SERVICE, to Us IMPLIES MUCH

Among the things that characterize our service are personal attention to every detail of the funeral arrangement, and little acts of thoughtfulness that serve to lessen the trying strain of the hours before and during the funeral. Quiet efficiency and smoothness are the result. That, we believe, is the kind of service that wins approval.

Calls to hospitals given prompt service.

HENRY'S Shorthand School Ottawa, Ont.

No School in Canada offers a better training, or ensures a more successful future. Henry's leads all others, and ranks among employers as "THE SCHOOL OF HIGHER EFFICIENCY"—a fact borne out by more than 600 pupils who have, since January, 1913, left other Ottawa schools to come to it.

Therefore, it is not surprising that business men, in advertising for stenographers, should specially say, "Graduates of Henry's School preferred."

For particulars about our course, apply to:

RENNY PAUL KILLED BY TRAIN

Yesterday afternoon stortly after the dinner hour while working with an extra gang on the C. P. R. at Vaudreuil, Renny Paul, son of Mrs. Moise Belanger of this place, was struck by the engine of train No. 37, the fast Montreal-Toronto express and received such injuries that his death followed in a very short time. An inquest is being held today at Vaudreuil by Coroner McMahon of Montreal, and it is expected the remains will arrive here tonight. The young man's father Napoleon Paul, who was a member of the 154th Battalion, lost his life in the battle of Paschendael.

JACKSON B. DICKEY

Word has been received here of the death of Jackson B. Dickey, which occurred at Hampden, Mass., after but one day's illness. He was a son of the late William Dickey of Dunbar, and spent his boyhood days there, going when a young man to the Western States, where he spent a number of years, later going to the New England States, finally settling in Hampden, where he has lived for the past 18 years. Deceased was unmarried and was in his 76th year. Two brothers survive, Samuel Dickey of Dunbar, and Nathaniel Dickey of Morrisburg.

THANK-OFFERING SERVICE LARGELY ATTENDED

The annual Easter Thank-Offering service of the Women's Missionary Society of the United church held Sunday evening attracted a large audience to hear an address by Mrs. W. H. Henderson, president of the Montreal-Ottawa branch of the society. Mrs. Henderson is a very pleasant speaker and gave a most interesting account of the activities of the society across Canada from coast to coast, and particularly among the new settlers on the prairies from European countries. The work done by the society is evidently making gratifying headway and will reach still further when the rank and file of church membership fully realizes the responsibility that the work is their work and supplies more liberally the sinues of war to carry it forward. The offering amounted to more than seventy dollars.

Appropriate music was rendered by the choir. Mrs. Houlehan contributed a reading. Miss Elsie Hewitt gave a recitation on the theme of giving, which with a selection by the male quartette Messrs. Hutt, Forward, King and Bolster, and a pantomime in which seven young ladies took part while Mrs. George Merkley sang the solo, rounded out a most pleasing program.

PRESENTATION AT MOREWOOD

On the evening of April 11th, forty-five of the friends and neighbors of Mrs. Minnie Elliott met at her home, Mrs. Elliott having sold her farm will leave shortly to take up residence elsewhere.

After spending a social hour together lunch was served, when Mrs. Elliott was asked to come forward. An address was read by Mrs. Robt. Rainey and a beautiful white gold wrist watch was presented by Mrs. Benson Hutchinson.

Miss Susie replied in a few well-chosen words on behalf of her mother thanking the gathering for their gift, also voicing their appreciation of all the kindnesses shown them in other ways.

Before dispersing, all joined in singing "Auld Lang Syne."

Following is the address:

Morewood, April 11th, 1928.

Dear Mrs. Elliott,—

It was with much regret that we, your friends and neighbors, learned of your departure from among us, and we avail ourselves of this opportunity of gathering here this evening not to say farewell, as we expect to see you often, but to spend a pleasant hour or two with you, and to extend to you our best wishes for your future welfare.

You have lived in this district for many years and during all that time we have ever found you a good neighbor and true friend, going your way quietly you were always ready to assist in anything for the betterment of the community.

You have endeared yourself to us by your kindly manner and genial hospitality, being ever ready to open your home for the pleasure of your friends.

Your neighbors, always sure of a hearty welcome, loved to visit you, and if need be, to help you.

As you go from us we hope and pray that you may yet enjoy many years of good health, prosperity and the richest of Divine Blessings.

Will you please accept this wrist watch as a gift, not for its mere value, but as a token of the esteem in which you are held, and when you look upon it may it not only tell you the time of day, but also remind you of the happy years you spent among the friends and neighbors of this community.

May God bless you and keep you.

Signed on behalf of those present: Mrs. Benson Hutchinson, Mrs. Donald McLeod.

MONEY SHOWER AND TEA AT MOREWOOD

A very successful tea, money shower and candy sale was held on Friday afternoon by the Crusaders Mission Band of the Morewood Presbyterian church at the home of Mrs. Wm. Gordon.

