Committees Are Appointed By Red Cross Executive

The first meeting of the Chesterville and District Red Cross Executive for 1942 was held in the Hydro office, Tuesday evening, with the new president, Herbert Brown, in the chair and 11 of the possible 13 members present.

The following committees were drafted:

Entertainment — Convener, O. L. King; Mrs. S. Blake, Mrs. Geo. Merkley, Miss Helen Lacey; Messrs. Leo Gallagher, Keith Graham, Earle Gordon, Eric Casselman, W. E. Marshall, H. M. Henderson, Francis Moriarty and Leon Marcellus.

As the Social Committee is appointed by the Entertainment Committee, the personnel of that committee will be announced later.

Finance — Convener, Walter Carr; A. J. Barrie, John Fleming, Bernard Allen, with all men on the executive and appointees from Nation Valley, Morewood, Bethune Bush, Maple Ridge, Forward Road, Grantley and Connaught. The complete committee will be announced when these appointments have been made.

Work Room Committee—Mrs. Earle Gordon, Convener; Supply Secretary, Mrs. Ken MacDonald; Receiving and Inspection, Mrs. James McAvoy and Miss E. McGee; Distribution—Mrs. D. M. Magee and Mrs. Jack Morris; Packing— Mrs. O. L. King and Mrs. Marcellus; Shipping—J. H. Fulton.

Public Relations Committee — Mrs. L. H. Doering, Convener; G. C. Lacey and R. C. Dillabough.

This committee was felt to have an important mission in arousing and sustaining interest in the different phases of Red Cross work in general and our own local projects in particular. All those expressed and implied criticisms of Red Cross and its commitments can be answered effectively and publicly through letters to the press. Once these misunderstandings are adjusted, it is hoped that a widened knowledge of Red Cross and its aims will result in a deepened interest throughout the community.

While the report for the year yields first place to none — even in much larger communities, let we must not be satisfied with the good when the best can be achieved.

"V FOR VICTORY" ON SHOT-DOWN GERMAN PLANE

An Australian soldier from the British garrison at Tobruk, Libya, chalks a "V" sign on the wing of a shot-down German raider. During six months that the British stronghold was successfully defended, the heroic garrison withstood more than 1,500 attacks by Axis aircraft, sometimes as many as 12 raids in 2 hours. But they shot down hundreds of Axis raiders, until the Germans became chary of raiding in mass, and usually sent over single planes.

lathea Class to continue its very effective work throughout this year was accepted in a motion by R. C. Dillabough, seconded by Mrs. Gordon. Both spoke in glowing terms of the contribution made by this fine group last year.

On motion of Mrs. N. Cameron, seconded by J. H. Fulton, Ronald A. Lynch was again appointed auditor.

The Junior Bridge Club offered to sponsor the distribution of cod liver oil to both Public and Separate schools and this offer was appreciatively accepted on motion of Mrs. McAvoy, seconded by Miss McGee. The secretary was instructed to write for quotations from the society which supplies cod liver oil at a very low cost for use in schools, and order to the sum of $12.00, the sum specified by the club.

DO YOU REMEMBER—

Do you remember the time when the sidewalks were cleared after a Saturday night storm and you did not have a good excuse to stay home from church in the morning?

Mrs. Charles Burd of Finch Badly Injured In Accident

Although their car was totally demolished, a family of three are today suffering from shock, bruises and cuts after hurdling over a bridge trestle into a creek about 10 o'clock Tuesday night.

Charles Burd, his wife and young son, of Finch, were driving north on the highway about one mile from MacMillan's Corners when they were met by an approaching car driven by Thomas Barcier, Northfield. The two cars were about to pass on the highway near the bridge when Burd thought he saw the Barcier vehicle head straight for him. Instead of jamming on the brakes, he pressed hard on the gas, police said, and the car vaulted the bridge, crashing through the ice into the water of the stream.

Although the police reported Burd told them the front of Barcier's automobile struck him, they would not confirm this.

Mrs. Burd was the most seriously injured, and had to be pulled out of the car. She is suffering from a badly lacerated face and many bruises. Doctors C. M Hall and A. J. Lalonde, of Cornwall, were called to the scene of the mishap and several stitches were needed to close her cuts.

The young boy, whose age and name police did not have, was shaken up and seriously bruised, but otherwise unhurt from the accident.

The father had one ear badly cut and suffered other wounds about his head, as well as shock and bruises.

Witnesses said it was quite possible that the boy and his mother would have drowned had there been no one close by to pull them from the icy waters, and immediately take care of them.

The family was taken to a home, listed on the police files as "Mr. Harrison's" where medical care was administered.

Constable James Blackadder of the township police force investigated and as a result of his observations it was thought highly unlikely that any charges would be laid against either Barcier or Burd.

TO MEET MONDAY NIGHT DISCUSS TOWN LEAGUE HOCKEY

Efforts are under way to organize Town League Hockey for this season for the benefit of the Red Cross Society, and all players from the village and district are asked to be at the rink on Monday night at 7.30 with their skates and sticks.

