Community Memorial Service Was Well Attended On Sunday

The biting cold of a damp and cloudy November day failed to deter the impressiveness of a solemn tribute to the fallen comrades of two World Wars, here on Sunday, as a large number of town citizens, representing every denomination, members of the clergy, Legion Post 108, Ladies' Legion Auxiliary, and Winchester High School Cadet Corps, attended the special Remembrance Day Service at the newly erected Cenotaph on the District Memorial Hospital Grounds.

Preceding the Remembrance Day ceremonies, members of the parade formed up at the Legion Club Rooms under the direction of Post President Carl Laushway, and headed by a band under the direction of Mr. Clifford Wilkes, marched to the Winchester United Church where the Rev. T. N. Mitchell told a capacity congregation that "Sacrifice and effort are just as essential in peace time as in time of war." Sgt.-at-Arms Lorne Sawyer was Master of Ceremonies, and the color party was comprised of Comrades Stuart Corry and George McConnell.

Immediately following the Church Service, the parade once again formed up and marched to the colourful Cenotaph, where a large crowd had already gathered to pay silent tribute to those who had paid the supreme sacrifice.

The singing of "O Canada" opened the Armistice Service, followed by that traditional hymn, "O God Our Help In Ages Past." Prayer was offered by the Rev. Henry Kielty. Other ministers present were Rev. Wm. Reid, Rev. T. N. Mitchell and Mr. Douglas Brown. Just before and immediately following the two minutes' silence, the "Last Post" and "Reveille" were sounded by Trumpeter Warner Schmidt. While the many vetcraft wreaths were being laid at the base of the white cenotaph, just beyond the row of little white crosses which were tagged individually with the names of Winchester and district's fallen heroes, there was complete silence from the many onlookers, broken only by the occasional sound of an almost muted cough, and the distant strains of the band, which played softly in the background, "Abide With Me," and "O God Give Peace."

The laying of wreaths was as follows: Provincial wreath, by Mrs. Jake Empey; Family Wreaths, in memory of Lieut. Carl Barrigar, Lieut. G. D. "Bud" Utman, Pilot Officer Earl Empey and Gdsn. F. F. Wood, by Mrs. Joseph Barrigar, Mr. Norman Utman, Mr. Jake Empey and Mrs. Frank Bilow; Village of Winchester, by Reeve Walter Moffat; Women's Institute, Miss Madge Coons; L.O.L. No. 862, Mr. Gordon Simzer; Winchester 100 Club, Mr. Eldon Davidson; Winchester Hydro Staff, Mr. Archie Rice; Winchester Bell Telephone Staff, Mr. Ross McConnell; Ladies' Legion Auxiliary, Mrs. Jas. VanBridger; Canadian Legion Branch 108, by Carl Laushway, the president.

Members of the Legion then walked slowly to the Cenotaph, dropping their poppies at its base.

Following the singing of the National Anthem, the parade marched back to the Legion Club Rooms, where the members were formally dismissed.

Chairman of this year's Remembrance Day Service and Poppy Sale Campaign was Mr. Archie Rice, who, with his committee, are to be commended for a job well done.

Hulbert Couple Celebrate Golden Wedding Ann'y

The home of Mr. and Mrs. Spencer Fawcett, of Hulbert, was attractively decorated with streamers and flowers on Wednesday, November 4th, on the occasion of their Golden Wedding Anniversary. A three-tier cake was decorated with a wreath of flowers and gold leaves.

Mr. and Mrs. Fawcett were married at Brinston on November 4th, 1903, by Rev. C. J. Curtis. Mrs. Fawcett was the former Ruth Wright, of Ottawa, daughter of the late Ann Willis and Benjamin Wright. Mr. Fawcett is the son of the late Simon Fawcett and Melinda Armstrong, of Brinston. They have seven children, five sons: Delbert, Basil and Orval, of Hulbert, and Merrill and Fred, of Hainsville; and two daughters, Mrs. Ralph Serviss, of Brinston, and Mrs. Joe Sakry, of Clear Lake, Minnesota.

The honoured couple were the recipients of many cards, gifts and congratulatory wishes from the large circle of friends in the community.

The family's gift to the couple was a davenport, on which the esteemed couple was seated to greet their guests. The guests were received by their eldest son, Delbert. A dainty lunch was served by Mesdames Ralph Serviss, Delbert Fawcett, Orval Fawcett and Glenn Kenney.

At seven o'clock a turkey supper was served at the home of Mr. and Mrs. Delbert Fawcett in their honour.

