The Morrisburg Leader

VOLUME 102, NO. 47. MORRISBURG, ONT., FRIDAY, NOVEMBER 20, 1964 $ 2.50 YEAR IN CANADA; $ 3.50 IN U. S. A.

Authorized as Second Class Mail
Post Office Dept., Ottawa

DUPONT BUYS 1200 ACRES HERE

Purchase of about 1,200 acres of land near Morrisburg was announced today by Du Pont of Canada Limited. The property, which extends along Lake St. Lawrence and north to the C.N.R. main line forms an irregularly-shaped block bordering the town of Morrisburg on the west and Riverside Heights on the east.

Du Pont of Canada's use of this property will be related to the continuing expansion and diversification of its manufacturing facilities. The Company now has major plants at nearby Maitland and Kingston, which together employ about 3,500 in th emanufacture of textile fibres and chemicals, and a research centre at Kingston. An additional 2,300 are employed at other plants and offices.

Most of the land was acquired from the Hydro-Electric Power Commission of Ontario. "Ontario Hydro provided invaluable co-operation throughout the transaction", said R. G. Beck, Du Pont of Canada's executive vice-president, "and we received excellent support from the Canadian National Railways".

Within the U-shaped block of property is an established plant of Seaway Chemicals, which is not included in Du Pont of Canada's purchase.

Speaking to The Leader, Mr. Carl Reinke, manager of Du Pont's Public Relations Department, stated that it would be "about a year" before the company definitely decided which of its many products would be manufactured at Morrisburg. Any announcements, he said, would be made by his department, and would be released to the local press.

Mr. Reinke's announcement today ended many months of speculation about a "big industry" interested in the Morrisburg area, and should provide a valuable impetus to the economy of the entire area.

LOCAL TEACHER DISTRICT PRESIDENT

MR. LOUIS LECOMPTE

a member of the Morrisburg High School staff, has recently been elected president of District 27 of the Ontario Secondary School Teachers' Federation. The Annual Assembly of this District was held at the Riverside Hotel in Eastview. District 27 comprises some 400 Secondary School teachers.

Caldwell Linen Mills Receives Eastern Ontario Industrial Award

At a conference of the Eastern Ontario Development Association, the Industrial Award of Merit was presented to Caldwell Linen Mills, for its outstanding contribution to the economic growth of Iroquois, as well as Eastern Ontario's Golden Triangle. James Anderson, Secretary of Caldwell's, is shown above right, accepting the award on behalf of the Company from R. F. Mucklestone, President, of Eastern Ontario Development Association.

Since its incorporation, Caldwell has become an increasingly important asset to Eastern Ontario, with the steadiness of its operations and its ability to provide jobs for residents of Iroquois and the surrounding area. Continually improving both the quality and style of its products to assure popular consumer acceptance, the greatest expansion has taken place over the past four years, when the number of employees has risen from 272 in 1960 to 565 in 1964, so that today, Caldwell is one of the largest employers of labor in Eastern Ontario.

Township Residents Object to Fire Arrangements

Editor, Morrisburg Leader.
Morrisburg, Ontario.

Dear Sir—The undersigned would appreciate the publication of the following in your journal.

On November 14th, the Dewland house, situated on Highway 31 near Williamsburg Village was totally destroyed by the inability of the Williamsburg Fire Department to arrive on the scene fast enough.

This inefficient fire service, by no means the fault of the volunteer fire fighters, brings shorply to the attention of the taxpayers, living at more distant points, the seriousness of their position. One that has been worsened by the unreasonable attitude of the Williamsburg Township Council, who, earlier in the year, informed the municipality of Morrisburg, that their Fire Department could no longer give fire service to the property owners in Williamsburg Township, particularly along the Front, ordering them not to enter upon this sacred domain, to answer a fire call.

No matter what excuse the Williamsburg Council may give for the inability to save the Dewland home it is obvious to the taxpayer residing at more distant points, particularly Riverside Heights, that they have no fire protection they can depend on .

This is demonstrated by the Fire Insurance firms who state that the mentioned locations having no adequate fire protection, the residents are faced with heavily increased insurance rates on all new policies.

Regular fire insurance covers but a radius of five miles.

Previous to the unjustifiable decision of the Williamsburg Council, the Front locations were also served by the Morrisburg Fire Department, who are still willing to provide fire protection. In lieu of this co-operation fire insurance was accepted at regular rates. However, the payment of enforced extra fire rates cannot improve the unhappy situation, or remove the increased fire hazards imposed on the highest taxed township property owners within the distressed locations, outside the radius. Therefore, it is apparent that these taxpayers are faced with a loss which fire insurance can never fully compensate for the terrible distress burnt-out families must bear.

Places of business are in a graver situation. Apart from the greater financial loss, they are definitely put out of business. When there is inadequate protection for homes, what chance have the churches, motels, restaurants, gas service stations, and stores,

On the announcement of the Williamsburg Council unwarranted order, Seaway Chemicals Ltd., became seriously concerned, and, only after various uncooperative discussions by Williamsburg Council with the Municipality of Morrisburg, did Williamsburg consent to allow the Morrisburg Fire Dept. to provide Seaway Chemicals Ltd. with the fire protection they are logically entitled to.

But this is discrimination.

What intelligent reason can the Williamsburg Township Council give to explain why the supertaxed property owners of Riverside Heights, and others outside the radius, be subject to this unfair discrimination,

Even if Seaway Chemicals Ltd. pay Morrisburg Council for the fire protection, the fact remains that the Morrisburg Fire Dept. is permitted to serve in the Township, to provide a fire service prohibited to others by the unreasonable dictum.