CHESTERVILLE HIGH BLANKS FINCH IN FIRST LEAGUE GAME

Ronnie MacMillan, Jack Casselman, Fred Bouck and Hubert MacMillan scored the goals for the Chesterville High School hockey team when Finch High School was handed a 4-0 shutout on Finch ice, Tuesday night, in the opening game of the new High School hockey schedule.

All members of the local team turned in fine performances, especially the two new players, Jack Doering and Rex Casselman. The former earned assists on goals by Fred Bouck and Jack Casselman, while Rex turned in a good game on the defence.

Finch fired a total of 13 shots on the local cage, while Chesterville had 41 on the Finch goal.

The executive of the C H.S. Hockey club for 1942 is as follows: Coach, J. H. Willard; Captain, Hubert MacMillan; Secretary, Ronnie MacMillan; Advertising Committee, Lester Summers and Bert Hum[illegible].

N. H. Herriman Died, aged 88 Was Native of Boucks Hill

Noah Hilas Herriman, who died early Monday morning at the home of a grandadughter, Mrs. Kemptfield Beckstead, Gravel Road, near Morrisburg, was in his 88th year and a native of the Boucks Hill section of Williamsburg township where he farmed. Some years after retiring from farming, he went to Morrisburg where he resided during the past eight years. His last illness was one of seven months, and a few weeks ago he was stricken with paralysis.

The funeral took place on Monday afternoon to Morrisburg United Church and the vault at Williamsburg, Rev. J. A. Payton conducting the services. Bearers were four old neighbours residing at Boucks Hill—John Clark, Jacob Whitteker, William Carr and William Lane. In the spring, burial will be made at Boucks Hill cemetery.

Mrs. Herriman, whose maiden name was Charlotte Plantz, died 22 years ago. There is one son, Elgin, at Boucks Hill. Mrs. Wilson Hyndman, of Wetaskiwin, Alberta, is a daughter. Sanford, a brother, resides at Boucks Hill.

There are five grandchildren and ten great-grandchildren.

FORMER MOREWOOD RESIDENT GETS PROMOTION IN ARMY

District Recruiting Officer G. G. Countryman has been promoted from Lieutenant to the rank of Acting Captain. Notification of the promotion was received by Mr. Countryman at Christmas.

Captain Countryman is a son of the late Ezra Countryman of Morewood. He has been on active service for a year and has been in charge of all recruiting in Northern Ontario, his territory embracing Timmins, Kirkland Lake, New Liskeard, Haileybury, Cobalt, Cochrane, Kapuskasing, Hearst, Smooth Rock Falls and other centres.

Capt. Countryman is well known throughout Porcupine, having been employed at the Dome Mines before his enlistment in the present war. He served with [illegible] from 1915 to 1919 during the First Great War, being awarded the Military Medal and Bar. He was discharged with the rank of sergeant at that time.

Heating System Improved At High School Building

At long last the heating system at the High School is functioning satisfactorily. When Thos. Barnes and Frank Hess, engineers from Nestlé's, were called in at the week-end to replace a broken part on the automatic stoker equipment, an examination by them discovered a faulty valve on the boiler. This was repaired and since then the low pressure steam system has been functioning perfectly.

The stoker broke down Wednesday night last week during one of this winter's coldest spells, but with hand firing the heating system was kept functioning until replacements were made on Saturday. New grates have also been procured and these will be installed this week-end.

Trouble has been experienced with this system since it was installed with the addition and improvements to the building in 1938. Heating engineers have inspected the system without locating the trouble, and the Board has been at its wits' end to remedy the situation. Now, however, every room is being kept at its correct temperature.

Late Mrs. S. P. Whitteker Was Former Finch Resident

The community of Williamsburg was shocked to learn of the death of one of its most highly esteemed residents, Mrs. Florence C. Whitteker, wife of Simon P. Whitteker, which occurred Friday afternoon at the General Hospital, Brockville.

Mrs. Whitteker had not been in good health for some time, but was able to be about her home until almost a week ago, when her illness assumed a more serious nature and, on the advice of her physician, she was taken to hospital on Wednesday, passing away on Friday.

Born in Williamsburg 62 years ago, Mrs. Whitteker was a daughter of the late George Tupper and Almira Garlough.

After her marriage to Simon P. Whitteker, 26 years ago, in 1916, they lived in Finch for a number of years, later going to Williamsburg where they had since resided.

The funeral was held Monday afternoon from her home to St. Peter's Lutheran Church, where service was conducted by the pastor, Rev. C. R. Cronmiller. Interment was in Williamsburg cemetery.

RECOVERING IN HOSPITAL.

Mrs. Hulbert Cross is recovering satisfactorily at the Ottawa Civic Hospital where she underwent a serious operation last week.

NO NEW PROVINCIAL TAXES IS GOOD NEWS

ONE of the bright signs of the times is the announcement by Premier Hepburn, as Treasurer of the Province, that there will not be any new taxation this year. With the Federal authorities invading the Ontario field there will be a substantial decrease in provincial revenue and this is a time when all unnecessary frills should be abolished. There is no good reason why administration costs should not be very materially reduced and anything in the nature of capital expenditures might well be held in abeyance until the post-war period when such undertakings will be vitally important to tide over the period of maladjustment following peace. In respect to the Ontario budget to be presented at the February session, Premier Heyburn states that the 1940 personal income tax returns collected in the current 1941-42 fiscal year, by reason of the exemptions allowed in the payments on Federal income tax, are down about $2,000,000 from the previous fiscal year. This is a source of revenue of which the province and the municipalities will be deprived next year in addition to the corporation tax. Gasoline tax revenues remain at the old rate but here again with rationing and the restricted use of automobiles, a distinct drop in collections may be looked for, collections which, in fact totalled more than 26 million dollars last year. With the floating of the new Federal loan and other war demands, this year seems one for foregoing luxuries.

