HENRY'S Shorthand School Ottawa, Ont.

THIS INSTITUTION offers a superior training and thereby ensures a more successful future. It leads all others—a fact fully established by more than 625 pupils who have left other business schools to come to it—and ranks among employers as **"The School of Higher Efficiency."**

It is not surprising then that business men, in advertising for stenographers, should definitely state "Graduates of Henry's School preferred."

Little Child Drowned In Water Tank

The home of Mr. and Mrs. James Stewart, about a mile and a half west of Morewood, was very sadly bereaved Saturday afternoon when their little eighteen months old son, one of a pair of twins, was drowned in the water trough a short distance from the house where he had fallen in unnoticed while playing about. Dr P. McLaughlin, coroner, was notified of the fatality and after an investigation decided that an inquest was unnecessary.

The funeral was held Monday afternoon in the Morewood Presbyterian Church and was very largely attended, the service being conducted by Rev. A. H. Sproule, of Chesterville, in the absence of Rev. Mr. Nimmo on his holidays.

The sympathy of the entire community is extended to Mr. and Mrs. Stewart in their bereavement.

Ball Game Friday Afternoon

The fourth game in the play-off series between Morewood and Chesterville to determine the championship of the Dundas County League will be played on Nestlé's Field Friday at 5.30. Chesterville is leading with two wins to one loss and will be out to end the series with their third win, making it three out of five.

Chesterville Bowlers Lose In Governor General's

Local bowlers during the past week failed to keep up their winning streak against Eastern rinks. Friday evening two strong rinks from Alexandria came to town in the Goveror General's competition and eliminated the local players with a margin of eight points on the play. Dr. Cheney rolled up the whole of the advantage obtained against Hanna in a keenly contested game, while Dixon fought it out on even terms with Cowan's rink.

In the Brockville doubles Tuesday two rinks, Dixon and Hanna, and Durant and Clayton, did not reach the finals, the former winning two and losing the same number, while the others went down one, two.

Notices have gone out to all clubs in Eastern Ontario for the local doubles tournament for Friday, Aug. 28th when it is expected there will be a large entry. Chesterville club has considerable reputation for the class of prizes offered for competition which will be fully maintained this year.

NO PAPER NEXT WEEK

As has been our custom in the last week of August, there will be no issue of The Record next week. We expect to spend the holiday keeping the office open during business hours for the reception of many overdue subscriptions and other accounts, and the execution of all job work.

The next issue will be Thursday, September 3rd, which we would ask all our correspondents to keep in mind and send in good big news letters for that issue. Changes of advertising should reach us not later than noon, Tuesday, Sept. 1st. The co-operation of all concerned will be appreciated.

ANNIVERSAY SERVICES AT MOREWOOD

Morewood Presbyterian Congregation will hold Anniversary Services on Sunday, September 6th, 1931. Rev. W. J. Hurlow, of Kemptville, will be the special preacher at this occasion.

After Losing Friday Chesterville Wins Tuesday

In the play-off series between Chesterville and Morewood in the Dundas County League, the former lead their rivals by two games to one. Friday evening on Nestlé's Field Morewood pulled a smart win when they kept Chesterville to one tally while they were gathering five. Tuesday night at Morewood the tale was different when the home team collected only one counter and let Chesterville run away with a total of nine runs at the end of the sixth innings, to which the score reverted when the game was called on account of darkness in the seventh after Chesterville had put three counters across.

Morewood broke into the run column in the second after Feeley pasted a grounder through short and was helped around the circuit. After that there was nothing doing in the way of counting until the fifth when Dillabough made a threat but was left stranded on third after Coulthart struck out and Fielding grounded to short, McLeod having struck out.

McAvoy pitched a nice game, giving only one pass, and held Morewood safe at all times.

Chesterville gathered one in the opener and with two men on the paths looked good for some more when their chances were nipped in a smart double play. In the second they went down in order with Dillabough fanning three in a row. Another in the third and three in the fifth with four in the sixth put the game away for keeps.

The batting orders were:

Chesterville—Plantz, Lynch, Barkley, Slosser, Flynn, Taman, Oshier, P. Plantz, McAvoy.

Morewood—James C. Loughridge, L. Loughridge, Feeley, Marcellus, McLeod, Dillabough, Coulthart, Fielding.

Umpire—Carkner, Winchester.

Chesterville . . . . . 1 0 2 0 3 4—9
Morewood . . . . . 0 1 0 0 0 1—1

Three Auto Accidents

This district was the scene of no less than three automobile accidents during the week in which several people were more or less injured. A party of seven in Mr. Walter Collingridge's car was returning from a visit to Cornwall Thursday evening when in the vicinity of Goldfield their car skidded and turned over on the road. All received a bad shaking up with Mrs. Collingridge the most serious. The car was not badly damaged.

A car driven by John H. Barkley, of Williamsburg, and one owned by John Servage and driven by his son Stanley, met on the turn at Alex Younge's, Dunbar, Tuesday, when they were considerably damaged. Mr. Servage received a badly damaged nose.