Residents at Riverside Heights are well aware of the multiplied dangers by the fact there are no water pools, as required in a subdivision without conveniences, to replenish the fire engine water tank when combating fire. Blandly, it has been suggested that the hose could be attached to the house wells, which would leave the victims devoid of their supply of house water.

Fire hazards increase by the annual accumulation of matted weeds and dried vegetation, butting buildings, which the Williamsburg Council ignores, even after the Counties Fire Marshall had declared these fields of uncut weeds to be a definite fire hazard.

For what reason do the residents of the out-distanced radius pay taxes if it be not for equal consideration in public service?

Does it imply criminal negligence, exploitation, or a plain lack of common sense?

Residential, and business contributions to the township tax budget far outbalances the contribution of i dustry.

It is openly suggested by tax paying residents that the Williamsburg Council voluntarily correct the dangerous fire situation they have created, otherwise, they enforce the property owners to seek redress from higher authority.

Failing in this, the residents put into action what has been on their minds for some time . . . a petitio to apply for annexation of the Front, and adjacent concessions, to be attached to the Municipality of Morrisburg.

Yours for intelligent action,

The Riverside Heights Community Committee.
George Jowett, Pres.

Stabilization Pond Under Construction

A stabilization pond to handle excess sewage is under construction at Morrisburg. Located on the shore of Lake St. Lawrence west of Hoasic Creek, the ten acre lagoon will be in operation by early next spring. Reginald Adshead, resident engineer with Jas. F. McLaren Ltd., Toronto, for Ontario Hydro, reports that it will be an attractive addition to the village with a land scaped dike and fence surrounding it. The earthen dike will be compacted to a density that will prevent seepage from the five foot depth of operating level. Two diesel operated pumps at a pumping station constructed at the existing plant will pump excess into the lagoon.

This type of pond is a comparatively new operation for sewage dis posal. It is used extensively in the prairie provinces and has more rec ently been introduced into Ontario. Some ten years ago the natural chemical action of such an installation was discovered quite by accident, when a small town in the United States, unable to afford a disposal plant, built a storage pond in a coulee bed and found that oxygen and light set up a chemical activity that purified the waste. Tests at the bottom of these lagoons show one thirty-second of an inch organics . . . the rest has disappeared. In many centres the affluent is used for watering cattle.

All plans for the stabilization pond at Morrisburg have been approved by the Ontario Water Resources Commission. Cruickshaank Construction Co. of Morrisburg, have the contract for the lagoon. Dodge & Co. of Cardinal are handling construction at the pumping station.

FIRST PRACTICE FOR NEW LEGION BAND

The first practice of the newly-formed Morrisburg Legion Drum and Trumpet Band will be held in the Morrisburg Legion on November 20th at 6.45 p.m.

RIVERSIDE HEIGHTS WOMEN'S INSTITUTE

At the November meeting of the Riverside Heights Women's Institute, Mrs. Robert Burns presented a report of her attendance at the Area Convention. It was also reported that a successful Variety Concert had been held in the Institute Hall with each member taking responsibility for an item of entertainment. Highlights were Mrs. Lee Casselman's slides and commentary on local events and trips she had. taken, Highland dances by Mary McDairmid of Martintown, as well as musical numbers, readings, solos, a guitar solo with harmonica accompaniment, and an acrobatic number.

The executive reported that an encouragingly successful bazaar food sale had been held November 13th in the mall of the Morrisburg Shopping Centre.

Plans were discussed for a euchre party to be held November 24th in the Institute Hall and the Christmas party to be held December 9.

Mrs. Floyd Fisher and Mrs. Dale Beckstead will represent the 4-H girls of Riverside Heights at Toronto Winter Fair.

Mrs. Gerald Erratt, president, conducted the meeting. The social hour was under the convenorship of Mrs. Gerald Link.

AFFILIATION REQUESTED FOR COUNTY ASSOCIATION FOR RETARDED CHILDREN

The newly formed Dundas County Association for Retarded Children has applied for affiliation with the Ontario Association, and the president, Mr. Gordon W. Thom has received the following letter from that group:

Dear Mr. Thom—This will acknowledge with thanks your letter of November 10th requesting affiliation with the Ontario Association for Retarded Children. I should like to compliment you and your Executive on the excellent presentation you have made supporting your request. Enclosure of your cheque in the amount of $25 is also acknowledged.

On December 12th, the Executive Committee of the Board of Directors will be meeting and at that time I shall present your formal request for affiliation. The following week you may expect to hear from me confirming your affiliation and also outlining some administrative details which will need attention.

In the meantime on behalf of the President and Board of Directors I should like to offer warm words of welcome to you personally and to your Executive and member ship, with the assurance that we shall do all in our power from this office, to help make your community work for the retarded a success.

Yours sincerely,
W. R. KIRK,
Executive Director and
Secretary to the Board.

KNOX W.M.S. HOLDS THANKOFFERING

Mrs. J. A. Gregory, wife of the minister of Morrisburg Pentecostal Church, was guest speaker at the fall thankoffering meeting of Knox Presbyterian Church Women's Missionary Society held in Knox Presbyterian Church. Mrs. Gregory spoke interestingly, questioning the "sincerity of our thankfulness for alal of our many blessings".

Mrs. A. N. Riley welcomed guests from other churches. Special music was presented by "The Explorers" who sang "How Great Thou Art" and by Mrs. Don Merkley, who sang "The Ninety and Nine".

Devotions were conducted by Mrs Thos. Fraser, Mrs.Alard Reynolds and Mrs. Merkley. The speaker was thanked by Mrs Murray MacDonald. Mrs. G. M. Gorrell presided at the organ. Refreshments were served in the lecture room of the church, and a social hour was enjoyed.

