THE MASSED BANDS MARCHED—The color and sound are missing from this bird's eye view of the massed bands marching at Maxville on Games' day. The camera shot was from the top of the big grandstand and it shows 27 bands headed by 10 drum majors countermarching across the big infield. Some idea of the crowd present for this opening parade can be seen in the tiers of Games' goers ringing the north and east sides of the infield. The massed band appearances at start and finish are the big attraction for most Games' fans and there was disappointment in the brevity of these features this year. At left some of the 200 highland dancers present from coast to coast are seen going through their paces on the mobile dance stand. —Photos by Robert

Ideal Weather Again Drew Thousands To Maxville Ensuring Success Of Games

Games' goers were again in Maxville in their many thousands, Saturday, Aug. 2, to ensure the success of the 22nd annual Glengarry Highland Games. It was Games' weather again, an ideal summer day of sun, with some cloud to remind of the heavy downpour which had washed out the closing number of the Friday night pre-Games show.

Attendance at this year's Games may have been slightly down from recent years but not enough to threaten the success of the day. Compensating for any box-office reduction was a drop in the number of pipe bands present. There wer 28 this year, 10 less than the 1968 record, but all the top bands were back and the competitions were up to their usual high standard.

Clan MacFarlane band of St. Catharines, had a big day, retaining the North American championship won last year and also copping the slow march competition, open to all bands. Worcester Kilties again were runners-up in the Class 1 contest.

David Macdonald Stewart of Montreal, president of the Macdonald Tobacco Inc., officially opened the 1969 Games. "Scotland has the most picturesque and interesting background of any country in the world", he suggested and Mr. Stewart reminded, "There is an old war cry, Scotland Forever. But why not change it to Canada Forever, he concluded.

Games Chairman Angus H. McDonell introduced Mr. Stewart and a welcome to the Games was extended by Rod MacLennan, president. Then it was on with the entertainment as a hundred dancers massed on stage in a presentation of the fling and the pipe bands played onto the infield in groups for the first appearance of the massed bands.

There were murmurs of disappointment in the big stand when the massed bands gave out with only one rousing tune before marching off to ready for competitions. Class A bands were put through their paces singly while the other classes competed two at a time at opposite ends of the infield.

Simultaneously the highland dancing finals were completed, the track and field events were run off and the drum majors added their colorful competition.

It was another enjoyable day, jammed full of colorful activity and sound with a dance in the Community Hall to conclude festivities.

Nights Were Cool During July

Daytime temperatures were average during July but nights were much cooler, reports George Hambleton, weather observer at Dalhousie Mills.

The high temperature registered for the month was 88 degrees on July 15, with the temperature reaching 80 degrees on 15 days, and average high (daytime) was average for the month on a 30-year basis.

The nightime lows were much below average, with two nights showing 39 degrees, and frost warnings were issued by the Montreal weather office July 8 and 9.

Rain fell on 10 days for a total of 3.58", about ½" more than normal. Almost 3" of rain fell during the weekend of July 25 to July 28. Thunderstorms occurred on four days.

Temperatures compared favorably with July 1968 except for much lower night temperatures this year. Although rainfall was over average in July of this year, July 1968 was far wetter with almost 4" falling. Rain fell on 10 days during July of both years.

Flags Presented To Dalhousie Church

A congregation of 100 persons attended the special church service at St. Andrew's United, Dalhousie Mills, Sunday, Aug. 3, when flags were presented and dedicated. Rev. William H. Baugh officiated.

The best drum major award was won by William Taylor, City of Manchester. The prize for individual piping, pibroch, was won by Robert L. Mitchell, Wilmington and second prize was won by William Gilmour, of the Black Watch, Gagetown.

The individual piping, strathspey and reel award was won by Chris Anderson, of Agincourt, Ont. The individual piping and jig prize was won by Roderick MacDonald, Wilmington.

SPORTS WINNERS

Paul Bidwell of Syracuse, NY, tossed the caber a cool 38.9 feet to take first in that popular feature won last year by Glen Wood of Martintown.

Robert Warner, of Cornwall, also proved his worth by winning the Boy Champion award with 12 points.