Tuesday afternoon Hugh Cunningham on his way from Ottawa to Chesterville on a motor cycle was proceeding east when Lorne Helmer, going in the same direction, turned north at the top of the hill by the Maple Ridge schoolhouse as Cunningham was passing him. The latter received injuries to his leg which required medical attention.

U. S. Visitors Win Ball Game

Saturday afternoon Chesterville was visited by a baseball team representing Colton, N. Y., which engaged in a friendly game with the local team on Nestlé's Field and returned winners 12 to 2. McAvoy held the visitors to a narrow margin until the last innings when some wild heaving by his team mates presented Colton with six runs. The return game will be played this week end when our boys will cross the line in an endeavour to even the score.

Village Council Refuses to Accept Clerk's Resignation

Council met on August 12th to consider tenders received for the purchase of debentures issued for pipe lines and sewer, the tender of Mr. O. D. Casselman being accepted at par value.

At a meeting on August 19th it was decided to join in with Cornwall in an appeal against the equalized assessment of the village.

The resignation of Geo. Elliot as Clerk-Treasurer was presented and considered.

It was moved by D. Allison, seconded by Thos. Allen "Whereas Mr. Geo. Elliot has tendered his resignation as Clerk-Treasurer of the Village of Chesterville and whereas there is nothing in the report of the Provincial Municipal Audit that reflects in the slightest degree upon his integrity but on the contrary the report comments upon the neatness of the minute book, and whereas this Council has full confidence in him and needs his help, and whereas we feel that the Village would lose a valuable officer were he to resign,

"Be it therefore resolved, that his resignation be not accepted but that he be urged to continue in office as long as his health will permit.

"And that a copy of this resolution be published in this week's issue of The Record."—Carried unanimously.

Recovering From Injuries Sustained in Mishap

Miss Tressa Bolton, 23-year-old South Mountain resident, is reported to be recovering rapidly at the Civic Hosiptal, Ottawa, from injuries sistained in an automobile accident last Saturday night. Miss Bolton was driving with her sister, Miss Martena Bolton and Sid McCorkell, 524 Laurier avenue west, Ottawa. At nine as they were rounding a curve near South Mountain, Mr. McCorkell had to swerve suddenly to avoid crashing into a buggy and the car skidded and overturned in the ditch. Miss Tressa Bolton's leg was fractured, while Mr. McCorkell suffered a broken wrist. Miss Martena escaped uninjured.

Archdeacon C. O. Carson In Critical Condition

At one o'clock this morning authorities at Cornwall General Hospital reported as very critical the condition of Rev. C. O. Carson, of Morrisburg. Archdeacon Carson has become gradually weakened during the past few hours. He suffered a severe concussion of the brain in a motor accident at Morrisburg ten days ago and has been conscious for but a few minutes since that time.

After Attending Funeral Killed on Way Home

Bringing the toll of violent deaths in one Ottawa district family circle to five within four days, two women, cousins of Aldyth and Caroline Davis, of Carp, Ont., and Elmer Davis, Dunrobin, victims of the triple drowning accident on the Gatineau at Low, Que., on Sunday, were instantly killed in an automobile accident near Napanee Tuesday night as they were driving to their homes in Toronto from the funerals of their relatives.

The husbands of the two Toronto women were seriously injured and the son of one of the couples also sistained injuries.

The accident in which they lost their lives and three other members of their party were injured, occurred near Sharps Corners, about seven miles east of Napanee on Highway No. 2.

The Toronto people were driving west along a roadway made slippery by a light rain which was falling at the time. The car left the new pavement on the highway and had travelled a short distance along an old section of the road when the accident occurred.

The vehicle suddenly swerved, ran into a ditch on the right of the road, and swung with considerable force against a hydro pole. Before it could be brought to a stop the car had careened more than 200 feet along the ditch, collided with a culvert, and recrossed the road to land in a ditch on the left of the highway.

Beaver Dams Flooding Land Near Brockville

Brockville, Aug. 14.—Unmistakable evidence that a colony of beavers is at work within two and one-half miles of Brockville was revealed when Fish and Game Inspector Baker of Cornwall carried out an investigation in drowned lands near Rows Corners. He discovered no fewer than six dams built by beavers across a wide ditch that had been built for drainage purposes. The animals have done some damage to adjoining gardens through the flooding following their operations, and Inspector Baker is now engaged in a search for their living quarters. Should it be found that they are doing extensive damage, they will be trapped alive and removed to the experimental fur farm maintained by the province.

OLD MYTH TELLING OF ANIMALS' THEFT OF FIRE

THIS MYTH goes back for its beginning to a time when there were na people in the world. Animals and trees walked about just as men do now. But there were galling monotonies even in those days. Pine trees had all the fire there was. The animals stood it as best they could, until one long, cold winter when they almost froze to death. Then they called a council and planned to steal fire from the pines.

