Train Was Derailed

Three cars of the Montreal to Toronto C.P.R. train which left Smiths Falls Saturday night were derailed ten miles west of Peterboro at a point where there is a steep grade. The train was going slowly and not much damage was done. The line was blocked until 1 o'clock and the passengers were taken around another way.

Weather For April.

Rev. Irl R. Hicks, in his weather prophecies for April is most generous with promises of hail during the present month. Along with this he isn't stingy with thunder, lightning, wind and rain, also snow and sleet. Aside from these things April appears to be destined to be a pretty fair sort of month. He predicts the best general season for fruits that we have had for many years, also for seeding all kinds of crops and gardens.

Big Slaughter Sale by Relyea, of Three Bankrupt Stocks, opens Friday, April 11th, for 9 days only. Auction each afternoon and night.

The Late Joseph Hess.

There passed away at his home at Winchester Springs, on March 17, 1913, one of the oldest and most respected citizens in that section in the person of Joseph Hess.

Deceased was born in Williamsburg Township on the old and well known Hess homestead, ninety-four years ago, and throughout his life resided in the same county. He is survived by his aged widow, one daughter and six sons.

The funeral service held at the residence was largely attended, and the sermon was preached by Rev. Stevens, pastor of the Methodist Church at Chesterville, after which the remains were placed in the vault at Maple Ridge cemetery.

Deceased could be favorably conversed with in regard to political enterprises and changes of Government, both before and after Confederation. In politics he was a staunch Conservative and of U. E. Loyalist stock.

The pall-bearers were his six sons

Are you ready? Relyea opens again Friday morning, April 11th, at 8.30. Auction each afternoon and night.

The late Daniel McEwan.

The following is taken from the Forester Newspaper published at Huntsville, Ont., and which has reference to the death of a former resident of this district, and who was a brother of Mr. Robert McEwan of this place:—

"The ranks of Muskoka's pioneer are becoming gradually depleted by death. On Saturday last another old citizen who braved the early days of hardship and suffering" passed away in the person of Mr. Daniel McEwan. Deceased had reached the ripe age of 85 years and for nearly forty years has been a resident of Muskoka. He was born in Belfast Ireland, and migrated to Canada when only four years of age. For some years he lived with his parents at Winchester, Ont., where he was married. Upon coming to Muskoka, he first lived seven miles out in Brunel township, and a few years ago purchased a farm near the Locks where he lived until the death of his wife, four years ago. Since that time he has made his home with his daughter, Mrs. MacDonald in Huntsville. The funeral took place Tuesday morning at 10.30 the remains being interred beside those of his wife in the Methodist Cemetery.

Deceased leaves seven children. Of these, four were present at the funeral as follows: Mrs. McDonald, Huntsville; Mrs. George Field, Toronto; Mrs. Wm. Fowler and Mr. John McEwan of the Locks. The remaining three children live in the West. They are: Dan, of Strathcona, Alta.; William of Tivan, Saskatchewan; and Mrs. Farr of Carniff, Sask.

Among those present at the funeral was an aged brother of the deceased, Mr. Robt. McEwan, who, for some years was a public school teacher in Ontario."

Mr. J. S. Cowan was called here from the Coast during the past week on account of the illness of his mother. Since his coming there is some improvement in her condition.

Mr. J. S. Muir of Toronto, was in town yesterday and goes to Williamsburg today. He is here for organization purposes, he being the nominee for the Liberal party of the Ontario Legislature.

Mr. W. J. W. Lowrie, proprietor of The Leader, at Russell, was in town on Monday. In conversation with him we were informed that it is the intention of that village to submit a bylaw for 250 horse power from the Hydro Electric. We were pleased to hear this, as it looks good, and the prospects are that Chesterville and Winchester may be able to secure it.

Tragic Death Of Young Lodi Boy.

George Ernest McIntyre, son of Mr. and Mrs. Daniel J. McIntyre, of Lodi, met with a tragic death while visiting his uncle Melvin Begg Tolmie Corners, last week.

The young lad, who was doing some experimenting with a windmill, got his clothes caught in the driving shaft, and being alone at the time he was unable to extricate himself and was crushed to death. His body was found by his uncle a few hours later.

He was 11 years of age.

Died at Cahore.

The death of Mr. James McManus occurred at Cahore, March 25th.

He leaves to mourn his loss a loving sister, Mrs. Jacob Burd and two brothers, Edward and Christopher.

The Preacher's Toast.

At a recent editorial convention a preacher offered the following toast:

To save an editor from starvation take his paper and pay for it promptly. To save him bankruptcy, advertise in his paper liberally. To save him from despair send him every item of news you can get hold of. To save him from profanity, write your correspondence plainly on one side of the sheet and send it in as soon as possible. To save him from making mistakes, bury him—dead people are the only ones who never make mistakes. — Bruce Mine Spectator.

Local Option

At a convention of the temperance workers of the united counties of Leeds and Grenville it was advocated to hold a local option contest next January in the following municipalities: Brockville, Ganarbus, South Elmsley, Kitley, Kemptonville, Merrickville and Prescott.

C. O. F. Gathering.

The Assembly and Euchre party given by the Canadian Order of Foresters in the Music Hall on Friday evening last was fairly well attended, although the weather was very unfavorable. The hall was tastefully decorated and presented a very pleasing appearance. This was their first annual assembly and no doubt the next will be looked forward to. Valentine's Orchestra was present and furnished excellent music.

A Long Session.

Mr. Relyea, manager of the Relyea Merchandise Co., was summoned to appear in the town hall on Tuesday of this week on an infringement of the early closing bylaw. Mr. W. J. Cass, of the firm of Lawson & Cass appeared for the appellants and Mr. Cline, of the firm of McLellen & Cline of Cornwall, for the defendants. Many witnesses were examined, the trial lasting for five hours. The case was before Jas. Clement, J.P., and after reviewing the evidence, he gave judgment for \$5 and costs, against the defendants.

We are informed that the case has been appealed.

Good Winchester

It is reported that numerous prosecutions and convictions in connection with the enforcement of the local option bylaw have taken place in Winchester village during the past week.

It is rumored that a prominent physician and several business men of that village have been fined on account of irregular practices contrary to the bylaw, and that more actions are to be instituted in the near future.

Every Automobile Driver Must Carry A License

Toronto, April 3rd.—In future every driver of a motor car in the Province must carry a license and be prepared to produce it when asked to do so by officers of the law.

This is provided for in a sweeping amendment to the motor vehicles act adopted yesterday by the Municipal Committee of the Legislature following a stormy discussion.

Ontario Motor League members supported the amendment, which was suggested by Mr. Geo. H. Gooderham, and which, briefly, means that 20,000 automobiles now in use in various parts of the Province will be subject to a complete system of registration, and that each member of a family as well as private owners who drive cars other than "cars for hire, pay or gain" will be compelled to carry an official license.

