BY'S LINE TODAY

What some people don't know about driving would fill a hospital.

CRUMBS from Graham's Loaf

One of the nice things about conventions is they don't last too long. If they did, there would be quite a few weekly editors who would never be able to get to work for a week. But we did have a lovely time in Western Ontario. The weather was hot, the hospitality open-handed and the conversation never dull. And everyone was in the same over-worked mood. After a time, we realized our tune was not a bit different, so changed the record.

We had never ventured as far on Ontario's new roads as London. The last time we were there was in 1934 and the difference is just a mite striking. The new 401 double road seemed to tempt the Red Monster out of its usual sedate pace of around 30 miles an hour. In no time at all we were whipping into London Town, looking for the hostelry where all the hungry editors were settled in.

We paid a flying visit to a summer resident of the Castle who is spending the next couple of months in room 410 at the Toronto General Hospital. She had decided to take the waters there for a spell, and her reports on hydrotherapy in a heated swimming pool were rather intriguing. We in the Castle now rear back and announce our sister is taking the same kind of treatment as FDR, although not for the same reasons. It has been suggested in some quarters a little water might be of benefit to this loafing member of the clan. At the moment the suggestion is being mulled. Did they mean for washing, making better tea or washing the dog?

Occasionally the loafing corner is almost devoid of crumbs. Everyone is so busy getting over the first long holiday, hardly any news was made that we could print. Even the weather has been reasonably satisfactory, even though the hot spell was a little sudden. For a while it seemed the August days of the 90's had arrived with a breathless rush. For a person whose blood was still a mite thin from winter's ravages, the heat felt like a passing breath from a hungry dragon.

The old river is putting up its worst face to the sun at the moment. Every year, before the June day the dam goes in, the river bottom shows more and more. It leaves something to be desired. Another week or so, and its dental work will be out of sight, including old tires and rusty cans.

Stormont District Women's Institute celebrate Fiftieth Anniversary

Mrs Arnold Loverin, of Newington, president of Stormont District Women's Institute welcomed guests and members who came to celebrate the fiftieth anniversary of the first District annual meeting of Stormont Riding which had been held in Finch on June 16, 1913 at the home of Miss Hamilton.

The first District officers were: president, Mrs Jake McQuaig, Finch; vice-president, Mrs Eastman, Cornwall Centre; district secretary, Mrs Ethan Marcellus, Finch; district directors, Mrs McDonald, Finch, Miss Robertson, Cornwall Centre.

Avonmore, Cornwall Centre and Finch were the first three branches in Stormont Riding.

At the 1962 Stormont District Annual, Mrs H. J. Sheldrick of Vars, Provincial Board member of F.W.I.O., Eastern Area, subdivision 1, gave her report of the Spring Board meeting and urged members to attend the Ottawa Area Convention in the Fall. She told of the formation of a new office in Women's Institute work. A Curator is to be chosen in each branch to take care of the Tweedsmuir History Books, which are such valuable records of our history in this area.

Miss E. Kidd, of Home Economics Branch, Department of the available Training Schools and Short Courses which are open to all women in the community. The Training School topic for this year will be "143 pounds of meat."

Miss Alison Reid, Home Economist for Stormont, Dundas, Glengarry and Prescott Counties, reported on the successful activities of the 4-H Homemaking Clubs in Stormont and welcomed the organizing of two new clubs.

The election of officers was conducted by Mrs H J. Sheldrick and she welcomed back into the chair, Mrs Arnold Loverin, of Newington, as District President.

The following officers were elected: honorary president, Mrs Arthur Cavers, Newington; 1st vice-president, Mrs Robt. Esdale, Long Sault; 2nd vice-president, Mrs Garnet Alguire, R. R. 1, Long Sault; secretary treasurer, Mrs John . Grandaw, R. R. 1, Newington; district delegate, Mrs Arnold Loverin, Newington; alternate, Mrs A. Rutley, Berwick; federated representative, Mrs E. Montgomery, Finch; alternate, Mrs J. Sherman, Newington.

Convenors of Standing Committees: agriculture and Canadian Industries, Mrs Hugh Warner, Long Sault; citizenship and education, Mrs Wm. Maginnis, Lunenburg; historical research and current events, Mrs Stuart Beggs, Crysler; home economics and health Mrs John A. Buchanan, Moose Creek; public relations, Mrs Stuart Markell, Ingleside; resolutions, Mrs Allan McKinnon, Avonmore; safety convenor, Mrs Fred Rupert, Dixon; curator, Mrs Garnet Alguire, R. R.1, Long Sault; auditors, Mrs Wm. Fritz, Ingleside, Mrs Stuart Markell, Ingleside.

Mrs Joseph McCleverty, of Ingleside, gave the report of the Radio Commentator, and spoke of the fine co-operation of the C.J.S.S. Radio Station staff and thanked Mrs Hugh Esdale of R.R. 1, LongSault, who had assisted her through the year.

Mrs E L. Filion, of Avonmore, president of Federation of Agriculture for Stormont, gave her report on Safety Council work .

Mrs Donald McIntyre of Finch welcomed the members and guests to Finch Community Hall and Mrs L. McGinn of Newington, replied and thanked the Finch Branch for the lovely anniversary cake and flowers for this special occasion.

A musical interlude was enjoyed as Mrs Earl Droppo of Finch, accompanied on the piano for the duet by Mrs Bob Armstrong and Mrs Hugh Rombough of Finch.

Mrs Albert Alkerton of Long Sault, gave the courtesy report for the day.

Down at Finch last Wednesday, Stormont District W.I. celebrated their 50th anniversary. The ladies spent the day in general business, interrupted by a pleasant interlude of lunch and reminiscences. We arrived just after the anniversary cake had been cut. Seated from the left are: Mrs John Grandaw, secretary-treasurer; Mrs Arnold Loverin, president; Mrs J. Sheldrick, Vars, board member; Miss Eleanor Kidd, Toronto, Home Economics branch, Department of Agriculture; back row: Mrs Arthur Cavers, honorary president; Mrs Don MacIntyre, president of Finch W.I.; Miss Alison Reid, home economist for the counties.—Record Photo.

Glider makes landing at Fair Grounds on Sat.

Chesterville saw something a little different Saturday afternon with the appearance of a glider. The blue and red craft, after circling the village many times, finally came to rest on the fair grounds.

Pilot Norm Tucker, of Ottawa, reported he was taking part in a competition. He and fellow pilots were attempting to soar from Pendleton, their home airport, to Morrisburg, turn and fly back to Pendleton.

Running out of favourable air currents, Mr Tucker was forced down here, and a number of other gliders came to rest in the area due to the same reason.

The gliders are towed into the air at Pendleton by means of an airplane. Once aloft, it is up to the pilot of the single-seat, motorless craft to find air currents to carry him along. For every 1,000 feet altitude gained in this manner it is possible to travel about five miles. Below 1,000 feet, the pilot looks for a safe place to land.

The glider, an English-made Skylark, is constructed of plywood and fabric and has a wing span of 60 feet. It weighs 550 pounds and can carry a 250-pound load (including pilot). A parachute is carried as well as oxygen equipment in case of very high altitudes. Landing speed Saturday afternoon was 40 miles an hour.

Mr Tucker has flown as far as 160 miles, with the record of 465 miles being held by a Russian.

Upon landing, the pilot called the airport to send a truck for the glider which is then taken apart (three experienced men can do it in 20 minutes) loaded and taken back to base. If the field is large enough for take-off, a plane tows the glider into the air and it is flown home.

Mrs A. L. MacLean marks 90th birthday

A very pleasant event was arranged by Mrs James MacMillan, Miss Cassie MacMillan and Mr and Mrs Basil Crawford and took place at the home of Mrs James MacMillan, Minto St., Finch, on May 15th, the occasion being the 90th birthday of Mrs MacMillan's mother, Mrs Alexander L. MacLean.

A large number of friends and relatives called during the afternoon and evening to offer their congratulations and drink a friendly cup of tea with Mrs MacLean.

Among the guests were Mrs MacLean's only brother, Mr A. E. Rutley and Mrs Rutley, Cornwall, and her two sisters-in-law, Mrs Jas. Winters and Mrs Lorne MacLean.

The rooms were beautifully decorated with flowers, dainty gifts and cards received from relatives and friends. Serving were Miss Vonnie MacMartin, Mrs Hugh Cameron, Mrs H. C. Nugent, Mrs Earl Droppo, Mrs W. C. Johnstone and Mrs C. Gove.

Mrs MacLean was born in Osnabruck Township, May 15th, 1872, daughter of the late Mr and Mrs Josiah W. Rutley. On July 12, 1893, she married Alexander L. MacLean who predeceased her on October 12, 1949. Since then Mrs MacLean has lived in her home with Mr and Mrs Crawford MacLean in the summer and spent the winter winter with her daughter Mrs MacMillan, Finch village.

Eucharistic Crusade Communion breakfast

The members of the Eucharistic Crusade of Saint Mary's School held their annual Communion Breakfast on Sunday, May 20, at McCloskey Hotel. The tables were beautifully decorated for the occasion by Mrs and Mr Hagan, who were on hand to welcome all who attended.

The small chairman, Elaine Sauve, who conducted the programme, called upon Father Collins to address the Crusaders Father congratulated the members on their work and stressed the impression which should be made on the mind of each by this special occasion.

Anna Derks introduced the guest speaker, Mrs Paul Prud' Homme, who reminded the Children of their duties as Crusaders, and held up, for their imitation, the life of the little Crusader, Janis Babson, the heroic little Ottawa girl who donated her eyes to the eye bank. Leo Moriarty offered a token of thanks on bhalf of all present to Mrs Prud'Homme for her beautiful address.

At the closing of the breakfast, Elaine Sauve thanked Mr and Mrs Hagan for the time they had spent in providing for this special celebration,

lage blitz on April 9th, then sickness hit some of our canvassers, and mauy call-backs resulted in very delayed returns. In fact the village canvass is not complete as yet. However the collection from Chesterville village will be close to $320.00 which compares favourably with former years.

Frank Cox, Chairman,
District Cancer Campaign

Gilbert–Fisher

The chapel of St. Andrew's College, Aurora, Ont., was the setting for a pretty wedding on Saturday, May 19, when Catharine Alice, daughter of Mr and Mrs Walter Fisher, St. Catharines, Ont., became the bride of Brian Cambrey, son of Mr and Mrs G. W. Gilbert, Chesterville.

Rev K. I. Cleator officiated and J. L. Bradley, St. Andrew's College, was organist. Mrs John Bright, Niagara Falls, Ont., was the bride's attendant and Dr J. B. Gilbert, brother of the groom, was best man.

After the ceremony a reception was held at the home of the bride's brother-in-law and sister, Mr and Mrs Charles Mortimer, Heath St. W., Toronto.

Mrs Gilbert graduated last week from Women's College Hospital, Toronto. Mr Gilbert will complete his course as chartered accountant next year.

Letter to the Editor

Crysler, Ont.,
May 22, 1962.

The Editor,
The Chesterville Record.

Dear Sir:

On behalf of the Crysler Mixed Bowling League we wish to thank the "Record" for publishing our bowling activities during the past season. It was very much appreciated.

Sheila Fleming,
Secretary.

Liberal Women's Assoc. hold meeting at Prescott

"Post office affairs have returned to the sorry days of conniving and patronage This is an established fact", said Walter J. Turnbull of Ottawa, former Deputy Post Master General and former secretary for Mackenzie King. He was addressing more than 60 members and guests at the May meeting of Grenville-Dundas Liberal Women's Association held at the home of Mrs Edna Baker, Prescott.

Mr. Turnbull said, "in 43 years of public service, over 20 of which were spent in a senior place, I never saw the slightest sign of the Liberals handing out favours to people who made contributions to campaigns. There no doubt were some, but none at the top level. The present Prime Minister knowingly contrives at patronage as part of the overall party policy. If questionable standards exist at the top, what is at the bottom?", he wondered.

The speaker described conversations with former post office associates and other self-confessed Tories who had informed him of this state of affairs.

Speaking of the Social Credit and the New Democratic Parties, he said, "They constitute a nuisance value to drain off votes from the Liberals. A vote for either to-day is a vote for Diefenbaker".

"Lester Pearson," said Mr Turnbull, "is a man trained for public life." He is a scholar, a Nobel Prize winner who made outstanding contributions to the United Nations and who has a record of solid accomplishment. On the other hand, John Diefenbaker, who was described by one of his supporters as being a "middling" lawyer in a small town, became Prime Minister with no training or experiesce, and having a psychopathic defect of temperament in his resistence to advice". The speaker described the Prime Minister as a "Master of delusion, deception, denunciation and dithering."

