Berry Corn Elevators Double Drying Facilities

Drying facilities at Winchester Corn Elevators will double their capacity in time for the Fall harvest. In making the announcement this week Rae Berry, president of D.L. Berry and Sons Ltd. owner of the new, modern Winchester plant which opened just one year ago, said that the expansion program was part of the original policy to accommodate the increasing demand for this type of operation. Mr. Berry also intimated that he was hopeful that more expansion involving other processes would take place at the same location within the year.

The added facilities being installed now should help eliminate the long line-ups which were experienced in 1968 he explained.

Expansion this year steps up drying capacity from 7,500 to 15,000 bushels of corn per day. Another 7,000 bushel wet bin will be erected in addition to a second dryer which will increase drying capacity from 450 bushels per hour to close to 1,000.

"After a slow start", Berry said, "the corn crop looks very good this year. Yield should be as good as last year and acreage will be up, not significantly except, perhaps, in Dundas County". In commenting on the expansion of the Corn Elevators, Mr. Berry said that corn will be arriving from as far away as Port Hope, Ontario and Isle Perrot, Quebec, this year. He explained that the next ten days of frost free weather were particularly important to the quality and quantity of corn.

The Berry Corn Elevators, opened in September last year, are regarded as the largest and most modern of their kind in the province. Although he was hesitant to go into detail he did mention that he was hopeful that the price of corn would be up this year.

In addition to the Corn Elevators the growing Berry firm now owns and operates feed and seed plants in South Mountain, Winchester, Manotick, Kemptville and Spencerville.

To Honour Contract??

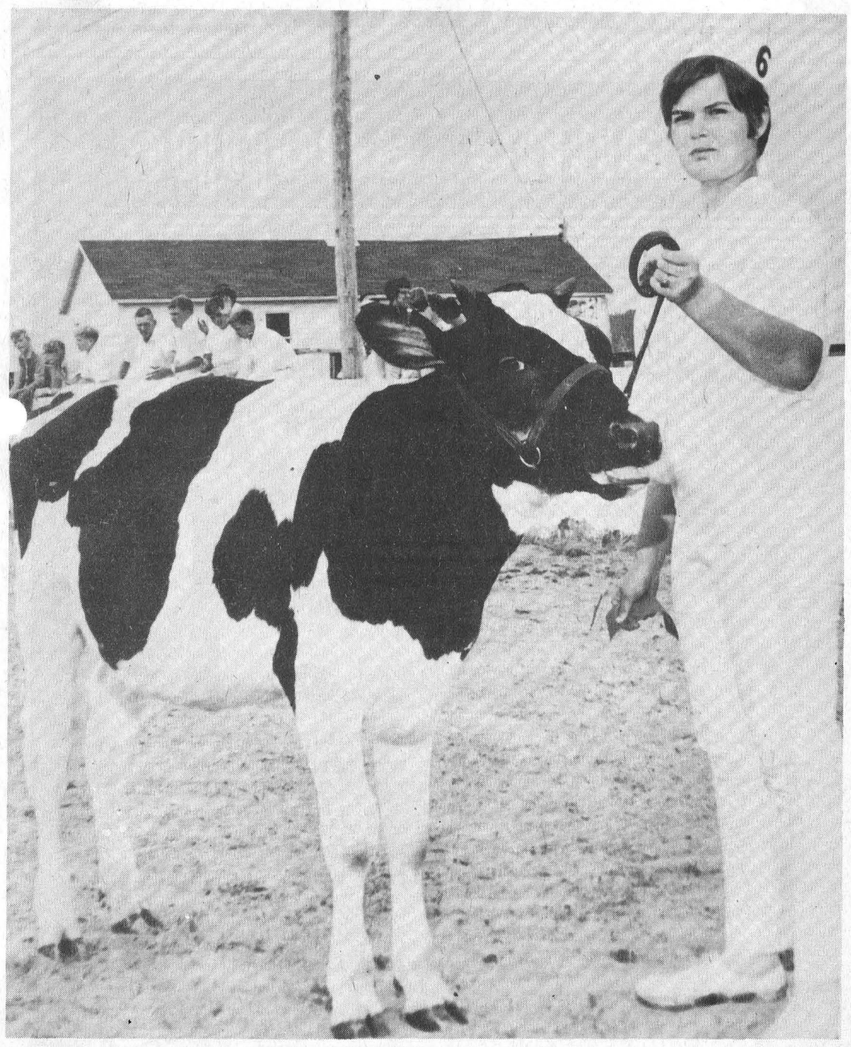
The contract for construction of Winchester and District's new Community Centre must be honoured on or before September 23rd. This contract will not be ratified unless the financial goal is reached, and fund drive officials report approximately $20,000 is still needed.

