Successful Men Always Saved

They were thrifty. They were shrewd enough to see that the habit of saving meant the strengthening of character. With the money saved they were able to take advantage of opportunities as they arose.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child ($1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

Large Ear of Corn

On Monday Mr. Isaac Harper brought to The Record office an ear of corn taken from a stalk growing on his place which measures sixteen inches in length clear of kernels. Eight rows are on the cob averaging sixty-five and a half kernels to the row, making 524 on the cob. Most of the corn throughout this district is well eared and will make ensilage of high feeding value.

Death of Henry Dillabough of Cloverdale

Mr. Henry Dillabough, youngest son of Mr. A. S. Dillabough of Cloverdale, was taken to Kingston Hospital last week for an operation for appendicitis. He was reported on Saturday night to be doing as well as could be expected but on Monday night the relatives received word to come and early on Tue day he passed away. Mrs. George Beattie of this place is a sister who is left to mourn, besides another sister and 2 brothers, also the lonely parents, with whom Henry lived.

A Case of Smallpox

A case of smallpox is reported in Winchester township about a mile east of Chesterville, in the home of Mr. William McMillan, the origin of which, if correct shows gross carelessness on the part of someone in authority in British Columbia. A son of Mr. McMillan was a member of the Canadian force sent to Siberia. On June 6th last, a few days after his return he died of smallpox at the Williams Head quarantine station in British Columbia. Four weeks ago his personal effects sent by the Military authorities arrived here and without doubt brought the contagion. The case is in the hands of the township Board of Health which has established a strict quarantine and there does not appear to be any likelihood of the disease spreading beyond the one dwelling.

Mr. George Steer Bereaved.

The death occurred on Sept. 8th, in Edmonton, Alta., of Mrs. Geo. Steer who was formerly Miss Helen Cameron of Winchester. Mr. Steer was at one time Principal of the High School in Chesterville. Mrs. Steer's body was brought to Winchester where a funeral service was conducted last Saturday at 2 p. m. in the Presbyterian Church by Rev. H. Cameron of Morrisburg, who had officiated at her marriage three years ago. Rev. Mr. Glassford assisted in the services. The floral tributes were so numerous that it required the service of Mr. A. Sweet's motor truck to convey them to the cemetery. A large number of schoolmates and friends attended the funeral, thus showing the popularity of the deceased when a girl there. She lett a son a fews days old, besides her husband, to whom is extended the sympathy of many friends here.

J. A. Campbell Tendered Liberal Nomination

The Liberal Convention on Monday was one of the best both as regards numbers in attendance, every part of the Co. being represented, and the enthusiasm manifested throughout the whole afternoon. The first business taken up was the election of officers, when the following were declared elected;—President— Dr. Bean, 1st. Vice-Pres.—J. F. Render, 2nd. Vice-Pres.—Edmond Thompson, Sec.-Treas.—Geo. Elliot.

Directors

Mrs. Doran, R. F. Lyle and Alfred Clement for Morrisburg.

Jas. Render, Miss Maud Cameron and Percy Barclay for Iroquois.

Miss Norah Elliot and Hugh McMaster for Winchester.

Mr. and Mrs. W. B. Lawson and F. W. Merkley for Chesterville.

Mrs. S. McPherson, Robert Cunningham and Ed. Vanallen for Williamsburg.

Mrs. S. Smith, Ed. Gibbons and E. Casselman for Matilda.

J. L. Mill, Miss Maud Barrie and Fred Cassidy for Mountain.

Mrs. P. Kirby, S. Fulton and J. H. Cumming for Winchester.

Short addresses by Messrs. Campbell, Bean, Meikle, Davy, Smith and Hamilton were well received and closely followed by a keenly attentive audience.

Major Tolmie, M. P. P. of Windsor, who has but lately returned from France, delighted the convention by his clear and forcible statement of the wobbling and inaction of the "Seven Sleepers of Queen's Park." His picture of Hon. Howard Ferguson and Hon. Tom McGarry posing as Prohibition speakers was most heartily applauded by his audience.

The convention being largely in favor of at once nominating a candidate this was proceeded with and Mr. J. A. Campbell was the only one nominated.

Mr. Campbell briefly thanked the Convention, and asked for a week before consenting.

Votes of confidence in the new Liberal Leader, H. Hartely Dewart and the Liberal platform as outlined at the Toronto Convention in June were adopted.

The most successful Liberal Convention of recent years was brought to a close by the singing of the National Anthem.

Millinery Opening

MISS FLORENCE A. HUMMEL

Wishes to announce to the Ladies of Chesterville and vicinity that her

Fall Millinery Opening

Will be held on

Saturday, Sept. 20th.

And following days

When she will show a large and choice assortment of the latest and most exclusive styles in Fall and Winter Millinery

Contrary to the prevailing high prices elsewhere you will find the prices strictly in keeping with the demand at the present time.