Mr Turnbull was introduced by Mrs Lillian Allison and thanked by Mrs Jean McLean and Mrs Edna Baker.

Dr. Bob Watters, candidate for Grenville-Dundas, briefly addressed the meeting. He said "If we can each bring one person to the Liberal poll we will win the election. It is as simple as that".

The meeting was conducted by Mrs Edna Baker, president, assisted by Mrs Jean McLean, secretary-treasurer. Members of the Brockville Association were present. Mrs W. Bannerman told of the successful organization of the Brockville Branch. Miss Ann Pearson of Brockville, presented a report of the annual convention of E.O.W.L.A. held recently at Elgin.

At the close of the meeting refreshments were served by the Prescott ladies.

$8,000 to be paid Hulbert cheese factory

Approval of a federal grant to assist modernization of a South Mountain, Ont., cheese factory was announced today by Mrs Jean Casselman, M.P. for Grenville-Dundas, on behalf of Agriculture Minister Alvin Hamilton.

The sum of $8,000 will be paid under the Cheese and Cheese Factory Improvment Act to help defray the cost of enlarging, insulating and refrigerating the cheese ripening room in the Hulbert Cheese Factory.

The federal assistance amounts to half the total estimated cost of the work.

90th birthday

The many friends of Mrs Henry Armstrong, Crysler, wish her "Happy birthday." She will be 90 years old on Saturday, May 26, and still takes a keen interest in the world around her.

CARD OF THANKS

I would like to express my sincere thanks and appreciation to all those who remembered me with cards, calls, treats and visits while I was a patient in Winchester District Memorial Hospital. Special thanks to Dr Duane Justus and the nursing staff.

Harry Gore.

92nd anniversary Presbyterian Church at Morewood

The 92nd Anniversary of Morewood Presbyterian Church was observed on Sunday, May 20th, with morning and evening services. The Rev. Donald L. Campbell of Pierrefonds, Que., conducted the services. Rev. A. D. Sutherland and Rev D. L. Gordon were present at the evening service and assisted Rev. Campbell.

Special Music was rendered by the choir under the direction of Miss Laura Hunter.

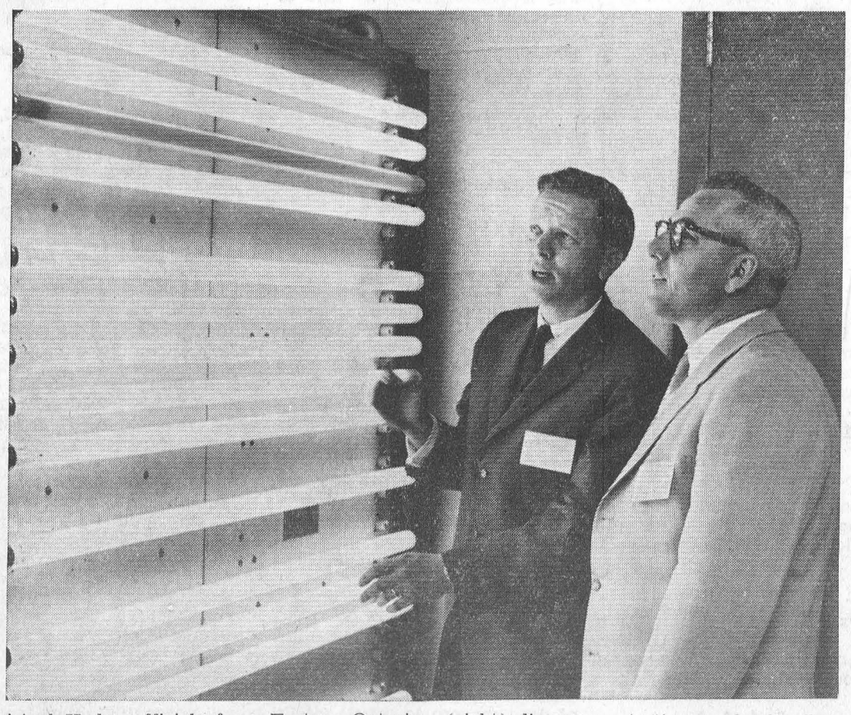
Spring flowers decorated the chancel. Many friends from neighbouring congregations attended the services.

Cancer campaign report

The generous response and widespread interest of the people throughout the Dundas County and District area has prompted our unit campaign chairman to inaugurate, through the co-operation of our local editor, a weekly resume of items of interest pertaining to the campaign that occur throughout the area.

At the very outset of our Chesterville activities the C.G.I.T. girls under the direction of Mrs Eric Casselman provided 100 nimble fingers to assemble 200 canvass kits in less time than it takes to tell about it.

The weather slowed up our vil-



Municipal Hydro officials from Eastern Ontario enjoyed a sneak preview tour of Ontario Hydro's new research laboratory during a recent trip to Toronto. Chesterville councillor George Laflamme (right) discusses a testing rack for fluorescent lights with W. J. Killough, public relations officer for Hydro's Eastern Region.—Hydro Photo.

Mrs Alexander L. MacLean, one of the older residents of Finch, received many visitors at the home of her daughter, Mrs James MacMillan, Minto St., Finch, on May 15th, on the occasion of her 90th birthday. All joined in wishing Mrs MacLean continued health and happiness during her remaining years. Mrs MacLean is still quite active in spite of her 90 years.—Record Photo.

OPINIONS . . .
OURS AND OTHERS

Perpetual railway strike threat should be eliminated

Once more the possibility of a rail strike hangs over the country, states the Cornwall Standard-Freeholder. If it turns out that there is a strike of Canadian National Railways yard and train employees on June 4 the consequences will be widespread and serious.

Such a strike would come at a time when immediate government action, which has been associated with recent rail strike threats, might be hampered by the imminence of an election. Of course there is a certain government mechanism always in being to cope with this sort of thing, but it will not likely function quite so freely when the House of Commons is dissolved.

It seems to us, and no doubt to most Canadians, that the time is at hand for some sort of control of the rail strike situation. The railways, the unions and the country have a great deal to gain and nothing to lose by any kind of arrangement that would avoid strikes and leave the railways as going concerns.

It would seem the unions have little to gain because the railway transportation industry is facing hard times everywhere on the continent. If the employees win greater wage increases than have been offered, the money will probably come, directly or indirectly, from funds that would otherwise be used to keep the railway lines competitive.

If the railways are brought low in the competition for business the first ones to suffer will be the people who work for them. Then the public will be hurt two ways, by the lack of adequate transportation facilities and by loss through the fact that the Canadian National is publicly owned.

It will take a great deal of skill to establish prolonged peace and stability in rail labour relations. But the benefits of doing so are so great that all concerned should work toward that goal. The Canadian public certainly hopes a rail strike will be averted and would like to see this perpetual threat eliminated from the scene.

What's ahead for teenagers

The remarkable scholarship scheme introduced by Imperial Oil for the children of its employees is precisely the kind of help that's needed to fit young Canadians for survival and success in a world where skills count.

The Financial Post reports that the company will pay tuition and other compulsory higher education fees for all its employees' children who get an average 70 per cent in their high school finals. The payments will continue for four years as long as the students successfully complete each academic year at a recognized Canadian university, institute of technology or similar institution.

Two facts of life which are not widely appreciated by teenagers and their parents make it clear that higher education is fast becoming an imperative rather than a dispensable luxury or "the thing to do" by the offspring of well-to-do families. This, plainly, is the reality that the Imperial scheme recognizes.

First. The remarkable progress of automation and the development of highly sophisticated computers make it plain that the under-educated will have an increasingly difficult time finding an unskilled job.

Machines now make and roll steel, mine coal, manufacture engine blocks, weave cloth, sort and grade everything from apples to bank cheques, analyze market portfolios, keep inventory records and automatically print new stock orders—and their versatility is growing by leaps.

The shape of things to come shows in the originality and unpredictability displayed by advanced computers. When taught to play checkers, for instance, such machines show a marked superiority to the teacher after a while —escaping the control of the man who made them.

Second. We are on the brink of a remarkable explosion in the teenage population with one million Canadian youngsters reaching work age during the next five years as came into existence during the past five.

With the Canadian economy likely to grow sowly for the next few years, it is obvious that the well-trained young people will be the ones who find an agreeable niche for themselves.

Whatever the means, whether it is company aid such as that of Imeprial Oil or government aid, the whole level of skills and abiilties in the Canadian economy must be raised if this country is to prosper in a world of mechanized accomplishment and violent competition

It's not likely that the kids can be sold on higher education by talk about national needs. But it might be pointed out to them it is the people with the degrees that make the most money.

Hard to teach safety

The public is urged to protect itself against various hazards by many agencies. If warnings could accomplish the deed, then there would be few, if any, auto accidents, fires or drownings. But we all know such things happen, observes the Cornwall Standard-Freeholder.

We also know few are completely accidental in the sense that they could not have been prevented if something different had been done, or what was done had been done in a safer manner. In spite of all that has been said or written, most people are not especially safety-minded.

For instance, the motor manufacturers report there is little demand for seat belts. Some executives in the industry think the reason is that people don't want to bother taking the extra two or three seconds required to actually attach them.

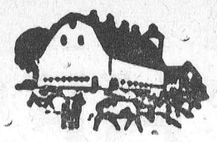
So long as this attitude prevails, life will be more hazardous than it needs to be. Yet the many safety campaigns are undoubtedly successful up to a point. Perhaps the real answer is that it is not possible to protect people against their own negligence because they don't realize fully they are doing anything wrong.

This wouldn't be too bad if it were not for the fact that lack of highway safety can and often does endanger the innocent as well as those who are negligent. The people who provide the most serious hazards are hardest to reach with propaganda.

The Ontario Safety League reminds drivers that an unlocked car is far more likely to be stolen than a car that is locked. A car is stolen every 20 minutes in Canada. A stolen car usually means loss to the owner, and danger to the public — because car thieves are liable to drive recklessly. You owe it to your neighbours, as well as to yourself, to lock your car when you leave it unattended.

Pedestrians: Avoid that run-down feeling.

FRENDLEE FARM CHATS



By Lillian Allison

If you're driving past Frendlee Farm some day and notice a small, black frying pan being hurled from the front veranda don't stop to witness a domestic battle (We never throw things.) Just say to yourself. "Well, he has finally done it."

I was busy chopping cabbage the other night for supper so I suggested that Harry stir the potatoes that were warming on the stove in a tiny, black metal frying pan. As he did so they erupted over its shallow edge and spewed themselves over the elment and the stove top. "Someday," he threatened, "I'm going to throw that frying pan as far as I can send it."

When I washed the thing after supper I rather wished he would. That little six-inch contraption was in the house when I arrived twenty one years ago. There are only two jobs it can do satisfactorily. It will melt butter when the recipe calls for it or it will fry one egg. Any attempt to fry two eggs ends in disappointment. They're cooked like leather on the bottom before the tops set. And of cource warming more than one spoonful of potatoes in it spells disaster.

Yet in all those years no one has had the courage to throw out the useless thing. A deep, cast-iron frying pan eight inches wide would cost under two dollars and could probably be managed without a bank loan. But instead of buying it we struggle away with this annoying little menace year after year. I wondered as I wiped it and put it back in the cupboard once more about the hundreds of small annoyances people put up with day in and day out.

There's a door somewhere right now that won't latch the first time someone shuts it. It takes a special bang to make its lock snap into place. A dollar's worth of hardware would probably fix it yet the folks who live there never bother about it.

I remeber an oven door in an old wood range where we used to visit. A little gadget had been broken so when the door wasn't latched shut it dropped all the way down to the floor. The lady of the house kept a stovewood stick handy and when she opened the oven door to let heat into the room she rested it on the stick of wood. Twenty cents would have bought the little device that would have held it up automatically.

I've seen a dish pan with a piece of rag plugging a small hole in its bottom Every so often a replacement was necessary. The housewife grumbled each time she repaired the pan but she probably went on repairing it until her dying day.

We used to have a hoe that would try the patience of Job. I could hoe to beat the band for an hour or so then the handle would come off It could easily be put back by banging it against a tree or a solid post but it seemed to arrange to come off when neither was very close by.

One pet annoyance around a house is a can opener that won't work. We had one that simply wouldn't make the first cut in the lid until after the tenth attempt. For over a year I tried everything but prayer then finally gave up and got a new one for 29c.

