BREAKING THE TRAFFIC JAM

"Finance Minister Abbott is like the amateur cop at a busy street corner who manages to make himself the centre of a traffic jam. If he would just get out of the way, traffic would unsnarl itself and get moving again," said Joseph Lister Rutledge, chairman of the Canadian Unity Council. Mr. Rutledge was commenting on the Finance Minister's speech to the Canadian Importers and Traders Association.

"We are all in sympathy with Mr. Abbott's plea to Canadians to expand and increase foreign trade," stated Mr. Rutledge, "but the greatest brake on our foreign trade is the retention of foreign exchange controls. The instinct of the government is to prevent, and if Ottawa would just retire to the sidelines and slash away the red tape that is hamstringing our importers and exporters, we would be a lot closer to permanent prosperity."

"FARMERS OF THE FUTURE" FILMED AT STRATFORD

Sixty-three young "actors and actresses" who made up the cast of "Farmers of the Future" and who had never faced a movie camera before this summer took a bow on Tuesday at Stratford following the premiere showing of the film in the collegiate auditorium. All are members of the Junior Farmers' Association of Ontario.

Sponsored by the Junior Farmers' Association the film describes the work and aims of that organization whose members are young people between the ages of eighteen and thirty years. Produced by Imperial Oil Ltd. to help the Association in its educational program, it was presented at the premiere by J.G. Dunlop, Ontario divisional manager, on behalf of the company. The film will be available free of charge to farm youth groups in Ontario. Later it will be distributed on a national scale.

"Farmers for the Future" is a 20-minute documentary type film in sound and colour. It was "shot" by Carleton F. Wilson of Toronto mainly in Perth County, around Stratford and Mitchell. The star roles were played by Peggy Smith of Milverton, now Mrs. Wallace Knapp of Stratford, and Jack Pearson of Uxbridge. With the exception of scenes of the Royal Winter Fair and the Canadian National Exhibition the picture was "Shot" in ten days. Sometimes members of the cast were "on location" 18 hours at a stretch.

The premiere was attended by representatives of the Ontario government, Provincial Department of Agriculture, and Junior Farmers' clubs throughout the province.. The Perth County Junior Farmers' Choir of 45 voices opened the program at which members of the cast were introduced to the audience by T.R. Hilliard, assistant director of extension and secretary-treasurer of the Junior Farmers' Association. C. D. Graham, deputy-minister of agriculture for Ontario spoke briefly. At a dinner preceeding the premiere the stars of the picture were presented with radios in appreciation of their work.

GROW THE RIGHT HYBRIDS

Corn hybrids are now available which will fit into almost any area or set of conditions in the corn growing districts of Ontario, says G. F. H. Buckley, Dominion Experimental Station, Harrow, Ont. The growers want hybrids that give high yields and also reach safe maturity. To obtain the first there is a tendency for the growers in the husking corn areas to plant late maturing hybrids. In too many cases, the chosen hybrids fail to reach proper maturity with resulting lower prices for the corn when marketed directly from the picker. Too often, corn is cribbed with very high moisture content and a good deal of spoilage occurs.

More emphasis should be placed on maturity. A hybrid should be chosen that will reach safe maturity within the period between planting time and the average date of the first killing frost in the fall. Safe maturity means that the kernels have developed to the late dough stage and are well dented. Any condition which shortens the growing period, whether it be due to climate, location or because of delayed planting, necessitates the choice of an earlier maturing hybrid which will mature safely within that period.

If the crop is to be used for ensilage purposes, it is not necessary to choose a hybrid that will reach full maturity. Still, the best ensilage is produced from corn that has developed to the dough stage, for such corn will produce both succulence and grain in the ensilage.

Each year the Ontario Corn Committee issues a leaflet listing the hybrids which are recommended for the corn zones of the province. Only hybrids which have been thoroughly tested and have shown their superiority are placed on this list. The hybrids are arranged according to maturity groups and the number among or within the groups is ample to allow the grower a wide choice. The lists may be obtained from the Exerimental Stations and Agricultural Representatives throughout the provvince.