Word came of a council of pine trees on the banks of the Grande Ronde river, where they had built a great fire to warm themselves. So a beaver swam over there and hid under the bank where the guards could not see him. After a long time a live coal left the fire and rolled down the bank, where it was caught by the beaver who hid it in his breast. Then there was a merry chase. The beaver ran very fast, dodging this way and that. Pine trees nearly caught him. Finally the larger and older trees grew tired and stopped on the river banks, where they are so thick that even now it is difficult to find a way through them. But a few pine trees, more agile than the rest, kept on, and finally when the beaver was hard pressed he swam across the river and gave fire to the willows and the birches. That is why fire can be got from these woods by rubbing sticks together.—Exchange.

Sudden Heat Puzzles Weathermen of West

Winnipeg's meterological experts are still puzzling over an atmospheric freak which on Sunday, July 29th, sent the thermometer 12 degrees up in as many minutes.

The temperature rested around 80 degrees when a strong wind blew up from the southwest. Suddenly the wind reversed directions and blew in from the north, accompanied by a terrific heat wave. The temperature shot upward a degree a minute for a dozen minutes.

Pony Given to Boy or Girl At Ottawa Exhibition

Five Valuable Prizes for Those Who Can Estimate Number of Peas in Glass Jar. Many Stellar Features to Attract Visitors.

Five boys or girls who attend the Ottawa Exhibition from August 24th to 29th will receive valuable prizes. The happiest of all will be the fortunate one who will became the owner of Sonny Boy, a valuable pony donated by Hon. M. J. O'Brien, of Renfrew. Other prizes will include two registered lambs, by the Ottawa Farm Journal; registered bacon type sow, by Alex Dynes; C. C. M. bicycle, by Byshe and Co., and a registered Jersey calf, by Beach Company Ltd.

All boys and girls under fourteen years of age will be eligible to enter the contest for the pony and other prizes. On entering the admission gate each child will receive a coupon on which to write the estimates of the number of peas in a sealed glass jar which will be on exhibition in a marquee on the grounds. The peas will be placed in the jar by Arthur A. Crawley and Co., aduitors, and the jar then will be sealed. The peas will not be counted until the close of the contest.

As each estimate is put in, the ticket will be stamped by a time clock. The tickets for each day will be kept separate until the close of the contest on Friday noon of exhibition week. Then from each day's tickets will be selected the first correct estimate or nearest correct estimate received. The five persons who put in the estimate will be asked to draw from a hat at 4.30 on the Friday afternoon. The person selected through the Monday drawing will have first drawing and may be lucky enough to pick out the ticket for the pony. The person from the Tuesday competitors will have second choice, and so on. One person will not be entitled to receive two prizes.

The above are special prizes for the little folk, but all, young and old, who attend the exhibition this year are sure to be winners. The directors state that this year the Ottawa exhibition will eclipse all previous efforts and that is saying a great deal. An outstanding attraction will be Cavallo and his band of 58 artists on their first visit to the Capital. This is the most expensive and notable band ever booked for the exhibition.

The big music and dance revue, The Sensations of 1931, with a cast mainly of girls, will be the stellar event in front of the grandstand. This will be a production such as one sees in Broadway playhouses and will be the most elaborate and spectacular event ever presented at the exhibition.

Live buffalo, gold and tropical fish, poultry and pets ,live stock, live fish, wild animals and birds from the Ontario government; a new midway, automobile show, pure food show, dog show, balloon ascensions and thrilling parachute drops ,horses, sports, and scores of other factors make the Ottawa exhibition for 1931 just too good to be missed without storing up grounds for regret.

Prepares at 80 To Enjoy Own Funeral

Carbondale, Ill.—S. R. Patton, 80, hopes to enjoy his own funeral, which will be held at Valier, Ill., August 30, unless rain forces its postponement.

"I'm just curious as to what takes place at one's own funeral," said Patton. "I expect to enjoy all the nice things the preachers will say about me and to inhale the fragrance of the flowers my friends will bring."

Patton has engaged four ministers to give funeral orations. He has hired a choir to sing hymns of praise. And he has bought a casket to be lowered, corpseless, into the grave.

"And then," said Patton, "I shall go home to await my death, which probably won't be long forthcoming. But when I die, there will be no funeral orations, no mourning and no flowers. All of that will be taken care of on August 30th, if it doesn't rain."

VITAMINS

WHATEVER is new, naturally attracts a great deal of attention and that is one reason why you read and hear so much about vitamins. That is not, however, the reason for this article. It is because vitamins are of importance to the health and well-being of each and everyone of us that it is necessary for our own good that we be informed concerning them.

For many years it has been known that our foods contain fats, proteins, carbohydrates and minerals. It was generally understood that the value of a diet depended entirely upon the quantity and quality of these ingredients. These substances are just as important as they were, and if our bodies are to be kept well nourished they must receive a sufficient supply of them.

During recent years, however, it has been discovered that there is something else needed to complete the diet. There are other constituents of foods which must also be present in sufficient quantity if the body is to be kept strong and healthy. These newer substances are called vitamins.

From all that is written about vitamins, it might be supposed that a great deal is known about them, whereas the truth is that we know comparatively little. What we do know is not only interesting but it is sufficient to make it perfectly clear that the growth of the body and the keeping of the body in a state of health demand vitamins.