Efforts put forward by Mr. Gooderham to prevent the use of glaring searchlights on automobiles in city streets were only partially successful.

Mr. Gooderham has a bill to amend the municipal act by providing that Councils of municipalities that have power to regulate traffic may compel all vehicles to carry lights after nightfall, and the committee took the view that this power should be extended to searchlights, and declined to make a general provision in act.

Reciprocity with the United States in auto licenses was exceedingly unpopular.

Provincial reciprocity was provided for without a dissenting voice.

Loud objections were made concerning the clause that compels all vehicles to halt before coming to standing street cars and it was held over.

By the adoption of another clause, persons convicted of violating the rules of the act three times forfeit their permit.

Presbyterian Church to Raise \$1,200,000

The budget of the Presbyterian Church of Canada for the year 1913 is \$1,200,000.

The increase over last year of \$200,000 reveals in a striking way the advancement made by the Church. Some pessimism is said to prevail as to the outcome of the amount asked for, but a strong note is struck by others, who regard the progress of the Church as a warrant for asking this sum.

The General Assembly has amalgamated the amounts allocated to the Home Mission Fund; the Augmentation Fund, French Evangelization and the Jewish work, and the different amounts belonging to those branches of the Church will in future be classified under the heading of Home Mission. The allocation of the different amounts is as follows:—

Home mission, including the foregoing mentioned divisions, \$593,000; foreign mission, \$325,000; social service, \$80,000; Assembly fund, \$30,000; aged minister's fund, \$25,000; widows and orphans \$25,000; Pointe aux Trembles School, \$24,000; Knox College, \$23,000; Westminster Hall \$18,000; Manitoba College, \$12,500; Montreal College, \$12,000; Robertson College, \$10,000; Queen's College, \$8,000; Deaconess Training Home, \$5,000; unallocated, \$9,500.

The total of \$593,000, under the head of Home Mission is divided as follows:—Home Mission, \$425,000; augmentation \$120,000, French evangelization, \$36,000; Jewish work, \$12,000.

Marriage Act is Introduced Clauses Are Far-Reaching

Toronto, April 4.—The Ontario Government has introduced their proposal toward the revision and improvement of the Provincial Marriage Act, and, as expected, several of the clauses are of a drastic and far-reaching nature. When the bill was laid upon the table yesterday afternoon by Hon. W. J. Hanna he did not attempt to extend the explanations he had made on a previous occasion, the draft following in practically every particular the outline given.

Foremost in interest and importance is the clause which ordains that for three successive weeks immediately preceding the application for the marriage license the notice of its approach be published in a local publication in the case neither of the parties had for the preceding 15 days lived there. The license would be issued on the affidavit of one of the parties stating that this regulation had been complied with.

Should an applicant be unable to meet these conditions the circumstances of his case would be reported to the registrar-general, and upon his being satisfied that the reason for having the marriage solemnized in the place mentioned was not to evade due publicity, or for any other improper purpose, he could in writing authorize the issue of the license or certificate.

If any issuer of licenses or any minister or clergyman knowing or believing that either of the parties to the intended marriage is an idiot, insane or under the influence of liquor, he shall incur a penalty not exceeding \$500 and shall also be liable to a prison term not exceeding 12 months.

Further, the bill states that if any person who had been a minister or one with the right to solemnize marriage, but had been deposed from that right, thereafter undertakes to solemnize any marriage he should incur a penalty of \$500, and in addition be liable to a term not exceeding a year.

The bill was given its first reading and will appear again today.

Brockville Boy is Electrocuted.

Brockville, April 4.—Whitney Hewitt, a lad of 17 years, was almost instantly killed this afternoon by touching a live wire of the light and power department on Central avenue, which had fallen during the recent sleet storm, and was awaiting repairs. It was hanging a few feet above the ground and Hewitt thoughtlessly ran his hand along it until he encountered a spot where the insulation had worn off. Immediately 2200 volts passed through his body. He died on his way to his hospital.

An inquest was opened.

HE NOW BELIEVES IN "FRUIT-A-TIVES"

Because He No Longer Suffers With Headaches

TAYLORVILLE, ONT.

"I was a sufferer from Fearful Headaches for over two years. Sometimes, they were so bad that I was unable to work for days at a time. I took all kinds of medicine, was treated by physicians, but yet the Headaches persisted.

A short time ago, I was advised to try "Fruit-a-tives" and I did so, with I must confess, very little faith. But after I had taken them for three days, my Headaches were easier and in a week they left me.

After I had taken a box of these tablets, my headaches were quite cured. My appetite was always poor and my stomach bad—and now my appetite is splendid and my digestion excellent.

I had become thin and weak from the constant Headaches but now not only have I been cured of all these awful Headaches, but my strength is growing up once more and I feel like a new man!"

Montreal Grocer Slain In Saloon

Montreal, April 1.—Crazed by drink and apparently suffering from the effects of cocaine or some other drug, Jean Deroche, alias Jack Roach a telegraph operator, shot and killed Eugene Venne a grocer, in the bar-room of Gaspard Thoun's restaurant, 304 Mount Royal Avenue east, late this afternoon. Three bullets were fired into Venne's body and he died within a few minutes.

Constable Croteau, of the traffic squad who was on duty nearby, rushed into the barroom, where he found Deroche standing over his victim with the smoking revolver still in his hand. Croteau struck him a blow on the hand with his baton, knocking the revolver from his grasp, and as he did so grappled with him and overpowered him. The victim died within fifteen minutes without regaining consciousness.

From what could be learned of the conversation of the two men in the bar, Deroche was accusing Venne of having attacked his character. Deroche was locked up on an open charge.

Seek \$10,000 Damages for Alleged Slander.

Moose Jaw, Sask., April 6.—As a result of a statement made at a meeting of the real estate men on Thursday evening last two reporters on the Morning News have instituted an action for slander against C. E. Brown, the publicity commissioner who came here from Medicine Hat last September. He accused them of taking money from the National Land Company in connection with the erection here of a linseed oil mill. That any consideration was paid to the two men is denied by them, and also by the local manager of the land company as well as by the president, who came here from Calgary in connection with the linseed oil mill. This land company has offices in Winnipeg, Calgary, Lethbridge, Saskatoon, Edmonton, Nelson and many other places. The damages claimed by the reporters is \$10,000 and the case is attracting considerable interest here.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials.

Children's Teeth in a Bad Way.

Toronto, April 8.—The necessity for, and object of, the newly-created Dental Clinic are dealt with at length in The Health Bulletin of the local Health Department, which was issued this morning. After a dissertation on the vital importance from a health standpoint of caring for the teeth, The Bulletin says in part:

"A careful examination of the mouths of our school children revealed the fact that over 90 per cent. of those attending the Public Schools were found to be requiring attention, in consequence of which a free municipal dental clinic, operated under the control of the Department of Health, has been established at the southwest corner of Yonge and Grenville streets. The rooms have been equipped with three chairs, which are operated by fully qualified dentists from 9 a.m. until 5 p.m. daily, excepting Sunday. Here children of parents who are unable to pay may receive free treatment.