Those who attended the "Sportman's Dinner" last week heard many famous figures in the realm of sport explain in great detail the tremendous value of recreational facilities in rural areas. Each encouraged the community to get on with the job immediately. There is no doubt everyone agreed, but like most other worthwhile plans, it could be stymied for the sake of a few important dollars.

Residents who have not yet made a contribution and plan to do so are urged to make haste. Also, those who have already made generous donations and feel they would like to give just a little more, should make their plans known immediately.

Committees are optimistic. They are proud of the response to date and feel confident Winchester and District residents will rally, as they have many times in the past, and push the campaign over the top with days to spare.

Donations are being accepted by Mrs. Betty Cooke, and also at the Clerk's Office.



Better Than Brother

"The final decision was not difficult", said showmanship judge Roy Simmons of Finch, "because Myrna and her calf appear to think and act as one. When she moves her calf moves with her, when she stops her calf does likewise". This was the comment made by the judge after he had watched all the best showmen in the County competiting for top honours at Achievement Day last Friday. Myrna Fawcett is a daughter of Mr. and Mrs. Allison Fawcett and in earning her victory she defeated her brother Hugh who was declared Reserve Champion. Myrna is shown with her well trained holstein calf immediately following the judge's decision.

7 3/4%* Our second biggest interest.

Our biggest interest is you.

Our biggest interest is never paid. We give it away for free. Because it's the kind of interest you can't measure in percentage points. The interest we take in you when you ask our help with your problems.

Of course we pay high interest on your savings, just like any bank. That's only natural. And the longer you leave your money, the more interest you get. That follows too.

When you think about it though, a bank should give you both kinds of interest. The Royal Bank does. Come in and see.

*This rate applies for term deposits of over two years. Equally, you can earn maximum bank rates on term deposits for shorter periods. Ask, too, about our Bonus Savings Accounts and our Regular (chequable) Savings Accounts at any branch of the Royal Bank.

We like to look after you at the ROYAL BANK

7,768 MILES — 784 HOURS

OPP Weekly Report

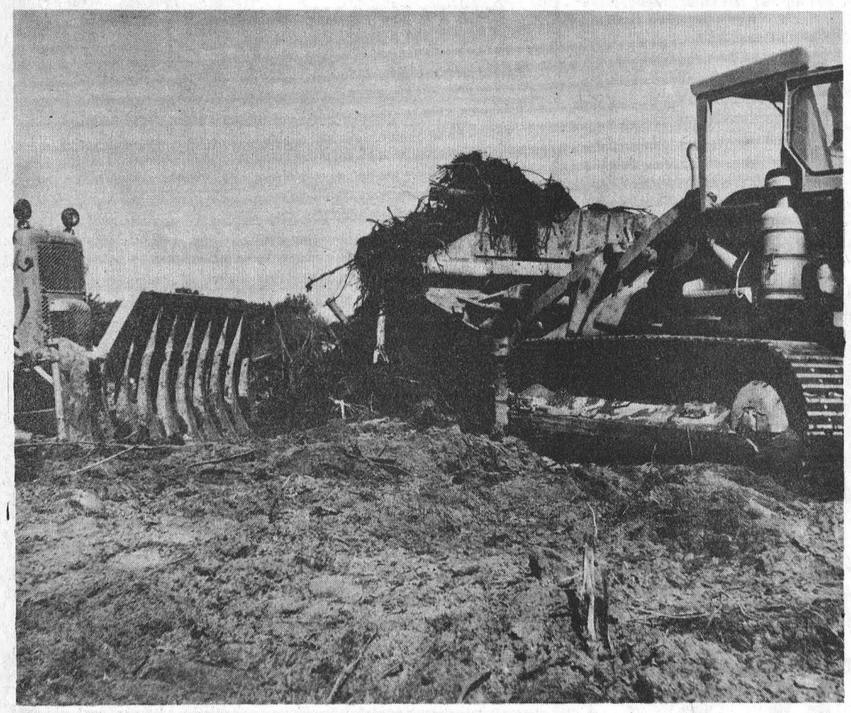
45 CHARGES — 35 WARNINGS

Ontario Provincial Police in Dundas County last week patrolled 7,768 miles while working a total of 784 hours. During this time there were 45 charges laid under the Highway Traffic Act along with 35 warnings being issued. Officers from Morrisburg Detachment also investigated 2 Break and Enters, 3 thefts, 4 disturbances and 17 miscellaneous complaints. One person was also arrested and charged with driving while his ability was impaired. Ontario Provincial Police officers also investigated 8 infractions of the Liquor Control Act which resulted in 8 persons being charged. One car was stolen and recovered.