Christmas Contest By Hort. Society

Jacques Paquette of Paquette Flowers, Ottawa, was guest speaker at the November meeting of the Morrisburg Horticultural Society, held Tuesday in the council chambers of the Civic Centre. Mr. Paquette demonstrated floral arrange ments for Christmas decorating and judged entries for the annual Christmas arrangement contest, on display that evening.

Of the three arrangements made by Mr. Paquette it was difficult to decide which was the most attractive. His first presentation featured Christmas greens, poinsettias, gold and silver bells surrounding a hurricane lamp with a red candle.

Next, a white anchor glass bowl was topped with a slip-on candelabrum which surmounted an arrangement of red, peppermint and white Canadian carnations, large white mums and leather fern with a base of boxwood greens. Mr. Paquette explained that the leather fern has become very popular for flower arrangements and corsages, surpassing the asparagus fern customarily used.

A large square of white styrofoam, scored with heavy pliers to relieve the plain appearance was topped with a red sleigh and a prancing reindeer. The sleigh was massed with an arrangement of cedar, peppermint and red carnations, frosted statice. In conclusion Mr. Paquette made a swag of B. C. cedar and poinsettias with a huge red bow of plasticized ribbon and a Della Robia wreath with styrofoam base, covered with miniature fruit, pears, plums, apples, oranges, lemons, silver and gold balls and a large bow . . on a background of greens.

The speaker was introduced by E. Bruce Tuttle, president, and he was thanked by Mrs. Everett Hawkes.

Prize winners for the Christmas arrangement competition were: Mrs John Erratt and Miss Minnie Pharaoh, natural door swag; Miss Gladys Bayne and Mrs. Fred Baarlow, natural and artificial door swag; Mrs. F. H. Barlow and Mrs. G. W. Thom, all-natural table centre arrangements; Lee Ouderkirk and Mrs. Arthur Thom, artificial table centres. Miss Pharaoh and Mrs. Erratt were winners of the artificial wreath class and Mrs. Erratt displayed the lone natural wreath entered in the competition.

Mr. Tuttle reported that the flower bed on Fifth Street had been planted with 294 Darwin Triumph tulips at a cost of $30.91 to the Horticultural Society.

Jogging Around

By The Editor

GOOD NEWS

There is good news for Morrisburg and the entire area contained in the news story at the left, of the purchase of large holdings at Morrisburg by Du Pont of Canada Limited.

Company officials stated on Tues day, that it would be a year before definite plans were completed for the utilization of their property. This could well be one of the most important years in Morrisburg's history. And with civic elections in the offing within the next month, it behooves each citizen to consider carefully the people who will be responsible for the conduct of the affairs of the village during that year.

It is logical to expect a marked increase in the village poulation in the near future. And to take care of that population, it is imperative that we solve the many problems facing us. First item on the agenda might be a solution of our school problem. In view of the facts now known, it is unthinkable that our long-established high school, be abandoned in this village. Rather, we should look to providing better facilities here, where the population increase is expected to be the greatest.

The other most pressing problem is a solution to our difficulties with the sewer system, and we are assured that this is now being looked after.

☼

BUSINESS TROUBLES

Businessmen today feel they are hampered by high taxes and high prices. They are not the first business men to face rough going. A daily paper dated April 18th, 1876, lists ten Ontario business firms that had been forced to make assignments. Plaintive notes were sometimes included in with the legal notices. In this instance, the paper says: "P. O'Dwyer, grocer of Strathroy, has assigned after a hard struggle."

☼

NECESSARY HOLD-UP

A man who came out of a store where he had bought an item of masculine gear expatiated on the fact that retail sales tax and manufacturer's sales tax apply on items variously known as suspenders, braces or galluses. This last word is a piece of American slang which the Oxford dictionary apparently does not recognize.

The buyer of this piece of gear remarked to an acquaintance that it is necessary because it is only by securing the nether garments that a man can have both hands free in order to earn the money to pay the taxes.

Report on Canada's

Parliament . .

By Mrs. R. W. Wadds, M.P.

In spite of warnings that further study is necessary, that there has been no satisfactory refutation to fears that the plan will be inflationary, the Canada Pension Plan finally came before the House on Monday. Members held a one-day resolution stage debate ,and an harmonious and fruitful one it was, on the legislation embodying the measure.

The Minister of Health, introducing the new legislation, told the House that it goes much further than the earlier version and introduces a social insurance measure of much wider scope. In addition to the contributory old age insurance program this third, and we hope final version provides also for the payment of supplementary benefits for widows and orphans of contributors (survivor benefits) and benefits to contributors who become disabled.

As under the BNA Act federal jurisdiction in the area of pensions has been ,since 1951, confined to pensions for the aged, this addition to federal jurisdiction required an amendment to the constitution.

The revised version of the legislation covering the plan also includes such important additions as the pegging of all future old age security pensions (now $75 monthly) to the cost of living index (they will increase automatically if living costs increase) and the provision that "upon the death of any contributor a payment will be made to his estate whether ar not there is a survivor's benefit payable".

In other words to make the details of the plan more understandable in practical terms employees would pay 1.8% of earnings over $600 a year and up to $5,000 a year. O nearnings of $300 a month, for example, the contribution would be $4.50 a month. Employers would match this contribution. Self employed persons would pay the combined rate of 3.6%. Pensions are built up over a ten year period to 25% of earnings up to $5,000 a year, or $104.17 per month. As wage levels rise, and contributions increase, so would pensions. The old age security payment (the $75 a month) would be added to the contributoyr plan benefit, making a maximum of $179.17 at age 70.

The opposition members expressed concern on certain features. They recommended that consideration should be given to excluding from the plan persons already covered by private pension schemes of exceptional high standard, and by those already covered in the civil service superannuation program. Also recommended was thorough examination of the plight of self-employed persons who would be hard hit by the 3.6% rate or contribution.