The tea tables, which were prettily decorated with cut flowers and Easter bunnies, were presided over by Mrs. Warren Feeley and Mrs. Hazel Countryman. They were assisted in serving by the older members of the Band.

Mrs. Robt. Rainey and Mrs. Allan Smirle were in charge of the money donations which were very generous.

The success of the afternoon was largely due to the efforts of the Hon. Pres., Mrs. T. E. Coulthart, and to Mrs. Wm. Gordon and Miss Dorothy Gordon who so kindly opened their home for the occasion.

GIRL GUIDES' BIRTHDAY TEA

A very enjoyable evening was spent by those who attended, at the Public Library on Tuesday evening, the Birthday Tea arranged by the Marguerite Patrol of the local company of Girl Guides. Over a hundred guests were entertained during the evening, all of whom were delighted with the splendid manner in which the girls conducted the function. The admission fee was on the basis of one cent per year of age, with a special price to those of over forty. To avoid any embarrassing revelations for those whose age is a secret the guides had very adroitly placed small, daintily-made baskets on each of the twelve tables, into which the bashful ones slipped the tell-tale amount when no one was looking.

The tables themselves, representing the months of the year, were very bautifully arranged with decorations appropriate to the season. January table was centered with a snowman, decorated with tinsel and standing in a miniature snow drift. February showed appropriate Valentine decorations, while for March, St. Patrick and Irish emblems were conspicuous. April table featured a pond with pussy willows and frogs, as well as Easter eggs, while May was centred with the Maypole. June, the month of roses, was so adorned, while July with its flags, etc., recalled the patriotic associations of that month. August and September, the harvest months, were "filled to bursting" with neat little sheaves of grain, sprinklings of corn, wheat, etc., and maple leaves and fruit. October looked weird with its Hallowe'en recollections while November table had a squirrel and his winter food of nuts. December completed the year with a beautifully decorated Christmas tree.

Dainty refreshments were served by the "Marguerites" all of whom appeared in uniform. During the evening the following enjoyable program was presented:

Patrol choruses—"O, Canada," and "We're All Good Friends Together."
Piano solo—Marjorie Lynch.
Vocal Duet—Jean Flynn and Elsie Hewit.
Recitation—Margaret Farmer.
Vocal solo—Jean Flynn.
Recitation—"Home," Elsie Hewitt.
Piano solo—Marjorie Lynch.
Vocal Duet—Marjorie Lynch, Jean Flynn, with Frances McAvoy banjo accompanist.

The Young People's Orchestra, consisting of Rae Dixon and Cecil Gillissie, saxaphones; Madge Campderros, Nancy Gilbert and Bill Tate, violins; Eric McMilan, traps, and Marcia Hughes, piano, rendered excellent music during the evening.

The members of the Marguerite Patrol include Elsie Hewitt, P.L., Jean Fulton, Asst.; Frances McAvoy, Marjorie Lynch, Jean Flynn, Pearl McMillan, Margaret Farmer, and Evelyn Farmer.

The ladies who assisted the girls are Mesdames A. E. Bolster, Jas. McAvoy, P. Flynn, together with Mrs. George Merkley, Lieut., and Miss Leila McGee, Capt., of the Guides.

The proceeds of the evening go towards the Company's Camp Fund for the coming summer. The very able manner in which the evening's entertainment was arranged reflects a great deal of credit on the part of those responsible, and the Guides are to be congratulated on the spirit of co-operation and good feeling which made the affair a decided success.

MARRIED

Ouderkirk-Shay — At the United Church parsonage, on Saturday, April 14th, 1928, by Rev. R. E. Newman, Edna Charlotte Shay, daughter of Mr. and Mrs. Geo. Shay, and Walter Eli Ouderkirk, son of Mr. and Mrs. Johnston Ouderkirk.

BOWLING CLUB ELECTS OFFICERS

The fifth annual meeting of the Bowling Club held Monday evening brought together a considerable number of the members for the purpose of electing officers for the coming season, which resulted as follows:

Hon. Pres.—Dr. C. H. Doering.
Pres.—W. O. Dixon.
Vice-Pres.—G. C. Lacey.
Treas.—Dr. A. B. Clayton.
Sec.—G. W. Raeburn.
Rink or Greens Com.—Dr. Clayton, W. O. Dixon, K. D. Lawson.
Membership Com.—Dr. Clayton, E. L. Bronskill, P. S. Boyd, E. C. Barwick, K. D. Lawson, W. O. Dixon, Eric Casselman, Geo. Cass, A. O. Robertson, W. G. Raeburn, G. C. Lacey.

As will be found by the report of the secretary in another column, last season was a most successful one and everything points to a good time for the coming one. After a very considerable expenditure for equipment and improvements in the greens last year, the treasurer's report showed a substantial balance in cash on hand.

New members will be made very welcome and those who have not formerly participated in the game will be given the use of bowls and every instruction and opportunity to enjoy this healthful, clean, outdoor sport.