Our area highways were fairly quiet with officers investigating 4 property damage accidents and 2 personal injury accidents which resulted in 5 persons receiving minor injuries.

Provincial Court was quite active with officers spending a total of 12 hours in court and registering 108 convictions. One case of fraud was concluded with a man receiving a jail sentence and one man is awaiting sentence for Break, Enter and Theft.

Now that school has resumed we are pleading with the drivers of Dundas County to maintain their good driving record. While driving, keep alert for our children as they go to and from school keeping in mind that they just might walk out in front of your car without looking. Slow down when you see the members of the school safety patrol. Where they are, so are children. With our drivers driving defensively we can help make this another safe accident free year for our school children.



Clear The Way!

Heavy equipment working two miles east of Morrisburg continue the clearing program for the proposed DuPont plant. Only a few weeks ago men with chainsaws cleared a trail and machinery such as is shown above moved in. Operators who man these giants make the job look simple as the D7 dozer, left, equipped with a heavy rake blade, gathers up stumps and trees allowing the earth to escape through the curved teeth. The 977 Caterpillar Loader, right, then loads waiting trucks. The clearing program is being directed by Cruickshank Construction Company of Morrisburg, Ontario.

26 Ladies At September UCW Meeting

Twenty-three ladies attended the September meeting of the Vernon Presbyterian W.M.S. held at the home of Miss Sybil Harten, Ottawa, last Thursday evening.

The president, Mrs. W.D. Dow opened the meeting with a poem "Set sights high and wide." Mrs. Bruce Dow was in charge of devotions and read from St. Luke 18 and closed with prayer.

A letter was read inviting the Vernon W.M.S. to attend the Thank Offering service at St. Stephen's Presbyterian Church, Ottawa on October 1st, at 8 p.m.

Mrs. Harold Cowan, Glad Tidings Secretary, had the program and was assisted by several ladies in a question and answer program on the many changes in mission work and how different W.M.S. groups have found new ways of serving others.

The meeting closed with the hymn "Abide with Me" and prayer.

Campbell Home Hosts Baptist Senior Group

Mrs. R.A. Campbell of Vernon was hostess to the members of the Baptist Senior Circle on Wednesday, September 3rd.

The President, Miss Jessie Robertson opened the meeting with a poem followed by Hymn 297 "Jesus Thou Joy of Loving Hearts". The devotional was given by Miss Lillian Donaldson.

Prayers by several members were offered for our Bolivian Missionaries "The Mutter Family" and also for the church in Trinidad.

The roll call was answered by a verse of scripture.

Mrs. Lorne Carkner dealt with the second chapter of the new study book, "Joint Mission in the Congo", The population in the Congo increases by a hundred thousand yearly. Child marriage is no longer a problem in a Christian home. In 1960 the Congo gained its independence.

Closing hymn was "He leadeth Me in Prayer".

Mrs. Campbell served lunch assisted by Mrs. E. Howard who had charge of the refreshments for this month.

Cheque To Assist CC Fund

S. G. K. Ault paid a brief visit to committee members studying ways and means of pushing the Community Centre Fund Drive over the top. His visit may have been brief but in that short time the gloom faded from the old council chambers and was replaced with an air of cheerfulness and optimism.

Mr. Ault, representing Ault Milk Products Limited, of which he is President, along with General Manager, Lloyd Laporte, presented a cheque for $5,000.00 to Community Centre Chairman Keith Carkner and Fund Raising Chairman Basil Dawley, while other workers looked on approvingly.

Those who are working so tirelessly to reach the goal in time for fall construction are confident now that plans will proceed on schedule.

Left to right: Lloyd Laporte, Mr. Ault, Keith Carkner and Basil Dawley.

Baptist Church Anniversary Sept. 14th

An interesting write-up now in the possession of Rev. G. A. Cawfield, the minister of Winchester Baptist Church, gives a graphic account of the early beginnings of the work, and reads thus -"On Feb. 13th, 1859, the following were organized as the West Winchester Regular Baptist Church." Then there follows a list of the names of foundation members.

Further on, the manuscript states - "1869 - this year a half acre of land on Main St., in the centre of the Village, was bought for $200. and the erection of a neat stone church was begun."

Records such as these make fascinating reading, and these dates are of special significance just now, as the church prepares to celebrate another Anniversary occasion, the 110th since the original organization took place.

In 1969, Sunday, September 14th, is being set aside for this purpose, and Major R. E. Chapman, senior officer at the Woodroffe Citadel, Ottawa, will speak at 11 a.m. In the evening, at 7.45 p.m. and by kind permission of the minister and kirk session, the service will be held in St. Paul's Presbyterian Church. Special music is to be provided by the well-known Woodroffe Salvation Army Songsters, and the Bandsmen will be present also with a great variety of instruments.