BETTER COOLING

(FARMERS CUT THIS OUT.)

At this time of the year when the sun is hot, and the flow of the milk is high, remember that more water is required to cool milk to the desired temperature. The more milk you have the more water is required. Don't try to cool eight cans in water that will only cool four cans. Change the water often. Milk cooled and not kept cool will sour.

My Baby's First Summer

WHEN the days and the nights began to be hot and sultry, my baby began to droop. He lost a little weight and he was fretful at night—he who had always slept so well.

I thought a baby properly cared for should be as well and as happy in summer as in winter, so I asked my doctor.

"Why, of course," he said. "We'll give him Nestlé's Milk Food."

So now I know I don't have to be afraid of hot weather. With plenty of cool baths and light enough clothing, and with Nestlé's digesting easily in that little stomach, my baby goes happily on to health and strength.

Nestlé's is just pure milk in powder form, to which has been added cereal and sugar. You only add water to it and boil.

I know the Nestlé Company will be glad to send you, free, enough Nestlé's Food for twelve feedings, and a very good Mother's Book on how to take care of babies, if you will fill out and send the coupon to them. They want to take away your fear of hot weather, as they did mine.

Nestlé's is pure milk in powder form that is already modified and does not require the further addition of milk. Always pure and safe, always uniform, and free from the dangers of home modification. Nestlé's has stood the test of three generations and *has today the largest sale of any baby food in the world.*

FREE! Enough Nestlé's for 12 feedings. Send the coupon!

Soldiers Told $2000 Gratuity is Impossible

Ottawa, September 14—Sergeant Flynn headed a Toronto delegation which waited on the Cabinet on Saturday regarding additional gratuities for the soldiers. It had been understood that a deputation would see Sir Robert Borden on Saturday but owing to the action of the Government in promising a Parliamentry committee to investigate the problem of soldiers' re-establishment, this conference had been cancelled.

Sir Robert is ill, and referred the Toronto delegation to the Cabinet, then in session. They visited the Cabinet and were told that it was not proposed to give any further gratuties, as Canada had dealt with her soldiers with greater liberality than any other country, and in addition the country's finances did not permit of further advances. Further the government did not propose to be coerced into a position against the financial welfare of the nation. With Sergeant Flynn were Messrs. Rose, Gordon, Ainsmith and Batchelor.

Home-made Electricity

Why not more electricity for our farmers?

Easy to get, and mighty cheap, if there be on the farm even a tiny stream.

There are scattered throughout the country innumerable brooks and streamlets capable of supplying enough electric power for all farm and domestic needs.

A brook ten feet wide, with an average depth of two feet and flowing two feet per second under a "head" of five, can supply ten horse-power continuously—enough to light the average farmstead and leave enough over to operate motors for many of the needs of power on the farm.

Electricity on the farm is as helpful to the farmer's wife as to the farmer. It may be utilized as to relieve her of much drudgery.

The first thing for the farmer with a brook at hand to consider is how much power he requires—the unit of electrical power being the "watt". One horse-power is the equivalent of 746 watts.

To run a twelve-inch electric fan requires forty watts; a toaster, 400 watts; a four-inch disk heater, 450 watts, a coffee percolater, 500 watts; a small hot-water heater, 1,500 watts. Lights consume ordinarily twenty-five or forty watts.

To run a churn takes half a horse-power, a cream separator the same, a milking machine the same, an ice cream freezer the same, a washing machine the same, a grindstone half that much, a woodsaw three horse-power, a hay press the same, a feed grinder five horse-power.

Even an insignificant streamlet may supply all the current needed on a farm for lighting if for no other purpose, when properly harnessed. With storage batteries provided it can use all of its energy throughout twenty-four hours in loading them—the power to be drawn off during only a few hours each day.

Hydro-electric outfits suitable for farm use are inexpensive, and their upkeep costs almost nothing.

"My dear Maud", said her mother-in-law, "any woman would be satisfied with what John says he gives you."

"So would I," said the young wife.

"I want you to know," bellowed the angry man, "that I'm not as stupid as you think I am!" "That's true," replied his friend, "you couldn't be."

Mother: "Did you call Edith up this morning?" Daughter: "Yes, but she wasn't down." But why didn't you call her down?" "Because she wasn't up." "Then call her up now, and call her down for not being down when you called her up."

Helps to Voters in Referendum

As there is much confusion in the minds of voters regarding the four questions on the ballot that will be subuitted to the voters on the temperance question in October, some information is imparted in the following says the Brockville Recorder and Times:—

The four questions to be answered are;—

1. Are you in favor of the repeal of the Ontario Temperance Act?

2. Are you in favor of the sale of light beer, containing not more than two and fifty-one one-hundredths per cent. alcohol, weight measure through government agencies, and amendments to the Ontario Temperance Act to permit such sales?