GREATER EFFORTS NEEDED TO SUPPLY BACON NEEDS

WHILE Canada's contract for the supply of bacon to the United Kingdom has so far been met, indications are that drastic reductions in the domestic consumption of pork will be necessary in order to send Great Britain the 600 million pounds agreed upon. It is admitted that the increase in production has been encouraging, but it is to be remembered that the last contract with Britain, which terminated last fall, was for 425,600,000 pounds and the enlarged demand will call for a greater effort on the part of farmers and more self denial by Canadians in respect to the use of pork. The people have become alive to the fact that sacrifices must be made in order to ensure victory and will cheerfully forego the luxury of breakfast bacon and ham and eggs to help along the desired end. Supplies of coarse feed from the West, freight prepaid, have helped the situation in Ontario and there seems little doubt our farmers will be able to furnish the hard-pressed peoples of Britain with food stuffs necessary to carry on the struggle.

USELESS AND COSTLY WAY OF SETTLEMENT

STRIKES are a futile and costly way to settle labour problems in wartime. This is demonstrated by the situation in Kirkland Lake Gold Mines area where a strike has been in progress since November 18. The men out of work have lost thousands of dollars in wages and the municipality has been deprived of much necessary taxes and that it has cut into the revenue of the mine operators is evidenced by the statement of the officials of the Wright-Hargreaves Company that it may be necessary to reduce the amount of future dividends to shareholders. Many well-meaning people have attempted to secure a settlement of the trouble but their efforts apparently have only added fuel to the flames. The Ontario Government has a large body of provincial police on the scene to keep the peace and to ensure that any of the men who wish to return to work will be permitted to do so. A compromise at this stage seems advisable as with the number of men already at work a stalemate seems the only outcome of the struggle.

HUNDREDS TO BE X-RAYED TO CURB TUBERCULOSIS

REGARDING the health of the people as of paramount importance, the Ontario Department has been conducting experiments that cover a wide endeavour. The latest development in this particular field is the warfare to be waged on tuberculosis. It is based largely on the value of early diagnosis and preventive measures. This week the Department's newest X-ray clinic on wheels started out on its visits to factories and industrial plants where chest examinations of the employees are being made. Schools will also be visited. The work in the industrial field is being undertaken by the Division of Industrial Hygiene under the direction of Dr. J. G. Cunningham, the clinic being staffed by a Division physician, a nurse and a technician.

The new clinic is geared to make from three to four hundred examinations a day on the newly developed minature X-ray machine which takes pictures on a 35-millimetre film. Power for the unit is taken directly from the factory electrical circuit. The machine is mounted in a truck which contains dressing rooms in addition to the essential equipment. Dr. Cunningham says that for the Divisional of Industrial Hygiene the X-ray examinations are but one phase of a programme that is destined to bolster production of war materials by keeping the workers healthy. Tuberculosis behaviour in any other corresponding period of intense industrial activity indicates that the incidence of the disease may rise at the present time. It is believed, therefore, by Department officials, that mass X-Ray examinations is the next logical step in its control.

THE SIMPLE LIFE

NUMEROUS PREACHERS have asserted that happiness does not depend on material possessions, and period immediatly before us is likely to put that theory to the test. Instead of making the hackneyed New Year's resolutions about giving up tobacco and liquor, one might well employ one's hours of mediation in preparing to forgo a long list of other commodities that have never been condemned as harmful. The chances are that the new resolutions will be kept.

The prospect is not frightening. If razor blades and electric razors vanish from the market, the men can cultivate beards. Cosmetics are also threatened, so while the men retreat into ambush, the unadorned female face may appear. Looking forward to a new set of faces on our friends and acquaintances lends intrest to the coming days of scarcity.

Rationing of rubber and gasoline will have compensating advantages. More walking will improve our health and figures and give us better appetites for the home grown foods that may replace imported products. If a shortage of civilian clothing force us to extract the last bit of wear out of our garments, we can cheerfully all be shabby together and abandon the task of keeping up with the Joneses. If we cannot take summer vacations away from home, we can explore our own cities and countrysides and discover for ourselves the unnoticed charms that have attracted strangers to them in the past.

Whatever happens, life in 1942 is going to be adventurous for civilians as well as soldiers. If plans for the full utilization of our human resurces are wisely made and efficiently carried out so that everyone is able to do his or her best for the great cause, the simple life will be happy as well as novel.

PLEASE EXPLAIN THIS ONE

"MUST Take Car Washing Dishes". That was the headline in a daily paper last week. Why, in the name of goodness, did a car have to go when dishes were to be washed? We took the matter up with friend wife and were politely informed that we were "crazy". No one had to have a car when washing dishes. That didn't satisfy us. Perhaps you know why one "Must Take Car When Washing Dishes".

