HENRY'S Shorthand School Ottawa, Ont.

No School in Canada offers a better training, or ensures a more successful future. Henry's leads all others, and ranks among employers as "THE SCHOOL OF HIGHER EFFICIENCY"—a fact borne out by more than 600 pupils who have, since January, 1913, left other Ottawa schools to come to it.

Therefore, it is not surprising that business men, in advertising for stenographers, should specially say, "Graduates of Henry's School preferred."

For particulars about our course, apply to:

D. E. HENRY, Director.

Wesley Hamilton Nominated By Liberal Convention

Monday afternoon the Liberals of Dundas county convened in Chesterville nominated as their standard bearer in the forthcoming Provincial election Wesley Hamilton of this place, after the sitting member, Mr. George Smith, had declined. Fred Meikle, Arthur Flynn and Miss Von Doran, all of Morrisburg, were nominated but withdrew in favor of Mr. Hamilton.

Mrs. Thos. Houlehan welcomed the Liberal leader, Mr. W. E. N. Sinclair, on behalf of the Liberals of the county. John Meilke, vice-president of the Dundas Liberal Association, presided.

Following the nomination speeches were delivered by Mr. Sinclair, Hon. Nelson Parliament, Liberal organizer for the Province, and Mr. Hamilton.

While Mr. Sinclair did not open his campaign here, as was anticipated, he made hay while the sun shone and did his best to keep normally conservative but beligerently temperate Dundas county in the Liberal fold. In the 1926 election, George Smith, member in the last Legislature for Dundas riding won the seat after being nominated first by the Liberals and then by a joint convention of the Liberals and the prohibitionists.

The main part of Mr. Sinclair's address was a protest against what he termed misrepresentation and "distortion for political puposes" of his speech at Fort William recently, in which he put forward the revised policy of the Liberals toward the Liquor Control Act. He did not, he insisted, either renounce temperance nor endorse the Liquor Control act, much less the present administration of it.

To Mr. Sinclair's expressed surprise and annoyance, the Prohibitionsts of Dundas county have apparently fallen for the "misrepresentations" of the Liberal leader's Fort William speech. At an enthusiastic meeting at Winchester on Saturday, they nominated N. W. Beach, Winchester lumber merchant, as the official contender, for the Dundas seat in the legislature, of the Prohibition union.

Mr. Sinclair doubted "the sincerity of candidatures intended to undermine the campaign of the Liberal party in Dundas county". The Prohibition Union of Ontario, he recalled, had announced its intention of endorsing temperance candidates of other parties rather than putting forward candidates of its own. He also regarded the Winchester dry nomination as particularly futile in view of the combined temperance attitude of the Liberal party and the well known temperance stand of the Dundas Liberal association.

Fair at Metcalfe Is Great Success

More than 4,000 persons crowded the grounds at Metcalfe yesterday when the Metcalfe Agricultural Society held its annual fair. Fear of infantile paralysis caused the attendance to be 1,000 less than last year while intermittent showers also had an effect on the attendance figures.

In spite of these things, however, the fair was considered an unqualified success. An unusually large number of entries were received in the heavy and light horse classes, the cattle, sheep and swine, while there were more than 450 entries of poultry. Horse races and a horseshoe pitching contest were features of the sports program.

Chesterville Band entertained the crowd with a fine program.

The fair was opened by Reeve John Nixon of Osgoode. During the day many persons visited the buildings in which exhibits of fancy work, vegetables and farm produce were shown. Captain L. E. Maynard, of the Ottawa Flying Club, gave a stunt demontration but was unable to land because of the absence of a suitable field.

Judging of the large number of exhibits occupied most of the afternoon. Among the winners in the heavy horse class were the following owners: Nat Gooding, Ottawa; James Anderson, A. T. Johnston, both of Gloucester; John Hawkshaw, of Osgoode; light horses, McKeown and Craig, Russell; William Cochrane and A. P. Lawrence.

Many exhibited cattle and among the winners were George A. McCullough, James Cotton and Son, Navan; S. Kittle and Son, Chesteville; W. Dawley, Winchester; A. J. Hughes and James Fisher. A. M. Stewart and Sons, George Acres and Son and Alex Dow and Sons were winners of the sheep judging. In the fancy work competitions, Miss Grace Julien, 51 Sweetland avenue, Ottawa, was a winner of five first prizes for china painting.

A concert in the town hall and a dance in the main building at the fair grounds concluded the day's program.

GRAND DANCE

Froats Hall, Williamsburg. Monday, September 23rd. Smiles' 5-piece orchestra.

Gold Medal Won by Chesterville Girl

Miss Mary McDonald, Chesterville, is the winner of the gold medal at St. Joseph's Training School for Nurses, Hotel Dieu hospital, Kingston, and will receive it at the graduation exercises. The winner of the silver medal is Miss Evelyn McGurn, Marysville, and the general proficiency prize was won by Miss Lucy Driscoll, Merrickville.

Lillico---Gillies

A very pretty wedding of interest to many was solemnized on Wednesday, September 18th, at the home of Mrs. Catharine Gillies, Finch, when her youngest daughter, Ettie, was united in marriage with Robert M. Lillico, eldest son of William Lillico, of Hawthorne, Ont. Rev. Dr. Robert Johnstone, of Knox Presbyterian church, Ottawa, performed the wedding ceremony, which took place in the spacious drawing-room, richly decorated with autumn blooms and bridal streamers.

The bride, who looked charming in a gown of beige crepe romaine and lace with slippers and stockings to match, entered the room to the strains of Lohengrin's wedding march, played by her brother, Alexander, and was given in marriage by her brother Donald. She carried a bouquet of bridal roses and baby's breath and on her head she wore a dainty bunch of orange blossoms.

The bridesmaid was becomingly dressed in flesh crepe romaine and carried a shower bouquet of gladioli and baby's breath in pastel shades. She wore the gift from the bride, a necklace of sun tan pearls.

The bride's mother was dressed in fancy french navy crepe and wore a corsage bouquet of snap dragon and pansies. The mother of the groom wore a dress of navy crepe with lace insert and a corsage of yellow roses.

During the signing of the register, Mrs. Jas. Anderson, sister of the groom, sang sweetly "O Perfect Love," accompanied by the bride's brother, Alexander, at the piano.

The bride's gift to the groom was a white and green gold watch chain, and the groom's gift to the best man was a pair of gold cuff links.

Following the ceremony, a buffet luncheon was served in the dining-room after which the young couple left on a motor trip to Niagara and Detroit.

The bride travelled in a costume of brown brisquet and brown tweed coat trimmed with mink, with hat and shoes to match.

The bride was the recipient of many beautiful gifts showing the high esteem in which the young couple are held.

Among the out-of-town guests were the Misses Sybella and Margaret McRae and Mr. and Mrs. Ruggles Wood, of Montreal; Miss N. C. MacKay and Mr. John Ritchie, of Ottawa.

A. J. Fitzpatrick Dies at Russell

Andrew George Fitzpatrick, one of the most prominent farmers in the County of Russell, and a former member of the Russell School Board, died at his farm, Russell, Tuesday, following a few days' illness. His death is deeply mourned by the entire community.

Born at Russell in 1861, Mr. Fitzpatrick had resided in the district all his life and had operated a large farm in the outskirts of the town for many years. He took an active interest in all agricultural affairs and was a fomer president of the Russell Agricultural Society. He was also prominently identified with the educational affairs of the county, and had been a member of the local school board for a long period of years, during the course of which he had held many official positions. He was also a member of the Independent Order of Foresters.

