If You Don't Like Our Policy KEEP AWAY

XXVI, No. 33 MORRISBURG, ONT. FRIDAY, SEP.. 2, 1927.

Argentine Corn

We have just unloaded a car of Argentine Corn. The quality is excellent, and the price is right.

Millfeed

There is still a scarcity of Middlings and Shorts, and while we expect a change in the price some time in the Fall, we do not see any likelihood of a decline in prices for at least six weeks.

EGGS

Eggs are still advancing and we cannot set any definite prices, as there may be two or three changes during the week. However, our prices will compare favorably with other buyers.

The MORRISBURG FEED & PRODUCE Co.

MORRISBURG, ONT.

Horse Collar Pads

All sizes--19 to 24 Price, 55c to 65c

With this low price you should keep your Horses fit, free from Gall Sores and Chafed Shoulders.

They also make possible the continued use of a horse collar long after its worn condition would otherwise compel its being thrown away.

Deep Well Pumps

The best pumps on the market and the cheapest. We will be glad to have you call and inspect them then compare value.

MORRISBURG — ONTARIO

POLICE CONSTABLE SHOT BY OCCUPANT OF STOLEN MOTOR

Officer William Caul, of the Cornwall police force, had his first experience with a gunman Tues. night, when he was shot in the face by one of two men whom he was about to place under arrest for being in possession of a stolen Quebec car.

Chief Seymour had a wire from Chief W. Lemieux, of Valleyfield, that a Chrysler sedan model 1927, bearing Quebec license 84265, had been stolen in that town on Sunday night and the local police force were keeping an eye open for it.The robbery was broadcast at Montreal and Chas. Wren, traveller for John Millen, Montreal, heard it over the radio in Alexandria. He put the license number in a pass book and went to Cornwall. While driving along Sidney street he saw a Quebec car parked in front of the former French Presbyterian church, now being converted into a dwelling by R. J. Fursey, and stopped and compared the numbers and found it was the wanted auto. He motored to police headquarters and told Officer Caul, who was on duty there, and the two drove to Sidney Street. They found one man at the wheel and on opening the rear door saw another crouched in the back seat. The officer and Mr. Wren questioned the men, who claimed ownership of the car they occupied, but were told it was a stolen machine. Mr. Wren had parked his car ahead of the other one while Officer Caul examined it and the officer entered the front seat with the intention of having the car driven to the Town Hall. As he turned around to take a look at the occupant of the back seat, the latter fired at him twice, one shot taking effect on the left side of his face near the cheek bone Just as the shots rang out, the man beside the officer opened the door and shoved him out on the paved road and the car sped along Sydney street and turned east on Water Street. Mr. Wren held the officer, who, while lying on the road fired four shots at the fleeing auto, but none apparently took effect. The officer was bleeding profusely from the wound.

Mr. Wren asked assistance of a couple of passing autos and Officer Caul was removed to the Hotel Dieu hospital. Mr. Wren secured the help of Traffic Officer Douglas W. Wilson and notified Chief Seymour, who, with the other town officers and the provincial police and dozens of citizens in private cars, started in all directions in search of the gunmen. No trace of the men has yet been found. The car was found abandoned in a lane near Dr. Cattanach's home, four miles east of Cornwall, and is now in the custody of Chief Seymour. In the car the Chief found a "jimmie" and a dangerous-looking hunter's knife in a leather case. The search for the men is still in progress.

The condition of Officer Caul is reported favorable at the hospital this morning.

COME IN AND SEE IT

The latest triumph of Gramophone Industry, unequalled in Tone and Quality—"Excelda Gramophone" —Camera shaped, really suitable for all requirements. Its metal construction not only ensures hard wear, but endures all climatic conditions—No Metallic Sound—Not a toy, but a genuine Gramophone, fitted with the best Thoren's worm-gear motor. Has ingenious Tonearm and Soundbox of unquestionable quality. Plays all needle records, 10 in. or 12 in. with one winding. Just the last word in portables and the lightest possible Gramophone.—J. Paul Gormley.

NINE ARE COMMITTED IN KEMPTVILLE CASE

Nine men were committed to the Cornwall jail for trial at the next general session of the peace by Magistrate John McCormick, sitting at Winchester, when the case of assaulting and doing grievous bodily harm to Harold Finnerty, 29 year old farmer living near Kemptville, was tried.

The men committed objected to Finnerty's courtship with a 15-year-old girl and determined to "tar and feather him."

PRESCOTT WINS FIRST PLAY-DOWN FROM HIGHLAND PARK

Wednesday evening in Ottawa the Prescott baseball team defeated Highland Park in the first game of their playdown games in the Eastern Ontario championship battle by a score of 11 to 0 Too much hitting powers by Prescott combined with loose fielding by the Ottawa boys decided the game.

LABOR DAY PICNIC

A Picnic, under the auspices of Morrisburg Branch of the Canadian Legion will be held on Monday Sept. 5th, Labor Day, on Broder Memorial Park, St. Lawrence River, opposite Morrisburg. This is an ideal place for a holiday, equipped with pavilion, bath houses and amusement devices. There will be dancing and a program of sports, the music for dancing furnished by "The Toronto Ramblers". The Peerless Prescott Band will also be in attendance. Everyone invited—Bring your baskets—No admission charge to grounds. Ferry will leave dock at 10 a. m. and run at regular intervals. Fare, return trip 25c. Children under 12 years, free.

HORSE RACES AT MORRISBURG

So well satisfied were the Directors of the Morrisburg Driving Club with the results of the Horse Races and Street Dance, held in Morrisburg a few weeks ago, that they have decided to again hold Horse Races and a Street Dance, to take place on Sept 22nd.A large number of the farmers of the surrounding district, who, at the time of the last Races and Dance were busy storing their crops, will undoubtedly avail themselves of this opportunity of witnessing the best Races to be held in Eastern Ontario this Fall.

REOPENS UNDER NEW MANAGEMENT

The St. Lawrence Hall, for the past threee years under the management of Mr. Fred W. Robinson, has been closed to the travelling public for the past few days, during which time, the furniture was sold by Public Auction. On or about Sept. 5th, the hotel will be re_opened, under the managemnt of Mr. Wm. McGannon, son of the late Wm. McGannon, Sr., and will be refurnished throughout. The high standard of service, for which this house is noted, will, under the new management, be improved upon wherever possible, giving special attention to the individual needs of tourists, travellers and boarders. Having had considerable experience in some of the leading hotels in America, Mr. McGannon is well qualified to assume his duties, which assures a large patronage and the continued success of one of the most popular and best hotels in Eastern Ontario.

CHARLES S. S. STATA

A very sudden and unexpected death occurred in our midst when Mr. Charles S. S. Stata passed away on the 26th of August of acute indigestion. He had been in unusually good health when the attack occurren suddenly and severely at seven o'clock that morning.

He was born on the 11th of May 1851. His father being the late Simon S. Stata, and his mother Caroline Merkley.

For many years Mr. Stata was in the employ of the Government but retired on reaching the age limit. He was one of our staunch friendly, rugged citizens, for many years a member of the Methodist Church, and an official class leader therein, and in Politics, a life-long Conservative.

Surviving him are one son and two daughters, Miss Carrie Stata, at home Mrs. Pollard of Toronto, and Charles of Montreal.

NEW MOTOR BUS LINE

Kingston, Aug. 27—The biggest land transportation deal put through in Eastern Canada has just been conducted by Oscar F. Cook and his solicitor, A. B. Cunningham, as a result of which Mr. Cook acquires the control of the United Coach Lines, Limited, as well as several private lines. and this city becomes the headquarters at Cook's Garage of a great fleet of huge motor busses.

The new company which Mr. Cook will now control will be known as the Colonial Coach Lines of Canada. Not only has it taken over the franchises of the United Coach Lines, Ltd operating between Ottawa and Morrisburg, and Ottawa to Prescott to Brockville but it has also taken over the lines and business operating between Cardinal, Prescott and Morrisburg; also the lines between Morrisburg and Cornwall. Prescott and Brockville; and Brockville and Gananoque. With these extended on to Kingston this will make a formidable combination operating practically 20 mammoth Pullman auto coaches and linking up at this end with such coaches as may be operating westward The through straight line to be operated by the company from Kingston to Cornwall, totals 113 miles while with the two off shoots to Ottawa another hundred or more miles will be added.

In addition it is even now being planned to hook up with the Colonial Coach Lines operating in the United States, with the nearest headquarters in Watertown. These lines are now running excursions to Canada and it is hoped to develop this business cinsiderably and arrange to take over and care for all such excursion parties, at this end of the line.

KECK—BARTON

The marriage was solemnized at the Presbyterian Manse, Iroquois, of Miss Mary Barton, daughter of Mr. and Mrs. James Barton, Dixons Corners, to Mr. Robert E. Keck, son of Mr and Mrs. Edward Keck of the New Commercial Hotel, Iroquois, the ceremony being performed by Rev. William Merriles, pastor of Knox Presbyterian Church.

ARTHUR FLYNN Morrisburg Ont

The Picnic Lunch and Motor Outings

With a car to come to the very door and to go right to the spot where one wants to spread a picnic lunch, the chief objection to frequent family excursions has been swept away.

Most people invite friends to the capacity of the car when going for such an outing, so the problem is to pack everything so it will take up the least room and cause the least trouble. A carrier on the running board solves the difficulty in many cases. Other people would rather dispose of parcels inside the car than to be unable to open the door on that side when there are a number of passengers. Often those who have a camping cabinet they fasten to the automobile before starting on long trips think it is too much trouble to get out only for picnics Certainly one does not often plan an excursion if the preparations involve work incommensurate with the pleasure to be gained

Specialization

Cord carriers that may be suspended from the robe rail or the door handles of the car are excellent for picnic purposes. They need not clutter the floor and force passengers to sit in cramped positions. Also they may be carried even by children, and are easier to keep clean and odorless than ar market bags. To suspend these carriers from the robe rail, slip the handles down over the rail from in front and run through them a short curtain rod or a stick so the ends of the rod come under the ends of the rail.

If there are as many such carriers as there are members of the family, and the necessaries for the lunch are evenly distributed among them, each person can take a package to the picnic table so everything will be at hand when it is needed.

With this means of transportation in thought, it is a good idea to keep together in two carriers, at the most, all the breakable dishes, with the understanding that the adults in the party will be responsible for them. Paper plates, cups, napkins and tablecloth will not only make a good package for the littlest of the picknickers to carry, stimulating him to feel a happy responsibility for the success of the occasion, but it will bring together most of the articles one wants to put on the table first.

Sandwiches, cookies, stuffed eggs and the like, packed in cracker boxes, make another light package for a child to handle, and he can place the containers on the cloth to hold it in place. As the boxes need not be opened until every member of the party is at the table, they do not attract flies and insects

When cups or jelly glasses are to be used for lemonade, the salad may be packed in them. Line each receptacle with a piece of oiled paper, then fill them with the salad and twist the corners. When the plates are in place at the picnic table, turn the paper package from each cup out onto a plate. The paper plates thus weighted will not blow away, the hungry people can start eating at once. Moreover, the salad is protected from dust by this method of packing and the cups are clean and ready for filling.

Packing Beverages

Lemonade for a small party may well be made in a two-quart fruit jar. Before leaving home, put into the container the amount of sugar and lemon juice that will be required and immediately before serving add the desired amount of cold water. An experiment or two along this line will soon enable one to get just the right proportions to suit her particular household. With this should go a large spoon for stirring the lemonade and a towel to be dampened when needed and used to wipe from the hands any liquid spilled while the jar is being used as a pitcher from which to fill the glasses

Any hot beverage will retain its heat for a surprisingly long time if poured into a hot fruit jar, sealed with a ring and cover and then wrapped with many thicknesses of newspapers.