A warm invitation to attend is extended to all.

Winchester Warriors Need One More Play-Off Win

Winchester Warriors, with their star pitcher Stan Woods on the mond, downed Chesterville 7 to 3 last Thursday night to take a 3 to 1 lead in their best-of-seven semi-final softball play-off series.

Chesterville fought back gamely the following night and a bases loaded homer by Bob Miltimore in the second inning paved the way for a Chesterville victory. Winchester did come back to take the lead in the sixth but Chesterville squeezed one run across to tie it all up again, and Bill Dixon's home run in the 8th gave Chesterville the win and forced at least one more game.

Sixth game was scheduled for last Thursday night but no results were available at Press time. Should a seventh be necessary it will be played tomorrow night. All games are being played at Chesterville.

Williamsburg Pioneers Win Semi-Finals, Begin Finals

Williamsburg Pioneers got down to business this week, disposing of Brockville 4-1 to win the semi-finals 4 games to 2, then edging Cardinal in the first game of the best of 7 finals, 3-2.

Big Doug Casselman was the winning pitcher against Brockville with a 5 hitter, 3 walks and 11 strike outs. Roger Hodgkinson took the loss with 4 hits, 1 walk, hit one and struck out 9.

Hodgkinson scored Brockville's only run, getting on with a single and advancing on errors.

Friday night the Pioneers took the first game of the finals 3-2 to take a 1-0 lead over Cardinal.

Big Doug was the winner with a 7 hitter, 1 walk and 5 strike outs. Ted Hey suffered the loss with a 2 hitter, 2 walks, hit one and struck out 10.

Pioneers jumped into a 2-0 lead scoring on errors before Cardinal had a chance to get organized. Gerry Morrell hit a triple in the 5th inning to drive Bob Carkner across the plate for the winning run.

Pats catcher Larry Patterson hit a single in the 7th to drive in Ed Orzes and Allie Cameron to narrow Pioneers lead.

Pats had 5 left on base to Pioneers 3. The Pats collected their first hit in the 4th.

Next play-off game at Williamsburg will be towmorrow night (Friday).

Area Girls Win Softball Honours

When Bell's Corners All-Stars won the Ontario Provincial Softball Championship at Peterborough last week four girls, well known to local sports fans played an important part in winning the honours.

Three Mountain-Chesterville players, Linda Marcell, Marilyn Williams and Donna Burley, along with one Metcalfe player, Betty Quinn were members of the team.

In winning the Ontario Championship Tournament the girls drew a bye in the first round, then defeated St. Thomas handily and qualified for a 'best-of-three' series with Peterborough. The local team, coached by Lorraine Ford and Clair Baker, won the first one, lost the second one, and then coasted to 25 to 0 win in the big final contest. Stittsville's star pitcher, Debbie Bradley, completely mesmerized the western Ontario girls with her fine pitching display.

Sponsored by Branscombe's Esso Service Centre at Bell's Corners, the girls not only won the coveted trophy but each will receive a colourful jacket with the compliments of 'Esso'.

The same team made a fine showing at the recent tournament staged in Ottawa when they bowed out in the final game. Linda Marcell did however win the batting championship at that tournament and was awarded a trophy for her 474 batting average.

Confusion is Cleared At O.T.H.S. Activities

An ad, mistakenly placed in two Ottawa newspapers earlier this week created some confusion in the Metcalfe district when it became apparent Adult Training Classes at OT.H.S. and weekly Bingos at the Community Centre across the street were both scheduled for the same night.

High School Principal James McDonald, in conversation with this newspaper on Tuesday morning said, contrary to what appeared in other newspapers, adult training classes will be on Monday nights, and consequently will not clash with the weekly Bingo parties.

Display ads elsewhere in this edition give complete details on both activities.

Kemptville, Stittsville Deadlocked

A pitching error by Stittsville catcher in the bottom half of the tenth inning allowed a run to score from third base and gave Kemptville a 1 to 0 win. Both teams have now won three games and seventh and deciding game was scheduled for Wednesday night, or if this was not possible tonight (Thursday). League President Alf Taylor said, barring two rainy nights in a row, a winner must be ready to meet Russell in the first game of finals this Friday.

Metcalfe Will Have Ice Early

Everything is in readiness for an early start on winter sports programs at East Osgoode Memorial Community Centre at Metcalfe.

The long lines of steel pipe are now concealed in concrete and the huge smooth surface creates an ideal setting for dancing. With this thought in mind the 'Board' has decided to stage a mammoth dance next week.