Surviving him are his wife, formerly Elizabeth Ann Tweed; two sons, Charles, of Saskatoon, and James, of Oshawa; five daughters. Mrs. C. B. Houston, of Smiths Falls, Miss Lola Fitzpatrick of Smiths Falls, Mrs. Ann White of Toronto, Mrs. A. E. Holmes, and Miss Edna and Miss Edith Fitzpatrick of Waterloo, and a brother-in-law, J. H. Tweed.

The funeral will be held this afternoon at 2.30 o'clock to St. Mary's Anglican Church for service, after which interment will be made in Russell Anglican cemetery.

Lawn Bowling

Saturday last the local lawn bowlers staged their sixth annual autumn doubles tournament, and, notwithstanding a bad break in the weather in the first part of the day, eighteen rinks put in an appearance and battled merrily along until well on towards midnight before winners in the two events were declared. Six rinks from Ottawa, two from Alexandria, two from Brockville, one from Winchester and eight from the home club were in the draw. The greens were in very fine shape and all the games were well contested.

The prizes in the first event, handsome rattan work baskets, went to Tory and McCartney, of Ottawa Lawn Bowling Club, with Hutt and Dixon runners-up carrying off silver nut bowls and picks.

Cheney and McCallum, of Alexandria, received luncheon sets as their reward for defeating Craig and Conger, of Ottawa, in the second event, the latter receiving bonbon dishes.

Last Thursday evening Dr. Hutt and Billy Dixon competing in the City Doubles on Highland Park greens in Ottawa carried all before them and qualified for the finals which were carried over until Tuesday of this week, when the Chesterville pair went into the city and fell to the prowess of Duncan and Bates of the New Edinburgh club. Four rinks also made the trip to Ottawa for a friendly visit to the Highland Park club and had a most pleasant evening which was concluded with the serving of refreshments.

Last night with the mercury cuddling down to the freezing point the last Cup and Saucer play was carried out when two rinks fought for the possession of the chinaware, Dr. Hutt skipping the winners with Alf Jarvis lead; Barwick, second, and Dr. Seymour, vice. The losers were Flynn, Cadieux, Lacey, Dixon, skip.

One Man Sent to Jail Other Will Raise Fines

Magistrate Elliot, of Sault Ste Marie, imposed what is regarded as a unique sentence on two young men charged with violation of the Liquor Control Act, when he condemned Kenneth Cameron to remain in jail while his chum, Frank Williams, earns the money to pay the fines of both of them, amounting with costs to $105.-.50. They were charged with keeping liquor without a permit in a boarding house room, which they occupied jointly.

If a similar sentence could be handed out to a couple of young men who staged a drunken brawl on Queen street Tuesday night, Chesterville would be a quieter village in the late or early hours.

Morewood

Mrs. M. Wilson, of Ottawa, spent a few days with her daughter, Mrs. A. Dillabough.

Mr. and Mrs. Rushford and family and Mr. and Mrs. J. D. MacMillan, of Finch, visited Mrs. Lucy McIntosh on Monday.

Miss C. B. Attridge, of Morrisburg, spent the week end with Miss A. H. Giles.

Miss Margaret Coulthart has gone to Montreal where she has secured a position.

Miss Hilda Loughridge, of Ottawa, is spending a few days with her parents, Mr. and Mrs. Bradford Loughridge.

Mrs. Albert Glasgow and Mr. and Mrs. Kenneth Reid, of Cannamore, and Miss Frances Glasgow, of Crysler, visited Mr. and Mrs. Frank Jervis on Sunday.

Mr. and Mrs. Ed. Hart, of Cornwall, spent the week end with Mr. and Mrs. Ernest Gogo.

Mrs. Merkley, of Syracuse, visited at the home of her niece, Mrs. Jacob Swerdfeger.

Mr. Hugh Fetterly, of Ottawa, spent Sunday with his mother, Mrs. James Fetterly.

Mrs. A. J. Martin, Mrs. Wilson Steinburg and Mr. Joseph Moore, accompanied by friends from Toys Hill, attended a picnic at Sheiks Island on Tuesday.

Miss Eva Swerdfeger left on Monday for Ottawa where she is going to attend Normal School.

Mr. Ralph Dillabough, of Metcalfe, spent the week end with his parents, Mr. and Mrs. Orrin Dillabough.

Misses Laura, Ruth and Margaret Walker, of Mountain Station, visited their granparents, Mr. and Mrs. Wesley Smith, on Sunday.

Miss Mary Loughridge, who was a patient in the hospital at Ottawa, is now removed to her aunt's, Mrs. Pete Wilson's, and is getting along very nicely.

Anniversary services were held in the Presbyterian church here last Sunday, the preacher for the day being Rev. Dr. MacKenzie, Principal of the Presbyterian College, Montreal. Evening service was withdrawn in the United church and a large number of that congregation joined with their Presbyterian friends. The United church pastor, Rev. R. W. Armstrong, was also present and took part in the service.

There is a feeling of rejoicing throughout the community over the report that Mary Loughridge, who has been seriously ill in the Isolation hospital, Ottawa, is in a much improved condition. While her recovery may be slow yet it is the hope of everyone that in time it will be complete and permanent and that ere long her cheerful presence will be felt in the community once more.

What might have been a serious accident occurred just east of the village the other evening. Two boys were driving a Ford car when a blowout caused the car to swerve and go over the end of a small culvert, turning over on its side in the ditch. In a few minutes a crowd had gathered and the car was soon lifted back to the road. Fortunately the boys were not hurt and the car was undamaged.

Messrs. Donald and J. D. Shaver spent Saturday last at Ottawa.

Mr. and Mrs. Leslie Stephenson and baby Norma and Miss Mae Eligh, of Cornwall, and Mr. Percy Stephenson, of Avonmore, spent Sunday with Mr. and Mrs. George Eligh.

Mr. James Eligh, Finch, spent a couple of days last week with his brother George.

Mr. and Mrs. George Eligh spent Saturday last with the latter's daughter at Williamsburg and also called on friends at Glen Becker.

Miss Esther Cameron left on Monday to attend Norman school at Ottawa.

Mr. and Mrs. George Tinkess, Avonmore, were recent visitors at Mr. J. D. Shaver's.

Mr. and Mrs. George Eligh spent Sunday last with their daughters at Cornwall.

Mrs. Kennie Cameron left on Tuesday to see her sister who is very ill at Utica, N.Y.

EATING TO LIVE

Methuselah ate what he found on his plate,
And never, as people do now,
Did he note the amount of the calories count—
He ate because it was chow.
He wasn't disturbed as at dinner he sat,
Destroying a roast or a pie,
To think it was lacking in granular fat
Or a couple of vitamins shy.
He cheerfully chewed every species of food,
Untroubled by worries or fears,
Lest his health might be hurt by a fancy dessert,
And he lived over nine hundred years.

The Electric Man

Not long ago a novel was published of which the hero had a sense of touch so highly developed that it became in effect a sixth sense. To this young man simple feats like water-divining were of little interest. To have to go up to a thing to feel its shape and texture was to him too irksome an instance of human limitation. He could feel a thing at ten yards' range and more. He could tell his friends whether they had silver or copper in their pockets. His visitors had to leave their money behind them, since he differed from other men in disliking the feel of a milled edge. Finally, he was taken by a financier to divine a gold mine. But this was not a success.

And now there has appeared in North Devon man who claims to be his exact counterpart. He was thought to have St. Vitus' Dance, but he himself said it was due to too much electricity. So he soled his boots with old motor-car tires, and was cured. He has indicated his powers by proceeding to divine a gold watch, and is now to go to Rhodesia to divine a gold mine. People whose wristlet watches lose usually call themselves "electric" but their friends say it is because they wash with their watches on. This man wore a wristlet watch. It did not have time to lose. It fell to pieces. He resembles the hero of the novel in numerous remarkable details. Like him, the North Devon diviner finds that each effort at divining is followed by "a period of intense lassitude." To cure himself he touches wood. That is what most of us will do on reading this story.—London Daily Telegram.

