First Semi-Final Game Ends In Tie

In the first game of the Town League semi-finals, played at the local Arena on Monday night, Walter MacDonald's Frost & Wood team overcame a four-goal lead at the end of the second period to tie Metcalfe 6-6, and as a result, both teams will start tomorrow night's contest on equal footing. This two game total-goal series will be to determine which team opposes the Cubs in the final series for the Melvin Cup, emblematic of the Town League championship. It was won by Williamsburg last year. The finals will start on Monday, and will be a two-out-of-three game series. The second game is scheduled for Wednesday and the third for Friday of next week, if necessary.

In the first two periods of Monday's game, the Frost & Wood team appeared to be all disorganized and lacked scoring punch. Their defence was weak and as a result, Metcalfe rammed in five goals to their one. As the series is determined on the total-goal basis, the Frost & Wood's chances of pulling out of the hole with only one period left looked hopeless to their supporters.

However, they came out in the third period, determined to reduce their opponent's lead. They injected a little system into their play and went out after goals. One by one they whittled Metcalfe's lead and when the gong sounded to end the game, the score was 6-6.

The line-ups follow:

Metcalfe—Goal, G. Quart; def., Woods end Wilson; centre, E. Docksteader; wings, A. Clarmo and R. Kirkwood; alternates, D. Carkner, F. Latour, R. Rolston, Dwight Hutt, V. Eastman, K. Cameron.

Frost & Wood—Goal, S. Helmer; def., K. Boyd and W. Wyatt; centre, G. Carlyle; wings, J. Lennox and Dixon Hutt; alternates, G. MacDonald, F. Kellogg, D. Hitsman.

Referee: Melvin Scott.

R. S. Smith, officiating. Interment was made at Maple Ridge Cemetery.

During the service, the pastor was assisted by Rev. Hector Beach, of Finch. A duet, "In The Garden," was beautifully rendered by Mrs. Arthur Adams and Mrs. Orren Casselman, accompanied Mrs. Clarence Thompson.

Last Night's Meeting.

The attendance at last night's meeting, in the local town hall, was discouraging. A fine program had been prepared, but less than fifty people were present to enjoy it. Possibly it would take a couple of heavy bombs, dropped at the corner of Main and St. Lawrence Streets, to awaken local citizens to the fact that Canada is engaged in a war—that everything that is being done by our soldiers, sailors and air force in the battle zone, is as much for Winchester as any other community in Canada.

The purpose of the meeting was to present to local citizens some of the more important points about systematic War Savings—how it can be done and why we must all take advantage of it. In addition, to the educational part of the program, which, by the way, was no dry affair, there was a splendid program of vocal and instrumental music, readings, sketches, etc. This was arranged by Mr. F. Erle Helmer.

Reeve T. O. Keyes acted as chairman, and opened the meeting with a brief, but timely address on the War Savings campaign. This was followed by a sing-song, led by Mr. Erle Helmer, with Mrs. Howard Fetterly as accompanist.

During the program, Mr. Harold Helmer delighted the audience with two selections, played on his mouth organ and guitar. Other numbers which were also well received were as follows:

Tap dancing by Miss Orma Acres, accompanied by Miss Marion Helmer.

Piano solo by Miss Dorothea Blair.

Voal solo by Miss Lillian Bruce, accompanied by Miss Sybil Empey.

Readings by Mr. Erle Helmer, "Why Should We Fight For England," and other appropriate poems.

Vocal duet by Misses Marion Helmer and Erma O'Neil, accompanied by Miss Mabel O'Neil.

A highlight of the program was a War Savings Forum. This took the form of a sketch. The scene was in the editor's office of a country newspaper, and there was a certain amount of humor intermingled with the more serious side of the discussion. The cast was as follows: Deacon Smith, Randall Wylie; Prof. Jones, Erle Helmer; Editor Brown, W. F. Workman; Banker Gildersleeve, J. J. Gray; an employer of industry, Milton Fennell.

Following the forum, brief, but interesting addresses were given by Messrs. E. J. Spinks, W. J. Stewart and Capt. F. M. Cass.

Councillor Hy. Bessin, speaking on behalf of the council, announced the names of the local canvassers, and read a letter from the War Savings Committee at Ottawa, asking that the local canvass be concluded by Friday and a report sent to them at once.

Reeve Keyes announced that a meeting of the canvassers would be held today, when final arrangements would be made.

The singing of the National Anthem brought the meeting to a close.

Howard H. Nesbitt Has Retired As Chairman Of St. Lawrence Sanatorium Board Of Governors

At the final meeting of the Board of Governors of the St. Lawrence Sanatorium, held the latter part of December, Mr. Howard H. Nesbitt, notified the members that he was retiring from the office of Chairman of the Board.

Mr. Nesbitt's retirement came after six years of faithful service on the Sanatorium Board. During that period he had missed only two calls to business—and these were during the illness and death of his wife.

When the United Counties of Stormont, Dundas and Glengarry decided to erect the St. Lawrence Sanatorium in 1934, they selected Mr. Nesbitt as their key man and in due time he was appointed Chairman of the Board of Governors. Mr. Nesbitt's appointment to this position did not come as a surprise to those who knew him. As a member of Counties' Council, and as its Warden, he had exhibited keen judgment and marked ability in conducting the affairs of Counties' Council, and his qualifications for an office which commanded foresight and sound judgment, were soon recognized, when the Council appointed him as Chairman of the St. Lawrence Sanatorium Board.

That Mr. Nesbitt fulfilled the duties of his office with dignity and honour, cannot be questioned. The fact that the building was erected and equipped in record time, and without unnecessary expenditure, is largely due to his personal efforts and leadership.

Today the Counties have an institution for the treatment of tuberculosis, second to none in the Dominion. The large, spacious hospital is completely equipped and has a fine nurses' residence in connection. It is ideally located on the banks of the St. Lawrence River on a beautiful site a few miles east of Cornwall. It is filled to capacity at the present time with a long waiting list of patients. This has all been accomplished during Mr. Nesbitt's term of office as Chairman of the Board, and the work having been completed, with everything running smoothly, Mr. Nesbitt has retired.

The task of building and equipping the hospital and getting it functioning to the highest point of efficiency, was not accomplished without the energetic leadership of Mr. Nesbitt and those associated with him on the Board of Governors. With this thought in mind, the St. Lawrence Sanatorium will always be a monument to the memory of Mr. Nesbitt.

Howard Nesbitt's retirement comes after a long and faithful record of public service. He was first elected as a member of Winchester Township Council about 25 years ago. During that time he had fulfilled the office of deputy reeve for one year and the office of reeve for six years, reaching the zenith of his municipal career by serving as Warden of the United Counties of Stormont, Dundas and Glengarry in 1933. In 1934 he was appointed Chairman of the Building Committee of the St. Lawrence Sanatorium, and since then has served on all sub-committees, as well as general Chairman of the Board.

During his many years as a public servant, Mr. Nesbitt says he has no complaints to make. He has always received the moral support of those with whom he has been associated, and has enjoyed the work. He also pays tribute to the press, for the efficiency in reporting his activities. In his own words he says: "Not once during my life of public service, has the press misquoted me."