Friday, September 19th is the date selected and popular local band leader Harold Woods will have his entire orchestra on hand with music to please all dance lovers with the best varying from 'old fashioned' waltz time to the modern 'frenzy'.

Immediately following this entertaining evening, work will begin on preparations for the fair. For this big event it will be necessary to cover the entire surface with clay to assure good footing for cattle and horse shows.

The fair ends Saturday, October 4th. The clay will then be removed and the surface made ready for ice. Already extensive plans have been drawn up by the Community Centre Board in conjunction with Metcalfe and District Lions Clubs and other community organizations for a complete hockey program.

The Magnificent Sum Of $1.58

To ease the impact of inflation on Canada's over-65s, the old age security pension will be raised next year by the magnificent sum of $1.58 a month to $79.58, The Financial Post notes. For the pensioners who are really hard up, Ottawa's guaranteed income supplement will be hiked by a munificent 62 cents to a total of $31.83. The Financial Post comments that these ridiculous nickels-and--dimes for the retired are the maximum escalations permitted under the Old Age Security Act to take care of rising costs. When the Act was drawn up, 2% a year was considered a boost large enough to keep pensions in line with the rise of living costs. It is obvious that with living costs already 5% higher than a year ago that the poorest pensioners are the ones suffering the most hardship. Equally clear is the likelihood that they will be in a worse financial fix in another year. There is no sign yet that inflation is subsiding. The Financial Post goes on to say that if, for example, the government decided on an across-the-board boost of $8 a month for Canada's 1.5 million pensioners, the total cost to the treasury would be approximately $144 million. But little more than half of the 1.5 million are needy enough to qualify for the supplementary benefits. Why not increase supplementary benefits only? The Financial Post says: If those in need of supplements were given an extra $10 a month, and no increases made in the universal pension itself, the taxpayer's extra burden would be $84 million, not $144 million.

Is Your Name In The Newspaper?

Is your name included in this newspaper this week?

If you are conducting any type of business in this area, it should be. *The Stouffville (Ont.) Tribune* uses some advice taken from the Bankers' Association in the United States to explain why:

"No businessman in town should allow the newspaper to be published without his name and business being mentioned somewhere.

"A stranger should be able to pick up the newspaper and be able to tell what business is represented in the town by looking at the paper. The man who does not advertise his business does an injustice to himself and his business town. The life of the town depends on the live, wide-awake advertising man."

Major Contribution

Those short-sighted (and usually narrow-minded) individuals who think of immigrants to this country as contributing little of immediate value have had their answer from the Minister of Manpower and Immigration.

Mr. MacEachen reveals that in the past 20 years new businesses started up by such newcomers total an astonishing 27,000, involving some $355 million in working capital. And these are only those immigrant-headed firms of which Ottawa has knowledge. There are quite certainly many more.

But these 27,000 known enterprises alone have provided direct employment for more than 82,000 workers, many of them immigrants themselves. Indirectly, of course, they have created jobs for a great many more Canadians.

This is an aspect of immigration which is often overlooked. It is a reminder that many newcomers arrive in this country with material assets as well as great potential.

Aprons Or Diplomas?

Why don't girls just get married, the way they used to? What is this desperate thing in modern society that insists a girl must get a degree or become a nurse or learn a skill, such as punching an adding machine.

Frightened, frantic parents, with the shadow of The Depression peeking over their shoulders, are ramming their daughters, willy-nilly, into something they can "fall back on."

The irony. Of course we want them to get married. Eventually. To a nice boy with a nice job and prospects; a nice home, nice children, a nice neighbourhood and at the end, a nice pension.

But first we want them to have anywhere from 13 to 18 years of "education" so they'll have something to fall back on. We are tacitly admitting that if they do get married, they're going to be abandoned, divorced, or their husbands are going to die at 28. So, they have to have something to fall back on.

Why don't we just let them get married and fall back on their husbands for a living? My wife has been falling back on me for almost 23 years and I'm still in reasonable condition. Even though my back has fallen a bit into my front.

I suppose you think this is just a diatribe. Well, you're right. But there's a reason for it.

My wife and I have nursed and cursed and wheedled and needled our daughter through high school. She hated it in Grade 11, loathed it in Grade 12, and abhorred it in Grade 13.

But by a combination of blackmail, bribery and piteous whining, we made her stagger through the process.

I promised, "If you just get your Grade 13, you can do whatever you want. Go to college. Get a job. Drop dead. But you'll never regret it."

Already she's regretting it. Now she has to go to university, which she's about as much interested in as she is in catching leprosy.

This whole column is inspired (or uninspired) by the harrowing effort of getting Kim organized at university.