Mrs. Mary Jane Sullivan Passes at Dunbar

The funeral of the late Mary Jane Sullivan was held at Dunbar on Sunday afternoon, September 8th. The deceased was well-known in the vicinity of Elma and Dunbar. She was born in Hoasic October 15th, 1847. At the age of 24 years she was united in marriage to Peter Sullivan at which time she took up residence with her husband at Elma. Her husband passed away 31 years ago and during the period of her widowhood the deceased lived with her daughter, Mrs. Alfred Barkley, at Dunbar. For the past couple of months she was a patient sufferer, confined to her bed. Death occurred on Saturday morning September 7th. A service was conducted at the daughter's home at Dunbar by the Rev. C. R. Cronmiller, followed by interment at Williamsburg cemetery. She leaves to mourn her loss two daughters, Mrs. Alfred Barkley, Dunbar, and Mrs. Alex. Whitteker, Gouverneur, N.Y.; two sisters and one brother also survive: Mrs. Sarah Brownell, of Raymondville, N.Y.; Mrs. Joseph Robinson and Mr. Herman Casselman, of Norwood; also six grandchildren and eight great-grandchildren.

Floral tributes were: Pillow, Mr. and Mrs. Alfred Barkley; Wreath, Mr. and Mrs. Alex. Whitteker, Grandchildren; Spray from sister Mrs. Sarah Brownell, Nieces Mrs. Freeman Austin, Mrs. John McArthur, Mr. and Mrs. A. Morris.

She left us in the morning
Just before the break of day;
We hope we may be as ready
When we are called away.
She loved us though she left us
And our hearts are filled with pain,
But may we all live holy lives
So as to meet her in Heaven again.

A HINT TO FLOWER LOVERS

It is claimed that a copper receptacle for cut flowers will almost double their life.

Clip the stalks of flowers, place in warm water for a few minutes until the stems are full and then place in a copper dish filled with cold water.

—o—

Explicit Street-Car Instructions.

This is what an Irish conductor called over the heads of the strap-hangers at the rush hour the other night:

"Will them in front plaze move up so that thim behind c'n take the places of thim in front, an' leave room fer thim that's naythers in front nor behind?"

Law Forbids Hunting

As a result of a request made by the Counties' Council recently, the latest Ontario Game and Fisheries Laws include these counties in the area in which there is a close season all year round for deer and moose. The law as it reads at present is: "It shall be unlawful for any person to hunt, kill or destroy any deer or moose in that part of Ontario lying south of the French and Mattawa rivers, (but excluding therefrom the counties of Bruce, Grey, Simcoe and York, and that part of Ontario lying south and west thereof, together with the counties of Leeds, Grenville, Dundas, Stormont, Glengarry and Carleton) except from the 5th day of November to the 20th day of November, both days inclusive."

Finch

Mr. and Mrs. J. H. Wereley, Massena, spent the week end at the former's parental home.

Mr. Ferguson Stewart, Misses Eva Nephew and Esther Cameron have gone to Ottawa where they will attend the Ottawa Normal School.

Mr. and Mrs. Stewart McKilligan and family spent the week end in town.

Mr. and Mrs. Gladstone MacLean, Finch, and Mr. and Mrs. J. Cameron, Cornwall, spent a few days in New York.

Miss Hazel Wereley, Cornwall, is spending a few weeks' holidays here.

Miss Eva MacMillan spent Saturday in Cornwall, Master Donald MacMillan returning home with her.

TWENTY KIDDIES AT 37

A farmer's wife in the small town of Oyen, Alberta, presented her husband with child number twenty at the age of thirty-seven. Five sets of twins account for half of the kiddies—the remaining fifty per cent. being content to make their debut singly.

—o—

"Bill," the poet gasped to his friend, "I wrote a poem about my little boy and began the first verse with these words:

"'My son, my pigmy counterpart.'"

"Yes, yes?"

The poet drew a newspaper from his pocket.

"Read," he blazed. "See what that compositor did to my opening line."

The friend read aloud: "My son, my pig, my counterpart."

Canadian Produce Welcomed Abroad

Before leaving Great Britain to study conditions in which farm products are raised in Canada five students of the Institute of Certified Grocers, were addressed by Major MacLean of the Empire Marketing Board. Major MacLean credited Canada with giving the lead in the direction of encouraging food distributors to acquire first hand knowledge of the products of the Dominion. "Canada," he stated, "had everything to gain and nothing to lose by the people of Great Britain being better informed of the excellent conditions in which Canadian foodstuffs are produced and sent abroad."

Referring to Canadian apples Major MacLean told the students that they will probably be amazed at the vast extent of the Canadian orchards and the army of people engaged in spraying the trees, gathering the fruit and packing and sending it to some other country in ships specially fitted with refrigerator space to insure the fruit being placed on the English breakfast table in excellent condition.

Hoasic

A large crowd attended the school Fair at Williamsburg on Monday.

Mr. and Mrs. George O'Shaughnessy visited Mr. and Mrs. Arthur Henry recently.

Mr. and Mrs. Albert Milliner, of Kingston, spent a few days at Mr. Frank Wells'.

Mrs, Hart expects to sail for her home at Bristol, England, on Friday. We wish her a safe voyage.

Miss Marguerite Alguire visited Mrs. Merton O'Shaughnessy a few days last week.

Mr. and Mrs. John Robertson, of Wales, spent Sunday at Mr. Chas. Brown's.

Mr. Karl Helmer, of Winchester, called at Mr. Durham Wells' one night last week.

Miss Margaret Dillen is visiting Mrs. Roy Cassel.

Mr. Ernest Wells and Mr. Russell Elliott were at Roy Cassel's on Monday.

Miss Gladys Wells spent the week end at her home at East Williamsburg.

Miss Blanche Gow has gone to attend High school at Hallville. We wish her success.

Ashburn

Mrs. Joseph Parrow, of Cornwall, visited her parental home over the week end.

Mr. and Mrs. Charles Meldrum and family visited at Mr. Walter Dillabough's on Sunday.

Visitors at the home of Mr. Cimeon Ouderkirk on Sunday were: Mr. and Mrs. Fred Barkley of Great Bend, Mr. and Mrs. Walter Scandlin and son Jack of Syracuse, and Mr. and Mrs. Mike Meldrum and family of Maple Glen.

Mr. Walter Dillabough spent Stturday at Brockville.

Mr. Willis Miller, of Berwick, and Mr. Dalton McDermid are visiting relatives in the States.

Mr. Peter Ouderkirk and family spent Saturday at Ottawa.

Mrs. George Snyder and Mr. and Mrs. Chas. Snyder and family spent Sunday at Mr. Angus McDermid's.

Misses Blanche and Madeline Beehler, of Finch, are visiting their aunt, Miss Amelia Beehler.

Born—To Mr. and Mrs. Abner Ouderkirk, on Sept. 5th, a daughter. Congratulations.

The Ripening of Green Tomatoes

(Experimental Farms Note.)

In some sections there is a considerable demand for ripe tomatoes after the season for this crop is normally over. This requirement may successfully be met by artificially ripening the fruits indoors. Fruits that are to be ripened should be well grown, free from blemishes, such as splits in the skin, bruises or frost injury. It has been found, however, that the very green fruits will not make a desirable finished product. Therefore, the tomatoes should be as near to maturing as possible. If such fruits can be saved and stored in a moderately cool room, at about 60 to 65 degrees, they will be found to ripen nicely over a considerable period.