With his many friends throughout the United Counties, the Press joins in wishing Mr. Nesbitt many happy years of retired life.

Export Of Cattle To United States Attracts Attention Of Local Reeve

In a letter, published in the Ottawa Citizen on Monday, Reeve T. O. Keyes has the following comments to make regarding the exporting of cattle to the United States:

"I would like to draw to the attention of the public a condition that is being either overlooked or hidden in the press of today, namely, the export from Eastern Ontario of a large percentage of our best milk cows which at present is curtailing our butter production and will this summer be one of the prime reasons why we will never be able to deliver to Great Britain anything like the quantity of cheese they expect.

Enclosed you will find a clipping from a late issue of the Winchester Press re the export activities of an American citizen residing at Morrisburg, Ontario. This one exporter shipped over nine hundred milk cows in 1940 and the first two weeks of 1941. Stop and consider this—these cattle would have manufactured over 607,500 pounds of cheese in 1941 for Canada and Great Britain. Worse still, it can be proven that the milk from some of these cows was used in the United States in 1940 to make concentrated milk that was purchased and shipped to Great Britain.

On February 8, 1941, Dr. H. S. Barton, federal deputy minister of agriculture, said to the Ontario Breeders' Association in Toronto:

Canada will need to produce 600,000,000 pounds more of milk this year than last. There is only one way to do it and that's feed—we've got to do some fighting on the home front, before the war is done—perhaps even in the dairy barns.

On the same day the cause was being sabotaged by the export of these cows.

What the farmer needs is a fair price for his cheese and butter and he will refuse to sell for export—for if this is not halted we will be buying butter and cheese from our own cows in the United States as we were very nearly doing this winter in the case of butter."

HALIFAX'S QUALIFICATIONS

(Stratford Beacon-Herald)

Among the qualifications which Viscount Halifax brings to his new post is a keen understanding of the ordeal of reasonable men who hate both tyranny and war. He acquired this understanding in a bitter school. He hoped against hope, and over the protests of indignant critics, that Hitler could be pacified by appropriate concessions. He had the courage last fall to publish the speeches between 1934 and 1939 which recorded the stages of his own disillusionment.

A Message to the People of the Township of Mountain

If ever there was a time in the History of Canada when freedom-loving people should unite all their forces to crush the cruel and barbarous attacks inflicted upon us by one or more mad men—IT IS NOW !

Many people are wondering what they should do to further help the cause of Liberty and Democracy, and put a stop to aggression and oppression for all time.

May I suggest and urge you to get behind the campaign for buying War Savings Certificates. Every dollar you save and lend through the purchase of War Savings Certificates becomes a fighting force for Liberty and Democracy.

Delay is dangerous—Give your dollars now !

"BUY WAR SAVINGS CERTIFICATES REGULARLY"

I would greatly appreciate it, if the Clergymen and School Teachers of Mountain Township would read this message to their congregations and school classes at the earliest date.

A FOOLISH REQUEST !

At the recent session of the Counties' Council, held at Cornwall, a resolution was presented by the Stormont Cheese Producers' Association, asking for a price of 24 cents per pound for cheese. While the farmers are anxious to get, and should be given, a price for cheese that will net them a reasonable profit, over and above production costs, most of them will agree that the 24-cent request is ridiculous at the present time and that the sponsors of that resolution did not stop to consider the various angles of the present cheese market. Most of our Canadian Cheese is marketed in England—that country is fighting for its life (and ours)—its financial resources are being taxed to the limit—it can only pay so much for cheese and other farm produce which it is forced to import. Why then should Canadian farmers expect to get practically twice as much for their produce as the British market can afford to pay? We don't believe that the majority of farmers do expect this—and in our opinion, the Stormont Cheese Producers' Association overstepped the mark when they suggested 24-cent cheese—20 cents is the very limit and then Government subsidies would be necessary to make up the difference between the British Market Price and the manufacturer's price.

BY WAY OF COMPARISON

In talking to Canadians from London recently, Sir Robert Kindersley gave this country startling information about the way Great Britain has carried out a War Savings Program since the start of the war fifteen months ago. The President of the National Savings Committee in England stated that in these fifteen months the small man has saved through saving certificates, defence bonds, savings banks and a few odds and ends, the sum of six hundred million pounds—almost three billion dollars in Canadian money.

And Sir Robert made an interesting comparison when he revealed that subscriptions to large loans during that period of fifteen months was eight hundred and seventy-five million pounds.

In other words, the wage earners of old England are contributing a total mighty close to the total loaned by citizens of means, and corporations.

Even after discounting, the vast difference between the population of Canada and the population of Great Britain, Canada's attempt to secure one hundred and twenty million in a year from War Certificate loans suffers by comparison.

True, the masses of people in England have a deep incentive to provide every last available shilling for the war effort. Over there, they fully realize the threat that hangs over their freedom and their homes.

Any comparison between loyalty of Canadians to an ideal, and the loyalty of an Englishman to the same ideal, is odious. Canada has shown and will show that it is ready to sacrifice all for retention of a free democracy. But it might not be out of the way to observe that if Canadians at at the present moment were feeling the shock of war as Englishmen are now, those in authority would be setting a War Savings objective much higher than one hundred and twenty million dollars a year.

THE WATERWAY AGAIN

It is impossible not to admire the persistence of President Roosevelt. Years ago, when he was governor of New York State, he became converted to the idea of developing the power and navigation resources of the St. Lawrence River. It was rumored that the motives for his advocacy of the project were mixed. In part, he was fascinated by the magnitude of the engineering difficulties to be overcome, but he was also humanly interested in scoring a point against the New York utility corporations which had shown themselves as none too friendly towards his schemes.

Whatever Mr. Roosevelt's motives may have been, he has not wavered. When there has been an opportunity of advancing his pet scheme, he has taken advantage of it. When it became clear that the waterway development would confer no benefits on inland navigation commensurate with its cost, the emphasis was placed on the new power supplies that would be available for New York and Ontario from the development of the international section of the St. Lawrence.

Ontario was not overly enthusiastic about the power project, although Premier Hepburn, for reasons never clearly explained, withdrew his opposition. Ontario industries were not threatened by a shortage of power, and there are still undeveloped water powers within the province that can be used before there is any pressing need to embark on the St. Lawrence scheme. The mounting taxation caused by the war is serious enough, most taxpayers agree, without voluntarily undertaking another enormous expenditure.

The cold reality of Canada's present financial condition would have deterred a less persistent man than President Roosevelt from mentioning the St. Lawrene scheme until after the war. For the President's agile mind, the war simply provides another opportunity to promote the navigation features of the scheme. National defence of the United States, he finds, now entails the erection of sheltered inland shipyards, where warships for the United States navy and merchant vessels can be built in security. Deepening of the St. Lawrence canals will be needed in order to get these vessels to the sea.

Even with a 27-foot waterway, the St. Lawrence canals could not float a battleship safely from Lake Ontario to tidewater, but smaller ships could be built inland and sent to sea. Nevertheless, the St. Lawrence scheme, as part of the United States defence preparations, still appears fantastic. If shipyards on the Atlantic coast are in immediate danger from enemy attacks, the immediate need is surely for more ships and planes to protect them. Building the St. Lawrence Waterway and building shipyards on the Great Lakes would divert materials and engineering and mechanical skill from jobs where they are urgently needed now.