There are several different vitamins. If they are not present in the food consumed then such diseases as scurvy and rickets develop. They are called deficiency diseases as thev occur when the diet is deficient in vitamins. If the vitamins are only partially lacking, while the deficiency diseases occur, proper growth and development do not take place; the body is not healthy and it more readily falls a victim to infection.

The vitamins are present in many foods, but in varying amounts. The average person can rely upon milk and dairy products, eggs, green, leafy vegetables, fresh fruits, tomatoes (raw or canned), and whole grain cereals to supply him with all the vegetables he requires.

A sufficiency of vitamins is a matter of real importance. It is fortunate that, if the mentioned foods are used regularly and freely in the diet, one does not need to worry about the question of vitamins.

From what has been said, it is evident that the person who lives chiefly on sweets and starchy foods is almost sure to suffer. Thi does not mean that sweets and starches are harmful—indeed they are not. They should be used, but not to the exclusion of other foods. Eat a wide variety of foods is safe advice to follow.

Questions concerning Health, addressed to the Canadian Medical Association, 14 College Street, Toronto, will be answered personally by letter.

HAS IT HAPPENED TO YOU ? by P.C.1

WHENEVER I see the driver of an automobile beat a railway train to a crossing by a few feet, I can't help thinking of the pitcher that went to the well once too often . . . and broke.

If I could talk for just five minutes to every driver of a motor car I don't believe there would ever be another railway crossing accident.

Gee! the things I've seen when drivers tried to beat trains have cost me many a sleepless night.

Take my word for it, there are enough unavoidable perils attached to driving a car without tempting Providence where the railway and highway meet.

Well, I'll be seeing you.

Betty: "Do you know, Kenneth kissed me twice last night before I could stop him."

Peggy: "Good gracious! What cheek!"

Betty: "Both."

ARE YOU GOING TO DRIVE YOUR AUTOMOBILE WITHOUT PROTECTION ?

The Highways Traffic Amendment Act of 1930 effective Sept. 1st, places a very heavy responsibility on the owner of a car.

Protect yourself for small cost and be safe, Rates and particulars gladly furnished on request.

IN MEMORIAM

Colquhoun—In memory of our darling, Una Colquhoun, who fell asleep Sunday morning, August 24th, 1930.

She is not dead, this child of affection,
But gone unto that school
That does not need our poor protection
And God Himself doth rule.
Day after day we think what she is doing
In those bright realms of air,
Year after year her tender step pursuing
Behold her grown more fair.

Hospital days were lonely. Of course, her friends did all they could to keep her cheerful — her room was a bower of roses — but how she looked forward to evening when Jack could sit by her and talk of his day at the office.

Then came the news that he must leave town on business. She wondered how she could stand the wait until he came home. But Jack, wise fellow, knew how to bridge the gap. Promptly each evening at nine he called her over Long Distance and told her all the things she wished to hear.

Extravagant? . . . not a bit . . . for night rates are always inexpensive! What could be worth more for what it cost?

Counties' Council Discusses Assessment Equalization

Equalization of assessments was thoroughly and lengthily discussed and the entire Saturday session was taken up on the discussion of that matter. As a result of the meeting on Friday of a committee, a report of the equalization of assessments as based on the valuators' reports, was placed in the hands of the members of the Council on Saturday morning.

Mr. Rene A. Danis was the first to take the floor on Saturday morning and stated that as the chairman had said on Friday that no definite proposal or proposition was made to the equalization committee, sitting in committee, and with that end in view a committee was formed on Friday afternoon to go into the equalization of assessment. "Some of the members on the committee were not representatives of the Council," Mr. Danis declared, "but they only did the clerical work and the propositions were put forth by legal and qualified members of theCouncil. The committee has prepared a proposal which was laid down and according to the valuators' report and the equalized assessment in rural municipalities this year has been reduced and the urban muicipalities increased in many of the cases.

"No doubt that the proposed equalization of assessment that you have before you will not meet with the approval of every member of this Counties' Council in the same way as the report of the valuators' did not meet with the approval of every member, but the committee has proceeded on the principles with which the valuators made their assessment.

"If the proposed report is not accepted some litigation will ensue. It is impossible to satisfy everyone and I think we should adopt the proposed report brought in this morning." Mr. Danis then moved that the report of the valuators, as submitted, be amended and the report of the committee of Friday be submitted in its place.

Mr. D .A. McIntosh seconded the motion and referred to the noticeable reduction in the assessment of Finch village and the glaring difference of Lancaster. "We went to Lancaster yesterday," he stated, "and after looking the village over agreed that there was a difference and that is why the reduction in assessment is so noticeable on that village."

Mr. W. H. Casselman, Reeve of Chesterville, referred to the action that had been taken and how the proposed schedule of equalization had been arrived at. "On Monday evening certain schedules were placed in the hands of the members, the results of the labours of the valuators. Perhaps there were some who could not correctly interpret the reports and some who wouldn't. However, we had to dig up information ourselves, which, I think, should be given us voluntarily at the start.