DIED

Smith—At Chesterville on Thursday, April 19th, Mrs. John W. Smith, in her eighty-fourth year. The funeral will take place at the family residence at 2 p.m., Saturday, April 21st.

PURE COD LIVER OIL

Has long been considered a great builder. Time was when we thought that first class Cod Liver Oil must come from Norway. Our experts have proved beyond doubt that our Newfoundland Cod Liver Oil is equal to the Norway variety and in many cases its superior.

Our best sources of supply now test for the Vitamin content.

We handle the product of our best producers.

It is Pure and Fresh.

In 50c and 75c bottles.

We can supply a Crude Variety for Hens and Chickens.

Bowling Club Secretary Reviews Past Season

The season as in all former years started off with all kinds of enthusiasm, May 24th was the opening date set by the club although not much bowling was done until our fourth annual tournament on June 3rd when some twenty rinks from Alexandria, Winchester, Prescott, Iroquois, Kemptville, Virtotias, Highland Park and the Ottawa Lawn Bowling Club were present.

Competitions were very keen and resulted in Dr. Hutt with W. G. Raeburn, G. C. Lacey and Geo. Shay winning first in the first event, defeating W. Minton of Ottawa, thereby receiving a two-piece silver sugar and cream set, with electric boudoir lamps as second prize.

The Second event was won by E. A. Thomas of Ottawa, who defeated Goodfellow of Winchester. Their prizes were handsome jardinere stands with China bouquet holders for second place.

The bowlers taking part from outside places reported our greens as second to none in Eastern Ontario. They also reported a good time and made it known that they would return in the fall to our Doubles Tournament.

Bowler D. Allison made a donation of four handsome sets of Gold Cuff Buttons for rink competition in which junior members were to be given the preference. This made keen interest and was finally won by Dr. Hutt with Eric Casselman, Geo. Reaburn and H. J. McMahon.

On June 9th, "Candy night" was inaugurated and carried on throughout the season on Wednesday nights. A suitable trophy was given the winners of each week. This also gained considerable enthusiasm during the summer.

The first "trophy" or "candy night," night, Dixon with Hess, Cass and Durant won four ash trays.

As in former years the Price Buttons were placed in the hands of the President and Vice-President for starting off. The first game was June 16th, when Dixon and Shay, who had first chance to play for them as they held them during the winter, won them back, later losing them to Lawson and Geo. Cass on June 19th.

June 27th and 28th was Prescott Tournament, when Dixon, Cass, Elliott and Lawson were entrants from this club.

On July 2nd, Dixon, Hutt, Lacey and Robertson were trying to walk away with Ottawa's best prizes but returned home with a big story of an aeroplane accident. On this same date Eric Casselman and Wm. Tate succeeded in winning the Price buttons.

On July 8th, Winchester Tournament, in which two rinks from this club participated. Dixon with Hutt, Cass and Lacey winning first place and received Cut Glass salad dishes. Doering, Robertson, Reaburn and Hunt were the unsuccessful entrants. Dixon and Lacey also entered the Doubles which were held on the same day and won a box of chocolates each.

On July 3rd, Alexandria and Kemptville used our Greens in a Higgins Cup game when Alexandria took the cup home.

Chesterville club journeyed to Alexandria on July 19th and secured the Higgins Cup, the teams taking part were Dixon, Cass, Clayton and Bronskill; Hutt, Lawson, Casselman and Reaburn.

On July 20th two rinks visited Winchester and again on July 25th another visit was made.

July 27th, Alexandria Doubles were held, Dixon and Hutt, Lawson and Elliott, Clayton and Cass attended.

Winchester made an attempt to secure the Higgins cup on July 28th but were unsuccessful. Prescott came down on August 6th and took the cup home with them where it rested during the winter.

On August 30th, Dixon and Hutt were bowling in Toronto but on their return made no report only that "George Young lost the race."

Labour Day, Sept. 5th, Casselman and Shay played at the Iroquois tournament and won second place in the first competition, and on the same date Dr. Hutt with Lacey, Cass and Dixon won second place at Kemptville and each received a pipe.

On September 17th, our second annual Doubles Tournament proved a huge success. W. Hutt of Vittoria's won first place and Dr. Hutt of this club, won second. First place in the second event was won by a Winchester rink with Dr. Cheney of Alexandria in second place.

In closing I may say that we have at present a member in the hospital at Smiths Falls, and it is the sincere wish of all for his speedy recovery. Also we are glad Mr. Farrell has his good wife home again and hope for her speedy restoration to health and strength.

—o—

It often happens that the same priest performs a marriage ceremony for and administers the last rites of the church to member of his flock, but generally the marriage comes first. In the case of Wilton Lackaye, the actor, the procedure was reversed. Last year Father Leonard of New York, gave him the last sacrements when he was thought to be dying. Lackaye recovered and was married a few days ago to his former nurse [illegible]er Leonard officiating.