"The local dental clinic will be used as a central bureau of information concerning the care of the teeth; literature will be distributed from time to time for this purpose.

"If you cannot afford to have your child's teeth attended to, send them to the municipal dental clinic."

Rev. Joseph White Dies at Calgary.

Ottawa, April 5.—News has been received here by Mr. W. G. Blyth, of the death of the Rev. Joseph White, Pastor Emeritus of the Erskine church, Ottawa, who died in Calgary.

Deceased was born in Huntingdon, Que., eighty-four years ago, and was the first minister of Erskine Presbyterian church. At the 36th anniversary of the church on Feb. 24th last, the service took the form of a celebration in honor of the 50th birthday to the ministry of the Rev. Joseph White, and a brass tablet about 22 inches square, was unveiled to his memory in a suitable position in the church.

Mrs. White died last autumn, and the deceased pastor went to live at Calgary about a month ago. He leaves three sons one in Calgary, one in Vancouver, and one in Greenwood, B.C., and Messrs. W. G. Blyth and J. T. Blyth of Ottawa, are nephews.

Curfew For Ontario.

Toronto, April 4.—Children will not be allowed to be about the streets after nine o'clock in Ontario if a bill introduced by the Hon. Mr. Hanna becomes a law. The bill gives the police power to compel parents to see that their children do not loiter on the streets at night. The legislation was asked for by the Local Council of Women, the Women's Christian Temperance Union, and other like organizations.

Commissioner Orde Resigns.

Ottawa, April 4.—The resignation of J. F. Orde, Chairman of the Ottawa Board of License Commissioners, has been accepted by the Provincial Secretary's Department. The appointment of a new board has been recommended by the local Conservative Executive.

Tax Reform Coming at the Present Session

Toronto, April 4.—Those who have been despairing that no amendments would be made to the assessment act to carry out the recommendations of the special committee of the Legislature had hope revived in the Legislature yesterday On the orders of the day being called Mr. Rowell asked if the Government intended to introduce a bill this session to implement the recommendations of the committee.

"Yes," replied Mr. Hanna, "very shortly." This brief intimation means that the exemption on income in cities will be raised from \$1,200 to \$1,500, and in towns and villages from \$900 to \$1,200.

The clause respecting "farm lands" in municipalities will be repealed. This will prevent large unimproved areas in towns and villages being assessed as farm lands and make them liable to assessment on the same basis as adjoining property.

The bill will be introduced any day. Another bill that is likely to receive support from the Opposition is one brought forward by Mr. Scholfield to provide for an exemption of \$3,000 on house property when it is occupied by the owner. In workingmen's houses where the value can be easily determined this would be at once a relief and an encouragement to workingmen to own their own homes. This bill has not been discussed yet.

Alexander Smith

The late Alexander Smith, who passed away at Cardinal, March 20th, was born in the township of Osnabruck, on April 22nd, 1838, being the eldest child of Caswell and Nancy Smith, both deceased. He was a resident of Cardinal for nearly 45 years. He followed the profession of school teacher for more than 30 years, a number of which he was principal of the Cardinal Public School. For some time past he had been in the employ of the Edwardsburg Starch Co., at the Company's stores, where he was when stricken with paralysis, from which he never rallied, lasting about two days. He was not only a devoted husband and father, but also a man of sterling worth, just and honorable in all his dealings, respected by old and young alike. He was an Anglican in religion and a Conservative in politics. His wife pre-deceased him in August of last year. Six children survive—two sons and four daughters, who sincerely mourn his loss.

SOWING HIS WILD OATS

REAPING A HARVEST OF SORROW

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees; if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life—**DRS. C. P. Opens World's Biggest Ry. Shops.

The C.P.R. has opened its new shops at Ogden, near Calgary, which are the largest railway repair shops in the world. There was no blowing of trumpets for the occasion, and even many prominent officials at Calgary were unaware of the official opening, so quietly and ostentatiously was the ceremony carried out. The opening of these shops, which are called after one of the company's most popular officials, mark a new era in the annals of Calgary and district, if not the Canadian West, for where less than twelve months ago was open prairie land today there exists a great hive of industry. Springing up around the new Ogden shops is the city of Ogden, which is very rapidly extending through the advent of the largest repair shops in the world. The C.P.R. has already expended several millions of dollars on the erection of buildings and equipment forming these huge and colossal works, but there still remains more to be before the shops reach the state of perfection which is always a part of the policy of the C.P.R. The shops, which occupy a hundred and twenty acres, are of the most modern construction, and contain the latest appliances used in the construction or the repair of a locomotive that the mechanical world has devised, and constitute a group of twenty buildings, the locomotive works being by far the largest, occupying a space of eight acres. Eleven and a half months from the turning of the first sod for the construction of the works the C.P.R. turned out its first engine.

Parcel Post Is Provided For In Bill.

Ottawa, March 31.—Postmaster General Pelletier has given notice of two important bills which he will introduce on Wednesday next. One is entitled "an Act Relating to the parcel post." This bill will implement the promise of the minister to introduce legislation at this session authorizing the establishment of the parcel post in Canada. While details are not available, it is understood that the proposed legislation will follow to some extent the recent U.S. parcel post legislation.

The other bill is intended to provide more advantageous telegraphic communication between Canada, the United Kingdom and other parts of the British Empire. The bill is the result of correspondence and conferences between Postmaster-Generals Samuels and Pelletier. It will provide for a concurrent control of cable rates between Great Britain and Canada and will authorize, it is said, such action as the Canadian Government in connection with the imperial government as may lead to a state-owned Atlantic cable.

Found Dying In a Cellar.

Toronto, March 28.—W. M. Campbell an accountant of Gravenhurst, Ont., was found dying in the cellar of the Daly House, Front and Simcoe streets, a little before five o'clock this morning. He expired shortly afterwards. When found he was lying face downward in a pool of his own blood. Campbell, it is said, has not been feeling well for the last few days. While walking down the steps into the basement he had fainted or taken a fit.

He Sold Whiskey, Pays Fine of \$100.

Perth, Ont., April 7.—On Sunday last Jos. Kirkham, stableman at the Imperial Hotel, was caught by Chief Griffith selling a bottle of whiskey. Inspector Hyndman laid information and the case came before Magistrate Taylor. Kirkham pleaded guilty and was fined \$100 and costs for selling without a license.

On April 25th, Perth property owners will be asked to vote on two bylaws, one to raise \$20,000 to improve the streets of the town, the other for \$10,000 to pay the recent waterworks suit indebtedness.

Desrochers Pleads Guilty.