The 12 points were gained by coming first in four events including, the open 100-yd. dash, open 220-yd. dash, 440-yd. dash and the half-mile open.

In the girls' division, Sue Jones, of Ottawa, was Girl Champion with 15 points. They came from placing first in five events; the under 16 60-yd. dash, under 18 100-yd. dash, 18 and up 100-yd.

Charged As Sequel To Flying Incident

Charges of criminal negligence were changed to mischief in operation of an aircraft when Maxim David Wied, 26, of St. Onge, appeared before Judge M. J. Fitzpatrick in provincial court here last week.

Wied was originally charged with criminal negligence following a collision between an Aeronca aircraft and another piloted by Donald Fraser, of Brockville, on a private airstrip at Maxville, Games day.

Wied was remanded without plea and will appear in court again Aug. 18.

Police said the charge of mischief was less serious than criminal negligence, but both carry the maximum penalty of life imprisonment.

Wied is free on $2,000 bail. He is a commercial pilot employed by Golden Triangle Air Service, Embrun, at the time of the incident in question.

His licence was suspended by the department of transport when original charges were laid.

He was arrested following the collision at the private airport where several planes were giving excursion trips around the Glengarry Highland Games, where an estimated crowd of 20,000 watched.

After the collision, a man ran into heavy bushland with about 30 men chasing him. Wied was subsequently arrested.

Two hundred spectators on the airstrip had to scatter as the two planes in collision made rough landings at the west end of the airstrip. There were no injuries.

Government Grants $7,500 For Engineering Studies On Raisin River

Provincial government grants totalling $7,500 have been awarded to the Raisin Region Conservation Authority for engineering studies of two water diversion proposals designed to improve the flow of the south branch and main channel of the Raisin River.

The announcement was made jointly by Hon. Fern Guindon, MPP for Stormont, and Energy and Resources Management Minister George A. Kerr. Total cost of the two projects will be $10,000. Benefitting municipalities will be required to share the remaining expenditure of $2,500.

Involved will be studies of the main branch, into which water could be diverted from Hoople's Creek near Lunenburg; and of the south branch, into which water would be diverted from Lake St. Lawrence at Long Sault.

The proposed Lunenburg diversion would increase the flow and improve the water supply for the main river below Lunenburg. Only stage 1 is being considered and this involves a field survey and engineering to evaluate the respective merits of open channel and pumping projects.

Stage 1 of the Long Sault project involved placement of a 48-inch diameter tunnel beneath Highway 2 in 1968. Stage 2 which is involved in the current grant, will pave the way for a study of the engineering required to divert water into the south branch of the Raisin at an estimated cost of $25,000. This will increase the flow and improve both the south branch and the main river below the juncture of the south branch in Glengarry County.

A field survey will be made of proposed channel improvements and the installation of devices for control and measuring the flow.

The river authority already has permission to divert 25 cubic feet a second from the St. Lawrence system into the Raisin system for a period of 100 days each year. The authority has asked for permission to take the water at one or other or both of the sites. The engineering study is expected to reveal what will be the most efficient course of action.

Grant for the Lunenburg diversion amounts to $4,875 of a total cost of $6,500. Grant for the Long Sault project amounts to $2,625 of a total cost of $3,500.

Body Of Heart Victim, Edgar Beauchamp Found Near 9th Lancaster Summer Home

EDGAR H. BEAUCHAMP

Edgar H. Beauchamp, 41, of Montreal, died of a heart attack at his weekend home in the 9th concession Lancaster Township, a post mortem revealed.

Mr. Beauchamp evidently died Saturday but his body was not discovered until Monday evening when a search by relatives found the remains in a clump of bushes some 350 feet behind his home. The body was discovered beside a tractor at 7.15 p.m. Monday by his brother-in-law and sister, Mr. and Mrs. Zephirin Viau and Arthur Quesnel of Alexandria.

"I had a telephone call from a neighbor Monday afternoon to say all the windows and doors were wide open all day," said Mrs. Viau, a resident of Alexandria.

Mr. Viau went over to the house at 4 p.m. but couldn't find Mr. Beauchamp. He returned later with his wife and Mr. Quesnel and found the body lying face down near a chain saw and the tractor at 7.15 p.m.