Neither Canada nor the United States can afford to waste time now in projects not directly related to the defence of this continent. The resources of the two countries are great and may yet prove to be the decisive factor in winning the year, but they are not unlimited. The task of providing security does not permit building castles in Spain or St. Lawrence Waterways.—The Printed Word.

* * * *

In the February number of the Canada Lutheran, George H. Challies, M.L.A. for Dundas, has an article on the St. Lawrence Waterway, with special reference to its significance to Eastern Ontario. A map of the proposed waterway accompanies the article. Mr. Challies has watched closely the course of negotiations between the United States and Canadian Governments and has kept himself informed as to the findings and recommendations of engineers.

He regrets that the report presented by engineers in 1932 was not adopted, if the scheme is to go ahead at all. Under that report a minimum of flooding would have resulted; under a single-stage development 19,000 acres more land is to be affected.

"It is," writes Mr. Challies, "of special and significant interest to all Lutherans just to ponder the fact that their first church and the first in Upper Canada will be destroyed. The Lutherans of Williamsburg township in the year 1789, five years after their settlement in this district, commenced to build a frame church."

Mr. Challies regards it as "unthinkable that a plan that would cause such havoc, grief, hardship and injustice as the single-stage plan for the development of power on the St. Lawrence will be agreed to by any government."

IF IT COULD BE DONE !

Dr. Roy L. Smith, of Los Angeles, California, comments on the huge amount of money spent on the annual purchase of liquor in the United States, and points out how this money could be put to much better use. In an article in a recent issue of "The National Voice," he makes the following deductions:

"Four billion dollars, the present annual drink bill of the nation, would provide a $6,000,000 community chest fund for each of the 50 largest cities of America, a $3,000,000 chest for the next 50, a $1,000,000 chest for the next 100, and a $200,000 chest for the next 1,000 cities.

"In addition it would provide a $100,000 play-5,000 hospitals with a sum of $100,000 for free work among the poor, and would erect a public hospital at a cost of $250,000, and provide for $250,000 endowment in each of 1,000 American towns.

"In adition it would provide a $100,000 playground and endow it with $200,000 for perpetual care, in each of 1,000 American communities.

"Having done all this it would still pay for the entire bill of the American Army and Navy, and have enough left over to pay the salary of the President of the United States, all members of his Cabinet, all members of the Supreme Court, all members of the Senate and of the House of Representatives, all Federal Judges and United States District Attorneys.

"When all this was paid there would be enough left on hand to erect and endow 2,000 public libraries at a cost of $250,000, and provide for doubling the facilities of 2,000 libraries already erected at a cost of $250,000.

"Having done all this we would still have $150,000,000 to apply on other government expenses."

On a comparative basis, Canadians spend just as much, if not more, in liquor each year— and just think of the quantities of essential war supplies this annual drink bill would provide, if it was possible to divert the money into the proper channels. With a war on our hands, Canadians would do well to reduce their purchases of alcoholic beverages—or, better still, cut out its use altogether.

EDITORIAL NOTES

One Canadian aircraft factory is now producing ten Hurricanes each week and output will shortly be doubled. The aircraft industry of this country was small before the war but it will never be unimportant again, comments The Brockville Recorder & Times.

"Before driving a nail into plaster, place it in hot water for a few minuets."—Chatelaine Magazine. "Not being good at minuets, we wonder if a couple of waltzes would do instead."—Stratford Beacon-Herald. "But as the nail's to be used to polka hole in the wall, the appropriate dance would seem to be obvious."—Toronto Star. And editors should swing for writing such stuff, says the Ottawa Citizen.

It should not be necessary to emphasize "loyalty" in the present drive to sell War Savings Certificates. Those who know investments, will readily admit that the purchase of War Savings Certificates is a good, sound, sensible and paying proposition. Any man or woman, who wants to save, or wants to get a fair return on the money he or she invests, should be only too willing to take advantage of this opportunity to buy War Savings Certificates. No, it's not a case of displaying "loyalty" when you purchase War Savings Certificates—it's a case of displaying "wisdom" and taking advantage of an opportunity that doesn't come every day. If you were asked to give your money outright, then it would be "loyalty" on your part to do so. But, in the case of War Savings Certificates, you are only asked to "lend" your money, for which the Government will pay you well. Think it over !

IT MIGHT HELP A LOT !

"Don't forget to let **our** cook get a couple of easy ones !"

GIVE THEM TIME
(Peterboro Examiner)

Col. McCormick, editor of the Chicago Tribune, appeared before the Senate Committee at Washington and said it was fantastic to claim United States faced any danger of invasion. There were a number of nice little countries in Europe which said the same thing before the Germans walked in and slipped on the handcuffs.

IT'S NOT NECESSARY
(Picton Gazette)

Is a Canadian census necessary this year? At a time when thrift is being preached by the government it would appear that this census, costing around two million dollars, might easily be forgotten. The national registration last year surely provided the government with most of the facts it desires to know and which are essential at this time.

A BOWL OF CHERRIES
(Perth Courier)

Life is just a bowl of cherries. National defence tax deductions. Income tax instalments. Both likely to be heavier next year. Then war savings certificates on the instalment plan. And, a new one coming. Unemployment insurance on a weekly deduction basis. This, said to be due for inauguration in March. Verily, just a bowl of cherries.

KEEP YOUR HEAD
(Trenton Courier-Advocate)

"If you can keep your head, when all about you, men are losing theirs, and blaming it on you," thus wrote Rudyard Kipling many years ago. And it applies yet, most particularly at this time. The majority of sudden deaths in this country at the present time are the result of men doing a lot of unnecessary worrying. Fear should be fought out; everything will come out all right in time.

MIDWAYS BANNED
(Smiths Falls Record-News)

The Town Council has decided to prohibit all midways and carnivals from performing in Smiths Falls this year. The local legislators are to be commended for this stand. We trust the Councils of the municipalities bordering the town will take the same action, otherwise the ban will not be effective, as the midway and carnival troupes can do business near the town's border—and reap monetary benefit. These outfits take large sums of money out of a town.

MORE CRITICISM
(Midland Free Press)

Premier Hepburn's full page advertisement published in practically all the papers of Ontario, is coming in for a lot of criticism, not so much for what was in it but what was left out. Mitch has found himself in a bit of a jam after torpedoing the Sirois report conference, and he has spent a tidy sum of money trying to put himself right with the people of Ontario, who are supposed to be more interested in the welfare of this province than they are in that of Canada as a whole.

TRUE TO BREEDING
(Trenton Courier-Advocate)

Judging by the remarks of "Dud" in the Prescott Journal, the statement made by a German prisoner of war, who got away at Smiths Falls and who claims that he paddled across the St. Lawrence with only his hands for paddles, ranks with the exploits of one Baron Maunchausen, who was a notorious liar.

Dud comments: "He is doubtless of the superman race, bred for the purpose of crushing by all the foul means known to such a race all other humans that walk the face of the earth."