Avoiding Inconveniences

Hot dishes like baked beans, escalloped potatoes and other food that is especially good when the weather becomes cold, may be kept hot, even when one has no casserole, by covering the container closely, then wrapping it, as described, in newspapers. If under the dish the hot radiator from the fireless is placed before wrapping, the heat will be conserved for an even longer time. The best place to pack such a dish is under the seat where the insulation may be made even more effctual. Before preparing the dish it is well to find a container that will pack there to the best advantage.

Other inconvenience may be avoided by keeping a picnic list on a card that may be hung over the kitchen table while preparations for the lunch are made. On this should be noted everything one could possibly need on such occasions, from the can opener to the tablecloth, from pepper and salt for hard-boiled eggs to the bread knife. Before leaving the house, one can read over such a list to see if anything will be needed for that particular picnic that has not already been packed. In the confusion incident to such trips when there are children in the party, one needs such a memory jogger.

Containers

For keeping a cold dish cold, few conveniences are better than a small fireless-cooker vessel that will set into a larger similar container with space between the two for shaved ice. A wrapping of newspapers around the package will further help to keep the cold air inside. If there is not plenty of room on the floor for this, it may be swung from the robe rail by a cord run through the handle. A dish to be served very cold at a picnic is best made so it can stand overnight in the refrigerator to become thoroughly chilled before it is packed at the last minute.

Candy jars with close-fitting covers, in plain designs of clear glass, make splendid containers for the picnic table. Fresh sliced tomatoes, or a salad with slices of hard-boiled egg, radish, pimola or lettuce hearts showing through the glass, look most appetizing and may be kept covered, except when needed, so it will not attract flies.

Layer cake may be carried without the slightest injury to the icing by putting the cake, plate and all, in a shallow pan, inverting similar pan over it and tying the two together. Loaf cake for a picnic is best frosted and left in the pan; when ready to pack, lay over the top of the pan a piece of cardboard and tie securely.

HOUSEHOLD HINTS

Summer Schedule

Summer housekeeping and cooking should be reduced to a minimum. To save time and effort, plan each week's schedule and stick to it.

Invalid's Catch-All

To keep an invalid's belongings, such as handkerchief, glasses, notebook, etc., from getting lost, pin a stiff, chintz envelope bag to the underside of her pillow.

Mattress Handles

All difficulties in turning mattresses can be overcome if you will sew loop handles on all four corners with heavy thread.

Flower Stems

Clear crystal vases give double beauty from a bouquet if you arrange the stems under the water as carefully as you do the blooms above.

Chicken Grill

Chicken legs and wings can be utilized appetizingly by grilling with small sausages and bacon and serving with fried pineapple slices.

Stuffed Tomatoes

Tomatoes stuffed with fruit and served with boiled cream dressing make an unusually delicious and different tasting luncheon salad.

Pcture Prints

Old-fashioned tinted prints from books and magazines make charming medallions for smart lamp shades, boxes or even wall decorations.

Cheese Salad

Roll small balls of cream cheese, sprinkle with paprika, place three on lettuce leaf and grate Roquefort cheese over top. Serve with French dressing.

New Dressing

For fruit salads a delightful dressing results from whipping two tablespoons of fruit jam into mayonnaise with a little heavy cream added.

Mint Mousse

If you make your own ice-cream, a delightful dessert can be made by flavoring your regular recipe of mousse with mint.

Crisp Rolls

To crisp rolls in muggy summer weather, sprinkle lightly with water and insert in hot grill pan for a few minutes.

Summer Treats

Bavarian Raspberry

2 tb. gelatin, ½ cup cold water, 1 pt. crushed red raspberries, ½ cup boiling water, 1 cup whipping cream, 1 cup sugar, ½ tb lemon juice.

Soak gelatin in cold water and dissolve in boiling water. Cool and add crushed fruit mixed with sugar and lemon juice. As soon as the mixture starts to jell, fold in the whipped cream and pour into molds to set.

Cooked Salad Dressing

1 tsp. mustard, 1 tsp. salt, Dash cayenne, 1½ tb. flour, 2 egg yolks, 1 cup milk, ½ tb. butter, ¼ cup vinegar, 1 tb. sugar.

Mix dry ingredients in the top of a double boiler. Gradually add the egg yolks, fat and milk, stirring constantly to keep smooth. Cook over hot water for ten minutes. Remove from fire, cool, and add the vinegar.

Peach Salad

6 large peaches, raw or canned, ½ cup cream cheese, ½ cup mayonnaise dressing, ½ cup celery cut in thin strips about 1 in. long, ½ cup shredded green pepper, lettuce leaves, ½ cup milk.

Pare and cut peaches in halves. Place on a bed of lettuce leaves, chopped celery and pepper. Mash cheese and combine with mayonnaise. Put mixture into a pastry bag and fill the hollows of peaches, leaving a rose on top, or fill carefully with a spoon. At the table serve plain or with creamy dressing as preferred.

Sarcasm.

Fly (in background)—"My, ain't you the stuck-up thing!"

Another Reason for Canadian Loyality

THE DUCHESS OF YORK AND PRINCESS ELIZABETH

Every Canadian mother looks for pictures of this delightful youngest member of the Royal Family.

Broadcasts to Frozen North to Continue Through Winter

Westinghouse Stations Will Convey Messages and Programs by Radio to Mounted Police and Missionaries

The Far North broadcasts to the outposts of civilization along the Arctic Circle in the Hudson Bay district of Canada, which have been transmitted regularly by stations of the Westinghouse Electric and Manufacturing Company during the last three years, will be resumed during the coming Fall and Winter, according to an announcement by Lloyd C. Thomas, commercial manager for the Westinghouse Company.

The advance schedule of transmissions, which has been dispatched northward on the Canadian mail and supply boats to be in the hands of all outlying posts before the initial broadcasts, follows: KDKA, East Pittsburgh, Pa., on 316 meters, will transmit, beginning at 11 o'clock, Eastern Standard Time, on the Saturday nights of Nov. 19, Dec. 25, Jan. 14 and Feb. 28. WBZ, Springfield, Mass., and WBZA, Boston, Mass., utilizing 333 meters simultaneously, will broadcast at 11 o'clock, Eastern Standard Time, on the Saturday nights of Nov. 26, Dec. 17, Jan. 7 and Feb. 4. KYW, Chicago, on 526 meters, will transmit its programs at 10 o'clock, Central Standard Time, or 11 o'clock Eastern Standard Time, on the Saturday nights of Dec. 3, Jan. 1 and 28 and Feb. 11.

"Three supply ships bound for the arctic regions," said Mr. Thomas, "the Bayrupert and the Nascopic of the Hudson Bay Company, and the Boethic of the Canadian Arctic Expedition, which departed early in July, are carrying the advance schedule and the yearly mail delivery to the isolated regions of the North.

"The special broadcasts were inaugurated more than four years ago by KDKA to transmit an emergency message. The regularity with which these signals were heard throughout the Canadian Northwest, Labrador, Greenland and the Hudson Bay district, resulted in the adoption of a regular schedule of transmissions from all the Westinghouse stations. At the outset there were four stations, including KFKX, at Hastings, Neb., which was lately discontinued."

The programs to the Far North consist principally of personal messages gathered from all over the United States, Canada, England, Scotland and Ireland. They are addressed to members of the Royal Canadian Mounted Police, who patrol the Northwest Territories and Yukon district of Canada; to traders and trappers of the two great fur companies—the Hudson Bay Company and Revillon Freres, and to missions of the Oblate Fathers among the Eskimos, The furthest-north inhabited post in the world, a station of the Royal Mounted Police at Bache Peninsula, Ellesmereland, within 10½ degrees of the North Pole, is one of the regular listening points for the Westinghouse broadcasts.

"Often the programs last three or four hours," said Mr. Thomas, "sometimes intermingled with music and songs. Countless letters, when the mailboats return each Fall, tell the story of radio in the lives of those who are removed virtually from all contact with civilization. Even more do these letters carry the heartfelt thanks of the men whose long days in the shadow of the Pole are cheered by intimate personal messages from relatives and friends back home."

Safe to Move Car Right Off Road

In Making Temporary Repairs Prudence Suggests Being Out of Way

One form of road-hogging that is coming in for considerable condemnation at the present time is that of utilizing the highway as a repair shop when something goes wrong with the car. It is a type of selfishness which presents a very definite hazard and is one that every motorist should make an especial effort to avoid.

With millions of motorists on the road this summer, it is obvious that converting the highway into a temporary repair shop in case any minor trouble develops in the car is a hazardous practice. The greater volume of traffic, with the fact that Ontario has raised the speed limit for automobiles, makes this danger even greater than in the past.

Many motorists, however, apparently are oblivious of this danger. When a tire goes flat, instead of pulling off the road they are content to stop on the highway and make the change. In the case of a carburetor adjustment or other minor repair to the engine this is dangerous enough, but when a tire is to be changed it is doubly hazardous because the operation requires considerable moving around and the use of several extra devices such as a jack and lug wrench. Even if the car itself is over on the edge of the road, if the punctured tire is on the left side it means that the motorist will be working out in the line of travel.

With traffic bearing down upon him from both directions, naturally his position is dangerous to himself and to other motorists.

Many accidents caused by this practice have been reported and these reports are responsible for the terse warning issued by the A.A.A. and with which the O.M.L. concurrs reads:—

"Drive the car entirely off the road before attempting to make any repairs to it."

Raspberry Syrup—Boil raspberries and strain. To one pint of juice add stand overnight. In the morning boil one pound of grandulated sugar. Let again and bottle. When serving, put two tablespoonfuls in a glass of cold water.

Canada's Sixty Years of Confederation

"In population Canada continues at the number and to increase at about the rate in the United States of a hundred years earlier," writes Professor George M. Wrong of the University of Toronto, in August Current History. "Sixty-years ago Canada had about 3,500,000 people; it has now about 10,000,000. The rate of growth has been slow, but in recent years the acceleration has geen more rapid. Fifty-five per cent. of the present population is of British origin, 28 of French, and the remaining 17 per cent. is chiefly from Continental Europe. There has been no immigration from France, but that from Great Britain is likely to increase more rapidly owing to restrictions on Continental immigration. Although for a long time Canada was length without breadth, settlement is now taking place 800 miles north of the frontier of the United States. This is due partly to scientific experiments in Canada making possible a type of wheat—the Marquis—which will ripen in the Far North during the short Summer; partly to the amazing development of mineral wealth which is creating populous centres not far from Hudson Bay. In spite of the growth of the agricultural West, half the population of Canada now lives in cities and towns, whereas fifty years ago the proportion was only 18 per cent. Montreal and Toronto have increased six-fold and the next twenty years may find both of them reaching the million mark, while both Winnipeg and Vancouver, villages sixty years ago, now have some two hundred thousand people.

"Canada's foreign trade, which sixty years ago amounted to $120,000,000, now reaches the annual colossal total of $2,300,000,000, not an entirely wholesome sign, for it indicates a weak home market, due to the small growth of population. A rather omincus export is the vast quantity of paper and pulp from the exhausting asset of the forest. Food, on the other hand, reproduced annually, is a safe export. The enormous supplies of food grown in Canada are indicated by the capacity of a single Canadian flour mill to produce 14,000 barrels of flour a day."