3. Are you in favor of the sale of light beer, containing not more than two and fifty-one one-hundredths per cent alcohol weight measure, in standard hotels in municipalities that by a majority vote, favor such sale and amendments to the Ontario Temperance Act to permit such?

4. Are you in favor of the sale of spirituous and malt liquors through government agencies, and amendments to the Ontario Temperance Act to permit such sale?

To pass questions 1, 2 and 4, a majority of voters throughout the province is required.

Question 3, however, must have not only a majority throughout the province but also a majority of the municipalities. So that if the province passes it and the municipality of Carleton Place, for instance passes it and Almonte does not pass it, it will apply to Carleton Place and not to Almonte, and light beer will be sold in standard hotels in Carleton Place and not in Almonte.

Every voter shall vote once on each of the four questions, otherwise the ballot will be spoiled and will be rejected.

Every voter may mark his ballot with an X under "yes" or "no" as he or she pleases to any of the questions.

No ballot will be spoiled by virtue of the fact that some of the questions are answered "yes" and others "no".

The only way a voter can spoil his ballot is answering both "yes" and "no" to a question, or by omitting to answer one of the questions.

To vote "no" to the first question and "yes" to the other three means that while the voter doesn't want the O.T.A. repealed, he wants it amended so as to allow the sale of beer in standard hotels and government agencies, and spirituous liquor at agencies, all without prescriptions, but the sale of beer or liquor over the bar.

Of course it is self evident that it would be useless to vote "yes" to question 1 to repeal the O.T.A. and then to vote "yes" on question 2 to amend it, because if it is repealed it obviously cannot be amended. Voting thus, however, while of no use, would not cause the ballot to be rejected.

It is urged by the enumerators that persons may vote "yes" or "no" on any or all questions, as they please. The rumor that it would be necessary to vote "yes" or "no" on all four question is entirely wrong.

Chinese Coolies Returning

Preparations are being made by the Canadian Pacific railway at Smiths Falls and Carleton Place to handle 90 trainloads of Chinese coolies returning from France, where they have served in labor battalions in support of the Allied armies. It is not expected that the coolies, as was the case on their way to France, will enter a compound at Petawawa camp, but will proceed direct to the Pacific coast en route to the Orient. It will be remembered that early in the war, there were stories of Russian soldiers being transported across Canada on their way to the Western front, the coaches carrying them being guarded and the blinds drawn. It later developed that the mysterious passengers were coolies, recruited for service behind the lines in France. Trainload after trainload made its way to Atlantic ports. En route the Chinese were placed in a compound at Petawawa, where they were guarded by artillerymen and also did work on the roads.

Why he Kept Him

It was a typical West of Ireland estate, and the Sassenach landlord was just driving his newly-arrived English guest through the lodge gates when a bullet zipped by his ear. "Good heavens!" exclaimed the guest, "What was that?" "Oh only one of my men having a pot shot at me," replied the landlord. "I rather fancy it was my lodge-keeper." "Great Scott!" again ejaculated the guest. "What will you do with the fellow—have him arrested for attempted murder?" "Do wtih him!" repeated the landlord. Nothing of course." "Not even discharge him?" persisted the guest. "Good gracious, no!" replied the landlord. "Why, I wouldn't lose the fellow for a fortune. He's one of the worst shots I've ever had on the estate."

The Prince Invests in War-Savings Stamps

Not the least amongst the many gracious acts performed by the Prince of Wales during his brief stay in Ottawa was to invest in a complete certificate of War-Savings Stamps. His Roval Highness was delighted to find that in Canada, War Savings Stamps are on sale similar to those that are so popular in England. It was his intention to call at the Post Office and make his purchase of the stamps in the regular manner, during his stroll around Ottawa incognito, but pressure of other engagements prevented this being done. The Stamps were therefore sent to him at Government House and the sale, duly made, in cash, by the Secretary of the National War Savings Committee. The Prince was quite willing that his investment should be made known and kindly sent a letter, with permission to publish it, to Sir Herbert B. Ames, Chairman of the National War Savings Committee.

Mistress: "So your matrimonal life was very unhappy? What was the trouble? December wedded to May?"

Chloe Johnson: "Lan' sake, no, mam' Wuss'n dat! It was labour day wedded to de day ob rest!"

"What is worrying you now?"

"Oh, nothing much." replied the man who is perpetually pensive. "I am merely trying to figure out what has become of all the daylight I saved since we set the clocks forward."

