Cannamore, Ont.  
General Agent Mutual Life Insurance Co. for Counties of Dundas, Prescott and Russell.  
\$50,000 TO LOAN on first mortgage on good improved farm lands at reasonable rate of interest.

**Young Brakeman Killed.**  
A sad fatality occurred on the C.P.R. at Hayes' gravel pit, near Mountain, a few days ago, when brakeman Daniel Noonan of Smith's Falls was instantly killed. He was on an east bound freight which left there between six and seven o'clock in charge of conductor J. W. Phillips. When running past Hayes' gravel pit the brakeman was on one of the ballast cars fixing a brake. In these ballast cars the brakes are on the side of the car and Noonan was struck by a telegraph pole and knocked between the cars, three of which passed over him. He was terribly bruised and mangled and was dead when picked up. His body was taken to Mountain from where it was taken to his home in Perth. He was a fine handsome young fellow, about twenty-six years old, whose untimely death will be greatly regretted by a large circle of friends.

### Russell Fair.

Friday, Oct. 7th, is the date of the fair at Russell. This year the management present a good list of premiums. Two good purses hung up for races. A good crowd is assured.

### Wanted In Philadelphia.

Harvey M. Neilson was arrested by the Peterboro police on Monday on the charge of embezzling \$2,000 in Philadelphia. He was employed there by a real estate firm and admitted that he was the man wanted by the Philadelphia authorities. An officer from that city took him in charge.

### Thirteen Cars Laden With Silk.

A consignment of thirteen cars of raw silk and silk goods from the Orient were ferried across to Ogdensburg from Prescott Monday morning. The value was \$100,000 per car. The valuable consignment which is going to New York left Vancouver last Sunday at 8.20 a.m. over the C. P. R., and the trip across the continent was made in exceptionally fast time.

### Cream Export Will Cut Cheese Make.

The cream export trade begun this year between Brockville district and Northern New York is expected to make great inroads in the dairy industry with next season. New York capitalists who have secured control of the Morristown Milk Products Company are making plans by enlarging their plant to capture more cream shipments than were sent out last year.

Dairymen of Brockville fear the effect upon the cheese output. The cheese industry was seriously affected this year by the cream export. Next year the situation will only be the more aggravated.

### Squirrel Hunt Ends In Tragedy.

Several young lads from the West End of the town of Cornwall spent part of Sunday hunting squirrels in a neighboring grove, and today one of them lies in Hotel Dieu with a 22-calibre bullet in his spinal cord and his life depending practically on the success of an operation.

The injured boy is the nine-year-old son of Donald Roche and the rifle at the time of its accidental discharge was in the hands of his elder brother. He was picked up unconscious and was taken to the hospital, where Dr. R. M. Nicholl located the bullet in the spinal cord.

### Earle Carpenter Dead.

The death occurred at the Dominion House in this place early Tuesday morning, Sept. 27th, 1910, of Earle Carpenter, son of Mrs. Alex. S. Carpenter, who resides with her mother at the hotel.

Earle had reached the age of 15 years, 11 months and 27 days, and from early youth he has been an invalid the majority of the time, and has had every care and attention by his mother and family at the house.

The funeral took place yesterday morning to St. Mary's Church, where mass was said, after which interment was made.

### Teachers To Hold Practical Meeting.

The executive of the Stormont Teachers' Institute have arranged a very practical institute for Thursday and Friday, Oct. 20 and 21. L. H. Hutt, Professor of Landscape Gardening at the Ontario Agricultural College, Guelph, will lecture Thursday evening. Roy F. Fleming, Art Master of the Ottawa Normal School, will give two day addresses on "Art Education" and "The Relation of Art to Our Lives." The following local talent will contribute papers:—

Public Health, Dr. Ross Alguire; Domestic Science, Miss Charlotte Green; Writing, A. F. Birchard; Arithmetic, E. H. Thorpe; Primary Reading, Mrs. Bertha Skeith-Scott; Literature, George Hindle; Nature Study, Miss L. McEwen and S. Duff.

### Died Of Paralysis.

The second death in Brockville from infantile paralysis occurred Tuesday with the passing of Bernard Gerald, the three-year-old son of Bernard Saunders. The child underwent a successful operation for appendicitis and was recovering nicely, when paralysis developed and death ensued twenty-four hours later.

## THE MOLSONS BANK

INCORPORATED 1855

Capital Paid Up - \$3,500,000

Reserve Fund - \$3,500,000

Has 73 Branches in Canada, and Agents and Correspondents in all the Principal Cities of the World.

A GENERAL BANKING BUSINESS TRANSACTED

### SAVINGS BANK DEPARTMENT

At all Branches. Interest Allowed at Highest Current Rate

G. M. WHITNEY,  
Chesterville, Ont., Branch. MANAGER.

### Personal.

Mrs. Fred Pelletier of Brockville is visiting in town.

Master Emerson Smith goes this week to Montreal, to attend McGill College.

Miss Adda Hamilton spent a couple of days last week with friends at Kemptville.

Messrs. Ed. Flynn and Clement McCloskey returned yesterday from a trip to the coast.

Mrs. Thos. Irving of Winchester left Friday morning for a two months' visit to Scotland.

Mr. and Mrs. J. W. Gillissie of Ottawa, attended the funeral of Earle Carpenter yesterday.

Master Elvin Lasalle left on Sunday night last for Toronto, where he goes to attend Trinity College.

### Big Seizure Of Nets.

Fish and Game Overseer Toner of Brockville made another big seizure of nets in the North Channel getting nine of twenty-rod gill nets. This makes nineteen nets taken in the last section during the past two weeks.

### Sunday School Rally.

The program is issued for a Sunday School Rally for the Township of Winchester to be held in Trinity Methodist Church, Chesterville, Friday afternoon and evening, Oct. 7th. The following officers were appointed at the recent convention at Mountain with instructions to arrange for such a rally before the Provincial Convention at Oshawa next month. Rev. W. H. Stevens, President; Mrs. Palmer, Vice-Pres.; Rev. S. A. Woods, Secy-Treasurer. It is hoped that delegates will come from all the Schools in the Township.

### Anglicans Of Lanark County.

An important Anglican gathering is to be held at Smith's Falls on the 4th and 5th, of October, when the Archbishop of Ottawa, will hold a conference of the clergy and laity of the county of Lanark. The Very Rev. Dean Bidwell, rector of St. George's Cathedral, Kingston, will be the special preacher. At a public meeting which will be held in connection with the conference by the Rev. Dr. Tucker of Toronto, Mr. J. F. Orde, K. C., Ottawa, and other prominent laymen will speak.

A conference of the Women's Auxiliary of the Missionary Society of the county of Lanark will be held at the same time.

### Rev. A. B. McLeod Chosen.

Rev. A. B. McLeod, of Truro, N.S., brother of Rev. J. B. McLeod of Martintown, has been chosen by the congregation of St. John's Presbyterian Church, Cornwall, as a successor to Rev. N. H. McGilvray, now of Taylor Church, Montreal. The call will be forwarded by the Presbytery of Glengarry. It carries a salary of \$1,800, a free manse, and four weeks' holiday.

### Infantile Paralysis At Brockville.

Since Tuesday of last week, four cases of diphtheria and five of infantile paralysis have been reported at the town clerk's office Brockville. The eldest of the infantile paralysis patients is sixteen years and the youngest two and a half months. The death of Miss Eliza Young thirty-two years of age, which occurred a few days ago, is reported to have been caused by the latter disease.

### TRINITY METHODIST CHURCH CHESTERVILLE

Minister, - REV. W. H. STEVENS.

### Sabbath Services:

Public Worship 10.30 a.m. and 7 p.m.  
Class Meeting 10 a.m.  
Sunday School and Bible Classes 2.30 p.m.  
Senior Epworth League, Monday, 8 p.m.  
Prayer and Praise Service, Wednesday Evening, 7.30 o'clock.  
Strangers Cordially Welcomed.