Summer Drinks

I think our husbands and families and the help, too, enjoy in the heat of the summer a change from tea, coffee or milk. There are a few cold drinks that are especially good and thirst quenching which I use often when the weather is hot.

Orangeade—Pare a thin rind from four oranges and put into a pitcher. Add an ounce of sugar to the peelings and pour over them a quart of boiling water. Let stand until cold. Then add the juice of the oranges and the juice of one lemon; then chill. These portions may be doubled if desired.

Temperance Tea—One cupful of strong tea, half a cupful of ginger tea, one cupful of sugar, one cupful of orange juice half a cupful of lemon juice and one cupful of cold water. Mix and chill.

Camping Styles Are Elaborate

What the Hardy Citizen Should Take With Him When He Goes Into Woods for a Holiday —His New Devices

Gone are the days when getting ready for camping meant digging out one's oldest clothes and blankets, borrowing the most battered of the kitchen utensils and investing in a piece of mosquito netting Such simple preparations are thought inadequate today. Since camping evolved from the sport of hardy spirits into a fashion for all, camp styles have come to the fore. They speak in such a tone of authority that only the hardiest heed them not, and these, too, are likely to come evntually to conveniences of the standardized type.

Camp fashion shows are features of Summer sales evnts, and he who attends them learns once for all that camping is no longer a strictly rustic affair. Take the item of clothing alone. What the well-dressed man or woman needs for camp, in the opinion of dictators of such styles, might cause the old flannel shirt to blush with shame. There must be shirts and knickers and blouses for morning, afternoon and night, with kerchiefs and hose and sweaters to match, slickers and jackets and coats, boots and shoes and gloves. Campers, it is said, take these dictates seriously.

"The camping class on the whole has changed a great deal in the last few years," one salesman explained. "Many persons who used to spend their vacations at Summer resorts now go to camp instead. The same interest they used to devote in getting together a lot of fancy clothes for the resorts they now put on camping equipment. It makes a great deal of difference to them how they look. Besides, they're not really roughing it. They're as comfortable in camp as they would be in a hotel, and they have the same urge to dress up, though fashion calls for a different sort of dress."

"Roughing It" Is Ended

Roughing it, in any real sense, is en experience modern ingenuity is doing its best to rule out, even among those who pitch their tent in a different place each night. Where is the camper now who splits his own wood and blows his own fire? Not many of his kind are left. The camper usually has a stove with oven and steamer and hinged wire grate, which folds up into a suitcase. His fuel he borrows from the automobile gasoline tank. Electric lights are plugged into outlets in the car. Even a hot bath may be had comfortably in the heart of a virgin forest, since the portable folding bathtub of rubber-coated duck appeared.

The market is flooded with portable ice boxes and iceless refrigerators, kept cool by water evaporating through a covering of duck, and thermal food containers come in all sizes. There is the portable fireless cooker, too, with its promise of hot lunches served up without delay, the lunch having been started on the stove during breakfast and finished in the cooker while the party was taking its ride. For the camper of to-day the solitude of the wilderness is banished by the portable radio set and the silence is dispelled by the voice of the portable phonograph.

Tents Like Bungalows

Tents, guaranteed mosquito-proof, are made like little bungalows, with windows and doors and maybe a front porch. Or if one prefers a cabin one may have it in an automobile body that claims to provide all the comforts without the ungainly lines of the "house car," and to offer the appointments of a small apartment without the earmarks of housekeeping on the road. At stops the driver's cab becomes a kitchen, with stove, ice box and sink; and when the meal has been prepared a table in the stateroom is dropped from a partition panel. The divan in the stateroom becomes a full-size bed at night, the bedclothes coming from an attic in the roof, and a third passenger is accommodated on a couch in the front compartment.

Everything Folds

Automobile camping has brought in folding gear. The steel frame of canvas wash basins and water buckets have joints that enable them, flattened out, to be carried under the cushion of the automobile seat. There are folding baskets, folding lanterns with mica sides, folding hatches and knives, and a spade that comes in two. There is a folding toaster that mashes flat and a frying pan with a handle that tucks under its bottom, a folding cupboard with wire cables and metal shelves and a fork with a telescoping handle. There are folding tables and chairs; and beds fold, of course, to the size of a small golf bag, whether it be an ordinary camp cot, an adjustable frame made to fit over the seat rms of ny touring car or merely a mattress inflated with air.

The last word in folding conveniences is spoken by the campers' kitchenette, with "a place for every thing and everything kept in its place." It is a cabinet of steel with a table folding out from the front and compartments for ice and all kitchen supplies. Inside its dishpan fits a nest of dishes and cooking utensils, and the whole fits snugly on the running board of the car.

CANADIAN NATIONAL
EXHIBITION
TORONTO
Opens Sat., Aug. 27

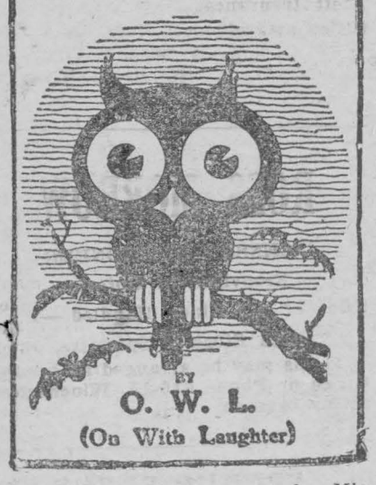

W. L. Mackenzie King presses the button that sets in motion the most colorful entertaining program in Exhibition History. H.R.H. the Prince of Wales will dedicate "The Princes' Gate"—the new $160,000 Eastern Entrance.

The massive new Live Stock Pavilion will be opened to the public for the first time—and countless other new features, new exhibits and new Entertainments such as the world championship $50,000 Swim Marathon will be presented this year. By all means see the Confederation Celebration at the 1927 Canadian National Exhibition, August 27 to September 10. Send for program to-day.

49th Year of the C. N. E. — Celebrating Canada's 60th Birthday

JOHN J. DIXON, President — H. W. WATERS, General Manager

OWL-LAFFS

BY O. W. L. (On With Laughter)

Mr. Potato was all eyes for Miss Spinach and they were to be married, but the parson didn't Turnip.

The four great destructive agencies are wind, water, fire and boys.

A Woman's Troubles.

A woman's always on the jump,
Her troubles make a mere man grin;
If she's not trying to get plump,
You'll find she's trying to get thin.

One of the things most needed in the present collegiate world is a motermeter for sofas.

"Where ignorance is bliss—" began the readymade philosopher.

"'Tis folly," answered Gladys, "for girls to wear short skirts and reveal bowlegs."

A cat and dog will often associate wth each other in perfect peace until they'r'e tied together. And it's that way with some men and women.

Willie—"Pa, what is an optimist?"

Pa—"A man who thinks that he won't have to buy his wife a new fur coat because the man next door did his!"

"I went to a lot of trouble borrowing five dollars from that fellow."

"Well, you can put him to a lot of trouble getting it back."

Hubby—"Your check to the grocery came back with 'no funds' on it."

Wifie—"That's funny, I saw an ad in the paper yesterday which said the bank had a surplus of more than three million.

It isn't necessary to drink to drown troubles. A CChicago woman drowned hers by pushing her husband off the Municipal Pier,

"I guess I'll have just a light lunch to-day," observed the rat, as it burrowed into the box of matches..

"Give me a pound of animal crackers, please—no lions or tigers; they frighten the baby."

A small, henpecked, worried-looking man was about to take an examination for life insurance.

"You don't dissipate, do you?" asked the physician, as he made ready for tests. "Not a fast liver, or anything of that sort?"

The little man hesitated a moment, looking a bit frightened, then replied, in a small, piping voice: "I sometimes chew a little gum."

"This hurts me worse than it hurts you," said the Siamese twin, as her sister swallowed the medicine.

The preacher who preaches at his congregation soon has no congregation to preach to.

Letters for air mail might appropriately be written on fly paper.

When a bride comes down to breakfast wearing her regular face you can lay dollars to cup cakes that the honeymoon is over.

He—"Darling, you are the eighth wonder of the world."

She (indignantly)—"And who, may I ask, are the other seven?"

Constantinople Poor After Kemal's Visit

Constantinople.—With more than a million Turkish pounds spent in celebrating the recent visit to Constantinople of Mustapha Kemal Pasha, President of the Turkish republic, the majority of the population of the metropolis is prepared to live for the rest of the summer on bread and cheese, flavored with gala memories of the spectacular and costly show.

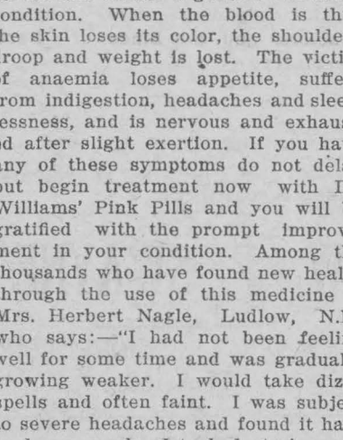

The municipality drained its treasury to such an extent that it has not yet been able to pay salaries or pensions for June, and those not dependent on the municipal budget are not much better off, as the greater part of thei rpersonal "luxury allowance" went into subscriptions collected for the celebration. The money was used for triumphal arches, flags, pictures of the "ghazi," as wel las an $8,000 American-made automobile and a high powered motor boat, which were presented to the President.

RETAIN YOUR VIGOR

This Can Only be Done by Keeping the Blood Rich and Red.

If you would regain your vigor and ambition, keep your blood and nerves in good condition. Anaemia, or thin blood lowers the vitality, starves the nerves and causes a general run-down condition. When the blood is thin the skin loses its color, the shoulders droop and weight is lost. The victim of anaemia loses appetite, suffers from indigestion, headaches and sleeplessness, and is nervous and exhausted after slight exertion. If you have any of these symptoms do not delay but begin treatment now with Dr. Williams' Pink Pills and you will be gratified with the prompt improvement in your condition. Among the thousands who have found new health through the use of this medicine is Mrs. Herbert Nagle, Ludlow, N.B., who says:—"I had not been feeling well for some time and was gradually growing weaker. I would take dizzy spells and often faint. I was subject to severe headaches and found it hard to do my work. I took doctor's medicine for some time, but it did me no good, and I was still growing weaker. In this condition I began the use of Dr. Williams' Pink Pills, and in a short time found they were helping me. I continued the use of the pills for a while longer, and found that the trouble that had bothered me was gone and I was once more a well woman."

Get Dr Williams' Pink Pills at your druggist's or write The Dr. Willams' Medicine Co., Brockville, Ont., and the pills will be sent post paid at 50 cents a box.

The Bank Magician.

"Hear you're studying sleight of hand. Aren't you going to hold your job in the bank?"

"Sure! Only it don't pay enough."

Space at Premium

Space at the British Industries Fair to be held simultaneously in London and Birmingham next year promises soon to be at a premium. To date twice as much space has been reserved for displays as was reserved last year. The fair will run from Feb. 20 to March 2.

Bucking Horse Champion

"Bring 'em on" says Pete Knight of Crossfield, Alberta, and Canadian North American Bucking Horse Champion. He gained this title at the Calgary Stampede held in the west recently against competitors from all parts of Canada and the United States, and in doing so proved himself master of anything the western plains could produce in the way of equine fury. The elaborate saddle that Knight is photographed holding is one of the trophies he won through his skill; another, symbolic of his cherished championship, is seen in the inset and was presented by Edward F. Albee, theatrical magnate. The Calgary Stampede which has become an annual event is regarded as the finest of its kind held on the continent.