"We noticed his cigarettes and keys on the tractor seat, so we knew he couldn't be too far away," said Mrs. Viau.

Mr. Beauchamp, who worked in Montreal, was in the process of renovating the two-storey family home where he lived alone.

Police said he was last seen alive Saturday afternoon and post mortem results indicated the man had been dead for a couple of days.

IT'S OUR OPINION

Unnecessary Noise

People have become pollution conscious to the point there is hope governments will be moved to put teeth in legislation designed to restore our rivers and lakes and cleanse the air we breathe.

There is another type of air pollution that could more easily be controlled — the unnecessary noise of blaring car horns that so often assails the ears of Alexandrians. There is anti-noise legislation on our books to cover this misdemeanor and it could be stopped almost overnight if public opinion was vocal enough to force action by our local police.

Rather silly and immature we see the practise of wedding parties taking the newlyweds on a horn-blowing ride up and down Main Street. It may be in the spirit of good clean fun but the young couple would gladly dispense with it and most of the wedding attendants look more than a little sheepish at thus drawing the pedestrian eye to their passage.

The wedding party may have the excuse that theirs is a daytime practise. That can not be said for the stag party performance which can be even more noisome. There was one such at 10:30 Friday night, an hour when Main Street was almost deserted. There were few eyes to be drawn by that cacophony of ear-piercing sound. It's only possible effect might be to wake sleeping infants, something young parents would frown on.

We doubt most of those drivers enjoy any childish pleasure from contributing to the noisome parade. Probably they would feel relief if the cops ordered quiet. We recall a day a decade or so ago, when Ed Dupuis was chief of police and he had little trouble wiping out this problem of horn blowing even in wedding parties.

Now we have a four-man force and it should be possible for our constabulary to move against unnecessary noise, with emphasis on blaring car horns and screeching tires.

Increased Fines For Careless Driving

The minimum fine for a careless driving conviction will more nearly fit the crime under amendments to the Ontario Highway Traffic Act which come into effect September 1st. That minimum is being increased tenfold, from $10 to $100. The maximum penalty will remain at $500 and the jail term which may be imposed in addition to a fine has been increased from a maximum of three months to six months.

The amendments have been introduced by Transport Minister Haskett who is concerned with the increasing number of careless driving cases before the courts and the mild manner in which some courts treat this violation. The heavier penalties are aimed at drawing a sharper distinction between serious and minor offences.

It is more than time, we would say, that something was done to remove that $10 and costs sentence that has been used so consistently in traffic court to get transgressors off the hook. Our mind goes back more than 30 years to a day when we covered Police Magistrate's court and became so disenchanted with the manner in which justice was meted out. No matter how serious or minor the charge, it seemed the sentence was invariably $10 and costs. If the accused was represented by counsel he paid no fine, but was out the same $10 to pay his lawyer.

Legal fees have no doubt risen in the interim and a judge is now presiding over a court which, we imagine, weighs the evidence more thoroughly. There remains the practise, though, of accepting a guilty plea for careless driving where the original charge may have been more serious. Raising the minimum fine tenfold may serve the happy purpose of making irresponsible drivers realize there is no longer an easy out when convicted.

Another amendment that will become effective September 1 is a sliding scale of fines for speeding. This is now in general use in the province although the scale will be spelled out and leave no doubt in the court's mind how much a speeding driver should be fined. And since speeding drivers quite often end up in an accident, there are provisions for reporting accidents to police too. At present any accident with damage over $100 must be reported to police. After next January 1 only accidents where the damage is more than $200 need to be reported.

These amendments are calculated to reduce the increasing rate of mayhem on the roads of the province. It will now be up to the courts to play their part in assisting in this programme to make the highways safer. They can do it by impressing upon the young drivers, with stiffer penalties, that it is a privilege to drive a car, not a right, and that that privilege can be taken away. And it should be, more often than it is today.

Is Canada To Be Three Urban Anthills ?

We spent most of two days last week among the madding throng that infests the sidewalks of downtown Montreal and it was a relief to return to the less frenzied small-town scene.