### Bank Of Ottawa.

Mr. David M. Finnie, who occupies the dual position of assistant general manager of the Bank of Ottawa and manager of the principal Ottawa branch, will from now on devote all his time to the duties of assistant general manager.

### Morewood Church Services.

The morning services on Sunday 2nd October, in the Presbyterian Church will be in charge of a delegate of the Dominion Alliance, who will speak in the interests of the cause of temperance. The evening service in the Methodist Church will be in behalf of the same great cause and addressed by the delegate and the pastor. All are invited. The evening service will be a union one of both congregations and will commence at 7 o'clock instead of at 7.30 as during the summer months.

### Finch Tp. Loses Drainage Case.

Several drainage cases were heard before G. F. Henderson in Cornwall on Wednesday. Several of the rate-payers of Finch Township were interested in an action brought against the township council. It appears that the council recently incurred considerable expense in cleaning out and improving a drain. The ratepayers benefitted were assessed for the cost of the work. They paid under protest and Arch. McMillan took action to recover his money. After hearing both sides Referee Henderson decided that the ratepayers had no right to pay and ordered the council to refund them their money which will probably amount to \$800.

Referee Henderson has decided to hold regular sittings at Cornwall and Ottawa to hear disputes in which parties in Eastern Ontario are interested instead of going from place to place. There will probably be three sittings every six months.

### Born.

CAMPDERROS—In New York City on Wednesday, Sept. 14th, 1910, a son to Mr. and Mrs. R. M. Campderros.

SULLIVAN—At Chesterville, on Sept. 23rd, 1910, a son to Mr. and Mrs. Howard Sullivan.

### Married.

BOYD—CARSON—At the American Presbyterian Church Sept. 22, by Rev. Robert Johnson F. W. Boyd to Margaret E. Carson daughter of Mr. and Mrs. J. A. Carson Iroquois Ont.

CASSELMAN—EMPEY—At 51 Argyle Ave., Ottawa on Sept. 21 1910 by Rev. W. A. McLroy B. A. Earl Albert Casselman of Williamsburg Ont. to Ruby Empey of Maxville Ont.

### DIED

CARPENTER—At Chesterville on Sept. 27th, 1910, Earle Carpenter, aged 15 years, 11 months and 27 days.

## THROUGH NIAGARA IN BARREL.

Leach Was Carried Around the Whirlpool  
Rapids Five Times.

Niagara Falls, N. Y., Sept. 24.—Bobby Leach, of Niagara Falls, Ont., this afternoon made a trip through the Whirlpool Rapids in a barrel, starting from the Old Maid of the Mist landing, fear the cantilever bridge. Except for a few scratches and bruises, Leach, who claims to have made the trip several times, was unhurt.

Leach started at 3.55, his barrel being towed out to the middle of the stream by a tugboat. He entered the rapids at 3.57, and three minutes later was in the whirlpool. The barrel went through the rapids holding to its course and riding the tremendous waves smoothly. The great wave caught it and hurled it clear of the water but the barrel righted itself nicely and went into the whirlpool without mishap.

Five times the barrel circled the whirlpool, keeping on the outer edge, away from the vortices. At the south it was caught by an inshore eddy and floated in close enough to be caught at 5.05.

### Grand Council Of C. M. B. A.

A meeting of the grand president and executive officers of the Grand Council of the C. M. B. A. of Canada, was held at the head office, Kingston Wednesday and Thursday Sept. 21st and 22nd. The following gentlemen were present: Hon. M. P. Hackett grand president, Stander Que.; Hon. A. D. Richard grand first vice-president, Dorchester; N. B. J. J. Behan, grand secretary, Kingston; W. J. McKee, grand treasurer, Windsor; Geo. Lynch-Stanton K. C. grand legal adviser, Hamilton; Dr. Edward Ryan grand supervising medical examiner; J. E. H. Howison, assistant secretary, Kingston; grand trustees Dr. Alex. Germain, Montreal; J. W. Malon, Toronto; Hon. Judge McHugh Windsor.

After the adoption of the minutes a large amount of work arising out of the recent convention was taken up for consideration and dealt with. Reports on the membership and finances of the association showing both to be in a satisfactory condition were presented to the meeting. The question of organization occupied some considerable time of the meeting and arrangements were made for extending and perfecting this work it was decided to invest a certain portion of the surplus funds of the association in government and municipal debentures. After dealing with a number of matters of a private nature the meeting adjourned.

The grand officers present waited upon his grace the Most Rev. C. H. Gauthier Archbishop of Kingston grand chaplain of the association to pay their respects to him. He received them most kindly.

### Mr. Samuel Pedlar Dead.

Toronto Sept. 24.—Mr Samuel Pedlar who nearly half a century ago practically introduced to Canada the present system of personal canvass in connection with the life insurance business died in this city early yesterday morning nearly 78 years of age. In 1835 he was commissioned as manager for the British North America of the Etna Life Insurance Co. of Hartford. He was joined by his two brothers-in-law—John Garvin and W. H. Orr—and together at Montreal and Toronto they opened up a new era in that business in Canada. Most of the active life insurance workers have long since departed. The two Macaulays and T. H. Christmas of Montreal with A. G. Ramsay W. H. Orr and Hon. George A. Cox of Toronto still remain, and are interested in the business which has now grown to immense proportions. The late Mr. Pedlar was married ten years ago to Miss Emma J. Arnold daughter of the late Col. Arnold of Toronto. His widow, his two sisters—Mrs Orr and Mrs Dingle of Toronto—and his youngest brother Geo. H. Pedlar of Oshawa survive him.

### Two Appointments Made.

Quebec, September 21.—Sir Wilfred Laurier announced two important appointments decided upon during his visit to this city. Hon. Blais Letellier M.L.C. is to be made judge of the Superior Court in place of the late Judge Gagne. Mr. Appolinaire Corriveau K. C. is to be made an additional member of the Intercolonial Railway Commission with residence at Moncton.

The Department of Mines will sell peat for fuel in Ottawa this fall at \$3.25 a ton delivered.

Richard Thompson, who was injured in an explosion of gasoline at Berlin, Ont., ten days ago, died in the hospital.

## HOW MANY REALIZE THE MARVELLOUS VALUE OF FRUIT

IN CURING MANY DISEASES?

Wonderful Success of "Fruit-a-lives"  
—The Famous Fruit Medicine

Fruit juice consists of about 91% water, 8% of sweet matter, and only 1% of an intensely bitter substance. Careful experiments show that it is this bitter principle, which is the active or medicinal material of fruit juice.

Under certain conditions, the bitter principle can be made to replace or transform some of the sweet atoms in the juice, thus making a new compound which is much more active medicinally than the ordinary juice.

Many fruits were analyzed and it was found that the juices of apples, oranges, figs and prunes gave the best results. These fruit juices, having been made more active by the secret process of changing the sweet principle into the bitter, are combined with tonics and antiseptics and made into tablets. These tablets are the famous fruit medicine—"Fruit-a-lives"—known in every part of Canada for their wonderful curative qualities in diseases of the Stomach, Liver, Bowels, Kidneys and Skin.

"Fruit-a-lives" is the only medicine in the world made of fruit juices. 50c. a box, 6 for \$2.50 or trial size, 25c.

### Death By Sand Cave-In.

Hagersville Ont. Sept. 22.—A fatal accident occurred Thursday morning at the gravel pit adjoining the Hagersville cemetery when George Ward and his hired man, Alfred Smith were buried in the sand and gravel by a cave-in where they were digging out a load of sand at the side of the pit.

Mr. Ward was crushed and smothered to death being completely buried. Mr. Smith was severely bruised being covered to his neck but he is considered likely to recover.

More than half an hour passed before anyone was aware of the accident. Mr. Ward was a prosperous middle-aged farmer and was widely known. He leaves a widow and a young child.