NOW IS THE TIME

"Now is the time for a more concentrated attack on tuberculosis, now that the death rate has been pushed below 40 per 100,000 for the first time in our history," Dr. G. J. Wherrett, executive secretary of the Canadian Tuberculosis Association said in commentating on the 1948 tuberculosis death rate released by the Dominion Bureau of Statistics as 37.1 per 100,000, with reductions in every province.

"While we are naturally triumphant at this indication that we are progressing it would be unfortunate, in fact, disastrous, if we were to jump to the conclusion that because tuberculosis is being conquored as a killer we will therefore get complete mastery by merely keeping on in routine fashion our present tasks.

"We have to fight every inch of the way against tuberculosis," continued Dr. Wherrett. "We must not be misled by the fact that people are being cured into thinking that tuberculosis is on the run. It is true that because we are fighting cases earlier, have more hospitals in which to treat them and can employ surgery and antibiotics, the patient and doctor have a better chance of success. Despite this there are still between 4,500 and 5,000 deaths yearly in Canada and, which should concern us more than it does, there are still thousands of people contracting tuberculosis. Even though it is not going to cost as many lives as it once did, it still costs thousands long periods in sanatorium, interrupts and upsets their plans, and where the patient is a father or mother, causes a great deal of disruption of the home and family.

"The finality of death is such that it overshadows other calamaties which in themselves are quite serious enough to warrant our consideration. There at least 16,000 persons sick in bed with tuberculosis in Canada right now and there may be more about whom we do not know. The fact that these people can't live their lives the way they want to, that some of them have to change their occupations, that they must be cared for, represents a great outlay of money and the ruin of a good many hopes", continued Dr. Wherrett.

"The best long run hope of removing these barriers to happiness is to prevent the spread of infection altogether, or get as near that point as we can," Dr. Wherrett stated, "and it is to press prevention that the Christmas Seal Sale is held every year. Every Canadian can begin preventing tuberculosis where he lives. The Christmas Seal Sale is designed to enable him to do this, for the money is spent in the community in which it is raised. The place to begin is where you are, and now is the time."

At the interment service at Brinston cemetery Mr. Emery was assisted by Rev. B. A. Adams of South Mountain.

Members of the Independent Order of Oddfellows from Iroquois, South Mountain, Williamsburg, Morrisburg, and Morewood joined with Connaught Lodge and Matilda Rebakah Lodge of Brinston to form an honorary cortege to the church and to perform the last rites at the grave.

A son of the late Lorenzo Bell and his wife, Martha Deeks, Mr. Bell was in his 64th year. Assisted by his son he was a breeder of Ayrshire cattle and conducted one of the largest dairies in the district.

He was a Past Grand of Connaught Lodge and Past District Deputy Grand Master of Harmony District, No. 51, IOOF. During the past several years, he was financial secretary in Connaught.

He was a member of the trustee board and board of stewards of Brinston United Church and for several years was superintendant of the Sunday School. He supported the Progressive Conservative policy in politics.

In May, 1915, he married Miss Florence Adams, who with three sons, John and Clifford of Brinston and Lawrence of Hamilton survive. He is also survived by one brother, Arthur, of Brinston and one sister, Mrs. Mary Herbison of Brockville.

FARM FORUM NEWS

S. S. No. 10, Winchester, Farm Forum met last Monday with 21 members in attendance. Hugh Smith acted as discussion leader. The broadcast was on "Canadian Education" and was much appreciated.

There is a growing feeling that the Federal Governent should assist the provinces in educating school children. Why? In Canada, our schools are free, children do not have to pay to attend; the poor are as welcome as the rich. All children are equal but chances for a good education depend greatly on where you live, in town or in the country and in which province. In Prince Edward Island the yearly cost of education per pupil is $45.00, in Ontario, $115.00, British Colombia, $116.00. Teachers salaries vary greatly. In P. E. I. the average salary is $816.; Ontario, $1514., British Colombia, $2042. Good teachers naturally apply for the schools where the salaries are most attractive. This does not tend to give every Canadian child an equal opportunity.