There's another thing around our place that is slowly driving me insane. It's a little footstool. I got four glasses to put on its legs so it wouldn't scratch the floor. They work fine as long as we remember to push it instead of lifting it. One small lift and all four glasses drop off. And it would drive you up the wall to try to put them back with only two hands. Each time I do I promise to glue them there but I've never done it. There's a plastic cover to keep the stool clean which blows off once or twice each time I vacuum and is most annoying too.

We were visiting the other night when a slow drip, drip began from the kitchen ceiling. "That's my brother taking a shower," the little girl explained. "It always drips like that if the shower curtain is outside the tub."

That was new to me but I've had lots of experience with dripping taps and running toilets. We took the lid off the tank and adjusted a rubber ball regularly for a while last winter. Then we invested in half a dollar's worth of repairs and fired it.

Perhaps Heaven will be a place where we can live without these silly little annoyances. But perhaps not. Without them most people wouldn't feel at home and I understand we're to be happy there.

Ancient History

FROM OUR RECORD FILES

40 years ago

May 25, 1922

With perfect weather conditions and a track in the finest condition, Chesterville this week saw one of the greatest harness horse race meets in the experience of the town.

* * * *

Winners in the ticket selling contest in connection with the recent races were Miss Helen Bogart, Miss Helen Black, Miss McGillivary, Miss Verna McLean, Miss Breta Redmond and Miss Olive Harper.

* * * *

Mr Francis McCloskey, of McGill University, is at home for the holidays.

* * * *

Mr Benny Myers, of Toronto, is spending the week with friends in town.

* * * *

Miss Dorothy Hummel, of Ottawa, spent the holiday with the Misses Mae and Fidella Hummel.

* * * *

Mr Frank Shirkey sold his property to Mr H. S. McMurray who will shortly move his business to the Water Street shop.

May 26, 1932

S.S. No. 10, Finch; best in spelling: Dora Chambers, Tessie Richmond, Clair Robertson, Rita Grady, Vincent Grady.

* * * *

Mr and Mrs J. E. Gray, Mr Charles McLean and Miss Small, of Ottawa, were weekend guests of Mr and Mrs Chris. McLean.

* * * *

Dr R. G. Dodds, Mr Harry Allison and Mr Albert Smith spent Victoria Day in Smiths Falls.

* * * *

Mr and Mrs W. H. Leroy, Ottawa, spent Victoria Day with Mr and Mrs Melvin Durant.

* * * *

Mr F. C. Marshall and his Sunday School class of Trinity United Church spent Victoria Day on the Rideau at Beckett's Landing.

Mrs Willard Rutley and daughter, Finch, spent Saturday with Mr and Mrs Wendall Henry, of Berwick.

* * * *

20 years ago

May 28, 1942

Prize winners at the euchre sponsored by St. Mary's C.W.L. were Mrs Mary Servage, Leo Coyne, Mrs B. Gibbons and George Reffue. Ray Masterson held the lucky ticket for a quilt donated by Mrs Mary Servage.

* * * *

Mrs Eli Harper met with a rather serious accident last Friday when her left hand became caught in the wringer of her washing machine while she was handling heavy quilts.

* * * *

Misses Audrey McIntosh, Ellyn Scott and Evelyn Boyd will be among the graduates at the Cornwall General Hospital on Wednesday.

* * * *

Miss Dora Mulhall, of Frankford, has been engaged to fill the vacancy on the high school staff caused by the resignation of Miss Frances Maloney.

* * * *

Mr and Mrs Otha A. Hutt, of Kingston, spent the weekend and holiday with relatives in town.

* * * *

Miss Jean Houlehan, Ottawa, spent the weekend with her parents, Mr and Mrs Thos. Houlehan.

* * * *

10 years ago

May 22, 1952

Denise Brady has been chosen to represent Chesterville Rotarians in the second annual "Adventure in Citizenship" sponsored by Ottawa Rotarians.

* * * *

Heavy rains have brought spring planting to a halt in this district.

* * * *

Mrs B. W. Lapp and Mary Jane, accompanied by Carolyn Durant, spent the weekend at Madoc.

* * * *

Mr and Mrs Harry Holmes and family spent Mother's Day with Mrs George C. Merkley and family, Nation Valley.

* * * *

Mrs John Young, Orchardside, was the guest of Mr and Mrs Floyd Young and Miss Isobel Young, of Dunbar, on Sunday.

* * * *

Winchester Township directors of the Dundas Plowmen's Association are Leonard Moriarty, Chesterville; Frank Casselman, Morewood; Gerald Kittle, Chesterville, and Don Shane, Chesterville.

The BIBLE TODAY . . .

Figures recently released by the Canadian Bible Society show the circulation of 315,926 copies of Scriptures in Canada in 75 languages during 1961. Of this, nearly 100,000 were whole Bibles. Canadian Citizenship Courts distributed over 22,000 free copies of the Word of God to New Canadians taking their oath of allegiance. The total number of Citizenship presentations made since the project began in 1955 stands at 155,767 copies of the Scriptures.

Canada's Armed Forces received 21,600 free New Testaments in 1961 from the Canadian Bible Society for presentations. The total given out since the beginning of World War I is nearly 1,500,000 volumes, most of which were New Testaments.

Since the work of the Bible Society began in Canada, some 25 million Scriptures in 130 languages have been distributed. After English the languages with the largest circulation in Canada are French, German and Italian.

Over 100,000 volumes in Canadian Indian and Eskimo dialects were circulated in the years 1952-1961, chiefly in Plains Cree, Moose Cree and Baffin Land Eskimo.

Bible Readings

Snday, May 27: Ephesians 4. 1-16.

Monday, May 28: Ephesians 4: 17-32.

Tuesday, May 29: Ephesians 5: 1-20.

Wednesday, May 30: Ephesians 5: 21-32.

Thursday, May 31: Ephesians 6: 10-20.

Friday, June 1: Psalm 8: 1-9.

Saturday, June 2: Psalm 66: 1-20.

Newington U.C.W. holds May meeting

Newington United Church Women held their May meeting in the Church hall on Thursday evening, May 10.

The president Mrs Melvin Waldroff in the chair, assisted by the secretary Mrs W. Pettit. 30 members answered the roll call.

Mrs R. Presley, chairman of the supply Committee reported the overseas bale had been shipped.

Mrs Gordon Ross reporting for the nominating committee named Mrs J. Webber and Mrs C. McGill, M. and M. representatives.

Mrs Waldroff announced the date of the Flower Demonstration had been changed to June 13 at 8 p.m.

The members voted to hold the June meeting a week later on June 21.

Mrs J. Webber in charge of the worship service, chose as her theme, "The Task of the Church," Mrs R. E. Rombough read the last chapter of Mathew.

Following the worship period, Mrs Webber presented as her program, a model meeting. She was assisted in this by Mrs J. Sherman, Mrs G. Ross, Mrs Smith, Mrs Tait, Mrs K. Russell, Mrs C. Vance. A brief question and answer period brought the program to a close.

Mrs Waldroff thanked the program committee and closed the meeting with Mizpah Benediction. Lunch was served and a social time followed.

SEED POTATO GROWING CAN BE PROFITABLE

With the advent of potato processing, contract growing, automation, changes in merchandising and concentration on specialization, most commercial potato growers in Ontario now purchase their supplies of seed each year. This volume naturally amounts to several hundred carloads. Supplies of popular varieties are not always available in Ontario. With this development, therefore, there are opportunities for more and more seed potato growers in Ontario.

The general use of foundation and certified seed potatoes is now a standard practice in Ontario. This was not always the case. Only a few years ago the planting of low grade potatoes, lacking type, vigour, and often of nondescript unlicensed varieties, was of deep concern to people vitally interested in the welfare of the potato industry. Commercial potato growers now realize "Good seed pays."

Varieties most in demand are Warba, Irish Cobbler, Cherokee, Keswick, Kennebec and Sebago. This year a new variety has been licensed named "Hunter". It is white, mid-season, resistant to several diseases, high yielder, and excellent cooking quality.

There is no charge for field inspection. Application must be made before June 15 on regular forms. These may be obtained from the Field Crops Branch, Parliament Buildings, Toronto; also agricultural representatives in every county and district or seed potato certification officials at Barrie, Ottawa, Guelph, London and Cochrane.

Seed potato growing is a specialized phase of farming that fits in exceptionally well with "family farm" operation.

New books bought for local library

Chesterville Public Library has purchased the following books: "Kirkland Revels" by Victoria Holt; "I Know My Love," Catherine Casken; "You Can Trust the Communists," D. Fred Schwarz; "Lady of Mallow," Dorothy Eden; "With Nelson at Trafalgar," C. M. Nelson.

Of particular interest to students in Grades 2 to 10 and to parents who read to their younger children is a complete edition (16 volumes) of "The Golden Treasury of Knowledge" containing 420 basic articles, with 2,500 coloured illustrations and maps.

POWER MOWERS

It will soon be time to start the lawn again. Horticulturists with the Ontario Department of Agriculture suggest that you check on the condition of your power mower now. Don't leave it till the last minute when the service centres are busy. The chances are that it will need the motor tuned and the blades sharpened.

When you are using your power mower this summer, don't forget that it can cut you as well as the grass, so treat it with respect. Here are a few suggestions to keep in mind.

Keep hands, feet and loose clothing away from all moving parts of the mower.

If the grass discharge opening becomes clogged, never try to clear it while the motor is running. It's a sure way to lose fingers.

Keep children out of the area to be mowed, and everyone out of range of the grass discharge opening. They can be easy targets for flying stones and other objects.

Don't mow the lawn in bare feet. If your foot should happen to come in contact with the blades, it will have no protection whatsoever.

Never cut down a slope, cut along it.

If you are going to work around the blade, disconnect the spark plug wire. Mowers have been known to restart from only the very slightest turn of the blade.

The power mower is not a child's toy. It should only be used by responsible people who appreciate its hidden dangers and treat it with the respect it deserves.

Never leave the motor running with no one to look after it.

HARDY ANNUALS

Thanks to their ability to withstand some frost, hardy annuals do not have to be started indoors, as do their weaker cousins. However, a little extra care will pay off later on, advise horticulturists with the Ontario Department of Agriculture.

Give them a good start with a well-prepared soil containing lots of plant food. Dig the ground to spade depth and work in some form of organic matter such as well rotted manure or leaf mould. At the same time add a complete fertilizer and work in well.

Before sowing, work the seed bed to a fine texture and rake it till it is flat and level. This will remove lumps and stones, and ensure more even germination.

Scatter the seeds over the soil surface and either rake them in gently or cover with a fine layer of soil. Be sure not to cover the seeds too deeply, especially if the seeds are small. The developing seedling is dependent on the food stored in the seed for its initial manufacture its own food until growth. It does not start to manufacture its own food until it is above ground. If the seed is too deep, the young plant will use up all its reserve food before reaching the surface, and die. A rule-of-thumb for depth of sowing is to cover the seed to not more than twice its diameter.

After sewing, water the seed bed with a fine spray, being careful not to wash away the covering soil. Keep the seed bed reasonably moist.

The seedlings should be thinned out when they are about two inches high. Crowded plants will never grow well.

AUTO PAWN SHOP

Pawnbroker W. Podbielski, of Port Elizabeth, South Africa, has opened an automobile pawning service. He stores hocked cars in a garage near his shop and he numbers society people among his customers.

Gordon Marcellus, 16 drowned at Morrisburg

Tragedy struck a heavy blow in Morrisburg Wednesday afternoon last with the drowning of 16-year-old Gordon Marcellus, son of Mr and Mrs Roy Marcellus, and universally esteemed student of Morrisburg High School.

His friend and cousin, Stephen Merrill, 16-year-old son of Mr and Mrs Dalton Merrill, escaped a similar fate, dut to prompt rescue efforts on the part of Stewart Hope and Carl MacDougall, and the quick thinking of two young boys who turned in the alarm. The boys were enjoying a boat ride on Lake St. Lawrence with young Merrill at the helm and Gordon as a passenger, when the accident occurred about four o'clock.

The 14-foot boat, equipped with a 25-h.p. motor, was travelling west on Lake St. Lawrence and had proceeded only a short distance when it was struck by a huge wave from an ocean-going vessel. The boat was thrown into the air, and both boys hurled into the icy water.