Normal Weight

Perhaps you are worried because your child does not pick up in weight? Better try

Scott's Emulsion

and watch how it helps make a thin child grow and put on weight. *There is nothing quite so strengthening as Scott's Emulsion for a child of any age.*

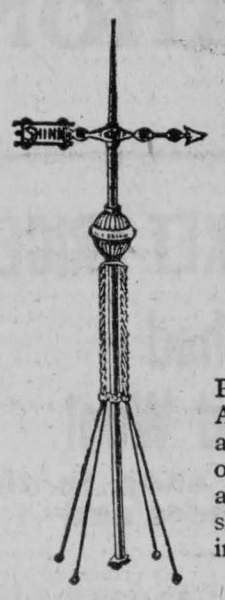

Scott & Bowne, Toronto, Ont. 19-5

Shinn-Flat

Lightning Rods Prevent Lightning Losses

WHEN your buildings are protected with Shinn-Flat Lightning Rods, you may be absolutely sure that they're safe from Lightning damage Shinn-Flat Lightning Rods are the only kind made in the form of a flat cable—which has 36% more conducting surface for electricity than the same amount of material made into a round cable.

Lightning Can't Strike if Shinn Gets There First!

Shinn-Flat prevents the accumulation of electricity in the building, by permitting it to gradually pass from the heavily charged ground and building into the atmosphere above.

Bonded to Protect

A large Bonding Company issues a Surety Bond to the owner of every building we protect, guaranteeing that Lightning will not damage.

W. H. DAY

Professor of Physics at the Ontario Agricultural College for many years, and Canada's recognized authority on Lightning Protection is now Manager of the Shinn Mfg. Co., and assists in training Shinn Dealers thus insuring correct installation.

Call and get a book on the Lightning Cause and Control.

Auction Sale

The well advertised sale is the money maker. More good sales are made through The Record than any other way. It has the largest circulation in Dundas

Alcohol is Poison

Doctors Say It Is a Menace in Any and All Forms

FIVE ounces of alcohol will kill a full-grown healthy man within ten hours. Taken in smaller but repeated doses alcohol lets him live longer but gets him in the end. All alcoholic beverages are poison, slow or swift.

Medical science has established that alcohol is a poison and a narcotic chemically related to ether and chloroform, and not a stimulant. A man was once brought out of ether who had taken eight ounces, and a man was once brought out of chloroform who had taken 22½ ounces, but no man ever revived who swallowed five ounces of alcohol at a single dose. The unconsciousness or coma produced by alcohol if not broken within ten or twelve hours is followed by practically certain death.

Alcohol as medicine has been expelled from the American Pharmacopoeia by the American Medical Association.

2.51% Alcohol in Beer Makes it Poison

THE beer of the ballot contains 2.51% *alcohol by weight*—over twice as strong as the beer of the Ontario Temperance Act (2.50 *Proof Spirits*). The Beer of the Ballot is intoxicating. Three glasses of the Beer of the Ballot contains as much alcohol as a glass of whiskey.

When you are asked are you in favor of beer containing 2.51% alcohol by weight—in shops, bars, or anywhere else, vote

"No!"—Four Times—"No!"

Save yourself, save your family, save your country for the destiny God intended unhandicapped by "booze."

Be careful—mark your ballot after each question with an **X** under the column headed "No," or your vote will be lost to Temperance.

New Suitings

With the Summer almost over, which is brought forcibly to our notice by the chill of the evenings, we are reminded that heavier clothes will soon be a necessity.

Our new suitings are already in stock and awaiting your approval.

With the advancing prices of woollens it should be hardly to suggest that early buyers will save considerable money.

Form a Fishing Club

Several weeks ago we made mention that an effort was being made to have the Nation river re-stocked with fish. During the summer while there has not been much noise made several parties interested have been working to bring about the desired result. The time is now here for a few more interested in this project to lend a helping hand. To have the application for a supply of fry for re-stocking looked upon favorably by the government it must be made by some responsible organization such as a duly organized fishing club. If a dozen or so can now get together this may be done with very little trouble. It is understood that those who will interest themselves in getting the fish to put in the river will also use their endeavors to see that they are not taken out illegally. The people along the river for miles would benefit if it could again be made a good fishing ground and it would be to their own interest to see that no advantage was taken of out-of-season fishing. The first fish to be put in would be pickerel, because, before much headway can be made with game fish the sucker has to be eliminated, and the pickerel is the deadly enemy of the sucker. After the sucker has been pretty well cleaned out bass may be put in with the pickerel where they will both thrive in the same water.

To ensure a supply of fry for next year application will have to be made right away.

If you are interested in this project talk it over with Leo Kearns who is doing his best to carry it through.

MOREWOOD

General regret is felt at the removal to Hamilton of our popular and competent banker, Mr. MacDonald, but the interests of the public and of the Royal Bank are not likely to suffer in the hands of Mr. White, a returned soldier and "a canny Scot."

Mr. and Mrs. Stewart Storing and little son are visiting her parents, Mr. and Mrs. Ezra Countryman.

Pte. W. Whittaker accompanied by his bride arrived at his home here on Monday morning.

Our High School has sent quite a contingent to the Ottawa Normal School this year. H. Loucks went in on Saturday and N. Swerdfeger, N. Gollan, L. Marshall, R. Andrew and S. Shaver on Monday evening. We wish them all much success.

