Cherry trees. They have the best nursery soil in Canada and are the largest growers of trees in the Dominion. All scions and bud-sticks are cut by one man and he has been in their employ many years, so no mistakes are made by using wrong scions or buds. Send for catalogue or write for agency, as they have some unoccupied territory in your county. Brown Bros., Browns Nurseries, Welland Co., Ont.

Mr. and Mrs. Morgan Warner have the sincere sympathy of their numerous circle of friends in their sad bereavement. Their little child passed away on Sunday, at the home of its grandmother at Newington, where Mrs. Warner had been staying for a few days. The death of the baby has been a severe shock to the parents. The little one was buried at Newington on Wednesday.—Russell Leader.

The Sacrament of the Lord's Supper will be dispensed in the Presbyterian Church on Sunday morning next. Preparatory service being held on Friday at 2.30 p. m.

There will be no skating in a covered rink at Morrisburg this winter, because the famous old rink has gone out of existence. By the snowstorm on Sunday and Monday a week ago, it was undone. Monday evening shortly before six o'clock the east half collapsed under the weight of snow. It fell flat with a loud report. Mr. Harry Lamble had spent part of the after noon in the rink, getting it ready for a season's business.

After mass in St. Mary's church on Sunday morning, there followed something not usually occurring. It was the presentation of an adress and a purse of gold to Rev. Father Keeley. Mr. John P. Gormely read the address and Mr. J. D. McDonald placed in the young clergyman's hands the yellow metal—amounting to upward of $100. A fitting acknowledgment was made by Father Keeley, who at noon on Monday entrained for Belleville.—Morrisburg Herald.

In Prescott the driver of a delivery wagon, who was delivering a load of flour at a bake shop, is out the price of a bag of flour owing to his own rashness. As he was carrying the flour into the shop, doing considerable grunting meanwhile, a little lady, who lives nearby, remarked to him that "he was making a lot of fuss over a little work" whereupon the driver told her that if she could lift one of the bags and carry it home she could have it. To his astonishment, the little woman took him at his wird and seizing a bag in her arms marched off home with it;nor would she consent to give it up when he tried to beg off.

In the annual report of the Cornwall General Hospital it was noted that the beautiful building is now without any mortgage debt and that the overdraft in the bank has been much reduced, but that if the hospital is to advance and keep up with the present standard of efficiency there must be more money forthcoming. There are now eleven nurses in the training school under the supervision of Miss H. P. Stork, lady superintendent, Miss Nellie K. Nado, assistant superintendent, and a staff of medical lecturers. In the report the hope is expressed that someone will come forth and leave a monument in the shape of a well-equipped nurses' home or a sun balcony.