Incidentally the escapee was feted by his ilk in the States, was bought out of bondage by the German Bund, and is perhaps by now rubbing noses with Lindy who has left no doubt where he stands in this war.

LINDBERGH'S GOLD PASS
(Almonte Gazette)

No man ever had more misjudged hospitality heaped on him than the Pro-German, Col. Charles Lindbergh. In this case, unlie the old story the hospitality was misjudged because it turned out a sort of boomerang—detrimental to those innocent people who extended it. A fine example of this was the presentation some years ago, of a solid gold pass to Lindbergh by our Canadian railways. We would like to see the face of any C. P. R. or C. N. R. conductor if he were confronted with that ill-considered credential now. So far as can be seen, the only badge or memento presented to Lindbergh that is treasured by the churlish ingrate, is the medal pinned on his breast by the bestial Marshal Goering. Maybe there is an element of personal appreciation in the incident. Lindbergh and Goering have many traits in common—the kind of traits the average man abhors.

THE PRICE OF FREEDOM
(Carleton Place Canadian)

Mr. Ilsley comes at rare but inevitable intervals to the microphone.

He will become insatiable. We give him all that he asks for, and something over as a makeweight; and then, when he has counted his gains, he hurries back to the C.B.C. to tell us that we have done splendidly, but, nevertheless, there is a lot more to do, and the sooner we get busy doing it the better for all concerned.

Well, this is our war, and we have to pay for it, at the rate of something in the region of $1,700,000 every day or over $1,000 a minute.

But what of Britain? Her expenditure daily for war and other expenses is twelve million pounds; five hundred thousand pounds every hour, well over 8,333 pounds a minute. Pounds not dollars.

Mr. Ilsley, in spite of his soft voice and ladylike charm of manner, will not hesitate to rifle our pockets for our last dollar.

It is the price we have to pay not only for this unprecedented war, but for human freedom at home and abroad and human decency among the nations of the world.

Bible reading has everything to commend it. The Bible is the premier literary work of all ages; but, more important still, it contains more worthwhile inspiration than all other books combined.

What Would You Do.....Personally To Insure A Victorious Peace?

No doubt you've often said to yourself "I'd do anything to insure a Victorious Peace; but what can I do?"

Well, you can do something and it won't cost you anything. Canada is merely asking you to save as much as you can and buy War Savings Certificates.

The Nation simply must have money to carry on the war. Part of that money must come from our savings.

In total war, money is the civilian's weapon. Every dollar saved and loaned to Canada is a dollar Invested to Insure Victory. And don't forget the security of your savings is guaranteed by the Dominion of Canada.

You will get your money back with a good return. You can't lose. Therefore, we gladly add our voice to the National Chorus to Work, Lend and Save for Victory.

BIBLE LANGUAGE

There are scores of everyday Biblical phrases, such as "the patience of Job" and "a whited sepulchre." We are always using Biblical phrases, such as "Dust and ashes," "the Good Shepherd," "a still, small voice," "prodigal son," "Lot's wife," and "A cloud no bigger than a man's hand." When we refer to a "proverb," a "psalm," or an "exodus," we still lean on the Bible. It is again so when we call a man a "Jeremiah," or a "Job," or write an "epistle" in which is made a startling "revelation."

A THRILLING STORY OF REAL SACRIFICE

A story of real sacrifice on the part of a Canadian mother has been unfolded at Ottawa by the release of a letter received by the Minister of Finance, Honourable J. L. Ilsley, from Mrs. Helen F. Thebedeau, Robie Street, Halifax. Her letter tells the complete story. She wrote:

"I read in the papers, where you are doing your best to raise money to Finance this War. There has been appeals made for people to buy war loan certificates, I used to wish that I could help Canada by buying one, but I had no money only I was able to buy stamps for my children so that in time they could have a Certificate. However, my son has since signed me 10 dollars of his pay so you can have the 10 dollars a month, and please send me a war certificate, every two months for 20 dollars. And never mind the interest, I was going to put it in the Bank for him, for when he comes home again, but if it will help you any in your heavy task, you can have it, there's little I can do to help Canada, just bring up my family from day to day and ask God at Daily Mass to Defend our Empire, and Bless all our leaders. I only wish I was able to give more material aid, please make the War Loan Certificates to my name below."

ADVERTISING'S SCENTED PATH

(Christian Science Monitor)

When an enterprising perfumer blended his agreeable product with printer's ink in a newspaper advertisement extolling the merits of his line, it is conceivable that he pointed the way to new frontiers in the realm of salesmanship. Should aromatic advertising become general, it hints at rather interesting developments.

Readers must greatly bolster their sales resistance since it would require, for example, Spartan-like determination to withstand a pastry advertisement giving forth the appetizing aroma of freshly baked mincemeat pies.

Of course, the scents-in-advertising idea has its somewhat sharply defined limitations. But the innovation may be expeditously adopted to other fields than advertising. A careless individual, receiving through the mail a reminder of an overdue account redolent of rosemary (for remembrance) and forget-me-not might be inclined to reach involuntarily for his check book.

Or again, what editor, receiving a passable sonnet reminiscent of the blooming violet and giving forth the exquisite bouquet commonly associated with the vernal season, would have the temerity to send it back?

CHESHIRE CHEESE BOMBED

(Collingwood Enterprise-Bulletin)

The Cheshire Cheese is a victim of a Nazi bomb. What memories are destroyed of Samuel Johnson, a frequenter who said "There is nothing which has been contrived by man. by which so much happiness is produced as a good tavern or inn." Annually thousands of people from the world over visited this famous landmark and enjoyed its literary association and, incidentally, its creative comforts in the form of steak and kidney pudding, which included larks and oysters in its make-up. And it is but one of the many wrecked by the madness of the Hun. It was built in 1667 and in its years was visited by many notables whose names appear in its registers. But like old "London" unless totally destroyed, the Cheshire Cheese will live on and on.

MODERN ETIQUETTE

1. What should a girl do with her wedding gifts, when an engagement has been broken a few days before the wedding?
2. When answering a business telephone, should one merely say "Hello?"
3. When ice cream is served on pie, should the ice cream be eaten with a spoon?
4. Shouldn't a saleswoman, to be efficient, advise a customer what she should choose?
5. When a young man takes a girl to the theatre, should she stand beside him in line while he gets the tickets?
6. Is it permissible to ask the porter on a train to call one at a certain hour in the morning?

Answers.

1. Mail each gift back to the donor, with a brief note saying that the wedding is not to take place; it is not necessary to state the reason. But don't fail to express sincere appreciation for the gift, just as though nothing had happened. 2. It saves time to say, "R. J. Allen Company." Or, if an individual, or profressional man, "Dr. Brown speaking." 3. No; the fork should be used. 4. Not if the customer seems capable of making her own decision. When the customer seems timid, doubtful, or uncertain, a pleasant suggestion now and then is all right. 5. No; she should stand aside and wait for him. 6. Yes; that is the correct thing to do.

HINTS FOR THE HOME

Rusty Springs.

If the wire and iron bed springs have become rusty, apply a coat of aluminum paint.

