We Have a Whole NEW LOOK!

Now two lines of Paint in stock

PPG PITTSBURGH PAINTS *"The Voice of Colour"*

and Beauti-Tone PAINT AND HOME PRODUCTS DIVISION *"Colours for Living"*

Beauti-Tone Paint, Home Hardware's own line of paint, has been rated as one of the best on the market today, available in over 2,000 colours. We can also mix any colour you may want with the state-of-the-art X-Rite Colour Match computer system. We can take any type of sample material and turn it into a paint formula that we can then mix up for you. We also have access to over 60 different colour fan decks in this computer, so if you have a chip, name or number of a paint colour from a different company, we can mix it up for you in our Beauti-Tone paint.

JOHN DEERE

A New Class of Utility Tractor.

Introducing the all-new 5M Series from John Deere: a line of utility tractors designed from the ground up for high-hour users and heavy-duty applications. Operator environments built for all-day comfort. Hydraulic capacity to handle big implements. Frames designed to absorb constant lifting and loading force. And the support of the strongest name in heavy equipment.

The new 5M Series from John Deere: more than a new utility tractor. It's a new class of utility tractor. Stop in today to find out more.

ED DUNCAN
Satellite Tracking and Communications
Quality Hay Dealer

WANTED

We Are Currently Looking Ahead To Buy Year 2009 First Cut Timothy and Timothy Alfalfa Hay in Small Square Bales

Quick List of Guidelines for Small Square Bales

1) Bales need to be 36"-38" in length.
2) Bales need to weigh 48-52 lbs. when going into the barn.
3) Bale must moisture test no more than 15% moisture in bale in order to store properly.
4) Bales must be a consistent size and be piled on edge in mow to keep a good square form.
5) An option is to put a hay pin on baler plunger to put a hole in the bales.
6) To minimize handling, store hay in a building that has good easy access for loading the trailer.
7) Extra wedges in bale chamber of baler to ensure well-formed bales while baling.
8) Get hay inside building as soon as possible to prevent discoloration of hay.

Our markets are changing and we are now looking for hay that is 90% or more timothy with balance 10% orchard grass. So if you are growing hay for resale market and planting new seeding this year, we suggest the 90% timothy and 10% orchard mixture.