At a Gloucester festival a visitor wished to enter the cathedral during one of the performances. On demanding admission he was told that he could not enter without a ticket.

"D'you mean to tell me," he exclaimed, indignantly, "that I shall require a ticket to enter the Kingdom of Heaven?"

"Well, no," explained the polite steward, "but you won't hear Mme. —sing in Heaven."

Pleads For Agriculture

Speech Given Extemporaneously by the Hon. Frank C. Biggs at a meeting of the Committee for Total War in Toronto, Saturday

I WOULD like to say a word on behalf of Agriculture. Mr. Chairman, Ladies and Gentlemen, I came to this meeting today, not knowing what the meeting was called for, but when a matter of national urgency was suggested I felt it my duty to come.

I want to congratulate the committee of patriotic citizens for calling this meeting. I want to congratulate them on the step forward that they are taking in regard to the ad, and I, for one, want the privilege of signing it.

I have the privilege to operate a 600-acre farm on No. 8 Highway, just outside the town of Dundas. I wish guidance from the Federal Government as to what I should produce on that farm.

We agriculturists, and I think I speak for the agriculturists of the Province of Ontario, are groping in the dark at the moment. We know it is suggested we want 600 million pounds of bacon this year. We want 125 million pounds of cheese. That is quite an increase over last year, and we barely got over the hurdle with 425 million pounds of bacon and four million pounds of cheese, by cutting off the domestic market on cheese.

I think the time has arrived when we should have guidance, have leadership, as far as agriculture is concerned. If I am not producing the commodities needed to win this war on my farm, tell me so, and that is what the agriculturists of this Province are asking for. If it is necessary to switch from beef to dairy, or some other line, to hogs, or if I should grow soy beans that plastics may be produced in larger quantities, or bakelite, or any of these things, that we may assist on the farm, we want to do it, but we have no leadership today. We have only an intimation that bacon will be needed and that cheese will be needed. We want leadership. I want to impress that. Agriculture will welcome leadership to win this war.

There are other serious problems arising. I am one of the agriculturists that employs labour. I am willing to take my lot, as it may be, for assistance in tilling the farm and producing those necessities. But I want to say now, over the Province of Ontario, I conservatively estimate that ten to 15 per cent of the farms that are good fertile farms are not being tilled. We have hundreds of thousands of farmers this year that will, through force of non-labour, cut their production in half. The point arises, as far as agricultural production is concerned, of the wages we are compelled to pay, through the drift to industry — not to the army, because our wages compare better than army wages — very much better. We have no help to carry on with.

I am not complaining about this, but if the Government expects production, then we want selective conscription, as farmers.

If my efforts, or the efforts of my sons, of my hired help, now in agriculture, are better in industry or better in uniform, put them there, but above all, let us win the war and you will not win the war on empty stomachs. This is a mighty important factor. I am afraid we have not given enough study to the necessity of food. I warrant we have a surplus of wheat, but wheat is only one commodity. Today we have not a surplus of farm products in the Dominion of Canada, outside of wheat, and you can very easily see, and it is fast coming about that we will drain all the reserves that there are in the Dominion of Canada outside of wheat.

So, I plead with you, Sir, for selective conscription. I want to sign your advertisement and I hope that agriculture will get a fair consideration if we can have selective conscription. (Applause.)

A plumber joined the army and went in for his trade test. He was asked to make a joint in a lead pipe. When it was finished the officer put on his paper; "Joint very neatly done."

Three weeks later the man found himself head cook in the officers' mess.

Workers Far Too Indifferent With Insurance Books

Carelessness and indifference regarding their insurance books are still too common among insured workers, Mr. Laframboise, Manager of the Employment and claims Office, stated to The Record.

Many of them fail to get their books from their employers when they leave their jobs to work elsewhere. Instead, they get new books from their new employers and start all over again with their contributions. Others lose their books altogether and fail to report the loss to the Claims Officer so that it may be traced and potential loss of benefits avoided.

Every insured worker should realize that his unemployment insurance book represents real money—money from his own pay envelope and from his employer's bank account — money that should be available for him and for his family if he ever becomes seperated from his employment.

Mr. Laframboise pointed out that every insuance book when it is issued is stamped with a serial number and that number is retained by the worker for the remainder of his working years. If, therefore, he obtains a new book each time he changes his employment, he stands to lose the benefits based on the record in the book or books first issued to him.

It must be clearly understood that the Employment and Claims Officer is the only one authorized to replace an insurance book that is lost or mislaid. Consequently, the insured worker who transfers his services from one employer to another should get his insurance book from his employer at the time he quits his job. If he is going to another job, he should take it to his new employer, who will continue the records of contributions on his behalf. If he has no job to go to, the book should be deposited with the Employment and Claims Officer at once.

If the book is lost or mislaid, the loss should be reported to the officer without delay. The longer the delay in reporting it the greater will be the difficulty in replacing the records the book contained.

It cannot be too strongly impressed on workers, Mr. Laframboise concluded,that their unemployment insurance books are their only records of contributions made in respect of them, and that without them, they cannot qualify for benefits, if they become seperated from their employment. One insurance book and one serial number is all that any one worker is entitled to. Any worker who secures more than one confuses the records and will suffer loss himself if he ever finds it necessary to apply for benefits.