Soft and Fluffy.

Beat the blankets gently after washing and drying, and this will make them soft and fluffy.

Bruise Treatment.

A bit of sweet oil applied as soon as possible to a bruise will often prevent it from discoloring.

Washing Linoleum.

Don't use a stiff brush when washing the linoleum, as this tends to destroy the luster. Wash lightly with soap and water.

Melba Toast.

Melba toast is made merely by slicing sandwich bread very thin, cutting off the edges, and placing in the oven to brown.

Grease Stains on Leather.

Turpentine will remove grease stains from leather. The entire surface may then be revived by rubbing with the beaten white of an egg.

When Adding Dates.

When adding dates to a mixture to be cooked, soak them in enough water to cover them, remove the stones and the dates will be soft and blend well with the other ingredients.

Soufles.

Bake soufles in glass pie dishes. They may then be cut into wedge-shaped pieces and served directly from the baking dish. Only fill the dish half-full of the uncooked soufle, to allow for rising.

Brass Articles.

Prevent brass articles from tarnishing by covering them with a thin coat of clear varnish. The varnish will form a lacquer which will not wear off unless the article is handled frequently.

Washing Flannel.

Flannel should be washed and rinsed in warm water of exactly the same temperature. Rub well in sudsy water and rinse several times. Dry quickly to prevent shrinking, either in a hot sun or near a fire.

After Cleaning.

Everyone knows a rag dampened with kerosene will give the bathroom enamel the finest sort of shine, but it must be remembered to rinse out the basin and tub thoroughly with clear warm water following the polishing, to avoid any odor of oil in the next bath drawn.

Hair Brushes.

Wash the hair brushes frequently in water to which a little ammonia has been added. Rinse in clear water and allow to dry in the air. Place the brush with bristles down, so that all the water will drain away from the back of the brush. If the bristles are very soft, hang the brush up to dry.

ESCAPES SERIOUS INJURY IN TRAIN WRECK

Reeve W. P. Walker, of Cardinal, was among the passengers who escaped serious injury in the train wreck which occurred enroute to Toronto on Wednesday of last week.

This was the first serious passenger train wreck on the C. N. R. in Ontario for a good many years, and in addition to serious injury to many passengers, the fireman and engineer of the train lost their lives. The train crashed into the rear of a freight train near Trenton.

Reeve Walker, who was making a business trip to Toronto, in connection with his official duties, had planned to take the 5.20 flyer out of Brockville but was prevented from getting that train, and instead took the later and ill-fated train which leaves Prescott at 11.40 p.m. According to a message received by his son, Dr. R. P. Walker, the reeve escaped with only minor injuries and a bad shaking up.

Lieutenant (entering messroom)—Who the dickens put these flowers on the table? I think it's the most—

Mess Waiter—it was the commander, sir, and I thought—

Lieutenant—As I was going to remark, it's the most suitable decoration we could have.

Soldier Expresses Thanks To Local 100 Club For Gift Carton of Cigarettes

A few days ago M.r. H. L. Flora received a card of appreciation from Pte. A. J. Crowder, a member of the Canadian Army overseas, for a gift package of cigarettes sent to him by the local 100 Club. Accompanying the card was an interesting letter, which read as follows:

"On this day your most generous gift was received with thanks. I appreciate it very much.

Sir, would you be so kind, if I may be so bold, to contact the Editor of the Winchester Press and ask him if he would be so kind as to send me a copy of his paper each week, and if ever I arrive safely back in Canada again I will repay him for every copy. Were it possible to send money from here I would send him the remittance, but that is an impossibility. Being an old resident of that section of the County, the paper contains all the news of the surrounding district that I would be interested in.

I also have a bit of news that might interest you. We have an officer here in camp whom you might not know, but the former Miss Lillian Higginson, R. N., his wife I am sure you would. She was formerly of Inkerman, daughter of Mr. Wm. Higginson, Inkerman. His name and address is: Lieut. R. Wiseman, Reg. Quarter Master, 1st Canadian Infantry Holding Unit, C.A.S.F., Base Post Office, Canada.

Now for a few small items of interest here, as much as I can. For amusement, we have moving pictures two nights a week, sponsored by the Canadian Legion —a group of ex-officers. The pictures are shown on Monday and Tuesday nights, the same picture on both nights. We also have a variety show once a week, sponsored by the Legion. Also, we have a dance every Saturday night for the ranks all under Corporals. No Sergeants allowed. We have 4 separate Companies in this Holding Unit and each Company take a Saturday night in turn and no other member of the opposite Comany is allowed to the other's dance. We have roughly about 1,000 men in this camp. As for weather, for military reasons we are not permitted to remark about that.

A short time back, about a fortnight to be exact, a group of evacuee children from some of the large cities, who have a camp located about 5 miles from our camp, came into our camp and gave an evening's entertainment. The party consisted of 72, 36 boys and 36 girls, aging from 8 to 16 years, and there was some wonderful talent displayed. In this camp of children there are about 1,000 children, including teachers.

Well, gentlemen, again accept my humble thanks for your marvellous gift. Also extend my regards to all concerned in your Club.

And with these few lines of thanks and appreciation, I will draw to a close, and wish you all of Winchester and district, good cheer and the best of health. God bless you."

I Pledge

"I realize that Canada now calls on me . . . to join in a great National Savings Plan . . . necessary to win the war and vital to my own safety.

—that the gallant men of the Army, Navy and Air Force . . . now on the fighting front . . . need me on the financial front. They need munitions, material and equipment . . . and only by my money which represents the production of war materials can this support be secured. They are my protectors. They call on me to be their provider.

—that this will require hard work and many dollars.

—that only by hard work and frugal living . . . by LENDING all I can to Canada . . . can I do my part to help to win the war and establish our future security.

I Pledge— that I will forego the purchase of unnecessary articles . . . however small the cost . . . no matter how well I am able to pay for them . . . which take labour and materials away from the great task of providing goods needed to win the war.

—that NOW . . . starting this month . . . I will put a definite part of my income aside in War Savings Certificates. I will have it deducted regularly . . . each week . . . each month . . . either from my pay envelope or from my savings account, by arrangement with my employer or my bank manager."

Dear John and Edna:—It is with a great deal of pleasure that we, your friends and neighbours of Hyndmans and vicinity, hve assembled upon this happy occasion to extend to your our congratulations and best wishes. We wish you joy and every good thing for the years together which lie before you. May they be very long, contented, and filled with prosperity and happiness.

It would be our wish that you could remain with us, but since your marriage we can only console ourselves with the entalls your departure from our midst, thought that "our loss is another's gain," and in the fact that your new home is near enough for you to visit us often.

You, John, have been a ready and willing helper in the work as well as the sport of our community, and we shall be sorry to lose you from our midst, but hope that the hand of friendship will still continue to exist. To you, Edna, we are pleased to offer the hand of friendship.

Signed on behalf of your friends and neighbours, Lillian Robinson, Hubert Robinson, Ray Grant, Harold Francis and Archie Brown.