KIRK RIDGE FARM FORUM

The second meeting of the Kirk Ridge Farm Forum was held Monday evening at the home of Mr. Bun Martin. The topic, "Farm Wives As Working Partners," was discussed on the radio, and then the members divided into two groups, consisting of eight men and eight women in each. The first question involved the nature of the co-operation which should exist, with specific reference to planning the farm business, farm expenditures, helping with outside work, legal partnership. It was felt that they should share these burdens, and particular emphasis was placed on the need of a will.

The second question sought to clarify the degree to which the wife should be up to date on farming techniques and marketing problems. Both groups felt that she should keep apace because of her availability to the radio and newspapers during the day. Her ability to discuss the farming problems could be an aid in solving marketing problems, such as when to take things to market.

Maurice Hyndman read a letter from the Farm Forum Secretary, announcing the continuation of the Farm Leadership Training Courses this year. Ten counties will receive them and the deadline for entering requests is November 30th.

Cards were enjoyed and the evening was concluded with a lovely lunch served by Mrs. Winnie Martin.

Christmas Mailing Dates

GIVE DEADLINES FOR OVERSEAS MAILING OF PARCELS AND LETTERS

With Christmas only six weeks away, the Post Office urges the public not to delay posting parcels to friends and relatives in the United Kingdom and the European continent.

If mailing is delayed this may render it impossible for the Post Office to find sufficient accommodation on the last vessels leaving in time to ensure Christmas delivery.

Deadline dates for the Overseas Christmas mailings for surface and air transport have been set as follows:

For letters from Ontario to Great Britain the deadline is December 3 and November 25 for parcels. All parcels for Europe must be mailed by November 21st and letters by November 25th.

If parcels and letters are being sent by air-mail, they must be sent by December 15 and 17, respectively.

All parcels must be wrapped to ensure the greatest protection and labelled as "Gift Parcel."

All inflammable substances, perishables and glasswear are not accepted. Remember to place a return address on all letters and parcels.

Missing Youngster Found Sleeping At Neighbour's Home

Two and one-half year old Janet Kerr, daughter of Mr. and Mrs. John Kerr, Main Street, Winchester, disappeared from her home about 1.30 p.m. last Wednesday afternoon. A frantic mother gave up her brief but desperate search and the case was reported to the Village Constable, Gilbert Raistrick.

Chief Raistrick immediately formed a posse of neighbours and High School students, who combed the town for two hours without results.

Reg. Fetterly, W. H. S. student, solved the mystery about four o'clock, however, when he returned to his home from school and discovered the little tot peacefully sleeping in an upstairs bedroom. He returned her to Mrs. Kerr, and all was well again.

Apparently, Janet spends much of her time skipping across the back lot to the Fetterly residence, where she is considered quite a doll. Last Wednesday afternoon, Mr. and Mrs. Howard Fetterly were out of town, Reg. was at school, and on entering the house, Janet found no one at home.

When one is sleepy, any bed will do, so rather than make the hike back across the lot, wee Janet climbed the Fetterly stairs, eased down on one of the soft beds, and before long had drifted off into dreamland. But until she was found, it was quite a nightmare for Mother Kerr.

St. Paul's W. M. S. Holds Family Night

St. Paul's Sunday School Hall was the scene of an enjoyable event on Tuesday evening, when the Women's Missionary Society entertained the several other church groups at the annual "Family Night." Besides members of the W. M. S., the following Auxiliaries were well represented: The Agnes Glassford Society, the Goforth Girls and the Mission Band. Several members of the congregation were also present.

Presiding and welcoming the guests was Mrs. R. D. Ledgerwood, president of the W. M. S.

Following the call to worship and the singing of a hymn, the treasurer's report was given by Mrs. Hugh Wilson. The theme of the meeting was "Finding A Task." The Scripture iesson, taken from I Cor. 4:14, was given by Mrs. A. G. Suffel, while Mrs. Alex Summers offered prayer. A paper was read on "Talents and Tasks," and an offering was taken and dedicated.

The program included two musical numbers by the Goforth Girls, accompanied by Mrs. Chas. Cross; two vocal solos by Mr. Ron. Workman, with Mrs. Cross accompanying. Mrs. Cross also rendered a solo, "My Task," accompanied by Mrs. Hugh Wilson.

The W. M. S. and the Agnes Glassford Society presented seals for certificates to Catherine Petersen, who is now a life member of the W. M. S.; Anne Cross, Lorna Black, Verla Black, Judy Geggie, Marion Grey and Dale Cross. This was followed by a brief talk from Mrs. (Rev.) Wm. Reid.