The Forum members agreed that if provincial leaders would change their tactics and agree to Federal arrangements, a plan giving Federal aid to provinces and establishing a minimum standard for teachers and pupils in all provinces, could be maintained. But if our provincial leaders still insist on the recommendations of the good old B. N. A. Act, then the better scheme would be to have the Federal Government give financial aid and leave the provinces with full control over education.

S. S. No. 10 Forum meets next Monday at the home of Hugh Smith, with John Sutherland as convenor. Why not start a Forum in your community or school section and enter in on these discussions? You will be well repaid for the effort.

MEETING HELD IN WINCHESTER OF AUXILIARY OF HOSPITAL

The first meeting of the new year of the District Memerial Hospital Auxiliary was held in the Town Hall, Winchester, on Nov. 3rd at Eight o'clock with the new president, Mrs. Raymond Summers presiding. She will be assisted by Mrs. C. R. Robinson as secretary. Mrs. Robinson was the very able and energetic president last year, who with skill, tact and hard work brought the Auxiliary through a most successful year.

Mrs. Summers will also be assisted by Miss Nora Elliott as treasurer. Miss Elliott looked after the finances of the Auxiliary last year in a very capable manner. She presented the members of the Auxiliary with a copy of the financial report which showed how the money was spent. She is to be congratulated.. With these two officers and the directors of the different units, Mrs. Summers is off to a good start.

After a few preliminary remarks by the president, the meeting was opened with the singing of the National Anthem, Mrs. Howard Fetterly at the piano. The secretary read the minutes of the last meeting and the correspondence. The treasurer gave her report and reported a balance on hand of $413.02.

The president called upon Miss Wilson to give her report. Miss Wilson, superintendent of the Winchester District Memorial Hospital, had been sent as a delegate from the Hospital Board to attend a convention of the Ontario Hospital Auxiliary held in Toronto on Oct. 31, and Nov. 1 and 2. She gave a very interesting report and stated that the retiring president of the Ontario Hospital Auxiliary, Mrs. Harkness, spoke in very complimentary terms of the work done by our District Memorial Hospital Auxiliary.. Miss Wilson also gave a report of the Auxiliary units who had donated food and money to the Hospital. They were: Elma. Ormond, Chesterville, Morewood, Russell, Harmony church, Winchester Presbyterian church, Chesterville Presbyterian church and Winchester Springs United church.

Mrs. Rennison, convenor of the Ways and Means Committee reported that the Marathon Bridge Club had been organized and that tickets were being sold on a Mix-Master. Tickets could be purchased from Auxiliary members and the draw would take place the day before Christmas.

Mrs. Neil Hutt, convenor of the Sewing Committee, reported that there had been such a small amount of sewing required that it had been done by the Winchester Unit.

The president called on the convenor of the Auxiliary Library Committee. She reported that the small bookcase was completed. The secretary then read a letter from Morewood Unit which stated that they had a number of books to donate to the Hospital library. The Library Committee will be pleased to accept them.

Members from ten Auxiliary Units answered to the roll-call.

The meeting was adjourned.

Wished To Share His Delight

One night at the theatre a man who had dined rather too well stood up in his seat in the middle of the play and cried: "Is there a doctor in the house?"

The actors faltered slightly, but the play went bravely on.

A moment later, the same man, still standing, repeated his question.

At this second call another man rose and said: "Yes, I'm a doctor", whereupon the other nearly finished off the performance by asking in a tone of great good nature: "How do you like the show, Doc?"

It wouldn't hurt so much to become angry except that, for some reason, anger makes your mouth work faster than your mind.

Church News

MOREWOOD UNITED CHURCH

The service on Sunday morning at the Morewood United Church was conducted by the minister whose message was based on the Old Testament Parable of "The Poor Man's Little Ewe Lamb." The text, "Thou art the man,"2 Sam.12-7. The prophet Nathan by means of the parable of the rich man who took a poor man's one and only ewe lamb to feed a guest and neglected to take one of his own ample flock draws from David, the king, the judgment, "The man that has done this thing shall surely die." "Thou art the man," said Nathan and he recounts the action of David in having Uriah, the Hittite placed in the most dangerous position in battle that he might be killed and David free to marry the widow, Bathsheba. Thus Nathan at the risk of his life, attacked wickedness in high places. This courage is called for by teachers of righteousness in every age. The higher the sinner is placed, the greater is his responsibility and his wrongdoing should not be winked at but denounced.