Another of the **7000.. speaks**

No complaint in seven years

"We have been using your milker for the last ten years with excellent results—always been able to furnish No. 1 quality milk—supplying for the last seven years the Gravenhurst Consumptive Sanitarium and never had a complaint offered—if reasonable care is given your milker a very low bacteria count will be the result."

E. B. MALLORY, Manager
Dunrobin Farm

THE famous Dunrobin Farm is one of 7000 prosperous Ontario farms where Empire Milking Machines go into action as regularly as the sun rises and sets. Simple to operate, dependable, easy to keep clean, low in upkeep costs and power requirements, Empire Milking Machines save time and labor. The Empire is the only machine that recreates the sucking and three-point tip-to-udder teat massage of the calf—nature's way of milking.

EMPIRE MILKING MACHINE CO., LTD.
Dept. 00, 352 Water Street, Peterborough, Ont.

EMPIRE
TRADE-MARK REG'D.
Milking Machines

"Make dairying a better business"

Empire is Superior to Other Milkers because

The EMPIRE Milks As It Should. The Empire takes milk from all four quarters at once—just as the cow gives it down. The Empire's three-sided tip-to-udder squeeze (a patented feature) exactly duplicates the massage of a calf's tongue.

The EMPIRE Is Easy To Operate. Cups can be quickly placed on teats. Held firmly by vacuum, they do not climb up or drop off. No harnessing to waste the operator's time.

The EMPIRE Cleans With Ease. Simply draw cold water, then hot, through the assembled units by vacuum. Not necessary to remove inflations from cups after each milking.

The EMPIRE Lasts Longer. Some Empires are still in service after twenty years. Patented, reinforced Empire inflations prevent stretching—a feature exclusive to Empire.

$17,000 Fire At Inkerman

Immediate steps will be taken by W. R. Keyes of Inkerman, whose large general store and garage were burned down early last Thursday morning, to rebuild. Besides Mr. Keyes' property, the general store of Levere Brothers and barber shop of Allan Ball were also destroyed. They have not yet decided as to their plans.

Total loss is not as high as first estimated. Mr. Keyes' building, which housed his store, the village library and post office, was worth $11,000, while Lever Brothers' building, which also contained Ball's barber shop, was valued at $6,000. Mr. Keyes is well covered by insurance and Levere Brothers have $3,000 on their property.

Mr. Keyes received first intimation of the fire when his dog awoke him at 3.30. Mr. Keyes, who sleeps in the store, found his place on fire. In his efforts to save his business books and papers, he received severe cuts. They are not serious and Mr. Keyes is able to be around as usual.

Help was summoned from Winchester, nine miles northeast of Inkerman, but it arrived too late to be of much use. The volunteers were able to save the houses of John Shaver and William Carson, which were in danger from flying sparks.

A modern amendment to the marriage ceremony has been adopted by former Rabbi Browne of New York, who now uses this formula: "Behold you are now man and wife until the death of love do you part." He is said to be doing a flourishing business in the marrying line.

The season's best radio story comes from Willowdale, Ont., where a sleeping baby was awakened by the striking of Big Ben, the famous clock bell of London. S. A. Bridge, father of the baby, relates the incident in a letter in which he says: "I would like to tell you how well we received the chimes of Big Ben this afternoon. We had the baby asleep and it woke her up.'

Chas. Hasenmiller, 70 years old, a merchant of New Albany, Ind., has never seen a "movie," a game of chance, a horse race or a baseball game and has never touched liquor or used tobacco.

German Plane Lands In Canada---First East to West Flight

From Long Point, Blanc Sableon, just across from Greenly Island on the Labrador mainland, a special newspaper correspondent at Clarke City, Quebec, has received the first narrative of the story of the Bremen's flight to America.

This narrative, which is published below, was relayed by land wire from Long Point to Clarke City, 425 miles away, then wirelessed to Father Point, Que., 175 miles across the Gulf of St. Lawrence, and thence by land wire to Toronto.

Long Point, April 15.—Captain Herman Koehl, Freiherr Von Huenefeld and Major James Fitzmaurice found the weather forecasts last Wednesday night were favorable for the start from Baldonnel Field near Dublin, and decided to leave Thursday morning.

The Bremen was flying 38 hours notwithstanding the inconveniences of temperature, which forced the plane to fly generally very low.

The weather commenced to become very alarming as they were approaching the Newfoundland coast in a very thick fog. But shortly the fog cleared as the night came on.

They were getting nearer and nearer to the land that has so much influence on the magnetic compass and is known as the danger point for aviators.

Snow then started, accompanied by strong winds and at intervals by sleet, threatening at every moment to add the Bremen to the aerial disasters of the North Atlantic.

The fliers realized that the snow would influence the direction their machine was taking, but in spite of very bad flying conditions and with gas running lower and lower, they did not lose courage.

They decided to keep on with an endeavor to get their bearings and go through to their destination. Finally they could tell that they were flying over land, but in the blizzard they could see so little of its formation that it was impossible to take bearings.

Nevertheless they were cheered by the realization that they had achieved victory and it gave them courage and strength to go on.