WARTIME WAGE CONTROL

Instructions to Canadian Employers and Employees concerning the Wartime Wages and Cost of Living Bonus Order, P.C. 8253.

THIS Order of the Dominion Government—which under the War Measures Act stabilizes wage rates and requires employers to pay a cost of living bonus — provided for the establishment of National and Regional War Labour Boards to administer the Government's policy.

National Employers

Communications from employers and employees in the following employments should be addressed to the Secretary, National War Labour Board, Ottawa:

(1) the operation of lines of steam or other ships, railways, canals or telegraphs, including all services ancillary thereto, connecting any province with any other or others of the provinces or extending beyond the limits of the province;
(2) the operation of any system of air, bus or truck transportation connecting any province with any other or others of the provinces or extending beyond the limits of the province;
(3) the operation of any electrical power or transmission works connecting any province with any other or others of the provinces or extending beyond the limits of any province, or serving two or more provinces;
(4) mining;
(5) the operation of any shipyard;
(6) all undertakings located in the Yukon or Northwest Territories.

Regional Employers

Employers and employees in employments other than those above designated should address their communications to the Regional War Labour Board in care of their respective provincial governments.

The Order provides that no increase or decrease in a basic scale of wage rates may be made by any employer. Violations of this Order are subject to penalties.

Extracts from the Order and the Board's Interpretative Rulings are given in the National War Labour Board's Bulletin No. 1, which may be obtained on application to any Regional War Labour Board.

The National War Labour Board

Ottawa, Canada, January 12, 1942

TOTAL WAR NOW!

The Parliament of Canada meets on January 21st. The most momentous session in Canadian history begins in a few short days. It is your Parliament. The members are the servants of the people, not of any party. They represent every one in the constituency which elected them. Each one of them needs your help as never before. Assert your democratic right to govern. Tell your member what you think should be done and do so without delay.

There is one issue which overshadows all others. The Prime Minister of Canada has told us what that issue is. These are his own words: *"There is only one way to meet total war, and that is by total effort."* — *"We must maintain the Canadian army at full fighting strength."* The Leader of British democracy told the people of Canada what total effort means. These were Winston Churchill's words: *"In this strange, terrible world war there is a place for every one, man and woman, old and young, hale and halt. Service in a thousand forms is open. There is no room for the dilettante, for the weakling, for the shirker or the sluggard. The mine, the factory, the dockyard, the salt sea waves, the fields to till, the home, the hospital, the chair of the scientist, the pulpit of the preacher — from the highest to the humblest, the tasks are all of equal honor. All have their part to play."*

To fulfil that description of total effort is the first and foremost duty of the Parliament of Canada. The people of Canada must be told what part they are to play. They cannot guess. Every man and woman, strong or weak, old or young, must be guided by the Government to the post where they can contribute most to victory. We are conscious of the substantial efforts made throughout the war by the Canadian Government. We are anxious to assist them in making the vital decisions forced upon them by the events of the past few weeks. We do not believe that the people of Canada consider that their Government or its leader are in any way bound by undertakings given before the United States entered the war. This is no time for a referendum. The responsibility rests squarely on Parliament. The war will not wait.

There is only one way to meet total war — by total effort — that is to mobilize all our manpower and material resources under a plan of universal compulsory selective service. Those who can serve best on the farms must work on the farms. Those who can serve best in the factories must work in the factories. And those best fitted to serve in the armed forces must be trained, equipped, and available for service in Canada or overseas anywhere at any time. That is the only way that our farms, our factories and our armed forces can wage total war. **No half measures are consistent with national honor.**

If you agree with that opinion then it is your duty to tell your member NOW that you want him to insist upon the immediate adoption of such a plan. Tell him that you want the business of government brought into Parliament where it belongs. Tell him to inform Parliament, and through Parliament the whole of Canada, that the people of his riding advocate and will support any measures, however drastic, which will assure the last ounce of effort of which they are capable. To Canada's Parliament, which will meet in a few short days. Mr. Winston Churchill said this: *"The enemy has asked for total war. Let us be sure that he gets it."* Tell your member in the short time which still remains that you want to be sure that we do wage total war and that you want him to say so in your behalf on the floor of Parliament.

There is an added reason why you must act immediately if you believe that democracy is government by the people. Last week, President Roosevelt told one hundred and thirty million people of the United States where their armed forces are going to fight in this war. *"As our power and our resources are fully mobilized, we shall carry the attack against the enemy — we shall hit him and hit him again, wherever and whenever we can reach him."* We are partners with the United States in this struggle. We signed a pact binding us to a common effort. National honor and the safety of our people demand that every man who wears the uniform of Canada be ready at all times to go overseas to hit the enemy wherever and whenever he can be reached. What a shameful travesty of justice it would be if we approved of unity of military command and failed to establish unity of sacrifice between nations. Canada's honor is at stake.

The Committee for Total War urges you to act without delay. Send your member a telegram, a letter, or a postcard at once. This is your most important task. Your member represents you no matter what your party may be. He is your voice in Parliament. When you put down this newspaper, act at once. If you agree with the opinion supported by this Committee, say so.