The Ontario Referendum Committee is sending Rev. W. S. Lennon of Gananoque to occupy the pulpits here next Sabbath. In the morning he will speak in the Methodist Church and in the Presbyterian Hall, in the evening.

We are sorry to report Mrs. Robt. Rainy, Sen., and Mr. Collison on the sick list. Also that Mr. Wm. Faulkner was seized with a paralytic stroke on Monday.

Congratulations are due C. Allison, N. Gollan and J. Whittaker on successfully passing the Junior Matriculation examination.

Mrs. Will Glasgow is visiting friends at Smiths Falls.

Pte. Archie Stewart returned from Kingston on Friday last.

Her former schoolmates and friends here are pleased to see that among those winning Queen's University Scholarships, Evangeline Elliott has won the Leitch Memorial No. 1 valued at $60. Heartiest congratulations.

DUNBAR

Rev. Thos. Meredith of Elma, called on James Durant's and John Dillabough's on Friday last.

Mrs. Miles Marcellus and little son Roy left last week for a trip to the west to visit her brother Roy Kendrick.

Miss Ida Coulthart took dinner Sunday with Mrs. D. Webster.

A number from here took in the Ottawa Exhibition last week.

Messrs. Garnet Vanallen of Winchester and Russel Froats of Becksted, spent Sunday with Grant Barkley.

Mr. and Mrs. Wm. Merkley and family and Mr. and Mrs. John Holmes from Dundela, spent Monday with Mrs. John Dillabough Sr. who has been sick but is gaining now.

Mr. and Mrs. Ellery Merkley motored Sunday evening to Morrisburg and spent the evening with relatives there.

Mrs. Henry Price and Miss R. McGregor from Elma called on Mrs. David Webster on Sunday last.

Mr. Essly Froats returned to Spencerville on Monday after spending a couple of weeks with relatives in this district.

Miss Zella Barkley spent a couple of days at her home here while her mother was visiting friends in Ottawa.

Mrs. J. S. Marcellus spent Thursday with Mrs. John Coulthart.

G. W. BOGART & SON, CHESTERVILLE

BERWICK

Mrs. P. Ouderkirk is the guest of relatives at Ottawa and Aylmer.

Mr. John Bogart, station agent at Caparial, is the guest of his parental home.

Mr. and Mrs. M. Alguire visited relatives at Moose Creek on Monday.

Mrs. A. McMillan visited her son Dan on Saturday at Cornwall.

James McMillan is assistant agent at Santa Clare, N. Y. this week.

Her many friends are glad to hear Mrs. Archie Henry is almost better again.

Mrs. A. Summers was the guest of her parental home last week at Cannamore.

Mrs. Jas. Aggett of Cleveland, Ohio., is the guest of her parental home, she being called owing to the death of her father the late Mr. John Baker.

Mrs. J. Locke is critically ill, owing to her advanced age no hopes are held for her recovery.

Messrs. Sandy Dingwell, Manson Alguire and George Alguire motored to Moose Creek and Maxville on Sunday last.

Master Holland Merkley of Cornwall, was the guest over Sunday of his aunt Mrs. Joseph McClarey.

NATION VALLEY

Miss Anna McKercher and brother George with two friends from Ottawa, were guests recently of Miss Ella Rae.

Two more of our boys have returned from overseas, Pte. Frank Baker and Pte. James Munroe. This makes nine returned men and four heros lying "Somewhere in France".

Dr. McIntyre and brother of Avonmore, were guests recently in the Valley.

Mr. Hugh Jackson has returned home from visiting friends on U.S. soil.

Miss Hilda Sheldrick has been visiting her aunt at the Capital.

God bless and protect the heir to the throne and his father the King. When "Victoria the Good" was asked the reason of England's greatness she held out for their observation the Holy Bible. The same motto stands good today. When Belgium, France and Serbia cried aloud for help, did they call in vain? No. The British Lion and all it stands for was at their service, and thank God British Fair Play rules the whole world. We are Canadians but we are more than that we are "Britishers". Little Canada would have been blotted out only for the British Bull Dog.

Mr. and Mrs. John Jamieson who have been critically ill for the past three weeks are now convalescent.

THE BOYNE

Mrs. Ozias Durant has returned home after spending a couple of months with friends in Mountain and Morrisburg.

Miss Kathleen Anderson left last week to attend a Business College at Ottawa.

Mr and Mrs. William Sproule motored to Ottawa on Tuesday.

Mr. and Mrs. Harold Durant and Miss Letta spent Sunday at Hulbert.

Mr. Ingram Smith of Chesterville, spent one day last week at Mr. George Marcellus'.

Miss Gladys Bell spent the week-end at her home at Winchester.

Mrs. William Fisher of Morrisburg, spent a few days at her parental home here.