Many Hours of Battle.

Battling for many hours through the storm, they discovered at 5.35 Friday afternoon a small lake in the centre of a little island about half a mile long and decided to land on it.

As the ship was not equipped with pontoons or skis, needed in this country for landing gear, the shock on the undercarriage of landing was more severe than they expected. They smashed the ice under the ship as they descended and slightly damaged the tail, but the three aviators came out without any injury safe on Canadian soil, as they embarked on the Bremen nearly two days before.

Greenly Island, on which they landed, is situated three miles from the coast directly opposite the little village of Long Point on Blanc Sableon.

The aviators reported to-day that they have found great hospitality on the part of these citizens of Long Point and also have been provided with the material necessary to repair the under carriage of the Bremen.

Attempts to make these repairs are now being made in spite of the easterly gale and snow storm, which is driving all along the Labrador coast. But it seems that fate is still against the Bremen finishing her journey to New York under her own power. Although it is hoped her crew will be able to reach New York as they left Ireland, it is believed impossible to make an attempt in such a storm as this.

Nevertheless, the Fairchild plane, piloted by Duke Schiller, fought through from Seven Islands, over 400 miles away, making their way right in the teeth of the storm, and arriving safely to-night, after leaving Seven Islands at three o'clock this afternoon.

Necessities for Repairs.

Schiller, accompanied by Dr. Louis Cuissiner, brought with him the necsities for repairs that the Bremen needs. So there is still some hope that the monoplane will be ready to take off when the storm dies down.

Schiller's take-off was delayed for several hours by impossible weather conditions at Seven Islands, but at last he refused to wait longer and went up into the storm. His arrival under the conditions prevailing here all day was considered marvellous.

Meanwhile the Canadian Government icebreaker Montcalm is fighting her way through icebergs and floes toward Greenly Island. The trip is very perilous at this time of year, but the steamer has battled her way to within sixty miles and is keeping in touch by wireless with the situation in case her help will be required.

The storm has become so severe that the communications between Long Point and Greenly Island are becoming more and more difficult, but it is hoped that they will not fail completely.

The Montcalm is under orders to take the Bremen to Quebec where it was planned when orders were given to repair the plane, refuel her and start her off on the last lap of her journey to New York.

If your are amused by "tongue-twisters," try this: "See shy slow Sue show sly Sioux snowshoes."

Paying Your Share

Ten cents a week, or the price of a soda, is enough for the Lord in the opinion of some of the families in a church in Montclair, New Jersey. There are other families who attend the church, and think it can get along without any financial help from them at all. The church budget, according to a pamphlet recently issued, is $35,000. There are 408 families in the parish, and 145 families contribute nothing, leaving the total burden to the others. It is equally interesting to learn there are 431 automobiles in the 408 families, or more than one automobile to each family. Here are some other interesting items, which may have a familiar ring to the real workers of other churches : "Forty families pledge per year less than the cost of one tire. One hundred and nineteen families pledge per year less than the cost of two tires. Five families pledge per week just the cost of two packages of 'life-savers.' Seven more families are happy to contribute per week the cost of one soda. Twenty-eight more families estimate the church's blessings per week equal to one admission to a Montclair movie (if one sat in the balcony). Forty-six more families prize their religion in terms per week less than half a pound of candy. Twenty-two more families are content with a weekly gift of the cost of two and a half gallons of gas. How far will the car go on that? Fifty-one families count it a joy to subscribe per week a sum equal to what many men spend for smoking in one day. Forty-nine more families are satisfied with a weekly pledge of the amount spent for one luncheon at a moderate-priced restaurant. Why go further? Oh, yes. One hundred and forty-five more families have pledged nothing. Their church membership being totally carried, their church dues paid entirely by others."—Literary Digest.

A Wasted Gift.

"No, my friend, I don't take whiskey. If I had a drink of whiskey I should be able to taste it for a couple of days."

"Hoots, mon! an ye no' see ye have been granted a precious and remarkable preevilege by the Almighty—an' ye are no' availin' yersel' o' it!"

FALL TERM at the

Cornwall Commercial College AND SCHOOL OF SHORTHAND & ENGLISH

CHEVROLET
TON-MILE ECONOMY

The Reason You Need this CHEVROLET Truck!

THE lowest Ton-Mile Cost in the world (that is, the lowest cost of transporting one ton for one mile, or its equivalent) is the one big reason why truck-users in all lines of business are choosing the Chevrolet Ton Truck. Added to this economy are amazing speed and dependability; exceptional performance, never before offered in a low-priced commercial car; ruggedness, strength and modern design undreamed-of in a truck so low in price.

Whether you need a truck for fast delivery on city streets or for steady transportation of ton-loads over all sorts of roads . . . you can find the right type of body available on the money-saving Chevrolet Ton-Truck Chassis. Ask your Chevrolet dealer.

The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.

H. J. McMAHON

Sterilization of Dairy Utensils On the Farm

(Experimental Farms Note.)