### PHOSPHONOL

The Electric Restorer for Men

Restores every nerve in the body to its proper tension; re-creates vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price \$3.00 a box or two for \$5.00. Mailed to any address on receipt of price. The Scobell Drug Co., St. Catharines, Ont.

## STOMACH AGONY.

Abolish the Cause, and Misery and Distress of Indigestion Will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas, biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in the mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousand of sincere letters from people who once suffered as badly as they do now but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause they would go to W. G. Bolster this very day and get a large box of Mi-o-na tablets and start themselves on the right road to health at once.

The price of Mi-o-na tablets is only 50 cents and W. G. Bolster guarantees them to cure indigestion or money back.

Thin or lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

## HYOMEI

(PRONOUNCED HIGH-O-ME)  
CURES CATARRH, ASTHMA,  
Bronchitis, Croup, Coughs and Colds, or  
money back. Sold and guaranteed by

W. G. BOLSTER.

The annual meeting of the Canadian Manufacturers' Association opened at Vancouver.

## MYSTERY AT GODERICH.

Mutilated Body of Young Girl Found in  
Cellar of Vacant House.

Goderich, Ont., Sept. 25.—Searchers for 17-year-old Elizabeth Anderson, who has been missing from her home in Saltford since Tuesday, this morning found her mutilated body in the cellar of a vacant house in the outskirts of that town. The girl attended the Fair there on Tuesday and was seen talking to a strange man for a short time. Since then parents and friends have been unable to find any trace of her until Sunday when a party including her own father, made the terrible discovery a short distance from the Fair grounds. The body was almost nude and the throat had been cut across as if with an axe. The authorities state that there is no clue whatever which would bring suspicion on any person in particular. The case has been reported to the provincial police and an inquest was held on Monday by Dr. Holmes.

The girl, who was a daughter of Wesley Anderson, Saltford village, appeared young for her age, being somewhat sickly. She was of good character. Only one hundred yards away from the house where the murder occurred is a house in which people are living. They apparently heard no outcry. The crime took place at a point in an opposite direction to that from the Fair ground to the girl's home.

### Had Terrible Experience.

Sault Ste. Marie Ont. Sept. 24.—Sam Hogarth and W. W. Van Sickle mining prospectors returning to-day from the district 50 miles north of Michipicoton relate a terrible experience. Leaving Red Sucker Cove in a flat-bottomed boat Saturday intending to coast to Michipicoton River, they were caught in a fifty-mile gale and blown out into the lake. The boat overturned and for five hours they clung to their craft as it was tossed about Lake Superior. Just as the sun rose Sunday morning they were washed by the waves upon the sands of Michipicoton Island where they lay for more than an hour unable to move and where they were found by inhabitants utterly exhausted. They were cared for until they regained their strength being taken off the island Thursday by a boat that stopped there. The men lost their personal property to the amount of \$300 and all of the mineral specimens secured from a three months' prospecting trip.

## CASTORIA

For Infants and Children.  
The Kind You Have Always Bought  
Bears the  
Signature of *Dr. J. C. Watson*

### Big Fur Merger.

Montreal Sept. 22.—Two of the leading Canadian fur houses with branches and warehouses in leading Canadian cities have completed a merger. They are Holt Renfrew & Co. of Quebec, and the Dunlop Cooke & Co. of Montreal, Boston and Winnipeg. The output of the two firms reaches \$2,000,000 annually. The Winnipeg business of W. J. Hammond is also absorbed.

The new company will be known as Holt Renfrew Co., Limited. The negotiations for the merger have been in progress for some months and the new Holt Renfrew store in Toronto was erected with a view to their completion. The business as before will be managed from Quebec. A new building is in course of construction in Montreal and another will likely be built in Winnipeg soon.

### Blew Up Post Office Safe.

Regina Sept. 25.—The blowing up of a safe in the post office store at Balgonie at an early hour this morning and the theft of \$600 cash indicates that the hand of yeggmen who have been a source of worry to citizens and police in western Canada for some two months are drawing nearer to Regina. The men have worked backward and forward on the main line of the C. P. R. for some weeks but for a short time were quiet. Last night's escapade marks them as men who know their business.

### Hanged Herself With Her Belt.

Montreal Sept. 21.—A woman who registered as Mrs. J. M. Brown New York arrived at the Corona Hotel yesterday morning. This afternoon she was found dead in her room hanging by a leather belt to a hook on the bathroom door. A note found in the room asked that Mrs. M. W. Gibb, 125 Fremont Street Battle Creek Mich., be notified. The hotel employees say they saw nothing of the woman from the time she arrived till her body was found this afternoon.

## Farm and Garden

### DOUBLING THE CORN YIELD.

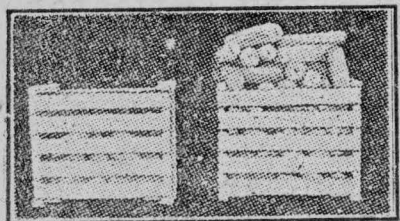

Every Farmer Can Breed Better Grain, Says Wisconsin Authority.

If it is possible to increase the yield of corn from ten to thirty bushels per acre we should all be made aware of that fact in the shortest possible time, for it makes a great difference to the farmer who is on high priced land whether he is growing thirty-five bushels of corn per acre or sixty, says Professor R. A. Moore of the University of Wisconsin, writing in Farm and Fireside.

A large portion of the advanced yield of corn in Wisconsin has been brought about by using definite select breeds of kiln dried seed that has high energy and vitality. Better culture has of course contributed to the result.

We cannot emphasize too much the importance of having seed corn grown in close proximity to where it is to be used. It usually takes several years' continual growing before corn becomes thoroughly acclimated to the surrounding environment of soil and climate, and if a radical change is made the corn will deteriorate.

As far as possible every farmer after getting started with highly bred seed should grow and develop his own seed from year to year. His first efforts should be toward selecting for an ideal corn plant. He should have in his mind those special characteristics he desires to perpetuate. Such

EAR TO THE ROW CORN BREEDING.

[Crate on left, row 18, twenty-nine pounds of good seed corn; crate on right, row 11, sixty-two pounds. The two ears from which these rows were planted looked equally good.—Farm and Fireside.]

Ideal corn plants are to be found in his general field. Their selection is the first step in corn breeding.

In order to do this well the farmer should go through the field, following definite rows, at a time when the plant will show its general characteristics to the best possible advantage. This is usually when the corn is in the milk, as then the leaf, ear and stalk can be studied to good advantage. We should select a medium stalk which puts out one good ear about three feet above the ground. The stalk should have numerous broad healthy leaves.

When the ideal stalk is found it should be marked so as to recognize the plant after the corn has ripened. After the first plant is found other plants are selected that conform closely to the first selected stalk. In this way 200 or 300 stalks are marked, and after the corn is well ripened the ears from them are picked and husked. The ears that are not uniform in character are rejected, and only those that show good type are saved for the second year's work. These ears should be thoroughly cured and put away where mice will not molest them or where they will not be subject to frequent variation in temperature.

The second step in corn breeding is known as the ear to the row method of breeding. For this we use the ears selected the previous year. The ears are tested for germination and only the strongly germinating ears kept. Of these the butts and tips are rejected, and the middle two-thirds of the ear is generally used.

Ground should be selected upon which similar crops have been grown from year to year so that the soil will be in a uniform condition. Each ear is planted in a separate row until 50 or 100 ears are used. The hills are an equal distance apart, and the same number of kernels, usually three, are planted to the hill.

The outcome is astonishing. Some of the ears of corn planted have the energy, vitality and projected efficiency to produce as much as ten times the amount of select seed corn that other sister ears are able to produce. The rows that are to be the heavy yielders of good seed corn early become noticeable for the general uniformity which they hold throughout the entire row.