Concern also appeared regarding the control of investment funds accumulated, and the fact that they would be turned over to the provinces, and the possible further weakening of national unity and national economic standards.

Finally on Tuesday the Government got around to announcing the long promised and much needed increase in Veterans Allowances. These will include about a 10% increase in disability pension payable under the Pension Act and similar increase of pensions payable to widows and dependent children of veterans. The main provision is for an increase in the maximum monthly rate of war veterans allowances for a single to $94.00 and for a married person to $161.00. This announcement was met with great relief in the House as the Opposition parties had been pressing for it for some time.

The former Conservative Minister of Veterans Affairs, the Hon. Gordon Churchill, chided the Government for having delayed this necessary increase for a year and a half, and pointed out to the House that when he had been minister the pensions and allowances had been raised 20%.

GLEN BECKER

Our sympathy goes out to Mr. and Mrs. Charles Dewland in the loss of their home which burned on Saturday last.

Glad to see Mrs. David Laneau home from hospital and feeling better.

Mr. and Mrs. Howard Saddlemire and Mr. and Mrs. Lloyd McHaffie spent Sunday in Brockville visiting Mrs. Lyla Render.

Mrs. John Nicholson and Lois spent Saturday with Mr. and Mrs. P. O. Berkley and Paul.

Mr. and Mrs. Dalton Saddle spent Sunday afternoon calling on friends in Morrisburg.

Mr. and Mrs. Edward Leonard of Brockville spent a few days with Mr. and Mrs. Dalton Saddlemire.

E. B. I. HOLSTEIN CALF GRAND CHAMPION AT 4-H SHOW

Douglas LeBlanc of Northfield Station exhibited the Grand Champion 4-H Holstein Calf at the Ottawa Winter Fair recently. This

It will be recalled that a year ago the assumption of the Presidency by Vice-President Johnson was reviewed with alarm. Mr. Johnson,whatever his faults, tended, as do most Presidents, to grow into the job. This was a fact with regard to Mr. Truman and it likely was with others.

Mr. and Mrs. Alfred M. Casselman of Dunnville visited relatives and friends for a few days and visited Mr Grant M. Casselman who is a patient in the Ottawa Civic Hospital.

Mrs. Rae Casselman is a patient in Winchester Memorial Hospital, where she recently underwent an operation.

A family gathering was held at the home of Mr. and Mrs. Frank McMillan on Sunday, November 15, in honour of her mother, Mrs. Grant M. Casselman's 80th birthday. The guest of honour enjoyed the hockey game in Morrisburg in the afternoon. Mrs. Casselman has a wide circle of friends in Williamsburg and throughout the area who join us in extending congratulations on her 80th birthday.

Hockey News

The Morrisburg Combines finally hit their stride last Thursday night against Lancaster Dodgers, and have won every game since then.

In the Lancaster game, Morrisburg had a 4-0 lead at the end of the second period. The Dodgers counted the first goal of the second period, which the Combines answered with one of their own. Then Lancaster whipped three fast ones past the Morrisburg goalie, and the game wound up 5-4 for the Combines.

Morrisburg scorers were Ed. St. Louis, Big Doug Casselman, Brophy Gillard and Wilkinson.

A. Labreque was the big gun for the Dodgers with two goals, the others coming from M. Labreque and Rushford.

Sunday afternoon's action saw the Combines win by a score of 9-3 against the Ottawa Jr. Montagnards. The high-flying Morrisburg team left the Monties behind in the first period, and never stopped increasing their lead. By the end of the first period the score stood at 2-1 with goals coming from Cillard of St. Louis for the Combines and Kuntz for the Monties.

Combines hit the mark five times in the second period and held off the Ottawa team completely. Goals went to Gillard (2), Big Doug Casselman, McMillan and Patterson.

The Monties tried to make a comeback in the final period but the best they could do, was score two goals, while holding the Combines to two more as well. These came from Al Cameron and Big Doug. for the Combines and from Zaine and Dunstan for the Monties.

With excitement running high in the crowd, the Combines edged the Junior Canadiens of Montreal by a score of 4-3 on Monday night at the Community Centre. Trailing the Canadiens throughout the game the Combines forged ahead with two quickies in the last 50 seconds of play, to best their surprised and highly rated visitors.

Lemaire and Ferguson hit the twine for the Montreal team during the first period, with the Combines' only goal coming from Brian Wilkinson. The Canadiens scored the only goal in the second period, with the credit going to Savard. In the third, the Combines really turned it on. Wilkinson counted again for the home team and there the score stood until the final minute of the game. Big Doug. Casselman came through with the tying goal at 19:10 assisted by Morrow and Brophy. At 19:23 Gillard scored the winner ,assisted by Morrow and Big Doug Casselman.

Jim Notman, 14-year old Morrisburg player, lined up with the Canadiens, and their coach, Scotty Bowman was impressed with his sound play throughout, and his assist on the visitors' first goal.

Next Senior action at the Community Centre is Friday night at 8:30 when the Combines play host to Kingston Aces for the first time this year.

LOCALS DISCOVER CROSSROADS, MOIRA

First there were only one or two parties driving to this fabulous dining spot . . . entertainment center week-ends. Last week-end we counted 15 parties of locals having the time of their life at this Alice in Wonderland world (Just 15 miles after you cross the bridge at Cornwall).

And how they nejoyed the Gourmet dinners (2.75 with our money at par) prepared personally by the former Chef to the Duke of Windsor . . . and how they enjoyed the music by the great Duke Ellington star, Huey Underwood and his band plus Dave McMillan the Comic . . . appearing nitely and Sunday afternoon.