Of the various sources of contamination to which milk is subject, the dairy untensils have been definitely established as one of the most serious, capable of contributing a high percentage of the bacteria found in milk. Consequently the sterilization of cans, pails and other containers cannot be neglected if milk containing few bacteria is to be produced. Thorough cleaning is essential, but in itself is insufficient. Steps must be taken to destroy as many as possible of the bacteria still remaining, if the keeping quality of milk is to be improved.

For sterilizing, steam under pressure, the most valuable agent, is seldom available. In its absence, a sufficient quantity of boiling water gives good results. Pails, strainers, etc., after washing are scalded by pouring a pint of boiling water over the entire inner surface; cans are best treated by pouring in a quart of boiling water, replacing the lid, and rolling along the floor to ensure thorough scalding of the inner surface. As the temperature of the water drops over 50 deg. F., during this operation, a fresh quantity must be provided for each utensil. Unless this done, good results cannot be hoped for.

Because of the saving in time and fuel, chlorine solutions are being used in some districts to replace the scalding treatment, and where used intelligently have equal or superior sterilizing efficiency. Cans and pails are carefully rinsed with chlorine solution as in the scalding treatment, or immersed for one minute in a tank containing the solution. Either is satisfactory provided the utensils are well washed and the chlorine solution is up to strength. Further details regarding this method may be obtained from the Division of Bacteriology, Central Experimental Farm.

Following sterilization, unless used immediately, untensils should be inverted upon a draining rack to dry. Except in cold weather, an outdoor rack placed in the sun is desirable. With free circulation of air, the utensils will soon dry, checking the multiplication of the few surviving bacteria and ensuring that the benefits of the sterilizing treatment will not be lost through further development of bacteria in the moisture inside the utensils.

BERWICK

Mrs. Dawson and two children of Winchester, were the guests the week end of her parents, Mr. and Mrs. Wm. Meldrum.

Mr. and Mrs. Oriville Bogart and Mr. and Mrs. John Bogart of Massena, spent over Sunday at their parental home here.

GEO. K. CASSELMAN - DUNBAR

MOREWOOD UNITED CHURCH

Rev. R. H. Whiteside, ordained minister and evangelist of the United Church, came to us last Sunday and has proved to be a man with a decided message who earnestly desires the cooperation of others in bringing people to decide for Christ and the Christian life. Mr. Whiteside is also a singer who accompanies himself on the guitar. The pastor leads the singing and is ably supported by a choir that already numbers twenty-five and may reach thirty-five.

Next Sunday the morning service will begin at 10.30 instead of at eleven. Mr. Whiteside's illustrated sermon will be for everyone in the family.

At 2.30 Sunday afternoon a men's meeting with a men's choir. Mr. Whiteside will deliver a man's message to men.

Sunday evening at 7.30 big public meeting with music from the song book, "Selections from Victorious Service Songs."

Services continue in the church each night next week beginning at eight o'clock sharp—as soon as the bell stops ringing.

PAYNE VALLEY

Mrs. Will Meldrum and Miss Muriel Mattice spent Sunday with Mr. and Mrs. Will Mattice, Newington.

Mrs. Meredith Garlough and daughter Grace returned home on Friday after spending a few days with her parents here.

A very enjoyable evening was spent at the home of Mr. and Mrs. Will Meldrum on Thursday in games and dancing, after which lunch was served of cake, coffee and sandwiches.

Miss Mae Eligh spent a few days with her sister, Mr. and Mrs. Leslie Stephenson, Cornwall.

Mrs. Norman Dawson and family of Winchester, spent the past week with Mr. and Mrs. Will Meldrum.

We are glad to report Mrs. Kenny Cameron, who is in the Cornwall General hospital, doing as well as can be expected and hope for a speedy recovery.

Mr. and Mrs. Leslie Stephenson of Cornwall, spent Sunday at the latter's home here.

Mr. Albert Mattice of Uncle Sam's Domain, spent the week end with his family here.

Mr. Wilfred Mattice, Newington, spent Sunday with Mr. and Mrs. Albert Mattice.

BOUCKS HILL

"Wedding Bells are ringing."

Mr. Roy Watson of Madrid, N.Y., spent the week end with Mr. and Mrs. T. C. Merkley and was accompanied home on Sunday by Mrs. Watson and son Basil.

Mr. and Mrs. Kemp Beckstead and little son Roy of Morrisburg, spent Sunday with Mr. Hilas Herriman.

Master Elliot Timmons spent the Easter holidays with his cousin Howden Lane.

Mr. and Mrs. John Clarke and Miss Alice McMillan spent Sunday at Berwick.

Mr. John Hutt and Miss Emma Casselman, Mr. and Mrs. Claude Casselman and Miss Alice Eastwood visited Mr. and Mrs. Anson Becker on Sunday.

Miss Irene Kenny spent Sunday at Mr. George Hill's.

Mr. and Mrs. Johnny Barkley spent Tuesday evening with Mr. and Mrs. Will Carr.