RIVERSIDE

Mrs. John Bogart spent Monday and Tuesday with friends in Ottawa.

Miss Ethel Riddle of Ottawa is the guest of Miss Anna Foster this week.

Miss Pansy Pollock spent last week with her sister Mrs. Hugh McMillan who is on the sick list.

Mr. and Mrs. John Foster, Mrs. Robert Bogart and Master Gordon spent the week-end with friends in Ottawa.

Mr. and Mrs. Archie Carruthers and Mr. Andrew Carruthers spent Sunday evening with Mr. and Mrs. Freeman Burd.

Mrs. Fay Droppo spent Tuesday at her parental home here.

Mrs. Robert Bogart is on the sick list and her many friends hope for a speedy recovery.

SUNNYSIDE

Mr. Andrew Carruthers of Alberta, is the guest of his brother Mr. Archie Carruthers for a few weeks.

Miss Annable Burd returned home Sunday after a couple of weeks' visit with Mountain friends.

Mr. and Mrs. Freeman Burd and Mr. and Mrs. Roy Miller motored to Mr. John Burd's of Mountain on Saturday.

Mr. Willie Burd of Russell, spent a couple of days at his home here last week.

Mr. and Mrs. Roy Miller spent Sunday with Mr. and Mrs. Roy Ouderkirk.

Mr. and Mrs. Arthur Burd and daughter Naomi, spent the week-end with friends at Mountain.

Mr. and Mrs. Alvin Burd spent Sunday with Mr. and Mrs. F. Burd.

Mr. and Mrs. L. Mackie spent a few days of last week with Ottawa friends.

In Memoriam

In loving memory of our dear father Pte. Orry L. Harper.

One precious to our hearts is gone,
The voice we loved so well is stilled,
The place made vacant in our home,
Can never more be filled.

Inserted by his children.

In Memoriam

In proud memory of my dear husband, Pte. Orry L. Harper, who was killed in action during an advance in the enemy position in the vicinity of Vis-en-Artois, August 27th 1918.

Insterted by his loving wife Lydia.

JUNIOR FARMERS' PLOWING COMPETITION

A Plowing Competition will be held for the Junior Farmers of Greater Dundas under the direction of the County Branch of the Ontario Department of Agriculture and the Commission of Conservation, Ottawa. There will be two classes; one in sod and one in stubble. A walking plow will be the first prize in each class. The Fleury Plow Company of Aurora, Ontario, who kindly donated a plow last year are offering this year a plow for the first prize in the sod class. The Bateman Wilkinson Plow Company of Toronto, are donating a plow as first prize in the stubble class. For second prize in each class a silver medal valued at $5 00 plus $7.00 in cash will be given. The Third, Fourth, Fifth Sixth, and Seventh prizes in each class will be cash as follows: $6, $5, $4, $2 and $1. The silver medal will be given by Dunnas County Board of Agriculture. In all there are seven attractive prizes in each class. The following are the rules and regulations:

1. Any young farmer who has not received first prize in a former Competition is eligible.

2. Competitors must be under twenty-six years of age.

3. Each Competitor must plough three acres on his home farm.

4. Competitors may enter in one class only.

5. Plowing must be completed by October 1st, as the judging will be done on that date or as soon after as possible.

6. Any single or double furrow plough in common use in the County today may be used.

7. In judging the following points will be considered—General appearance, strike, crown, finish, uniformity of width and depth and straightness of furrows.

8. All those desiring to compete must send their names and addresses to the Agricultural Representative, Morrisburg, and state their township, concession and number of lot.

9. It is desirable that entries be received as early as possible but all competitors' fields will be judged whose entries are received by Sept. 27th.

Mr. O. D. Casselman who is kindly donating the money for the cash prizes is anxious to see a larger number of competitors.

No extra work is entailed in this Competition as the work is performed at home and the ploughing has to be done for next year's crop anyway.

No entry fee is charged. As there are six cash prizes with a plough as a first in each class, your chance of winning a prize is excellent.

Yours very truly,
F. A. Wiggins, Agr.
Representative.
F. C. Nunnick, Commission
of Conservation, Ottawa.

CLERK'S NOTICE OF FIRST POSTING OF VOTERS LIST

Voters' List 1919, Municipality of the Township of Winchester County of Dundas.

NOTICE IS HEREBY GIVEN that I have transmitted or delivered to the persons mentioned in section 9 of the Ontario Voters' List Act, the copies required by said sections to be so transmitted or delivered of the list, made pursuant to said Act, of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly and at the Municipal Elections; and that the said list was first posted up at my office at Chesterville on the 8th day of Sept 1919, and remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law.

Dated this 10th day of Sept. 1919.

GEORGE ELLIOT,
Clerk of said Municipality,
Chesterville, Ont. P. O.