"The first of the week I asked for the valuation of properties in my own muncipality, because I felt that all members should have a copy of the valuation of properties in their municipality. It was pointed out that it would mean a great deal of clerical work, but I thought it was necessary and on Tuesday I received statements of the valuations of property in each municipality.

"From my copy, it occurred to me that a clearer view could be given the members if the increase were worked out in per cent form. I did that and when it was presented to the members, they were in a position to gain, at a glance, a bird's-eye view of the whole situation. It showed startling differences and I felt that in justice to myself, I ought to know exactly why the outstanding percentages appear in the report. I made up my mind that to justify the schedule offered by the valuators further investigation should be made and I asked for an adjournment for one month and it was refused and we were given one day.

"One member came to me and I couldn't make out whether it was in anger or excitement. The request was made, 'Why did we not submit a definite schedule as a compromised schedule if we were not satisfied?' That is what took place in this building yesterdy. Gentlemen, we would be fools to stand here and tell you we are offering for your consideration a compromised schedule within such a short time as we had to make the present schedule out.

"I agree with the principle the valuators apparently had in mind in presenting their report. Their principle, I believe, was that if disaster was to be diverted in this country, a reduction had to be made in taxes on agricultural land."

Mr. Glenn A. Shaver, a valuator—"There was no principle of that kind in our work."

Mr. Casselman answered by saying that he had said apparently this was their principle. "I sumbit," he continued, "that it is evident that that principle is in this report. I'll go this far in saying that if that principle is not the basis on which this report was made, it ought to have been. Whether this principle was intentionally followed or not, it is apparent that it was, but it has not been followed out consistently in the report which we had. In the few hours at our disposal, we undertook to change the report and reconcile the inconsistencies by dividing the percentages up.

"Let's try and arrive at something that will satisfy us and create the very least friction," Mr. Casselman declared. "It is my absolute belief that if the schedule offered by the valuators report is accepted, it will be appealed and it will cost someone money in the courts."

Mr. Ed. Strader, reeve of Iroquois, stated that he remarked in committee that the committee was a court of revision and he still adhered to that.

"My business has given me a good idea of the value of buildings and property," he declared, "and yesterday I went to Lancaster and in my own blunt way, I put down what I considered as a fair valuation of the properties and later on found that comparatives values were not considered. "At a meeting of the Iroquois Council I was authorized that if no compromise could be effected, I would appeal to the judge, but I hope no action will be necessary. If you ever had the privilege of viewing the properties in Lancaster and Iroquois, you would be of the opinion that a compromise should be effected."

Mr. McLachlan thought that the committee should have gone to every municipality and not just Lancaster.

Mr. McLachlan: "It isn't fair to go to Lancaster and make the assertion that the assessment of Lancaster is out of a glaring line. I feel that the valuators went out with no other intention than of following the Act and that is the way they did it. To declare that something is wrong with the assessment of Lancaster is not fair."

Mr. J. H. Ross referred to the abilities of Mr. Crowder and Mr. Shaver as valuators and did not think that any better could have been had.

With regard to the report, Mr. Ross stated that a month was asked for so that the committee could work out an amendment to the valuators' report, but only one day was given. "In order that we might do this in the time allotted we had to work hard. We had the idea of the report all figured out, but wanted men to assist us in the clerical work.

"There are two cases where a radical change has been made. In Osnabruck the decrease is 32.75 per cent and as compared with other townships it is very large and apparently, on the face of it, very unfair. You put the several villages of Osnabruck together and you would have a village larger than Winchester and yet they have a decrease of 32.75 per cent. We felt that this was not treating the other municipalities fair.

"We took the last equalized assessment and found that Lancaster Village was assessed for $200,851 and it was not protested. Finch was assessed for $150,228. The valuators come along and report Finch up to $232,896 and lower Lancaster to $164,648. I want you to remember that Finch has suffered much in fires during the past three years and Finch has only a population of 350 against Lancaster's 570. The population is considerable more and their buildings, as I am told, are far superior to those in Finch. Then why this discrimiation between the two? In considering this as fair-minded men, we thought it was unfair and placed Lancaster back to last year's equalized assessment and took the difference off Finch.

"This compromised report is a fair one. No townships will suffer by this amendment and by accepting it we will avoid litigations, appeals to the judge and hard feelings. As fair-minded men and men who want to do the fair and just thing, you will accept this amendment."

Warden Munro highly eulogized the ability of the valuators and referred to the municipality of Maxville, which, he stated, "Is in a unique position. The 1923 valuation should have been brought in by the valuators. At that time our municipality was burned out as a whole, but new buildings were erected and the valuators reviewed our town in the light of a new town and placed a total value of $548,000. This year the valuators value it at more than that, but yesterday's committee reduced it to $394,865, and I am willing to support yesterday's motion, because it is nearer to what the judge might set it."

Mr. Glenn A. Shaver, Reeve of the Township of Osnabruck, stated that although a decrease had been given the Township of Osnabruck, it was justified because the assessment of township had always been out of line. "I always felt we were out of line and was glad to have valuators appointed."