David Smith, 13, and Jack Notman, 14, mowing lawns at the Smith home, saw the accident. Young Smith immediately phoned to Stewart Hope, Morrisburg boat dealer, who had a boat and motor already loaded on a trailer. With his employee, Carl MacDougall, they raced to the scene and found Stephen, the stronger swimmer, using life-saving tactics and keeping his friend afloat, when the other boy lost consciouness. When the rescuers reached the exhausted swimmers, Stephen was dragged into the Hope boat, where he collapsed, but they were unable to reach the other boy.

Stephen was taken to the office of Dr E. Lambert for emergency treatment, and was later confined to bed at his home. Members of the Cornwall Underwater Search and Rescue Group were called and strove mightily until dark, and again on Thursday to find the drowned boy's body, but were unsuccessful. They were assisted in their search by volunteers. Both boys were students at Morrisburg High School. Gordon leaves two sisters, Marion at Ottawa Teachers' College, and Brenda, at home, and one brother, Arthur, 2½ years. Gordon was a grandson of Mr and Mrs Myles Marcellus, RR 2, Chesterville.

CARE IN PLANTING AIDS STRAWBERRIES

There is nothing like a nice dish of strawberries in a hot summer day, and the fresher they are, the better their flavor. They are at the peak of perfction just after they are picked, so why not have your own strawberry patch right in the garden? Here are a few tips from horticulturists with the Ontario Department of Agriculture on how to go about it.

You should get your plants into the ground as soon as possible, especially this year with early spring. It you haven't ordered them, do so right away.

Strawberries like a well-drained soil with lots of nutrients, so start by adding 1½ lbs. of a complete fertilizer per 100 square feet of soil. Scatter it evenly and work in well to make a good loose bed for planting.

If you get your plants before the ground is ready, be sure to store them at about 32°F., and don't let the roots dry out. If the plants are kept for any length of time at room temperature they will heat, with subsequent killing of the roots and rotting of the crown.

Before you start planting, cut off the dead leaves and runners, and trim the roots. To do this, gather the roots together in one hand and cut off the straggly tips with a sharp knife. This makes planting much easier, and rather than hurting the plants, it helps them to become established.

While you are handling the plants for trimming or when actually planting, it is absolutely essential that you do not let the roots dry out. If they look as if they are getting dry, dip the roots in a bucket of water.

If you get plants from a friend or from another bed in your garden, select those that have a well developed crown and an abundant white root system. Avoid plants with blackened roots or crown.

When planting, you have the choice of the "matted row", or the hill system which is useful for the varieties which do not produce good runners.

For the first system, set the plants 18 to 24 inches apart in rows that are 3 to 4 feet apart. Let the runners develop to fill out the row.

For tht "hill" system, set the plants 12 inches apart in the row, spacing 2 o 3 rows to 18 inches apart. Then leave 30 inches between this group and the next row. You should remove all runners as they develop during the growing season if you use the hill system.

When setting the plants in the ground, make sure that the midpoint of the crown is level with the soil surface. Buried crowns will smother and rot; crowns that are too high will often dry out.

Don't forget that you are planning for you main crop next summer, so for the best results remove the flower clusters this summer. This allows the plants to put their full growth into plant production, and will pay dividends next year.

Strawberries are shallow-rooted, so try to keep the weeds to a minimum, as they will shade your plants and rob them of moisture and nutrients.

U.S. RAILROAD USING "VALUE COUPONS"

The Long Island Railroad, which has been selling tickets for years, is issuing "value coupons", described as something between trading stamps and box tops.

The coupons, passed out free with each ticket sold, enables anyone who joins the railroad's free club, Legion of Influential Rail Riders, to buy a catalogue full of merchandise at prices said to be lower than discount.

Paul Blauvelt, a spokesman for the line, said the coupons would not be like trading stamps since by themselves they are worth nothing. But, he said, they will enable riders to buy a variety of things at "cheaper than discount prices."

The Legion of Influential Rail Riders can be joined by merely sending in an application which the communter can get at any ticket booth. It's free and already has 40,000 members.

The Long Island is the world's busiest commuter railway with more than 500,000 commuters daily.

MANY IDEAS TO ENLARGE A HOME

Almost every home has unused space that could be converted into livable extra rooms. In many instances, such space can be found in an unused attic, a section of the basement, a porch, an attached garage or carport. Or perhaps you could add on to the back or side of your house by knocking out a wall and expanding one of the existing rooms, or adding an entirely new room.

Often the least expensive way to get an extra room is to finish off the attic. Roof and subflooring are already there. The "expansion attic" house, the Cape Cod or many of the other high gabled types usually can be "stretched" simply by finishing floors and adding walls, heat, light and insulation.

Old or new, a house with a basement has built-in room for improvement, presenting practical possibilities for conversion into a recreation room, hobby room, family room, any of which may provide extra guest sleeping quarters.

Finishing this space for better appearance and greater function can be done with a modest expenditure for materials, such as hardboard or one of the western pine region woods.

It isn't necessary to start in the attic or basement in order to end up with a remodelled room. Porch or patio can can enclosed and finished with panelling or built-ins.

Remodelled patios and porches, particularly where adjacent to the kitchen, make wonderful family style dining-living rooms.

Another practical way to create extra living space is to build a carport or extra garage for the car, and convert an attached garage into the extra room you need.

Sliding storm and picture windows can be installed where the garage door once hung and sidewall broken through for smaller windows.

If you can't go up, down or sideways to find space for conversion into extra rooms, consider adding the necessary living facilities by building onto your house.

You will need expert help for this job. First, have your land surveyed to locate exact property lines. Next check with your building inspector to find out how far out you can go and still stay within bounds set by the zoning code.

Basic to any remodelling project is careful planning and the advice of experts when and where expert advice is called for. Even if you plan a do-it-yourself remodelling project, you might well decide to have part of the work done by a building contractor. Also, when it comes to the choice of material, your lumber dealer is your best authority.

Be sure to get Ontario Department of Agriculture bulletin, "1962 Field Crop Recommendations for Ontario", advises Stan Young, crops expert at the O.A.C. Copies will be in your county Agricultural Representative's office. They will list the best variety choices for the year.

NEWINGTON WEST

Spend weekend in Montreal

(Held Over)

Mr and Mrs Mancel Flegg spent the weekend with Mr and Mrs Charles Girdwood, Montreal.

Mr and Mrs Clair Vance spent Saturday with Mrs Archie Black, Kingston.

Mr and Mrs Walter Moak and girls spent Sunday with Mr and Mrs Dewey MacRae and family, Goldfield.

Miss Theo Helmer, Ottawa, spent the weekend with her parents, Mr and Mrs Wilfred Helmer.

Visitors and callers at the home of Mr and Mrs Wm. Moak on Sunday were Mr and Mrs Clair Dunbar and Brent, Cardinal, Mr and Mrs Edwin Clacher, Mr and Mrs Alcide Provost, Cornwall, and Mr and Mrs Andre Belec and Colin, Montreal.

Miss Enid Flegg, Ottawa, spent the weekend with her parents, Mr and Mrs Mancel Flegg and Neil.

Mr and Mrs Orin Zummach called on Mr and Mrs Orval Moak and James Sunday evening.

Mrs Ethel Loucks spent the weekend with Mr and Mrs Donald Adams and family, Ingleside.

Mr and Mrs Ray Smith spent Scnday with Mr and Mrs Joseph Russell, Avonmore.

TOKYO AREA SINKING BELOW SEA LEVEL

An old, established industrial quarter in southeastern Tokyo is sinking steadily below sea level and becoming alarmingly vulnerable to flood tides.

Pumping stations are working day and night to drain water from the area, but whenever a major typhoon is reported approaching, inhabitants are ordered to evacuate the district.

The ground level of this quarter has sung 39 inches in the past 40 years. It now is sinking at a faster rate of nearly eight inches a year.

The area is below the sea level at low tide. At normal high tide, it is nearly five feet below the sea water.

About 130 factories are located in the district and it has a daytime population estimated at 1,000,000.

ROCKET BLAST ACTS AS HUGE ORGAN

One reason why si many rockets have blown up is that rocket combustion chambers have developed organ-like sounds, 25 chemists of the Ottawa branch of the Chemical Institute of Canada were told recently.

Canadian-born Dr Frank T. McClure, an early American rocket scientist and now physicist at John Hopkins University, brought tape recordings of curious sounds inside the 5,000-degree (F.) liquid and solid fuel rocket firing chambers.

When these sounds get out of hand they tear up the fuel and the rocket blows up or fizzles out.

When asked if he would share information with Russian scientists he said "we would be delighted," but doubted if anything concrete would come of the suggestion.

He expected solid fuel rockets would prove better than liquid fueled ones because of complex plumbing and storage problems involved in the latter. He predicted nuclear rockets would carry man to other planets.

The British fishing industry employed some 22,000 fulltime fishermen at the beginning of 1961.

If Hearing is your problem

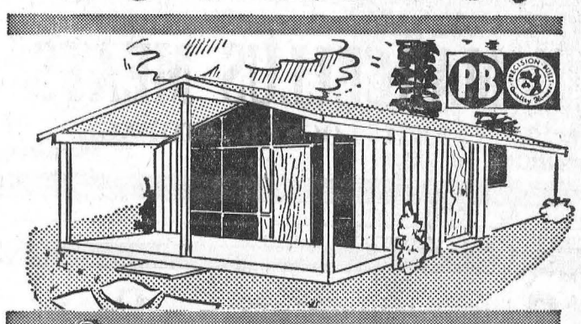
ASSEMBLE YOUR OWN COTTAGE!



FACTORY PRE-BUILT SECTIONS MAKE IT QUICK, EFFICIENT!

The Precision-Built system takes most of the work out of erecting your own summer cottage. There's no guess work — we pre-build the basic sections in our own factory — and you join them into a precision-fit wall assembly. With the walls quickly in place, you simply apply the roof panels and there you are—under cover—ready to proceed with trim and finishing at your convenience.

We provide a complete cottage package: plans, pre-built wall sections, window units, doors, hardware — everything you need — delivered to your cottage site ready for you to assemble.

FACTORY-BUILT SECTIONS — FOR QUICK, EASY ASSEMBLY — DELIVERED TO YOUR SITE

Choose from a very wide range of cottage designs — from small cottage to large, deluxe designs — all planned for owner-assembly or erected by us on your lot.

Call or write for illustrated literature on the new Precision-Built cottages!

AS LOW AS $650.

BECKSTEAD

Visit on Monday at Todd home

Mrs Allan Hutt and Miss Helen Hutt of Cardinal and Miss Helen Todd of Montreal visited on Monday with Mr and Mrs Frank Todd.

Mr and Mrs Carleton McConnell of Ottawa, and Mrs K. L. McIntosh of Kitchener, called on Mr and Mrs Frank Whittaker on Sunday evening.

Mr and Mrs Herman Strader and Mr and Mrs Leslie Whittaker visited on Sunday with Mr and Mrs Frank Whittaker.

Thursday evening callers of Mr and Mrs Frank Todd were: Mr and Mrs Carl Beckstead and family and Mr Barry Winters of Goldfield, Mr Mahlon Beckstead, Mr and Mrs Burton Beckstead and little granddaughter Margaret Ruth Kirkwood.

Mr and Mrs Donald McMartin called on Mr and Mrs William Dillabough and Mr and Mrs Frank Whittaker on Tuesday afternoon.

Mr and Mrs Bernice Barkley visited on Sunday with Mr and Mrs Glenn Barkley, Mrs Carrie Utman and Mr and Mrs Glenn Pemberton. The occasion being Mrs Glenn Pemberton's Birthday.

Mr Gordon Beckstead and Miss Marilyn Pemberton called on Mr and Mrs Bernice Barkley on Sunday evening.

Mr and Mrs Earl Beckstead called on Mr and Mrs Russell Froats on Sunday afternoon.

Mr and Mrs Charlie Harper of Ottawa, visited with Mr and Mrs Wm. Dillabough on Sunday.

Mr and Mrs Fred Beckstead were tea guests of Mr Mahlon and Mr and Mrs Burton Beckstead on Sunday.

Mr and Mrs Bert Beckstead Jr and children and Mr and Mrs Burton Beckstead called on Mrs Richard Kirkwood who is a patient in Ottawa Civic Hospital on Sunday afternoon.

Visitors and callers at the home of Mr Charles Beckstead over the week-end were: Mr and Mrs Jas. Hillier, Rodger, Heather and Adele of Toronto, Miss Thelma Beckstead of Perth, Mr and Mrs Grant Beckstead of Ottawa, Mrs Rennie Merkley of Ottawa, Mr Donald Merkley, Ottawa, Mr and Mrs Allan Armstrong and Barry, Iroquois, Mr and Mrs Frank Todd, Mr and Mrs Earl Beckstead, Mr and Mrs Fred Beckstead, Mr Mahlon Beckstead, Mrs Catherine Merkley and Mrs Harold Merkley and Cathy.