Radio and Fire

Sets in Country Need Extra Care in Proper Grounding as Protection Against Lightning

In installing a radio receiving set in the country, that is on the farms and in villages and towns where there are few street wires and pipes to carry away lightning charges, a little extra care is advisable. Lightning may be attracted by the aerial and traveling down this may not only demolish the set but destroy the house as well. But by the addition of a simple grounding device the lightning will be deflected harmlessly into the earth.

The Ontario Fire Marshal's Department advise keeping all aerials, if mounted on the roof, below the terminals of the regular lightning rod masts. It is better to place the aerial away from buildings altogether, using poles for this special purpose only. There should be a good sized, single pole knife switch between the aerial and the set. The middle of this switch is connected to the aerial and one end to the set and the other to the ground. When the set is not in use the aerial should be directly connected to the ground and there should always be a tag attaching to the set warning people against using the same during an electrical storm. If lightning should strike the aerial it will then travel down the wire through the knife switch and into the ground connection without going through the receiving apparatus. But, warns Deputy Fire Marshal George F. Lewis, this devise should not be confused with a lightning rod; it will not protect the house but simply takes the charge away from the radio set.

Blames Flimsy Modern Dress For Increase in Tuberculosis

Milwaukee—Scantiness in modern woman's dress is partly responsible for the tuberculosis problem, according to Dr. Hoye E. Dearholt, who reported that for the first time in the history of the Wisconsin Tuberculosis Association all of the State's twenty sanatoria are filled with patients, with long waiting lists at many of them.

Girls between 15 and 25, striving for a boyish figure and wearing scanty clothing, have lowered their resistance to a point where they are easy prey of the disease, Dr. Dearholt said.

"I believe we can cut down tuberculosis among young women if we push dress reform," he declared. "There is a point in the race for scanty clothing at which a girl must stop lest the body be chilled too much and weakened."

Very True.

Minard's Liniment for burns.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown-up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Babys' Own Tablets given instead..

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the new-born babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Wliams' Medicine CCo., Brockville, Ont.

The Real Drawing Card.

The moving-picture exhibitors are trying everything to keep up attendance in the summer—cooling plants, free lemonade, souvenirs. Someone should suggest that they try good pictures.—Outlook.

Motor Bus Figures Reveal Big Growth

Motor bus statistics just compiled by the American Automobile Association contain the following outstanding facts for 1926:

Total number of motor buses in use, about 80,000.

32,425 buses were used in common carrier service.

32,800 buses were used in carrying school children back and forth from home to school.

Total passengers carried by buses were 2,395,000,000.

Of the passengers, 2,100,000,000 were transported by common carriers.

Investment in rolling stock, terminals, garages, etc., were approximately $455,000,000.

Gross revenue of common carrier bus lines was nearly $300,000,000.

Taxes paid by motor vehicle operators are estimated at $712,000,000.

Cannibal Ideas Undergo Change

Some are Capable of Intelligent Conversation, Says Lecturer

London.—We trust that before long trial by red-hot iron, boiling water, and mwaxi poison will be things of the past.

This hope was expressed by W. F. P. Burton, a missionary, who lectured to the Royal Geographical Society on the march of civilization in Central Katanga, a strip of Darkest Africa lying to the north of Northern Rhodesia.

Since the days of the war this strange country, inhabited by the Baluba, a people endowed with intelligence and industry, and, in some parts, with cannibalistic habits, has developed swiftly with the advent of the missionary and the trader.

At present 1,000 natives are working on tin. There is also coal, and the men extract sufficient iron in some districts to make their own spears, hoes, axes and knives.

Good Farmers.

They have their fisheries and cultivate, among other things: Tobacco, tree-lentils, pumpkins, cucumbers, ground-nuts, bananas, sweet potatoes, spring onions.

Mr. Burton said that, while in 1914 scarcely a native could read or write, thousands now possess both accomplishments. Almost every chief now has his secretary.

"Of the three secret societies," said Mr. Burton, "the Bakasandji are far the most sinister.

"No one is allowed to be initiated among them until he has eaten part—generally a bone—of some other human being on the principle, 'I am now a super-man, for I am myself and the other man as well.' "

Cannibalism, Mr. Burton emphasized, is practically confined to the neighborhood of the Luvidyo watershed.

"One finds among these cannibals," he said, "credible iron-workers living in fairly decent surroundings and adopting much of present day civilization."

Trust Similar to Rhodes Foundation Formed in Britain

London.—A trust, resembling the famous Cecil Rhodes Foundation—involving less money but with a wider outlook, in that its scholarship will be held in American as wel las British universities—is created by the will of the late Dame Julia Lewisohn Henry published to-day. She was the widow of Sir Charles Henry, Shropshire, England, and a daughter of the late Leonard Lewisohn of New York. Her estate amounts to £245,000..

The testament gives some £20,000 to charities and dependents, and leaves the whole residue in perpetuity to provide scholarships for British and American students.

It will be known as the Charles and Julia Henry Fund. The trustees will be "12 competent persons" appointed in equal proportion by Oxford, Cambridge, Harvard and Yale. This arrangement, the testament says, is "in the earnest hope and desire of cementing the friendship between the British Empire and the United States."

Preserving Canterbury

To preserve the treasures and keep the historic building in condition the society of Friends of Canterbury Cathedral, in London, has been formed by the Dean. The cathedral is famous for its numerous monuments and tombs, and is known as the cradle of English Christianity.

MINARD'S "KING OF PAIN" LINIMENT

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan. — "I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and I was in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Medicine. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of sorts or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it." — Mrs. WILLIAM RITCHIE, Box 486, Melfort, Saskatchewan. C

MOREWOOD

Mrs.Newton of Lachine visited Mr. Thos. Faulkner over the week-end.

Mr. and Mrs . A. B. Allison of Morewood motored to Ottawa this week

CLIMAXING SUMMER

The selection of September's first Monday as Labor's official holiday was a wise one. To most of us, it offers the last chance of the year to get out in the country for one last taste of its fragrant delights before settling down into harness for the long Fall and Winter.

Many splendid trips may be arranged for the long week-end at very reasonable cost. Laurentian and other resorts afford special facilities for week-end parties. Fishing is good and the cool air makes all outdoor sports the more enjoyable.

Many are arranging for a Labor Day outing already, knowing that it is the last opportunity of getting themselves and families out in the open before the school bell rings.

Consult any Canadian National Railways Agent for information on Labor Day trips.

ONTARIO

$10,000 worth of weeds on ten farms in one neighborhood

That is what an inspector valuing farm lands for loaning purposes reported. His report read:

> "It is badly infested with *sow thistle, as are all the farms in the neighborhood.* I have valued $1,000 less than I would if clean of this weed."

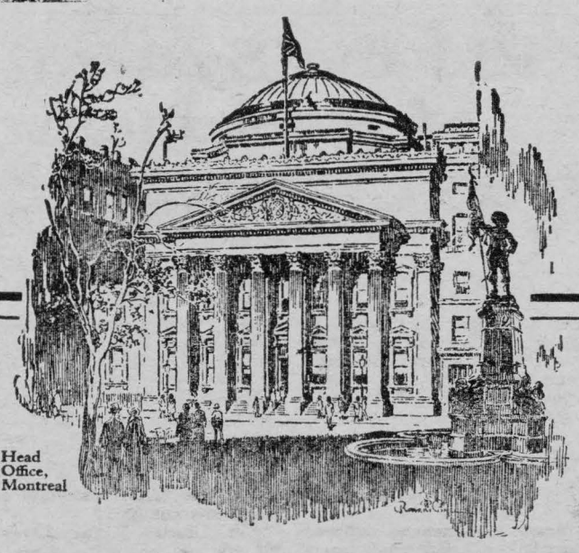

And he only discounted the farm value 12%. Many inspectors would go much higher.

United action will exterminate the weed scourge. Destroy weeds wherever found. Under the provisions of the Weed Control Act, 1927, now in force, the destruction of weeds is no longer optional. It is *compulsory*. Your co-operation is needed to end the weed nuisance.

Mrs. G. W Dustan is a patient in the General Hospital Kingston, where she underwent a serious operation on Monday At present she is doing nicely.

Mrs. A. W. Stewart and daughters and Mrs Ferguson have returned to their home in Finch, after spending a few weeks at their Cottage Fairview, West Front

Mr. J. O. Beach, Mr. and Mrs L. Beach daughter and son, South Hampton, Mr Earl McIntyre and daughter and Mr. T. Kellam and party of Fort Jackson, N. Y., were callers at "Rose Haven" on Saturday

Recent guests of Mr and Mrs. Wm Barr, Station St., Mr. and Mrs. A. M. Vining and twin sons, Peterborough, and the former's sister, Mrs. K. L. Douglas, Ottawa; Miss Winnifred Hosmer, Windsor, Vt. Miss Olive Haggert, Waddington, N. Y.

We are sorry to chronicle the death of Mrs. Adelard Campbell, in her 73rd year, mother of Mrs. Allen Hawn, Cornwall, and Mrs. Andrew Colling, Gallingertown, at whose residence she died The funeral, which was held at the Anglican church, Gallingertown, was conducted by Rev. Mr. Bender, Rector. Interment in Woodlands Cemetery.

MAPLE VIEW

Mr. and Mrs. Fred Barclay and Miss Mildred Barclay of Watertown, visited at Fred McMillan's recently.

Miss Olive Harriman spent Monday with Mrs Jane Barkley, Williamsburg.

Mr. and Mrs. Isaac Barkley and family of Cornwall spent Sunday at Fred McMillan's.

Mr. Ray McPherson of Beckstead, spent Sunday at F. McMillan's.

A few from here attended the Ottawa exhibition this week.

Mr. and Mrs. Elgin Harriman spent Monday with their daughter, Mrs. Kemp Beckstead, Morrisburg.

Miss Ethel McMillan spent Sunday with her grandmother Mrs P. Droppo, Elma.

Mrs. Elgin Herriman and daughter Olive spent Wed. eve with Mrs. Chas. Bouck.

Mrs. Whitteker of Williamsburg daughter, Mrs. C. Bouck. is spending some time with her

CEDAR GROVE

Mr. and Mrs. Jas. O'Shaughnessy, Toledo, Mr. and Mrs. Fred Schaffer Miss Doris and Master Ernest of Brockville were the week-end guests of Mr. and Mrs. Ross Dafoe.

Mr. and Mrs. E Pier, 3rd Ave., spent the 28th with Mr. and Mrs. F I Dafoe.

Mr. and Mrs. F. McConnell and Miss Muriel visited Mr. and Mrs. A. Fickes, Newington, the 28th.

Mr. and Mrs. Fred Runions and family of Detroit, Mich., spent the past week with Mrs. Runion's parents, Mr. and Mrs. Selim Shaver.

Miss Muriel McConnell is spending a week with friends in Massena, N. Y.

Mr. and Mrs. A. H. McMillan and family, Finch, Miss Leitha Warner, North Valley, Mr and Mrs C. S. Mc Connell and baby Wanda ofMassena, were recent guests of Mr. and Mrs. F. McConnell.

Mr. and Mrs. Henry Flett and family, Iroquois, were guests of Mr. and Mrs. Frank Dafoe, Tuesday

School re-opened on Thurs. Sept. 1st, with Miss Jean Armstrong as teacher.

Miss L. Dafoe spent the week-end with Miss Florence Shaver, 2nd Con.