The next year's seed corn should be secured from these high yielding rows, and it will transmit this special function of yield and perfection of ears to its progeny of the next year's crop.

In some instances every alternate row is detasseled, so as to prevent close fertilization, and the seed corn selected then from the detasseled rows.

Good seed corn does not, of course, guarantee good crops. Poor soil poorly cared for will give a poor crop no matter how good the seed is. But

using good seed you are sure good care will not be wasted by the failure of the seed in germinating or breeding power.

### Thousands of Dollars Wasted.

Small grains should be shocked securely. Thousands of dollars are lost every year on account of poor work in shocking grain. Brace the sheaves firmly and press the heads together closely at the top. When well braced, cap to cover the grain and protect it from rains, storms and depredations of birds. See that the shocks are put up in good condition for curing.

### Still Angry In Ottawa.

Ottawa September 23.—There can be no doubt that the appointment of Archbishop Gauthier of Kingston to be Archbishop of Ottawa is keenly resented by the French-Canadians of the archdiocese. They seem to take it as a reflection upon their race and they ascribe it largely to the Papal Delegate to Canada Monsignor Sharretti who is openly accused of being hostile to French-Canadian claims and ambitions. The sentiment of the French-Canadians in Ottawa seems to be expressed by Le Temps the French newspaper of this city which in its issue today says under the heading "Our Duty" "We regret (the appointment) for him Archbishop Gauthier but we regret it principally for the immense majority of the Catholics of this part of the country who are of French-Canadian origin and who speak no other language. They had the right we believed to hope that one of their own the most worthy would have been named as successor to Mgr. Duhamel of regretted memory and that the recommendation of the latter supported by those next in rank and by the Archbishops forming part of the ecclesiastical province of Quebec would have received from the commission which the nomination of the bishops all that consideration which it deserved.

### Brockville Tries Oiling Of Streets.

Brockville Sept. 22.—At last the process of using oil as a prevention for dust Alderman J. A. Mackenzie at his own expense had the roadway at his residence corner of King and Sherwood Streets oiled. If the experiment proves successful others will likely adopt it and the town may take up the system.

While skating at the roller rink John Moody met with an accident through his left hand coming in contact with the tin used as a reflector for the footlights on the temporary stage. Moody struck it with such force that eight stitches were required.

Hong Tim Chinese laundrymen at Fulford Place has been joined by his wife and little son direct from the Flowery Kingdom Mrs. Tim is Brockville's first female Chinese residents.

### Dr. Sheard Resigns.

Dr. Charles Sheard, Medical Health Officer of Toronto, surprised the Board of Control Friday by again tendering his resignation, which he asks shall take effect immediately the Isolation Hospital enquiry is over.

When the doctor resigned in March last great efforts were made to retain his services for the city. He was relieved of the management of the street cleaning department and given a month's holidays to recuperate.

During his absence from the city many attempts were made by the Board of Control to find a suitable man as his successor Dr. J. A. Amyot, Dr. A. R. Pyne, Dr. Goodchild and others were nominated, but none could get the support of a majority of the board. Finally the City Council took the matter in hand and settled it by re-electing Dr. Sheard and increasing his salary to \$6,000 a year. The doctor resumed the management of the department. Adverse criticism by some members of the Council and city newspapers on the management of the Isolation Hospital and in regard to the water supply of the city caused the doctor much irritation, as he considered he was being unfairly assailed. For that reason he made up his mind to quit the city's service. When asked last night to give a reason for his action, Dr. Sheard said his letter to the Mayor explained itself and he had nothing to add to it.

The Board of Control, in the absence of the Mayor and Controller Spence, did not take action, but it is understood that the resignation will be accepted.

### Brakeman Killed.

Perth Sept. 22.—Daniel Noonan son of Mr. and Mrs. James Noonan of this town was killed this morning at Hay's siding three miles east of Kemptville. He was employed as freight brakeman on the C. P. R. Messrs Noonan Bros. drovers and butchers of Perth are brothers. The body was taken to South Mountain. He was about 30 years of age and unmarried.

Read the RECORD.

## NEW TREATMENT For COLDS

London Physicians Are Trying System of Inoculation.

London Sept. 22.—Several big London hospitals recently began to practice a system of inoculation against colds. It consists in injecting hypodermically a few million dead bacilli. The first step is to find to what particular group of germs the patient is most susceptible. In the lungs of one person pneumonia cocci may be the cause; in another bacillus of catarrh and in the third streptococci.

"We" said one of the doctors "manufacture the serum from some of the patient's own germs; specimens are obtained and carefully insulated and grown to the required numbers. They are then killed and millions of them injected. If the person is in perfectly good health we try to obtain samples of the germs most likely to attack him by cultures from the throat and nose. Cold microbes often lurk in the nasal passages and about the tonsils for months after the original attack only waiting until a chill or physical strain temporarily lowers immunity so that they suddenly multiply and cause fresh colds. By being inoculated with the preventive serum the patient may often be rendered immune to colds throughout the winter."

### Steamers Collide.

Quebec, Sept. 24.—Both the Canadian Pacific Railway steamer Montcalm and the collier Crown Prince Olaf were badly damaged through coming into collision about 4 o'clock this morning.

The accident happened at a place called Channel Patch, located between thirty and forty miles below Quebec. The Montcalm was on its way here from Bristol, laden with a general cargo, while Crown Prince Olaf was outward bound, light. What was the cause of the accident cannot at present be ascertained. However from what can be gathered, it appears that the Montcalm was coming up the north side of the channel and the Crown Prince was going down on the south side. It is alleged that when the vessels came in proximity to each other, the Crown Prince Olaf suddenly swung round and tossed the bow of the Montcalm, with the result that she was badly damaged amidships on the starboard side. The stern of the Montcalm on the port side was also seriously twisted.

The Montcalm reached port about 8.40 a.m. and moored at the breakwater. She left for Montreal in the evening. The Crown Prince Olaf put back and is anchored in the stream.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of catarrh that cannot be cured by Hall's Catarrh Cure.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY and CO.

Sold by all druggists.

Take Hall's Family Pills for constipation.

### Exciting Incident At Mattawa.

Mattawa, Ont., Sept. 23.—Henry Martin of Westport, Ont., fired an automatic revolver on Thursday night as No. 8 was coming into the station. The bullet passed through the window of a passenger car, passing over a man and woman, fortunately lying down. Martin was captured within five minutes by Chief McElroy.

Chief McElroy said: "I heard the first shot at the Ottawa house and went to the station where I heard another shot. The third shot was heard when the train was about 300 yards from the station. When the train pulled in a crowd gathered round the first class car. I went up and saw the break made by the bullets. I went along the track to the yard and saw a man running towards the Victoria hotel. I pursued him and overtook him at Bell Brother's store. I searched him and found a revolver still hot and smelling of smoke. He gave the name of Henry Martin, lately employed in Booth's camp at Eau Claire.

Five men who took in the production of the Jeffries-Johnson fight pictures at St. John have been fined \$30 each for showing the pictures without a license and committed for trial on the charge of giving an immoral show.

### Dr. De Van's French Female Pills—the Wife's Friend

## VERDICT AGAINST CRIPPEN.

Coroner's Jury Find Him Guilty of Wilful Murder.

London Sept. 26.—The inquest by Coroner Schroeder into the death of Mrs. Cora Crippen wife of Dr. Hawley Harvey Crippen was concluded to-day. The witnesses this morning added nothing new of importance. Their stories were in the main a recapitulation of facts which have already been published.

The coroner's jury brought in a verdict of wilful murder against Dr. Crippen. It decided that the remains found in the cellar of his house were those of his wife and that her death resulted from hyoscin poisoning.

Dr. Crippen is now in jail awaiting trial for the murder of Mrs. Crippen on the result of the magistrate's hearing in the Bow Street Jurisdiction Court. The coroner in summing up said there was little doubt that the remains in the cellar of Dr. Crippen's house on Hilldrop Crescent were those of a human being. He added that although the medical men frankly confessed that they could not be positive as to the sex of the victim they agreed that there were indications that the remains were those of a woman.