The meeting closed with the Benediction, after which refreshments were served and a social hour enjoyed.

The 7th Column

The first snow of the season fell in this district on Saturday last. Not much of it, but enough to remind us that Old Man Winter is on his way. Bur-r-r!

* * * *

It would be interesting to know how many local citizens braved the elements on Saturday last to watch a football game in Ottawa, through snow, rain, and chilly winds, but found the weather too miserable on Sunday to attend Community Armistice Service at the Memorial Hospital.

* * * *

It is not always true that where there is a will, there is a way. Churchill has the will to go to Moscow, but up to date hasn't been able to find the way.

* * * *

Yes, it's the truth! Some hunters travel hundreds of miles to points in Northern Ontario and Quebec at this time of year, in search of the elusive deer, and return home without their quota and, in some instances, without any deer at all. Other hunters take advantage of the short open season in their neighboring townships a few miles from their home. They start out in the morning and return home the same day proudly displaying a fine buck or doe, and could have bagged two or three more if the law allowed it. Ah, yes, but think of the holiday outing the boys have up north—hunting deer is only part of the program!

New Cashier: "What should I do if someone forgets his change?"

Manager: "Always rap lightly on the glass with a dollar bill."

With the hunting season on, here is some sound advice handed out by the District Forester, under the heading: "Respect Your Guns":

"Hunters! Don't learn about firearms' safety by accident! Treat guns with the respect due to dangerous weapons. Every year scores of hunters are killed and wounded and in almost every case carelessness and greed are to blame. Your caution may save a life, your eagerness to bring home something for the pot is natural and even praiseworthy but not if it leads you to disregard the law or endanger another man's life."

Mayor (to new office boy): "Has my secretary told you what to do in the afternoon?"

New Boy: "Oh, yes sir. I'm to wake her up when I see you coming."

A child's innocence was aptly displayed here last week, when a 2½-year-old girl disappeared from her home shortly after dinner, and in spite of a diligent search by her mother, neighbours, school pupils and the police, no trace of the youngster could be found. Later that same afternoon she was found by a mem-

Crysler Man Killed In Freak Accident

Eldon Smirle, 20-year-old son of Mr. and Mrs. Jacob E. Smirle, of R. R. 3, Crysler, was instantly killed in a freak accident on his father's farm Saturday afternoon, 3 miles West of Crysler.

Police said the young man died when he attempted to cross a wire fence that had been electrically charged by high voltage lines, as he ran to a fire started by the same electrical current that killed him.

Ontario Hydro officials investigating the accident believe the high wind on Saturday afternoon blew power line wires against a tree, short circuiting a wire fence that was stapled to the base of the tree. The accident was of an extremely rare case, according to Hydro authorities.

Besides his father and mother, he is survived by one brother and five sisters, Wilson, Vera, Joan, Joyce, Fern and Muriel, all at home.

The funeral service was conducted by the Rev. John Honeyman in Knox Presbyterian Church, Crysler, on Tuesday. Interment was made in Crysler Cemetery.

ONTARIO'S GRIM FIGHT TO SAVE FOREST TREASURE

At times during the 1953 forest fire season, the Ontario Forest Service extinguished as many as 20 dangerous outbreaks daily. This achievement, says a report of the Canadian Forestry Association, should set at rest the legend that modern forest protective systems "wait for rain." During the hazardous months of summer and early fall, the fully mechanized Ontario forces working over bush country of 340,000 square miles, often transported skilled woods foremen and rangers as far as 1000 miles overnight to attack fires in hard-pressed areas. All of the 40 Beaver aircraft were thrown into the battle. From the Forest Service storerooms came nearly two million feet of hose, hundreds of canoes, thousands of pairs of blankets and mountains of groceries. Flaming woodlands were water-bombed, bulldozed, ploughed under, or beaten down with power and pack-pumps. And the toll of damage this year was held to 65,000 acres as compared with the disastrous fires of 1948 which covered more than 600,000.

It is pointed out by the Canadian Forestry Association that the gigantic task of the Ontario Forest Service was due to public carelessness which set the woods ablaze. Aside from a limited number of lightning fires, the incessant labors and expenditures of forest protection staffs aim to suppress hundreds of incipient conflagrations created by reckless humans in their woods travels.

CINDERELLA SCHOOL HOUSES

The rural school is one of the most important assets in a country community. It is here that the farm youth of the nation spends most of its formative years. Knowledge is ingrained in young minds. Habits and attitudes are formed which may have a vital bearing on behaviour during adulthood.