David is smitten in his conscience, realizes his guilt and under conviction breaks down and says, "I have sinned, I shall surely die." He knew himself to be deserving of death and expected it. Because of his deep penitence, his sin was forgiven, and Nathan said, "God hath also put away thy sin, thou shalt not die." Davai did pay the penalty. The sword did not depart from his house; but his life was spared and his soul was saved.

The rebuke of the Lord is always made in love. He willeth not the death of one sinner; but rather that the sinner may turn unto Him and live. Unless there is a turning unto him there is no forgiveness. The parable should encourage even the most sinful to turn to the Lord and seek salvation.

The anthem by the choir was "Look To The Lighthouse", the solo part being taken by Erla Steinburg of Ottawa. Mrs. Sam Barrington presided at the organ.

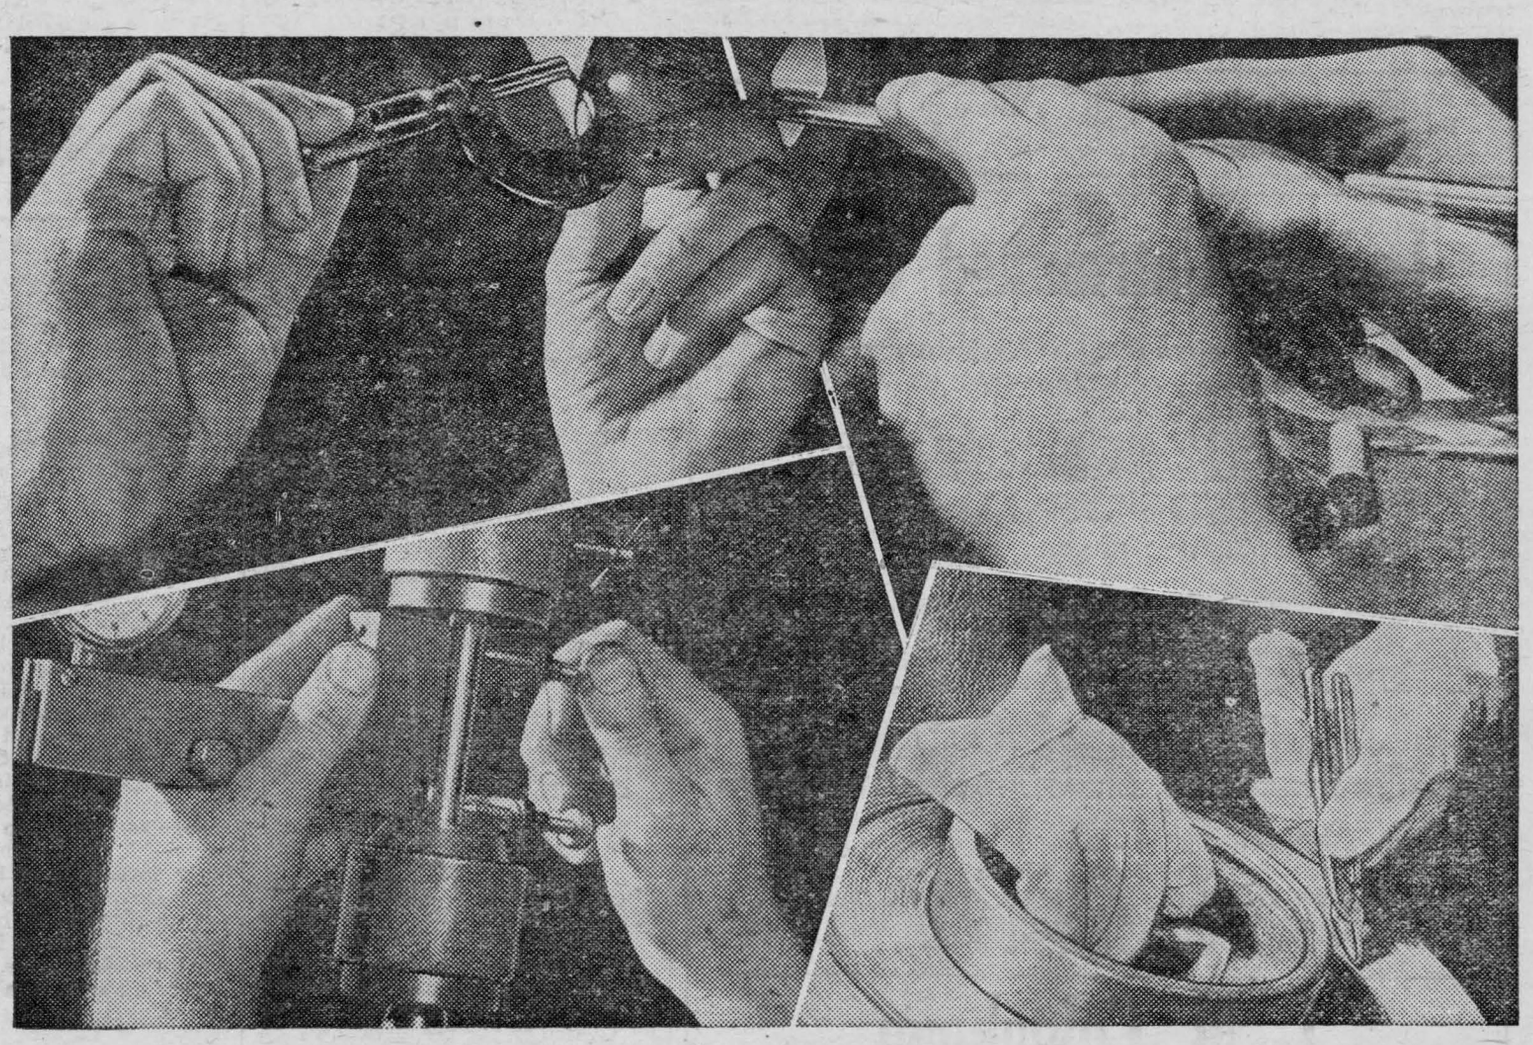
HANDS IN TRAINING...FOR ONTARIO



Learning to Work With Copper and Brass

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combines, tractors, business machines, etc. are producing goods and services which earn dollars. These dollars provide food, clothing, medical care and other necessities which contribute to our security and high standard of living. Every single one of us, therefore, has a very personal interest in the flow of a steady supply of trained workers to industrial plants. These workers will operate machines which are important to our way of life.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in every field of business and industrial activity. For instance, every effort on the part of workers to become proficient in the art of shaping and moulding copper and brass, will mean greater industrial progress—will help to make Ontario a finer place in which to live and work.

THE BREWING INDUSTRY (ONTARIO)

Our Way of Life Rewards Trained Hands

Ontario workers know they can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them. That's always true in a free economy—that's why our competitive system will continue to make Canada great and a great place in which to live.

The present population is given as "in excess of 4,500,000" in "directory and guide to services of the Ontario Government", a government publication issued last September.

THE MIXING BOWL

By ANNE ALLAN

Hydro Home Economist

Hello Homemakers! A bowl of fragrant soup is a meal in itself—the kind of a meal you need on a brisk day. Lots of crackers and cheese beside the soup tureen are the best soned main course you can prepare table companions. With a highly sea- a "smooth" dessert, such as rice pudding, custard, apple dumpling or upside down cake.

The best homemade soup is always the product of an over-night simmering stock pot. The flavourful brew is a combination of meat bones (beef shank), left-over gravy, vegetables and herbs. The stock is strained then the soup quickly prepared by adding fresh vegetables (grated or cubed), cooked meat or chicken and a final dash of seasoning.