Mr. A. W. McIntyre, Deputy Reeve of Finch Township, thought that the assessment of Finch Township should be reduced. "In Osnabruck there is a portion where farmers reap a wonderful benefit from tourists, but in Finch we get no tourists at all. An acre of land on the Provincial Highway might return a great deal of profit against a whole farm in Finch Township," he declared. "I don't think the difference is justified."

Mr. J. E. Crowder, one of the valuators, said that he was opposed to having valuators, but happened to be appointed as one and he had done his work to the best of his ability. "We started in the Township of Mountain," he declared, "and our valuations were based directly on the value of the properties and I think our report is 100 per cent correct."

Mr. Beckstead asked for the Winchester village valuations and they were read by Mr. Crowder.

Mr. Crowder believes his report to be 100 per cent correct," Warden Munro declared, "but I think the compromise feautres of this latest amendment are more useful. There is leeway for mistakes in the valuators' report, but the compromise is a little more equitable."

Council then adjourned for lunch and upon resuming Mr. Ross took the floor. "Mr. Crowder has reviewed the valuations of Winchester," he stated, "and according to a statement made before he sat down, he believes his statement to be 100 per cent correct. I compliment him on his opinion, but I don't think anyone is 100 per cent perfect. I am prepared to bring a number of persons here whose property is over-valued and they will sell for less." Mr. Ross told of a number of properties that would be sold for less than they were valued at and then declared: "It does not look after all as if that 100 per cent was the right thing for Mr. Crowder to say.

"You are here a body of men, the majority of you from the rural sections. You have been favoured by the valuators. The urban dwellers have not. Now you will go back to your municipalities saying that you have put one over on the urban muicipalities if this report goes though. Is it fair? Is it square? The urban municipalities have not had a square deal."

Mr. Crowder declared, in defence, that there was very little difference in the sale value and the valuation they had placed on the properties and on the average it was quite equal. "We did not take any man's word for how much his property was worth," Mr. Crowder stated, "but we got the deeds from the Registry Office."

Mr. Ross: "Mr. Crowder has said that he was born in the Township of Mountain and knew the properties. I've been a resident of Winchester for seventeen years, which is long enough to know something about the properties in Winrhester."

Mr. Ed. Foster, Reeve of Morrisburg, told of the valuations placed on Morrisburg. In his opinion the valuators weren't 100 per cent perfect, but they did the best they could. Morrisburg's valuation is too high and I believe a good many here are of the same opinion. How are we going to get this thing untangled? Neither reports are satisfactory and I wouldn't like to see any strife between the urban and the rural municipalities."

Mr. J. A. Morrison, Reeve of Roxborough Township, thought it was unfair of Mr. Ross to state that they from the rural municipalities would go home boasting of how they had put it over the urban municipalities.

Mr. J. D. McDonald, Reeve of Lancaster Township, was sorry to think that any member of the Council was of the opnion that the rural representatives would go home and boast of putting something over the urban representatives. "We are all fair here," he declared.

On motion of Messrs. J. A. Morrison and R. A. McLeod, the representatives of municipalities whose assessment had been increased in the revised schedule returned by the committee should be allowed to meet for fifteen minutes in order to reach a settlement if possible. This was granted.

On resuming the session, Messrs. J. R. McLachlan and J. E. Crowder moved that the report of the equalization of assessment committee, based on the valuators' report, be amended reducing the assessment of Iroquois from $600,988 to $596,694. This was carried.

Mr. W. H. Casselman said he was sure every member of the Council would sympathize with Finch, but thought the Reeve of Finch should know that there must be some readjustment to make the total equalization of assessment the same as required. He added that if a change was necessary in the Finch assessment, he would be quite satisfied to have a little bit added to Chesterville

Mr. Ross: "If you are going to trade I would like to have a reduction for Winchester."

The main motion that the report of the Equalization Committee be accepted, was put to the committee of the whole on motion of Messrs. M. A. Clark and Thomas Johnston. The motion was carried by a vote of 22 against 12.

An amendment for a reduction of $75,000 in the Morrisburg assessment by Messrs. Foster and Strader was defeated by 23 to 11.

An amendment that the assessment of Finch be reduced from $232,986 to $200.704, moved by Messrs. D. A. McIntosh and A. W. McIntyre, was defeated by 22 against 13.

The amendment for the reduction of $2,270 in the Lochiel assessment, moved by Messrs. McCrimmon and Irvine, was defeated, there being 11 for and 23 against.

Mr. R. A. Danis stated that if the members thought they were doing justice, they should at least temper justice with a little mercy. Mr. Danis and Mr. W. H. Gallinger moved an amendment that Cornwall's assessment be reduced by $500,000 but it was defeated by 11 votes against 23.

Mr. Gallinger complained of the valuators, in some cases, valuating property in Cornwall for twice as much as it was worth.

Moved by Messrs. Casselman and Ross that the report of the Equalization Committee be not adopted in Council but be amended, reducing Chesterville's assessment from $625,146 to $578,261. This was voted on and there were 11 for and 23 against.