If you're looking for nice clean wholesome entertainment for the entire family at the most unusual spot in the world try the Crossroads this week-end or any evening. Stay overhite at the amazing motel. It's so reasonable.

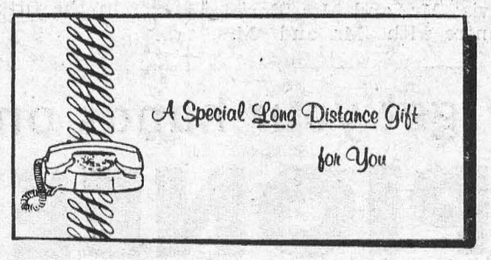
BELL LINES

by Larry Holtby,
your telephone
manager



Would you be surprised to open your Christmas mail next month and find a card like this? I'll bet you would be, and very pleasantly too. And you'd soon find that a gift of Long Distance service has a pleasant "rebound" effect: making your calls, for example, will not only please you, but those you call.

And it's all so simple! To give a gift of Long Distance service, Morrisburg customers need only call our Business Office at ZEnith 60000 to give us the name, address, and telephone number of the recipient, and state the amount ($2.00 minimum) to be credited to his or her account for Long Distance calling. We look after it from there, and will even send out the card ourselves, if you wish! There's no fuss, no bother, and . . . no extra charge!

GOT YOUR NUMBER

Have you ever wondered why telephone repairmen and service representatives always ask for your telephone number, even after you've given your name and address? Here's the reason: Since names or addresses are often duplicated, but telephone numbers are always unique, telephone people file records according to telephone numbers. This method guarantees accuracy and insures faster service.

OUT WITH THE OLD — IN WITH THE NEW!

I'm referring, of course, to the brand new telephone directories we receive at this time of year The outside looks the freshest and newest, but remember, it's there mainly to hold the insides inin. It's the new and changed listings that are most important. So to save yourself time and avoid wrong numbers, be sure to look the number up and jot it down before you call. Handy little Blue Books . . . ideal for recording your personal list of telephone numbers . . . are still available free of charge. (Just call our Business Office and we'll send you one)..

WINTER PARKING REGULATIONS AND SNOW

REMOVAL — VILLAGE OF MORRISBURG

All motor vehicles shall not park on any street in the Village from the hours of 12:00 o'clock Midnight to 7:00 a.m. during the winter months.

We also request the owners of all vehicles to remove same when snow plowing operations are being carried out in the Village at any time.

A Police Officer, upon discovery of any motor vehicle on the Village Streets during the hours mentioned aforesaid or during the snowremoval period, may cause it to be moved and placed in a suitable place and all costs and charges in connection therewith may be charged to the owner.

THOMAS DUVAL,
Chief Constable.

To the Ladies of Morrisburg and District . . .

We wish to announce that we have engaged the services of MRS. HELEN LAURIN for Every Thursday, Friday and Saturday. For appointments please phone Iroquois 652-4327.

Fred Melick, milkman, got a Scotia Plan Car Loan –$1900–overnight

Mr. Melick needed a better car—badly. But where could he get the money he needed to buy a newer car? Fortunately for Mr. Melick he thought of The Bank of Nova Scotia. He went to his nearest Scotiabranch and answered a few quick questions about his job, income and how much money he needed . . .

OVERNIGHT Fred Melick knew he would have the money he needed to buy that car. And this is not an unusual case. Of course this actual customer was not named Fred Melick, but there are more and more people with all kinds of names and jobs coming to The Bank of Nova Scotia to have their money problems solved—quickly. Why don't you?

If *you* are worrying about your old car—if *you* want a new car—then get yourself a Scotia Plan Car Loan. The cost is low—you get life insurance at no extra cost—you get the same low cost for all makes and models of cars—and you get the speed of service that makes your money problems disappear—fast. How much money do you need?

NEWS DIRECTOR NAMED AT CFRA

RON SLADE

Frank Ryan, president of CFRA Radio and CFMO-FM, has announced the appointment of long-time Halifax newsman, Ron Slade, as news director for the two stations. His appointment became effective this week.

Ron Slade has served alternately between Halifax Radio Station CH NS, where he was news director, and The Halifax Herald Limited. During his years as news director of CHNS Radio, he was on leave of absence from the newspaper.

He first started his newspaper career as a teen-ager, writing sports for the now defunct Halifax Chronicle. At The Halifax Herald Limited, he cavered all the newspaper's beats, starting with a two-year term on the police beat, followed with close to six years on City Hall.

Ron Slade has covered the Nova Scotia Legislature for both radio and newspaper since 1958. He was one of the founders of the Nova Scotia Press Gallery in 1961 and served as chairman from that time till now.

On his return to the newspaper in February of this year, he became senior reporter-editor, as a standby for the editing staff, and in charge of all major spot news events as senior reporter. The latter included coverage of the Royal Tour to Canada early in October.

An ardent follower of sports, he is vice president of the Maritime Amateur Hockey Association and a director of the Nova Scotia Sports Hall of Fame. He has also served on Maritime provinces' executives in softball and baseball; served a term as secretary of the Mayflower Curling Club in Halifax; and on various organizational groups and committees in hockey, softball and baseball. In 1951, '52 and '53 he operated the Maritime Juvenile Hockey champions; has coached minor and junior teams in hockey, baseball and football.

He was secretary of the Halifax Press Club for several years, and in 1955, was its president.

Holding the rank of Captain, he is currently on Canadian Army Supplementary Reserve. He served as a militia public relations officer from 1954 to 1963.

He is married to the former Ora Bower of Shelbourne, Nova Scotia, and they have one son.