Yet, the rural school is too often overlooked as a possible "Cinderella" of the district. Examples are scattered all across Canada—dingy and uninspiring structures almost apologetic in their interior and exterior shabbiness. According to psychological studies over recent years, a depressing environment during a boy's or girl's impressionable years could be the basic cause of maladjustments in later years.

Drab surroundings, however, can be easily remedied by the scientific choice of colors before a paint job. A manual just published for teachers and trustees by Canadian Industries Limited, says that color helps form viewpoints and attitudes of school children who, through the creation of a similar environment, may enjoy their school as much as their home. In much the same sense they tend to become more orderly in their habits, gain more respect for well-kept premises and show less tendency to deface them.

Proper color conditioning makes it possible for children to see more accurately and with less fatigue. Their health, as related to nervous strain, is improved and their alertness increased. Teachers also benefit when classrooms are painted in harmonious, gay colors by being stimulated to arrange more attractive displays.

Color, while not a cure-all for many problems of educating the young, can be of help in solving some of them.

CIGARETTE SMOKERS — BEWARE!

Cancer specialists are becoming increasingly concerned about the rising incidence of lung cancer and its possible relationship to excessive cigarette smoking, says an editorial in the Toronto Star. In an address to the Canadian Cancer society last week, Dr. John F. King, an official of the American Cancer society, pointed out that recent investigations in the United States revealed that cancer of the lung is 10 times as common among cigarette smokers of long habit than among non-smokers.

British scientists have also been studying the problem. A study of 3,000 men and women suffering from cancer of the lung and other chronic ailments showed that smokers, and particularly heavy smokers, more frequently develop lung cancer. Other of the study's findings were: (1) Inhaling appeared to be unrelated to the risk of developing lung cancer; (2) no particular brand of cigarette was incriminated more than another; (3) pipe smoking was slightly less dangerous than cigarette smoking. In the medical magazine, The Practitioner, appeared this indictment of nicotine by a South African physician, Dr. J. Mibashan: "Nicotine is one of the most toxic alkaloids known. The alkaloid present in an average cigar, if injected into a vein, would represent two fatal doses to a man." In the same edition of the magazine, Dr. Mibashan listed the following "six stages in the life of a smoker":

(1) Pleasure at 20; (2) Irresistible routine at 30; (3) Painful addiction at 40; (4) Cardio-vascular poison at 50; (5) Emphysema, angina or carcinoma at 55; (6) Death certificate at 60 or after.

EDITORIAL NOTES

At this season of the year do you become "Football Crazy," or are you one of those abnormal persons?

One of the many things that we don't like about winter is that a fellow has to spend all the money he saved last summer because he didn't have to buy fuel, to buy fuel, if you get what we mean.

If you receive a package of Christmas Seals from the St. Lawrence Tuberculosis Association, don't return them. Instead, send a donation as will be requested. The money derived from the sale of these seals does wonders in helping to fight the spread of tuberculosis in the United Counties.

It's later than you think! There are only 36 more shopping days before Christmas. For your own benefit and those who serve you, do your Christmas Shopping early and do it in Winchester, where local merchants are well prepared to meet your needs.

Hockey has become such a money game that many teams which operated just over or under the line last year have been forced to withdraw this year. This situation not only prevails here, where the Senior B Ontario-New York League is still not certain of its entries, but in every part of the country. There are many reasons for this alarming condition in Canada's national sport, but the "brass" continue to ignore the facts, until one day it will be too late. It is nice to know, however, that there are a few amateur teams left, giving the fans some good hockey. Such is the case of the Winchester Junior Hockey Club, which this year will again be the main attraction at the Winchester Arena, Under the circumstances, asking for the support of Winchester and district fans is not asking much.

"So that's what they use to feather their nest!"

As yet, Santa Claus hasn't announced the date of his pre-Christmas visit to Winchester, but no doubt the 100 Club and local merchants will soon get in touch with the old gent and arrange for him to appear in person and hand out treats to the kiddies some Saturday afternoon before the Yuletide Season is here.

It's the chap who thinks that money grows on trees who frequently gets caught out on a limb.

"No thank you, I have one."

"Then, would you mind letting go of my necktie?"

Prayer For Motorists

God, give me health and common sense
To drive the way I ought,
To watch the road and follow all
The rules I have been taught.

I will observe the signs that say
To stop or lessen speed,
And when some child appears ahead,
I will take special heed.