The metropolis is already too big for our liking and after one of our very infrequent visits we were in the mood to agree wholeheartedly with this editorial from The Orillia Packet and Times:

"The concentration of nearly all Canadian urban expansion into just three cities — Toronto, Montreal, Vancouver — at the expense of other established cities across the land, is not only depriving the rest of Canada of vigor and variety, but it is imposing an intolerable burden on the three metropolises themselves.

"Jane Jacobs, a Toronto writer on urban affairs, told a seminar on civic design at Stratford, Ont. recently that the runaway growth of Canada's three big cities was saddling them with staggering economic and social burdens, and recommended that the solution lay not in the creation of new towns, but in the revitalising of existing cities. If the economies of Winnipeg and Halifax could be revitalized, she pointed out, there would not be the same drift of people from these cities to Toronto in search of better jobs.

"Miss Jacobs has put her finger on the most crucial problem of Canadian urban development; the unplanned, uncontrolled growth of three huge urban sprawls — they no longer rate the name of cities — which is sucking an increasing proportion of our existing population, and almost all of our new Canadians arriving from abroad, into a frustrating and unrewarding environment.

"These vast sprawls make urban existence a matter of increasing complexity and difficulty; they poison the air and water, price land values beyond individual reach, and pose problems of administration, transportation and servicing that are beyond the capacity of existing municipal institutions. Life in these urban wildernesses can offer little of the variety and amenity which a city should provide for its inhabitants, as Lewis Mumford and other authorities have made clear, and their continued growth is a threat not only to the health and character of the nation, but to that of their own inhabitants.

"Is it beyond the capacity of our federal and provincial governments to control the growth of these cancers that are disfiguring this magnificent land? Surely some economic incentive could be given to promote the relocation of industry in St. John and Calgary, Regina and London, Windsor and Saskatoon, Quebec and Sydney, Guelph or Moncton, and the dozens of other Canadian cities which could offer a more rewarding way of life and a healthier sharing of economic growth. Why should millions huddle in crowded Megalopolis when all about them in this beautiful, empty land there are scores of pleasant cities and towns offering good housing and schools and room to breathe?

Far in the Arctic wastes of Siberia, Russia has created huge and vibrant cities, teeming with life and offering ballet as well as business. Yet Canadians look upon Sudbury as a sort of northern outpost — and Sudbury is south of Seattle. Is this vast and smiling land to remain forever empty, its many potentially great cities mere provincial outposts, its promise unfulfilled, while its people crowd into a few teeming urban anthills?"

J. T. Schell is having an extensive addition made to his woodworking department, found necessary to provide for increased business in fine house finishings and office fittings. — Upwards of 225 participated in the excursion to Montreal, Saturday, to see the Stars in action. The Intermediate Shamrocks defeated them 6 to 2. — W. A. McDonell, son of A. D. McDonell, merchant of Lancaster, was promoted to the rank of conductor on the GTR and took his first train out from Winnipeg on July 21st. — Clarence Ostrom, during the course of the next week, will install, for the Glengarry Telephone Co., the several telephones subscribed for in its Dalkeith section.

SEVENTY YEARS AGO—

Friday, August 11th, 1899

Seven were killed and several injured in a terrible accident on the CAR, Wednesday morning at St. Polycarpe, when the fast express from Montreal for Ottawa left the rails. The fireman, George McCuaig, a native of Dunvegan, was instantly killed in the wreckage of the engine, while the baggageman, John R. McGillis of Alexandria, miraculously escaped injury. None from this county are reported missing or hurt. Dr. McDiarmid and his son Willie of Maxville, were rushed to the scene on a special engine to attend the injured. — George A. Campbell, son of our esteemed townsman, Angus Campbell, Esq., has received the appointment of junior clerk in the local branch of the Union Bank. — Among the members of the Press Association who left on the excursion to the Pacific Coast on Tuesday were C. W. Young of the Cornwall Freeholder, and A. G. F. Macdonald of the News. — After completing a course in the Ontario Business College, D. H. McDougall returned to his home in Maxville on Monday.

The editor,
The Glengarry News

About three months ago I had asked you to write an article in your paper proclaiming an eternal bond of friendship between the two founding French and English races of Canada; and which would certainly have been in the very best interests of national unity! But you just apparently made up your mind to never comply with my most broad-minded request.