Montreal, April 4.—Jean Desrochers, arrested in connection with the shooting and killing of Eugene Venne in a saloon on the corner of St. Denis and Mount Royal streets yesterday afternoon, appeared in the Police Court this morning, and though not formally arraigned, pleaded guilty.

The coroner's jury which looked into the case advised that Desrochers should be held for murder.

John P. Pitcher, a prominent Brantford citizen, was seriously injured when thrown out by his horse shying.

Weather Insurance

This class of insurance under the peculiar name attached to it by the Department, is appealing more than ever to the farmers of Ontario owing to the extraordinarily high and light class of construction of farm buildings in recent years.

The cutting away of the forests which were a natural protection against high winds, has left conditions in this province similar to the American west where cyclones sometimes strike a narrow path with frightful force through a long narrow strip of country, wiping out everything in their path.

Three companies are now operating successfully in the province, doing a well regulated business under the powers conferred by the Act of Incorporation of 1904.

Immediately afterwards the Ontario Farmers' Weather Insurance Mutual Company was organized, being the first company in the field and has advanced so rapidly that it has outstripped any of the Fire Mutuals for the same space of time, carrying over \$8,000,000 insurance with premium note capital of \$250,000, including cash in banks and debentures, and is still the leading company.

The Wettest Month.

Which is the wettest month in the year in Ontario? Probably nine people out of every ten would name April in answer to this question, while as a matter of fact it is the driest month in the whole twelve, according to Prof. W. H. Day of the Ontario Agricultural College, Guelph. Taking all the stations in Ontario where records of the rain and snow have been kept he finds the average precipitation for the various months as follows: January 2.23 inches of rain and melted together, February 2.40 inches March 2.22, April 2.14, May 2.81, June 2.92, July 3.46, August 2.62, September 2.81, October 2.54, November 2.43, and December 2.63 inches respectively, making a total average precipitation for the ten years of 31.87 inches. April it will be noted has the least precipitation of all.

"From these figures" Prof. Day remarks, "one receives another surprise to learn that July is really the wettest month, so far as actual amount of precipitation is concerned. Why does the driest month seem the driest? During the winter the snow accumulates, and when it melts in late March or early April it forms several inches of water which saturates the soil and drains away very slowly. Besides* in the spring there is cool weather usually coupled with cloudiness and gentle rains, so that evaporation is largely prevented, and hence the soil and roads remain wet; in summer the showers are heavy, but being few and far between, and as a rule with clear sky and hot weather intervening evaporation is much greater than even the heavy rainfall so that the soil and roads become drier and drier.

Cornwall-St. Polycarpe Railway is Endorsed.

Cornwall, April 4.—At the meeting of the Cornwall board of trade the question of the railway from Cornwall to St. Polycarpe was under discussion, and it was decided to do all that was possible to assist C. L. Hervey, the promoter of the scheme, to secure a subsidy from the Dominion Government. A committee, consisting of President Hodge, W. Gibbons, V. Boyd, N. J. Fraid and J. J. Fallon, was appointed to act in conjunction with the town council of Cornwall to strengthen the hands of Mr. Hervey and Dr. Alguire, M. P., who are in touch with the government in regard to the subsidy, and to send a deputation to Ottawa to interview the minister of railways and canals.

The new road would give railway communication to a section not well served at present. The distance is under thirty-six miles, and the amount to be involved is not large, if the subsidy is secured. The line will be built without delay if encouragement is given.

Unique Gifts To Col. S. Hughes.

Ottawa, March 26.—Major C.F. Smith, of Chatham, has sent the Minister of Militia a cane made out of wood from one of the British warships that fought on the Great Lakes during the war of 1812. The handle is a grape shot as used by this vessel.

Colonel Hon. Sam Hughes also received from Mr. Smith a gavel of the same wood, and the handle from wood of H.M.S. Victory. It has gold coins on either face representing Queen Victoria, King Edward VII, King George V. and the present Prince of Wales.

Experiments With Farm Crops

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1913 they are prepared to distribute into every Township of Ontario material of high quality for experiments with Grains, Fodder Crops, Roots, Grasses and Clovers, as follows:—

No.	Experiments	Plots
2a—	Testing O. A. C. No. 21 Barley and Emmer	2
2b—	Testing two varieties of two-rowed Barley	2
3—	Testing two varieties of Hullless Barley	2
4—	Testing two varieties of Buck-Wheat	2
5—	Testing two varieties of Buck-Wheat	2
6—	Testing two varieties of Field Peas	2
7—	Testing two varieties of Spring Rye	2
8—	Testing two varieties of Soy, Soya or Japanese Beans	2
9—	Testing three varieties of Husking Corn	3
10—	Testing three varieties of Mangels	3
11—	Testing two varieties of Sugar Beets for feeding purposes	2
12—	Testing three varieties of Swedish Turnips	3
13—	Testing two varieties of Fall Turnips	2

28—	Testing Extra Early Eureka and Davies' Warrior (late) varieties of Potatoes	2
29—	Testing three grain mixtures for grain production	3
30—	Testing three grain mixtures for Fodder production	3

Each plot is to be two rods long by one wide, except No. 28, which is to be one rod square.

Any person in Ontario may choose any one of the experiments for 1913 and apply for same. The material will be furnished in the order in which the applications are received, while the supply lasts. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free of charge to each applicant, and the produce will, of course, become the property of the person who conducts the experiment. Each person applying for an experiment should write his name and address very carefully, and should give the name of the county in which he lives.

June Examinations.

The strenuous period of examination time is already looming on thousands of Ontario Students. The Department of Education has issued the time tables for the annual examinations in June, serving as a preliminary warning that the days of trial are on the way.

There are practically no departures either in curriculum or regulation from those of last year, but both public and High School scholars alike will be free at the end of June. The completion of the work by this date last year, when the experiment was tried out, proved wonderfully satisfactory, the stress of hot July days being entirely avoided, and it was decided by the Department to make the regulation permanent.

Of all the students writing, those enrolled in the Middle and Upper Schools begin on June 12th, and conclude on June 12th, and conclude on June 30th, and the Lower School Model Entrance, High School Entrance and Senior Public School Graduate pupils fold their papers on June 17th.

The hours are in such case from 9 to 11.30 a.m., and from 1.30 to 4 in the afternoon, with the exception of Spelling, Oral Reading and Geography periods, which may curtail the lunch hour or to be taken in the late afternoon according to the wish of the student.

Bishop Of Calgary.

Rome, April 2.—Rev. J. T. McNally, formerly of Almonte, Ont., has been nominated bishop of the new diocese of Calgary, Alta.

Winnipeg to Prince Rupert September 14, 1914.

Winnipeg, April 6.—"The first Grand Trunk Pacific train from Winnipeg to Pr. Rupert on the Pacific Ocean will leave this city September 14, 1914," said Morley Donaldson, vice-President and general manager of the road yesterday.