Mrs. R. F. Gallinger and Miss Fern of Gallingertown, visited Mrs. F. McConnell, Thursday.

Mr. Ernie Wells, Aultsville, called in the Grove on Saturday.

Mr. and Mrs. Frank Dafoe and baby Keith visited Mr. H. Flett, Iroquois, Wednesday.

Guests of Mr. and Mrs. M. Beckstead the 28th were Mr. and Mrs. Ross Swerdfeger and family of Froat burn, Miss Flora and Master James Styles, Great Bend, N Y.

PAYNE VALLEY

Mrs. H. Holmes and daughter Helen of Winchester, are spending the week with her aunt Mrs. Geo Eligh.

Mr. Geo Eligh and daughters Mae and Ruby spent Sunday with the latter's sister, Williamsburg. Mrs. Eligh accompanied them home after spending the past two weeks with her daughter.

Mrs. George Shaver spent one day this week with her daughter Mrs. J. D. Shaver.

Mr Donald Shaver spent a few days last week at Cornwall.

Mr. and Mrs. G. Eligh, Mae and Ruby, Mrs. H. Holmes, and Helen spent Tuesday with friends at Grantley and Hoasic.

Mrs. W. Meldrum spent Friday with her sister, Mrs. Ernest Rombough, Newington.

Mr. Donald Shaver has been spending a couple of weeks with friends at St. Catharines.

Mr. Percy Wagner, Morewood, called in our Valley on Sunday.

Mr. and Mrs. W. Meldrum, Georgina and Darlene spent Sunday at the latter's home, Newington.

Mr. Price is leaving on Wednesday for Cornwall, where he has secured a position.

Miss Georgina Meldrum and brothers Russel and Douglas, spent Sunday with friends at Berwick.

Mr. and Mrs. George Eligh spent Sunday afternoon at Mr. Ed. Ault's, Finch.

Mr. and Mrs. Herbert Barkley and son Lawrence, and daughter Helen of New York, visited at Geo. Eligh's for a couple of days.

Mrs. W. Meldrum attended the Exhibition at Ottawa.

Mr. John Haggart left for his home at Maxville on Thursday last.

Mr. and Mrs. Geo. Eligh and daughters Mae and Ruby spent Wednesday at Cornwall.

Mrs. Ed. Hanna and daughter Teressa and Mrs. Kenneth Hanna and son Fraser of Finch and Mrs. Thos. Black and daughter Edith of Colquhoun, spent Saturday at Geo. Eligh's

Mr. and Mrs. Henry Hanson of Strader's Hill and Mr. and Mrs. M. Carr and family of Grantley spent Sunday with friends in our Valley.

STRADERS HILL

Mr. John Hanson, accompanied by Dr. McIntosh, motored to Brockville with Cecil Hanson, where an X-ray of Cecil's broken limb was taken.

Mrs. Elizabeth Strader spent the week-end with her brother, Mr. Ross Hanson.

Mrs. Jim Hayes is spending the week with Mrs. Bruce Strader.

Visitors at Henry Hanson's Sunday were Mr. and Mrs. Wilbert Strader Misses Ruth and Doris, and Messrs Mahlon and Lyle.

A number from here attended the Ottawa Exhibition.

Callers at Mr. and Mrs. Ross Hanson's Tuesday were Mr. and Mrs. Jas. Beli Mr. and Mrs. A. Gallaher and children, and Mr. and Mrs. R. Merkley, Williamsburg

On Tuesday evening a party of neighbors and other friends gathered at the home of Mr. and Mrs. Irwin McIntosh to bid them farewell, as they are leaving for Watertown, N. Y.

Children Cry
FOR FLETCHER'S
CASTORIA

It Rid the System of Rheumatism

Lasting relief was obtained when the uric acid poisons were cleansed from the system by Dr. Chase's Kidney-Liver Pills.

After all there is nothing like Dr. Chase's Kidney-Liver Pills to get rid of the poisons in the system which cause pains, aches, lumbago and rheumatism. Dr. Chase's Liniment affords relief from the pain but to get rid of the cause it is necessary to go deeper and regulate the action of kidneys, liver and bowels.

Mrs. Ada Kincade, Drayton, Ont., writes:—

"For years my husband suffered from rheumatism. He tried treatment from many doctors, but received little relief. He also tried several remedies recommended, without avail. Two years ago after he had been unable to move or turn in bed for several weeks, a neighbor came in and recommended Dr. Chase's Kidney-Liver Pills. I went down and purchased a box of these, which seem to have entirely relieved him, for he has never had an attack since. I take great pleasure in recommending these pills to anyone suffering from rheumatism."

Dr. Chase's Kidney-Liver Pills—35 cts. per box, all dealers, or The Dr. A. W. Chase Medicine Company, Limited, Toronto, Canada.

In Case of

Accident

on the Highway

If you cannot produce your Motor Vehicle Operator's License when called upon, you are presumed to be an incompetent Driver

Always carry your Motor Vehicle Operator's License when driving a car. Your license is your authority to drive. It is illegal to be in charge of a car without it.

In case of accident or infraction of The Highway Traffic Act, your Motor Vehicle Operator's License will be called for at once by the traffic patrol or policeman. At any time, on the highways or on town or city streets, officers of the law may ask you to produce it. If you are unable to do so, you are subject to a fine.

If you have not yet applied for your Motor Vehicle Operator's License, secure it at once. Application forms can be had at any garage. Anyone who has driven 500 miles, and for 6 months continuously, and who has no physical disability which may interfere with the operation of a car may be granted a License. Examinations will be given to all other applicants.

The Motor Vehicle Operator's Licenses are a measure of protection of yourself and all others on the road. Identification of drivers will lead to the weeding out of the incompetent and reckless.

THE HIGHWAYS MUST BE KEPT SAFE

"The Government is determined, through the Highways Department, to put a stop to reckless driving and to secure for the average citizen the maximum of safety when travelling on the roads"—The Hon. G. Howard Ferguson, Prime Minister, in the Toronto Globe, August 19, 1927.

All at Sea

by Carolyn Wells

WHAT HAS GONE BEFORE.

Death strikes Garrett Folsom while bathing with a party at Ocean Town, N.J. At the Hotel Majusaca, where they had been guests, an inquiry is begun, after a doctor, perfunctorily examining him on the beach, pronounces him dead.

Folsom's companions had been Roger Neville, Mrs. Helen Barnaby and Carmelita Valdon. It is established that Folsom, just before his death, had been standing next to Ned Barron, known as the copper king.

Folsom's sister, Anastasia, is sent for in New York. Then the startling announcement is made that Folsom had been stabbed to death in the water. Ross, his valet, is questioned, as are Barron and his wife, but no light is shed on the mystery.

Anastasia Folsom, eccentric and masterful, takes command. An inquest is ordered and many attend.

NOW GO ON WITH THE STORY.

CHAPTER XV.

The first witness called was, of course, Doctor Manning.

He testified that he was in the ocean for his daily salt-water bath. That he heard a commotion near him.

"Just what was the commotion?" the coroner asked. "Describe it, please."

"It's not easy to describe," Doctor Manning said, thinking deeply. "For the roar of surf drowned most other noises or distorted them beyond discernment. But, as nearly as I can recollect, I heard two or three people scream in what seemed to me a different way from the hilarious shouts of the bathers. Then, as I looked toward the noise I heard, I saw two of the life guards swimming vigorously that way. They seemed to be intent on some errand, so I watched them. They went directly toward the rope and diving beneath the surf came up immediately, bearing what seemed to be the unconscious body of a man. Though naturally somewhat interested, I paid little attention to it. But a moment later one of the guards came down to the edge of the water and called out:

"'Doctor—is there a doctor here?'

"Realizing the need for immediate medical service, I hurried to the beach and found the man who had been carried there wrapped in a blanket and lying on the sand. I saw at a glance that he was dead. I felt his heart and his pulse and then, assured that life was entirely extinct, I told them so, and, as there was no further request for my services, I went back into the ocean. Then, after my bath(as I had a luncheon engagement, I went away and did not return until late in the afternoon.

"Then the management of the hotel asked me for a certificate of death. This, of course, necessitated a more thorough examination, and then I discovered that death had followed a stab in the abdomen of the deceased man."

"With what sort of a weapon, Doctor Manning?" asked the coroner.

"So far as I can judge it was a long sharp-bladed knife or dagger. I should say a knife because the incision that it made is wider at one end than at the other. This incision is rather more than an inch, proving a sharp instrument, whose blade was a little over an inch wide. The incision is a clean, straight cut, but one end of it is perhaps an eighth of an inch and the other of no width at all. This shows, apparently, a blade like a knife blade, with only one cutting edge. Not like a dagger blade, which has two sharp sides."

"Could this have been the instrument of death, Doctor Manning?"

The coroner held out to him a long sharp knife, much the size and shape of a carving knife, a small one, such as is known as a steak carver.

Doctor Manning took the weapon in his hand and examined it closely. "So far as I can judge," he said, "that is precisely the kind of knife that would make the incision I discovered on the dead man."

A breathless silence fell on the audience.

"This knife," the coroner proceeded, "was brought to me a few moments before this inquest was opened. It was given me by a man who is now before me. Mr. Tracy, will you tell of finding this knife?"

A little embarrassed, Stephen Tracy stepped forward. He was the man to whom Miss Folsom had talked that morning, but who then had said nothing of the knife.

"I stood near Mr. Folsom when he went under yesterday," Tracy said, "and not long after that I felt something on the sand under my feet. I stooped down and picked it up, and it was that knife. I didn't turn it in at once, for at first there was no thought of the gentleman being stabbed. Then later, when I heard what had happened to him, I thought—I thought that might be the weapon that was used. It's a—a carving knife, I suppose."

"No, Mr. Tracy," Jepson informed him, "it is not a carving knife. At least, I have never seen a carver of that kind of steel, or with such workmanship. And the handle, or hilt. If you notice you will see that it is of ivory, carved with a design and an inscription. Carving knives are not like that. This weapon, Mr. Tracy, is a pichaq."

"A pick ax!" cried the bewildered witness.

"No. A pichaq, which is a dagger of rarity and value, from some Persian or Turkish country."

There was a stir in the back of the room, and a man rose in his place.

"May I interrupt," he said, in a low, clear voice, "to ask if the pichaq in question will fit this scabbard?"

Stepping forward, he handed to the coroner a scabbard of metal and covered with worn velvet of a violet color. The pichaq, as it was called, fitted it so perfectly there could be no doubt they were made for each other.

James Hubbard, the coroner, experienced a decided feeling of satisfaction as he inserted the wicked-looking blade into the ornate scabbard and found them a perfect fit.

"At last," he thought to himself, "we have a clue."

Aloud, he said:

"Will you give me your name, sir?"

"Certainly," returned the man who had produced the scabbard. "I am Everard Meeker, of Portland, Me. I am staying at the Victoria Hotel, in Ocean Town. I have been here a fortnight or so."

"And where did you get the scabbard you have just handed me?"

"I found it in the ocean yesterday soon after Mr. Folsom had been carried ashore."

"Near where Mr. Folsom had been standing by the rope?"

"Not very near that spot. Perhaps a hundred feet away."

Mr. Meeker was a tall, portly gentleman, with the general effect of a prosperous business man. He had a pleasant adress and a genial twinkle in his eye. Although he seemed to realize the gravity of the situation, he also seemed to enjoy the mild sensation he was creating. His interested gaze swept the crowd of attendtive faces as he stood with one hand on the coroner's table.