Sunday guests at Bowman home

Mr Irwin Summers of Cornwall and John Bowman, Church Rd. were guests Sunday afternoon with Mr and Mrs Foster Bowman and family.

Mr and Mrs J. Ouderkirk and grandson Sephen of Finch, spent Sunday evening with Mr and Mrs Harvey Barkley and boys and Mrs W. Barkley.

Mrs Lloyd Merkley spent Wednesday with Mrs John Morrow in Chesterville.

Mr and Mrs Alton Legrove and children of Brockville, were recent guests with Mr and Mrs Irwin Baker.

Mr and Mrs Gerald Styles and daughters spent Mother's Day with Mrs A. Meyer in Morrisburg.

Mr and Mrs Murray Holmes and family of Winchester spent Sunday evening with Mrs C. Gray and family.

Gerald Heaton of Brockville spent the week-end with Robert and Martin Barkly.

Mrs Roy Styles, Mr and Mrs Gerald Styles and daughters spent Sunday evening with Mr and Mrs Ben Bowman, Bouck's Hill.

Mrs Lloyd Merkley and Mrs Gerald Styles spent Saturday evening with Mr and Mrs Floyd Whittaker, Williamsburg.

Mr and Mrs Harvey Barkley and sons and Mrs W. Barkley were guests on Mother's Day with relatives in Heuvelton, N.Y.

Mrs Dwight Baker and children spent a few days with her parents Mr and Mrs Mahlon Whittaker at Williamsburg.

Recent guests and callers at the Styles home were: Mr and Mrs George Styls and Shirley George Edward Styles of Athens, Mrs Delbert Dillabough, Dunbar, Mr and Mrs Lloyd Walkr and Ruth, Winchester Springs, Mrs George Pruner and Mrs Garnet Pruner, Church Rd., Mrs C. Airde and children of Williamsburg, Gordon Thom of Morrisburg, Mr and Mrs Albert Bowman, Chesterville, Miss Mabel Rae, Don Rae, Mr and Mrs Lloyd Merkley and family and Miss Eileen Merkley.

JUST TOO MUCH

Bill Waudby's rain gauge became famous during the years-long drought in Central Australia.

Twice he advertised it for sale —first as "never used" later as a "dust gauge."

Then the rains came and deluged his Central Mount Wedge cattle ranch.

The administrator of the Northern Teritory, Roger Nott, sent a telegram to Waudby, congratulating him on the 10-inch fall of rain and saying there was no need now for him to sell the gauge.

Waudby replied that the gauge had given "one last despairing gurgle and disappeared into the flood."

Cars of the future will be maintenance free, with everything sealed but the gas tank, said Donald Frey, assitant general manager of Ford Motor Company of Caanda.

He predicted in a speech in Montreal that future cars will not require repairs for the first two or three owners.

MAKING A LAWN IN THE SPRING

For those people who did not get their new lawn started last summer, here are some suggestions from horticulturists with the Ontario Department of Agriculture on how to produce a good spring lawn.

The first factor to be considered is the top-soil. If you want to end up with a good lawn, that will last over the years, you must make sure that you have a good depth of top-soil to start with, preferably 5 to 6 inches deep. Without this, there is insufficient plant food to maintain a good stand, the grass becomes thin and weeds become a problem.

If you can get it, work some well rotted manure or other organic matter such as leaf mould into the soil. You should also add some fertilizer, the amount and type depending on the soil. On a sandy soil use a 4-16-16 or 5-20-20, and on heavier soils such as loam or clay a 5-20-10 is best. You should apply this at the rate of 25 to 40 pounds per thousand square feet, and work into the soil.

Before sowing, try to get rid of bumps or low patches as they will cause problems later on. The hollows hold water and the bumps will dry out, both of which will affect the resulting lawn. While you are doing this, rake the surface to remove stones and large clods of earth. Your final seed bed needs to be fine and even.

When buying the seed, keep in mind that your lawn will be there for many years, and will be only as good as the seed you start with. It is a poor investment to get a cheap seed mixture as there are likely to be weed seeds in it and the stand is liable to suffer. The additional cost of a good seed mixture at this stage is money well spent.

While you can buy different grass seeds separately, it is usually best to get a prepared mixture. These will contain Kentucky bluegrass as the basic type, with additions of fescues and bents. When choosing your seed mixture, don't forget to choose a mixture adapted to your special requirements. They will vary slightly according to the soil or amount of shade you are likely to have, so discuss this with the salesman when you get your seed mixture.

The average sowing rate is 3 to 5 pounds per thousand square feet. To apply it evenly, get a seeder, divide your seed in half, and sow one half in one direction and the other half cross wise. This will ensure even distribution.

After sewing cover the seed lightly. The best way to do this is by gently raking the surface of the seed bed. When doing this, rake in one direction only, so that the even distribution of the seed is not spoiled. After covering the seed, roll it, to press any uncovered seed into the ground and firm the soil around the seed.

It is most important to keep the seed bed moist and not let it dry out. However, when watering be sure to use only a fine spray, or you are likely to wash the soil off the seed and may also wash the seed away.

The rate of germination will depend both on type of seed and on the weather. There are usually some quick growing varieties in every mixture, and if conditions are good, some seedlings should appear in eight or nine days. If the weather is dry or cold, they may take longer.

DECORATORS FAVOUR USE OF MIRRORS

One of the newest wall covering materials is, surprisingly, one of the oldest—mirrors.

In the past year, top decorators and builders have become remarkably conscious of wall mirror installations because of their versatility and beauty.

One of the reasons for this trend is that mounting construction costs continue to limit room sizes—and strategically placed mirror areas can stretch out walls, make a small foyer seem twice as large, and can lower or raise a ceiling.

Moreover, a wall mirror gives the impression that a room has twice as much furniture as it really has.

Mirrors can increase, even double, the amount of light in a room. One suggestion is a circle or square of mirror on the ceiling above a chandelier. A wall mirror directly behind a lamp will give more light without glare, and also stress the beauty of the lamp itself.

Designers and architects are now considering the mirror as a material useful anywhere in building, like wood or stone. Technical developments, plus new production methods are largely responsible for this current trend.

Top quality mirrors are made of twin-ground plate glass, where the glass sheet is placed in a machine which grinds and polishes both surfaces at the same time to eliminate any possibility of distortion.

With these new, perfected types of mirrors available, the traditional picture of the small framedlooking-glass has begun to give way to areas of mirror found just about anywhere in a house.

Designers suggest, for example, mirroring a linen closet in back of the shelves so you can see every item in the linen supply department.

Bathrooms are blossoming out in mirrors. Even the medicine chest itself is giving way to long shelves with sliding mirror doors, or even racks of shelves with separate wall mirrors covering the area from the basin to ceiling line.

The one major "don't" with respect to mirrors is to avoid putting them where people will have to stare at themselves for any length of time, as in a dining area against the table.

ELMA

Recent guests at McMillan home

Recent guests of Mr and Mrs Andrew McMillan were: Mr Dick Mallan and son Mark, St. Louis, Missouri, on Saturday; Mr and Mrs Raymond Smith, Jill and Judy and Mrs Ron Hummel of Scarborough, over the week-end; Mr and Mrs Carman Barkley, Morrisburg on Sunday evening.

Rev. R. and Mrs Brookson, entertained members of their family on Sunday in honour of their son Barry and his bride of La Tuque, Que., who were married at Chelsea, recently.

The comedy drama, "The Adorable Imp" presented by Dominion United Church Y.P.U., in the church hall here, Saturday evening was much enjoyed.

Mr and Mrs Glenn Barkley entertained Mr and Mrs Bernice Barkley and Mr and Mrs Glenn Pemberton on Sunday, in honour of Mrs Pemberton's birthday.

Mr and Mrs Ralph Swerdfeger Peterborough, visited Mr and Mrs Melvin Dillabough on Sunday.

Mr and Mrs Graham McPherson, Misses Jean Armstrong and Lois McPherson spent Sunday with Mr and Mrs C. M. Killen and Debra, Kingston.

Carrageen, or Irish moss, is a type of seaweed from which gelatine is produced for cooking and other uses.

Chess, in a form similar to the modern game, was played in the sixth century in India and Iran.

The first fashion periodical is believed to have started about 1590 at Frankfurt in Germany.

BIRDS MISTAKE JET NOISE FOR CRICKETS

A high-pitched twitter, comparable to the sound of crickets in late summer, may have led to the 1960 crash of an airliner in Boston.

The federal aviation agency's Civil Aero-Medical Research Institute at Norman, Okla., has reached that conclusion after a two-year study of the apparent affinity of starlings for Lockheed Electra aircraft.

The crash October 4, 1960, killed 62 persons. Starlings were found ingested in the Electra's turbo-prop engines.

It wasn't the first time Electras had been bothered by starlings ,the institute says. Several times before the Boston crash, Electras were forced to cut flights short because of ingestion of the birds.

But after the Boston crash, researchers began to think there was something in the aircraft engines attracting the starlings, said Dr Stanley Mohler, director of the institute.

The whine produced by the aircraft's engines contains a high-pitched twitter—perceptable to the human ear— that sounds like a swarm of crickets, the investigators say.

The research team learned that most starlings migrate south to better feeding grounds in the fall, but a few stick around to take pot luck in the north. It also learned that starlings associate the sound of crickets with food.

Investigators made tape recordings of cricket sounds and the sounds of various aircraft engines, including the Electra. The sound frequencies were analyzed on oscilloscopes.

"The only similar sounds were those of the crickets and the Electra engines," report the experts.

This is the reason, the researchers say, that the starlings flock behind Electras as they taxi prior to take-off. The sounds of other aircraft engines would disperse them.

It was suggested changing the number of revolutions a minute in the Electra's engines during takeoff and taxiing would eliminate the sound frequency that attracts the birds.

WEED CONTROL IN STRAWBERRIES

Strawberry growers have a new ally—the granular form of DNBP—in their battle to control weeds.

This herbicide has hitherto been used only as a spray.

The 10 per cent DNBP granules are very effective in weeding strawberry plantings, reports J. S. Leefe, of the federal research station at Kentville, Nova Scotia.

A pre-emergence herbicide, DNBP must be applied to the soil before the weeds appear and after the strawberry transplants are well established.

Used in this way, says researcher Leefe, it has cut the amount of hand labour required for weeding, without reducing next year's yield.

The granules should be applied over the strawberry rows at 40 pounds per acre when the foliage is dry and the granules will not readily adhere to them. If some do cling, they should be brushed off.

For good results, the soil surface should be smooth and free from lumps.

FENCES AROUND THE HOME

In these days of smaller house lots, particularly in large cities, privacy becomes something which must be planned. And the old-fashioned fence is coming into its own again, for it enables families to really use their backyards—for entertaining, sunbathing, family outdoor meals and the like. Indoor-outdoor living is the thing today, and there's no reason why a new home can't enjoy it.

A great variety of fences is available. Almost any material in any colour, is finding favour. Some are more expensive than others, but all of them can be built over a period of time so that the cost can be spread over several years. A fence which has been designed with care and an eye to artistry can do many things. It can provide privacy without suggesting a barrier; it can serve as a foil both for the home and for yard greenery. Integrated carefully with your house design, it extends the house visually, and builds the impression that house and land are a living unit. Generally speaking, open, airy fence designs are preferable to solid ones.

Fences of natural or stained wood are favourites year in and year out, for they seem to become part of the landscape, rather than looking like separate structures. And this impression is particularly valuable when the lot is on the small side.

Brick is becoming increasingly popular as a screening and fencing material, for it can be obtained in a great range of colours and erected in any number of designs to achieve the effect desired. And if brick is used for a patio floor also, a screen and fence of the same material create an integrated, planned appearance of great luxury.

Never gamble your life on one jack, urges the Ontario Safety League. Use blocks if you have to work under the car with the wheels off. No jack is infallible, and it is easy for a car to slip off a hand-jack, even in a garage. Never crawl under a car without visualizing what would happen if the jack gave way.

The first bridal veils were worn in ancient Greece and Rome to protect the bride from evil spirits.

"U-TURN" CAR HELD FEASIBLE

Looking for a car that will U-turn at 40 miles an hour? Frank Thomas of Calgary will make one for about $5,000.

Mr Thomas has designed and built a sleek, rocket-shaped vehicle of which he says:

"I could roll the tires off it before it would tip over."