I will be careful at each turn,
Of motions that I make,
And let the other driver know
The course that I would take.

I will be mindful of the wheel,
The pedals on the floor,
The shift, the mirror, instruments,
And tightness of each door.

I promise to be sober, God,
And always drive my best;
Just give me health and common sense
And I will do the rest.

THE MIXING BOWL

BY Anne Allan
HYDRO HOME ECONOMIST

CHEESE

Hello Homemakers! Do you recall these facts: Cheese is rich in the proteins and minerals that are necessary for body building and repairing. When compared with fresh milk, a one inch cube of cheese represents 1 glass of milk. Finally, cheese tastes as good with the breakfast toast as the added treat with apple pie at dinner.

Take A Tip

1. Keep a little grated cheese on hand. Place in a twist of aluminum foil, then tuck in a covered jar and store in the electric refrigerator.

2. Sprinkle a tablespoon of grated cheese into each baked potato that has been "busted."

2. Sprinkle grated cheese over each dish of cream soup.

4. Add a few bits of cheese to each baked apple.

5. Crumble old cheese into mashed turnip, pumpkin or squash.

Cheese Cutlets

2-3 cup grated cheese, 2 cups of mashed potatoes, 4 tbsps. chili sauce, 1 cup mashed lima beans, 1 tsp. salt.

Combine ingredients and shape into cutlets about 1-2 inch thick. Saute in a small amount of fat and serve with celery sauce or hot condensed celery soup. Serves 4.

Cheese Casserole

1 cup soft bread crumbs, 2 cups milk, 2 eggs, separated; 1 cup grated old cheese, 1-2 tsp. salt, 1 tbsp. parsley, 1 cup canned peas.

Soak bread crumbs in mik for 10 minutes. Stir in the beaten yolk of eggs. Add cheese, salt, parsley and peas. Fold in stiffly beaten egg whites. Turn into buttered casserole. Sprinkle a few dry crumbs on top. Bake in preheated electric oven of 350 degrees for 30 minutes. Serves 4 to 6.

Cheese-Crust Pie

3 tbsps. butter, 3 tbsps. flour, 1 1-2 cups milk, 1-4 tsp. salt, 1-8 tsp. pepper, 1-8 tsp. mustard, 1 can luncheon meat, 1 cup canned peas, 2 hard-cooked eggs.

Heat 1 cup milk and stir in a paste made of mutter, flour and 1-2 cup milk. Add seasonings, cubed luncheon meat, drained peas and sliced cooked eggs. Pour into casserole (10x6x2 inches) and top with pastry.

Cheese Pastry: Stir 1-4 cup butter into 1-4 lb. processed nippy cheese. Blend well. Mix in 3-4 cup sifted flour. Press into a ball and chill in wax paper before rolling out as pastry dough for top of meat pie. Prick rolled out dough before fitting on casserole. Bake in electric oven of 400 degrees for 20 minutes.

THE QUESTION BOX

Mrs. J. R. D. asks: How do you cook wild duck?

Answer: If it's mallard duck, stuff with pieces of soft bread, slices of onions and 2 slices of lemon. Refrigerate overnight, remove and discard stuffing as it will have absorbed any "fish" flavour. Wipe the duck with a cloth dipped in vinegar-water. Stuff the bird with a mixture of boiled rice and fried bacon bits or sauerkraut. Roast in covered pan for 40 mins., then uncover and roast another 20 minutes in oven of 350 degrees.

Mr. C. B. asks: What can we add to minute rice to induce wild rice flavour and how is the dressing for wood duck prepared?

Answer: If you cannot purchase wild rice, buy brown rice. Boil 1-2 cup brown rice in 1 quart boiling salted water. Drain and rinse in sieve. Meantime, fry 5 slices of bacon, minced, and 1-3 cup sliced onions. Then add to rice along with 1 minced tart apple, 1-4 tsp. sage and salt and pepper. Spoon into the duck. (Remember, you may only shoot 1 wood duck.) Roast in oven of 350 for 1 1-2 or 2 hours. Cover for first 30 minutes.

Miss M. H. asks: Can you advise us how to make croquettes neatly and quickly?