A few from here attended the party which was held at Mr. Asa Hess' on Thursday night, at Hoasic.

Mr. and Mrs. Albert Utman spent Sunday evening at Mr. W. A. Carr's.

Mr. and Mrs. Orren Dillabough and Mr. and Mrs. A. McConnell of Morewood, visited at Mr. Nathaniel Merkley's recently.

Mr. and Mrs. George Hill, Mrs. Orlin Becker and Mrs. Clifford McIntosh spent Thursday in Ottawa.

PARALYZED

Could not Walk, but Restored with Natural Herbs

Elmwood, May 13th, 1927.

Mr. B. J. Murfin,

Dear Sir:—

I must write and let you know how our son, who had creeping paralysis, is improving. He had taken your medicine about a week only, when he could walk, and in three weeks had gained 13 lbs. He helped his father with the seeding and is working every day and feeling fine. Our daughter is also making an improvement is gaining nicely, but is still taking your medicine. We certainly cannot praise your medicine too highly for what it has done for us all.

We do not think there is any medicine sold on the market so effective in building up a run-down system as Mr. Murfin's Natural Herb Medicine and we highly recommend it to our neighbors and friends.

Hoping to see you soon, we remain,

Sincerely yours,

Mr. and Mrs. Wm. Liefso.

Elmwood, R. R. No. 2, Ont.

Pooling Eggs In Ontario

It's a long call back to the days of 10 and 12 cents a dozen for eggs—but not so far to the time when less than 20 cents a dozen was considered a fair price for many months of the year. Credit must be given the pooling idea for developing a marketing proposition that ensures a price well above 20 cents to the producer, even at the time of year when eggs are most plentiful. In fact, the Pool price has stood above 30 cents a dozen for the past four years.

When Ontario's first Egg Pool was opened in 1924 it appealed to those who had eggs to sell—particularly the farmer class—as a possible remedy for the annual slump in prices that came as surely as warm Spring weather brought increased egg production. Regardless of the effect the Pool has had in stabilizing prices generally, it is interesting to note that over a million dozens have gone into the Pools of 1924, 1925, 1926 and 1927, that the payment made by The United Farmers Co-operative Company, Limited, as the eggs were graded, was 20 cents a dozen, and that in addition, final payments were sent ranging from 9 to 14 cents a dozen. The total returns to poolers were as follows: In 1924, 31½ cents on Extras and 29 cents on First; in 1925 and 1926, 32½ cents on Extras and 30 cents on Firsts; in 1927, 34 cents on Extras and 31½ cents on Firsts.

The 1928 Pool is now in operation and will remain open until such time as the management considers it unwise or unprofitable to producers to store for Fall or early Winter sale. All eggs tagged for the Pool are sorted and graded as they arrive, only sound Firsts and Extras being placed in cold storage for the Pool. The initial cash payment is 20 cents a dozen on those pooled while prevailing prices are paid for Seconds and Cracked eggs. The system of paying cash as the eggs are shipped, and a further cash payment in the Fall, has been proven to be a boon to local merchants as well as to the farmer.

Canadian Progress

Canada made very satisfactory progress during the past year, according to J. H. Gundy, a prominent financier of Toronto, who points out that agricultural, industrial and mining development continued with increased energy and success. During 1927 corporation financing reached a total of about $380,000,000, the largest in any year of the Dominion's history.

Cheap money was abundant, and ublic and private interests were able borrow at lower rates than existed any other country except the United tes. During the year the govern- nt was able to retire $55,000,000 of uring Victory bonds out of its dus.

e importance of the financial ions between the countries is by the fact that United States ments in Canada now amount to four billion dollars, only a little less than the total of American ments in all Europe.

ndicating An Idea

after the close of the Civil oung inventor, just past 21, d to interest old Commodore in a new brake for railroad be operated by compressed listening with impatience position, the Commodore ther the inventor really he could stop a rushing ain with nothing but air. wered in the affirmative. out of here," he said, "I have no time to waste on fools."

The young inventor was George Westinghouse, who shortly afterwards perfected his air brake and after many discouragements succeeded in placing it on the market.

To make his triumph complete, the first big order for the new Westinghouse air brake came from Commodore Vanderbilt.

This invention and others made Westinghouse a fortune and when he died in 1914 he was rated among the wealthy men of America, the use of his air brake having become universal.

His early struggles were typical of those of many other young men with an idea and nothing else, but he was more fortunate than most of them. He did ultimately reap the rewards of his genius, while many inventors, through lack of business ability, are defrauded out of theirs.

Nervous and Miserable Through Constipation

"Fruit-a-tives" Restores Vigorous Health

MR. D. DUPERRON.

The drowsy, fatigued condition that usually goes with constipation is a serious handicap. Overcome it. Be healthy by taking "Fruit-a-tives". Read this letter: Maxville, Ont.—"The results are marvellous. That nervous, tired feeling has completely gone. 'Fruit-a-tives' has made a new man of me."

—Mr. Donald Duperron.