The G. T. P. will augment its tracks by laying 398 miles of steel, according to the statements made by Mr. Donaldson yesterday morning. He announces officially that there are 524 miles of gap between the eastern and western ends of the steel. Of this distance he expects to build 302 miles this summer and to leave 222 miles of a gap to build up next summer. The vice-president also expects the two ends of steel tied up by August 31, 1914. The first train will leave Winnipeg for the coast fourteen days later.

However, he announces that there is a lot of ballasting to be done before he can announce the inauguration of a new summer schedule.

Navigation opened between Detroit and Cleveland, and the Livingstone Channel lights were lighted.

Street-Car Strike at Buffalo.

Buffalo, April 9.—Scores of injured in the hospitals, 300 cars wrecked and not a wheel turning in the city was the situation in Buffalo at the close of the third day of the street car strike. On an order from Justice Spring, of the Supreme Court, two regiments of the State Militia, will be called out to-morrow, including Troop 1 of the First State Cavalry.

Two attempts were made to-day on the life of Chief of Police Regan, while he was on his way in an automobile to different parts of the city where riots were going on, by some unknown person who fired three shots at the chief which narrowly missed him.

Francis Murphy, 13 years old was shot in the hip and dangerously wounded in a riot at the Waldren Avenue barns in a street car.

One good-sized stick of dynamite was found, with a cap attached under a corner of the floor of the Forrest Avenue car barns, by Detective Sergeant Caline O'Connor, and the chief of police ordered that investigation be made at all other barns.

At Niagara Street and Forrest Avenue the strikers made a new departure when they dragged out a number of car wheels which lay in the yards of the N. Y., Car Wheel Works, obstructing traffic for some time. In order to put down violence the police had to resort to gun play and in an encounter with a mob of strike-breakers policeman had a gun fight with four rioters, but no one was hurt. A Best street car carrying 75 strike-breakers and four policeman was attacked, and many were injured. The mob was armed with sticks and bricks and there were angry shouts of "Kill the scabs."

Workmen on the new 17-storey Marine Bank Building hurled bricks at the passing cars at noon today. A motorman and conductor on one car were badly hurt.

One hundred cots that were being carried to the Main street car barns were burned by the striking men, after unhitching the horses.

The police up until a late hour tonight were being called out to all parts of the city where rioting was still going on. Men were being injured and much damage was being done everywhere.

Foresters' Bill Opposed In House.

Ottawa, April 8.—Some opposition from Mr. Robb (Huntingdon) met the bill to consider and amend the Acts relating to the Supreme Court of the Independent Order of Foresters before it was reported by the Committee of the Whole House to-night. Mr. Robb complained that a fraternal society which had 135,000 members and had accumulated funds to the amount of \$20,550,000 was to be changed to a straight life insurance society. He asserted that the members had not been consulted, but Mr. McDonnell (South Toronto), in whose name the bill stood, explained that the legislation would only empower the society to make the change with the consent of the members on a one-third majority. He also said that the bill had been carefully considered in committee when the officials of the organization were present.

In his statement Hon. Sam Barker (East Hamilton) concurred, and Mr. Ames (St. Antoine, Montreal) called attention to the fact that the by-laws provided that the change must be made at a regular session of the society.

Responsible For All Lost Baggage.

A judgment of great interest to the travelling public was handed out by Judge Denton, in the County Court, at Toronto, on Wednesday morning, where, by Mrs. Harriett E. Spencer, a passenger, was given \$340 damage against the C. P. R. for loss of a trunk full of wearing apparel.

Mrs. Spencer purchased a return ticket from Toronto to St. Thomas in June last. On the 25th she boarded the train on the return journey, having her trunk checked by the taxidriver who handed her the check as the train drew out of the station. It was too late to have the trunk delivered, upon arrival at Toronto, so the claim check was not sent down till next morning. When it was presented the trunk was discovered to be missing, and an action for damages followed.

In their defence, the Railway Company claimed that they were only liable for \$100 damages for loss of traveler's goods, according to the conditions printed on the check. This His Honor disallows.

Gifts To University.

Saskatoon, Sask., April 8.—The Board of Governors of the Saskatchewan University were the recipients at the quarterly meeting this morning of many gifts. Mr. Fredrick Engen has endowed the university to the extent of \$100,000 by a donation of \$5,000 a year. Mr. Engen in his gift specified that it will be used for original research, and Principal Murray says it will be used for the scientific side of political economy. Another gift is that of Allan Bowerman, who will erect a large-bronze statue of the late King Edward VII. in the role of Edward the Peacemaker. The statue will be placed in a prominent position at the entrance to the University. The statue will probably cost about \$10,000.

Attend the great opening by Relyea on Friday, April 11th, for nine days only. Auction every afternoon and night.

Delivery at Morrisburg.

The third annual delivery of Deering agricultural machinery occurred at Morrisburg on Tuesday, April 8th, which was under the supervision of J. C. Simser. The weather proved extra favorable and the farmers, as well as others, were present in large numbers, all wearing a pleasant smile, being aware that they were loading up their wagons with the most up-to-date line of agricultural implements. They were invited to the Windsor House, where dinner was served, after which a procession was formed and a photograph taken of same, which all will have the privilege of seeing in the near future. There were 47 teams in the procession.

Mr. Blair, the proprietor of the Windsor House, spoke in high praise of the delivery, saying that he had witnessed many deliveries of this kind, but never before did he see one that eclipsed the one at Morrisburg on Tuesday.

Ennis—Williams

A very pretty house wedding took place at Smith's Falls on Saturday last, March 29th when Miss Edith May Williams, daughter of Dr. J. D. R. Williams of Cardinal, was united in marriage to Mr. Albert Ennis of Mountain, Ont. The wedding ceremony took place at the home of the bride's sister, Mrs. Froster. The house was tastefully and prettily decorated for the occasion. The bride was given away by her brother, Mr. J. E. Williams. The marriage ceremony was performed by Rev. Mr. Cummings, of Smith's Falls. Mrs. Ennis will be "at home" to her friends in her new home at Mountain, Ont., after May 1st.

To Extend Marine Department.

The large starch factory building in Prescott, together with the docks and water front, has been purchased by the Dominion Government, for the extension of the marine plant. While formal possession has not as yet been taken announcement of the purchase is expected from the marine Department shortly.

Annual Delivery.

Mr. F. W. Merkley, representative for the Frost and Wood agricultural implements in this district held his annual delivery of that line of goods in town yesterday. Everything proved favorable and he had sold the goods to make a good delivery, and sure it was, for after dinner was served at the Flynn House, and every preparation made for a start, you would imagine that a circus had struck town when the procession came along. There was no band or wild men in the procession—only the up-to-date machinery which Mr. Merkley had sold to up-to-date farmers who knew what they were buying—and they were confident that they were buying the best.

Mr. John Fetterly, district representative, was here and assisted Mr. Merkley throughout the day, and in a large measure, helped to make the delivery the success it was.