"You found this in the ocean?"

"Yes. I chanced to step on it in much the same way, I suppose, as Mr. Tracy stepped on the knife that belongs to it. As has been said, Mr. Coroner, that knife or dagger is the eapon knonw as a pichaq and is of Oriental manumacture. Now, personally, I can tell you no more of the matter than that, except that I can tell you where that dagger came from."

"Please do so, Mr. Meeker."

A hush fell over the assembly as they awaited the first real information regarding the weapon that, in all probability, was the one that had killed Garrett Folsom.

Miss Folsom stared at the witness, until it almost seemed her eyes would bore into him. She looked like an avenging fate as her strong, stern face set itself into an expression of accusation.

THE CORONER HELD OUT TO HIM A LONG, SHARP KNIFE.

Yet it was obvious that the man, Meeker, could not have been implicated in the crime, or he would not have offered the scabbard of the weapon as evidence.

"It came," Everard Meeker stated, "from a shop on the boardwalk. It was sold there Thursday evening, at an auction of Oriental curios. I was at the auction as I am, in a small way, a collector of rare objects of art, and especially interested in Oriental metal work."

"And you know this dagger and its scabbard, together, were sold there that night?" Hubbard eagerly inquired.

"I know it was in the collection that was sold that night. I examined the whole collection before the sale, and I remember perfectly well that pichaq, with its carved ivory hilt and its worn violet velvet scabbard. A pichaq, as you may or may not know, is a weapon shaped almost exactly like a small carving knife. I has a straight blade, not curved, and is a type made in India, Persia or Turkey in the eighteenth and nineteenth centuries. Any collector of arms would recognize it at once, but to the layman it looks astonishingly like a steak carver."

"Your information, Mr. Meeker, is of the greatest impotrance. Have you any idea who bought this—er—pichaq?"

"No, it was sold after I left the auction room. I went there for the express purpose of acquiring an Indian parade dagger, that I desired. I bought it within the price I had set as my limit, and greatly pleased with my purchase, I went home."

(To be continued.)

A NEW FROCK FOR THE JUNIOR MISS

Extremely smart is this chic one-piece frock having the two-piece effect. The skirt has an inverted plait at each side of the front and back, and is oined to the bodice, having a centre front opening, vestee, patch-pockets, long tight-fitting sleeves finished with shaped cuffs and a narrow belt. No. 1633 is in sizes 8, 10, 12 and 14 years. View A, size 10, requires 2⅜ yards 39-inch, or 1¾ yards 54-inch material; View B requires 1⅜ yards 39-inch plain material, and 1¼ yards 39-inch contrasting. Price 20 cents the pattern.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Unkind of Him.

"Guess you've forgotten you owe me five bucks, eh, Bunkie!"

"Now, there you go! I had almost forgotten it and now you had to up and remind me of it again."

Considerate.

Maud reached for the telephone and demanded a number.

"Is that you, Edward?" she asked.

"Speaking," he replied.

"You remember I told you last night that on no account would you be permitted to enter our house again?"

"Shall I ever forget it?" replied Edward

"Well, we have decided to move, and I thought you might like to know our new address"—Tid-Bits.

Minard's Liniment for scaly scalp.

College To-day.

Visitor—"Nothing stirring on the campus, I see. Vacation is on?"

Student—"Not much. The crew has gone to Billowpoint,, the baseball team is on the southern trip, the track squad is trimming everything in the West, and 90 per cent. of our faculty is attending scientific conventions abroad—the highest percentage of any American university."—Outlook.

"Each father must decide what heritage he leaves his children. But after all he can leave them only what he can leave, and Fate seems to be working it out that it will be for my children to judge at their maturity whether their father did well by them by following the urge for hazardous scientific adventure which now impels him."—Commander Richard E. Byrd.

The Dance of the Hopi Dolls

But of those things that should be dealt with gently, the tiny shows that the vacationist seldom sees and Bureau has never head of, I recall the Dance of the Dolls.

One afternoon, at First Mesa, I came along a trail toward the witch's camp, meaning to start for home once the team was harnessed. I met an Indian of the district walking with my interpreter, and was about to give direction concerning the horses when the latter said:

"He want you to stay and see the Doll's Dance."

Now I had quite a collection of Hopi dolls, those quaint figurines carved with some skill from cottonwood and dressed in the regalia of twig and feather and fur to represent various katchina of the clans. But I had never heard of a dance devoted to these little mannequina.

"What sort of dance is that?" I asked.

"It is called the Dolls-Grind-Corn dance," he replied. . . .

This interested me. I could see that the interpreter longed to remain overnight among his people and to take in this show.

"Well," I said, "is it worth climbing the mesa in the dark?"

"I think you will like it," he answered; "it is a funny little dance and the children go to see it."

So I did not order up the team.

After supper, when the twilight had faded into that clouded blackness before the stars appear, I scrambled after my guide up the mesa trail. When we reached the end of that panting climb, the houses of the people were murkily lighted by their oil lamps, but most of the householders were abroad, going toward the various kivas. To the central one we went, and down the ladder.

The place was lighted by large swinging lamps, borrowed for the occasion from the trader, lamps that have wide tin shades and may be quickly turned to brilliancy or darkness by a little wheel at the side. I had expected to find it a gloomy place, whereas they had arranged something very like the lighting of a theatre. It was a trifle difficult to find a place in that crowded vault. The far end was kept clear, but the two long sides and the ladder-end were packed with Hopi women and their little ones. Just as I have seen in our theatres, the children could scarcely repress their nervous interest, now sitting, now standing on tiptoe, turning and watching, as if this would hasten matters.

I seated myself on the lower hung of the ladder, believing this place would be most desirable from my point of view because from it I had a view of the kiva's centre and could most easily make my way to the upper air when things became too thick. A crowded kiva is rather foreign in atmosphere when filled to capacity and with lamps going. But I soon found that I would be disturbed. From above came the noise of rattles and the clank of equipment, calls and the shuffling of feet. A line of dancers descended upon me. I moved to let them pass into the lighted centre-space. They were garbed in all the color and design of Hopi imagination, and wore grotesque masks. They lined up, and I sense their mission was one of merrymaking. Two clowns headed the band and soon had the audience convulsed. They hopped about, postured, and carried on a rapid dialogue. There was a great deal of laughter. . .

Then the dancers filed out, up the ladder and away.

"They go to another kiva," said my companion.

And almost immediately came another and different set of funmakers. They took the centre of the kiva and soon had all laughing at similar jokes and grimaces . . I arose and was about to depart; but my interpreter pulled me down.

"Wait!" he urged. "They will put out the lights."

This time the dancers did not leave the kiva. One of them came to the lamp just above me, and at a signal all the lights were dimmed. The kiva was in thick darkness. One could hear childish sighs of expectation. Perhaps the lights were off for thirty seconds, although it did not seem so long. Then they flared up to reveal a curious little scene that had been constructed in the dark. I had not noticed that the dancers packed anything in with them. The setting may have been in that crowded kiva all the time; but where had it been concealed?

At any rate, it was a queer little show like that of our old friend Punch. There was a painted screen of several panels, and in the centre ones were two dolls, fashioned to represent Hopi maidens. Before each was the corn-grinding metate. And farther extended on the floor before them and their stone tub was a miniature cornfield, the sand, and the furrows, and the hills of tiny plants.

Hardly had the first sigh of pleased surprise from the children died away, when, even to my astonishment, the dolls became animated, and with odd life-like motions began to grind corn, just as the women grind daily in the houses of the villages, crushing the hard grain between the stone surfaces of the metate and the mano. These mannequins worked industriously and with movements not at all mechanical. Then a little bird fluttered along the screen, piping and whistling. Shrills of delight from the youngsters, to be followed by audible gasps, for from a side panel came twisting a long snake, to dart among the corn hills of the scenic field, and then to retreat backward through the hole from which it had appeared. These actions followed each other in quick succession. The fellow behind the screen was quite skillful in working his marionettes for the delight of those children of the tribe.

Perhaps in all this there was some deep-laid symbolism, checking rigidly with the North Star and the corn harvests of the past and future. Perhaps it was a primitive object lesson, to encourage thrift and industry as a bulwark against famine. But if you ask me, I saw in it exactly a repetition of the district schoolhouse or country chapel at holiday time, when Cousin Elmer obliges with a droll exhibition of whiskers and sleigh-bells and cotton snowflakes. Sometimes the Hopi at these festivals for children give them presents too, and a handful of piki-bread bestowed by a clown, however bizarre his facial appearance, has all the gift-wonder of our childhood Santa Claus and his treasure-pack.—From "Indians of the Enchanted Desert," by Leo Crane.

Sir Harry Johnson

The British Empire has lost one of its most eminent servants by the death of Sir Harry Pohnston, G.C.M.G., K.C.B. His record as consul, commissioner and administrator in various parts of British Africa is a record of great achievement accomplished with modesty and with a thoroughness that set a new high water mark in colonial service. He equipped himself for his life's task by penetrating alone into the heart of the Dark Continent. He was of he type born to command. His skill in conciliating natives and in adjusting grievances became proverbial on both the East and West Coasts The crowning success of his active career was perhaps the consolidation of the British Central Africa Protectorate.

In addition to his labors in the colonial field, he was also a most active author, and his range was remarkable. He made many valuable contributions to the literature of Africa; he wrote extensively upon problems of administration; he added largely to the authentic history of the African peoples; and he was also the author of an entirely new type of novel, in which plots of famous novels by bygone authors were developed and carried up to the present time. It was an experiment, but it succeeded beyond his expectations. His official life was a model of what can be done among hostile peoples by the exercise of firmness, courage and humanitarian principles. He enhanced, wherever he served, the reputation of the Empire as a symbol of justice, conciliation and peace.

Minard's Liniment for sore feet.

Nine hundred thousand cases of lemons are due to arrive from South Africa. It is hoped that the audiences at the various entertainments will not neglect the opportunity of ridding the country of the saxophone menace.

NOVA SCOTIA LASHED BY TERRIFIC GALE

Eight Lives Known to be Lost But Full Toll Expected to be Many More

DAMAGE HEAVY

Works of Man on Both Land and Sea Yield to Storm's Fury

Wednesday saw our Maritime sister province, Nova Scotia, in the throes of a gigantic gale. So severe was the storm that several lines of communication were disorganized so that full reports are not yet forthcoming. Enough is known to be sure that the storm was general and that fishing towns along the coast, over a wide area have suffered. Several small boats were wrecked and the life toll to date is known to be eight, though grave fears are entertained that a complete check-up would increase this number materially.

More than a score of small boats are known to have sunk off Cape Breton. Sixteen fishing vessels went down in Louisberg harbor, while five others either sank or went ashore at North Sydney. The schooner Ella Deveaux was sunk at its wharf in Sydney harbor, and several yachts foundered or went aground at Baddeck.

The coast along Digby County also was a scene of havoc. All the fishing boats sailing out of Tiverton were forced to abandon their gear, and one yacht owned by James Merkel of Digby drifted ashore and became a total wreck.

Halifax city and harbor received the full force of the tempest. The schooners J. C. Weston of Calais, Maine, and Clementia, of Halifax, piled up on the shore, and the four-masted vessel Veronica dragged her anchors and crashed into the schooner W. H. Eastwood. Fourteen or more motorboats were smashed into matchwood.