"Fruit-a-tives" is the intensified juices of ripe, fresh fruit, blended with stimulating tonics. It is the stoutest natural foe of constipation. Gentle, natural and positive in its action, it builds the system to function properly without the constant use of laxatives. 25c and 50c at all druggists. Try it—to-day.

According to a scientist, the average amount of complete rest during a night's sleep is only 11½ minutes, there being muscular or mental action during the remainder of the time.

Boys and the Farm

Some writers lament the fact that boys are leaving the farms, as though a farm boy had not the same right to choose his vocation in life as other boys. There would be as much logic in asserting that the son of a coal miner, for instance, should not aspire to be anything else but a coal miner.

Of course, if a farm boy has no ambition to enter business or a profession, or is not willing to apply himself to learning a skilled trade, he had better stay on the farm. Without education he would be worse off in the town or city than in the country, probably remaining a common laborer.

But for the intelligent farm boy who can secure an education it cannot be denied that the cities offer wider opportunities. In fact, many of the leaders in every field of endeavor came originally from the farm.

While most of the trades and professions appear to be crowded today, farming is also overdone, as may be seen by the unsatisfactory condition of agriculture. More farm products are raised than can be marketed at a profit over the cost of production.

Whenever the demand exceeds the supply we shall see better prices for agricultural products and we shall also see the people going back to the farm. But until that time comes the farm boy should be encouraged to enter any vocation for which his talents and education are fitting.

It may be added that there are even now excellent opportunities right on the farm for boys and others who will study and apply modern agricultural methods. But the future holds little for the indolent and shiftless, on the farm or elsewhere.

A Fine Early Tomato

Aftermany years of careful selection a variety of the tomato has been developed that posses first rate quality and ripens in the open in from 95 to 100 days. The development of this tomato began twenty-eight years ago when the variety Earliana was recognized to possess considerable merit. It was seen, however, to produce plants and fruit with considerable variation. Mr. W. T. Macoun, the Dominion Horticulturist, taking advantage of these variations, started making selections of plants showing early maturity and heavy yield. After several generations had been grown and seed saved from early maturing desirable plants, it was found that this method of selection had so altered the type of the plants and fruit from the original Earliana that it was decided to call the segregation Alacrity. To growers particularly in northern districts this variety has been a great boon, as it has made it possible to grow tomatoes almost as well as those living in more favoured localities. Further improvement is however still looked for in considerable blocks of plants grown on trial grounds. A record of performance is being kept of each plant showing the yield of ripe fruit for the first two weeks, month, and total season, besides noting the amount of rough fruit produced. The study of the performance of individual plants reveals the desirable strain to use for further selection work. In addition to this a strain test is conducted to ascertain the segregate of greatest merit by actually growing plants from the selected strain side by side with strains of other varieties.

Good Seed and What It Means

(Experimental Farms Note.)

For many years the benefits from the use of good seed have been known and appreciated by all good farmers. In spite, however, of these live examples and all that has been written on the subject, there are still farmers who sow poor, cheap, common seed, and expect to harvest good crops.

By **good seed**, is meant clean, plump, well graded, sound seed, free from weeds and of a variety thoroughly tested and well adapted to the district in which it is to be sown. Plump, well graded seed when sown, will feed evenly through the seeder and give a uniform distribution of the seed, resulting in a good stand of crop. The seeds being plump have a plentiful supply of food stored up which give the plants a good chance to become well established from the start.

All the seed sown on a field, should germinate well and produce strong heathy plants, and that is what happens when good seed is used. Good seed insures a vigorous crop which is able to keep the weeds in check and covers the ground to the best advantage. These strong growing plants are better fed and better able to contend with the ravages caused by drought, rust and unfavourable weather conditions.

The extra cost of good seed is relatively small and the extra returns at harvest time amply repay the additional outlay at the start.

There are many agencies promoting the use of good seed. The Experimental Farms of the Dominion Department of Agriculture, have played an active part in this work. At different Farms and Stations, seed cleaning and grading plants have been established and equipped with the necessary machinery. These plants clean and grade seed at a low cost per bushel, and should encourage the installation of other and similarly equipped plants in the surrounding districts, for the purpose of insuring a plentiful supply of good seed.

Luella Brown, 8-year-old St. Louis girl, happened to be holding an umbrella when she fell from a third story window, and it opened to serve as a parachute and permit her to land without injury.

The tallest married couple in the world is Mr. and Mrs. Jan Van Albert of London, each being more than eight feet tall.

A rooster-crowing contest in Hull, Eng., was won by a bird that crowed 38 times in an hour.

More POWER
than any other
Engine of its Size

McLaughlin-Buick engine develops more power than other types because the valve-in-head construction concentrates the full force of the explosion directly on the piston and because it necessitates a smaller cooling area. This latter feature also provides more efficient combustion and a valuable saving of fuel.

TESTS prove that the valve-in-head engine as used by McLaughlin-Buick develops *more* power than any other engine of its size.

The G. M. A. C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.