JANUARY MEETING IS HELD OF UNITED CHURCH W. A.

The January meeting of the Women's Association of the United Church was held in the Church Hall on Jan. 7 with the new president, Mrs. Stewart Mattice, in the chair. The meeting opened with singing followed by prayer. The scripture reading was given by Mrs. J. V. Fetterly. The treasurer gave her report of the year's work which was very encouraging, the receipts being over $100 more than the previous year. Several committees were appointed. It was decided to hold a bazaar and the sewing committee was re-elected with Mrs. W. C. Hetherington as convener. The roll call was answered by paying the dues. The meeting closed with the singing of the hymn "Blest Be the Tie That Binds". Lunch was served by the committee in charge.

WOMEN'S INSTITUTE "AT HOME"

The January meeting of the Women's Institute took the form of an "At Home" and was held at the home of Mr. and Mrs. M. Glasgow, Tuesday evening. A short business session was held and work was given out. Progressive euchre was then played with prizes going to Mrs. W. Campbell, Mrs. J. Steen and Mrs. J. Ballantyne; C. Thompson, James McConnell and Milfred Glasgow. A vote of thanks was given Mr. and Mrs. Glasgow for their hospitality which brought a very pleasant evening to a close.

The generous who is always just, and the just who is always generous, may, unannounced, approach the throne of Heaven.—Lavater.

The January meeting of the Crysler Women's Institute was held at the home of Mrs. Thos. Fleming, Tuesday evening. The president conducted the opening exercises, assisted by Mrs. S L. Begg as secretary. Roll call was responded to by a large number of members and visitors. Several letters of thanks were read by the president from local boys overseas who had received Christmas boxes and parcels from the Institute. The Honourary President sent greetings and good wishes from her home in Iroquois. A paper on "Low Cost Meals" was given by Miss Eula Currie. Work at the Sewing Room will be continued as usual each Thursday.

It was arranged to hold a Bingo and dance shortly The grand drawing on a quilt, "The Triple Irish Chain", made and donated to the Institute by Mrs. J. R. Cockburn, will take place on the same evening.

Piano selections were given by Miss Joan Fleming, Miss Delores Johnston and Mrs. Wm. Ouderkirk.

A supper collection was taken, and the meeting closed with the singing of the National Anthem. Refreshments were served by the hostess and her assistants and a social half hour was spent. Mrs. S. Beggs will be the hostess for the February meeting.

NEW TELEPHONE DIRECTORY NOW BEING DISTRIBUTED

Featured by a buff cover of somewhat differant design, Chesterville's new telephone directory is being delivered to local subscribers this week.

Since there are more than 5,800 new and changed listings in the alphabetical section alone, the importance of discarding the old book and carefully consulting the new one before placing calls is obvious, if the "wrong number" nuisance is to be avoided.

It is interesting to note that the Dominion Post office collects well over $10,000 a year for handling the directories of The Bell Telephone Company of Canada. In the largest cities, books are distributed by messenger, but all the smaller deliveries are made by His Majesty's mail.

The Record to any Overseas address costs only $2.00 for 12 months.

CONTENTS OF PARCELS, "JUST WHAT WE NEEDED"

The Rotary Club of Chesterville has received letters from many of the local boys to whom parcels were sent overseas at Christmas time. This letter is chosen as a typical "thank you" and tells of the joy with which certain articles are received over there.

To President and Members,
Chesterville Rotary Club
Dear Sirs,—

I am writing on behalf of Jack and myself, thanking you most hearily for the boxes which we received safe and sound on the 28th of November. I don't believe you could have arranged a box that filled in our needs any more if you had tried. We get along fairly well with our rations of food but such things as were in the boxes are just like gold here.

As you know, we cannot tell you of our work here, therefore I find it very hard to write a very interesting letter; but I think I may say we are on coastal defence now and also we are both No. 1 gunners in Bren Gun carriers and figure ourselves lucky to be in the mechanized part of the Battalion. But also, we must admit we have plenty of rough rides.

In closing, we thank you again and we both feel greatly honoured to think we are being thought of by the club which is playing such a great part in every way for King and country and those away from home. We are over here to do our share and, believe me, when we get a chance we will do it.

As it is a bit late to wish you all a Merry Christmas, we wish you a Happy, Healthy and Prosperous New Year.

We remain, yours truly,

(Ted) Pte. E. M Lewis,
(Jack) Pte. J. J. Hutchinson.

Thanks a million.

Week of Musical Treats :-: Along the Air Waves

A BRILLIANT member of Britain's brilliant family of musicians — the Goossens — will be the honoured guest of CBC's Toronto studios for the opening broadcast of the 1942 season of British ballad operas. Eugene Goossens will direct the performance of Handel's "Acis and Galatea" on Sunday, January 18, from 8.30 to 9.30 p.m. EST.