Retractable headlights and a plexiglass canopy, both operated by electric motors, are other features.

The power plant is a six-cylinder rear-mounted engine with automatic transmission, dual carburetors and a supercharger for nippier performance.

Mr Thomas said he has always wanted to build a car but "never got around to it until now." He has been working on his speedster for three months and has completed testing.

He says he has remodelled several aircraft and incorporated airplane mechanisms into the car. Refinements such as red and white upholstery, a white paint job and padded dashboard are to be added.

The carr is 300 pounds lighter than a Detroit product of similar size and runs 21 miles on a gallon of gas.

SMOOTH SPLICE

To splice two pieces of lumber, cut one off at a long, tapered angle, use it as a template to mark off the second piece at the same angle. Join with screws through edge, reinforced with glue.

The Ontario Safety League quotes a surprising report from the U.S. that upwards of 95% of total auto fires are fraudulent. "Few total auto fires are accidental. It takes human assistance to burn autos completely. Most accidental fires burn out long before cars are totally consumed. Gas tanks will explode only in those rare instances in which a perfect mixture of air and gasoline is present. Yet some police, misled by the myth that gas tanks readily explode, shoot holes in tanks of burning cars. That only spreads the fire".

SIGN OF TIMES

Americans are gnashing their teeth away, a Minneapolis mouth specialist said recently.

At the rate they're going—two or three hours a day—they're cutting down the life of their teeth by 50 per cent, Dr Ralph H. Boos told the Southern California State Dental Association at Los Angeles.

"It's a modern phenomenon, this teeth grinding, due to the great increase in worries and tension being experienced by modern man."

The city of Hackensack, New Jersey, was settled by the Dutch in 1639.

Smith–Campbell

The candlelight marriage ceremony of Miss Evelyn Flora Campbell and Garry Burns Smith took place at Maxville United Church recently. The ceremony was performed by Rev D. C. Munro, pastor.

The bride is the daughter of Mr and Mrs Stanley A. Campbell and the groom is the son of Mr and Mrs Hugh W. Smith, all of Maxville.

Solos were rendered by Bill Campbell and Charles Munro was organist.

Given in marirage by her father, the bride was attended by Miss Mary Campbell as maid of honour. Miss Georgia Brackenbury and Miss Marilyn Cox were bridesmaids.

For her wedding, the bride chose a floor-length gown of pure silk Schiffli embroidery. The gown was styled with a bell skirt extending into a chapel train. The draped bustle back was finished with self-made bows. The fitted bodice was styled with a bateau neckline and three-quarter length sleeves. A crown of seed pearls, crystals and rhinestones held her bouffant veil of tulle illusion and she carried a bouquet of Talisman roses and white stephanotis.

The attendants wore floor-length sheath styled gowns of rice paper, the bodices were styled with bateau necklines and cap sleeves. Their headpieces were of silk organza roses, and they carried bouquets of white baby chrysanthemums and daisies.

The groom was attended by Gordon Smith, of Ottawa, as best man and ushers were Kenneth Campbell, of Maxville, and Wm. McCuaig, of Moose Creek.

The mother of the bride was wearing a two-piece ensemble of blue floral silk organza over silk with white accessories and a corsage of pink carnations.

The mother of the groom wore a two-piece suit of white shantung with dusty rose accessories and a corsage of deep pink carnations.

Following the ceremony, a reception was held at the church hall. For a wedding trip to Rochester, N.Y., and Niagara Falls, the bride travelled in a banana shade three-piece double knit suit with brown accessories and a corsage of bronze chrysanthemums. The couple will reside at Maxville.

Guests from Port Hope, Montreal, Niagara Falls, Ottawa, Lost River, Merrickville, Lanark, Manotick, Winchester, Chesterville, Berwick and Peterborough attended the wedding.

MOREWOOD

Spend few days at MacGregor home

Mrs Edna MacLean of Montreal, spent a few days with Mr and Mrs Grant MacGregor.

Mr and Mrs Jim Williams, Mrs Donald McLeod spent the week-end with Mr and Mrs Melburn McLeod.

Mr and Mrs Dwight Swerdfeger and boys of Cobourg, visited Mr and Mrs Allen Swerdfeger over the holiday.

Miss June Dillabough spent Sunday at her home here.

Mr and Mrs Harold Barrington and family of Eganville, visited Mr and Mrs Sam Barrington over the holiday.

Mr and Mrs Dwight Dillabough and daughter and friends from Toronto spent the week-end with Mrs R. C. Dillabough at the cottage at Morrisburg.

Mr and Mrs James McMillan, Belleville, Mrs Arthur Swerdfeger and daughter, Mrs Chas. Dyer of Burritts Rapids, visited Miss Lily Swerdfeger on Sunday evening.

RIVERSIDE

Weekend visitors at Riverside

(Held Over)

Mr and Mrs John Kennedy, of Montreal, spent the weekend at the home of Mr Glendon Casselman.

The monthly meeting of Berwick Women's Institute was held Thursday evening at the home of Mrs Glendon Casselman, with a large attendance.

Mr and Mrs G. Casselman were in Cornwall on Saturday.

Mrs Burl Robinson, Williamsburg, and Mrs John Bogart were in Cornwall on Thursday.

Mr and Mrs A. Montgomery and girls, Newington, were Saturday evening visitors with Miss Isobel McMillan.

Mr and Mrs Glendon Casselman and family spent Sunday in Ottawa with Mr and Mrs M. Kennedy.

Mr and Mrs Clair Robertson and Mr and Mrs Tony Sanders spent a day in Kingston.

Mrs Alex Rutley, Mrs Elwin Pollock and Randy and Mrs Clair Robertson were in Spencerville Monday and visited Mr and Mrs Doug Robertson and family.

Mr and Mrs Jake Smirle and daughter, Muriel, of Crysler, and Mrs J. Bogart were in Cornwall Monday and called on Mr Dougal McMillan, also Mrs David Summers and girls.

TRACTOR COW-PONIES SOURCE OF DANGER

How many farmers can afford a $3,000 cow-pony? This would seem to be an expensive and unnecessary luxury, and yet hundreds of our farmers allow their school-age children to take the tractor for the cows. Rough, hilly pastures, groundhog holes and dead furrows present hazards that these young people should not be called on to handle.

Recently, a fourteeen-year-old boy lost control of such a cow-pony tractor and was almost killed, when it tipped over. Such a risk far outweighs any advantage gained over walking. Don't take a chance with your boy on at $3,000 cow-pony.

KITCHEN COLOUR SCHEMES HELPED BY WOOD TONES

A pleasing colour scheme in the kitchen has a good psychological effect on the homemaker and her family.

Rooms with natural wood tones, such as those provided by wood kitchen cabinets and wood wall panelling, need less sharp colour contrasts than do those with white or light colours, the inquirers found. A light wood colour tends to unify other colours and makes it possible to blend together a larger number.

Pleasing colour accents, the specialist said, can be created through the use of pictures, fabrics, pottery, plants and dinnerware with harmonizing colours and designs.

Large amounts of bright colours, the experts said, seem to cause fatigue and irritation. Bright or dark colours on the wall makes a room seem smaller. Light, cool colours make a small room look larger.

The important point in colour planning the kitchen, it was stressed, is to choose colours and designs that the family likes and enjoys. One colour should predominate as the over-all theme with other colours as accents.

Mrs Geo. Bush dies in hospital

The death occurred in hospital May 4th of Mrs George Bush, of Chesterville. Mrs Bush was the daughter of the late Andrew Meharey and Isobelle Hamilton, and was born at Russell. She was in her 92nd year, the last surviving member of a large family.

Mr and Mrs Bush were married in Russell in 1904 and lived at Newington until 1945 when they came to Chesterville. Mrs Bush is survived by her husband and several nieces and nephews.

Funeral service was conducted by Rev Mr Sutherland with burial in North Russell Cemetery. Pall bearers were nephews of Mrs Bush and were Walter Hammel, Robert Little, Hedley Boyd and Wallace Meharey.

REDS SEE MONSTERS

The Soviet Union laid claim recently to not one but two "Loch Ness monsters."

Moscow radio said the first monster was seen by Soviet geologists in a lake 3,500 feet above sea level in eastern Siberia.

They first thought it was a barrel in the water, but as it drew nearer they saw it was a monster with a head more than six feet in size and with a 30-foot long body that had something like a fin on it.

The gelogists, Moscow radio said, described how the monster approached in spurts, submerging after every spurt. Near the shore it halted, dived, and was not seen again.

Few details were given of the second monster, said to have been seen by a party of geographers in a lake in the mountains on the border of Soviet Central Asia and China.

The broadcast said the scientists were in a motor boat and chased a monster which looked like a log moving through the water "very rapidly." They said the part above the water seemed to have a tail.

CLEAN GET-AWAY

Missouri's blue laws met armed defiance a few Sundays ago.

A man took a bottle of bleach and a box of detergent off the shelves of a Kansas City store, put the money on the check-out counter and strode out.

Two clerks overtook the shopper on a sidewalk and explained that he couldn't buy soap on Sunday.

The shopper whipped out a pistol.

"I need the soap and you got the money," he said, and walked away.

The so-called Kentucky rifle of the early 18th century American pioneers had to be reloaded through the muzzle.

Mrs Howard Robinson, Spencerville, spent the week-end with Mr and Mrs Hubert Robinson.

Mrs Mary Francis who has spent the past few months with her daughter at Ottawa and South Mountain returned to her home here on Thursday.

Rev. Ferguson conducted the baptism at the Sunday evening service, May 13th, at Pleasant Valley Church for Rhonda Lynn, daughter of Mr and Mrs Donald Francis.

Mr and Mrs John Hilgers, Mary Rose and Michie of Ventnor, Mrs Laura Tompkins and grandson Jimmie Sage, Kemptville, Mr Carman Norton, Heckston, Mr and Mrs Carl Norton and Ricky of this place were dinner guests on Sunday of Mr and Mrs George Norton in the afternoon.

Mr and Mrs Hubert Beach and family, Oxford Mills, Mrs Howard Robinson, Spencerville, Mr and Mrs Chester Gilmer, Mr and Mrs Hubert Robinson visited them.

Mr and Mrs George Francis spent the week-end with their son and wife Mr and Mrs Tommy Francis, Brockville.

Mr Robt. Grant called on Mr and Mrs rlow Beggs, Kemptville, on Saturday afternoon.

Mr and Mrs Garnet Tompkins and family, Millars Corners, were Saturday evening visitors of her parents Mr and Mrs George Norton.

Mr and Mrs Bert Lattimore, Mrs Janet Lattimore were Saturday evening visitors of Mrs Sam Gilmer, Van Allens Corners.

HENRY VIII AIDING SCIENCE

King Henry VIII, England's six-times-married 16th-century monarch, is doing his bit for the U.S. space research program.

Airresearch Manufacturing Co., of Los Angeles, has asked the Tower of London for details on Henry's armor, on the chance that ye olde armorers had some tricks of the trade that might fit into space suit design.

The 94-pound suit of armor on display in the Tower has beautifully articulated joints which allow its wearer full mobility while covering every part of the body.

A. N. Kennard, assistant master of armories at the Tower of London, said the suit was designed for jousting tournaments on foot.

When applying adhesives to wall or floor before laying tiles, use the notched spreaders recommended by manufacturers. Avoid applying too little or too much.

Philip A. Casselman

Friends were sorry to learn of the death of Philip Arthur Casselman, esteemed resident of Goldfield South, which occurred suddenly at his home. He was in his 63rd year.

Mr Casselman was a son of the late John W. Casselman and had attended Finch High School and graduated from the Kemptville Agricultural School in 1925.

He wa san elder of Chalmer's United Church, Finch, and a valued member of the choir.

Surviving are his wife, the former Vera Haggerty; one son and one daughter, John Casselman and Audrey Casselman. He also leaves two sisters, Helen Casselman and Mrs W. A. Ross (Dorothy).

The funeral was held from the family home to Chalmer's United Church, iFnch, where the service was conducted by Rev Gordon Rajotte, B.A., B.D.

Interment was made in Grantley Cemetery.

Pall bearers were Earl Baker, Neil Ross, Alexander Foley, Edgar McLean, Bruce MacLeod and Duart MacLean.

Attending the funeral from a distance were Mrs Agnes Johnstone, Carlyle Tennant, Mr and Mrs Duncan Carlyle and Allan Carlyle, all of Montreal, and Mr and Mrs Howard McConnell, Ottawa.