NOMINATIONS NOTICE OF CIVIC

Pursuant to a resolution of Council November 12th, 1964 Nominations will be held on Friday, November 27th, at the hour of 7.00 P.M. to the hour of 8.00 P.M. in the Auditorium of the Morrisburg Civic Building for the following offices:

REEVE (1) to be elected.
COUNCIL (4) to be elected.
PUBLIC SCHOOL TRUSTEES (6) to be elected.
HYDRO COMMISSION (2) to be elected.

All the above offices are for a two-year term.

The election day be Monday, December 7th, 1964.

Polling places if any, as indicated. East Ward, Store No. 31, Shopping Centre; Centre Ward, Morrisburg Civic Building; West Ward, St. James Anglican Hall.

The regular meeting of Council will be held on the 14th day of December, 1964.

LLOYD D. BARKLEY
Clerk - Treasurer,
Village of Morrisburg.

WHO PAYS

if you are responsible
for an automobile accident
after your insurance policy has lapsed?

You do!

When you allow your insurance policy to lapse you immediately become an uninsured motor vehicle owner. *Before you drive,* you must either pay the $20 uninsured motor vehicle fee at a Department of Transport licence agency office or renew your insurance, or you will be liable to a fine of up to $500.

The $20 fee gives you *NO* protection whatever. If there is a claim against you as an uninsured motor vehicle owner for which you are liable, it will be paid by the Motor Vehicle Accident Claims Fund, but you must repay the fund. You will not be allowed to own or operate a motor vehicle until you make arrangements to do so.

Judgments up to $25,000 are not uncommon. A debt of this size could seriously hamper your family's future. *Protect your future.* The wisest course is to buy *automobile liability insurance* and keep it in force. Always carry your insurance card in your automobile.

Ontario Department of Transport
Hon. Irwin Haskett, Minister

Texstyles

Madeleine Levason

Fall is the favorite re-decorating time for Canadian home-makers, and for most of us it progresses one job at a time. A new sofa, a fresh paint job. or a new carpet are chosen with care to complement the furnishings we already have.

Canadian tastes in decoration are always changing, but for the most part slowly. The cycle is usually seven years from the gradual introduction of a new trend until its emergence as a full-fledged fashion.

Professional decorators who are trained to spot direction signs offer the best guidance. Their choice of colors and styles in furnishing displays in stores and public buildings are genrally well ahead of the public taste.

The Canadian Carpet Institute, which is currently sponsoring a nation-wide "Carpet Time" promotion through retailers, says that more people buy rugs and carpets at this time of the year than at any other. And as the Institute represents almost all of the carpet production in Canada, this can be taken as authority.

Rugs and carpets are long-term investment, so time should be taken in choosing fibres, coolr, texture, and design, the Institute advises. There are a lot of other useful hints contained in the printed material that is being distributed around the country this "Carpet Time".

After a decade of neutral beige and brown the decorators and carpet producers are showing us into a new era of colorful carpets and rugs that offer exciting decorating possibilities. The variety of styling choice made in Canada today means it will be easier than ever before to find the one that is just right for you whether it is the starting point for a new room or the refurbishing of an old one.

New neutral tones for 1964 carpets and rugs include a wide range of mellow brown colorings and some taupe or mushroom shades. The change in beige will be most obvious in the profusion of burnished bronze colors, greens tinged with gold, brown with a toasted look and gold on its own.

These brighter colors point up the outstanding trend which is carried farther by clear, true colors. Reds vary from glowing coppery shades to vivid poster reds. Blue in jewel and rich peacock colors varies the blue-green theme.

There are plenty of patterns too, some strong, others subtle and flexible for use in decorating. Carpet patterns are often achieved by a combination of color and texture, and represent a further step away from the plain look in floor coverings.

Textured or sculptured patterns lend interest to plain shades and are achieved in many ways. There are combinations of cut and uncut pile, random sheared plush and twisted and crimped yarns.

Area rugs feature the gayest and brightest variety of patterns. Designed to accent or define an area of a room, they range from vivid abstract designs to fringed thick pile rugs with the handcrafted look of an earlier period.

Wool? Nylon? Acrylic? Which is the best carpet fibre? There is no simple answer except that fibre content alone is no guarantee of crapet quality or performance. The density of the pile, the closeness of the weave, the backing, the color and pattern all count in the final analysis.

Whichever fibre you choose remember the denser the pile the better the quality. Top grades should be selected for heavy traffic areas. Middle grades are suitable for dining room or bedroom, but the best quality you can afford is the key answer to carpet value.

PARKINSON'S LAW

The Canadian House of Commons was recently given a convincing demonstration of the famous Parkinson's Law, which says that a civil service expands in accordance with its own inner nature, regardless of whether it has more business to handle.

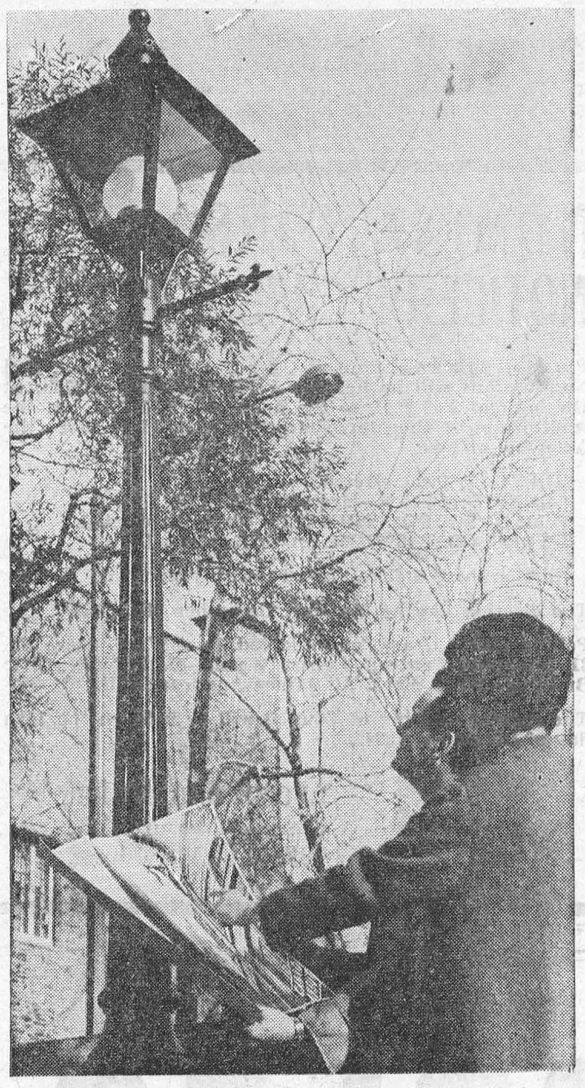
In 1960, the House was informed, there were 1,476 persons employed in the defence production department. The number now has grown to 1,829 although the actual purchases being made by the department have fallen to their lowest level since 1950.