She thought she might be able to hack university if she had a pad of her own; a grill to burn beans on and burn toast on, and maybe a sleeping bag on the floor, and a few psychedelic posters and a few cockroaches and her cat for company.

This was all right by me. I've slept in barns and box cars. This was freedom from home and parents and all the awful things they represent, such as cleanliness and godliness and so on.

But her mum had different ideas. And her mum, as I have reason to know, is a domineering, forceful, overpowering and illogical woman, like most other women.

So Kim is going to stay in a nice home, with a very nice middle-aged couple. As far as she's concerned, it's getting out of purgatory and into hell.

I've never heard of anybody being kicked out of hell, but I imagine she'll manage it within about three weeks. If you have a teenage daughter, you'll know what I mean. They're absolute slobs until they're married, when, by some strange process, they go around emptying ash trays before anyone has used them.

But three weeks of dirty bare feet and a bedroom that looks like a Salvation Army old-clothes depot and a bathroom that looks as if it went down with the Titanic and even that charming, calm landlady will be screaming, "Out! Out!"

However, I guess the trip was worth it. We met a nice lady in the registrar's office who reads my column (hello, nice lady, keep an eye on my beloved). We had a couple of roaring fights with subsequent tears, which is good for everybody.

And we got home, after a fairly disastrous stopover with friends, to be greeted by our other rotten kid, the vacuum cleaner salesman, who has decided to go back to university after two years of drop-out, who has made $3,500 in the last eight months, who has "Maybe enough money to pay my fees," who was just dropping in at the old oil well to see if it was still pumping.

Somebody said, "Life is short and life is sweet." Thank goodness it's short.

The Seventh Column

The role of the OPP detachment located in Winchester was explained to Council the other night. A representative of the Ontario Police Commission journeyed down from Toronto at the request of the town fathers to outline what the OPP was doing here. Or should we say "could" do here.

At the outset let's be honest about the police affair in Winchester. When OPP came here, first as a one-man force, many people felt that this was the end to our policing problems. The black and white cars, the uniform . . . now we'll have some law and order. It wasn't long, though. until most of the population found out that the old system wasn't nearly so bad as they had wrongly believed it to be. True, the OPP were here, but what were they doing?

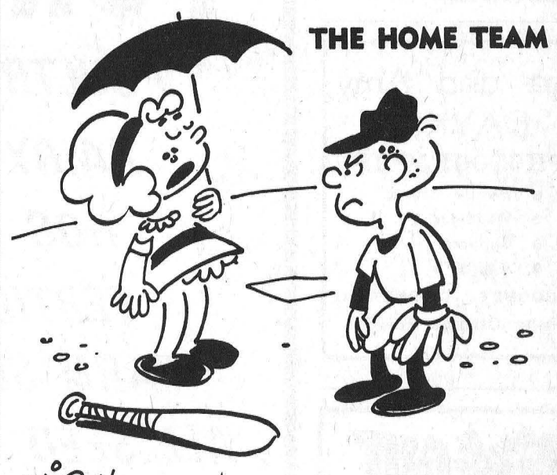
Well, in the first place the OPP boys are not paid to enforce the local by-laws. They are simply located in Winchester, working out of rented quarters which bring about two g's a year to the municipality, and doing their various duties for all the John Q. Citizens in the entire area served by the detachment. Winchester being the largest municipality in the area gets a little more attention. But that's it.

There are so many men to make the rounds and if you'll pardon the old cliche "you can't be in two spots at the same time." Now there are some who will argue, "how about one spot at one time." And maybe they have a little justification in being upset from time to time. Generally, though, the OPP does a reasonably good job.

However, it is not above criticism. For instance the other night driving home from the Sportsman's Dinner at North Dundas Ditrict High School the line-up of cars was as long as the eye could see. It was quite a sight to look up the road ahead of you and see RED . . . red tail lights. We, and quite a few other people, thought that the OPP could have located a cruiser and man at the exit to 43 from the school and/or the 43-31 intersection. Apparently there was a police constable and cruiser available because they were in the line-up making like the rest of the motorists. This is an example only. No doubt there are others where people expect the OPP to be on hand.

The OPP is here to stay, we hope, but maybe a little more imagination could be introduced in the day to day schedule and at times of special events.

Meanwhile, so far as town policing is concerned, the only answer, apparently, is a return to a municipal police force. But as it stands to-day a one-man police force in Winchester would not be sufficient, and it is doubtful if the town can afford more than one. Policing has become a costly business. Council is churning the matter over and over and no doubt the men who burn the midnight oil in the Winchester house of government will be open to suggestions as to how this problem may be solved. In the meantime the continued co-operation and understanding of OPP is essential.