There are several methods of handling the fruits, among which probably the following are the best. The fruits should be wiped free of all sand and graded into near ripe and quite green and wrap them in tissue paper, after which they should be placed in a single layer on a shelf, or in baskets. Some prefer to place the fruits on the shelves or in baskets without wrapping, either method is quite satisfactory, although the fruits wrapped with paper will be found to wither less than those put to ripen without paper.

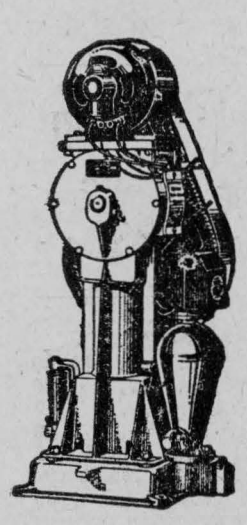
Conspicuous By His Color.

Woman: "I was to have met my husband here two hours ago have you seen him?"

Floorwalker: "Possibly, madam. Anything distinctive about him?"

Woman: "Yes, I imagine he's purple by this time."

What a Difference



a bathroom can make. Especially one completely equipped with Emco Bathroom Fixtures and Fittings. Consider the health of your family and do not forego this necessary home improvement any longer. Emco Fixtures are of the latest improved type, of the best manufacture and guaranteed construction.

Lack of running water need not deter you, as an EMPIRE DURO WATER SUPPLY SYSTEM will provide sufficient quantities for all your bathroom, kitchen, laundry and other needs. The smallest model supplies 250 gallons per hour and other models considerably more.

Our local dealer will be pleased to supply you with full information and recommend the model most suitable to your needs.

BERWICK

Mr. and Mrs. W. Price, of Winchester, spent Monday with their daughter, Mrs. W. D. Munroe.

Mrs. D. McDermid and little grandson left last week on an extended visit to her daughter at Niagara Falls.

Mr. and Mrs. Wm. Servage, of Massena, spent Sunday as guests of the former's parents.

Mr. Duncan McPherson left last week for Western Ontario where he intends to remain for the Winter.

We are sorry to report Mr. A. Summers is still under the doctor's care with but little improvement in his condition.

Mr. and Mrs. Jas. Killoran and family and Miss Mae Legg spent Sunday afternoon with relatives at Morrisburg.

Mrs. D. McPherson is spending a couple of days with her daughter, Mrs. Geo. Johnston, of Crysler.

Messrs. Willis Miller and Dalton McDermid are spending a few days this week in the States.

Mrs. Allan Ostler, of Sandtown, spent Monday the guest of Mr. and Mrs. Albert Ostler.

Mr. Will McLean, of Finch, bought Mr. W. R. Plumb's butcher shop.

Mr. Herbie Bogart, of High Falls, Michigan, is spending a few days at his parental home.

BORN

Baker—At Crysler, on Sept. 12th, 1929, to Mr. and Mrs. Arthur Baker, a daughter. (La Brassa Esther) Both well.

CARD OF THANKS

The Ladies' Aid Society of the Presbyterian church, Dunbar, wish to thank all those who donated or helped in any way to make their Bazaar a success.

JOHN KING, CHESTERVILLE

Provincial Election Called October 30

Following the announcement Monday evening by Premier Ferguson of the date of the Provincial election as October 30th with the nominations on October 19th a lengthy manifasto was issued by the Ferguson government.

Chief among the promises of the pronouncement is a reduction in motor car license fees of more than $2,000,000 annually. The new license charges are announced as follows: cars 25 horsepower and under, $5; cars from 25 h.p. up to and including 35 h.p., $10; cars over 35 h.p., $20.

Agriculture, first among the industries of the province, assumes the importance due its position in the manifesto. A better and more prosperous agriculture, in New Ontario and old, is the central plank of this political platform.

Many are the promised improvements held out to the farmer. The first is more roads—a vast extension, by greater expenditures, of the secondary or township and county roads of the province. Cheaper hydro power next is offered. At the next session of the legislature, the manifesto states, statutes will be effected to reduce the hydro service charge from its present average rate of $4.55 per 100-acre farm to $2.50. Further, the cost of the power installation equipment will be lent by the government to the farm on loans running up to a period of 10 years.

Rural education facilities are discussed. Parents in rural districts will be given the opportunity of providing better education for their children under a scheme by which such schools as teach up to fifth form work will receive more generous grants from the government. Thus, on a basis wherein the parent has the option, the premier is introducing his plan of bringing the first two years of high school into the public schools.

Intensive Research.

An intensive agricultural research will be pursued by the research board, the manifesto announces. This work will involve study of soil conditions, improved production and marketing methods, and the eradication of weeds and diseases in plants and animals.

Overseas marketing opportunities now centred largely on fruit, will be extended to other products, it is announced, if success attends the plan, announced some months ago, of having a fruit marketing expert stationed in London, England. Similar agencies will be extended to other products, the manifesto states.

Declaring the present demands indicate an exhaustion of developed electric energy in Ontario by 1932, the pronouncement asserts that the government intends, while awaiting the development of the St. Lawrence, to develop an additional reserve of about 600,000 horse-power. The immediate developments will be the Carillon and Chats Falls in the Ottawa valley, which have a total estimated development of 275,000 horse-power.

A vigorous, systematic northern colonization scheme, aimed at the compact settlement of the vast spaces of new Ontario, will be pursued by the government. In new Ontario, as in old, says the manifesto, the trunk roads have preceded the minor ones. The government is now in a position, it is stated, to build the necessary subsidiary roads for the settlers' local use.

The announcement of an increase in the iron ore bounty made by the premier some weeks ago at Sault Ste. Marie also is contained in the manifesto. Under this announcement legislation is promised next season to give a bounty of one cent a unit on the treatment of iron ore mined in Ontario. Mention is made also of the recent James Bay lignite discoveries.

Railway Extension.

What may be an intimation of the Kamiscotia extension of the T. and N. O. railway, long demanded by many Timmins residents, may lie in one of the sentences of the reference to the province's northern railway. It heads: "The government has now under consideraion some plans for extensions that it hopes to be able to justify."

After a lengthy review of the humanitarian legislation enacted by the late legislature, the manifesto deals with liquor control. The issue that was paramount in the 1926 election is Item No. 10 on the 1929 pronouncement.

It is stated that the government will strengthen the present act where such is needed and that constructive suggestions will be adopted where practicable.

"We venture to suggest," the manifesto reads, "to those who are not yet satisfied with the liquor control act that the present law should have a fair trial. The encouragement through educational methods of self control, temperance and sobriety is the only lasting solution of the problem."

IN MEMORIAM

In loving memory of the late Marshall Merkley.

No one knows how much we miss you,
No one knows the bitter pain,
It has been eight years since you left us,
Life has never been the same.
In our hearts your memory lingers,
Sweetly tender, fond and true,
There is not a day dear father
That we do not think of you.

Ever remembered by his loving wife and family.

Many Animals Included On the Fur Farm

Furfarming was originally confined practically to the fox, but though that animal is still the most important, the scope of the industry in Ontario is extending. The animals now stocked on the 1,148 licensed farms of the province include beaver, fisher, fox, mink, muskrat, raccoon, skunk, bear, marten, weasel (ermine) and badger, a total of 17,686.