In his original article in The Economist magazine, Parkinson gave a similar example. He gave statistics for the number of British Admiralty officials in 1914 and 1928. In 1914 the Navy was anticipating a war and had been built up for this reason. In 1928, on the other hand, disarmament was in the air; the Navy had diminished by two-thirds in ships and one-third in sailors. But amazingly enough, there had been an increase of 78.45 per cent in the number of Admiralty officials.

The defence production department is showing the same phenomenon. No doubt its employees are busily at work, but their work does not seem to be justified by the business they are doing, as seen from the outside. It is justified only by the inner nature of a civil service department, which grows even when there is no objective reason for growing.—Montreal Gazette

---

Some 10 million pounds of Saskatchewan fish are sold annually in North America.



The first of 50 old street lamps to be installed in Montreal's downtown district was set up opposite City Hall. Comparing photo of modern lamp with the old are Montrealers A. Favreau and Stella Wild.

Gas, cigarettes cost more in Manitoba

Manitobans are paying increased taxes on gasoline, fuel oil and tobacco.

The increases are:

Three cents a gallon on gasoline —to 17 cents a gallon;

An increase of three cents a gallon on clear diesel fuel for use in motor vehicles and internal combustion engines to 20 cents a gallon;

A tax of one cent a gallon on marked and colored diesel fuel and furnace oil;

A tax of one-third of a cent on bunker fuel used for heating;

An increase in the cigarette tax to one-fifth of one cent per cigarette or five cents for a package of 25.

The price of a package of 25 cigarettes will increase to 56 or 57 cents from 51 or 52 cents depending on the brand. Packages of 20 will rise from 41 or 42 cents to 45 or 46.

Increased prices for beer and liquor were announced earlier.

Having been married 20 years, a couple decided to celebrate by taking a little trip. While talking over their plan one evening, the husband now and then glanced into the next room where a little old lady sat knitting. "The only thing," he finally said in a hushed voice, "is that for just this once I'd like to be by ourselves. I'd like to take this trip without your mother."

"My mother!" exclaimed the wife, "I thought she was your mother!"

Boon to medicine and science

LASER

In Britain next month (November) medicine and science get together to discuss the developing applications of laser, an invisible beam of "squeezed" light with an intensity greater than the sun at its source, in general and dental surgery, and also biology.

Sponsored by the Institution of Electrical Engineers, a lecture session will be devoted to developments of medical techniques in which the laser is, or can be, used. The laser technique is adapted from British industry where it has a great many applications.

Already in British hospitals, eye operations have been carried out with LASER (Light Amplification by Stimulated Electromagnetic Radiation. Detached retinas at the back of the eye are being "spot welded" by this technique, and it is felt that such a powerful weapon as this may eventually replace the surgeon's scalpel.

Laser is related to a microwave or sound amplification which is used at Goonhilly Down, Cornwall in the south-west of England, to magnify millions of times the television signals bounced off Telstar. A narrow beam of light is given an electromagnetic "kick" which converts it into the most powerful source of heat energy known to man—the invisible death ray of schoolboy fiction.

Quick, painless

So powerful is the ray that it can penetrate the hardest of metals in a flash (in fact one-millionth of a second) and if optically focussed, as in surgery, it has the power to make lesions instantaneously—hense the surgeons' interest in it. So quick is the laser that there is no pain or discomfort. Unlike present instruments which may require between half-a-second and two seconds to produce coagulation, a laser can produce a suitable lesion in about one-thousandth of a second—too short a time for the patient to react or even to move his eye.

One of the most important phases of current laser research is its application to biomedicine. In this respect lasers are now being used both in the research laboratory and in the operating theatre. The goal of current biological research is to attempt to determine whether this new and unique "optical knife" has any advantages or differences over other forms of radiation now available for biomedical research. Lasers attached to microscopes for microsurgery are one of the most common forms of laser instrumentation.

Laser can also be used in the surgery of tumours, dental surgery and also in the treatment of cancer. At present use is limited to what is termed the ruby laser or the neodymium laser which provides light at the infra-red area. Biological systems react most vigorously to the ultra-violet light, and the light, and there is a great deal of interest now in producing lasers powerful enough in this region.

In dental surgery it is even considered possible to use a laser to make teeth more resistant to infection by producing changes in the enamel on them.

"BRASS TACKS"

Use of the expression "down to brass tacks" to imply getting down to the actual fact started with sailing. The reference was to the cleaning of the hull of ships so thoroughly that the brass-colored bolts on the bottom were exposed.

Brown trout weighing up to 20 pounds are the largest of North America's stream trouts.

Don't Neglect Slipping
FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, gooey, pasty taste or feeling. Get FASTEETH today at drug counters everywhere.