W. M. S. Elect Officers.

The annual election of officers of the Women's Missionary Society of Trinity Methodist church, was held in the Sunday School Hall yesterday afternoon, the election resulted in last year's board being returned to office as follows:

President—Mrs. C. L. Casselman
First Vice-Pres. Mrs. J. Merkley.
Second-Vice Pres.—Mrs. J. Cunningham.

Recording Sec'y—Mrs. Foster.
Corresponding Sec'y—Mrs. Chester Casselman.

Treasurer—Mrs. C. Johnston.
Superintendent of systematic giving—Mrs. T. Forward.
Superintendent of cradle roll—Mrs. W. A. Merkley.

Found In A Bush.

Great excitement prevailed in the vicinity of Bellamy's Mill on Thursday morning when it was learned that a young man, Holmes Drummond, while passing a sugarbush owned by Richard Crummy had discovered a horse and buggy there. He had seen the same horse and buggy there on the Monday evening previous but thought nothing of it as he thought it was Mr. Crummy's but on seeing it again three days later he became alarmed and at once acquainted others of his discovery. Strange to say this same horse had been seen by two or three parties on Monday forenoon being driven by a young man whom all thought to be very ill judging by his appearances. So it was natural when the animal was found under such peculiar conditions to think that the driver must be in the bush either dead or dying. After the horse that had suffered so much from exposure and neglect had been safely stabled and cared for a searching party was organized and the bush thoroughly searched all to no avail.

Meanwhile telephones had been kept busy and it was learned from police headquarters in Brockville that on Sunday evening previous a horse answering to the description of the one in question had been stolen from a shed in Prescott. The whereabouts of the supposed thief was also traced. The searchers upon being informed of this quickly returned to their homes well pleased that a gruesome find was not in store for them. The horse though very much worse for his cruel usage, nevertheless seems likely to recover. The buggy was uninjured save for the top being partially broken by its coming in contact with limbs as the animal grazed about. A fur robe is missing. The owner, Mr. Austin Mills of Prescott, appeared on the scene Friday evening and thankfully claimed his own. If the horse could talk it would be a sad tale he would relate, having been hitched up Sunday evening to be driven a short distance, tied in a shed, then to be stolen and driven about 36 miles or more, possibly without food, and then left until Thursday noon in a lonely bush to forage for himself.

It is thought the miscreant must have driven into the bush which is quite a distance from any dwelling, then fled leaving the dumb brute to fate.—Smith's Falls Record.

Aurora Loses Local Option.

At Toronto yesterday Mr. Justice Lennox issued judgment dismissing the application of the temperance forces of Aurora for an order prohibiting his Honor Judge Morgan from certifying that the local option by-law submitted to a vote of the people of that municipality in January last was not carried. His Lordship said: Upon the whole, it can hardly be said, in view of the decision of the Supreme Court in the West Lorne case, that the law was so unsettled as to invite this application. It is therefore dismissed.

The effect of this decision, together with Judge Morgan's finding that the requisite three-fifths vote was not secured, is that another vote cannot be taken for three years.

Committed For Trial.

Ottawa, April 2.—Melvin E. Weaver, local agent for the Canadian Automatic Transportation Company, who was arrested last Tuesday on four charges of obtaining \$250 by false pretenses by the misrepresentation of shares in the above company was committed for trial by Magistrate Askwith at a special sitting of the police court held yesterday afternoon.

In spite of the protests of Dr. Gordon Henderson, that there was no evidence to prove the accused committed false pretenses by making representations which he knew to be false at the time, the magistrate held that the evidence was sufficient to commit the accused, remarking that it would be better for all concerned, including Mr. Weaver, to have the matter threshed out in a higher court, especially in view of the fact that there was a large amount of money invested by local people in this firm.

Mr. T. A. Beamont, who represented the dissatisfied shareholders was of the opinion that it was a "clear case." His arguments were supported by the bench.

The Canadian Automatic Transportation Company was represented by Mr. Chas. Blanchet, K. C., and Mr. A. McDonald, K. C. of Toronto.

Mr. Felix Mondeaux was the first witness called. He stated that in November 1911, he bought stock in the Canadian Automatic Transportation Co. through Mr. Weaver, who had an office on Queen street "Mr. Weaver," witness said, "had an order for 800 cars from the G.T.R. on which there was a profit of \$800 each; that the factory which was now built had more than it could do for three years, and also that the C.P.R. was going to give them another order. He also said that the company had paid \$250,000 for the patent right for the Dominion of Canada."

Witness then took 15 shares, paying \$100 in cash and subsequently \$50 and got his certificate. He said he first presented the case to him at a meeting of the shareholders on February 11th, 1913, held in the board of trade rooms.

On cross examination by Dr. Gordon Henderson, witness said that he bought ten shares at ten dollars each in January 1911. Weaver showed him a plan of the company's plant and stated that "business was great."

Mr. Weaver will stand his trial at the spring assizes on April 21.

Sixty Thousand Loss by Fire at Langdon

Calgary, April 4.—Langdon, a town twenty miles east of Calgary is burning. A telephone message was received in Calgary at one o'clock this morning stating that a fire, starting in a livery stable, had consumed that structure and spread to a hotel. A strong wind was blowing and the roof of the hotel had just fallen as the operator was telephoning.

Help was asked for. The motor truck of the Calgary Fire Department left a few minutes later for Langdon. The roads are good and the firemen expected to make the run in twenty-five minutes. A later telephone message said the fire had consumed the hotel and jumped across the street where there were several business places directly in its path. It is thought to have been caused by a cigarette.

The estimated loss is \$30,000. The Calgary fire department did not arrive in time to be of any service.

The fire started in J. D. Barber's livery, and spread to and consumed the Langdon Hotel, a blacksmith shop and a bakery. The loss on the hotel is \$30,000, and on the livery \$1,000, both covered by insurance. The bakery and blacksmith shop were not insured.

What Fortune Teller Told About Sir James.

(From the Toronto News.)

To the Editor of The News.

Is Sir James Whitney Doomed?

The answer to this vastly important question must be prefaced by a little story now current around the world, in the year 1829 Prince William of Prussia who was later first German Emperor, consulted a prophetess regarding his future career. He asked her four questions.—(1) "When shall I fight at the head of an army?" The prophetess replied, add the numbers 1,8,2,9, together, and add the total to the year 1829-1849." (2) "When shall my greatest war end in victory?" She answered, "Treat 1849 as you treated 1829." That is, add 1,8,4, and 9, to 1849—1871. (3) "When shall I reach the end of my mortal career?" She said, "Treat 1871 in similar fashion." That is, add 1, 8, 7, and 1, to 1871—1888 (4) "When will the end of Prussia come?" Proceeding to the bitter end, she declared, "Carry on your fateful arithmetic." That is, add 1, 8, 8 and 8 to 1888—1913. The sequel of the wonderful prophecy followed with unerring precision. In 1871 he was crowned Emperor at Versailles; in 1888 he died. The present year, 1913, is such a menace to Germany that Der Kaiser is alarmed, and the recent portentous German menace against England has become a boom-rang.