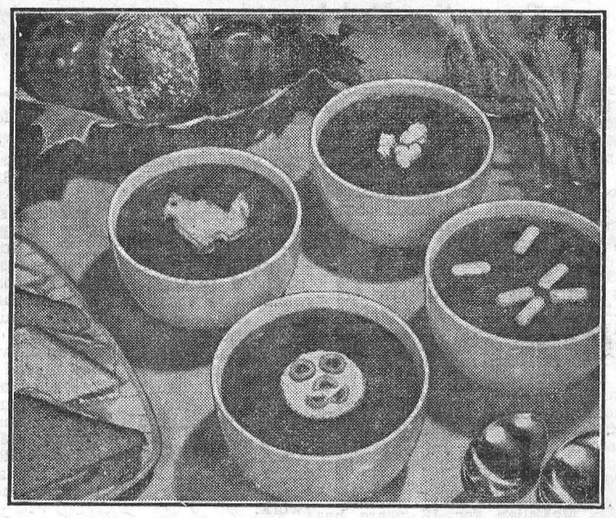
Answer: Keep a saucer of flour handy and dust your hands with it each time you shape meat mixture into a croquette or press mixture gently into cone-shaped drinking cups and turn into muffin tins. Bake in hot oven for 30 minutes.

"Did you hear about Joe? He went blind from drinking coffee."

"Really. How did it happen?"

"He left the spoon in the cup."

Fix Warming Lunches For Fall Days



BRISK and breezy fall days turn thoughts about food towards satisfying hot specialties like steaming soup. Just what your youngsters appreciate for lunch.

After all the morning activity, the school-agers are plenty hungry. Oh boy, it's good to sit down to a big bowl of vegetable soup and a sharp cheese sandwich. They may need seconds on both soup and sandwich to fill all the hollows; but they're well filled with nourishing food after this kind of meal.

Luckily good hot soups of many kinds are at your command. Just reach to the shelf for any of the "21 kinds" of condensed soup. And you can mix one flavor with another too. Try tomato with beef noodle soup.

Fun too is the way you can garnish a bowl of hot soup so it really catches the eye. How about fluffy white popcorn or a toast animal (cut with cooky cutter) atop tomato soup. Or make a funny face with a cracker to float on soup; spread cracker with cheese (use olive bits or nuts for eyes, ears and nose). These are fun for parties as well as everyday meals. Perhaps your gang will like soup with funny-faces on Halloween

Soup 'n Sandwich Lunches
(Eat at home or tote to School)

Tomato Soup (popcorn garnish); Egg salad sandwich; Apples, Doughnuts.

Vegetable Soup (crisp bacon garnish); Tuna salad sandwich; Apricots; Ginger cookies.

Bean with bacon soup (sliced browned franks for garnish); Cheese-olive sandwich; Banana; Chocolate brownies.

SOUP SCOOPS

Win prize with Tomato Macaroni: You'll carry home the prize from the potluck supper if you take a casserole of Macaroni and Cheese—made with tomato soup. There are two easy steps. Make sauce by blending 1 can (1¼ cups) condensed tomato soup with ½ cup milk and 1½ cups shredded sharp cheese. Heat over low heat till cheese melts. Blend sauce with 4 cups cooked macaroni. Pour all into a buttered 2-quart casserole. Top with more grated cheese and buttered bread crumbs. Bake 20 minutes in hot oven (400°F.). 6 servings.

Serve a Bean Banquet: Skillet browned, juicy ham and a helping of beans and pork makes a supper that's a banquet. To make 4 servings, brown a 1-pound slice of precooked ham in skillet; cook some fruit (apple wedges, canned peach halves and/or sliced bananas) along with the meat. Remove meat and fruit from pan. It there's an excess of fruit juice, pour off all but ⅓ cup. Pour into skillet 2 cans of beans; heat till bubbling hot. Serve with ham. Crisp cabbage slaw with chopped green pepper completes this meal.

FEED NEWS

CUSTOM MIXED LAYING MASH

For anyone who prefers feeding a custom-mixed laying mash, the following mixes will give good production at low cost:

100 lbs. X-L-O Poultry Concentrate (35%).
100 lbs. Ground or Rolled Oats (Extra No. 1).
100 lbs. Gr. Barley (No. 1 Feed).
100 lbs. Rolled Wheat (No. 5).
100 lbs. Gr. Corn (No. 2 Yellow).
Total 500 lbs.
Protein—16.6%.
Cost per 100 lbs., $3.77 (in 500-lb. lots or more).

A higher protein mash may be mixed with more Concentrate and less grain.

200 lbs. X-L-O Poultry Concentrate
300 lbs. Gr. or Rolled Oats.
200 lbs. Rolled Wheat.
100 lbs. Ground Corn.
Total 800 lbs.
Protein—18%.