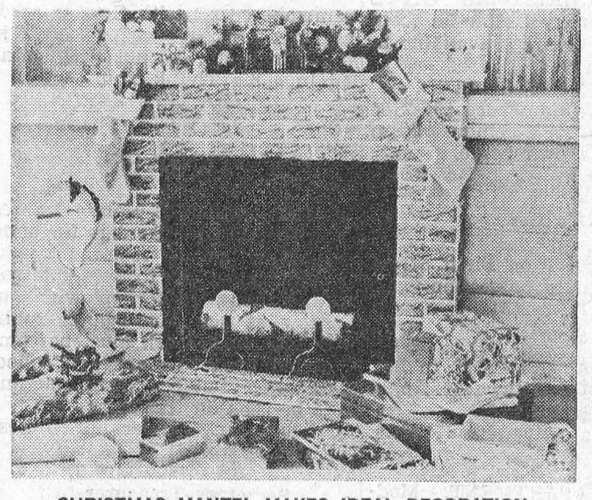
NOVEL STAINED GLASS WINDOW IS EASY TO MAKE

With Christmas just around the corner, there is still time to build colorful decorations that add so much to the festivity of this happy occasion. The "stained glass window" is one way to wish your friends, neighbors and passersby season's greetings. It's easy to paint and costs so little, you might consider making additional ones as gifts. When you use the pattern offered below, no special skill is needed to duplicate the window illustrated and to frame it to fit your window. Just paint colors where pattern indicates then build frame to fit window selected. When mounted and placed in a window and backlighted at night, it makes a captivating effect. While room light will bathe the beautifully illustrated Madonna and Child in a soft glow, a floor lamp can also be used if additional lighting is desired. Since windows vary in size, the pattern tells how to fit picture to any size window. Only water colors are required. Directions explain how to make picture waterproof and translucent with oil. When completed, the picture is placed in that part of the window normally used for storm windows or screens.

To obtain this interesting pattern, send 80c in coin, cheque or money order for Christmas Window Pattern No. 149 to:
Carpentry Dept., Prairie Publishers, 280 Maitland St., London, Ontario.



CHRISTMAS MANTEL MAKES IDEAL DECORATION
ILLUSTRATION NO. 768

One hot day last August while photographing this mantel, visitors stopped to watch the proceedings. Since this was the first time anyone had seen this new build-it-yourself project, I was keenly interested in their comments. While all said they liked it, each mentioned using it for a diffrent reason. "I'll make four of these as soon as I get the pattern," one man explained. When asked where he was going to use them, he mentioned his favorite orphanage. By building one for each room, he could really bring the spirit of Christmas into each dormitory. The second person wanted one for her grandson's home. Since they didn't have a fireplace, she wanted to give the children a place where they could actually hang up their stockings. Another planned on using the mantel to decorate her front porch. By hanging up their stockings and piling dummy Christmas gift packages around the hearth, she felt confident of winning a prize from the local newspaper. The fourth said she just had to have the mantel since her apartment had no fireplace.

The pattern offered below tells how to build a mantel from stock materials. The "real red brick" effect is achieved by applying Sculptured Contact.

Send 80c in coin, cheque or money order for Christmas Mantel Pattern No. 768 to:
Carpentry Dept., Prairie Publishers, 280 Maitland St., London, Ontario.

TABLE TOP NATIVITY SCENE
ILLUSTRATION NO. 310

Making this Nativity Scene can spark many pleasant hours of complete relaxation for the entire family. Since there is something everyone can do, everyone can have fun helping. The pattern offered below provides full size cutting guides for making the creche and the entire group of eleven figures. The stable, measuring 16 inches wide by 14 inches high, is ideal for use on a table or below the Christmas tree. Each figure is first traced on panelboard, then cut to exact shape of pattern. Painting guides on pattern can be traced on figures, then painted colors pattern specifies. Guide lines separate each color. To add a realistic touch, spread straw or moss on the floor of the table and on the platform. A colorful lighting effect can be achieved by concealing a single Christmas tree bulb in back of the stable. This throws a soft light that gives an enchanting effect. The pattern offers complete step-by-step directions for assembling the entire group. To obtain full-size pattern, send 80c in coin or money order (no stamps, please) for NATIVITY SCENE Pattern No. 310 to:
Carpentry Dept., Prairie Publishers, 280 Maitland St., London, Ontario.

LIFE SIZE SANTA IS 6 FEET TALL
ILLUSTRATION NO. 575

If you get fun out of Christmas, if colorful decorations gladden your heart, you can start enjoying the Christmas spirit weeks in advance of the actual day by making your own decorations. This jolly Santa holding a lighted lamp is a case in point. By following the full-size panelboard at very little cost. Being full-size the pattern provides painting outlines that indicate exact location of each color. These are traced directly on the cut out Sant , then painted in the sequence suggested. Step-by-step directions tell how to make and wire Santa's lamp, build supporting base, etc. Place the colorful Santa at your front door and he'll help to make Christmas a gay and cheerful holiday. A shelf on the back of Santa provides space for dummy gift packages. Send $1.60 for LIFE SIZE SANTA Pattern No. 575 to:
Carpentry Dept., Prairie Publishers, 280 Maitland St., London, Ontario.

EVER TRY HOLDING AN ICE CUBE?

The ice gets more slippery as it begins to melt, doesn't it?

That's why drivers have to be particularly careful at the beginning of the winter. The ice and snow are more slippery near the thawing point than they will be later on when the weather is colder.

Careful drivers slow down and allow more stopping space when roads are slippery.

If you're a careful driver why not find out how CIA's AUTOMOBILE and ACCIDENT INSURANCE could help you meet costs of public liability, damage to your own car, injury to yourself or members of your