Coroner Schroeder recapitulated the personal facts in the case and up by saying that the final question was to decide whether the remains were those of a man or woman known or unknown and whether he or she had died at the hands of a criminal. The only suspected the coroner said was Dr. Crippen the woman's husband. No one had come forward to say that he or she had heard from or seen Mrs. Crippen since the supposed date of the tragedy. She had absolutely disappeared.

William Long who was formerly connected with the accused and who purchased the boy's suit which Miss LeNeve wore when arrested on board the steamer Montrose near Quebec was asked by the coroner whether he had ever bought lime. He answered in the negative.

The chemist from whom Dr. Crippen purchased hyoscin traces of which compound Dr. William H. Wilcox the scientific analyst of the Home Office previously testified he had found in the buried mass of flesh said that the order for the medicine was given several days before the drug was taken away. He also declared that Crippen never previously had purchased hyoscin at his pharmacy.

### Prescott Pastor Stung For Fee.

Rev. A. E. Runnels B. D. pastor of the Methodist Church Prescott was neatly "buncoed" out of his fee by a newly married couple Tuesday evening.

After the ceremony which took place at the parsonage the bride who had been giggling all through the ordeal probably at the thought of the way they were about to fool the clergyman immediately walked out into the hall and out onto the street. After conversing with the minister for a few moments the groom suddenly pretended to recollect that he had handed all his cash over to the lady of his choice and asked to be excused a moment while he went out to obtain the customary fee from her. The reverend gentleman is still waiting for the return of the newly-wed. The bride and groom were from Ogdensburg, N. Y.

### Cornwall Honors Long Resident.

Alex McDonald paymaster and assistant to the manager of the Canadian Colored Cotton Mills Company in Cornwall has resigned after twenty years service. He left yesterday for Boston Mass., where he will go into another line of business. Tuesday night a large number of citizens assembled at the King George Hotel and on their behalf Judge O'Reilly presented Mr. McDonald with a handsome gold watch and chain as a token of the high esteem in which he is held in Cornwall. The Citizens Band of which Mr. MacDonald was treasurer for eighteen years presented him with a gold headed cane. Donald Cameron read an address and F. Clarke made the presentation.

Two by-laws in favor of the People's Railway were carried at Guelph.

### A Good Company Coming.

Ita, the 16-year-old girl Mentalist and her own company will be at our Opera House Saturday night Oct. 1st, and if outside reports are true a mighty good performance can be expected from this clever aggregation of players. The Company is composed of 7 big Vaudeville acts, carries its own scenery and comes here directly from Kingston where they played for one solid week, from here they go to Cornwall, where they open Monday for one week also. This is what the Smith's Falls News of Sept. 14th has to say about "Ita":

"The Opera House has been packed every night since Ita, the girl mentalist and her company started their week's engagement last Thursday. While the various acts are all good, it is Ita who has them coming, going and talking, particularly Saturday night, which Mgr. McMennus states was the largest Saturday audience ever in the Opera House. Ita was at her best and her performance was so puzzling and her replies to questions so amazing that she seemed to hold a hypnotic influence over the entire audience. Ita's company consists of a number of acts of good singing, dancing, music and comedy, above the average. On all sides you hear "Ita" and the attraction will long be remembered."

Ita, and her company have been in Canada since last May and have played in all the largest cities in the country. The performances given are guaranteed to be absolutely clean, musical, amusing and instructive.

Prices, 50, 35 and 25c. Advance sale at Bolster's Drug store, opens Thursday.

### Women's Institute.

Twenty-five ladies met at the home of Mrs. David Allison on Wednesday to attend the regular meeting of the Women's Institute. The president, Mrs. W. A. Brown presided.

Mrs. J. W. Hummel gave a splendid paper on "The benefits and dangers of water." Miss Violet Saucier and Miss Edna McGee rendered an instrumental duet.

Refreshments were served and a social half hour spent.

All voted it a splendid meeting.

A heavy frost is reported in Saskatchewan and Manitoba.

## Canadian Verse

### CANADIAN STREAMS.

By C. G. D. Roberts.

[Charles George Douglas Roberts, one of the Dominion's foremost singers, is a resident of Fredericton, N.B., and is now fifty years of age. Theodore Roberts and William Carman Roberts, both authors, are his brothers, and Bliss Carman and Barry Straton are cousins. Mr. Roberts became a professor in King's College, Windsor, N.S., in the eighties, and has since that time been a prolific producer of literature of high quality. In addition to his nature sketches, for which he is best known, he has written several sheafs of verse.]

O rivers rolling to the sea  
From lands that bear the maple tree,  
How swell your voices with the strain  
Of loyalty and liberty!

A holy music, heard in vain  
By coward heart and sordid brain.  
To whom this strenuous being seems  
Naught but a greedy race for gain.

O unsung streams—not splendid themes  
Ye lack to fire your patriot dreams!  
Annals of glory gild your waves,  
Hope freights your tides, Canadian streams!

St. Lawrence, whose wide water laves  
The shores that ne'er have nourished slaves!  
Swift Richelieu of lilies fame!  
Niagara of glorious graves!

Thy rapids, Ottawa, proclaim  
Where Daulac and his heroes came!  
Thy tides, St. John, declare La Tour,  
And, later, many a loyal name!

Thou inland stream, whose vales, secure  
From storm, Tecumseh's death made poor!  
And thou, small water, red with war,  
Twixt Beaubassin and Beausejour!

Dread Saguenay, where eagles soar,  
What voice shall from the bastioned shore  
The tale of Roberval reveal,  
Or his mysterious fate deplore?

Annapolis, do thy floods yet feel  
Faint memories of Champlain's keel,  
Thy pulses yet the deed repeat  
Of Poutincourt and d'Iberville?

And thou far tide, whose plains now beat  
With march of myriad westering feet,  
Saskatchewan, whose virgin sod  
So late Canadian blood made sweet?

Your bulwark hills, your valleys broad,  
Streams where de Salaberry trod,  
Where Wolfe achieved, where Brock was slain,—  
Their voices are the voice of God!

O sacred waters! not in vain,  
Across Canadian height and plain,  
Ye sound us in triumphant tone  
The summons of your high refrain.

### Nearly Hit Kitchener.

Apropos of Lord Kitchener I would like to relate an incident which happened in the Boer war when I was serving with G company of the Royal Canadian Regiment on the armored train running between Kroonstad and Pretoria, writes J. F. Wandless, in The Toronto Sunday World.

We had stopped for the day at Vrededorf Siding and Lord Kitchener had arrived at the place on a tour of inspection. I was eating my midday meal of "hardtack" and "bully beef" and carelessly threw the empty can over the side of the car. As I did so I suddenly remembered that it was against the orders to throw anything from the car and sprang to my feet to see if any one had observed me. Imagine my horror and consternation as I saw the empty tin just miss Lord Kitchener's nose by a few inches and fall clattering at his feet.

He came to an abrupt stop and gazed at my petrified countenance for a few moments and then passed on without a sound.

I waited fearfully for some time in expectation of seeing an escort with fixed bayonets coming to place me under arrest for assault on the commander-in-chief but none turned up. He must have read in my terrified face that it was an accident and thought that my fright was punishment enough for me.

He evidently did not mention the matter to anyone and you may be sure that I followed his example.

### An Apt Quotation.

Chief Justice Tuck was presiding in a trial in St. John, N.B., in which a Greek named Serafic figured very largely, being repeatedly mentioned by all the witnesses.

"It reminds me," remarked the C.J., "of the old couplet:  
"And then the heavenly arches  
With sound seraphic ring."

### Fine Graft.

"The proudest boast of the old time robber barons was that they never robbed a poor man."