The experimental fur farm conducted by the Ontario Government is said, in the annual report of the game and fisheries department, to be the most comprehensive plant in existence for the scientific study of the business. It has an area of one hundred acres, which is divided roughly into three portions, arable land, marsh and bush and on it are most of the animals already mentioned, moose and deer, and also wild ducks, swans and Canada geese. Where wild animals are taken direct from the wilds and placed in captivity and have to eat what is given to them it is to be expected that some dietetic troubles will arise. With the many different varieties of animals at the experimental fur farm, the study of the most suitable and economical rations occupies a very important place in the experiments which are carried on. It is found that animals will thrive on food which cannot in any way be described as natural to them. Beaver, for example, will do well on roots and grain and are very fond of bread. Extensive experiments are required to find out how far it is possible to go from the natural food without injury. To what extent fish can be substituted for meat with the fur-bearing animals is now under investigation.

What Next?

Over in the States a scientist has bobbed up who can make real diamonds out of sugar. The drawback there, of course, is that if people start making diamonds out of sugar the lovely things will become so common that nobody will want to wear them. It is that way with human nature. Whether it be a pretty woman or a cocktail, or something equally alluring, the appeal is always in proportion to the difficulty of possession. Personally, we could never see much difference between a diamond and a good crystal, and we doubt if many others can; but just because crystals are fairly common and diamonds are not, people, especially women, want diamonds. They want something that few other people have.

That, however, is not what most intrigues us about this chap who can make diamonds. What interests us is the seemingly inexhaustible ingenuity of these scientists and chemists to do things. Where is it all going to end? The other day we read about a man who was going to make some useful thing—we forget what it was—by taking the bitter taste out of vinegar. The very next day we picked up our paper and saw where, in England, they are beginning to make bathing suits out of wood. Tomorrow, without a doubt, it will be something else. Next to newspaper men, chemists and scientists are the most industrious people we know.

A few years ago we read a book by an eminent scientist, Mr. J. B. S. Haldane. It was a good book, but when we came to a chapter in which he said that people would soon be taking food out of the air, we threw the blamed thing away. We thought the fellow was crazy.

Now we are not so sure. If these infernal scientists can make Arctic circle Eskimoes dance to the wailing of a saxophone in New York, make people fly over oceans and continents, sail under the sea, and talk to people thousands of miles away, what in creation can they not do. They used to talk about the industrial revolution. What we're witnessing now is a new world entirely. Here we are making paper out of straw; beautiful lingerie out of jackpines; lighting homes with gas from garbage; making diamonds out of sugar; snappy bathing suits out of wood, and doing a thousand other things.

And those scientists are only beginning. If they have been able to perform all these miracles during the past few years, what will they be doing, and what will everybody else be doing a hundred years from now? The thought of it makes us wish we had just been born yesterday.—Ottawa Journal.

Wife: "How did you get into this state?"

Hubby: "Bad company, m'dear."

Wife: "What do you mean by bad company?"

Hubby: "Well, there were fi[redacted] us to one bottle of whisky, an[redacted] other four were teetotalers."

Few Women Can Fry Fish Like Men Can

There was one philosopher who chose to live in a tub, and there is at least one member of Mr. Hoover's distinguished cabinet who really likes to cook. A modern kitchen has been installed in the official quarters of Walter F. Brown, Postmaster-General at Washington, and in this kitchen Mr. Brown presides as chef when friends or department associates have been invited to confer with him and enjoy the delicious dishes he knows how to fix up. His most popular offering is a dish which he calls chicken paprikash, but he can prepare a wide assrtment of others, plain and fancy, difficult to get ready and harder still to call by name.

There are lots of men who like to cook, and a few who can cook to please others than themselves. Some can cook meals in the French manner, the English manner or al'Espagnol. No woman—or few women can fry fish as well as a good many men; and only a few women can broil [redacted] who take delight in fixing meals—cooks who take pride in their handiwork and scorn can-opening. But we have never yet heard of a man who liked to wash dishes.

The Voice of Experience.

Those who have had experience with a certain type of "Good Samaritan" will appreciate this colored preacher's version of the well-known parable: "Dere was a traveler on a lonely road, robbed an' left wounded an' helpless by de roadside. As he laid there, various pussons passed by him but none ob dem offered him any 'sistance. By an' by, howsomever, a pore Samaritan come along, an' taking pity on de wounded man, helped him on his mule an' took him to a tavern, where he ordered food an' raiment fo' de man, an' tells de tavern keeper to send de bill to him. Now, breddern an' sistahs, dis am a true story," concluded the preacher, "fo' de tavern am standin' to dis day, [redacted] in de doorway is standin' de skele[redacted] ob de tavern keeper, waitin' fo' [redacted] good Samaritan to come back an' [redacted] de bill."

GENERAL ELECTRIC

Refrigerator

The General Electric Refrigerator has pioneered in the introduction of no fewer than 14 vital features of modern electric refrigeration.

This years-ahead refrigerator was the first to create a simple hermetically-sealed mechanism, so trouble-free it never even requires oiling. For fifteen years it was developed in the research laboratories of General Electric before it was offered to the public.

Among the 300,000 owners of General Electric Refrigerators not one has had to spend a single dollar for service or repairs. See the various models in our show rooms and ask for a demonstration of the following 14 outstanding features.

1. Sealed air-tight, dust-proof mechanism.
2. Easily accessible freezing regulator.
3. Mechanism requires no oiling.
4. All troublesome machinery eliminated.
5. A new standard of quiet operation.
6. Mounted on legs with broom-room underneath.
7. No installation problem.
8. Porcelain, sanitary chilling chamber.
9. Entire mechanism on top.
10. No radio interference.
11. Cabinet with maximum food storage space.
12. Lower cost of operation.
13. Cabinet built so like a safe that it cannot warp.
14. Unqualified two-year service guarantee.

THE OZARK RAINBOW

A telegram which had come the previous evening was awaiting Addison on his return to Yale from one of his occasional brief visits to the old farm while he was in college.

"We need you again. Come at once, if possible," the message ran.

It was from Mr. John Bushrod of a mining company in New York, the man for whom Addison had already made three trips to determine the value of mines.

Addison, in fact, found that this new vocation into which he had drifted, almost by chance at first, bade fair to ocupy much of his time and attention, to the exclusion of school duties. He did not like to ask too many indulgencies, however, and in response to the telegram sat down to write a letter, saying that it would be hardly possible for him to undertake another commission of the sort, for a time, when who should burst in upon him but Mr. Bushrod himself.

"I didn't hear from you yesterday," he said. "So I came down. The fact is we want you to go to Arkansas and go immediately." He showed Addison a clipping from a Little Rock newspaper, which read:

"There is great excitement up in the Ozarks. They have found what they take to be silver ore there by the thousand ton. The mountains are full of it, they say. Our friend, Judge Hoke, who hails from that section, thinks there is silver enough on his farm to pension off all the old boys in gray who fought in the war. He showed us some 'flickers,' and they certainly do shine like silver. We reckon the judge has struck it rich. He is making brick and is going to put up a smelter. In the course of a week or two he expects to be drawing out hot silver by the ladleful."

"I think that there is really something in these reports," Mr. Bushrod said. "At any rate, we want you to find out."

Leave of absence was again acceded by the college authorities, and Addison set off next day, going first to St. Louis by way of Chicago, and thence to Springfield, Mo. Missouri railroads were then in bad condition. He was two days in reaching Springfield from St. Louis, for the train was twice de-railed enroute.

From this battletown to the Civil War the only conveyance southward into Arkansas was by stage wagons of primitive construction. They were three days in reaching Yellville and did not pass the Buffalo River until a day or two afterward. Rumors of the new silver discovery were current at the taverns and post offices along the road. Judge Hoke's new smelter was the subject of common talk at Yellville. Addison was able to locate it without difficulty and finally reached the place, on foot, during the afternoon of his twelfth day out from New Haven; for he had decided to find that smelter first of all and to start his prospecting from that point.