But still, as soon as you heard about a very minor slapping incident in a corridor of the House

Time For The Truth

(The Wingham Advance-Times)

Talking with Ted Rowcliffe of Kincardine, a former staff member at The Advance-Times, we listened with interest to his account of a recent UFO sighting. People in the lakeshore area have reported seeing unidentified flying objects on numerous occasions for the past couple of years. The one to which Ted referred was seen a few weeks ago as a bright, stationary light in the northern sky. He lost no time in getting to the home of a friend who has made his own six-inch telescope.

According to his description, the view through this powerful telescope revealed a tubular object with brilliant orange lights around its outer framework. It hovered for a considerable time in one position and then flashed away in a wink.

Official answer to queries about this particular UFO was that the object was a weather balloon—which made little sense since it was seen from such widely separated points as Kincardine and Collingwood. It would have been a monstrous weather balloon to be visible over such a wide area.

The question of unidentified flying objects remains one of the most puzzling in this age of vast scientific knowledge. How interesting it would be to hear the opinions of Messrs. Armstrong, Aldrin and Collins on this subject.

There have been thousands of speculative explanations, all the way from Martians to weather balloons. The official ones from government information sources in both Canada and the United States are patently designed to allay public fears — but sometimes these explanations have been so oversimplified that people who are interested in the subject have become more suspicious than convinced.

With a successful mission to the moon just completed, the possibility of extra-terrestrial visitors does not seem quite so far-fetched as it did a few years ago. Nor do we have any real justification for our belief that earth is the only planet in this endless universe which can support the doubtful blessing of intelligent life.

No, we don't ask you to believe that the strange lights in the sky are necessarily little green men from another world. All we suggest is that any human being who does not keep an open and inquisitive mind about such matters hardly belongs in this age of great and unexpected revelations.

END OF EXPO?

Can Mayor Drapeau's Man and His World survive we are left wondering after revisiting Montreal's showpiece last week?

Those islands are every bit as eye-catching as they were in centennial year, except for the color those huge Expo crowds contributed in 1967. Attendances then, of 300,000 were down to a reported 50,000 last week. That sounds like quite a crowd but it becomes but a trickle when spread over the acreage that encompasses all those pavilions, restaurants, boutiques and playground.

One sees the difference in the length of line-ups at the more popular pavilions; if there are any queues at all. That makes for faster coverage of the exhibits but some of the glamor is lost. Mini-rails that once were jammed continue their circuit of the grounds but they may be carrying as few as ten people.

One afternoon of walking the asphalt streets was all our dogs could take so on a second visit we preferred to mostly sit and watch man and his world walk by. That's when we decided Montrealers were not supporting Mayor Drapeau's attempt to keep the fair an annual attraction.

More than half the people appeared to be U.S. tourists complete with camera, and most of the others were youngsters who by now no doubt have found a way to by-pass the box-office. Restaurants and lounges must be finding it difficult to meet the overhead. The deficit for Montreal taxpayers is being estimated in the millions again this year.

It's such a colorful setting, one hates to think of the Expo site without those architectural gems. Montreal is jammed with tourists this year and they all seem headed for M & HW. But if Montrealers aren't interested there can be only one end.

It seems a shame.

Maybe Man and His World have been eclipsed by the men on the moon.

NOT ENOUGH MASSED MUSIC

That was a big day at Maxville and the 22nd annual Glengarry Highland Games must be scored as another enjoyable success. The 28 bands participating provided plenty of color and competition, there was something doing practically every minute through that long afternoon and there were many old friends from afar to meet and greet.

That's one of the big attractions of Games' day and we like to ramble the grounds watching the bands tune up and sharing the color and sound with acquaintances old and new.

The attendance was again way up in the thousands but to our estimating eye it seemed there were not as many crowding the infield as were present at last year's Games. We haven't the official attendance figures and if there was a drop it was probably only fractional, nothing to worry about so long as it does not indicate a trend that might grow.

It's just possible some faithful followers of the Games were not there because of disappointment with the skimpy serving of massed music last year. And this year the Pipers' Society was even more oblivious of the fact it is the playing of the massed bands that draws most people to the Games. One tune only whets the thirst for more; but that's all the massed music the bands were serving up.