"Those fellows were amateurs at the game," explained the great captain of industry, "and didn't understand how much money there was in it."—Puck.

### Council Meeting.

A special meeting of the Municipal Council of Chesterville was held in the town hall on Tuesday evening.

Members present—W. Hamilton, reeve; Hugh Kearns, H. G. Merkley and Chas. Chambers, councilors.

The following motions were moved, seconded and passed.

Merkley-Kearns—That By-law No. 187 to allow A. Glasgow to erect telephone poles and wires within the Municipality be read a first time.

Chambers-Merkley—That By-law No. 197 be read a second and third time passed and sealed.

Merkley-Kearns—That By-law No. 198 entitled "A By-law to provide for the issue of debentures of the Village of Chesterville to raise by way of loan the sum of nine thousand dollars to be applied in the purchase of a school site and the erection of school buildings for Chesterville Continuation School District" be read a first time.

Chambers-Merkley—That By-law No. 198 be read a second time.

Merkley-Kearns—That By-law No. 198 be read a third time, passed, signed and sealed in duplicate.

Merkley-Kearns—That By-law No. 198 entitled "A By-law to provide for the issue of debentures of the Village of Chesterville to raise by way of loan the sum of nine thousand dollars to be applied in the purchase of a school site and the erection of school buildings for the Chesterville Continuation School District" be registered in the Registry Office and that notice of the registration of said By-law be duly advertised in the Chesterville Record, the weekly newspaper published in the Village of Chesterville in the County of Dundas.

Kearns-Merkley—That By-law No. 199 entitled "A By-law to provide for borrowing six hundred and ninety-five dollars by the issue of debentures to meet the cost of construction of a common sewer along King Street in the Village of Chesterville" be read a first time.

Chambers-Merkley—That By-law No. 199 be read a second time.

Merkley-Chambers—That the following accounts be passed and paid:—

### The Late Eli Hooper.

After an illness extending over a year, Mr. Eli Hooper, a well-known citizen of that town, passed the great divide on Sunday last at 5 p. m., aged 64 years. The deceased was born in the 4th concession of Williamsburg, being the fifth son of the late Abraham and Nancy Hooper. For the past forty years he has made Morrisburg his home, where he had many friends. He was twice married, his first wife being Miss Fanny Brownell, of Osnabrock who died some seventeen years ago. Some seven or eight years ago he again married, his second choice being Mrs. D. Rice. There were no children by either marriage. Deceased was a carpenter by trade at which he worked in this district the most of his life.

The funeral took place on Tuesday at 1 o'clock to the Methodist church, burial taking place at Woodlands cemetery. Rev. Mr. Osborne preached the funeral sermon.

He leaves three brothers and one sister to mourn his loss. They are Jacob and Cepherus Hopper, and Mrs. Elizabeth Duval, Morrisburg, and Henry Hopper, Matilda.

In religion he was a Methodist, and in politics a Liberal.—Morrisburg Leader.

### Death Of Perth Man.

Perth Sept. 26.—The death occurred yesterday morning of Fred McEwen son of W. P. McEwen local registrar of the high court of justice at Perth. Deceased had been ill for some time with tuberculosis. For some years he had been teller in the Bank of Ottawa here and was a well known athlete and popular with a large circle of friends. Before coming to Perth the family had resided in Almonte where the father of deceased published the Almonte Gazette.

### Stricken While He Slept.

Brockville Ont. Sept. 22.—Eben Fretwell a lifelong farmer of the township of Augusta was found dead in bed at his home near Maynard. The night before he had retired in his usual good health and it is supposed that while he slept he was stricken with heart failure. Deceased was 65 years of age and leaves a widow and family.

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

## WE REPAIR WEAK MEN

ONE SECRET OF OUR SUCCESS. Every case submitted to us receives the personal attention of our Medical Staff, who consider the symptoms, complications and chronicity, and then decide as to the disease and curability. Specific remedies are then prescribed for the case and are compounded by our own chemist in our own Laboratory. Such appropriate treatment cannot fail to cure, as specific medicines are selected to cure the symptoms that trouble you. We have no cure-all medicines like most specialists use who send the same medicines to all patients alike and cure none. We have treated patients throughout Canada for over twenty years and can refer to any bank as to our responsibility. We Guarantee Cures or No Pay. We Treat all Diseases of Men and Women.

CONSULTATION FREE

If Unable to Call, Write for a Question List for Home Treatment.

## FUNGIOUS POTATOES.

Old Disease That Is Caused by Too Much Wet Weather.

Last July and early in August we had considerable wet weather. The potato tops suffered badly from a blight. However, the vines recovered sufficiently to mature a fair crop. All through the winter the query was, "What makes the cooked potato have such a sweet taste?" And again on cutting the tuber a brownish streak or blotch appears all through the tuber, resembling a marble cake. This is seated mostly beneath where the eyes are and about one-eighth of an inch from the surface. The potato shows no outward sign of disease except that the eyes do not push as rapidly on a diseased potato as they do on one free from it. These streaks are about one inch long and one-fourth inch wide.

The query was, "What caused that peculiar streaking in the tuber?" In looking over a history of fungoids and fungous disease of the potato we find that a very similar condition existed in Ireland in 1845, resulting in a great potato famine there. That year was a very wet year, and the natural moist climate of Ireland gave a great impetus to this disease. It has not reappeared to any great extent till last year. It bears no resemblance to the potato scab either on the tuber or the foliage. In this disease the leaves turn a brownish black color and drop off, while the stalk or stem may retain some vitality even to sending out duplicate leaves, though much smaller. The disease is, however, carried down to the tuber and is seen there as described. In dry seasons or in dry sections no alarm need be felt as to the disease spreading, but in low moist sections care should be exercised.

Affected tubers should by no means be planted. Varieties resisting blights in general are safer for planting so as to be sure that this peculiar blight gets no hold. In some parts of Europe it is bad, and no doubt but that it has been introduced into this country from there. A few years ago we received from England some varieties, but nothing wrong was noticed at that time. Should the disease appear on the foliage sprayings of bordeaux should be given every ten or twelve days through the season.—National Stockman and Farmer.

## GROWING ENGLISH WALNUTS.

Found to Be Capable of Doing Well in Eastern Orchards.

English walnuts are a welcome addition to the winter dinner bill, and many of them are eaten in New England. Few are the New Englanders, however, who have ever seen English walnuts growing. A Boston Globe correspondent sent in two photographs of walnut trees of the English variety raised in this country, with a note from the raiser of the nuts, Norman Pomeroy of Lockport, N. Y.

"Few people realize," wrote Mr. Pomeroy, "that English walnuts can

GREEN WALNUTS.

be grown extensively in the eastern part of the United States, and only by the merest accident was it found that they could be. My father, Norman Pomeroy, visited the Centennial exposition and, noticing a tree in the yard where he boarded at Philadelphia bearing nuts, gathered about a peck of them and brought them home with him. Some children found a small hole in the corner of the valise and got out all the nuts but seven. These he planted, and they sent up shoots that grew into fine large trees, which bore well. Some more trees were raised from this acclimated stock, and we now have a fine young orchard. Quite a number of our neighbors also raise walnuts from this stock."

### Purpose of Stirring Soil.

A newly stirred soil admits the air to the roots, conserves moisture and prevents the growth of weeds. Every shower tends to seal up the surface and exclude the air. So aim to stir up the soil after every rain.

## AUCTION SALE!

OF  
Farm Stock, Implements, Etc.

There will be offered for sale by Public Auction  
At West Half of Lot 19 in the 9th Con. of  
the Township of Winchester,

## Humor and Philosophy

By DUNCAN M. SMITH

### PERT PARAGRAPHS.

GENIUS may seem just a simple twist of the brain, but that's only seeming. It is mostly hard work and plenty of it.

Things do not look so bad when the sun shines, but just look out how midnight catches you sleepless.