Moved by Mr. Ross and Mr. Casselman that the assessment of Winchester be reduced from $621,271 to $574,656. This also was defeated by 11 votes for and 23 against.

It was then moved by Messrs. J. D. McDonald and R. A. McLeod that the report of the Equalization Committee, based on the valuators' report, as adopted in committee and amended, be adopted in Council. The vote was taken and there were 23 for and 12 against.

By-Law 2376, to equalize the assessment for the current year was then given the necessary readings and passed.

On motion of Messrs. Shaver and McDonald, the following resolution was passed:—"In the event of an appeal of any dissatisfied municipality from the Equalization of Assessment as fixed by By-Law 2376, the Council is willing that such appeal be heard, determined and disposed of by the County Judge and that the final Equalization of Assessment be made by him and that the interests of these Counties in any such appeal be looked after by the County Solicitor and such other legal talent as may be arranged for by the Warden and the Chairman of the Equalization Committee."

A certain well-known bishop tells many amusing stories of his work among the Indians. On one occasion he was visiting a tribe, and it was arranged that after dinner he and one of the chiefs were to go for a long ride. "Will it be safe for me to leave my luggage here?" he asked before he started. "Yes," replied the chief. "There is not a white man within forty miles."

Second Annual Gathering of the Schwerdfeger Family

Contributed

THE second annual gathering of the Schwerdfeger family was held on Monday, August 3rd, on the farm of Simon Schwerdfeger, Williamsburg. About 350 of the "clan" were present with baskets of good things to eat.

Everybody enjoyed the sports and a splendid programme was given in the afternoon with Mr. Earl Scrivens, of Montreal, acting as chairman. The programme consisted of a talk by Rev. W. A. Merlenbacher, of Williamsburg, musical selections by the Smith family, and the Schwerdfeger quartette; a reading by Miss Margaret Wells, of Montreal. Little Miss Peggy Fraser, of Ottawa, entertained the crowd by dancing the Irish, Dutch and sword dances, accompanied by music from the bagpipes, played by W. Brand, of Ottawa.

Mrs. Wilfred Schwerdfeger, Williamsburg, composed and recited the following poem, giving a complete history of the Schwerdfeger family.

The Schwerdfegers

Kind friends and relatives,—
The story I'm about to relate to you
It may be old or it may be new,
But all of it is going to be true
So come with me to Germany
Date your correspondence 1798
And hurry along or we'll be late.

In the beautiful valley of the Rhine
Dwelt the prosperous farmers of the Palatine.
King Louis XIV of France
Longed for this province, so took his chance;
Soon the countryside reeked with war,
The refugees streamed over Europe galore.

In vain they looked all over for aid,
At last in England provision was made
To house these exiles until they
Could make new homes for themselves some day.
William of Orange, and good Queen Anne,
The Duke of Marlborough and Sunderland.

And many noble Englishmen opened their doors
Till fifteen thousand flocked to their shores.
Glad for the welcome they received.
Glad for the hope, for they believed
They'd be sent to America soon—
This to them was a wonderful boon.

'Twas a great puzzle to know what to do!
It put the English in an awful stew.
Soon the tangle began to unravel
The Palatines then began to travel.
Clever artisan soon found work,
Ireland absorbed a few, death claimed some, too.

But America got the greatest share,
New friends sprang up everywhere.
The story of the settlement is too long to be told.
How they suffered from Indians, hunger and cold.
What these Germans were like after four migrations
I'll have to leave to your imaginations.

We've travelled to Germany, England and France
And back to Germany again perchance,
To Cobourg in Saxony, where our noble parent
Was educated and received a call
To minister to the spiritual needs of all,
The Palatines on the Mohawk Trail.

These hardy Germans had been through the mill
But were called on again to toil up the hill,
Minister Schwerdtfeger must needs come too,
For to Standards of right he would be true.
They could never forget the good Queen Anne
So they stayed by England to a man.

When the Americans declared their independence
Upon these they turned with wrath and vengeance.
Many left their homes on the Mohawk Trail
And migrated to Canada, or were cast in jail.
The minister and his family were among the latter,
Even his sacred office seemed not to matter.

The Palatines to Dundas came
And worshipped God just the same
As they had for a hundred years before.
In 1789 they built a church on the northern shore
Of the beautiful old St. Lawrence River and
'Tis famous now as the first Protestant Church in Upper Canada.

The Germans called their first pastor
The Reverend Samuel Schwerdtfeger.
He glady accepted it, for it opened the way
To a peaceful home where he could stay.
You can picture their coming—the oxen team,
Covered wagon, wife, daughter, seven sons. To us 'twould seem

A terrible sacrifice to make;
Leaving all behind and their homes forsake.
But loyal blood coursed in their veins
And true hearts beat free from strains!
Thus the foundations of homes were laid,
With principle true that will never fade.

And now we come to the family tree
Which takes in all of these people here you see.
Right proud are we of a parent so true,
As God blessed him so He'll bless me and you
If we stand by the right and obedient be
To all that stands for liberty.