Uprooted trees, broken windows and debris throughout the city bore testimony this morning to the strength of the wind. A traveling circus which was parked on the commons was wrecked, but the most serious result of the storm here, aside from the damage sustained by shipping, was the collapse of the huge steel crane at Pier 9. Fortunately no one was in its path when the massive structure tumbled over.

Train service over both the Canadian National Railway and Dominion Atlantic Railway systems was in most cases greatly impeded and in many wholly paralyzed, due to numerous washouts.

Newfoundland and Prince Edward Island were cut off from communication with Halifax until around noon and Cape Breton remained isolated from Halifax until shortly before three o'clock.

GALE GENERAL.

Reports from Charlottetown claim heavy damage in the "Island of the Gulf," while as far south as Boston despatches talk of waves "40 feet high." It will be days before a full report is possible.

Sir Thomas Willes Chitty
The King's Remembrancer, who is visiting Canada.

Canada's Best

OUR THREE POSSIBLE OLYMPIC REPRESENTATIVES

From left to right, Miss Fanny "Bobby" Rosenfeld, the best all-round girl athlete in Canada; Miss Catherwood, certainly the best high jumper in Canada and probably the best in the world, and Mrs. Bert O'Neil—Rosa Gross—who was last year the best girl sprinter in America, and who is still looked upon as a sure winner of the Women Olympic sprint championship next year, if she goes over on the Canadian team. Miss Catherwood leaped 5 feet 1⅛ inches recently and the critics say she will surely break the world's record at the C.N.E. meet.

LORD CHIEF JUSTICE CASTIGATES THE PRESS

Lord Hewart of Bury Says Press is "Monster Working Mischief"

PREMIER REPLYS

Toronto.—At a luncheon held in honor of the visitors to the Canadian Bar Association, Lord Hewart, with scathing wit and knife-keen irony, accused the Press of nearly everything that was reprehensible.

MONSTER WORKING MISCHIEF.

He pictured the printing machine as a monster working mischief not only in the realm of domestic relations, but also in international affairs. Most of his Lordship's discourse was directed against the alleged deficiencies of the press— its tendency to standardize thought and eliminate human individuality. He admitted that he hoped to return to Canada and on his return he said, with a subtlety that evoked roars of laughter from his hearers, he would say something on the good side of newspapers and in the meantime would endeavor to find out what that "good side" was.

SEES DANGEROUS POWER.

A brilliant piece of imagery was achieved by his Lordship in visualizing the mechanical perfection in the production of a modern newspaper. He referred to the spotless white rolls of newspaper that went into the printing presses and came out "like snowflakes soiled with fog." He referred to the fact that any person, no matter what his natural capabilities, could acquire a printing press and give his prejudices and caprices wide effect. Such a newspaper proprietor, he said, could not only devastate private lives by means of his instrument, but could work untold mischief in the field of international affairs.

PREMIER MAKES DEFENCE.

In response, Premier Ferguson said that while endorsing the vote of thanks, proposed by Col. Alex. Fraser to his Lorship, he ventured to inform the Lord Chief Justice that in this country journalism had not gone entirely to the "bow-wows," as it had—judging from his Lordship's remarks—in the Old Country. Premier Ferguson said, borrowing from his Lordship's expression: "Our newspaper press, with one conspicuous exception, had, in his experience as a public man, conducted itself admirably." It was true, he said, that some representatives of the press had written his own obituary as a public figure, prematurely. But this had been an exception. Some newspapers hereabouts, he added, were given to "ante-mortem" obituaries of public men. But the intelligent portion of the population paid little attention to them. Of the Lord Chief Justice's castigation of the press, Premier Ferguson said: "Never have I heard a greater masterpiece of serious humor."

Lord Hewart
Chief Justice of England, who is visiting Canada to attend the Bar Association meetings.

Imperial Preference

Quebec Evenement (Cons.) — Britain is our second client, and we ourselves buy much less from her than we do from the United States. This is a result of the geographical situation, of the influx of American capital into Canada and the weakness of theh commercial ties which bind Canada to the mother country. When the Canadian nation acquires a more practical sense of what is best for it, it will protect its competitors better against American competition. And when Britain understands more fully what are its Empire interests, it will offer more substantial advantages to the trade of its associations overseas. The commercial imperialism of Chamberlain, which Baldwin discreetly forecasts, must win out if London wishes its influence to remain paramount in the world.

Now the frost is on the pumpkin—in Argentina.

Is Brazil Flyer Lost? No News Yet

Out Long Enough To Exhaust Gas Supply

Brunswick, Ga., Aug. 28.—Good wishes of two continents for the success of Paul Redfern in his ambitious undertaking, a flight from Brunswick to Brazil, tonight had changed to hopes for his safety. More than 25 hours overdue, his backers and well-wishers agree that no miracle of aeronautics could have kept him aloft until now.

The green and gold monoplane, "Port of Brunswick," was stocked with fuel for 52 hours as an absolute maximum, and tonight his whereabouts had been unknown for a full day more than that.

No direct word was heard from the Stinson-Detroiter monoplane after it left the beach here at 12.46 o'clock Thursday afternoon. A ship reported sighting the plane a few hours later, but since that time nothing has been seen or heard of the plane.

Mrs. Redfern, naturally anxious for her husband, had not relinquished hope, and today had not replied to offers from a commercial aviation firm at Miami, Fla., to make an extended seaplane search on the Lower Bahamas.

The Coast Guard station at Fort Lauderdale, Fla., also has offered its equipment for use in the search.

Airmen returning to Miami last night told of gales that had swept Redfern's plotted course. The opinion was advanced that if the high winds had not brought him down they had forced hi mout of his course.

England and France Disagree on Rhine Troops

London.—An exchange of notes between Great Britain and France has indicated that the British and French Governments as yet do not see eye to eye in the question of removing German complaints concerning occupation troop numbers in the Rhineland.

Great Britain, it is stated, is anxious to carry out the promise of the Ambassadors' Conference of 1925, which would involve a reduction of the forces of occupation to 5,600. The latest note from France in the Anglo-French diplomatic exchanges, which have continued for nearly a month, suggests that the French troops be reduced by 5,000, with the expectation that the same number of Anglo-Belgian troops be withdrawn.

Great Britain considers these figures disprpoortionate and at the same time inadequate to remove German complaints.

Electricity never used to be popular on the farm, as lightning rod agents of the past can testify, but nowadays the modern farmer presses a button to do many of the things his father used to do by hard labor; then there is, of course ,the radio. So runs the current of progress.

Co-operation between the city and the country is much to be desired. Business owes much to the country, and the debt should be freely acknowledged. Unfortunately, the initiative in co-operative movements of this kind must most often be taken by the bold business man. Let us not be bashful.

Board Stirs British Buyer

Profit to Each Empire Unit Aimed at by Campaign Based on Research

London.—Appointed just a year ago with a membership representing every part of the British Empire, and with a guaranteed fund of £1,000,000 a year, of which any unexpended balance might be kept for future use, the Empire Marketing Board would seem to have made a good start i nits first year. The Imperial Economic Committee, which provided several members of the board, had foreseen that mere propaganda and publicity would not be sufficient, and recommended that a substantial part of the new board's revenues should be devoted to research.

With this end in view, the board has adopted the policy of making grants for research and has been guided by the different government organizations best qualified to advise it. It has sought to insure that the research work to be aided should be of interest, if not to the Empire as a whole, at least to more than one part of it.

The grants have been made to institutions whose works cover a very varied field. They include tropical and sub-tropical research; low temperature in connection with transportation problems; the keeping quality of fruits; economic botany; animal husbandry—with which is connected the mineral content of pastures; research regarding poultry, bananas and dairying ;economic investigation into the marketing of agricultural products; co-operative marketing; and seed growing. And under these main headings are many sub-headings.

The board has refrained from any ambitious and costly publicity campaign, regarding it as useless to tell the public to buy Empire produce unless it is obtainable in the shops, good in quality, and reasonable in price. This side of the work, however, is extending, and the board's posters are spreading their appeal to the public, which every advantage is taken of exhibitions, Empire shopping weeks, window - dressing competitions, lectures, and free literature.

Frederick Palmer
The British engineer who, after a trip to Hudson Bay, recommended the use of Fort Churchill as harbor terminal of the railway.

Russia Will Not Send Delegates

No Soviet Representatives to Attend Geneva Conference

Geneva.—Russia has again changed her mind and will not be represented at the League of Nations communications and transit conference. Foreign Minister Tchitcherin withdrew his original acceptance because he found non-members of the League would not have the same voting power as members.

The League received a note from M. Tchitcherin expressing regret at "being obliged to go bock on the decision," and asking for all information bearing on the conference. Acceptance of the League invitation by the United States is believed to have caused M. Tchitcherin to change his mind.

Manitoba Plans Old Age Pensions

Legislation May be Brought Down at Next Session

Winnipeg.—Payments of old age pensions on the general basis of the legislation passed by the Dominion Parliament last year is planned by the Manitoba Government.

The legislation would provide for pensions of $20 a month to residents o fthe province 70 years old and over. It may be brought down at the next regular session of the Legislature, but it is thought more likely that it will wait over until the following session.

"To be slim and remain so is the aim of every modern woman," says a female scribbler. " 'Slim' means sly, as well as slender," adds a cynic.

ATLANTIC CONQUERED AGAIN A GLACE BAY-CROYDON HOP

Detroit Oil Man and Pilot Successfully Span the Treacherous Pond

London, Aug. 28.—Edward Schlee and William Brock stepped out of their monoplane, Pride of Detroit, at the Croydon Airport at 10.55 o'clock this morning as calmly as though they were members of a personally conducted tourist party.

In 22 hours and 55 minutes they had flown 2,531 miles between Harbor Grace, Newfoundland and Croydon, partly through erce storms, and had been delayed nearly three hours by being lost over England. But they had successfully accomplished the first and hardest leg of their round the world race for a new record. Only the Pacific hop will be longer.

FLIGHT ACROSS ATLANTIC.

The flight of the first airmen to cross the Atlantic frim the American Continent to London was characterized by remarkable success. Both fliers are more than encouraged, and are confident they will succeed in looping the earth. Here is the composite story of William S. Brock and Edward F. Schlee as told to the Associated Press correspondent immediately after their landing:

"We had wonderful flying weather at the start, but han into which might be called a hurricane during the night, which made us both sit up and take notice. This was some hundreds of miles off the coast of Ireland, and at times in looking out of the cockpit it was like glancing at a blanket of inky black. It was the darkest, bleakest night either of us had ever experienced.

SCHOOL OF PORPOISES.

"The first three hours of the jour ney were splendid, delightful, full of anticipation. We were naturally quite thrilled with the getaway, and as e sailed along at about 110 miles an hour we enjoyed every minute, until we began to encounter mists and fogs and things. Why, the weather some hundreds of miles off Newfoundland was so pleasant and delightful for flying that we descended so near to the water, that we got a good view of a school of porpoises out for their morning spin.

"Bad weather was encountered for about 1,200 miles of the flight. One of the worst spells of fog and sleet was somewhere about mid-Atlantic, and we manoeuvred up and down at various heights trying to get out of this.

"Long before daylight we calculated we were somewhere over Ireland. Our height was about 5,000 feet. It was cold and misty up there, freezing, in fact, but the winds were still favorable for us and we were beating along at a merry pace.

SIGHTED GREEN COUNTRY.