Cost will vary with market changes but unless grain prices go higher a fairly low cost feed can be made in this way.

We will be pleased to help figure out a mash of higher or lower protein level, or a pig or dairy ration in the same way.

Local grain will give satisfactory results in a mash if the grain is heavy enough. Extra ground or rolled wheat or ground corn may be added to reduce fibre and prevent loss of body weight in the laying flock if lighter quality grain is used.

"Christ,The Saviour"

"A missionary by the name of Hotchkiss had a great deal of trouble finding a native word meaning Saviour. For months he limped along in his preaching, trying to get across the Good News of Salvation. One night a black man began telling about the hunter whom he had rescued from a lion. "What was it you did for this hunter?" asked Hotchkiss. "Why, I saved him," was the answer. Hotchkiss jumped to his feet. "That's the very word I have been hunting for!" he cried. "It's what Jesus came to do—to save us from sin and the devil." The native's face lighted up. "Oh," he replied happily, "now I understand what you've been trying to tell us."

DISTRICT FARM HOME DESTROYED BY FIRE

Fire of unknown origin destroyed a two-storey frame house early last Thursday morning at Orchardside, four miles south of Chesterville.

Owners of the building, Mr. and Mrs. Emerson Barkley, were able to save a few household effects, but total damage is expected to be in the vicinity of $5,000.

Chesterville Fire Department answered the 2 a.m. call when flames were first seen coming from the roof of the house. Lack of water held up efforts to save any of the building. The house is believed to be partially covered by insurance.

KIRK RIDGE FARM FORUM

The opening meeting of the Kirk Ridge Farm Forum was held Monday evening at the home of Mr. Fenton Hyndman. After the broadcast two groups were formed, under the leadership of Bun Martin, to discuss the topic: "The Agricultural Representative and The Farmer." It was agreed that the services performed by the Agricultural Representative were helpful and numerous, including pamphlets, soil sample boxes, clover and legume cultures, and sponsoring many Jr. Club organizations. What we require of the Agricultural Representative are suggestions on how to increase farm revenue by efficient management, a speakers' pool for information, a weekly report of farm conditions put in the local paper, bulletins in the paper instead of the local office, and a more centrally located office when it is moved. We can assist our representative to contact more farmers by welcoming him to a Farm Forum meeting if he has the time to attend. There he would be able to meet more farmers on an individual basis. Something could also be accomplished by his attendance at the Farm Forum rallies, as he has already done.

In the new business period, the Folk School Committee gave a brief report on the progress of the Dundas Folk School, to be held on November 20-22 at the home of Harold Allen. An official delegate, Mrs. Eileen Clifford, was elected. After adjournment, games were enjoyed and a tasty lunch was served by Mrs. Nancy Hyndman.

ROCKETS OVER THE CARIBBEAN

We notice that The Star Weekly, November 14th issue, publishes a very informative article written by William Stevenson, giving an excellent picture of what the future holds for man when he takes to the air. There's a new kind of air power now, and experiments that are taking place above the Caribbean in guiding super-fast projectiles along an 800-mile run, only hint at the future.

Montreal's $100,000,000 expansion program, adding 4,000 new beds for the care of Montreal's sick, is the biggest hospital news of the year. The Star Weekly covers this story in this week's issue also.

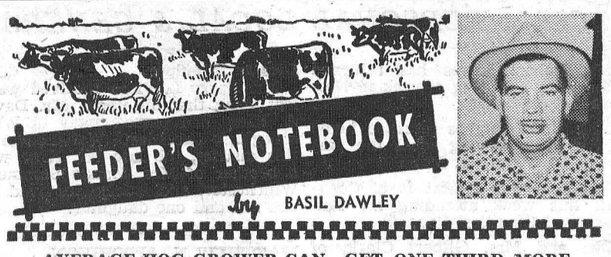
MEASURING THE BORES—Tunnel template being used in British Columbia to prepare 44 district tunnels for the arrival of Canadian Pacific Railways' "scenic dome" observation cars next year, is an accurate, efficient, if makeshift contraption consisting of two-by-fours and twigs. Acting as delicate template "fiingers," the twigs probe the sides and arc of tunnels, and irregular, projecting rock is later stoped, or excavated. Here, a C. P. R. crew commences work in a curving tunnel west of Kamloops on the Vancouver Division.



AVERAGE HOG GROWER CAN GET ONE-THIRD MORE

You can't afford to be "just average" as a hog grower when you could be making one-third more profit from your hogs. Although the national average is only slightly more than six pigs weaned per litter, your sows should produce eight or nine good hogs every farrowing. And the chances are they will, if you follow a good program of feeding and management.