Our great family we stand together
Shoulder to shoulder in all kinds of weather;
Ready to live or ready to die
For freedom, right and a home on high.
Father Schwerdtfeger set the pace
So we must not fail in the wonderful race.
For our very name—if spelled right,
Gives us a challenge, a call to fight.
"Schwerdt" means "sword' when translated, you see,
"Feger," one who handles it skilfully.
So Schwerdtfegers were soldiers some time ago,
Another fact to be proud of, you know.

This very land where we stand today
Belonged to the minister, so they say;
This dear old house, the barn and the shed
Sheltered our loved ones in very good stead.
'Twas then the German language was spoke
And they did all they could for the poorer folk.

And on and on we could tell the tale
Of mother and fathers and sweet little folk
Who lived and loved in this very yard
But have passed beyond where the angels guard.
But we are here to play the game
And leave behind a goodly name.

The "clan" was organized into a society with the following officers: President—Mr. Alonzo Schwerdfeger, Osgoode; Vice President—Mr. A. P. Wilson, Osgoode; Secretary — Miss Eva Schwerdfeger, Morewood; Treasurer, Mr. Norman Schwerdfeger, Ottawa; District Representatives—Osgoode, Mrs. A. P. Kilson; Ottawa, Mrs. William Scrivens; Morewood, Mrs. Allen Schwerdfeger; U. S. A., Mrs. Margaret Taylor.

Mrs Thomas Shore, of Ottawa, donated a cake which was beautifully decorated and on which was the following inscription: "In memory of Rev. Samuel Schwerdfeger, Inducted 1790, Died 1803."

The following letter of greetings was sent from a number of the "clan" assembling in Stanley Park, Vancouver, to be read at the picnic:

"Dear Aunts, Uncles Nephews, Nieces, Cousins, etc.—As we, the undersigned, are unable to be with you at the annual assembly of the "clan," we extend to you our heartiest greetings and best wishes and hope you may have a pleasant time together. We cannot express how much we desire to be with you on this happy occasion, but take this way of expressing our good will and friendship and hope, D. V., that we may be with you at some future date in happy re-union.

"Signed on behalf of the Western members of the 'clan.'

"T. H. Wilson, Chilliwack, B. C."

A Londoner met the oldest inhabitant of a small village and asked him how old he was.

"Oi be seven and four score, sir," replied the rustic.

"Why do you put the seven before the four score?" asked the visitor.

"Because I was seven before I was four score, sir," was the innocent reply."

"Most blacksmiths are very honest,' says a writer. Yet they are always forging.

PRESERVE THEM NOW

By Etta Bitta Pye

NOW is the time to put away for winter use many delicious tomato dainties. Tomatoes are filled with vitamins and the sugar used is a quick-energy fuel that will be greatly appreciated during the cold weather that is to come. Try these two unusual recipes:

Tomato Chutney

2 dozen ripe tomatoes, medium size, chopped
6 onions, medium size, chopped
3 red peppers, seeded and chopped
1 dozen tart apples, peeled and chopped
1 dozen seedless raisins
1 cup celery, cut fine
2 quarts vinegar
3 cups sugar
salt
1 teaspoon each cinnamon, nutmeg and cloves

Combine the ingredients, and cook in a preserving kettle until the chutney is thick and clear. Stir frequently to prevent burning. Pour into hot, sterilized jars and seal.

Tomato-Raisin Conserve

2 quarts fresh, ripe tomatoes
4 sour apples, peeled, cored, cubed
3 lemons, cubed
2 pounds sugar
6 sticks cinnamon
1 small piece of mace
(tie spices in cheese cloth bag)

Boil all ingredients ,except sugar, until a thick mass is obtained. Add sugar slowly and boil about 15 minutes or until jelly stage is reached, which is when the mass sheets from the side of the spoon. One cup of nut meats may be added to this just before removing from the fire. Pour into glasses and seal.

THE SPEED THAT KILLS

THE Essex County Automobile Club is the latest motorists' organization to advocate the abolition of the 35-mile speed limit on Ontario highways, the argument employed being that with motorists permitted to go the limit of their cars accidents would decrease. As most of the road tragedies are due to furious driving, the Essex County Club's petition is not likely to be received with favour. It is not long since Premier Henry warned the motorists of the province that if they did not curb their inclination to speed at dangerous rates, the Government would be compelled to place governors on all motors, thus keeping the cars within regulation speed.

Doukhobor Undress

Between 20,000 and 30,000 more Doukhobors would settle in Canada. Maybe they've seen pictures of the bathing suits we're wearing over here.

with an Automobile Insurance Policy to protect you against the hazards of Fire, Theft, Collision, Property Damage and Public Liability.

Every Automobile Owner in Ontario should know about the new Financial Responsibility Law effective since September 1st. The new law makes necessary the abi lity to pay for damage.

In its general application, it requires that the motorist responsible for damage to person or property of others MUST PAY either personally or through insurance OR BE BARRED FROM THE ROAD.

The sensible thing to do is to carry Automobile Liability and Property Damage Insurance. It is better to have this insurance and not need it, than to need it and not have it.