A lively scene, indicative of considerable local excitement, met his view as he came in sight of the place. The smelter was of the old-fashioned Spanish type, the chimney shaft being of newly burnt brick, thirty-five feet in height. It stood close to an abrupt ledge of light-colored rock, where considerable blasting had been done. Six or eight men were at work, charging the furnace flue with charcoal and ore; and standing about were no fewer than forty others, neighbors and friends of the judge, who had gathered to watch the proceedings.

Not wholly certain as to the reception he might meet. Addison drew near and inquired for Judge Hoke. A florid, genial old pioneer in homespun turned to greet him.

"Glad to see ye! Glad to see ye hyer!" he cried. "Ye don't look like the rest of the young chaps round hyer. Whar mout ye hail from?"

Addison introduced himself and disclosed the nature of his business.

"Wel, wal! All the way from Yale College in the state of Connecticut! And you folks heard about my new smelter clean over thar! How news do git round! Wal, young sir, I take it we've got somethin' pooty good hyer. I do bleeve so. But tomorrow'll tell the story. We thought we would put a fire to it this afternoon. But we won't get quite round to it till tomorrow mornin'. You stay right hyer with us. I want ye to see it.

"We're kinder cluttered up jest now", the judge went on. "But take your things right over to that long your things right over to that long cabin ye see yonder. Mother and the gals will put ye up as long's ye want to stay with us."

The Hokes have long since become wealthy, I believe; but the "long" cabin in which the family then resided was quite primitive. Addison judged that it was not less than eighty feet in length; the interior was divided crosswise into five or six rooms, each of which was entered by a door from the outside. In one of these apartments all by itself "Mother" Hoke and the "gals"—who proved to be the judge's wife and two daughters—made the wayfarer from the East as comfortable as need be. Later he had supper with the whole family—and tasted, for the first time, wild turkey and real hominy. Besides the daughters there were three sons, tall young mountaineers, not far from his own age. Addison still remembers their names. The girls were called Coena and Miranda, the boys Madison, Calhoun and Jefferson, respectively.

Neighbors continued to call till late in the evening, and they talked of little except future fortunes in silver.

Addison soon had a look at heaps of ore piled near the smelter. Some of it was brown-colored, some pink, and other chunks of a peculiar salmon hue; he put several bits in his pocket and later that night, when alone, lighted his blowpipe and gained an idea as to the fusing point. In fact, he was not long making up his mind as to the nature of the deposit. He said nothing that night, however, for he preferred to wait and see what would happen when the blast was fired next morning.

The stir of the household awakened him at daybreak. Early, too, as was the hour people were arriving afoot and on horseback from miles around. Sun-up had been the time set for firing the smelter, and promptly with the first peep of the great luminary they touched it off, amidst great excitement. Gradually the furnace shaft heated, and in the course of an hour lambent tongues of blue flame issued at the top. It grew hotter, till the whole structure glowed at every crevice with brilliant, dazzling incandescence.

Apparently it was time to tap the smelter; seizing an iron bar, the judge punched out the clay with which the vent at the base of the furnace had been plugged. A sheet-iron spout had been laid from the vent to a safe distance; and here the judge's three sons, each with a kettle in his hands, crowded round to catch the molten outflow.

The crowd gathered round closer, and Addison could hear them speculating on the possibilities of the smelting.

One man said he had not the slightest doubt that today's test would prove the Ozark region to be the greatest place for silver mining in the world. Addison smiled to himself and closely watched the hole from which they expected the treasure to flow.

But nothing flowed The judge punched again, punched deeper into the fiery mass. Nothing except white hot clinkers came out. Silence fell, broken only by the roar of the blast.

Thus far the attention of everyone had been directed to the glowing orifice at the bottom of the shaft. Addison, however, was watching the top of it, where—now that air had been admitted—a most wonderful exhibition of iridiscent flame appeared. For a hundred feet above the chimney top the sky was spanned with blazing gases of every imaginable hue and tint! The display confirmed his previous surmise as to the character of the ore.

"Look up!" he shouted, and pointed aloft. "There is where you want to look! What you've smelted is up there in the sky!" He could not help laughing in spite of himself to see the whole crowd start back and stare overhead.

Heaven protect us!" an old minister ejaculated. "If that 'ere isn't the beautifulest rainbow I ever set eyes upon!"

The spectacle was in truth a gorgeous one. Bar in hand Judge Hoke stood and stared aloft. "What is it?" he exclaimed. "Is that silver—goin' up like that?"

"No, that is not silver," Addison said to him.

"Not silver! Then what is it?"

"Zinc," said Addison. "Zinc volatilizes in that way when smelted, and goes off in gas."

"And we hain't found silver at all then?" the old judge cried, quite taken aback by this sudden turn of events—as in fact were all his neighbors.

"But you have discovered what I believe to be extensive deposits of zinc ore, which in time may prove quite as valuable to you," Addison attempted to explain.

"But zinc ain't silver!" Mother Moke exclaimed disconsolately. "Zinc's only fit to put under cooking stoves!"

Indeed it was not easy for Addison to bring the judge or his neighbors to understand what possibilities for future prosperity lay hidden in those picturesque crags and ledges of zinc ore which he had noticed throughout the Ozarks, and which he now suspected to be the southward trend of the great beds of lead and zinc ore at Joplin, Missouri.

So far as Addison knew, this was the first time that those deposits of zinc in Arkansas had been identified; desposits that were destined to yield thousands of tons annually and to be reckoned as one of the chief sources of zinc supply in North America.

For a week Addison sojourned with the Hoke family, making daily trips through the Ozark valleys and locating not less than fifty outcrops of zinc ore, all of which bade fair to yield good returns.

"Fortunes are awaiting you," he said to the judge and his sons. "All you need to begin profitable mining here is a railroad."

"But how in tunket are we goin' to git the blamed stuff down out of the sky, arter we've smelted it?" one old pioneer exclaimed.

Addison explained the simple process by means of which zinc oxide may be concentrated and afterwards rolled in sheets.

But many still shook their heads despondently. They had expected to find silver—which could be coined into big white dollars. Such is ever the lure of the precious metals.

On his return to New York Addison did not have much better success, for a while, in convincing Mr. Bushrod and his company that this discovery of zinc in the Ozarks might prove more lucrative than silver. They hesitated to embark in zinc mining, and, as the event has shown, lost a priceless opportunity for investment.

Some Pickling Recipes

By Etta Bitta Pye.

The word "pickles" covers a multitude of skins—and pulps and juices and sweetners too. Pickles may be sweet or sour; they may be whole or halves; they may be served under the name of Indian relish, catchup, chili, chow-chow or piccalilli; they may consist of cucumbers, onions, citron, currants, pears, plums, walnuts or watermelon rind. In all truth the word "pickles" covers a multitude of skins.

Here are some recipes for sweet pickles—something that is needed to balance the pickle shelves of the preserve closet. The pickles are tasty bites. The sugar contained in the jar is a quick energy food and a good fuel for winter.

ORANGE SWEET PICKLE

4 oranges
2 cups sugar
1 1-3 cups vinegar
1 teaspoon whole cloves
1 teaspoon stick cinnamon

Peel oranges, removing all white membrane; cut into thick slices; steam until clear and tender. Boil sugar, vinegar and spices for 25 minutes. Add fruit and simmer slowly for one hour. Place in sterilized jars and seal.

PICKLED REDS

Pickled sweet red peppers make a delightful garnish for cold meats or salads. Wash and dry peppers thoroughly, then cut a slice fom the stem end and remove seeds. Cut either in thin strips with scissors or into ribbons by working around the pepper with a sharp knife. Scald well then drop into ice water to crisp. Drain well. Make a syrup, using a proportion of one cup sugar to two cups vinegar. Put peppers into clean, hot jars, fill to overflowing with hot syrup and seal.