"Of course, I've heard of being psyched up to win, but in your case I'd pray for rain!"

THE BIBLE TO-DAY

Daily Readings For September 14th to 20th

At Rethy, deep in Eastern Congo, there is a missionary who is a trained optician and who specializes in adapting used spectacles for his African friends. Recently he received from the West Nile district of Uganda a parcel of some 40 pairs of glasses, with the request that he should put stronger lenses in them. They were, he said, "the strangest assortment of ancient frames" that he had ever seen, but he set to work and did what was needed. The reason for the request? A new Bible had been published for the West Nile region; the print is smaller than that of its predecessor, and so a number of Bible readers found themselves in difficulties. This made a very worthwhile job for the optician, and he was able to fit the assorted frames with the necessary lenses.

New Timothy Christian School Officially Opened Near Williamsburg

Timothy Christian School, Williamsburg was officially opened last Tuesday, although it had been in operation since January of this year. Situated a half mile east of the village the modern 3-room school was built and is being operated without any outside financial assistance.

The Department of Education does not recognize the necessity of such a school system and consequently has till now refused any grants.

Although practically all the supporters are of Dutch descent the school is non-denominational and rigidly follows the curriculum set down by the Department of Education. There is one difference however, says one ratepayer, at this school they find time for christian education.

In his address to the large crowd seated in front of the school on a lovely sunny September afternoon, John A. Althuis, LL.B., Executive Director of the Association for the advancement of Christian scholarship, soundly criticized the present system of education. He explained how the values of christianity had been passed on from generation to generation down through the ages and how the youth of today are seeking to break with society. Furthermore, he went on, even scientists are looking for more concrete proof of some higher power.

He said the Hall-Dennis report taught children to play the role of God and removed christianity from the educational program. The McKay Report, he went on, found still some Christian indoctrination and decreed that it must go.

He recalled that in 1944 the Public School first showed signs when religious training periods were drastically reduced and two years later, in 1946 the first Christian School was established at Holland Marsh.

The fine Williamsburg school, was erected last year at a cost of $50,000 and children from 40 families make up the attendance of slightly over 100.

Four buses transport children to school and despite this added cost the present budget for the coming year is only $39,000. "Contractors tender much lower" suggested one farmer, "when aware that the government is not paying".

Dignitaries participating in the opening ceremonies included Hon. F.M. Cass, MP.P., Speaker of the House in the Ontario Government; Hon. Lucien Lamoureux, Speaker of the House in the Federal Government and Gordon Blair, M.P. for Grenville-Carleton.

Christian schools in both Saskatchewan and Alberta are now being partially supported by government grants and Williamsburg area ratepayers are hopeful they can also secure some assistance.

Stuart Leyenaar Wins Student Agricultural Award

Stuart Leyenaar, son of Mr. and Mrs. Klaas Leyenaar of Winchester Springs, was sole Canadian recipient of the Danforth Summer Award for senior agricultural students. Stuart, along with forty other outstanding seniors from state agricultural colleges in the U.S.A. participated in the three-week programme. The programme, from August 9 to 30, was sponsored by the Ralston Purina Company of St. Louis, Missouri.

One week was spent at the American Youth Foundation camp on Lake Michigan with emphasis placed on the physical, mental, social and religious development of each person. During the next two weeks the group was in St. Louis visiting several large corporations and research facilities of the Ralston Purina Company. The purpose of the award was to give each recipient a better understanding of himself through personal development and leadership training and to expose him to the broad aspects of industry and commerce.

Those participating in this travel award were chosen on the basis of extra curricular activities, character and scholastic proficiency.

Stuart is active in student government and the residence programme on his campus and is also a director of Wellington (County) Medical Services Co-operative. He is a graduate of North Dundas District High School and is currently a fourth year student studying Soil Science at the University of Guelph.

NOTICE

VILLAGE OF WINCHESTER

At the request of the Council of the Village of Winchester the Ontario Water Resources Commission has investigated the possibility of acquiring and constructing certain sewage works within the Village, these works to be owned by the Province of Ontario. It is now proposed to acquire and construct such works at an estimated cost of $784,473. For services provided from these works, it is proposed to impose an estimated service rate of 96 cents per 1,000 gallons of sewage accepted from the municipality.

The project will consist of the following works initially:

ACQUISITION

- 1,080 lineal feet of 8-inch diameter sanitary sewers on York, Louise, and Clarence Streets.
- 1,740 lineal feet of 10-inch diameter sanitary sewers on Mill Street.
- 880 lineal feet of 14-inch diameter sanitary sewers on an easement from Main Street to the pumping station.
- sewage pumping station on Ottawa Street.
- 3,200 lineal feet of 8-inch diameter forcemain connecting the pumping station to the waste stabilization pond.
- 6.75 acre waste stabilization pond, together with appurtenances.