Eugene Goossens is the third of that name to take his place among Britain's leading operatic conductors. His grandfather went to England from Belgium in 1873, became the chief conductor of the famous Royal Carl Rosa Opera, and in 1882 led the first British performance of Tannhausser The second Eugene Goossens also led the Carl Rosa Opera Company, and gained a distinguished reputation as a violinist and as chef d'orchestre of several leading symphony orchestras

He married a member of the Carl Rosa Opera Company, and his four children have all won distinction in their respective spheres. Marie and her sister Sidonie are famous harpists; Leon Goossens is probably Britain best oboist. Eugene Goossens the third has been for the past twenty five years an outstanding operatic and symphonic conductor. He came to this continent after many and varied European successes and has been the conductor of the Cincinnati Symphony since 1931.

THEY LET AN EXPERT DO IT

A real moose call sounded recently on "The School of the Air of the Americas", when the Canadian ballad "John's First Moose" was read, reports CBS. Foiled twice in atempts to corral a recording of a genuine hunting guide's moose call, CBC finally enlisted the aid of the CBC. CBC called up a guide and had him emote moosily at Fredericton, and a disc was forwarded to New York. Two of the "School of the Air" features, "Tales from Far and Near" and "Music of the Americas" are heard on CBC's Eastern Network at 9.15 a.m. EST, on Tuesdays and Thursdays, respectively.

DOUBLE TEN AGAIN

For fans of the Ten-Ten Club, a number of new programmes have been effected on CBY.

Byng Whitteker is well under way with his new morning programme, "It's 8.30," featuring time signals, dance recordings, chatter and Whittekeriana. Messes. Whitteker and Glover are also presenting the "Ten-Ten Swing Club", which is scheduled from 2.00 to 3.30 pm., EST, Saturday afternoons.

EMPIRE PARADE

Tunes that have played the soldiers of the Empire into battle will be heard on CBC's National Network on Wednesday, at 7.30 p.m. EST. Capt. J. J. Gagnier and the Band of His Majesty's Canadian Grenadier Guards have planned a programme of such characteristic marches as John Slatter's "Under the British Flag", "Men of Harlech", the French-Canadian "O Carillon", "Punjab", and "Sons of New Zealand".

Scentific Note

In perverse contradiction of the accepted theories on drinking and driving, one Toronto motorist is accustomed to drive with especial care after he has taken one or two drinks

Returning from a stag party one recent evening, he was hugging the curb and proceeding at not more than fifteen miles an hour, when he was startled by the sudden apperance of two policemen, one on each running board.

"Step on it, buddy," shouted one of them, "and catch that car ahead. The driver's drunk."

Smart New Uniform For Army

Walking-Out Uniform to be Issued in Addition to Battle Dress Resembles Officers' Dress.

CANADA'S young soldiers already, according to wartime standards, "the best-dressed men" in the Dominion, are shortly to be issued with a smart second uniform to be worn off duty, it was announced at Defence Headquarters at Ottawa this week.

Rumoured recently as a replacement of battle-dress, the new uniform will be issued in addition to the fighting dress which has proved itself the most practical dress ever designed for battle conditions.

"It is decidedly not a replacement—the walking out dress is what its name indicates," said Major-General B. W. Browne, Adjutant General, "a 'best suit' to be worn when work is done for the day. The boys who form Canada's Army today are typical young Canadians, the kind of chaps who wouldn't think of going out for the evening in their working clothes, who wear their best suit on Sundays. Because they are in the army there is no reason why their standards should be changed — hence the issue of an extra uniform."

Economy enters into the picture, too, it was pointed out, two suits having more than twice as long a life as one.

Smartly cut, quite like the jackets and slacks worn by officers, even to the brass-buckled cloth belt, the new uniforms, issue of which is expected to be made early in March, are tailored in regulation Khaki serge. The tie to be worn with the new uniform is Beech brown in colour and collar-pins form part of the issue. Black socks, finer than the issue worn with boots, and black low shoes complete the walking-out dress with which is worn the familiar khaki wedge cap or, if the soldier possesses one, the colourful edge cap authorized already.

The jacket has four pockets, the breast pockets being of the regulation pleated pattern and the side ones large patch pockets, differing only from those of the officer's tunic by being stitched all the way around instead of "bellowed". A deep bent in the centre back seam ensures a good fit when sitting.

Complete issue will consist of: Jacket, serge; trousers, serge; two collars; one collar-pin; brown necktie; black socks; black leather low shoes, and waterproof coat.

The once familiar "swagger-stick" will make its reappearance when Young Canada steps out in the new uniform, and another stick—the "button-stick", a brass guard to protect fabric from polish when buttons are being shined, will come into its own again.

Another feature of the "walking-out dress" will be the wearing of regimental collar badges, also a once familiar feature of the soldier's uniform.

Many senior officers at Headquarters, quite a number of whom were in the ranks during the Great War, have expressed admiration not untinged with envy of the new uniform and speaking as ex-privates and N.C.O.'s freely predict that this forward move on the part of the Army will be greeted with enthusiasm by the troops.

Actual date of the issue cannot yet be set definitely because of the necessity of designing the many sizes in which it will be made but it is anticiptated that delivery will commence in about six weeks' time.

Thrift in Soups

HELLO, HOMEMAKERS! Soup's on! That old Scotch favourite is important when it really means what you say. For soup can be both tempting and substantial — and, of course, it's thrifty.

There are several types of soup. Clear soup is the aristocrat — a little goes a short way — and only paves the way to the main course. Thick legume or vegetable soup is practical, appetizing and wholesome — almost a meal in itself.