Ah, Indeed!

Minister (treating small boy to a soda) "Now, what do you say, my little man?"

Small Boy: "A-a-a-h-h!"

Minister: "Is that the proper way to thank a person for a gift?"

Small Boy: "That's what dad says when Uncle Jim gives him a drink."

"Corn Stalk Gas" Announced

Corn stalk gas to light and heat small cities was announced at the opening session of the American Chemical Society's seventy-eighth meeting at Minneapolis Monday. Ordinary sewage and plain corn stalks are combined in a cheap, simple method which produces results like those of Aladdin's lamp.

From these two nuisance wastes, University of Illinois chemists are recovering large quantities of methane gas, plain marsh gas, announced as useful for heating, for operating autos, in place of gasoline, and driving engines producing electricity. They also are recovering the principal ingredients of "dry ice." And they swat the corn borer.

They believe they have an apparatus so simple that it can be installed by any farmer to make his family sewage turn his corn stalks into one of the needs of farm wives, good, cheap cooking gas. It requires no machinery; bacteria from the sewage do the work.

"I call my girl 'Hinges' 'cause she's something to adore." Whoops, Baby.

Mainly About People

Mr. Pat Page was last week a visitor at Kingston Exhibition.

Mr. and Mrs. John Shaver and family, of Finch, visited friends at Prescott on Sunday.

Miss Marie Allen returned to Smiths Falls after spending a month at her home.

Attention is drawn to the Harvest Dinner of St. Andrew's Presbyterian church announced in another column.

Mr. A. O. Robertson visited his parents, Mr. and Mrs. A. T. Robertson, in Carleton Place a couple of days last week.

Last night was the coldest night of the season with a heavy white frost in evidence this morning which will hasten the corn harvest.

Mr. and Mrs. Geo. Reaburn were called to Almonte this week owing to the death of the latter's father, Mr. James Finlayson.

Mr. B. C. Pankratz and family have returned to town after an extended motor trip to their former home in Wisconsin.

Mrs. Jas. Cunningham, of Toronto, is spending some time at the home of her brother-in-law, Mr. Geo. Cunningham.

Chesterville Band yesterday played at Metcalfe Fair and to-day are at Vankleek Hill as the main musical attraction.

The pulpit of Chesterville United church will be occupied next Sunday at both services by Rev. Mr. Brown, while Mr. Newman goes to Inkerman to conduct anniversary services.

Mr. and Mrs. Chas. Fader, of Marvellville, Mrs. Guy Cunningham, Mr. Ford Cunningham, Mr. and Mrs. Ellis Pitts and Miss Olive Strader, of Williamsburg. were guests on Sunday of Mr. Wm. Fader, Grantley.

The Women's Institute will meet in the Library on Wednesday September 25th, at 2.30 p.m. This meeting will be in charge of the Grandmothers and a cordial invitation is extended to every grandmother in the community to attend,

Mr. S. E. Robinson, who has been local manager of the Bank of Montreal during the past six years, has been promoted to a like position in Toronto which he will leave shortly to take up. Mr. Robinson will be succeeded here by Mr. Hanna, of Bronte.

Mr. and Mrs. Alf Jarvis, after spending a vacation with friends in Oneonta and visiting New York city where he witnessed a baseball game between the Philadelphia Athletics and the New York Yankees, had the satisfaction of seeing the famous slugger, Babe Ruth, slam out a home run.

Rev. John Webster of Lindsay, who has been the guest of Rev. and Mrs. Newman at the Parsonage during the past week, occupied the pulpit of Chesterville United church last Sunday morning and met many people his pastorate at Winchester a good many years ago who were pleased to see him looking so fit at his advanced age, well over eighty years.

The marriage was solemnized by Rev. R. E. Newman at the Parsonage last evening of Miss Josephina Caesar and Mr. Frederick Arthur Julian, two well-known people who have made many friends in this place since their arrival, the former from Ireland and Mr. Julian fom England, a couple of years ago. They will spend a short honeymoon in Ottawa and we understand will in a short time make a visit to their parental homes in the old land. The Record extends hearty good wishes to the young couple.

RIVERSIDE

Mr. and Mrs. James Crawford and family, of Moose Creek, were week end visitors at the home of Mr. and Mrs. L. Montgomery.

Mr. and Mrs. Ferguson McKercher of St. Elmo, spent Sunday with Mr. A. D. McMillan and family.

Messrs. Donald and John McMillan attended Maxville Fair last week.

Mrs. Geo. Matthews, of Montreal, visited her mother, Mrs. J. Baker, recently.

Mr. and Mrs. Donald McMillan and family spent Sunday with Mr. and Mrs. Ray Miller.

Recent visitors at the home of Mr. Dougal McMillan—Mr. and Mrs. Jake Smirle and Wilson, Miss Lenna Smirle, R.N., Mr. Gordon, Mr. and Mrs. Ernie Faith, of Ottawa, and Mr. Clifford Coons, of Vancouver.

Miss Leila Helmer, of Ottawa, Miss Leretta Nephew and Miss Grace Nephew visited Mrs. Dan Pollock this week.

The regular meeting of the W.M.S. was held at the home of Mrs. G. Pollock on Tuesday afternoon.

Mrs. J. Foster is spending this week in Montreal with W. Lee and Mr. and Mrs. Jack Foster.

Mr. and Mrs. Robert C. Bogart and Master Ernest spent Wednesday with Mr. and Mrs. Bernard Shaver, Prescott.

Recent visitors at the home of Mr. and Mrs. R. C. Bogart—Mrs. J. Ferguson, Mrs. S. Hutt, Rev. A. W. Stewart, Mr. Roy Schell, and Mr. Clifford Coons, of Vancouver.

Week end visitors at the home of Mr. and Mrs. Aden Casselman—Mr. and Mrs. Aden Casselman and family, Miss Mary Casselman and Mr. Ryerson Casselman, of Prescott, and Mr. and Mrs. Gordon C. Bogart.

Mainly About People

Mrs. Chamberlin, of Montreal, is the guest of Mrs. S. Bogart.

Mr. and Mrs. A. B. Brown, of Cardinal, were guests of Mr and Mrs. J. C. Simser on Sunday.

Mr. A. D. Munro, of Arvida, Que., is the guest of his parents, Mr. and Mrs Enos T. Munro

Mr. and Mrs. Leon Belanger, of Dayton, Ohio, visited his parents in Chesterville and other friends.

Mr. and Mrs. A. Harradine and little son Donald and Mr. Jack Love, of Massena, spent Sunday with the former's parents and sister before leaving for Toronto.

Mrs. Elsie MacGillvray left Sunday night for Toronto after spending her vacation with her parents, Mr. and Mrs. A. Harradine, and little daughter Gwelda.

Mr. Albert Knight and Miss Lillian Knight returned to Cato, N.Y., accompanied by Harold Marcellus who will visit Mr. Knight and his aunt, Mrs. B. E. Hackett, of Syracuse, N.Y.

Miss Florence Norton, who has been staying at the home of Mr. Parnham Allison, is leaving on the Montclair for her home in London, Eng., to spend the winter with her mother.

Miss E. M. Pitcher, of New York City, has closed her summer home in Ottawa and sailed on the Duchess of Athol from Montreal for Liverpool. She expects to spend the winter abroad.

Miscellaneous Shower for Miss Etta Gillies

Mrs. S. M. MacLean, Misses R. and M. McMahon, Mrs. Thos. Foley and Misses M. and Jennie Gillies were hostesses at a miscellaneous shower held at the home of Mrs. Catharine Gillies in honour of her daughter, Etta, who is one of this month's brides.