Right now, during the sow's gestation period, is the time to start building these extra pigs and profits. When the sow is bred, usually nine to twelve or more eggs are fertilized. If the sow is in good nutritional condition, baby pigs develop from these embryos and you get a large litter of big, husky pigs at farrowing time. But if a sow is in poor condition she may resorb some of the unborn pigs. That's what happens far too often. Pigs that you never even see are lost.

To get one-third more pig profits, sows must be fed and managed so they'll be in top nutritional condition all the way. Grain alone is a deficient ration. It doesn't contain all the vitamins, minerals and other nutrients a sow needs to maintain her own body at the same time she's building a litter. Home grown grain has to be balanced out with supplement to make the complete ration needed by the sow for production to her maximum ability.

A one-to-four ratio of high quality balanced supplement to grain is necessary in dry lots. One-to-five is sufficient on good pasture. Your sows should be hand-fed enough of this mixture each day to keep them in good condition, but not fat. Four to six pounds per day, depending on the size and condition of the sow, is usually enough.

Good hog raisers aren't content to be average. They feed and manage their sows to raise litters one-third bigger than the national average.

HOUSEHOLD HINTS

Starching Organdie

To starch organdie collar and cuff sets, dip them into the water in which rice has been boiled . This will make them just stiff enough.

Paint On Floor

Raw ammonia will remove paint spots from a wood floor. Be careful not to allow the ammonia to remain on too long, as it will eat into the wood.

Plant Care

To rid a plant of aphids, save the soapy water when you wash your hose or undies at night. In the morning, when the water is cool, pour it over the plant and the soil.

Softer Hands

When the hands become hard and roughened, soak them in warm water and while they are still wet, rub them in olive oil until the skin has absorbed as much of it as it will. Then dry the hands thoroughly.

Greasy Pans

Pour a few drops of ammonia into every greasy roasting pan after filling the pan with hot water. If the pots and pans are treated in this way immediately after using, and are left to stand until time to wash them, the work of cleaning them will be found half done.

Sharper Scissors

Place the neck of a glass bottle between the blades of the shears or scissors and close them briskly upon it as if trying to cut it off. The smooth glass will glide the full length of the blades, from base to point, and 15 or 20 repetitions will produce a good cutting edge.

Waffle Iron

An electric waffle iron may be kept bright and shining, inside and out, with ordinary baking soda. Of course, water must not be used, for fear of injuring the heating elements. Simply add the soda dry with a dry brush, and all grease and discoloration will disappear.

Washing Furniture

Excellent for washing furniture is a solution made of one quart of boiling water, three tablespoons of linseed oil and one tablespoon of turpentine. Wash one section at a time with a soft piece of flannel dipped in the solution, then dry the furniture with cheesecloth.

Furniture

To polish highly finished furniture, make a suds of pure castile soap, and with a soft sponge or cloth, go over a small surface, rubbing it perfectly dry with a soft silk handkerchief before wetting another portion.

W. H. S. NEWS NOTES

(By Beverley Hunt)

Winchester has done it again! Yes, on Friday afternoon, November 6th, the Winchester High School rugby team won still another rugby game. This time it was the Cardinal team which suffered a setback of 39 to 36. Winchester is still the only team in the league which has never been defeated this season. Friday's game was the first one in the playoffs. The final game will be played between Cardinal and Winchester at Cardinal this Friday, November 13. The team having the highest total number of points from the two games will be the proud holder of the Eastern Ontario Championship. Good luck, boys!

* * * *

Friday was an important day at Winchester High for still another reason. Our schoool had the honour of being visited by the principal and part of the staff of the new South Carleton High School at Richmond. The teachers were interested in observing the classes and discussing various courses.

Mr. W. W. Powell, principal of the Carleton School, arrived in the morning. Problems in school management and school organization were discussed by him and our own principal, Mr. J. H .Wlilard. Later in the day, Mrs. H. Ross, Home Economics teacher, Mr. N. Eisele, Agricultural teacher, and Mr. P. Caddick, Shop teacher, arrived. Each of these teachers visited the classes in which he or she was interested and noted the various methods of teaching at our school. Tea was served by the Home Economics department, under the supervision of Mrs. Slingerland.

This type of visit is a new step in inter-school co-operation, and may in time, become a standard procedure between schools. In this way teachers would be able to observe and compare different modes of teaching, and thus this system could work to the advantage of all concerned.