"Just at break of day we sighted land—green country land. We had no idea where we were. It occurred to us that we might be off our course more than we gured—that we might be over France or Spain. It was quite foggy at this time, very misty, and for a while seemed to be getting worse. We cruised about until sun-up, round and round for about three hours, when we sighted a sandy beach. We decided to drop a mssage in an effort to ascertain our whereabouts. Accordingly, Brock wrote a note on a piece of cardboard and we dropped the message overboard asking where we were and what country we were in sight of, and requesting those on land to write the name of the country in the sands.

"The wind carried this and a second note away, ad. Brock wrote a third message. It worked like a charm. Coast Guard men and some early risers did the best they could and wrote great letters in the sand spelling out the word 'Seaton' with something white. But we could find no such place on our maps.

"We cruised round and round again and then someone down below had a bright idea and hoisted the Union Jack. And that is how we knew we were in England.

COAST OF ENGLAND.

"Afterward we got our bearings and identified the coast as part of Devon, on the south coast of England, and then we struck off northeast, going perhaps a little more north than we intended, and the first thing we knew we had encountered the Bristol Channel—a neck of it somewhere near Weston-super-Mare. From there we headed due east, skirted the suburbs of London and sighted the Croydon Aerodrome, where the great red aerodrome light, which had been blinking all night for us, were still blinking, and we were glad that the end of the first stage of our round-the-world trip was near.

"We made a great sweep over the aerodrome, came up to the wind blowing from the southeast, and five minutes later we were being hugged and were hugging our friend Doc. Kinkade, who knows motors as well as he knows himself. Then we began to think of food—and bed."

DOMINION'S PROGRESS ASTONISHES BALDWIN

London.—Premier Baldwin has not only been delighted with his reception in Canada, but astonished at the progress of the Dominion, according to messages from his entourage sent to political friends here.

According to these private communications, the British Prime Minister found the warmth of his reception far greater than he ever expected, although he knew the Canadian reputation for hospitality. He was most impressed, however, by Canada's spirit and her actual achievement, and above all by her loyalty to the Mother Country.

He will bring back to Britain many truths as the result of his visit, and he will impress these truths upon the people here, such as Canadian optimism, lack of trivial grumbling and the determination to develop natural resources.

The Prime Minister is understood to have been particularly impressed with the international Peace Bridge ceremony, which he regards as showing that Anglo-American friendship with Canada as a corner-stone of permanent peace is assured.

Sir Ernest Craig, M.P.
Prominent English coal mine owner, who is visiting Canada with his family. He is most optimistic of the recovery of the industry following the seven months' strike of the miners.

The money which is actually saved is not nearly so valuable as the psychological effort which it produces. Saving, like mercy, is twice blessed.—Sir Ernest Benn.

A child of four has been fitted with artificial teeth. She is evidently intended for a career in musical comedy

Naval Manoeuvres Have Fatal Ending

Japanese Destroyers Collide With a Loss of 129 of the Crew

Tokio.—On Thursday night, while a destroyer attack was being practiced under battle conditions 20 miles northeast of Mihosski, the second-class destroyers Warabi and Ashi, of 850 tons displacement each, crashed at full speed into the cruisers Jintsu adn Naka, of 6,000 tons each. The Warabi was hopelessly damaged and sank in 15 minutes. Twelve officers, including the Captain, and ninety men were drowned. The Ashi's injuries were slighter and she remained afloat, though with a great gash in her bow, and 27 of her men were drowned.

The Jintsu was seriously damaged by the Warabi's impact and listed forward, but she kept afloat and was towed by the Kongi to the Maizura dockyard. The Ashi's stem was cut by the crash, but she could also be towed to dock. A salvage ship was immediately despatched from Kure naval base, but the Warabi lies in 60 fathoms and there is little hope of raising her.

The accident occurred while the combined fleet under Admiral Kwanji Kato was proceeding to Maizuro after completing the prescribed manoeuvres in the Bungo Channel. On the journey a night destroyer attack was ordered under war rules. The night was moonless, all lights were extinguished and the fleet steamed at full speed, while the defenders threw out a smoke screen, and in these perilous circumstances the accident occurred. Announcing the news to the press, the Naval Vice-Minister pointed out that the conditions were as dangerous as those of actual war.

Air Force Efficiency

London Saturday Review—(Fatal accidents in the R.A.F. are disquietingly frequent. . It is suggested that the Air Force is aiming at too high a standard of efficiency). The policy (of the R.A.F.) is to turn out a force of airmen trained to such a high pitch of performance that it is, in airmanship, undoubtedly the superior of any other air force in the world. . . . In the course of training men to this level and maintaining them there it is unfortunately unavoidable that a good many should fall by the way. . . . It is also part of the R. A. F. training policy to turn out all-round men—men that is to say, who besides being first-class pilots, are skilled in mechanics, gunnery, and so on. . . The time may have come when . . . it would be wise to establish a special engineering body to deal exclusively with the mechanical side. It may well be true that, in these days of specialization, first-class flying is an all-time job.

Tart words never get a man out of a traffic jam.

AND
JOB. TYPE-WRITING

MRS. HARRY ARMSTRONG
First Street.

Miss Mary McDonald arrived home on Sunday last from Montreal where she spent a few weeks with relatives.

Smartly distinctive and perfectly tailored—Our new Fall and Winter Coats. Finest quality Pin-point and other highest grade and most fashionable English Cloths. No. 1 Thibetine Fur Shawl Collars and Cuffs. Beautiful Silk lining and inter-lined throughout with English Flannelette. Unapproachable Values. — D. C. Bush.

Mr. and Mrs. I. Hilliard and family have returned to their home after spending the summer months at their summer home "Irwanna", Point Iroquois.

Mr. J. P. Denis, and the Misses Lapointe and Denis, motored from Fournier on Wednesday and spent a few hours with friends in town.

Coming—on the way—another big bankrupt stock will be opened in Colquhoun Block, Morrisburg, by Relyea. Sale starts 9 a. m. Thursday morning Sept. 8th, and closes Saturday night Sept. 10th—3 days only.

Miss Audrey Froats, Williamsburg is spending a few days with the Misses Burkholder.

Miss Martha Derosier arrived home on Wednesday from New York City where she has spent the past few week with relatives.

Services will be held as usual in Knox Presbyterian Church, next Sunday, Sept. 4th, morning and evening. Sunday school at 10 a. m.

Mr Raymond D. Mallen who has had a fine success as Principal of Hillson Avenue School, Ottawa West left this week for London Ont. where he will teach in the Commercial Dept of the London Technical and Commercial High School.

Mr. and Mrs. W. A. Baird of Washington, Penn., while motoring through Canada, were guests, this week of Mr. A. E. Clement

Mr. and Mrs. C. C Pickering and son John returned to Montreal after spending a few weeks with the former's parents, Mr. and Mrs. Sylvester Hutt.

Mr. and Mrs. J. Edwin Froats and family and Mr. and Mrs. Chas. Shepard and family of Pittsburgh, Pa., spent the week-end with Mr. and Mrs Lee Deeks.

Miss Ida Pariseau is attending the Fall Millinery Opening in Otetawa this week.

The Morrisburg Collegiate lost two of its popular young ladies in the persons of Miss Eileen Baker and Miss Eleanor Beckstead, who left on Tuesday eve. via Ogdensburg for Valhalla New York, to enter Westchester Hall as nurses-in training.

New and attractive Dresses and the most fashionable Dress Materials—D C. Bush.

Opal Roy, aged two and a half, was rescued from drowning in the canal at Iroquois, when she was going down for the third time, by Geo. Perrault, of that place, who has been recommended for a Humane Society medal. The little girl was loitering at the approach of the large swing bridge crossing the canal when she fell into the water.

Relyea coming to Morrisburg, with another big stock of dry goods, cloth ing, boots and shoes, for 3 days only, Thursday Sept. 8th, Friday Sept. 9th Saturday Sept. 10th. Sale starts at 9 a m. each day; closes 7 p. m.

Included in the list of honor and pass matriculation awards announced at Queen's University are names of Miss E. Irene Seymour, Brockville, who won the Williamson scholarship, No. 2 French and German, value $160 W. C. Brown, Chesterville, Day memorial scholarship, mathematics and physics.

Graham Franklin Bullis, in his 6th year, son of Mr. and Mrs. F. R. Bullis of Toronto, who was camping at Point Iroquois, was drowned in the old canal there last week. He was playing and fell into the water. After eight attempts Charlton McInnis brought the body to the surface. Drs. Johnston and Miller worked over the body, but their attempts were fruitless.

A daring robbery was committed at Prescott Thursday night, when during the absence of the night clerk from the office of the Daniels hotel, for a few moments, thieves entered the building and made away with the cash register. About $7 or $8. in change was secured.

A despatch from Kingston says—Oscar F Cook, of Cook's Auto Service has acquired the control of the United Coach Lines, Limited, as well as several private lines. The bus lines affected by the deal include those between Ottawa, Morrisburg and Prescott, and Kingston and Cornwall.

Master Keith Casselman, son of Mr. and Mrs. Ernest Casselman, narrowly escaped losing his life by drowning on Monday last, when he fell from the wharf at the ship-yards into water 12 feet deep. Upon seeing young Casselman disappear after falling in the water, a number of other boys who were playing on the wharf became frightened and their screams and call for help drew the attention of Mr. F. J Hawken, Superintendent of the Williamsburg Canals, who arrived on the scene just in time to save the boy's life. Ascertaining the spot where the boy had fallen, he jumped in, and after a short search, found the boy lying on the bottom of the canal. He brought him to the surface and administered "first aid", after which he summoned a physician, who upon examining the boy found that he was out of danger. Another life has been saved by the timely arrival of the rescurer, and it is due to heroic deeds such as this that Morrisburg has not had any deaths by drowning for a number of years. The great sacrifices by those who have risked their lives from time to time in rescue work, however, should be sufficient for parents to warn their children of the great danger in playing along the edge of the wharf.

Mr. and Mrs. S. E. Hutt of Montreal, spent the week end with the former's parents, Mr. and Mrs. Sylvester Hutt.

Opening the Season with outstanding Values in Northway Coats priced from $25 to $35.—D. C. Bush.

Mr. E. W. Dalton of Dunnville is spending the week with Mrs Dalton and little son, at the home of Mr. and Mrs. A. A. Summers.

Miss Gladys M. Bayne, Assistant Directress of Nurses of Grassland Hospital, Westchester Co., N.Y., has been visiting her aunt, Dr MacElroy

Mr. Guy Poupore of Montreal spent a few days last week with friends in town.

Miss Annie Barry returned home on Monday after spending a few weeks with friends in Hamilton and Whitby.

Mr. Edwin Hawken, Mrs. Catherine Hawken of Ottawa, Mrs. E. B. Hawken, Montreal and Mrs. A. D. Hubly of Arundel, Que., spent the week end with Mr and Mrs. Frank J. Hawken.

After an absence of several weeks, Mr. and Mrs. J. S. Jamieson and Miss Edith Jamieson, and Mr. W. H. Fetterly returned home last week, from a motor trip to the Western Coast, which included stop-overs at many places of interest in the United States and Canada.

"Orient" or "Purple Stripe" Silk Hose—all shades—D. C. Bush.

Dr. Douglas Bush is leaving this week for Minneapolis, where he is to be a professor of English in the Universities of Minnesota.

Wait for it! Relyea's big sale reopens in Morrisburg, Colquhoun's block, with bigger stock and lower prices than ever, and will continue for 3 days only—Thursday Sept. 8th, Friday Sept. 9th, Saturday Sept. 10th

Miss Marguerite Lavis, after spending the summer holidays at Allendale Farm, left on Tuesday last for Sundridge, Ont., where she has accepted a position as teacher.