Rainbow gold looks all right from a distance, but did you ever get a near view of it?

The mountain wouldn't go to Mohammed of old, and the modern ones mostly seem to get it to fall on them.

Kindness doesn't cost much, and, as a general thing, that is just about what you get for it.

Pride and greed and paltry pelf sound sordid, but in actual doing they are pretty busy qualities.

An artistic liar frequently tells the truth, being an artist.

### The Latest Craze.

Across the country far and near The aviator swooping Goes like an eager cannon ball The practice squad is shooting. Another want for waste and speed The human kind supplying. At last the upward goal attained, The worm called man is flying.

How easy since we know the way It seems aloft to tumble And make the eagles and their kind Observe us and feel numb! How fine it is to spread our wings And set the wheels in motion, Cross over rivers, lakes and plains, Nor turn back for the ocean!

Of course there are some things to do— That was to be expected— To make the wings secure and tame Before it is perfected. Six thousand years and maybe more Has man the earth been stalking, And so he cannot all at once Arise and fly like walking.

But it is coming. Don't you hear The engine wheels a-chugging? That little speck you see is man, A silver cloud bank hugging. And he will very shortly fly From pole to the equator, So get in line for higher things And be an aviator.

### Some Hope.

"I have been taking painting lessons." "So I see." "Then you saw some of my work. What did you think of it?" "If you keep on improving you might find somebody who would let you paint his fence."

### Modern Improvement.

"Demosthenes acquired a loud voice by practicing on the seashore where he could talk against the noise of the waves."

"Those ancients had to put up with lots of inconveniences. Now, if he had had a piano and a musical daughter!"

### Pretty Cold.

"Well, if that isn't the limit." "What?" "Ethel's latest idea." "What is that?" "She wants to take a hot air float with her when she goes in swimming."

### Sure Cure.

"Do you know a cure for insomnia?" "Yes. Adjust matters with your conscience and quit abusing your family."

### Better Time.

"My kingdom for a horse!" shouted the distracted monarch. "Sure?" said the street urchin. "Yes, indeed." "Aw, call a taxicab."

### Has Its Drawbacks.

"Living in a cottage by the sea must be ideal." "But for one thing." "What's that?" "The landlord."

### Preference.

"Are you fond of change?" "If nothing better offers." "Better?" "Yes; hundred dollar bills are a preference."

### Defined.

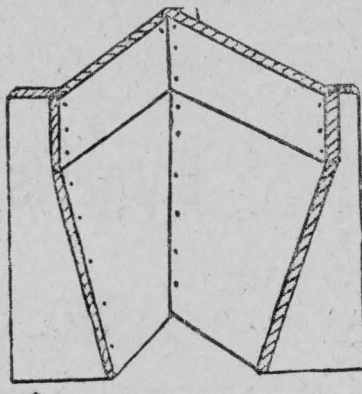

"What is the ultimate consumer?" "He is the fellow that gets it from all sides and never has a chance for a come-back."

## DURABLE HITCHING POST.

Article Made of Concrete Combines Attractiveness With Convenience.

Attractiveness as well as convenience is embodied in the concrete hitching post shown in the illustration.

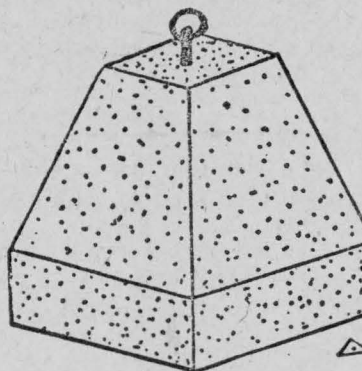

The mold shown at left of drawing is made of boards by cutting six uprights to conform to the outside of the post, of which a good size is to have the base or square bottom six inches high and eighteen inches square. The slop-

MOLD FOR CONCRETE HITCHING POST. (From Farm and Ranch.)

ing sides are twenty-four inches high and slant, so that the top is but six inches or eight inches square. This is done by cutting boards of the correct shape and size for base and slanting sides and then nailing them to the uprights so as to make the mold in two sections, each section alike. Just one-half of mold or one section is shown in the illustration. The opposite section is placed beside this, and the two are held together with hooks and eyelets while molding the work.

The ring is easily made by any blacksmith and has a rod to extend into the body of post about eight inches and with the end bent so it will not pull out easily. This is placed in the mold before filling in the concrete and thus is firmly imbedded in same. The mold is removed by turning the work upright or upon its base, as it is to stand, and then simply unhooking the hooks, when the two sections can be easily re-

CONCRETE HITCHING POST. (From Farm and Ranch.)

moved. The top is molded by placing the mold on a plank into which a hole has been cut, so that the ring and rod to project from top of post will set into same, thus molding the top neatly and bringing the trowel finish upon the bottom of post.—Farm and Ranch.

## SCIENCE ON THE FARM.

Enables the Farmer to Trade \$2 For \$3, Says a Scientist.

"Carrying Scientific Agriculture to the Farmer" was recently discussed by Dean H. L. Russell, University of Wisconsin. Scientific agriculture is permanent agriculture. The Chinese have a more fertile soil than ours because they have applied scientific agriculture. Holland produces thirty-three bushels of wheat per acre. We produce thirteen bushels.

Great interest could be aroused by convincing our people that there is an undiscovered continent whose soil is as productive as ours. We will find that continent when we discover the methods by which our soils can be made to double their production. Our experiment stations have discovered the secret, but that will do no good until the tillers of the soil understand it. The publications of our stations must reach our people and be read by them. Information must be put in concrete form; it must be visualized. Three things are necessary in farming—first, improved seed; second, improved production; third, reduction of loss.

We are appointing county demonstrators who go into each county and employ the "show me" method of farming. Corn, wheat and other grains and crops are planted and the cultivation done before the farmer and his help.

The farmer may be prejudiced against new methods, but this opposition yields when he is shown the better way. Wisconsin was driven from raising wheat by the chinch bug, but this bug was a godsend to agriculture because the farmers went into the dairy business.

By growing wheat we increased our bank account and depleted our soils; by dairying we both increase our bank account and the fertility of our farms. The purchase of \$2 worth of phosphorus on a stock farm increased our crops \$9 worth. We are always willing to trade \$2 for \$9. There is a limited amount of phosphorus in our soils, and to keep up the phosphorus content

## Your Undivided Attention

**Chesterville, Ont.**

N.B.—Send your Laundry parcels Each Tuesday.

we buy for \$10 as much phosphorus in the raw rock as we formerly got for \$25 in the treated goods. The tax which comes from apathy, indifference and ignorance is the highest tax farmers pay.

### To Kill Bull Thistles.

Bull thistles, common in pastures, cannot always be killed by mowing. Mowing tends to prevent maturity of seed. Cutting off the thistles just below the surface of the ground two or three times a year will effectually eradicate them.

### Her Advantage.

"Oh, dear!" said little Harold's mother, who was somewhat rheumatic. "I seem to ache all over." "Well," said her sweet child, "I'm sorry, but not as sorry as I'd be for father if he felt that way." "Why would you feel more sorry for your father, love?" "Cause they'd be such a lot more of him to ache."

### The Whole Thing.

"Dixy seems to think he's the whole thing as an expert authority on sporting matters." "Yes; he appears to regard himself as pretty nearly big enough to wear golf links to fasten his shirt cuffs."

### Economy.

"John, dear, I wish you would get me an auto." "My darling Amy! Didn't I tell you we must economize?" "Yes; that's why I want the auto. Think of the car fares I'd save."

### Hourglasses.

Hourglasses are made smallest in the middle. Probably the idea is to show the waist of time.

### His Easy Way.

"Is he lazy?" "I would hardly say that. You've heard the expression, 'Unseemly haste?'" "Whv, certainly." "Well, all haste looks that way to him."

### Local and District News.

Corn harvesting is in full swing with the farmers of this section of country.