DAMAGES SET AT $10,000 BY JURY IN WIDOW'S ACTION

After deliberating for more than three hours at Cornwall last Thursday afternoon, a Supreme Court jury fixed damages at $10,000 in the action brought against executors of the estate of James Zeran by Mrs. Isora Wilson of Morrisburg. Mr. Justice Ainslie Greene reserved judgment.

During the trial, 10 witnesses were heard. It was the second time the action had been heard by a jury. Last fall, the action was dismissed but an appeal by plaintiff resulted in the ordering of a new trial when notes of the court reporter, who died shortly after the initial hearing, could not be transcribed.

In the action, Mrs. Wilson sought $15,000 for the death of her husband on May 2, 1939. At the time of his death, Robert Wilson was acting as an attendant to elderly James Zeran. Zeran is aleged to have struck Wilson over the head with a stove poker, inflicting a fatal wound. Subsequently, Zeran was charged with murder, but when it was found he was unfit to stand trial, he was committed to a mental institution, where he died shortly afterwards.

In addition to fixing the damages, the jury found that Zeran was not capable of appreciating the seriousness of his act when he attacked Wilson and that Wilson had been negligent in his actions while attending Zeran.

The trial commenced on Monday of last week and lasted three days. O. F. Howe, Ottawa, was counsel for the plaintiff, and Irwin Hilliard, K. C., Morrisburg, for the defendants.

CHANGE IN ADDRESSING MAIL FOR TROOPS

Postmaster General Honourable W. P. Mulock announces that owing to the recently authorized change in the title of the military forces of Canada, the designation "Canadian Army" will now be used instead of "Canadian Active Service Force (C.A.S.F.)". Mail for soldiers on active service should, therefore, now be addressed as follows:

Mail For Delivery Overseas.

The designation "C.A.S.F., co Base Post Office, Canada" is to be omitted and the words "Canadian Army Overseas" substituted therefore, as follows:—

Regimental No., rank and name
Name and details of Unit (i.e., Company or Section, Squadron, Battery, Holding Unit, etc.)
Name of Regiment or Branch of Service
Canadian Army Overseas.

For example:

M-54321, Sigmn. John Smith,
No. 3 Company, 2nd Div. Signals,
Royal Canadian Corps of Signals,
Canadian Army Overseas.

NOTE—If a soldier is overseas, **the word "Overseas" must appear in the address, but no place name.**

Mail For Delivery In Canada.

The usual complete particulars—regimental number, rank and name and details of unit and name of regiment or branch of service, and, in addition, the **Post Office name of the place in Canada where the soldier is stationed, must be given.**

For example:

C-13962, Pte. Joseph Wood,
No. 7 Field Hygiene Section,
Royal Canadian Army Medical Corps,
Debert F. P. O., N. S.

NOTE—If a soldier is in Canada, **the name of the place at which he is stationed must appear in the address.**

The regimental numbers and names given in the exmples are, of course, fictitious and are merely used to illustrate the correct method of addressing mail.

Until such time as the new method of addressing becomes generally known, mail bearing the designation "C.A.S.F." will as heretofore be despatched to destinations, but the public should immediately adopt the new method when addressing letters, parcels and other mail to members of the Canadian Army, either Overseas or stationed in Canada.

Keen Interest Being Shown In War Savings Campaign

Reports from every last corner of Canada on the progress of the current War Savings Campaign indicate that the average citizen is taking a tremendous interest in the home front battle to secure two million regular War Savers.

First reports cause committee officials to believe that the smaller communities in Canada are setting the pace for larger centres. In Hilton, a little prairie town in Manitoba, the first canvasser made seven calls. When he had completed them he had seven pledges. Three of the seven had pledged themselves to invest a total of 1,320 dollars' worth of certificates during the year.

Out in Regina, some 250 men, including reserve platoon of veteran Home Guards assigned their entire pay, nearly $18.00 each, to the purchase of War Savings Certificates. They invested a total of more than $1600.

One message, considered most significant by committee executives, reported twelve Regina firms in which one hundred per cent. of their employees have signed pledges yielding a total of 2,315 dollars per month. Since this comes from 463 workers, the average monthly pledge for this group is $5.00.

Typical example of the general trend is the action of a sports club in a Nova Scotia town, which converted its sinking fund into certificates.

Civil servants throughout New Brunswick are pressing home the campaign among their own members. While members in all services have already joined the Payroll Savings Plan, a strong effort is being made to secure one hundred per cent. co-operation.

While grownups are buying certificates, Canadian children are increasing their purhcases of stamps. In one public school in Quebec, 36 teachers and 1,000 pupils have salvaged three tons of waste paper and 6,500 bottles. These they have sold, the money being converted into War Savings Stamps.

ENGLAND

England, dear land of freedom,
Girt round with ocean foam,
We claim her as our home-land,
In whatever place we roam;
We're proud of her traditions,
Of her deeds on land and sea,
Her honor, and her prestige,
And her love of liberty.

She rules, and is the Mistress
Of the oceans everywhere;
And by pluck, and perseverance,
She'll be mistress of the air;
She never has been conquered,
And unconquered will she be;
This little island fortress,
Set in the silver sea.

And these, her gallant people,
A united, loyal band,
Resist the strong aggression
Against their glorious land;
They fight for England's honor,
And they'll keep it shining bright,
Unsullied, and untarnished,
In this struggle for the right.
—H. Collier, Westhoughton, Lancs., Eng.

A NATION'S LAMENT

O give me, give me back my dead!
Why did they have to die
My sons, upon the battle fields
My daughters, from the sky?

High their courage, spirits of the free
Thrice proud I am I gave them birth.
O my children! Give them back to me!
Alas! their graves lie in my earth.

Step by step they held the foe at bay,
And now ye nations large and small
I speak in sorrow, list to what I say,
My tragedy may soon engulf you all:

In peace I lived with no desire to fight,
The foe demanded what I could not do
The world concedes my cause was right;
O, they were many, we but just a few.

My children, undefeated, fighting to the end
They did not know the end would be like this.
What of our neighbours? those who called us friends,
A chance to prove this friendship they did miss.

Alas, alas! that we should fight in vain,
It seems so tragic, such a bitter end.
We had no thought of conquest, or of gain
Crushed between a foe and so-called friend.

Men mock at God, and scoff at every creed,
But still His Word is Law to all who live;
The crop we reap is from our foresown seed.
Men shall receive exactly what they give.
—W. H. Pollard.

ANSWERS TO QUESTIONS

"My nails are brittle and break easily. How can I strengthen them?"

Soak the finger-tips in slightly heated olive oil for 10 to 15 minutes. This helps to promote growth. Then train back the cuticles.

"Im plagued with enlarged pores. Is there any remedy?"

There is a remedy for this as for most troubles, but it takes time. Look to your diet. Avoid pastries and rich foods. Eat more green vegetables and fruits. Cleanse skin thoroughly, rinse in lukewarm water; never hot. Next rinse in cold, dry and pat on with witch hazel. Be sparing in the use of creams. Use light powder, applied lightly.

"I suffer from corns. How can I cure them?"

Check on your footwear; you're probably wearing shoes either too tight or too small. Corns are caused by pressure or friction. Never hack at them with a knife or a razor; use a good two-way corn plaster instead. This instantly ends pain by relieving pressure, while the medicated pad loosens the corn so that it comes right out—root and all.