Your Rambling Reporter wasn't the only one who felt himself short-changed. We'll be back next year hoping to see a more generous serving; but a lot of others may be so resentful as not to return.

Sad thing about it is that Glengarry Games' officials can do little or nothing to restore this most popular feature to its former crowd-pleasing status. Officials of the Ontario Pipers and Pipe Band Society now lay down the law as to pipe band performances and they seem more intent on band competitions than in satisfying the paying customer. They are doing a better job of controlling the bands and running through the competitions but the music of the massed bands may not be up to their standards and so they downgrade the performance.

There are so many Games now, demanding their presence, the bands are in the driver's seat. The situation could change though, if the crowds quit coming because of the curtailed appearance of the massed bands.

The Glengarry Games will continue to thrive, we have little doubt. We'd be certain sure if we knew the massed bands were to serve up a more generous contribution another year.

LETTERS

of Commons, and just because one of the antagonists was a French Canadian you just jumped on that French Canadian in trying to crush him down with all your might! Which was not bright at all to have done on your part, as I am sure that if that incident would have happened between two English speaking Canadians, you would simply have never mentioned any word about it. So with that article of yours entitled "Alive and Ticking" of the July the 17th issue of the Glengarry News, you simply incited other Anglo - Saxons to do likewise.

To summarize this letter I must also mention that the vast majority of the six million French Canadians are (ready now) to forgive all the terrible transgressions that we have suffered under British rule ever since the sorrowful battle of the Plains of Abraham, and this on the very specific condition that we will be considered also as first class citizens by all the Anglo-Saxons in Canada from now on, and not just as second class citizens as it has been the case since the last two centuries.

Yours Truly,
Billy Gauthier

Glen Sandfield Out Of Soccer Semi-Finals Now Underway

(by Maurice Sauve)

We have now completed the regular season of soccer play in all divisions of the Glengarry Soccer League. The team positions were always in contention except for first place. McCrimmon were very strong throughout the season losing only one game and tying only one.

The final standings:

	GF	GA	Pts.
McCrimmon	80	20	29
Maxville	35	56	15
Lochiel	41	37	14
Dunvegan	28	36	12
Glen Sandfield	25	58	10

Since the last issue several games were played.

McCrimmon had a well played 8-1 win over Maxville.

Lochiel then also overcame Maxville 7 to 5 in a scoring spree for both teams. Kay Hay exploded with 4 goals, Carman MacMillan 2 and George Prentice 1. Jack McLean netted 2, Dean McIntyre, John Cadieux and Dennis Carr one each for Maxville.

Dunvegan took an important 5 to 1 win over Glen Sandfield on a gigantic 5 goal effort by a tireless Billy Shields. Jackie Denovan scored for the Glen.

Lochiel made it another win by defeating Glen Sandfield 3 to 1 in a must game. Kay Hay again starred with 2 goals and George Prentice 1. Allan Lavigne netted the Glen goal.

The surprise win of the season that gave Dunvegan 4th place had to be their 2 to 1 win over McCrimmon. Both teams played their best but Dunvegan came out on top on goals from Gerald Flaro and Rene Trottier. Kent McSweyn showed his old form by scoring for McCrimmon.

Lochiel then had to beat Maxville to enter third place and they did it on a 3-1 win. Carman MacMillan got all 3 Lochiel goals while goaler Ron Fournier was brilliant as he allowed only one goal to Jack McLean.

In the last game of the season, Glen Sandfield had to win to tie for 4th spot but their opponents were McCrimmon who won 7-0. Rhondo MacSweyn scored a spectacular 5 goals, Hugh McGillivray and Gordie Fraser one each.

Semi-finals began this week with games Tuesday and Wednesday.

Coming semi-final games are:
Friday—Lochiel vs. McCrimmon.
Saturday—Dunvegan vs. Maxville.

Winners must win 2 out of 3 games. Other games will probably be played Monday and Tuesday.