Canada Lags in Road Building

Returned soldiers, who took part in the "big push" during the autumn of 1918, will recall the frequent signs "Dry weather track". They were very useful, those tracks; not being marked on the map, the Hun did not have them registered, and even if he did discover one, it was easy to abandon it for another. Thus as the weather was good on the whole, these tracks were quite serviceable. But, if it had been rainy, that would have been another story.

Away from shell-fire, however, as every soldier knows, the French roads were serviceable in all weathers. They stood up admirably against the rough usage of the swarms of motor trucks and other abnormal traffic brought by the war.

What would have happened to our Canadian roads under the same conditions? Alas! they are nearly all only "dry weather tracks". A good road is a road which is good in bad weather. In road construction, we are a century behind France, although we pride ourselves on being a very progressive people.

It is not sound argument to say that this condition is due to the fact that Canada is still a "new" country. The fact is that some of the oldest sections of Canada have the worst roads.

It is largely due to the continuance in force of an antiquated system of providing for public road-building and maintenance. The same system has been tried in England and found wanting and yet we refuse to profit by the Old Country's experience.

Let us hope that the Canada Highways Act, passed at the late session, spells the end of statute labour and of 'turnpike trusts' in Canada. Toll-gates have been found unsatisfactory elsewhere—let us abolish them here. When governments themselves undertake the construction of roads, we may look for better days.—P.M.B.

What Rats Cost the U S.

A Washington special to the Boston Transcript says;

It has been determined that the rat will consume 50 pounds of grain in a year and will damage considerably more. The estimate of one rat per human being for the continental United States coincides with that for Great Britain and Ireland, made by the Incorporated Society for the Destruction of Vermin, and also for authoritative figures for Denmark, France and Germany. The annual upkeep per rodent was computed by the same authorities as $1.80 in Great Britain, $1.20 in Denmark and $1 in France. The depredations of rats in this country will probably exceed the estimate made for Great Britain. One half cent per day would be a conservative estimate, however. The list of articles damaged by rats is too long to enumerate, but in general theyare all kinds of grain, before and after harvesting; eggs and poultry, especially small chicks: wild birds, their eggs and young; fruits and vegetables, both when growing and when stored; flowers, bulbs and shrubbery; all kinds of staples in bags or boxes; and all food products in pantries, groceries, meat markets, bakeries, stables and general markets. The non-edible articles destroyed includes leather goods, books, papers clothing and fabrics, partly for the glue, starch or paste these articles may contain and also for material for the rat's nest.

Because the rat is an animal of nocturnal habits, his depredations often pass unnoticed or are ascribed to other causes. Computing the upkeep of the rat as one-half cent per day, and estimating one rat to each person, the sum of $180.000,000 per year is lost to the country by the depredations of this pest.

Law Suits May Follow

It is reported that there will be some interesting damage suits over the closing of some of the cheese factories around Brockville. Two factories were opened at the earnest solicitation of patrons who have since deserted them in favor of condensaries, and the owner of the factories is seeking legal advice with a view to entering action against the patrons. It is stated that the condensaries are paying as high as $60.20 a ton for milk.

Light and Power for the Farmers.

Maxville, Sept. 8, 1919.

Dear Editor,—I thought the enclosed would be of interest to the readers of your valuable paper, in order to help the Commission, Mr. Parker at our June session of the Counties' Council urged that all the councils of the various municipalities pass a motion of their councils and forward same to the Hydro-Electric Commission, Toronto, Ont., asking the Commission to furnish their municipality with an estimate of the probable cost for supplying of this power, Mr. Parker was here and intimated that some of the municipalities have not yet sent the department this resolution, and I would like you to take a note of this. I would like all municipalities interested in securing light and power to attend to this important matter with as little delay as possible at once.

Yours truly,
A. H. Robertson, Warden,
Maxville, Ont.

Toronto, Aug. 30, 1919.

A. H. Robertson, Warden United Counties. Stormont, Dundas and Glengarry, Maxville, Ont.

Dear Sir,—I beg to acknowledge the receipt of your communication of Aug. 28, making inquiry as to the progress being made in connection with the submission of estimates covering the supply of power to the district of Stormont, Dundas and Glengarry.

I have taken up this matter with the Engineering Department and am advised that since the meeting of the Counties' Council, June 25, we have received various requests from the municipalities for estimates. This work was immediately put in hand and complete reports are being prepared covering the whole district concerned. As soon as this is completed the Commission will submit same to the municipalities for consideration.

The work involved in the preparation of this report includes estimates on the construction of lines to serve these districts, also estimates on the necessary distribution system and valuations of existing distribution systems in the various municipalities, all of which you will appreciate, takes considerable time to complete. However, good progess is being made and we hope in the near future to be in a position to submit estimates covering the cost of power to all municipalities in the united Counties of Stormont, Dundas and Glengarry. I am.

Yours truly,
(Sgd.) A. BECK,
Chairman Hydro-Electric Power Commission of Ontario.