A Newboro fur dealer has just returned from New York where he disposed of \$3,000 worth of furs which he had in cold storage during the summer months.

Miss L. Gauthier, Chrysler, will have her Opening on Friday, Sept. 30th. She has Miss C. Anderson as milliner. She has been in Montreal for two years. Orders filled promptly. Everybody welcome.

Mr. Alex Allison had the misfortune to lose a valuable cow by clover bloating. He turned the cows into a field of alfalfa and went to another field for a load of corn. When he returned in less than hour he found his best cow lying dead in the field having bloated with the clover.—Russell Leader.

Judge Gunn of Ottawa has awarded Senator Belcourt \$400 the amount of his claim in the case against George Crain. Mr. Crain built the Brockville postoffice and had a dispute with the Public Works Department regarding the extras, etc. Senator Belcourt was engaged to look after Mr. Crain's interests. The suit was for \$400 the balance due for professional services which totalled \$1,000. No costs were allowed.

### Eastern Ontario Power Project.

It is rumored at Morrisburg that Mr. J. Wesley Allison who controls the undeveloped water power on the "Little River" at Waddington, just opposite Morrisburg on the American side is negotiating with the Hydro-Electric Commission for the supply of power for Eastern Ontario. The scheme it is said also includes the power owned at Iroquois by M. F. Beach. A citizen of the latter village says the municipality will object to the power being transmitted and will insist on it being kept for use there. The price which it is said will be quoted will be from thirteen to fifteen dollars per horse power at Morrisburg.

### The Late John H. Wells.

There passed away at his home in East Williamsburg an old and highly respected resident in the person of John H. Wells who departed this life on Saturday Sept. 17th. after being confined to his bed for nearly five weeks due to a stroke of apoplexy. Mr. Wells who was in his eightieth year was the eldest son and only surviving child of the late George Wells of Hoasic. Deceased was born in Schoharie Co. near Albany N. Y. His father emigrated to this county when deceased was about ten years of age. He first settled in Hoasic and removed to his present home about 38 years ago. In 1858 he was married to Charlotte M. Schwerdfeger who predeceased him about four years. By this union there were five children; Alfred S.; of East Williamsburg; J. Amos deceased of Montreal; Mrs George I. Markell of Moosomin Sask.; Mrs Wm. Watson and Samuel G. of East Williamsburg. He was again married in 1907 to Mrs Cornelius Wells daughter of John C. Watson of East Williamsburg who survives him. Mr. Wells was a man of quiet retiring disposition a good husband and a kind and affectionate father and proved himself to be a firm and sympathetic friend to all with whom he came in contact. He leaves to mourn his loss his widow and the above mentioned children to each of whom the deepest sympathy of all who knew them is sincerely extended.—Morrisburg Leader

Dr. Laberge Sheriff of Beauharnois is dead.

### Local and District News.

Quite a number from here attended Avonmore fair yesterday.

A call has been extended from the Presbyterian congregation of Shawville to Rev. Geo. Thone of Almonte.

Whittaker the Optician will be at Chesterville on Wednesday October 12th, and at Finch on Thursday October 13th.

Mr. Wm. Meharey of Russell, will offer some young mares for sale at Ottawa on the 14th of Oct. See advt in Record.

We are pleased to state that Mr. John McCormick of Winchester who has been confined to his house for a number of weeks by illness is now able to be out again.

Rev. Mr. McLaren, of Bishop's Mills, has accepted the call to Woodlands, and his induction will take place in a couple of weeks.

Amity Lodge No. 80 I.O.O.F., Prescott will tender a banquet to Grand Warden F. S. Evanson on the evening of Thursday Oct. 6th. Chesterville Lodge are requested to send representatives.

Berwick held a very successful fair on Friday last, Sept. 23rd. The contests in some of the horse show rings were keen and the exhibits of cattle was fairly good. A very good display was made in the main hall. The day was favorable and a good crowd of people were present.

J. Howard Fulton, who for the past two years has been in Calgary, has become a partner of the Firm of Fulton Bros., succeeding W. R. Fulton. The new firm will do business as heretofore. Thanking you for past favors, and soliciting a continuance of same. Fulton Bros.

Mr. Wm. H. Saunders of Smith's Falls and Miss Flossie E. Beach of Oxford were united in wedlock on Wednesday Sept. 21. The ceremony took place in the Manse Kemptville Miss Edith McQuaig of Smith's Falls and Mr. Eldon Beach of Oxford were the attendants.

Rev. and Mrs Thos. McAmmond of Morrisburg will shortly take up their residence in North Augusta Mr. McAmmond having consented to take the Methodist charge there for the balance of the year. Rev. Mr. Crabb the present incumbent has decided to go west.

Major Moore of Montreal a travelling representative of the Salvation Army, has been to Brockville interviewing prominent citizens relative to the building of a temple for the use of the Army in Brockville. A lot on Broad street, south of the Bell Telephone building, has been secured and on this it is proposed to erect a \$10,000 building.

Mr. Oscar Casselman who resides just west of Morrisburg was severely injured by his bull on Tuesday last. While returning from the canal where he had been watering his stock the animal attacked him and gave him a bad shaking up and would doubtless have killed him had it not been for John Wyatt a young home boy who saw the attack and yelled for help and set the dog onto the infuriated animal. The bull was beaten off and Mr. Casselman taken to the house where he was confined to his bed for several days. This same animal attacked young Wyatt a year ago the 4th of July and gave him a terrible shaking up. The animal will now doubtless be sold for beef.

Sunday next, Oct. 2nd is to be observed in many of the churches of the county of Dundas as Field Day for the Ontario Branch of the Dominion Alliance. Mr. A. M. Peterson, Barrister, of Coburg, will speak on behalf of this work in the Presbyterian Church at 10.30 a.m. and in Trinity Methodist Church at 7 p.m.

At the last meeting of the Williamsburg Township Council Mr. Chas. Casselman appeared to urge the passage of the two by-laws he had submitted to them for their approval. One by-law was for the restraining and regulating the running at large of dogs; the other was a by-law regulating the height extent and description of lawful division fences. Both by-laws were talked over at considerable length and Mr. Casselman urged the need of both and particularly the dog by-law in order that the sheep industry might be received in this county. The councillors however were not fully convinced of the advisability of passing them and laid them over till their next meeting.

Terms Cash. **McGEE & CO. Chesterville**

### To Harness Power Of Long Sault.

Brockville Ont. Sept. 25.—It is reported here on good authority that in the near future construction work for the purpose of developing power in the South Sault Channel of the St. Lawrence River between Long Sault Island and the mainland which is entirely in American territory will be commenced by the Long Sault Development Company.

At the time the Long Sault project was brought forward last year the promoters proposed in any event to develop the power on the south side. It was in the hope of developing the full power of the river that Canada was asked to co-operate.

It is also rumored that the Ontario and St. Lawrence Power Company intend developing power at Waddington N. Y., also entirely in American territory.

As to what extent these works will materially or prejudicially affect the flow and levels of the river will most likely be made the subject of thorough investigation by the proper Canadian authorities.

### Sad Accident On Hunting Trip.

Brockville Ont. Sept. 26.—Arnold Boyd of Merrickville was accidentally shot at Mud Lake near Toledo on Saturday. In company with his wife he had been camping here since the hunting season began and on Saturday he was out on the lake as usual. He landed his boat on Lockwood's Landing and was it thought pulling his gun out of the boat when it discharged blowing part of his head off.

The accident happened about five o'clock but the body was not found until Sunday afternoon though a searching party set out as soon as Mrs. Boyd informed them of her husband's absence. Boyd was 23 years of age. His young widow alone survives him.

### A Good Position.

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R.R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., or Philadelphia, Pa.

A son of Mr. Harvey Palmeter eight years of age was shot and fatally wounded near Charlton. The rifle was not thought to be loaded.
