"HELLO POOH" AND "TREE TOP TRIO"

It's a "friendly sort of day" in the Hundred Acre Wood, and you're welcome to join the fun with your favourite characters like Tigger, Piglet, and of course, a silly old bear named Winnie the Pooh. They're yours to enjoy again on these first two plates in the Fun in 100 Acre Woods collection from the Bradford Exchange. 20.6 cm.

"ITS JUST A SMALL PIECE OF WEATHER"

Not even a rainstorm can dampen the enthusiasm of Pooh and crew in this unique honeypot-shaped treasure! Hand-cast and hand-painted so no two plates are exactly alike, each detail comes to vivid life. Includes built-in hanging ring. Extremely heavy demand is anticipated, so hurry, or you may end up all wet! 15.2 x 17.2 cm.

plugged IN for summer

If this is the year to replace your windows, consider installing energy-efficient ones.

One of the biggest innovations in energy efficient windows is Low-Emissivity of Low-E glass. This glass prevents the heat radiated by people and furniture inside a room, from escaping.

The Low-E coating also filters out most of the damaging ultra-violet sunlight, which helps to reduce fading of furniture and drapes.

Also consider windows that are filled with a gas, such as argon, between the panes of glass.

The glass has a higher insulating value than air.