Two miners went on a fishing expedition. But they were novices at the game.

"Hoo are ye gettin' on Jock?" asked one.

"Och, simply rotten!" was the reply. "I don't believe my bloomin' worm's trying."

"The clothes do not make the man," remarked the ready made philosopher.

"No," answered the friend who was studying a tailor's bill. "They don't make him. They break him."

WATER Everywhere on the Farm

You must have water on the farm—a lot of it. It is estimated that *over a ton of water a day* is used on an average farm.

Toronto Windmills are serving business-minded farmers. Quietly and efficiently, at low cost. No expense except for an occasional oiling.

Toronto Pumps and Toronto Water Systems hook up with Toronto Windmills to make your farm water service complete. Bathroom, kitchen, stables, garden. The investment is small compared with the improvement to your farm, the speeding-up of work, the saving of time and energy.

Toronto Pumps and Water Systems can also be supplied for use with Toronto Gasoline Engines or Toronto Electric motors.

Every farmer will profit by reading our books on windmills, pumps and water systems. Send for copies—mailed free.

AGULNIK BROS., CHESTERVILLE

Car Stolen in California Found in Cornwall

The police of Cornwall have in their possession an Oldsmobile auto, license No. 500680, stolen over a month ago at Los. Angeles, Cal. About that time Chief of Police Fyvie received word from the United States Immigration authorities that this car was stolen in California aud that it had passed into Canada. Nothing more was heard of the theft until Friday evening last, when Chief Fyvie and Constable James Cowhey saw a car bearing a California license standing in front of a local garage. With the California car was a McLaughlin car. A watch was kept on the two cars and soon three men and five women, who had made the trip to Cornwall from a neighboring village, were seen to collect about the cars. They were taken in charge by the officers and appeared before Police Magistrate Danis. As some of the women had children at home, the Magistrate allowed the whole party out on their own recognizance to appear again on Friday Sept. 12th

On searching the stolen car, Chief Fyvie found papers to show that the car had passed into Canada at Aultsville, Ont., the Customs Certificate bearing date of August 5th. Other papers showed that the car was registered in California on Feb. 6th, the certificate of registration being issued at Los Angeles to Carl Crosby 1367 South Floker Street. The big auto does not appeared to have suffered any in its long trip, being in first class condition. Those in possessionof the stolen car will be called upon to show when, where and by what means it came into their hands.

The children of the neighborhood were greatly interested by the news of the arrival of a baby at the Newcomes.' One of them, meeting little Jonathan Newcome carrying some milk very carefully, asked:—"What is your new brother's name?" "They haven't found out yet," replied Jonathan. "He can't talk!"

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Hall's Catarrh has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh acts thru the Blood on the mucous surfaces, expelling the Poison from the Blood and healing the diseased portions

Geo. Lane, Clerk.

Two Scots were on a journey on a hot summer day. "Hae ye got any food wi' ye, McNab?" asked one.

"Ou, ay, a bottle o' beer. What hae you, McAllister?"

"Dried tongue."

"Guid! Then we'll gae halves wi oor proveesions."

The beer was duly divided and drunk. McNab wiped his whiskers:

"Noo for yer dry, tongue, McAllister, "it's no dry noo!"

Because it has the largest sworn to circulation of any Dundas paper

CITIZENS' LIBERTY LEAGUE

Is Absolutely Opposed to a Return of the Old License System

The Citizens' Liberty League, consisting of prominent men and women in Ontario, place themselves on record as being unqualifiedly opposed to any measures that tend to bring back the bar and the unrestricted sale of spirituous liquors.

On the other hand, the Citizens' Liberty League sincerely believes that the present situation demands a repeal of the unsatisfactory Ontario Temperance Act, and the inauguration of sane, moderate temperance legislation.

These leading men and women, with no selfish ends to serve, and having in mind only the best interests of all the people in Ontario, are convinced that the true solution to the temperance problem is to allow the general sale of more appetizing, non-intoxicating beer and light wines, with the sale of spirituous liquors placed under proper Government regulations and restrictions.

Unite with the Citizens' Liberty League in its earnest, sincere endeavor to obtain temperance legislation which meets the needs of all but curtails the liberties of none.

Vote "YES" On All Four Questions

Remember—Every voter must vote on every question, or his ballot will be spoiled.

A farewell party Tuesday evening was tendered to Mr. Eddie Summers at the home of Mr. Howard Sullivan when he was presented with a handsome club bag. Eddie returned from overseas several weeks ago and goes now to take a course at the Ontario Agricultural College at Guelph.

In Memoriam

In loving memory of my brother, Gunner Edwin Bruce MacMillan, who was killed in action on the field of honor "Somewhere in France" Sept. 16th, 1916.

Over in France he lies at rest,
For King and Country he did his best
With other comrades he played his part
And did his bit with a loyal heart.

Inserted by sister Lena.