GLENGARRY OPEN GOLF CHAMPS—Youth dominated play last weekend in the Glengarry Open golf championships at the local club when the low gross for both men and ladies was won by junior players. Ken Parsons, at right, shot a fine 143, one stroke under par over the 36-hole route, to take men's honors while Susan Amelotte was low among lady players. Her mother, Mrs. Roma Amelotte, was among five finishing one stroke behind Susan. On the left, Mrs. Duncan N. McRae of Maxville, who won low net honors, is flanked by Clif Rae of Dalkeith and Cecil Shennett, Lancaster, who tied for low net among the men. President Bud Mutchler made the presentation of trophies following play. —Photo by Robert

Won Trophy At Hockey School

Jackie Touchette, 13-year-old son of Mayor J. P. Touchette and Mrs. Touchette won a trophy as "most improved player" at the Billy Harris-Dave Keon Hockey School in Etobicoke. Others from here attending the school recently were Michael Costello, Rodney Shepherd and Michael McCormick.

Lacrosse Notes

The Glens have been unsuccessful in their three semi-final encounters with the Ottawa Vikings. Although their offensive game is adequate they will have to improve defensively and give Billy Jacobs better protection if they are to come out winners.

They play their fourth game in a best out of seven series in the local Gardens on Sat. 16th.

In the minor groups our novice and pee-wees went down to defeat at the hands of teams from Elora, Ont. They should not feel too bad over this, because they put up a good battle against teams which were the 1968 Ontario champions. The Elora novice team is in contention this year for the Canadian championship. Next week we hope to meet Cornwall with our bantams and midgets.

2,000 Attended Pre-Games Show

A heavy electrical storm struck Maxville Friday night, the eve of Games-day, but it came after 10 o'clock as the last member of the pre-Games outdoor show was being presented.

A crowd estimated at 2,000 enjoyed the entertainment featuring the Knightswood Community Juvenile Pipe Band of Glasgow, Scotland. Their music and that of the Glengarry Pipe Band was supplemented by the City of Glasgow Scottish Dancers, by four vocalists and an accordian brotheract.

Here again after a 1966 visit, the band from Scotland distinguished itself further at the Games by taking Class 11 honors.

Fox•Super-1000
Built to take full advantage of big-tractor horsepower.

It's strictly a 1000-rpm PTO harvester for tractors 85 hp and up. Easily handles that power to cut up to 80 tons of corn an hour.

The Super-1000 has strength to spare. Comes from huskier bevel gears. U-joints, shafts and bearings. And a 30% stronger all-welded frame. Options are worth checking, too.

Like our exclusive in-head electric knife grinder. It maintains the precise bevel edge without ever removing knives.

Or our square-hole recutter screens with 41% more recutting area. They give you the most uniformly cut forage possible. See the Super-1000 — or our new Custom-90 — at your nearest Fox dealer.

OHSIP
ONTARIO HEALTH SERVICES INSURANCE PLAN
can take care of you

OHSIP is the new, standard, comprehensive plan of health insurance protection and benefits in which every resident of Ontario is entitled to participate—regardless of age, state of health or financial means—through the Government or a designated agent.

After October 1st, many private insurers will become "designated agents". Each will provide the standard OHSIP contract on a non-profit basis, at the premium rates set by the Ontario Government for OHSIP services. If you wish other services from your agent, you can arrange for them through a separate contract.

Meanwhile, if you are now enrolled in OMSIP—the existing Government plan—or in a private plan, your coverage will continue without interruption provided you continue your enrollment.

OHSIP will be the health care you can count on—from the Ontario Department of Health.

If you haven't any health insurance, you may enroll now for October 1st coverage by writing to OHSIP, 2195 Yonge Street, Toronto 7.

NATIONAL ELECTRICAL WEEK, FEBRUARY 9TH TO 15TH.

How much home are you missing through outdated wiring?

When this house was built it was hard to imagine all the wonderful ways in which electricity would be serving us today. That's why the wiring in so many older homes just isn't adequate for today's needs.

There are many signs. Fuses blowing. Lights dimming. Appliances performing sluggishly. Cluttered extension cords. Not enough outlets.

So, if you're planning to modernize your home, think first of the wiring. Have a qualified electrical contractor check it. You'll be surprised at how easily and inexpensively it can be updated. Or just ask your Hydro.

We meet every day.