1866, 1888, 1913.

A similar story has just leaked out about Sir James Whitney. As is well known, Sir James was born in the little hamlet of Williamsburg, a few miles north of Morrisburg, in the first week of October in 1843. During the first three years of his life he displayed such marked characteristics that it became evident to his nurse that a great career lay before him. When he was just three years of age she took her charge to Morrisburg one market day, and to her delight an oriental seer by means of a crystal globe was unfolding the future to all bystanders in the market square, who had a York shilling to spare. Not for herself, for she had passed middle age, did she consult the prophet's skill. She plied the oracle with question after question thus: (1) "When will this lad do honor to himself and his country?" The seer replied: "This is October, 1846. To be exact, it is 1846-3-4. Add to this 1-8-4-6-3-4 and you will get 1866-1-2. (2) "When will he be a member of Parliament?" "Treat 1866-1-2 in the same fashion," she replied. That is, add to 1866-1-2 1-8-6-6 and 1-2—1888. (3) "When will he reach the height of his political fame?" "Treat 1888 as you have treated the other dates," she answered. That is add 1-8-8-8 to 1888—1913. "And when will his political life end?" eagerly pursued the interlocutor. "Why ask me this, since you know my method." That is, add 1,9,1 and 3 to 1913—1927.

As Jacob Served for Rachel.

Can anyone gainsay the words of sooth that fell from the seer's lips on the market square of Morrisburg nearly seventy years ago? In June, 1866, that is 1866-1-2, J. P. Whitney came within an ace of shedding his blood for his country, for he won a medal that month for distinguished service against the Fenian invaders. In 1888 he entered the Ontario Legislature for the first time as member for Dundas. In the first month of 1913 Tory Toronto turned upon him and rent him because of his views on a tax reform, and Tory Frenchmen raised blazes because of his views on the teaching of the French language. But notice this, kind friends, Sir James has been given fourteen years more by the seer to finish his work. In 1927 Mr. Rowell's chance will come, if we believe the Eastern prophet. The fourteen years it is hoped, will not seem long to the leader of the Opposition. Let him remember that Jacob served for Rachel fourteen years, and they seemed unto him but a few days for the love he had to her.

Rev. L. E. Davis Goes to St. Paul's, Brockville.

Toronto, April 8.—It was announced at All Saints' Church last night that Rev. L. E. Davis, M. A., for four years the assistant rector, had been appointed rector of St. Paul's Church, Brockville. A son of Rev. Dean Davis of London, Ont., he graduated from the University of Toronto in 1906, and Wycliffe College two years later. He took a post-graduate course at Oxford, and has been Dean of Residence of Wycliffe for the last four years. Rev. Mr. Davis has been singularly successful in his college career, and as assistant rector at All Saints' his work attracted the attention of the authorities of the Church of England.

A mysterious murder is believed to have been committed in Berlin, Alfred Heit being the victim.

The McLaughlin Carriage Company have been engaged in the development of vehicles for 43 years—over 38 years of that time have been devoted to making carriages. They were made well, as might be expected when every effort, every new and tried idea was applied to the betterment of their construction and to the extension of their service. McLaughlin buggies bore a good name, but they earned it. It was won on sheer merit. A farmer or townsman bought a McLaughlin buggy when he had the price simply because it represented the best he could get. He could buy cheaper buggies, but he couldn't get McLaughlin service. Service can't be had for nothing; it costs money, and it's worth it.

But here's the point. The same standards that made the McLaughlin buggy famous are still applied to the making of McLaughlin cars. Each McLaughlin car is the product of the accumulated experience, skill and knowledge of over forty-three years directed solely along one line. Methods haven't altered. It is only the principle of locomotion that has changed.

In relation to service, consider well that which goes with every McLaughlin car. Through its depots located all over the country, the resources of the McLaughlin plant are placed convenient to the needs of the McLaughlin motorist. Over one hundred thousand dollars' worth of parts are carried for the single purpose of giving quick, economical service. You may never need this service, but all the same, it's mighty comforting to know that it is at your disposal when and where you want it. This is partly what is meant by McLaughlin service. It covers the country.

No other Company in Canada has so much invested in service for its customers.

Fifteen Hundred Paid For a Cow.

Belleville, April 3.—The Belleville Holstein Breeders' Consignment Sale here today was a great success. High class stock was offered, for which prices soared very high. Fifteen hundred dollars was the winning bid for the top-priced cow, May Echo Verbel, owned by F. R. Mallory, Frankford. This cow has the very best of breeding, and is Canadian champion of her age in R.O.P. tests. Her dam was the famous May Echo that sold for \$1400 as a ten year old. She goes to Allison Bros., stock farm Chesterville, where no doubt further will be heard from her, in future Holstein history. Allison Bros., also purchased Lawncrest May Echo Posch, May Echo Verbel's daughter, for \$700. For both these females the competition was keen. A. C. Hardy of Brockville running the bids up.

The buyers were chiefly in Ontario, with a few from Quebec. Among those from Quebec were H. Sangster, Ormiston who purchased two bulls and two females; A. Perrin, Northcote, three females, including Jessie Isha De Kol, \$540, third highest price in the sale; J. J. Alexander, St. Louis. Some of the Ontario buyers were: W. W. Draup, Wellman's Corners; W. B. Allison, Dunbar; P. McConnell Springbrook; H. O'Connell, Madoc; C. H. Clause & Son, St. Catharines; T. Chalmers, Dorland.

The following were purchased by Chesterville gentlemen: May Echo Verbel, female, calved March 15, 1904, consigned by F. R. Mallory, and sold to Allison Bros., Chesterville, for \$1,500.

Nonpareil, female, calved March 26th, 1906, consigned by W. G. Huffman, Gilead, Ont., and sold to W. B. Allison, Dunbar, Ont., for \$205.

Sylvia Nonpareil, 14015, female, calved Feb. 18, 1909, sold to W. B. Allison, Dunbar, for \$315.

Dolly Ann, 11296, female, calved April 28, 1908, consigned by W. G. Huffman, and sold to W. B. Allison, Dunbar, for \$325.

Laurecrest May Echo Posch, female, born January 21, 1910, consigned by F. R. Mallory and sold to the Allison Stock Farm, Chesterville, for \$700.

Ask Good Road From Montreal to Toronto.