The lovely home was beautifully decorated for the occasion with streamers and bells. As the bride entered the living room to the strains of Lohengrin's wedding march, which was played by Mrs. J. W. Casselman, she was showered with confetti. A suitable address was read by Mrs. Thos. Foley to which Miss Gillies, although taken by surprise, replied very appreciatingly. The gifts were then opened and admired after which Etta again thanked her friends for their generous good wishes. All joined in singing "For She's A Jolly Good Fellow." A dainty lunch was served by the hostesses assisted by Misses M. Foley, Margurite and Aileen MacLean, Reta Nephew and Marion Casselman.

Those present were:- Mrs. Jno. Munro, Mrs. W. J. Sutherland, Mrs. D. V Munro, Mrs. J. W Casselman, Mrs. A. Foley, Mrs. D. C. McLeod, Mrs. S. Cameron, Mrs. K. MacRae, Mrs. S. M. McLean, Mrs. D. A. Gillies, Mrs. R. Droppo, Mrs. S. Farrell, Mrs. G. C. Smith, Mrs. Thos. Foley, Mrs. Jas. McArthur, Mrs. A. E. Cameron, Mrs. D. A. McNaughton, Mrs. C. Barkley, Mrs. D. Cameron, Mrs. T. Bayly, Mrs. C. F. Warner, Mrs. D. McMahon, the Misses Lois and Jean Sutherland, Margaret Casselman, Marion Casselman, Blanche Casselman, Marguerite and Aileen McLean, Margaret and Rose McMahon, Mary A. and Jennie Gillies, Reta Nephew, Margaret Foley, Katie and Minnie Gillies, Master Patrick Foley and little Misses Margaret Foley and Amanda Gillies.

Those who sent gifts but were unable to be present were:- Mrs. A. P. McLean, Mrs. E. Swerdfeger, Mrs. H. Ross, Mrs. J. Young, Mrs. J. Kennedy, Mrs. A. McMahon and Mrs. S. B. Casselman.

Repudiated Loans

While the world is discussing the great post-war problems of reparations, the French war debt, the British debt to the United States and the plans whereby all these obligations will be met, the Council of Foreign Bondholders, with headquarters in London, Eng., calls fresh attention to the loans raised by some of the southern states of the American union, and coldly repudiated.

The case of Mississippi is the one which receives closest attention. Between the years 1831 and 1838 this state contracted two loans of a total capital of $7,000,000. The interest in arrears at the present time amounts to $32,000,000. The loans have remained in default for eighty-eight years.

The bonds were sold at a high price and Mississippi received the full proceeds. They were used to establish banking facilities in the state. The legality of the loans was not questioned for many years, and the only substantial pretext for repudiation is that the investments made with the money did not turn out well. Finally, in 1875, the state protected itself from any demand for repayment through the courts by amending its constitution to make any such action illegal.

The cool impudence of this history, the truth of which cannot be contested, is a strange contrast to prevailing morality on such issues. Its only counterpart is the Soviet's repudiation of Imperial Russian loans. Mississippi, however, is not Soviet Russia.

Partial Deafness Sometimes Unsuspected by Mothers

A demonstration of a pre-school child conducted by Dr. Marion Hillard, medical officer for the Children's Aid Society, proved a great drawing card of the program given from headquarters booth of the National Council of Women in the women's building at the Canadian National Exhibition.

With the aid of a small subject, Dr. Hillard show how she would conduct such an examination and gave a lifelike mimicry of a mother's answers to the routine questions—"It is funny, doctor, but she seems to like cocoa butter when it's made with water. No, I can't get her to sleep in the afternoons. She hasn't since she was 2. Oh, no, she isn't underweight. She just takes after me, I've always been thin."

"A child can be nearly deaf in both ears without anyone knowing about it until the doctor examines her," was one of the startling statements made by Doctor Hillard. "Children are so quick at lip reading that their mothers don't realize that they are not hearing.

"You know when it comes to children's looks, parents usually just hope for the best," she continued, "but I have seen numbers of them with potentialities for fairly good looks that are being ruined by tonsils and adenoids."

GRANTLEY

Mr. and Mrs. Don Carr, Mr. and Mrs. Elburn Carr and children and Mr. Claude Carr were Sunday guests of Mr. and Mrs. Wm. Carr, Boucks Hill.

Mr. and Mrs. John Bogart of Elma, and Mrs. Sarah Weaver of Manitoba, spent Friday with Mr. and Mrs. Milton Carr.

Mr. and Mrs. John Locke and son Sidney and Mr. and Mrs. Milton Carr and son Vane spent Sunday with friends at Heckston.

Mr. Arnold Riddell spent over Sunday with his parents, Mr. and Mrs. Geo. Riddell.

IN MEMORIAM

Elliott—In loving memory of our dear mother, Mrs. John Elliott, who passed away September 5th, 1926.

The world may change from year to year,
Our friends from day to day,
But never will the one we love
From memory pass away.

The Family.

PLANTS

Hardy Shrubs and Perennials, Paeonies, Phlox, Iris and others, all choice varieties at Moderate prices. Bulbs for fall planting. House plants for winter bloom. Inspect our stock before puchasing. W. J. FORWARD,
IROQUOIS. 48

How Mysterious Is The Flight of Birds

The missing homer pigeons remind us once more how wonderful and mysterious is the flight of birds. Discussing their annual migration to the south, the Edmonton Journal says that a gull was banded, when ten days old, at Bittern Lake, on June 22, 1927. Forty-five days later, on August 6th, it was found at Comox, Vancouver Island. When it left Alberta the weather was perfect and the food supply ample. What impelling force made this young bird risk its life in unknown regions while traveling over hundreds of miles of mountains and sea? A young Franklin gull, banded at Big Bay Lake on July 5, 1929, and still unable to fly, was found in eastern Saskatchewan on September 6. At the time it left its home surroundings food was plentiful and the weather warm. "One gull travels westward to the Pacific ocean, there to commence its southern migration, while the other seeks the middle of the continent before starting on its journey south." Dr. William Rowan of the University of Alberta is carrying on a series of investigations in an endeavor to solve some of the mysteries of the flight of birds.

MARRIED

Cooksey-Gallinger—On Wednesday, Sept. 11th, by Rev. Mr. Russell, of Williamsburg, at the home of Mr. Murphy, Grantley, Miss Annie Clara Gallinger and Albert Eland Cooksey, both of Gallingertown.

LASALLE'S GARAGE

Chesterville

With the best of equipment in tools and materials, backed by many years of experience and technical knowledge we are prepared to give you

Expert Service
On All Makes of Cars
At Reasonable Cost

Batteries
Fresh—Charged—Repaired

Tires
With the mileage in them.

Gasoline
Pennsylvania High Test

Veedol Oil
The oil that peps your engine

Phone 52
Lasalle Bros' Garage
CHESTERVILLE

Sealers

Pints..... Per doz. 1.00
Quarts..... Per doz. 1.25
Half Gallons..... Per dox. 1.60

Fruit

Oranges 25c and 40c per dozen
Lemons Apples Peaches Pears

Cheese

Old, well-ripened Cheese of delicious flavor
New Mild Flavored Cheese in 5 and 10lb blocks

Maple Syrup

Pure Maple Syrup.....1.50 per gal.

Creamery Butter

Try our Kemptville Creamery Butter and you will be convinced there is no other so good

Electric Stoves

One of our 2 or 3 burners Electric stoves will prove a thrifty investment for saving time and fuel.
With ovens $19 and $22

Auto Tires

Prices range from $5.00 up. Tubes from $1.25 up