BUSHMEN ARE TOUGH

There's something about an African bushman that makes him better able to stand the cold that the white man.

Exacly what it is scienists are not sure but they have found that it's more than simply a matter of environment.

Dr J. Hildes, director of the medical research unit at the University of Manitoba, made experiments with the bushmen in the Kalahari Desert in South West Africa.

He told about them at a meeting of the western regional group sponsored by the Medical Research Council of Canada and the National Cancer Institute.

The experiments were carried out under auspices of the U.S. Air Force. Dr Hildes chose the bushman because he wears nothing but a loin cloth and an occasional skin cape and sleeps outside in all seasons despite a nighttime temperature that often drops to freezing.

The bushmen, a nomadic people, eat fruit, roots and nuts as well as game which accounts for 25 per cent of their diet.

Bushmen and white members of the research team ate identical meals and then slept out in pairs, each rolled in a blanket. Recordings were taken of internal and skin temperatures, foot temperatures and shivering.

The result was to confirm that under identical circumstances the bushman's response to cold is different from the white man's.

Angular, uneven property lines can be smoothed and softened with massive plantings of evergreen and deciduous shrubs.

Miss Minnie Tulloch

The funeral of Miss Minnie S. Tulloch was held in St. Matthew's Presbyterian Church at Ingleside, with Rev Dr W. L. MacLellan, of Cornwall, officiating. He was assisted by Lloyd McPhee, student minister at Ingleside.

Miss Tulloch was born on Crail's Island in New York state, a daughter of the late Wm. Tulloch and Mary I. Baker.

She moved to Canada, studied to be a nurse in Kingston, and also graduated fro ma business course there. She then went to Montreal to work.

She was an active member of St. Matthew's Church until her health failed a few years ago.

Left to mourn are two sisters-in-law, Mrs Thomas Tulloch and Mrs Robert Tulloch, of Montana, and several nieces and nephews.

Honorary pall bearers were Frederick Morgan, Herbert Markell, Frank McAndrews, Roy Brownell, Douglas Jarvis and Herbert Moss.

Active bearers were Charles Daly, Winston Campbell, Victor Peever, Clare Markell, James Bredin and Kenneth Campbell.

MOBILE FEED SERVICE
TIPS
ON WHY, WHEN AND HOW TO WORM PIGS

Worms can cost you up to $3.00 per pig in reduced feed efficiency. And did you know that a single full-grown female worm may contain 26 to 27 *thousand* eggs? Did you realize that worms in your pigs can mean a delay of 2 weeks in time-to-market? These are strong reasons why you should worm your hogs.
Pigs—Worm 2 weeks after weaning to remove immature round-worms. Worm again about 1 month later to remove worms that were in the lungs during the first worming.
Market Hogs—If pigs are raised in contaminated quarters an additional worming may be necessary 30 days after second worming. For feeder pigs purchased from outside sources worm pigs after they are on full feed and have become accustomed to the new management. Re-worm in 30 days.
Breeding Stock—Worm sows and gilts 15 to 30 days before breeding. Worm boars as necessary.
Use Purina Liquid Pig Wormer, it's easy to feed and there are no setbacks. Just mix it with the hogs' drinking water. If you prefer to worm by the feed route, use Purina Pig Wormer Checkers or Pig and Poultry Wormer Concentrate. Why not give us a call today, or drop in at my Store with the Checkerboard Sign. I'd like to tell you about Purina's many other products that can help you perk up your farm's profits.

TOYES HILL

Spends few days with daughter

Mr Dixon, Morrisburg, spent ten days with his daughter, Mrs Dick Easton, while Mr Easton was in Winchester Memorial hospital.

We were saddened to hear of the death of Mr Phil Casselman, Finch, and extend our sympathy to his wife the former Vera Haggerty of this community.

Mr and Mrs Stuart Saddlemire and family, Bouck's Hill, and Mr and Mrs Earl Johnson, Iroquois, called on Mr and Mrs D. Johnson, Sunday afternoon.

Miss Esther McIntosh, Miss Kathy McIntosh and Miss Marion Quinn visited on Saturday afternoon with Miss Betty Link.

Congratulations to Mr and Mrs Joe Hunter on the birth of their son, Wayne Edward.

On Sunday afternoon during the Mother's Day Service at Winchester Springs United Church the following babies were baptized by Rev. Brookson:

Louise Jean, daughter of Denzil and Eleanor Robinson; Maureen Elizabeth, daughter of Eric and Mary Steele; Clarence Andrew, son of Glaas and Anna Leyannaar.

Mrs Dwayne Johnson was in hospital for minor surgery last week and is convalescing at her home here.

Master Donald Johnson is spending a week with Mrs Irwin Hall and baby.

Miss Margaret Pollock and Miss Sharon Steele, Ottawa, spent the week-end at their parental homes.

Mr and Mrs Will Prunner left on Saturday to visit Mrs Frank Lawrence and family, Spencerville, for a few weeks. Mr Prunner is enjoying improved health since his recent operation.

FEEDING HINT

Now is the time to make sure your barnyard hay rack is in good shape. Hay fed free access from a rack will cut down the chances of bloat and may reduce grass flavours when the cattle go on spring pasture, says Prof. F. W. Hamilton, dairy extension specialist at the Ontario Agricultural College. Cattle on pasture require fibre for the right nutrient balance.

Messengers hold meeting at Trinity United

Twenty Messengers and their leaders met in Trinity United Church on May 7. After a lively ball game, the meeting was opened with a hymn, the Messenger motto and prayer.

The offering was received and dedicated by Joan Schrail. Roll call and minutes followed.

Those assisting in the worship service were Larry Marcellus, Janice Docksteader, Linda Reid, Lois Kittle, Sandra Sullivan, Billy Baker, Kathy Fulton, Marlene Merkley, Nancy McMillan, Brenda Ouderkirk, Lu Anne Marcellus and Maryel Fulton. The story from "Timmy's Team" was enjoyed.

After singing some new hymns, the children received their "World Friend" magazines.

Monthly meeting of Berwick W.I.

The monthly meeting of the Berwick Women's Institute was held on May 10th, at the home of Mrs Glendon Casselman with sixteen members and visitors in attendance.

The president, Mrs Grant Ouderkirk, assisted by the secretary-treasurer Mrs A. Anderson, conducted the meeting. The motto was "Homes are the greenhouses where plants of citizens are started." The roll call was answered by, "Name a Famous Canadian Mother."

The minutes and treasurer's report were given from the previous meeting. In the correspondence received there were several "Thank You" notes.

It was decided that several of Mrs Clair Robertson, convenor for Health, introduced the guest speaker, Mrs Beebakee, who gave an interesting talk on Trinidad, her home country, stressing their food habits and living ways. She was then presented with a gift by Mrs Robertson, from the group.

Mrs Mills Foster introduced the local public school teacher, Mrs Crump, after which Mrs Mrs Crump and Mrs G. Casselman discussed a method, from the Exceptional Child Foundation, that they are using to improve a local child's reading. This was of great interest to all present.

The meeting closed and Mrs Casselman and her lunch committee served lunch and a social hour was enjoyed by all.

the members would each be responsible for making an apron for the group entry in the W. I. Newington Fair Exhibit.

Mrs Eldon Ouderkirk will be the delegate to the District Annual, to be held in Finch this year on May 16th.

It was decided that Christmas stockings would be made by the members, again this year, for the children in the Far East, to be brought in at the June meeting.

Volunteers were asked to assist in planting flowers at the Cairn.

WARNING

Don't feed mercury treated seed to livestock. Even when diluted to less than 1 per cent of the feed it is still poisonous. Store the grain until next year, or dispose of it in such a manner that livestock cannot accidentally reach it.

Rural Life service at Morewood United

A Rural Life Service will be held in Morewood United church on Sunday May 20th, at 10.30 a.m. The order of worship prepared by the Board of Home Missions will be used. The address will be given by Frank Shaver, of Ingleside, a former Member of the Federal Parliament for Stormont. The soloist will be Mr Stanley Wallace of Mountain.

The minister and the congregation have been invited to attend the Anniversary service in Morewood Presbyterian church, especially on Sunday evening, May 20th. It is expected that many will avail themselves of this opportunity.

NEW REGULATIONS FOR SCHOOL BUSES

Starting June 1, motorists in Ontario will take their cue from the flashing lights when following or approaching school buses.

Amendments to the Highway Traffic Act, taking effect that day, place the onus on the driver of the school vehicle to actuate his signal lights when discharging or picking up school children.

Buses or vehicles used strictly for the transport of school children on roads which permit speeds in excess of 35 m.p.h., must after June 1 be marked on the rear end with the words "do not pass when signals flashing."

The changes, introduced at the recent session of the Legislature by H. L. Rowntree, Minister of Transport, clarified this law and will help reduce the toll of accidents, particularly rear-end mishaps involving school vehicles. A recent survey indicated that school vehicles are involved in 20 times as many rear-end collisions as ordinary rural buses.

When a school bus stops on a road permitting speeds in excess of 35 m.p.h. and begins flashing its lights, motorists following must stop and must not pass until the lights have been extinguished by the operator.

Additionally, when drivers in oncoming traffic approach a school vehicle whose signals are flashing, they must reduce to a "reasonable and proper" speed at least 100 feet past the bus. (This regulation does not apply to roads separated by a median or boulevard.)

When his vehicle is not used for the transport of children, a school vehicle operator must conceal the "do not pass when signals flashing" sign on the back of the vehicle.

Dundas Softball League schedule for 1962

The following is the schedule of games to be played in the Dundas Softball League in 1962:

First Half

May 22: South Mountain vs Cardinal, Williamsburg vs Ingleside.
May 24: Chesterville vs South Mountain.
May 25: Cardinal vs Williamsburg, Ingleside vs Chesterville.
May 28: Ingleside vs South Mountain.
May 29: Chetserville vs Cardinal.
May 30: South Mountain vs Williamsburg.
June 1: Cardinal vs Ingleside, Williamsburg vs Chesterville.
June 4: Chesterville vs Ingleside.
June 5: Williamsburg vs Cardinal.
June 6: South Mountain vs Chesterville.
June 8: Ingleside vs Williamsburg, Cardinal vs South Mountain.
June 11: South Mountain vs Ingleside.
June 12: Cardinal vs Chesterville.
June 13: Williamsburg vs South Mountain.
June 14: Ingleside vs Cardinal.
June 15: Chetserville vs Williamsburg.

Second Half

June 19: South Mountain vs Cardinal, Williamsburg vs Ingleside.
June 20: Chesterville vs South Mountain.
June 22: Cardinal vs Williamsburg, Ingleside vs Chesterville.
June 25: Ingleside vs South Mountain.
June 26: Chesterville vs Cardinal.
June 27: South Mountain vs Williamsburg.
June 29: Cardinal vs Ingleside, Williamsburg vs Chesterville.
July 3: Williamsburg vs Cardinal, Chetserville vs Ingleside.
July 4: South Mountain vs Chesterville.
July 6: Cardinal vs South Mountain, Ingleside vs Williamsburg.
July 9: South Mountain vs Ingleside.
July 10: Cardinal vs Chesterville.
July 11: Williamsbrug vs South Mountain.
July 13: Chesterville vs Williamsburg.
July 16: Ingleside vs Cardinal.

Cardinal's games will be played at Brinston, starting at 7.30 p.m. Chesterville home games will start at 8 p.m. sharp.

EVERYBODY EATS - TRY THESE

By Helen Graham

MAKE YOUR OWN CAKE

I HAVE NOTHING AGAINST CAKE MIXES, and the pictures on the boxes fascinate me, but there is something special about a cake you make from scratch. Here are a few of my good ones:

Banana Cake

2 eggs
1 cup sugar
2/3 cup butter
3 tbsps. sour milk
1 1/3 cups flour
1 cup banana pulp
1 tsp. soda
½ tsp. baking soda
1 tsp. vanilla

Cream the butter and sugar, add egg yolks; then sour milk mixed with soda alternately with baking powder. Fold in banana pulp and egg whites beaten stiff. Add vanilla. Bake in a 350 degree oven until it springs back from a light touch. When cool ice with butter icing if desired.

Pineapple Cake

½ cup shortening
1 1/3 cups sugar
2½ cups sifted flour
¼ tsp. salt
3 tsps. baking powder
¼ cup evaporated milk
¼ cup water
½ cup syrup drained from pineapple
1 tsp. vanilla
3 egg whites

Cream butter, gradually add half the sugar; cream until fluffy. Sift dry ingredients. Combine liquids and vanilla. Stir dry ingredients alternately into creamed mixture with liquids. Beat egg whites until soft peaks form; gradually beat in rest of sugar; fold into batter. Pour into layer pans, greased and lined. Bake at 350 degrees about 35 minutes.