Then, there is cream soup. The expression "cream" soup is misleading since we now use skim milk or the water in which the vegetables are cooked — not cream. Chowders are similar to cream soups but are thickened by adding flaked fish, pieces of meat or any vegetables — but tomatoes or not tomatoes, that's a question which can stand a hot argument.

Served generously and well-seasoned, soups are ideal as a main dish for any hungry family. To make soup still more tempting, serve it with plenty of crackers, melba toast, plain biscuits, pastry squares, or bread — inexpensive accompaniments. Along with the proverbial cabbage salad and glorious golden dessert of canned peaches, or stewed apples—soup's on!

SWISS POTATO SOUP.

4 small potatoes
1 large flat white turnip
3 cups boiling water
1 quart scalded milk
½ onion, cut in slices
4 tablespoons butter
1-3 cup flour
1½ teaspoons salt
⅛ teaspoon pepper

Wash, pare and cut potatoes into halves. Wash, pare and cut turnips in ¼-inch slices. Parboil together 10 minutes, drain, add onion and boiling water. Cook until vegetables are soft; drain, reserving water to add to vegetables after rubbing them through a sieve. Add milk, reheat, and bind with butter and flour cooked together. Season with salt and pepper. Serves 6 to 8.

...—V...—

SPLIT PEA SOUP.

1 cup dried split peas
2½ quarts cold water
2 cups milk or water
½ onion
3 tablespoons butter
2 tablespoons flour
1½ teaspoons salt
⅛ teaspoon pepper
2-inch cube fat salt pork

Pick over peas and soak for several hours, drain, add cold water, pork and onion. Bring to boil on electric element turned HIGH then to SIMMER 2 hours, or until soft; rub through a sieve. Add butter and flour cooked together, salt and pepper. Dilute with milk or water, adding more if necessary. The water in which a ham has been cooked may be used; in such a case, omit salt.

SALMON SOUP.

1 cup salmon
2 tablespoons butter
1 quart scalded milk
4 tablespoons flour
1½ teaspoons salt
few grains pepper

Drain oil from salmon and rub through sieve. Add milk gradually, season, and bind with butter and flour cooked together. Serves 4 to 6.

...—V...—

SCOTCH BROTH.

3 pounds lamb or mutton
½ cup barley, soaked in cold water 12 hours
4 tablespoons butter
¼ cup carrot
¼ cup onion
salt and pepper
2 tablespoons flour
½ tablespoon finely chopped parsley
¼ cup turnip
¼ cup celery

Cut lean meat in 1-inch cubes, put in kettle, cover with 3 pints of cold water, bring quickly to boiling point on electric element, skim, add barley. Simmer 1½ hours or until the meat is tender. Put bones in second kettle, cover with cold water, heat slowly to boiling point, skim, and boil 1½ hours. Strain water from bones and add to meat. Fry vegetables in 2 tablespoons butter 5 minutes, add to soup with salt and pepper to taste, and cook until vegetables are soft. Thicken with remaining butter and flour cooked together. Add parsley just before serving. Rice may be used in place of barley.

:: TAKE A TIP: ::

1. Planning menus in advance helps the food shopper. By doing this, she can often save pennies by buying foods in large quantities.
2. Compare prices of foods with equal food values.
3. Read labels carefully so you will know exactly what is in the packages.
4. Buy in quantity when economical, especially such staples as sugar and flour.
4. Compare cost per ounce or pound of different sized packages.
6. Buy by weight rather than by the dime or dollar's worth.
7. To get the quality you pay for, buy by grade — for example, butter, eggs, beef, canned fruits and vegetables, etc.
8. Buy foods in season. Read the ads, visit the local stores, and watch the Mixing Bowl Column to keep up to date on the food situation.
9. Check weights and purchases before you leave a store
10. Notice the best method of cooking foods to retain the maximum amount of food value.

THE HUM OF HYDRO IS THE Voice of Victory

● The war calls everyone to a post in 'the front line'—in or out of uniform—and your Hydro answers "Ready!" Giant energy, tapped from Ontario's waters, flows over 6,000 miles of transmission lines to shops, mills, factories, foundries, mines and shipyards—wherever the tools of victory are being forged.

It may be simply shell-casings, or it may be thundering tanks, swift, sturdy corvettes or sky-filling planes. Whatever it is, Hydro energy is there to speed the work in a thousand plants.

Your Hydro was ready for war-time industry. Ontario's citizens can take pride in that. And, outside of industries, Hydro is supplying the needs of 600,000 users in city homes and 131,000 users in rural districts.

Of course, war-time needs have first call on Hydro power. Furthermore—there must be a sparing use of metals and materials once commonly used in extending Hydro service. These are demanded in war industries—vital to victory!

New projects, new war plants with new machines for new production are on the way. Hydro must and will supply the power needed. To this end, Hydro earnestly solicits the co-operation of all of the people of Ontario.

REMEMBER—it's YOUR HYDRO SYSTEM—
OUR WAR EFFORT RELIES ON IT...
YOUR COMMUNITY DEPENDS ON IT...
YOUR SUPPORT MAKES IT STRONG