"My sister's hair is oily and mine is dry. Can you suggest a shampoo that will do for us both?"

Just the thing for you—a new shampoo that will suit normal, oily or dry-looking hair of any colour—in fact all the family can use it! Halo shampoo gives a creamy lather, leaves hair radiantly clean and actually saves time!

Ladies

TOMORROW YOU'LL WEAR

A new version of the V neckline; in novelty treatment for sweaters, with a pin at the V for afternoon, or to the waist in the evening.

Bigger brimmed hats, worn back on the head and held by anything from a bandanna to a mesh snood, often with flowers beneath the brim.

Soft spring coats, of pastel wool twill or crepe with feminine lines and dressmaker details—wearable and flattering.

Deep bluish green for daytime wear—good in suits or coats of light weight woolens, and dramatic when pointed up with bright red accessories.

Draped turbans of summer fabrics, from veiling to starched pique, made with flowers tucked into the folds of the turban.

Bright colored or pastel wool jackets over black or navy dresses when it's time to take off heavy coats. The jackets are as long as your arms, and fitted or not.

Broader stripes to make your chambray shirt-waist dresses look new and different. Some have knitting bags and off-face hats to match.

Sweaters that button down the front, but in new versions many are long and ribbed at the waist; some make much of pockets and yokes, others are cable stitched or have sailor collars.

Gloves like a man's to wear with your tailored spring suit. Of pigskin or capeskin, short slip-ons or with one button, they come in mannish tans.

Under-coat suits of "silks suitings," or such firm fabrics as bengaline or faille—in colors or neutrals and good to wear after without a coat.

How often should we remember that there is nothing more contagious than the spirit of friendliness.

SHOW US THE WAY

Show us the way—for unaided we fail. Good must go under and evil prevail—unless Thou are with us by night and by day—to strengthen our hands, and to show us the way.

Though we must travel we know not how far—the light of Thy guidance shall burn as a star—o'er mountains of triumph and vales of defeat. Whether disaster or glory we meet—our faith must not weaken, whatever Thy will. Use Thou our nation to serve and fulfil—the purpose of raising man's soul from the mire—making him greater, and lifting him higher.

Give us the power to relieve the world's pain—bringing back order and peace once again.....Give us the heart for the part we must play—Give us great leaders to show us the way:—Patience Strong.

"The Whole Family must Budget to Buy WAR SAVINGS CERTIFICATES!"

Yes! EVERY CANADIAN FAMILY Must Pledge and Sacrifice...
"THIS TIME we are ALL in the front line."—H.M. THE KING.

FALL IN! The line is forming. Close the ranks. Answer His Majesty's call. Every man, woman and child in Canada has a duty to perform. Some will fight. You, too, have a job to do. It may demand sacrifice. You are called on to help furnish the munitions needed to win the war . . . guns and tanks for the army . . . planes for the air force . . . ships for the navy and merchant marine. Guns and tanks and planes and ships cost money. You are not asked to give—you are only asked to LEND your money. This is something you can do . . . something you *must* do.

There is only one place to get the money Canada needs to win this war—from the people of Canada. A large part will come from business firms and people with large incomes. They will pay high taxes and buy heavily of War Loan Bonds. But more money is needed . . . a great deal more. $10,000,000 a month is expected from men, women and children who invest in War Savings Certificates.

Work hard. Earn more. Save all you can and lend your savings to Canada. BUY WAR SAVINGS CERTIFICATES. Budget to buy them regularly. Buy them every week . . . every month . . . as long as the war lasts. You will be forming a good habit . . . the saving habit . . . a habit that will benefit you when victory is won. You will be doing a *real* job in helping to win the war.

For Each $4.00 You Get Back $5.00
$ 5.00 for $ 4.00 $10.00 for $ 8.00
$25.00 for $20.00 $50.00 for $40.00
$100.00 for $80.00
War Savings Certificates are a direct obligation of the Dominion of Canada, repayable in 7½ years. At the end of that time your investment will have increased twenty-five per cent., which represents interest at 3% compounded half-yearly.
They may be redeemed at option of registered owner, after six months from date of issue at an established scale of values.
The following table represents an average basis of saving. These figures are only illustrative, as the amount of saving which is possible will vary according to each individual's family and other economic circumstances.

Earnings Per Week	Savings Per Week	Maturity Values of Annual Purchases
Up to $20	25¢ to $1.00	$ 15 to $ 65
$20 to $30	$1.25 to $2.00	$ 80 to $130
$30 to $40	$2.25 to $3.50	$145 to $225
Over $40	$3.75 to $9.25	$245 to $600

Received Letter From Soldier

In reply to a note which she placed in a pair of socks she knit for Mountain Red Cross, Miss Lola Crowder, of Vancamp, received the following letter a few days ago:

My Dear Lady:

A note to say a most sincere thank you for the pair of grey socks that you knitted and sent to the Canadian Red Cross. I received them yesterday and have them on to-day. Possibly you knitted the scarf, pullover and mittens that I received at the same time, but the slip in the socks enables me to thank you particularly for them and to ask you to convey to the other ladies of Canada my appreciation of the other anonymous gifts. Not only are the woollens very welcome to us soldiers here in the grip of an English winter, but also your thoughts of us a long way away from our homes across a wide ocean. I hope that you will not be disappointed when I tell you that my home is in New York State and not Canada. But I am a Canadian soldier now, anxious to carry on the job that belongs to Canadians and Americans alike, as well as to all the world who want to be free. We Canadians in England are, at the moment, very jealous of the Australians who did so magnificently at Bardia last week, but we will have our show in time and then you can be proud of your efforts for the soldiers. It is nice to be in England, which country I knew and loved before the war. It is a wonderful country now, with everyone giving all their energy to the war effort. But more remarkable is the fortitude and spirit of the people, for it is the civilian and not the military who are the object of Jerry's hate. We hear Jerry going over us on a clear night, but his eggs are not for us but for the innocent women and children in the cities. They bear up cheerfully and carry on, we soldiers champ at the bit.

I have digressed a bit from the grey socks on my now warm feet. I am glad that you put the little note in your socks for by it I am able to say a specific word of thanks for some comforts that help make life pleasant while we do the job in hand. Yours sincerely. D-119608 Harrison K. Bird, Gunner, 1st Canadian Survey Regiment R. C. A., Canadian Army, Overseas.

CATTLE IN ACTIVE BIDDING IN AUCTION AT MORRISBURG

United States bidders were present last week at an auction sale of farm stock and implements held on one of the farms forming part of the battlefield of Crysler's Farm. They put in bids on Holstein cattle, but owing to a brisk demand for them here, the Americans secured not one animal of the herd. The cattle were grade Holsteins.

The owner was James McKenzie, who was selling owing to ill health and through the prospect of farm land in the district being submerged through the construction of single-stage power development on the St. Lawrence river.

WOMEN'S MISSIONARY SOCIETY

The Women's Missionary Society of the United Church met in the S. S. rooms on Thursday, Feb. 13th. The president, Mrs. Steele, was in charge and conducted the worship service. The theme for the month of February was "Finding the Way Through Prayer." The roll call was answered by each member giving a thought on prayer or repeating a verse of Scripture containing the word prayer.