Burnt Sugar Cake

1 cup sugar
½ cup boiling water
2 cups cake or pastry flour
2½ tsps. baking powder
½ tsp. salt
½ cup shortening
¾ cup sugar
2 eggs
2/3 cup milk
1 tsp. vanilla

First make burnt sugar syrup. You will need 1/3 cup for the cake. Melt sugar in heavy iron frying pan. Stir constantly over medium heat until melted and a rich caramel colour. Add water very gradually. Stir until dissolved. Cool.

Sift dry ingredients three times for a light cake. Cream shortening, blend in 3/4 cup sugar. Add eggs one at a time, beating well after each addition. Mix 1/3 cup burnt sugar syrup, milk and vanilla and add to creamed mixture alternately with the dry ingredients. Pour into two wax paper lined 8 inch round layer cake tins. Bake in 350 degree oven 25 minutes.

Burnt Sugar Icing

2 tbsps. butter
1 cup sifted icing sugar, plus sufficient liquid to make icing correct consistency for spreading.
6 tbsps. burnt sugar syrup

Cream butter, blend in 1 cup icing sugar; add burnt sugar syrup. Beat in additional sugar until desired consistency.

Spice Cake

¼ cup butter
1 cup sugar
3 egg yolks
½ cup maple syrup
2 cups sifted flour
1 tsp. soda
¼ tsp. allspice
Few grains salt
1 tsp. baking powder
½ tsp. ground cloves
¼ tsp. nutmeg
¾ cups sour milk
1 tsp. vanilla
1 egg white, stiffly beaten

Cream butter and sugar together until smooth. Add egg yolks well beaten and maple syrup. Blend well. Sift flour, measure, sift twice with dry ingredients. Add to creamed mixture, alternately with sour milk. Beat until smooth. Add flavouring. Fold in egg white, stiffly beaten. Divide between 2 9-inch cake pans, and bake in moderate oven (350 degrees F.) for 20-25 minutes. Cool and put layers together and frost with your favourite frosting.

COLQUHOUN

Report successful food sale

The ladies in charge of the food sale at Presley's dairy, Morrisburg, on Saturday reported the event a success.

Mr and Mrs Mac Colquhoun and Jane, Mr and Mrs Raymond Colquhoun and family, Mr and Mrs K. Vilmansen spent Sunday evening with Mr and Mrs Geo. Wright, Paul and Mrs Colquhoun.

Mr Wilson Colquhoun of Perth spent a day with Mr and Mrs R. C. Colquhoun and Earl recently.

Mr and Mrs Laurence Whittaker called on Mr and Mrs Frank Whittaker Sunday afternoon.

A number of ladies attended the Presbyterial at Spencerville on Tuesday.

Mrs Gerald Gallinger and Miss Elaine Kyle spent the week-end at their respective homes.

Mr and Mrs Laurence Whittaker and Miss Mary McMillan spent Saturday evening with Mr and Mrs Emerson Barkley and family.

INLAID EFFECT

To simulate an inlaid design on natural wood to be stained, outline desired pattern with sharp knife. Coat inside of lines with thin shellac, allow to dry. Stain entire piece as usual, and when stain is wiped off, the shellacked design remains light.

RECENT BIRTHS AT MEMORIAL HOSPITAL

May 9:
Mr and Mrs Ralph Volmar, of Metcalfe, a daughter (stillborn).
Mr and Mrs Ronald Potvin, of Spencerville, a daughter.

Mainly About People

Sunday guests of Mr and Mrs Johnston Ouderkirk and family were Mr and Mrs Thos. Mallet, Goldfield, Mr and Mrs Harold Ouderkirk, Linda, Brian and Jean, of Chesterville, and Mr Ross Rainey, Finch.

Mr and Mrs H. K. Graham attended the convention of the Ontario Weekly Newspapers Association in London, Ont., last week. They returned by way of Buffalo and were overnight guests of Misses Rose and Marian Macnaughton.

Mrs W. H. Wereley, Miss Hazel Wereley, Mr and Mrs A. E. Atchison, Cornwall, J. H. Wereley, of Massena, N.Y., were Sunday guests of Mr and Mrs Dolton Henry, Ann and Howard.

Mr and Mrs Earl Darling and Dean, Pleasant Valley, N.Y., spent a few days last week with Mr and Mrs Frank Darling and other relatives.

Mr and Mrs Lindsay Hutt, Lois and Kenneth, Finch, spent the weekend in Toronto, the guest of Mrs Maude Parsons and Mr and Mrs J. Laing, and also called on Mr H. Rombough, Whitby, Ont.

High School News

A few weeks ago the girls of Grade Eleven and Twelve had some small guests to their child Physcology class. The guests were girls and boys 3 years of age. While there they played games and were treated to a tea party.

The students' council is really going all out for the decorating for the prom. We really mean all out! Saturday afternoon at 1.00 p.m. four girls began dyeing cheese cloth at Ann Casselman's. There were eight strips of 80 yd. by 1 yd. pieces. These had to be dyed, put through two baths to make it fireproof, dryed and rolled into bundles. When the job was completed it was 9.00 p.m. We must thank Mrs Casselman for the use of her basement and her help in the dyeing. Ann's committee worked at the hall on Tuesday to put up the blue sky.

Once again there is a menagerie in the science lab. The aquarium is filled with small cat fish and one lone salamander and a big blood sucker.

The timetable for June exams has been posted on the bulletin board. Not much time left.

The girls of the Home Economics classes are handing in two knitted squares each for an afghan to be sent to the Care Society.

Tuesday the Grade Twelve students of Commercial journeyed into Ottawa with Mrs Smith to tour the Metropolitan Life Insurance Company Building. While there they saw the types of jobs open to commercial graduates and were served lunch.

To prevent the far edge of a board from splitting off while you're planing across the end grain, clamp board in a vise with a piece of scrap tight against it. Any splitting will occur on the scrap.

ENGAGEMENT

Mr and Mrs Emerson J. Faulkner wish to announce the engagement of their youngest daughter, Gwendolyn Faye, to Mr Ellwood Robert Coons, son of Mr and Mrs Floyd Coons. Marriage to take place Saturday, June 16, 1962, at 3 p.m. in Morewood United Church.

CARD OF THANKS

We would like to take this opportunity to express our sincere appreciation to relatives and friends who extended sympathy in our recent bereavement. Special thanks to Rev N. McLeod and Brownlee's Funeral Home.

Armstrong Family.

CARD OF THANKS

I wish to express my sincere thanks to all those who remembered me with cards, flowers and treats and visited me while I was a patient in Winchester and District Memorial Hospital and those who helped in any way after returning home. Special thanks to Drs Howard and Duane Justus and the nursing staff. These acts of kindness will always be remembered and greatly appreciated.

Russell Froats.

CARD OF THANKS

We would like to use this means to thank all the kind friends and neighbours on Queen St. West for their most welcome help and assistance during our recent bereavement when Mrs Geo. Bush passed away, and in aiding Mr Bush during his loss and the changing of his residence.

Mr and Mrs Clarence Countryman.

CARD OF THANKS

We wish to express our sincere appreciation to relatives and friends for the lovely flowers, cards and gifts and all who helped make the 90th birthday celebration such a happy occasion.

Mrs A. L. MacLean and family.

CARD OF THANKS

I wish to thank all those who sent cards, letters, gifts, treats, flowers and visited me while I was in Winchester Hospital, also the ministers who visited me, and for the kindness of the nursing staff and doctors when I was so ill. Special thanks to Dr Barton.

Edith Brooks.

CARD OF THANKS

I would like to take this opportunity of thanking all my friends who remembered me with cards and gifts while a patient in the Winchester Memorial Hospital. Special thanks to the doctors and all members of the staff at the hospital who made my stay there as pleasant as possible.

Dr Bev Lapp.

IN MEMORIAM

McLEOD—In fond and loving memory of a dear father, Mr John McLeod, who passed away in April, 1948, and a dear mother, Mrs John McLeod, who passed away in May, 1961.
Somewhere in God's beautiful garden,
Free from all sorrow and pain,
Someday, when life's journey is ended,
We will be united again.

Always remembered by the Family.

Mrs Idenia Lightbound, 102

Funeral service of Mrs Idenia Lightbound was held from the Brownlee funeral parlours, Finch, and the body was taken to South Gower Cemetery for burial.

Friends and relatives came to pay their last respects from Toronto, Ottawa, New York, Cornwall, Chesterville and the surrounding district. Many beautiful flowers surrounded the casket.

Mr Boal, pastor of Newington United Church, conducted the service. A solo, "Good Night Here and Good Morning Up There," was beautifully sung by Edwin Waldroff. Pall bearers were nephews, Charles E. McGill, Oliver Gallinger, Charlie, Jim and Whitfield McGill and Neil Rupert.

Mrs Lightbound became seriously ill just a few days prior to her death. She was born at Dixon, near Newington, 102 years ago. She spent her childhood days there with her eight brothers and sisters.

The daughter of Mr and Mrs Charles McGill, her maiden name was Idenia McGill. She attended the public school at Dixon and the Methodist White Church in Newington. She left home to become a teacher, but became seriously ill and had to return home. A few years later she entered De Mille's Ladies' College, Oshawa, where she studied painting and after two years graduated first in her class.

From college she went to Ottawa to start an art studio which she operated for nearly 18 years. She gave instruction in painting in oils, pastels, water colours and painting on china.

She then married John Lightbound, an electrical engineer and accountant, and moved with him to Toronto. After her husband's death she lived with her brother and sister and Dixon.

She was of a quiet, reserved and loving disposition and endeared herself to all who knew her.

Survivors include a sister-in-law, Mrs McGill, of Cornwall, and several nieces and nephews.

Miss Margaret Armstrong

The funeral service for Miss Margaret Armstrong was held at St. John's Anglican Church, Crysler. Miss Armstrong passed away suddenly at Glen-Stor-Dun Lodge on May 11.

The daughter of the late Robert Armstrong and the late Margaret Symonds, she was in her 79th year.

Rev N. McLeod conducted the service and pall bearers were K. MacGillivray, M. Johnstone, A. Ouderkirk, F. Carruthers, Wm. Ouderkirk and A. McLeod. Burial was in St. John's Cemetery.

Many lovely floral tributes were received.

Knox Church groups meet at Paul home

The May meeting of Knox Presbyterian Church Societies, Crysler, was held at the home of Mrs J. W. Paul.

The Ladies' Aid president, Mrs Chas. Burd, opened the meeting with Scripture. Hymn 494 was sung and Mrs C. Burd led in responsive Scripture reading.

Prayer was offered by Miss Cassie Montgomery.

Mrs W. Paul acted as treasurer in the absence of Mrs K. McGillivray, and Mrs Frank Carruthers as secretary in the absence of Mrs J. McCrimmon.

Thank-you cards were read by Mrs Carl McRae. During a business discussion the ladies decided to hold a home baking sale on May 26.

The W.M.S. meeting was conducted by president Mrs H. Carruthers. Roll call was answered by a Scripture verse containing the word "Praise."

Minutes of the previous meeting were read by Mrs W. Ouderkirk. The offering was taken by Mrs C. Burd and prayer was offered by Mrs D. Carruthers.

Mrs D. Carruthers and Mrs W. Paul were appointed as delegates to attend the May rally at Maxville. Readings from Glad Tidings were given by Mrs W. Ouderkirk and Mrs D. Carruthers.

The president extended a vote of thanks to the hostess and the meeting was closed with prayer by Mrs Jake Smirle.

Finch Branch of Canadian Bible Society holds annual meeting

The annual meeting of Finch Branch of the Canadian Bible Society was held in St. Luke's Presbyterian Church on Sunday, May 20.

Rev A. W. Williamson opened the meeting with a short worship service.

Rev Dr R. Stuart Johnston, District Secretary, Montreal, spoke briefly on the work of the Society and showed an interesting coloured film entitled "So Great the Light," illustrating how the Bible is printed in Braille and how this printed word brings joy to many blind people in all parts of the world.

Duart A. MacLean, president, presided for the business meeting. The secretary-treasurer's report was given by Miss Vera MacLean, revealing that the 1961 canvass had shown a substantial increase.

Officers re-elected were Duart A. MacLean, president, and Miss Vera M. MacLean, secretary-treasurer.