All of the works to be acquired were constructed under OWRC/Municipal Project 2-0049-60.

together with sewers from the main sewers to the lot lines, extensions to the sewage treatment works, and two new sewage pumping stations.

It is proposed to raise the necessary annual revenue for the Provincial sewage works as follows: a frontage sewer rate of 40 cents per foot per annum on all lands which abut on or connect to the sewers to be constructed as described above, a connection charge of $18.47 per annum on owners or occupants of lands for which a sewage service connection to the sewers is provided, a 273 per cent surcharge on the water bill of domestic users of the system, and a surcharge of not less than 273 per cent on the water bill of commercial and industrial users of the system. In instances where there is a connection to the proposed sewage works but there is no connection to the water works, the charge for sewage service normally recovered by the water bill surcharge is to be recovered by the imposition of a foot frontage rate of $98.41 divided by the assessed lot frontage, per foot per annum on the owners or occupants of such lands. This foot frontage rate does not reduce or eliminate any other frontage rates imposed on properties for sewage or water works.

In computing the frontage charges, provision shall be made for the exemption or partial exemption from a foot frontage rate and for the determination of such exemption or partial exemption in the following manner:

(a) A reduction in the case of corner lots at the junction or intersection of streets of 110 feet of the flankage and a reduction or increase in the case of triangular or irregularly-shaped lots may be made in the foot frontage rate that otherwise would be chargeable thereon, sufficient, having regard to the situation, value and superficial area of such lots as compared with other lots, to adjust its frontage charge on a fair and equitable basis.

(b) Where a lot is for any reason wholly or in part unfit for building purposes, a reduction may be made in the foot frontage rate that otherwise would be chargeable thereon sufficient to adjust its frontage charge as compared with that of lots fit for building purposes on a fair and equitable basis.

(c) Where a lot, other than a corner lot, has two limits that abut on streets described above and the size and nature of the lot is such that any or all of the works in such streets are not required, a reduction in respect of the works that are not required, so long as they are not required, may also be made in the foot frontage rate that would otherwise be chargeable thereon, sufficient to adjust its frontage charge on a fair and equitable basis.

(d) In the case of lots that because of the nature of the terrain or the elevation of the sewer, do not derive the same benefit as other lands abutting on the sewer, a reduction may be made in the foot frontage rate which otherwise would be chargeable thereon, sufficient having regard to the benefit derived as compared with other lots, to adjust the foot frontage rate on a fair and equitable basis.

(e) The reduction shall be made by deducting from the total frontage of the lot liable to the annual foot frontage rate so much thereof as is sufficient to make the proper reduction, but the whole of the lot shall be charged with the annual foot frontage charge as so reduced.

On the basis of these levies a home connected to the water works, and having a frontage of 66 feet, would pay the following amounts annually after connection to the proposed new sewage works has been made.

66 foot frontage at 40 cents	$26.40
Connection charge	18.47
273 per cent surcharge on $36.00 water bill	98.28
TOTAL	$143.15

A home connected to the water works and to the EXISTING sewers would pay the following amount annually:

- 273 per cent surcharge on $36.00 water bill $98.28

A home not connected to the water works and having a frontage of 66 feet would pay the following amounts annually after connection has been made to the proposed NEW sewage works:

- 66 foot frontage at 40 cents	$26.40
- 66 foot frontage at $1.49	98.34
- connection charge	18.47
	$143.21

A home not connected to the water works and having a frontage of 66 feet would pay the following amount annually after connection has been made to the EXISTING sewage works:

- 66 foot frontage at $1.49 ..... $98.34

Any ratepayer may, within twenty-one days after the first publication of this notice send by prepaid post to the Clerk of the Village of Winchester, at the address given below, a notice in writing stating his objection to such approval or to the imposition of the sewage rates.

Glenn looks quite grown up for three-and-a-half, but actually this little boy is rather immature for his age. He is a handsome lad, as you see, with lovely grey-brown eyes, softly curling light brown hair and skin that takes a beautiful tan. Glenn is usually active, outgoing, exuberant and mischevious, but in contrast can be quiet and uneasy, especially with strangers or when overtired. He likes to play with his tricycle and wagon and, like most boys, is fond of cars. He loves small animals like kittens. Glenn has his favorite TV programs — cartoons and I Love Lucy — and he enjoys listening to records. His background is Anglo-Saxon and Italian with one Negro grandparent. He needs parents who will be understanding if he takes time to settle in his new home and who will provide love, direction and stimulation. To inquire about adopting Glenn please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182.