The Corresponding Secretary was instructed to send a message of sympathy to Mrs. Carson, Conference Branch President, whose husband died very suddenly. Reports of different secretaries were submitted, and an interesting questionnaire on Missionary Monthly was conducted by Miss Rose.

An announcement of World's Day of Prayer on Feb. 27th was made by the President.

The programme was in charge of Mrs. R. M. Dukelow, who gave a very interesting account of life and work of Miss Maria Kim, an outstanding Korean Christian, and Mrs. Jay Quart told of the work of Miss Maude McKinnon, in Korea.

Mrs. Howard Fetterly contributed a piano solo, and the meeting closed with the Mizpah Benediction.

Nairn Boyd's Activities Praised At McMaster

A news item from Hamilton pays tribute to the work of a former local High School student, Nairn Boyd. Here is the item:

"McMaster University's recent military ball was attended by more than two hundred couples, the army, navy and air force all being represented. Most of the men were from the McMaster contingent of the Canadian Officers Training Corps and Auxiliary Service unit for whom the dance was held. The main ballroom of the Scottish Rite Temple, Hamilton, scene of the occasion, was elaborately decorated with a patriotic red, white, and blue colour scheme, figures of soldiers silhouetted against a gold background, a royal coat of arms and crown and several other military designs. Patrons and patronesses for the ball were Professor and Mrs. W. B. Hurd, Dr. and Mrs. C. E. Burke, Mr. and Mrs. E. J. Benough, and Miss Marguerite Roberts, dean of women at McMaster."

A member of the student committee making arrangements for the ball was Nairn Boyd, local boy, who is in his graduating year at McMaster. Boyd's ability is spread over many fields at the Hamilton College and this year he is president of the student body, the highest executive position an under-graduate can hold. His work on preparations for the military dance proved of invaluable aid. He is enrolled in History and Political Economy.

Ban Tag-days.

Cornwall council last week placed a ban on all tag days in Cornwall for the remainder of 1941, on recommendation of the finance committee. Approving the move, Mayor J. Phillips said that in 1940 a great many tag days had been held and they became "a little cumbersome in the business section."

The Imperial Tobacoo Co. of Canada, is now accepting orders from the trade in Ontario for Sweet Caporal and Turret cigarettes to retail at 22 for 25 cents. This new price, which meets that established by Macdonald's on certain brands, applies only to Ontario. Other brand prices are not affected at this time, nor does change in price of Sweet Caporal and Turrets apply to Quebec and other provinces where the sales tax is an important factor in retail price of cigarettes.

Legion Church Parade.

A Zone Church Parade has been arranged in Morrisburg for Sunday, February 23rd, at 2.30 p.m. Daylight Saving Time. It is requested that Branches meet first in the Morrisburg Legion Rooms in time to fall in and march to the United Church. Following the Church Service, the veterans will march back to the Legion rooms for a Zone Meeting, at which the Rev. J. A. Koffend will be the guest speaker. All local veterans wishing to attend this service are asked to notify Mr. F. Erle Helmer.

Some Load of Hay.

When Mr. Bernard McKee, of Inkerman, hauled a load of hay unto the scales at Mr. Ross Hutchinson's coal yards to be weighed last Saturday, he was informed that it was the biggest load of hay ever weighed on those scales and may constitute a record in this district. The weight of his load was 7985 pounds, nearly four tons. The sleigh weighed 1325 lbs. This means that Mr. McKee had 6660 pounds or over three tons of hay on his sleigh, and that's a lot of hay to be hauled on runners at one time.

H. S. STUDENT ABSENT FROM SCHOOL TODAY FOR FIRST TIME IN SEVEN YEARS

James Carlyle, son of Mr. and Mrs. Kenneth Carlyle, is feeling rather blue today—he was unable to go to school this morning owing to illness. If the 'flu or measles, whichever he is taking, had of hung off until March 1st, James would have completed seven years without being absent from school for a single day. However, he only lacked one week of establishing, what we believe, is a record, hard to equal anywhere. During this period of regular school attendance, James can only recall of being late for classes on a couple of occasions.

However, it isn't Jim's fault that this break came in his school attendance record and he is deserving of congratulations. His many friends will wish him a speedy recovery from his temporary illness.

Received Probation Cap.

Miss Doris Kirkwood, who successfully passed her probation examinations, has received her cap and has been accepted as nurse-in-training at Cornwall General Hospital.

Measles Still Raging.

The local epidemic of Measles does not appear to be letting up. This week several new cases have been reported, among them being some adults. In some instances, every child in the family has been affected at the same time. In the past few weeks physicians in this district have treated over 800 cases. As a result, school attendance has not been anywhere normal for some time.

Continuing their schedule for the Goodfellow trophy, local curlers played the following games since the last issue of the Press:

Thursday:—W. Watson 9, W. Moffat 2; J. L. Mill 10, E. J. Spinks 4.

Friday's games were postponed owing to sticky ice.

Monday:—Eric Rawson 11, J. D. Stewart 2. Second game not played.

Pin Game.

On Monday evening Harold Helmer's rink endeavoured to get possession of the Club Pins, but Howard Fetterly and his men stoutly defended them for the third time this season. The score was 12-4. According to the challenging rink, it wasn't so much good curling that enabled the defenders to win the contest, as it was good luck. But the fact remains, they still hold the pins and are wearing the broad smile that goes with defending them (successfully).

* * * *

On Tuesday evening a couple of rinks of local curlers went to Metcalfe to play for the Christie Cups. They were unsuccessful—the one local team won its game by a slight margin, while the other rink was badly beaten.

Yesterday, six Winchester rinks were entered in the Central Canada Bonspiel at Ottawa. According to one of the curlers, the local teams lost all their games.

ORVAL BARKLEY HONOURED AT SOUTH MOUNTAIN

A very enjoyable evening was held on Feb. 12th in the I.O.O.F. Hall in honour of Mr. Orval Barkley, principal of the S. M. C. S. for the past ten years, who has left to take up his duties as an officer in the R. C. A. F.

The evening was sponsored by the Oddfellows and their wives, and the Dramatic Club. Euchre, bowling, crokinole and community singing was participated in by all. After a real singsong, the Rev. W. R. Johnston called Mr. Barkley to the floor and Mr. Kenneth Cameron read a very fitting address and presented Mr. Barkley with a lovely emblem ring, on behalf of the Oddfellows of which Mr. Barkley is a brother. Mr. Lyall Ferrier read an address on behalf of the Dramatic Club, and presented the guest with a purse of ten dollars.

Mr. Barkley, in his reply to both addresses, expressed his regrets as to leaving, and said he was looking forward to coming back. The regrets of the community were sincerely extended to Mr. Barkley, as he has been one of the most congenial type of persons. We are sure that Mr. Barkley, responding to the call of duty, will make a very efficient officer, as he surely looked his part in the striking uniform. After Mr. Barkley had extended his thanks, all joined in singing "For He's a Jolly Good Fellow." Lunch was served and enjoyed by all.