Creamed soups may be prepared with a milk sauce base. The favourite, cream of tomato, will never curdle when the tomato is stirred into white sauce and it is best to use the same method in all cream soups. Quickly prepared soup may be a combination of canned soups or canned broth, if you have no stock.

OYSTER CHOWDER

Simmer 2 dozen small oysters in 4 cups hot water. Remove scum. Strain broth. Chop oysters fine. Add ¼ cup chopped, crisp cooked bacon, 1 tablespoon chopped celery, ¼ teaspoon Worcestershire sauce, 2 teaspoons lemon juice, 2 teaspoons salt and some pepper. Combine with oyster liquor. Make a paste with 2 tablespoons of flour and 2 tablespoons butter or margarine. Add the soup gradually. Blend carefully and cook gently until thickened. Makes 5 cups.

POTATO SOUP

Use 4 left-over baked potatoes. Cut in half and quickly scrape all the mealy potato into a kettle. Mash potatoes coarsely with a fork. Add 3 cups rich home-made chicken broth or 3 cups strained canned chicken soup heated with 1 cup of cream. Season with salt and pepper and pour into hot soup tureen. A sprinkling of chives and crumbled crisp bacon on top adds much to the flavour and appearance of this easy-to-make but very good soup. Makes 1½ quarts.

CANADIAN PEA SOUP

Wash and soak overnight 1 pound dried yellow or whole or split peas. Drain them next morning and place in soup kettle with ½ pound salt pork, 1 tablespoon salt, 2½ quarts water, ½ teaspoon pepper, 1 tablespoon parsley, ½ teaspoon savory or ½ bay leaf, crushed, and 3 onions chopped fine. Simmer gently for about 3 hours until the peas are soft and mushy. Season to taste and serve with crisp coutons. Makes 2 quarts. If you would like to try a different seasoning for pea soup, use ½ teaspoon of nutmeg instead of the savory or bay leaf. A crushed clove of garlic may be added with the onion.

POT POURRI FISH SOUP

Wash and cut ¾ pound fish fillets into small pieces. Add 2½ cups boiling water, 2 teaspoons salt, ¼ teaspoon pepper, 1 bay leaf, crushed, 4 clooves, 2 onions minced fine, 2 cups canned tomatoes (the solid portion broken up with a fork), a pinch of thyme, a pinch of marjoram. Cover and simmer ½ hour. Then add a 6-ounce can lobster, or an 8-ounce can shrip, veined. Heat together but do not boil. Taste and re-season, if necessary. Serve in deep bowls. Makes 7 cups.

THE QUESTION BOX

Mrs. T. C. asks for the following recipe:

CHICKEN CHOW MEIN

1 cup sliced celery
1 cup sliced onion
1 tablespoon fat
1 cupsliced Chinese cabbage
1 can Chinese rice
1 tablespoon margarine
1 package shoestring potatoes or chow mein noodles.
1 cup chicken broth or water
1 bovril cube
salt and pepper
¼ lb. mushrooms, fresh or canned
1 cup left-over chicken
½ tablespoon cornstarch

Cook onion and celery in fat for 5 minutes. Add Chinese cabbage and cook 2 minutes longer. Add rice and chicken. Make a paste of cornstarch and a little broth, bovril cube, and seasonings. Top with mushrooms which have been sauteed in margarine. Serve over noodles or shoestring potatoes. Serves 4.

Mrs. G. M. asks: Can you store or can kale the same as spinach?

Answer: Yes, although if the vegetable has been growing all summer it may have a strong flavour at this time of year. Use only small, tender leaes.

Mrs. N. H. asks for the quantities of apples and onions to be used together in a casserole dish to serve with meat.

Answer:

APPLE AND ONION SCALLOP

1 pound of apples
flour (about ½ cup)
½ teaspoon salt
1 pound onions
2 tablespoons sugar
½ cup hot water
4 slices bacon (diced)

Peel and cut in slices the apples and the onions, then arrange in alternate layers in a greased baking dish, sprinkling each layer with flour and diced bacon. Add the sugar and salt to the hot water, stir until dissolved and pour over the mixture in the baking dish, allowing it to penetrate to the bottom of the dish.