Ottawa, April 8.—A big deputation representing Montreal, Toronto and intermediate points waited on Hon. Robert Rogers, Minister of Interior at noon today, regarding securing aid for an inter-provincial road between the two cities. What was particularly asked for the present was aid for the building of a bridge over the Ottawa between the Island of Montreal and Vaudreuil. It was pointed out that a highway between the two cities would be of great benefit not only to Montreal and Toronto, but to all the cities, towns and municipalities along the route. It would be of advantage not only to the Automobileist but also to all the farmers along the way. The principal speakers were Lieut. Col. Labelle, Montreal; Controller Church, of Toronto; G. H. McNamee and Eugene Tarte, of Montreal and Col. Ponton, of Belleville, representing the associated Boards of Trade.

Resolutions from many organizations endorsing the project were read. Mr. Rogers gave the delegation a sympathetic hearing and promised careful consideration.

Arranging New Fast Mail Service.

Ottawa, April 7.—On the orders of the day Mr. Pelletier made the expected announcement as to the Atlantic mail contract effected by himself and Mr. Perley. The present mail contract is practically carried out by four vessels once a week. The greatest bulk of the contract has been done through New York. By the new arrangement it is expected that Canada will take care of her own mail with Great Britain.

For the last six years Canada has been paying to the United States \$185,000 a year for the Canadian mails going through New York.

Under the new contract there will be a service thrice a week in summer and twice a week in winter. There will be 12 ships. The contract will be with four companies, the Allans, the C. P. R., and the White Star Dominion lines. The Allan will be the Virginian, Victorian, Corsican, Tunisian, Alsatian and Calgarian, with the Grampus and Hesperian supplying until July when the Alsatian and Calgarian will be ready.

Inspector's Report.

The following is a partial report of Mr. G. K. Mills, inspector of Continuation Schools, who visited Chesterville Continuation School recently:—

"The attendance has increased to such an extent that a third teacher should be engaged. It is impossible for any teacher to do good work with fifty-seven pupils in the room. The time of the pupils is too valuable to be wasted to any extent.

Owing to the unfavorable summer and autumn no attempt has been made to level the grounds, build walks and provide a supply of water. These matters should receive the attention of the Board as soon as the work can be done.

It is a pleasure to find three such schools in one township as are to be found in Winchester township. The attendance at each is large and the people have done a splendid work in providing for the educational needs of the youth in the way they have."

Gifts To University.

Saskatoon, Sask., April 8.—The Board of Governors of the Saskatchewan University were the recipients at the quarterly meeting this morning of many gifts. Mr. Fredrick Engen has endowed the university to the extent of \$100,000 by a donation of \$5,000 a year. Mr. Engen in his

Would Buy Eggs on Quality Basis.

Toronto, April, 8.—A meeting of the wholesale egg dealers of Ontario, together with Provincial and Dominion Government officials, was held in the Board of Trade Building for the purpose of discussing the question of adopting a system of buying eggs whereby due discrimination would be made according to the quality of the product.

Representing the Government were Professor W. R. Graham and F. N. Marcellus, of the Provincial Department of Agriculture, and W. H. Brown and J. H. Hare, of the live stock branch of the Federal Department of Agriculture.

The following resolutions were unanimously endorsed:—

"Resolved that it is the census of opinion to those assembled in this meeting that that which the Canadian egg trade needs most at the present time is the passage of an Egg Marks Act, along similar lines to the Fruit Marks Act.

"Resolved that those dealers assembled here unanimously approve of changing the present system of buying eggs, to strictly one of buying on quality basis, after June 1st, 1913, and further approve of not paying for any rotten eggs in our receipts after that date as it is unlawful."

Clerk to Wed Rich Young Woman.

Brockville, April 6.—Leaving his position as clerk in his father's store last night William H. Downey left to-day for New York, where on Wednesday of this week he will become the husband of Mrs. Graham E. Babcock, a young woman with a fortune variously estimated at from fifteen to twenty million dollars. The ceremony will take place at Tenafly, N. J., a suburb of New York, and the country home of Mrs. Babcock. Mr. Downey was accompanied from here by his sister, Miss Gertrude, and Mr. Charles MacLean who will be his groomsmen. Following the ceremony Mr. and Mrs. Downey will sail for Europe, remaining until June, when they will come to the Thousand Islands to spend the summer at a handsome cottage owned by G. C. Boldt of N. Y., having leased it for the season. Two weeks ago the bride of this week purchased at \$85,000 a steel steam yacht, the Kismet, 150 feet long and 164 feet beam. Mrs. Babcock who is a member of the Myers family, of St. Louis, is prominent in society in New York, Denver and Los Angeles, in each place of which she has homes. Her husband died suddenly five years ago. She became acquainted with Mr. Downey while on the river last summer.

Revives Industries Of Eastern Ontario.

Kingston, April 7.—"The proposed tariff revision by President Wilson is without exception the greatest benefit that has accrued to this part of the country," was the statement made by U. S. Consul, Felix S. S. Johnston, of this city, to your representative this morning.

"It will probably mean a complete revival in this district of mining, grain raising, dairy products, cattle raising, lumbering, sheep raising and the growing of hay."

"Perhaps no district in Canada will receive more complete and permanent benefit than the Kingston district," was the further statement of Mr. Johnston.

"The immense iron properties of Frontenac have become valuable in a night, so to speak. Within the last few weeks American engineers have secured options on local mining properties on the chance of their tariff becoming reduced. There is now every indication of its being entirely removed on both iron and mine ores, which are very plentiful here.

"The raising of sheep is another industry which will become revised. The northern districts of the counties of this district are adapted for this type of farming, more than anything else, but the tariff has prevented the expansion of this industry. Its complete removal as proposed should make the sterile hills a source of wealth.

"The raising of barley and other grains should be revived. At one time barley sold at \$1.25 per bushel, and was one of the most profitable products of the Quinte district. The tariff killed it, but Mr. Wilson's proposal is to entirely remove the tariff.

"Dairying will, of course, be given first attention and contracts are being made at the present time on a chance of the duty being taken off. The first of the spring shipments was made to-day at Cape Vincent. The \$1,500 export trade of this district should be augmented by twice or three times that amount if the proposed legislation goes through according to a conservative estimate. And, not only will the farmers come to their own, but the shipping will attain a proportion not enjoyed in many years.

Kingston sailormen say the results will be tremendous.

"There is no doubt," was Mr. Johnston's concluding statement, "that Canada is securing practically every advantage she was hoping for in the reciprocity agreement and this without a single concession."

Breeding of Fur Animals.

Toronto, April 8.—A bill designed to encourage the breeding of fur animals was before the Fish and Game Committee at the Legislature to-day.

Dr. Reaume, minister of public works, said the bill was designed to facilitate the breeding of fur-bearing animals, an industry for which there was an assured future. He thought there should be a provision that anyone securing, selling, or purchasing animals must have a permit from department. They did not want everybody after the otter and beaver during the close season.

An amendment was introduced providing that only live animals could be bought or sold during the close season. The committee also decided that all those buying or selling live animals within the close season must have a license from the department. The bill will be re-drafted and reported with these amendments.
